W. S. Russell Honored Sunday One Hundredth Birthday

A large crowd of relatives and friends gathered at the community center in Crowell Sunday afternoon to honor a pioneer Foard County resident, Mrs. W. S. J. Russell, who on Friday, August 31, observed her 100th birthday.

Following a family dinner and before the afternoon reception, Mrs. Russell's grandson, Sam David Russell of Quanah, presented a short "This Is Your Life" type program depicting the highlights of his grandmother's life.

Hosts for the reception were Mrs. Russell's six children: Mrs. Lottie Estes of Vernon, Ed Russell, Tom Russell and Mrs. Maggie Gentry of Crowell, Mrs. Mattie Green of Levelland and Rudell Russell of Ardmore, Okla.

Mrs. Russell and her late husband moved to Foard County in 1898, and she has resided here since that time.

More than 170 persons registered.

Much-Needed Rain Falls in Foard County

Foard County received some much-needed moisture during the week end. Scattered showers crossed the area last Saturday morning, and dumped almost an inch of rain here in town.

Duane Johnson of the Vivian community received .6 inch, while Tom Smith east of Margaret received 1.2 inches. Most other areas reporting received around an inch.

The cotton and feed grains were needing the moisture—as well as pastures and wheat land. The month of August saw very little moisture fall in Foard County.

Crowell Wildcats Travel to Quanah Friday for First Football Game

The Crowell Wildcats football team will be playing its first game under new Head Coach Printiss Gidney, Friday night when the Cats take on the Quanah Indians at Indian Field in a game scheduled to begin at 8 o'clock.

"They're tough" was Coach Gidney's description of the Indians this year. He said they got beat by the Memphis Cyclones in a scrimmage, but considering Memphis' strength this year, Gidney said this did not take anything away from the Indians. He said they have an experienced team with most of the starters being seniors. Quanah has a new head coach this year, Gerald Combs, who last year took the Nocona Indians to the playoffs.

The Wildcats have looked good in their two scrimmages this season. They won by a touchdown over the Childress Bobcats two weeks ago, and at Throckmorton last Friday night, the Cats won by seven touchdowns.

Steve Graves will be starting at the quarterback position for the Cats with other members of the backfield being Philip Bell, right half; Ernest Barrera, fullback; and Randy Dorsey, left half. David Bell is offensive right end; Fred Matysek, right tackle; Hal Williams, right guard; Melvin Westover, center; Ernie Myers and Ricky Hammonds, alternating at left guard; Allen Tapp, left tackle; Rocky Glasscock, left end.

Coach Gidney said Barrera, injured in a workout last week, may not play against Quanah. Also Monday, the coach wasn't sure about whether Dorsey would play or not.

Gidney's assistants this year are Jerry Don Anderson and Russell McGough.

Much-Needed Rain Falls in Foard County

Foard County received some much-needed moisture during the week end. Scattered showers crossed the area last Saturday morning, and dumped almost an inch of rain here in town.

Duane Johnson of the Vivian community received .6 inch, while Tom Smith east of Margaret received 1.2 inches. Most other areas reporting received around an inch.

The cotton and feed grains were needing the moisture—as well as pastures and wheat land. The month of August saw very little moisture fall in Foard County.

Crowell Wildcats Travel to Quanah Friday for First Football Game

The Crowell Wildcats football team will be playing its first game under new Head Coach Printiss Gidney, Friday night when the Cats take on the Quanah Indians at Indian Field in a game scheduled to begin at 8 o'clock.

"They're tough" was Coach Gidney's description of the Indians this year. He said they got beat by the Memphis Cyclones in a scrimmage, but considering Memphis' strength this year, Gidney said this did not take anything away from the Indians. He said they have an experienced team with most of the starters being seniors. Quanah has a new head

WANDERING WILDCAT

As school opens across this entire great nation, many people feel we at C.H.S. are just sitting around twiddling our thumbs and waiting for our next vacation. This is definitely not true at C.H.S. To illustrate the point, one wandering wildcat visited several classes last week and heard these various explanations:

Mr. Gafford: When I said square roots, I didn't mean bring diced beets.

