Rev. A. J. Northcut of the

Spring Creek community had an appointment to preach at Competition last Sunday morning. Just before services began it was reported in church that Beedie, the eight year old son of Mr. Northcut, had wandered away from the school house and was lost. The meeting broke up and the congregation went into the roughs in search of the child. He was tracked two or three miles south from the church, and about an hour and a half after the search began the child came back to the church from a northerly direction. Some neighbors had found him and had sent a boy to accompany him until he could find his way back to the church. A den of wolves had been found in the neighborhood a few days before, and that, of course, added to the general fears. The mother's anguish is said to have been extremely pitiful.—News.

The problem of finding a practical substitute for hard coal, which of late has commanded the attention of this country, has had several interesting solutions; but it is doubtful if any of them has been more novel or curious than that of a Boston gentleman, who is described as a skilled mechanic and the patentee of nearly one hundred inventions of his own. He proposes to use water, un-mixed with any other substance, as a fuel. A Bunsen burner invented many years ago is employed to produce the flame, which, it is claimed, is as large as a bushel basket, and from a single drop of water. Some such tubular arrangement as the Bunsen burner is necessary in order to generate heat sufficiently intense to produce the desired result. By allowing the water to drip through the tiny flame arising from this tube onto a piece of platinum, the gases contained in the water are released and combustion follows. Any kind of water will do, whether fresh or salt, pure or impure. All that is necessary, it appears, is to disintegrate the water and nature does the rest.—Trade Review.

The supreme court has decided the O'Connor Spanish land grant case in favor of the State, and by this decision the State recovers 340,000 acres of land located in Webb county. Numerous suits have been filed by Attorney General Bell to recover land granted by ancient Spanish titles, and which cover thousands of acres of land in the Rio Grande valley, and while this was not technically considered a test case, all of the other cases have been held up until the question in this case was passed upon by the supreme court.

An X-ray photograph shows this most peculiar heart formation.

Some newspapers subscribers often wonder why a publisher keeps on sending the paper when the subscription has expired. An exchange says the reason is this: When a subscription is paid to a certain time and the time expires and the paper is stopped it looks as if the editor doubted the integrity of the subscriber, and in nine cases out of ten the subscriber will give the editor a calling down for insinuating that his credit is not good. Rather than cast any reflections against a neighbor's honesty to pay a small debt it has become a custom for country newspapers to continue sending the paper after the time has expired. The city weeklies and dailies do not generally follow the rule, as their subscribers are at a distance, and besides they are not acquainted with them and do not know their financial standing. One should deem it an honor to know that his credit is not doubted when the publisher continues to send the paper. Should the subscriber desire to have the paper discontinued he should inform the publisher and remit dues, if any amount is owing.—Exchange.

No attempt will be made to raise sugar and rice crops in the overflowed district this year.

Success to the Eagle and its readers. THE EAGLE FRIEND.

GOODWATER, ALABAMA.

Editor Eagle:

As I sit quietly enjoying the Mountain home my thoughts are wafted upon the wings of memory to the Goldthwaite Eagle, the king of birds, and the pleasure that his visits have always afforded me and how much I miss his coming. I suppose I deserve no better as I left without a word of adieu, but was excusable, for the omission did not arise from an indifference to or want of appreciation of the dear old Eagle. I hope to greet his arrival ere another week has passed.

And now I will give you a brief sketch of my journey to this place. I left Goldthwaite Saturday the 23rd and had friends with me as far as Temple, where the last goodbye was spoken and for a time I felt very lonely, but met kind people all along my way and had a very pleasant trip. Made close connections at Vicksburg. I crossed the great father of waters, the Mississippi, in a boat, I felt some apprehension as it was night, and I heard a gentleman remark that the waters were yet above danger line, and when the train rolled in the boat I felt a little nervous.

Soon found myself safely over speeding along the railway and arrived at Birmingham at 5:30 a. m. Monday and reached my destination at 9:22 a. m. the same day. The town derives its name, and justly too, from its abundance of good water, pure and as clear as a crystal. No need of ice to make it cold. It is a town of about two thousand inhabitants and very prosperous and improvements are continually going on.

I find crops here are behind those in Texas. Some of the farmer are just planting cotton. The weather continues cold enough for fire morning and evening. I really believe that it is colder than when I left Texas. Have had two seasonable rains, one on the 1st and again on the 2nd. Berries are late, only a few straw berries left, but the prospects are for an abundant crop if this cold weather does not develop into a killing frost.

And now a few words to loved ones at home: To the good people of Mullin, I tender my sincere thanks for their kindness to me and especially when I have been sick. There are some whose pictures will ever occupy a prominent place in the art gallery of memory and around which I shall ever love to linger.

