BANK COMMISSIONER SHOT AT TEAGUE

When He Attempted to Close a Bank Officers of Institution Opened Fire on Him.

Teague, Texas, Aug. 28.—State Commissioner of Insurance and Banking John S. Patterson was shot and probably fatally wounded at 6:30 o'clock this afternoon in the lobby of the Farmers and Merchants Bank, when, it was said he started to post a notice on the bank's door announcing that the institution had been closed. State Banking Examiner J. E. McKinno was fired at three times, but no bullets took effect.

After the shooting officers arrested T. R. Watson, president; his two sons, W. R. Watson, cashier, and J. E. Watson, vice president. They were later released on bonds and their examining trial on charges of assault to murder were set for tomorrow.

Commissioner Patterson was immediately removed to a hotel, where at 10 o'clock tonight physicians said his condition was grave and the chances for his living until morning were slight. One bullet penetrated his right lung.

Commissioner Patterson was about 45 years old and lived in Austin.

A HIND GEAR ON AN OWENSBORO

An Owensboro Wagon is built from "start to finish" in a strong, substantial way just like the hind gear shown above. We have these high grade Wagons for you and we are anxious to have you come in at once and see how you like them. Look at the above gear. Don't you like that sturdy way of ironing? In every place where a brace is needed you will always find a good one on an Owensboro. Come in and see the wagon itself though is the very best way to tell. We want you to own an Owensboro—and the Owensboro is the best wagon to own. Ask any user why.

Cason, Monk & Co.

Mr. S. P. Smith has returned from a visit to Pleasant Hill, La., and brought back with him some souvenirs of the battle of Pleasant Hill in the war between the states. In his collection he has some grapeshot, musket shot, and other shot used by the soldiers in that great conflict. Some of them are mashed in various shapes, while others are in perfect preservation. These

shot were picked up in the vicinity where, it is said, that much shot like them can still be picked up. Mr. Smith is very proud of his souvenirs, and the collection is quite interesting to lovers of history who know about the great battle that was fought at that place.

PRESIDENT WILSON CONGRATULATES HIM

Washington, Aug. 29.—Expressing the thought that his renomination in the Texas primaries Saturday is the occasion for nation-wide rejoicing. President Wilson this afternoon sent Senator Culberson the following letter of congratulation.

"My Dear Senator: "Your extraordinary success at the primaries in Texas has given me very deep pleasure. It is very delightful that you should have been so sustained by your own people and I congratulate you with all of my heart. The party also is to be congratulated on the prospect of your remaining at the position in which you have rendered such conspicuous services. "Cordially and sincerely yours, "WOODROW WILSON."

ANOTHER LUFKIN FIRE.

The information is gleaned from the Lufkin Daily News that the residence of J. F. McCarter, together with all household effects, were destroyed by fire Sunday night.

Judge Jas. I. Perkins of Rusk, accompanied by Mrs. Tom Finty and daughter, Miss Evelyn Finty, of Dallas, motored over to the city this morning and are guests at the home of Judge Perkins' daughter, Mrs. Tom Summers. They will return to Rusk tomorrow, and will be accompanied by Miss Julia Perkins, who has been here several weeks.

As The Sentinel predicted a
few days ago, the news comes
from Washington that President
Wilson will ask congress to take
a hand in the threatened railroad
strike if the railroad people and
their employees do not come to
some agreement—and if he asks
congress to help him he
will have whatever support he
needs in the matter.

The Sentinel publishers ack-
nowledge with grateful apprecia-
tion receipt of season tickets to
the East Texas Fair, to be held
at Timpson—and we are going
to use them. That bunch of
Timpson livewires are going to
pull off the greatest fair ever
held in East Texas this time, and
no loyal East Texan can afford to
miss it.

The Sentinel is in receipt of
the catalogue for the Tenth An-
nual South Texas Fair, which
will be held at Beaumont, No-
vember 10-18. Beaumont never
fails to pull off a good fair,
which proves a good advertise-
ment for all this section of the
state, and we commend it to
those who wish to attend some
fair this fall.

The new grist mill at Lufkin
is "filling the bill" as we glean
from the Lufkin News in the
following: "The mill mentioned
has already proven the one
thing needful, and the people in
this locality are being regaled
with new corn dodgers suggest-
ed above. Home-comers are go-
ing to cry for it, once they be-
come acquainted with it."

The Lufkin News of yesterday
editorially remarks: "The Texas
Motor Co. 'are' carrying an ad-
in today's issue," etc. We have
no disposition to question the
correctness of the statement—
but is the "grammar" correct
and perfectly euphonous, Dock?
If so, we have been getting a
little "is" in where "are" should
have been used all these many
years, and it must be a fact that
a fellow never gets too old to
learn.

The Farmers' Union president
who has been sending telegrams
to the president insisting that
the farmers should also have an
eight-hour day is more concern-
ed in the notoriety he will re-
ceive than the benefit he hopes
to bestow upon these worthy
people. The farmer is master
of his own situation who works
when he pleases and quits when
he pleases, and any restrictions
imposed upon him would be re-
sented, both because of the priv-
ilege he enjoys and for the fur-

ther reason that it is necessary
for him to work "long hours"
some days while at other times
there is not so much demand
upon his time. It was also an
intolerable intrusion upon the
president's time when he was en-
gaged with a problem that re-
quires all the patience, brains and
diplomacy he can command to
save the country from the great-
est calamity that was ever
threatened.

There is a possibility that the
railroad people and the men who
work for them will become so
arbitrary in their relations that
we will have to adopt govern-
ment ownership to save the
country. In these days of so
much commerce and our ab-
solute dependence upon the rail-
roads to handle the traffic of
farm and factory, a shut-down
can not and would not be en-
dured.

Brother Lively of the Lufkin
Daily News makes a perfectly
satisfactory explanation of the
"grammar" of which we recent-
ly complained, which saved us
both in the following: "Broth-
er Gibbs, there is a time to go
slow and there is a time to speed
'em up a bit. In this instance
you should not have been in such
a hurry. Take another look at
the item and note that it comes
under the head of advertising,
the paper receiving the cash for
the ad, together with instruct-
ions to follow copy. Why
would you have done under the
circumstances?—There is a
happy thought, however, that no
one was hurt."

All honor to the Deutschland!
Notwithstanding great battle-
ships were trailing the nifty lit-
tle craft, and lay in wait for her
to clear the American deadline
upon her return, when they
would devour her with their
mighty guns, she has made a
business visit to the United
States, and returned to her own
shores safe and sound. It is a
new chapter in the military and
commercial life of the world
which has baffled the "mistress
of the seas," and another verifi-
cation of the old adage that
"necessity is the mother of in-
vention." May her tribe never
grow less.

It is about time we were hear-
ing from Washington in our
postoffice matter again—or
rather it is time that actual
work was in progress in the
erection of the building for
which appropriations were made
long ago. As congress will soon
adjourn and our representatives
will return to their homes for a
vacation, it might be well for
our citizens interested in the
matter to address communica-
tions to our congressmen and
senators asking them to make
some investigation of the mat-
ter and get behind the proposi-
tion, before leaving. It seems to
have been "pigeon-holed," and
a little activity might bring it to
life again.

The election of Senator Cul-
bertson Saturday was as much
of a vindication of the policies
of the National administration
as it was a victory for the dis-
tinguished senator. Mr. Culber-
son is a part of the administra-
tion, and as such has been thor-
oughly in line with all the pro-
gressive measures which have
been up for consideration, while
his opponent, Mr. Colquitt, has
seized upon every opportunity to
embarrass and criticize the work
and policies of our leaders. In
defense of the grand old party
and in retaliation, the imperish-
able democracy rose up in its
might, as it always does in an
emergency, and crushed the as-
pirations of the gentleman of
doubtful politics.

REPUBLICANS WILL RUN
DR. A. E. SWEATLAND

The Beaumont Enterprise is
authority for the statement that
the republicans of this district
will name Dr. Sweatland of this
city as a candidate against Mar-
tin Dies for congress. Of the
matter The Enterprise says:

"Dr. A. E. Sweatland of Nacogdoches, will be selected by the
Second congressional district
convention as the republican
candidate for congress, accord-
ing to local republicans. He will
run against Martin Dies, dem-
ocrat, who was nominated in the
July primaries. The republican
congressional convention will be
held in Beaumont, Saturday,
August 26. C. L. Rutt, chair-
man of the county organization,
yesterday said the convention
would convene at 10:30 o'clock
Saturday morning, but the hour
may be changed until the after-
noon. Besides selecting a candi-
date to make the race for con-
gress the convention will select
both a chairman and secretary
of the district organization to
serve the next two years.

