## Around The Square

With Mack

We've been eating cherry cake since Saturday when Mrs. Whitney Butler called our home and stated that she had a cake for us, and would somebody please call for it. We did, or rather the daughter did, and we made the weekend in good shape. We hope cake is not fattening, for if it is it will not be any trouble for us to pass the 200 pound mark this week. We pronounce the cake good and Mrs. Butler will accept our thanks.

If there are others who care to get our formal "pronouncement" just come on with the cake, or pie, or what have you?

All the good news is coming at once, but after a three-year drought we feel we can stand some good news, even if it isn't wet. A state highway engineer has informed us that the State Highway Department will spend a million two hundred thousand dollars in Eastland county, during the next two years. This will produce a crop of pay checks, even if it doesn't rain.

And now that they are going to break dirt for the new dam and lake, we may well expect another crop of pay checks. You see we have been telling you all along that peanuts isn't the only crop we can produce, and when these pay checks begin pouring in, you will be convinced.

We are told that the City Lake will be seined, but not until the water gets low enough to make it safe for the men, Game and Fish wardens gathered here last week for this purpose, but one or two of them came near drowning when they stepped off into 10-foot water.

Now we have been promised in a kind of half-hearted manner, that we could have one of those big fish, and we want it, yet we hope it rains so much during the next ten days that those guys can't get in shooting distance of that lake for at least two years. By that time we will have completed our new lake, and it will be full of water. After all this happens they can take that "thing" out here by the golf links and use it to grow bull frogs, so far as we are concerned.

We can get all the fish we want from the Abilene Fish Market, yet it seems that no one seems to be able to supply us with a good drink of water. Fact is we are going to fool around and forget how that stuff tastes.

Deputy Sheriff L. M. Threet who resides in Cisco, had an early morning call Sunday at 2 a. m., when his phone rang and an unknown man told him he had passed a dead man just north of the bridge at Lake Cisco. The officer answered the call and found the man, but he was not dead. Happened that an old man, about 80 years of age had started to town. Falling to catch a ride, he became tired and weary, and decided to take a nap. The officer aroused him and suggested that he move on, as the territory about was infested with rattlesnakes. The old fellow left the scene.

## Baptist Revival Successful; New Members Enlisted

A revival meeting at the First Baptist Church closed with the Sunday night service. And though it did not come up to the expectations of some individuals, it was a good meeting. The church was alerted and a large portion of the membership took an active part. Special prayer services were conducted, and the Sunday school group, composed of 180 members conducted nightly services with an average attendance of 160. This group also made 160 special visits to various homes in the city. During the series of service 10 were accepted for baptism, nine came by letter, and one surrendered for special service. As a whole the meeting was good, and will be of lasting value to the church. Pastor Rathel did the preaching.

**FIRST WHISTLE STOP:** Republican Presidential candidate Gen. Dwight D. Eisenhower, waves both hands acknowledging the plaudits of the more than 5,000 people gathered at Fort Wayne, Ind., to hear the candidates first back platform speech.

## POLICE SEARCH FOR DRIVER OF STOLEN CAR WRECKED; LEFT

Ranger and Strawn law enforcement officers are searching for a youth who fled the scene after wrecking a grey 1951 Ford at the intersection of Pine St., and the Breckenridge Highway, last night at 3:15 a. m. Ranger policeman Ralph Veal gave chase to the car and driver after becoming suspicious of its actions.

Veal attempted to stop the driver for questioning, but the chase started when he flashed a light on the stolen car. The wreck occurred when the driver attempted to cut back down Pine street after rounding the swimming pool corner at high speed. The car swerved and went over the end of the culvert on Pine and ramed a light pole.

The driver fled west across the site of the old lake and was lost by the officers.

Strawn Constable Ben Bradford joined the search after it was learned the car was stolen from Leo Cosby, a Strawn used car dealer.

The driver was later sighted by Ranger police getting a drink of water at the Taylor service station east of Ranger. When he sighted the officers he fled again, still minus one shoe. His trail was later picked up, according to John Shook, who joined the search on Russell Creek on Highway 80. Strawn Constable Ben Bradford arrived and took up the search being conducted by Shook, Veal, and Ed Freeman for the person, believed to be a Strawn youth who had stolen the car.

Also found in the automobile was a four-cell flashlight stolen

## Paul Sneed Dies In Lubbock; Will Be Buried Today

Paul Sneed of Ida Lou, passed away in a Lubbock hospital at 1:15 p. m. Sunday, after a short illness. Funeral services will be conducted in Ida Lou, at 3 p. m. today, after which interment will be made in the Ida Lou cemetery.

Mr. Sneed was a resident of Eastland county for 32 years, and has many friends and relatives here. He moved from this city to Ida Lou in 1940.

## Farm Bureau Meeting Set

The Eastland County Farm Bureau leaders and committee chairmen will meet at 7:30 Thursday evening at the Cheaney Church of Christ.

Recreation and a program for the evening has been planned for the farm families and others attending the meeting.

## Guadalupe River Poses Threat To 100 Family Homes

VICTORIA, Tex., Sept. 16 (UP)—The flood-swollen Guadalupe river rose toward flood stage at Victoria Tuesday, threatening the homes of nearly 100 families, and was continuing to rise six hours after it was expected to have reached its peak, according to Victoria county sheriff's officers.

At 6 a. m., authorities said the river had reached 28.87 feet. Flood stage is 29.23 feet. More than 40 boats began evacuating families from the threatened lowland areas Monday night.

Chief Deputy Sheriff J. C. Durant said "a world of corn and some cotton" would be inundated if the river reached 29.5 feet. Durant said he didn't see any threat to life.

