Snake Hunt Set This Week End

Crowell's third annual Rattlesnake Hunt will get underway here Saturday, March 23, and continue through Sunday afternoon. The snake hunt is sponsored by the Crowell Volunteer Fire Department.

Fire Chief Leonard Tole says the department has many places for hunters to go and with favorable weather, he is expecting a large crowd of hunters and other visitors.

A prize of \$75.00 will be given for the largest snake captured; \$50.00 will be awarded to the runner-up and \$25.00 will be the prize for whoever brings in the most pounds of snakes.

Barney Barnett of Iowa Park will again be here working in a pit full of rattlers as one of the features of the two-day affair.

A carnival will also be here offering rides to the visitors.

On Saturday night, the fire department will be sponsoring a dance at the Lockett grade school building. Bobby Weddle and his band will provide the music.

Everyone in this area is cordially invited to attend this big event in Crowell.

Urged to Render Property

A request has been made by the tax assessors of the County of Foard and Crowell Consolidated Independent School District for property owners in the two taxing units to render their property for taxation as soon as possible.

Rendering of property can be made in the office of E. E. Howard, county and state tax assessor-collector, or the office of J. H. Gillespie, school tax assessor.

Complete text of the request appears in an ad elsewhere in this issue.

Sister Died in Delaware

Miss Gladys Anderson of Milton Delaware, sister of Mrs. Clinton McLain of Crowell and Mrs. John Napier of Vernon, died unexpectedly Tuesday, March 12, in Delaware.

Funeral services and interment were held later in the week at Milton. Attending were Mr. and Mrs. McLain and Mr. and Mrs. Napier.

Survivors include two other sisters, Mrs. Velma Wilson and Mrs. Tom Jones, both residents of Delaware.

Candidates Draw for Places

Candidates for offices in Foard County in the Democratic primary scheduled in May met at the home of Mr. and Mrs. Ray Shirley Monday night to draw for places on the ballot.

Shirley is Foard County Democratic executive committee chairman.

RETURNS HOME

Kenneth Halbert, who has recently undergone heart surgery in Lubbock, returned home last Thursday. He was visiting friends in Crowell last Friday morning.

Basketball Coach Resigns Position

The resignation of Russell McGough as head basketball coach of Crowell High School was accepted by the Crowell school board at a called meeting

Monday night. The resignation will be effective at the conclusion of the present school term. Contracts of Printiss Gidney as athletic director and head football coach and Jerry Don Anderson as grade school coach were extended for another year. Gidney receives \$2,100 above state schedule and Anderson receives \$1,700 above the state schedule.

In other business, the local teachers' request for 2 days business leave per year was postponed for further discussion until summer. A request was granted to the First Baptist Church for use of the new gym for an all-church banquet in connection with their fund drive for a new church building.

Stater Insurance Co. requested some of the school's insurance business, and the board agreed to consider the request the next time any insurance is purchased by the district.

The textbook committee's recommendations were adopted by the board, and Supt. Larry Jones was authorized to draw up a policy recommendation on paying expenses of board members who travel out of town in connection with school business.

Title III funds were okayed with the school matching the federal government's \$383.00 grant to purchase a spirit duplicator for the grade school and a tenor saxophone for the high school band.

John Henry McGee was employed as a bus driver, and Ernest Tucker was employed as a driver and custodian replacing Boots Henry who resigned about two weeks ago.

Visitors at the meeting included Merle Moore and Mike Hudgens of the Thalia community.

Guilty Pleas Heard in Dist. Court

Two guilty pleas were given before District Judge Rex Sullivan here last Friday morning and Sullivan issued probated terms in both instances.

Harold Houck drew a 3-year probated sentence on a guilty plea to a felony DWI charge and William Perrington was assessed a 2-year probated sentence on a forgery charge, with restitution to be made.

Report Given on Local Projects

Mayor Robert Kincaid commented industrial statistics for Foard County two years ago and the present time as he presented a program at the Rotary Club Wednesday of last week.

Kincaid, who was introduced by Rotarian Fred Youree, said that statistics available two years ago on Foard County showed that the largest business other than the school hospital, was a cafe which had some 10 employees on two shifts. The second largest business, of a manufacturing nature was The Foard County News.

He added that at the present time, Foard County has two all industries that employ out 30 people with prospects hiring another 25 in the near future. This total of 55 new jobs in the county during the past two years, represents about 3 per cent of the town's population, and the financial impact these jobs are making here is comparable to what the Convar plant meant to Fort Worth when

it was employing its largest numbers.

