No. 69

EASTLAND, TEXAS, FRIDAY, AUGUST 28, 1953

PRICE FIVE CENTS

## AROUND THE SQUARE

We consume quite a bit of coffee during the course of a day, and during our wanderings around the square. Some of it is pretty good, some bad, and the other worse. Of course this is based on the finding of our private "taster."

The kind we really like is seldom found, for it is about a thing of the past. We learned to make this type coffee from our grandfather. You can taste the coffee this particular brew, which is near a paste as it is a liquid, and it is good if you really like coffee.

To make it be sure and find the proper brand—Arbuckle or XXXX (old style) or straight green peaberry—the kind you roast yourself. Brown this to the proper shade, and then crush it in an old style coffee mill—lap or wall models, and you have something fit for a king—if he is man enough to take it.

Get out the old coffee pot—not a drip-later, (percolator, or any other of these fancy gadgets called coffee makers, but a pot with a spout on it. Pour in the amount of ground coffee desired and add a little water—not too much, and be sure you put in plenty coffee. Set on the stove—wood burner preferred, and bring to a boil. Then add another stick of wood to the fire, and let it boil some more. When you begin to catch a scorched odor the coffee is about done and is ready to drink unless you like it extra strong.

Be sure to keep it hot as it doesn't pour very well when cold.

All you need now is a cup and saucer and you are in for good time. No cream—no sugar, but be sure to get it properly sauced and blown. This tends to improve the flavor, especially if you drink from saucer, but care must be used else the coffee will get so cool you can't drink it—have to scrape it out with a spoon and eat it as you would mush.

This kind of coffee is real coffee. It will make hair grow on your chest and scales on your back. One cup is usually enough to satisfy a normal human, though big men have been known to consume two or three cups and still live.

After the cup is empty you may note a black lining, but this is not too hard to remove if you get at the job in time—immediately. Otherwise you may think somebody painted the cup with tar.

This is our excuse for drinking a dozen cups of coffee each day. Have to drink a whole creek of water to get one cup of coffee, and there are times when you get water found before you get a "coffee kick."

These waitresses and fountain girls are beautiful, and we must have them, yet we have never seen one who could make a cup of old 1880 coffee. We are not sure, and we love them all, but we can't blame us if we're drinking their alleged coffee and start in gulping hot sheep dip—it has more kick.

The way the world is going it won't be long until people will be consuming bird seed, lice extract and rose petals. They are selling buttermilk in capsules and insist that with a little water added you will have a balanced ration. We think this is a lot of "baloney." The Bible tells us that men will grower weaker and wiser, but we are not convinced that any scientist can replace a bowl of red beans with a small capsule.

This may be a day when we should all assume the role of being delicate and fastidious, but when it comes to the point where we are forced to substitute capsules for corned beef hash, when they start serving synthetic steaks instead of bull beef, and when they consider a guy a cannibal simply because he likes chili, we are going on a protracted hunger strike from which no man returns.

There are now about 45,000 motor courts to be found along the nation's highways, as compared to only 15,000 in 1940, reports the Automobile Club of New York. They are increasing at the rate of 2,000 a year and gross more than a billion dollars in tourist trade annually.

**HOUSE HOT?**  
For Chrysler Airtemp Coolers...  
McGraw Motor Company  
Eastland, Texas

**GONE FISHING**—Neighborhood small fry flock around Pres. Eisenhower as he leaves Doud House in Denver for Fraser, Colorado, and a week of fishing in his favorite trout stream, St. Louis creek.

## Individuals Are Hit Hard—

# U. S. Collects Record Taxes

The government collected a record-setting \$69,687,000,000 from the public last fiscal year, and the individual taxpayer accounted for most of the increase.

## Benshoof Rites Set Saturday Afternoon At 3

John Wesley Benshoof, 89, who resided just north of Eastland, passed away Thursday, Aug. 27, and will be buried in Eastland cemetery, Saturday, Aug. 29.

Funeral services will be conducted from the Hamner Funeral Home, Eastland, at 3:00 p.m. Saturday. A Christian Scientist reader will have charge of the service. Survivors include two sons, Dean Benshoof of Roosevelt, Okla., and H. E. Benshoof of Eastland; one brother, Dr. J. A. Benshoof of Seattle. Three sisters, Mrs. Rae Siebert of Spokane, Wash., Mrs. Lena Platt of Great Pass, Ore., and Mrs. B. H. Behrenda of Silverton, Ore. Also two granddaughters, Helen Browder, Waco, and Thelda Benshoof of Eastland.

## Scranton Test, New Producer Are Announced

A new test and completion of a new producer highlighted area oil news today. In Eastland County, John & Warren of Cisco have announced that they'll put down their No. 1 L. W. Morgan, a 1,600-footer, two miles north of Scranton.