"There are fourteen counties
in the district, all of which have
republican organizations save
three. These are unorganized
from a republican standpoint.
Jefferson county will have thir-
teen votes in the convention.
Rutt stated yesterday that Dr.
Sweatland would attend the con-
vention, and he expected other
prominent republicans from over
the district. Dr. Sweatland has
never held office. He is well
known in his community and
over the district as a staunch re-
publican."

DO YOU KNOW OF ONE.

An exchange asks:
Do you know of a mail-order
house that has ever contributed
one cent in taxes or otherwise
toward defraying the expenses
of this city?

Do you know of one that has
ever contributed a cent toward
our churches or our schools?

Do you know of one that has
ever contributed a cent to the
welfare of the community in any
manner, shape or form?

Do you know of one that has
done anything but pull money
out of the community—money
which never comes back?

If not, why do you continue to
enrich people who never do any-
thing for you and yours, and
yet demand their pound of flesh
in advance?

A wise nut has discovered that
it is unhealthy for two persons
to occupy the same bed, regard-
less of the fact recorded in the
Book of Books that Moses slept
with his forefathers, which was
five to a hill, and then lived to
the ripe old age of seven or
eight hundred and twenty years.
Another savior for the health of
his brethren has learned that it
is unsafe to ride a horse that an-
other fellow has ridden or to at-
tend church where other people
attend. The kiss has been
branded as a tempter of death
in all manner of diseases. Hand-
shaking is now considered ex-
tremely dangerous. The Cros-
by Times thinks if things keep
up it will be unhealthy to be bur-
ied in the same graveyard with
other people. The only place a
person can be safe from disease
or getting run over is in a store
that doesn't advertise.—Trinity
County News.

With dollar-and-a-half wheat,
fifteen-cent cotton, and other
products of the farm bringing
good prices, the country can't
stand for a shut-down of the
railroads just at this time. It is
the farmer's inning, and he
must have the benefit that right-
ly belongs to him or know the
reason why.

COTTON SHOULD PAY
BETTER.

The cotton crop of the South
represents an enormous amount
of wealth. It is a great staple
not only for farmers who pro-
duce it, but for merchants, bank-
ers, jobbers, railroad men, pro-
fessional men and others de-
pendent upon the wealth it rep-
resents. As an article of manu-
facture and commerce its in-
fluence reaches the remote parts
of the world.

It is said that in normal times
about eight pounds of cotton per
capita is consumed in the world.
The United States alone con-
sumes about 30 pounds per
capita. Two-thirds of all the
cotton produced in the world is
produced in the South. The crop
is our barometer of prosperity.

The price of cotton is of para-
mount importance, not only to
the producer, but to the business
men of the country. There is
always anxiety among growers
and business men in general
when the cotton is ready to be
marketed. And it is well that
this is true for the cash repre-
sented by the cotton makes or
injures their business.

Isn't it strange that a country
that produces a large per cent
of a crop and is so dependent upon
its sale does not sell to a better
advantage?

There are generally speaking
two ways that we may get more
for our cotton, both of which are
possible and practical. We can
reduce the cost of production
and we can sell it for a better
price. We can at least sell at
such a time and in such a man-
ner that the speculators will not
get the benefits of better prices
at our expense. And we can
store, hold and market in such a
way as to reduce selling cost and
save in cost of marketing.—
Farm and Ranch.

WOE TO THE PRINTER.

The danger to thousands of
printers may be thrown out of
work because of the high price
of white paper is said to be a
question seriously concerning
the delegates to the sixty-second
annual session of the Interna-
tional Typographical union
which began in the city of Bal-
timore on Monday. John W.
Hays is secretary-treasurer of
the union. He is reported as
having said the alarming short-
age of print-paper is making it
difficult for many newspaper
corporations to continue busi-
ness and that in some cities
there was talk of consolidating
two or more plants to reduce
working forces and expenses.
The American publisher is face
to face with a crisis.—Fort
Worth Record.

Boys and young men, those of
you who expect to succeed on the
farm, now is a good time to com-
mence on a small scale to get
out of the old, long-trodden rut.
This is a good live-stock farm-
ing country. But stock must
have feed and grazing crops.
We have Bermuda, the best
grass in the world for spring,
summer and fall. We must have
green pasture for the winter.
Bur clover is one of the best clo-
vers for the South. It should
be planted soon—not later than
the 20th of September to be sure
of its standing frost. It never
has to be planted but once, if
permitted to seed itself late in
the spring. It grows on a Ber-
muda sod, when once it is start-
ed, but in order to get it started
the seed bed should be well pre-
pared and the seed planted shal-
low. We are appealing to young
men who expect to make the
farm worth while, and because
young men are naturally more
progressive than the older peo-
ple. Right now is the time to
order the seed.—Col. Milner in
Rusk County News.

FOURTEEN MISTAKES OF
LIFE.

Judge J. A. Rentoul of the city
of London Court gives the fol-
lowing as "Fourteen Mistakes of
Life."

Setting up one's own standard
Of right and wrong and expect-
ing others to conform to it.

Trying to measure the enjoy-
ment of others by our own.
Expecting uniformity of opin-
ion.

Looking for judgment and ex-
perience in youth.

Endeavoring to mould all dis-
position alike.

Estimating men and women by
their nationality or by any other
outside quality.

Refusing to yield in unimper-
tant trifles.

Looking for perfection in our
own actions.

Worrying ourselves and oth-
ers about what cannot be reme-
died.

Not alleviating as much suf-
fering as we can.

Not making allowances for
traits in others, apparently un-
fitting themselves for success in
life.

Considering anything impos-
sible that we ourselves cannot
perform.

Refusing to believe that our
finite mind cannot grasp.

Living as if the present mo-
ment would last forever.

LOGANSPORT OIL FIELD

Logansport Record.
The local oil situation is look-
ing much better this week, since
on Tuesday morning the Boles
Bros. Well No. 1 was brought in
and various estimates have been
made and most of them are that
the well will produce from 500
to 1000 barrels per day when
put in operation.

The Logansport Oil Co. has
made a balling test of their well
recently completed on the Frost-
Johnson lease. The gas pres-
sure being too strong to permit a
thorough test with a bailer, it
was thought advisable to close
the well in for the present. They
have about 35 feet of pay sand,
and the well looks good for 500
to 1000 barrels of light gravity
oil.

T. H. Bass from Houston, one
of the most prominent oil men
in Texas, has been on the ground
personally supervising, and
while the well has not been fin-
ished, as he would have it to
make a thorough test, he is con-
vinced of a good producer.

The Crawford well is still
showing considerable gas pres-
sure, while the Citizen Oil & Gas
Co., Well No. 1, is still flowing
quite a bit of oil, it is the inten-
tion of the directors to put a
standard pumping rig in this
well and make the proper test.

In fact, things are taking on
that liveliness that is current
around the old oil fields, and
many new people are seen here
every day, some trying to se-
cure leases, while others are try-
ing to buy outright.

Three new wells are to be
drilled at once, operations to be-
gin immediately. It is certain
that this is a good field, since
the Shelbyville well has been
brought in and is said to be pay-
ing. Let the good work con-
tinue and the oil flow.

Cotton was selling for fifteen
cents in Nacogdoches today,
which brings to us the happy
realization of what many have
been looking forward to for
some time. The crop has been
cut short with the boll weevils
and other troubles, but with the
fine price for the staple and the
seed, together with the bumper
crop of feedstuff that is growing
in the county, the smile of pros-
perity that won't come off is
with us, and we have much to
be thankful for.

COTTON CONDITION
SHOWN IN REPORT

Washington, Aug. 23.—Cot-
ton continues in very unsatis-
factory condition in practically
all of the Gulf states, but show-
ed some improvement during
the week which ended yesterday,
according to the national weath-
er crop bulletin issued today by
the weather bureau. Reviewing
conditions for the week, the bul-
letin says:

"There was some improve-
ment in cotton in central and
northeastern districts and the
abundant sunshine and small
amount of rainy weather pro-
duced favorable effects in most
eastern sections. The crop is
still in a very unsatisfactory
condition, however, in practi-
cally all of the Gulf states
to the earlier excessive heat."

"The crop deteriorated
slightly in Oklahoma and the
crop in northern Arkansas was
almost entirely ruined."

