Pease River Cattle Drive Set for Monday

The big drive to round up stray cattle along Pease River has been set for Monday, March 17, Sheriff Emmitt Howard said this week. The Foard and Hardeman County sheriff's departments along with Foy Horton of Quanah and Charlie McDaniel of Crowell will be coordinating the cattle drive.

The Foard County group will meet in downtown Crowell at 6 a.m., Monday, and go to the northwest corner of the county where Foard, Hardeman, Cottle and Childress counties come together. A helicopter owned by the Masterson Ranch of Cottle County and piloted by Tuck Blankenship will be used to scare the cattle out of the salt cedars and other brush along the river.

Howard said portable

loading pens belonging to Johnson-Ekern Ranch will be taken along, and the cattle which are flushed out of the riverbed will be penned as quickly as they can be driven to the portable pens. The helicopter is expected to be highly successful in flushing the cattle out of the heavy brush alongside and in the river bed.

A group from Hardeman will be working along the north side of the river in cooperation with the Foard County group.

At a planning meeting held here recently, cattlemen along the river agreed to the cattle drive with each one to pay his proportionate share of the expenses involved.

Sheriff Howard said Tuesday that Joe Brown, farm editor for the Wichita Falls Record News, said that he plans to be here and take moving pictures of some of the events of the day.

TAX MANAGEMENT ON RESIDENCE SALE
 Residence sales during 1974 probably were profitable, but income tax may be due on this profit unless certain provisions are met, reminds an economist for the Extension Service. Although gains resulting from residence sales or exchanges are taxable, home-owners who sell or exchange their principal residence and replace it within a specific time period postpone tax on any gain. To qualify for the tax postponement in most cases, the new residence may be acquired within one year before or after the sale of the old residence. This period is extended to 18 months if a new residence is being built.

Extra GI Bill entitlement is available to veterans and active duty military personnel to complete high school or take certain courses required for higher education and this "free entitlement" is not chargeable to the individual's normal entitlement.

Cattle, Calves On Feed Dip 40 Percent

AUSTIN—Texas cattle and calves on feed for slaughter dropped 40 percent from January 1974 numbers, reflecting the depressed cattle market, Agriculture Commissioner John C. White said recently.

Animals on feed totaled 1,327,000 head in January compared to 2,205,000 a year ago.

Total marketings in the state from January through March are expected to be 850,000 head, down some 13 percent from 992,000 head marketed in the same period last year.

White said steers and steer calves represented the largest number of cattle on feed in January with 858,000 head compared to 1,450,000 in 1974. Heifers and heifer calves totaled 464,000 head, while they numbered 750,000 last year. Cows and others remained steady at 5,000 head.

The lowest numbers of cattle and calves on feed for Jan. 1 since 1965 have been reported from 23 major states, including Texas. According to the U.S. Department of Agriculture Crop Reporting Board, 9,619,000 head are on feed, 26 percent lower than last year and 31 percent off 1973 figures.

During January-March, cattle feeders in these states expect to market 5,538,000 head, eight percent below last year and 16 percent below the first quarter of 1973.

Persons who use insecticides in their gardens should read all labels carefully before applying the chemical, said Agriculture Commissioner John C. White. Pesticides applied at rates exceeding recommendations may be poisonous to the plant and develop resistance to the applied material in target pests.

When buying fresh citrus, select fruits that feel heavy when held in the hand. These will be juicier, say Texas Department of Agriculture home economists.

No Longer Number One... 90 to 100 Gins To "Lay Out" ... Cattle, Calf Sales Decline ... Broiler Production Up and Down.

Texas is no longer the number one cattle feeding state in the nation. The state lost that long-held honor to Iowa as of Feb. 1. Cattle and calves on feed in Texas number 1,237,000. Iowa's total is 1,250,000 head.

Cattle on feed in Texas have been cut virtually in half in a year's time. The number of cattle on feed a year ago in the state totaled 2,340,000 head. Compare that with the latest figures and you have a 47 per cent decline.

Nationwide, cattle on feed in the seven major feeding states—Texas, Iowa, Nebraska, Colorado, Arizona, California, and Kansas—are down 37 per cent from a year ago. As of Feb. 1, cattle numbers in these states totaled 6,050,000 head compared to 9,632,000 a year ago.

This could explain in part some of the price declines in grain sorghum of recent weeks. Sorghum prices have declined around \$2 per hundred pounds since last November.

