## Merkel Drug has new owners

After 65 years, the Merkel Drug Company will be under new ownership as Mr. and Mrs. Danny Woodall have purchased the store from W. D. Gamble, S. D. (Lige) Gamble purchased the store in 1919 and W. D. Gamble has been the owner since 1947.

Mr. Woodall comes to Merkel after serving as staff pharmacist at Hendrick Medical Center for five years. The native of Knox City is a graduate of Oklahoma State University. Mrs. Woodall is the former Jan Beck of Merkel and is a graduate of Angelo State University and is presently a nurse in the intensive care unit at West Texas Medical Center.

Danny told *The Mail* Monday, "We have been looking to buy a drug store for the past year because we wanted to live and work in a small community. We

don't really plan any major changes for the store and the beauty shop and soda fountain will remain in operation."

They took over operation of the store Monday.

Jan said "Coming back to Merkel is a great deal for me, it's the size of town we want our family to grow up in. I plan to keep my job at West Texas Medical Center until my pregnancy prevents me from working." They are expecting their first child in the early fall.

They also said that Dave would be doing some relief work at the pharmacy. The hours for the store will be 8 until 5:30 Monday through Friday and from 8 to 5 on Saturday.

Danny said "I have spoken with former classmates and pharmacists from other small towns and

they tell me the most important thing I can do is get to know as many people as possible. He added, I intend to do that and we hope to be very involved in the community.

W. D. Gamble's years with the store have spanned the soda fountain's curb service era to the present except for four years at Pharmacy School at the University of Texas and two years as an aircraft commander with the 490th Bomb Group during World War II. He said he is leaving the store with mixed emotions and said he remembers and appreciates his customers and friends but he also feels he has made his best efforts to answer their needs.

Gamble, along with Mrs. Gamble, Bronwyn and Karlen, express a big "thank you" and Dave added with assurance that he is leaving the store in good hands.

## One of those days, elections are

## Saturday, school meeting, ...more

by Cloy A. Richards

Take a good typewriter that will not work a middle desk drawer that gets pulled out too far a couple of times, add in a \$1,500 overing on the register and all of that equals the first day on the job for Danny and Jan Woodall, the new owners of Merkel Drug.

I went by Monday afternoon to have a chat with the two and to get a picture for the paper, and they said their first day had been pretty hectic, but they seemed to really be enjoying themselves.

Danny is a likeable person on first impression with a good sense of humor. Jan, as many of you already know, is a former Merkelite and said she was tickled to death for their having the opportunity to purchase Merkel Drug.

They also want everyone to know they are planning no major changes at the drug store and will keep the beauty shop and soda fountain in operation.

Danny said he was really looking forward to becoming part of the community and being involved in Merkel. They are both

in their late twenties and it does my heart good to see a young, optimistic couple in town that want to make Merkel their home. Those kind of folks usually make good citizens and any town needs more like that.

Jan said she really didn't know what her future plans would be, she's an ICU nurse at West Texas Medical Center and said she planned to continue her nursing duties, at least as long as her "special condition" will allow. (She's expecting a child in September, their first.)

Do yourself a favor and drop in and have a chat with them. I think you will be impressed by our town's newest business owners.

Local elections will be held Saturday and I don't know what to tell you to get the point over that you need to vote.

The school election is contested in all three board members seats and the city election has no challengers.

Polls will be open from 7 am until 7 p.m. and Merkel voters will cast their ballots at the Merkel

High Gym.

The school race takes on some local importance as the board has made no secret their intention to put a bond issue before the voters for new school facilities. Board members will also be implementing sweeping educational changes mandated by the state.

Saturday will be the last day for kids that want to play either softball or little league to register. Registrations will be taken from 9 a.m. until noon for both leagues at West Texas Utilities downtown.

The school board will be holding a special session Thursday night at 7 p.m. to hear suggestions from the architectural firm they hired to look into needs of the school district.

