Crop Report Issued

District Agent Ed Garnett
has issued the following crop
report for the week:
Small grain yield prospects
and spring planting progress
continue to lag behind
normal due to lack of
sufficient moisture in the
western two-thirds of Exten-
sion district 3.
Hay harvest activity
increased rapidly during the
past week with cutting,
baling, and hauling of
alfalfa, oats, rye, and some
wheat for hay.
Native pastures are still
holding up, but are in bad
need of a good rain.
Sorghum planting is sixty-
five percent complete in the
southern counties and
making good growth where
moisture is adequate. Small
acreage of early cotton is up
to a weak stand in isolated
areas of the district.
Pecans are setting nuts;
a moderate crop is expected.
Borers are causing some
damage.

COTTON IN BALL GAME

Cotton is "still in the ball
game," says an economist
for the Texas Agricultural
Extension Service. Despite
reduced world consumption
of cotton and the highest
world cotton stocks since
1966, the bright side of the
picture shows a drastic
reduction in U.S. and world
cotton acreage along with an
increasing demand as
economic conditions
improve. Upland cotton in
the U.S. is expected to be
down almost 30 per cent from
1974 levels. In Texas cotton
acreage will be down about
19 per cent. The present loan
price of 34.27 cents per
pound will automatically
become the floor price for the
1975 cotton crop.

Delegates Elected to State Cattlemen's Meeting in Austin

Seven delegates were named to attend the state convention of the Independent Cattlemen's Association when the Foard County ICA held a meeting Tuesday night of last week. The seven delegates named to the convention in Austin June 20-21 are J. A. Marr, Jack Welch, A. V. McCombs, John Glenn Halsell, John Cogdell, C. V. Barker and Eldon Whitman.

At last week's meeting of the local group, Duane Johnson, chairman, told local members some of the significant events concerning landowners which have happened recently, the most important of which was information that the controversial land use bill will not come before the Congress at least until next year.

He told of some of the contacts made by T. A. Cunningham and R. B. Masterson who represented the ICA during a recent week's visit to Washington D. C. Mr. Cunningham testified before the Senate and both men met with Senator John Tower to discuss the livestock industry. They also met with president Gerald Ford at a reception in Washington, and discussed livestock issues with 12 key Congressmen. Imports are the cattleman's chief concern.

Mr. Johnson said information he has received is that 538,460 tons of beef will be imported from Australia this year, and this is expected to be cut to

375,000 tons next year. He said Australia has 34 million head of cattle now and this total is expected to grow to some 39 million head by next year.

The Foard County ICA voted at the meeting to sponsor a new program on validating entries into beef shows in Texas. Under this program, as explained to the group by Don Welch, local vocational agriculture teacher, steers which will be entered in shows will be tagged and a picture taken of the animal. Tag numbers will be sent to all the major shows in the state, so the fact that the animals are valid entries in the show can be made. Cost will be about \$25.00 a year for tags and other incidental expenses.

Welch told about some of the tricks used in entering livestock in some of the major shows. He said that certain individuals can go to a northern feed lot which has thousands of head of cattle, pick out a fine looking specimen, buy it and load it up and bring it to Texas to enter a show. He termed this as very detrimental to the livestock shows in the state.

The Foard County Independent Cattlemen's Association was formed here on February 6. Other officers in addition to chairman Johnson are Jon Lee Black, vice chairman; Robert Kincaid, treasurer; Henry Black, secretary; and J. A. Marr, George Self and John Glenn Halsell, directors.

Little League Beginning Seventeenth Year of Operation

The 1975 Little League baseball program is now in its seventeenth year of operation following a parade and games Tuesday night. The second night of action gets underway at 6:30 Thursday when Foard County Mill and Crowell State Bank play. The 8 o'clock game has Farmers Elevator playing VFW. Next Tuesday Elevator and Mill open the action while the late game has VFW playing Crowell State Bank.

The Little League program began here in 1959 with the first games played on June 2 of that year. Only change in team sponsorship during the years has been the Crowell State Bank replacing the Rotary Club as a sponsor. Other sponsors since the program was started have been Foard County Mill, Farmers Co-Op, Elevator

and Veterans of Foreign Wars.

In pre-game ceremonies that opening night 17 years ago, Arch Hughes of Iowa Park, district representative for Little League Inc., tossed out the first ball to open the season just after all sixty-Little Leaguers and their managers had assembled on the field. Three uniformed umpires from Iowa Park called the games that first night.

Incidentally, the copy of the News of June 11, 1959, telling about the opening ceremonies, also had an article about L. H. Wall Jr. of Vernon being elected to fill the vacancy created when Glen Taylor was moved from a coaching and teaching job to that of grade school principal. Mr. Wall has been president of the local Little League for several years.

