Spec. Whitley, a member of Service Battery, 2nd Battalion of the regiment, entered the Army in March 1971 and completed basic training at Fort Ord, Calif.

His wife, Leona, lives in Seminole.

Floyd Webb of Thalia Died After Long Illness

Funeral Services Held in Vernon Saturday Morning

Floyd Webb, 70, a farmer in the Thalia community and former partner in Three Star Grain Co. in Thalia, died in the Foard County Hospital Thursday afternoon, July 13, following a long illness.

Funeral services were held Saturday morning at Henderson-Fields Funeral Chapel in Vernon. Burial was in East View Memorial Park.

Pall bearers were Eldon Whitman, Jim Moore, Bobby Mangum, Coyt Mangum, Raymond Grimm, and Warren Smith.

Mr. Webb was born January 28, 1902, at Richland, Texas, son of the late Mr. and Mrs. B. D. Webb. He moved to the Thalia community with his parents from Weatherford in 1907.

He is survived by two sisters, Mrs. Earl Glasgow and Bernice Webb of Midland; one brother, Louis Webb of Prague, Okla.

Pony Leaguers Win Second in Vernon Baseball Tourney

Local Boys Also Post Win over Quannah Thursday

The hard hitting Crowell Wildcats blasted Frederick, Okla., 12-1 Friday night to move into the finals against Vernon Saturday night in the Pony League division of the Vernon baseball tournament. The game was halted in the fourth inning due to the ten-run rule.

David Bell was the winning hurler as he scattered only three hits among the Frederick team. Allen Tapp came in to relieve Bell in the bottom of the fourth. The losing pitcher was Randy Williams. Other pitchers for the Bombers were Larry Perry and Bill Kellison.

Tapp led Crowell at the plate with two singles and a booming (Continued on page 8)

Mrs. R. G. Nichols Is Long-Time FCN Subscriber

Last week's article telling of the completion of eighty-one years of continuous publication has prompted a letter to the News from Mrs. R. G. Nichols of Crowell and a pioneer resident of Foard County. Mrs. Nichols said:

"My father, J. G. Thompson of Thalia was one of the first subscribers to the Foard County News when it was established in 1891. He received one of the first issues of the paper and continued to take the paper until he passed away in 1942, being 93 years old. All six of his children, when they married and established homes of their own, subscribed for the Foard County News. Only two of these remain now; they are John Thompson of Vernon and Mrs. Grover Nichols of Crowell. Both are faithful subscribers to the Foard County News.

"Mrs. Nichols has been taking the paper 60 years. The Thompson family has taken it 81 years."

At Meeting Last Week

DEVELOPMENT CORP. GROUP ADOPTS PLANS

The new corporation by-laws and charter for the newly-formed Foard County Development Corporation were approved by the members of the executive committee of the organization at a meeting Wednesday of last week. The by-laws and charter had just been received from the Small Business Administration office in Lubbock and the Economic Development Administration in Austin. The documents will be sent to authorities in Austin.

Members of the executive committee of the organization who attended the meeting were Felix Taylor, Ernest Larmer, Henry

Black, Keith Vaughn, Robert Kincaid, Jon Lee Black, Jim Henry, Frank Cooper, Guy Todd, Jr. and Wilma Cates.

The corporation was formed as a vehicle to work with federal authorities when Foard County received its final approval as an economic redevelopment area, one of the goals of the recent five-county economic tour which brought about 40 prominent persons of state and national bureaus and departments to the area.

Also discussed at the meeting were:

- A scheduled session with Nor-tex officials August 1 when Nor-tex executive director Ed Daniel of Wichita Falls will inspect recreational facilities in Crowell and work with local officials in development of a master plan for park development over the next three years.

- Possible development of industrial sites, and other possibilities of economic development.

- Plans for expansion of Custom Manufacturing Company, the artificial worm manufacturing plant now located in Crowell.

Rhonda Vecera Attending Farm Bureau Seminar

Miss Rhonda Vecera, senior at Crowell High School, is attending the tenth annual High School Students Citizenship Seminar conducted by the Texas Farm Bureau July 18-22 at Baylor University in Waco.

Miss Vecera is being sponsored by the Foard County Farm Bureau, which annually sends a local high school student to the Seminar.

There will be some 450 students from all over the state attending. They will be entering the 11th or 12th grades in September and have been carefully screened as to leadership ability and scholastic achievement.

The purpose of the seminar is to convey to the students a better understanding of the American heritage and the capitalistic private enterprise system. They will also be informed about some of the forces, both internal and external, that are eroding the American way of life.

