### Around The Square

With Mack

A postal card addressed to the writer of this column, and originating in Houston, Texas, had this to say:

"Col. Garrison says the public is responsible for drunken driving, and it's consequent wrecks and killings. He is right. How can we achieve a feeling of personal responsibility for the ills that menace us—from DWI to corruption and treason?"

The card is to the point, but we feel unable to give a satisfactory answer. The state grants licenses to sell liquor, and if you are 21 years old, and are not otherwise barred, you may buy and drink this liquor. If you drink and drive you violate the law, and if you have a wreck, it is more than could be reasonably expected. You will be arrested and prosecuted by the state—the same state that made it legal for you to buy and drink the stuff that got you into trouble.

Seems like you are the "middle man." The state made the liquor legal, you got drunk, and the state will prosecute you. The state makes money at both ends of the line. You lose on everything through "fines and withheld freedom." You are the only guy who will lose in the deal—other than the innocent people you maim or kill. So the best thing you can do is to refuse to drink the legal liquor the state has provided for you. If you do this you'll save money—money that would have gone for liquor and fines. Court business will drop some, but even the state won't kick about that. It will save money too, by not being forced to hire so many officers, build so many jails and prisons, and caring for so many needy people who would not be needy, if it had not been for liquor.

There are three sides to every question—your side, my side and the right side. Concerning the liquor question, even a "boozer" would know that the "right side" is the "dry side."

The funny thing is this: the average drunken driver is not from the criminal element. He is what might be known as a good citizen who got a "little too much." This complicates affairs. But the parents of the child he killed while he was carrying a "little too much" learn that his past record will not bring back their child. If liquor will make a murderer out of a good man, then whiskey is too dangerous to fool with. You would not play with a rattlesnake, you would not take doses of strychnine, but you will drink liquor which is equally dangerous. Just doesn't add up. You say you can take it or leave it alone. If you can, why play with it and take the chance.

Just isn't very good logic. Most men who drink liquor do so of their own free will and accord. You don't have to twist their arms in order to get them to imbibe. John Barleycorn has never lost a fight, and he will lick you if you keep fooling with him. We know from earlier day experience, or what somebody told us. The bigger you are the harder you will fall, but when fighting John, you will always fall.

We have not exactly answered our Houston friend's question but have a load off our chest, and that's something.

Revival At Full Gospel Church Is Now In Progress

An old time summer revival began at the Full Gospel Church, 206 N. Dixie, last night. Rev. Jesse Price is the evangelist. The public is invited to hear this young minister. He and his wife are good singers and musicians, and there will be special singing each night.

"Also there is to be a Fifth-Sunday Service here. If you have never heard one of these services, come and be with us next Sunday" is the invitation extended by the church.

There will be all day services and dinner on the ground. We expect several ministers to be with us on that day, and the music is sure to please you. Pastor Homer D. Waller extends an invitation to the public to attend any or all of the services.

For Good Used Cars (Trade-Ins on the New Olds) Osborne Motor Company, Eastland

Judge Ralph Yarborough

Judge Ralph Yarborough, candidate for Governor of Texas, brings his whirlwind stump campaign to Eastland on Thursday, June 26.

The dynamic former district judge in Austin and assistant attorney general of Texas has been covering five and six speaking engagements a day since his kickoff rally in his native county of Henderson on June 7.

Judge Yarborough's Eastland speech will be given at the north side of the Court House, and is scheduled for 11:00 o'clock. An infantry veteran of World War II in both Europe and Asia, Judge Yarborough is expected to continue his demand that dictatorship and boss-rule be eliminated from the governor's office. He calls for elimination of corruption and extravagance in our state government and declares that "the present administration lacks the backbone and the grit to sweep the parlor clean."

Accompanied by his son, Richard, Judge Yarborough hopes to see all his friends in this area, to give them a chance to hear the present governor's record reviewed and to learn what Ralph Yarborough will do when he is elected governor of Texas.

