Despite the fact that a movement is already underway to rewrite the state constitution, voters in the State of Texas will decide on nine more changes in the often-amended document at a General Election on Nov. 6th. In the 97-year history of the state constitution, a total of 334 amendments have been proposed. So far, 212 of them have been adopted by the voters. As usual in recent years, a proposed pay increase for state legislators will head the list of the proposed amendments. Various other subjects are included in the other eight. Briefly, the amendments contain the following provisions:

Amendment 1 provides for annual regular sessions of the Legislature and for an annual salary for legislators of \$15,000 and a daily allowance of \$18.00 when the Legislature is in session.

Amendment 2 would permit single adults, who otherwise qualify, to claim homestead protection of their property. Amendment 3 would extend the \$3,000 ad valorem tax exemption to the homesteads of unmarried adults.

Amendment 4 provides that cities and counties be given notice of and approval or disapproval of the creation of conservation and reclamation districts within or partially within their boundaries.

Amendment 5 would allow cities and counties and counties bordering on the Gulf of Mexico to levy taxes for building sea walls and breakwaters if such projects are approved by a majority of the resident taxpayers.

Amendment 6 grants district courts the general jurisdiction of a probate court and authorizes the Legislature to adjust the jurisdiction of the courts in probate matters.

Amendment 7 provides authorization for the Veterans Land Board to extend its lending authority by \$100 million.

Amendment 8 authorizes and requires cities and towns to levy ad valorem taxes sufficient to pay the principal and interest on their general obligations.

Amendment 9 allows the Legislature to exempt certain water supply corporations and cooperatives from the property tax on certain facilities.

200 Attend Truscott Reunion

About 200 persons attended the Truscott reunion last Saturday night, according to a count by the Truscott Home Demonstration Club which sponsors the affair. It was said to be one of the largest reunions held and several attended who had not been to previous reunions.

The Carams reported that his uncle, Sam Caram, a former Truscott merchant, is now living in Fort Worth.

Plans are underway for a 1974 reunion, also on the Saturday of Labor Day weekend. Gilliland will also hold a reunion in 1974 on Sunday of the same week end.

Several former members of the Truscott Sub-Deb Club revived memories of spending Saturday afternoon in the drug store drinking ice cream sodas, chasing boys and singing the "Gopher Girls" song, while the adults sat in cars parked in the middle of main street, waiting for the afternoon mail train and watching the young people.

Wildcats Win 7-0 at Quanah Friday

On a rain-soaked field, with intermittent showers falling during the game, the Crowell Wildcat football team, playing its first game under new Head Coach Printiss Gidney, got off to a winning start by taking a 7-0 victory over the Quanah Indians at Quanah last Friday night.

A defensive battle all the way, it was the Wildcat defense that put the Crowell team on the scoreboard. The score came just seconds before the first half ended. Quanah was attempting to punt from deep in Indian territory when the Crowell linemen stormed the gates and blocked the punt. Philip Bell scooped up the pigskin and galloped the five yards to the double stripe. David Bell kicked the extra point.

The entire Crowell defense was outstanding in holding the

Heavy rains covered Foard County last week with considerable damage to terraces reported in the northeast part of the county.

Rains as recorded since the first of the month by the government gauge show that on Sept. 1st, .88 inch fell; on Sept. 4th, .56 inch was recorded; Sept. 6th, 2.09 inches and on Sept. 7th, 1.64 inches were reported.

This totals 5.17 inches for the seven-day period and added to the rainfall already received here, brings the total for the year up to 23.58 inches, which is about the average rainfall for Foard County in a year.

Areas to the east and northeast of Crowell received more rain than fell here. The Thalia and Rayland areas looked like huge lakes as the heavy rains soaked the area. H. L. Ayers, east of Margaret, said most of his terraces were washed out in the downpours. He said he received over eight inches of rain in the 8-day period, and had received over 32 inches of rain so far this year.

