THE ARTISTIC Job Printing THE PANHANDLE.

The Miami Chief.

THE ONLY PAPER IN THREE COUNTIES. ONE DOLLAR PER YEAR IN ADVANCE.

The Panhandle, the whole Panhandle, to our pride in its past and our hope for its future, add vigorous work in the living present.

TOL 4.

MIAMI ROBERTS COUNTY, TEXAS, JUNE, 27, 1903.

A Business Proposition!

➤A MONEY MAKER FOR EVERYBODY ✓

To The Deople of the Danhandle:

Do you want to help pay other peoples bills with your hard earned cash? Do you want to pay credit prices for goods when you can pay the cash? If you should not have the cash would it not pay you to go to your banker and borrow the money and pay cash for your goods and save the big prices that credit houses are forced to make you pay.

Money at Interest

will not cost you one-fourth as much as the time prices would, and besides you buy with cash from any one or any where you want to and are independent. The time has come when all the largest business houses are adopting the cash business strictly. They have it to do to meet the catalogue houses prices. Now we are going to adopt this plan.

Commencing July 1st.

Commencing July 1st our goods will be sold on a cash basis-all goods will be marked down in plain figures, one price to all. But all bills must be paid promptly on the 1st of the following month after they are bought. All bills not paid for when bought will be due the 1st day of the following month, and if not paid then, ten per cent interest will be charged, as all goods will be marked on a cash basis and we will be compelled to charge interest after 1st of each month on all bills not paid promptly. Now, we realize that some people will not like this plan, but we will show by the prices we will make that it is far better for them as we can then compete with the other large cash houses.

Our Desire.

We want to please our customers: We want to sell our people good p as they can get them anywhere and we know no one else can do this and sell on long time, but when we get the cash and buy for cash we will make the credit man howl.

Watch Our Drices!

Now watch us and see us create the biggest sensation soon ever known on the prices of merchandise in this country. Watch our prices when we get them marked down.

An Appeal to Your Patriotism!

Keep your cash at home and build up your home towns. This will be our principles at all our houses. We have three of the largest houses in north Texas and buy more goods than any other three firms. Buying in large quantities and for cash will enable us to serve you in a more acceptable manner than ever before. Thanking you for past favors, hoping to have a continuance of same on a larger scale in the future we are yours truly

local advertisements, with a general ing grounds:

editor manages to make for him-

the editor of the home paper can live on the "pi" that accumulates in the office; whose official bodies think it a waste of public money to throw him a bit of public printing occasionally at living prices; whose citiizeus have come to regard it as one of their inalienable rights to work law in Amarillo? him for long-winded obituary notices with three inches of hymn book poetry at the end, to say nothing of

progress of their community; therefore of themselves individually.

A local newspaper is absolutely necessary to any community. It may be that the daily papers, with their larger news service and quicker facilities, may have overshadowed the weeklies; but at the same time keep the people of a community in touch with each other by giving chronicle the progress of a commun-ity and keep the local pride and the progressive spirit aroused they are than the town ever spends on them.

Bear this in mind: No merchant. no county, no town council that spends every year all they can afford with the home paper-whether that expenditure is actually necessary or not, makes a wiser, more profitable investment. They are not "giving" the home paper something. On the contrary it is earning every cent it gets or more—provided it is a paper worth picking up in the road, And if it isn't that sort of a paper it's it's usually the fault of the town in which is published,-Atlanta Con-

A MISERABLE COWARD.

It is merely a story they used to tell about Hagenbeck, the menagerie man, the time of the world's fair at Chicago. It seems that he had been out with some particularly thirsty friends in the evening and deemed it prudent not to go home. So, since the night was rather cool, he crawled into one of his lion cages. Snuggled close to the largest and most dangerous lion he owned, he slept soundly until morning, when he felt something prodding him in neighbor. the ribs. Opening his eyes he saw his wife standing in front of the cage jabbing him with her parasol and scornfully saying: "Oh, you

Woodward, - seem that dairymen would not allow so much filth to get into it.—W. J. Fraser, University of Illinois. Intelligence in Dairying. In an address to dairymen, Prof.

