### Possum Invades House; Found In Front of Air Conditioner

An early-morning prowler at the Tom Smith home about 3 a. m. Sunday proved to be quite a sharpie.

Upon being awakened by what was thought to be a burglar in the house, Jim Tom flipped on the living room light switch to find a full-grown possum sitting on the back of a couch directly in front of the air conditioner which was running. The big chase followed as the Smiths chased the 'cooled-off' possum out the front door and into the night. The possum apparently gained entrance to the house when a screen door blew open.

### Jeep Fire Truck DESTROYED IN BLAZE

Jeep—a 1947 model—was insured for its actual cash value. The Commissioners Court has not yet had a meeting to decide on further action to take in providing the rural areas of the county with fire fighting equipment.

The GMC tank truck, which was also called to the scene, overheated with severe damage resulting to the motor. Foard County now has only one operating piece of fire fighting equipment—the Ford fire truck—which was purchased before World War II.

Grass Fires Prevalent Another fire Saturday afternoon burned in the southeast part of town, with a maintainer being used principally to extinguish the blaze.

Due to the extremely dry conditions prevailing in the county, Foard residents are being urged not to burn trash or weeds until it rains.

### Dry Weather Stays On Accompanied by Temperature over 100

Extremely hot, dry weather continues to maintain its hold on this area of Texas with the temperatures topping 100 almost every day with some days having as high as 110 degrees. A dry cool front last Friday night brought some cooler weather Saturday and Sunday, but by Monday afternoon, the mercury had again climbed several degrees above the century mark.

Deposits on June 30 totaled \$5,028,613.29, which is about \$700,000 more than at the same time last year. Two years ago on the same date, deposits totaled \$4,089,773.41 and last year they were \$4,349,675.74. Although the price of wheat was down this year, the large number of bushels harvested and money made by the cattle industry are the principal causes of the big increase in deposits. Loans made by the bank are presently about \$25,000 less than at the same time last year. Time and savings deposits, instituted by the local bank several years, has shown a steady growth and now totals \$1,417,228.71.

Mrs. W. L. Johnson and son, Billy, of Foard City left Monday for Jacksboro where they will spend the summer visiting relatives and friends.

Jeff Bell, who has been doing special work in the Washington University in Washington, D. C., is spending his vacation with his parents here.

Misses Alynne Lanier, Gusta Davis, Bertha Womack and Elouise Saunders and Mrs. Morris Flynn returned Tuesday from a trip to Galveston.

Color Television and X-Ray Problem

A Federal Trade Commission pamphlet advises viewers to follow these precautions—never view the set from closer than 6 to 10 feet; do not linger near the sides or back while the set is on; do not allow children to play near the sides, back or under the set. X-rays are emitted from every surface of a color TV set. And have sets repaired by competent servicemen. Good idea to ask whether adjustments made will have any effect on X-ray emissions.

CROWELL, TEXAS

SHIRLEY-YOUREE DRUG

Today's Oldsmobile:  
The year-end buy that pays off three ways.

1. You save big money when you buy it. The 4th Annual Year-End Sale is on now at your Oldsmobile dealer's—and the savings are substantial on every new Olds in his stock!

2. You save even more money as you drive it. Olds is famous for features that help keep costs down. Like Positive Valve Rotators in every V-8 for peak performance thousands of miles longer . . . rustproof inner fenders . . . aluminum exhaust system . . . bias-belted tires . . . many more!

3. You get a nice bonus at trade-in time. An Olds is a good investment—traditionally you get more of your dollars back when you're ready to trade the next time around.

If you think you can't afford an Oldsmobile . . . it's time to think again.

**Self-Treatment  
for Cattle**

New Mexico researchers say  
that beef and dairy cattle can  
treat themselves against worri-  
some flies by walking between  
burlap sacks loaded with approved  
insecticides such as 3 per cent  
Ciodrin or 1 per cent coumaphos.  
For beef cattle, good locations are  
gateways leading to water, salt,  
and resting areas.

