FFA Week

Austin, Texas—Special Governor John Connally has proclaimed the week of Feb. 16-23 as FFA Week in Texas.

In presenting the proclamation to Jerry Clark, President, Texas FFA Association from Buna, the Governor pointed out that the importance of agriculture in our State increases as Texas progresses, and it is vital to our well being that we train skilled farmers and ranchers to provide a plentiful supply of food in years to come.

Jerry Clark received the proclamation on behalf of the 39,000 active FFA members in 937 chapters and more than a quarter of a million former students.

The FFA is composed of boys who are studying vocational agriculture in the public schools in preparation for careers in farming, ranching and related fields.

In studying the science of agriculture, these Future Farmers are striving to improve this great industry for the welfare of all citizens.

E. B. Davis

E. B. Davis, 72, passed away Saturday, Feb. 2, at Cleveland, Okla. Funeral services were held in the Methodist Church there last Wednesday with burial in the Cleveland cemetery.

His wife, Mrs. Beuna Davis, preceded him in death only three weeks before, on Jan. 11. They were former residents of Giles for a number of years.

Survivors include 5 children and 15 grandchildren. He was a brother of Miss Jessie Davis of Hedley, Mrs. Ethel Miller of Ceres, Calif., and Frank Davis of Amarillo. All three of these attended the funeral services.

LIONS ROAR

Don't forget the Lions stag supper this week. There will be plenty of steaks. Come and get it or someone else will eat it.

March is Membership Development month. Any one getting a new member during March will receive as an award a new clutchback pen for tie or lapel.

Mrs. T. J. Cherry underwent surgery in a Memphis hospital last week.

Program at School

Another program from the Southern School Assemblies Agency will be presented at 9 a. m. on Feb. 19, at the Hedley High School. Admission will be 10¢.

This program will feature Captain Paul Dry, a ship captain of many years experience. Capt. Dry takes his audience on a cruise on the high seas, including his experiences in whale catching, and has a stage display of many artifacts used on board ship, making an interesting description of their uses on board ship.

This will be an illustrated lecture which everyone can enjoy for a very small admission price.

Resolution of Respect

Whereas the Supreme Architect of the Universe in His Infinite Wisdom has called our Brother D. B. Leach from the fields of labor to rest in that House not made with human hands, everlasting and eternal

Now therefore be it resolved that Hedley Lodge A. F. & A. M. No. 991 "Pause for a moment with reverent breath to speak of the angel whom mortals call death, the gavel has sounded which none disobey, and for friend true and tried we sorrow today."

Who shall ascend into the hills of the Lord,

Or who shall stand in His Holy Place?

He that hath clean hands and a pure heart.

Lord, who shall abide in Thy Tabernacle?

Who shall dwell in Thy Holy Hill?

He that walketh uprightly and worketh

Righteousness and speaketh the truth in his heart."

Be it further resolved, that we submit a copy of this resolution of respect to the family of our departed brother, a copy for publication, and a third copy to the secretary of Hedley Lodge A. F. & A. M. No. 991 to be regularly entered upon the minutes thereof.

Respectfully submitted,

drug prices...

Most modern drugs—the kind that get you back on your feet so fast—go down in price after they are introduced. Mass production helps pay for the costly research which helps develop these new medicines. And because they almost always reduce the total cost of getting well, modern prescription drugs are your biggest health value. We feature uniformly fair prescription prices, always.

NATIONAL ELECTRICAL WEEK
February 10-16 1963

The three million men and women of the electrical industry observe National Electrical Week each year during the week of Thomas A. Edison's birthday, February 11. National Electrical Week is a time when attention is focused on the contributions that electricity makes to our economy, our high standard of living, and our progress as a nation.

ELECTRICITY

America's Growth Power

Do you know that...

Today the United States has more power capacity than the next 5 nations combined and almost three times the power capacity of the Soviet Union.

West Texas Utilities has increased its electric generating capacity over 6 times since 1942.

In terms of residential use, the American home uses nearly eight times the electricity of the Russian home. Americans use twice as much for lighting alone as the Russian total.

The average cost of a kilowatt hour to residential customers served by WTU has decreased 35% in the last 20 years.
