The snow which fell here all day last Tuesday measured .23 of an inch of moisture by the government gauge. Robert Kincaid pointed out however that a blowing snow is difficult to measure accurately, and he estimated that at least .4 inch of moisture was derived from the snow.

## Foard Countian Volunteers for Armed Forces March 10

The Selective Service Board No. 131 reports that Edward Lee Whitley of Foard County volunteered for induction into the service, and was scheduled for induction on March 10.

On Wednesday, March 10, Jay Randy Smith of Foard County was one of seven area men ordered to take pre-induction physical examinations.

Foard County's official population in the 1970 census was 2,211, down 29.2 per cent from the 1960 figure of 3,125, the Bureau of the Census, U. S. Department of Commerce, reports.

The official population of the state was 11,196,730, up 16.9 per cent from the 1960 population count, which was 9,579,677.

The 1970 census counted 2,069 white persons in Foard County, 93.6 per cent of the total; 131 Negroes, and 11 persons of other races. In 1960, 91.1 per cent of the population was white.

Since the 1970 census obtained the information on race principally through self-enumeration, the data represent essentially self-classification by people according to the race with which they identify themselves. Persons of Mexican or Puerto Rican birth or ancestry who do not identify themselves as of a race other than white are classified as white, the Census Bureau explained.

The census showed 122 children under 5 years; 472 in ages 5 through 17; 1,170 people 18 through 64; and 447 who were 65 and older. The population 14 years and over included 1,209 married people, 225 who were widowed,

38 divorced, and 302 never married.

Foard County's 1970 population was classified as 100 per cent rural.

There were 853 households, with 2,211 persons, including 197 one-person households. The 1970 census counted 1,049 housing units in Foard County, 676 of them occupied by owners, 177 occupied by tenants, and 196 vacant. These included vacant units for seasonal use. The proportion occupied by owners in 1970 was 64.4 per cent, compared with 53.3 per cent in 1960.

Among year-round dwelling units, there were 1,009 single family houses, 19 housing units in multi-unit buildings, and 5 mobile homes or trailers. The percentage of occupied units with more than one person per room was 7.9, compared with 15.9 in 1960. Of all the occupied housing units, 749 had piped water, toilet, and bath, while 104 lacked some or all plumbing.

The median value of owner-occupied houses in Foard County was \$6,000, compared with \$6,900 in 1960. The median rent paid by tenants in 1970 was less than \$30 per month. Half were over and half below the median figures.

## We Who Are About to Die Salute You.

Strong men doomed in Rome's arena so saluted Caesar—their government. Today, we Texans shout a salute to our Lawmakers.

### HELP!

In the name of slain Sheriff's Deputies Sam Infante, A. J. Robertson and Don Reese and eight other American lawmen slaughtered in one week (Feb. 14-21, 1971) and in fear of the Almighty, PLEASE:

- Keep our death penalty and for a change USE IT. Our criminals, our lawmen and our Holy Bible agree that it works. Our weaklings, our textbooks and our enemies oppose it.

- Kill the proposed Texas Penal Code designed to pamper and coddle perverts, dope dealers, murderers and bandits. Give us instead sharp teeth in the rubber-gummed 1966 revised Code of Criminal Procedure you forced into our mouths.

- Bridle the runaway parole system which trots back rank after rank of rogue convicts to prey upon our wives, children and our properties . . . and upon the few true penitents who leave the penitentiary.

Now, now, now, let the guilty be punished as our God ordained and as our forefathers wisely dictated, lest we who have earned order and who love law perish.

**Texas School Districts' Share of Foundation Program Is \$245,150,000**

Texas school districts will contribute \$245,150,000 to the Foundation School Program as their share of the total cost of the state's public education system in 1971-72.

This local fund assignment for the coming year was approved on March 1 by the State Board of Education at its meeting in Austin.

The statewide local fund assignment includes 20 percent of the total Foundation School Program cost for 1970-71, or \$215,126,849, plus another \$30,023,151 in special credits earned by the school districts during the past year.

Cost of the total Foundation School Program, which includes both state and local funds for the 1970-71 school year, is currently estimated at \$1,075,634,247. Broken into major categories, the Foundation School Program will pay for the following public school expenses this year:

Professional and teacher aide salaries, \$926,731,470; maintenance and operation of schools, \$76,877,777; transportation, \$26,850,000; Texas Education Agency administration, \$2,093,000; and special programs, \$7,082,000. These funds pay for basic educational needs in Texas. However, many Texas school districts use local tax money to pay for additional services and support higher than minimum state scale salaries for teachers.

