The Little Shop.

I know a shop, and a funny little shop, In a street that lies a-nigh, And I saw the sign they set on the door One day as I went by. And oh! it was he poor and small I could not help but stop, As you would stop, if you should come On such a little shop.

There is a babe, a well beloved babe A babe that belongs to me, I brought her home these penny toys, To look her Christmas tree there hung. A world of trifles fair, For all the folks that loved her well Had sent their kindness there.

So pass the years, and still, perpetually, I cry, "Tomorrow will I see each one." Tomorrow surely, shall my soul stand free. Safe from the stern voices that beguile!

SHOOTING AT HICO. Meager details of a shooting scrape in Hamilton county reached here last week, but we were unable to get the particulars for last week's paper. It appears that Ike Jennings owed a small debt to his son-in-law, John Olds, who resided in Hico, and that the latter had borrowed a wash kettle and a table from the former. Mrs. Olds went out to her father's Wednesday with a note from her husband to the effect that he wanted the money, but returned with an order for goods at a Hico store and word that he had not the money. This appears to have enraged Olds, who loaded the kettle and table in his wagon the following day and went out to Jenkins' home with them, carrying with him a 45-caliber pistol and another smaller one. When he arrived there Mrs. Jenkins came out accompanied by her son, who assisted Olds to take the kettle and table out of the wagon. At this juncture Olds picked up one of the pistols from his wagon seat and fired twice at Mrs. Jenkins, one shot taking effect in the hand and one in the foot. Dave Jenkins stooped to pick up a rock, but just as he raised it Olds fired at him, the bullet passing through his lungs. Pearl Jenkins, another man of the family, ran out of the house at this juncture with a pistol and Olds fired at him, inflicting a slight wound in the head. Pearl Jenkins returned the fire, one shot from his pistol striking Olds in the breast just above the heart and he fell dead in his wagon. The team ran away and stopped at a farm house near by, where they were caught and retained until Esquire Burson was sent for. He held an inquest over the body. It is stated that Dave Jenkins, who was the most seriously injured, will recover.

SPENT A GOOD FARM DOCTORS. Mr. A. N. Neell of Asherville, Kas., says he spent a good farm doctoring himself for chronic diarrhoea but got no relief and was afraid that he must die. He obtained a get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was permanently cured by it. For sale by Geeslin.

Anything you want in this line you will find here, and at prices as low as you can buy from the catalogue houses when you consider quality. LACES AND EMBROIDERIES.—Ladies, as a rule, are interested in Laces and Embroideries, and no doubt find it rather tedious shopping on these goods. It is to your interest to come to my store, for without any doubt I carry pretty much all that you may want in this line, hence the shopping is made easy. CLOTHING.—Everybody knows that the art of making ready-made clothes has advanced until it has almost reached perfection. SHIRTS.—Neglige Shirts are in greater demand than ever before. SNEED.

Editor Eagle: Corn, cotton, watermelons and sorghum are fine, but wheat and oats—oh my! only one to three bushels per acre. W. W. Stanford and family started last Monday for Eastern Texas, where they will reside in future. Their many friends regret to lose these good people from our community. A. R. Miller of Belton will begin a camp meeting at the Blue Hole on Saturday night before the second Sunday in July, and will continue all week. Brother Miller made quite an impression while among the people at this place last summer and we expect a large attendance during this meeting. There are two thrashers running in this settlement now, but pretty soon they will have to leave in search of better fields. What is wrong with "The Book Agent," that he never comes around Sneed of late? It seems that he might be able to catch a few suckers out of this creek. Guess he is waiting until melon time. Horses have quite recently advanced in price in this community, caused by B. F. Hutto trading off his black mare, for which he received one cooking stove, one heater, two tables, three dish pans, one wash pot, three tin plates, two spoons, one pocket knife, one hat, one-half plug of tobacco and one pipe;—all of which had been slightly used. Dr. Lowe has just returned from a trip among the prairie dogs. He was accompanied by Z. T. Alexander. They were well pleased with the "great west," except it was most too wet. We are all going to the celebration on the "Glorious Fourth." W. V. Sullivan and Uncle Tom Berry will both be there and we hope the good people of Goldthwaite will try to keep them out of trouble. Meticus.