To the grand noble and Ancient Order of Free and Accepted Masons of both Mullin and Goldthwaite. I am indebted for favors extended and for which I am most deeply grateful. Last but not least my heart turns to Goldthwaite and those that are so dear to me there and they are many in the city of the dead. I hope that my old body may find its last resting place there when the lamp of life is extinguished. I is the dearest spot on earth to me. G. V. M.

DAMAGES BY FROST. A great many farmers whose crops were damaged by the frost last week have already replanted their cotton and most of the corn has put on a second growth and it is believed that the loss in corn will be light. Some report the loss in cotton and in sections the pecans were blighted. These severe consequences are not universal, by any means, but in almost every portion of the county some damage was done. In the low lands the damage was greater than in the high lands. In Goldthwaite there was no loss and if vegetation of any kind was injured the Eagle has not heard of it.

MADE YOUNG AGAIN. "One of Dr. King's New Life pills each night for two weeks has put me in my teens again" writes D. H. Turner of Dempseytown, Pa. They're the best in the world for liver, stomach and bowels. Pure vegetable. Never gripe. Only 25c at Ross & Clements drugstore.

MAD STONE APPLIED. T. W. James, one of the good citizens of the McGill community, was here a few days since to have A. S. Collins' mad stone applied to a wound on his leg caused by a dog bite. The dog belonged to Mr. James and it was not known that he was effected with any disease until he attacked his master, and then it was that the opinion was formed that the poor animal was suffering with hydrophobia. The mad stone adhered readily and there is now no danger of serious results from the poison imparted from the dog.

BITTEN BY A DOG. Mr. C. F. Blanton's little son Edward was bitten by a dog last Saturday afternoon and is suffering considerably as a result. The dog belongs to Mr. E. S. FATAL ACCIDENT.

Last Sunday morning Mrs. Emil Rauhart was drowned in a tank on her father's premises in the Priddy community. The report received by the Eagle is to the effect that Mrs. Rauhart had been very sick, but was convalescing and walked to the tank in company with some small children. Being weak from sickness she fainted and fell into the water and was drowned before the children could summons help.

Mrs. Rauhart was formerly Miss Eugenia Schuster and was married to Mr. Rauhart about five months ago. She was a daughter of Mr. R. Schuster, one of the old settlers of the community. The family stands high and the fact that the funerals Monday was attended by all of the people of that community and for five miles around shows in what high esteem she was held. There were sixty-five vehicles in the procession, besides many on horseback. The funeral services were held by Rev. Aroh Lewis, at the cemetery.

The young husband and the parents of the deceased lady have the undivided sympathy of us all.

A GOOD SHOW.

The services will be held in the court house and the choirs of the various churches have combined for the song service and will prepare some special music for the occasion.

The Eagle this week received an obituary which we can not publish, owing to the fact that we have already published one obituary of the same lady and it is against the business rules of this office to publish more than one obituary of the same person. Few people are interested in obituaries unless they are related to the deceased persons and it would be an injustice to the readers of the paper to have no limit to such articles. Such matter is not so located on an advertising basis, yet it will be published as advertising when desired.

Messrs. Eugene Thompson and Stuart Shaw have purchased "The Republic," a weekly paper published at Weatherford, and will assume charge the latter part of this week. The boys have been employed at the Times office for a number of years, and both are graduates in the art of printing. They are of the kind that succeed, and in this first venture on their own account, they have the best wishes of all the printer folks of Temple and of many friends besides Weatherford is acquiring two of our best young men, who will do right every time.—Temple Tribune.

A SUDDEN DEATH.

Bert L. Robin, a young man about 22 years of age, died at the residence of J. A. Alton last Saturday afternoon and his remains were carried to Santa Anna on the night train to be buried by the side of his father.

Mrs. Robin and children stopped here a few weeks ago with Mrs. J. A. Alton, to her house-

to hold goods in Santa Anna, which place she was moving from Cherryville, Kansas. She had hopes that the change of climate would be beneficial to the young man, but consumption already had so firm a hold upon his constitution that earthly environments and agencies could not restore him. He was sitting upon his bed talking to friends and members of the family when a hemorrhage came on and his life ended.

His father, Mr. Tom Robin, was at one time foreman of the water service of the Santa Fe and died in Santa Anna in 1892.

A STARTLING TEST.

To save a life, Dr. T. G. Merrill of No. Mehopy, Pa., made a startling test resulting in a wonderful cure. He writes, "a patient was attacked with violent hemorrhage, caused by necrosis of the stomach. I had often found Electric Bitters excellent for acute stomach and liver troubles so I prescribed them. The patient stated from the first, and he had not an attack in 14 months." Electric Bitters are positively guaranteed for dyspepsia, indigestion, constipation and kidney troubles. BAYOU.

