News About Our MEN IN SERVICE

Crowell Soldier Takes Troops into Cambodia

In a letter to his father, Roy M. Fox, and sister, Edith Fox, both of Crowell, 1 Sgt. Jimmy M. Fox states that his battery of troops are among the Americans sent into Cambodia. Sgt. Fox said in his letter, "We have pushed inside about fifteen miles so far and have just gotten authority to go about ten miles further. We are finding all kinds of equipment; haven't met any large size enemy forces yet, mostly company size hard-core North Vietnamese. We captured 7 yesterday. They are well equipped and have some big artillery and mortars. If I can't somehow give my troops a break soon, I don't see how they can go on much longer."

"I am very proud of the troops in my battery, and hope all Americans are as proud of them as I. They are very young, but brave and tough. I started in February with 120 men in the battery. We are now down to 53. They tell me every day 'you will have replacements tomorrow.' I hope tomorrow comes soon because these men are so tired."

Sgt. Fox will have completed 20 years Army service in August, 1970.

The houses will be located on

Crowell Receives Half-Inch of Rain Thursday Night

The first moisture received in Foard County in several weeks, fell here last Thursday night in a front moving across West Texas.

The official measurement here was .56 of an inch and with the moisture, together with the cool front, brought some relief from the mid-90 temperature readings and extremely high south winds which had lasted for more than a week.

Reports from the west part of the county were that about one inch fell there, and over an inch to the north and east of Crowell. Most of the county received at least a half inch, according to reports.

Combines Begin Moving to County as Harvest Approaches

Combines from out of the county are beginning to move into Foard County this week as the county's grain crop is beginning to ripen.

The county's wheat has had an abundance of moisture through the fall and winter, but due to a lack of spring rains, the crop has suffered some during the past few weeks. However, reports are that the rain received last week—the first during May—will benefit the wheat, especially the fields that were planted late.

CHS—1969-1970

(by Pat Cates)

As this term draws to a close, I would like to bring to mind a few of the highlights. In September, the classes elected new officers for this school year. Senior officers were Gary Eddy, president; Sara Collins, vice president; Murry Bullion, treasurer; Jane Hughston, secretary and Terri Cates, reporter. Heading the junior class were president, Pat Cates; vice president, David Myers; secretary, Jimmy Glover; treasurer, Carolyn Moore, and reporter, Rita Coffey. Elected president of the sophomore class was Bettie Sue Barry; vice president, Jackie Daniels; secretary, Rheta Howard; treasurer, Rhonda Swan, and reporter, Trey Autry. Cindy Wisdom was elected to serve as president of the freshman class; vice president, Michelle Gafford; secretary, Rocky Bachman; treasurer, Rex Driver; and reporter, Ruth

Brown. We welcomed two new teachers to CHS in September: Harvey Wilson and James Streit. We saw the CHS football season get underway, with the leadership of L. H. Wall as head coach. Pep rallies were a highlight of each week, with cries of "Beat . . ." being heard throughout the campus. During the season, Janis Bell was named homecoming queen, and the junior class was declared winner of the spirit stick. Jane Hughston, senior nominee, was elected band sweetheart for 1969-70; she was crowned during the Crowell-Nocona halftime activities as another highlight of the football season.

In November, Peggy Jan Welch and Bob Burkett were named recipients of the Gold Star 4-H award, which is the highest county 4-H award given. The CHS marching band received a II in UIL contest, the first in a long line of honors for the band this year. The three captains for the 1969 Crowell Wildcat football team were announced at a high school assembly in November; they were Gary Cates, Buz Rasberry and George Eavenson. The team elected Miss Linda Gray as its queen.

In December, Pat Cates was elected chairman of the District 3 4-H Council, entitling him to membership on the State 4-H Council. David Stapp, outstanding sophomore CHS band member, was selected for a position in the all-state youth orchestra. Harvey Wilson coached both the boys and girls basketball teams this year, and they presented some thrilling moments for those in attendance at games.

Student Council elections also provided some anxious moments; those elected were George Eavenson, Bettie Sue Barry, Michelle Gafford and Joe Haynie—president, vice president, secretary and treasurer, respectively.

The Drama Club's talent show was presented in February; it was a huge success. Gary Cates, CHS senior, was named the outstanding Wildcat football player of the year, received the Denny Todd memorial award.