Mr. Welch: No, I never studied chemistry under Dr. Jeckyll at Transylvania University.

Mrs. Halbert: Just because you talk a lot doesn't mean A's in speech.

Mr. Hobson: I will accept no more book reports on Nancy Drew adventures.

Mrs. Hord: No, I do not classify the "Love Machine" as a classic.

Mr. Vajle: No, Columbus' first walk on America was not

televised.
 Coach Gidney: No, Washington was not flooded when Watergate broke.

Coach McGough: No, we cannot make allowances on speed tests for the time you spend getting your fingers uncaught.

SENIOR SPOTLIGHT

Susan Autry is the hazel eyed, brown-haired senior in the spotlight this week. Born on July 4, 1956 to Mr. and Mrs. J. C. Autry Jr., she now stands 5'4". She attends the First Methodist Church.

Her favorites include: Food: pizza; Song: "Clouds" by David Gates; Group: Bread; Actor: Ryan O'Neal; Subject: Home-making; Hobby: Twirling and reading.

Susan has served 4 years in F.H.A., presently serving as V.P. She has been in Adelphian Club for 4 years and served as Federation counselor, and now serving as V.P. She has been twirler for 4 years in the high school band and is serving as head twirler this year. She is now band treasurer, and has received a trophy for outstanding twirler in 1971 at West Texas Music Camp. She has participated in UIL, State Solo and Trio music on the flute.

Her future plans are to go to college and major in history or homemaking.

SENIOR NEWS

The senior class met Monday in Mr. Gidney's room to discuss a "Watermelon Party." The class decided to go to the State Park for the party. President Butch Borchardt presided. The class met at the school parking lot to leave for the park. Fun, they had!

After a long hot time in the V.A. building, the senior boys helped install a new air-conditioner for cool comfort while in class.

The class had two tests on Friday. A chemistry and history test.

Last Friday night the Wildcats scrimmaged Throck-

morton at Throckmorton. Seniors say: "Cats all the Way!"

JUNIOR NEWS

Homework. Homework. Homework! It seems like that's all the teachers at C.H.S. think about. Of course that's what everybody says about school.

This year we have seven mighty Juniors of the football team. They are Ricky Hammonds, Hal Williams, Allen Tapp, Keith McDaniel, Randy Prince, Don Sparkman, and Chavelo Ranjel. These boys show a fine representation of the Junior class in the scrimmages and we back them all the way! Also out on the field will be four more Junior faces in the form of cheerleaders, twirler and mascot. They are Karen Staser, Sally Gerhardt, Jana Russell, and Barbie Scott, respectively. Friday night we will see all these and many more as the Wildcats play the Quanah Indians. Juniors say "Claw the Indians!"

SOPHOMORE SCOOP

The Sophomores started off this week with a bang. Then towards the end of the week they learned why they had to do homework, have classes, etc.: TEST. The Wildcats had their second scrimmage at Throckmorton Friday night. The sophomore members in the pep squad this year are: Pam Whatley, Betty Collins, and Kristi Shirley. The sophomore cheerleader is Kim Norman. The whole sophomore class wishes the Wildcats good luck.

FRESHMAN FROLICS

The freshman boys playing football this year are: Gilbert Torres, Rocky Marlow, Carlos Hudgens, Erwin Jackson, Ramiro Quintero, Steve Criss, Lloyd Smith, Norman Hopper, William Bachman, Louis Cerda and Audy Dunham. We wish them luck during the exciting football season.

Cheering these Wildcats to Victory are the Freshman Pep Squad girls. They are: Betty Coudrey, Betty Whitfield, Vickie McDaniel, Sharon Cox, Debra Daniel and Anita Vecera, freshman cheerleader.

