### WODEN SCHOOL

The Sentinel is informed that the school at Woden will be opened at the appointed time, October 2nd, and Prof. J. O. Satterwhite will serve as one of the teachers until Prof. Geo. M. Hale, who is now ill with typhoid fever, is able to resume work. Prof. Satterwhite taught in this school last year, and is familiar with the work, insuring that there will be no interruption to the service. It is also worthy of note in this connection that the place is being held for Prof. Hale.

### MARRIED LAST NIGHT.

Esq. Frank Huston informs The Sentinel that when he came down from a meeting of the Masonic Lodge last night, at eleven o'clock, he found a couple of young people by the name of Mr. E. R. Roshto and Miss Pearl Miller waiting for him, and that he quickly pronounced the ceremony and made them husband and wife.

The young man comes from some point in Louisiana, while the bride belongs to a family residing in the Shady Grove community.

### NACOGDOCHES SCHOOLS THROW OPEN DOORS

From Monday's Daily

The public schools of Nacogdoches opened this morning under the most favorable conditions, perhaps, in the history of the town, having the largest attendance of any previous first-day (there being about three hundred in the High School, alone), with some distinguished new teachers as well as some of the faithful old ones, and the new buildings and equipment adding zest and encouragement to the occasion.

The new-Texas law is not only responsible for this splendid increase in attendance, but our schools have secured such favorable rating with the Universities, and such splendid reputation in all this section of the country, that boys and girls from many surrounding communities and several adjoining counties were in attendance. This is a condition of which all Nacogdoches can well be proud.

Quite a number of patrons, friends and former students were in attendance upon the opening exercises, and their presence gave much encouragement to the teachers and students with this friendly manifestation of personal interest. And the visitors in turn receive much inspiration from the splendid manifestations of evidence of the great trem of school that is being launched with the present term.

At the High School Prof. Earl Huffor presided. Prayer was offered by Rev. J. R. McKenney, and short speeches were made by the visiting ministers. These were followed by Superintendent R. F. Davis in an address outlining the work of the year, introducing the new teachers, and explaining the new departments which are now being added to our school course.

The department of Domestic Science, which was suspended on account of the building having been destroyed by fire, is again resumed under direction of Miss Ruby Fincher, graduate of Texas College of Industrial Arts, and offers a splendid course to the girls of the seventh and eighth grades.

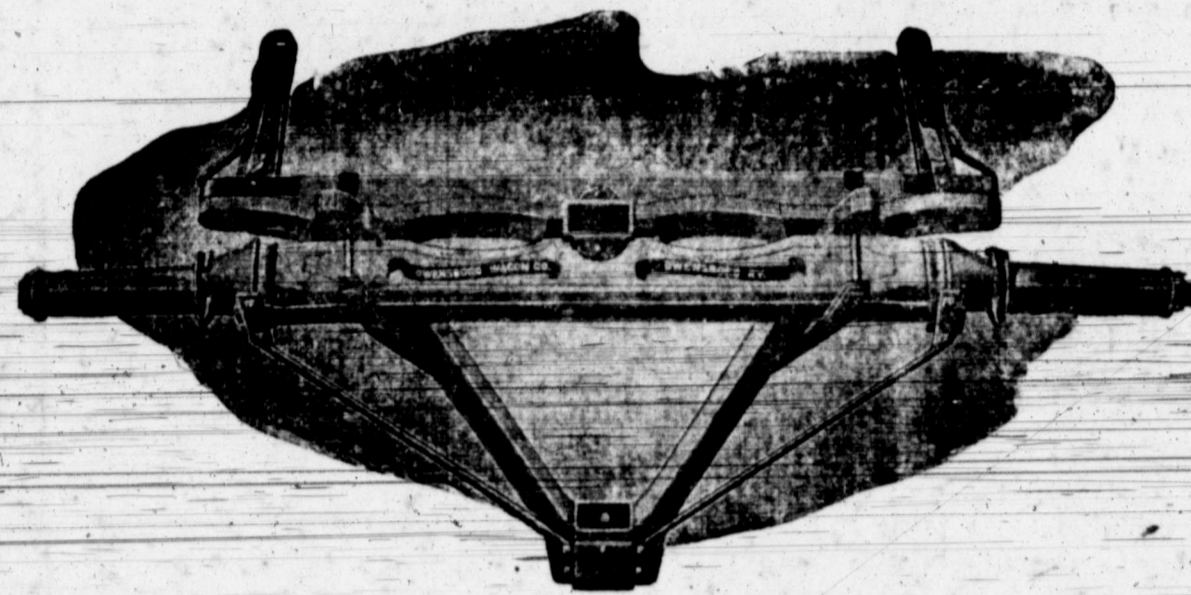

The school of Language now offers thorough courses in English, Latin, German and Spanish. Miss Elizabeth Runkle, graduate of Columbia University, has charge of this department.

The school of Mathematics will be under Prof. Irl Allison, graduate of Baylor University.

The school of Science will be conducted by Prof. T. H. Hunt of the University of Chattanooga, Tennessee.

These new teachers, coming to us from the best educational institutions of our country, and added to our already efficient and beloved faculty, gives Nacogdoches first place in all East Texas as far as her public schools are concerned, and is a condition of which all loyal citizens may well feel proud.

As soon as the lists can be checked up, The Sentinel hopes to get a detailed statement of the attendance in all the schools and the district, together with a more detailed report of all the new features that will be employed.

