

SLAUGHTERED PIGS

On these... We want... at Warren...
Do not fail to visit our store and take advantage of this to buy cheap goods.

DRY GOODS!

Of any house in town, and have the largest list of well-selected customers. Are you one of them? If not, try us on a bill and see for yourself if we do not sell you goods cheaper than any one else.

Yours For Dry Goods,
G. E. BROWN & CO.

SUNDAY SERVICES

LARGE GATHERING FOR BAPTIST

WEDNESDAY

Last Sunday morning at an early hour the people of Goldthwaite were preparing to attend the baptizing at Warren crossing on the Colorado river. All the livery teams were engaged and those who were unable to find a team for hire and were forced to either borrow a carriage or stay at home. By 7 o'clock the subject was made by the sound of the church bell, and from the house the first of the crowd started and soon more than a hundred men, women and children were on the road toward the river. A wagon was made at Big Valley Baptist church, where Rev. Talley presided over the baptism.

The weather was sublime and the road was in good condition and those who witnessed the baptizing greatly enjoyed the occasion both spiritually and socially.

From the Baptist Chapel, Warren, the following are mentioned as having witnessed at Harmony Hall last night. His lecture was a veritable chef d'oeuvre of oratory, illustrated by glowing wit and anecdotal stories, which were as timely as they were timely. From the opening sentence to the last word the audience followed him with breathless attention and would gladly have listened to him all night. His humor is pure and refreshing as a mountain stream, and some of his points are greatly beautiful, but it is as a "preaching man" that he is best known. His style is that of a man who has had his feet on the ground and his eyes on the light of the truth. He simply writes the English language into music of fire which he applies without mercy to sinners and takes, humbly and hypocritically of every class and condition. His humor is one of the very few that are both good and timely and his manner is as lightning on the lightning's bolt. He simply writes the English language into music of fire which he applies without mercy to sinners and takes, humbly and hypocritically of every class and condition.

Dr. E. M. Wilson, the doctor, will be at the office to examine any one who may desire to see him.

W. E. James, better known as "Doc" James, has been sick a portion of the week.

All of the Bureau papers at the post-office were stolen.

J. H. Jones of Center City made a pleasant trip Thursday.

It is reported that several of the old-time miners are planning to start a new mine at Big Valley.

Rev. K. W. Hanson preached at the Christian church last night to a good audience.

THEY MAY GO TO WAR.

FRANCE AND BRAZIL ARE MAKING UGLY FEACES.

The Spanish Minister of State Apologizes for the Attack on the American Consulate at Barcelona. He Minister Terrell Advises Secretary Olney.

Rio de Janeiro, March 3.—Since the revolution of 1889-94 the political situation in Brazil has not been so critical as at present. Nothing but storm clouds are to be seen coursing across the skies of the politics of this youngest of republics.

There are two powerful reasons for this disturbing state of affairs. In the first place (the Jacobins or Nationalists as the party of the late President Potosi is termed, becomes more powerful day by day and threatens to overthrow the moderate government of President Moraes.

In the second place the relations between France and Brazil become more strained as each day passes, and it is anticipated that the Brazilian government will shortly be called upon to face the landing of French troops in the Amazon territory, the territory which has so long been in dispute between this country and France.

The dispute with France over the Amazon territory is aggravated by the attitudes of the Jacobins and the fact that bands of filibusters, directed by Cabral, the representative of the state of Para, in the Amazon territory, have been seizing property here and there and squinting at the French.

Numbers of French, Numbers of Frenchmen have been killed and other outrages innumerable have been reported.

Meaning News. City of Mexico, March 3.—There is great interest here in the outcome of the strained relations between Spain and the United States and war is generally believed imminent. Liberals sympathize with Cuba, but conservatives and clericals take the side of Spain.

An earthquake in the direction of northeast to southwest was felt in this city early yesterday morning; also in Colima, Manzanillo, Morelia and many other points. The shock was a sharp one and cracked many buildings in Colima.

