ONE DOLLAR PER ANNUM  
Published at the Goldthwaite postoffice as  
second-class mail matter.  
PUBLISHED EVERY SATURDAY  
R. M. THOMPSON, Editor.

**NOTICE TO CANDIDATES.**  
The Eagle's terms for announcements will be: For district offices, \$10; county offices, \$5 before nomination and \$5 additional from the candidates who are nominated; for precinct offices, \$3 before nomination and \$3 additional from the candidates who are nominated. These terms are to be paid in advance and under no circumstances will an announcement be placed in these columns until the announcement fee has been paid. All special write-ups of candidates must be paid for at local rates and no free "cast" goes with the announcement, but simply a local stating that the candidate has announced for the office. If a candidate desires special mention made of his qualifications he can have it by paying local advertising rate, but under no circumstances will the paper's endorsement be given a candidate before he is nominated. These rates and rules will not be altered one iota in favor of any man, and we hope all candidates will readily see that what we propose to do is to treat everybody fairly and alike.

**ANNOUNCEMENTS.**  
**FOR COUNTY JUDGE.**  
The Eagle is authorized to announce G. P. DALTON as a candidate for the office of County Judge of Mills County, subject to the action of the Democracy.  
**FOR COUNTY TREASURER.**  
Please announce my name to the citizens of Mills County as a candidate for the office of Treasurer subject to the action of the Democracy. I am not great in politics or other substantial affairs, but I desire to honestly discharge the duties of the office to which I aspire. You may see my name in a readable form.  
J. J. WILSFORD

**ELECTION ORDERED.**  
Thursday the commissioners court passed an order for a prohibition election in this county and the date set for holding the election is Saturday, March 12. The order was made on a petition signed by three hundred voters. The date was fixed to avoid a conflict with the holding of schools or the sitting of district court.

The election having been ordered we presume the campaign will be opened at once and voters on both sides will show their interest and prepare for the contest.

This is a question on which men differ, and the Eagle looks upon it as a matter of personal opinion and shall be governed accordingly. There is, in our opinion, no party politics in it, neither is it a question of church fealty. There are as good men as Almighty God knows how to make who advocate prohibition, while some of the grandest men on earth today oppose it. Both have equally pure motives and equally strong convictions. Both sides, we say, have these men and they have the God-given right to think and act as they please in the premises and as far as we are concerned we shall exercise the same privilege without attempting to influence others and induce them to think as we think and act as we act.

While the Eagle will not take stock in this campaign the subscribers to this paper are tendered the use of a reasonable amount of space in its columns each week, provided they clothe their ideas in proper language and the editor of the paper shall have the prerogative to suppress all personalities or other objectionable matter. In order that we may be able to prevent the paper being filled with this class of literature we will confine each writer to two columns and we will not publish more than two columns on either side of the question in any one issue. This offer is open to every subscriber to the paper and the communications received first will have precedence.

The United States war-ship Maine was blown up in the harbor at Havana at 10 o'clock Tuesday night and was a total wreck. There were 354 men connected with the vessel and 253 were killed and 50 injured. Most of men were asleep when the explosion occurred and nothing definite is known as to the cause of the disaster, but the universal opinion is that the Spaniards are responsible for it. The value of the ship and its armament was \$6,000,000. The United States authorities will have the matter investigated and if it is proved that the Spaniards had the ship blown up there is little doubt that severe consequences will ensue.

The cattle raisers convention of Texas will meet at Fort Worth on March 8.

The Temple supporters of Hon. M. M. Crane have arranged for a grand rally of their forces in that city next Saturday. Their candidate will be there on that day to make a speech and the railroads have granted excursion for the occasion.

Hon. J. W. Blake announces that he will be a candidate for United States senator if his friends want him to run. Mr. Blake is mistaken as to the extent of his abilities and the chances in which they run. Had he announced as a candidate for governor of Texas he would have commanded a strong following but he is not fitted for senator and will not receive a half dozen votes for that position.

It is a current rumor that Mr. Jas. P. Kinnard will have an opponent in Bell county for the nomination for district attorney. The Eagle is not inclined to give the rumor much credit, for every man who knows enough about politics to announce his candidacy is aware of the fact that Mr. Kinnard can not be beaten either in the primaries or general election. To put the facts mildly, he is one of the most able district attorneys in Texas and the people are well pleased with him. The man who would oppose him could not get enough votes in Mills county to justify him in having his name printed upon the primary tickets.

Dear Clara was a lovely and God chose to pluck the flower He had planted here and transplant her in the garden of Paradise, where she will be free from sickness, pain and death.

Fond parents, grieve not for your little darling, for she is sweetly resting in the loving arms of a dear Saviour, who said "Suffer little children to come unto me." Again remember she only makes another golden link in the chain that binds you to heaven. Then weep not for her, but strive by the grace of God to meet her in that glory world where farewells are sounds unheard.

After some time I write you again to let your many readers know there is such a county as Stonewall.

There has been a real Oklahoma rush for this part of Texas this winter. Nearly all the school land has been taken up.

We have had an open, warm, dry winter; not much snow; no rain since the 15th of September until today. It commenced to rain this morning and has rained all day.

I have received several letters asking about this county. I'll say to all that are thinking of coming out this way that this county is pretty much like Mills county and Arkansas; that it hardly ever rains—only before or after the full and changes of the moon.

That is what an old settler told me confidentially the other day. From what I know of this country I don't think it will do to depend on farming exclusively. Good crops were made last year. Cotton grows better than most anything else.

The sandy land is the best in this part of Texas. While cotton does well, more clear money can be made on raising sorghum cane for hay than anything else.

It sells readily for from four to five dollars per ton, and it is good feed for stock. We have good schools, running eight months. The people are just about the same in morality the world over.

Our county is prohibition and also several adjoining counties, so you see we are in a bad fix should we meet a snake.

There is no use to say we are glad to get the Eagle. We fairly run over each other to get it. It comes in on Tuesday evening.

Price 25 cents; sold at Geeslin's drug store."

The Eagle editor, in company with Judge Logan, visited the western part of the county last Sunday and dined at the hospitable home of Mr. and Mrs. H. A. Atkinson. The farmers out there has about completed sowing small grain and will soon complete breaking their corn and cotton land. Stock water is reported scarce in that section but there is sufficient moisture in the ground to make it plow well and sprout the seed.