### Proposed Survey Texas Channel Is Okayed By House

WASHINGTON, June 25 (AP)—A bill providing for a preliminary survey on a proposed deep-draft channel connecting Port Mansfield harbor in Texas and the Gulf of Mexico was sent to the Senate Wednesday after gaining approval in the House.

Another bill providing that the navigation channel project on the Gualupe river in Texas be made a part of the Gulf Intracoastal waterway project also gained an unanimous House approval Tuesday, and was sent to the Senate.

The proposed Port Mansfield project according to the House Public Works committee, was for a new deep-water channel 34 feet deep running the 10 miles between the Gulf and the port.

Rep. Clark W. Thompson of Galveston, Texas, sponsor of the Gualupe river bill, said similar channels in other Texas rivers have been made part of the intracoastal waterway project and his measure would "avoid the confusion brought about because of this separate designation" for the navigational channel project on the Gualupe.

### Iceland Sounds Cool

MOBILE, Ala., June 25 (UP)—Temperatures in the mid-90s are helping out the U. S. Army Engineers in their latest labor recruitment drive. Officials report a good response to advertisements seeking workers to go to Iceland.

## TEXAS FACING RECORD POLIO EPIDEMIC

HOUSTON, June 25 (UP)—Health authorities pleaded with Texans to fight back paralytic Wednesday as the state buckled under to the worst polio epidemic in its history.

Latest figures from the U. S. Public Health Service showed Texas was hardest hit in the nation by the dread crippling disease.

The toll from poliomyelitis mounted steadily as blistering hot weather took its annual hold on Texas. The State Health Department announced Tuesday 146 cases of polio were reported to it last week. One hundred three cases had been reported the week before. Both were grim new all-time records.

Last week's toll made pale by comparison that of any seven-day period of 1950, the year a record polio epidemic struck down 2,778 Texans.

During no week of that epidemic year did the number of reported cases exceed 131, the figure for the seven-day period ending August 12, 1950.

Seventeen new cases of polio

# Communist Demonstrators Attack American General

## Rotary Club Is Given Low Down On The Election

Jack Frost got quite a "kick" when he made his last water election report to the Rotary Club at the Luncheon Monday at noon. Mr. Frost has been releasing first hand reports concerning the progress of the water, bond elections for several months. Monday he had the honor to report that the election had been held and that the vote proved to be a landslide by those favoring the erection of a large dam, where water in sufficient quantities, may be impounded to supply Eastland, Ranger and others for the next generation or so.

Mr. Frost explained that everything is working just like we had planned and hoped, and that the next think will be sale of bonds and the procurement of certain lands to be used by the Water Supply District.

Barring unforeseen troubles, actual construction may begin late in August and early in September it is thought.

Following the report the program was turned over to Ben Hamner, who had brought along a group of women for the Colored choir. To say that these women can sing is stating a truth very mildly. They had arranged a program of three trios, but were brought back for a fourth number. Rotarians state that Ben sure knows his music, and that his selection was perfect.

## Fandangle Has New Attraction, Says Committee

The Blue Uniform of the Union Soldiers that will appear in the Ft. Griffin Fandangle Parade on Friday evening at 5 p.m., may raise a few tempers among the loyal of the Confederacy.

U. S. Army Cavalry Uniforms, good as new, have been purchased by the Fandangle Association from the 87-year-old Surplus Stock in New York, and the U. S. Cavalry Band will add to the authenticity of the Fort Griffin scenes.

Soldiers of the U. S. 6th Cavalry, Connecticut Troops among them, were stationed at Fort Griffin in 1867 for protection of settlers from the wild maraudings of the Plains Indians. President G. P. Crutchfield, of the Fort Griffin Fandangle Association, Inc., has reminded the Rebels here that Robert E. Lee, stationed prior to the Civil War at Camp Cooper, just a few miles above Fort Griffin, also wore the Blue Uniform of the Union Troops.