It will be the first public discussion of the proposed facilities.

The meeting is open to the public and the board meets in the High School Library.

Those dadgummed Cougars...

## Local elections set Saturday; 7 seeking 3 school board seats, city races uncontested

All three school board seats will be contested in elections set Saturday here. Polls will be open from 7 a.m. until 7 p.m.

City elections, also set for Saturday and there are no challengers for the three city council seats.

Seeking election in Place 7 of the school board are incumbent Ray Pack and challengers David Car-

ter and Larry Hellums. In Place 6 incumbent Jack Ferguson is being challenged by Earl Laird and in Place 5 incumbent, Jack Ferguson is being challenged by Jerry Dawson.

Polling for Merkel will take place in the Merkel High Gym for both the school and city elections. Voters in Precinct numbers 8, 9

and 10, which include Stith, Noodle and Tye, will vote in the Tye school cafeteria.

The three city council members seeking reelection are James McKee, Jerry Byrd and Ted Smith.

No one has publicly announced a write-in candidacy for either the school or city races.

Mesquite District of the Texas Federation of Women's Clubs.

The scholarship may be used at the college of his choice and Casey says he will attend Tarelton State and ma-

yor in Agricultural Education.

Casey will receive the scholarship at the Mesquite District meeting at the Kiva Inn in Abilene March 29.

## Are you happy with yourself?

by Russell McAnally

Are you happy where you are, and with what you are? Several years ago in one of the towns where I served as pastor lived a woman who was unhappy with where she was and what she was. She had lived in that town for two years but was not a member of any church in that town. She called me to see if I would visit with her concerning her problems. I did so but came away, really confused. She told me she hated the town in which we lived, and she hated the people who lived in the town. She hated her husband for taking her away from the grand city of Dallas and her few friends there. I took for granted that I was one of those people she hated as I also lived in that city.

The second visit didn't come out much better but I did get her to see that she was a part of her problem. It was complicated, however, because she did not want her problems solved—she wanted sympathy. All of my sympathy went to her husband and to the people she hated. I could see that she was about to crack up and would have to have help soon. She asked me to come back again and it was then that I got a little rough with her. I told her that she was her only problem and that she really didn't want help because she was getting so much pleasure out of her suffering.

As I started to leave she told me she was going to Dallas for the week end. Suddenly an inspiration came to me. I told her I wanted her to stay in town for that weekend and to go to see a certain person in our town. I refused to tell her anything about the person she was to visit, and told her that she had asked for my help and that this was the only way I knew to help her. She informed me that she was going to Dallas, and that perhaps she didn't want help.

The lady came to Church that Sunday but got away before I could ask her why she had not gone to Dallas. Three weeks later I went to see the lady again because I was interested in her, and her problem. She greeted me at the door with a smile and a warm welcome. I could see there

was a change, but I did not know what it was. She told me she had

not gone to Dallas and had gone to see the person I asked her to visit. She also told me she had been to see that other lady every day since her first visit. She thanked me for asking her to go see that person. The lady I asked her to visit had Arthritis so bad and a lung condition that she could not get out of bed and was not free from her

oxygen supply twenty four hours a day. This was the lady of our church we went to see when we were low in spirits. She always cheered us with renewed spirit. Two months later I was called to the home of the bed patient. I was told to sit in the living room and wait a few minutes. After a period of time the bed patient came

walking on her own, and away from her oxygen supply, into where I was, the unhappy lady was following close behind, now glowing. For three months she visited this lady every day, giving therapy and loving care. One year later the bed patient died, but the happy lady lived on loving her town people and husband.

## Starr holds volunteer meeting

by Mary Wimberly

On March 28th, a meeting was held at Heritage Hall for the Starr Volunteers. Twenty two people attended, and adopted Bi-Laws and formed a council and elected officers. Officers elected were: Pres.-Shirley McBride, Vice Pres.-Henry Brady, Sec.-Stephanie Mitchell, Treas.-Ester Carson, Reporter-Mary Wimberly.

