Miss Kruse reproved a man who jostled her, in Galena, Iowa, by throwing pepper into his eyes.

MR. FROUDE to the members of the Edinburg Philisophical institute: "We have just been killing about twenty thousand people in South Africa, people who had done us no harm. We only feared that perhaps they might do us harm.

JUDGEMENT in the Garibaldi divorce ease has been published. The Court of to an earnest argument by Emery S. Storrs concerning the reduction of the duty on steel Appeal, reversing the decision of the Court of First Instance, declares Guiseppe Garibaldi and Guiseppina Raimondi free from the marriage celebrated at Como on the 24th of January, 1860.

THE lifeless figure of the late young Louis Napoleon stretched on the ground, partly covered by a military cloak, and about to be crowned by an angel, is the subject of an alto relievo design to be executed by the English sculptor,

Twin brothers of Evergreen, Ala., were not only alike in looks, but were so equal in strength that a wrestling-match was arranged as a test. This did not settle he question, however, for one was thrown on his head and killed at the beginning of the contest.

THE children in the Hospital of St. Eugenie, Paris, were attacked with croup. A young physician named George Herbellin was indefatigable in his attentions to the little sufferers He took the dis' ease himself and died. The French minister of the interior and many public officers went to to the funeral.

Prof. Collabon, of Geneva, has effected an important improvement in the ingenious contrivance for enabling deaf mutes to hear through the teeth, lately discovered in this country. For the india rubber apparatus used by the Américan inventor, which is somewhat costly, the Professor substitutes a piece of elastic cardboard. By the simple expedient deaf mutes are enabled to hear voices and distinguish the notes of a piano.

A SAN FRANCISCO man went into the country to avoid a predicted earthquake, and on the journey was run away with a stage coach and being thrown out fell into a creek and barely escaped drowning. On getting ashore he was tackled by a bear, and when he finally escaped the animal and got to a ranche the proprietor came out with his dog and gun and almost killed him, thinking he wa a robber.

THE Rhode Island amateur sportsmen shot at a covey of partridges, missed the birds and fatally wounded their horse which they had hitched to a barn. A "sportsman" near San Francisco, fired at what he believed to be a wild cat, and fatally wounded a little girl, and seriously wounded her elder sister, a young lady of 18, who were standing behind a clump of bushes. The amateur sportsman is a dangerous man to be near.

THE Baughnawaga Indians, who live opposite Lachine, on the beautiful Lake St. Francis, have a reservation of thirtysix thousand acres, which under treaty no white men is allowed to occupy. Canadian squatters have pre-empted about fifteen thousand acres of this land and their expulsion is demanded. The people of the United States, after all that has been said on the subject, are not alone in this kind of trespassing.

To those who would alter the character of street locomotion, an incident which is just reported from Paris may be mentioned with advantage. For some time past steam tramway cars have run from the Bastile to Mount Parnasse railway station, and the line in a certain way has proved a success. But Paris, like London, is not built altogether on solid ground, and a day or two since an engine while dragging its load suddenly disappeared into the catacombs below. Happily, the car with the passengers remained above.

It may be considered a good thing to be a member of the Theatre Français. Recent statistics show that the share of M. Got in the profits of last year amount ed to \$70,000 francs; that of M. Coquelin, to 68,000 francs, while MM. Febvre, Thiron, Worms, and Maubant drew 60 .-600 francs each. Mile. Sarah Bernhardt heads the ladies with 62,000 francs; Mme. Madeleine Brohan, Mme. Fayart, and Mile, Jouassin come next with 60,000 francs, and Mile. Croizette with 55,000 francs. All this is quite independent of what is gained during holiday time and by private representations. By way of comparison it may be mentioned that Rachel, when she was first engaged at the Theatre Francais, received 4,000 francs a year, and when in 1840 she sent in an ultimatum demanding 27,000 francs fixed, a benefit, and two months' leave, these terms, though accepted, were con-

sidered exorbitant.

#### A Mare's Nest Egg. The British Medical Journal says:

it well known that in America everything is counterfeited. The wooden hams and nutmegs sent from New England States are well remembered. Eggs are now counterfeited, and their manufacture is carried on a large scale. On one side of a large room the reporter saw several large copper vessels filled with a thick. glutinous, yellow mass, which a man was on the lapboard, and the mother—well, what's a wagon without a tongue, anyof the egg—the yolk. On the opposite side how?

were similar vessels, in which the white was fabricated. The egg-shells were made of a white substance, resembling plaster of Paris, by means of a blow-pipe just as soap bubbles are blown. After being dried in an oven, the egg-shells were filled first with artificial albumen, then with some of the artificial yolk, and lastely, with a little of the artificial albumen. The small opening at the end of the egg was closed with white cement, and the greatest acheivement of modern civilation—the artificial egg—was ready. In appearance it resembled a natural egg, but whether cooked or raw, it was indigestible and injurious to the health.'