Kincaid briefly told the history of the Foard County Development Corporation, a vehicle to promote industry here.

He then told about the two new industries. The first to be established here was the Custom Manufacturing and Packaging Co., known locally as the worm factory. This plant, presently employing seven people, is owned by Boyd Hinton of Amarillo. The plant manufactures plastic fishing worms, and Kincaid said one contract the plant now has is for almost a million of these worms. He said the possibility of increasing the work force to ten is probable if orders continue to come in as rapidly as they have been.

He said that the Crowell Cap Company, Inc. is now operating with 19 female and 4 male employees. The company was recently purchased by a group of Crowell men from John T. Athletic, Inc. of Vernon.

The plant manufactures five basic cap designs and production is presently up to 100 dozen

PLAYS TO BE PRESENTED

"Ralph Roister Doister", CHS' District One-Act Play will be presented in the high school auditorium Thursday night along with two other comedies, "Aunt Miranda's Will" and "Feudin' Mountain Boys".

The story of a wealthy but very foolish man, Ralph Roister Doister, who considers himself irresistible to the ladies and his very wise but poor friend, Mathew Merygreeke, is a very delightful farce. As the play begins, Ralph has just fallen in love with Dame Custance, a rich and attractive widow, and employed Merygreeke to win her for him. The story is further enhanced by both Ralph and Dame Custance's servants, who along with Custance and Merygreeke manage to make life miserable for Ralph. The cast includes: Mathew Merygreeke—Steve Setliff; Ralph Roister—Dwaine Crosby; Tibet Talkapace—Lynn Meads;

Madge Mumblecrust—Terry Cobb; Annot Alyface—Remelle Marlow; Harpax—Jacquelyn Brown; Hodge—Ricky Hammonds; Dobinet—Rita Hodges; and Dame Christian Custance—Karen Statter.

"Feudin' Mountain Boys" is a hillbilly comedy which tells the story of Freddie Frump who tries to impress his would be girl friend, Effie Katzfelter, by manufacturing a pseudo feud. But when feuding turns out to be less glamorous than Effie thought it would be, Freddie is left with the difficult task of halting the feud he started. The complications that arise are sure-fire laughter-getters.

The cast includes: Freddie Frump—Adrian Martinez; Effie Katzfelter—Carolyn Sparkman; Grandpa Frump—Rudy Rodriguez; Pa Frump—Gary Glover; Ma Frump—Bertha Leija; Cora Mae Frump—Rebecca Rodriguez; Hiram Katzfelter—Randy Prince; and Pappy Katzfelter—Lynn Nelson.

Also to be presented is a farce entitled "Aunt Miranda's Will". Aunt Miranda thinks she is leaving all her money to her niece when she bequeaths all of her possessions to "Jean". The comedy that arises when she discovers "Jean" is really "Gene" and her nephew not her niece is a riot of fun.

Cast members are: Eugen Elwood—Steve Graves; Helen—Barbie Scott; Buzz—Ricky Nichols; Gloria—Ruth Stone; Inez—Holms—Nora Durham; Mrs. Betty Elwood—Brenda Graves; Aunt Miranda—Jana Russell; and Preston Whitman—Bob Brown.

Both of the speech classes' plays to be presented are under the direction of student directors. "Aunt Miranda's Will" is directed by Tim Daniel and "Feudin' Mountain Boys" by Jackie Evenson.

DPS Says Drivers Exceeding Speed Limit

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, said this week he is disturbed by many complaints by Texas motorists about drivers refusing to obey the 55-mile-per-hour speed limit, and has directed DPS troopers to intensify their enforcement efforts.

"When the new law went into effect January 20 of this year," he said, "our surveys indicated a high degree of voluntary compliance on the part of Texas drivers."

"But since that time, we have noticed that motorists, or at least many of them, have been

gradually 'inching' up their speeds on Texas highways. Consequently, our troopers have been increasing their volume of speeding citations, and will have to continue to intensify their efforts until a more reasonable degree of voluntary compliance is achieved."

Speir said he has received numerous reports by motorists who are complying with the new law who are frightened and angered by others who pass them at speeds dangerously above the legal limit, and still others who "tailgate" them when they can't pass for one reason or another.