Hot and dry weather injur-
ed crop in northern Arkansas,
but in other portions of that
state, cotton is considered good
to excellent. Frequent showers
in southern Texas and contin-
ued hot and dry weather in nor-
thern and central Texas produc-
ed unfavorable conditions for
cotton. The bolls are opening
prematurely in Oklahoma and
shedding is reported in nearly all
western and southern states.

"Damage by weevil continues
also in the central and eastern
Gulf states. Much opened cot-
ton was blown away in extreme
south Texas by the wind accom-
panying the Gulf storm of the
18-19th, but fortunately the
high wind did not extend into
central and northern parts of
the state. The work of picking
and ginning is progressing in the
central and southern portions of
the Gulf states, and the bolls are
opening in the more northern
of the area. Picking was delayed
in Arkansas because of the ex-
cessive heat."

8 HOURS FOR FARMERS.

Fort Worth, Texas, Aug. 22.—
Henry N. Pope, president of the
Texas Farmers' Union, today
wired President Wilson favoring
the eight-hour day if it applied
to farmers as well as industrial
laborers, but protesting against
any discrimination against the
farming population in favor of
any other class of laborers.—
News Item.

The above is about the most
silly act we have ever noted.
Farmers do not work for, em-
ployers. They make their hours
to suit their convenience. They
can work sixteen hours, as many
do, or they can work six, as a
few do, or they can take a day
off when they wish and go fish-
ing, hunting or go to town, and
whose business is it that they do.

The only similarity at all, if
even that, between farmers and
wage laborers would be the case
of hired hands on the farm and
tenants. Where is the farmer
that would submit to his hired
hand working eight hours a day
and the farmer himself ten,
twelve or fifteen. To be mild
about it, Mr. Pope renders him-
self ridiculous by any such mes-
sage. It shows a superficial
grasp of the subject that is any-
thing but creditable to his intel-
ligence.—Athens Review.

Lonnie Stone, who suffered
such a severe attack of typhoid
fever, in the course of which he
relapsed and suffered many com-
plications, at times there seem-
ing to be no hope for him to ever
recover, was able to come to
town with his father this morn-
ing, and was greeted with good
wishes by many friends. This
is the first time he has been to
town in about six months. The
complications he suffered seem
to be giving away, and it is now
hoped that he will be fully re-
stored to health.

PIONEER OF RUSK WITH THE DEAD

Rusk Press Journal.
Mr. Joe B. Copeland received a telegram this (Friday) morning from Fort Worth that Capt. Jno. A. Boyd had just died in that city.
The remains will be brought to Rusk and buried from the Cotton Belt depot tomorrow afternoon at 4:45.
Capt. Boyd was one of the oldest, most honored and beloved of our citizen gentleman that ever lived in Rusk, and the news of his passing away has cast a gloom over our entire community.

The news of his death was received just a few minutes before going to press with this paper, and a more fitting notice of the life of this splendid man and distinguished citizen will be given later.

PONY RUNS AWAY.

From Thursday's Daily.
Yesterday Mrs. B. T. Johnson, who resides a few miles in the country, came to town to do some shopping, and hitched the pony which was drawing her buggy to a ring in the walk near the millinery store of Miss Justice. Soon after a passing bicycle frightened the pony, which caused him to break loose and run away. Dashing madly down the street the buggy was locked into an automobile standing in front of the store of Mayer & Schmidt, where the runaway ended for the reason that the pony here gathered a greater load than he could draw at the rate of speed with which he had started out to travel.
One shaft and one wheel of the buggy was wrecked, but no damage of any consequence was done to the automobile.

BODENHEIM RETURNS CAR.

About four months ago Mayor Bodenheim of Longview bought an automobile from the Hawley Motor company of this place, paying all but about \$200 on it. The first of last week—just a day or two before the mayor disappeared—he was in Marshall and told Mr. Hawley that he had been in an accident with the car and that he wanted to send it over here to be fixed up, new parts having to be ordered.
The day after he disappeared but before it was generally known that he had gone, Mr. Bodenheim's chauffeur brought the car to Marshall as per previous arrangements, and left it with the Hawley company. The boy said "Here is the car that Mr. Bodenheim wanted you to fix up. When you have gotten it fixed, let him know please."
According to rumor this same boy drove Mr. Bodenheim and the defaulting cashier to Karnack and left them, and that is the last that has been seen of them.—Marshall Messenger.

W. A. Austin, a good farmer of the Shady Grove community, was in the city early this morning with a bale of new cotton.

From Weak and Lame To Well and Strong

Try them. Foley Kidney Pills will do for other men and women—quickly—what they have done for Mrs. Strayhorn.
"Last year, I got almost down with my back," writes Mrs. H. T. Strayhorn of Gainesville, Ga., R. No. 3. "I suffered from inflammation of the bladder, and whenever I stopped doctoring I grew worse. I tried Foley Kidney Pills, and after taking them awhile my bladder action became regular and the stinging sensation disappeared. I am now stronger in my back than I've been for several years, and since getting well, I've stayed well and had no return of the trouble."
Start in now to use Foley Kidney Pills. You will feel an improvement from the very first doses, showing how quickly they act on kidneys and bladder. They stop irregular urinary action, ease pain in back and sides, limber up stiff joints and aching muscles. They put the kidneys and bladder in sound, healthy condition. FIRE AT LUFKIN.

Lufkin News.
The third fire to occur in Lufkin just recently happened last night about 10 o'clock, when the dwelling owned by Mr. Holland Lee was destroyed.
The residence was occupied by Mr. Aaron Lee and family, and all the household goods were also lost, there being no one at home at the time, Mrs. Lee being away on a visit. Mr. Lee had prepared his supper at the home and returned to town, and the theory of the origin of the fire is attributed to a defective flue. The News understands there was no insurance on the household effects, but was not advised in regard to the building.
While stating above everything was destroyed, yet that statement might be amended, for parties who first reached the scene were just in time to rescue the front porch swing—not much saving to be sure, but it was that much.

NEW JEWELER.

Mr. F. E. Lawrence of Dallas has accepted the position of jeweler at the drug store of Swift Bros. & Smith, and is now in charge of that department of the store.
Mr. Lawrence comes highly recommended as a jeweler, and is prepared to do all kinds of watchmaking and jewelry repairing. He is also a graduate optician, graduating from the leading optical colleges of Philadelphia, and is prepared to do all kinds of optical work. Added to his qualifications he is a very pleasant gentleman, and will receive a cordial welcome to citizenship by the people of Nacogdoches.

DEMOCRATS YIELD STRIKE OUT TAX

Washington, Aug. 25.—Democrats of the senate finance committee today, yielding to protests from all parts of the country, struck out of the emergency revenue bill, the proposed stamp tax on insurance policies, which proposed a tax of 1/2 cent on each dollar of premium on all policies, including life insurance.

REV. O. T. HOTCHKISS TELLS GOOD STORY

Rev. O. T. Hotchkiss reached home Saturday afternoon from his two weeks' vacation that was spent on the Bernard river and the Gulf.
Mr. Hotchkiss reports many fish caught by the party, and a jolly, good, all-around time, during its progress they caught red fish, flounders, crowdies, sand trout, whiting and drum. This would make the eyes of a fresh-water fisherman stand out in greatest wonder, but he recites two incidents that were more exciting, the catching of a large salt-water gar and a man-eating shark. The gar was caught on rod and reel and it took about fifteen minutes to worry him down. He fought hard and bravely, and succeeded in thoroughly wetting his captors by splashing water all over them as he was drawn up to one side of the boat where he was speared. He was about five feet long and estimated to weigh about seventy-five pounds. The shark was of the man-eating species, and was caught on a set line that had been especially prepared with a large hook fastened to a chain, and the chain fastened to a sash cord one hundred feet long. The hook was baited with a large red fish head, and when the parties went back to it Mr. Shark was there, and was landed without much trouble as he had worried himself down. He measured six feet and two inches and weighed about 120 pounds.
Mr. Hotchkiss' party was near the trail of the storm, but suffered no inconvenience other than a five-foot tide and a forty-mile wind for several hours. He is glad to be back home again and comes refreshed to take up the work of his pastorate.

THE PARSONS CASE.

Lufkin, the majestic little city across the Angelina, furnished a good contribution of passenger traffic to the railroad yesterday in the great host of witnesses and interested people who were journeying to Center to court in the Parsons trial, which was due to be called this morning.
It will be remembered that Parsons is the young man who is charged with blowing up the Lufkin depot some time ago, being brought back from California for trial for the offense. The case is attracting statewide attention, and there will be many out-of-town visitors in attendance upon the trial.

