Blizzard Strikes Foard County

It took a blizzard to do it, but Foard County and this section of Texas finally got some moisture over the week end.

The moisture-bearing front struck shortly after midnight Saturday and about 2 a. m. Sunday, thunderstorms were kicked off. The rain started freezing later in the night and a freezing mist was falling after daylight. Later in the morning, the freezing moisture turned to snow and got heavier as the day progressed. Accompanied by a high north wind, the blowing snow cut visibility on the highways to almost zero. The local Highway Department personnel worked round the clock trying to keep the highways clear.

Total moisture from the rain and snow was .8 inch, bringing the February total up to .93 inch.

The blizzard conditions causing drifting of snow on rural roads forced the Crowell Schools to be closed Monday.

Sheriff Dan Callaway reported only one minor accident on the county's highways during the storm.

Callaway said that Vernon officers stopped traffic coming west on US 70 for a time Sunday night.

Many travelers coming through Crowell Sunday afternoon elected to spend the night here rather than try to go on in the blizzard.

A thin covering of ice formed early Sunday on trees and power lines and several poles were broken off. Power and telephone service to many rural residents went off Sunday afternoon and was still off Tuesday. Rural phone service was resumed Monday.

The moisture derived from the rain and snow was the most received here since last October, when the total for that month was almost an inch and a half.

The temperature did not rise above the freezing mark Sunday. There was considerable thawing on Monday, but the mercury dropped to the mid-twenties Monday night. Tuesday was much warmer.

It was reported here Tuesday that a state maintainer was dispatched to Shamrock Monday night to help clear the 16-foot tall snow drifts which accumulated in that area.

13 Inch Rain Recorded Here

Lots of Dust and Small Amount of Moisture Accompany Front Thursday

Turbulent weather preceding a cold front coming through this area last Thursday brought both rain and dust to Foard County, but after it was all over, more dirt than rain was received here.

Heavy clouds built up to the west most of the morning, and the rain came shortly after 10 a. m. It was accompanied by extremely high winds which did considerable damage. Plate glass windows were blown out at Brooks Auto Supply on the north side of the square and in the Grimes building on the west side of the square. A trailer house located across the street northwest of the

post office was moved off its concrete blocks, and August Rummel reported that the wind turned over three of his cotton trailers in the Margaret community.

A number of television antennas were also toppled during the high winds.

A small amount of hail accompanied the rain.

Official measure of the moisture was .13 inch which was the first moisture received here since the early part of December.

High winds from the west continued to blow all day and a heavy dust storm blanketed the area up until after dark.

"COPPER BRAKES" IS NAME OF NEW PARK

Copper Brakes State Park, that's the new name of the park being established in Foard County a few miles west of Crowell in a rugged and canyon country along the Pease River.

The announcement of the name was made last week by Martin, superintendent of the park. He said that the name was selected by the Parks Commission and was one suggested by area residents in a contest sponsored last year by the Quanah Chamber of Commerce.

The name apparently was selected to describe the rugged terrain known as "brakes" and because of the deposits of a low-grade copper ore in the Pease River area.

The park site was once being considered by an Oklahoma firm for copper mining. An old copper mine complete with shaft and operated around 1900, was located in that general area.

In addition, exploratory work to determine the feasibility of establishing a copper mine just south of the site in Foard County is being completed by a firm which has retained Dr. Raul Zeballas of Quanah, an Argentine geologist.

Martin, who has been making his home in Quanah, will move with his family to the park site in a mobile home which is being located just off Highway 283 along the acreage of the park facing the highway. In the near future, a temporary office building complete with flag pole will be placed at the north entrance of the park.

For the time being, the park will continue to have only one entrance, the present one located about two and a quarter miles west along an unpaved country road.

Austin, Tex.—Gov. Preston Smith placed a new \$470 million revenue-raising program before the Legislature, and prompt action toward consideration in the House was promised by Speaker Gus Mutscher.

Governor proposed raising the general sales and auto sales tax rates to four per cent and boosting tuitions in state supported colleges and universities.