E. Marshall of Michigan said: are not sufficiently acquainted with milk itself and with those agents which tend to influence milk. They, therefore, are not intelligently posted in those methods which will produce a satisfactory milk. Also they are laiming that the consumers will not pay for the extra labor entailed in the production of a first grade milk. Farther, too, there is too little comprehensive knowledge of the methods used in the manufacture of milk products. You may chide me for making these remarks, but in general I am right in saying that they are true You know that every farmer cannot produce milk at a profit. You know that one farmer will make 6 to 8 per cent on his investment while his neighbor, living practically under the same conditions, will lose as much or even more. What is the difference? One is an intelligent dairyman and the other is not. One is an expert and the other is not. No matter where you go or what profession you examine, this same condition exists. It is the man who knows, who has the energy to push his knowledge. So I believe that he who is able to know dairying from A to Z will be the man who will succeed in dairying. He may be depended upon to develop dairy science and dairy art, for he will appreciate the value of it and the rela tion of such to his work. I do not beeducate a man who is opposed to that education, whether it is in college or whether that education comes through self study. The best way to cure : kins, baby of J. K. Carr, Mrs. Dave balky horse is to get rid of him. Time is too valuable to spend in efforts to correct him.

Cost of a Pound of Beef.

One who has followed carefully the feeding experiments cannot but be impressed with the great variation in the amount of feed required to produce a pound of beef, says Professor Frederick B. Mumford. I have given this somewhat careful study, and I have found that the number of pounds of grain required to produce a pound of gain at the different stations has One curious result of the craze for varied from two pounds to fifteen other cows, and can be relied on only motoring is the consequent annihila- pounds. Even when the same grain lution in country life. Neighbors who amount of grain required to produce rarely saw each other now pop in con- a pound of gain are very great. its worst forms. There are two diseases known as roup, the most fatal of which occurs at this time of year. Various things are prescribed for it, only thing that can be done is to you leave the well birds in the inand put them in clean places. The correspondent showed much enterprise in making the autopsy. The spongy matter spoken of would appear to be the lungs. The difficulty the birds have in breathing is due to the nasal passages being filled up. There are many published remedies for roup, but none that we can rec ommend as likely to be effective. We would be pleased to hear further concerning the progress of the disease in this flock.

Prices for Milk.

From the Farmers' Review: When tilizers are to be used. In some the roads are bad, almost impassable, it assists the elements found in there is always much discussion as to manure, even though these eleghow they should be fixed the next | may be the same as in the n .. season. Now, as there is more milk In Germany some experiments up eing produced on Illinois farms during May than any other month in the results. The greatest yields of year prices are naturally at the low- crops were obtained only when h est notch. This should be a good yard manure was used in conjur time to agitate better prices and a with the commercial fertilizers. more regular supply. Our supply of experimenters there express the milk is shipped to the St. Louis mar- lief that this is due to the mecha ket. I have noticed that the large effect on the soil of the barnyard producer even if he was sending in nure. Another surprising result thin milk, the kind that comes from the discovery that even though a Holsteins, was the man who got the heavy application of nitrate of top prices. The question came to me, was made, the plants took up less if one big shipper can secure an ad- trogen than when barnyard mat vance in price why would it not be was used in conjunction with it, practical for several small shippers 1 dressing of barnyard manure at to "combine" and secure a similar ad gave heavier crops of potatoes

A few of us brother farmers united | phoric acid and potash were app and have since had no trouble in topping the market, so far as prices are concerned. But this plan 's not the right one; a few are taking advantage of the weaker brothers. I can see no way for the dairy farmers who furnish milk for a city, to succeed in the commercial fertilizer. Just these times, except to follow in the lines of a general organization. This should be the practical idea, and efforts are now well under way, so far as St. Louis milk producers are concerned, and the new plan will soon be given a trial, as the promoters hope soon to meet with the St. Louis dairy companies and establish a uniform price for the members of their organization. St. Louis milk prices averaged 12 cents per gallon delivered for 1902. A 13-cent average is promised for this year. The railroad and express get about 2 cents per gallon for carrying milk to market .- L. S. Porsey, Madison County, Illinois.

Tuberculous Udders

The University of Aberdeen has been investigating the virulency of tuberculosis germs when found in the udder, and effect of milk from udders where the cow is tuberculous but the under is not affected. Num erous tuberculous cows were used in the tests, their milk being used to inoculate guinea pigs. cows had the disease but their udders were not affected the milk in all cases proved harmless. This of course might not be the case with as to the cases in question. Bu the milk from the affected udders proved remarkably virulent, as if the germs had been reinforced with the material they had drawn from the lacteal fluid. We have had little evi dence along this line, but more wil doubtless be forthcoming. If we wish to prevent the further spread of this dreadful disease we should take ev ery precaution to sterilize all mill coming to the farm from the creamery whether that milk is to be used for animals or humans.

