

## Area Manhunt Ends with Arrest Near Lockett

An intensive manhunt which led area law officials from the Crowell vicinity into the Pease River bottoms, ended Friday at 7:30 p. m. near Lockett with the arrest of Harold Thomas Houck, 22.

The chase came from an effort by Foard County Sheriff Emmitt E. Howard to serve a warrant on Houck. He fled when approached

by Sheriff Howard and a high-speed chase led through the Margaret area, where Houck abandoned his car and fled for the rugged Pease River breaks.

Houck's capture was a result of a witness who saw a man flag a pickup with a camper and ride off. Vernon highway patrolman Warlick Dollar then stopped the pickup near Lockett and placed Houck under arrest. He was then turned over to Foard County officials where he was sought for bond jumping.

Wilbarger county officers had sparked the chase by asking that a warrant be served on Houck on a charge of misdemeanor theft. He is expected to face the Wilbar-

### Alcoholism Representative Is Named

Appointment of B. E. "Rusty" Jones of Paducah as representative for Foard, Cottle and Chilton counties in a newly-funded community alcoholism program has been announced by the North Texas Regional Council on Alcohol Abuse and Alcoholism.

The North Texas Regional Council on Alcohol Abuse and Alcoholism is neither "wet" nor "dry," it holds no brief either for or against social drinking. It does not engage in or encourage any activities to promote or prevent the sale or consumption of alcoholic beverages. It is concerned solely with the control and prevention of alcoholism as a disease.

The Council believes alcoholism is a disease and the alcoholic is a sick person; that the alcoholic can be helped and is worth helping; that alcoholism is a public health problem and therefore a public responsibility.

The aims of the Council are as follows, with the primary purpose being the prevention of alcoholism through public information and education. It acts as a referral and information center for the sick alcoholic, the family, friends, or employer of the alcoholic. It provides information and training for those who deal with the problem of alcoholism, professionally or otherwise. It serves as a coordinating agency for other resources involved with the problem of alcoholism.

The scope of alcoholism is formidable, it being the third largest health problem in the United States. More than 80 million Americans drink, and approximately one in 15 develops the disease of alcoholism, which he is powerless to control by himself. Alcoholics in the U. S. total an estimated 6,500,000. Only a small percentage are the visible skid-row type. Over 90 per cent of this country's alcoholics are to be found in their homes and at their jobs trying to lead normal lives.

Mr. Jones says, "We can all help by being informed, by telling our friends the simple facts and supporting your local Council on Alcoholism. Remember, alcoholism is a disease; it can be controlled and you can help control it."

The administrative office will be in the Veterans Building in Paducah. The services of this office are available to any individual, club, organization or group of persons, who would be interested in any education, or information about alcohol. Mr. Jones says call him at 492-3612 or write Box 816, Paducah, Texas.

### Two Minutes with the Bible

Three Billion Wills

As long as man remained obedient to the will of God, his Maker, all was well with him. His life was perfectly balanced because it was centered in God. As soon as he listened to Satan, however, and set his will against God's, all began to go wrong. His life was now off center and out of balance.

It was no longer subject to one central Will. Alienated from God, man now reaped the fruits of his rebellion, not only in his banishment from Paradise, but in the self-will of his offspring.

Of the first two children born into the world, one bludgeoned the other to death and this was but the beginning. Whereas God had originally created man in His own "image" and "likeness" (Gen. 1:26,27), we read later that Adam begeth Seth "in his own likeness, after his image" (Gen. 5:3).

And so parents down through the ages have begotten children like themselves, with fallen natures and wills of their own, until today we have some three billion wills operating in the world instead of the one, central will of God.

This does not mean, however, that God has abdicated, or that the future of the world is now subject to the wills of three billion fallen creatures. Nor was God forced to formulate new plans because of the fall of man. Far from it, for despite man's rebellion—even through it—God has been carrying out His plan and every true believer rejoices that God "worketh all things after the counsel of His own will" (Eph. 1:11). While He does not rule directly in the affairs of men, He very definitely overrules, and as a result "all things work together for good to them that love God, to them who are the called according to His purpose" (Rom. 8:28).

# TWENTY-THREE BOYS TAKE TRACTOR COURSE

A special program for training of youth for exemption from the hazardous agricultural occupation law was held Monday and Tuesday, May 7 and 8, in the vocational agriculture building at the Crowell High School, according to information furnished the News by Marvin Myers, vocational agriculture teacher, and county agent Joe Burkett.

Twenty-three youths received a total of 14 hours training each in tractor safety, maintenance, and operation.

This special training program was provided for and in accordance with the U. S. Department

of Labor Agricultural and Child Fair Labor Standards Act as amended January 7, 1970.

Myers and Burkett were in charge of the school, and served as instructors for the 14 hour course.

Those completing the course and who were awarded certificates of exemption from the Hazard Agricultural Occupation Order of the Department of Labor are as follows: Jerry Daniel, Timmy Christopher, Louis Cerda, Gilbert Torres, William Bachman, Jimmy Daniel, James Aranda, Lloyd Smith, Tommy Tamplen, Tim Garrett, Fred Gray, Norman Hopper, Audy Dunham, Randy Fish, Erwin Jackson, Kim Daniel and Carl Robinson.

Others finishing but who will not be awarded their certificates until they are 14 years old are: Pat Norman, Rocky Marlow, Ramiro Quintero, Gary Cabral, Billy Foster and Leslie Nichols.

Myers and Burkett expressed their appreciation to the school for its help.

Any farmer desiring to hire one of these boys must request and keep in their files the employer's copy of the boy's exemption certificate.