The board also approved the 1971-72 economic index on a county-by-county basis, with Harris (Houston) ranking highest on the scale at 13.816 per cent. Each county's economic index, based on a complex formula set by law. Elements in this formula include scholastic population, county assessed property valuations, value added by manufacturing, mineral production, and agriculture, plus retail, wholesale, and service industry payrolls. All are computed over an average of the past three years. Heaviest emphasis is put on income which is weighed at 72, assessed property valuations at 20, and scholastics at 8.

Although the average local share of the cost of the Foundation School Program is about 20 percent of the total on a statewide basis, the actual cost per county may be more or less, depending upon its wealth, property valuations, and number of students.

Other high paying counties on the economic index roll include Dallas at 13.816 per cent, Tarrant (Fort Worth) at 6.016, and Jefferson (Beaumont) at 4.084 per cent.

Rains County is assessed the lowest rate at .017 per cent, followed by Deaf Smith and Delta at .021 per cent. State funds pay the largest share of the school bill in Texas at approximately 45.33 per cent of the total. Local taxes account for 43.15 per cent and federal funds 11.52 per cent.

**Henry Bogusch  
Speaker at Rotary  
Club Meeting**

Henry Bogusch of the local Soil Conservation Service office, spoke on pollution at the Wednesday meeting of the Rotary Club last week. Mr. Bogusch's talk on pollution pertained to the pollution of air and water. One of the big pollutants of the air, Bogusch said, was tetraethyl lead used in gasoline.

He also told of the tremendous amount of soil that was lifted from the nation's surface during the dust bowl days of the 30's. It has been estimated that 300 million tons of land blew away during that period. Another period of drought—in the 50's—conditions were favorable for another dust bowl, but improved farming practices helped prevent another dust bowl.

Concerning water pollutants, Bogusch pointed out that silt is the most serious water polluter. This silt eventually ends up where rivers go into the ocean and he told how expensive it is to keep the Houston ship channel free of silt so it can be used by ocean-going vessels.

It costs about \$500 million to clean and dredge the Houston ship channel.

Mr. Bogusch was introduced by the program chairman, Ray Brown. President Warren Haynie appointed a nominating committee composed of Gordon Erwin, Glen Goodwin and Bud McLain to select a slate of officers for the coming year. Mr. Haynie also reported on the project show coming up next week and the Little Dribblers basketball program, both of which are sponsored by the Rotary Club.

Joe Burkett and Bill Klepper were introduced as new members of the club.

**Minimum Wage  
Rate Unchanged  
For Ag Workers**

The minimum wage rate for farm workers has remained at \$1.30 per hour since it reached that level on February 1, 1969, according to James I. Mallett, farm management specialist with the Texas Agricultural Extension Service.

Wage rates for many occupations increased on February 1, he notes, but new legislation will be needed before the legal minimum can be raised for agricultural workers.

Agricultural employers who hired more than 500 man days of farm labor during any calendar quarter in 1970, must pay at least the minimum wage rate during 1970. Farm employers who are paying more than the minimum wage should keep adequate employee records as specified by the minimum wage law, points out Mallett.

The minimum wage law also included child labor regulations which forbids the employment of children 16 years of age and under, except on their own farm during school hours. Children under 16 years of age may not be employed in agriculture in what is classed as hazardous work. However, children 14 to 16 years of age may acquire an exemption certificate which will permit them to be hired for hazardous work when they have been adequately trained and qualified to perform these jobs.

The Legislature shall enact statutes dealing with unauthorized disclosure or misuse of said privileged information.