**Mail Referendum  
on Wheat Quotas  
Set for July 27-31**

Secretary of Agriculture Clif-  
ford M. Hardin on July 1 proclaimed  
July 27-31 as the dates for a  
mail referendum on 1971-crop  
wheat marketing quotas. By law,  
in the absence of new legislation,  
the 1971 wheat crop comes under  
the provisions of the Agricultural  
Adjustment Act of 1938, as it was  
amended. This act requires that a  
marketing quota referendum ap-  
plicable to the 1971 crop be con-  
ducted on or before August 1.

The Agricultural Act of 1965,  
as amended, extended its volun-  
tary wheat program through the  
1970-crop year, and specifically  
suspended marketing quotas for  
wheat producers only for the dura-  
tion of the act.

Previously announced for the  
1971 crop wheat was a national  
marketing quota of 1,210 million  
bushels, along with a national al-  
lotment of 43.5 million acres.

To be announced in advance  
of the referendum will be the  
price-support loan rate for 1971-  
crop wheat, estimated domestic  
certificate value, required acreage  
diversion percentages, and other  
program details. County ASCS of-  
fices about one week prior to the  
referendum will mail program in-  
formation to wheat producers,  
along with the ballot voting in-  
structions and individual farm al-  
lotments. These individual allot-  
ments will be based on the  
1971 national allotment of 43.5  
million acres, as compared to the  
45.5 million-acre allotment in ef-  
fect for the current crop year.

Marketing quotas, to be put in  
effect, must be approved by two-  
thirds or more of those voting in  
the referendum. If quotas are ap-  
proved, producers will be limited  
to their allotment acreage beyond  
which they cannot harvest with-  
out a marketing quota penalty.  
Any excess acreage production  
would be subject to penalty unless  
it is stored under bond. If they  
remain within their allotments  
and divert the required acreage,  
they'll be eligible for price-sup-  
port loans and domestic wheat  
marketing certificate payments.  
If the referendum fails to carry,  
producers staying within their  
1971 allotments and complying  
with other terms and conditions  
which may be prescribed by the  
secretary, would be eligible for  
support loans at 50 per cent of  
parity.

**Gilliland Baptist  
Pastor to Receive  
Divinity Degree**

Charles Harry Galloup, pastor  
of the Gilliland Baptist Church,  
will receive the master of divinity  
degree during the commencement  
exercises of Southwestern Bapt-  
tist Theological Seminary at 10  
a. m. July 17 in the sanctuary of  
the Travis Avenue Baptist Church  
in Fort Worth.

Seminary President Robert E.  
Naylor will present degrees and  
diplomas to candidates from the  
seminary's three schools: theology,  
religious education, and church  
music. Dr. James L. Sells, presi-  
dent of Southwest Baptist College,  
Bolivar, Mo., will deliver the com-  
mencement address.

**THE STRONGEST LINK!**

The facets of rural and urban life are  
bound together by many things, but the  
strongest link is the availability of de-  
pendable, low cost electric power no mat-  
ter where you live.

Electricity made the good life avail-  
able to those who prefer the peace and  
quiet of country living. It increases farm  
production which stimulates the urban  
economy and attracts industry to rural  
areas.

Electric cooperatives add to the over-  
all economy of this area and will be an  
important factor in its future growth.

**GENERAL INSURANCE**  
FIRE, EXTENDED COVERAGE,  
AUTO AND LIFE.

**SPENCER & OLIPHANT Insurance Agency**  
Phone 684-4481 Office North Side Square

Austin, Tex.—A blue-ribbon in-  
surance study committee has recom-  
mended exploring Texas' com-  
pulsory auto liability coverage and  
a careful look at allegations that  
garages charge more for policy-  
covered repairs.

Report went to Gov. Preston  
Smith prior to the State Insurance  
Board hearing July 14-15 on in-  
clusion of insurance company in-  
vestment income in the auto rate-  
making formula.

