

Museum Featuring Many New Items

— Visitors Welcome —

A new rock flower planter recently been built in front of the Mills County Historical Museum. The planter is made of rock and glass windows were used in the planter and the facade beneath the glass windows were decorated by the descendants of Mr. and Mrs. J. H. Lindsay. The rocks came from a very old rock fence on the Lindsay homestead located in the vicinity of Regency. The Lindsay family was one of the earliest to settle in the county.

Mr. and Mrs. E. R. Bruce donated a cream separator in perfect working condition and a 5-gallon milk can for the museum.

Mr. and Mrs. Fred Reynolds donated a very old and unusual gun for the museum. It is a cap and ball rifle, made in Louisville, Ky. It was brought to Mills County from Alabama and purchased by John Reynolds, father of Fred Reynolds, for \$7.50. The age of the rifle is not known, but it is believed to well over 100 years old. It states that he has fired the gun many times.

Howard Campbell gave a brass gunpowder flask, a kind used during the days of the cap and ball rifle.

Mr. Reynolds also donated a repair tool which looks like a pair of pliers, used in the days to stretch and mend fences.

Mr. Ben L. Graham brought in a chicken incubator, an item that will be remembered by many families who raised

their own baby chicks.

Mrs. John (Nora) Berry sent in a grinding stone used for sharpening axes, knives and other instruments, at Weatherby Auto Company in Goldthwaite. The grinding rock is mounted and in perfect operating condition, including a foot pedal.

Mr. C. E. Ferguson of Mullin has loaned the museum many items of interest. The Board of Directors is grateful to him for them, especially a very old grist mill used for years in Democrat community prior to or about 1900. The mill was sold to T. V. Ivy of Mullin and later moved to Goldthwaite and used by Tom Keese at his feed store for many years. It was then used by a Mr. Edders and later used in the Hugh Moreland Feed Store. The mill was finally sold to Arnold Reynolds and then to Mr. Ferguson. Countless sacks of corn were ground into meal for families in Mills County on this old mill. It is a valued addition to our museum.

Mr. Ferguson also loaned the following historical items: a foot operated broom machine used in Mills County to make brooms; a ball and chain used to shackle prisoners in early days; a variety of blacksmith tools, and a one-cylinder Deleo light plant used for lighting the Center Point school.

Howard Campbell brought in an antique adding machine to be used in the museum office. After researching the

history on the machine, it was discovered that it once belonged to Dr. J. M. Campbell, long time physician in Goldthwaite. Dr. Campbell used the adding machine in his office.

The Art display case will change soon and paintings by Mrs. Floyd Spradley will be featured. The other changing cases are featuring family portraits and family heirlooms from the O. H. Yarborough and J. C. Mullin families.

The Museum Board of Directors wish to express their appreciation to all persons interested enough in the museum to share their antiques and other items so that they can better portray the history of Mills County and its people.

Garden Club Flower Show April 27

"Spring Beauty in Gardens Everyone" flower show sponsored by the Goldthwaite Garden Club is scheduled for Friday, April 27, at the Mills County Youth Center in Goldthwaite.

Chairman and co-chairman for this year's show are Mrs. George Weddell and Mrs. V. Z. Cornelius.

The public is invited to view the show between 2:00 and 6:00 p.m. on Friday, April 27, at the Youth Center.

This rodeo is under the direction of the Vocational Agriculture Instructor, Alan Slemmons, and the Rodeo Association.

So everyone come out Saturday, April 21st, and have a good time.

\$9.85 Million Loan Approved For Central Texas Telephone Co-Op

The Goldthwaite Eagle was informed early Monday morning that a loan of \$9.85 million had been approved by Rural Electrification Administration for Central Texas Telephone Cooperative in Goldthwaite. The loan will be at a rate of 2 per cent interest.

The money will be used to finance facilities to connect 323 additional subscribers, construct 458 miles of new

lines, upgrade the system throughout to one party, and to construct an addition to the dial central office building at Evant, Texas.

This information came from both Senator Lloyd Benisen's office and the office of Cong. Marvin Leath.