He stuck by his original recommendation to appropriate welfare funds for only 10 months of the biennium, meanwhile trusting that the federal government will take over 100 per cent of welfare costs. Latter assumes a shift of the nearly \$300 million state load to Washington.

Smith, addressing a joint session of the House and Senate, served notice he is again insisting on a biennial (two-year) budget—except for welfare—and hinted strongly he would veto a one-year appropriations bill favored by Lt. Gov. Ben Barnes, as he did in 1969.

Here's how Smith calculates the yield on his revenue plan which replaces the spend-now-pay-later scheme he outlined Jan. 20: Boosting general sales tax rate from 3.25 per cent to four per cent, \$300 million for the biennium.

Raising auto sales tax rate from 3 to 4 per cent, for a \$70 million gain.

Hiking Texas student tuitions from \$50 to \$125 a semester and out-of-state-student fees in state institutions of higher education from \$200 to \$500 a semester, estimated to yield another \$100 million.

While lawmakers found the new plan more realistic than the now-tax message, many expressed the view it would not pass unless coupled with some form of business taxation. Some legislators labeled it insufficient to meet budget needs. Most criticism centered on "lack of balance" between consumer-business levies and the stiff tuition increase recommendation.

LIQUOR BILL EMERGES—Long-awaited bill to legalize sale of liquor-by-the-drink on a local option basis was introduced in the Senate by Sen. Joe Christie of El Paso and in the House by Rep. L. DeWitt Hale of Corpus Christi.

Legislature was empowered to pass such an act by the constitutional amendment lifting the open saloons ban at last November's general election.

Christie said the bill is "clean, enforceable" and contains no "arbitrary, unreasonable and indefensible restrictions" such as limiting mixed drink sales to establishments selling food.

Initial permit fees would cost \$5,000 and annual renewals \$500. Hale will introduce later tax legislation calling for a 10 per cent gross receipts levy on sales and service of mixed beverages.

Tax bill also would increase gallonage tax on distilled spirits from

\$1.68 to \$2.70 and up wine tax per gallon in accord with the alcoholic content of vinous liquor.

Bill will further exempt mixed beverage permit holders and private clubs from the general sales tax and repeal the private club service fee of five cents a drink. Hale and Christie estimate a biennial additional tax revenue of \$28 million.

Miniature bottles, subject of contention in prior legislative clashes over mixed drinks, would be banned. Mixed drink sellers would buy their stock from Texas wholesalers.

Legislation is expected to stir one of the sessions "more spirited" debates.

1971 Texas Public Schools Week Set For March 1-5

This year marks the 117th anniversary of public schools in Texas.

Recognition of this anniversary is planned for March first through fifth during Texas Public Schools Week.

News editors, and radio and television spots are encouraging parents and other members of each Texas community to visit and support Texas Public Schools during that week.

About 52,000 severely disabled veterans and servicemen will benefit from a new law increasing allowances for the purchase of specially equipped automobiles.

Two Minutes With the Bible

Paul Not One of the Twelve Apostles

Occasionally, the Lord's apostles are charged with acting arbitrarily in choosing Matthias to take Judas' place. It is said that they first chose two candidates and then asked God which of these two He would have to fill the vacant position. Paul, they feel, was actually God's choice for Judas' place. But this charge is not based upon the record of the Scripture.

1. The apostles, with Peter as their chief, had been given authority to act officially in Christ's absence (Matt. 16:19; 1:18,19).

2. They acted upon the Scriptural declaration that another apostle should be chosen to fill Judas' place (Psa. 109:8 cf. Acts 1:20).

3. Their action was bathed in many days of united prayer (Luke 24:49 cf. Acts 1:12-15) and when two candidates were found they again prayed and left the final choice in the hands of God (Acts 1:24-26).

4. Probably only two (Matthias and Joseph Barsabas) were eligible, for only those could qualify who had followed Christ continuously from the day of His baptism by John until His ascension to Heaven (Acts 1:21,22 cf. Matt. 19:28 "Ye which have followed Me").

5. Paul would not have been eligible, for he had not even seen Christ during His earthly ministry (I Cor. 15:8).

6. The conclusive proof that the eleven acted in the will of God in this matter is found in the fact that the Scripture clearly states that Matthias "was numbered with the eleven apostles" (Acts 1:26) and that "they were all filled with the Holy Spirit" (Acts 2:4). Men out of the will of God are not filled with the Holy Spirit.