"We commend those drivers who are cooperating in the state and national effort to reduce accidents, save lives, and at the same time conserve fuel by driving within legal limits," Speir said.

"And we solicit the cooperation of those who would forget or ignore the dangers posed to themselves and others by dangerous and illegal speeds on the highways of our state."

"We would remind everyone that consistently through the years, excessive speed is involved in more fatal accidents than any other single factor."

TREES ARE ENVIRONMENTAL BARGAINS

Trees are tremendous bargains for improving the environment, and they offer homeowners many benefits, says a landscape horticulturist for the Texas Agricultural Extension Service. Trees furnish protection from extreme heat, cold, wind, drought and floods. They also reduce air and noise pollution while providing food and shelter for birds, animals and man. Trees also increase property value and indicate community pride. Now is a good time to plant trees adapted to your area that meet your specific needs.

"We have many 'nigh of kin,' to us, but they are unable to redeem us because they themselves are bankrupt sinners, but there is One who has an infinite store of righteousness with which to pay our debt and redeem us. Indeed, He did pay the penalty for all our sins when He, the Holy One, died in shame and disgrace as a sinner on Calvary's cross.

He is our blessed Kinsman Redeemer, "for verily He took on Him the nature of angels, but He took on Him the seed of Abraham" (Heb. 2:16) that He might redeem Jew and Gentile; "made for a little while lower than the angels for the suffering of death...that He, by the grace of God should taste death for every man" (Heb. 2:9). There are many, alas, who will not face up to their condition. They somehow think that they can still redeem themselves. To them God says: "Do it, if you are able!" To that rich young ruler who asked "What must I do to inherit eternal life," the Lord said "You know the law...this do, and you will live."

But who of us has perfectly kept the law of God? Who of us is not a repeated law-breaker in the sight of God? Who is able to redeem himself? Why not then turn from self to Christ, our rich Kinsman Redeemer, "In whom we have redemption through His blood, the forgiveness of sins, according to the riches of His grace" (Eph. 1:7).

Anyone interested in employment, full or part-time, for local industrial needs, is asked to fill out an application blank at the local EOAC office. Both male and female may apply, if 16 years of age or older.

What One Person Can Do

JESUS SILVA
CIRCUS PRIEST

What do you do if you are the "father" of 2,000 homeless boys? You start a circus, if you are a Spaniard named Jesus Silva.

After founding Bemposta, a self-governing democratic community in Spain composed entirely of orphan boys, Father Silva started a circus school in 1964. He trained the orphans to be circus performers for two years until he felt they had reached professional standards.

"There are many degrees of professionalism," says Father Silva. "Some professionals are terrible. We knew we were getting better and better, and our circus became perfect as time went by."

"Los Muchachos" circus began by performing in Barcelona; then its schedule expanded until it now gives performances all over the world. The Spanish priest and his boys use the circus to bring to the world a message of peace and brotherhood as taught "by the most revolutionary messenger in the world, the only authentic peacemaker, Christ."

The first act of each performance by Los Muchachos concludes with a prayer for peace. Father Silva explains that the young performers believe, as he does, that "peace is possible if men are capable of extending their hands, especially if young people of the world begin by extending their hands."

Jesus Silva and Los Muchachos are using a circus to be instruments of God's peace. Each of us can work for peace and brotherhood, no matter what our station in life. That means, first of all, doing our job competently. Only then can we effectively introduce God's love to those around us.

HOW ABOUT IT?

"If the gas situation is as short as reports try to tell us... let's not be so 'pig headed' on this situation as the government was on the 'beef price freeze.' Let's take action and get all these smog control devices off automobiles and enjoy another three to five miles travel on every gallon of gas. Just because the big cities need smog control... there is no reason for such measures out here in the boondocks. If government officials really want to get down to the real issues and means to help the fuel crisis, there are numerous ways that this condition could be helped and we think these corrective measures could be pushed first before the whole nation is thrown into a rationing situation."—Menville, Iowa, Record.

Information Given On Trailer Registration

AUSTIN—Colonel Wilson E. Speir, director of the Texas Department of Public Safety, today said in response to numerous inquiries that farm trailers and other small trailers of less than 4,000 pounds gross weight are among certain types of vehicles exempted from the State's Motor Vehicle Inspection Law.