AUSTIN TEX.--Next big political campaign shaping up is for legislative pay raises and annual legislative sessions on the November 6th election ballot.

Top four elected Texas officials launched the campaign with the cooperation of 35 citizens' organizations.

Gov. Dolph Briscoe, Atty. Gen. John Hill, Lt. Gov. Bill Hobby and House Speaker Price Daniel Jr. are united in support of Constitutional Amendment One.

The amendment would raise legislative pay from \$4,800 a year (plus expenses to \$15,000 plus \$18 a day during sessions).

It would also provide for regular legislative sessions of 180 days during odd-numbered years and of 60 days, mainly for budgeting matters, during even-numbered years.

Austin attorney Will Davis was selected chairman of the organizational support group, with Phil Strickland of Dallas as vice chairman.

An executive committee headed by Davis and Strickland will work with the 35 cooperating trade, civic and professional associates in the campaign. (Texas Press Association is among the organizations.)

"This is a must thing," said Attorney General Hill. "It is a necessity that we pay the right amount for an honest day's work in a very high calling."

"Annual sessions in this day and time are essential for an efficient, responsible, intelligent and accountable legislative branch to properly function," said Daniel.

The statewide support organization will coordinate fundraising and publicity activities for the campaign.

Legislators have been paid \$4,800 a year since 1960.

Voters defeated proposals for pay raises in 1965, 1968, 1969 and 1972.

They also rejected annual sessions of the legislature in 1969.

COMMISSIONER RESIGNS. Byron Tunnell resigned his position as a member of the Texas Railroad Commission and was immediately replaced by Mack Wallace of Athens.

On September 15th, Tunnell, 47, will become vice-president of Tenneco of Houston in the company's governmental affairs department.

Wallace, 43, a former district attorney, has been serving as executive director of Governor Briscoe's Criminal Justice Council and as legal advisor to the governor. Briscoe appointed

him two days after Tunnell's resignation.

Tunnell was appointed to the powerful, three-member oil, gas and transportation regulatory agency by former Gov. John Connally in 1965, succeeding Ernest O. Thompson. He was re-elected to a six year term in 1972.

Vending Records Blocked--Vending industry leaders blocked House Speaker Price Daniel Jr.'s effort to make public records of a 1968 legislative investigation of the industry.

Raymond B. Williams and Burnie H. Williams in their lawsuit contended release of the investigation record held by the Department of Public Safety in a confidential file would cause "possible abuse" through circulation of "ill-based stories." Their case was set for hearing September 6.

Meanwhile, a former Austin vending machine operator claimed he made cash payoffs to a state representative, a state judge and an ex-state senator.

Daniel said he is considering a new House sub-committee investigation of the coin-operated amusement machine industry.

Telephone Savings Claimed. Legislative Budget Board approved a new telephone system for state agencies which reportedly will save a million dollars a year.

The system, pushed by Governor Briscoe, would link all state agencies over Texas and provide a toll-free long distance service nationwide. An installation charge of \$170,000, plus \$350,000 a month is required for the TEX-AN communications network.

LBB advised Briscoe to be cautious he is not buying more out-of-state service than necessary. One member, Rep. W. S. Healy of Paducah, said the telephone company should be required to improve service to ordinary citizens before the state purchases TEX-AN. Present state telephone service now costs about \$431,201 a month for long distance and WATS lines.

AG OPINIONS.With some exceptions, Welfare Department records on child care facility licensing are public, Attorney General Hill held, although identity of persons covered by social and health records would remain confidential.

In other recent opinions, Hill concluded:

Fees assessed adult probationers can be used for juvenile probation at discretion of judges, although they should

be used primarily for adult probation purposes.

No member of the 63rd Legislature would be eligible to be appointed to the office of House administrator, having resigned from the legislature to accept it. But Rep. James D. Cole of Greenville took the job without salary.

County commissioners can hold bond elections for buildings and acquiring books for library purposes.