The rains are getting the county's wheat land in excellent condition for fall sowing.

big Indians to only six First downs during the night. The Wildcats were able to make only two first downs during the game and kicker Rocky Glascock had a busy night, punting 10 times for a 30-yard average. Fred Matysek, all-district player for the Cats last year, turned in an outstanding performance at linebacker.

Seeing action for the Wildcats were Ernest Barrera, David Bell, Philip Bell, Rocky Glascock, Steve Graves, Ricky Hammonds, Fred Matysek, Keith McDaniel, Ernie Myers, Ricky Nichols, Randy Prince, Chavelo Ranjel, Don Sparkman, Allen Tapp, Melvin Westover and Hal Williams.

Coach Gidney said Monday that two senior boys reported Monday for football training: Bob Taylor and Billy Wade Eavenson.

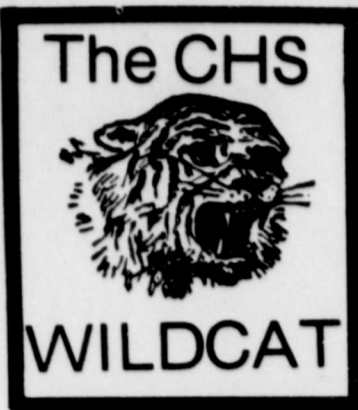

Statistics for last Friday night's game follow:

FOOTBALL IS OUR FAVORITE SPORT BECAUSE...
 (From a Bleacher Coach's Viewpoint)

Football is our favorite sport because the rules are so simple. One team gets the ball and they have four chances to run; unless of course, they run 10 yards, then get four more chances; or somebody drops his handkerchief, then they have four chances to run 15 or 20 yards.

Football is our favorite sport because there's no question of who is right and who is wrong. The quarterback is always wrong; the fans are always right.

Football is our favorite sport because it is always obvious which team is best. If our offense completes a pass, the offense is fantastic. But if their offense completes a pass, our defense is lousy.

Football is our favorite sport because the fans never show favoritism. If a big guy tackles a little guy, they "boo" the big guy for being a bully. If the little guy tackles the big guy, they "boo" the big guy for being a sissy.

It is easy to see how the simple rules, unquestionable values, and fair spirit of football have made it America's favorite sport.

SENIOR SPOTLIGHT
 Ernest Barrera is the brown eyed, brown haired senior in the spotlight this week. Born on Feb. 17, 1955, to Mr. and Mrs. N. M. Barrera, Ernest is now 18 years old, and stands 6' 1". JUNIOR NEWS

Magazines, magazines! That has been the main topic among Juniors this past week. We have done well on our sale so far and would like to thank everyone for co-operating with us. If anyone would like a magazine, but has not been called on, please contact a Junior.

To march or not to march. That is the question. The Wildcat Band decided to march although inclement weather had ripped them off the practice field.

Just as the fighting Wildcats did a great job of beating the Indians, the band did a great job of entertaining the rain-soaked fans at halftime.

The band says, "We're behind you all the way! Slaughter the Eagles!"

Miss Ora Mae Fox Is speaker at WSL Meeting Thursday

Miss Ora Mae Fox told of the highlights of a vacation in Bermuda last spring at the Thursday luncheon meeting of the Women's Service League. Miss Fox won the all-expense paid trip from the company she is associated with for her outstanding achievements.

Containing some 21 square miles, Bermuda has narrow, hilly, winding roads. The small cars are driven on the left side of the road at some 20 miles per hour...due to driving conditions. Motorbikes are plentiful.

Although surrounded by the Atlantic Ocean and having an average rainfall of some 58 inches, the island residents experience a water shortage. Individual families maintain their supply in a reservoir beneath their homes. Fish are kept in the water to check its purity--when the fish die a clean-up is in order. Miss Fox noted that commercial hotels and motels had a more adequate system. Average rentals of houses run about \$200. a month.