Mr. Sweetman Pearson, who is one of the bidders for the contract for harbor work at Coahuacalco and Salina Cruz, has just received those parts which are the eastern and western termini of the Tehuantepec railway.

A new railway to Guatemala is in a fair way to be realized. Completion of this line in connection with plans for uniting the Vera Cruz road with the Tehuantepec line, would give all-rail connection between this city and Guatemala.

Imports of railway material are increasing owing to active construction. It is reported that Cardinal Salotti and Archbishop Reig have met at the frontier and some beneficial cooperation may be effected. Many important ecclesiastical questions are awaiting the arrival of Averell.

Washington, March 3.—The bill passed yesterday for the investigation of the case of Turner, who is a resident of Hamilton county, Texas, is now in the hands of the committee, which is expected to report on it in a few days.

The arrest of Turner, who is a resident of Hamilton county, Texas, is now in the hands of the committee, which is expected to report on it in a few days.

ALL SPAIN IS MAD.

COBRIED TO ATTACK UNITED STATES CONSULATE.

And all Because the Senate Passed a Concurrent Resolution Looking to the Independence of Cuba—Important Question of Law Has Been Raised.

Washington, March 3.—It is understood that the probable action of congress in respect to the Cuban revolution pending in both houses shrouded the attention of Saturday's cabinet meeting. In view of the position taken heretofore by the president and the secretary of state, and which there is no reason to suppose they have abandoned toward the Cuban revolution, the decision of the senate committee on foreign relations to express the sentiment and wishes of congress in the form of a concurrent resolution has given much gratification to the administration.

But by making the resolution a simple concurrent one the president will be relieved of the necessity of announcing a decision at this time. He can regard the resolution as a simple expression of the sentiment of congress and avoid the question of the executive branch, as would be the case in a joint resolution, which has all the force of an act.

It is true that the senate passed a concurrent resolution that our government, through the executive branch, should not be asked to recognize the independence of Cuba, which action, in the opinion of the president, is in accordance with the sound American policy of non-interference in the affairs of that continent. As it was a concurrent resolution the president was not required either to approve or disapprove it, and as it had not the force of an act, it could not be construed as a declaration of war.

The president's action in this regard was considerably less than the rebels were driven to La Paa, on the route to Leon.

In addition the government troops captured a portion of the rebel army, consisting of some of the Cuban Krupp guns which formed part of a long line of arms recently purchased in Germany.

Spain Apologizes. Washington, March 3.—A cablegram from Minister Terrell, reached Secretary Olney Sunday evening, officially advising him of the Barcelona outbreak, as follows:

"The minister of state has just called to express deep regret that the mob has assaulted the Barcelona consulate, breaking the windows, and offered complete reparations. He informed me that the government on its own motion has taken every precaution to guard the legation and my residence. I have asked no protection."

It is perhaps in part owing to these official advices that the excitement in Spain over the action of the United States senate leading up to the assault on the United States consulate at Barcelona, falls to find a corresponding reflex in Washington, at least in official circles, and almost everywhere.

Albany Investigation. Washington, March 3.—The senate committee on education and labor today reported on the Albany investigation, which was held in Albany, N. Y., last week.

STUART GONE NORTH.

HE WANTS TO MATCH JAMES AND ROBERT.

A Tempting Prize of \$13,000 Will Be Hung Up Before Them, and a Guarantee of Immunity from Prosecution by Officers of the Law.

Dallas, Tex., March 3.—Dan A. Stuart departed for New York city via Louisville yesterday morning. After a brief sojourn in the town of Henry Waterman the promoter of fictitious science will proceed to New York city. On March 15 Joe Walcott and Scott Collins will meet in the ring before the Masopust club of Long Island. The latter is the protégé of Stuart and the latter has a big eye on the result, taking the Bright Eyes end of the string. He is very anxious to match Corbett and Fitzsimmons and has a tempting prize in the shape of a \$12,000 purse ready for the gladiators. Stuart will meet Corbett and Fitzsimmons on the California to agree to the date on which he will meet Fitzsimmons or expose himself to the charge that grand standing is his forte. It is believed in sporting circles that despite Fitzsimmons' refusal to meet Corbett Stuart will meet him at some date and Chynski, he will cease his grand stand exhibitions when the Dallas man talks business to him. Before departing for the east Mr. Stuart informed a reporter that he had a safe site picked out for the battle ground and would stake the absolute protection of the fighters to the press representatives and the spectators.