### GRANT'S POLITICAL RECORD.

Fourteen States Lost to the Republicans During His Presiden Correspondence of the New York Tribune

Fourteen Republican states, with 153 electeral votes (only 30 less than half,) were lost during the presidency of the savior of the Republican party. In 1868 Alabama, Arkansas, Connecticut, Indiana, Missouri, North Carolina, Tennessee and West Virginia were all Republican. Soon Virginia, Texas and Mississippi were reconstructed, all being Republican. Before 1872 Missouri, Tennessee and Texas became Democratic. Though rebels were disfranchised by their constitutions, they manœuvred themselves into power, changed the constitutions and carried off their states from under Gen. Grant's guard into the Democratic camp. Perhaps he could not prevent it, if so, there is no use in re-electing him in order to prevent such raids,

During Gen. Grant's second term the other eight states before named became Democratic. The loss of Connecticut and Indiana was due to the corruption carried on under Grant's negligent gaze. That of Alabama, Arkansas, North Carolina, Virginia, West Virginia and Mis sissippi was caused principally by rebet violence and intimidation; their combined majority being changed in four years from 105,000 Republican to 108,000 Democratic. All of them, too, changed before 1876, so the loss cannot be charged to any imiaginary unpopularity of Hayes and Wheeler. That is the way the "Strong Man" sustained the Republican party in the South. If he could prevent these events, why didn't he? If he couldn't, why destroy the most sacred of our traditions in order that he may prevent them. Three more states, New York, New Jersey and Delaware, were made Republican by the exposure of the Tweed frauds and the Democratic nomination of Mr. Greeley, and the two firs of which a good administration would have kept. But they all went-where Republican states usually went in those days-to the Democracy, and it is but lately that New York and New Jersey have been redeemed under the purer administration of Hayes. Perhaps Grant couldn't help it. Then we need not take the first step toward monarchy to help

our party in the North. Fourteen states lost in four years! This does not include South Carolina, Florida, and Louisiana, saved by the skin of their teeth" in 1876, both skin and teeth being disputed by the Democrats. Hayes has been fiercely denounced for giving up those three, while few have thought to notice the record and observe that Grant had already nine Southern states to the bulldozers, besides giving five Northern ones, (including Delaware) to the Democrats. Of these Hayes has recovered three. Yet he is a weak 'Sunday school," man! Then what, for heaven's sake, was Grant?

The writer, with others, used to insist that Grant's long list of victories proved him a good general-that in fact "the proof of the pudding ls in the eating." Then his list of lost states proved him a very poor Republican president. As for the puddings, the Democrats snatched majority in Massachusetts dwindled under his management from 77,008 to 43,-000; in Pennsylvania from 135,000 to 17,-000; in Ohio from 35,000 to 7,000; in Illinois from 57,000 to 19,000 and in similar proportion throughout the North.

Suppose that during the "Solid South." excitement Gen, Grant should again be elected, and should then lose fourteen more states, we Republicans should be very hard up for those needful articles. And he could do it and not half try. Only six states, (Vermont, Rhode Island, Iowa, Minnesota, Kansas and Nebraska) would be likely to stay Republican during another term of Grant. It would be extremely unpleasant to sell our birthright as Americans for a mess of political pottage, and then let the Democrats get

The volumes thus far issued being only the reprint of the last edition of the well-known Chambers's Encycloyædia, nothing more need be said of them than they are well printed and bound; their form is vastly more conve nient than the usual unwieldly quarto or octavo, and their price is cheap beyond all precedent in book making, so that to the uninitiated it is a mystery how so much can can be given for a little money; but to the practical printer and book maker, who knows how the greatest element in modifying the cost of books is the number of buyers among whom the investment cost is to be distributed, the wonder would be not that the books can be made for the price, but that the number of buyers should be counted except by millions. Those who take pleasure in dissemination of useful knowledge and choice literature will be glad to aid with their influence an en terprise so altogether worthy. Elegant Day Coaches, Furnished with the Horton Reclining Chair, will be Run Hereafter Between this City and Chicago.

The "Old Reliable" Hannibal run magnificent day coaches, furmished with the Horton reclining chairs, between this city and Chi cago, without change, by way of Chicago, Burlington and Quincy railway. This is one of the most direct and safe routes to the East, and this step places it in the very thrst rank in point of elegance and our house last Sunday night. perfection of accommodations. Without doubt it will early become the most popular line in the West with the traveling public. The Horton reclining chair is immeasturably superior in point of comfort and ease of management to al others now in use, and those placed in the Hannibal and St. Joe cars rine. are of the finest workmanship and materials; but to the traveling pub lic it is useless to speak of the ex cellence of these chairs. They have proved so entirely successful, and so fully meet the wants of the traveling community, that they have become a necessity. Mr. H D. Price, the efficient passenger agent of the Hanmbal and St. Joe shone on that day. road, in this city, furnishes the information that these day coaches will be placed on the road, this those going east, who wish to secure comfort, safety and expedition . - Kansas City Journal, Feb. 9