Annual Cattle Drive Underway

Annual cattle drive is under way in Foard County since 1960. The drive has criss-crossed Oklahoma and New Mexico headed for the September sale at the annual Round-Up for Children. West Texas Rehabilitation Center has been in operation for 20 years, and each year brings forth increases in the number of children and receiving treatment. The center will amount to about 100 individuals in 1973. The center was founded by Mrs. Wylie. Coke County donated 20 head of cattle to sell to raise money for the operation of the Center. Last year the sale of livestock and farm equipment plus cash donations raised \$117,000. This year's goal is \$130,000 toward the \$4525,000 1973 budget. Additional information may be obtained by contacting the West Texas Rehabilitation Center, 4601 Hartford, Abilene, Texas 79605, or by calling 915-692-1633.

Food Retailers Affected by Stamp Program

Foard County food retailers will have to be authorized before they can accept U. S. Department of Agriculture food stamps.

That's the word from Carl J. Speegle, officer in charge of the Abilene field office of USDA's Food and Nutrition Service. "Most grocers in a food stamp county will want to apply," said Speegle, "since the program usually means a noticeable increase in food business."

The Food Stamp Program opens in Foard County Oct. 1, and will be operating statewide by the first of the year.

Under the food stamp program, needy families are certified for the program by the State Department of Public Welfare. They then pay a certain amount of money each month for food stamps. The amount they spend depends on family income and size. In addition to the food stamps they buy, they are given "bonus" or

tree coupons to increase their food buying power.

Food stamps are used like cash at stores authorized by USDA to redeem them. Merchants redeem the food stamps through local banks and the federal reserve system.

Grocers who have not been authorized and would like to participate in the program should contact the Abilene field office, according to Speegle. Either write the office at Room 510, Petroleum Building, Abilene 79601 or call Area Code 915, 673-2509.

Doves are Like Pigeons

AUSTIN--With a few exceptions, mourning doves are pretty much home bodies, according to results of a Texas Parks and Wildlife Department banding study.

The department and private individuals banded 51,095 doves between 1925 and 1965 and have recovered 1,734 bands from birds marked in Texas, according to a recent article in TEXAS PARKS & WILDLIFE magazine.

Department biologists say that 85 percent of the birds were recovered in Texas, and the majority of these recoveries were made in the same ecological region where the birds were banded.

Because 63 percent of the recoveries from winter-banded adults were made during the following hunting season in the same region of the banding, biologists believe that adult doves return to the same wintering area year after year. A portion of the population could be there year-round.

More than two-thirds of the recoveries from nestling and juvenile mourning doves banded in summer were taken the following fall within the same ecological region where they were banded, indicating that a substantial proportion of immature doves remain in the area where banded until hunting season begins.

Louisiana accounted for 24 percent of Texas-banded birds recovered in the United States. Hunters in 18 other states, including California, Minnesota, North Dakota and Florida at the extremes, have recovered bands from the Texas birds.

Biologists do not know the speed of dove migrations, but they have a couple of indications that doves can travel great distances in a short time. One dove banded in Maintoba was killed in Travis County 37 days later after a journey of 1,600 miles.

Another dove banded in Brooks County in Texas was killed 66 days later in North Dakota after a 1,500 mile trip. Biologists point out that there is no way to determine how long the doves had been in the area before they were shot.

Mexico accounted for 54 percent of the bands recovered from doves killed outside of Texas. Bands were also received from Guatemala, Honduras, El Salvador and Nicaragua.

The record for the longest time between the date banded and the date recovered is held by a dove banded June 4, 1953, in Palo Pinto County. The bird was shot 11 years and four months later in Mexico. Another dove was recovered 10 years after it was banded as a nestling.

Biologists say these long lapses between banding and recovery are rare since at least 50 percent of mourning doves never see their first birthday.

Columbian Club

For their first meeting of the new club year, members of the Columbian Club met in the home of Mrs. E. J. Jones at Truscott on September 5th.