Normally the Guadalupe is only a few feet deep at Victoria. The long summer drought had lowered it to ankle depth before last week's cloudbursts in Central Texas sent rivers and streams pouring toward the sea, many of them rolling out of their banks.

The all-time record high for the river was 31.4 feet here in 1936.

## Madwell Must Have Done Well

What to do with an acre and a half of ragweed was a problem facing R. B. Madwell, a World War II vet who lives near Waco. He turned the land into pasture for six head of cattle and six sheep, with a minimum of labor and cost, reports Clark Bolt in September, Farm and Ranch-Southern Agriculturalist. Madwell plowed the land to kill the ragweed. After planting seed, he irrigated the pasture twice by the flood method. It took but \$26 to establish Madwell's super-pasture Bolt says.

## Right Wing Democrats Defend Bid To Place Ike On Ballot

AUSTIN, Sept. 16 (UP)—Rebellious and disgruntled right-wing Texas Democrats went to court Tuesday to defend their bid to place the name of Republican Dwight D. Eisenhower on the Texas ballot as the presidential nominee of the "Texas Democratic Party."

"Loyalist" Democrats, backing Adlai Stevenson, the regular party candidate, sought an injunction to bar certification of Eisenhower by the new party.

The "Loyal Democrats" obtained a court order Saturday to block the insurgent group temporarily. The order specified that the supporters of the new party had to appear in court Tuesday to present arguments against the injunction.

The new "Texas Democratic Party" was formed last week in Dallas by conservatives who failed in an effort to have Eisenhower named as the regular Democratic candidate in Texas.

## Cisco Baptist Association Is Now In Progress

The 68th Annual Association of the Cisco Baptist Association was called to order by Moderator Ralph Perkins of the First Baptist Church of Ranger, at 7 p. m. in the First Baptist Church of Cisco, Sept. 15.

The organization was made with the printed order of service accepted as the program with the exceptions that would have to be made due to absence of some speakers.

Rev. Alfred Nelson of Olden, gave the report of the Association and recognized Rev. H. D. Blair, who stated that this was the best year of the 25 years he has served as Associational Missionary for this association.

Rev. Blair will be presented with a washing machine as a love gift, honoring his 25 years of service in the association. The church has made offerings, (unknown to him) and the committee named, some time ago has made the plan to present the gift at the meeting today.

Rev. F. C. Bradley, East Cisco Baptist Church brought the report on home missions, and Rev. Bill Hogue of New Hope No. 2, brought a stirring report on foreign missions.

C. Melvin Rathel of Eastland brought the missionary message on "The Commission—Advancing with Christ." This was followed by a short business session and then Dr. F. A. R. Morgan of Eastland brought the message on the Objectives of the Church, with special emphasis on the necessity of Visualizing, Revitalizing, and Realizing the work, the worth and the accomplishments of our dreams.

Rev. A. J. Karkalits of Moran will bring the annual sermon. The evening program will begin at 7:00 p. m. and the later portion will be given by the team led by Dr. DeLoach of the First Baptist Church, Odessa, to be concluded with a film on Stewardship.

## Oil Activity Is On The Upgrade

Shirley & Venuto of Dallas are to drill what will be known as the No. 2 Fox Heirs test, at a new location just west. The test will be about seven miles south of Ranger, and will be a 2750 rotary wildcat. The site is on a 376 acre lease, on section 24, League 2, of the McClelland CSL survey.

Seven miles northeast of Eastland, Jewell Kimberlin, No. 1, Joe Norton heirs, is a wildcat drilled to 1500 feet.

## Hardin-Simmons Begins Sept. 17

ABILENE—The fall semester at Hardin-Simmons University will begin Wednesday with a two-day registration period, Registrar A. B. Lee has announced.

Pre-registration activities begin Monday with freshman orientation and placement tests and Reserve Officers' Training Corps physical examinations Monday and Tuesday. Classes will begin Friday.

ROTC training is being offered at Hardin-Simmons for the first time this year. Col. Howard P. Rice is senior officer of the H-SU unit.

"We will be interested to determine the effect of the new ROTC program on enrollment," Lee stated. Disregarding it and the possible effect of the statewide drought, the number of applications for admission indicates that enrollment will be about the same as that of last year's fall term. Lee said, Resident students last fall numbered 1,373.

Warrant Officer Kills Self Over Argument  
SAN FRANCISCO, Sept. 16 (UP)—Chief Warrant Officer Urban E. Carlson, 40, quarreled with his bride of three weeks after she dropped a teaspoon into the garbage disposal unit.

Sgt. David A. Wims  
**Marine Sgt. To Be In Eastland**

Technical Sergeant David A. Wims of the United States Marine Corps will be in Eastland on Wednesday, Sept. 24. Sgt. Wims from the Marine Corps Abilene office, may be contacted at the post office while he is here.

Sgt. Wims emphasizes the fact that "the United States Marines are no longer using selective service as an aid to recruiting." He advises young men of the draft to enlist now in "the service which selects its men."

He suggests that any man who is interested but unable to meet with him at this time should contact the nearest Marine Corps recruiting station by writing the NCO in charge, Marine Corps Recruiting Station, Room 203, Post Office Building, Abilene.

## IT IS REPORTED

That the Connally-Jackson test in Eastland has passed through the Lake and Marble Falls formations and is now heading for the Ranger sand.

That the Mavericks are going after Coleman's scalp Friday night. Fans will attend this game.

That Sgt. Hendrick is still trying to fill the Army with recruits. Better get busy before the building boom breaks here.

That rain is moving in our direction again. Asperment and Merkle report good showers.

