SENIOR SPOTLIGHT

Lisa Fran Halnecak is in the senior spotlight this week. Lisa, the 17-year-old daughter of Mrs. Edwina Halencak, is 5' 1" tall, has green eyes and brown hair. She attends the Margaret Methodist Church. favorites include: Food, mushrooms; color, purple; song, 'Old Man' by Neil Young; actor, Elliott Gould; actress, Cloris Leachman; hobbies, listening to music; subject, English. Lisa is active in band, she was freshman class favorite, and was treasurer of the Student Council. Lisa's future plans are to attend Texas Tech University.

JUNIOR JIVE

The Juniors would like to congratulate the Wildcats on such an outstanding season. We would also like to thank the spectators for supporting our teams with their presence and with enthusiam.

The American History class taught by Mr. Brock, had a surprise test about pickles. Such as: How many sides does a pickle have? Two, the inside and the outside. Who said, "I never met a pickle I didn't like?" Dill Rodgers. What was the pickles most famous musical play? Pickler on the Roof. This was a very unusual test but everyone enjoyed it.

Last week was our favorite week of school because we got out of school at 2:30 for parent-teacher conference.

With the ending football season the basketball season gets unerway. Let's all support our teams.

The past two weeks have been exciting for all freshmen after winning the spirit stick. Last Thursday the freshmen had a class party and went skating at Vernon. Saturday before last,

four freshmen boys took a team to Vernon in FFA quiz and placed second and went to Stephenville Tuesday, Nov. 19. The team consists of Paul Whitley, John Klepper, Jay Wall and Scott Streit. With football season over now, everyone will be able to come to the warm gym for a while.

The Hornets defeated the Wildcats Friday at Asperment by 14-13. A one-point margin is a bad way to lose a game, but the Cats really played a good game. It was the last game for the senior football boys. They are Allen Tapp, Hal Williams, Nathan Frater, Chavelo Raniel, Hammonds, Randy Prince, Keith McDaniel, Rudy Rodriquez and Don Sparkman. The season record was 7-3.

F. H. A. NEWS The F. H. A. met Tuesday, Nov. 12, in the homemaking cottage. Jackie Brown called the meeting to order and Sylvia Quintero called the roll and read the minutes. Pam Whatley led the group in the Future Homemakers of America song while Anita Vecera played the pinao. This week's downtown marquee committee will be Connie Werley, Sulema Santos, Sylvia Quintero, Pam Whatley, Vickie Tole and Kristi Shirley. The school bulletin board committee will be April Werley, Brown and Vickie McDaniel. Refreshments were served by Debra Daniel, Melissa Burelsmith, Penny Gordon Erwin. Winters, Jackie Carroll and Renee and Rhonda Westbrook. Special guest this week was Barbie Scott who gave a very interesting program about her trip to the farm Bureau citizenship seminar in Waco. Thank you, Barbie, it was very informative. The next FHA meeting will be Dec. 10 after school in the homemaking cottage. We would like to thank the FFA boys for inviting us to their hayride Nov. 5. I think everyone had a great time.

#### SPANISH CLUB NEWS

All the Spanish students expected another pop test last week, but to our surprise, we planned a party instead. Everyone is to meet at Hal Williams' house Friday at 6:30. ## **Halbert** Is Rotary Speaker

Rotarian Grady Halbert's topic for a talk Wednesday, November 13, at the Rotary Club meeting was the Rotary Foundation, a program of sending students to countries other than their own for a year's study, and to serve as an ambassador of good will from their land to the place where they are visiting. The Rotary Foundation, Halbert said, has been praised by the non-communist countries as one of the finest efforts toward world peace that has been advanced. Presently the foundation has a trust fund of some \$14 million. Revenue from this fund, plus donations by Rotarians worldwide, provides the \$5 million being spent this year in sending 792 people to countries other than their own for study.

The Rotary Foundation was started in 1917 and has been growing steadily each year. Halbert said that the local club has donated generously to the Foundation and he closed his talk with an appeal for additional donations to benefit the program.

He was introduced by Roy Whitley.