Heatly Is Praised

Agriculture Commissioner John C. White praised the special efforts of six Texas legislators who are responsible for the bill to prohibit purchases of foreign beef by state and local government institutions and schools.

Rep. George L. Preston of Paris introduced HB 318, co-sponsored by Rep. W. S. (Bill) Heatly of Paducah, John Wilson of La Grange, Susan Gurley McBeath of Del Rio, and others. It was carried in the Senate by Senators William T. Moore of Bryan and A. M. Aikin of Paris.

"The impact of this law will mean that the millions of dollars that were going to Australia, New Zealand and other foreign countries will stay in Texas," White said. "In addition, the law assures mothers and fathers that meat now served in school cafeterias will be inspected under rigid state health requirements. Foreign meats previously imported for these programs were exempted from state health safety standards," White pointed out.

Governor Dolph Briscoe has signed the bill, which becomes law immediately. The State Department of Health is responsible for developing regulations and handling violations of the legislation.

All state institutions such as colleges, prisons, and hospitals are covered by the law. Also included are institutions supported by county and city governments, including public schools.

Rex L. Westover of Phoenix, Ariz., is here visiting his son, Melvin Westover, and family.

VAIN WORSHIP

If any type of worship is acceptable to God, why did Christ say it was vain to follow the doctrines of men? Mark 7:7.

Yes, there are many doctrines today which are the doctrines of men. The word doctrine denotes "that which is taught." (An Expository Dictionary of New Testament Words by W. E. Vine).

Now Jesus is saying that the worship of man is useless (vain) unless it is done as He commands. Worshipping God in man's way is to do so with emptiness.

How many empty sermons are preached from the pulpits of the country—How many empty (vain, useless) worship services are conducted every week—How many sermons and worship services are presented according to men's doctrines?

Think of the different ways God was "worshipped" last Lord's Day. And which way was right? Of course the answer is, "His way was right." Let us all go back to the Bible for directions as to how to worship God. The Book certainly does not advocate the different forms of worship that men teach today.

"Howbeit in vain do they worship men, teaching for doctrines the commandments of men." Mark 7:7.

You are invited to worship with us next Lord's Day.

Dr. Stapp Is Speaker on Malpractice Insurance

Dr. Walter H. Stapp, Foard County's only medical doctor, was speaker at the Wednesday, May 14, meeting of the Rotary Club of Crowell, and used as his topic the ever-increasing cost of malpractice insurance for the medical profession.

Introduced by Rotarian Ray Brown, Dr. Stapp pointed out that malpractice insurance which only a few years ago cost about \$110 a year has now risen to from \$6,000 to \$6,500 a year.

He stated that during recent years as medicine has improved techniques for treating the sick and injured, so much more has the public come to expect from the medical profession. He cited television medical shows in which everyone is always cured as one of the contributing factors to the public's attitude.

In commenting on malpractice suits, the doctor said the average person who wins a malpractice suit receives only 16 cents out of each dollar of judgement. Some attorney's fees range up to 50 per cent of the settlement.

He added that the medical profession is of the opinion that if mistakes are made and a patient wins a malpractice suit, he is justly entitled to more than 16 cents of each dollar judgement.

Dr. Stapp commented on a bill introduced into the legislature by Senator Ray Farabee which the medical profession believes is a fair bill concerning malpractice suits, and he urged those present to contact their

legislators in the interest of passing this bill.

Also last Wednesday, the four winners in the Rotary-Sponsored Four-Way Test Essay Contest read their winning essays. Winners were Jan Brown, Beth Graves, Paul Whitley and John Klepper. Each member of the freshman class of CHS participates in this contest each year, and judges pick the top four. They were introduced by Rotarian Gordon Erwin. In addition to a cash prize given by the club, Rotarian Hubert Brown continued his custom of also making a cash award to each of the winners.

The Four-Way Test asks four questions: 1. Is it the truth? 2. Is it fair to all concerned? 3. Will it build goodwill and better friendships? and 4. Will it be beneficial to all concerned?

ADELPHIAN CLUB

The Adelpian Club had its last meeting of the 1974-75 calendar year on Wednesday, May 14, at the club house. Mrs. Elton Carroll was hostess for the occasion.

The winning yearbook in the Santa Rosa District was shown. It is the fifth consecutive year that the Adelpian Club yearbook has won first in its class. With a possible score of 110, the local yearbook scored 108 points.

Annual reports were given after which an impressive installation service was given by Mrs. B. J. Halencak. On a white table, purple streamers formed spokes for a wheel. Candles tied with gold, were placed at the end of each spoke. In the center, Mrs. Halencak lit a candle as she installed the president, Mrs. Clarence Garrett.