APPOINTMENTS. Lorenzo D. Cole of Houston is first executive director of the Governor's Office of Equal Employment Opportunity.

W. J. (Bill) Harding of Austin has been designated chief clerk of the State Board of Insurance effective September 1.

Governor Briscoe appointed Kaufman County Attorney Harold D. Hollingsworth criminal district attorney for the county.

He appointed James Arnold acting director of the Office of Traffic Safety.

District Judge Herman Jones of Austin will head a special fact-finding committee to inspect conditions at Austin State School.

Joe G. Moore Jr., director of the Office of Research at the University of Texas Lyndon B. Johnson School of Public Affairs, became program director of the National Commission on Water Quality Sept. 1st.

Sen. Lloyd Doggett of Austin was named by Lt. Gov. Bill Hobby to the State Legislative Library Board.

Raymond L. Prewett is head of the governor's Division of Rural Community Affairs.

800,000 NEW ADULTS. Texas picked up about 800,000 new adults overnight August 27 when a law took effect granting majority rights to 18-to-20-year-olds.

Under the new law, the young Texan can buy alcoholic beverages, enter contracts, get married without their parent's consent, and serve on juries, among other things.

A total of 249 acts of the 63rd Legislature took effect last week. Among them was reduction of the penalty for first offense possession of marijuana (up to four ounces) to a misdemeanor.

Planning Regions Re-Identified--An executive order by the Governor redelineated state planning regions after a four-month review.

Regions are Texoma State Planning Region, Heart of Texas State Planning Region and Middle Rio Grande State Planning Region. Karnes County was realigned from the Coastal Bend State Planning Region to the Alamo State Planning Region, and Hardin County from the Deep East Texas SPR to the South East SPR.

SHORT SNORTS

Dr. George Willeford of Austin is expected to step down as state Republican chairman in October.

American Petrofina Company of Texas announced prices

INSURANCE OF ALL KINDS

increases up to 15 cents a barrel for crude oil purchased from leases, as did Coshden Oil and Chemical Company.

The House Administration Committee reaffirmed a decision to buy a new \$721,000 voting machine in spite of criticism from Lt. Gov. Hobby and others.

Among new laws which just went into effect is one prohibiting denial of credit and loans on the basis of sex.

Bilingual application forms are available for expanded statewide food stamp program.

Passenger boarding of Texas intrastate airlines increased 13 per cent over the previous quarter.

The Governor asked President Nixon to declare Sabine County a major disaster area due to flooding.

Medicare Enrollment Is Automatic

Medicare enrollment is now automatic for most social security beneficiaries, according to Henry Chustz, manager of the Vernon Social Security Office. "Procedures were changed recently to make enrollment as easy as possible," Chustz said.

Persons already entitled to social security benefits will receive a Medicare card attached to the enrollment from about three months before the month of initial Medicare entitlement. "If they agree to the enrollment, all they need to do is tear off the Medicare card and keep it for future use," he said.

Those who do not want "Part B" coverage should indicate this on the form and return it intact to the Social Security Administration. Part B helps pay for doctor bills and other services. For the coverage, the beneficiary must pay a monthly premium.

Chustz emphasized that this is a new procedure and that persons should read the instructions carefully. A small number of persons have returned the form when, in fact, they want the coverage. Persons having questions about the new procedure should contact their Social Security Office.

Meat Shortage, Cattle
 The consumer is hearing more and more a phrase especially with reference to recent meat boycotts and hoarding, says a marketing specialist with Texas Agricultural Experiment Station. With regard to the situation, fed cattle prices expected to rise all September 12 ceiling, but should drop back to cents per pound during pass-through phase.

County Gov't A Bargain
 The cost of county government is still a bargain, specialist for the Agricultural Extension Service County officials, since elected by the people, their personal stake in serving their respective offices has with maximum efficiency and reasonable cost. Texas has more than 5,000 elected county holders.