The president of CTC is M. J. Kuykendall of Cherokee and the manager is Ray C. Summy of Goldthwaite.

County-Wide 'Woman's Celebration Of Christian Faith' April 24

A "Woman's Celebration of Christian Faith" will be held Tuesday, April 24, from 6:00 - 8:00 p.m., in the Catholic Church of Goldthwaite.

This celebration was planned by a joint committee of women from the Baptist, Catholic, and Methodist churches in Goldthwaite. Recognizing that all Christian women have a common joy in Jesus Christ, this committee's purpose was to plan an evening of joyous celebration that would reach

across denominational lines. Therefore, all women of the churches in Mills County are invited to share in this fellowship.

The joint committee has planned an evening of informal celebration. We will eat a light sandwich supper and informally share with each other some thoughts and dreams. Then, with the group, we will sing some choruses and worship God together. During this period several women will be asked

to comment on what the meaning of the Christian Faith is to them.

There will be a nursery in the First Baptist Church for children. Please feed your children before you come.

It is sincerely hoped that a great number of women from every area church will want to share in this evening and will view it as an opportunity to clasp hands together. For the world and Mills County will only "know we are Christian by our love".

April Sales Tax Rebates Up

State Comptroller Bob Bullock announced Friday that one percent sales tax rebates to Texas cities for April were up over the same month last year.

Allocations statewide for April totaled \$34.9 million, compared to \$20.1 million during April of 1978.

The sales tax is collected by merchants and other tax permit holders along with the state sales tax and is rebated monthly to some 916 Texas cities in which it is collected by the Comptroller's Office.

Listed are some of the area towns, along with the city of Goldthwaite:

Through period ending March 29, 1979:

Goldthwaite	\$3,097.98
Bangs	\$ 843.10
Comanche	\$7,991.43
DeLeon	\$3,572.90
Early	\$3,410.10
Ranger	\$4,420.75
San Saba	\$3,981.09

Of course Houston, Dallas and Fort Worth ranked highest in rebates with \$7.6 million, \$4.9 million, and \$1.4 million, respectively.

Mayor Pro Tem Named; Mayor, Councilmen Sworn In At City Council Meeting Thursday

Newly Elected Officials Take Oath

Mayor J. D. Harper, City Manager Charles Childers, newly elected Councilmen Del Barnett, were sworn in to two year terms at the City of Goldthwaite City Council meeting last Thursday.

Three were elected at a regular city election, held Feb. 17. This term will be for Harper, and the City of Children.

Another reorganizing of the council, named Charles Childers as Mayor Pro Tem of the city. He will preside in the absence of the mayor at the meeting of the council.

The council reviewed its budget and the actual tax rate will be set at the May meeting of the council, and the changes in the tax rate will be mailed immediately thereafter.

Meetings will be held on May 21 and 25, for individual taxpayers to discuss with the city for the change of the tax rate, and will give the opportunity to discuss why the tax should be changed. Persons will

have ample time to set up appointments with the governing body.

In other council business, a .60 acre tract of land was annexed into the city limits. The tract, owned by Dale Allen, is the lot where his home now stands. An ordinance was presented and passed by the group unanimously.

The Lower Colorado River Authority, wholesale supplier of electricity to the city, has asked the Texas Public Utilities Commission for an increase in rate. The amount specified was about 14.5%, which would net about \$17,400.00 more into the LCRA till annually.

The council voted unanimously to retain the efforts of the Wholesale Power Customers association to voice opposition to the rate increase request. This is the same organization formerly identified as the "30 Mayors Group." The membership fee was set at \$500 to remain active in the cooperative. The only purpose of the association is to fight increases in costs that are passed on to cities, and ultimately to the

individual consumer of electricity. The group has saved customers countless thousands of dollars in its efforts over the past several years.

City Manager Dale Allen pointed out to the council that the average power line loss to cities is around 10%, according to LCRA reports. This figure has been holding at 5-6% level in Goldthwaite. The recent tree trimming efforts help to keep the line loss at a minimum.