Smith indicated that the board  
may not be ready this soon to  
evaluate the full effect of the  
formula change which also is back-  
ed by the study committee he  
named last summer after an auto  
policy rate hike was recommend-  
ed.

Most observers think motorists  
are in for another increase in  
their premiums after the main  
August 17 rate hearing, regard-  
less of whether the board deter-  
mines that investments should be  
figured in the base.

Study committee, headed by  
former Gov. Price Daniel, noted  
that North Carolina rates appear  
to be consistently low, although  
it also has mandatory liability  
coverage, Massachusetts and New  
York, other mandatory auto li-  
ability insurance states, have high-  
er rates.

Committee recommended that  
the Legislature look into ways to

stop "excessive charges being  
made on repairs of insured auto-  
mobiles" which, in turn, lead to  
escalating rates year after year.

Insurance industry is expected  
to ask new increases as high as  
15 to 20 per cent at the August  
hearing.

Smith may ask Daniel's commit-  
tee to examine the Board's final  
recommendation, as they did in  
1969 (when rate adjustment was  
9.9 per cent upward instead of  
11.4 as originally recommended by  
the Board). However, the major-  
ity of the committee is cool to-  
ward going into more extended hear-  
ings like those required by their  
study last year.

**CAPITOL ADDITION ASKED**  
—An important part of state gov-  
ernment may be going under-  
ground if a Building Commission  
proposal is approved.

Commission, in new budget re-  
quests, laid out plan for a 45,-  
000-square-foot, \$2.5 million un-  
derground addition to the capitol  
building, providing office space for  
legislators. Enlargement would be  
in a natural depression to the west  
of the present historic structure.

Commission also proposed these  
new projects:  
—\$1.26 million revamping of the  
north approaches to the capitol.

—\$3 million parking facility  
for 320 cars.  
—\$215,000 renovation of the  
old Highway building for use by  
the Parks and Wildlife Depart-  
ment when Highway Department's  
new headquarters is completed.

—\$200,000 face-lifting of old  
Parks and Wildlife offices in the  
virtually new John Reagan State  
Office Building—for use by the  
Welfare Department when P&W  
moves.

—\$25,000 in repairs to the Gov-  
ernor's mansion.

**COURTS SPEAK** — Court of  
Criminal Appeals upheld a Fort  
Worth trial court order blocking  
further civil suits under the Sun-  
day closing law until 13 cases are  
finally adjudicated.

State officials have taken to  
the 10th U. S. Court of Appeals  
their fight to stop spraying of  
land in northeast New Mexico with  
pesticide Toxaphene (to control  
tent caterpillars). State claims  
Toxaphene would jeopardize the  
purity of Lake Meredith and  
thereby endanger water supplies  
of 11 Texas cities in the Pan-  
handle and Great Plains.

Atty. Gen. Crawford Martin  
brought suit in Galveston County  
District Court to prevent 145 de-  
velopers from encroaching on pub-  
lic beaches.

**H. D. Agent Gives  
Advice on Jelly,  
Jam and Preserves**

Jelly, jam, conserve, marmalade  
and preserves can all add zest to  
meals. Most of them also provide  
a good way to use fruit not at its  
best for canning or freezing, such  
as the largest or smallest fruits  
and berries, and those that are ir-  
regularly shaped.

Basically, all of these products  
are much alike; all of them are  
fruit preserved by means of sug-  
ar, and usually all are jelled to  
some extent. Their individual  
characteristics depend on the kind  
of fruit used and the way it is  
prepared, the proportions of the  
different ingredients in the mix-  
ture and the method of cooking.

Many have asked Miss Helen  
Fincher, Foard County H. D.  
Agent, what the differences are  
among preserved fruit products,  
and she states:

"Jelly is made from fruit  
juices; the product is clear and  
firm enough to hold its shape when  
turned out of the container. Jam,  
made from crushed or ground  
fruit, tends to hold its shape but  
generally is less firm than jelly.