OFF THEY GO—First of 20 B-36 Superbombers on the largest mass overseas flight takes to the air from Carswell Air Force Base. The sky giants paused briefly at Limestone AFB, Maine, enroute to England where they will remain 10 days before returning to their home base. (US Air Force Photo via NEA Telephoto).

## Guard Against Polio And Other Diseases By Keeping City Clean; Trash Pick-Ups To Be Increased

Texas leads the nation in many ways. But there are certain things in which we do not wish to "lead." For instance, from Tuesday's Fort Worth paper, it is reported Texas leads the nation for polio cases. The governor has called it a mild epidemic. It seems polio cases so far this year are far ahead of last year. Houston and Corpus Christi and San Antonio are heavily hit.

Eastland has been very fortunate so far, but we cannot sit back and say "why worry." It is too late to start cleaning up after it hits. As the old saying goes: "An ounce of prevention is worth far more than a pound of cure."

So, let us all get busy now, and prevent "polio" in Eastland. See that your premises are spotlessly clean, and kept clean each day. Keep all cans, bottles, papers, rags, old tires, lumber, etc. disposed of daily. Do not let them accumulate. We have very few dry closets in the city, and we hope before long not to have any, as we are making an effort to have all homes connected with sewers. Dry closets must be kept in sanitary condition. We are making a daily check on these, any which are not in good shape must be corrected immediately, or fines will be imposed. Keep lime scattered, and see that same are fly-proof. Covers must be on all clop seats.

It is against the health laws of Eastland to keep hogs in the city limits. Please keep all horse, cow, and chicken pens clean, and disinfected every twenty-four hours. This is being checked daily by our sanitary officer, and the health laws will be strictly enforced.

The County Health Officer and City Manager met with Eastland County Commissioners yesterday, and discussed the fly and mosquito problem outside the city limits, all over the county. Water

(Continued On Page 2)

## "Tail Twister" At Lions Club Very Busy Man

The Tail Twister at the Lions Club is something of a peace officer. Much of his work is rough and unpleasant, but the new edict, that was mentioned at the club Tuesday may make it necessary to appoint a few deputies.

Seems that some of the Lions have been rather dilatory when it came to bringing up programs, and a lot of "kicking" has been done. In the future when a Lion is asked to bring up a program (he has three weeks to get ready) he will be expected to deliver the goods. If he fails a fine of \$2.00 will be assessed, and the "tail Twister" will collect, or else.

The "program" was absent Tuesday, but the Club's "Windjammer" gave a brief report on the status of water. He has stated that if he is sworn in again as a pinch hitter for a defunct program, he will give a lecture on political science or regeneration—maybe immortality, so to save your disposition, better see that the program occupies its usual place. This will save the "windjammer" as well as attending Lions.

## Midwest Lashed By Tornadoes, And High Winds

New storms raked the upper Midwest Wednesday as the toll of dead and injured mounted from a series of tornadoes, 95-mile-an-hour winds and torrential rains that have plagued the area for several days.

Early Wednesday, a severe squall line hit Green Bay, Wis., with 50-mile-an-hour winds and more across Lake Michigan into the northern section of lower Michigan.

Since Monday, six tornadoes and repeated thunderstorms have killed three persons and injured at least 16 others.

It was impossible to obtain an exact estimate, but the damage to buildings and other property was believed to total several millions of dollars.

Two twisters struck Minnesota Tuesday night. The worst roared into the village of Cleveland, Minn., injuring five persons and flattening several farm buildings. One entire farm family was hospitalized after their home collapsed upon them.

Another tornado touched earth in the Minneapolis suburb of Circle Pines. Two homes were wrecked and several persons were injured.

**Giant Panda Dies**  
ST. LOUIS, June 25 (UP)—Pao Pei, the St. Louis Zoo's 14-year-old giant panda, died Tuesday night. His death leaves only one of the creatures still in captivity in this country—at Chicago's Brookfield Zoo.