That the Band Booster Club will meet tonight and elect new officers. You are invited.

That Rotarians are to meet the Lions for a ball game Thursday night. "Slim" Laney will be umpire.

That "Ike" hasn't so much as sent us a cigar. We smoke Rot blunts, if he ever gets interested.

## Rangers Win Season's Opener From Decatur Saturday 26-0

The Ranger Junior College Rangers romped roughed over the Decatur Baptist Indians on their own reservation at Decatur Saturday night. Final count was RJC 26—Decatur 0.

Buddy Hamrick, Jimmy Cole, Freddie Sanders, and Jerry Harvey tallied for the Rangers. Hamrick is playing his third year for the Rangers at the quarterback slot, while Cole, Sanders, and Harvey are freshmen—Harvey was a "find" according to Coach Dick Henderson, being originally tapped as a defensive halfback, but making the most spectacular run of the game and a score.

Henderson said the team was "ragged", but had possibilities. He did give credit to his men for hitting hard defensively. Penalties and fumbles plagued the Rangers in their opening game. The hurting kind of penalties, those for fifteen yards were called on several occasions against the Rangers. And seven times the ball carriers forgot to take the ball with them the full route.

## Bonds Sold And Work Likely Begin Early Next Month; Engineers Will Complete Their Work At Early Date

Rotarians at their noon meeting Monday voted to accept the challenge sent them by the Lions club, for a ball game to be played on Thursday of this week. The game will be played at Freeman's Field at 7:30 Thursday evening.

This game gives promise of being one of the most spectacular sports events of the season. Ray Laney will act as umpire, and he is large enough to enforce his decision, even though it be a half dozen Lions he must tackle at one time.

Some special rules have been added, and all players are to observe them. There is not to be any practicing, even in the most remote form. Tennis shoes—no cleats may be worn. No uniforms are to be worn. The wearing of a shirt is optional, however, wearers will do so at his own risk.

An admission fee of 15c and 25c will be made, and after the lights are paid for the balance will go to the two teams on a fifty-fifty basis.

Everybody is invited to be present—men, women and children. Just remember the admission fee.

## New Chemical Is Said To Friction Proof All Metal

Now we have "friction proofing" to protect moving metal parts. Primarily this new chemical was made to aid the lubricant used in crankcases on automobiles, trucks, tractors, cars, etc., in that the lubricant merely lubricates, but does not treat the metal. This new chemical serves to prepare the metal for the lubricant.

A demonstration in Commissioners Court proved conclusively that it is heat resistant. A bearing heated with a blow torch was treated with the chemical, and though all the lubricant was burned away the bearing showed little signs of wear.

A number of cities and counties are using the product, states Thomas G. Marr, sales engineer for the Eastland district. One Eastland commissioner has been using it and his mechanics report it a splendid product.

## Band Boosters Will Meet And Elect Officers

The Band Booster Club will hold its first meeting for the year tonight at 7:30 p. m. according to Wayne Jackson. If you are a member of the club you are urged to attend this meeting, as officers for the coming year are to be elected.

The meeting will be held in the band room at the high school.

## H-SU Extension Program Opens At Cisco JC

ABILENE (Sp.)—Representatives of Hardin-Simmons University will be in Cisco Monday evening to organize extension classes at Cisco Junior College, Dr. Robert A. Collins, chairman of the H-SU education department has announced.

Courses will be offered in business administration, economics, English, history, and education. The classes will be directed especially to all junior college graduates and teachers of the area, Dr. Collins said.

Yes, sir, we are going to build that dam and lake, and we are going to get started before you know it, was the opinion expressed today by a representative of the Bond Company which has purchased our bonds.

This is good news right out of a clear sky. The bonds have been sold—underwritten by one man, and all that remains to be done now is to close up the few remaining gaps, and begin construction.

Engineers have just about completed their work. Property purchases will be rushed to completion, and it is not thought this will cause any great delay. As a matter of fact, dirt should be broken on or before that middle of next month. And it is possible that it will be earlier.

Then begins the long awaited construction. Millions of tons of dirt and stone will be moved and placed in a proper manner. Ditches will be dug and pipe lines will go in from the lake to both Eastland and Ranger. A central treating plant must be erected, and a large pumping station will be built.

This mammoth project cannot be completed overnight. It will likely be 18-months or possibly almost two years before it is completed, but once the project is finished our water problems will be solved for many years to come.

And now that the bonds have been voted and sold, our next step will be construction, which as stated above, should begin before the close of another 30 days. Not only will we be working on our future water supply, but at the same time farmers, mechanics and others will find it possible to get employment.

The Water Board, through its tax assessor, has already listed all property in the District, and many tax payers have received their notices. Valuations are not considered too high and the rate will be, or rather is, 25 cents for each \$100.00 valuation for the year. So far we have heard no complaint. In plain English our taxes for the year will not amount to any more than one month's water bill, and we didn't get much water either.

To date we have been doing our duty, so let's get ready for the task of building.

## Rotary Club Has Excellent Meet

Attendance at the Rotary Luncheon was good this week, despite the fact that Jim Horton is still entertaining the ladies in the South Sea Islands. Hawaii holds considerable attention for Jim, as his letter to the club would indicate. He will return to Eastland, he says—probably at his wife's request.

The program was in charge of Guy Parker, who introduced E. E. McAllister of the Soil Conservation Service. Two things that impressed the hearers of Mr. McAllister might be named as follows: He is a good speaker, and knows what he is talking about.

He urges more conservation in this area, and stated that when we conserve the soil, we also conserve water. Both are very necessary in this county, where rainfall is light and soil formations are far from favorable.