"Conserves are jams made from  
a mixture of fruits, usually in-  
cluding citrus fruits; often raisins  
and nuts are added. Marmalade is  
a tender jelly with small pieces  
of fruit distributed evenly  
throughout. Preserves are whole  
fruits or large pieces of fruit in  
a thick syrup, often slightly jell-

ed.

"In order to have a jelly, acid,  
pectin and sugar are needed in  
the right proportions. Pectin is the  
substance found in most fruits  
that makes the jelly 'jel.' The two  
commercial forms have done much  
to take the guesswork out of jel-  
ly making. Acid is needed for flav-  
or and for gel formation. Acid  
content will vary with each fruit.  
Lemon juice or citric acid may be  
added to fruits low in acid. Sugar  
helps in the gel formation, serves  
as a preserving agent, and con-  
tributes to the flavor of the jelled  
product. It also has a firming ef-  
fect on fruit, a property that is  
useful in making preserves."

Bulletin on home canning of  
fruits and vegetables, freezing of  
fruits and vegetables, and making  
of jellies, jams and preserves are  
available from Miss Fincher's of-  
fice.

**THIRTY  
YEARS AGO**

News items below were taken  
from the Thursday, July 4, 1940,  
edition of The Foard County  
News:

The foundation for the Foard  
County Hospital, which is being  
constructed as a Works Progress  
Administration project with Foard  
County as the sponsor, is nearly  
completed, as the greater part of  
the concrete has been poured and  
plumbing fixtures have been  
roughed in.

Foard County has lost 1,078  
of its population during the past  
ten years, according to a letter  
received this week from Cliff Dea-  
ton of Wichita Falls, supervisor  
of the census. A decrease of 159  
in the number of farms in the  
county was reported also during  
the 10-year period, dropping from  
720 in 1930 to 561 in 1940.

A good showing of oil was  
found in the No. 1 E. M. Gamble  
wildcat oil test nine miles north-  
east of Crowell last Saturday af-  
ternoon.

Dillard Howard of the Foard  
City community underwent an  
emergency operation for appen-  
dicitis Sunday morning in a Has-  
kell hospital.

After taking over Estonia, Lat-  
via and Lithuania, Stalin contin-  
ued to practice Hitler's habit of  
taking smaller countries. Russia  
moved her troops into Rumania  
this week in a move which has  
hurt Hitler and his axis partner,  
Mussolini.

Extra good yields have been re-  
ported on several acres of Ten-  
marq wheat which was grown in  
Foard County this year by FFA  
boys, Harvey Crosnoe and Tru-  
man Taylor.

Esther Williams is the queen

R. J. Owens and Miss Glennie  
Traweck were united in marriage  
at Saint Jo, Texas, on Saturday,  
June 22, at 5:30 p. m. by Rev. T.  
N. Daude-dale. They were accom-  
panied by Mr. and Mrs. Dan Cal-  
laway.

To honor and to compliment  
Miss Mozelle Lemons, who is to  
be married to Aubie House of  
Vernon on July 4, a lovely re-  
ception and shower were given  
last Friday afternoon at the  
home of Mrs. Payton Powers.

Remodeling of the Thomas Ser-  
vice Station located on the north-  
east corner of the square, will be  
completed this week, and it will  
be one of the most modern ser-  
vice stations to be found in this  
section.

J. W. King, a piano tuner of

piano at Black Wednesday.

J. G. Coffey has sold his 400-  
acre farm two miles east of Crow-  
ell on Highway 70 to C. L. Wil-  
liams of Brownfield.

Harvest is over and a total of  
585,231 bushels of grain have  
been received by the county's ele-  
vators.