Mrs. Allen Shultz, the new president, welcomed the members and guests. The roll call was answered by "My Summer Activities."

After the officers' reports and a brief business meeting during which Mrs. N. J. Roberts was appointed critic for this administration, Mrs. Shultz told of some of the highlights of her two months in the East this summer. In addition to visiting her daughter and family in Maryland, and welcoming a new grandson, she visited in New Jersey and Pennsylvania.

In New Jersey, she visited several points of interest including the famous boardwalk in Atlantic City. Although it was late May, it was so cold at Atlantic City, she had to buy a sweater to be comfortable. In Philadelphia, she saw and touched the Liberty Bell, and as her tour coincided with a group of school children, she enjoyed the historical lecture by the tour director there, and in Constitution Hall where the furnishings are arranged just as they were when the Continental Congress was meeting there, and where the Declaration of Independence was signed. The speaker told at which table each delegate sat.

Next meeting will be Sept. 19th at the senior citizens center with Mrs. Shultz as hostess. During the social hour, the hostess served delicious refreshments to the members and guests. At this time, Mrs. Grady Halbert showed pictures of their mountain retreat, and Mrs. Shultz showed the pictures of her new grandson and his family.

FLOOR WAXES

Floor wax helps keep a floor smooth, makes it more attractive and protects the surface. Two basic waxes are polishing and self-polishing. Polishing waxes come in paste or liquid form and contain a solvent base. They must be applied with a brush.

This type of wax is easy to apply and usually dries in a shiny film. Remove the old wax before applying a new coat. Built-up coats cause graying or yellowing and become difficult to remove.

Try several different self-polishing waxes to find the one that works best on your smooth floors.

Roll call was answered with "Something beautiful I have seen" by eight members and four visitors, Mrs. Rhonda Ward, extension agent; Mrs. Dimple Vaile, Mrs. J. E. Brasher and Mrs. Rex Andrews.

The business of the meeting was filling out the yearbook. Enthusiastic plans were made for the coming year. Mrs. Lela Hunte drew the hostess gift and Mrs. Ward was presented a gift. Mrs. Brasher joined the club. Visitors and new members are always welcome. Next meeting will be Sept. 27th at 2 in the home of Mrs. Milburn Carroll. The program, Texas Heritage and Pilgrimage, will be given by Mrs. V. A. Johnson and a tour to historical sights will be made.

FAMILY REUNION

The family of Mrs. W. H. Sellers held a reunion at the home of Mr. and Mrs. Jim Cannon of Crowell over the week end. Attending were: Mr. and Mrs. John Teague and Mr. and Mrs. Ernest Teague and children, Shelia and Dewayne, of Lamesa; Mr. and Mrs. Louis Brewster and children, Lisa and Christi from Abilene; Mr. and Mrs. Glen Williams and Mrs. Johnny Hilliard and daughter, Lynn of Hamlin; Mrs. Robert Vincent, Rita, Pat and Ricky, from Hartly; Mr. and Mrs. H. B. Sanders, Mrs. W. H. Sellers and Mr. and Mrs. Jim Cannon of Crowell.

News From The School Office

The Crowell Home Economics department, under Mrs. Ray Brown, made curtains for all the new administrative offices at school. The orange curtains are of a hopsacking weave and lined. They are styled with pinch pleats and hung on round brass rods. The orange looks very pretty against the dark paneling in the offices.

Women who think cooking for a family of four is hard work should trade places with Mrs. Gloria Pierce, Mrs. B. J. Eavenson, Mrs. Maudie Golden, or Mrs. Jodie Miller for a day. These women are cooks in the Crowell School Cafeteria and feed about four-hundred people a day. That means they ordinarily feed almost 4/5ths of the Crowell student body. (The enrollment is slightly over 500.) Last Friday, they served lunches to 409 students.