Others which do not have to be inspected include those with the following types of license plates: Paper Dealer In-Transit, used by dealers to convey vehicles; Parade License; Factory Delivery License; In-Transit License; Machinery License; Disaster License; Permit License; and Antique License. Also exempted from inspections are vehicles moved with Prorate Tabs; One-Trip Permits; and 72-hour Temporary Commercial Permits.

All other motor vehicles registered in Texas including passenger cars, trucks, motorcycles, motor-driven cycles, and trailers weighing over 4,000 pounds must be inspected at a State licensed inspection station at least once annually.

Speir noted that a new procedure is being used in the issuance of inspection certificates for motorcycles. Under provisions of a State law which became effective January 1, the certificates are being mounted on a piece of adhesive acetate which is attached to the rear of the cycle near the license plate.

The DPS director said many motorcyclists are purchasing transparent tubes or metal holders from motorcycle dealers, which can be fastened to the license plate. If the cycle is so-equipped, the inspection certificate is placed in the tube or holder.

Motorcycles inspected prior to January 1 do not need to display an inspection sticker, Speir said, but it must be carried by the operator and made available to police officers on request. He pointed out, however, that all motorcycles would be required to display a rear mounted sticker by January 1, 1975, or when the current inspection sticker expires, whichever date comes first.

Texas operates on a year-round inspection program, with certificates expiring 12 months from the month in which the inspection was conducted. The DPS licenses and supervises the privately owned garages and

stations which perform inspections.

The inspection process passenger cars includes steering, front seat brakes, tires, wheels and exhaust system, expansion system, beam indicator lamps, stop lamps, license lamps, rear red reflectors into most tail light signal lamps on 1960 models, head lamp vehicle identification.

The inspection fee and Texas law is \$2.00, no required adjustments extra. Speir noted motorist is not required adjustments or repairs may have the work elsewhere and then the vehicle which fails the inspection to the same station for reinspection of the failure within seven days.

He said inspection certificates being issued during green in color. A showing the month of the certificate which, on cars and trucks, is the lower left-hand corner of the windshield.

TORNADO SEASON APPROACHING

Tornadoes can occur at any time in Texas, but the most dangerous months are April, May and June. So, when threatening thunder clouds appear, be on the alert and tune in to radio or television stations for up-to-date weather reports, cautions an agricultural engineer for the Texas Agricultural Extension Service. A 'tornado watch' is issued when the possibility of a tornado exists.

A 'tornado warning' is issued when a tornado has actually been sighted or detected by radar. A tornado warning calls for action. Move to a protected area, such as a cellar, basement or civil defense shelter. In a house or other building, go to the lowest level in the center and seek cover. In open country, move at a right angle to the tornado's path or lie in a ditch or ravine.

"In Arizona, highway cleanup crews couldn't keep pace with litterers until roadside signs were changed a few years ago. Before then anti-litter posters read 'Deposit litter ahead one fourth mile.' Many motorists took the signs literally and scattered garbage over the next quarter-mile. The roads are much cleaner officials say since the signs were reworded: 'Litter container one fourth mile.'" — Du Quoin, Ill., Evening Call.

V.F.W. Chief Asks Rejection of Sellout

Ray R. Soden, National Commander-in-Chief of the Veterans of Foreign Wars of the United States has promised the U.S. Department of State that "the battle of its life" over the "weasel-worded sellout of American security interests as set forth in the totally unprincipled 'Statement of Principles' agreed to by Secretary Kissinger and Panama's Foreign Minister Tack."

"As I have earlier informed Secretary Kissinger," the V.F.W. Commander continued, "if ever there is an unbroken record of an international responsibility fully and fairly met, it is the 60-year American stewardship of the Panama Canal. We have nothing to apologize for and a great deal to be proud of."

The 1.8 million members of

the V.F.W. are duly resolved that:

(a) U.S. control and defense of the Panama Canal are non-negotiable;

(b) tensions relating to the administration of the Canal Zone be resolved on the spot without disturbing present treaty arrangements; and

(c) U.S. citizens and employees in the Canal Zone continue to meet their responsibilities under U.S. sovereignty.

"If the false issue of so-called American 'colonialism' is raised, those who do so" Mr. Soden concluded, "might redirect their rhetoric against the greatest colonizers in the world's history—the regime that runs Eastern Europe from the Soviet Union."

6 WAYS TO CONSERVE AND SAVE ON WATER HEATERS

Normally the quantity of Hot water used in a household is about 1/4 to 1/3 of the total water usage. Here are some suggestions that can help you get the most out of your water heater.

