WATER SYSTEM SIGNUP WILL END ON FRIDAY

Foard County property owners on the Thirsty Water line are hereby notified that Friday, Oct. 13, is the last day for property owners to sign easements for the water line. It is impossible to see each individual, and any one who has not signed the easement should sign in the Soil Conservation Service office in Crowell, according to the attorney for the water system, W. S. (Bill) Healy of Paducah.

Duane and Virgil Johnson, Jack Welch, Joe Don Brown, Jeff Bell, T. R. Cates, Sr., Henry Black, John McAlister and A. V. McCombs are securing signatures for the easements.

"Rural water users should remember that obtaining water through the Thirsty Water System is an opportunity, and every ef-

fort should be exerted to further the progress of the program. One has to remember that the signature of your neighbor enables one to have water. The line will be located inside the fence as close to the fence as the ditcher can work," according to Fred Parker of the Red River Authority.

Efforts are being made to extend the line from the Glen Shook farm located on the farm-to-market road south, to the Halsell ranch; also, from north of Crowell to the Country Club and west, then to the Joe Ray Settiff farm, and east from the Roy Steele farm to the Bernice Bursay farm.

None of these farms has a rural water system; and the purpose of the program is to try to let all individuals who desire to be a member of the Thirsty Water System to have an opportunity to obtain water. One local spokesman said "No one has had any idea of working against any existing water system."

James Streit of the Lockett community is this week's faculty close-up. He is married to the former Patricia Ann Morgan of Burk Burnett and has three children, Babs, Julie and Scott. The Streits are members of the First Baptist Church in Vernon where Mr. Streit is a choir member.

Receiving his bachelor of arts degree from Midwestern University in Wichita Falls, he has 40 hours beyond his degree from Midwestern University, Texas University and San Antonio Junior College. Mr. Streit's interest in music is evident by his participation in the Texas Music Educators, Texas Bandmasters Association, and the Wichita Falls Symphony.

He presently teaches Texas history in junior high, choir, and high school, junior high and elementary band. He has taught in the Vernon schools for two years and in the Lockett schools for four years before coming to Crowell.

Mr. Streit's hobbies include inventing, shop work, fishing, and music.

The Crowell community should be proud of Mr. Streit's accomplishments with the development of the Crowell band in the three years in which he has been here.

Attends T. S. A.

Mrs. Jean Halbert, local CHS speech and drama instructor, attended the annual Texas Speech Association convention in San Antonio on October 5, 6, 7. Prominent speakers in their field of specialization addressed the sectional meetings at the El Tropicana Hotel. Seth Halbert substituted for Mrs. Halbert the two days she was gone.

Congratulations

The Wildcat staff wishes to congratulate Mr. and Mrs. Bob

Cook on their adoption of Shane Lee, 4½ months old; and to Mr. and Mrs. Scott Boyd on the birth of Crystal Da Nell. The entire student body shares their joy.

Senior Scene

Last Wednesday morning, a well known ritual took place, one which has been passed down from generation to generation of teachers so far back, that no one can remember the exact origin of this curious custom—the issuance of report cards! Students reacted in different ways; forged signatures, forgetting to bring the cards home, etc. One even thought of having everyone meet on the court house square to burn their report cards before their parents could see them! It wasn't really that bad (well, let's hope not!) and just to show that some good can come of report cards, school was let out at 2:30 on Monday-Thursday for parent-teacher conferences.

Senior spirit is on the rise! Seniors just seem to be bubbling over with school spirit this year and seem to be infecting the rest of the school with it! In fact, one senior, Irma Quintero, was voted "big mouth" in the pep squad this week for her famous, loud and contagious spirit. Another senior, Doug Pharis, received the fighting heart award Friday at the pep rally.

Although we don't have a game this week, we hope the tide of spirit will keep right on rolling. See you at the speech class plays at 7:31 in the CHS auditorium.

Senior Spotlight

Sharon Brown is the brown-eyed, brown-haired, 5'11" senior in the spotlight this week. She is the daughter of Mr. and Mrs. Clark Brown and was born on August 23, 1955. She attends the Free Will Baptist Church.

Sharon is active in FHA, Drama Club, basketball, tennis, volleyball, and has been in chorus and band.

Her favorites include food-Mexican; color-orange, song-"Baby, Don't Get Hooked on Me"; actors, Ryan O'Neal and Pink Panther; singer, Lynn Anderson; subject, English; hobby, basketball; and group, Bread.