Two-thirds of the Texas' sorghum crop is used in cattle feeding. Thus, a cut of a million head in cattle on feed would have some effect on total usage of sorghum.

Cow-calf operators can expect little relief from their depressed problems until an upsurge in cattle feeding materializes.

OF THE state's 900 cotton gins, about 90 to 100 are not expected to be operating this season due to projected cuts in cotton acres. This does not mean those gins which do not open this year are going out of business permanently, however.

Not as many gins are expected to be idle on the High Plains this year since cotton acres probably won't be cut as much in that area as other sections of the state.

A reduction of 23 per cent in cotton acres is forecast for Texas this season. This figure is based on Jan. 1 intentions. Weather and improvements in the cotton price picture can yet change the final figure, even though cotton planting is now underway in the southern parts of the state. Planting there is off to a slow start because of the weather. However, projections now are that perhaps less than 50 per cent of the acreage to cotton in the Valley last year will be planted this season.

SALES of cattle, calves, sheep and goats in Texas during January were 28 per cent below a year ago, the Texas Crop and Livestock Reporting Service notes.

However, sales for hogs continued at the same pace of a year ago.

There were 482,000 cattle and calves marketed through auctions during January, a decline of 28 per cent from a year ago. Sheep sales totaled 52,000 compared with 78,000 a year ago. Goat sales were 27 per cent below a year ago.

The Texas Animal Health Commission reports only a third as many cattle and calves were shipped out of Texas during January of this year as there were a year ago.

BROILER production in Texas as of the middle of February was down seven per cent from a year ago, but shows an increase of 12 per cent from the previous week.

USE FERTILIZER WISELY FOR LAWNS

Wise use of fertilizer for home lawns is important due to short fertilizer supplies, emphasizes a turf specialist for the Texas Agricultural Extension Service. Bermudagrass requires more nitrogen fertilizer than St. Augustine, centipede and zoysia grasses. Generally two pounds of nitrogen should be applied per 1,000 square feet of lawn area for both spring and fall applications (20 pounds of a 10 per cent nitrogen fertilizer). For more efficient fertilizer utilization, increase mowing heights during the summer, leave grass clippings to recycle, and water infrequently but in sufficient amounts to soak the soil to a depth of four-to-six inches.

COUNTY JUDGE IS ROTARY SPEAKER

Calling the "Economically Deprived Area" (EDA) program a "cousin of the old WPA of the depression days of the 1930's, County Judge Seth Halbert told members of the Rotary Club at their luncheon Wednesday of last week some of the problems of dealing with the federal government and also some of the possible ways the county may benefit from the EDA designation.

He prefaced his remarks by stating that the county has been deteriorating since the 1930's. Since the income tax was first conceived, Foard County residents have been paying and Judge Halbert likened any benefit the area may receive from the program to receiving at least a part of the taxes back. He said the federal government was like a camel which stuck its nose in the tent when the income tax was started years ago. Now the camel is "inside the tent" as the federal government is now deeply involved in every facet of our lives, from the city, to the school, and to the hospital.

Judge Halbert said that applications for federal aid under the EDA program calls for all projects, whether for the city, housing authority, development corporation or school, must be submitted by the county. He said that in January, a new law was passed that a number of programs may get 100 per

cent federal funding with a few catches. He said one of these is that projects must have at least 75 per cent of their cost going for labor, with not over 25 per cent for materials.

He added that some surplus Army materials from the Vietnam era may become available to the county under the program.

Judge Halbert was introduced by Rotarian Gordon Erwin. Visitors in addition to the speaker were John Napier of Vernon and Rotarian Chris Bissett of Quanah.

Guest speaker was Mrs. Virgil Johnson who spoke on Crowell being a bi-centennial city. She mentioned some of the things that have made America great. "Appliances on Parade"—Mark your calendar for Tuesday, March 25, to attend this annual event sponsored by the Texas A&M Extension Service and R-PEP. The Wilbarger Memorial Auditorium in Vernon will be the location to view exhibits and presentation of both

major and small household appliances. The program will include a consumer's guide on appliances; selection, use and care of refrigerators, ranges, microwave appliances as toaster ovens and blenders. There will be two sessions—10:00 a.m.—12:00 noon and 2:00 p.m.—4:00 p.m.

If your spring house-cleaning seems to last all year long, you may just now be preparing to clean rugs or upholstered furniture. Why not make your own shampoo to clean these articles?