For the first time in 13 years, the CHS entry in the UIL one-act play contest, directed by Mrs. Jean Halbert, was named district winner. All three cast members were named to the district all-star cast: Gary Cates, Sharla Haynie and Pat Cates. At regional, Pat was named best supporting actor.

The CHS band added another honor at UIL contest by receiving II's and I's at Enid; David Stapp and Nancy Looney were named to the tri-state honor band at Enid. Individual band members also won several I's at UIL and at Enid contests. We're all proud of the band and its director, Mr. Streit.

UIL track saw winners from Crowell; Kenneth Sellers went on to place well in the state track meet at Austin.

Pat Cates won the REA-sponsored trip to Washington, D. C. in an essay contest. For his efforts during the cage season, senior Mike Matus was named to the all-district basketball team. The CHS newspaper, the Wildcat, received the UIL award of achievement in journalism, given by state journalism officials. In May, the long list of activities for the graduating seniors began. Two Crowell seniors, Murry Bullion and Carolyn Nichols, were named outstanding West Texas scholars. Murry and Carolyn were also named the 1969-70 valedictorian and salutatorian, respectively. The annual junior-senior banquet, with an Arabian theme, will be thought of as another social highlight of the CHS term.

I have tried briefly to remember some of the activities which took place in CHS this year. Even though they've not been mentioned here, everyone in Crowell High School who has been honored in some way is not forgotten by the entire student body. I am convinced that the CHS student body is the finest in Texas—it's easy to see since so many members have been honored in so many different ways.

To the graduating seniors of 1969-70: even though you won't meet the summons of the school bell next term, everyone can still remember your laughter ringing in the halls, your amusing antics, and your final march across the stage in good ole CHS last week. You'll be gone, but not forgotten.

In conclusion, I would like to thank Mrs. Jean Halbert, whose sponsorship has made the paper possible this year; also, class and club reporters are to be commended for their fine work. I have certainly enjoyed serving as editor this year, and it has helped me decide that I will study journalism in college. To Bill Klepper, what can I say but "thanks," for without his gracious help and willingness, there could have been no paper. "Adios, amigos."

Sincerely,
 Pat Cates.

Substitute Chemicals for Hand Labor

You can spray your way out of the grass and weeds in cotton cheaper and easier than by using hand hoeing, advises Fred C. Elliott, extension cotton specialist. Post emergence chemical weed control practices in cotton are positive control measures, he adds. He suggests that cotton growers obtain a copy of B-1029 from the local county agent for a guide.

Sickness of Cities

"If the Nixon Administration can pull a switch in public interest from building more highways to getting cars off the roads by creation of effective mass transportation, it will be making a major contribution to what ails congested urban areas. Traffic jams are not merely a separate phase of urban congestion, but one part of the pattern of sickness which besets cities."—Aiken, S. C., Standard and Review.

Food Price Realism
It has been suggested that home-
makers try a new twist on food
shopping. Take two grocery carts
through the super market — in
one, put food products—in the
other, non-food items. Total the
bills separately. The idea may not
be too practical but it will point
up what's really being paid for
food and might stop complaints
about "high" food prices. It is
estimated that more than 20 per-
cent of the items in grocery carts
are not food items but non-food
products.

**Hightower Named
to State Committee**
Lt. Gov. Ben Barnes this week
appointed three Senators to the
Committee on State and Local
Tax Policy.
Barnes named Senators Jack
Hightower of Vernon, Bill Moore
of Bryan and David Ratliff of
Stamford to the interim commit-
tee.
Created by HCR 112, the com-
mittee shall report to the govern-
or and the next session of the
legislature on the tax situation of
the state and shall direct the
attention of the legislature to any
problems which, in its judgment,
require legislative attention.
The nine-member committee
also includes the chairman of the
House Committee on Revenue and
Taxation; two members of the
House appointed by Speaker Gus
Mutscher; and three members of
the public appointed by Governor
Preston Smith.