County Judge John F. Perritte spent yesterday in Attoyac with his father, Mr. J. Perritte, where a family re-union of all the old gentleman's children residing in the county were present. The others present were W. S. Perritte and family, W. V. Perritte and family, and Mrs. Alice Jones and family, making four families, and this coming together at the parental roof of so many of the family at one time again proved a most enjoyable occasion to all participating. The Perritte family is one of the best known in the county, being connected with the affairs of the county, and no family has more friends in the circle of their acquaintance than these good people who trust that they may all live for many more happy reunions with their venerable old father.

Miss Bessie Smith was elected county school superintendent of Montgomery county in the primaries. She is a granddaughter of Uncle Bud and Aunt Louise Smith and a daughter of Dr. J. M. Smith, and has many friends in Angelina.—Huntington Herald.

WILSON JOYFUL OVER CULBERSON'S VICTORY

Longview, Aug. 27.—News of the overwhelming victory of Senator Culbertson over former Governor Colquitt in Texas today caused widespread rejoicing in administration circles. It was regarded as more than a victory for the veteran senator and as a triumph for the Wilson administration. The news was received early at the White House and conveyed immediately to the president, who was immensely pleased.
Hardly had the polls closed before Senator Culbertson began receiving telegrams of congratulations from all parts of the state. He learned early of his victory, retiring upon receipt of a telegram from Barry Miller of Dallas, his campaign manager, saying he had swept the state two to one. A telegram that gave him pleasure came from the Farmersville Democratic Club and said:
"Texas has gone Democratic."
Other than expressing his great joy at the result, Senator Culbertson had no formal comment to make tonight. He probably will address a message to the voters of Texas tomorrow or Monday, extending thanks for his splendid victory.

VILLA BANDITS ACTIVE.

Chihuahua City, Aug. 27.—Three hundred Villa bandits captured the town of Satevo; Chihuahua, 50 miles south of here, on Friday according to reports of Gen. Jacinto Trevino tonight. The outlaws, under Uribe Arango and Martin Lopez, surrounded the town and, after a six hours' battle, the garrison, numbering 200, under Captain De La Fuente, being without ammunition, was forced to evacuate. Villa was not reported with the outlaws.
The dispatches, which came from General Elizeondo, made no estimate of the casualties on either side, but said both the bandits and government troops lost heavily.
In the early hours of the engagement, a number of outlaws were executed. The garrison withdrew to the hills, where they were reinforced by detachment of General Elizeondo's command and preparation made to attempt to recapture Satevo. General Trevino said that no apprehension need to be felt here as to a further northward progress of the band.

CENTER PIONEER DEAD.

Mrs. J. S. Stephenson, wife of Judge Stephenson, a veteran of the Center bar, died at her home in Center yesterday afternoon, following a long tedious illness.
Judge and Mrs. Stephenson have made their home in Center continuously ever since the place was a town, and have made many friends over East Texas who will be pained to learn this news.
Eli Westfall, a well known business man of Garrison, is in the city looking after some business matters.

THE LONGVIEW MAYOR RETURNS TO HIS HOME

Longview, Texas, Aug. 25.—Longview killed the fatted calf today as the fatted calf has never before been killed in this town. And very probably in celebration of such an event as never before brought forth the sacrifice of even a fatted calf.
G. A. Bodenheim, mayor, cotton man and speculator, and G. N. Campbell, cashier of the defunct People's Bank, which was looted in the process of bucking the cotton market, were the cause of it all. There were warrants out for both of them. But the servers were inconspicuous in the background and had no part in the grand homecoming of the two men who have set Longview agog and who took French leave when discovery of the wrecking of the bank could no longer be staved off.
Bodenheim and Campbell dropped in on an early train and soon the news was spread. They were not unheralded. In fact, it has been known for several days they were coming. They have been in communication with friends here and last night a delegation went to Texarkana to meet them.
This delegation was headed by S. R. Thrasher, one of the heaviest losers in the wrecked bank, who was glad to welcome home the fugitives.
During the day a bond was made for \$2,500, which was signed by over 200 men in town.

BIG TIE CONTRACT.

Houston Chronicle.
One of the largest contracts in the history of the lumber industry has just been closed, under which the Kirby Lumber Company of this city will furnish several million ties to the New York Central lines annually during the life of the contract. There is added significance in the fact that the Houston company has now possession of the largest two hewn contracts in the world, the other being a contract to supply the Santa Fe system.
There has been a rumor in lumber circles for some time that such a deal was being consummated, and the fact that it had been closed was confirmed yesterday by B. F. Bonner, vice president and general manager of the company, who has just returned from the East, where he conducted the negotiations.
The contract covers a long term of years and calls for the delivery, as wanted, of pine and hardwood ties, principally hewn. It is what is called a "service contract," under which the railroad will be supplied with the ties as its requirements demand.
In order to handle the contract, the Kirby Lumber company will open branches in New Orleans, Mobile and Hattiesburg, and the ties will be produced in Louisiana, Mississippi and Alabama. It means a tremendous immediate development of the hewn tie industry in these several states.

PRESIDENT WILSON RETURNS

Washington, Aug. 25.—President Wilson returned to the White House on such a grave aspect that President Wilson's return toward congress was the problem.
Suddenly during the day when it became known that President Wilson was returning to the White House, the news was spread. They were not unheralded. In fact, it has been known for several days they were coming. They have been in communication with friends here and last night a delegation went to Texarkana to meet them.
This delegation was headed by S. R. Thrasher, one of the heaviest losers in the wrecked bank, who was glad to welcome home the fugitives.
During the day a bond was made for \$2,500, which was signed by over 200 men in town.

A LITTLE GIRL WAS RUN DOWN

Late Saturday afternoon, as the shade of evening were gathering with their dusky shadows, little Miss Irene Woolseifer, the bright little daughter of Mr. and Mrs. Joe Woolseifer, and a party of little girls were strolling up North Church street, returning to their homes, some one riding a bicycle ran into the crowd of little girls in which little Irene was knocked down and received some painful bruises on her lip and face and a bad fright.
In the excitement the little girls could not identify the party, and do not know whether he was white or black.
Mr. Woolseifer is righteously indignant over the affair, but rejoices that his little girl was not seriously injured.
Bicycle riders are becoming too reckless in the use of the sidewalks, often crowding pedestrians off, and it is time to put the lid on with this dangerous and unjust practice. People are compelled to build their own sidewalks, and usually they build them for the sole purpose of walking on, and it is due them that they have the protection to which they are entitled.

Mr. Colquitt defiantly announces that he is not out of politics. But he will not contest the fact that he is out of office by a smashing majority. **Palestine Herald.**

The Panola Watchman, published at Carthage, announces the passing of the forty-fourth milestone. The Watchman is one of the pioneers in East Texas' journalism, and has always been one of the most reliable, progressive papers of the section. May it live to pass many more anniversaries, is the wish of its neighbor, The Sentinel.

Foster, the great weather prophet who comes to us with good as well as evil report on weather conditions, is predicting excessive rains and storms for September, and the wise farmer will get his corn in the crib, as well as gather as much of his cotton as possible, before this season dawns. All kinds of crops are too valuable this year to take any chances in their destruction with bad weather.

The employees of the railroads have fixed Labor Day, Sept. 4th, as the day in which to inaugurate the big strike, if some agreement is not reached previous to that time. In the meantime, President Wilson is working with the railroad presidents in an effort to reach an argument, and in furtherance of his plans will go before congress today or tomorrow and ask that body to make suitable legislation to govern such matters.

Somebody connected with the East Texas Fair Association at Timpson is a pretty good schemer. By some means it was managed to get the editors of the Lufkin News and Nacogdoches Sentinel to discussing the fair and that institution has gotten quite a deal of free advertising into the columns of these mediums. The fair is a good thing for the country and deserves all the advertising the papers are giving. **Jacksonville Progress.**

Thanks. One source of wisdom is derived through intelligent discussion—and the wise always advertise.

It is a part of our fond traditions of the present day that while commercialism has come among us to some extent and even while we admit we desire more of industrial development that still we do not propose to yield the beautiful traditions of neighborliness in the pursuit of gold. We wouldn't mistreat neighbor's boy or girl just to make a dollar or so. If anyone is in trouble we fancy that we'd lend a hand or a ham just a little quicker than any other people in the world. It is good to believe this, because it helps to make it true. And whether we are ahead of all the rest of the world in those noble qualities or not, certain it is that we possess them in a measure that brightens our lives and sweetens our souls. **Austin Statesman.**

PENNY POSTAGE NEAR.