## Gardeners Advised to Watch for Aphids

Fruit and vegetable growers and home gardeners should be especially watchful now for aphids, says county agent Joe Burkett.

The small sucking insects enjoy warm days, cool nights and juicy new plant growth. Aphids often go undetected until they have started causing extensive damage.

Their presence can be detected by honeydew, a sweet, sticky substance they secrete. The honeydew attracts fungi, molds and insects and also makes the mowing and baling of aphid-infested alfalfa difficult.

Burkett has a list of insecticides that control aphids and he will be glad to assist anyone who needs to rid their garden of these pests.

All that is necessary for the triumph of evil is that good men do nothing.—Edmund Burke.

## CHS Band Plays in Six Flags Contest Last Week

The Crowell Wildcat Band, under the direction of James Streit, participated in the tenth annual Six Flags of Texas Concert Band Festival at Arlington May 10-12.

The local band received a Division II rating in the contest. Fifty-five bands from five states took part in the competition sponsored by the big theme park. The bands played before a panel of three judges in the Golden Palace Ballroom of the Inn of the Six Flags.

The Crowell band went into the warm-up room at 7:30 a. m. Friday, and played at 8 a. m.

The bands traveling the greatest distance to appear in the event were from Mayfield and Henderson County, Kentucky. Other states represented include Texas, Oklahoma, Arkansas and New Mexico.

Because of the size of the entry list, judges were listening to band music from 9:30 a. m. to 5 p. m. Thursday; from 7:30 a. m. until 6:30 p. m. Friday; and from 8 a. m. until 6:30 p. m. Saturday.

The judging panel included James Jorgenson, director of bands at the University of Redlands; William E. Rhoads, director of bands at the University of New Mexico, and Dr. Mark Hindsley, former director of bands and professor of music at the University of Illinois.

Dr. Hindsley is also a past president of the College Band Directors National Association and the American Bandmasters Association.

All bands entered in the competition had either won a first division rating in their state competition during the spring of 1972, or a first division title in the Six Flags contest during the past two years.

The bands competed in five categories: junior high and classes A through AAAA.

Other class A bands entered besides Crowell were Mason, Konowa, Okla., Clint, Sonora, Thomas, Okla., Bronte, Wilson, Elmore City, Okla., Albany, Spur and Holiday.

## Tyranny Is Not Easily Conquered

Tyranny, like hell, is not easily conquered; yet we have this consolation with us, that the harder the conflict, the more glorious the triumph. What we obtain too cheap, we esteem too lightly; 'tis dearness only that gives everything its value. Heaven knows how to put a proper price upon its goods; and it would be strange, indeed, if so celestial an article as Freedom should not be highly rated.—Thomas Paine.

A Weekly Report Of Agri-Business News  
Compiled From Sources Of The Texas Department of Agriculture  
John C. White, Commissioner

Farm Prices Decline... Read Meat Production Increases... Cook-Off Contest is May 19.

What goes up must come down; at least that is true for farm prices. The all-farm products index of prices received by Texas farmers as of April 15 is down 10 points from the previous month. The livestock and livestock price index was down five per cent from a month ago.

Hog prices averaged \$34.50 per hundred pounds, down almost \$7 from a month ago. Beef cattle at \$43.60 per hundred pounds are down \$2.50 from a month ago. Calves at \$56.80 per hundred pounds are \$6.60 under a month ago.

Sheep at \$16.90 per hundred pounds are \$2.10 under last month. Lambs at \$36.10 per hundred pounds are \$4.50 below a month ago.

Turkeys and eggs showed price increases during the recent month. Turkey prices averaged 33 cents per pound compared to 28 cents a pound a month ago. Egg prices reached an average of 58 cents per dozen compared to 53 cents a month earlier.

Wool and Mohair prices remained unchanged from a month ago. In crops, wheat was up four cents at \$2.20 per bushel. Grain sorghum was down a penny at \$2.76. Corn at \$1.73 per bushel was down two cents per bushel.

Despite price increases during 1972, livestock producers did not achieve full parity. No category of livestock achieved full parity throughout the year. The average price of cattle, calves, hogs, sheep and lambs in Texas during 1972 was \$35.85 per hundred pounds.

The average parity price for those categories of livestock during 1972 was \$42.06 per hundred pounds, thus the average price the farmer received was more than \$6 under the average parity price during 1972.

RED MEAT production in Texas during March showed a nine per cent increase above a month earlier. Cattle slaughtered during March in Texas totaled 300,000, which is up 31,000 over the month ago. During the first three months of 1973, a total of 865,000 head of cattle were slaughtered in Texas.

Average live weight of cattle slaughtered was 934 pounds compared with 928 a month ago. Hog slaughter in Texas during March was down 6,000 compared to a month ago.

TWENTY-FOUR state finalists will compete in Austin May 19 in the annual grain-fed beef cook-off, coordinated by the Texas Department of Agriculture. The contestants will be competing for the grand prize and category prizes of \$200 each. The three categories of the contest are: tender cuts, such as steaks; less tender cuts, such as stew meat; and variety cuts, such as liver and kidney.

Winning recipes will be published. Sponsors of the cook-off are the Texas and Southwestern Cattle Raisers Association, the Texas Cattle Feeders Association, the Texas Meat Packers Association, and the Texas Cow Belles.

Quotes... Half of the things that inhibit and frustrate us are just the creation of our imagination. So many of the iron doors of life are creation of fear. As for the few troubles that remain, God has given us spiritual resources of such a nature that we can make the largest obstacles seem to be of little consequence.—H. T. Donaldson, D. D.