## Family Reunion

A family reunion was held in Dallas on Father's Day June 21 in honor of the late J. N. Ribble, at the home of the youngest daughter, Mrs. Irwin E. Ferreira. This reunion has been a custom for a number of years. The family gathered in a park near Lake Bachman in the north section of the city for a picnic dinner.

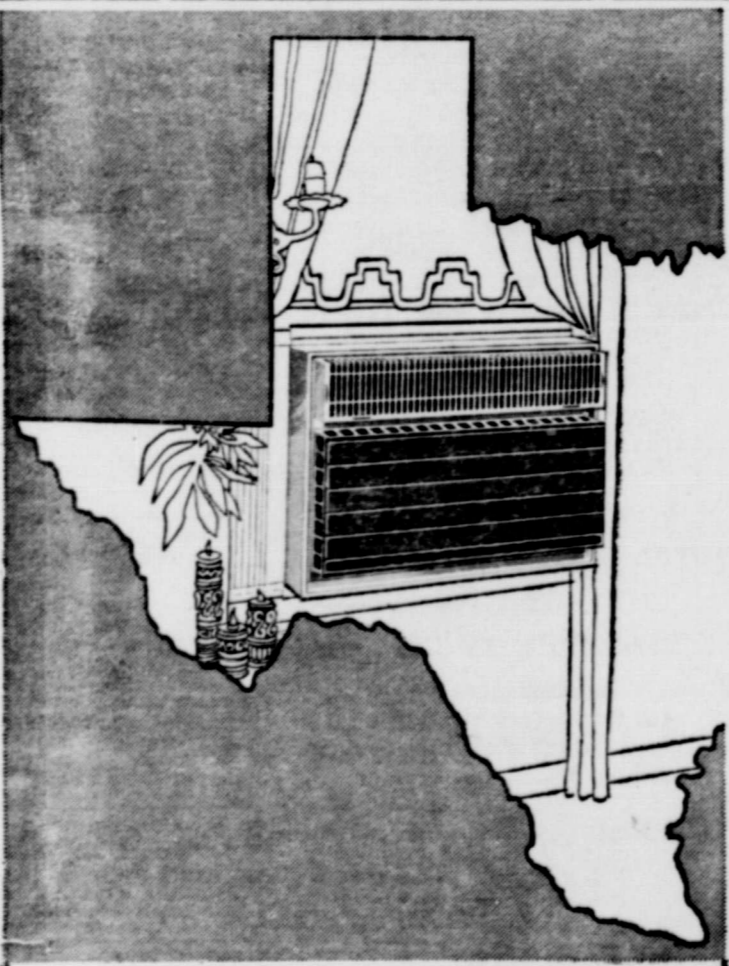

Those present of the immediate family were Pearl Wright of Red Bluff, Calif., Esther Dickerson of Inglewood, Calif., Mr. and Mrs. Oran Ribble, Shawnee, Ok.; Winifred Ribble of Irving, Mr. and Mrs. W. H. Finley of Decatur, Ola Hudson of Springfield, Va., and Mrs. Eula Ferreira of Dallas. A number of nieces and nephews and their families were also present. One nephew who is the son of Mrs. Dickerson and whom some of the family had not seen in 25 years, was there from Hawthorne, Calif. There were 34 present in all.

## T. E. L. Class

The T. E. L. Class of the First Baptist Church held a meeting Thursday evening, June 15, at the church. Eleven members, one associate member and one guest enjoyed a covered dish supper. Mrs. I. L. Denton and Mrs. Doyle Callaway were hostesses.

Mrs. Mary Moore, vice president, had charge of the meeting in the absence of the president, Mrs. Lizzie Johnson. She also brought the devotional. Her scripture was Mat. 5:12-16 and subject "Brighten the Corner Where You Are."

Mrs. Denton brought an interesting Bible quiz.

## Daughter-in-Law of Crowell Couple Is Listed in Who's Who

Mrs. Larry Hord of Wichita Falls, daughter-in-law of Mr. and Mrs. C. T. Hord of Crowell, was one of twenty Midwestern University students named to the 1970-71 edition of Who's Who Among Students in American Universities and Colleges.