Efficiency in the post office department with a proper readjustment of rates will permit the government to inaugurate a one cent letter rate within the next year, according to Postmaster General Albert S. Bursleson.

This emphatic statement made by the postmaster general before the National Association of Postmasters of United States at their July 1916 Convention, indicates that this important reform is much nearer realization than most people believe and that next winter will see radical steps taken toward the end.

In addressing the postmasters General Bursleson declared that they are giving the best postal service in the world today, and that is what the American farmer and business man are entitled to, for they pay for it. He advised the postmasters to spare no expense that means greater efficiency.

"But that does not mean extravagance" said Mr. Bursleson. "Where is an official who will tell me that employees useless to the service should not be lopped off? I do not want to be hard on postal employees. I believe the government should require only a certain number of hours work, and that under sanitary and comfortable conditions, at a salary not only adequate, but generous. It is my purpose and your duty to see that all employees perform an adequate service for the money expended.

"Every dollar intelligently saved can be utilized for the improvement, development and extension of service, resulting in a reduction in postage for those served.

"Plans are being worked out for the solution of railway mail service problems. They are being solved in a way that will enable the United States to pay the railroads adequate compensation for service rendered, and pay only for service rendered. With this result, if next year we can make those using the second-class mail service pay a one-half part of what they should, we can go before congress and take the first step toward penny postage.

"The fact that this year we have a surplus of between \$4,000,000 and \$5,000,000 demonstrates that at least the postal service is on a strong business and self-supporting basis. If we can keep down useless extravagance, we can soon inaugurate one cent postage in this country."

ROUMANIA ENTERS INTO THE WAR

Roumania has thrown in her lot with the entente allies by declaring war on Austria-Hungary, and almost simultaneously Germany has announced that she is at war with Roumania.

Already the troops of King Ferdinand are seeking entry into the plains of Transylvania, through the eastern Carpathians toward Kronstadt, the chief city of Transylvania, and in the direction of Hermannstadt, evidently in an effort to press northward through Transylvania, and in the direction of Hermannstadt, evidently in an effort to press northward through Transylvania toward the Bukovina and Galicia borders and attack in the rear the Austro-Germans trying to hold back the Russians from entering the plains of Hungary.

Nothing has come through to indicate what preparations has been made by the Bulgarians to offset, a probably attack by the Roumanians along the Danube front, or a possible attempt by the Russians at invasion by means of the Danube through Dobruja or by the Black sea.

It is estimated that Roumania would be able to throw 200,000 men into the field.

RELEASE WALLACE ON FEDERAL BOND

Fort Worth Record.

At the close of the preliminary hearing of Tex Wallace, charged with being a participant in the blowing of the postoffice safe at Rice on the night of Aug. 15, United States Commissioner Mitchell held Wallace for the federal grand jury and fixed bail at \$5,000, the same amount as had been furnished pending the hearing. The original bond was approved and Wallace released.

Charles Larkin, also arrested on the same charge, was given his preliminary hearing and also held for grand jury. His bond was set at \$2,500. Larkin has not furnished the bond.

Owing to the lateness in completing the Larkin hearing, W. E. Allen, assistant United States attorney, announced that the hearing of Frank Hamilton, recently arrested at Arlington for alleged complicity in the Rice plot, would be held either Saturday or continued until some day next week, other matters requiring the attention of Mr. Allen.

In the case of Wallace there were fifteen witnesses for the government and ten for the defense.

The majority of the witnesses were used in both cases although in the Wallace case there were several who testified that they had seen Wallace on the streets of Fort Worth between the hours of 2 p. m. and 12 o'clock the night the safe was blown.

COUNTY TEACHERS' INSTITUTE.

The Nacogdoches County Teachers' Institute will be held the week beginning September 11th.

The programs will be mailed to teachers within the next few days. If any teacher fails to get a program, write me or call at the office for one.

All teachers who expect pay for the Institute week must see that their contracts are filed not later than nine o'clock September 11. The teachers must also see that their certificates are registered in the office of the county superintendent.

I suggest that teachers have their trustees sign a warrant for their week's pay at the institute so as to separate the institute from the regular school term. Trustees can do this and in case the teacher does not attend according to law the county superintendent will refuse to approve it, and in case he does attend the superintendent will approve it and he can draw his pay at the end of the week.

The white teachers who will do primary and intermediate work, and all the colored teachers will be required to secure a copy of "How to Teach the Fundamental Subjects," Kendall and Mirick; and all white teachers who are to teach High School work will be required to secure a copy of "Psychology of High School Subjects," by Chas. H. Judd. These books can be secured at the drug stores in Nacogdoches. The above named books should be secured at once and studied before the Institute convenes.

Yours truly,
JOHN B. STRIPLING.

PHOTOGRAPHER'S NOTICE.

On account of extremely heavy business at home, I will be compelled to cancel my dates at Timpson, Aug. 30 and Sept. 6, and give them to my work here, but will go to Timpson Sept. 13.

MARES SPIRITED REPLY.

In commenting upon an editorial in the Jacksonville Progress, in which the contemporary suggested the possibility of a scheme to "work" its neighbors for some free advertising, but qualifying the statement with approval in this particular instance, The Timpson Times makes the following good-humored, but pointed reply:

"You have it down somewhat wrong, brother. The little squib that caused such a row between the Lufkin News and Nacogdoches Sentinel was not written with a view of free advertising. These two excellent papers have always been a friend to the East Texas Fair, and they give space without any scheming as you have suggested. You are right when you say the fair deserves all the free advertising it gets. The fair means more to East Texas than some people have yet realized. It has pulled through some very hard places, but now that it is on the road to prosperity the fair should receive the hearty co-operation of all East Texas. The Progress gives columns of free space to the Dalls Fair, and why should it object to East Texas Fair receiving a little free advertising now and then? If the Dallas Fair is worth anything to the state, surely the East Texas Fair is worth something to East Texas. But, all the advertising the East Texas Fair gets is not free; it spends a large amount with the nearby papers each year for space. The fair is the greatest institution in East Texas. It will make East Texas. It will encourage better farming, better roads, and eventually receive the recognition of the world. Come over Whitley, and maybe you will get a higher conception of an institution that will help develop the Jacksonville country, as well as the Nacogdoches, Lufkin and Timpson country—and all other sections of East Texas."

CONFEDERATE VETERANS MEETING AT TERRELL

Terrell, Tex., Aug. 28, 1916.

To the Adjutants of Local Camps, United Confederate Veterans of Texas—Dear Sir: As the accredited representatives of the business men of Terrell, we take pleasure in extending to you an official invitation to attend the State Re-union which will be held in our city on Thursday and Friday, October 5th and 6th, 1916. Terrell deems it a privilege to entertain you on this occasion.

This office has been instructed by our Board of Directors to do our utmost to make your stay in our city a pleasant one, and with that end in view we want to furnish accommodations for every veteran that will attend, and at the same time handle matter systematically. We are co-operating with the local camp in the arrangements for handling the visitors, and in order to get an idea of the number of veterans that we will likely entertain, we enclose herewith a postal card addressed to the writer, and make the request that you bring the matter before your Camp at the very earliest possible date and advise your Camp of this invitation, and advise us on the postal card about how many will likely attend. This is VERY IMPORTANT and we trust that you will favor us by giving the matter your IMMEDIATE ATTENTION.

We also call your special attention to the fact that all visiting veterans are requested to register, and that registration headquarters will be at Hotel Artesia, one block from the Union Station. We will have recep-

tion committees to meet all trains, and will have ample provision made for your guidance to registration headquarters, and assignments to all quarters will be made through this registration bureau, and your prompt registration will greatly simplify matters.

Hoping to have the pleasure of entertaining a goodly representation from your Camp, we remain,

Yours very respectfully,
BEN. F. STOLLENWERCK,
Secretary.

All members of Camp Raguette, U. C. V., who desire to attend this meeting are requested to file their names with me at once so that I can comply with the conditions stipulated above.

A good meeting is promised, which you will enjoy.

JNO. S. DOUGHTIE, Adjt.

PRES. WILSON'S PLAN TO SETTLE STRIKES

Washington, Aug. 28.—President Wilson's plan for breaking the deadlock between the railroads and their employees, as discussed in conference today, was as follows:

An eight-hour law for railroads to become effective at a date far enough in the future to give the railroads opportunity to prepare for it.