Several nationally-known authorities will be discussion leaders at the seminar. They include Dr. Clifton Ganus, president of Harding College, Searcy, Ark.; Cleon Spousen, lecturer, author of "The Naked Communist" and former FBI agent, of Salt Lake City, Utah; Tom Hollingsworth, Tulsa, Okla., former member of the Green Berets, will discuss "Behind the Scenes in Vietnam;" and Dr. C. L. Kay, assistant president of Lubbock Christian College.

Miss Vecera is the daughter of Mr. and Mrs. Travis Vecera of Crowell.

Mrs. Mary Fox Long Died in Houston July 9th

Mrs. Mary Fox Long, long-time resident of Crowell and widow of the late E. A. (Lige) Fox of Crowell, died Sunday, July 9, following a long illness. Mrs. Long moved from Crowell to Conroe a number of years ago, but had lived in Houston for the past year or two.

Burial was in a Houston cemetery. Mrs. Long is survived by one son, Gene Fox of Houston.

Mr. and Mrs. Houston Adkins Vacation in Jamaica Last Week

Mr. and Mrs. Houston Adkins flew to Jamaica last week for a vacation. They were accompanied by his brother, James Adkins, and wife of Arlington.

Dr. Robert Davis Invited to Attend Meeting in England

NEWARK, N. J.—Dr. Robert F. Davis, a member of the botany department faculty of the Rutgers Newark College of Arts and Sciences, is one of five scientists invited to attend the United States symposium and workshop at the University of Liverpool in England from July 18 to 23.

Dr. Davis is the son of Mr. and Mrs. Foster Davis of Crowell.

The workshop will publish a book of its proceedings, one chapter of which will be a paper read by Dr. Davis, entitled "Some Evidence That Radial Transport in Corn Roots is into Living Vessels." Scientists from countries behind the Iron Curtain will participate in the meeting, as well as from Australia, Ireland, Scotland and Norway.

A graduate of North Texas State University, Dr. Davis received his Ph.D. from Washington State University in 1968 and was then awarded a year's post-doctoral fellowship in Columbia University by the National Institute of Health. He joined the Rutgers faculty in 1969.

Dr. Davis lives in New York City. (Continued on page 8)

BLOODMOBILE TO BE IN FOARD COUNTY THURSDAY AFTERNOON

Sen. Hightower Predicts Interesting Legislative Session

State Senator Jack Hightower of Vernon predicted the new legislative session will be interesting—a change of scene—when he spoke to the Women's Service League here last Thursday.

In the recent special session, Sen. Hightower said the Senate rules were reformed and committees reduced. Although each session makes its own rules, Senator Hightower feels the changes were necessary and he hopes they remain. He also stated that he felt annual meetings were needed with perhaps a 60-day session on even-numbered years.

The legislator expressed pride in the approval of development of the Copper Breaks State Park and says he expects some facilities to be available by next summer.

Mrs. Leo Cates, project chairman, gave a progress report on the landscaping west of the hospital.

A business meeting is planned for this Thursday's luncheon.

The Red Cross Bloodmobile will be making one of its semi-annual visits to Foard County this afternoon, Thursday, July 20. The hours for the visit will be from 2 until 5:30 p. m. The place for giving is at the community center and a number of volunteer workers have been calling during the past week urging residents to give and also setting up appointment times for giving.

Those helping with the donor recruitment and who will be assisting with canteen service when the bloodmobile is in town are:

Mrs. Jim Paul Norman, J. B. Fairchild, Allen Taylor, R. J. Owens, T. L. Tamplin, Otto Bachman, Jr., Henry Fish, Fred Collins, N. L. Looney, Fred Gray, J. C. Wisdom, Frankie Halencak, Walter Ramsey, James Sandlin, Willie Garrett, Parker Churchhill, Clarence Garrett, Jack Thomas and Elton Carroll.

All Foard County residents are invited and urged to give a pint of blood this Thursday afternoon.

Middlebrook Family Planning Reunion in Fort Worth

A reunion of 6 generations of the descendants of Jake and Ellen Middlebrook will be held in Fort Worth on July 22 and 23.

Both Jake and Ellen Middlebrook were born prior to the Civil War. They settled in Foard County in the Margaret community in the late 1890s. They are both buried in the Crowell Cemetery. Mr. Middlebrook having died in 1934 and Mrs. Middlebrook died in 1937.

Headquarters for the reunion will be at the Midtown Holiday Inn in Fort Worth and Bob Middlebrook, a grandson, who lives at 6408 Waverly Way in Fort Worth, will act as coordinator for the event.

