Giles Picnic

A large crowd variously estimated at from 400 to 1000 attended the annual Giles Picnic last Wednesday and reported a most enjoyable time. The principal item on the bill of fare was barbecued beef, which was barbecued by Flip Breedlove of Clarendon, and which of course means that it was barbecue at its best. Bob Ayers of Memphis served as master of ceremonies.

Charlie Crow was named as the oldest cowboy attending. He came to the Panhandle in 1892. Mrs. Bob Ayers received an award for the best sunbonnet, and Mr. and Mrs. Weldon Ross of El Monte, Calif., received an award for coming the farthest distance.

The residents and former residents of Giles are to be highly commended for keeping alive this annual reminder of their former days.

R. E. Kennedy

Funeral services were held Monday at St. Paul's Episcopal Church in Kilgore for R. E. Kennedy, 78, who passed away there Saturday after a heart attack. Mr. Kennedy was an independent oil operator and civic leader at Kilgore. A native and former mayor of Buffalo, Wyo., he moved to Kilgore with the discovery of the East Texas oil field in 1930.

He was a brother-in-law of Mrs. R. E. Darnell of Hedley.

Defensive Driving

The following is suggested by the Dept. of Public Safety:

Defensive driving is the ability to recognize an accident producing situation far enough in advance to compensate for it by your own driving. In other words, drive ahead of yourself and be prepared for the other man's actions.

One of the greatest faults of the American driver today is hiding behind the false security of having the right of way. Give the right of way, don't take it, and you will greatly assist in the reduction of traffic accidents.

Epitaph:

Here lies the remains of John O. Day

Who died defending his right of way,

Now John was right as he sped along

But he's just as dead as if he'd been wrong

COOLING

with the patented advantages of

PARAMOUNT COOLERS

Yes! This famous Paramount 5000 c.f.m. evaporative cooler gives you up to twice as much cooling because of these patented features:

— Many coolers lose as much as 70% of cooling efficiency because dust, dirt and salts clog the filters. Patented No-Clog Sta-Fresh Filters are guaranteed clog-proof, assuring 100% cooling efficiency all summer long.

— Filters saturated with water become heavy and often sag and settle from the top, drawing hot, unfiltered, uncooled air into the cooler which may create as much as a 70% cooling loss. Patented Grip-Lock Filter Holders are guaranteed to prevent sagging and settling of filters assuring 100% cool, clean, filtered air.

— Without correct water trough adjustment, sections of the filters remain dry, resulting in substantial cooling loss and costly service expense. Patented Free-Flo Visible Water Troughs with external adjustment assure 100% saturation, and 100% cooling for the entire life of the cooler.

— Added feature — Patented Window Closing Attachment lets you close and lock your window. Eliminates entry of dust, rain and drafts into your home.