WATER SUPPLY GIVEN STATE OK

The long awaited "Public Water Supply Approved" designation is just a matter of paperwork for the city, according to a report from the Texas Department of Health. Signs will be erected at various highway entrances to Goldthwaite telling visitors about the water system here.

The council recognized Mrs. Yvonne Bruce for her achievement in the advancement toward becoming a certified tax assessor. She will be the first person so certified in Mills County

when she completes the course of work in October. She is the person in charge of most of the tax work for the city. Grace Smith, city employee, has also advanced substantially in this endeavor, and has only a few more sessions remaining on her certification by the State of Texas. A recent legislative decree stated that all taxing bodies be directed by certified tax assessors.

SANTA FE SPEED LIMIT

The city received a letter from the district superintendent's office of the Santa Fe Railroad, explaining the speed limit for trains traveling through Goldthwaite. The speed of trains is supposed to be held at 45 miles per hour. The railroad will make periodic checks of the speed, using its own radar units, and will take care of violators with its own system of discipline, with three counts of speeding resulting in the termination of employment of a train engineer.

The council set April 23 as the date of the annual Revenue Sharing Hearing. The city will receive about \$16,249 in the coming year, an increase of nearly \$3000 over this year. The meeting, concerned with the allocation of the funds, is set for 5:30 p.m. at City Hall in Goldthwaite. Parties interested in receiving some of the Revenue Sharing funds should present their petitions at this session of the council. Most of the fund is spent on street repairs within the city.

The council elected not to accept the deed of a partial block of street in the area of Horton Street in the western part of town, stating that too few houses would be served by the street construction to justify the cost. If at a future date, when the street will serve more city residents,

the street will be reconsidered, if presented again to the council. City Manager Allen reported that the cost of building the street would be around \$600, and for only two residents.

Allen gave his regular report to the council. It included:

- The city has "bladed" the ball parks, in anticipation to the annual little league season. Also a number of new lights have been installed, following a rash of broken bulbs, resulting from being shot out with air rifles.

- Electric lines have been installed in the Pecan Ridge addition and down Horton Street. A water line has been built into the Pecan Ridge addition.

- A water line has been laid to serve John Elliott with City water.

- The city's annual Clean-Up Week, in cooperation with the Goldthwaite Garden Club, was instrumental in getting rid of many loads of trash and brush from the city.

- The city crews made 71 connects and disconnects of utilities during the month of March.

- The regular monthly operations report was presented, showing collections of \$65,344.54 and expenditures of \$66,551.05 for March. One of the biggest items of expenditure was the city's participating in a water well search, spending nearly \$5,000 for four test holes.

Heard a brief report on the economic scene the other day on the radio.

Seems that the commentator (not to be confused with the proper tater) said that the place with the highest rising prices in the United States is Texas, and in particular, Houston.

Well, the thing used as its foundation prices in New York and Houston. And the main point made was that prices in Houston had risen to a level higher than that of New York City.

Prices in NY, NY have always been about three times what they were in Harris County. And that goes back to the beginning of Texas History.

Inflation began in the big cities of the northeast, with their increased dependence on the welfare dollar and other free programs.

So you see, the comparison had no basis in fact, just basis in propaganda. The purpose being that the mass migration of northerners to the beautiful sunny southwestern US has got them squirming.

One has only to go to a major city and start talking to the people there and see that the "you all's" and "howdy's" have been replaced with a new kind of foreign language.

Survey Shows Drivers Violate 55 MPH Limit

Research conducted for the Texas Office of Traffic Safety shows that, despite the fact the 98.9 percent of all surveyed drivers know that the speed limit is 55 mph, 78 percent of the Texas drivers surveyed violated that speed limit in the course of their normal driving habits. They reported that drivers

violate the speed limit primarily because of social pressure -- from peers and from society's lifestyle schedules. The study, based on interviews with 4,000 Texas drivers, was designed to elicit drivers attitudes toward the speed limit. What are some of the attitudes drivers have about different driving speeds?

According to the study, 17 percent of the drivers surveyed define "speeding" as "anything over 55 mph." 37 percent defined speeding as anything over 60 mph. Most of the drivers believe they can drive 57.7 mph without getting a ticket. With male drivers, the average went up to 58.3 mph.