There are 23 living grandchildren. It has been estimated that there are more than 200 descendants now living. Descendants are expected from all parts of the United States. Friends of Jake and Ellen Middlebrook, or their descendants, are invited.

Crop Prospects Good . . . Cattle Slaughter Increases . . . Hog Numbers Show Decline . . . Tangelos and Lemons?

Statewide, crop production prospects range from good to excellent, the Texas Crop and Livestock Reporting Service concludes. Grain sorghum harvest is just beginning with prospects for good yields, in most sections of the state. Cotton generally is making good progress with insect infestations increasing in the Blacklands and Low Plains. Corn is making good to excellent progress with an excellent outlook on the High Plains. Peanuts are showing good progress in most areas. Soybeans are making good to excellent progress.

Vegetable and fruit prospects are also good. In North Texas, watermelons and cantaloupes continue to make good growth; in East Texas, tomato harvest continues. Peach harvest continues with a wide range of yield and quality reported. Pecan trees show good crop potentials in most areas. Citrus trees are in good to excel-

lent condition. **CATTLE** slaughtered in Texas during May totaled 311,000 head, 26,000 above the number slaughtered last month and 1,000 more than May a year ago.

Calves killed during May numbered 13,200 or 400 below last month and 8,600 below a year ago.

HOGS slaughtered in May totaled 160,000, which is 3,000 above last month but 15,000 less than in May of 1971. Sheep and lambs killed totaled 118,000, or 5,000 less than last year.

Hogs on all Texas farms as of June 1 totaled 1,132,000 head, down 24 per cent from 1971. Hogs kept for breeding purposes numbered 175,000 which is 24 per cent less than last year. Hog farmers intend to farrow 120,000 sows in Texas now through November, which is 19 per cent less than farrowings for this period last year.

Nationwide, the farrowings now through November will be down four per cent from 1971.

TANGELOS and lemons in Texas?

You bet, and there's also avocados and apricots as well as plums, pears, apples, figs, blackberries, dewberries and tangerines.

A tangelo, incidentally, is a cross between a tangerine and grapefruit. The Citrus Tree Census of the Texas Citrus Mutual estimates there are about 60,000

tangerine trees in the Lower Rio Grande Valley.

A small acreage of less than 100 acres of lemons is also grown in the Valley. Avocado is also a Valley crop.

Apples are grown throughout the state with Comanche, Montague and Gillespie being the leading counties. Apricot production is centered in east and north Texas.

Plums are scattered over wide areas of the state; pears are produced in north central, central, and east Texas.

Central and East Texas are the principal areas where dewberries are grown. Blackberries are statewide with Smith County in East Texas the leading county. Figs are grown in many areas with Galveston County the leading county with about 300 acres for commercial production.

Donations Needed For Children's Livestock Auction

Early pledges to the 4th annual Crippled Children's Livestock Auction include a roping saddle, a ton of liquid feed, 2,000 pounds of meat and bone meal, 20 head of cattle and \$1,595.00 in cash, according to Joe Parker, general chairman of the auction.

These items and stock will be sold August 2 at the Wichita Livestock Auction to benefit the North Texas Rehabilitation Center in Wichita Falls.

Parker said donations from the various counties surrounding the center are running much behind last year. The Byers rancher-cattle feeder urged cowmen to pull out a calf, cow or bull and donate it to the auction.

Dick Todd, Foard County chairman, said free trucking to the auction barn in Wichita Falls can be arranged if needed, and urged ranchers and farmers wanting to donate stock to contact him.

Parker said last year's auction grossed \$20,722 on 73 head of cattle, 15 horses and other livestock, but this was a fall \$8,000 below the total obtained in the previous year's auction.

The chairman blamed the drought on last year's low gross, but indicated it should be much higher this year since moisture conditions are excellent and cattle prices are strong.

Not only are donations down when compared to the same time last year, but the budget for the operation of the rehabilitation center has been increased since it is serving more patients this year with increased facilities.

Parker pointed out that last year the budget came to \$98,698, but this year the cost of operation will be \$113,000.

All services for the auction are donated, including the trucking and auction facilities, said Parker. Total cost of the auction last year was \$308.82 which included printing and postage.

The money raised helps provide therapy and training for children and adults living in a 90-mile radius of Wichita Falls. Four children and adults have received therapy from Foard County, Parker said.

An effort is being made by county chairmen to contact all livestock producers in each county, but Parker said the job would be much more simple if the ranchers would contact their county chairmen with pledges of cattle and cash.