Scholarship, leadership and participation in academic and extra curricular activities, citizenship and service to school and promise of future usefulness are general requirements for inclusion. Midwestern University further requires that the nominee be a senior; have completed at least 62 hours of studies at MU; have at least a B average with no failing or incomplete grades, according to Dr. F. J. Backhaus, chairman of the Who's Who committee.

Further requirements are that the student not be a full-time employee of the university; that he carry at least 12 semester hours of study and be active in student affairs.

## Dunn Family Reunion Held at Truscott

The Dunn family reunion was held at Truscott over the week end. A 4th of July picnic supper was held at Clyde Bullion's park Saturday, and Sunday dinner was served at the home of Mr. and Mrs. Roy Daniel. Those attending the reunion were:

Mrs. Edith Daniel and Earl V. Daniel of Rawls, N. M., Mr. and Mrs. Craig Sandlin of the Virgin Islands, Mr. and Mrs. Howard Dunn of Pattonville, Mr. and Mrs. Junior Dunn and children of Parlington, Mrs. Pearl Cox of Crowell, Mrs. Rada Dunn of Crowell, Mr. and Mrs. Billy Ray Dunn and children of Crowell, Mr. and Mrs. Buddy Tolleson and children of Benjamin, Mr. and Mrs. R. C. Daniel and children, Mr. and Mrs. Don Daniel and children, Mrs. Nova Dunn of Quanah, Mrs. Duna Owens of Houston, Mr. and Mrs. Neal Overton and son of Palo Pinto, Cecil Daniels of Rawls, N. M., Mr. and Mrs. Earl Stermer of Crowell, Mr. and Mrs. Clyde Bullion and Mr. and Mrs. Roy Daniel, Henry Greening, Brenda and Bernadette Greening, and Mrs. Doris Burelsmith and daughter, Malissa, of Crowell.

## Picnic Preparation

Summer picnics will be easier if foods are used that can be prepared and frozen ahead of time. Fillings that freeze well include peanut butter, cheese and cheese spreads, and pickled or smoked meats. Lettuce and mayonnaise should be carried separately and added to sandwiches just before eating. Cream-filled desserts are not good hot weather travel foods.

County Judge Leslie Thomas

has asked that all residents of Foard County be alerted to the mailing by the Crowell-Foard County Civil Defense Department of the special brochure prepared for the maximum chance for survival in the event of a nuclear attack upon the United States. This special brochure will be mailed on Friday, July 10, 1970, and every family is asked to read this brochure together in a very careful manner, with each member of the family learning exactly what to do in the event of nuclear attack. The brochure should be placed with all other valuable papers and retained in a place where it is readily accessible in the event it is needed. This information could save many lives as well as prevent many terrible after-effects of radiation.

Judge Thomas said, "Although on first thought it would appear that the Bestwall Gypsum Company mine near Acme in Hardeman County, the place selected by city and county officials in cooperation with state and federal officials, being nearly twenty-five miles from Crowell, is too far from area residents to be a practicable shelter, when it is realized that it is actually the only space in our area large enough to provide accommodations for all of our people, we should feel fortunate in having the use of such a shelter. Cottle and Hardeman Counties will also use this facility. City and county officials recognized the possibility, remote as it may seem today, that our nation could come under nuclear attack, and if such were to occur, it is comforting to know that we do have a place of shelter."

"Much work has gone into the planning of the shelter, the preparation of the brochures, and every effort is being made to place one of these brochures in the hands of every family in Foard County, and should any family fail to receive one, you are asked to call the county judge's office in Crowell, the number being 684-3261, and furnish your name and address."

Farmers who are not sure about their certification should check with the local ASCS office to see that everything has been signed. Inverted acres may not be harvested in any manner, and cannot be grazed between May 15 and October 15.