The body of Miss Belle Slavin was found at 2 o'clock last Friday morning in the office of the National Bank of Commerce of Wichita, Kas., death having resulted from a bullet wound in the head. It was at first supposed that she had committed suicide, but later developments prove that she was murdered by a would-be bank robber. Saturday evening Sam Morton, chief electrician of the McKinney Electric Light company, lost his life on a live wire on the public square of that town in full view of the crowded streets below. The unfortunate man ascended a pole to make a connection when his hand came in contact with a current of 1100 volts, and instantly his body, limp and lifeless, was suspended among the network of wires, where it remained fully thirty minutes before being disengaged. Rev. Dr. J. B. Cranfill filed suit against the Western Newspaper Union of Dallas for \$75,000 damages on the charge of libel. The work of publishing and mailing out the Texas Baptist and Herald is done by the Western Newspaper Union. Dr. Cranfill charges that Rev. Dr. Hayden has libeled him in the columns of the Baptist and Herald and that the Western Newspaper Union, on account of publishing and mailing out the alleged libels, is equally liable damages with Dr. Hayden. A Wife Says:

"We have four children. With the first three I suffered almost unbearable pains from 12 to 14 hours, and had to be placed under the influence of chloroform. I used three bottles of Mother's Friend before our last child came, which is a strong, fat and healthy boy, doing my household up to within two hours of birth, and suffered but a few hard pains. This is the grandest remedy ever made."

Mother's Friend will do for every woman what it did for the Minnesota mother who writes the above letter. Not to use it during pregnancy is a mistake to be paid for in pain and suffering. Mother's Friend eases the patient with a strong body and clear intellect, which in turn are imparted to the child. It relaxes the muscles, and allows them to expand. It relieves morning sickness and nervousness. It puts all the organs concerned in normal condition for the final hours of pregnancy. Labor is most aptly practically painless. Danger of rising or hard labor is altogether avoided, and recovery is merely a matter of a few days. Obsolete and Mother's Friend for 25 cents. The Bradford Regulator Co., Atlanta, Ga. A sworn statement has been made by Jim Garlington, who is under sentence of death and is to be executed in Fort Worth on July 28. The confession shows a deliberate plan entered into by the five Santa Fe train robbers to murder three or four leading citizens of Fort Worth, the object being robbery. NELSON, I. T.

Editor Eagle: Health is good in this part of the world.

I think crop prospects will be good when we get the grass out, and we have had a week of good weather and the farmers have been slaying weeds.

About all the small grain is out. It was thought up to a week ago that we would not make any corn on account of the worms, but they haven't done much damage and have all gone.

John Jones is talking of going to Mills county next month. Success to the Eagle and its many readers. **LITTLE JOE.**

BOND REFUSED.

The habeas corpus proceedings in the John Gooding case was begun Tuesday morning and terminated Tuesday afternoon when Judge Furman refused to allow the prisoner bail and he was remanded to the custody of the sheriff to await the action of the grand jury, provided the Hamilton county grand jury does not indict him and send for him. The evidence showed beyond question that the crime was committed in Hamilton county and, therefore, the sheriff was instructed to turn the prisoner over to the proper officers if he is indicted in that county. District court meets in Hamilton in August. The evidence adduced at this trial was not interesting as it has been pretty generally known ever since Gip Gibson was found in the tank. It is not published because it would take a paper several times the size of the Eagle to print it.

The railroads over the state have lost heavily from washouts along their lines this week. It is reported that the iron bridge across Little river, between Cameron and Milano, on the main line of the Santa Fe, has been washed away. It is also stated that the Alligator branch of the same road, running from Somerville to Navasota, is under water nearly the entire distance.

Good broomcorn is now selling around \$150 per ton, and broom manufacturers find it hard to secure a sufficient supply even at that price. There are few broom factories in Texas, due, it is said, to the fact that it is hard to secure the raw product. It seems to us that all brooms used in Texas should be made in Texas, and that Texas farmers would find it profitable to raise the raw product.—Stockman and Farmer.