In looking over this broad expanse of country, Texans are apt to pass up the truth. They are prone to think we have all the good land we will ever need. This is not true, in some Western states, lands seems plentiful, but good land is not. In Texas there are 4 acres of good land for every man, woman and child, while the average of the United States is only 3 acres. Average for the entire world is 1.1 acres.

This means we should conserve and care for what we have, he says. Highway Engineer Milliken of Brownwood got an ovation when he told the group that his department has \$1 million two hundred thousand dollars on hand to spend during the next two years. As about half of this goes for labor, it means a lot of us will be able to keep on getting.

The club also voted to accept the Lions' Club challenge to meet them for a ball game Thursday night.

### Leather in Fashion Spotlight

Here's a girl whose whole appearance spells style. Her green tweed suit with boxed jacket is straight from the pages of Harper's Bazaar. And her accessories point up the editor's report that "leather is big fashion news." The zippered bag and cord-seamed gloves are made of tan pigskin—a perfect leather in color and texture to go with rugged tweeds.

### DOWN ON THE FARM

Oklahoma farmers of Beckham county who participated in an experimental deep plowing program this year are generally convinced the new method of cultivation is worthwhile. L. V. Strickland, PMA committeeman for the county, said Beckham county alone contains 120,000 acres of sandy cropland which could benefit from deep plowing. The new technique involves the use of a plow from 16 to 26 inches deep to bring up clod-forming subsoil—usually clay. The subsoil not only helps stop wind erosion but also supplies additional nutrients for cultivated plants. The federal government subsidized plowing of 7,000 acres in Beckham county after officials in

Washington decided the immediate return from such treatment could not be expected to offset the \$10 an acre cost. Owners of most of the farms involved said their production has been so low they are unable to finance the special plowing. Cotton planted on deep-plowed fields suffered terrific drought damage in the past few weeks, Strickland said. But he said cotton was far better developed on Aug. 1 on deep-plowed land than on land cultivated by old methods. And final yields will be much bigger from the deep-plowed fields despite the drought, he predicted.

Up to 5,000 4-H Club boys and girls in the Sooner state are expected to grow rabbits this year at the suggestion of the Oklahoma State Rabbit Foundation. The federation, with headquarters at Oklahoma A&M College, Stillwater, is working closely with the 4-H headquarters there. Rabbit raising has been approved as an official 4-H activity.

Turkey growers are urged to hold their birds off the market until they are fully developed. Carl Wick, agriculture poultry expert, said selling turkeys before they are finished costs the grower in two ways: He loses the advantage of higher prices commanded by good finish and quality, and when too many poor quality birds are being sold the seasonal markets are likely to slump. Animal husbandry specialist J. C. Hillier says Oklahoma's 1952 spring pig crop is going to market a month early because of earlier farrowing and improved feeding practices. The Oklahoma A&M College teacher says the pigs normally go to market in October.

### Accept Officer's Job If Offered Specialist Says

COLLEGE STATION, Sept. 8.—This is election time again. Unless you have a good reason for being unable to serve, accept the election in your club to the office of president. Bonnie Cox, organization specialist for the Agricultural Extension Service of Texas A&M College, reminds you of the importance of being a good officer. She says you joined the organization because you wanted to share its benefits and good times. It is only fair that you share the responsibilities of the program and activities. Your club honors and expresses confidence when electing you president.

If you are elected, remember to be gracious and tactful at all times. Understand the purposes of the organization and get as many people as possible to work to achieve these purposes.

You probably will find yourself doing most of the work outside of the meetings over which you preside. Plan each meeting carefully with other officers, committee chairmen and members taking part on the program.

Miss Cox suggests certain rules which will make for efficient meetings: Call them to order on time; follow the adopted order of business; put motions and announce results of the vote; conduct elections; appoint committees; see that business is conducted in an orderly manner and according to parliamentary procedure; be impartial in recognizing members who wish to speak; enforce rules as to time limits for speakers and adjourn the meeting promptly.

For further details on organization procedure, ask your county home demonstration agent for a copy of C-247, On Being An Officer.

### "Two-Bit" Shave And Haircut Is Inflation Loss

By United Press

The price of a shave and a haircut, in big cities at least, has risen tenfold since the good old days of the jingle about "two bits."

A spot check by United Press showed that barbershops in many large cities now charge \$1.50 for a haircut and \$1.00 for a shave.

In medium-sized cities, haircuts generally run about \$1.25 and in smaller towns \$1.00 or less.

A few scattered shops still charge the 50 cents that was the prevalent haircut price before World War II, but they are hard to find.

The only "two-bit" barber uncovered in the survey was 84-year-old Daniel Byers of Woodbury, Pa., a farming community of about 225 inhabitants.

Byers charges only a dime for a haircut and 15 cents for a shave.

A carpenter and cabinetmaker by trade, he took up barbering in 1915 and built his own shop, which he still occupies, in 1920. He said he is doing a "good business."

By contract Gov. Adlai Stevenson pays \$3.50 for a haircut. Stevenson used to pay \$1.25 at Jimmy Drew's barbershop in Springfield, Ill., but since he became the Democratic presidential candidate he has been having Drew come to the governor's mansion.

Drew said Stevenson doesn't tip. For one thing, Drew said, it's not customary to tip the proprietor, and Drew owns his own shop.

"And anyway," Drew said, "you know he's very careful about money."

### Alias Basil Willing

By Helen McClay

Copyright 1951 by Helen McClay. Reprinted through permission of the publisher, Random House, Inc. Distributed by NEA Service, Inc.