Location of the new wildcat is 600 feet from south and 220 feet from east lines of Section 132, Block 3, H&C Survey.

Chester Imes No. 1 Robert Jackson, Section 27, Block 4, T&P Survey, Jackson Strawn Field, has been completed as a new producer in Stephens County.

The new producer gauged 240 barrels of 40 gravity oil per day through 18-64 choke with 400 pounds on casing and 350 pounds on tubing from 48 perforations at 1,760-92 feet. Casing was set on bottom at 1,845 feet. Gas-oil ratio was 450-1.

## Polio Cases On Increase Over Nation

The Public Health Service Thursday reported 2,258 new cases of polio last week, an increase of 256 over the previous week.

Thus far in 1953, polio cases stand at 15,978, compared with 19,830 cases in the corresponding period of 1952.

Only 11 states had more than 50 new cases, and comparable figures for 1952 included Texas 68-162.

The report listed 28 polio deaths last week—three in Oklahoma.

## Phone Walkout Settlement Is Not In Sight

This big walkout of Southwestern Bell Telephone Company workers in Eastland County, Texas and five other states went into its ninth 24-hour stretch today with little hope seen for immediate settlement of the strike.

Telephone service in Ranger, Eastland and Cisco continues on an emergency basis on both local and long distance calls of Southwestern Bell's subscribers. Other manually-operated exchanges in the area, manned by skeleton crews of supervisory personnel include units at Mineral Wells, Weatherford and Breckenridge.

The only two area Southwestern Bell exchanges not hampered on local phone service are the dial-operated units at Strawn and Gordon in nearby Palo Pinto County.

Negotiations were resumed in St. Louis Thursday in an effort to end the six-state strike, but at the end of the all-day session, a federal conciliator gloomily commented: "The situation is not too hopeful."

The company and union are deadlocked on one issue: Bell wants a clause in the new contract to prevent "quickie" walk-outs over grievances. The union terms it a "no-strike" clause.

Frank P. Lonergan, CWA vice-president in St. Louis, said he proposed that the employees be called back to work immediately and that the question of the disputed clause be settled later, the United Press reported.

"The company rejected the proposal," Lonergan said, "which now puts them (the company) in the position of being on strike against the public and the employees."

He said subcommittees of both parties "might" meet Friday to continue work on the problem, but no time or place for a meeting have been set.

T. E. Webb of Dallas, CWA director in Texas, said Thursday that "reports from all over the state show the company's no-strike proposal will not be accepted in any location." He said it had met with "almost unanimous disapproval."

Regarding action toward non-strikers, Webb issued this statement: "No incidents of violence have been reported and none are expected."

## W. E. Matlock Dies In Ranger This Morning

W. E. Matlock, 56, of Olden, and formerly an Eastland resident, passed away at a Ranger hospital at 7:30 o'clock this morning. He had been in ill health for some time, and had undergone four operations.

Hamner Funeral Home, Eastland, will have charge of funeral arrangements, which are pending word from a son, Tommy Matlock, who is in Japan.

Survivors include the widow, Mrs. Matlock, of the Olden address; three daughters, Peggy, of Brownwood, Shirley of Olden and Mrs. H. L. Schubler of Houston; one son, Tommy Matlock, who is with the armed forces in Japan, and one grandchild.

Twenty-five years ago, the whistle buoy marking Nantucket Shoals Lightship Station broke loose and, according to Coast Guard records, drifted thirty-three hundred miles in 19 months, circling between Bermuda and the Atlantic Coast, and sounding its whistle all the time.

**CHECK DOCUMENTS**—Singer Dick Haymes, center, and his attorneys Fred Marcus, left, and Robert Eaton check documents to be used as defense in deportation hearing in Los Angeles. The Argentine crooner faces deportation because he allegedly entered U. S. illegally after a visit with Rita Hayworth in Honolulu.

## 3-D PROCESS DATES BACK AT LEAST 2,500 YEARS, OPTOMETRIC JOURNAL SAYS

Three-D is at least 2,500 years old, according to an article which appears in the current issue of the Journal of the American Optometric Association.

Egyptian and Grecian works of art, pre-dating the Christian era show use of "interposition," which is still the most powerful of the many cues to perception of the third dimension in motion pictures, television, still photographs and paintings, Dr. T. R. Murrroughs, author of the article, said.

He described interposition as "overlay of contours—nearer objects overlapping or cutting off parts of more distant objects to make them appear in the background," when depicted on flat surfaces.