New student guests attending were Arthur Cerda and Steve Setliff who were introudced by

## Social Security News

Doctor bills for October, November and December may in some cases count toward the \$60 annual deductible for both 1974 and 1975 under the "carry over' provision of Medicare medical insurance, according to Terry Clements, claims representative from the Vernon,

Texas social security office. Medicare medical insurance doesn't pay for the first \$60 in covered medical expenses in a calendar year. "But people who haven't had covered expenses over \$60 before October should be sure to send in all the bills for covered services they receive in October, November, and December," Clements said.

"Any expenses you have during the last 3 monts of the year can also be counted toward the deductible for the next year,"

## **Fight** Inflation

Motorists can fight economic inflation with proper tire inflation this winter, says the Tire Industry Safety Council.

Underinflated tires can increase fuel consumption by as much as one mile per gallon, according to a recent report by the Federal Energy Administration entitled, 'Don't Be Fuelish."

The FEA recommends checking tire pressure at least once a month, and says, "For the best gas mileage and for driving on long trips with heavy loads, inflate your tires 3 to 4 pounds above the recommended pressure but do not exceed 32 psi," or other maximum imprinted on the tire.

"This winter, with bad weather and fuel shortage besides, motorists should utilize all the safety and gas savings tips they can get," declared Council Chairman Malcolm R.

"We already know that properly inflated tires improve a car's braking, traction and steering capability,"

"Now it's been established that underinflation increases a tire's rolling resistance, causing the car to use more gas-and money-per mile," Lovell said.

COLUMBIAN CLUB

When the Columbian Club met with Mrs. Jack Brown at Truscott Wednesday, Nov. 13, the members were entertained at the new Truscott community center. Before the meeting was called to order, the group toured the new facility. The kitchen is conveniently arranged so that meals for a large crowd can easily be prepared.

Mrs. G. A. Shultz presided for a short business meeting at which all officers present gave their reports. Mrs. W. O. Rucker was leader for the program on Thanksgiving. She distributed slips containing a scriptural quotation on thanksgiving and thankfulness to each member who, when called upon, gave the source of the quotation and commented on it. Roll call was answered by "what I have to give thanks for."

Next meeting will be December 11 with Mrs. Robert Hammonds. The hostess served delicious refreshments to ten

## WTSU Band to March from Canyon to Amarillo

The 240-piece West Texas State University Band will "make history" Saturday, Nov. 23, when they march 20 miles from Canyon to Amarillo.

The longest such march known for any band, their effort will qualify West Texas State for a listing in the Guinness "Book of World Records" and hopefully raise enough money to send the Symphonic Band to California.

"We need approximately \$20,000" noted director Gary Garner. The West Texas State group was selected from nationwide competitive tape

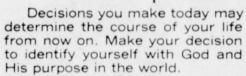

auditions to be one of six bands perform before the prestigious College Band Directors National Association Feb. 5 in Berkeley

"This represents association's recognition that the West Texas State University Symphonic Band is a top concert band," Garner said.

Garner said that each student will have to raise approximately \$150 by seeking sponsors to pay any amount they wish per mile.

The estimated four-hour trip, beginning at 10 a.m., will culminate with a concert in Amarillo's Western Plaza Shopping Center.

**Higher Salaries** 

HILLSBORO, ORE., ARGUS:

Words can be confusing. For example, if you call a young lady a 'vision' she will consider it a compliment, but if you say she is a 'sight' then watch out. Yet, basically they both have the same meaning. Now, let's take the case of productivity and production. There is an important difference. Production refers to the total quanity of goods produced, while productivity is often expressed as the measurement of output per man hour. Just as a football player, no matter how much skill he has, or how hard he works to keep in condition, needs good equipment to produce victories, increased productivity by business and industry is achieved by melding all factors-raw materials, labor, and capital costs-in the manufacturing of a product. A major result in the efficient use of capital funds is an increase in output per man hour with no increase or reduction of the physical work effort in the creating of products. A better appreciation of what productivity is all about is essential if we are to compete successfully in the market-

# places of the world."

The Texas State Teachers Association will ask the Texas Legislature for a salary schedule which next year (1975-76) would Put Texas teachers \$595 above the national average paid

teachers in all states.