What You Need... WHEN You Need It

WHEN you have a prescription that needs filling... when your car acts up... when you almost forget some important gift-occasion... or when some other Emergency comes along... it's nice to be able to buy what you need... right here where you live... WHEN you need it.

In fact, most of the Emergency Needs that confront us from time to time, are not real problems at all... because local stores and service people are only minutes away, and those needs are promptly filled for us.

But... just suppose that a lot of us take the bulk of our trade... our large purchases, and our everyday buying... to cities and towns 50 or 100 or more miles away... and buy at home only when we haven't time to wait until we can go somewhere else to get it. Then, with their trade volume lower, could we expect local business to be able and ready to serve us in emergencies?

Or, some day, if we need medicine, or a spark plug, or other vital item... will we have to make a long trip to some distant city to get it?

It Pays to Buy Where You Live

2 MINUTES With the Bible

CONTINUE THOU

"Evil men and seducers shall wax worse and worse... but continue thou" (II Tim. 3:13,14.)

These were among the last words of the great Apostle Paul, written in view of his approaching martyrdom, to Timothy, his beloved son in the faith.

Circumstances, outwardly, were anything but encouraging. It seemed that the last days of the dispensation of grace were indeed at hand. The apostle had borne many "persecutions" and "afflictions" and "now suffered trouble, as an evil doer, even unto bonds." There were those who, like James and Jambres, had "resisted the truth" (verse 8). "Alexander the copper-smith" had done him "much evil" and had "greatly withstood his words" (4:14,15). "Evil men and seducers" had risen on every hand and were to

"wax worse and worse, deceiving and being deceived" (3:13.)

There was even defection among his own brethren in the faith, so that now, from his Roman prison, he had to report: "All they which are in Asia have turned away from me... Demas hath forsaken me... only Luke is with me" (1:15; 4:10,11).

And what, now, is his parting advice to young Timothy? Does he say: "Perhaps I have been too intense. My methods have made many enemies. I advise you to be more diplomatic and tolerant than I have been?" Hardly, for the records show Paul to have been of all men most tactful and considerate. His sufferings were not the result of a contentious spirit, but of his faithfulness in proclaiming that message which so embarrasses and enrages "our adversary, the devil," that message which is God's

gracious response to man's need and His answer to Satan's slander—the gospel of the grace of God.

Thus it is that the Apostle urges Timothy: "Continue thou... be not ashamed... be strong." He well knew that in this sin-cursed world the only hope for the individual is to be found in God's offer of salvation through faith in the redemption wrought by Christ at Calvary.

Youth Hunter Safety Training Important

Hunter safety training for the state's youngsters is becoming of increasing importance and Parks and Wildlife Department Executive Director Clayton Garrison announces the adoption of a new commission policy on the hunter safety training program.

Hunter Safety Coordinator T. D. Carroll has released some of the major contents and guidelines of the policy.

"We are embarking on a program," said Carroll, "which utilizes the expertise of the department's Information-Education division, law enforcement personnel and the some 1,000 volunteer safety instructors across the state."

The department's law enforcement administrators have actively sought a larger role in the program.

"After instructional materials are distributed to district Parks and Wildlife Department offices," said Carroll, "district law enforcement supervisors and game wardens will assume a more responsible and active role."

"Each warden will see that at least one hunter safety training class is held each month in his county,"

Also, the supervisors will schedule training sessions for the wardens and local volunteers to keep the instructors up-to-date, standardize and upgrade the quality of instruction and stimulate inactive instructors to participate in the program.

"Of the 1,000 volunteer instructors in Texas," said Carroll, "only 22 per cent of them have been responsible for the 3,552 students certified as safe hunters."

Locally, the three instructors in this county—Joe Don Brown, John McAllister and Jim Mack Gafford—have conducted two schools in the county during the past two years.

Carroll pointed out that the volunteer instructor is the backbone of the program and the key to its success.

The Texas Hunter Safety program is open to all youngsters 12 years of age or

older. A one-dollar registration fee is charged for each student enrolled.