Dr. Murrroughs, associate professor of psychology, Northern Illinois College of Optometry, Chicago, described experiments in which various cues to depth perception were tested. He said that where one cue was pitted against others, interposition was found to be by far the most potent. It is commonly used even by amateur photographers and, in the view of Dr. Murrroughs, will continue to be one of the most effective, regardless of the elaborate equipment now being perfected by the motion picture industry.

Among other cues are color, light intensity and positions of shadows. In nature or in motion pictures, speed of motion is an important cue. A distant airplane, for example, appears to move more slowly through the visual field than a plane which is close.

"Further pastures actually are greener to the eye," Dr. Murrroughs said. "Colors lose their purity as light passes through the atmosphere, so that distant objects appear a darker shade of color than similar objects nearby."

"Bright sunlight falling on your lawn tends to produce a yellowish percept, whereas the other fellow's grass is always greener. Trees at a distance appear bluish-green."

The atmosphere also makes distant objects appear hazy, according to Dr. Murrroughs. In fog, a mountain top appears more distant than it actually is and this, Dr. Murrroughs said, may account for many airplane accidents.

In his article Dr. Murrroughs reports on perspective cues used by Leonardo da Vinci and other Renaissance painters. He said that until recently scientists assumed that man's perception of depth was dependent on binocular vision—the comparison of the different images received by the two eyes which in an adult are about two and a half inches apart. Binocular vision is now considered merely a check on other cues and insofar as can be determined one-eyed persons learn to perceive depth as accurately as those with normal vision.

Sengulls and fishes, according to Dr. Murrroughs, learn not only depth perception but also learn to compensate for refractive differences that occur when light passes into or out of water. Their judgment of distance is entirely monocular.

The ports of New York State handles some \$10 billion in goods during 1952. This is a post-World War II high and represents over two-fifths of United States foreign trade by water, rail and air.

# County Crop Outlook Rosy

Crops in Eastland and adjoining counties are in excellent condition today.

The outlook is considerably brighter for vicinity farmers and ranchmen than it has been for many, many months.

Of course, the devastating drought during the earlier months of the year took a toll because some farmers in the area found the fields too dry for planting and needed moisture came too late. However, according to a newspaper survey, only few cro-raiders are in this category.

The wheat and oat crops in Eastland County were above average and many raisers made from 15 to 17 bushels per acre.

Current crops—wheat, feeds and cotton—are doing splendidly. An inspection tour over the county indicates that many goober planters are optimistically planning the harvest of bumper crops. Good market prices for peanuts assure a very profitable '53 cash income from the goobers.

Feed crops, especially maize, cane and begari are maturing rapidly, and many thousands of acres have been planted to these varieties. No feed shortage should exist in Eastland County.

Cotton in the southern portion of the county is looking well. In fact, some of the lint might be described as very good, and thus far insects have done very little damage.

A reporter has visited the Brown, Callahan, Jones and Taylor county areas during the past week, and has seen plenty of cotton that will produce a bale, or better, to the acre, barring insect damage. In Jones and Taylor, farmers are dusting with poison in an effort to destroy insects. Whether they will be successful cannot be known at this time, though most farmers are optimistic.

Yes, Eastland and adjoining counties—contrary to the gloomy outlook prior to recent drought-breaking rains—are due to have fair crops this year. And in some sectors bumper crops will be harvested.

## HEAVY CROP OF PEANUTS IS DUE

Despite the great 1953 drought, Texas peanut raisers are expected to produce a bumper crop this year. That was the word following a Dallas conference of some sixty representatives of the industry.

Texas soil is due to yield an estimated 130,720,000 pounds of goobers, said C. H. Moseley, director of the Dallas regional Production and Marketing Administration commodity office.

The harvest in 1952 was 85,100,000 pounds, or about 55,620,000 pounds below the yield expected this year. The total peanut estimate for the entire United States in 1953 is 1,376,985,000 pounds, Moseley said.

Peanut harvests are due to be greater this year than last in all producing sections of Texas except the San Antonio district, where the drought is expected to take its toll.

Moseley pointed out at the conference that the 1953 government support price for peanuts is a maximum \$230 a ton for 70 per cent grade (mature kernels.) This is \$2 a ton less than last year.

Growers must have kept their acreage within federal allotments to be eligible for the price support loans, the director cautioned.

**JOYFUL REUNION**—Robert W. Toth, of Pittsburgh, Pa., former airman spirited to Korea by the Air Force to face charges in connection with the death of a South Korean, is united with his mother at Washington National Airport, Toth, arrested by the Air Force in Pittsburgh last May 13, after his discharge from service, was flown to Korea without a hearing. He was returned to this country by order of a Federal Court, which had ruled that the Air Force infringed on his constitutional rights.

## Dry But Not Hot Weather Due For Area

The weatherman changed his tune today.

No rain is anticipated for the Eastland County vicinity.