- With a little planning, you can arrange to wash only full loads of clothing in your washer and full loads of dishes in your dishwasher. Less than full loads consumes energy and wastes water needlessly.
- To assure long life and efficiency, the water heater tank should have a small amount of water drained periodically. Once a month should be adequate. The purpose of draining water from the tank is to prevent sediment build-up in the tank bottom.
- A water heater that's old, or too small for your family needs, can be wasteful because it's working too hard and using too much energy to keep up with your hot water demands.
- It's amazing how much water a leaky faucet will drip in a month's time and if the leaking faucet is a hot water faucet, it will waste both energy and water needlessly. As an example, a faucet dripping 90 drops per minute, will waste 300 gallons per month.
- The thermostat controlling the water temperature is pre-set at the factory to deliver hot water at 150°F. This setting has proven most satisfactory from the standpoint of operating cost and household needs.

The thermostat can be adjusted to provide warmer or cooler water temperatures. The thermostats are clearly marked for easy adjustment to increase or decrease the water temperature.

RC&D Coordinator Begins Work in Area

Von Kleibrink, coordinator for the Four Winds Resource Conservation and Development program, opened his temporary office in Quanah last week after moving there from Snyder to head the newly-approved program for the five-county area including Foard, Hardeman, Childress, Cottle and Wilbarger Counties.

As the head of the new program, Kleibrink has been involved up to now in the revision of the Four Winds FC&D constitution in order to allow the addition of Wilbarger County to the program and to keep up with changes in the Four Winds area since the original organization was set up. County Resource Committees are being set up in each county to gather and assemble information to compile the project plan to be submitted to Washington.

An outline for the project plan has been prepared along with the schedule of events to complete the plan docket. This will be presented before the executive council board on March 21 at their meeting in Paducah for their review and approval.

Kleibrink reported that federal and state agencies to appoint an advisor to assist the technical advisory committee in planning the project.

Each sponsor and endorser of the project in the five counties is being asked to come up with two appointees from each county to serve on the executive board for the next year.

Kleibrink reported that he hoped to have the project plan and time table completed and sent to Washington within a year. The plan is a comprehensive fact sheet and development plan for the area, designed to fully develop the area's natural resources. The program could pump millions of dollars into the area through outright grants and cost-sharing programs.

New H.D. Agent Now on Job

Foard County's new Extension Agent for home economics, Miss Sally Sowell, began her duties at Crowell Monday.

Miss Sowell, a December graduate of Texas Christian University, has been training in Vernon for the past two months under Miss Joy Riley, Wilbarger County Extension Agent.

Her preparation for assuming the Foard County post was concluded with a weeklong period of in-service training at College Station last Friday.

Miss Sowell, a native of Dallas who grew up in Cleburne, was graduated from High School at Cleburne in 1969.

Miss Sowell received a B. S. Degree from TCU in vocational home economics. She was a member and treasurer of Phi Epsilon Omicron, national honorary home economics fraternal organization, and vice president of Kappa Alpha Theta.

Miss Sowell was raised by her grandparents, Mr. and Mrs. Byron Crosier of Cleburne. She was an active member of the Future Homemakers of America as a high school student at Cleburne.

Publication Carries Unusual Stories

The ambush of a Texas Ranger patrol which triggered the bloody Pirate Island feud, historic towns like Salado, Texas artists, antiques and collectables of all sorts and Texans with unique hobbies interest two ex-newspapermen in Dallas more than most people.

The two publish a monthly tabloid magazine about just such things.

The publication, now 15 months old, is about to undergo a name change—from Dallas Uniques, Antiques, & Art to Texas Uniques, Antiques, & Art—and expand its nostalgic coverage to a statewide basis, publisher Bob Alexander and Editor Gene Shelton have announced.

"Expanding to state-wide circulation and coverage seems a logical progression," Alexander said, "because several issues of the publication already have taken on a statewide flavor."

The magazine has published lead stories on historic Salado, interviewed a Paris, Texas, flight instructor who teaches pilots how to handle World War II fighter planes, and featured the Pirate Island Feud as the lead story in one edition.

Other major stories in recent issues have explored Texans' interest in religious artifacts, antique furniture, clocks, Wedgwood pottery, glassware, flintlock pistols, old cameras, architectural antiques, nautical antiques, silver, and an examination of the reasons behind the boom in Oriental antique prices during 1973.