Junior Jive

Juniors had a hectic time last week trying to fit everything into days a whole hour shorter. However, very few complaints were heard about school letting out at 2:30! Report cards went out Wednesday and though several shouts of happiness were heard, some met with deathly silence. Most were recovered from the shock enough to be more concerned with Friday night's game predictions, than with history or English, by the end of the week.

Sophomore Scene

Report cards came out last Wednesday. There were lots of, "I can't believe I passed!" and many, "My parents are going to kill me when they see this!" Getting out of school at 2:30

for four days surely seemed to please many of the students. After dinner break, classes were 40 minutes long, and "that's long enough" think most of the students.

Our open date football game is Friday, the thirteenth. How lucky can we get? Everyone be careful not to do anything to cause bad luck to yourselves.

Sophomore Jana Russell had a "sweet sixteen" birthday Saturday, Oct. 7. We all hope she had a nice one.

Many people went to the annual Lions Club carnival Monday, Tuesday and Wednesday. Carnivals are lots of fun even though a few people may have weak stomachs after the rides.

Everyone take advantage of a free Friday night and see the speech plays.

October 20 is the first district game, so let's support the mighty Wildcats.

The Wildcat junior varsity played Seymour's JV Thursday night. We saw another victory of 12-8. Right on, team, stay in there and win 'em all!

The reporter for the sophomore news is now Cheryl Garrett.

Sophomores say: "Mutilate Munday!"

Freshmen Fun

This week the freshmen were relieved because the six weeks tests were finally over.

Monday night, October 2, the FHA girls had a mother-daughter salad supper. The same night the new members of the club were given a list of things to bring and wear to school the next day for initiation. Tuesday everybody showed up looking like the everyday housewife would look.

The freshmen boys going out for football this year are Rocky Glascock, David Bell, Dee Finley, Keith Nichols, Billy Halenack, Myron Halenack, Rayford Dorsey, Richard Naylor, Ernie Myers, Ronnie Swan, Delbert Glover, Jack Whitley and Melvin Westover. Best of luck in the district race.

Wednesday, October 3, Daryl encouraged all the members to pay their dues. Irma Quintero, secretary, called the roll and read the minutes.

The club decided to sponsor a "spook house" during the Lions Club carnival. Admission was set at 50¢ and 25¢.

Four speech plays are to be presented this Friday night. Plays are entitled "The Last of the Papier-Mache Cupids," "Sunstroke," "Hooray for Adam Spelvin: He Is Perfect" and "Infancy." The cast for the plays will consist of the forty members in the speech classes. Everyone is invited to a night of comedy at 7:31 in the high school auditorium.

HOPE

What is hope? Hope is wishing for a thing to come true; faith is believing that it will come true. Hope is wanting something so eagerly that—in spite of all the evidence that you're not going to get it—you go right on wanting it. And the remarkable thing about it is that this very act of hoping produces a kind of strength of its own. — Norman Vincent Peale.

Crowell Cemetery

Mrs. Darvin Bell, president of the Crowell Cemetery Association, reports the following donations to the cemetery were received during August and September:

The children of Mrs. Sarah E. Brown would like to express our thanks and deep appreciation to Dr. Stapp, the nurses for the wonderful care they gave our mother while she was in the hospital and to the entire hospital staff for the birthday cake and dinner prepared for her on her 92nd birthday. STATE CAPITAL Highlights AND Sidelights

by Bill Boykin
TEXAS PRESS ASSOCIATION

Ten members of the state jury can decide civil cases under new rules of civil litigation procedure adopted last week by the State Supreme Court.

Some attorneys said the key rules change would eliminate hung juries in civil cases, speed up trials and ease the backlog of civil cases jamming metropolitan courts. Others said the changes in discovery of evidence will reduce the number of actual trials. The latter change will allow all parties to a case to see what both sides have as evidence.

Another change would allow the State Supreme Court to reverse or modify a lower court finding or enter a new decision without awaiting formal arguments of contesting parties.

AGENDA GROWS AND GROWS—Gov. Preston Smith continued to open the special session call to new subject matter before any final action was taken on competitive insurance rates or gubernatorial fiscal powers.