Prior predictions—for Wednesday and Thursday—of forecast showers for the area. But the rain-letting failed to materialize.

For today and Saturday, it'll be clear to partly cloudy and warm but not red-hot. Maximum heat: both afternoons—in the upper 80s or low 90s.

The Friday night low—about 70 degrees.

Considerable cloudiness with scattered thundershowers. That's what the U. S. Weather Bureau forecast for the North Central Texas area for today, and partly cloudy with scattered thundershowers also was predicted for Saturday. No important temperature changes.

For West Texas: Clear to partly cloudy Friday and Saturday with widely scattered afternoon and evening thundershowers. No important temperature changes.

## Nine Million To Be Spent On Highways

Nine million dollars has been allocated to a repair and improvement program for Texas' old highways, State Highway Engineer D. C. Greer reported.

The work will be done this winter and next spring and summer, covering 1,100 miles. One hundred sixty projects are scheduled in 76 counties.

Majority of the work will involve widening, reconditioning and resurfacing 504 miles of worn out roads.

This is the first allocation in a \$20,000,000 highway rehabilitation program.

## Public Can Aid By Watching Eating Places

"Texas health officials are making every effort to improve the sanitary conditions of public eating places, and in addition schools are conducted to instruct food handlers. Moreover there are laws, rules and regulations requiring the use of approved equipment and methods in such establishments. Nevertheless, one of the most powerful influences for sanitation is not being used and this is the public's unfavorable reaction toward dirty and insanitary places," states Dr. Geo. W. Cox, State Health Officer.

"The public cannot do the job entirely, nor can health departments bring about desirable and essential practices without the help of the public. As for hygienic practices, persons serving food and drink should be clean; should not cough and sneeze over the utensils and material served; should keep their hands away from their mouth and nose, hair and face; should handle all utensils by the outside instead of putting their fingers on the inside of service utensils. These are conditions a person can see, and unless these safeguards are practiced, disease may result."

Also, milk served can be appraised by the patron. Texas law requires that a milk cap state grade of milk and whether it is raw or pasteurized. However, if milk is brought to a patron in a glass, he cannot know whether it is from a graded supply or whether it is raw or pasteurized, but if served properly in its original container, with covered cap and legal label, the patron can secure from the label the information he should have before ever being willing to drink strange milk.

The patron should note sanitation containers in food establishments. Are the floors, walls, ceiling clean? Are tables and counters clean? Are pies and other ready-to-serve foods protected from

(Continued On Page 3)

## Ice Cream and Cake Party Was Great Success

The much-talked-about ice cream and cake supper held at City Park Thursday evening, was a success from every point of view, according to one of the sponsors of the Park and Recreation Board, recently organized.

"We had a good crowd at our watermelon feast, but the crowd last night was much larger," he said.

"I can not give the exact amount of money taken in, but the supper was a financial success. In fact we sold more than 30 gallons of donated homemade ice cream, and ran out, as I had to send to town for a supply of more bought cream."

This was the first public party since the board was organized, but others will follow until cold weather prevents.

# Eastland Telegram

Eastland County Record established in 1931, consolidated Aug. 31, 1951. Chronicle established 1887, Telegram established 1928. Entered as second class matter at the Postoffice at Eastland, Texas under the act of Congress of March 3, 1879.

## OLD MOTOR INSPECTION LAW DIED AT MIDNIGHT TUESDAY

The old Texas Motor Vehicle Inspection Law died last night at midnight after a somewhat turbulent existence. The measure, which saw heated debate in the last session of the Legislature, has been replaced by a modified version which calls only for the inspection of auto brakes, lighting equipment, horns, rear view mirrors and windshield wipers. It becomes effective today, but Homer Garrison Jr., Director of the Texas Department of Public Safety, has announced that the State Public Safety Commission has officially set the new inspection period for Sept. 15, 1953, through April 15, 1954.

George Busby, Chief of the Motor Vehicle Inspection Division of the Department of Public Safety, has said that there will be about 3,000 inspection stations ready to operate on the opening date.

"Trained mechanics who are well versed in the new law and its requirements will be set to go, and they will have an adequate supply of stickers and other materials on hand," Busby stated.

Garrison added that he could see no possibility of a "log jam" of motorists at the official inspection stations at any time unless too many people put off getting their autos checked until the last few days of the seven-month period.

"Lack of sufficient inspection stations plus last-minute waiting contributed to the long lines and lengthy delays under the old law in the Spring of 1952," Garrison said.

**LIKES THE SERVICE**—John C. Bland, who joined the Army at the age of 14, participated in the invasion of Inchon and the recapture of Seoul at 16, dons a Marine uniform at the age of 18. After his enlistment in New York, Maj. Carl W. Hoffman helps the young fighter don dress blues. Despite 1 1/2 combat experience, Bland will have to undergo all phases of Marine recruit training at Parris Island, S. C.