The public is invited to attend the auction which will be held during a break in the regular Wednesday sale in Wichita Falls.

Teachers Oppose Issuing Emergency Certificates

The Texas Classroom Teachers Association, a 45,000-member professional organization for teachers, has called for an end to the issuance of first-time emergency teaching certificates to non-certified persons until such time as all regularly qualified and certified teachers are employed. In a letter to Dr. J. W. Edgar, Texas Commissioner of Education, TCTA called on the Texas Education Agency to take this step immediately to discourage the flagrant misuse of emergency permits.

Mrs. Mary Evelyn Smith of Lamarque, chairman of the Texas Classroom Teachers Association state committee on Teacher Education and Professional Standards, says, "It has been called to our attention that the colleges throughout Texas are being swamped with requests for first-time emergency permits, which is unfortunate. We feel a strong sense of responsibility toward the protection of those individuals who have, in good faith, prepared themselves to become teachers, especially in view of the present oversupply of certified teachers."

Mrs. Vivian Bowser, TCTA president from Houston, states, "In view of the public's demand for accountability on the part of the total education profession, we believe that it would be in the best interests of teachers and concerned community members to insure that the responsibility for the education of Texas children rests in the most qualified hands of those who measure up to the highest professional standards. Anything less would be false economy and would ultimately threaten the quality of educational programs that our children so richly deserve."

TCTA has long been concerned with the question of emergency certification, and has advocated stricter standards for their issuance and a reduction in the number of such permits issued, through its 1972 delegate assembly and the teacher education and professional standards committee's 1972 position paper on teacher certification.

Plain Talk

Sometimes it does appear as if there were no justice in the world. But though one may be frustrated, hurt, aggrieved, feel that the reward of effort isn't worth the pains, life has a way of making compensations in the most unexpected ways. Also, it has its own way of dealing with the unjust. Being vindictive is such an unnecessary step. Time brings its own punishment where it is due.

It's an old formula, this, of looking around at the rest of the world when you are down, to find out how lucky you are, after all. To reduce one's health and spirit to a low ebb over disappointment is to dramatize oneself ridiculously.

The lesson we all must learn in time is that disappointments, disillusion are met in every life, and that we must not go down under the blow. There is enough beauty around us still to rebuild supporting theories and visions, if we will only reach out and help ourselves to them. Let the years build up a philosophy so that trials may be met calmly and bravely.—Robert W. Woodside.

STATE CAPITAL Highlights AND Sidelights

by Bill Boykin
TEXAS PRESS ASSOCIATION

TEXAS PARKS—Parks and Commissioners presented two surprises with the announcement of the purchase of property in Jefferson County for development as the second largest park and a buy to the controversial, Mustang Island property in Nueces County for another park.

Jefferson County purchase of 60 acres includes a five half mile waterway to the west with a vast saltwater marsh. The \$2,154,000 purchase is due south of Port Aransas stretches from the intracoastal waterway to the Gulf of Mexico.

Duro State Park, in the state near Canyon and Amistill holds its ranking as one of the state parks with acres.

Mustang Island purchase, by court wrangles for two and a half years, if no building blocks suddenly appear cost about \$600,000 less than the original \$4.2 million price of the island property Mrs. Sam E. Wilson Jr. of Christi.

Amount of property involved is more than the original 3,965 acres the state was looking at. A survey of the property of the state already owned of the property. Per acre however, remains the same.

Announcement of the Mustang came after Parks Commissioners asked Atty. Gen. Crawford if he was sure he was when he ruled earlier the state a legal binding contract with Wilson to purchase the island.

The state agreed to review his own bid, and told Parks Commission he was right the first time.

TE HUNTS 'CHOO CHOO'—Gov. Preston Smith told the U. S. Navy to make the State of Texas an authentic steam locomotive state in developing the state-owned railroad between Bask and Palestine in East Texas as a tourist attraction. The

Legislature last year said the Parks Department could operate the full gauge railroad as a public recreational facility.

The Parks Department is currently rehabilitating 26 miles of the railroad and hopes to operate public excursion trains using historically authentic steam locomotives.

Smith wrote to Navy officials saying he had been informed several military steam engines have been declared surplus and asked for assistance in acquiring one or two of the "iron horses."

DRUG FUNDS GRANTED TO STATE—Texas is one of three states selected by the federal Law Enforcement Assistance Administration to take part in a pilot program designed to stop the flow of legal drugs into illegal channels.