Thus Paul stands separate and distinct from the twelve as the apostle of the present dispensation of grace (Eph. 3:1-3).

Area I. O. O. F. Lodge Members Meet Here Last Thursday Night

The Crowell I. O. O. F. Lodge was host at a dinner meeting last Thursday night for the Texas-Oklahoma Circle. The Circle is composed of lodges in this section of Texas and southern Oklahoma. Twenty-six men attended and towns represented were Crowell, Wichita Falls, Vernon and Frederick, Okla.

George Clifton, Noble Grand of the local lodge, introduced the Circle officers, George Faulkner, president; and Bill Pybus, secretary, both of Wichita Falls. Mr. Faulkner presided.

One of the visitors was W. D. Curtis, 95, of Martinsville, Indiana, who has been a member of the Odd Fellow Lodge for 75 years. Mr. Curtis is a former mayor of Vernon and owned the Vern-Tex Dairy for many years. Also present was a past Grand Master of Texas, Guy McNeely of Wichita Falls; and two district deputy grand masters, Edward Schritter of Frederick, and C. V. Barker of Crowell.

This was the first Circle meeting to be held in the local lodge in over thirty years, it was reported.

It was decided at the meeting here that on Sunday, March 21, beginning at 2:30 p. m., members and their wives would meet for a get-together and social at the Frederick lodge.

Gap Narrows

"Margaret Mead, who has written a book on 'Culture and Commitment,' claims young people of today are just too smart for their elders and this is the 'generation gap.' I'll admit most young people really believe that, and will not be convinced otherwise. Not until they attain maturity, a family, children and real responsibility. Then the gap narrows considerably."—Covington, La., St. Tammany Farmer.

Be a Trash Collector

"While you are waiting for the community to achieve an ideal system of trash disposal, do a little trash collecting yourself. Pick up the junk, not just that, if any, in your own yard but in a nearby lot, or at some favorite picnic site, or along a roadside. You can appoint yourself unofficial curator for some area. Blaming a sloppy neighbor and then turning your back on the situation will get you nowhere."—Chestertown, Md., News.

PUBLIC NOTICE
Proposed **CONSTITUTIONAL AMENDMENT**
NUMBER ONE ON THE BALLOT (SJR 15)
Special Election May 18, 1971

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III, Section 24, of the Texas Constitution, be amended to read as follows:

"Section 24. (1) The State Ethics Commission is created as an agency of the State. The commission consists of nine members. Three members shall be appointed by the Chief Justice of the Supreme Court of Texas with the advice and consent of the Associate Justices serving on the Court, three members shall be appointed by the Presiding Judge of the Court of Criminal Appeals of Texas with the advice and consent of the other Judges serving on the Court, and three members shall be appointed by the Chairman of the State Judicial Qualifications Commission with the advice and consent of the other members of the commission, of each group of three appointees no more than two shall be attorneys engaged in the active practice of law. In addition thereto there shall be two ex officio members, one from the House of Representatives and one from the Senate to be elected on the first day of each Regular Session of the Legislature by a majority of the membership of each House for a term ending on the first day of the next Regular Session.

"(2) With the exception of the initial appointees, each member shall hold office for a term of six (6) years and until his successor is appointed and has qualified. In making the initial appointments, each appointing officer shall designate one (1) appointee to serve a term of two (2) years, one (1) appointee to serve a term of four (4) years, and one (1) appointee to serve a term of six (6) years. Interim vacancies shall be filled in the same manner as vacancies due to expiration of a full term, but only for the unexpired portion of the term in question. The membership shall designate one of its members to serve as chairman for a period of two (2) years.

"(3) The members of the commission shall be reimbursed for actual and necessary expenses incurred in the performance of their duties.

"(4) The commission shall recommend the compensation, per diem, and mileage allowance of members of the Legislature, and may recommend the salary of the Speaker of the House of Representatives and the Lieutenant Governor

at an amount higher than that of other members notwithstanding any provisions to the contrary of Article IV, Section 17, of the Texas Constitution.