The flu is about over in the home. Willie Foster is still in the Hospital, her condition hasn't changed.

Clyde Shouse has returned to the home from the hospital. We have two new residents in Opal and Walter Pruitt from Abilene.

Our sympathy goes to the family of Roy Green, he had been in the Veterans Hospital in Big Springs for quite a while.

Remember the 2nd Thursday in each month is Bingo night at 7 p.m. You are invited to attend and help the residents to play their game. They love Bingo, they are short on prizes, if any of you have old jewelry, talcum powder, or some trinkets that you are tired of come and bring them and put in Bingo box.

On the 3rd Thursday of each month, Buddy Smith and his Musical Friends come and play from 7 until 8. Come and hear some good ole time fiddlin'.

The Adopt a Resident program has been started in the Home. Come and visit and select some one you would like to adopt to do things for, on their birthday and not only on that day but any day you would like to bring fruit or juice or anything you would like to do for them would make them happy and will reward you in many ways. When you do adopt a resident check with Stephanie Mitchell, Activity Director and she will let you in on their special diets. This reporter had adopted two residents and Hugh and I challenge you to see what bles-

sings you will receive by doing for others.

A long time resident, W.C. Landers, has been admitted to Hendricks for heart problems. He is in ICU and Dr. Tran has hopes of getting him out and back in the home. We are all hoping he will be back soon as he is loved very much by all.

We appreciate the Church of Christ coming each Sunday at 9 for their service. We also would like to thank the other churches who take their time to come at 3

p.m. We must know ahead of time if you are coming for services so we can get the residents ready. We would also appreciate a call if you can't make a regular appointment.

There is a birthday party given each month at the home for those that have a birthday that month, usually around the 15th. Everyone is invited to attend and take part in the party and watch the little people enjoy their cake and punch and ice cream in the summer months.

# Heat related medical emergencies could cause major problems

by Vernon Wade EMT-P  
President, Merkel Emergency  
Medical Service  
Heat Cramps, Heat Exhaustion  
Heat Strokes

Our body generates heat every second of our lives. Under good environmental conditions, this heat is liberated fast or slow to keep the body at a normal temperature of 98.6 F. Constantly, we lose heat from the surface of the body, also as we breathe there is heat given off into the air. When we work hard we sweat, and this moisture on the surface comes into contact with air and it cools the blood on the surface of the skin. This process works sort of like an evaporative cooler.

When the air surrounding the body becomes equal to or rises above the body heat, all heat from the body must be lost by vaporization of the moisture or sweat from the skin surfaces. As the air become more humid, the vaporization slows down. So, when the temperature is 95 to 100 degrees, with high humidity and little or no breeze, the body's cooling process can get into trouble.

The first problem is heat cramps which usually affect people who work in hot environments and perspire a great deal. Loss of salt from the body causes very painful cramps of the leg and abdominal muscles. Heat cramps may result from drinking iced water or other drinks too quickly, or in too large a quantity. The signs of heat cramps are (1) muscle cramps in the leg or abdomen (2) pain with these cramps (3) weakness and

fainting and (4) sweating very much.

To provide care for heat cramps remove the person to a cool place and give them sips of salted drinking water (a teaspoon of salt to a quart of water) Call your doctor or ambulance. It could get worse and sometimes cause other problems.

**Heat Exhaustion.**  
Heat exhaustion may or may not be associated with heat cramps. It is brought about by the pooling of blood in the vessels of the skin. The heat is transported from the interior of the body to the surface of the skin. The blood vessels become enlarged and a large amount of blood is pooled in the skin. This condition, plus the blood pooled in the legs when standing, may lead to an inadequate return of blood to the heart and eventually a physical collapse. The signs of heat exhaustion are (1) weak pulse (2) rapid and usually shallow breathing (3) weakness all over, (4) pale, cool, moist skin (5) heavy sweating (6) dizziness (7) sometimes unconsciousness and (8) appearance of having fainted.