## Red Guerillas Kill 46 Persons In Seoul, Korea

By Robert Udick  
SEOUL, Korea, June 25 (UP)—Communist guerrillas killed 46 persons, including an American soldier, and kidnapped 80 others Wednesday after dynamiting and raiding a passenger train near Sagari behind UN lines in south west Korea.

The start of the third year of war in Korea was also marked by sharp ground-fighting along the 155-mile front.

There were no reports of air activity early Wednesday. But Tuesday night American Superforts dropped 250 tons of bombs on front line Communist entrenchments in one of the biggest close-support missions of the war. Allied war planes flew 1,270 missions Tuesday.

Two American soldiers were wounded in the attack on the train, which was carried out by 150 to 300 guerrillas. The train was eight miles south of Sagari going to Kwangju. The raiders placed dynamite on the tracks, derailed the locomotive as it passed.

Swooping down on the train, the raiders burned eight passenger coaches and ripped up a section of track. Besides the American soldier, they killed 21 South Korean soldiers, seven Korean policemen, 13 Korean civilians, the engineer, conductor, baggage man and train fire marshal.

It was believed the 80 persons kidnapped were Korean civilians. Meanwhile, Gen. James A. Van Fleet, Eighth Army commander, said the chances for a Red offensive are less now than a few weeks ago. He told a press conference the rainy season is now much closer and "good fighting weather for him the enemy is now decreasing."

"We can operate in bad weather, the enemy cannot," he said. "The Eighth Army is adequately supplied, including ammunition."

## Coca-Cola Plant In Eastland Is Modern In Every Respect; Serves Several Counties In This Area

Can you remember when soda pop was soda pop? We can, and it was really soda pop. It came in heavy, chunky bottles, and you opened it by pounding down a heavy wire which in turn unscrewed the inside valve often with a rather loud noise.

A good operator on one of these old machines could turn out and inspect four or five cases per hour, and what we now might describe a rather inferior product.

Today there is a different story and in order to bring our reader up to date we visited our local Coca Cola plant this week and gathered a little first hand information from G. P. Poe, local manager. We'll pass some of these facts on to you.

As a matter of fact, the Coca Cola plant in Eastland is modern in every respect. Every operation from bottle washing and sterilizing to placing in cases the finished product, is entirely automatic. Instead of turning out four or five cases, this machine turns out more than 400 cases per hour,

## RIOTING REDS HIT AMERICAN HOUSING AND BATTLE POLICE

OSAKA, Japan, June 25—Communist demonstrators threw acid at an American general, attacked an American housing compound with a "Molotov Cocktail" and battled police Wednesday in clashes marking the second anniversary of the Korean war.

Japanese police announced 58 persons were arrested in connection with the rioting. Thirty policemen were injured. Extra guards were stationed

near American installations, including the Itami Air Base, as well as at plants producing goods for the United Nations, to guard against the possibility of further outbreaks.

**Riots of Protest**  
The demonstrations were set by Korean and Japanese Communists to protest an agreement the United States has with Japan and to protest Korean war. Some demonstrators carried placards reading "and Itami Air Bases"

Brig. Gen. Carter W. C. U. S. Army commander in Osaka area, was slightly burned a demonstrator hurled a Molotov cocktail at his car as he was to his office Wednesday. The bottle broke the windshield, splattering the acid on Clarke's face, treated for superficial burns which he proceeded to face.

The incident took place in Osaka, about five miles from Osaka. The man who hurled the acid was not identified.

**Incident At Air Base**  
Several hours before the group of Reds gathered at the American Air Force housing center at Itami outside Osaka. Marine Force troops came to re-inforce the guard.

About 20 to 30 demonstrators gathered toward one man in the "Molotov Cocktail" in the compound guard fired over the mob. The demonstrators broke and broke. No one was injured. The fire lit caused no damage.

## Texans Ameri

AUSTIN, South Texas, transform of Mexico "viera" highway construction project.