Last Tuesday he dropped 16 more bill proposals on lawmakers for attention in a session due to wind up October 17. Among them were the following:

An \$8 million appropriation for a Fort Worth school for the mentally retarded, changing hunting and fishing license fees, allowing bond financing of voting machines in counties over one million population, allowing subdivisions to issue bonds for air control facilities and lease the facilities to private interests, amending retirement statutes to allow credit for certain military, state employment and judicial services,

Fund Started to Aid Former Crowell Resident

Miss Donna Sue Everson, a former resident of Crowell and daughter of Mrs. Joyce Everson and her late husband, Floyd, has been a patient for several months at John Sealy Hospital in Galveston.

A teen-ager, Miss Everson has undergone surgery several times during her stay in Galveston.

Medical expenses have been extremely heavy, and continue to be.

Several interested Foard County residents have started a "Donna Sue Everson" fund to assist the family during a time of need.

Donations should be mailed or delivered to the Crowell State Bank.

Two Minutes with the Bible

Can the 10 Commandments Save? St. Paul pointed out a basic Scriptural—and logical—truth, when he said: "For not the hearers of the law are just before God, but the doers of the law shall be justified." (Rom. 2:13).

Many people suppose that God gave us the ten commandments to help us to be good. The fact is, however, that He gave them to show us that we are bad. Rom. 3:20, 5:20, Gal. 3:19 and a dozen other Bible passages teach this clearly.

How can the law be of any advantage to a law-breaker? How can it justify us unless we keep it—perfectly?

Do you recall the woman caught in adultery, in John 8? She was a Jewess. She was better off than the Gentiles, for she had the law of Moses, but this didn't justify her; it condemned her.

So her "advantage" turned out to be a serious disadvantage, for "not the hearers of the law are just before God, but the doers of the law shall be justified."

James 1:23,24 says that one who knows the law but doesn't obey it, is like a man looking into a mirror, seeing his dirty face, and then walking away without doing anything about it.

This is why Rom. 2:14,15 declares that the consciences of the heathen confirm what the law says, "their thoughts the meanwhile accusing, or else excusing one another."

Those in heathen lands know that it is wrong to lie and steal.

Social Security News

The social security office receives inquiries every day about the merits of some private insurance plan which is advertised as a supplement to Medicare. Social security personnel cannot offer counsel or advice about private insurance, but they are happy to explain about the things Medicare does and does not cover. Then you can decide for yourself whether you need private insurance to supplement your Medicare.

Use of Firearms

Since 1966 the use of firearms to commit murder has increased 75 per cent, and assaults through the use of a firearm have increased 109 per cent.

Record Lemon Shark Landed at Galveston

Ronald B. Pugh of Galveston is the proud holder of a new state record for lemon shark.

Caught off the west beach of Galveston Island with 130-pound line, the shark weighed 357 pounds, four ounces. It was eight feet, 11 and 3/4 inches long with a girth of 66 1/2 inches.

Pugh's shark betters the previous record of 322 pounds set in May of this year.

If your six year old saw something like this, would he know how to phone for help?

It's too important a question to leave to chance. That's why we're running this ad.

If there are any six- or seven-year-olds around your house, teach them how to report emergencies. Tell them to dial "0", give their name and tell our operator where they are and what's wrong.

With older children, train them to dial emergency numbers direct, since that's the fastest way to call for help. But don't stop there. Copy down the emergency numbers listed on the inside front cover or first page of your telephone directory. Add your family doctor's number. And the number of the nearest hospital. Next, tack up the list near your phone.

Then get your kids to memorize it, in case it gets lost. By the time they're through memorizing those numbers, they're going to have every grownup in the house knowing them, too.

Which is also why we're running this ad.

Department of Public Safety Seeking Applicants for Uniform Services

The Texas Department of Public Safety is seeking applicants to fill the ranks of its uniform services. The training school for cadet patrolmen will begin Nov. 28. This announcement was made by Major C. W. Bell, regional commander of the Texas Department of Public Safety for this area.

Qualifications

Applicants must be males between the ages of 20 and 35; a height of not less than 68 inches nor more than 76 inches; a weight of not less than two pounds nor more than 3 1/2 pounds per inch of height; visual acuity no less than 20-40 correctable to 20-20; at least 30 semester hours of college credit; in excellent physical condition; good moral character and a citizen of the United States.

Employment

Applicants are urged to contact any Texas Department of Public Safety office or patrolman for an application. After completing the application take it to the nearest regional, district or sub-district Texas Department of Public Safety office for verification and certification. If all is in order then the written test will be administered which will qualify or disqualify the applicant for further consideration. Successful applicants will be given an agility test, a character investigation, and a physical examination. Those accepted for employment will be notified prior to the beginning date of the next training school.