A law patterned after the Canadian act which creates a commission of investigation and prevents lockouts or strikes while an industrial dispute is being investigated.

This plan was discussed by the president with his party leaders in congress as the basis for the next step after the railroad managers have formally announced their refusal to accept the plan previously proposed. They were expected to do this at 2:30 o'clock this afternoon at a White House conference.

Meanwhile, congressional leaders gave up hope of adjournment this week and settled down to stay here as long as necessary to provide legislation to meet the strike situation. Senator Newlands and Commissioner Chambers of the Federal Mediation conferred today with Acting Attorney General Todd about the legislative program, but all denied that any legal measures for preventing a strike had been discussed.

At 2:30 o'clock the subcommittee of eight executives composed of Messrs. Holden, Ripley, Willard, Smith, Atterbury, Harrison, Trumbull and Lovett, went to the White House to confer with President Wilson. It was not then certain that they would present the formal reply to his plan they had prepared.

BODENHEIM RESIGNS AS LONGVIEW MAYOR

Longview, Texas, Aug. 28.—The city council was summoned in special session this afternoon at 2 o'clock and the resignation of G. A. Bodenheim as mayor and G. N. Campbell as alderman of the city of Longview tendered and both unanimously accepted. Alderman L. D. Keely was selected as mayor pro-tem until a selection of a mayor. The resignations were expected and evoked little comment. The council adjourned until the regular monthly meeting time next Monday night.

DIES IS COMING BACK.

Washington, Aug. 28.—Representative Martin Dies has accepted invitations to deliver addresses in his district immediately after the adjournment of congress. He will speak at Carthage on Sept. 16, and will open the fair at Timpson on the 19th. He plans to make a number of speeches at other points, but the dates have not yet been arranged definitely for them.

NACOGDOCHES TRADITIONS

Mexican affairs and Mexican names, language and customs, have always been strongly connected with Nacogdoches. This city was permanently settled by a Mexican colony under a leader called Gil Ybarbo, a Spanish name, pronounced Heel Elbarbo, about the year 1778. His lineal descendants are here yet, and so are the descendants of his colony, and their Spanish language is used in their families. Spanish names were given to creeks and localities. The Castilian Spanish is not exactly the same as Mexican Spanish. There is a difference similar to the difference in English as spoken by Southern people and Northern people. But it is written the same way in both instances.

We make a ludicrous blunder in changing Spanish names into English. This is because we mistake the sounds as we catch them from the Mexicans. For example, we call a certain creek Tuscourse. The Mexican or Spanish name is Atascosa, which means muddy or boggy. Our own "Little Creek" in town we call Berneater. The Spanish or Mexican name is Banita, pronounced Ban-yeet-ah, which means little bath—a very different word from Bonita—Boneyet-ah, which means beautiful. Ban-ya is bath and the suffix, ita, is small. We have another creek called Wonders, from the Mexican name Guandez. In Mexico there is a jaw-breaker spelled Guadalajara, pronounced Wah-dah-lah-har-ah. But in Texas anything goes. For instance Bexar county is called Bare in mistake for Bay-har, and Mexia is murdered into Mohair; from Moy-hee-ah.

All this seems queer to an English speaker. But Spanish as written or spoken is far simpler than English.

In the long ago we had old-time customs here that are now abandoned. One was the Mexican fandango, a square dance similar to the American cotillon. It was a lively, jolly, country dance. The Senores and Senoritas were there, with both feet. The gentleman or caballeros often perfumed their breath with what they called filete (fee-lay-ter) which was a slang name for whiskey. The Spanish dance called la jota, (lah-ho-tah) was not heard of. And at present neither of the two is customary. Our Mexican citizens of today pride themselves in good behavior and good character. They are not in touch with Mexico at all.

The name Villa is called Vee-yah by the people where he is figuring, or where he formerly raised trouble. In Spain it would be Veel-yah. The name of General Trevino is called Tray-veen-yo and General Calles is Call-yez. The town Aguas Calientes is Ah-was Cal-ee-entes, (hot waters.), and Pedro Negras is pronounced Pee-ay-dras Nay-gras. It means black feet. Last, but not least, Chirino ought to have been spelled Chirino, called Chee-ree-no, and its creek Amolideras Ah-mo-lee-der-as, meaning whetstones.

PARSONS CASE ON TRIAL

Trial was gone into in the Parsons case at Center yesterday. The case was called on the opening of court, and he plead not guilty.

It will be remembered that Parsons is the young man accused of blowing up the depot, with dynamite, at Lufkin, and there is widespread interest in the case. Many Nacogdoches people were inquiring if trial had been gone into, this morning.

CULBERSON VICTORIOUS IN SENATORIAL RACE

Senior Senator Swept State With Majority of Seventy-Five Thousand, and is Happy

The Democracy of Texas has beautifully vindicated the administration and its veteran representative in the United States Senate, the Honorable Chas. A. Culberson.

So far as can be ascertained at this time, it seems that Mr. Culberson has a lead over his opponent, Mr. Colquitt, of seventy-five thousand votes, which comes as a distinct triumph to the senior senator.

In Nacogdoches county the vote, with three boxes not heard from, Mr. Culberson received 1298 votes with Mr. Colquitt receiving 443—making nearly three to one in favor of the senator. In the Nacogdoches boxes the vote was as follows:

East Box—Colquitt 32, Culberson 190.

South Box—Colquitt 73, Culberson 155.

West Box—Colquitt 34, Culberson 96.

Meirose—Colquitt 17, Culberson 54.

Telegrams of congratulation are being forwarded to the senator from all parts of the state since the polls were closed, and in acknowledgement of the same and his splendid victory he had addressed the following telegram to the Texas people:

"To my democratic friends in Texas: The result of the primary election held yesterday naturally carries with it a decisive indorsement of the national democracy. As to the personal aspect of this splendid victory, it is beyond my power to express more than that I am intensely proud of your friendship, and profoundly grateful for your confidence."

C. A. CULBERSON.

RECOMMENDATIONS ARE GIVEN TO CONGRESS

WASHINGTON, Aug. 29.—President Wilson laid the railroad strike situation before congress at 2:30 o'clock this afternoon in an address to both houses in joint session. The president told of his efforts to bring the railroad managers and the men into some sort of an agreement and, saying he was powerless to do more, asked congress to enact certain specific legislation to deal with the situation now and in the future.

Pointing out the distress and hardship which a nationwide strike would bring upon the

country, the president asked congress to empower him to draft into the service of the United States the managers and men who have been unable to adjust their differences, so that the government might operate the railroads in case of military necessity.

He proposed that congress first enlarge the membership of the interstate commerce commission to equip it to cope with larger situations; second, that an eight-hour day be established for all trainmen in interstate commerce; third, that a commission investigate the effect of the eight-hour day, but without recommendation, that the public may learn from a disinterested source of the merit of the questions; fourth, that the interstate commerce commission consider the increased cost of the eight-hour day in making rates, fifth, amend the mediation law to prevent strikes or lockouts while industrial disputes are being investigated. The sixth proposal was that the president be empowered to operate the railroads in case of military necessity. How these things are to be carried, President Wilson left entirely in the hands of congress.

Concurrent resolutions for the joint session of congress were adopted in the house and senate. Twenty-five seats in the gallery were reserved for the railroad presidents and 25 were reserved for the employees. This was agreed to without dissent.

BROKE FINGER.

Jess Parmley, a well known young man of the community, had the misfortune to break one of his fingers yesterday.

The accident occurred when the young man threw a pole over a fence which rebounded and fell back on his hand. He came to town and had the injured member treated.

Mr. Cliff Wells, the veteran and faithful deputy county clerk, has been laid up at his home quite ill for several days, but was reported to be resting better this morning. No man of the community has more friends than this excellent gentleman, and all feel an interest in his welfare and join in the hope that he may have a speedy recovery of health.

BANK COMMISSIONER DIES.

Waco, Texas, Aug. 29.—State Banking Commissioner John S. Patterson, who was shot yesterday at Teague, Texas, while posting a notice closing the Farmers and Merchants' Bank at that place, died in a hospital here at 8 o'clock tonight. T. B. Watson, president of the bank, and his two sons, J. W. and W. R. Watson, were released on bond today, awaiting the outcome of Patterson's wounds. Patterson was brought here today on a special train.

The death at 7:50 o'clock of Commissioner Patterson was not unexpected, as he had been sustained most of the day with oxygen, and while physicians claimed he had a fighting chance to live, they held out no hope of his actual recovery. When he died his wife was attended by friends, and when she realized the end had come she became hysterical and overcome with grief.