Was Tired of Life. Fort Worth, Tex., March 3.—Friday last a man registered at the Fountain hotel here as William H. Heard, but gave no other name. He was a small, thin man, with a high forehead and a long nose. He was dressed in a suit of gray and a white shirt. He was seen by a man named James H. Heard, who was a carpenter by trade. The latter appears to be a man some 48 or 50 years of age, rather stocky, with a high forehead and a long nose. It is supposed he was a carpenter by trade. Telegrams have been sent to Radium, Idaho, with a view to ascertaining his identity. In the meantime the body is in the hands of an undertaker.

Coal in Neacoches County. Garrison, Tex., March 3.—This town and the surrounding community is considerably enthused over the discovery of coal, outcropping of lignite, all over this section of the county. Recently a deeper stratum has been found that proves to be coal of a good quality, burning and cooking equally as well with other bituminous coals. The Houston (Tex.) Union Coal company has leased over 4000 acres of land and is sinking a shaft half a mile from town. The vein is from ten to four miles wide and runs directly under the town. Some of the officials of the Houston East and West Texas railroad will be here today to investigate the coal.

Passed Over His Wife. Washington, March 3.—The first presidential veto of this session of congress was overridden by the house Saturday by a vote of 198 to 122 more than the requisite constitutional two-thirds. All the Republicans and the two Democrats voted for the bill, while the votes to sustain the president's veto were all cast by Democrats. The bill authorizes the governor and local officers of Arizona to lease the education fund for territorial school purposes. The president's objection to the bill was that it did not give the secretary of the interior power to disapprove of the leases and did not throw proper safeguards about the timber on the lands. The statement was made on the floor that the bill was identical with a similar bill passed by the last congress relating to Oklahoma Territory at the request of the secretary of the interior, and that the president had not written approval of both Secretary Smith and the commissioner of the general land office. This statement was also made that the lands proposed to be leased were now in possession of cattlemen and others, rent free.

Business Lying. New Orleans, La., March 3.—Paul and Gilbert Francis were taken from jail and lynched by a mob Saturday in front of the courthouse at Convent, St. James parish. They attempted a few nights ago to burglarize the store and residence of M. George and assaulted his wife. George, hearing the noise, confronted the burglars as they broke in his front door, but they overpowered him, disarmed him of his pistol and knocked him down with a blow which rendered him unconscious. The mob rushed and came to the assistance of her husband, when she was seized by the burglars and dragged into the yard and outraged there. Next day the men were arrested and locked up in the parish jail.

Confessed the Crime. The mob confessed the crime. The mob gathered quietly and had little difficulty in breaking into the jail and securing the prisoners. The men made but little resistance and the authorities were so heavily overpowered that no effort was made to rescue the prisoners.

Monstrous In Aid. Managua, Nicaragua, March 2.—Admiral received here are to the effect that in the bombardment of Momenito, the stronghold of the insurgents, was laid in ashes.

The ruin of Momenito is reported to have been complete. An insurgent naval vessel was sunk by shells from the government boat. Fully twenty of the rebels were drowned. The government guns were handled by D. D. Perry of Chicago, Canal Agent, Weimer and three Americans, who were active participants in all the fighting. The Americans practically had charge of the government gunboats during the battle. Preparations have been made for an attack on the Leonists soon, and a big battle is expected.