### NEWS FROM STAFF

Mr. and Mrs. J. L. Little, Mr. and Mrs. T. E. Pope and Mr. and Mrs. M. C. Hazard attended the revival services at Mangum Thursday evening.

Mr. and Mrs. Walter Duncan were Eastland visitors Tuesday.

The Weldon Hilliard family of Comanche, were the guests recently of Mrs. Hilliard's parents, Mr. and Mrs. W. E. Downing.

Several from this community attended the funeral of Mr. Alford at Eastland Tuesday.

Mr. and Mrs. Oliver Canet, Mr. and Mrs. Jim Coop, and Mr. and Mrs. Adams were in Eastland Saturday to attend trades day.

Rev. and Mrs. L. A. Thompson from Palestine, were the guests

Wednesday night and Thursday of Mr. and Mrs. M. O. Hazard.

Mrs. J. W. Mounce was taken to the hospital in Gorman Saturday afternoon for medical treatment. Last reports indicate that she is improving.

The Maurice Hazard family from Eastland were out Sunday afternoon visiting in the M. O. Hazard and R. A. Parker homes.

Mr. and Mrs. R. C. Reeves had some improvements made on their farm home last week.

Mr. and Mrs. Lonnie Crosby of Cisco, were the weekend guests of his parents, the Allen Crosbys.

Mr. and Mrs. Frank Pottee, from Caneay, were visiting with Mrs. Blanche Sims Sunday afternoon.

Baptist church in Olden Saturday evening.

Mrs. O. T. Hazard was visiting in Eastland Wednesday with her parents, Mr. and Mrs. W. H. White. Mr. White has been quite ill, but is showing signs of improvement. Friends in this community wish for him an early recovery.

Mr. and Mrs. J. C. Foreman, Kenneth and Allen of Olden, were visitors at the home of Mrs. Foreman's parents, Mr. and Mrs. Allen Crosby, Sunday afternoon.

Mr. and Mrs. M. O. Hazard attended the revival services at the

This community had a fine rain Wednesday, which filled the stock tanks, and will be of great benefit to pastures.

# Only FORD TRUCKS give you Driverized Cab Comfort

## to cut fatigue—make driving easier!

- New curved one-piece windshield—55% bigger
- New deeper side windows
- New weather sealed construction
- New 4-ft.-wide rear window
- New styling
- New overlapping windshield wipers
- New wider seat—2-way adjustable
- New non-sag springs
- New push-button door handles
- New counter-shock seat snubbers
- New rotor-type door latches
- New wider-opening doors

The Ford Standard DRIVERIZED CAB shown—as well as the DRIVERIZED DELUXE CAB—gives you all these features:

**...and in the DRIVERIZED DELUXE CAB sixteen additional customized features!**

Foam-rubber seat padding, thermacoustic headlining and glass wool insulation, dome light with automatic door switches... a total of 16 customized features are available at slight extra cost in the Ford DRIVERIZED DELUXE CAB.

**Completely NEW! World's most comfortable truck cab! Prove it yourself—make the 15-second SIT DOWN TEST!**

All it takes is just 15 seconds to discover comfort and convenience you probably never thought possible in a truck. Just sit and see—new visibility, new roominess and new seat comfort in the new Ford DRIVERIZED CABS that cut driver fatigue for safer, time-saving driving. Many other TIME-**SAVING** features, too, like new LOW-FRICTION power and new Synchro-Silent shifting to help get jobs done fast. See your Ford Dealer for a 15-second SIT DOWN TEST! See all the features that make Ford Trucks your best buy!

M. in its usual meeting place in the courthouse at Eastland, Texas, proceed to receive and consider competitive bids for the purchase of the following described road machinery: one, new caterpillar motor grader, 100 horsepower gasoline starting system, 12 foot mold board, 13.20x24 tires on front, and will at such time let a contract therefor if any bid be accepted. The court reserves the right to reject any or all bids. John S. Hart, County Judge by order of the Commissioners Court.

### INTRODUCING . . .

### THE 1953 RANGERS

(This is another in a series of pre-season newspaper sketches of members of the promising 1953 football squad, of Ranger Junior College.)

### Floyd Gibbs

Floyd Andrew (Bozy) Gibbs, 160-pound halfback, will be back this fall to bolster the secondary of the 1953 Ranger Junior College Rangers grid squad. The Newcastle flash, a 21-year-old gent, is five feet 8 inches tall and weighs a solid 160. He's blond-haired, blue-eyed and his ambition is to become a teacher. The son of Henry and Ethel Gibbs of Newcastle, the backfield wheelhorse is a product of Newcastle's great 1951 high school club which copped the District 11-A title and wound up the season with a highly impressive nine-win and only two lost record.

