

The Miami Chief.

Vol. 21 MIAMI, Roberts County, TEXAS, Thursday, February 12 1920. No. 26.

DUNN OF MOBEETTIE DIED YESTERDAY

H. Dunn, a prominent citizen of Gageby Valley died yesterday after a very short attack of influenza. Mr. Dunn and his wife and three children took influenza only a few days ago, and Mr. Dunn's cases was from the start. Medical attention could not be secured promptly because of so much other sickness and being also a fleshy built man he lasted only two days. Dunn was reared at Mobettie a son of Mr. and Mrs. Geo. B. of that place. He was connected with the First State Bank of for several years and had for past few years been stock farmer in the Gageby Valley. He leaves a wife who is a daughter of Cap and Arrington, and three small boys, besides his parents, two sisters and a sister. His untimely death was a severe shock to the community, for "Bill" has many friends and was apparently a very popular person. Funeral services are being conducted this morning under the direction of Mobettie and Miami Masonic lodges and several car loads of Missions went over. The remains will be laid to rest in the Mobettie cemetery.

TWO WEDDINGS SATURDAY

Mr. Frank E. Hobbs and Miss Willie Fulfer were married here Saturday by Rev. Ellis Wells. The bride is a daughter of Mr. and Mrs. W. I. Fulfer of the South Plains and a very highly respected young lady. Mr. Hobbs is from Washington, and the young married couple will leave soon for their home in that state. Mr. T. B. Ansard and Miss Dozie Graham, both of Pampa, but late of Miami came down Saturday and had county Clerk Craig issue marriage license and Justice Cantrell perform the ceremony, making them man and wife. This bride is a daughter of Mr. and Mrs. D. H. Graham of this place, and the groom was connected with a local restaurant during the summer. They returned to Pampa to make their home.

TIME ZONE HEARING NEXT WEEK

The hearing of The Panhandle Plains Chamber of Commerce before the Interstate Commerce Commission regarding the changing of time for the Panhandle of Texas has been set for Tuesday of next week at Amarillo, Texas.

Our entire City Council, Commissioners Court and our District Court sent in reports this week, seeking a return to our pre-war time, and this with personal representatives which we should have present will press our claims before the commission from every angle, and if every other county in the Panhandle does as well, we may feel sure of a favorable action on Panhandle time.

There seems to be a unanimous feeling among Panhandle people that they want Central time, and so long as it affects no one save those now living west of the time zone line, we see no reason why we should not be transferred back.

INFLUENZA CASES DIMINISHING

The number of influenza cases are gradually diminishing in Miami, and it looks as though we will soon get relief from the epidemic. Only a very few cases have been reported this week, and many who have been sick are getting out again. No serious cases are reported today.

WITH THE DISTRICT COURT

The Honorable District court convened Monday with what appeared to be a heavy docket, but with several cases withdrawn, some dismissed by agreement and some continued, we had a very few cases to try. Several divorce cases were tried and divorces granted, and another case set for next Wednesday.

The Grand Jury adjourned yesterday after three days work, we understand returning one indictment for felony, but without making any recommendations regarding the court house and jail, or public roads.

BAPTIST CHURCH

We will Sunday School at 10:00 o'clock Sunday morning. No morning preaching service. Service Sunday evening at 6:30. We are expecting Missionary M. L. Blankship with us at the evening service. A cordial invitation extended to all.

E. G. Pennington, Pastor.

RAILROAD CONTROVERSY

Washington, Feb. 11—Failing to reach an agreement with the representatives of the more than two million railroad employes on demands for increased wages, Director General Hines tonight submitted the whole case to President Wilson for decision. The appeal to the president was taken at the request of the union leaders after they had conferred with Mr. Hines two hours later today and after he had informed them there was no hope of an agreement. Mr. Hines sent to the white house the statements of the unions together with his own representations.

The president thus is called upon to determine whether the government will grant the increased wages or transfer the wage demands controversy to the corporations soon to regain control of their properties.

Submission of the claims and arguments to the president while temporarily ending the general negotiations, does not mean a final break, railroad administration officials explained. Neither members of Mr. Hines' staff nor the discussions were ended. Regardless of the president's decision, the differences could be ironed out after return of the railroads through machinery likely to be set up by pending legislation, it was explained.

ADRIAN MAN BUYS TWO HUNDRED STEERS AT FANCY FIGURE

W. D. Christie of Canadian, this week purchased two-year-old steers through Valley Land and Cattle Company. The steers averaged out around \$10 each, and were purchased by Christie at 11 1-2 cents, on a rather unusual thing this year, according to Mr. Ansley. The steers were in good shape, the sale is so unusual, coming at this time of the year that it is of more local interest as it evidences the fact that the winter has been mild that there has been plenty of feed for the plains, and good luck that early spring hits with its consequent early grass, which are very rosette for stock in the Panhandle," said Mr. Ansley yesterday afternoon.

CROSS TO HELP FIND SOLDIERS' HEIRS

American Red Cross has been cooperating with the Bureau of Risk Insurance in a national campaign for the purpose of locating beneficiaries of dead soldiers entitled to government insurance, it was announced. In the last two years 966,051 checks and allowance checks have been mailed, properly addressed and delivered, by the bureau, and have been undelivered. These undelivered checks aggregate \$29,000,000 and disposition of all these checks, with the exception of \$1,000,000, have been made, but because correct addresses given and movement of beneficiaries, the bureau has this number of unclaimed checks in its file. The plan of the bureau to address such names in the section of the beneficiaries were last from, with the hope of thus locating them.

A good second hand car, or a bran new one. See J. Barrett, Miami, Texas.

NOT AFRAID OF TUBERCULOSIS? EH!

Austin, Texas—Thoughtlessness is one of the great causes of the spread of tuberculosis, declares D. E. Breed, executive secretary of the Texas Public Health Association.

"This may seem to be a peculiar statement," said Mr. Breed; "but you often hear people say: 'Why should I help to prevent tuberculosis? I haven't the disease; and I won't get it. But these people do not know that they are liable at any moment to contract the 'white plague' if it is allowed to spread. Their thoughtlessness and heedlessness may allow tuberculosis to enter their homes and attack their wife and children. This disease is preventable and curable."

The census of 1910 showed that there were over 600,000 negroes in Texas in that year. The tuberculosis death rate among the colored race is estimated to be 450 for every 100,000 yearly. This would mean that there are over 3100 deaths from this disease among the negroes of Texas every year. The death rate among the Mexicans is very high on account of the bad living conditions under which many of them exist.

"It is the duty of every Texan to help drive the 'Great White Plague' from the state and the thoughtlessness which says: 'I haven't the disease so why should I help?' allows tuberculosis to spread," said Mr. Breed. "The dread disease which causes such ravages among the people of our state must be checked; the negroes must be helped as well as the whites."

The Texas Public Health Association which has been fighting tuberculosis for over eight years is sending a negro lecturer, F. R. Barnwell, among his race to lecture and teach the lesson of good health. He is teaching health habits as prevention for disease.

"IF"

The little word "if" has attained a position of dignified importance in the world's affairs. The news dispatches tell us daily, for instance, that the Senate in Washington will ratify the peace treaty, but connected with the statement there is always an "if."

"If" seems to be the difference between something and nothing.

The country might now be at peace with the world "if" only it had recognized the wisdom of electing a congress sympathetic with President Wilson's ideals.

A little while ago America was a nation with a bluff, and big things were accomplished. We have now become an "if" nation, and we constantly find ourselves in the position of being about to do something "if" a political advantage can be gained by doing it.—Hereford Brand.

ROUMANIA RECEIVES AMERICAN TRACTORS

According to a recent report from the American Trade Agent at Bucharest, Roumania, received by the Ford Motor Company's foreign department, New York City, a consignment of 200 Ford motor cars and 9 Fordson tractors was amongst the first since the end of the war, and may be considered as one of the most important, because of the part they will play in the reconstruction of battle-scarred, hungry Roumania.