The most comfortable speed, on the average, is considered to be 62 mph. However, the "safest" speed is perceived by Texas drivers to average 59.3 mph.

How many drivers have had bad experiences with speed? Eight percent of drivers have personally experienced an accident involving speed of over 55, and another 11 percent have had an immediate family member involved in an accident.

Twenty-one percent of surveyed drivers claimed they have been ticketed for speeding within the past three years. Ticketing is said to be a deterrent to some drivers, although many claim the deterrent is short-term. Of the 21% who had been ticketed, 30% reported that it slowed them down, 13% said it slowed them down for a while, 11% reported increased awareness of speed and law enforcement, and 3% noted an increased attention to driving.

It might then be concluded that of every three drivers ticketed, two would correct or improve their driving habits.

How much time does the average Texas driver spend on highways and freeways?

Each year the average Texas driver tallies 14,300 miles, about 49% of which are on freeways and highways. At the average driving speed of 60.6 mph, a Texan spends about 116.5 hours each year on the highway.

Who is the average driver who complies with the 55 mph speed limit?

The average 55 mph driver is 43.5 years, the oldest of any driving group, and is more likely to be a woman. Compared to violators, this driver is more likely to be a blue collar worker and is the most likely to be married.

Who are the violators of the 55 mph speed limit?

The violator averages between 32 and 37 years old; the younger the driver the more likely they are to

exceed the speed limit. Males drive faster than females on the average, and the "excessive" violator who drives 65 or above is the least likely to be married.

Who do people "see" as "usually speeding" on highways and freeways?

According to 74% of the Texas drivers, truck drivers are the most flagrant violators of the 55 speed limit. Second in ranking of those selected as usually speeding are vehicles with CB's, and teenagers are listed third.

Self Culture Club Meets April 21; Tour Photos Seen

The Self Culture Club met Thursday afternoon, April 12, at the Library. Hostesses for this meeting were Mmes. Belle Collier, Annie Keeler, and Margaret Duren.

After a business meeting in which the end of the year reports were given, Mrs. Norman Duren, incoming president, read her commitments for the new club year.

Mrs. Annie Keeler was unanimously elected by the members of the club as outstanding senior citizen.

Following the business meeting, Mrs. Norman Duren, program director, called on Mrs. Monte

Kirkland to give the invocation and then turned the program over to Mrs. T. C. Graves who showed pictures of their Scandinavian tour last summer. The pictures were beautiful, depicting the beauty of those countries. She was assisted by Mrs. Billie Ledbetter who made the tour with them.

Following the program, Mrs. Bonnie Evans in her gracious manner installed the officers for the incoming club year.

Members and guests were served tea dainties from a beautifully decorated table carrying out the Easter theme.

Two Local Girls Accepted To Sw Basketball Camp

Two girls of Goldthwaite Junior High School have been accepted in the Southwest Basketball Camp to be held at Ranger Junior College.

The students are Karla Allen, daughter of Mr. and Mrs. Dale Allen, and Sandi Nicole Smith, daughter of Mr. and Mrs. Jimmy Smith.

This is the eleventh annual camp and the fastest growing camp in the Southwest. The camp is for girls of high school, junior varsity, junior high, and younger. It is directed by Ron Butler, basketball coach at Ranger

Junior College. The primary purpose of the camp is to teach new skills, fundamentals, and improve the individual abilities of each girl. Along with these ideas, the camp will also stress the ideals of good sportsmanship, leadership, and good citizenship.

Again, this camp will feature some of the state's top high school and college coaches.

For more information on the camp, write Ron Butler, Box 512, Ranger, TX 76470, or call (817) 647-3511.

Pay as you grow

When you start to work, it's easy to spend your whole paycheck. And that's a good reason to join the Payroll Savings Plan and buy U.S. Savings Bonds. Because Bonds grow with you. So while you're working hard doing your job, Savings Bonds can be working hard doing their job. And the job is making money for you. Bonds can help cultivate your dreams. Whatever they are. A college education, down payment on a new house, or a long-awaited vacation. Even a retirement nest egg. Put U.S. Savings Bonds to work for you. Storing away the fruits of your labor. Plant the seeds of your future today. You may be surprised what they can grow into.