"(6) The commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet in Austin at least once each year to review existing rules of ethics, legislative compensation rates, mileage allowances and per diem rates, and to make any changes deemed necessary. (b) All rates of compensation, mileage allowances or per diem rates and all changes and recommendations made by the commission thereof shall not take effect until approved section by section by resolution of both Houses of the Legislature. (c) All votes on these resolutions or parts thereof shall show the individual votes in the respective journals of both Houses. (8) The commission shall investigate any alleged violation of any rule of ethics promulgated by it and report its findings to the appropriate State agency, official, legislative body, grand jury or district attorney. (9) Until otherwise provided by the commission, each member of the Legislature shall receive from the public treasury an annual salary of Four Thousand Eight Hundred Dollars (\$4,800) per year and per diem not exceeding Twelve Dollars (\$12) per day for the first 120 days only of each Regular Session and for 30 days of each Special Session of the Legislature. No Regular Session shall be of longer duration than 140 days. In addition to the per diem, the members of each House shall be entitled to mileage in going to and returning from the seat of government, which mileage shall not exceed Two Dollars and fifty cents (\$2.50) or every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel, from a table of distances prepared by the Comptroller to each county seat now or hereafter established; no member to be entitled to mileage for any extra session that may be called within one day after adjournment of the Regular or Called session. (10) The commission is further authorized to recommend to each Legislature changes which will update, improve, and effect economy in the legislative process."

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the 18th day of May, 1971, at which election the ballots shall be printed to provide for voting for or against the proposition: "The constitutional amendment to create a State Ethics Commission empowered to set rules of ethics for members of the Legislature, State officers and legislative officers, to investigate violations thereof, and to recommend compensation for members of the Legislature and the Lieutenant Governor and recommend improvements and economy in the legislative process."

**Wheat Referendum and Producer  
Board Election Scheduled May 11th**

John C. White, Commissioner of Agriculture, this week certified the Texas Wheat Producers Association to conduct a referendum on producer board election in Texas counties under provisions of the Agricultural Commodity Act of 1969, according to H. Nelson, TWPA executive vice president of Amarillo.

The certification authorizes the association to sponsor and conduct a referendum whereby producers of wheat in the designated counties vote on a proposition of self-assessment not to exceed five mills per bushel for research, market development, disease and insect control and more efficient production and marketing practices for wheat.

Such a referendum has been held by the Association for Saturday, May 11, 1971, according to Leo Witkowski of Hereford, TWPA former-elected president.

Witkowski said that at the same time of the assessment referendum, an election will be held to elect a 9-member producer board to administer the program and direct the use of funds generated. Any producer may have his name placed on the ballot for election to the producer board by having his request signed by other producers and submitted to the association thirty (30) days prior to the election.

Witkowski said that Texas is now eighth in wheat production, it is one of the only major wheat states that has not had a producer board promotion and development program. He said that now producers will have an opportunity to initiate such activity in an all-out unified effort to increase individual growers' income, a yes vote.

The Texas Wheat Producers Association was founded in 1950 and since then has been directed by producers in the High Plains and Rolling Plains areas that produce over 75 per cent of the state's wheat. First headquarters office and full-time professional staff for the organization was established on January 1 this year, a response to needs and demands by producers to gain more income from domestic and foreign mar-

kets. In addition to Witkowski and Nelson, other TWPA officers are Dwight Hamilton, vice president; Olney; Ken Kendrick, Stratford, vice president; and C. L. Edwards, Panhandle, secretary-treasurer.

Headquarters offices are located in Suite 600, Bank of the Southwest in Amarillo.

Counties included in the area certified for the referendum and producer board election are: Roberts, Dallam, Gray, Hansford, Hartley, Hutchinson, Lipscomb, Moore, Ochiltree, Sherman, Briscoe, Armstrong, Carson, Castro, Deaf Smith, Floyd, Hale, Oldham, Parmer, Potter, Randall, Swisher, Archer, Baylor, Childress, Clay, Foard, Hardeman, Haskell, Knox, Throckmorton, Wichita, Wilbarger and Young.

Third baseman Doug Rader (a Gold Glove selection) took down some consistency marks for the 1970 Houston Astros. Rader had the season's longest hitting streak of 17 games and broke a club record by driving in at least one run in six straight games.

1970 Was Year of Progress for Texas Highway System

Joyce Kilmer once wrote that "life is a highway and its milestones are the years." The Texas Highway Department can claim many "milestones" for 1970.

The year was one of solid achievement for the State highway network. To begin with, the total designated mileage grew to 69,975 miles. About 700 of these miles were added during 1970.

The state blazed a trail for other states to follow in the Interstate Highway program. Texas has more designated Interstate miles than any other state, with a total of 3,179 miles.

At the end of the year, Texas had some 2,329 miles of Interstate open to traffic, with 329 miles under construction.