"(5) The commission shall promulgate rules of ethics to govern the conduct of all legislators, legislative officers and all officeholders, appointive or elective, of any office, department, district agency, commission, board or any governmental unit or branch established by or under the authority of the constitution and laws of the State of Texas, and all persons who shall use any privilege of the floor in either House of the Legislature. The Texas State Ethics Commission shall further promulgate rules providing that each member of the Legislature and each of the hereinabove named officeholders upon election and any appointee to any of these offices shall file with the State Ethics Commission a statement under oath setting out a complete financial statement in detail within 10 days after being elected or receiving an appointment. This information shall be privileged information to the State Ethics Commission to be used only by them to determine if there exists a conflict of interests or if there is or has been a violation of any of the rules of ethics promulgated by the Texas State Ethics Commission or any laws of the State of Texas. The Legislature shall enact statutes dealing with unauthorized disclosure or misuse of said privileged information.

"(6) The commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet in Austin at least once each year to review existing rules of ethics, legislative compensation rates, mileage allowances and per diem rates, and to make any changes deemed necessary.

"(7) All rules of ethics, compensation rates, mileage allowances or per diem rates currently in force, as well as all changes and recommendations by the State Ethics Commission shall be promulgated before the convening of any session of the Legislature by filing a certified copy of the proclamation with the Secretary of State.

(a) Each rule of ethics or change thereof made by the commission shall take effect on the 15th day of the legislative session following the proclamation unless disapproved before that day by resolution of either House of the Legislature.

(b) All rates of compensation, mileage allowances or per diem rates and all changes and recommendations made by the commission thereof shall not take effect until approved section by section by resolution of both Houses of the Legislature.

"All votes on these resolutions or parts thereof shall show the individual votes in the respective journals of both Houses.

"(8) The commission shall investigate any alleged violation of any rule of ethics promulgated by it and report its findings to the appropriate State agency, official, legislative body, grand jury or district attorney.

"(9) Until otherwise provided by the commission, each member of the Legislature shall receive from the public treasury an annual salary of Four Thousand, Eight Hundred Dollars (\$4,800) per year and per diem not exceeding Twelve Dollars (\$12) per day for the first 120 days only of each Regular Session and for 30 days of each Special Session of the Legislature. No Regular Session shall be of longer duration than 140 days. In addition to the per diem, the members of each House shall be entitled to mileage in going to and returning from the seat of government, which mileage shall not exceed Two Dollars and fifty cents (\$2.50) for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller to each county seat now or hereafter established; no member to be entitled to mileage for any extra session that may be called within one day after adjournment of the Regular or Called session.

"(10) The commission is further authorized to recommend to each Legislature changes which will update, improve, and effect economy in the legislative process."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the 18th day of May, 1971, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment to create a State Ethics Commission empowered to set rules of ethics for members of the Legislature, State officers and legislative officers, to investigate violations thereof, and to recommend compensation for members of the Legislature and the Lieutenant Governor and recommend improvements and economy in the legislative process."

Texas to Share in
USDA's \$1 Billion to
Feed Needy Children

Texas has a \$44,854,599 share
in the 1971 fiscal year appor-
tionment of federal funds to bol-
ster nutrition and health of children
in the state, reports Martin Gar-
ber, southwest director of the U.
S. Department of Agriculture's
Food and Nutrition Service, Dal-
las.

Garber cites figures released
this week in Washington, D. C.,
by assistant Secretary of Agricul-
ture Richard Lyng, to the point
that more than \$1 billion in fed-
eral funds and foods is being made
available between now and June
30, to support child nutrition pro-
grams. This is 25 per cent more
than the \$754 million provided a
year ago.

Most of the extra cash is to as-
sist states in providing free or
reduced-price meals to needy chil-
dren in cooperative federal-state-
local child feeding programs. A
total of \$359,400,000—more than
2½ times the amount allotted last
year—has been apportioned spec-
ifically to help feed needy young-
sters. Of this amount, Texas will
receive \$27,380,074.