What One Person Can Do

Robert Jenkins, Detective knows why many small boys in his Miami, Florida, district steal. "I'd ask them why," he explains, "and they'd tell me, 'Well, I don't have any clothes, and I don't have anything to eat.' I'd check our files, and it was true. The majority of the houses they'd break into, they'd take soft drinks, food, change."

Officer Jenkins quietly befriended the youngsters. He collected clothing from friends and used his own lunch money to buy sneakers for boys who would skip school rather than go to class barefooted.

"It hurts a boy's pride to be a charity case," he points out. "I collect good used clothes and take it to the boys myself. They accept things from me, because they know they can pay me back... They tell me things they'd tell no one else. That's why I've solved more burglaries than the rest of my detail combined."

NEW TEACHER—Pictured above is James Vaile, who is teaching Texas and American History in the Crowell schools this year. Mr. Vaile is a retired serviceman, having served 23 years in the military.

A two-year-old is old enough to say "thank you, hello and goodbye." However, don't force him—instead, show pleasure when he makes the right response, advises Jane Fleischer, family life education specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Former Foard Resident Died in Paducah

Mrs. Vera Barrett, 68, of Paducah and a former resident of Foard County, died Tuesday of last week after a brief illness.

Funeral services were held at 3 p. m. Thursday of last week in the First Methodist Church of Paducah.

Mrs. Barrett was born March 25, 1905, in Gainesville, a daughter of the late Mr. and Mrs. J. C. Davis, pioneer residents of the Rayland community. She was reared in Foard County and was an active member of the First Methodist Church of Paducah.

She is survived by three daughters, Mrs. James Sweeney of Paducah, Mrs. Buddy Hertenburger of Colorado City and Mrs. Bobby Tidmore of Abilene; one brother, Dr. C. A. Davis of Beaumont; and four sisters, Mrs. Bert Blanton of Vernon, Mrs. Amy Presley of Fort Worth, Mrs. Josie Holland of Denver City and Mrs. Annise Phillips of Minden, La.

She was preceded in death by a brother, Travis Davis, and a sister, Mrs. Margie Lassiter.

CARD OF THANKS
We want to express our deep appreciation for the cards, flowers, food, visits of friends, Charles Branch and his band and Mmes. Thelma Lemons and Marjorite Ferguson for their songs, and to everyone else who had a part in making the 100th birthday party a big success. May God bless each and every one of you.

Hints for Homemaker

by Rhonda Ward, CEA "Consumer Complaints"

A key to promoting consumer power is learning how to register an effective complaint about an unsatisfactory purchase or service. Making a complaint against a company is often so frustrating that the consumer abandons her right of complaining altogether. But, giving up only helps to prolong the poor service.

Most businessmen and manufacturers want to learn

shoppers' complaints so they can identify and correct their mistakes. Here's how to go about organizing an effective complaint:

1. Make sure a complaint is justified. Read the label or instructions for the manufacturer's directions for care and use. Check the guarantee or warranty. Know what is covered and what's not.

2. If the complaint is justified, list all reasons for dissatisfactions with the product or service. Tell when and where the product was purchased, model number, brand name, price.

3. Give your complaint to the business or service organization with whom the original deal was made. If it's not settled here, ask to see someone in higher authority.

4. If you write the store, keep a carbon copy of the letter.

5. If you call, record the name of the person you speak to.

6. If these efforts fail to produce results, it's time to contact the Better Business Bureau or Chamber of Commerce.

"Practice your right as a consumer to complain of faulty products or services," I suggest.

HENRY BAKER REUNION

The 39th annual reunion of the descendants of Henry Baker was held over the Labor Day weekend at the old Wesley place. Around 150 of the family and friends were there this year. Thomas Ross of Flomot is president of the Baker reunion this year, Walter Taylor Bryan of Houston is vice president, and Mrs. E. F. Van Kampen of Amarillo is secretary-treasurer.