The cows in Belgium wear earrings. The law decrees that every cow when it has attained the age of 3 months must have in its ear a ring, to which is attached a numbered metal tag.

"Crest" is the term applied to a crown or tuft of feathers on the head

Abstract. No. 920; Original Grantee E. D. Miller: Certificate No. 30-357; Survey No. 154, Roberts County, Texas; number of acres delinquent 640 for the year of 1902 which said land is de-linquent for the following amounts: \$2.49 for State taxes and \$5.37 for County taxes, interest and penalty, and you are hereby notified that suit has been brought by the State for the collection of said taxes, and you are commanded to appear and defend such suit at the August term of the District Court of Roberts County, and State of Texas, being the next regular term thereof to be held at the Court House thereof, at Miami on the Fourth Monday after the First Monday in July, symptom noticed is a dark red colo. the same being the 1st Monday in Auto the head, which is followed by a gust and the 3rd day of August A. Quite a number of varieties The disease is roup in one of of corn will also be tried. These have been collected from Old Mexico and other places in the drier parts of the country. As a beginning in horticulture and forestry, 400 fruit trees, conbut little result seems to come from sisting of apples, peaches, plums and the use of any of them. About the cherries, and 300 berries have been planted. One thousand forest trees keep the well birds from the sick have been set for shelter and shade. ones. Do not take the sick birds Four thousand small seedling cedars from among the well ones, for then and pines are planted under a partial shade to give them as nearly fected pens. It is safest to take the sible natural conditions. After two well birds out from among the others | years in the nursery they will be transplanted along the creek banks to beautify the twelve miles of timber that grows along the stream. The legislature last winter appropriated \$32,500 for equipment and maintenance for the next two years .- J. G. Haney, Fort Hays, Kans.

> Value of Barnyard Manure. Few realize the great value of barnyard manure, in comparison with other fertilizers. In the regions devoted to market gardening, barnyard manure is found to be a necessity, if large quantities of commercial for turnips than when nitrogen, p in their commercial forms. A n fact seems to be brought to light. it is said that a quantity of nitrog taken up from the barnyard manua produced more substance than whe the same quantity was taken un fre much the difference was we do know, but if considerable, it she lead to some experiments to find the

cause of this. The barnyard manure was for be less valuable than manure stalls where it had not been ex to the weather.

These experiments teach les that are applicable to soils of lands, or such as are deficient in trogen. It is evident that in so having an abundance of available trogen and humus the application of barnyard manure would have little or no effect. For it is manifestly impossible to scientifically treat any soil without knowing its mechanics construction, its content of availab plant food and its usual supply humus and moisture

Creamery Associations In New Zealand the secretaries of the creameries have formed an organization and have held an institute. The uggestion contained in the formation of this organization will doubtless be acted upon elsewhere and will result in a closer drawing together of these interests. In this country the creamery managers doubtless hold about the same relative relation to the creameries that the secretaries do in New Zealand. It certainly would be a step in advance if the managers of cream eries could get together once in awhile and hold an institute. should result in a decided improve ment of the service.

It is well known that many insects pear a close resemblance to leaves. twigs and other things, and there is no doubt that this is for their protection against, or their concealment from, their enemies. One of the remarkable cases of this kind was recently made known to the Entomo-logical society of London. It is that of a spider that lives in the rocks near Cannes. A certain kind of moth inhabits the rocks also and their cases are to be found all about. It was noticed that the spider, when at rest, looked exactly like one of the moth

Gladstone and Darwin Regarded Themselves as "Ordinary Persons." In "Studies in Contemporary Biography," which James Bryce has just bublished, there occur two stories which have caused some of the critics

to express astonishment at the "modesty of the great." The stories are "Meeting Mr. Gladstone in the lobby, and seeing his face saddened by the troubles in Ireland, Mr. Bryce tried to divert his thoughts by mentioning a recent discovery—to wit: that Dante been saved from want in his last years by a lectureship at Ravenna. Mr. Gladstone's face lit up at once and he said: 'How strange it is to think that these great souls, whose a ne ations that have come after

anxioties to vex them in their daily aut. "that a few days before I had

them, should have had cares and

the pleasure a visit paid by Mr. Glad- From that day to this he has made his talked just as if he had been an orof their greatness."

It is only the little who think them selves great. They are like those who do not know much, and, therefore, know. The great do not think themselves so, just as the learned are overwhelmed by their ignorance. In the same way, it is not the socially important who are affected and impertment, but the unimportant.

