## Festival Parade Held Last Friday

The Cotton Festival parade, which had to be postponed on Oct. 15 because of the rain, was held last Friday with a very good attendance. The floats were too good to dismantle without ever being shown, and this arrangement seemed to work quite well. We were also fortunate that the McLean band had to go to a ball game at Memphis Friday night, so they stopped over here for the parade, and added greatly to it. We certainly appreciated their being here very much.

Heading the parade was the color guard, Virginia Browder and J. B. McDaniel. Then came the McLean High School band, the 1959 Queen Kathy Burns. His Honor the Mayor, the 1960 Queen, Mary Finchum, in the Moreman Grocery car, Royal Princess Judy Saunders and four other girls on the Moffitt Hardware float, Royal Princess Dolores Messer on the Cherry Drug car, the Garden Club float, Molly Floyd on the Johnson Dry Goods float, the City of Hedley float, the PTA float Cecilia Hoggard on the Hall Service Station car, Susan Cox and two other girls on the Hedley Variety Store float, Beverly Leathers on the Security State Bank's Rainbow of Cotton float, a group of ladies showing cotton fashions on the Sodalitas Club float, a 1961 Buick and a 1961 Opel from Chamberlain's, the 1919 Study Club float with Mrs. Ethel Kinslow and Mrs. Verda Hall, the West Texas Utilities float with Ma and Pa Kettle and a horrible looking brood, the Lelia Lake Lions trailer, the West Texas Gin bur spreader, Roger Messer and a donkey, the Old Settlers float with Pat Houdashell, Richard Rankin and a donkey, and the Civil Defense fire truck.

After the parade, the McLean band played several numbers, which everyone enjoyed very much.

In the float contest, the Hedley Variety Store took first, Moffitt Hardware second and Security State Bank third. For cars, the Harlan's Flowers-Johnson Dry Goods car won first and Cherry Drug second.

All in all it was a very satisfactory conclusion to the Ninth Annual Hedley Cotton Festival.

## O. C. (Sook) Sargent To Wed Nov. 26

His many friends here were grieved Friday afternoon to learn of the death of Oscar Charley (Sook) Sargent, 54, who passed away at noon Friday in a Groom hospital. ## ASC News

Any farmer who fails to take steps to prevent his Conservation Reserve acreage from becoming a source of spreading noxious weeds violates his contract, Chairman Cooke of the Donley County ASC said this month.

"The Conservation Reserve contract specifically requires the farmer to keep noxious weeds under control," Mr. Cooke said, "Failure to do so may result in the forfeiture or refund of the total annual payments for the farm plus the amount of cost-sharing for carrying out the conservation use on the particular field."

Commenting on questions received about the Conservation Reserve as a source of weeds, the chairman said that false impressions may result at times from weeds growing on land not connected with the program. In any farming area, he points out, there are areas of idle land, fallow land, roadways, and similar tracts that provide places for the development of weed growth.

## PREMIUM QUALITY TIRES

In designing a tire, engineers have a wide choice of materials and construction features with which to work. From these, the designer selects a combination that gives the finished tire the characteristics desired. SAFETY, from the time the Firestone Premium Quality Tire first was conceived, has been the overriding consideration in this tire's manufacture. No compromises to safety have been considered or made. This tire has no equal. In addition to its safety, it possesses many other desirable advantages... but SAFETY remains its outstanding difference from other tires.

### No other tire combines all of these safety features

- (A) Inner Safety Tire**  
Even an axe blade slash in the outer tire would not affect your safety. The "tire-within-a-tire" takes over, allowing you to come to a controlled safe stop.
- (B) Silver Safety Seal**  
An entirely new compound... the most efficient ever used in tires... smothers puncturing objects with an airtight grip. You ride unconcerned.
- (C) Premium Tread**  
The tread design produces a better hold on the road... resisting skids, swerve and slide and providing better driver control. Extremely long wearing too!
- (D) Firestone Rubber-X-101**  
This is the "hush-hush" rubber that silences road noise, provides superior traction, and "wears like iron."