## A HIND GEAR ON AN OWENSBORO

HALTOM & GIBBS, Proprietors  
G. M. HALTOM, Manager  
O. M. GIBBS, Editor

The Brenham Banner is out with a most creditable trade edition—creditable to both the publishers and the town in which it is published.

A headline reads: "The Cost of Living Fifty-six Years Ago." But the "Cost of Living" today is getting more serious consideration with the populace.

Governor Ferguson wants every Texan Democrat to contribute one dollar each to the campaign fund. The administration we have is worth the money, alright, and we wouldn't mind making it two to insure results.

Jacob S. Coxey, who will be remembered as the leader of "Coxey's Army" which marched upon Washington some twenty years ago, is now trying to reach the National Capitol in another way, making the race for United States senator on the independent ticket from Ohio.

Those who act upon the theory that all is fair in war and politics are just about as wrong as they could be. Nothing is fair in anything that is not right. If a man is a liar in a campaign, you can put it down that he is a liar in anything else if it should be necessary. Honor and truth and a square deal is required of every man in all things. You can't get around this.—Longview Leader.

The information is gleaned from the Jacksonville Progress that the Jacksonville district has been granted authority by the commissioners court of Cherokee county to hold an election Oct. 21 to determine whether or not a \$250,000 bond issue for road improvement shall be levied in said district. Now let Jacksonville keep her reputation for progress and effect the issue with a good majority.

Now that the date for the Trades Day has been set, let Nacogdoches don her "glad rags" and let's make Tuesday, Sept. 26, the greatest day in the history of the old town. If the business people would decorate their places of business, and nicely decorated floats representing different lines, were entered in grand parade, it would have a happy effect in the entertainment of the day, as well as contribute much to the advertising value of the occasion. But whatever we do, let's enter upon the occasion wholehearted and sustain our reputation for patriotism, business enterprise and hospitality.

A recent dispatch from El Paso says that an order has been made that deputy marshals shall guard all trains from the North and from East Texas closely to prevent cases of infantile paralysis being unloaded in that vicinity. This is rather a new indictment against East Texas. We have had to bear the brunt of hookworm notoriety long, but we'll be hanged if we will stand for anything that smacks of "infancy," and "infantile" derangement. Old East Texas, of which Nacogdoches is the central figure, is the mother of the Lone Star State, and we have not yet surrendered, altogether, parental authority. Dd it again, if you dare, and we will dispatch some of these lusty East Texans to the scene of slander with full authority to administer whatever corporal punishment that may be needed for your proper correction.

## BOYS, BOYS, BOYS.

Boys are the only material of which this writer knows anything out of which to make men. The farmer boys are the ones we are talking about right now. If any improvement is ever made in agriculture in this section worth while, it will be done by the efforts of intelligent, young men. The history of all progressive movements in the world whatever has been their nature, were inaugurated and pushed to success by young men. The wisdom of the world solved the problem of education thousands of years ago, when it was ascertained that during youth the twig is bent. Of course the person who has spent his youth well will grow in wisdom if he applies himself, all his days, but it is the young man who becomes terribly dissatisfied with the old ways, old methods, old notions and old things, who make a success. The very law of nature is progress. Every ambitious boy has a wish to excel in his profession, and it is a most laudable one. It is ambition, knowledge, the power to do something that stirs the young man. The time has past when anyone can succeed on the farm by steadfastness to former ways. Every farmer should know the value of his land, the value of his live-stock, the value of fertilizers, how to mix them, the value of his time, the value of improved implements, the value of his products raw, or converted into flesh. He should know how to conserve soil and moisture, and how to get more out of brain than muscle. If he is a proud boy he will want his mother and sister, or his young wife to enjoy the modern conveniences, and he will go about putting in water and lights, and many other things which cost but little. All human energy is the result of gratifying wants. Education, knowledge, creates wants, and when once a young man starts out with his mind full of wants he goes earnestly to work, gratifying those wants. What we need most on the farms of East Texas today, is a large supply of wants—big wants, wants for better homes, wants for a better agriculture, wants for a higher standard and a greater variety of the things that adorn and magnify rural life. We like to see boys content to live on the farm, but no ambitious boy will be contented to live on the farm that offers no improvement over present conditions.—Col. Milner in Rank Co. News.

## NEW OIL COMPANY

The dispatches in yesterday's state papers announce that a new oil company has been formed for the purpose of prospecting in the vicinity of Nacogdoches. The item is taken from the "List of Charters," and reads: "Lorena Loraine Company, Nacogdoches; capital \$5000; purpose to prospect for and market oil. Incorporators, V. E. Middlebrook, V. O. Middlebrook, Nacogdoches, C. E. Norton, Sherman." Judge Middlebrook is interested in the wells that are being sunk at Huntington, and is a firm believer that oil abounds in this section of East Texas. We sincerely hope that he will be abundantly rewarded in his faith, and that he and his associates may lead in the development of a great field.

Geo. T. McNess, local chief of the government station at this place, has been invited to participate as one of the judges of the agricultural exhibits at the East Texas Fair at Timpson, and if his superior in rank will give consent, he will accept the honor.

## NACOGDOCHES TRADITIONS

The Old San Antonio Road is much discussed of late. It has often been written about, and it has been recently marked out officially by the state. A marker or mile post has been set up every five miles, and at other points of special note, along the recognized route, such as cross-roads, rivers and towns, as recently reviewed and surveyed.

There is a proverbial expression to the effect that persons who know the least very often say the most. So it is as to the old San Antonio road; few people see the proposition comprehensively. Many who live along the line will point it out with all confidence, but may not know the true facts of original location.