Speaking of the arrival of the tractors, the report said: "The Fordson Autotractors, though completely unknown in Roumania, obtained a very large success at its first demonstration which were followed with the greatest interest by a large number of farmers, on account of its remarkable qualities and of the services it can do in this country where the work-animals have been destroyed by the enemy invasion during the war."

"More than three quarters of the stock arrived has already been sold and is employed all over the country to the delight of the Roumanian farmers who are seeing here a great future for the autotractor."

Reporting on the sale of the motor cars, the trade agent says: "The Ford Automobiles were sold immediately on their arrival and the Noel Company is waiting very anxiously a second consignment of 120 machines which have been ordered at the Ford Manufacturing Company and which, for the greatest part, are already reserved by their customers."

Shipments of agricultural machinery from the Oliver Chilled Pipe Works, American Seeding Machine Company and the Roderick Lean Manufacturing Company to be used in connection with the Fordson tractor have also been received in Bucharest.

SERBS SEE FIRST MOVIES

American Red Cross moving pictures are being used to teach Serbians how to combat tuberculosis, malaria, typhus and other diseases caused by lack of sanitation. Peasants come for miles to see the pictures, the first of any kind they have seen.

IT WOULD BE PLEASANT

The Star chronicles the doings of subscribers and non-subscribers alike but we would rather write the obituary of a non-subscriber than anything else. A man who will live in a town year after year without subscribing for the home newspaper is a dead one anyway—Homer (Neb.) Star.

RED ROCK CANYON

TITLES of the SLIP

CLOSED CATHEDRAL

IN THESE days of advanced travel it seems strange to record the discovery of a gorge crowded with natural wonders within a few hours' motor ride of a busy city, says London-Graphic. Yet such is the story of Red Rock canyon, in southern California, an enchanted spot, so rich in its unique beauty, and of such scientific import that the president of the United States is asked by some of the leading men and organizations of the Pacific coast to set it apart as a national monument. This romantic, rainbow-hued gorge contains a wealth of amazing structures reared and carved and even painted by the elements, and yet comparable only to the classics of ancient and modern architecture. Its fossil beds, practically untouched, give promise of paleontological treasure, and recent finds in its caves interest ethnologists.

The canyon is a gash in the southern end of the Sierra Nevada mountains. Its mouth opens upon the northwestern edge of the Mojave desert. It is 126 miles from Los Angeles. For nearly a century the prosaic pioneers who passed that remote way paid no heed to its vivid charm. It was the decision to extend the state highway from Los Angeles to Bishop that led to the discovery of the beauties of this gorge. Until the survivors returned and reported the existence of strange and wonderful rock formations no one knew of their presence. This is all the more remarkable when we remember the Americans' love of travel, and that these are the days of railroads and motorcars. Shortly now the canyon with its many wonders will be on the main trail of civilization, and tens of thousands of tourists and others will soon admire it with rapture and astonishment. The new roadway approaches to within 50 feet of the scenic marvels which the government is petitioned to protect and preserve.

Miracles of Form and Color.

That section of the canyon which contains the inspiring works embraces a little more than four square miles, is several miles removed from the desert, and lies at an altitude of 3,000 feet. On approach from either direction a turn brings the walled-in miracles of form and color suddenly into view—an entrancing picture: pillars and columns, plain and fluted and chased; pilasters and colonnades, tiny and titanic, tier upon tier, mile after mile, far skyward; arcades, balustrades, corridors; temples, castles, cathedrals, towers, domes, spirals, sphinxes, gargoyles—all perfectly molded and exquisitely adorned by the lord of creation.

Moreover, they are untouched and unmarred as yet by the blundering vandal hand of man; a buried city, an acropolis, and scores of other fancies become realities. On an eminence at the canyon's head stands the Temple of the Sun, an impressive gray pile, 125 feet high, approached through a series of terraced entranceways, with partially crumbled walls forming an elliptical inclosure approximately 150 feet in diameter—an ideal amphitheater. Those who look upon this temple find it difficult to believe that it is not human handiwork. Near by, dominating the mystic region, rises the massive Sentinel Tower. Imposing rather than beautiful. It is apparently harder and more substantial than its neighbor. Geologists say it has held its commanding bulk aloft for thousands of centuries. The walls are pinkish gray, and the ponderous flinty capstones a brilliant red. A mile diagonally opposite is the colossal pile known as the Acropolis. This is, perhaps, the crowning feature. More than 450 feet high and 1,000 feet long and solemnly aloof, it has been likened to the Athenian Acropolis because of a marked resemblance, and as well to the mammoth temple ruins of Baalbec in northern Syria. Seen from any angle it is mysterious, awe-compelling, certain to leave a lasting imprint on the mind of all observers.

The Closed Cathedral.

Still is another masterpiece in the Closed Cathedral, a study in magnificent coloring, so gorgeous and yet so softly harmonious that no wielder of the brush dares hope to equal it. It is of tremendous size, with an entrance 25 feet high and 15 feet wide, solidly blocked at a depth of 12 feet. Pure white, deep blue, yellow, red, green, and all the intervening shades figure in the decorative scheme, and in places give the suggestion of stained-glass windows. The whole aspect is of antiquity, enhanced by a crack or fault diagonally through the front—evidence of a slide before the processes of erosion began. The cathedral effect is so realistic that one involuntarily listens for bells to intone the hour or call to prayers.

The Buried City, where masses of burned clay broken up like common bricks have crashed down and crushed and covered some of the best examples of pagodas, is a somewhat melancholy sight, reminiscent of Pompeii. But there remain rare pagodas and dainty sculptures, and a gracefully curved parapet on the churchlike rock in the foreground. The Buried City occupies six or eight acres. At this point the wall is 500 feet in height. The slide came on the under side of the top stratum.

Rising nearly 200 feet above the level floor in a deep "pocket" of the canyon is a stately columnar entrance, lately christened the Royal Gateway. It leads into a sculptured foyer extending back 600 feet, and having the characteristics of a superb art gallery in which almost any sculptured figure sought may be found. In the center, a considerable distance from the opening, stands a group of five columns on a tall base, all white as marble. Four hundred feet up on the hard, corrugated gray slope where the mountains rise beyond is perched majestically a castellated lordly palace, the Citadel, which the imagination swiftly associates with some inaccessible old world height overlooking sapphire tides. It is a castle of dreams.

Pillars of Hercules.

The gigantic Pillars of Hercules, dwarfing those of the Temple of Bacchus, symbolize enduring strength and defy time. Light gray and red, with supporting half-lengths at regular intervals, each with its ornate abacus, they seemingly hold up the Sierra. The White Chapel is what the name implies. At each corner the walls are buttressed like the old California mission. It resembles in general form some of Mexico's ancient churches. Unlike them, however, it is daintily chased and decorated, with many niches containing appropriate statuettes.

Geologically Red Rock—so named because that color predominates—dates back to the later Tertiary period, when the canyon evidently was a swamp teeming with fauna. Today it is a fossil field virtually unexplored and likely to yield abundantly. Curiosity search has disclosed remains of camels, horses, elephants, mastodons and other mammals. At the base of the Temple of the Sun William Mulholland, chief engineer of the Los Angeles aqueduct, recently picked up the petrified heel-bone of the largest sabre-toothed tiger ever found. Caves abound, and in one of these was discovered a collection of Indian pottery worth thousands of dollars. It consisted of 47 pieces, placed in orderly fashion against the walls, and covered inches deep with dust. Some of the pieces were remarkably thin and almost glazed, pigments having been applied before burning. The Shoshones and Plutes were the Indian tribes that formerly ranged here, but this pottery now discovered is far superior to any of their known work.