THE STORY: Jack Duggan, a private detective, is murdered after he posed as Basil Willing. Aged and blind Katherine Shaw, who employed Duggan, dies under mysterious circumstances. These events occurred in connection with a dinner given by Dr. Zimmer, a psychiatrist. Zimmer resumes the dinner and Stephen Lawrence, the poet, is poisoned. Basil brings Lawrence out of the poisoning by telling him that he must live for his daughter's sake. Basil questions Perdita, Lawrence's daughter, who answers evasively.

XXV

GISELA was awake listening for Basil's step. She came downstairs and found him mixing a mild brandy and soda in the library.

"I'm glad it's all right," she said. "I was worried."

He looked at her over the rim of his glass, admiring the grace with which she wore the white gown lined with rose.

"It's all wrong," he said drearily. "And I don't know why."

She curled up in one corner of the sofa to listen.

"And no birds sing," she said at last. "What about a place over-run by cats?"

Basil shook his head. "Remember Duggan's own cat. He wouldn't be alarmed if he found rats had driven birds out of some back yard or alley. Duggan is the obstinate piece that does not fit into the rest of the jigsaw. It can't be coincidence when two people die and one nearly dies after meeting exactly the same group of people at Dr. Zimmer's. It can't be coincidence that two of the three took cocaine regularly in small doses and that cocaine was used to poison them. The presence of cocaine in Katherine Shaw's body or Stephen Lawrence's wouldn't excite suspicion. That's why the murderer chose cocaine as the poison. But Duggan didn't use cocaine regularly. His murder was a blunder—a murder hastily improvised because of some emergency. The other two were carefully planned not to suggest murder at all. Duggan

habits are relatively unknown. On Aug. 28, a white-coated barber was called to Eisenhower's New York headquarters and cut his fringe, but the price was not reported.

In New York, haircut rates range from 60 cents to \$1.25 and shaves from 50 cents to 65 cents. Prices vary depending on union contracts in certain neighborhoods.

In the swank New York hotels, a haircut in your own room costs \$1.50 and a shave \$1. On the bowery, down-and-outers get their hair cut free at the Central Barber School.

The standard rate for a clipping in Boston is \$1.15 but many barbers are increasing business by reducing it to a dollar. One dollar can pay for a haircut also in New Orleans, Richmond, Va., Atlanta and Williamsburg, Va.

In the nation's capital, union barbershops charge \$1.25 for a haircut and 75 cents for a shave. Barbers in Washington and several other cities discourage customers from asking for shaves.

Members of the House of Representatives have two barbershops.

"It's too horrible! That quiet, gentle girl... She might take the law into her own hands in a moment of hysteria to spare her father an agony of pain, but poisoning an inoffensive stranger and an old friend of her father's in cold blood... Oh, no, Basil! She wouldn't. Until Lawrence was poisoned, you yourself thought it was Brinsley whom Miss Shaw asked Duggan to investigate. Can it be that now you are making the whole thing more complicated than it actually is? Isn't it just possible that Stephen Lawrence hinted he had tried to kill himself because he really had? And that it had nothing to do with Miss Shaw or Duggan?"

BASIL nodded slowly. "I can think of only one reason why Lawrence should suggest he had attempted suicide—fear that his daughter, Perdita, would be accused of an attempted mercy-killing. I don't believe it was accident that he knocked that bottle of codeine off the bathroom shelf and trampled the pills. I think he was afraid I might find his daughter's fingerprints on the bottle, or that I might check on the number of pills in it. His suspicion of her was so obvious to me that I made her drink some of the coffee she made before I let her give it to him."

"Even if he does suspect her, she may still be innocent. And surely she had no motive for poisoning Katherine Shaw or Duggan!"

"Suppose Lawrence confided in Miss Shaw that he had some idea Perdita was being tempted by the idea of mercy-killing? Isn't it possible that Miss Shaw engaged a private detective to investigate, hoping that once she had proof she could control Perdita by a threat of exposure? Wouldn't Miss Shaw do such a thing to save Lawrence the agony of dying in fear that his daughter might be tried and punished for murder after his death? And if Lawrence suspects all this, wouldn't he keep the secret after Katherine Shaw's death, since he couldn't go to the police without involving his daughter?"

"Oh, don't!" protested Gisela.

"Perhaps she wasn't telling the whole truth," ventured Gisela. "You can conceal a great deal by simple omission."

"Perhaps," Basil sighed. "But what did she omit?"

The first rays of sunlight were streaming through the windows that looked east. They could hear Juniper moving around the dining room across the hall and there was a pleasant fragrance of bacon and coffee. But neither had much appetite.

Gisela turned thoughtful eyes on her husband. "If only we could learn more about what happened at that dinner last night..."

"Perhaps we shall." He smiled reassuringly. "I shall be very much surprised indeed if we do not have a visitor this morning—Charlotte Dean."

(To Be Continued)

In the capital, they pay 50 cents for a haircut and 25 cents for a shave. In the new office building they pay 35 cents for a haircut and 25 cents for a shave.

Senators pay 75 cents for a haircut and 50 cents for a shave in their office building shop. In the capitol barbershop they pay nothing.

**Rheumatic Fever Enemy Of School; Disables Students**

AUSTIN—Rheumatic fever and its complication, rheumatic heart disease, probably disable more school age children than any other cause except accidents, declared Dr. Geo. W. Cox, State Health Officer.

Rheumatic fever is a well known enemy of children, still physician do not know exactly what causes it. It usually appears about two weeks after an infection caused by germs of the streptococcus such as tonsillitis, scarlet fever or sore throat. Some children appear more susceptible than others and this trait seems to run in families. Rheumatic fever can occur in any surroundings, but it is most common among children living in poor and crowded homes, and among children who do not get enough of what is called the protective foods such as milk, eggs, meat, butter, fresh fruits and vegetables and the like.