The Moline Menace

THE TELEPHONE BOOK...

I thought I made a funny when I remarked, "Hey, we got the new phone book. I haven't finished reading last year's!" It was made-up therefore fiction. I was to learn that truth is stranger than fiction.

I became acquainted with a witty but somewhat strange fellow named Dudley D. Dittmann. Dudley was as big as a gorilla and as strong as two of them. One morning in a railroad shanty a much smaller man was sore at Dudley. He became insulting and threatening. This rooster was sure he could get away with it, being smaller, and therefore if he struck Dudley

it would then seem that he had been unjustifiably 'picked on' and bullied by Dudley.

Dudley picked him up off the floor lifting him under the arms for an eyeball to eyeball confrontation, and told him in a loud voice ... "Listen ... loudmouth! If you ever hit me ... and I find out about it..." We broke up.

On another morning after a night job I went home with Dudley, being invited for breakfast. We had a huge beautiful feed prepared by his wife. During the visit she was telling me that Dudley had been a semi-pro ball player, a professional boxer and now had 'gone intellec-

tual'. She added, "He reads phone books." "Sure! There is a lot in a phone book," Dudley interjected. I learned that he would sit for hours devoted to the Book of Bell, analyzing where a name may have originated, (Coopers were barrel makers, etc.). He liked to find unusual names. He found a Turnipseed, a Silch, a Mizer, a Spender, Nutts and Bolts, Savages and Loves, and a long list of Sells. He found spicy names as Mace, Salt, Pepper, Curry and Sage. He found some that came from people who avoided vowels -- Drda and Tvrsk, for examples.

The phone book was well over two inches thick, weighing about 8 pounds, and contained over 2500 pages in fine print.

"Who are all these People?" I asked. "That's what I'm trying to find out," he replied.

A year later, he and his wife received a large Bible as a gift. I heard then that Dudley was into this tracing all the "begats", allowing an average number of years for each generation, trying to find out by working backward the exact date the world began with Adam and Eve. I told him this had been done a number of times centuries before. In fact, one Reverend arrived at the date 4004 B.C. and early history books used it on page one as fact.

The last I heard of Dudley he was reading the Encyclopedia Britannica beginning with page 1. I hope when he gets to "T" they won't have "Telephone Directory" listed.

House-moving Becoming A Lost Art

Pete King and Sons, house movers of Zephyr, moved this house through the heart of Goldthwaite last week. The house belonged to Lee Roy Stacy and was located at the corner of Hanna Valley Road and Liveoak Streets. Workers had their usual difficulty with electric lines

in the process, but had a lot of good help for the task. City electricians were also on hand in case any problems had arisen. Everything went off as planned, though. The King bunch is just about the only firm in this part of Texas that will move a house. It seems to be a lost art.

"If we could see ourselves as others see us, we'd probably never forgive them."

During late May and June, many Texas farmers and ranchers will receive a crop or livestock questionnaire from the Texas Crop & Livestock Reporting Service or will be personally interviewed by the Service's field staff. The information gathered through the questionnaires and interviews provides the basis for determining the acreage devoted to the various crops and midyear livestock numbers for the state of Texas and for each county.

Crop and livestock reports provide a dependable, unbiased picture of Texas' most important industry — agriculture. The estimates in these reports are tools to help farmers and ranchers work out their planting, breeding, feeding, storing, producing, and marketing plans.

Farm organizations and legislatures use them in planning programs. The estimates are also used in establishing the various government program acreage and payment levels to farmers for the state and county.

Extension economists and private farm and ranch management consultants use them as a basis for advising

ASCS News

farmers and ranchers. Exporters use them in planning and promoting the sale of agricultural products abroad.

Prompt and accurate completion of the survey forms provides for more reliable estimates and helps to reduce survey costs.

All individual farm and ranch information is kept confidential, and only state and county summaries become part of the final published estimate.