Texas Criminal Justice Council will be funded \$333,011 to be subgranted to the Texas Department of Public Safety to operate a diversion investigation unit. Primary goal is to curtail diversion of controlled substances at the retail level. It is estimated by federal officials that half the legitimately produced amphetamines and barbiturates are diverted to the illicit market.

Headquarters will be in Austin, with target cities to be chosen over the state to assure widespread coverage, officials say. Michigan and Mississippi are the other two pilot program states.

FARM-RANCH SAFETY WEEK—Fires, drownings and machinery and tractor accidents continue to be the main sources of accidental deaths on Texas farms and ranches, the Texas Safety Association says.

The Association hopes to focus public attention on the continuing upward trend of deaths in nearly every category during Texas Farm and Ranch Safety Week, July 25-31.

TSA spokesmen say 35 deaths were recorded last year from fires, explosions or burns on farms and ranches in the state. Other leading causes of accidental death last year on farms and ranches included 29 drownings, 28 accidental shootings, 26 machinery accidents,

22 tractor accidents, 22 falls and 17 accidents involving animals.

VEGETABLE INSPECTION IS STUDIED—Importation and exportation of vegetables to other states is being scrutinized by a special House interim committee on vegetable marketing.

The committee in a recent hearing heard witnesses complain that vegetable growers in Mexico enjoy tremendous competitive advantage with Texas growers not only because of low labor costs, but because they are not subject to the rigid government regulations restricting use by American growers of many chemical pesticides and herbicides.

Another problem reviewed by the committee was the claim by witnesses that the reputation of Texas-produced vegetables is suffering in out-of-state markets because some Texas growers persist in shipping large volumes of low-grade products. The result, witnesses said, is loss by Texas growers of the out-of-state markets because the produce of certain other states is consistently of higher quality and desirability.

Most practical solution, suggested witnesses, would be establishment of market orders to establish and enforce standard quality grades for Texas-grown vegetables and inspection of imported vegetables from Mexico.

MONEY GRANTED FOR ALCOHOL ABUSE STUDY—Texas is the first state in the nation to be awarded federal funds for prevention, treatment, education and rehabilitation programs to deal with alcohol abuse and alcoholism.

The \$1.6 million grant will go to the Texas Commission on Alcoholism which in accordance with new federal law developed and submitted the first state plan for such a program.

The TCA estimates there are 425,000 alcoholic persons in Texas, equivalent to about 3.8 per cent of the state's population.

NO ELECTION MONEY—Officials in the office of Secretary of State Bob Bullock say the Legislature in its special session mode no provision for funds needed to wind up the cost to the state of financing elections in Texas counties.

Bullock aides say the Legislature's budget writers were asked for an additional \$400,000 to wind up the bill paying for the primary and run-off elections. No money was provided.

Bullock will make another effort to get the additional funds when the Legislature comes back to Austin for its 63rd Session in January, 1973. In the meantime, enough money is believed by Secretary of State staffers to be available to at least enable county election officials to pay Texans

VETERAN DRIVER ADOPTS "DRIVE FRIENDLY"

United States Auto Club driver Johnny Rutherford affixes a "Drive Friendly" sticker to the Offenhauser powered Formula 1 car he will drive in this year's Memorial Day Indy 500. The Fort Worth resident says he is displaying the theme of the Texas Governor's Committee on Traffic Safety because "just hearing 'drive friendly' automatically makes people watch their driving habits."

Two Minutes With the Bible

Glorious Deliverance

In I Thessalonians 1:10, the Apostle Paul, by divine inspiration, assures believers that the Lord Jesus Christ has "delivered us from the wrath to come." He refers, of course, to deliverance from the penalty of sin. But in other passages he declares that we are also delivered from the power of sin. In Col. 1:12,13, for example, he gives thanks to God "Who hath delivered us from the power of darkness and hath translated us into the kingdom of His dear Son."

This deliverance, and the glory of our heavenly position and blessings, we may enjoy experientially now, by grace. Rom. 6:14 says: "For sin shall not have dominion over you, for ye are not under law but under grace." This does not mean that it is not possible for the believer in Christ to sin, but rather that it is possible in any situation, not to sin. Thus the same passage in Romans goes on to say that we should not yield ourselves as servants to sin, but to God, who, in grace has broken sin's power over His own.

Finally, the believer in Christ shall be delivered even from the presence of sin, for at our Lord's coming for us "we shall all be changed" (I Cor. 15:51). Believers should long for Christ's coming for them, not merely because these bodies of humiliation will then be glorified, but because from that moment on they shall never again be tempted or defiled by sin. What a change that will be!