What is meant by this name? How came the road? When was it and where? The Spanish name of "King's Highway," which was Camino de Rey, or Camino Real, did not necessarily mean any certain road. It applied to any public road, or as we now use it, a road that is officially established, worked and used by the public as distinguished from a private or neighborhood road.

Now, at first, there was no road of the kind in Texas, but when St. Denis, the adventurer and explorer, entered Texas from the east, probably from Natchitoches, La., which is on Red River about fifty miles from the midway point of the east boundary of Texas, no road of any kind was to be found where it now exists, but as there were Indian villages or camps distributed along this direction, the tribes being later designated by such names as Adaes, Asinas, Ais, Nacogdoches, Tejas, Cadoches, Annanais, etc., there were probably trails that lead from one to another village, or points of importance. However, St. Denis adopted a course leading directly westward, and marked his route, so that it was followed by other explorers and adventurers until it became a road. Of course, there were obstructions to be overcome, such as rivers, unbridged, marshes, swamps, hills, etc., and these difficulties were obviated by each traveler as occasions required for traveler as occasions required for years before the trail could be called a road, and before it even became a primitive public road.

Stephen F. Austin traveled it in 1821 when Texas had become Spanish. This was after it had been claimed as French for a century. So about 1820 it became a recognized road, and was designated as the "Old San Antonio Road," but it was not an officially authorized road until later. Land surveys began about the year 1800, and this road was adopted for a boundary line for many of these old surveys, and was designated as the Old San Antonio Road. It extended, as it now does, from Natchitoches, La., almost due west, via Sabinetown, San Augustine, Nacogdoches, and so on westward. History is not full upon these facts, but traditions and minor data support this theory. Now, some people without reflection, say it is a waste of money, and all nonsense, to survey and mark this old road. Would anyone say it is nonsense to mark the spot where Washington, or Lee, is buried, or where Jackson, or Lincoln, or

# PRINCE ALBERT

the national joy smoke.

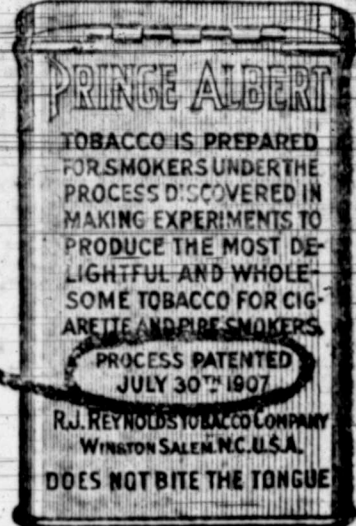

YOU'LL find a clean, hand-pipe on top no matter how much of a stranger you are in the neck of the woods you drop into. For Prince Albert is sent there—at the first place you pass that with tobacco. The happy red box with the nickel and the try red tin top—then there's a hand-pipe, some good and hot-pipe of tin handles and the pound cry-stal-glass humidifier with sage-fe-moisture top. That keeps the tobacco in such long a trim all the time!

in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it!

It answers every smoke desire you or any other man ever had! It is so cool and fragrant and appealing to your smoke appetite that you will get chummy with it in a mighty short time!

Will you invest 5c or 10c to prove out our say-so on the national joy smoke?

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

This is the reverse side of the Prince Albert tin. Read this "Patented Process" message to you and realize what it means in making Prince Albert so much to your liking.

## Prince Albert gives smokers such delight, because

- its flavor is so different and so delightfully good;
- it can't bite your tongue;
- it can't parch your throat;
- you can smoke it as long and as hard as you like without any comeback but real tobacco happiness!

On the reverse side of every Prince Albert package you will read:

"PROCESS PATENTED JULY 30th, 1907"

That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

Jefferson was born, or where the pilgrims first landed on Plymouth Rock, or where the battle of Bunker Hill was fought, or the battle of San Jacinto? Then, why not mark the old San Antonio Road, which was the artery through which flowed the blood that fought the battles of Texas, and made the Lone Star State?

Through the medium of this road Texas was established. Crockett, Travis, Bowie and Houston traveled it. Then let not this road be unknown to Texas. It led the way—it was, at first, the only way—the original King's Highway, the memorable Old San Antonio Road which leads through the pre-historic town of Nacogdoches, the Mother of Texas.

## AMBITION OF A GIRL RICHLY REWARDED

Some years ago there was a girl by the name of Miss Mary Glasscock who lived with her parents out on the San Flat district. The farm was small and very poor, and the family had a hard struggle for a mere existence, but the star of hope burned brightly in this girl's mind, and she was born of a courage that would not be downed with the hand of poverty, or crushed with bad environments. She dreamed of a day when she could take her place in the busy world, and fill some useful place. Fighting her way through as best she could, she took a course in the Tyler Commercial College where she proved so adept, gaining efficiency so rapidly, that the school made a place for her with its teaching force.

A recent letter from Miss Glasscock to a friend in the county brings the cheering information that she is now in charge of the shorthand department of the Moberly Commercial College, of Moberly, Missouri.

Such an achievement for a girl with no early opportunities should be an inspiration to all young people, regardless of the condition with which they are confronted, and if the world had more people like this most worthy young lady, it would be more prosperous and glorious.

## COUNTY REPRESENTATION IN THE STATE UNIVERSITY

Austin, Texas, September 11, 1916.—The students of the University of Texas for the session of 1915-16 came from 196 different counties in Texas, from 29 states, and from eight foreign countries. 115 students registered from outside of Texas: Louisiana sent 14, New Mexico, 10; Oklahoma 10, Illinois 6; Mississippi 6, New York, 5 Tennessee 5, Alabama, 5; Arkansas, 5; and smaller numbers from other states.