Visit Graves of Hero Dead.

The British church army has organized a series of personally conducted visiting parties to soldiers' graves in France. The sight of widows, fathers and mothers, some bent with age, burdened with floral tributes to "the glorious dead" starting out from Charling Cross or Victoria stations on their sad pilgrimage is hardly less depressing than were the scenes attending the arrival of the hospital trains in war times. Through the Church army, relatives of men who died in France, but who may be unable to meet expenses incidental to such a trip, are provided free tickets.

Drowned Out.

"Is Chiggersville planning a civic center?"

"No," replied Squire Witherbee. "We haven't gotten that far along yet, but there was some talk of starting a community sing."

"Didn't the project go through?"

"No. The village basso, Sam Jobles, who runs a fish market down on Main street, sang so loud that everybody else got disgusted and quit, so we sorter let the matter drop."—Birmingham Age-Herald.

Wireless for Venezuela.

So great is the propagandist power of the modern press that the wonders of the wireless are commonly taken for granted by the veriest child. Yet the resolution of the Venezuelan government to install a wireless apparatus in the environs of Caracas, the capital city, was of such tremendous importance and news value, that it occupied a good part of the first page of the Universal on October 16, the account being printed in large type and "featuring."

YELLOWSTONE DEER DRIVEN TO HOUSES FOR FOOD

Severe weather and heavy snow are playing havoc with the deer and other animals of the Yellowstone park. The photograph shows a number of deer that were waiting outside a residence at Fort Yellowstone for food.

Make Progress in Philippine Islands

Woman Has Advanced in Professional and Industrial Life, Says One of Them.

IS HUSBAND'S REAL PARTNER

Shares With Him the Cares of Business, Especially in Its Financial Aspects—Many Take Up Legal Profession.

New York—Mme. Jaime De Veyra, wife of one of the representatives of the Philippine Islands to the United States, has recently been visiting women's clubs in New York city, telling what she has already told the women of Washington. They have fine systems of education, she says, good schools, and a high degree of economic usefulness. Mme. De Veyra wore, in giving her talks, one of the beautiful gowns of the Philippines, a delicate pineapple fabric, hand-woven and hand-embroidered, shaped like a gauzy-winged butterfly.

"Things are made very easy for the Filipino woman in many ways," she said. "The professional opportunities are as good for her as for the men. Women are already members of the Philippine Bar association—something which is impossible for the women of Great Britain—they are in business for themselves, and they are successful practicing physicians. Laws made for our women combine the best of Spanish and American precedents."

Made Easy for Women.

"Everything has been made much more simple for us than for either the American or Spanish women. Married women hold their property in severalty, and they are guardians of their own children. Of the property which accrues to a married couple, the wife is half administratrix, and these are vested rights which cannot be taken from her. It is not unusual for the mother of a family to have not only a household leadership, but economic control. M. De Veyra, who is interested in history, tells us that before the Spanish came we had a matriarchal system, and this has made the Philippine women self-respecting and valiant."

"Of our 3,141 islands, only 400 are inhabited, the principal ones being Luzon, Mindanao and Visayas; yet even in rural little Barrios you will find some sort of a woman leader. One old woman who has had seventeen children, thirteen having lived to grow up, and who has many grandchildren and great-grandchildren, still exercises full sway over the family, and has the last word to say in all financial affairs. The married children as well as others look up to her, not only as a mother, but as an adviser."

"Women, when they marry, go into partnerships with their husbands. While the men handle the workers, the women attend to the finances, act as cashiers, pay the workers, and over-

see much of the business. They have equality with men in everything except in voting, which the governor general has recommended in his messages to the legislature. When it was first recommended the women had not made much of an effort to gain the vote, but this year appeals came from the provinces and women's clubs and associations. In 1907 there were only thirty women's clubs, but now there are 307. A petition signed by 18,000 women was sent to the law-makers, who granted a joint legislative hearing on woman suffrage. Three Filipino women spoke. Two of them were practicing lawyers, and the one who was said to have made the best speech was Mme. Concepcion Calderon, widow of the man who wrote the constitution of Malolos.

Adept With Needle.

"Mme. Calderon is a successful business woman, owning a fish farm and an embroidery enterprise. This industrial problem has not reached the Filipino women to any great extent except through the cigar factories and in embroidery. There are, I believe, five big American embroidery firms in the Philippines, and one of them in Manila employs 7,000 women. Everything in the underwear business, except the weaving of cloth, is done by hand; the hemstitching and even the seams are sewed by hand."

"Women who have children and cannot go to the factories take the work home and are paid by the piece. I have heard of one of these workers, from a woman who has an embroidery business, who can make six chemises a day at 30 cents a chemise, every stitch by hand. She has saved a great deal

of money besides taking care of her children.

"All of the pineapple cloth is made by the women in their homes on hand-made looms, made by an ordinary carpenter. Comparatively little of it is made nowadays, for it is slow work, and the women cannot afford to do it. We are interested in the Philippines in progressive legislation, in public health measures and day nurseries, and the women have introduced a profit-sharing plan in the bid and other prisons. They have introduced police matrons and industrial teachers for the insane."

"The Woman's Club of Manila is a member of the Federation of Women's Clubs, U. S. A., and now the women are federating their own clubs."

Wrote Her 10,000 Letters.

London.—A record for courtship love letters was revealed in the South-west county court when Miss Maud Birch testified that her former lover, William George Cooke, a discharged soldier, had sent her 10,000 tender missives. Cooke sued to recover a diamond ring and brooch he had given Miss Birch before she jilted him.

France in Dire Need of Sugar

Famine Is Likely to Last for Three Years.

Shells Render the Ground Unfit for the Production of Beets.

Solssons, France.—The sugar shortage in France, due to the German invasion, will not be relieved for three years, according to government reports and commercial statistics furnished to the correspondent of the Associated Press by the authorities who arranged his trip of inspection through devastated regions to witness reconstruction work.

Of the country's 206 raw sugar plants, 145 virtually were razed during the war, the figures show, and most of the half-million acres of sugar-beet land were devastated by the ravages of battle.

None of the larger sugar plants has resumed business because of lack of buildings, and sugar beet production this year was said to be almost nil. Both of these conditions are due in a

Sand Digger Quits Work When He Finds Fortune

Pittsburgh, Pa.—Fortune just laughed right out loud in the face of a humble sand digger here recently.

Thirteen hundred and fifty dollars, thoroughly wet from its long immersion on the bottom of the Ohio river, but still good, spendable money, was scooped up in his bucket. As no owner's name appeared in the wallet, the finder claimed the coin by right of discovery and immediately quit his job by right of affluence.

Edward A. Kristman, who has many prizes with his dahlias, plants more than 4,000 tubers each next spring.

Flower lovers who motor through Allentown will find the tulip beds sight worth seeing and in the autumn the dahlias beds of Mr. Kristman make a wonderful show.

The efforts of George Roth, publisher of the Leader, to make his show place are appreciated by citizens, as shown by their cooperation.

PECAN TREES ALONG ROAD

Georgia Landowners' Association Agrees to Furnish Them, if Proper Care Is Guaranteed.

The attention of the department of agriculture officials has been attracted by the offer of the Georgia Landowners' association to furnish pecan trees for planting on both sides of one mile of permanent hard surface road in the first county in the state that agree to take care of the trees. This somewhat in line with the reforestation and good roads movements of the southern states recently started.

"It is hoped," says F. H. Abbot, manager of the Georgia association, "a communication received here, that this suggestion will result in bordering every mile of permanent highway in Georgia with trees that will be as useful as well as ornamental. I believe that the example of the first county will quickly be followed by other counties, and see no reason why a similar plan should not be adopted in other states. The trees for bordering Georgia roads will be furnished by the association by J. H. Wright of Cairo, Ga., one of the largest pecan growers in the South and a member of the board of control of the organization."