The imperative police duty of establishing and maintaining order in the Philippines demands a change of policy on the part of the War Department if American prestige is to be fittingly preserved. This government is responsible to the civilized world for the safety of life and property in its possessions in the far east. It can not afford to make a record of failure in this all-important work. It is to be hoped that these plain facts of the situation will focus themselves upon the attention of the administration and bring about a more adequate prosecution of a war that should have been ended months ago.—T. The attention of the hotel men is again called to the fact that arrangements can be made to have a meal station made here if the matter is attended to at once. If this change is made it will make the passenger train from the west due here at about 11 o'clock at night instead of 8:30 in the morning.

PLENTY OF RAIN.

TRAINS ABANDONED AND BUSINESS PARALYZED.

A light rain fell here Tuesday and early Wednesday morning the down-pour began in earnest and has continued incessantly ever since. Some of our readers probably know this and it will not be news to them, but we would like to know how they expect us to get the Eagle out without speaking about it, for there is nothing else for us to fill the columns with and we must get the paper out on time if there is nothing but rain and a few patent medicine advertisements in it.

The bridge across Nolan creek, just this side of Belton, washed away Wednesday and there was no train from Temple between Tuesday night and yesterday noon. The trains from the west arrived on time, or nearly so, up to yesterday morning, when no train came from that direction.

Only one or two of the star route mails went out or came in Thursday or yesterday and most of our communication from the surrounding country were kept back from this cause. We hope, however, that the mails will run on time today, so the people of the county can get the Eagle and learn about the rain.

Very few visitors have been to town and we could not learn anything of the transactions of the county, but as we have heard nothing to the contrary we hope everything is all right and the rain has been general all over the county, for the corn was beginning to suffer and cotton was needing a little moisture.

It is learned from the telegraph office that the rain in Central Texas has been much heavier than in this country, and a good many washouts along the railroads have occurred.

Have you seen those excellent calendars Dr. Brown is giving away with each dollar cash purchase. They are nice.

During the rain Thursday morning the front wall of the Verner building fell, but luckily no damage was done by the fall. This old wall has been standing unprotected since the fire on the west side in February, 1893, and has been an eye-sore to the town.

DESPERATE PRISONERS.

When Sheriff Welch made his accustomed examination of the cell in the jail Tuesday morning he made a lucky find in the shape of an iron bar about three feet long, which had been secreted in the flue in the corner of the cell. The iron was one of the cross bars out of the roof, and had been broken loose at one end for a long time and the prisoners had succeeded in wrenching it out at the other end, while they were in the run-around. The manner in which the iron was placed in the cell showed that the men expected to make an assault on the jailer whenever they could catch him off his guard, and had it not been found before the fatal moment arrived there would undoubtedly have been a dead officer.

Again on Wednesday, while the work of putting in the lining or outside cage in the jail the three prisoners, Tom Hargrove, John Gooding and Will Blackwood, were placed in the insane or woman's cell, and a guard was stationed at the grated door to watch them. This cell is nothing more than a square room with the outside wall of the jail forming two sides of it. By huddling together at the south window the men managed to obstruct the view of the guard while they scraped out a large portion of the sand and mortar in the wall and would, no doubt, have made their escape in a short time had the proceedings not been discovered by Mr. Welch. The hole was about half way through the wall and in a few moments more the large rock could have been pushed out.

It is supposed that the placing of the lining in the jail made the prisoners desperate, for they could readily see that when the work was completed all hope of escape would be gone. The lining is in now, and we can be pretty sure there will be no more digging out, for a prisoner can never get within two feet of the rock wall.

RAINED OUT.

On account of the continued heavy rains which have put the picnic grounds in such bad condition that it is impossible to hold the Confederate reunion and Fourth of July celebration, the local arrangements committee has decided to postpone same to a date to be fixed by the Jeff Davis camp of Confederate veterans. We very much regret that it is necessary to take this action, but we have had almost three days of continuous rain fall, with prospects for several days of the same kind of weather. The committee will retain the funds already collected in the bank, to be used on whatever date the veterans shall fix, and desire to thank the citizens and good ladies of Goldthwaite for their liberal aid and encouragement, and trust that they will assist us at the proper time.