Austria, Bohemia, Brazil, Denmark, Hawaii, Mexico, Panama, and Persia were represented in the student body. Omitting Travis County, Bexar County led with 159 students; Dallas came next with 122; then followed Tarrant with 74; Harris, 66; Bell, 51; Galveston, 49; McLennan, 46; Johnson, 40; Gray-

son, 36; Smith 35. El Paso 33; The following counties sent between twenty and thirty students; Anderson, Bastrop, Burnett, Caldwell, Dewitt, Ellis, Harrison, Hays, Hill, Jefferson, Milam, Navarro, Tom Green, Williamson. Counties sending between ten and twenty students were Angelina, Austin, Bee, Bosque, Brown, Collin, Coryell, Guadalupe, Hale Hamilton, Houston, Hunt, Jones, Lamar, Lampasas, Limestone, Nacogdoches, Nolan, Nueces, Palo Pinto, Parker, Potter, Robertson, Runnels, Rusk, Taylor, Uvalde, Val Verde, Van Zandt, Washington, Webb, Wichita, Wilson, Wood.

I. C. Oliver, an old friend of the editor, who is now making his home on one of the good farms of this county, was in the city today and while making adjustments of accounts did not forget his county paper.

### BACKACHE AND RHEUMATISM.

Dear Mr. Editor: For the benefit of others, I gladly give this statement regarding the merits of Dr. Pierce's Anuric Tablets. Am near 76 years of age. I suffered from backache, weak back, rheumatism, and could not control the excretion of the kidneys. I can safely say that "Anuric," the new discovery of Dr. Pierce, Buffalo, N. Y., has done me more real good than anything I have ever taken for these ailments.

Mrs. N. M. FLINT,  
Dawson, Texas.

Note—"Anuric" prolongs life because old people usually suffer from hardening and thickening of walls of arteries, due to the excess of uric acid in blood.

Dr. Pierce, Buffalo, N. Y., has been testing this medicine. The relief obtained by sufferers has been so satisfactory that he has placed "Anuric" with the druggists in town. If not obtainable, send 10 cents to Dr. Pierce for large trial package, or 50 cents for full treatment.

### VILLA COME TO LIFE

El Paso, Texas, Sept. 16.—Villa attacked Chihuahua City with 600 men, penetrated part of the city, but was driven out, with heavy losses, by the constitutional army. General Trevino was wounded in an arm.

This news was received in Jaurez tonight immediately upon the establishment of telegraphic communication with Chihuahua.

During the afternoon the operator at the station of Sauz, on the line of the Mexican Central railway, twenty-five miles north of Chihuahua City, reported that he could hear distinct sounds of cannonading.

During the afternoon the officer here yesterday reported that a feature of today's Hidalgo day parade would be twenty-four field guns. General Trevino said last week that scouts who had interviewed ranchers on Villa's line of march learned of a boast by Villa that he would celebrate the eve of independence day in Chihuahua.

The hour that the attack was made is not known here as tonight's dispatch to the Mexican officials in Jaurez lacked details.

It told briefly of the repulse of Villa's 600 men, the capture of those who penetrated the city and the death and the wounding of General Trevino.

Jaurez showed no signs of military excitement tonight. A large crowd from the towns in the neighboring country in which women predominated, promenaded the main street and around the plaza where the garrison band played. In the customs house a ball was given, with General Gonzales, post commandant, Consul Andre Garcia, Mayor Herrera and other officials attending.

The street crowd was in a holiday mood, throwing confetti and firing fire crackers. No troops were in evidence, except for the troopers taking part in the merrymaking.

### TEXAS AVIATOR KILLED.

Fredericksburg, Texas, September 14.—Jack Miller, Texas aviator, lost his life at the Gillespie County Fair yesterday afternoon, when again his own judgment, he responded to the persistent appeals of the fair directors and others to make a fight. He had refused to try the air earlier in the day because of the contrary wind and still doubted the advisability of flying at 6 o'clock, when he finally went up, but the crowd were so anxious to see him make a trial that he subjugated his own welfare to the wishes of the crowd and made the ascent.

Bringing his biplane on to the race track to start his flight, Miller skimmed along the ground a short distance to obtain a start and had mounted to a height of 75 feet when his machine halted, gave a sudden dip to the left and just as suddenly dropped to the earth, inflicting injuries that resulted in his death.

### THE CHRISTIAN CHURCH DEDICATED YESTERDAY

#### Money was Raised With Which to Liquidate Indebtedness and Free it of Debts.

About a year ago some twenty-five or thirty members of the Christian church, residing in this city, became anxious to have a house of worship of their own, in which they could have regular services. With a faith and ambition born of courage, they set about to get the needed building—and today they have it, a pretty little building, paid for, and an increase in membership to a number that now runs above one hundred people.

Simultaneously with the campaign for a building Rev. E. L. Thompson, noted as one of the most progressive and aggressive young pastors of the country was engaged for full time, and without making an extended comment on his splendid leadership, suffice it to say that he has made good in every essential detail, leading his flock on to victory in the ambition to have a home and regular services of their own, and with the prospect for greater things in the future.