When Pruning Trees.

Shade trees may be pruned any time before the fall of the leaves and early spring before growth begins. Boxelder and maple trees are apt to "bleed" if pruned after the last of February.

Do not leave long stubs but cut close above a side branch when pruning large limbs. Try to avoid leaving right forks or crotches which are apt to split apart and injure or ruin the tree later. Long, slender branches should be shortened, if retained, so as to encourage greater stiffness and resistance to wind and the weight of snow. Of course, the natural characteristics of the tree should be taken into account in pruning and no attempt be made to greatly alter the natural form of the tree. Evergreens are seldom pruned but appear best when permitted to retain their lower branches close to the ground.—B. O. Long, year, Colorado Agricultural College, Fort Collins, Colo.

Resolve to Set Out a Tree.

A tree, if properly tended and protected, will live for many years and will even outlast some man-made monuments. What can be more inspiring than the thought that a century hence that tree planted yesterday will be noted by the American people visiting this city, bearing its appropriate label? If in every city in this country such a tree were planted now, generations to come, numbering millions upon millions, would note, observe and appreciate the sentiment. And meanwhile the tree itself will be a thing of beauty and afford shade and comfort. Let there be more tree planting in the name of America's heroes!

Beautyify the Playgrounds.

Money spent in ornamental planting of trees and shrubs about the country school is money well spent. The results of the early training of boys and girls receive in practical and ornamental value of planting of shrubs and trees will be shown in the homes of the children. Later on more of the homes of those who remain in the community will be benefited in being more beautiful places in which to live and the value of the real estate will be materially increased.

Expect Many U. S. Students

French Universities Look for Influx of Americans.

University Union Preparing to Receive and Advise Seekers After Knowledge.

Paris.—Next year is likely to see a great influx of American students to French universities. In the opinion of H. S. Krans, secretary of the American university union in France.

Mr. Krans' new Paris headquarters, facing the Luxembourg gardens, are being fitted up to receive and advise seekers after knowledge from overseas.

Founded shortly after America's entrance in the war, by fifteen of the leading American universities and colleges, the union now has thirty-three American-learned institutions on its membership list, including Harvard,

Yale, Columbia, Johns Hopkins, Princeton and other leading universities and colleges throughout the United States.

"Paris is destined to become the brain of the world," said Mr. Krans to a correspondent of the Associated Press. "German universities will be largely avoided by Americans. Dogged determination was shown by one young New York student who arrived here with the problem how to board and live on 6 francs a day.

"Through the medium of the union, a French landlady gave him a small room for 2 francs a day. The young man cooks his own meals, and is 'passing rich' on 4 francs a day."

French teachers and students are constant and eager inquirers at the union's Paris home. Many of them are anxious to take a course of studies in the United States.

Fourteen French students already are studying in American universities

HOME TOWN HELPS

MAKES FOR BEAUTIFUL CITY

That Citizens Take Interest in Home Culture Is Always an Asset to the Community.

When the publisher of a newspaper in any town is interested in beautifying the people are encouraged to make their homes attractive, and result is a beautiful city, remarks New York Times. A newspaper that kind is a valuable asset to a community.

In the Allentown (Pa.) Leader, a report is given of the bulb planting the city parks, where next spring there will be eleven tulip beds, which have just been planted with thousands of bulbs.

Charles Ziegenfuss, a leading business man, has planted more than 6,000 tulip bulbs. Last spring his show tulips was worth going miles to see and next year the beds will be more gorgeous than ever. Mr. Ziegenfuss planted this season the rarest and most beautiful varieties obtainable.

R. J. Butz, president of the National bank, has made extensive bulb plantings. So also has Col. Young and Mr. Koch.

Edward A. Kristman, who has many prizes with his dahlias, plants more than 4,000 tubers each next spring.

Flower lovers who motor through Allentown will find the tulip beds sight worth seeing and in the autumn the dahlias beds of Mr. Kristman make a wonderful show.

The efforts of George Roth, publisher of the Leader, to make his show place are appreciated by citizens, as shown by their cooperation.

PECAN TREES ALONG ROAD

Georgia Landowners' Association Agrees to Furnish Them, if Proper Care Is Guaranteed.

The attention of the department of agriculture officials has been attracted by the offer of the Georgia Landowners' association to furnish pecan trees for planting on both sides of one mile of permanent hard surface road in the first county in the state that agree to take care of the trees. When Pruning Trees.

Shade trees may be pruned any time before the fall of the leaves and early spring before growth begins. Boxelder and maple trees are apt to "bleed" if pruned after the last of February.

Do not leave long stubs but cut close above a side branch when pruning large limbs. Try to avoid leaving right forks or crotches which are apt to split apart and injure or ruin the tree later. Long, slender branches should be shortened, if retained, so as to encourage greater stiffness and resistance to wind and the weight of snow. Of course, the natural characteristics of the tree should be taken into account in pruning and no attempt be made to greatly alter the natural form of the tree. Evergreens are seldom pruned but appear best when permitted to retain their lower branches close to the ground.—B. O. Long, year, Colorado Agricultural College, Fort Collins, Colo.

Resolve to Set Out a Tree.

A tree, if properly tended and protected, will live for many years and will even outlast some man-made monuments. What can be more inspiring than the thought that a century hence that tree planted yesterday will be noted by the American people visiting this city, bearing its appropriate label? If in every city in this country such a tree were planted now, generations to come, numbering millions upon millions, would note, observe and appreciate the sentiment. And meanwhile the tree itself will be a thing of beauty and afford shade and comfort. Let there be more tree planting in the name of America's heroes!

Beautyify the Playgrounds.

Money spent in ornamental planting of trees and shrubs about the country school is money well spent. The results of the early training of boys and girls receive in practical and ornamental value of planting of shrubs and trees will be shown in the homes of the children. Later on more of the homes of those who remain in the community will be benefited in being more beautiful places in which to live and the value of the real estate will be materially increased.

PRECKLES

POSITIVELY REMOVED BY Dr. Herr's Prescription. Prepared by Dr. H. C. Herr, D. O., 2975 Michigan Avenue, Chicago.

What Is Rheumatism? Why Suffer from It?

Sufferers Should Realize That It Is a Blood Infection.

Doubtless like other sufferers, you have often asked yourself this question, which continues to remain unanswered.

Science has proven that Rheumatism is caused by a germ in your blood, and the only way to reach it is by a remedy which eliminates and removes these little pain demons.

MADE QUICK CHANGE OF MIND

School Principal Revised Her Opinion as to the Necessity for Immediate Action.

For several days the little field mice had been coming from the fields into a small-town school building. The young teachers were frightened and sent to the store for a quantity of poison. They were mixing it with bread crumbs when the principal arrived. On her question as to when they were going to put out the paste they answered, "Immediately."

"But you can't do that," she protested. "It would be in the way. Wait until tonight. One more day with mice around you won't make any difference in the long run."

The teachers were uneasily silent. And then came a frightened little squeak and a mouse ran right across the room, close to the principal's feet. She gave a decided shiver, an imitation of a dance of modern mention and then turned to the janitor, who was standing near "John," she said, severely, "we'll put out that rat poison right away. Do you hear?"

ART WORKS ON LARGE SCALE

Interesting Figures Concerning Decorations for Lincoln Memorial Building at Washington.

Simply to stretch the canvas, says Jesse Lynch Williams, describing in Scribner's Magazine how Jules Guerin painted the decorations for the Lincoln Memorial building in Washington, required eight men, which is less surprising when one realizes that each figure in the groups Mr. Guerin was about to paint is a good deal larger than the painter himself. One agrees with the writer, that although such details are not necessary to art appreciation, it is interesting to know that the two unpainted canvases cost \$400 apiece, and that when the artist finished his work the paint he had used added 150 pounds to their weight. And because the paintings will be somewhat exposed to weather, the paint was mixed with wax. In a way which chemical analysis shows was done to weatherproof painting when the ancient kings of Egypt were erecting memorial buildings.