The total bill-estimated unofficially to cost \$2 billion for the next biennium-would revise the school finance system, reduce class sizes, provide state-funded compensatory education for the educationally disadvantaged, continue the special education program for the physically and mentally handicapped, provide increased funds for poorer districts, and allocate more state aid for school transportation for

maintenance and operation. Cost of the salary portion of he bill was unofficially pegged at from \$800 million to \$1 billion. Official cost estimates will be made by the Texas Education Agency.

The TSTA plan for revising school finance includes basing the local fund assignment of costs of market value of property, as Atty. Gen. John Hill ruled this week must be done. This is the plan for which TSTA fought unsuccessfully in the 1973 legislative session The 152,000-member teacher group-second largest in the nation-also will support Governor Dolph Briscoe's planned request for emergency funds to aid school operations and to assist inflation-hit retired

Meeting in Austin this week, TSTA committee voted to seek an \$8,200 starting salary for teachers. Effective just this year, beginning pay for a teacher with a bachelor's degree is \$6,600. Last year it was only

Texas last year ranked 37th among the states in teacher salaries, \$1,706 below the national average. Estimates for 1974-75 have not yet been

After 12 years of teaching, the proposed schedule would put a Texas teacher with a bachelor's degree at \$15,910.

A key part of the proposal is a cost-of-living adjustment each year, beginning in 1976, to keep teachers abreast of inflation. The projected salary ranking assumes that those local school districts which enrich the minimum salaries will continue to do so at their present rate.

## TIME FOR REFORM

(Editor's Note: The following timely editorial is taken from the Tuesday, November 12, issue of The Dallas Morning News.)

Come Jan. 1, we get our yearly reminder that Social Security reform is long overdue. That is the day Social Security taxes-how did you guess?-go up again.

The present taxable income ceiling is \$13,200; but as of next year it will be \$14,100. That means up to \$52.65 newly extracted from our paycheckson top of the \$772.20 maximum we already pay

How long will it go on, this funneling of taxes into a "retirement" system that is technically bankrupt? For so long as those who pay the taxes fail to demand of their representatives a fundamental overhaul of Social Security.

Three reforms are of the essence. Firts, Congress should abolish the payroll tax which currently finances the system. The tax could be replaced by Social Security bonds, whose revenues would go to meet existing obligations plus future principle and interest. With current Social Security moneys flowing into general revenue, the system will be \$20 billion in the red in a mere 16 years.

Second, the ceiling on outside earnings by the Social Security recipients should be abolished altogether. It is intolerable that after paying for years into Social Security, retired workers under 71 should be prevented from earning more than \$2.520 (the figure that takes effect in 1975)

without a reduction in benefits. Third, the individual worker should have the right, presently denied him, to drop completely out of the system. The government might reasonably require that he purchase bonds from private sources. But to imprison him against his will in back, however. Tapp carried the a bankrupt retirement system... it is folly, not to say tyranny.

#### WARRENSBURG, MO.. STAR-JOURNAL:

'Speaking of advertising, we are reminded of the classic story of William Wrigley of chewing gum fame. Wrigley was said to have been riding on a train with a friend (this was long...ago) when the friend pointed to the frequent Wrigley gum signs along the right of way and adjacent highways. 'Why do you spend all this money on advertising?' asked the friend. Your business is established, your gum is famous and the competition is almost nonexistent.' 'Well,' answered Wrigley. how fast you think this train is going?' 'Oh about 60 miles an answered the puzzled friend, 'Why?' 'Don't you think that is fast enough?' Wrigley said. 'Why don't they just take off the engine and save all the expense?" The friend had no comment.

According to a publication of ie Field Enterprises Educational Corporation, "Fear is one of the worst forms of trouble. We fear the unknown. We fear the consequences of making what might turn out to be a wrong decision. We worry that we will fail at some task, or be critized for how we act or feel. We are afraid of losing face and we are frightened by the thought of illness or accidents. Often we try to hide from our fears, which is the worst mistake we can make. If we run from our fears, they will chase us and make us cowards. One man with a reputation for unusual courage once gave this simple rule: 'Never go out to hunt for Old Man Trouble. But if he is in your path, meet him head-on.'
