School is pep club meetings. Just think, many different things to many football season is just around the different people, but basically school is what YOU make it.

Senior

As the senior class adjusts once more to the learning situation they are happy to greet one new face in the faculty. Mrs. Suzanne Drabek has promptly begun to insure that a secure knowledge of English grammar accompanies the students as they walk the "hallowed halls."

Besides an in-depth study of the English language, many seniors are also studying Texas history, bookkeeping, chemistry, algebra, speech, vocational agriculture and homemaking.

The Junior Journal

The junior class had a short meeting last Thursday morning work out in the gym. to discuss plans for a party. It was decided that the class would meet at Trudy Bird's house after and band. entertainment. Pizza and soft Know Your Faculty drinks are to be served afterwards. Class members may invite guests if they wish so be especially nice to all juniors during the next two weeks!

The first tests of the year were given last week in English, chemistry, algebra II, and American history. When it rains it pours!

Is everyone getting ready for football season? It seems like it to the juniors who are working hard on the football teams and in such organizations as band and pep squad. The final scrimmage of the season is Saturday, Sept. 4, at Throckmorton, so the juniors

THMEAR THROCKMORTON,

Sophomore Scoop

A class meeting was held Wednesday in the auditorium and class mothers were elected. They are Mrs. Charles Branch, Mrs. J. C. Autry, Mrs. Jesse Whitfield and Mrs. James Streit. The sophomores that had forgotten that there was such a thing as homework over the summer vacation were quickly What is school? To different reminded this week. And, if there were any doubts in anyone's mind

corner. As we come to the close of our first week as sophomores in CHS, we realize that there are only 35 more weeks to go!

Freshmen

We've been going to school a little over two weeks now, and most of us have finally learned where classes meet.

That's not the only thing we've learned though. We all learned a little about each other by listening to the paragraphs we wrote for Coach Cook on "My family has an unusual custom.'

All the freshmen are taking health and p. e. On Monday and Tuesday we meet in the auditorium for health class, and on Wednesday, Thursday and Friday we

What You Need.. WHEN You Need It

> WHEN you have a prescription that needs filling...when your car acts up...when you almost forget some important gift-occasion ... or when some other Emergency comes along ...it's nice to be able to buy what you need ... right here where you live . . . WHEN you need it,

> In fact, most of the Emergency Needs that confront us from time to time, are not real problems at all ... because local stores and service people are only minutes away, and those needs are promptly filled for us.

But . . . just suppose that a lot of us take the bulk of our trade...our large purchases, and our everyday buying...to cities and towns 50 or 100 or more miles away ... and buy at home only when we haven't time to wait until we can go somewhere else to get it. Then, with their trade volume lower, could we expect local business to be able and ready to serve us in emergencies?

Or, some day, if we need medicine, or a spark plug, or other vital item. . . will we have to make a long trip to some distant city to get it?

M. Baggerly, editor of the Tulia Herald, examined his comnity and decided there was an enemy at work against it. Here's he unmasked the culprit:

"A town such as Tulia-or a ounty such as Swisher—have within themselves the seeds of the millennium. We don't have to travel far to hear some local resi-dent list several dozen shortcomngs of the community. He can cite failures on the part of certain individuals, the city, the county, the school, the hospital, the merchants, the churches and the newspaper. It's amazing to hear all the deficiences of the people. And

maybe he's right.
"Yet, 99 per cent of the reasons we don't have heaven on earth here in Swisher County are human weaknesses, man-made problems.

"Let's consider a few.

"It is within the realm of pos-

sibility for every resident of Swisher County, with the exception of a few, to be in church on Sunday morning. Consider what kind of churches we would have if our 30 churches suddenly had 12,000 attendance. Consider the beautiful edifices we would need, the type of ministerial talent we could attract, the moral and spir-

itual impact upon the community. "Then, if every resident of Swisher County traded within the county whenever it was possible to do so, consider the impact upon the economy . . . we would have a business boom under way.

"This doesn't anticipate new industry. It would happen if just the people we now have spent their money in the county.

"Then, if they so desired, the people of Swisher County could have a hospital second to none in the state, staffed with the best physicians and surgeons attainable. And the same people could have a junior college that would bring new life to the community. We could have a countywide country club comparable to any in the

Panhandle.

"In fact, we could have facilities a county three times the population of Swisher enjoys. But this isn't in our future because we are selfish, contrary, disagreeable human beings. We'd rather be spiteful, we'd rather be selfish, we'd rather donate our talents and our resources to other communities that don't give a darn about us. We'd rather sit here and wither on the vine than to unite our efforts and do what's best for ourselves.

"This is no unusual situation. After all, more people prefer hell to heaven. Why should we expect these same people to give Swisher County priority over its competitors. Our worst enemies here in Swisher aren't drouth, hail. poor farm prices or natural disasters; our worst enemies are, simply, ourselves."