The provide care for heat exhaustion, remove the patient to a cool place and remove as much clothing as possible. Give cool water. If possible, fan them continuously to remove the heat but do not allow chilling or over-cooling. This could get worse and cause other problems so call your doctor or the ambulance service.

**Heat Stroke**  
Heat stroke is the most serious of the heat-related problems because it causes a disturbance of

the heat-regulating system, associated with high fever and collapse. Sometimes, this causes convulsions, unconsciousness, and even death. Direct exposure to sun, poor air circulation, poor physical condition and advanced age (over 40) bears directly on the tendency to heat stroke. It is a serious threat to life and carries a 20 per cent death rate. Alcoholics and heavy drug users are extremely susceptible.

The signs of heat stroke are: (1) Sudden onset (2) dry, hot and flushed (red) skin (3) dilated pupils (large) (4) early loss of consciousness (5) strong and fast pulse (6) breathing deep at first, later shallow and even almost absent (7) muscle twitching, growing into convulsions (8) Body temperature reaching 105 to 106 or even higher.

**Heat stroke** is a true emergency so contact your doctor or ambulance immediately. Move the patient to a cool environment and if possible, remove as much clothing as possible. Make sure they can breathe by opening the airway (Extend the head back). Reduce body temperature promptly by dousing the body with water or by wrapping in a wet sheet. If cold packs are small ice bags are available, place them under the arms, around the neck, at the ankles, or any place where blood vessels that lie close to the skin can be cooled. Protect them from injury during convulsions. Remember, this is a true medical emergency and you should call your doctor or the ambulance as soon as possible.

away with their second team track championship in a row. McCoy's record breaking long jump of 22'10" and a 100 time of 10.86 qualified him for the Texas

McCoy beat "some of the best tracksters in the state" according to track coach Eddie Lang. McCoy won the long jump, the 100, 200 and ran a strong leg on the 400 Relay that finished 3rd.

Cain was 2nd in the 300 Intermediate hurdles, 3rd in the 110 high hurdles and ran a good leg on the third place sprint relay team. James Wright had a personal best in the 800 and placed 2nd while Russell Lucas ran what Lang described as "an excellent anchor leg on the sprint relay team pulling the team from 5th to 3rd. A PUBLIC SERVICE MESSAGE FROM THE INTERNAL REVENUE SERVICE

## VOTE FOR JERRY W. DAWSON PLACE 5 ON SATURDAY APRIL 7 SCHOOL BOARD CANDIDATE

Q: What do you see as the most important need presently facing the Merkel ISD? How would you, as a school board member, act to meet that need?  
A: Researching the needs of this school and acting as an independent trustee to find solutions to these problems.  
I am concerned with what seems to be a high rate of turnover of our coaches and teachers. Merkel schools need to attract and keep good teachers and have a consistency in policy and faculty.  
Probably the recent publicized proposed changes to the Texas public school system curriculum will be a problem that most all school districts must eventually face. When a decision is made to implement these changes, proper planning and budgeting will be required to accomplish this.

Q: What special contribution do you personally hope to add by being a trustee on the Merkel ISD board?  
A: I would like our community to have trust and confidence that the school board is acting in the best interest of the Merkel schools and community. My experience in business management should be an asset to school business and I would like to strengthen our school by voting to spend our tax monies in a wiser manner.

## Catholic Church

Sunday, April 8th is the renewal date for the West Texas Angelus, our diocesan Newspaper. If you want to renew your subscription please turn in your renewal envelope by that date, or if you do not have a renewal envelope just place the money for your subscription and your address in any envelope and write West Texas Angelus on the envelope and place it in the basket. The Angelus prints news of the Catholic Church from around the world, in our nation, state, diocese and even parish. A full year's subscription is only \$5.