As the hot weather approaches war seems on the increase. Walking homeward last evening, enjoying a 25-cent cigar that the trusts have reduced to six cents, we came suddenly upon a man in the gutter who gave every evidene of being sunstruck. Examination proved, however, that while the battle raged, it was the sun, but a highball that had struck him. Indeed, since the torrid waves have begun to play tag with the cyclones over this great country of ours, the days and nights are filled with highballs that come sizzling over the bar, striking their victims square in the mouth. There is a gasping, gurgling sound—and all is still! Going home most any night now one can see the "dead soldlers" strewn along the highways and byways, the infortunate victims of the stinging,

aforesaid ball! In the inimitable words of a noted general: "War is h-1."

From the Panhandle Herald it would seem that nearly everybody in Carson county is cited to appear before the commissioners court and give cause why the taxable value of their property should not be raised.

A great time is expected at Mobestie on July 3 and 4. Our slater town is advertising the celebration extensively and no doubt a large crowd will be in attendance. Our ball boys are practicing up to take in the \$25 prize.

Miss Carrie Hastings Miss Edura Evans.

Miss Maud Lard Miss Tennie Pulsaki alled out in Gray county to officiate at the marriage of H. B. Bradley to Miss Maud Lard Miss Tennie Pulsaki Carrie Hessi o'clock at the home of W. R. Holder Miss Inez Hess

Having traveled over most of Wheeler county and seen the wonderful growth of alfalfa, I believe it will interest some of the readers to give a brief account of it's production in the Panhandle. Alwhile we are not afraid of cyclenes, yet it is a very pious idea to always be prepared for emergencies. Some flippant Alex remarked, "there's no use to try to cheat providence, a man will die when the time comes." Very true, indeed! But we've always noticed that "his time hadn't come," if he got is a dugout before the storm.—Amarillo Advocate.

The local newspaper may not agree with you in politice, in fact the editor may be a chump. Yet he may have a pretty good sized sudience to talk to, or he could not pay the printer. A word from him which you can get for five or ten cents a line, may be worth more than a page from a bester man. He may reach the crowd you don't train with. Your personal friends will likely come anyway.—The Ad-writer.

Mr. Sam Holt and wife, who have been visiting relatives in Roberts and Wheeler counties, the Stanley's and Wheeler counties the Roberts and Wheeler counties, the Stanley's and with favorable weather can be harvested each month until frost.

Mr. Sam Holt and wife, who have been visiting relatives in Roberts and Wheeler counties, the Stanley's and Holt's, left on Wednesday's train on their return to their home at Union Town, Kansas. Miss Kate Holt accompanied them and will make a six-week's visit.

The Canadian ball team came down last Sunday and did the Miami boys up. Score—14 to 24. The Miami boys went up to play Canadian yesterday afternoon and as we go to press we have not heard the result.

Weather can be harvested each month until frost.

Farmers last year harvested from four to six crops, with an average yield of one-third ton per acre for each cutting. Alfalfa is very nutritious and there is always a ready sale for all that can be produced, at from \$10 to \$12 per ton. Alfalfa comes nearer filling the requirements as an all-round feed than anything yet tried by stockmen of the Panhandle. It at once takes the place of both grain and hay. Stockmen have also found that it is an excellent food for hogs and most farmers alhave not heard the result.

There must be more than ordinary attraction to draw people to a town to trade. Amusement as well as inducements in the price of goods must be given people who visit our town.—Higgins News.

Notice is now given for the last time that if parties now owing me on account do not come around and make

men have also found that it is an excellent flow a drove of hogs to remain on their alfalfu fields the entire year. This county is fast becoming famous for the growth of this excellent plant, and at no distant day the very land that a few years ago was thought to be worthless for agricultural purposes, will be as valuable as the famous black lands of Texas.—S. L. McDonald in Dallas News.

Killing Near Canadian.

Canadian, Texas, June 21 .- A terrible tragedy was enacted late yest rday evening in the southern part of this county, in which J. H. Journegan lost his life and J. L. Cole, a stepson of the deceased, is now in jail charged with the offence.

Journegan was shot twice, once through the heart and once through the back part of the head. The re-mains are here awaiting instructions from a brother at Coalgate, I. T. Also relatives at Weitesboro have been

Pienic at Tallahone.

Just before going to press we were called up over the 'phone by Jake Walstad and asked to announce to the public that Tallahone would give a grand celebration on the 4th of July. The various kinds of amusement will be provided for those who attend and a platform will be erected and dancing will be in order day and night, and those who are acquainted with Mr. Walstad know that the music will be the best. Dinner on the ground. Make the best. Dinner on the ground. Make your preparations to go to Tallahone for price apply for the 4th.