Getting down to the report of the exercises of yesterday, which brought the happy climax of the successful fruition of worthy labors and the sweet dream of the day, it would be a burden upon our space for one day to tell it all. Dr. Crayton S. Brooks, the evangelist who held a protracted meeting a few days ago, preached the dedication sermon, and it was a masterly discourse, couched in arguments appropriate to this occasion. At the conclusion of the sermon, the announcement was made that the church owed twelve hundred dollars on the building, and that the church extension would take up seven hundred dollars of the amount if the congregation would clear the five hundred dollars. With this statement, pledges were called for, and \$390 was secured at the morning service. Dr. Brooks preached again at night, but before beginning his sermon he expressed the desire to raise the balance of the money needed—and it was raised quickly and easily, enabling the visiting minister and the pastor to proceed with the religious service of the evening.

Many people made genuine sacrifice to lift this load from the church they love so well, but they did it freely, and all join in rejoicing that it is now their home in reality as it was in possession before this great service. There were also liberal contributions from many who do not belong to the church, attesting the spirit of liberality that prevails in good old Nacogdoches, and the membership is profoundly grateful for this help which came to them in a time of need.

As was beautifully noted by several of the speakers yesterday, the church in its new condition hopes to become a valuable unit in the spiritual life of the city—and since communities are now rated for their school and church facilities, it will be of material help as well.

### JUDGE BUFORD DIES.

Judge Buford, of Henderson, district judge of the district composed of the counties of Shelby, Rusk, Panola and Gregg counties, died at his home in Henderson Sunday morning at 2:00 o'clock, and his remains were laid to rest this morning at 10:00 o'clock.

Judge Buford was appointed district judge under the Campbell administration in 1907, and has been elected continuously since. He was also the democratic nominee for the next term. He ranked with the leading attorneys and jurists of the East Texas bar, and was a most elegant gentleman who was highly esteemed by all who knew him.

Judge Buford was a brother-in-law of Dr. Hall and Mrs. J. J. Hayter, and an uncle by marriage of Mrs. Dr. Deal of this city, who went to Henderson early yesterday morning to be present at the funeral.

### BREAKS NEGRO'S NECK WITH PIECE OF PLANK

Lufkin, Texas, Sept. 14.—Last night about dark, an affray took place between two negroes in the negro pool hall at Lufkin in which Tim Harrison, employed in the barber shop of Cain & Laws struck a negro brakeman by the name of Robinson, in the neck with a piece of plank breaking his neck and killing him instantly. Robinson was a brakeman on the H. E. & W. T. railroad. Both negroes were intoxicated. Sheriff Evans immediately jailed Harrison.

### TRADES DAY DATE FIXED BY COMMITTEE

September 26 Has Been Set Apart for Re-union of People of the County.

James D. Greer chose as the committee to assist him in promoting the Trades Day for Nacogdoches the following well known citizens: Messrs. Robert Lindsey, Geo. T. McNess, Sam Hayter, G. A. Blount, Zeno Cox, Jr., H. J. Schmidt, T. E. Baker, Giles M. Haltom and W. S. Davis.

The committee met yesterday afternoon and organized by selecting Robert Lindsey chairman, and Geo. T. McNess secretary.

At the meeting the proposition was thoroughly discussed, and all being of the opinion that it would be a good thing for the city and county, Tuesday, Sept. 26, 1916, was selected as the day for the meet, and committees were appointed to inaugurate the campaign as follows:

Finance Committee—T. E. Baker and Zeno Cox, Jr.

Arrangement Committee—H. J. Schmidt, G. A. Blount, Sam Hayter, Geo. T. McNess and Jas. D. Greer.

Advertising committee—Giles M. Haltom and W. S. Davis.

These committees will get busy at once in working out the respective details of the program and work of the campaign, and will leave nothing undone that will contribute to the success of the enterprise.

The premium list and features of the day will be announced as soon as the committees can make report. In the meantime, the people of Nacogdoches county are invited to be getting themselves in readiness to be our guests for that day, with assurance that they will have the greatest time of their lives.

### Are You Looking Old?

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. ### PRESIDENT'S SISTER DEAD.

New London, Conn., September 16.—Mrs. Annie E. Howe, only sister of President Woodrow Wilson, died at her apartments in a local hotel early Saturday. Mrs. Howe had been extremely ill for about a week with peritonitis and the end had been expected at any moment for the last two days. The president was informed about a week ago of his sister's critical condition and on Monday came here, returning Wednesday to Shadow Lawn. Mrs. Howe had been too weak to recognize him. He was kept constantly informed of her condition, and when death came a message was sent to him.

Mrs. Howe came here from her Philadelphia home in the early summer with her niece, Miss Margaret Wilson, daughter of the President, stopping at a summer hotel in the suburbs. When her condition became a matter of grave concern, Mrs. Howe was brought to a city hotel.

With her were her two sons, George Howe of North Carolina and Wilson Howe of Richmond, Va., and a daughter, Mrs. Catharine of Philadelphia, besides Miss Wilson.

There will be no funeral services here, the body being taken to Columbia, S. C., where it will arrive about noon Monday. President Wilson will join the funeral party at some point not yet determined.

At Columbia services will be held in the First Presbyterian church and the burial will be in the graveyard adjacent to the church.