Both Bright. A lady who has recently returned from a Mediterranean trip says that as the ship was leaving the harbor of Athens, a well-dressed lady passenger approached the captain, who was pacing the deck, and, pointing to the distant hills covered with snow, asked: "What is that white stuff on the hills, captain?" "That is snow, madam," answered the captain. "Now is it really?" remarked the lady. "I thought so, but a gentleman just told me it was Greece."

A Beautiful Fate. During the battle of Waterloo there was a frightful panic in Brussels. It was reported that the allies were beaten, and people were flying in all directions. The duke of Wellington's cook went on quietly with his duties. He was begged to save himself, but replied: "I have served my master while he fought a hundred battles, and he never yet failed to come to his dinner."

Little Ethel—Why is it women are always complain about the bird girl? Little Dot—Oh, that's just so folks will know they can afford to keep one.

Miss Maud—Madam, I hope you are cheerful today. Miss Maud—Yes, I am cheerful, but I am a charitable woman—I am charitable to all in your eye—judge.

Good spellers are often "stumped" when asked to write from dictation the following sentence: "It is disagreeable to witness the unparalleled emasculation of a harassed jodler ganging the symmetry of a peeled pod."

My Jobny—Sam, I understand that your boss is going to get married again. Will he take a bridal trip? Sam—Yes, he gwine ter get married, but I kin't see you gwine ter take a bridal trip. He gwine to take a horse-whip to de under one.

It's a great mistake, said a philologist, "for a poor man to get into politics unless he is sure he can make a living at it." "That's very true," replied the philosopher's wife, "but it seems to me that a man who could make a living at politics could get rich doing just anything else."

The bill authorizes the governor and local officers of Arizona to lease the education fund for territorial school purposes. The president's objection to the bill was that it did not give the secretary of the interior power to disapprove of the leases and did not throw proper safeguards about the timber on the lands. The statement was made on the floor that the bill was identical with a similar bill passed by the last congress relating to Oklahoma Territory at the request of the secretary of the interior, and that the president had not written approval of both Secretary Smith and the commissioner of the general land office. This statement was also made that the lands proposed to be leased were now in possession of cattlemen and others, rent free.

Business Lying. New Orleans, La., March 3.—Paul and Gilbert Francis were taken from jail and lynched by a mob Saturday in front of the courthouse at Convent, St. James parish. They attempted a few nights ago to burglarize the store and residence of M. George and assaulted his wife. George, hearing the noise, confronted the burglars as they broke in his front door, but they overpowered him, disarmed him of his pistol and knocked him down with a blow which rendered him unconscious. The mob rushed and came to the assistance of her husband, when she was seized by the burglars and dragged into the yard and outraged there. Next day the men were arrested and locked up in the parish jail.

Confessed the Crime. The mob confessed the crime. The mob gathered quietly and had little difficulty in breaking into the jail and securing the prisoners. The men made but little resistance and the authorities were so heavily overpowered that no effort was made to rescue the prisoners.

Monstrous In Aid. Managua, Nicaragua, March 2.—Admiral received here are to the effect that in the bombardment of Momenito, the stronghold of the insurgents, was laid in ashes.

The ruin of Momenito is reported to have been complete. An insurgent naval vessel was sunk by shells from the government boat. Fully twenty of the rebels were drowned. The government guns were handled by D. D. Perry of Chicago, Canal Agent, Weimer and three Americans, who were active participants in all the fighting. The Americans practically had charge of the government gunboats during the battle. Preparations have been made for an attack on the Leonists soon, and a big battle is expected.

Both Bright. A lady who has recently returned from a Mediterranean trip says that as the ship was leaving the harbor of Athens, a well-dressed lady passenger approached the captain, who was pacing the deck, and, pointing to the distant hills covered with snow, asked: "What is that white stuff on the hills, captain?" "That is snow, madam," answered the captain. "Now is it really?" remarked the lady. "I thought so, but a gentleman just told me it was Greece."

A Beautiful Fate. During the battle of Waterloo there was

The Mountain Eagle.

ONE DOLLAR PER ANNUM - In Advance. Entered at the Post-office at Goldthwaite, Texas, as second-class matter, March 1, 1896.