Training

Cadet patrolmen will be assigned to the Texas Department of Public Safety Law Enforcement Academy at Austin for a 12-week training period. The training is designed to equip the cadet to handle any of the various situations he may encounter as a patrolman. The training of a patrolman is a test of an individual's intellectual, emotional and physical stamina. It is also an educational process which prepares him for a rewarding career in law enforcement.

In addition to classroom work the cadet is taught self-protection by means of judo, boxing, wrestling, and other police-protection methods.

The salary during training is \$600 per month.

Benefits

Upon being commissioned a patrolman, the salary is automatically raised to \$743 per month. Patrolmen receive additional longevity pay for each five years of service to a maximum of 25 years.

Uniforms, vehicles, weapons, ammunition and necessary equipment are furnished. They are also granted a monthly uniform cleaning allowance and receive travel expenses when away from their assigned station. Group life and hospitalization insurance are available at reasonable cost. The patrolmen become members of the Texas Employees Retirement System and the social security system. Vacation, holidays, and sick leave are also provided for the patrolmen.

Assignment

Assignments will be made to one of the four uniform services—Texas Highway Patrol, License and Weight, Motor Vehicle Inspection, or Driver License. These assignments are made according to the individual's preference, his aptitude, available vacancies, and the department's needs. Requests for a specific home station will be given every consideration.

After two years of experience, each patrolman is eligible for promotion to sergeant in the uniform services and also eligible for transfer into the Narcotic and Intelligence Sections.

All interested young men who feel like they meet these requirements are urged to contact the nearest Texas Department of Public Safety office or patrolman for an application and details.

CONGRESSMEN ISSUE MORE NEWS RELEASES

(Editor's note: The News receives considerably more releases from the congressional candidates than can be used. This week we took one news release from each candidate.)

Congressman Graham Purcell has been appointed to a high-level commission to review the federal government's efforts to clean up organized crime in gambling.

The commission was formed under the Organized Crime Control Act of 1970, which directed an all-out attack on organized crime and its sophisticated methods of operation.

Purcell, an attorney and district judge before his election to Congress 10 years ago, was named by House Speaker Carl Albert as one of two Democratic Congressmen who will serve on the commission. The other was Congressman William P. Culin, Jr. of Kentucky. Other commission members will be named by the Senate and by the President.

Under the public law creating the commission, it is directed to conduct a comprehensive legal and factual review of gambling, and to assess the effectiveness of existing practices in law enforcement, judicial administration and correction measures in the United States and other countries.

In appointing Purcell, Speaker Albert said: "I know of no member of Congress more keen to halt the spread of organized crime, or more equipped through legal and judicial background to bring the necessary experience and judgment to this critical study. Since his election to Congress in 1962, Congressman Purcell has consistently devoted his considerable talents toward combating organized crime in all its manifestations . . ."

A spot in the brain that operates to keep average people from over-eating has been found by two members of the Brooklyn, N. Y., Veterans Administration hospital staff, Dr. Albert Debons and Dr. Isidore Krinsky.

DON'T TAKE RURAL TEXANS FOR A RIDE... AND DON'T TAKE US FOR GRANTED.

HERE'S WHAT NIXON IS DOING TO RURAL AMERICA

WHEAT SCANDAL - Giant wheat exporters made huge profits at the expense of individual wheat farmers, many in Texas, on Soviet trade.

TAXES - Wall Street Journal says federal laws favor the corporation or investor who farms on the side for a tax write-off.

FARM ISSUES - Under Nixon, parity dropped the lowest since 1933. Nixon held up payments of nearly \$400 million for feed grains in 1970, forcing farmers to borrow at highest interest rates in history.

CONGLOMERATE SCANDALS - Big Business first, the public second - that's the Republican philosophy. Anti-trust suit against ITT dropped at the same time ITT pledged \$400,000 to finance Republican Convention.

Harry S. Truman said, 'The Republicans admire our government so much they want to buy it.'

Let's face it. The Republicans just haven't changed much since the days of our grandfathers. They still favor Big Business over the average working man and woman. And while they're taking us for a ride, they keep telling us what a 'dangerous radical' Senator McGovern is.

That's what they said about Harry S. Truman.

HERE'S WHAT McGOVERN IS DOING FOR RURAL AMERICA

HIS STANDING - George McGovern has been elected time and again as a Democrat from a Republican farm state . . . because they know where he stands.