"We far great Beach United Kelley Padre from told that.

The highway project is being completed by Kelley and Cameron, Willacy, Berg and Nueces counties. Kelley wanted from the mile island highway, cost more than \$3 million.

Kelley, by way of a highway, glowingly described the islands possible Beach which he hoped from a "lot of foresight, a lot of money and plenty of money."

Kelley said Cameron county already has voted \$850,000 for development of parks, bathhouses and other improvements on the southern tip of Padre Island.

## Church of Christ At Carbon, Plans Gospel Meeting

Minister John F. Lilly of Gorman, will begin a meeting at the Church of Christ in Carbon, Sunday morning, July 6. The meeting will continue through Sunday, July 13.

Everyone is invited to come and hear the minister on purely Bible subjects. Brother Brock of Eastland will conduct the singing. Remember the date—July 6 through 13.

**Coca-Cola**

(Continued From Page 1)  
where the actual manufacture of bottled Coca Cola is completed. It makes a circular detour, but never slows its speed, and gets proper amount of Coca Cola p. During this swing it is with carbonated water, back on the track only to a third detour where it is "ned" or given a cover, the bottle of Coca Cola or you. Needs mixing so next detour it gets the of its life. Back on the

assembly it is good Coca Cola, and you might drink it, for it is pretty cool. Yet it should take another ride to the "radio eye" for final inspection. But if it gets kicked out of line it will land with other undesirables. The most minute particle of foreign substance will bring the kick. You may not see it with naked eyes, but the "eye" will see it. Maybe a chip or crack, maybe a particle of cork from the crown or a small sliver of glass—well it won't pass the "eye". Even a battle that happens to be a little dark or blue will go into the refuse heap. Cases are filled automatically.

an St. Phone 711

Steel fingers pick up 24 bottles and drop them in the case where they are carried out on a conveyor to loading trucks.

The Eastland plant is one of 4 units serving the Abilene district of 26 and one-half counties in this area. Eastland serves 6 and one-half counties, with a large storage warehouse in Stephenville.

The plants capacity has been increased since last season, by about one third, stated Mr. Poe, who has been here for 13 years. He also stated that August and September may be considered banner production months.

Fourteen large trucks are used to distribute Coca Cola over the Eastland area, and while the product is internationally known, there has been no let down in moving Coca Cola or advertising it. Eight salesmen work out of Eastland, and their advertisements will be found most everywhere in the world.

The local plant is larger than most people will suspect. The main plant is a 2-story brick building. It houses the offices and bottling equipment, with some space for storage. The building is 50x120 feet. Another adjoining brick building 30x126 feet is used for storage and opens onto the loading dock. The third building is for storage and general purposes, including repair shop. The fourth and largest building on the next block and across the street. The building is 150x200 feet and is used for repair work, storage, paint shop and other purposes. The place may stay quiet, but nevertheless there are 26 to 28 employees on the job. We are not at liberty to give the annual payroll figures, but will say that six figures will not tell the story, as it is one of the largest in the city limits.

**Senator's Wife Posts Collateral**  
WASHINGTON, June 25—Mrs. Grace Kerr, wife of Sen. Robert S. Kerr, Democratic presidential candidate, posted \$37.90 collateral in Silver Spring, Md., police court on charges of speeding and having no auto driver's permit with her. Trial has been set for July 11 at Silver Spring police court.

**Church Goes Called Traitors**  
VIENNA, June 25—Czechoslovakians who attend church have been denounced as "traitors" and "pro-American Fascists" by Information Minister Vaclav Kopecky, the official Czech Communist newspaper Rude Pravo said Tuesday.

**Dizzy Dean Is Changing Gab**

By STAN MOCKLER  
ST. LOUIS, June 25—Jerome Herman Dizzy Dean, whose syntax keeps him in a surlax bracket, Wednesday was profiting by the lesson he learned as one of baseball's greatest right-handed pitchers.