Official Organ of Mills County.

PUBLISHED EVERY SATURDAY.

W. H. THOMPSON, Jr., Proprietor. R. M. THOMPSON, Editor.

The democratic of the efficiency legislature ought to have taken advantage of the opening Dr. Hunter gave Saturday and got in with a...

The senatorial election in Kentucky continues a matter of doubt, and unless a "dark horse" is brought out it likely that state will only have one representative in the senate during the remaining term of congress.

JUDGE HARDY announced that he is for Land Commissioner Baker for governor in the forthcoming campaign. Mr. Baker is what is known as a "sound money" advocate, consequently has a mighty slim showing for nomination in a free silver state.

As to all personal interests and all disputes over policies of government, the union of the Democratic party rises as a great national necessity. To recognize the necessity is to be a Democrat to subordinate the existence of the party to small ends is to be smaller than a Democrat.

It is stated by men who are in position to know that President Cleveland is opposed to the recognition of the Cuban insurgents as belligerents. Both the senate and house of representatives have passed the resolution urging the recognition of these oppressed people and the president has no time in carrying out the will of the people of the United States.

The Democratic chairman of the state has decided to hold their conventions in accordance with the requirements of the state nominating committee. A great many Democrats are of the opinion that the committee acted unwise and exceeded its authority, but in the interest of harmony the instructions will be carried out.

The Lampsas Leader, edited by a young man who hasn't enough to write his own editorial, stated that the Eagle's editor had when we mentioned...

Take a joke, the Sned boys intend to play the St. Louis club, but they can beat the South Bennett boys if they play ball like they court the girls.

A Popular correspondent writing to the Nacogdoches Planderer says among other remarkable things: "The continuous swelling of our prisons walls and enlargement of our insane asylums, for needed capacity for the confinement of the rapidly increasing number of our criminals and lunatics, result wholly, and entirely due to the reign of this modern monster termed democracy."

Frank, why is it that you can't go home from the school house without stopping on half way ground. Alex Rose will have the best farm on the creek when he gets it improved.

If you want a well dug call on Irvin brothers at Sneed. I notice that W. W. has traded his straps and got a pair of ox bows, and they were not made for years either. W. W. says he don't like peas but he does like beanie.

Wishing the Eagle and its readers success I will close as I have a Rio Foot. Dr. McNutt's eldest son has been sick this week.

Major Trent spent a portion of this week in Brownwood. Meals 25 cents at the Rook hotel. W. W. Harris, proprietor.

Mrs. G. W. Cunningham was quite sick a portion of this week. Buxter Curtis of San Saba was in the city a portion of this week.

We regret to learn of the serious illness of Dr. J. B. Sharp at his home in Mullin. Special attention paid local patrons at the Rook hotel. W. W. Harris, proprietor.

From the large advertising patronage the Eagle is now receiving, it looks as though the business men realize what paper the people read. The financial statement published in this issue does not contain a statement of the judgments outstanding against the county on account of their not being of record.

MULLIN.

Beautiful spring scene to be with us now. Flowers are blooming and the grass is green and the birds warble forth ever songs of joy.

Health of the town greatly improved. Those reported sick last week are convalescent. Mrs. John Roberts was reported on the sick list Monday.

Mrs. Doster Abney of Goldthwaite was visiting in our town Sunday at W. W. Abney's. Capt. Strickland of Goldthwaite was in town Saturday.

Miss Alma Mitt of Brownwood is visiting at Dr. J. D. Kirkpatrick's. H. H. Smith, a popular "photo" of San Saba, is prospecting in our town with a view of locating.

Messrs. D. R. McCormick and W. W. Roberts have purchased the Tate building and will open up a first-class drug store in a few days.

Our esteemed fellow townsman, John J. Cox has moved to Goldthwaite so as to be near his business. It is needless to say that we miss him. All who have ever been here know of his worth to the town and of what the loss to us will be.