Named—All Right.

The new baby had come and every one was hunting for a name for her. The two preceding ones had been named after their grandparents and saw the mother and father were hesitating over which aunt to honor by naming this baby her namesake. Then the old colored woman, whose name was Hannah and who had long been a member of the family came in. "You just have them and turn 'em right over to me to raise, Mrs. G." she said excitedly, "and after all my work it does seem that this here one ought to be named after me."

Hates Himself.

"Ehson says he despises a liar." "Lacks self-esteem, does he?"—Boston Transcript.

The most popular men of letters are the postmen.

A charming woman is never aware of her charms.

Too Much Publicity.

"I like the old-fashioned courtship best."

"How was that?"

"Well, the young man and his best girl sat on a horsehair sofa in a dimly lighted parlor and held hands, or paddled up and down a river in a canoe, or strolled through the wildwood, or took a spin behind old Dobbin."

"And now?"

"There's too much publicity in the motor courtship. Every dealer in gasoline and auto supplies within a radius of fifty miles knows what's going on."

BULLY!

If Bilious, Constipated or Headachy, take "Cascarets"

Feel grand! Clean up inside! Your system is filled with liver and bowel poison which keeps your skin sallow, your stomach upset, your head foggy and aching. Your meals are turning into poison and you can not feel right. Don't stay bilious or constipated. Feel splendidly always by taking Cascarets occasionally. They act without gripping or inconvenience. They never sicken you like Calomel, Salts, Oil or nasty, harsh Pills. They cost so little too—Cascarets work while you sleep. Adv.

Pulling down the front and back of a new house cap for women converts it into a sunbonnet.

We never think of looking for microbes in the milk of human kindness.

What Is Rheumatism? Why Suffer from It? S. S. S. has been successfully used for Rheumatism for more than fifty years and many voluntary testimonials are on file from those whom it has benefited. Try it to-day, and you will find yourself at last on the right track to get rid of your Rheumatism. For treatment of your individual case, address Chief Medical Adviser, Swift Specific Co., Dept. 43, Atlanta, Ga.

GOOD THINGS FOR THE FAMILY TABLE.

Faith is the rite power of Hope. If it want for Faith, there would be no living in this world. We couldn't even eat hash with any safety, if it want for Faith.

Faith is one of them warriors who don't know when she is whipped.

—Josh Billings.

The following may not be new, but are all at least worth trying once:

Raisin Drop Biscuit.—Sift together three cupfuls of flour, six level teaspoonfuls of baking powder and one teaspoonful of salt. Rub into the flour one half cupful of sweet fat and add one and one-half cupfuls of milk lowly. The dough must be soft, so it will drop from the spoon; add one cupful of raisins, and drop on a but-red sheet. Bake twelve to fifteen minutes.

Grandmother's Cookies.—Cream one-half cupful of any good fat, add one cupful of sugar, one-half cupful of sour milk, one teaspoonful of soda and four cupfuls of flour. Sift the flour with a half-teaspoonful of salt, add the soda dissolved in the milk, and mix all the ingredients together. Roll out on a floured bread board, sprinkle with granulated sugar and bake twelve minutes in a hot oven.

Cocoa Nut Bars.—Cream half a cupful of butter substitute and two cupfuls of sugar together; add one-half cupful of milk slowly, then two well-beaten eggs. Add one-half teaspoonful of soda dissolved in one table-spoonful of water, then sift in one cupful of cocoa. Sift together with three cupfuls of flour, a half teaspoonful each of cream of tartar and salt. Mix, and roll one-fourth inch in thickness, and cut in strips four inches long and one inch wide. Brush the top with well-beaten egg, sprinkle with chopped nuts, and bake in a hot oven twelve minutes.

Beef Stew for Luncheon.—Peel and cook six onions, covering them with boiling water, and let them cook until nearly tender, then add a can of tomato soup, a can of peas, a teaspoonful of salt, two tablespoonfuls of chili sauce and one pint of sliced stewed beef. Parboil a pint of potatoes, drain, add to the onions and soup, and let cook ten minutes; add the sliced beef, peas, and let simmer until the potatoes are done. Then add the seasonings, and serve very hot.

FOOD SUGGESTIONS.

I'm just a little ditty and not the least bit witty; but, listen, I've a secret up my sleeve.

If you're forever sighing And all the world deceiving, Your friends will all excuse themselves and leave.

Raisin Pie.—Mix two cupfuls of steamed, seeded and chopped raisins, the juice and rind and chopped pulp of one lemon, one cupful of cold water, one-third of a cupful of sugar and one beaten egg. Fill the crust, dust with flour, dot with bits of butter, cover with lattice crust and bake.

Chicken a la King.—Melt two table-spoonfuls of butter. In it cook one-fourth pound of fresh mushroom caps, peeled and broken in pieces, and half a green pepper, cut in shreds; stir and cook until some of the moisture is evaporated. In another saucepan melt two table-spoonfuls of butter; in it cook three table-spoonfuls of flour, half a teaspoonful of salt and one-fourth teaspoonful of paprika; add one cupful of thin cream and one cupful of chicken broth and stir until boiling; beat in one egg yolk, beaten and mixed with a teaspoonful of lemon juice, and continue beating until the egg is cooked. Do not allow the mixture to boil; add the mushrooms and pepper and three cupfuls of chicken, breast preferably, cut in inch square pieces. This dish may be prepared from cold chicken but it is best hot, freshly cooked.

Breaded Tomatoes.—Take one can of tomatoes, one cupful of boiling water, one table-spoonful of salt, a teaspoonful of sugar and a dash of peppermint with a pinch of soda. Bring to the boiling point and put through a sieve. Reheat and add crumbed or-rut until thick. A more attractive way of serving this same dish is to heat slices of bread until hot, butter generously and cover with seasoned tomatoes.

Corn Flake Griddle Cakes.—Sift together one cupful of pastry flour, one-half table-spoonful of soda, two table-spoonfuls of baking powder and half a table-spoonful of salt; add one cupful of corn flakes. Beat one egg very light, add a cupful of thick sour milk, half a cupful of sweet milk, and two table-spoonfuls of shortening. Mix and bake on a hot well greased griddle.

Chowder of Parsnips.—Take one quart of well scraped parsnips sliced, one quart of quartered potatoes and four onions quartered. Cover with water, add salt and pepper and a four-inch cube of salt pork cut in bits; boil ten minutes, then simmer without stirring until well done.

Why That Backache?

Why be miserable with a bad back? You can't be happy if every day brings lameness, sharp, shooting pains and a dull, nagging ache. Likely the cause is weak kidneys. You may have headaches and dizzy spells, too, with a general tired feeling. Don't delay! Try Doan's Kidney Pills. They have done wonders in thousands of such cases. Ask your neighbor!

A Kansas Case

W. J. Beckman, Prop. Grocery store, 2015 Corning St., Parsons, Kan., says: "There was a dull, steady pain in my back and when I stooped a sharp, twinging pain would shoot all through my back and shoulders. I was also troubled with dizziness and headaches. My kidneys seemed inflamed and the frequent and painful passages. I used Doan's Kidney Pills and they relieved my back and straightened up my kidneys in good order."

DADDY'S EVENING FAIRY TALE

BY MARY GRAHAM BONNER

TWO COWS CHAT.

"Why are you always scrapping?" asked the cows of the sparrows who were sitting on the ledge of the open window in the barn.