**Youth Needs Guidance
When Given a Gun**

Youngsters sporting new guns
after Christmastime need more in-
struction than just how to load
and fire them.
Texas Parks and Wildlife De-
partment officials remind Texans
that even the smallest single-shot
.22 can be a deadly weapon, so
parents who give firearms to
youngsters should be sure they
are familiar with safe gun hand-
ling.
A formal firearms handling
course would be appropriate;
where this is not possible, some
individual instruction from an ex-
perienced shooter might fill the
bill.
Also, the younger fry shouldn't
be allowed to use guns except
when accompanied by a re-
sponsible adult. Guns and ammunition
should be locked up when not in
use.

**Motor Vehicle
Travel Increases 56
Per Cent in Decade**

Motor vehicle travel in the Unit-
ed States increased by more than
56 per cent in the 1960-70 decade,
says Wm. M. Coffey, manager
of the American Automobile As-
sociation, Texas division.

Coffey cited a Federal High-
way Administration report that
also estimated a rise of five per
cent in motor vehicle travel in
1970 over 1969. Vehicle miles to-
taled 1,071 billion in 1969; esti-
mated mileage in 1970 was 1,125
billion.

In 1969, just over 37 per cent
of the travel took place on the
main rural roads that comprise
17 per cent of the nation's 3.7
million miles of roads and streets.

Urban streets represented al-
most 51 per cent of the total trav-
el, even though they account for
only 14 per cent of the total mile-
age. Local rural roads accounted
for 12 per cent of the travel on
approximately 69 per cent of the
mileage.

Private passenger cars repre-
sented 81 per cent of the vehicles
registered and account for 79 per
cent of the travel.

Automobile pollution control de-
vices and stricter pollution con-
trol requirements appear to be
playing an increasingly significant
role in the drop in miles traveled
per gallon of fuel consumed. This
downward trend began in 1967
after several years of relative sta-
bility. In 1968, the figure was
12.25 miles per gallon; in 1969,
it was 12.15.

The use of low lead or nonlead-
ed gasoline and the lower com-
pression engines required for
these fuels tend to reduce miles
per gallon.

But the FHWA says the down-
ward trend in this category may
begin to level off if American
"mini" cars, which offer more
miles per gallon than other makes,
come into widespread use across
the nation.

Although spending about 95 per
cent of the time at shortstop, Den-
is Menke found time to log at
least one game at each of six
different positions for the Hous-
ton Astros in 1970. Menke played
short, first, second, third, left field
and right field at various times.

Miss Carla Jo Browder and Dewey James Faske Exchange Vows

Miss Carla Jo Browder, daughter of J. C. Browder of Truscott, and Dewey James Faske, son of the late Mr. and Mrs. Otto E. Faske, were married in a candle-light double ring ceremony Saturday, January 16, at Bethlehem Lutheran Church at 7 p. m. in Houston with Rev. H. A. Traugott officiating.

The church was decorated with baskets of white gladioli and candelabras.

The bride, given in marriage by her father, chose a gown of white chantilly lace over peau de soie. The long tapered sleeves were appliqued with daisies of chantilly lace. The bride's tiered veiling of French silk illusion fell from a crown of lace embellished with tiny bridal pearls.

The bride's bouquet was white roses and a white orchid atop a white Bible.

Matron of honor was Mrs. Joyce Brewer of Houston. Flower girls were Denise Meissner and Judy Beisert, nieces of the groom. Ring bearer was Michael Beisert, nephew of the groom. For her matron of honor, the bride chose a formal dress of royal blue velvet, with headpiece of royal blue velvet bow with veil of illusion. The flower girls' dresses were identical to the matron of honor.

Best man was Charles Ray Faske, brother of the groom. Ushers were James Coleman, nephew of the bride, and Jerry Murphy, both

of Houston. The Lord's Prayer and wedding prayer were sung by Mrs. Charles Beisert, accompanied by Melvin Schiwart, organist.

Members of the house party were Misses Phyllis and Linda Faske, Darita and Beverly Coleman, and Mrs. Marvin Futrell.

Following the ceremony, a reception was held in the church basement.

The bride is a 1964 graduate of Crowell High School and attended San Jacinto Junior College. The bridegroom is a 1962 graduate of Giddings High School and attended South Texas Junior College.