The apostle includes all three tenses of the believer's deliverance in II Cor. 1:10, where he tells how God has "delivered us from so great a death, and doth deliver; in whom we trust that He will yet deliver." This is why he could write to the Philippians about his confidence "that He who hath begun a good work in you will complete it until the day of Jesus Christ" (Phil. 1:6).

Some may not feel the need of any deliverance now, but we all need deliverance from sin and its results. Why not place your trust in Christ who died to "deliver us from the wrath to come."

New Lobby Sets Meeting, Childress Lawyer Says

A statewide lobby of "conservatives" will meet July 28-30 in a convention to organize the group into a formal body with by-laws and a political platform.

Allen Harp of Childress is the coordinator for the 30th senatorial district of the organization. He said the meeting wasn't a support meeting for George Wallace, but a meeting of conservatives, for the purpose of "creating an organization to clean up Texas politics and influence national politics." Harp is a Childress attorney.

According to literature by the newly formed Texas group, "This convention will name our organization, write our by-laws and draft a charter."

Harp said that the platform of the convention will be based on the theories of Alabama Gov. Wallace and that between 200 to 500 persons are expected to attend the meeting. The organizing group which set up the convention named the group with the title "Conservatives for Better Government."

Harp said he is interested in seeing first hand how the group handles its formation and said anyone interested in attending the meeting with him should get in contact before July 27.

Daryl Halencak Attending Theatre Workshop at Tech

Daryl Halencak, son of Mr. and Mrs. Frankie Halencak of Margaret, is participating in the Summer High School Theatre Workshop at Texas Tech University in Lubbock July 14-28.

A two-weeks sessions is held which includes classes on acting, makeup, stage movement, scenery, lighting, house management, costuming, set designs, and musical try-outs.

The students meet twice daily for two to four hour dress rehearsal periods in preparation for the main performance held at the close of the workshop. All activities of the workshop are held in the modern, air conditioned University Theatre and performances will be given on the main stage in arena style.

Daryl is the recipient of the Crowell High School Drama Club scholarship for this year which pays his tuition for the workshop.

According to Mrs. Jean Halbert, CHS Drama Club sponsor, Daryl has already been cast in a musical at the workshop. Mrs. Halbert and several of her Drama Club students plan to attend and see Daryl perform in the closing performance.

A Tip from a Farmer

Dan Klepper Fails to Qualify for National PH&T Competition

Dan Klepper, Texas Rangers' baseball 9-year-old winner, did not accumulate enough points to be eligible to represent the American League at the all-star Pitch, Hit and Throw competition at the All-Star game in Atlanta, Ga., on July 25. Dan received this information in a letter from Tucker Harrison of Bartlesville, Okla., national PH&T coordinator.

In a letter to Dan and his parents, Mr. and Mrs. Bill Klepper, Mr. Harrison said, "We appreciate

Some Things We Need

We need less cynicism and more patriotism in our country today. We need to overcome the idea, which many hold, that "What's in it for me?" is the only thing that counts. We need to re-emphasize the importance of ideals. We need to encourage the belief that it is worthwhile for any individual to make sacrifices for the good of this country. We need to re-establish simple honesty as something to be proud of even though it sometimes hurts. We need to restore pride in good workmanship. We need to recognize again that there are desirable standards of moral conduct. All of these are important to the happiness of the people and the welfare of the nation. Men are happier when they believe in something bigger than themselves. Nations are stronger when fortified by the love and courage of their people. — The Scrap Book.

Expresses Preference

"Scientists agree that the earth is at least 4.5 billion years old. However, there are varying theories as to its origin. Some have suggested that it was created from a great cloud of dust. Others would have you believe that it was created from a piece of the sun. Frankly speaking, we still prefer the one that begins . . . 'In the beginning God created the heaven and the earth.'" —Alma, Ga., Wiregrass News.

Granddaughter of Local Woman is Married July 1st

North Richlands Hills Baptist Church was the setting Saturday, July 1, for the 8 p. m. wedding service uniting Miss Janis Jozell Langham and William Ronald Wicker. Rev. Hal Brooks of the church officiated at the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Martin E. Langham of North Richlands Hills and the bridegroom is the son of Mr. and Mrs. Wilber E. Wicker of Fort Worth.

The bride is the granddaughter of Mrs. Ella Autry Bruce of Crowell and the late Jess C. Autry.

Given in marriage by her father, the bride wore an Alfred Angelo original gown detailed with cotton Venise scallops, a portrait neckline and short puff sleeves.

Designed with an empire bodice, the dress featured an underskirt and chapel length train of organza with a hemline trimmed in matching Venise lace. The train was also edged with the scalloped lace and an illusion net veil held in place by a headpiece featuring the same lace.