"Oh, well," said one of the sparrows, "it is the way we get things. We see the crumbs being put out for the birds and we hurry and scarp and get quite a few ahead of the others."

"And sometimes you're so busy scrapping you don't get as much as you would if you kept quiet," said one of the cows.

"That may be so," said one of the sparrows, "but we couldn't be like the old, slow, lazy cows for anything. It's not our nature. And you're even tire-some to talk to as you sit there, so big and so awkward, chewing, chewing, chewing all the time."

"Yes, we'd better be off," said another sparrow. And soon they flew away to scarp and fight and argue about the crumbs they found.

"I suppose," said Miss Bossy, "that we are considered lazy but I don't see why we shouldn't be."

"There isn't any reason why we should be anything else," said Mrs. Cow. "We've made people understand our ways and it would be foolish to change."

"Besides, it wouldn't be good for them. It would upset them. They might be so frightened they wouldn't know what to do."

"Just suppose, for example, we did change our ways. Suppose we decided to leap and bound and jump and fly what would our farmer and his family say?"

"They'd run to the house, probably, and cover up their heads with blankets. Oh, they'd be most horribly frightened."

"It would be a great, great mistake to do such a thing as to upset the people."

"They're used to seeing cows lazy. They're used to seeing us wade in the brooks in the summer and wander off for slow, idle walks, eating as we go."

"They're used to seeing us as we lie down and as we slowly get up. They're used to seeing us chew and they're used to hearing us moo."

"They know that we don't get all alarmed and excited when we hear motor horns in the summer. They know we don't like to be hurried."

"They know that we don't get all a-flutter like roosters and hens do when they hear motor horns."

"No one has ever seen a cow really a-flutter. It would be quite upsetting to see one that way."

"No, for the sake of everyone, including ourselves, we shouldn't change our ways."

"We shouldn't," said Miss Bossy. "It would be very upsetting to people, as you say, and it would be most upsetting to us, too."

"Imagine what would happen if cows didn't do their usual ways. It would be horrible to see them jumping about and dancing and skipping and behaving unlike cows."

"We have been sensible. We have people trained and used to seeing lazy, slow-moving, ever-chewing, good old cow, and now that they all know what cows are like and what the ways of cows are we won't upset them; no, we won't."

"Moo, moo," said Mrs. Cow. "It is now milking time."

"And we just let them milk us," said Miss Bossy. "We don't even work hard then."

"Ah, a cow's life is a lazy life and a slow-moving life but it's a fine life if one happens to be a cow."

"It most certainly is," said Miss Bossy. "And we give people a great deal in return for our board and lodging and care; we give them delicious milk which makes them fat and strong and well and beautiful."

"You're right," said Mrs. Cow. "What you say is quite, quite true."

"Moo, moo," said Miss Bossy. "I'm only a lazy cow but I speak the truth. I do, Moo, moo!"

"Moo, moo," said Mrs. Cow; "you do, you do. And moo, moo, I do, too!"

"Hurry."

"Why are you always scrapping?" asked the cows of the sparrows who were sitting on the ledge of the open window in the barn.

"Oh, well," said one of the sparrows, "it is the way we get things. We see the crumbs being put out for the birds and we hurry and scarp and get quite a few ahead of the others."

DOAN'S KIDNEY PILLS

FOSTER-MILBURN CO., BUFFALO, N. Y.

Adding to Our Wealth.

Every day should add something to our wealth. Our employer may not see fit to raise our salary, but we are not dependent on him, altogether. If we have stowed away in our memory an inspiring thought from a good book, or made an advance in friendship with one who is worthy, if we have battled with some fault and won the victory, we have added to those riches which are least likely to take wing.—Girls' Companion.

Why That Backache?

Why be miserable with a bad back? You can't be happy if every day brings lameness, sharp, shooting pains and a dull, nagging ache. Likely the cause is weak kidneys. You may have headaches and dizzy spells, too, with a general tired feeling. Don't delay! Try Doan's Kidney Pills. They have done wonders in thousands of such cases. Ask your neighbor!

WRIGLEY'S

The largest electric sign in the world advertises

WRIGLEY'S

on Times Square, New York City: it is 250 feet long, 70 feet high. Made up of 17,286 electric lamps.

The fountains play, the trade mark changes, reading alternately **WRIGLEY'S SPEARMINT, DOUBLEMINT, and JUICY FRUIT**, and the Sparmen "do a turn."

This sign is seen nightly by about 500,000 people from all over the world.

HUNT'S LIGHTNING OIL

INDIGESTION

Caused by

Acid-Stomach

Millions of people—in fact about 9 out of 10—suffer more or less from indigestion, acute or chronic. Nearly every case is caused by **Acid-Stomach**.

There are other stomach disorders which also are sure signs of **Acid-Stomach**—belching, heartburn, bloating after eating, food repulsing, sour, gassy stomach. There are many ailments which while they do not cause much distress in the stomach itself, are, nevertheless, traceable to an acid stomach. Among these are: nervousness, biliousness, cirrhosis of the liver, rheumatism, impoverished blood, weakness, insomnia, melancholia and a long train of physical and mental miseries that keep the victims in miserable health year after year.

The right thing to do is to attack these ailments at their source—get rid of the acid-stomach. A wonderful modern remedy called **EATONIC** now makes it easy to do this. One of hundreds of thousands of grateful users of **EATONIC** writes: "I have been troubled with intestinal indigestion for about nine years and have spent quite a sum for medicine, but without relief. After using **EATONIC** for a few days the gas and pain in my bowels disappeared. **EATONIC** is just the remedy I needed."

We have thousands of letters telling of these marvelous benefits. Try **EATONIC** and you, too, will be just as enthusiastic in its praise.

Your druggist has **EATONIC**. Get a big 50¢ box from him today. He will refund your money if you are not satisfied.

Supreme court says that Texas automobile drivers will not have to put dimmers on their headlights and have knocked out this portion of the Highway commission law.

Ripe olives put up in tin cans with the assistance of wood alcohol, hair tonic and Jenson extract is cutting quite a hole in the population of the United States.

The Randall County News is another of the Panhandle newspapers to raise subscription rates to \$2.00 per year. News print is becoming so high that \$2.00 per year for subscription now is not as much as 50 cents was four years ago. Not alone is paper high, but you can hardly secure it. We recently sent in a small order for paper to one of the largest paper houses in the United States and they were able to fill only about one fourth of the order.

Hardly a day passes without Miami feeling the need of a live commercial organization. There are hundreds of things coming up every year which would benefit our town if properly carried out, but are dropped and forgotten for the one reason that we have no Commercial organization. If we want roads, city improvements, new business enterprises or small factories, we can get them through commercial organization only. No one individual can or would undertake bringing worthwhile enterprises to us through special invitations from the people, or offer of cash bonuses, and other things necessary. Through

the efforts of a few, and really a very few, our county received a reasonable supply of freight cars; and of coal during the coal shortage, and it appears now that through these very few also we will get our time zone changed back in the near future. These few things mentioned are really worthwhile, but in no way represent what a commercial organization could accomplish. Our few men who have been spending individual finance in making trips and attending public meetings are going to tire of it and quit, then we won't get anything, unless of course some other few are willing to take the burden. But even if the few men in question continue doing all in their power, and spending every cent they can spare for something for our town and people, they will never be able to accomplish what a commercial organization could. It takes cooperation to get results, and Miami is lack of co-operation. Some will help, some will not, because some others will, and so there you go. It is time we were laying our personal feelings aside and began to organize into one big body of willing workers and help our little city out of a rut. We need stimulating. We need new plans and new efforts to bring people to our town to trade with us, to live with us and to be neighbors with us. No one merchant or professional man can do this, but the one merchant with the assistance of his customer and all the rest of our business men can accomplish things that will be worthwhile. Isn't it time we were having a big business rally and instilling a little enthusiasm within our other of the Panhandle newspapers to raise subscription rates to \$2.00 per year. News print is becoming so high that \$2.00 per year for subscription now is not as much as 50 cents was four years ago. Not alone is paper high, but you can hardly secure it. We recently sent in a small order for paper to one of the largest paper houses in the United States and they were able to fill only about one fourth of the order.