It was stated at the hospital that the interment would take place tomorrow or next day.

The interior of the M. E. Church has been much improved by being re-papered, and by having a well built altar, also a new carpet.

Mr. Marvin Teutsch has just erected a new home here. He and his family will soon be in our midst, moving from New Caney.

TWO YOUNG MEN DIE IN EDEN COMMUNITY

Walter Jones, a well known and highly respected young man of the Eden community, about twenty-five years of age, died Monday night, and his remains were laid to rest in the cemetery at Douglas Tuesday afternoon. He is survived by two sisters and three brothers.

Lovell Legg, also a highly respected young man of the same community, about twenty-six years of age, died Tuesday afternoon about 6:15 o'clock, and his remains will be laid to rest in the cemetery at Eden this afternoon. He is survived by his father, Mr. W. E. Legg, three sisters and two brothers.

Both young men were very popular in the community in which they resided, and The Sentinel joins friends of the families in sympathy.

A CENTER PASTOR DIES SUDDENLY

Rev. O. T. Hotchkiss, pastor of the Methodist church at this place, received a telephone message last night announcing that Rev. E. D. Watson, pastor of the Methodist church at Center, had died very suddenly while sitting in his parlor talking to a friend who had called to visit him.

Mr. Hotchkiss will conduct the funeral services over the remains of the deceased minister.

Mr. Watson came to the Texas conference from Missouri about four years ago, and has distinguished himself with brilliant service and his religious devotion. He has been afflicted with heart trouble for some time, and the manner in which he died did not occasion any surprise, but was nevertheless a shock to the people of Center.

The Center Methodist church had the misfortune to lose its pastor about a year ago, who died in the early part of August, which makes this shock all the greater.

Later—Mr. Hotchkiss phoned Mrs. Hotchkiss this afternoon that it had been decided to carry the remains of Rev. Mr. Watson back to his old home in Missouri for burial, and at the earnest solicitation of Mrs. Watson, he would accompany her and the corpse on the trip. Mr. Hotchkiss was the presiding elder in the district in which Mr. Watson had work when he first came to Texas, and the family esteems him very highly. Rev. L. B. Elrod, the presiding elder, will fill Mr. Hotchkiss' appointments at the Methodist church here Sunday.

NEW POSTMASTER FOR GARRISON

The dispatches from Washington announce that W. C. Young has been named as postmaster of Garrison by President Wilson.

Mr. Young has been serving as rural mail carrier for many years, and is familiar with the service. He is also a most excellent gentleman who will make that little city a worthy official in this capacity.

The present incumbent, Jno. G. Ross, has been serving Garrison as postmaster the past eight years, and was one of the best and most capable any town ever had. He was not an applicant for re-appointment this time, having decided to engage in the saw mill business with his father, Capt. Ross, at Cleveland.

Deafness Cannot Be Cured.
By local applications, they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

TURN CASE OVER TO SHERIFF SPRADLEY

The Henderson Times has the following to say about the child of doubtful parentage turned over to Sheriff Spradley of this county a few weeks ago:

"Fred, the little child who is believed to be white and who was in the custody of Deputy Sheriff, M. D. Needham of this county some days, has been turned over to Sheriff Spradley of Nacogdoches. The Sheriff will make a thorough investigation of the case before further disposition is made to him. Mr. Needham believing that Mr. Spradley was in a better position to trace the matter down that he, left the little boy with him last week. It was the opinion of officers and physicians in Nacogdoches that the child is white and there is some crooked work somewhere. The Nacogdoches sheriff stated that if he becomes convinced that Fred is of white parents, he will take him into his own and educate him."

CHANGE OF VENUE IS GRANTED

Center, Texas, August 23.—In district court here Tuesday Judge Buford changed the venue in the case of the State vs. Henderson, Will and Carroll Lovell, to San Augustine county.

This was done on motion of the defendants. The Lovells are charged with the killing of Baxter McCary last April. On habeas corpus he granted bail to Will Lovell and denied bail to Henderson and Carroll Lovell.

FREAK OF LIGHTNING.

The electrical storm of Wednesday afternoon proved very dangerous to cattle in the vicinity of North Church, killing three head belonging to P. E. Corley, two head belonging to A. J. Jones, and one head belonging to E. L. Coon. Lightning also struck some outhouses on the premises of Jesse Millard.

Had these cattle all been killed in one bunch it would not have been so remarkable, but they were killed at different places as noted in the report.

GUSHER AT GOOSE CREEK.

Houston Post.

Oil property and oil leases in the Goose Creek district took a sudden jump in value Thursday morning when it became known that the American Petroleum corporation had brought in a gusher the preceding night.

Green oil, under high subterranean pressure, spouted above the derrick and fell in a thick spray over the adjacent landscape. It is the first deep well to be successfully drilled in the Goose Creek field.

As soon as the news was received in Houston a party including Charles Mitchell of Chicago, vice-president of the company; L. D. Brewitt, assistant manager, and J. N. Groesbeck, field man, went to Goose Creek. Another party of oil people interested in that field also left Houston for the scene.

CITATION BY PUBLICATION.

To the Sheriff or any Constable of Nacogdoches County—Greeting:

You are hereby commanded to summon D. C. Thompson, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, Nacogdoches Weekly Series, a newspaper published in Nacogdoches County to appear at the next regular term of the District Court of Nacogdoches County to be holden at the Court House thereof, in Nacogdoches, on the 2nd Monday in February, A. D. 1917, the same being 12th day of Feb. 1917 then and there to answer a petition filed in said Court on the 18th day of August, A. D. 1916 in a suit, numbered on the docket of said Court No. 3121, wherein W. Y. Garrison is Plaintiff and D. C. Thompson is Defendant, and said petition alleging that on or about the 2nd day of January 1911 Plaintiff made, executed and delivered to Defendant his three several promissory notes in the sum of TWO HUNDRED SIXTY THREE and 33-100 DOLLARS, each being date of the day and year aforesaid, due on the 2nd day of Jan. 1912, 1913, 1914, respectively, payable to the order of Plaintiff, bearing interest at the rate of 10 per cent per annum from date until paid, and stipulating for 10 per cent of the amount of principal and interest then due as attorney fees, in case suit is brought on same or placed in hands of an attorney for collection.

That by execution of said notes Defendant became bound and liable to pay and promised to pay Plaintiff the sum of money in said notes specified, together with interest and attorney fees due thereon according to the tenor and effect thereof.

That said notes were given for a part of the purchase money on the following described real estate and premises situated in the County of Rusk, in the State of Texas, to-wit: Being Block No. 6 of the subdivision of the A. Wattermark land on the J. R. Clute survey in said County and more fully described in deed executed on January 2nd 1911, by W. Y. Garrison to D. C. Thompson.

That said property on the 2nd day of January, 1911, was conveyed by Plaintiff to Defendant by his deed of writing of that date, in consideration among other things, of the two notes herein described, and on said deeds of conveyance a lien was reserved thereon to satisfy the payment of said notes.

That each of said notes are due and unpaid and Defendant though often requested, has failed and refused to pay said notes, each or either of them, or any part thereof, but the same remains still due and unpaid.

That Plaintiff has been compelled to place said notes in the hands of his attorneys for collection, and Plaintiff has contracted to pay them the 10 per cent attorney fees stipulated therein; that there is now due on said notes, principal, interest and attorney fees the sum of \$1485.33.

Wherefore Plaintiff prays the Court that Defendant be cited to appear and answer this petition, that he have judgment for his debt, interest, attorney fees and costs of suit, and for the foreclosure of his lien on above described land and premises, and the same be decreed to be sold according to law; that the Sheriff or other officer executing said order of sale, shall place the purchaser of said property sold under said order of sale in possession thereof, within thirty days after the day of sale, and for such other and further relief, special and general in law and in equity, that he may be justly entitled to, etc.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Nacogdoches, this 21st day of August, A. D. 1916.

CLAUDE C. WATSON, Clerk,
District Court, Nacogdoches County.

Hon. B. F. Creel of Cushing has been spending the day in the city.

Mr. and Mrs. Walter Daniels and little son of Cushing have been spending the day in the city.

Cates Wisener, a young man of good bearing of Douglas, has accepted a position in Miller's Grocery Store.

Hugh Carriker of Cushing was registered in the city last night.

Rev. G. W. C. Self of Liberty was in the city today, shaking hands with friends.