The magazine has reported the destruction of historic Texas landmarks and one-of-a-kind buildings in the name of progress.

The most recent issue features a 20th Century Texas group that reverts to Medieval times on weekends, complete with full armor and pitched battles with sword and broadaxe.

With the expansion to state-wide status, Editor Shelton said, Texas Uniques, Antiques, & Art will be in need of reporters and correspondents through the state.

"We are sure every reader who likes antiques, collecting, art or has a deep nostalgic interest in any period of history either has a personal story to tell or knows of a good article idea," Shelton said. "We would very much like to hear from them. At the moment our editorial budget is not great, but nominal payments can be made for stories we use."

Subscription rates are \$4 for 12 monthly issues, Alexander said. "For those who would like to see a sample before they subscribe, or to see what type of articles we can use, a limited number of back issues are available for 50 cents to cover postage and handling, from Uniques, Antiques & Art, 2711 Cedar Springs, Dallas, Tex., 75201."

SAD FACT OF LIFE...

As the Arizona Farm Bureau Federation comments, "Irresponsible charges... too often carry more weight than any...honest replies. American agriculture was subjected to this kind of imposition...when the president of American bakers sought self gain by making 'fall guys' out of the wheat growers and the Administration for the Russian wheat sale, by predicting bread might rise in price to \$1 per loaf! American Farm Bureau Federation President William J. Kuhfuss sought to set the record straight by pointing out that the actual cost of wheat in a 47 cent loaf of bread is only 7 cents, it's a sad fact of life, however, that the average consumer will remember only the \$1 a loaf charge...and blame agriculture and the administration for high food costs."

JUST LIKE A BOMB

The Decatur Spinnerette, a Monsanto Textiles Company publication, reports that, "Running out of fuel isn't the only problem the gasoline shortage has created. According to the chairman of the President's Commission on Fire Prevention and Control, Richard Bland, recommendations have been made that motorists carrying extra fuel to having a bomb in the trunk of a car waiting for something to ignite it. Fumes from expansion overflow or a spill could spread through a vehicle and ignite, or a collision could puncture the flimsy can, trapping the car occupants in an inferno."

"It matters not whether you are a policeman, housewife, or what; without the death penalty you can easily lose your life to the gunman or knife-wielder, for he can kill you without in the least endangering his own life. New higher interest rate on U.S. Savings Bonds.

Now U.S. Savings Bonds pay 6% interest when held to maturity.

Here's how it works: The higher interest rate applies to all new Bonds purchased since December 1, 1973, raising their rate from 5 1/2% to 6% when held to maturity. And the maturity period on Series E Bonds is shorter, too. Now E Bonds mature in 5 years, with a first-year rate of 4 1/2%.

Series H Bonds, with a 10-year maturity, will earn 5% the first year; 5.8% for the next four years; and 6 1/2% for the last five years. This gives you an average 6% yield over the 10-year period.

It works for Bonds you now hold, too. There's no reason to redeem your older Bonds to buy new ones.

Their yield has improved, too.

All outstanding E Bonds will receive a 1/2% increase in yield for each semiannual interest period beginning on or after December 1, 1973, payable upon redemption. This also applies to any Freedom Shares you may still hold.

All outstanding H Bonds will receive a 1/2% yield increase for each semiannual interest period beginning on or after December 1, 1973. This is payable in the form of increased semiannual interest payments.

It all works to your advantage. Now, more than ever,

it makes sense to buy higher-paying U.S. Savings Bonds and hold them to maturity or beyond.

Vote Set on Federation Change

At the state convention of the Texas Federation of Women's Clubs last May, a new constitution was passed, Mrs. Ray Shirley said Monday. A change in associate membership dues, in which category the Foard County Federation of Women's Clubs is listed, reads as follows:

"Article IV Membership; Section 6B. Associate member dues shall be \$30.00 for a group of 10 clubs or less, and \$3.00 for each additional club."

There are six clubs in the FCFWC—Adelphian, Columbian, Riverside Home Demonstration, Gambleville Home Demonstration, Westside Home Demonstration, and Women's Service League. Thus, the dues to belong to the TFWC this year were \$30.00.

At the last quarterly meeting of the Foard County Federation of Women's Clubs, on January 28, it was announced that a vote would be taken at the March 30 meeting to determine if the group wanted to continue being an associate member of the TFWC by paying higher dues, or whether it just wanted to be a local federation. It was stressed that it would remain as a local organization whether it was federated with the state or not.