It is time to file your income tax report. If any of you want a record of your contributions to the church for the past year, come to the rectory at 1205 South Eleventh Street.

In a recent letter, Charles Stenholm urged all to take the time to register so that they could vote. He said he would like to see the 17th district show their concern for their government by having one of the highest voter turnouts during the 1984 primaries by having one of the highest voter turnouts during the 1984 primaries and general elections. We agree with him when he says that a democracy such as ours cannot survive without the active participation of its citizens. Please register and vote intel-

his absence, a poem of comfort inspired by their son's beautiful faith.

Reverend Martin placed the poem on the organ, and under the glow of inspiration, he composed a melody which suited his wife's words perfectly.

"Be not dismayed, what'er betide, God will take care of you..."

## Calvary Baptist

Calvary Baptist God Will Take Care of You

Who can comprehend the faith and the wisdom of a child? And how many lives are enriched because a young heart dares to express the voice of God as he hears it?

This beloved hymn, with its assuring message of God's concern and care, might never have come into existence if a minister's son had not expressed a solid logic based on belief in the goodness of our Heavenly father.

The occasion was a familiar one - illness in the family. The father, a Baptist minister by the name of W. Stillman Martin, was perplexed. He had accepted an invitation to speak at a certain church in New York City. His wife, however, was too ill to accompany him and he was thinking of cancelling his speaking engagement.

Sensing his father's concern, their nine-year-old son asked kindly "Daddy, don't you think that if God Wants you to preach today, He will take care of Mother while you are away?"

The father thought for a moment, then replied "Yes son, I know he will."

He kissed his son and wife goodbye and hurried off to minister the Word of God.

When he returned sometime later, he was happy to find his wife greatly improved. She handed him a poem in which she had written in

zales, Doug Boling, Ricky Flores and Kenneth Jowers won with a 2:54.0 Jowers again remained unbeaten in his events as he won the pole vault, high jump and the 200, all setting new meet records and also won the 300, barely missing that record. Ricky Flores broke the meet record in a blazing 600 and was 3rd in the 1200. Steve Leverich was 2nd in the 100 and the 200 hurdles. Gonzales was 3rd in the 100 and long jump. Eddie Proctor set a meet record while winning the 110 hurdles. Doug Boling captured 4th in the 200 and John McNeal was 5th in the discus. Coach Huskerson felt that there was some misfortune in that the 400 meter relay team false started and that a couple of people who could score did not attend the meet. He said the Badgers should come back at Coahoma Saturday. Huskerson added "Kenneth Jowers continues to work hard and has impressed his coach as well as Eddie Proctor and Ricky Flores."

After the false start of the 400 Relay, the Badgers were 36 points behind Brady and event after event the 7th grade Badgers got only 6 points behind going into the 1200 Relay. If Brady had finished 3rd in the relay instead of 2nd, the Badgers would have brought home the team trophy. Huskerson told his team that "this teaches us a lesson to not give up."

## MIDDLEBROOK MOTORS INC.

In this day and age when so many companies are offering automobiles for sale and each has such a wide selection of models to choose from, it is very difficult for an individual to decide where to go for a new car. All the companies advertise that their cars are the best, but who is to say what car is. Obviously so all the cars on the market today must have their good points or they wouldn't have survived the ups and downs of the business. We therefore can conclude that the real difference in buying a car is who the dealer is you buy it from.

The ideal dealer to buy a car from offers a fair price on the new unit as well as an honest dollar for the car you trade in, however, the most important factor is the service that one receives on his new car year after year.

The writers of this 1984 Review would like to point out a dealer that considers the most important part of selling a car the quality service he can offer you after the sale. We are talking about MIDDLEBROOK MOTORS INC. at 207 Swenson in Stamford phone 673-1611, dealers for the famous Oldsmobile, Pontiac, Chevrolet, Cadillac & Buick automobiles. See them today for a new or quality used car and you'll see why we say "Customer Consideration" is their byword.