E. M. Weatherly, Jr., a prominent young business man of Appleby, was a visitor to the city today.

Mr. L. J. Chisum, a merchant of Woden, was in the city today, and made The Sentinel a very pleasant visit while here.

Rev. J. H. Helpinstill, pastor of the Melrose circuit, was in the city today. He has been slightly indisposed today but hopes to soon recover.

Miss Martha Beavers, who was in town with her uncle, Mr. N. E. Beavers, today, called at the office to see the machinery which prints the paper.

J. H. Lawler of the Sand Flat country was in town today. Mr. Lawler says he has a good crop this year, and is very much encouraged with the good prices that are promised for all kinds of farm products.

Robert Axley, a good farmer of the Oak Ridge community, was in the city this morning with a couple of bales of new cotton—the first farmer we have noticed bring two bales at one time this season.

FOR SALE—My buggy and saddle-horse for \$100.00. Also buggy and harness for \$25.00. This horse is a fine combination sorrel, gentle and sound; about 16 hands high, and easy to keep, and trusty. G. W. Eason. 6dlw

GARRISON WALLOPED US. A Summer Laxative and Liver Regulator.

In the baseball game, played on the diamond in this city yesterday, the Garrison boys walloped the Nacogdoches boys in a score of five to one.

Nacogdoches was at a disadvantage by reason of having no organized team which had played together this season, but she has the boys who will pick up and do better.

The Garrison team is composed of a lively bunch who are proving to be good players and if the remainder of the series of games previously planned are played, some lively baseball may be anticipated.

Messrs. J. N. Thomas and John Teutsch arrived home last night from a visit to the Eastern markets where they went to purchase goods for the firm of Thomas & Richardson. Mr. Thomas says they found some lines of goods hard to get, but they succeeded in getting a nice line which will begin to arrive soon. He also says that they found some mighty hot weather, which made the trip disagreeable.

To keep the bowels regular the best laxative is outdoor exercise. Drink a full glass of water half an hour before breakfast and eat an abundance of fruit and vegetables, also establish a regular habit and be sure that your bowels move once a day. When a medicine is needed take Chamberlain's Tablets. They are pleasant to take and mild and gentle in effect. Obtainable everywhere. dw

Mitchell wagons are Monarch of the road, need one. Tucker-Sitton Hdw. Co.

Commissioners court adjourned yesterday afternoon after approving the tax rolls of Tax Assessor Vondersmith and allowing a few accounts.

Liver Trouble.

"I am bothered with liver trouble about twice a year," writes Joe Dingman, Webster City, Iowa and an awful soreness in my stomach. I heard of Chamberlain's Tablets and tried them. By the time I had used half a bottle of them I was feeling fine and had no signs of pain." dw

Just received another shipment peanut cooking oil. Only \$1.00 per gallon. Branch & Goldsberry. 3w

Hot days followed by cool nights will breed malaria in the body that is bilious or costive. Prickly Ash Bitters is very valuable at this time for keeping the stomach, liver and bowels well regulated.—Stripling, Haselwood & Co., Special Agents.

The Sentinel is informed that Lee Axley, who has been clerking in the grocery store of John Fenley for some time, will take a similar position with Branch & Goldsberry on the first. Mr. Axley is a very energetic, capable, courteous young man, and has many friends with the people who know him.

I have several good registered and graded Jersey cattle for sale. Some fresh in milk. Will sell or trade for dry cattle. E. Fite. 24-d3w3

Po-Do-Lax is a liquid laxative—mild and effective. It arouses the liver, increases the bile, does not gripe and acts as a general tonic to the whole system. Aids nature to clear and purify the blood—as a laxative tonic for summer. Po-Do-Lax has no equal. What was "good enough for my father is good enough for me" never applied with more force than the use of Po-Do-Lax for the liver. An old tried remedy. Get a bottle, take a dose to-night and see how much better you feel. At all druggists. dw

Mr. W. F. Butler of the Woden community was a pleasant caller at the office this morning. He says that the cotton crop in his community is very short this year, and that in many farms it will take twelve acres to make a bale.

A Doctor's Remedy For Coughs.

As a cure for coughs and colds Dr. Bell's Pine-Tar-Honey combines these remedies in just the right proportion to do the most good for summer coughs or colds. A trial will prove the value of this splendid cough medicine. Dr. Bell's Pine-Tar-Honey soothes the irritation, stops your cough, kills the cold germs and does you a world of good. A 25c bottle will more than convince you—it will stop your cough. At druggists. dw

Messrs. W. D. Lambert, M. T. Wilson and Vale Fall of Chireno motored over to this city this morning. They were accompanied by Mr. A. R. Lockhart of Houston, who is returning from a visit to Chireno. Mr. Fall says that a new oil well has been started, and that the enthusiasm has by no means cooled off in the matter of bringing in the field.

Cure For Cholera Morbus.

"When our little boy, now seven years old, was a baby he was cured of cholera morbus by Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Mrs. Sydney Simmons, Fair Haven, N. Y. "Since then other members of my family have used this valuable medicine for colic and bowel troubles with good satisfaction and I gladly endorse it as a remedy of exceptional merit." Obtainable everywhere. dw

Prof. Geo. M. Hale, a veteran teacher of the county who has been sick with fever several weeks, was able to come up town this morning, and hopes to soon recover his former health. He has been at the home of his daughter Mrs. Oscar Murphey, several weeks. While small in stature and delicate in appearance, Prof. Hale has been a remarkably healthy man in life, always busy and always going, and his recent illness has been very taxing to him.

Just the Thing For Diarrhoea.

"About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy. Obtainable everywhere. dw

Mrs. W. H. Wood, North st., Nacogdoches, says: "My bladder was inflamed and my kidneys acted too frequently. The kidney secretions caused me much annoyance. I lost my rest and in the morning felt exhausted and as though I hadn't had any sleep. Doan's Kidney Pills gave me relief." 50c. at all dealers. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Hay ties made from heavy No. fifteen wire. Tucker-Sitton Hdw. Co.

Mr. M. T. Wilson of Chireno made The Sentinel a pleasant visit while in the city today. Mr. Wilson says that crops are good, cotton picking is under way, and that business prospects are good in his section this year.

When You Have A Cold.

Give it attention, avoid exposure, be regular and careful of your diet, also commence taking Dr. King's New Discovery. It contains Pine Tar, Antiseptic Oils and Balsams. Is slightly laxative. Dr. King's New Discovery eases your cough, soothes your throat and bronchial tubes, checks your cold, starts to clear your head. In a short time you know your cold is better. Its the standard family cough syrup in use over 40 years. Get a bottle at once. Keep it in the house as a cold insurance. Sold at your druggist. dw

Prof. W. P. Emmons, who has been teaching school in the county the past two years, has moved to Clayton, in Panola county, where he has been elected principal of a very fine little school. Mr. Emmons is a good school man and will please the people in his new field of labor.

W. H. Sloan's Liniment Relieve Pain.

Try it and see—one application will prove more than a column of claims. James S. Ferguson, Phila., Pa., writes: "I have had wonderful relief since I used Sloan's Liniment on my knees. To think after all these years of pain one application gave relief. Many thanks for what your remedy has done for me." Don't keep on suffering, apply Sloan's Liniment where your pain is and notice how quick you get relief. Penetrates without rubbing. Buy it at any Drug Store. 25c. dw

HAD INTERESTING TRIP.

The Sentinel reporter had the pleasure of a very interesting conversation with Mr. C. F. Lee, of the Lee Variety Store, this morning, in the course of which the gentleman gave an interesting review of the sojourn he and Mrs. Lee enjoyed in the north this summer, from which they returned a few days ago.

At New York Mr. Lee says he had the interesting pleasure of going through the Woolworth building, which is rated as the largest building in the world. This building towers fifty-eight stories above mother earth, and from the top story Mr. Lee says one can see all over New York, and as far as the vision is possible. From New York Mr. Lee went to Boston and spent a couple of weeks, thence to Charleston. At the latter place the visitor found much interest in the navy yards and inspecting the boats. He says that none of the boats have more than three-fourth the men they need, and that service is impaired by reason of this condition.

Mr. and Mrs. Lee also visited points in Michigan on the trip, and he speaks interestingly of the crop conditions he found, and the great barns the farmers have in which to store their crops. The only thing to mar the pleasure of the trip was the warm weather, which at times was very uncomfortable.

During their residence in Nacogdoches, Mr. and Mrs. Lee have drawn about them many personal friends who are glad to have them home again.