Nena and J. B. Hardin of Dallas won an award for the largest family present: all of her children, grandchildren and great grandchildren were here this year. The family numbers 26 in all and some of the members came from Jacksonville, Fla. The eldest guests this year came Sunday: Fannie Middlebrook and Walter Ross. Church services Sunday noon were conducted by Rev. Wilson Holman, pastor of the Margaret and Thalia Methodist Churches.

Three infants were baptized this year: Julia Zuihn, daughter of Carroll and Susan Wilson, granddaughter of Sam and Jane Bryan, great granddaughter of Walter and Clyde Taylor; Jason, son of Rex and Barbara Blackburn, grandson of Icyphene Blackburn, great grandson of Dora Faye Etter, and great great grandson of John and Myrtle Taylor and also great grandson of Charlie L. Shultz; Katy, daughter of Steve Taylor, granddaughter of Rayburn Taylor and great granddaughter of John and Myrtle Taylor and Ernest and Mattie Pollock. The baptismal font used was the one purchased for the Margaret Methodist Church in honor of Will and Sadie Grimm's 50th wedding anniversary.

Large Number GI Home Loans Approved During Past Fiscal Year

The Veterans Administration closed out fiscal 1973 after approving 365,000 GI home loans valued at \$8.4 billion—the most loans in 16 years, Jack Coker, VA regional office director, reported last week. Coker also reported that the

VA closed 14,947 home loans in the Waco regional area, amounting to \$310,513,425.

Loans for conventionally built homes edged up to the highest level in 16 years during fiscal year 1973. Mobile home loans scored a sharp increase—32 per cent—to 5,900 from 4,450.

"Heavy loan activity was all the more remarkable considering the tightening mortgage money market and growing costs of borrowing, especially toward the end of fiscal year 1973," Coker commented.

VA has approved 8.5 million GI home loans totalling \$98.5

billion since the program was initiated shortly after World War II.

The agency guarantees 60 per cent of home loans (up to maximum \$12,500) that private lenders make to servicemen, veterans and eligible widows of World War II, Korean and Post-Korean conflicts and the Vietnam era.

Also eligible are spouses of military personnel missing in action or prisoners of war more than 90 days, and veterans discharged for service-connected disabilities without regard to length of service.

Container Gardening

Container gardening is booming in popularity since it allows gardeners to grow many different types of plants, points out a landscape horticulturist for the Texas Agricultural Extension Service. Container plants can be moved around wherever they are most effective or most needed. Containers must be strong and able to stand continual moisture. Container plants will generally require more frequent watering and fertilization.

LOW CHOLESTEROL EGGS

Recent research at Texas A&M University indicates that high production commercial laying hens produce eggs lower in cholesterol than the low production barnyard hen. The studies also showed that high cholesterol eggs had the best hatchability. When selecting for low cholesterol to meet the consumer demands, some hatchability is sacrificed.

Stocker Calf Management Seminar Is Scheduled for Tuesday, Sept. 11th

A regional stocker calf management seminar has been scheduled for Tuesday, Sept. 11, at the Empire room of Wilbarger auditorium under sponsorship of the Rolling Plains Economic Program, Texas Agricultural Extension Service, county agent Joe Burkett said last week.

The event is scheduled to bring leading specialists to Vernon in a program starting with registration and coffee from 9 a. m. to 9:30 a. m.

Registration fee will be \$4 including a catered barbecue lunch.

Dr. O. D. Butler, head of the

Animal Science Department at Texas A&M University, will preside at the morning session.

The program announced for the event includes:

9:30 to 9:45 a. m.: welcome and opening remarks, Dr. Butler.

9:45 to 10:15 a. m.: "The future of the cattle feeding industry in Texas," Tom Herrick of Amarillo, president of Texas Cattle Feeders Association.

10:15 to 10:45 a. m.: "Economics of light versus heavy stocker calves," Norman Britts of Vernon, area economist-management specialist with the extension service.

10:45 to 11 a. m.: Break.