This is a cooperative effort of the USDA's Economics, Statistics, and Cooperatives Service and the Texas Department of Agriculture.

BAY CITY, Texas (Mar. 29, 1979)--The first long term Health Care Facility in Texas to receive a Superior rating as determined by the Texas Department of Health was recognized last week at a ceremony held at Bay Villa Nursing Home in Bay City.

Two certificates were presented to Administrator Doris Mathews by Dr. Raymond T. Moore, Commissioner, Texas Department of Health, recognizing the significant achievement of the facility's staff in providing both skilled nursing and intermediate care.

"This represents a significant milestone in our delivery of long-term health care in Texas," said Moore. "With the presentation of these certificates, we are saying that the requirements for exemplary care can be met by providers."

"We are extremely proud of our employees who work together to give superior care to all residents," said Demeris Smith, president of National Living Centers. "To be recognized by the State as the first recipient of a superior rating is an honor we sincerely appreciate," he added.

Hillview Manor of Goldthwaite is managed and supervised by the same company, National Living Centers. Administrator Fern Rajnoch commented, "While the honor of being the first to receive superior rating belongs to a sister facility, we too, work toward giving superior care, with concern for the special needs of each individual."

Each Long Term Health Care Facility in the state is surveyed on a yearly basis by the Department of Health to insure that specific standards of care are being met before

Ruth Keesee, Patient Ruby Hogan, Employee ... Chosen for the month of February at Hillview Manor.

renewing the contract which allows participation in the Texas Medical Assistance Program.

In addition to the survey, a grading system which includes demerits was initiated early this year in response to the mandate of the Texas Legislature, contained in Senate Bill 9.

According to Quality Standards Director Bryant, it is

estimated that fewer than 10 percent of all facilities in Texas can expect to receive superior rating in 1979.

Following the ceremony reception was held at facility for State office community guests, volunteers, residents and their families. Bay Villa Nursing Home is one of the facilities operated in Texas by National Living Centers.

EASTER HOLIDAYS OBSERVED

Wednesday, the Easter holidays began in Star with the school Easter Egg Hunts. The kindergarten through second grade and their preschool guests hunted eggs on the green area in the middle of Star, in front of the houses of Alvin Kemp, Jimmy Witty, and Mrs. Jeske. They had a nice time.

FOOD & GAMES FOR THE YOUTH

Sunday, April 22, beginning at 4:00 p.m., there will be a Hot Dog supper for the youth of Star at the Star Baptist Church. There will also be kite flying, volleyball, frisbee and other fun games. Bring a friend and come fly your kite.

GOOD LUCK TO GIRLS AT REGIONAL

The Star girls will be going to Abilene for the Regional Track Meet soon. If you cannot attend in support of them, please remember to wish them well before they go.

TRACK ACTIVITIES

The Hi School boys track team went to Llano Thursday for a meet. They did not do as well as usual, but plan to do their very best at the District meet in Brownwood on Tuesday.

EGG HUNT BAPTIST CHURCH

Star Baptist Church held an Easter Egg Hunt for the small children in the congregation after church Sunday. There were about seven little ones hunting eggs.

57 Mills Countians Enjoy 'Opry' In Stephenville April 3

On April 3rd, fifty-seven of Mills County citizens enjoyed a most entertaining evening at the "Opry" in Stephenville. Everyone said, "I'd like to go back."

Some of us were pleasantly surprised to find a young man who grew up in our own Mills County playing in the Stephenville band, and having his own Blue Grass Band. We surely enjoyed hearing Jamie Jewell play the guitar and sing. Jamie spent his high school years in good ole Star High School. He is the son of Mr. and Mrs. D. C. Jewell of Mills County. There was much more royal

entertainment as well. We would like to express our thanks to the drivers of the five Senior Citizens vans, Cruz Corona, J. B. Harper, Vivian Williams, Valeria Gray, and Judy Beavers. They did a good job of driving, as usual. We also thank Hamilton, Hico and San Saba Hill Country Community Action for lending us a van to go with the two from Goldthwaite Sr. Citizens Center. Even though the program was two and one-half hours of jam-up good singers, players and cloggers, none of

our group were ready for them to quit.