TAXES - His tax proposal would end the loopholes for tax-loss farming by giant corporations and the wealthy individuals who compete unfairly with family farmers. McGovern's proposal calls for the same tax on capital gains as on earnings.

FARM ISSUES - He sponsored and co-sponsored: Meat Import Limitation Law; Dairy Import Act; Wheat, Feed Grain, and Soybean Emergency Reserve Bill; Rural Development, Rural Job Development, and Rural Telephone Acts; Farm Credit Act; and other pieces of important legislation.

HIS BELIEFS - George McGovern knows that the answers to many of our most pressing problems in America today can be found by developing genuine opportunities for everyone in our small towns and rural areas throughout the country.

Let's not be taken for granted by the Nixon Republicans. Rural America has always fared best under a Democratic administration. If you want to stand up and do something good for rural America, the answer is to help put a Democrat in the White House. We need George McGovern . . . and George McGovern needs us.

RURAL TEXANS NEED A DEMOCRAT.
RURAL TEXANS NEED McGOVERN

Residents Puzzled About Medicare's Outpatient Coverage

Many of Foard County's over age 65 social security beneficiaries are puzzled about Medicare's coverage of out-patient hospital services. According to Henry Chustz, social security manager in Vernon, these services come under medical insurance part of Medicare (Part B).

When people go to the hospital for diagnosis or treatment and are not admitted as bed patients, the services they receive are called "outpatient hospital services." It is immaterial whether the visit to the hospital is for diagnosis, or for treatment—both are covered by Medicare.

After the \$50 deductible has been met, Medicare takes care of 80 per cent of the reasonable charges for all covered outpatient services received. If the charge is \$50 or less and the hospital cannot determine how much of the \$50 deductible has been met, then the hospital may ask the patient to pay the entire bill. If he pays the bill, any Medicare payments that are due will be paid directly to him. Except in unusual circumstances, the hospital will prepare the Medicare claim and submit it for the beneficiary.

As in all other Medicare matters, if anyone has a question about outpatient benefits, he can call or visit the nearest social security office.

Medicare News

The medical insurance part of Medicare is voluntary and no one is covered automatically. You will receive this protection only if you sign up for it within a specified period. You will have this protection at the earliest possible time if you enroll during the 3-month period just before the month you are 65. Although you could enroll the following 3 months, your protection would not be effective the month you are 65. Don't delay. Enroll early!

An increase from \$12,500 to \$17,500 in Veterans Administration grants to eligible veterans for the purchase of "wheelchair homes," effective July 10, 1972, was the second hike in three years.

Social Security Beneficiaries Must Report Certain Events

Social security beneficiaries are responsible for reporting events that affect their entitlement to monthly cash benefits, according to Henry Chustz, manager of the social security office in Vernon.

Beneficiaries should promptly report events. These include reporting marriage, divorce or annulment, adoption of a child beneficiary, change of address, a mother under age 62 no longer having in her care a child under 18 or disabled, a child nearing age 18 who is a full-time student or is disabled, or a child between age 18 and 22 who has a change in school attendance. Social security beneficiaries under age 72 should report when their earned income will be more than \$1680 in a year. Another reminder is that someone should report when beneficiaries have become unable to manage their own funds, or when they die.

Chustz also stated that disabled workers entitled to social security benefits are responsible for reporting if they go to work or if their condition improves to the extent they become able to do substantial gainful work, even though they may not be working.

Reporting cards are furnished beneficiaries for convenience. Anyone needing assistance in making a report or who has a question should contact their social security office either by phone or by personal visit.

Harbinger Geese Arrive in State

Recent cold Canadian air has pushed the first geese into the state, according to Texas Parks and Wildlife Department officials.

The harbingers of the fall waterfowl hunting season were found in the vicinity of Eagle Lake the last week of September.

Department game management officer Leo Kohleffel reported about six speckled-belly geese there.

Texas has a split season on geese and brant this year, Nov. 4-28 and Dec. 9, 1972-Jan. 24, 1973.

MATADOR PUBLISHER WILL BE HONORED

An historical marker honoring a pioneer Panhandle publisher and author of a nationally-famous column and book will be unveiled at Matador Sunday, October 15.

The plaque will honor Douglas Meador, editor and publisher of the Matador Tribune, whose column "Trail Dust" has been more widely quoted than any other newspaper column in Texas.

His book, also named "Trail Dust" was republished in recent years by Nortex Offset Publications Inc. of Quanah. The book is available from the author.