Her bouquet was a cascade of blue delphiniums surrounded with staphenotis and baby's breath.

Miss Becky Byas served as maid of honor and bridesmaids were Misses Vickie Langham, sister of the bride; Dubs Jermon of Austin and Pat Ruker of Abilene.

Miss Susie Dickerson, cousin of the bridegroom, was flower girl and Kyle Langham, brother of the bride, was ring bearer.

Don Blackburn of Arlington was best man and groomsmen were Jimmy Culberson, Jack Young and John Hoffman of Fort Worth. Ushering were Trey Autry of Crowell, cousin of the bride; and Jim Stepp of Fort Worth.

Assisting in a reception in fellowship hall were Miss Phoebe Sneed, Miss Debbie Burkett, Miss Gwen Porter, Mrs. Doug Davidson and Mrs. Reid Whitlock.

The couple will live in Fort Worth.

Mrs. Clint White Honored Saturday at Neighborhood Coffee

Mrs. Joye Drake of Ballinger and Mrs. Moody Bursley of Crowell entertained with a neighborhood coffee in the Clint White home Saturday morning, July 15, to introduce a recent bride, Mrs. White, to her neighbors.

Mrs. Drake greeted the guests and introduced them to Mrs. White, formerly Mrs. Anna Belle Holley of Paducah. Coffee was served from a tea table in the living room where guests enjoyed informal visiting hours.

Mrs. Gerald Knox and Mrs. J. T. Brooks of Crowell and Mrs. Ronald Price of Amarillo assisted with hostess duties.

Card of Thanks

I want to thank Dr. Stapp, Betty and Edna and all the staff for their care during my stay in the Foard County Hospital. Also, I want to thank everyone who sent me cards, letters and flowers, and most especially for all the prayers.

Not a Dying Industry

"Railroads are definitely not a dying industry. They carry 40 per cent of all the nation's freight tonnage. If they didn't exist, we would have to invent them. Otherwise, we could not exist."—Henry A. Correa, president of ACF Industries, Inc., of New York.

Services Provided by Easter Seal Society Are Listed

The Texas Easter Seal Society, which makes an annual appeal for funds throughout Texas, has issued a statement relative to the services the society provides and also services it does not provide.

The Texas Easter Seal Society can provide the following services for handicapped persons who cannot afford to pay all or part of the costs involved and who are not eligible for help from any other resource—public or private.

1. Assistance in paying for physical, occupational, and speech therapy when it is prescribed by a medical doctor.

2. Pay for special diagnostic evaluation (such as orthopedic, audiological, language and psychological).

3. Purchase orthopedic equipment such as wheelchairs, walkers, crutches, braces, etc., when prescribed by a medical doctor. (There is a \$200 limit placed on artificial limbs. This \$200 is to be used as "seed money" and hopefully will be matched by local resources such as individuals, service clubs, sororities, foundations, etc.)

4. Help to defray transportation costs for treatment or evaluation when the family is unable to meet these costs. This is determined by paying 30¢ per gallon—based on 10 miles per gallon, figured on a round trip basis—or by purchasing round trip bus tickets.

5. Assist families and individuals to reach the right person or agency to obtain help. The Easter Seal Society of Texas cannot provide. People are often eligible for services from public or private agencies but do not know the person, eligibility requirements, or place to obtain the services needed.

A limit of \$150 per client per year for therapy and \$150 for transportation has been set except in unusual cases requiring special attention. This limit can be exceeded only with the permission of the treatment and service committee of the state board.

All services must be authorized before being rendered by the treatment and service department of the Texas Easter Seal Society.

Any questions can be answered by writing the society at 4429 North Central Expressway, Dallas, Texas 75205, or calling 214-526-3811. In case of emergencies after hours or week ends, call 214-348-8495 or 328-8449.

Services Not Provided
Services not provided by the Texas Easter Seal Society are:

1. Tuition, room or board to special schools or sheltered work programs.
2. Surgery, drugs, medication or hospitalization.
3. Non-orthopedic or non-hearing items (such as glasses, contact lens, dentures, cosmetic devices, etc.).
4. School material (such as books, paper, pencils, etc.).
5. Clothing or food.

Sharla Haynie Attends Reunion of Tour Group

Miss Sharla Haynie of Crowell represented Foard County as the members of the 1971 4-H National Citizenship and Heritage Tour met for a reunion July 12-14 at Community Public Northwest Lodge on Possum Kingdom lake.