His desire to forward all things which are for the advancement of his town's interests makes him a valuable acquisition to any place which may secure him for a citizen. He has helped us much, and in no line has he done more than in getting our school in good working order, and all interested in the school must feel that they are indebted to him for this.

As a fellow townsman of his and as a friend, I voice the sentiment of Mullin in expressing regret for his departure, and in congratulating Goldthwaite on having him as a citizen.

We see a communication from Williams Ranch opposing the Jackson crossing bridge. The writer stated that he would give his reasons for opposing said bridge if called on. We would like to hear from him through the Eagle. The tax paying people of our part of the county are very near solid for the bridge. We will discuss the merits of the bridge later on.

Dr. J. D. Kirkpatrick has purchased a nice buggy and a pair of match horses and is now fully prepared for his profession. VIDE.

Editor Eagle: A few dots from this part. Health not good, lots of bad colds and some other sicknesses. Coughing is over. Can't it bring put in the ground. The rains fell nice this winter this was ever known before.

The spelling Saturday night was enjoyed by a part of the scholars only. W. W. by his actions during water. My uncle Jim...

A. Wilcox, Watchmaker & Jeweler. Repairing Neatly Done. Prompt attention. Work guaranteed. Office at Logan's Drug Store. Goldthwaite, Texas.

COMMISSIONERS COURT.

PROCEEDINGS HAD SINCE LAST REPORT ACCORDING TO THE RECORDS. Following is a synopsis of the proceedings of the Court after the Eagle had gone to press last week:

County clerk allowed \$35 per quarter ex-officio, out of general fund. District clerk allowed \$40 per quarter ex-officio, out of general fund. Sheriff allowed \$75 ex-officio, out of general fund.

The order allowing the sheriff \$25 per quarter for care of public buildings and grounds recalled, and he was ordered to bring his account for performing such duties to each regular term of the court.

Treasurer's report of school fund received and paid out, approved. Flynn-Moyer Bridge Company allowed \$2000 out of road and bridge fund to be credited on the principal due them for building the Colorado bridge. To this action Commissioner Whitaker objected.

County Attorney Anderson was allowed \$75 for services in the suit of Lampasas county vs. Mills county. This amount to compensate him for all services in the case.

The treasurer was instructed to pay off one outstanding court house bond of the denomination of \$500 and deposit bond as a sinking fund. County Attorney's report of the bridge subscriptions collected approved and ordered filed.

County Judge authorized to purchase 3 railroad scrapers, 15 picks, 4 short handled axes, 10 rock hammers of 4 pound weight, 2 grub hoes, 2 crowbars, 1 drill, and have the bill presented to the court.

Commissioners Whitaker and Dalton appointed as a committee to ascertain the cost of a substantial iron fence around the court house, and report at the May term of the court.

G. B. Starks was appointed overseer of Colorado bridge road. The sheriff was made custodian of the court house building, and authorized to allow the court room to be used for lectures and other entertainments, provided the consent of the insurance companies can be secured, and that such entertainments do not necessitate the building of a stage.

CIVIL DOCKETS. Following are the civil dockets of the district court for the March term, 1896: No. 150 - P. C. Shubert vs. J. B. Appleberry, et al. Trial set for plaintiff; Geo. W. Whitaker for defendant.

West Side of Fisher Street. BLACKSMITHING, WOOD WORK, AND HORSE SHOING. In the best styles at reasonable prices. Coal in bulk for sale at all times.

STANDARD COTTON BALE.

The American bale compares very unfavorably to that from any other country. Nearly all bales of East Indian cotton, for example, when they arrive in Europe are as neat as a bale of dry goods, while our bales look as if they had been in a cyclone.

The American bale averages about 22 1/2 pounds to the foot, and varies in size from 28x54 inches to 40x70 inches. Naturally this does not improve the price of American cotton.

The American bale compares very unfavorably to that from any other country. Nearly all bales of East Indian cotton, for example, when they arrive in Europe are as neat as a bale of dry goods, while our bales look as if they had been in a cyclone.