It was a simple axiom—when they get to your pitch, it's time to switch. And Dizzy has done just that, switching his baseball broadcasting "pitch" to drop most of the time-worn phrases that brought him fame. He has substituted fresh versions of the action on the field to win a new audience.

Seldom does Dean recount these days when the St. Louis Browns returned to their "respectable" bases. And he rarely uses "slud," once one of his hardest-working verbs. When he does it is delivered rapidly, almost apologetically, for the benefit of the fans who like the vintage Dean vocabulary.

Here are a few samples of the new Dean's delivery. When Jim Rivera, taking a mighty swing, caught the ball on the end of the bat and popped weakly to the shortstop, it was: "My, my, lookit that swing. But the ball just flew over the shortstop like a dead seagull."

Studying the curve ball of little Bobby Shantz of the Philadelphia Athletics, Dean marvelled at the sharp-breaking dip.

"That ain't no ordinary curve ball," he assured his listeners. "It drops right off the table. It's mediocre."

**And Beets, Fresh Dug**  
When Boston's fire-balling left-hander Maury McDermott charged the plate umpire in a squalor, or the ball and strike calling, Dean harked back to the farm for a smile.

"Folks, you oughta see that fellow's face," he said. "Red? Why it looks like a half-grown beets-fresh dug."

Dizzy, a tall-talking guy when he was "foggin' 'em in" for the old gas house gang St. Louis Cardinals, hasn't changed much. He believes in going all out when the occasion calls for it.

He produced a crashing triple negative to honor Dick Kryhoski's game winning home run recently.

(Continued From Page 1)

holes, hog and cattle pens and dry closets are breeding places, outside the cities, and we hope something can be done to correct this situation. Disinfectants should be used, and, if possible, minnows put in water tanks will help to eliminate mosquitoes. With the help of the farmers and live stock associations, and county agent and home demonstration departments we can keep down any polio epidemic in Eastland county.

The city of Eastland sprays the city five times each summer. We have completed our first spraying, and will start on the second round in about ten days. We keep all water holes in the city oiled. Weeds create breeding places for mosquitoes. We ask all to keep their weeds cut. We are running our mowing machine, cutting weeds on streets.

On next Tuesday, July 1st, we will start two trash pick-ups weekly, and continue this double pick-up during the summer months. All trash containers must have lids. Trash must not be burned in the containers the day before trash pick-up, because if there is any fire in the barrel at pick-up time the trash cannot be picked up, as it will set fire to our trash truck, as has been the case in a number of instances, and creates a serious hazard. We will give you a schedule below when your trash will be picked up, so you will know what days you cannot burn trash in the barrel.

On Monday and Thursday of each week trash will be picked up: South of Commerce Street,

starting in Hillcrest and going East to South Seaman Street, on the west side of South Seaman. On Tuesday and Friday of each week trash will be picked up: South of Commerce Street, starting on the east side of South Seaman Street, to the east city limits; north of Commerce Street starting at North College Street going east to North Daugherty Street.

On Wednesday and Saturday of each week trash will be picked

up: North of Commerce Street, starting east of Daugherty Street and going to the city limits, also North Hillcrest.

Trash will be picked up twice daily in the business section of the city.

If you are in doubt as to what day your trash will be picked up, please call the City Hall.

By all pulling together, we can make Eastland a healthy city, and prevent polio. We know we can count on every citizen to help

in this very serious undertaking. Eastland City Commission

Maxim-Robinson Meet Tonight In Yankee Stadium

NEW YORK, June 25—Joey Maxim and Sugar Ray Robinson were scheduled to meet Wednesday night in their postponed battle of champions at Yankee Stadium, but there was a chance that rain again would wash out the fight.

Wednesday's forecast was for warm and humid weather, "with a chance of scattered thunderstorms and squally gusts in the afternoon or evening."

In case of a second postponement, the 15-round fight for Maxim's light heavyweight crown will be held Thursday night. It was originally slated for Monday night, but rain laundered it. It could not be held Tuesday night because of a ball game at the Polo Grounds and a non-conflict agreement between the Yankees and the Giants clubs.