He was born in Olney but moved to Newcastle with his parents while a wee sprout; and attended Newcastle elementary, junior high and final high schools before enrolling at Ranger Junior College in 1952.

He had a baffle-up season with the Purple & White during their exciting Pioneer Conference campaign a year ago.

Gibbs has three brothers and one sister and is a member of the First Christian Church.

In addition to his grid ability, Gibbs also has plenty of talent as a cager. He played four years of basketball during his high school career.

RJC Coaches Dick Henderson and Sam Aills will count heavily on Gibbs this fall as they attempt to pilot one of the college's most promising squads in history to the 1953 Pioneer Conference title.

### PUBLIC—

## Far more miles per gallon on the trips YOU take!

On long trips, short trips, all trips, you get far greater gas mileage out of a '53 Chevrolet. It offers important savings in everyday driving over everyday roads!

Out to the golf course. Off for a week-end of fishing. Half across the country on a full-scale vacation. Wherever you go—however you drive—you're going to get there on a lot less gasoline in a fine new Chevrolet.

The truth is, this year's Chevrolet owners are enjoying the most important gain in economy in Chevrolet history. Plus more power. Faster acceleration. More "steam" for the steep hills.

That's the beauty of Chevrolet's two great high-compression engines—the new 115-h.p. "Blue-Flame" engine in Powerglide models, and the advanced 108-h.p. "Thrifty-King" engine in gearshift models. They squeeze much more out of regular gasoline—more miles, more pleasure.

Along with this greater gas mileage, you get lower over-all- upkeep costs. And Chevrolet is the lowest-priced line in its field. Drop in and let us show you how you'll be better off in every way with a 1953 Chevrolet!

\*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

### Desdemonians Go To Stephenville For OES Picnic

Members of the Desdemona chapter of the Order of Eastern Star and their families gathered in the City Park at Stephenville, last Friday night for a picnic and melon slicing.

Attending were Mr. and Mrs. Leo Williams and family, Mr. and Mrs. Bill Greenhaw and family, Mr. and Mrs. John Arnold, Mr. and Mrs. Jimmie Hecker and Mrs. Snodgrass, Mr. and Mrs. Murry, Mrs. Hardy Tidwell and children, Mr. and Mrs. C. Ragland, Mr. and Mrs. C. S. Eldridge, Mr. and Mrs. Maltby and family, Mr. and Mrs. Howard Wade, Mr. and Mrs. Hilary Seacy and family.

### Parents Honor Son At Party On Birthday

Mr. and Mrs. Aubrey Yeager honored their son Aubrey Clyde with a party, Saturday, August 22 in celebration of his seventh birthday. The children gathered on the lawn for games preceding the serving of the beautifully decorated birthday cake, and ice cream.

Bouncing balls were given as favors to each of the guests and pictures of the group were made. Out-of-town friends and relatives of the honoree were Jim Buck Hood, gunsite; Mitzie and Perry Parks, Abilene, and Clayton Edwards, Odessa; Eastland friends present were Carolyn Key Carolyn Ruth Dunlap, John Clay Bigby, Terry Gene Grimes, Georgia Beth Faircloth.

Adult relatives and friends present were Mmes. W. C. Floyd and Imogene Parks, Abilene; Mr. and Mrs. A. C. Edwards, Odessa and Mrs. W. L. Holmesly.

Mr. and Mrs. Leon Bourland and daughter Betty Sue have returned from a three days fishing trip at Lake Brownwood.

They were accompanied by Mr. and Mrs. Bourland Nabors, Mr. and Mrs. Morris Ford, Terry, David and Gayle.

They were joined overnight by Miss Margaret Bourland of Abilene.

### Pioneer Eastland County Woman Celebrates 84th Birthday

Mrs. W. T. Rutherford celebrated her 84th birthday, Sunday, August 23 at 205 South Walnut, Eastland, where she makes her home with her daughter, Mrs. Etta Harlow.

Seven daughters and one son were present for the celebration. Two sons, W. L. Rutherford of Crowley, Calif. and O. L. Rutherford of Canadian were unable to attend.