YOUR COLD IS EASED AFTER THE FIRST DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

Don't stay stuffed-up! Quit blowing and snuffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts with our assistance, tastes nice, contains no quinine—insist upon Pape's—Adv.

Conflicting Accounts.
Little Helen—Mamma, the minister told me today that God gave me to you.

Mother—Well, he did, my dear.
Helen—Then somebody isn't telling the truth. I heard auntie telling Mrs. Brown that the court gave me to you.—Boston Transcript.

GREEN'S AUGUST FLOWER.

Constipation invites other troubles which come speedily unless quickly checked and overcome by Green's August Flower which is a gentle laxative, regulates digestion both in stomach and intestines, cleans and sweetens the stomach and alimentary canal, stimulates the liver to secrete the bile and impurities from the blood. It is a sovereign remedy used in many thousands of households all over the civilized world for more than half a century by those who have suffered with indigestion, nervous dyspepsia, sluggish liver, coming up of food, palpitation, constipation and other intestinal troubles. Sold by druggists and dealers everywhere. Try a bottle, take no substitute.—Adv.

Its Appearance.
"I have found a part of your mission in medical work."
"What part is it?"
"It looks like the vermiform appendix."

Affection is something a girl dishes out to her male friends just before Christmas.

For Mothers and all Married Women

Omaha, Neb.—"Dr. Pierce's Favorite Prescription was a splendid tonic and relieved me of all nauseating conditions during expectancy. My baby was strong and hardy in every way. I surely am glad to recommend Dr. Pierce's Favorite Prescription to the expectant mother because I know by actual experience that it is good."—MRS. JOBE COOPER, 3310 Cass St.

For Women Who are Nervous, Weak, or Run-down

Omaha, Neb.—"As a special tonic I have taken Dr. Pierce's Favorite Prescription and found it to give almost immediate relief in cases of nervousness or a weakened or run-down condition. I have taken this medicine since my earliest girlhood whenever my system seemed to require a tonic, and it has never failed me. I am very glad to recommend the Favorite Prescription to women and young girls who need such a tonic."—MRS. MARY LA LONDE, 5361 N 34th St.

Every woman who has reason to believe that backache, headache, unnatural pains, low spirits, sleepless nights, irregularities of a catarrhal condition is caused by derangement of the womanly functions, owes it to herself and dear ones to speedily overcome the trouble before a general breakdown causes permanent prostration.
Dr. Pierce's Favorite Prescription is a non-alcoholic remedy that any ailing woman can safely take because it is prepared from roots and herbs containing tonic properties of the most pronounced character. It is not a secret remedy because its ingredients are printed on wrapper.
Get Dr. Pierce's Favorite Prescription to-day, either in liquid or tablet form of Dr. Pierce's Laxative Hotel, Buffalo, N. Y., 10c for large trial package.

GOOD ROADS

ROADS SHOW AT HOT SPRINGS

Active Preparations and Arrangement of Programs Have Commenced—Other Meetings.

The eighth annual convention of the United States Good Roads association, also the eighth annual good roads show, will be held in Hot Springs, Ark., April 12 to 17, 1920. Already active preparations and arrangement of the programs have commenced. J. A. Rountree, director general of the United States Good Roads association, has been invited to Hot Springs, Ark., for the purpose of consulting with the Business Men's league, the mayor, the various civic organizations and citizens in general, to discuss the program and details of arranging good roads week in Hot Springs, Ark., next April.

It is proposed to make good roads week the greatest gathering of good roads boosters that have ever assembled in this country. Delegates will be in attendance from every state in the Union. Already more than forty governors have accepted life membership in the organization and are vice presidents of the same.

In connection with the organization the annual meeting of the Bankhead Highway, which is promoting a national highway from Washington to San Diego, Cal., the Albert Pike National Highway, which is promoting a highway from Pikes Peak to Kansas City, and a number of good roads organizations will hold meetings during good roads week in April.

One of the features of the convention will be a display of road machinery, road material, trucks, tractors and automobiles. Already six governors have notified Director General Rountree of their acceptance, and will head a large delegation from their respective states. It is expected to have at least twenty governors in attendance at this convention. Senator John H. Bankhead, who is president of the United States Good Roads association and author of the Bankhead federal aid bill of \$85,000,000 annually for the building of good roads throughout the country, is quite enthusiastic about this meeting and gives assurance that the governors will send heads of the various departments to the meeting.

PROVE VALUE OF GOOD ROADS

Cotton Growers Quick to Realize Commercial Worth of Improved Highways in Hauling.

Southern cotton growers have been quick to realize the commercial value of good roads. Money invested in scientific road building is well spent, as witness the illustration, where a single team is hauling 12 bales, about 6,000 pounds, to market. Under former

The Way the Southern Grower Hauls Cotton in These Days of Good Roads—In the Good Old Days One Bale Was the Limit.

conditions, with mud hub deep the year around, the same team could haul but one bale, and that only half as fast.—Popular Mechanics Magazine.

PROGRESS IN FEDERAL ROADS

Total Mileage of Projects Approved in August Shows Increase Over Month of July.

(Prepared by the United States Department of Agriculture.)

An increase for August compared with July in the total mileage of federal aid project statements approved by the secretary of agriculture is shown in the latest report prepared by the bureau of public roads, the total for August being 1,246.92 miles as against 1,168.96 miles for July. The 125 project statements approved in August involved improvement at an estimated total cost of \$18,238,308.19, on which federal aid in the amount of \$7,171,794.84 was requested. The 149 project statements approved in July involved improvement of highways at a total estimated cost of \$19,012,480.85, on which federal aid to the amount of \$8,461,571.58 was requested.

Trouble.
Hub (arriving home)—Your eyes look red. What's the matter?
Wife—Oh, nothing.
Hub—Yes there is. What is it—something that happened at home or something you saw at the movies?—Boston Transcript.

Its Charm Has Gone.
Painter—Are there any interesting spots about here?
Rustic—The Cross Road Inn used to be; but now they sell only soft stuff.—Judge.

SIMPLE AFTERNOON DRESSES OF BEAUTY

We are told that all the foremost designers, both in France and America, are advocating, with one accord, simplicity in the construction of clothes. Let us be duly and truly thankful, because the inevitable result will be better looking and more artistic garments. There is something so satisfying about a simple dress, with no freakish points in its make-up, and every little ingenious touch in its construction becomes important and gratifying.

The two pretty afternoon frocks shown in the picture above are examples of simplicity that is ingenious as well. Satin, which proves the most reliable of all fabrics for dresses of this kind, reveals a plain, straight skirt having a tunic over it irregular in length and finished at the edges with a covered cord of satin. The bloused bodice fastens on the shoulder and along one side, over an underbody, with satin covered buttons. Satin makes the wide, crushed giraffe with

long, pointed ends and the deep, flaring cuffs that are faced with georgette crepe in a light color.

Satin and georgette are associated in the dress at the right, the under skirt being of satin and the bodice and tunic of georgette. But the tunic is bordered with a satin band and a row of small satin-covered buttons appear at each side of this border. The shaped sleeves are long and extend over the hand a bit. The plaited frill that finishes the neck is of georgette crepe also, but the plain giraffe is made of the satin.