Middleweight champion Robinson was favored at 7 to 5 Wednesday to win his third world title. Before Monday's delay, the piece was "even money." The slender New York Negro was made favorite because the postponement

VA Lifts Credit Restriction On GI Auto Loans

WASHINGTON, June 25 (UP)—The Veterans Administration Wednesday lifted all credit restrictions from GI loans for automobiles.

The move enables World War II veterans for whom a car is a business necessity to get government insured loans for periods longer than the previous 30-month maximum. The only restriction is that the term of the loan may not exceed the economic life of the automobile.

The basic law covering GI business loans for car purchases remains unchanged. No down payments are necessary, but the veteran must show that a car is essential to his job or business.

OFFERS CANAL ROUTE NEW YORK, June 19—Gen. Anastasio Somoza, urging the United States not to "put all your eggs in one basket," said Thursday Nicaragua still holds open its invitation for this country to build an Atlantic-Pacific canal through his country.

Judge Upholds Doctor's Plea Not To Testify

CHICAGO, June 25 (UP)—A circuit court judge has ruled that a psychiatrist cannot be forced to reveal the love secrets and suppressed desires of a woman patient involved in a \$100,000 alienation of affections suit.

Judge Harry M. Fisher ruled Tuesday that Dr. Roy N. Grinker could not be subpoenaed to testify about the intimate facts his patients reveal to him.

The judge said "no such case in legal history" had ever been decided before.

Dr. Samuel Binder, a dentist who charges that his wife's love was stolen by a handsome and "muscular" attorney, had petitioned Fisher to force Grinker to testify.

Mrs. Eleanor Binder, 33, was a patient of Grinker during the time that her husband said she carried on an affair with attorney Nathaniel S. Ruvel.

Binder accused Ruvel of "debauching" his wife and said that his wife complained to him that, "you can't thrill me any more."

The judge ruled the secrets a patient confides in a psychiatrist are more inviolable than those revealed to a priest or a doctor.

METALS CONTAOLS RELAXED WASHINGTON, June—All but the biggest manufacturers were freed Thursday from direct government controls over copper and aluminum consumption. In an extension of its self-allocation program, the National Production Authority gave manufacturers and builders in most categories permission to buy increased amounts.

Two Unknowns Meet In Final Round of PGA

LOUISVILLE, Ky., June 25 (UP)—Burlly Chick Harbert and squat Jimmy Turnesa meet Wednesday for the PGA golf championship and for one of them it means final satisfaction after previous disappointments.

Harbert, the long distance hitter from Northville, Mich., went to the finals in 1947 only to lose to big Jim Ferrier.

Turnesa, the quiet little par busting automaton, had a chance 10 years ago and lost at 1942 final to Slammin' Sned.

One of them is going to make it Wednesday—and for the other it will be disappointment all over again.

Neither of them made any predictions of victory, for both were veterans of the tournament trail who knew they faced a rough struggle.

"You can't foretell these things!"

said the 39-year-old Turnesa after reaching the finals by beating Ted Kroll of New Hartford, N.Y., 4 and 2. "You might win and you might lose—that's all."

The handsome 37-year-old Harbert was slightly more voluble after his 2 and 1 victory over Bob Hamilton of Evansville, Ind., in the semi-finals at Big Spring golf club.

"Nobody ever won the PGA easily," he said. "I don't expect to be an exception. You can't say Turnesa is slipping when he shoots 10 or 11 strokes under par. I'm glad I didn't play him in the semi-finals."

At long last, a couple of runners-up went out after the jackpot—and one of them was sure to finally bring it home.

#### Summer Coolers for 5 or 25

Are you a one-woman "refreshment committee" who likes to bring out a big pitcher of something cool when family or friends are gathered? Or are you a member of a bigger refreshment committee for your club or church group, or possibly having a wedding reception for 25 or more, when a refreshing drink with a distinctive flair seems to be called for? In either case, you'll welcome these ideas...