### THE FARMER'S PROFESSION

It is up to the farmer to elevate his own profession. He can do it by accepting the offers of the Federal government, by education, by taking advantage of the help of the Department of Agriculture, by short courses in agriculture offered to the farmers by the A. & M. Colleges and by many other ways and avenues which science has opened up in easy reach of the progressive man. The farmer is the only man in existence who disparages his own profession. He delights in calling himself a "clay hopper," a "hay-seed," and other terms equally as uncomplimentary. Only the farmer himself disparages a high degree of knowledge in his profession. Only the farmer himself will belittle his own profession by deriding book farming. All other professions have long since recognized farming among scientific callings. Lawyers long ago recognized the importance of scientific investigation in all the departments of agriculture, and as law-makers in congress and the legislature of the various states they have taken the lead in favor of agricultural experiment stations, agricultural colleges, and in making appropriations for the Department of Agriculture. It is a sad commentary upon agriculture that its only detractors are farmers. A man would not be tolerated in the profession of law, or medicine, or theology, or teaching who would constantly say things that would lower and disparage his own profession.—Col Milner in Rusk Co. News.

### CAPT. W. T. WILSON WAS RUN DOWN BY A TRAIN.

Accident Happened at Lufkin and He Was Rushed to This City for Treatment.

The people of Nacogdoches possibly never received a greater shock than when the news spread this morning that Capt. W. T. Wilson, president of the W. T. Wilson Grain Company, and one of the most prominent citizens of this city, had been killed by the north-bound E. & W. passenger train at Lufkin last night.

People talked with one another in low, feeling conversation, and many wended their way to the Wilson home, hardly able to realize that it was true until they viewed his lifeless form.

The particulars of the sad event, as best they can be gathered in the absence of a legal investigation, are about as follows: Capt. Wilson spent the forepart of the night at the Bonner Hotel in Lufkin, which is on the opposite side of the track from which passengers board the train. He was coming to the train to take passage for his home in this city, and being a little late, the train was arriving, with him on the opposite side. With others he attempted to cross the track in front of the train, and doubtless being blinded by the light, he either stumbled and fell, or was knocked down by the train as he crossed. His left foot was cut off in the instep, a number of bruises were inflicted on his body, and some severe injuries were sustained in his head. The

train was held until preparations could be made and he was brought on to this city and rushed to the Nacogdoches Surgical Hospital where preparations were being made to operate on his foot and dress his other wounds when death seized him, about four o'clock this morning.

Capt. Wilson was born in Georgia, July 24, 1846, thus rounding out his three score and ten years last July. He is survived by one son, Ben Wilson of this city; two daughters, Mrs. Elizabeth Wright of St. Louis, and Mrs. T. E. Baker of this city. His good wife, the partner of his sorrows and joys, who came down through the career of his manhood with him, helping rear the children, preceded him to the grave some several years, and his devotion to her memory was as great as was his devotion as a husband was to her in her lifetime. Just a few days ago he arranged with the plumber to move a hydrant at her grave to make room for him to sleep beside her in eternity, when the summons came to him, and we learn that the work was done yesterday.

With his parents, Capt. Wilson moved to Arkansas when a child, and he grew to manhood in that state. For many years he was engaged in the grain business in Little Rock, Arkansas, where he prospered for a long time, but meeting with a reverse, as the great majority of men do who are engaged in a single line, he came to Nacogdoches about twenty years ago and started his business life all over again. At first he could do nothing but a limited commission business, and men of less courage would doubtless have fallen by the wayside, or remained in the rut. Not so with this man, who, to the contrary, pushed forward, onward

and upward, and by close application to business, sterling integrity and fair dealing with all his customers, soon drew about him a great host of friends, which in turn brought continued prosperity to his house and enabled him to build up a wholesale business that was not only a credit to Nacogdoches, but ranked with the leading houses of its kind in East Texas.

In life Capt. Wilson was a "giant oak in the forest of men." To his church (the Baptist) he was one of the most faithful in attendance and support, and the entire membership attest the fact that he was a consecrated christian gentleman. He was also broad and liberal with all the other churches and all agencies for the good and betterment of mankind. He was a true and loyal friend to the schools, ever ready to do his part in their support. In all the other affairs of life, he was equally patriotic, with his shoulder to the wheel in every movement that tended to the betterment of his country, socially, morally and materially, and as a friend he was true as steel. With his stately, courteous bearing, he was a true son of the old South, and an inspiration to the younger son of today. Of keen perception, tender sympathy and friendly interest in those with whom he was associated, he had a happy way of reaching people with his good influence that is given to but few people, and one always felt better for having come in contact with him. The description of his glorious life is best expressed by the poet in the lines:

"Can that man be dead,  
Whose spiritual influence is upon his kind  
He lives in glory; and his speaking dust  
Has more of life than half his breathing moulds."  
Death lies upon this great,

good man like an untimely frost. All feel that it was an unkind fate that would cut down a man of such wonderful activity and usefulness while away upon a mission of business, and send his mangled remains back to us, which makes us exclaim with Lillo: "O death! thou strange mysterious power, seen every day, yet never understood—but by the uncommunicative dead, what art thou?"

Cockton says: "There is before the eyes of men, on the brink of dissolution, a glassy film, which death appears to impart, that they may have a brief prospect of eternity when some behold the angels of light." When Captain Wilson had the lot cleared and made arrangements for the consignment of his mortal remains back to mother earth, by the side of his beloved wife, who will say that a spiritual premonition was not hovering about him with a message of approaching dissolution of this tabernacle of clay and the near approach of his entry into that better home where business cares, with their troubles and labor, can be laid aside and the faithful enter into a life of perpetual joy? Everybody in Nacogdoches will miss the companionship of this great good man which is best expressed in the lines:

"When musing on companions gone,  
We doubly feel ourselves alone."  
But we will know where to find him in the life beyond the grave, and those of us who emulate the examples of his splendid life will have re-union with him in a brighter, better world. Peace to his ashes!