In the newsletter, farmers were told that "cotton destroyed by natural causes or cotton that you could not plant due to drought may earn payment, provided, it is inspected and released by the county committee before other use is made of the land. If either of these conditions exist, you should contact this office and request acreage credit."

The county committee, composed of E. J. Owens, Bill Cates, and Harold Fish, meets on the 15th and 20th of each month.

Summertime means fun in the sun and of course the water. But if you're not safety conscious, advises Liberty Mutual Insurance Companies, it can be a time of tragedy. Drowning is the fourth leading cause of accidental death. Don't be a statistic.

## 4-H Youths Attend Public School Teachers to Get Training Camp at Lake Brownwood Salary Increases

A group of Foard County 4-H Club members are attending a leadership training camp at Lake Brownwood, Wednesday, Thursday and Friday of this week. Information and knowledge gained during the camp will be used in presenting the annual Foard County 4-H Rally Day which is to be held July 16. The Rally Day will be held at the community center.

These 4-H'ers are given leadership training that will help them to better work with large groups. It will help them in teaching and working with young 4-H members. Subject matter given in the training will cover the areas of entomology, recreation, photography, citizenship and 4-H records.

Those attending from Foard County are Pat Cates, District III 4-H Council Chairman; Bill Myers, Ruth Brown, Sharla Haynie, Rita Coffey, Jerry Martin and Marvin Machac.

### Knox Father and Son Win Roping Honors at Stamford Rodeo

Gerry Knox and his 12-year-old son, Gary, of Quanah both won honors in roping contests at the Stamford rodeo last week end.

Gerry won a saddle and \$300 in prize money in the double muzzling roping contest while his son won second in calf roping for his age group and was awarded a ribbon.

Gerry, son of Mr. and Mrs. G. T. Knox of Crowell, is married to the former Miss Sue Meason, daughter of Mr. and Mrs. Goodloe Meason.

### Students to Attend Classes 180 Days During Coming Term

Texas public school teachers—those on the state minimum salary schedule—will receive pay raises averaging about \$1,050 per year in 1970-71.

Students will go to school—and teachers will teach—an extra five days (180 days instead of 175). In addition, teachers will be on duty for 10 more days of non-teaching work during the year and will be paid on a 19-month basis, instead of 18.

These changes in the school year and the basis for figuring teacher pay result from amendments to the minimum foundation program law passed in 1969 by the Legislature.

Under the minimum program, a beginning bachelor's degree teacher in 1969-70 was paid \$500 per month for nine months, or \$4,500 for the year.

In 1970-71, a beginning bachelor's degree teacher will receive \$600 per month for 10 months, or \$6,000 for the year.

Many Texas school systems pay their teachers more than the state-required minimum salaries.

Texas was ranked 34th among states in average teacher pay in 1969-70. The 1970 raises and a long-range improvement plan are expected to move Texas up to a more favorable position among states in the years ahead.

The new law puts into effect in 1971-72 a continuing compensation plan which will give Texas teachers an additional five per cent raise each year and cost-of-living raises in 1974 and 1978. It will allow all Texas teachers to reach the top of the pay schedule—\$11,040 for bachelor's degree, and \$12,040 for master's degree teachers—within 10 years of service.

The new law has left many people—teachers as well as school patrons—with questions about its work and pay aspects.

The State Board of Education has attempted to answer such questions by drafting an official definition of the 180-day school term and service requirements for teachers in 1970-71 and future years.

Basically, the state board says that beginning on September 1, 1970:

—Texas public schools will have 180 days of actual classroom instruction, (where teachers and students are together in learning situations) instead of the 175 days previously required under foundation program law. (Some schools had already been operating programs longer than the minimum.)

—Most Texas teachers will be paid on a 10-month basis. (Vocational and special education teachers may be paid for 10, 11 or 12 months.)

—In addition to the 180 days of classroom instruction, teachers and other personnel previously authorized for less than 10 months