Comments on Winter Wheat Outlook in Area

Here's what the Santa Fe Crop Report and other Agricultural Data had to say about the winter wheat situation in its September release:

Throughout most of the winter wheat producing areas served by Santa Fe facilities the 1973 winter wheat crop will long be remembered as the crop that seemingly never lacked for moisture from the time it was planted in the fall of 1972, until the crop neared maturity. Then the weather turned hot and dry, resulting in favorable conditions for harvest in most areas. Test weight of the crop was generally above average with protein content and moisture content below average. August 1, 1973 U.S.D.A. estimates placed the volume of winter wheat produced in the states of Kansas, Oklahoma, Texas, Colorado and New Mexico at near 709 million bushels, an all time high. The acreage harvested is placed at 21,592,000 acres. Since World War II the crop second to that of 1973 was in 1947 when almost 573 million bushels were harvested from 32,109,000 acres; with only two other crops, those of 1958 and 1960 exceeding 550 million bushels.

With final preparation of land and seeding of early acreage of the 1974 winter wheat crop under way the mid-August announcement of removal of all acreage restrictions for the planting of the 1974 wheat crop may cause some shifts of acreage from other crops to wheat, although many farmers would appear to be weighing carefully the possibility of use of some acreage for winter wheat, especially where vegetation cover and/or surface moisture does not appear to be adequate to provide protection from possible damage by high winds during the coming winter and spring months. Many of these remember the problems of what are often referred to as the "dirty thirties" and the "filthy fifties." Since farmers average age is older than that of many other professions, most remember the dry weather and associated wind erosion problems and poor yields of those years. As an example the five states mentioned that produced almost 709 million bushels of winter wheat this year produced only slightly more than 185 million bushels from the 'dry weather' crop of 1955.

The Crowell Home Economics department, under Mrs. Ray Brown, made curtains for all the new administrative offices at school. The orange curtains are of a hopsacking weave and lined. They are styled with pinch pleats and hung on round brass rods. The orange looks very pretty against the dark paneling in the offices.

IS LIKE FLIRTING WITH A GIRL

The soaring rise in prices reminds us that inflation is like flirting with a girl. . . . By the time you become alarmed, there doesn't seem to be anything you can do about it! . . . The price of beef is so high, for example, that cows are no longer being branded; they're being engraved. —Crooksville, Ohio, Crooksville-Roseville Messenger.

SETTING THERMOSTAT

Setting the air conditioner thermostat even two degrees lower than necessary wastes energy, says the extension service.

THE HOPE OF GLORY

We are taught in Romans 5 that the believer in Christ receives justification, peace with God, access to God and the "hope" or anticipation of sharing His glory some day. God wants His children to enjoy this coming glory; to live in eager anticipation of it.

How much there is to humiliate us here in this life! God created man in His own image and likeness, but man sinned and fell from his exalted position. To Adam God said: "Cursed is the ground because of thee; in sorrow shalt thou eat of it all the days of thy life."

Since that dreadful day man's life has been a constant struggle. Everything tends to go wrong rather than right. Each has his share of trouble, sorrow, sickness and then—death, the greatest humiliation of all, when in sickness and pain, or at best in utter weakness, he must give up this life itself.

Sin and the fall! This is what modern science and philosophy fail to face up to. Most popular scientists and philosophers today hold that man has come up from the slime pit and is improving all the time. But the truth of God's Word is that man has fallen through sin and is growing worse morally and spiritually until now he can kill more of his fellowmen faster than he ever could before.

But it is this fact, this fact of sin and the fall that God has so graciously provided for. He took all the suffering and shame, paid all the penalty for our sins and then rose from the dead so that we might rejoice in the hope, the eager anticipation, of glory to come!

As St. Peter puts it in 1 Pet. 1:3: "He hath begotten us again unto a living hope by the resurrection of Jesus Christ from the dead."

As men gathered round the cross one awful day, they shook their heads at Christ and said, "Shame! Shame!" As a result the universe will one day look upon redeemed sinners and say: "What glory!" And so we believers in Christ "rejoice in hope [in eager anticipation of] the glory of God."