We arrived back at the Center about 11:30 that night, feeling it was certainly an evening well spent.

This group performs every Tuesday night in Stephenville especially for Senior Citizens at half-price admission. They also have two shows each Saturday night for the general public, beginning at 6:30 and 9:30 p.m. If you want a good, clean evening of entertainment, it's not far to Stephenville, and Jamie Jewell and the Blue Grass boys play and sing every other Friday night.

How about it, Gang, like to go again?

These trips are planned and sponsored by the Committee on Aging, Mills County.

Farm Bureau Newsletter

Mohair production is slightly up over last year, while wool production continues to go down. Mohair

production totaled 8,100 pounds during 1978, 1% above 1977.

The number of goats and kids clipped was estimated at 1,188,000 head, down 2% from the previous year. The average fleece weight was 6.8 compared to 6.5 last year.

Mohair averaged \$4.59 per pound in 1978. This was \$1.72 a pound above 1977. (Texas Crop & Livestock Reporting Service, April 2, 1979)

U. S. shorn wool production during 1978 totaled 101 million pounds, down 5% from 1977. The total 1978 wool production was 102 million pounds including 550,000 pounds of pulled wool. Sheep and lambs shorn in 1978 at 12.5 million head declined 6% from the previous year. The average fleece weight of shorn wool was 8.08 pounds, unchanged from 1977.

The Texas wool production was the smallest since 1919 and 12% less than 1977.

Since cattle prices have been on the rise, many people are interested in increasing the size of their cattle operation. Others sold several months ago and now plan to buy replacement cows and heifers. We need to be very careful in purchasing these animals to make sure we are getting brucellosis free animals.

Personal—

Recent visitors in the home of Mr. and Mrs. W. T. Anderson of Mullin were Mr. and Mrs. Andrew McLain and Mrs. Cora Cline from Bay Cliff; Mr. and Mrs. Brian Merkle, and Mr. and Mrs. Billy R. Anderson of Killeen; and Mr. and Mrs. Coy Cline & children, Kim and Jason, of Brownwood.

Senior Citizens Nominations

All organizations, clubs and churches in Mills County, as well as individuals, are invited to nominate a man and/or a woman as Mills County Outstanding Senior Citizen for 1979. Nominees should be 55 years or older. Their outstanding contributions can be recently or in the past. Nominations are due Fri-

day, April 27, 1979 in the Extension Office in the Courthouse, OR they can be mailed by the same date to Box 68, Goldthwaite, Tx. 76844.

All nominees will be honored on May 16, at 1:30, at a program and reception at the Mills County Senior Citizen Bldg. in Goldthwaite. Each nominee will be presented with a framed cer-

tificate signed by the Governor and a corsage or boutonniere.

Please enclose a black and white photo with nomination information. Pictures and information will be submitted to the Eagle for publication.

We have so many outstanding senior citizens in our county. Let's recognize them in this small way!

Chevrolet's first economy car of the '80s

Citation 4-Door Hatchback

CHEVY CITATION.

Citation goes a long way on a tank of gas. But that's just the start. Citation has the traction of front wheel drive, rack-and-pinion steering, front disc brakes, and a transverse-mounted engine that's cradled in rubber-cushioned mountings to reduce engine vibration. Sleek Citation is easy to park, yet big enough for five adults and lots of cargo. See Chevy Citation for yourself. And to really appreciate it, get behind the wheel.

EPA ESTIMATED MPG **24** CITY ESTIMATE
38 HIGHWAY ESTIMATE
With standard 4-cylinder engine and manual transmission

Remember: Compare the estimated MPG to the "estimated MPG" of other

cars. You may get different mileage depending on your speed, trip length, and weather. Your actual mileage will be lower in heavy city traffic. Your actual highway mileage will probably be less than the estimated highway fuel economy. The "estimated MPG" is more likely to be actual overall mileage than the "combined estimate". Chevrolet cars are equipped with GM-built engines produced by various divisions.