Each of the six associate clubs is requested to vote on this issue, and have their representative present at the March 30 meeting of the Foard County Federation of Women's Clubs to make a decision. The meeting will be at 2:30 at the Community Center with the Westside Home Demonstration Club as program leader and the Columbian Club as hostess. The program will be "Art of Flower Arranging" by Mmes. L. A. Andrews and H. C. Brown.

GAMBLEVILLE H. D. CLUB

"Dedication", was brought by the president, Mrs. James Sandlin, when she opened the meeting in the home of Mrs. Milton Hunter Friday night at 7:30. Mrs. David Scott, recreation leader, gave a quiz on Saint Patrick's day during the recreation period.

Roll call was answered by ten members and one visitor. A card was signed to send to an ill member, Mrs. Betty Chatfield gave the council report. Mrs. Chatfield stated the District 3 T.H.D.A. Spring meeting will be held in Anson April 11th. The lunch will be \$2.25. Those planning to attend the meeting and want lunch reservations please let Mrs. Clarence Garrett know before Monday March 25th. Since the T.H.D.A. meeting is being held on the regular council meeting date, the council meeting will be April 4. The program was brought by Mrs. David Scott on "Food Misinformation, and Pactice and Health Recommendations". Mrs. Scott gave a true or false quiz on food misinformation. Mrs. Scott stated from 10 to 11 per cent of the food dollar was spent on fats, sweets and oils. Foods high in nutrients but low in cost may be obtained by careful shopping. The cheaper meat and fish cuts are as high in protein as expensive ones.

Secret Pals were revealed and gifts were exchanged. Mrs. Mattie Boyd received the hostess gift. The next meeting will be April 5th with Mrs. J. E. Brasher as hostess.

Lions protect their land.

While the lioness cares for her cubs, the lion protects their land. Watchful. Protective. Caring for his land through good times and bad.

Like the lion... land and its care are basic to the agribusinessman. It's not an easy task. Some years are better than others. You need to make the most of the good times... to keep more of what you earn. You need protection that will provide a comfortable retirement, a guaranteed income for life. If you're self-employed, the Lioness can help with a plan that will reduce your current income tax and retain spendable income for another time.

To the Taxpayers of Foard County and Crowell Consolidated Independent School District:

Each person owning personal and-or real property within the County of Foard or Crowell Cons. Ind. School District, is respectfully requested by Emmett E. Howard and J. H. Gillespie to come by the respective offices at his earliest convenience and render such property for the purpose of taxation.

The law, in effect, provides that all property shall be listed or rendered by the owner thereof, if he is of full age and of sound mind, but when it becomes necessary for the respective tax assessors, their deputies or others who have to be hired for such purpose to seek out each property owner to secure the individual renditions, the expense involved is greatly increased, and this additional expense is borne by the taxpayers.

Your cooperation will be appreciated, and it will save you money. TRY IT.

Foard County News—7

Crowell, Texas, March 21, 1974

30 Years Ago in The News

News items below were taken from the Thursday, March 23, 1944, issue of the Foard County News:

The heaviest vote polled in a city election in many years was cast Saturday in the bond election authorizing the City Council to issue water revenue bonds in the amount of \$130,000 to improve the water system and bring to Crowell an ample supply of good water. The vote was 311 for and 1 against.

It was reported in Crowell Wednesday that a good oil well had been brought in by The Texas Company on the Charlie Matyssek farm, just over the line in Wilbarger County, about fifteen miles east of Crowell.

A deal was closed last week whereby Roy Barker purchased the big brick building and the shop equipment from E. Swaim, pioneer automobile mechanic and garage owner of Crowell. Mr. Swaim had been in the garage business for about 34 years.

A sunrise service will be held Easter morning at the First Christian Church in which all the churches of the community will take part and to which everyone is invited.

Assurance to Foard County farmers that they can go ahead with an all-out production program this year without fear of a collapse in prices was given this week by J. D. Miller, administrative officer, AAA, who reviewed price schedules which were made effective by Congress' provision for carrying out the support price program.

Over 30 boys are out for spring training in football. Coach Grady Graves said Monday.

The new building and vaults for the Brooks Frozen Food Locker system in connection with the Brooks Food Market was completed Monday of this week and the refrigeration equipment for the lockers has arrived and installation work will begin next Monday.