**7-Step Cotton
Program Rolls Along**
Twenty-four years ago, a pro-
gram was initiated by the Texas
Agricultural Extension Service
and today the 7-Step Cotton Pro-
gram is still basic to the cotton
industry. Fred C. Elliott, exten-
sion cotton specialist, says pro-
duction methods have undergone
many changes for the better. He
sees no change in the pace of
changes in the future. He cites
the cotton farmer's acceptance of
new ideas as one of the most im-
portant changes.

**Screwworm Alert
Emphasized**
It's true only two cases of
screwworms have been confirmed
in the Southwest until now, but
warn officials of the eradication
program, fertile flies are moving
northward in Mexico. Stockmen
are urged to keep a closer watch
on all animal wounds and when
worms are found to collect a
sample and submit it to the Mis-
sion lab for positive identification.
Real trouble could come, say the
officials, if a few cases should go
undetected for any length of time.

**Amistad Lake Is
Stocked with Four
Million Fish**

Lake Amistad, a new reservoir
on the Rio Grande near Del Rio,
has been stocked with nearly 4
million fish since impoundment
four years ago.

George Henderson, a fisheries
biologist and project leader for
the Texas Parks and Wildlife De-
partment, told a group of depart-
ment biologists in the annual wild-
life restoration function staff
meeting that the stocking program
has put an estimated total of 3-
903,700 fish of several species in
the 31,000-acre lake.

Henderson said the stocking to-
tal included more than 3 million
black bass and lesser quantities
of other species.

He said recent net surveys in
the lake showed the average
weight of bass at two pounds. Cat-
fish are averaging 1.3 pounds in
size, Henderson said.

The lake, which sprawls along
the border between the United
States and Mexico at a site just
north of Del Rio, reached the 31-
000 surface acre level during Feb-
ruary. It was lowered to supply
water needs downstream in past
months, but at capacity it is ex-
pected to be one of the state's
largest reservoirs, he said.

14, at 1 o'clock at Electra. The
services were conducted in the
Totten Funeral Chapel by Rev.
L. M. Cox, with military rites at
graveside in the Harrold Ceme-
tery. Mr. Johnson was a veteran
of World War I.

Mr. Johnson was born Feb. 15,
1894, in Denton County, Texas,
and died at the age of 76 on May
12 at the Veterans Hospital in
Big Spring.

Survivors include four sisters,
Mrs. Joe Biedsoe of Crowell, Mrs.
Alma Walton of Houston, Mrs.
Opal Dupnik of Rockport, Mrs.

**Standards for
Bonded Fabrics Set

When bonded fabrics came to
the market a few years ago, they
presented many problems, Miss
Helen Fincher, Home Demonstra-
tion Agent, says.

Dry cleaners got complaints on
separation of fabrics which were
bonded together. Problems of
puckering, bubbling and peeling
resulted. Manufacturers are now
setting standards for performance
in bond and wear, as well as per-
formance in washing and dry
cleaning. Trade associations are
helping to set up tests and prod-
uct specifications.

Here are several bonded fabric
standards:

1. It must hold up under a rea-

a certain acceptable limit.

**Rayland Request
Again Rejected by
Wilbarger Board**

A second petition from resi-
dents of the Rayland community
asking that a five-square mile area
of Foard County be separated
from the Vernon School District
so that it might be annexed by
Crowell Schools was turned down
at a meeting of the Wilbarger
County Board Tuesday morning
of last week.

The board had unanimously re-
jected a similar request in Feb-
ruary. Tuesday's vote was 4-0,
with a new member of the board,
Otto Streit, who had not figured
in any of the previous considera-
tions of the matter, abstaining.

Paul Baggett, spokesman for a
delegation of Rayland residents,
demanded a vote while members
of the Rayland group were pres-
ent.

After it was given, he told the
board, "I'll tell you now we're
going higher." He did not say
what kind of appeal from the Wil-
barger County board's decision
was planned.

Members of the Wilbarger
County board explained to the
five or six Rayland residents who
were present that their children
can transfer to Crowell if they
desire.

Also displayed was a letter from
state authorities indicating that
the Foard County residents of the
Vernon district can legally vote
in Wilbarger school board elec-
tions, as well as in the Vernon
school elections.

At issue is a tract of land with
a tax valuation of some \$40,000.
Apparently all but two residents
of the area involved favor sepa-
rating it from the Vernon district
and annexing it to Crowell, ac-
cording to an article in the Vernon
Record.