Rheumatic fever actually has

Dealer Inquiries Invited

no symptoms that are all its own. A few of the group of symptoms the doctor looks for are: persistent fever, poor appetite, tiredness, failure to gain weight, pallor, repeated nosebleed and especially pain and inflammation that moves from joint to joint.

Rheumatic fever is a disease that may affect any part of the body—skin, joints, blood vessels, heart or brain—but usually it is the heart that is most seriously affected. Unless they are prevented by good management, the acute attacks have a tendency to come back again and again. When this happens, the valves of the heart are usually affected. Sometimes so slightly that the child is not handicapped; sometimes so seriously that the child dies. The present day treatment of rheumatic fever is directed at two things. First, reducing the risk of heart damage from an acute attack by bed rest and appropriate treatment with drugs. Second, doing everything possible to prevent another attack after recovery from the first.

An Australian experiment has shown bread baked in cans was well crusted and tasty when opened 11 months later.

### Hearing Set In Mistake Death At Alice

ALICE, Sept. 16 (UP)—A lawyer and a tavern owner were held in jail Tuesday for a hearing Wednesday or charges of conspiracy in the "mistake" slaying of Jacob S. Floyd, Jr., 22.

The two men failed Monday in a bid for release in bond. District Judge Sam G. Reams, who was said to have been marked for death in the same plot that resulted in Floyd's murder, ruled that his court did not have jurisdiction in the case until after the examining trial.

That trial was scheduled for 10 a.m. Wednesday before Justice of the Peace Brown Fuller.

The two defendants, attorney Nago Alaniz and San Antonio tavern owner Mario El Turko Sapele, said they would appeal Reams' ruling to the court of criminal appeals at Austin.

Monday's hearing filled the court room to capacity, with many spectators standing through morning and afternoon sessions.

Floyd was shot the night of Sept. 8 in the driveway beside his home. Police believed his killer intended to murder Jacob S. Floyd, Sr., his father, an active political opponent of Sheriff George Parr, the "duke of Duval" county.

Alaniz called the elder Floyd the night his son was killed, and was warning him of a plot against his life at the moment the younger Floyd was being shot.

A third man, Alfredo Cervantes, was charged with murdering Floyd, but the charge was dismissed Monday. Special prosecutor Spurgeon Bell said it was dismissed "for technical reasons."

Cervantes had not been apprehended. Police believed he might be in Mexico.

**Service-Minded Family**

NEW YORK, Sept. 16 (UP)—John Simpson, 19, enlisted as an Air Force recruit Monday.

His brother, Sgt. Joseph Simpson, handled the enlistment. Four other sons of Mr. and Mrs. Claudine Simpson already are in the armed services.

### Free Exhibits For Fair Are Made Bigger

Major free exhibits just announced for the 1952 State Fair of Texas, Oct. 4 thru 19, will reflect what's new in science, industry, transportation and farming.

A new all-new Science-Engineering Show will include a WFAA TV Television studio in full operation, a one-man helicopter, an animated atomic engine model, a telescopic display by the Texas Astronomical Society, Defense Dept. exhibits and displays by the University of Texas and Texas A&M.

The 36th annual Southwestern Automotive Exposition, largest auto show in the South, will cover more than two acres. It will include \$1,500,000 worth of new cars—every domestic make and several foreign cars. At least two experimental, futuristic "dream cars" will be shown. Individual exhibits will feature style shows with pretty girls intricate cutaway mock-ups of the mechanical "innards" of engines and chassis construction and other unusual exhibits.

In a tent adjacent to the Automobile Building, more than 50 antique automobiles will be exhibited. The oldest will be an 1897 Stanley Steamer and others have such nostalgic names as the Maxwell. All are in perfect running condition.

### Teenage Snyder Theft Ring Is Broken By Cops

SNYDER, Sept. 16 (UP)—Trial of 10 teen-agers charged with car theft, burglary, forgery and theft under \$50 will begin Wednesday, Police Chief Bill Suttle said Tuesday.

Suttle said he thought the arrest of the 10 youths solved a wave of minor crimes in Scurry county over the last eight months.

The youths were arrested last week. They inflicted heavy damage on the juvenile ward of the city jail and two escaped. They were recaptured in Stamford.

The entire group was then transferred to the more secure regular prison ward.

The new Electric Building will house the most comprehensive display of modern household electrical equipment ever seen in one place before in the Southwest.

In addition, the amazing "House of Magic", a stage show proving that scientific fact can be stranger than fiction, will be presented free several times daily.

In the General Exhibit Building, the telephone company will demonstrate operator toll dialing, with a free long distance call at intervals. There'll be a miniature microwave relay television hook-up that shows how television crosses the country. A unique gadget will be the electronic "brain" guaranteed to beat any human opponent at the game of "tic-tac-toe."

Fourteen farm implement exhibits will cover 100,000 square feet of outdoor exhibit space, with free entertainment a feature at many displays. Other free exhibits are included in the Natural Gas Bldg., the Women's Bldg., Aquarium, three museums, the Hall of State and Agriculture Bldg.

### Spanish Flavor Americans Favor

Spanish Rice is truly a recipe originated by the Spanish. According to surveys, however, it is equally popular with Americans; and typical of the American liking for variety is the fact that it may have ground meat, fish, cheese, or any one of many other foods added to it, and still be called Spanish Rice.