Mr. and Mrs. Faske are now residing at 2530 W. 18th No. 12 in Houston where the bride is employed by Gordon's Jewelry Corp. and the groom is employed by Southwestern Bell Telephone Co.

IRS Warns of Scare Advertising

Dallas—North Texas taxpayers were warned last week against misleading newspaper, radio, and TV ads conveying the impression that the tax law greatly complicates their 1970 returns.

Ellis Campbell, Jr., district director of Internal Revenue for North Texas, said the ads placed by some commercial preparers of tax returns also picture the form

1040 as extremely complex so as to discourage taxpayers from attempting to fill out their own returns.

Mr. Campbell said the IRS has tried to make improvements in the form and in filing procedures in response to numerous suggestions from taxpayers, lawyers, accountants, and others. In addition the IRS has this year offered to figure the income tax and retirement income credit for up to 30 million taxpayers filing 1970 returns. Having IRS figure the tax could reduce the largest single type of error made by taxpayers, selection of the wrong tax table

or rate schedule, as well as help elderly persons with retirement income credit calculations, Campbell said.

Taxpayers should also be careful of "guarantees" offered by some commercial preparers of returns that make it appear that they will represent the taxpayer in any subsequent audit, he said.

Generally, only attorneys, CPAs and those who, by demonstrating their qualifications, are enrolled for practice, can represent a taxpayer before the IRS. Taxpayers should be sure of just what is meant by a "guarantee" offered by a preparer. Regardless of who fills in the form, the taxpayer is responsible for the accuracy of the return.

Local Residents Attend Wichita Falls Meeting

Cancer research has led to modern treatment measures which now have extended the lives of millions of cancer patients and spared them immeasurable suffering, according to Dr. Charles Wilson, District Director of the American Cancer Society.

Dr. Wilson addressed the 45 ACS volunteer delegates attending the Society's District 13 Crusade meeting in Wichita Falls January 21. Mrs. Larry Jones and Mrs. Jim Mac Gafford of Crowell represented Foard County at the meeting.

Dr. Wilson, quoting Dr. Arthur Holleb, senior vice president for medical affairs and research, said the Society's new clinical research investigation program is designed to study in humans new methods for prevention, diagnosis, and management of cancer and concerns itself with the cancer patients and tries to hasten the laboratory discoveries to the bedside of the patient.

The 15 counties comprising District 13 established a Crusade goal of \$77,000. Alan McClellan, field representative, reported a Crusade goal of \$800 for Foard County.

Beef Cattle Field Day Will Emphasize Consumer Benefits

Foard County cattlemen are invited to be in McGregor on March 11 for the 1971 Beef Cattle Field Day at the Texas A&M University Agricultural Research Center.

Talks by five specialists recognized nationwide for their knowledge of the beef cattle industry will be pegged to the theme of the annual event, "The Consumer and the Beef Industry."

The day's program will begin at 9:30 a. m., with time out for a dutch-treat lunch, and end at 2:45 p. m., with the auction of surplus bulls and crossbred heifers.

Rotary Club Members Hear Talk on South America

Charlie Drabek told Crowell Rotarians at the Rotary meeting on February 10 of the trip he and Mrs. Drabek made to Venezuela recently. Mr. and Mrs. Drabek were guests of a major manufacturing company on the trip taken by a total of 135 persons.

Mr. Drabek related many events of the trip and provided brochures and magazines giving details of the tour.

At the February 17 meeting of the club, the pep band, a group of CHS band students, entertained by playing two numbers. There are 13 members of the band which is directed by James Streit. Also, Miss Nancy Looney played a clarinet solo, accompanied by Mrs. Streit, and Barbara Streit played a flute solo. These two solo numbers will be presented in contest in Wichita Falls in the near future.

Rotarians went to Truscott on Wednesday, February 24 for their luncheon meeting. This trip to Truscott is an annual affair with the meal prepared and served by the Truscott H. D. Club members. For the program, Marvin Myers and Joe Burkett discussed the Rotary-sponsored Project Show for 4-H and FFA youths which will be coming up in March.