The light posts on the public square and leading on down to the depot are being nicely painted, which adds much to their civic attractiveness.

### "FIRE PREVENTION DAY"

Governor Ferguson has issued a proclamation designating Monday, October 9th, as "Fire Prevention Day," at which time it is recommended that the people of Texas examine their flues and chimneys, their wiring for electric lights, remove the trash piles and all rubbish of a combustible nature and make all precautions that would safeguard the premises of the different homes against the outbreak of fire.

City Fire Marshal Holt is in receipt of a communication from State Fire Marshal English asking co-operation in the matter, and he will do what he can to interest people of Nacogdoches in the matter, and inspect the town.

It is not necessary to wait until this particular day to begin this good work—begin now and have your premises in repair by the day designated would be better.

#### COUNTY SCHOOL BOARD

#### MAKES NEW RULING

On this, the 8th day of September, 1916, the County Board of Trustees of Nacogdoches County, being in session, the following members thereof, to-wit: T. E. Baker, president; A. E. Day, Geo. F. Fuller being present, it is ordered by motion of A. E. Day that all school in Nacogdoches County where said schools are being taught by one teacher, be classified as Elementary schools doing seven grades of work.

That all two-teacher schools where the teachers employed hold Second grade certificates, be classified as Elementary schools doing seven grades of work and that the Elementary teacher be not required to teach more than the first, second and third grades, and that the other teacher teach all other work.

That all four-teacher schools be classified as Third Class High Schools doing nine grades of work and that the Primary teacher shall not be required to do more than two grades or years work and that the third, fourth, fifth, sixth and seventh grades be taught by the two next teachers in rank and that the eighth and ninth grade, together with some form of Vocational or Industrial work shall be taught by the fourth teacher, who shall be classed as principal of the school, provided that said principal shall hold a first grade certificate or a certificate of higher rank and shall have had some special training to do the Vocational or Industrial work. Provided, that if the principal of said school has not had such training as to qualify him or her for such Industrial work as the school desires to have taught, but if there be another teacher in the school who is qualified to do such work, said teacher may do such work, provided the principal shall do a portion of her or his work, equal in amount to the work done. Provided further, that if either of the teachers doing the third, fourth, fifth, sixth and seventh grades of work holds a first grade certificate or a certificate

of higher rank, they may be permitted to do work in the high school, provided the principal shall take an equal amount of their work and this class of work be done on the departmental plan. That Chireno Central High School be classified as a High School of the second class and that they be requested to do some form or kind of Industrial work in said school. It is ordered that an appropriation of 13 cents per capita be made from the county funds, which amount may at a subsequent meeting be increased, but not decreased, and that the County Superintendent be authorized to enter said amount to each and every child in Nacogdoches county from 7 to 17, provided such child has been enumerated in some school district in Nacogdoches County.

It is ordered that the County Superintendent advertise in some newspaper in Nacogdoches county, the fact that the County Board will convene on the 30th day of September, 1916, in the

County Superintendent's office for the purpose of considering and appointing a school attendance officer for the year 1916 and 1917.

It is recommended by the Board that the Compulsory Attendance Law be enforced throughout the County in all districts, both Common and Independent during the same period.

By motion made by A. E. Day and seconded by G. F. Fuller, the board adjourned to convene September 30th, 1916.

Approved this, the 8th day of Sept. 1916.

THOS. E. BAKER, President County School Board. Attest: Jno. B. Stripling, County Superintendent and ex-officio, Sec.

### NAOGDOCHES MASONS VISITED TIMPSON

Word was received in the city last week that the Dallas Degree Team of Thirty-third Degree Masons, composed of Hon. Sam P. Cochran, past grand master of Texas, Dr. H. C. Evans, Ben Irelson and Sam P. Hambley would meet with the Timpson Masonic Lodge Saturday night, and immediately plans begun to be made for several from this lodge to attend.

Three automobile loads responded to the invitation, composed of the following well known local Masons: Messrs. George Fewell, Lake Orton, Dr. C. C. Pierce, G. B. Engledow, Rev. M. C. Johnson, H. F. Wilson, Matt Mueckleroy, W. F. Wilson, Frank Huston, G. G. Machann, Bill Stephens, Mr. Sullivan, and Henry Lewis.

They report a most interesting meeting, and a most enjoyable trip.

When the bowels feel uncomfortable and you miss the exhilarating feeling that always follows a copious morning operation, a dose of HERBINE will set you right in a couple of hours. If taken at bedtime you get its beneficial effect after breakfast next day. Price 50c. Sold by all druggists.

E. M. Weeks has been among the Chireno visitors to the city today. Mr. Weeks served this county as county clerk three terms, and has many friends over the county.

Check a cough or cold in the lungs before it develops a serious case. **BALLARD'S HORE-HOUND SYRUP** is an effective remedy for all soreness or congestion in the lungs or air passages. Price 25c, 50c and \$1.00 per bottle. Sold by all druggists.

### MARRIED YESTERDAY.

From Monday's Daily—Charley Lum and Miss Gay Biggar, a well known couple of Nacogdoches' young people, accompanied by a few close personal friends and relatives, motored to the Methodist parsonage about seven o'clock yesterday evening and were quietly married by the pastor, Rev. O. T. Hotchkiss, after which the party took a little joy ride about the city.

The bride has been holding a position of chief operator of the Local Long Distance Telephone Co. for the past five years where she distinguished herself with faithful and efficient service. Mr. Lum is also an energetic, ambitious young man, and both have many friends whose good wishes will go to them in their new relationship.