BAPTIST COLLEGE. The Baptist college committee to receive propositions from the applicants for it met yesterday, with the exception of Mr. Oakes from Channing. Clarendon, Amarillo, Hereford, Canyon City, Canadian and Lakesiew, Hall county, MOTEL PEOPLE.

Here is an opportunity for A-1 hotel people to secure the best opening in the town or any public entertainment given by our home people.

It is now proposed by the Johnson Mercantile Company to move the building formerly used for their dry goods department to a lot on Commerce street between the Miami House and the residence in which C. S. Seiber now lives and to fit up the same for an operation was the most indefinite of any.

LADIES.

I have purchased the millinery stocks of Mrs. Nettie White and The Johnson Mercantile Co. and will continue the same and the store of the building as large as it now is and to tear out the rear end of the building and build a stage and two dressing rooms.

ODERA HOUSE

For a long time it has been difficult to secure a house large enough to accommo proposition. Clarendon, through Rev. Skinner offered \$11,000 already subscribed and the ground, a beautiful location. Canadian and Lakesiew, Hall county, were applicants for it. Amarillo, Tearphon City, Canadian and Lakesiew, Hall county, were applicants for it. Amarillo made no proposition. Clarendon, through Rev. Skinner offered \$11,000 already subscribed and the ground, a beautiful location. Canadian and Lakesiew, Hall county, were applicants for it. Amarillo, Tearphon City, Canadian and Lakesiew, Hall county, were applicants for it. Amarillo, Tearphon City, Canadian and Lakesiew, Hall county, were applicants for it. Amarillo, Parketiew and Lakesiew, Hall county, were applicants for it. Amarillo, Parketiew and Lakesiew and Lakesiew, Hall county, were applicants for it. Amarillo, Parketiew and Lakesiew, Hall county, were applicants for it. Amarillo, Parketiew and Lakesiew and the ground, a beautiful location. Canadian, through Rev. Skinner offered \$10,000 and land they already have, said to have cost \$20,000. Canadian, through Lawes and the ground, a beautiful locat of land. This was accompanied by the list of names and the amounts they would pay, but stipulated that it would not be binding unless the college was located as indicated.

Canyon City was represented by W. St. Clair, L. G. Conner and L. Lair.

There were some other parties pre-ent whose names we did not get. ent whose names we did not get.

Of course, there is no decision yet as to where the college will be located. That can only be settled when the association meets. The committee says the place getting it should erect the main building, to be worth about \$50,000 and turn it over to the board free of debt, and that on the rest of the field money should be raised to build dormitories and other needed buildings.—Clarendon Chronicle.

-L. C. HEARE-LAWYER AND LAND AGENT-

office of L. G. MEARE, Real Estate and Live-Stock Agent.

O trouble to answer questions about Panhandle ranches. I have a choice lot of large and small ranches for sale in Roberts, Gray, Wheeler, Hemphili, Hutchinson, Ochiltree and other Northeastern Panhandle Counties. This part of Texas is well watered; Canadian river and its tributaries flow through it. Also the head of Washita river, Sweetwater, North, East and Salt Forks of Red river and other streams are within a radius of thirty miles of Miami.

Plenty of breaks and canyons for choice winter shelter for stock.

A variety or grasses—Gamma, Curly Mesquite and other kinds—best winte grass known. Feed crops, vegetables and fruit grow well here.

Land 92 to 95 per acre. Plenty of pure soft water, supply inexhaustible. As a stock-farming country this part of the Texas Panhandle is a success. Delightful climate. Altitude about 3000 feet, no malaria. Right now, is the time to sell your high-priced land and invest in this cheap, fertile land in Northwest Texas.

Railway facilities, good. Taxes are low-about one-tenth that of Oklahoma Write to L. C. HEARE, Miami, Roberts County, Tex.

Ten Good Reasons Why Miami is the Best Town

in the Texas Panhandle BECAUSE-It has the best stock country surrounding it. It has the best climate, best water and plenty of it. It is the best shipping point on the Santa Fe road. It's population are not mere "nesters" but STATERS. It has the sharpest competition and gives lowest prices. It is surrounded with the best Cattle and finest ranches It's the commercial and legal center of three counties.

It has the best schools, best churches and best society

It is the prettiest town-site and sells good lots very Low

It gives a perfect title to perfect lots in a reliable town