**Work Is Begun
on Gigantic Lake
Kemp Project**

Work actually began Sunday
of last week on a gigantic recon-
struction job on the Lake Kemp
dam, spillway and outlet works,
according to an announcement by
John Ruhmann, City of Wichita
Falls' director of water develop-
ment.

The project will require 1,100
working days for completion, ac-
cording to the terms of the con-
tract signed between the U. S.
Army Corps of Engineers and
Amis Construction Co. of Okla-
homa City.

Amis was low bidder on the
project a year ago, but bids were
above estimates and a freeze on
such contracts delayed by a year
start of work. The project was
put by for re-bid and Amis, which
already had begun preliminary
work by moving construction
equipment to the site, again was
declared the low bidder.

Included in the reconstruction,
under a \$5.9 million contract, will
be restoration and raising of the
embankment-type dam and re-
building outlet works and spill-
way at the lake.

Lake Kemp is owned, operated
and maintained by Wichita Coun-
ty Water Improvement District 2
and the City of Wichita Falls.

**Former Foard

Injury in Tornado**

No former Foard County resi-
dents now living in Lubbock were
injured in the tornado which hit
that city Monday night of last
week, according to reports re-
ceived here.

However, Jimmy Gillespie, son
of Mr. and Mrs. J. H. Gillespie
of Crowell, and a student at Tex-
as Tech, was in an apartment
house which was heavily damaged,
and Jimmy's car received exten-
sive damage in the storm.

Jimmy Hammonds, who had at-
tended Tech during the past year,
came home for the summer on Sat-
urday before the storm. His father,
Robert Hammonds, said last
week that the apartment house
where Jimmy had been living was
heavily damaged in the tornado.

 6. It should not absorb odor.
 7. It should resist discolora-
tion.
 8. It will have no "strike-

Miss Diane Susan Priddy Becomes Bride of Harvey Ward

Wedding vows were exchanged by Miss Diane Susan Priddy and Harvey Ward in a formal ceremony Saturday, May 16, at 8 p. m. in the Seymour Church of Christ with Paul Epps, Minister, officiating.

Mr. and Mrs. Orvey Priddy of Seymour are parents of the bride. Parents of the bridegroom are Mr. and Mrs. John Fish, Route 3, Paducah.

The background was formed by an arch of votive candles with an arrangement of pink gladioli featuring the large white memory candle on a white column, flank-

ed by candelabra and greenery. Traditional wedding music was provided by Paul Epps, soloist, and a quartet composed of Maxie Gilstrap, Terri Beaver, Mack Bibb and Curtis Priddy. Miss Brenda Martin registered guests at the church building.

Given in marriage by her father, the bride wore a formal gown of white organza and Chantilly lace. The fitted bodice featured a neckline of lace scallops and long tapered sleeves which formed a point at the wrists. The chosen lace was repeated in the bell shaped skirt and on the detachable circular court-length train. Her three-tiered elbow-length veil of pearls and crystals. She carried a Camelot cluster of white glamel-

Committee to Hold Hearing on State and Local School Districts

The "Committee of 18," a special interim legislative group now working on a new formula for dividing financial responsibility between the state and local school districts, will hold its first public hearing in Austin May 25 at 9 a. m.
 Two school board superintendents, and members of the Governor's Committee on Public School Education are expected to attend the hearing at the Texas Education Agency building, 11th and Brazos streets. The Governor's committee served during the administration of former Governor John B. Connally.
 Other interested citizens are also invited to express their views at the hearing, State Senator A. M. Aikin, Jr., of Paris, "Committee of 18" chairman, said.
 School board presidents Dr. Marvin H. Berkeley of Dallas and Loyd L. Turner of Fort Worth are expected to speak along with school district superintendents Dr. Jose Cardenas of Edgewood ISD in San Antonio and Nelson Eichmann of Lumberton ISD in Eilsee.

The 18-member committee, authorized by the 61st Legislature, is studying the financial relationship between the state and local school districts and also examining the structure of the current economic index. Its recommendations will go to Governor Preston Smith and to the Legislature in 1971.
 Among the members of the committee are Mrs. Carroll Koch of Quanah, Dr. John W. McFarland of El Paso, a former superintendent at Vernon, and W. R. Baker of Knox City.