11 to 11:45 a. m.: "Nutrition of the stocker calf," Dr. Wally Koers of Bushland experiment station.

12 noon: catered barbecue lunch.

1:00 p. m. to 2 p. m.: "A health management program for stocker calves," Dr. Chuck Deyle of Carendon veterinary hospital.

2 to 3 p. m.: "Stocker calf management," Dr. Dennis White of Vernon, area livestock specialist, chairman for producer panel including Stanton Brown of Benjamin, Curtis Graf of Vernon and Lawrence Harmel of Seymour.

Good News and Bad News... Brucellosis Hearing Date Changed... Pink Bollworm Problems... Broiler, Egg Hatch Drop, Turkeys Increase.

Good and bad news faces Texas livestock producers relating to the screwworm situation. The Fall of the season is approaching, and this always means a build-up in screwworms. More than 1,000 cases have been confirmed in Texas so far this year, and it's expected this will increase considerably through the Fall.

Meantime, officials at the fly laboratory in Mission urge all livestock producers to check their herds regularly, treat wounds on livestock for screwworm control, and submit suspected samples of screwworms to the fly laboratory at Mission.

Your county agent or agriculture teacher has shipping vials which can be used free of postage charges to mail to the laboratory. The number of cases this year is very low compared to last year.

The good news about screwworms is that work is now underway on the sterile fly plant in southern Mexico. When that plant is in operation, 300,000,000 sterile flies per week will be dropped throughout Mexico to eradicate that pest there.

Once that is accomplished, the screwworm in Texas will be a thing of the past. But until that is finalized, authorities want all livestock producers to continue to submit suspected screwworm samples so that appropriate measures can be taken to fight the pest.

A PUBLIC hearing will be held in Room 117 Sam Houston Building, Austin, Oct. 1 by the Texas Animal Health Commission to discuss new brucellosis regulations for Texas as well as proposals for garbage feeding.

A series of hearings has been held throughout the state this past month to explain the regulations affecting brucellosis control. Everyone interested is invited to attend the meeting.

EGG production in Texas during July is six per cent below a month ago, the Texas Crop and Livestock Reporting Service notes. Egg production in Texas totaled 208,000,000 during July. The 11,000,000 layers averaged 61 eggs daily per 100 hens for the month.

Layers on hand were down six per cent from a year ago, and were down one per cent from June.

The July hatch of egg-type chickens in Texas during July is down one per cent from a year ago, and 42 per cent below a month ago.

The turkey hatch in Texas during July was up 26 per cent from a year ago, but is down 36 per cent from a month ago.

COTTON stalk destruction in the Lower Rio Grande Valley has been extended until Sept. 30, Texas Agriculture Commissioner John C. White reports.

The normal deadline was Aug. 31, but because of adverse weather conditions, the delay in cotton stalk destruction was granted. White urged farmers to destroy cotton stalks as soon as possible in order to prevent build-ups in cotton insects for the 1974 crop.

RURAL development leaders from throughout Texas will be in Austin Oct. 23 for a rural development seminar.

A final report of the Texas Rural Development Commission will be presented. Ways in which rural Texas can be redeveloped will be discussed by a number of outstanding rural development leaders and specialists.

VETERANS NEWS

A veteran interested in obtaining a GI loan should request an application from the nearest VA regional office, fill it out and return it. The VA will promptly issue a certificate of eligibility if the veteran is eligible.

Drooping celery can be rejuvenated by trimming the butt ends and placing stalks in water, according to Karen Kreipke, foods and nutrition specialist, Texas Agricultural Extension Service, Texas A&M University System.

Forward Contracts Recent rising prices causing farmers to have thoughts about forward contracting of cotton. For instance, farmers contracted cotton and sorghum at the beginning of the season will be unable to get the recent prices, say agriculturalists for the Texas Agricultural Extension Service. Farmers live up to their bargain and deliver product at the contract price. The overall marketing may suffer.