##### Spiced Tea-V Cooler for 5 with "Lemon-ated" Sugar

Pour 5 cups boiling water over 7 teaspoons black tea and 5 whole cloves. Cover and steep 5 minutes only. Strain tea into pitcher filled with ice cubes and chill. When ready to use, stir in chilled orange juice. Serve in 5 tall, chilled, sugar-rimmed glasses — so easily done by dipping glasses into shallow saucer of water, then into C and H granulated sugar. Garnish glass with straw sippers strung with whole maraschino cherries, chunks of pineapple, thin slices of orange with more cherries on top to hold all in place. Pass "lemonated" sugar and mint sprigs for each to sweeten and garnish his own drink.

##### Lemon-ated Sugar

Simply mix 1 cup C and H granulated sugar and the grated rind of 1 or 2 lemons (according to your own taste), just before using for the most tantalizing fragrance and full flavor. Garnish serving bowl with thin curls of lemon peel and surround base with fresh sprigs of mint.

##### Mock Pink Champagne for 25

2 cups C and H granulated sugar  
2 cups hot water  
2 cups grapefruit juice  
1 cup orange juice  
1 quart ginger ale  
3/4 cup grenadine syrup

Boil sugar and water together in uncovered pan for 5 minutes. Cool. In large bowl, place chilled, strained fruit juices. Add cooled sugar water

##### Former Carbon Woman Critically Ill

Mrs. Helen Lovett, formerly of Carbon is critically ill in the home of her daughter, Mrs. Raymond Camp, 808 Flint Street, Ft. Worth, with whom she makes her home.

Mrs. Lovett is the sister of Mrs. Alice Speer and the aunt of Mrs.

Lorraine Owens.

#### Presbyterian Women Meet Mon. at Church

The Women's Auxiliary and business women of the Presbyterian church met in regular session at the church Monday evening at 6:00 o'clock. The meeting was opened by the singing of hymns and a prayer by Mrs. R. L. Cooper. The devotional was conducted by Mr. C. E. Johnston.

The president then presented Miss Jane Hart who talked on the progress of the Fillman University in the Philippines and Mrs. Johnston told of the Palmer Hospital in Alaska. It was decided to devote the special opportunity and summer offerings to these two worthy institutions.

The meeting then adjourned to the dining room where the monthly Fellowship dinner was served.

#### Certificates for Red Cross Nursing Course Received

## TRIM YOUR COSTS 3 WAYS WITH DODGE TRUCKS

- ▶ There's a Dodge truck that's "Job-Rated" to fit your job—1/2 ton through 4 tons.
- ▶ Every model "Job-Rated"—engineered to haul a specific load at low cost, to last longer, to save you money.
- ▶ Load-carrying and load-moving units engineered for proper strength and capacity under severe conditions.
- ▶ Ask us for a Show Down of Truck Value—be your own judge. We have all the facts!
- ▶ Come in today for a demonstration and a good deal.

**"Dodge is by far the lowest cost to operate!"**

"We keep complete individual records of each of our trucks and have found that Dodge is by far the lowest cost to operate. In fact, our Dodge costs us .6 of a cent less per ton-mile to operate than our next closest truck! This difference must be the result of Dodge's many economy features.

"Furthermore, we've found that our Dodge 'Job-Rated' truck will haul a full load of sand or gravel up hills that several of our other trucks won't take. Our next truck will be a Dodge."

**2 Trim upkeep costs!** You'll get a "Job-Rated" chassis that's built to stand the gaff. Depend on features such as deep-channel frame and high-capacity springs to keep repair bills down.

**3 Trim delivery costs!** You'll make more deliveries per day—in less time. It's easy to wheel a Dodge "Job-Rated" truck in and out of tight spots—thanks to short turning diameters.

See us today for the best buy in low-cost transportation...