The most American thing that has happened to make the old Spanish recipe really our own is a revolutionary new quick-cooking method. In eighteen short minutes from the time you decide to make it, you can serve it fragrantly steaming with all the richness and flavor that was formerly acquired only by long slow cooking of the rice and tomatoes.

Called Spanish Rice Pronto, it's a homemaker's dream made possible through the quick-cooking advantages of pre-cooked rice and tomato sauce. You'll be pleased and amazed at the tender single grains of delicious rice surrounded by the flavorful goodness of rich tomato sauce.

**Spanish Rice Pronto**  
1/4 cup bacon drippings, margarine, or butter  
1 medium onion, thinly sliced (about 1/2 cup)  
1/2 medium green pepper, diced (about 1/2 cup)  
1 1/2 cups packaged pre-cooked rice  
1 1/2 cups hot water  
2 cans tomato sauce  
1 teaspoon salt  
Dash of pepper  
1 teaspoon prepared mustard, if desired

Melt fat in saucepan. Add onion, green pepper, and rice, and cook and stir over high heat until lightly browned. Add water, tomato sauce, salt, pepper, and mustard. Mix well. Bring quickly to a boil. Cover tightly, lower heat, and simmer gently 10 minutes. Makes 4 servings.

### Truman Selected World's Best Hatted Personage

By Harman W. Nichols  
WASHINGTON, Sept. 13 (UP)—President Truman has been voted the world's best hatted man in the world.

He leads the poll among 10 contenders picked annually by Harry Rolnick for the Resist Hat Co. of Garland, Tex.

Two of the political contenders made Rolnick's sixth hat poll.

The breakdown is like this: The President, who refused to throw one of his best hats into the political ring, was first on the list.

Gen. Dwight D. Eisenhower, Republican presidential nominee, was next even though he had to make a quick transition from military to civilian headgear. His

selection of fine straw hats didn't do the straw hat people any harm.

Rolnick calls the No. 3 man, actor Robert Taylor, the "number one hat-throb" of the motion picture industry.

Fourth was John Jacob Astor III, financier and sportsman.

Fifth: Sammy Snead, the golfer. The hat folks love him because he never is without a topper around town or on the fairways.

We go abroad for No. 6. He is Anthony Eden, well-known British statesman who was recently married to Winston Churchill's niece.

Red Skelton, comedian, was seventh. He wears a beaver hat on his shows and, in his nervous manner, is quite an abuser of nice hats. He rolls them up, bashes them in and throws them on the floor.

Eighth: Adlai E. Stevenson, the natty fellow who is running for president on the Democratic ticket.

Ninth: Sherman Billingsley, the head man of the famed Stork Club in New York.

My old friend, Dizzy Dean, the former great pitcher, just made it by becoming No. 10. Diz usually leans to 8 or 10 gallon Texas numbers.

Here are a few tips from Rolnick on what a man should wear: If you have an "average face" wear a tapered crown without a pinch in the front and with a 2 and one-fourth to 2 and three-eighths inch brim.

A fat face calls for a 2 1/2 inch snap brim with a medium tapering crown. If he is short the crown should sport a wide band.

Square-faced men need a modified square crown with a modified

### Church Christ Leader In Rome Protests Closing Of Churches

ROME, Sept. 16 (UP)—Cline R. Paden, Texas-born head of the Church of Christ mission here, said Tuesday his lawyer was preparing a three-point court protest because police barred religious services at his temple last Sunday and surrounded his home with guards.

"We will protest the arrest of Howard Bybee of Sunday, the fact that police prohibited friends from entering my home and the fact that visitors from Canada and Germany were kept out in the rain and forbidden to enter my home," he said.

Bybee, of Manteca, California, taper at the top and a 2 1/2 to 2 3/4 inch crown.

Men with long faces should wear a tapering crown, low enough to accentuate the length of the face. The brim ought to be narrow, about 2 and three-eighths inches with a reasonable snap in front. On the long face, narrow bands look the best.

Italian authorities explained the police went to Paden's dwelling because his church was not registered as a religious organization. They said Paden was in Italy on a tourist visa and not as a minister.

However, Paden denied reports that 21 other branch Churches of Christ in the other parts of Italy had been closed.

"I have been in constant contact with all of them by telephone, and they have received no orders from the police," he said.

Paden said he went to the U. S. embassy Monday and asked to see Ambassador Ellsworth Bunker. He said he was told to submit a written report of his case. Meanwhile a conference was called at the embassy to discuss the matter.

**SOUTHWEST SCHOOL OF PRINTING**  
1808 QUAKER DRIVE  
DALLAS 11, TEXAS

The State Department in Washington asked the Rome embassy for "Full information" on the affair.

Paden said that recently when he returned from an out-of-town trip he found his church quarters had been bombarded with tomatoes.

Following Monday's conference, a U. S. embassy spokesman said: "Until we have more information there's really nothing more we can do, Mr. Paden has not com-

plied with the Italian regulations for registrations. We feel that he has not exhausted the possibilities open to him."

**They Forgot One Thing—**

. . . in the rush of other duties in setting up housekeeping—they forgot how large a part of their home investment was in the furnishings. After they had the big fire, insurance paid for rebuilding the house, but lack of funds to replace the contents left them a long way from having a liveable home. Don't make this mistake. Provide for adequate insurance to cover the household effects as well as all other insurable properties you may own.

### WOMEN'S ACTIVITIES

#### Two New Members Elected By Music Study Club

Mrs. B. W. Patterson and Mrs. J. Frank Sparks were elected to membership Friday evening at a called meeting of members of the Music Study Club at the Woman's Club.

Mrs. Donald Kinnaird, president, presided and ways and means of raising funds was discussed, with the group planning a rummage and bake sale September 27th.