Twenty-one of the fifty-nine 4-Hers and the adult leader who attended the 1971 short course were at the reunion.

During the two day meeting two speakers spoke to the group and each member gave a report on their citizenship activities of the past year and shared experiences concerning their activities.

Card of Thanks

We want to thank Dr. Stapp and the hospital staff for the good care we received while in the hospital. Those that visited, the prayers, flowers, gifts and cards; Womacks for their careful and courteous ambulance service; those at Crowell State Bank and Phillips 66 Service Station for making it possible for the patients to get two daily papers; and compliments to Mr. and Mrs. Mike Manard at the Crowell Flower Shop for the beautifully arranged bouquets they delivered. Without these wonderful friends, what would we do? May God bless you.

Major Responsibility

According to the publication "Span," "it is the conviction of the management of . . . (Standard Oil Company (Indiana) that our major responsibility to society is to take the assets entrusted to us and, through their creative use, to employ them so as to give back to society more than we started with. If we are successful, we create jobs, supply better products to our customers, provide tax revenues to support government, yield a profit, and pay a fair return to our shareholders on their investment."

Most Parents Object to Children's Drinking, Smoking

LUBBOCK—Most parents object to the drinking and smoking habits of their children and, when it comes to daughters, their objections are particularly strong, according to a survey taken by the Institute for Mass Communications Research at Texas Tech University.

Although in the great minority, a few parents had no objection to their children's drug habits, the institute reported, and this included the use of heroin.

Representatives of four categories were interviewed: black, Chicano, white, and affluent white.

There were more objections to daughters than to sons smoking cigarettes and drinking beer or hard liquor. Sons, however, received no preferential treatment in regard to smoking marijuana or using heroin.

Parents who had no objection to their children's drug habits qualified their position by adding, "if that's what they want."

Beer drinking was tolerated by almost one-third of the parents for both sons and daughters. Drinking hard liquor encountered opposition for daughters from 65.1 per cent of the parents; for sons, 45.3 per cent of the parents disapproved.

More than 80 per cent of the parents objected to daughters smoking while only 50 per cent objected to sons smoking cigarettes. About 88.7 per cent were opposed to daughters smoking marijuana, but the opposition dropped to 62.3 per cent for sons. No difference in attitudes toward daughters and sons were found concerning the use of heroin, for which 3.8 per cent indicated approval.

Parents appeared to have more well-defined attitudes for daughters than for sons. Only a very small percentage marked no opinion or gave no answer for boys, while a sizable percentage had no opinion or gave no answer for sons.

Of the four groups being studied, the Chicano, while being decisive with daughters, could give no answer or flatly declared they had no opinion for sons' drinking or smoking habits.

Blacks, compared with other ethnic groups, objected more vigorously to any smoking or drinking habits of their children, at the same time indicating the difference in attitude toward sons and daughters that other ethnic groups showed.

Drilling for Oil Is Costly Business

According to the Phillips Petroleum Company, drilling for oil is a costly, high risk business. For every 100 new field wildcat wells, only nine strike oil and only two of these are of commercial significance. An average marine well costs about eight times as much to drill as the average onshore well, and an Alaskan well costs 30 times as much or around \$2 million.

FREE-SPIRITED COTTON—Here's how to go from deck to dining room with just the touch of a button. The secret's a swirling, side-open skirt of cotton in an abstract black and white print that slips quickly over a clinging body suit. For wind-tossed hairdos, a contrasting cotton scarf provides fashionable coverage. From Impressions by Justin McCarty.

Consolation to Us

"It was interesting to note during the astronauts' stay on the moon that the lunar rover that carried them to their various destinations cost approximately \$10 million to develop and build. It has to be a consolation for those of us who struggle to keep an automobile running, that even at that price, a fender fell off the rover." —Kenyon, Minn., Leader.

Election-Year Fact

"We have another important election-year fact. The city of New York has a special department that is charged with the responsibility of cleaning up after 'relieved' dogs. In 1969 the budget for that department exceeded one million dollars. Some of you politicians might keep that in mind." —Thermopolis, Wyo., Independent Record.

Catching Up With The Americans

Public Utilities Fortnightly reports that a Swede is more to own a television set than an American. The average Swede uses twice as much electricity as the average U. S. citizen. The U. S. has been surpassed as the world's leading consumer of paper. Not quite. According to a report recently released by the Organization for Economic Cooperation and Development, the U. S. still leads in the number of automobiles, telephones, level of education per person, other nations, notably the Scandinavians and Japanese, are rivaling the Americans in amount of per capita consumption.