Present were Olen Rutherford, El Centro, Calif.; Mr. and Mrs. Ollie Burton, Monahans; Mr. and Mrs. I. J. Ellis, Fort Worth; Mr. and Mrs. B. B. Brummett and daughter, Silvia of Denton; Mr. and Mrs. C. E. Johnson and grandsons, Bobby Couch and Winston Johnson of Hedley; Ernest Johnson, Lubbock; Mr. and Mrs. Bill Clinton, Dan and Don Jobe, Mr. and Mrs. Dal Jobe and daughter Jana, all of Scranton; Mrs. R. L. Foster and daughter, Mrs. Joe

Graham, Fort Worth. Mrs. Rutherford spent a very happy weekend as some of her children and grandchildren arrived Saturday afternoon. Among the many lovely gifts she received were a Wright air cooler, gift of Mr. and Mrs. Olen Rutherford, a large hassock from the daughters, and a grand daughter, Mrs. Graham. She received two beautiful angel food birthday cakes, one from Mrs. Algie Skiles, of Cisco, who is a sister of Mr. Brummett, son-in-law of the honoree, and the other from Mrs. Foster, a daughter. Members of the Scranton Methodist Church, where Mrs. Rutherford still retains her membership, sent a pot plant.

She also received many cards and letters of congratulation. Among Sunday afternoon callers were Mr. and Mrs. Edd Townsend of Scranton. Mr. Townsend is a nephew of the honoree.

### Hospital Auxiliary Meet Hosted By Mrs. James Horton Wednesday

Members of the Women's Auxiliary of the Eastland Memorial Hospital, gathered at the home of Mrs. James Horton, president, for an informal business and social meeting, held on the lawn.

Three new committees were named, following a round table discussion of public relations and ways and means to publicize the merits of the hospital. Mrs. John Turner was named chairman of the committee to draft material for an informative folder to be given to patients and prospective patients. Mrs. Horace Horton was named chairman of a committee

to investigate possibilities of a new project suggested for the group. Mrs. Carl Timmons was a named chairman of the visiting committee.

Mrs. Horton, presided and gave each of the members an opportunity to express their views on the projects proposed. Present were Mmes. Millie Brittain, Horace Horton, John Turner, Milton Fuller, Milburn S. Long, Don Parker, Victor Cornelius, L. J. Lambert, Carl Timmons, Stella Jarrett, Vernon Red, Samuel Butler, Earl Conner, A. E. Taylor, Parks Poe, James Ward, Richard Jones, Frank Lovett, L. E. McGraw, H. B. MacMoy, and the hostess, who served bottled drinks to the group.

### Look Who's New

Reba Joy is the name Mr. and Mrs. David Joe Black have given to their daughter, born August 22 in the Eastland Memorial hospital. She weighed six pounds and 14 ounces. She and her mother, the former Miss Joyce Marie Carlile of Albany are reported to be doing fine.

Grandparents are Mr. and Mrs. Frank Carlile of Albany and Mr. and Mrs. Charles Black, 512 West Patterson. Mrs. Della Woodall of Albany is the great grandmother.

### PERSONALS

Patients in the Eastland Memorial Hospital include: W. V. Hurst, Mrs. John L. Ernst, W. K. Bouncer, Gorman; and Mrs. Clara L. Young; O. C. Holcomb of Cisco was transferred to a Fort Worth hospital this morning.

Mrs. H. C. Westfall went to Wichita Falls this morning to return her nephews, J. T. and Jimmy White to their home and to return her daughter, Bettie, who has been visiting in the White's home.

Mr. and Mrs. Tommy Hammon of Hobbs, N. M. are the guests here in the home of Mr. Hammon's parents, Mr. and Mrs. W. C. Hammons, 217 South Connellee.

Recent guests here in the home of Mr. and Mrs. Aubrey Yeager were Mmes. W. C. Floyd and Imogene Parks, Abilene and Mr. and Mrs. A. C. Edwards of Odessa.

### The Auto is a Dandy but a Death-Dealer—

... A lot of people imagine the automobile to be a wonderful plaything like a shining toy, but actually it is a death-dealing machine. The National Safety Council says the average motorist makes from 20 to 50 decisions an hour. What happens if only one of these decisions is wrong? In heavy going a driver is never more than one second away from an accident. So folks go right ahead but don't blame us if you never come back.

### SHRIMP — AMERICA'S FAVORITE SHELLFISH

Taps in delectable foods are rosy shrimp, French-fried in deep fat, they are crisp and succulent, and give a gala air to any occasion.

Shrimp is America's favorite shellfish—fresh, frozen or canned—and, according to the Shrimp Association of the Americas, the favorite method of preparation is French-fried. Before these little shellfish are fried, in accordance with the directions below, they have to be cleaned, of course, and that's not so hard as you might think. Hold the tail end in your left hand, slip your thumb under the shell, between feelers, and lift off 2 or 3 segments in one motion. Then, still holding firmly to the tail, pull the shrimp out from the remaining shell section and tail. With a knife, cut along the outside curvature and lift out the black sand vein, if desired. The vein is harmless, but some people object to the appearance of the black line.