Editor Eagle: Allow me a little space in your valuable paper for a little gossip.

News is scarce and the writer has been too busy with his crop to pay any attention to the local happenings for the past two weeks.

Health is tolerable good and all are rejoicing over the fine crop prospect at present.

The sermon preached by Brother Thames Sunday at Williams Ranch was enjoyed by all and we hope all were benefited by the eloquent talk.

Miss Little Mills has just returned from a visit to friends in Goldthwaite and reports a nice time.

We were glad to see a letter from Cryer in last weeks paper. What has become of the Miller Grove and Evans correspondent? The party at Mr. Stanley's was an enjoyable affair.

Tom Johnson failed to put in his appearance at Pickets Sunday. His mamma had company and Tom had to do the churning.

Mr. and Mrs. Edmondson of Coryell county are visiting in our community.

The boys of Mullin are learning the rudiments of the oak walk.

We are glad to note that Mrs. Johnson, who was reported on the sick list week, has recovered.

Manual Williams has sold his yearlings to Messrs. Young and Curtis.

Many thanks to somebody for the Mullin Messenger, but as the writer had already made arrangements with Mr. Eaton for the paper it will save someone a great deal of trouble.

Wonder what has become of John Forsythe? John, we won't be apt to have any more frost this season, come again.

Mrs. Pendland of near Cold Springs visited Mrs. Johnson last week.

The girls will report good crops in Chesler Valley.

Mrs. Kelso happened to a very painful accident last week. While stepping over the door her foot slipped rendering a severe sprain. She is still unable to walk and is suffering a great deal.

Bell Edmondson was to start on his long talked of trip to Mexico, the first of the week, but we haven't learned yet whether he is gone or not. Hope he will decide to stay with us for we hate to lose him. It seems that everybody is getting tired of Mills county and it won't be long until ours will be a country of strangers.

We see where Gip Stark has returned to San Saba county. He would be welcome in our midst.

The Bethel correspondent is afraid to go to Cryer and it pays, too, for the Six Chickens are all game. He needn't think like the ootich that he is hid when he has his eyes shut. Now you people had better let those chickens alone, for they have a faithful ally in the News Boy.

Mrs. Lillian Aaron visited Mrs. Johnson one day this week.

Miss Lizzi, Phil has moved from the bayou and is making her home with Mrs. Bolton.

We are glad to note that Almon Johnson of Eastland is intending returning to the bayou where he will stay the rest of the season. We think this intended change is due to disappointment in love, but cheer up, we are all liable to mistakes.

Well, as I have told all I know in the news line and hate to cause the good Editor any trouble, I will say luck to the Big Bird and go with my news to another climate.

NEWS BOY.

CAUTION!

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of consumption and throat and lung troubles without losing its great popularity all these years, you will be thankful we called your attention to Boesche's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds perhaps, but for severe coughs, bronchitis, croup—and especially for consumption, where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. The 25 cent size has just been introduced this year. Regular size 75 cents. At all druggists.

THE X-RAYS.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish as a fact that catarrhs of the stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How can I cure my indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure catarrhs of the stomach. Kodol digests what you eat—makes the stomach sweet. Sold by Ross & Clements.

COY.

Editor Eagle: As another week has come and gone I will send in a few words to the old Bird.

We are glad to report that Mr. Snyder's little daughter, Maggie, is able to be up.

Cattle buyers are as thick as grass hoppers.

The month of April closed with a heavy frost, which damaged the corn and cotton considerably.

J. E. Snyder had to plant his cotton over on account of the frost.

J. E. Evans finished snaking his cotton patch yesterday. He says he don't want another job like that.

Kenneth Mason went to Comanche this week to visit his brother.

Mrs. Emma Wilson is visiting Mr. and Mrs. G. W. Ethridge this week.

J. R. Slack made a business trip to Goldthwaite Friday.

W. J. Mason is selling off some of his cattle this week. The scribe hasn't learned what he got for them.

E. D. Mason is working on the Hanna Valley bridge.

The wedding bells are ringing all the time over in Smoky Bend. If you will watch you will see John Forsythe visiting friends in that neighborhood very often.

Grandpa Reynolds returned home last week from a visit to his daughter in Big Valley.

I wish some one would write a piece from Liberty every week, and from Payne Gap, too.

Say, Mr. Editor, did you know Coy was on a boom? It is.

Well, I will close, and if this comes out in print you will again hear from RATTLE SNAKE.

THE WASTES OF THE BODY

Every seven days the blood muscles and bones of a man of average size loses two pounds of waste tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion.

The stomach and digestive organs fail to perform their functions, the strength is done, health is given away, and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures indigestion, dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by Ross & Clements.