The historical plaque is being placed by the Cimarron Valley Historical Association on the court house square in Matador near the offices of The Tribune where "Trail Dust" was born.

A dinner attended by fellow newspaper publishers over the area will be held at noon followed by the unveiling and dedication of the marker at 2 p. m. Harold (Tex) Brown, president of the Cimarron Valley Historical Association, will be joined by Meador's fellow members of the fourth estate to participate in the ceremonies.

All officers, directors and members of the Panhandle Press Association and the West Texas Press Association, along with other special guests have been invited to the dinner and the dedication. Tickets for the dinner at \$2 each may be obtained by writing the Quanah Tribune-Chief, P. O. Box 120, Quanah, Texas 79252.

During the dinner, a proposal to establish a newspaper museum in the West Texas-Panhandle area to honor pioneer newspapermen will be discussed. Brown said the Association is interested in working with area newspapers on this project.

Born in Matador, Douglas Meador was six months of age when his parents left, and eventually settled on a farm five miles from Paducah, where he grew to manhood. He walked over three miles to a rural school and rode horse back to Paducah for his high school education.

He developed a desire to write, as a boy, and before dawn some winter mornings, he would wrap his feet in old quilts and write in a room without heat.

About the time he reached manhood, Meador went to Hollywood in the pursuit of writing. He sold three short plays to a small independent film company which later went bankrupt. He worked in a drug store for four years and studied writing. The fifth year he worked as an electrician for Fox Studios, and his sixth year in California he sold real estate.

Because of poor health, he returned to Texas in 1928 and to his native Matador, where he worked in a drug store. He married in 1929, a few months before the stock market crash. Out of a job, he worked in a grocery store for one month, then secured his first newspaper job in the advertising department of the Childress Daily Index. After three months he resigned and, returning

to Matador, started working for the Motley County News. Three months later he lost his job because of the depression.

He worked as a roughneck on a pile-driver for four months at 20 cents an hour (\$12 a week) and because of an injury was forced to quit. He operated a filling station for 10 months, and then started the first Matador Tribune, which he had printed in Floydada. After seven issues, he was forced to cease publication.

In 1932 he was offered the job of printing the handset Roaring Springs News, eight miles away. He started in this newspaper venture with \$1.43. After 15 months, he moved the newspaper plant to Matador, acquired a partner and formed the Tribune Publishing Company. They purchased the Motley County News, and the Tribune became the only publication in Motley County. In 1935 Meador purchased his partner's interest (in the indebtedness) and has been publisher of the newspaper for over a third of a century.

For six years (1948-1954) Meador served as Mayor of Matador, without pay.

Meador started his column, "Trail Dust" in his first paper. It attracted interest in 1934 when it won an award as the best column in Texas. It has appeared in all types of publications from the Baptist Standard, to books of quotations. Reader's Digest has used it three times recently. It has appeared often in "Quote" Magazine and is used by many newspapers, including the Los Angeles Times, as well as nearby country weeklies. It has won numerous state and regional awards as an outstanding column.

Meador is a member of Sigma Delta Chi, professional journalistic society, and in 1952 he was named Texas Newspaperman of the Year by the Dallas professional chapter of the organization.

Trail Dust has been quoted in these religious publications: Baptist Standard, Methodist Home Life, Christian Courier, Laymen's League and Tarbell's Teachers' Guide to the International Sunday school lessons . . . and by New York columnists Earl Wilson

Keeping An Eye On the Goal

Three boys on a winter walk with a camp counselor at a state park came upon a field of freshly fallen snow. Not a single track marred its whiteness. The leader suggested that the boys see which one could walk the straightest path through 100 yards or so of snow.

The first boy started out looking down to watch each step to make sure that he put one foot down directly in front of the other. He did not look up, nor did he look back. He simply watched his feet. When he got across the field, he looked back and saw that there was a distinct curve to the path he had made.

The second boy decided to check

the straightness of his path as he walked along. Every 15 or 20 yards he stopped to correct any deviation from the straight line he was trying to make. He did better than the first boy, but his completed path consisted of segments—one veering to the left, corrected by another veering to the right.

Seeing how the others failed, the last boy picked out a tree across the field. Then he stepped into the snow. He did not look down at his feet, nor did he look back at the trail he was making. He looked straight ahead at the tree before him and walked briskly toward it. This boy made the straightest path of all.—Nuggets.

Human improvement is from within outward.—Froude.