### French-Fried Butterfly Shrimp

Remove shells from 1 pound raw shrimp, fresh or frozen, being careful not to break off the tail meat. With a sharp knife, slit along the back of the shrimp, cutting almost through.

Wash away sand veins. Salt shrimp on both sides. Beat 1 egg with 1 tbs. water in a small bowl. Mix 1/2 cup fine, dry bread crumbs, 1/4 cup flour and 2 tbs. paprika on a piece of waxed paper. Dip shrimp in egg, then roll in bread-crumbs mixture. Fry about 3 minutes, or until golden brown, in deep fat heated to 350°F. Drain on absorbent paper toweling. Serve with a sauce made by mixing and chilling 1/2 cup catsup, juice of 1/2 lemon, dash of tabasco, 1 tbs. horse radish. Makes 3 servings.

### Quick Shrimp a la King

Clean and cook 1 pound raw shrimp, fresh or frozen, by boiling in salted water 3 to 5 minutes. Cut cooked shrimp into small pieces. Add 1 can condensed cream of mushroom soup, 1/4 cup water, 1/4 cup chopped onion, 1/4 cup chopped stuffed olives, 1 small can peas or 1/2 package frozen peas, and 1 tbs. lemon juice. Heat thoroughly. Serve on rusks, buttered toast points or rice. Garnish with parsley. Makes 4 servings.

### Make Your Own Fall Wardrobe From Designs Right For You

Look your absolute best this fall with clothes that are distinctly your own because they have been made by you. There's a design to suit every type and shape among McCall's Patterns, and the most fashionable colors of the coming season are described by Helen Carlton in McCall's Magazine. In the August issue, she assembles a complete and varied wardrobe of suits, dresses, coats and separates for you to choose from:

"First choose your color, and pick the most becoming from a delicious palette of bold or subtle shades. You'll find just what you want in all sorts of fabrics—in wool and silk, in cotton, in man-made fibers and in blends. Here's a report on the colors that the most fashionable fabrics will be wearing this year:

"Deep brown to eggshell—for everything from your winter coat to your best party dress.

"A forest full of green—from the mossy muted olive tones to the deep brilliance of spruce.

"All the heavenly blues—royal and turquoise and hyacinth, but all with a softness of tone.

"A delectable range of reds—all with a warm rosy cast, from rambler-rose pink, through heater, up to true scarlet.

"Black will be worn with color this fall. You will find it in all kinds of fashionable fabrics—with multicolor stripes, vivid as a gypsy or restrained as a man's business suit; with white, in crisp prints, newest on corduroy, and in subtle woven patterns and stripes; with one color, printed or

woven in fascinating textured effects of black and bright.

"Make yourself a coat and suit. You'll have no trouble finding just what you want—the coat that goes best in line and color with all your clothes, the suit that's exactly your type. One coat with buttons on side-belts is easy and elegant. It slips over the new tulip-top dresses and suits.

"One such tulip-top suit is gently fitted above its stalk-slim skirt. The roundness of the bosom is emphasized by curved shoulders. A tulip-top dress, a French inspiration, has puff sleeves and a billowing skirt with unpressed pleats.

"Other suit and coat patterns include: an utterly elegant, coachman's coat with buttoned, flanged sleeves, a beautifully detailed collarless coat with pockets set in curved seams, a back-biased suit with double-breasted closing and a contour belt that buttons on, and a topper to make in a jiffy in four main sections plus pockets and facings.

"Make yourself a flattering dress. This fall's fashions are essentially slim but not tight. Soft fullness and gentle gores are fine for hips that don't take kindly to the straight and narrow. A low-back sheath plus an overdress looks

Our Message To The HARD OF HEARING Having trouble with your understanding? Let us help your hearing problem with a MACIO program of personal guidance and understanding. Drop us a post card or come by our office for a free non-obligated interview.

MACIO HEARING SERVICE Mr. and Mrs. Tim Spurrier Eastland Hotel - Eastland, Tex.

shoulder dress has no sleeves and a skirt full only in back. A scalloped sheath dress has a shaped sole cut double-thickness and scalloped too.

"Make your own separates. Mix them and match them to add up to costumes in the way that's more important than ever. A four-gored skirt has a fringe sewn in points, plus a stole with a pointed back and angled ends. A jumper and blouse are your smartest stand-bys. You can wear them together or let them go separate ways.

"A wrap-skirt made of one length of fabric plus a triangular stole gives you a terrific costume. A sweater-look blouse fits neat as a pin at waist and neckline. Its little sleeves are cut in one with the bodice. A weskit goes under a suit jacket or with a skirt, either alone or with a blouse. A tucked bib front adds an expensive look to a simple blouse."