Eating Snow.
It is said that the habit of eating snow and ice, so common among school children, is a fruitful cause of catarrh. The hard plate which forms the roof of the mouth also forms the floor of the nos-trils, and is no thicker than paste-board. The chilling effect of snow and ice brought freely in contact with this thin partition, the upper covering of which is succeeded by chronic inflammation. As a consequence, these snow and ice-eatthe foundation and origin of the most disagreeable, persistent and incurable of the greater affection to which the people of the north when frozen. are subject—nasal catarrh. Catarrh is said to lead to consumption. Whether this is so or not, the chilling of the nasal membranes, a part of whose function it is to warm the air into its passage to the lungs, can not but injure those organs, particularly in people of a delicate constitution.

Few are aware of the importance of checking a Cough or common Cold in its first stage. That which in the beginning would yield to a mild remedy, if neglected, soon preys upon the Lungs, Dr. Bull's Cough Syrup affords instant relief

#### A Gentle Hint.

In our style of climate with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day, it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your house for immediate use will prevent serious sickness, a large doctor's bill and perhaps death by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup or any disease of the throat or Lungs its success is simply wonderful, as your druggist will tell you.

The following is one of the very many testimonials we are receiving dall Gendement—Some three months ago I began the use of Dr. Harten's Reon Tonic, upon the advice of many triends who knew its virtues. I was suffering from general debility to such an extent that my abor was exceedingly burdensome to me. A vacation of a month did not give me much relief, but on he contrary, was followed by increased prostration and sinking chilis. At this time I began the use of rour IRON TONIC, from which I realized almost immediate and wonderful results. The old energy eturned and I found that my natural force was not permanently abated. I have used three bottles of he TONIC. Since using it I have done twice the labor that I everdid in the same time during my Illness and with double the ease. With the tranquil nerve and vigor of body, has come also a clearness of hought never before enjoyed. If the TONIC has not done the work, I know not what. I give it the result.

Pleasanton, Linn Co., Kans.

Dear Sir:—I was troubled with inflamation c.
the Thigh Bone, and a Running Sore for three
years. I tried numerous remedies, but they proved unsuccessful. I then concluded to try your
great INDIAN BLOOD SYRUP. The relief I experienced was astonishing, and I am now sound
and well in every particular. I can safely recommend it to all.

JOHN McKIFLEY. Pleasanton, Linn Co., Kans.

Dear Sir;—I have tried your most valuable INDIAN BLOOD SYRUP, and found it to be an
Excellent Medicine. I would not be without it
for the world.

Pleasanton, Kans., Mar. 26, 1879.

Dear Sir:—I was subject to Fits, having one or two every month, for several years. I was induced to try your great INDIAN BLOOD SYRUP, which I did, and can proudly say that I have not had a Fit since I commenced taking the medicine. I am 50 years old, and feel as strong and hearty as ever I was. For Fits.

JOHN TINMAN. Cures Ague. Sicily, Gage Co., Neb. BLOOD SYRUP has cured me of Ague after all other medicines had failed.

FRED KRITER. Best Family Medicine. Bicity, Gage Co., Neb.

Dear Sir;—Myself and family were afflicted with
Ague, and a short trial of your IFDIAN BLOOD

FYRUP completely cured us.

Liver Complaint.

Dear Sir:—I wish to add my testimony in favor of your INDIAN BLOOD SYRUP. Having been troubled with Liver Complaint and Indigestion for a long time, I was induced by your Agent to try your needicine, and had only taken it a short time, when I was able to go to work. I believe the Syrup is all and even more than it is recommended to be, and would not be without in my house.

E. CUTSHALL A Very Excellent Medicine. Dear Sir:—This is to certify that we have used your INDIAN BLOOD SYRUP with wondrful success. We consider it better than any or all other Blood and Liver medicines we have used, and cheerfully recommend it to our neighbors and the public as a safe and relighty pedicine.

G. W. KERMI MISS CALVIN STERNS, MISS CALVIN STERNS, MISS LODEMIA DEIGAN, E. H. BOWEN, J. E. BARTON.

Dear Sir:—My little girl was afflicted with Dropsy, and the doctors failed to give her relief. Then procured some of your reliable MDIAN BLOOD SYRUP, from your Agent, which has cured her. I consider it a most valuable medicine and think no family should be without it.

F. PAYNE.

Chills Cured. Dear Sir:—This is to certify that your INDIAN BLOOD SYRUP has proved to be a positive cure for Chills. I can recommend it to all similarly afflicted.

Liver Complaint. Tisdale, Cowley Co., Kans.

Dear Sir:—I was troubled with Liver complaint
for two years, and failed to find relief until I
tried your INDIAN BLOOD SYRUP. It is the