MARRIAGE AT MULLIN.

Last Sunday afternoon Mr. Leonard McCormick and Miss Dollie Burton were married, Rev. L. L. Hayes officiating. The young folks surprised a great many of their friends as to the day and hour, still we have all expected the event for a long time. The wedding was solemnized at 6 o'clock in the afternoon in the presence of a few select friends. The bride is the accomplished and fascinating daughter of Mr. and Mrs. S. B. Burton and is one of Mullin's fairest daughters. She is a member of the mercantile firm of S. B. Burton & Co. and has been book-keeper for the firm for a number of years. The groom is a well known man in business circles, having recently sold a large and prosperous grocery store in this city and moved to his farm in the Trigger Mountain neighborhood. There never has been a wedding in this county where both the contracting parties were more popular and universally esteemed, and everybody wishes them happiness. Mr. and Mrs. McCormick will reside in Mullin.

PLEASANT PARTY.

Mr. and Mrs. Joe A. Price en-
tertained a large number of
young society people and a few
married couples at their pretty
home in the southern portion of
the city last Friday night. The
entertainment was given in honor
of their sister, Miss Madeline
Price, and she invited the guests.
Music and cards entertained the
older set while the younger ones
enjoyed dancing and croquet on
the lawn. At 11 o'clock ice cream
and cake were served and the
merry-making continued until
after 1 o'clock, and when the
guests departed it was with a
feeling of regret that the hours
had passed so rapidly, for they
were loath to leave the scene of
so much enjoyment. Mr. and
Mrs. Price and Miss Madeline
know well how to captivate the
hearts of their guests, and they
can be sure that every one pres-
ent on Friday evening remembers
with pleasure the royal manner
in which they were entertained.

Uncle John Evans made his
regular annual visit to the Eagle
office Monday and left a dollar to
have his subscription date put a
year ahead. He never fails to
make this visit once a year.
H. G. Retliff of Ebony, one of
Mills county's big cowmen, was
in town the first of the week and
favored the Eagle with a short
visit. He had his subscription
date put forward another year.
Last Saturday Mrs. F. M.
Mitchell sent to this office a
sample of the fine beans grown
in her garden. We have had
them on exhibition all the week
and their immense size has as-
tonished all visitors.
Mr. and Mrs. C. R. Taylor,
Misses Jones, Mathe, Bledsoe,
McGarr and Holmes, and
Messrs. Moore, Scoggins, Wal-
ton and Moore, all of Hamilton,
passed through the city Tuesday
en route to the Colorado to spend
a week fishing.
A. R. Aten returned Monday
from a protracted visit to his
daughter in Williamson county.
He has again settled down on
his farm south of town and his
daughter and her husband, who
now live at Pottsville, will move
here and make their home with
him.
Chas. Moore, a well-to-do
farmer and stock raiser of Bas-
trop county, is now in the Center
community visiting his brother,
Mr. W. A. Moore. He likes this
country and we hope he will see
it to his interest to move here,
for we need all the men like him
we can get.
K. Jones, the only one of his
kind, was among his friends in
this city Tuesday. We gave him
a "round up" for failing to write
the news from Star, and we have
hopes he will do better in future
and keep us all posted on the
doings of that flourishing town
and surrounding country.
Try Ward & Clark with your next
order for groceries. Their stock is
new and fresh and they have the best
flour in town.
J. Waddy Thompson has been
appointed postmaster at Somer-
ville, where he has been engaged
in the drug business since the
first of the year. He is well
known to the people of Gold-
thwaite, for he lived here a num-
ber of years, and no doubt he
has friends who will be glad to
know of his good fortune.
Louis Hamphrey and family
left this week for their old home
in Hopkins county, where they
will reside in future. They lived
here for a number of years and
drew around them a large circle
of friends who part with them
with regret and wish them much
prosperity and happiness where-
ever they go. The Eagle will
keep them informed of affairs in
Mills county.
An advertiser who uses a number of
pages in this week of the state in-
formed a friend of the Eagle last
week that he had gotten better re-
sults from his advertisement in this
paper than any other paper on his
list. This is the result of the Eagle's
friends letting business men know
that they read advertisements.