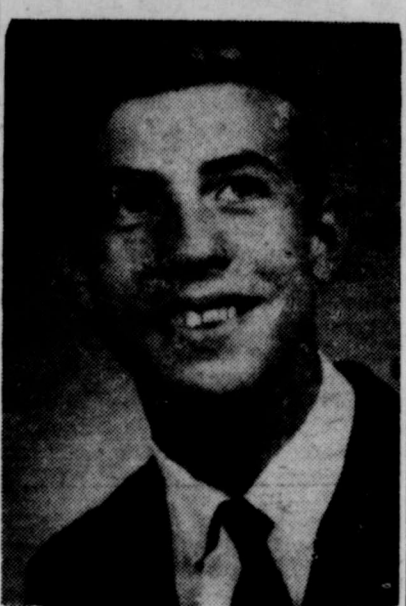

Another important highway system built, maintained and operated by the Department, matured during 1970. The Farm- and Ranch-to-Market road network grew to almost 40 thousand designated miles during the year.

This superb, all-paved system of secondary roads also grew in sophistication. Originally, the system was credited mainly with "getting the farmer out of the mud."

Now the FM system has taken on new roles in the economic life of Texas. FM roads provide access for industrialization in virtually every part of the state.

Workman said, "Many people here in Texas are not aware that the excellent beef they are eating is produced here in the state.

Saturday, March 6, twenty-two band members traveled to Midwestern University in Wichita Falls to participate in the Region II North Zone Solo and Ensemble contest. Twenty-seven schools in the zone were represented, sixteen high schools and eleven junior highs. Crowell had the largest number of students entered of the class A schools in this zone.

Solos and ensembles are divided into three classes: class III, easy; class II, medium; and class I, difficult. Actually, all are hard to play, especially since all solos must be memorized and must have a piano accompaniment. Students are rated on how well they play, based on age, grade in school, how long they've been in band, and the class of the piece. They aren't competing against anyone else, but are being judged on how well they play the piece. There are five possible ratings: I, superior; II, excellent; III, good; IV, fair; and V, poor. Of the twenty-one solos and one ensemble from Crowell, 45 per cent received a superior (I) rating.

Members of class III solos or ensembles that make I's are presented a bronze medal with a white ribbon; class II, a silver medal with a red ribbon; and class I, a gold medal with a blue ribbon.

Band members entering class III solos and their ratings are: Susan Autry, flute, I; Cheryl Garrett, clarinet, I; Dwayne Daniels, clarinet, I; Stan Gentry, cornet, I; Dwayne Crosby, sousaphone, I; Adrian Martinez, snare drum, II; April Wesley, bass clarinet, II; Sylvia Quintero, clarinet, II; Lane Simmons, baritone, II; Steve Setliff, cornet, III; and Jana Russell, alto sax, III.

Entering class II solos were Julie Streit, bassoon, I; Trey Autry, cornet, II; Jacquelyn Brown, alto sax, II; Arthur Cerda, alto sax, II; and Steve Stapp, trombone, II.

Class I soloists were Carolyn Jones, trombone, II; Betty Linda Whitfield, clarinet, II; Nancy Looney, clarinet, I; Babs Streit, flute, I; and David Stapp, French horn, I. The only ensemble entering was a woodwind quintet composed of Babs Streit, flute; Nancy Looney, clarinet; David Stapp, horn; Julie Streit, bassoon; and Kristi McLain, oboe. It was also a class I and received a I rating.

Accompanying the solos were Karen Stasler, Barbie Scott, Julie Streit, Sharla Haynie, Kristi McLain, Mrs. James Streit and Mrs. W. H. Stapp.

Students receiving a I on a class I solo or ensemble are eligible for the state solo and ensemble contest in Austin. All three of the eligible soloists and the quintet will be entering this contest which will be held on June 11 and 12.

James Streit is director of the Crowell school music program.

May 3, 1971, is the final date to transfer, release and request reapportionment of cotton within the county, Mrs. Reeder said. She added that the sign-up for the wheat, feed grain and cotton programs are now being accepted with April 9th being the final sign-up date.

"If you are a producer with an outstanding commodity loan, we suggest you check the market value since you may be able to sell the commodity above the support level. It might be to your advantage for you to redeem the commodity before maturity. This applies particularly to 1969 crop extended and resealed farm stored loans. Such loans cannot be extended beyond the 1971 maturity date," Mrs. Reeder added.