Present were Meses. A. D. Dabney, Marene Johnson, M. A. Treadwell, T. E. Richardson, W. E. Brashier, H. M. Hart, A. E. Culbertson, D. L. Houle, Don Parker and Kinnaird.

#### Mrs. Murrell Is Storyteller For Saturday's Hour

Mrs. Arthur Murrell told three stories from "My Book House" at the regular story hour sponsored by the Thursday Afternoon Club each first Saturday of the month. The stories told included "The Twelve Months", "The Princess on the Glass Hill" and "Pigling and her Proud Sister".

Children present included Yvonne Green, Judy Watson, Linda Watson, Jean Watson, Patricia Ann Liles, Charles Foster, Joann Dorsey, Judy McMillen, Jimmie Ray Wright, Pat O'Brien, Linda Ranney, Sharon Day, Helen Lilley, Sharon Sayer, Cheryl Brown, Linda Linkenhoger.

#### Trio Of Girls Sing Sunday For Fellowship Class

A trio composed of Misses Sallie Cooper, Rotary Club Sweetheart, Alice Joyce Cushman and Lou Ann Corbell, accompanied by Miss Mary Ann Henderson, sang Sunday morning for the Fellowship Class of the First Christian Church.

These are very talented young ladies and the 32 members present enjoyed the program very much. Sam Gamble, program chairman, said.

#### LOOK WHO'S NEW

Toni Lu is the name Mr. and Mrs. J. M. Bradford, Jr., have given their little 6 and one-half pound daughter born Friday, Sept. 12 at 10:50 in the Eastland Memorial hospital.

She has an older brother, Jon Thomas Bradford, 3. Grandparents are Dr. and Mrs. J. M. Bradford of San Antonio and Mr. and Mrs. O. D. Sewell of Waco.

The maternal great grandmother is Mrs. W. T. Andes of Coleman and Mr. and Mrs. L. L. Sewell of Bangs are also great grandparents of the children.

Mr. and Mrs. Joe Pool are the parents of a daughter, Rebecca Jo Born Friday, September 12 at the Ranger General Hospital. She weighed eight pounds and twelve ounces and she and her mother, the former Miss Margaret Lancaster of Eastland.

Mrs. Lucile Caraway of Dublin and Mrs. J. H. Poole of Desdemona are the grandmothers of the new baby.

Mr. and Mrs. Geno G. Solignani of Mingus are the parents of a baby girl born Sept. 15, at the West Texas hospital. The baby, named Jo Ann, weighed seven pounds and four ounces.

A baby girl was born Sept. 13 at Ranger General hospital to Mr. and Mrs. Pat Moseley. The baby weighed six pounds and twelve ounces and was named Patricia Ann.

#### PERSONALS

Mrs. Frank Lovett has returned from a three weeks vacation trip which included visits to her children, Dr. and Mrs. Raymond Lovett in Camden New York and in Olney with her sons, Dr. Raymond and Dr. Poe Lovett and families of Olney and with her daughter, Mrs. Nell Cates of Breckenridge.

Colonel Don Brashier returned children. Anyone interested was asked to call Mrs. Taylor or Mrs. Donald Kinnaird.

### THE FALL GARDEN

COLLEGE STATION — The home garden has become an economic factor in Texas living during the past eight years. In 1944 more than one million home gardens were reported to the Agricultural Extension Service of A&M College, and the figure has hovered around the half million mark each year since. The total promise is to be higher this fall with food prices eighteen per cent above pre-Korean War figures.

John Hutchison, horticulturist for the Extension Service, says recent general rains will enable many families to renew efforts to have a successful fall garden. The gardner stands a good chance of harvesting many dollars worth of garden-fresh vegetables to save on the food bill and add variety and essential vitamins and minerals as well as downright goodness to fall and winter eating.

In most areas of Texas there are from 60 to 90 days of good growing weather during the later summer and fall. The horticulturist says, "for the maximum production of the widest variety of vegetables, make every day count." He recommends planting certain varieties in the fall garden that will mature before frost, with stand light frost, and those that will bear well with heavy frost.

Vegetables that will mature quickly include greenbeans, mustard, Irish potatoes, radishes and squash. The Tendergreen, Topcrop and Stringless Green Pod are varieties of green beans for fall planting.

The Tendergreen or Florida Broadleaf varieties of mustard will mature from 30 to 60 days. The Bliss Triumph is an Irish potato that matures within 75 to 90 days. For radishes, the Scarlet Glove is a quick maturing variety. The Early Prolific Straight-neck squash will be ready for eating in 50 or 55 days.

English peas, turnips, lettuce, cabbage, beets and Swiss chard are vegetables that withstand light frost in the garden. Varieties for fall planting include the Laxton's Progress for English peas, Purpletop and Shogoin turnips, Great Lakes for head lettuce and Salad Bowl variety for leaf lettuce. The early cabbage varieties are Copenhagen, Charleston Wakefield and Golden Acre. The mid-season variety is Glory of Enkhuzion and the late kind is Flat Dutch. The Detroit Dark Red beet matures in 60 to 75 days and the Lucullus variety of Swiss chard matures in 45 to 60.

Vegetables that withstand heavy frost are collards, onions, spinach and carrots. Fall varieties for planting are Georgia and Louisiana collards, Bermuda and Sweet Spanish onions, Bloomsdale spinach and Danver's Half Long, Red Core Chanteney and Imperator carrots.

Information on seed treatment, fertilizer, insecticides and methods of cultivation are available at all county Extension agents' offices.

The atomic theory dates back to a Greek philosopher named Democritus of Abdera (ca. 460-370 B.C.) who first developed it.