A plea that small farmers not abandon diversified farming in favor of the old, dangerous, one-crop system was voiced here this week by Julian Wright, county supervisor for Farm Security Administration.

Carroll E. Thompson, aviation student, son of Mrs. Ed Thompson, who has been at Santa Ana Army Air Base, Calif., has been selected for training as a bombardier in the Army Air Force.

A baby daughter, Judith Dee, was born March 11, to Lt. and Mrs. Sam Crews in a hospital in Houston.

Mmes. Hines Clark and Roy Avers spent Wednesday in Vernon attending the annual Northwest Texas Women's Conference at the Methodist Church.

Mrs. W. J. Garrett entertained a group of boys and girls at her home four miles east of Crowell Monday afternoon to celebrate the fifth birthday of her son, Aldon Ray, whose birthday came on March 12. The pretty birthday cake and punch were served to Svbil Henry, Billy Roy Henry, Ronny Owens, Patricia Prosser, George Morgan, Doris Brock, Don Parkhill and the honor guest.

AG CREDIT OUTLOOK IS GOOD

Although agricultural loans are expected to increase 15 to 20 per cent during 1974, rural areas should have the funds to cover them, believes an economist for the Texas Agricultural Extension Service. And the price of loans should remain about the same as in 1973. Country banks in Texas have larger deposits now due to increased prices received by farmers. Deposits at the beginning of the year were up from 10 to 20 per cent depending on the area of the state. Loans from rural banks were also up more than 20 per cent in volume from a year ago. Although the agricultural credit outlook is good, farmers and ranchers need to give special attention to keeping complete records to back up loan requests.

April 1 Is Last Day for Registering Vehicles

Monday, April 1st, is the last day for registering Texas motor vehicles, according to R. W. Townsley, director of the motor vehicle division of the Texas Highway Department.

Townsley noted that owners of motor vehicles must display 1974 license plates by 12:01 a. m. Tuesday, April 2, to avoid penalty.

Townsley encouraged vehicle owners already possessing new plates to put them on. "It's the

best advertising we can get in reminding owners that the registration deadline is fast approaching."

For those not yet registered nothing is changed in the registration procedure from last year. The renewal form and payment are all the vehicle owner must present at the time of registration.

If the registration form has been misplaced, the owner will be required to bring his certificate of title and last year's license receipt.

Townsley reminded that beginning in 1975, Texas will change over to the 5-year license plate. "We're already manufacturing the '75 plates. That's how much lead time we have to give ourselves."

"In 1976, instead of buying a new license plate, motorists will purchase a 1- by 2-inch adhesive-type sticker that will be placed on the upper left corner of the plate," said Townsley. "In 1977, the sticker will be stuck to the upper right corner, then alternated for the following years."

According to Townsley, the 5-year plate will feature an entirely new design, including the use of vowels for the first time. Since 1965, when the three-letter system was adopted, only consonants were used. However, with an ever-increasing number of motor vehicles, the entire alphabet will now be employed. As an example, the first 1975 license plate will be AAA 10.

Townsley says the 5-year license plate will save Texas taxpayers an estimated \$10.5 million over a four-year period, since annual license plate production will no longer be necessary.

Callie Cash Died in Knox City

Malisa Caroline (Callie) Cash, 93, of the Brazos Valley Care Home in Knox City, passed away at 10:30 a.m. Monday after an extended illness.

Funeral services were held at 2 p. m. Tuesday from the Church of Christ in Truscott with A. B. Martin of Red Springs officiating. Burial was in Truscott Cemetery under direction of Smith Funeral Home of Knox City.

Miss Cash was born February 19, 1881, in Fannin County and moved to Truscott in 1908. She lived there until three years ago, when she moved to Knox City. She was a member of the Truscott Church of Christ.

Surviving her are one sister, Mrs. E. L. Cloer of Irving; four brothers, Otis Cash of Knox City, John Cash of Carlsbad, N. M., Homer Cash of Pixley, Calif., and Odis Cash of Lubbock.

BIG SPENDING

"In all the years," notes Nation's Business magazine, "between the founding of our republic and the middle of World War II, federal government spending totaled about \$300 billion. The budget for the next fiscal year proposes \$300 for THAT SINGLE YEAR. Does that make sense to you? If it doesn't, let your Senators and Congressman know you want spending brought under control."