The vogue for simplicity is particularly favorable to afternoon frocks of velvet or velveteen. These are usually one-piece frocks without tunics, but the skirts are draped. There is a liking for three-quarter length sleeves in velvet frocks and for brilliant vestees and handsome lace collars and cuffs. Nothing makes quite so good a background for good laces as the black ground of the campaign, and once

SPORTS TOGS

"Sports Togs" is a short caption for a long story since there are sports togs of many kinds. The most fascinating and interesting of these are the clothes that have borrowed the character of those garments made for real sports wear but not intended for service, just "for looks." The sweater coats and various scarfs made of silk or wool in many fanciful and fragile ways, the delicate colored headwear and the very handsome skirts of sports silks are all examples of sports clothes made to be admired for their beauty, not for the usefulness to the sportsman. They serve a very useful purpose, however. No matter how elegant and rich their materials these clothes are informal and very smart in character. They are a part of the play—the sports clothes of onlookers—in which they are well enough dressed and not too much dressed for whatever the day may bring.

After the brilliant skirts of heavy, rough silk weaves the most interesting members of the sports family are the scarfs and sweaters that are refined and glorified modifications of their forerunners, the warm woolen scarf and sweater. The new scarfs are in

light and brilliant colors, in angora wool and in silk and they are variously made. One pretty new scarf in bright green is crocheted of silk with a fringe at the ends.

Other scarfs in light-colored plaids, of angora wool, have a diagonal seam at the center, which allows them to set snugly to the figure when worn over the shoulders. They are finished with fringe in the colors of the scarf. The short knitted sweater-coats of silk or silk fiber usually open at the front and have a sash knitted of the same silk, but there are some very pretty slipover styles with square neck opening at the front from which fall narrow plaitings of fine white lace.

The strong yarn golf socks shown in the picture are meant for real service and are the possessor of a hand knitted pair. The pair at the left is knitted in diamond-shaped blocks of contrasting color with cross-bars of black while the other pair is in solid color with bars and dots contrasting.

Julia Bottomley

FARM STOCK

SCRUBS BEING CLEANED OUT

West Virginia Stockmen Making Vigorous Effort to Drive Out All Scrub Bulls.

(Prepared by the United States Department of Agriculture.)

West Virginia—largely regarded as a mineral-producing state—is on the war-path to increase beef cattle production and its output of dairy products by eradicating scrub bulls, which are primary offenders against profitable and progressive live stock husbandry. Within a few months parts of West Virginia where the campaign is most active expect to round out a clean-up which will eliminate the scrub bulls and leave the purebreds as monarchs of all they survey. The case of Roane county, W. Va., is an example of what West Virginia stockmen accomplish when they go over the top. The live stock specialists of the State agricultural college, the county agent and officers of the Roane county farm bureau have solidly backed up the scrub sire clean-up.

"Not a single man turned us down," remarked the live stock specialist in telling how the campaign to oust the scrubs was conducted.

"The first of the year our local stockmen made a declaration of independence against scrub bulls, and work was begun promptly in taking a thorough bull census. This investigation of sire ancestry showed that there were 200 bulls in the county, of which 102 were misfit grades and scrubs, while 98 were registered pure-breds. There were 57 registered Herefords, 28 registered Angus, and 13 registered Short-horns. Fortunately, the army of 102 grades and scrubs was not so formidable as it looked on the paper, because 69 of these low grade sires were yearlings. Furthermore, the census showed that there were only 30 men who actually made a practice of keeping a scrub bull."

By correspondence and personal contact with farmers the state live stock agent and the county agent waged the battle. These men toured the county day after day visiting the scrub bull owners, holding meetings, and requesting influential farmers to assist in re-educating the scrub sires into the live-stock scrap heap. In the main the scrub bull owners, once they learned the purpose of the campaign, and once

A Typical "Native" Scrub Bull, an Obstacle to Progress in Live Stock Improvement.

they appreciated the benefits which would result if they substituted pure-bred sires for the mongrels, were glad to dispose of their inferior herd-heads. Detailed figures showing the increased value of calves sired by pure-breds over calves of scrub parentage were particularly convincing in gaining converts. Most of the scrub bull owners were prompt in admitting the error of their live-stock raising ways. The Roane county banks have aided the movement to replace poor bulls with good ones. Every bank in the county has offered to lend money at 5 per cent to farmers for the purpose of purchasing pure-bred sires as substitutes for their scrubs.

HANDLE SHEEP WITH PROFIT

Good Drainage, Pasture, Some Shelter and an Interested Attendant Are Important.

The requirements of a farm where sheep can be handled with profit are good drainage, plenty of fresh pasture, land that will produce clover, alfalfa, cowpeas, or soy beans; a good water supply, fences that will keep sheep out of growing crops and furnish two or three fields for frequent change of pasture, a shelter that will protect the flock from cold rains, winds and storms, and an attendant who can give the flock interested and intelligent care.

SWINE CONSUMED MUCH FEED

Devoured More Grain Than Cattle Last Year, Being Fed 50.3 Per Cent of Corn.

Swine consumed more grain than cattle last year in the United States, being fed 50.3 per cent of the corn, 10.8 per cent of the oats, 60 per cent of the barley, 29.1 per cent of the wheat and 41.5 per cent of the mill feeds fed to all farm animals.

TOO WEAK TO DO ANYTHING

A Serious Feminine Illness Remedied By Lydia E. Pinkham's Vegetable Compound.

Case, Wis.—"After the birth of one of my children I had displacement and was so weak I couldn't do anything... Lydia E. Pinkham's Vegetable Compound... thought I would try it, and after taking it, I soon felt better. That was two years ago and I have felt well since except that I had a slight attack of the trouble some time ago and soon all right again. I always recommend your medicine and you may publish my testimonial for the benefit of other women."—Mrs. JULES BARN, R. 1, Box 50, Casco, Wis.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs and today holds the record of being the most successful remedy for female ailments in this country, and thousands of untary testimonials prove this fact. If you have the slightest doubt, Lydie E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by woman, and held in strict confidence.

Perfection's Price In Tire Building

A tire-maker's first problem is to decide how much he can give for the money. This, and every other question in tire building, depends upon policies.

A super-tire, such as The Brunswick, can be made only by a concern which knows well and appreciates that there is nothing exclusive in the tire industry except high standards.

Since 1845 the House of Brunswick has held first place in every line it entered. Brunswick Tires, as more and more motorists come to know them, will certainly be awarded that coveted place held only by the superfine.

Motorists who buy one Brunswick usually adopt it for complete equipment. Yet this is not strange, since the first one so completely proves its superiority.

If the name of Brunswick certifies to you, as to most men, an extraordinary tire, at no higher price, would it not be good business to test one or two Brunswick Tires?

MILLER & TEPE
Oil Leases and Royalties

SIPE SPRINGS, TEXAS

We have for sale good oil lease acreage and royalties in any amounts from 5 acres to 1000 acres, ranging in price from \$35 per acre to \$2,500 per acre, located in the heart of a big paying oil field. Write for information and prices.

Chronic Constipation
There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease they are meant to relieve. A mild laxative tonic like Chamberlain's Tablets afford a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation.

FIVE PER CENT DISCOUNT FOR CASH FOR 30 DAYS

Anticipating an advance in Casings and tubes, we have stocked up heavy and are prepared to give our customers the benefit. We are now advised that a 20 per cent advance will soon be put into effect. Get your tires now while the old price remains. We will allow a five per cent discount for spot cash up until March 1st.

J. A. COVEY & SON, Inc.

Dollars and Cents

Counting it only in dollars and cents, how much did that last cold cost you? A man may not always stop work when he is cold, but perhaps it would better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself. In fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.

W.S.S.
Pay Your Pledge

ON AND AFTER MARCH 1st.

We will discontinue the storage and work of large cars. Our shop and garage is not large enough to accommodate all, and we feel that **FORD OWNERS** are entitled to our first consideration.

WE HAVE RECENTLY INSTALLED