Use a rotary egg beater to whip one-fourth cup of light duty detergent with one pint of warm water to form a stiff foam.

Thoroughly vacuum any dust or dirt from upholstery or rug. Clean a small area at a time with a small brush or mechanical shampoo applicator, using only the dry suds.

Try this first on an inconspicuous area to make sure the colors do not bleed. If the colors don't run, continue rubbing the suds into a little area at a time in overlapping circles. Remove the soiled lather with a spatula from each small area before going on. Rinse each time with a damp cloth or sponge.

Speed drying of the surface by using an electric fan or reverse air blast from vacuum cleaner.

Henry Black WSL Speaker

Henry Black told of further projects for the county and city for which governmental assistance might be possible at last week's meeting of the Women's Service League. He was introduced by Mrs. Fern McKown.

A rest home for this area has been badly needed for a number of years. This is always on any priority list. Citizens have also expressed a need for a bridge over the Wichita River in the Southwest part of the county. This would shorten a school bus route in bad weather that runs west of Truscott and requires doubling back. Of course, farmers and ranchers in the area would benefit. It is also a possibility that a scenic recreational center could be obtained for this portion of the county.

Black showed a map of the proposed expansion of the city park which has been approved. He pointed out requirements for project funding was constantly changing.

County Extension Agent Sally Sowell will present next Thursday's WSL program on restyling of clothing. Members are asked to bring to the meeting any garments they wish suggestions concerning.

WSL members are presently selling tickets for the circus they are sponsoring on the elevator grounds, April 2. Complete with wild animals this event is for the entire family.

will clear up several vague areas providing fairer and more efficient enforcement of the law.

Older people need about the same amount of vitamins as young adults. However, calorie needs are less due to a slower metabolic rate and decreased activity, according to Sally Springer, with the Extension Service.

30 Years Ago in The News

News items below were taken from the Thursday, March 8, 1945, issue of The Foard County News:
Lt. Tom A. Andrews, son of Mr. and Mrs. L. A. Andrews, who has been reported as missing in action since Dec. 17, 1944, is a prisoner of the German government, according to an official telegram received by his parents on Thursday, March 1.

Mr. and Mrs. Arthur Sandlin of Vivian received a card from their son, Sgt. A. Merl Sandlin, Tuesday, on which he said he was feeling fine and in good health. He is in a German prison camp. This is the second message the parents have had since Sgt. Sandlin was taken prisoner.

Pfc. C. J. Kelton, son of Mr. and Mrs. W. T. Kelton of Truscott, has been cited as an outstanding hero, according to a delayed dispatch from Sgt. Henry A. Weaver, a Marine Corps correspondent. On Iwo Jima, Marine Pfc. Kelton, bow gunner in an assault tank, ignoring a deadly hail of fire, leaped from the safety of his tank and rescued two fellow Marines, one of them a crewman of a blasted tank, with his clothes on fire and his leg mangled. Kelton raced through the escape hatch of his undamaged tank, raced to the fallen men through heavy fire, beat out the flames and then calmly carried both men to his tank.

Red Cross drive quota for Foard County was \$3,700 and Miss Margaret Curtis, secretary and treasurer of the local Red Cross chapter, has reported that late Tuesday afternoon Foard County residents had already subscribed a total of \$4,100.

A letter received Wednesday morning by Mr. and Mrs. T. B. Klepper from their son, Cpl. Wm. N. Klepper, who is in the Philippines, stated that he had spent the afternoon of Feb. 21 visiting Mrs. O. R. Boman of Crowell and her sister, Mrs. C. N. Hodges, at Santa Tomas Prison Camp in Manila.

Officers of the newly organized Lower Pease River Soil Conservation District were elected at a meeting here last Friday. They are W. C. Howard, chairman; Grady Halbert, vice chairman; and S. C. Baily, secretary-treasurer.

"I have a dog that growls, a parrot that swears, a fireplace that smokes and a cat that stays out all night. Why should I want a husband?" the spinster says.

Foard County has 146 girls among the 103,000 boys and girls in Texas and the 1,700,000 in the United States observing National 4-H Club Week March 3-11.

Tom Russell, Jim Cates, R. J. Roberts and L. G. Andrews have all announced as candidate for the city council in the April 3 election.

Miss Yvonne McLain, student at Hardin-Simmons University in Abilene spent the weekend visiting her mother. She was accompanied by Misses Jimmie Chatham, Charlene Grisham, Joyce Edwards and Winifred Walker.