Mothers who spend the night with a sick baby appreciate the help they get from McGEES' BABY ELEXIR; especially in hot weather. It quiets fever and irritation, soothes the stomach, checks the bowels and helps both mother and child to obtain sleep and rest. Price 25c and 50c per bottle. Sold by all druggists.

H. T. Power, a former citizen of this county who is now making his home in Cherokee county, has been attending district court in the city today and renewing acquaintance with many old friends.

Sickly children need WHITE'S CREAM VERMIFUGE. It not only destroys worms, if there be any, but it acts as a strengthening tonic in the stomach and bowels. Price 25c per bottle. Sold by all druggists.

Albert Scott of the Melrose community was a pleasant caller at the office this afternoon.

### THE BAND ORGANIZES—STARTS OFF NICELY

At a meeting of those interested in the organization of the Nacogdoches Band, at the City Hall, the details were worked out and officers elected as follows: John R. Thomas, President and manager.

Chas. I. Shindler, Vice-President. Holloway Muller, Secretary.

The chairman appointed the following committee to draft by-laws: Herbert Shindler, B. E. Campbell, Louis Muller.

It was elected that meetings be held each Tuesday and Thursday nights. It was also elected that dues of \$2.00 per month, payable in advance, be assessed, and that \$1.00 be paid at the next regular meeting for the remaining half of the month.

The "boys" are all very enthusiastic in the matter of working out a first-class band for Nacogdoches, and having a number of old musicians with them, hope to be able to furnish music for the public at an early date. In fact, they hope to be able to furnish music for the forth-coming Trades Day meeting.

You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup. Foley Kidney Pills, and Foley Cathartic Tablets. Stripling, Haselwood & Co.

### GOOD LADY DIES.

News was received in the city this morning of the death of Mrs. B. L. Humphreys, wife of Lem Humphreys, of the Shady Grove community. She died about eight o'clock this morning, and her remains will be laid to rest in the Shady Grove cemetery tomorrow morning at 11:00 o'clock.

The lady is survived by her husband, four daughters and three sons. She was a good woman, loved by those who knew her, and had wide circle of friends who will enter in profound sympathy with the bereaved ones left behind.

**Cured Her Two Little Girls.** Mrs. Ada Sanders, Cotton-town, Tenn., writes: "We use Foley's Honey and Tar as our best and only cough remedy. It never fails to cure my two little girls when they have colds. Relieves hoarseness, tickling throat, bronchitis, hay fever, asthma, croup. Stripling, Haselwood & Co."

### BEAUMONT AFTER ARMOR FACTORY

Washington, Sept. 14.—Texas actively entered into the nationwide contest for location of the proposed armor plate factory today, when L. P. Featherstone, representing the Beaumont Chamber of Commerce and East Texas ore interests, offered the 1,000,000 tons of ore free if the plant was located in Beaumont, or in either Cass, Marion or Upshur County, where the fields are located.

Orange, Port Arthur and Atlanta were other Texas towns making application for the plant. In addition to free ore, the Beaumont offer included a free site and an offer to rent the plant from the government at the conclusion of its usefulness, provided it can be used for commercial purposes.

Before a decision is made, Secretary Daniels and a board of navy experts will visit the various locations suggested and an invitation to include Texas in the itinerary was extended.

Supplementing his oral argument, Mr. Featherstone submitted a brief containing complete data as to ore, labor, railroad, climatic and strategic resources embraced in the Texas offer.

### For Hay Fever, Asthma and Bronchitis.

Every sufferer should know that Foley's Honey and Tar is a reliable remedy for coughs, colds, bronchitis, hay fever and asthma. It stops racking coughs; heals raw, inflamed membranes; loosens the phlegm and eases wheezy, difficult breathing. Stripling, Haselwood & Co.

Jas. D. Greer's fame as an agriculturist is still spreading, he now being in receipt of an invitation to serve as one of the judges in the East Texas Fair to be held at Tyler.

### A Bad Summer For Children.

There has been an unusual amount of sickness among children everywhere this summer. Extra precautions should be taken to keep the bowels open and liver active. Foley's Cathartic Tablets are a fine and wholesome physic; cause no pain, nausea or griping. Relieve indigestion, sick headache, biliousness, sour stomach, bad breath. Stripling, Haselwood & Co.

Roy Hines, who has been serving as stenographer for King & Seale several months, received a telegram this morning offering him a position with the interior service of the government at San Antonio, and he will leave tonight to accept the position. The position carries with it a handsome salary, and as Mr. Hines is a most steady, worthy young gentleman, we rejoice with him in his good promotion.

**He Was Worried and Hopeless.** "For ten years I was bothered with kidney trouble," writes T. F. Hutchinson, Little Rock, Ark. "I was worried and had almost given up all hopes. I used five boxes of Foley Kidney Pills and am now a well man." Foley Kidney Pills drive out aches, pains, rheumatism and all kidney trouble symptoms. Stripling, Haselwood & Co.

### COMING CONFERENCE.

The Nacogdoches District Conference of the Congregational Methodist Church will meet with Bristle town church on Thursday night before the second Sunday in October, 1916. All delegates are requested to be on hand with reports and records.

## GIRL COULD NOT WORK

How She Was Relieved from Pain by Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I had pains in both sides and when my periods came I had to stay at home from work and suffer a long time. One day a woman came to our house and asked my mother why I was suffering. Mother told her that I suffered every month and she said, 'Why don't you buy a bottle of Lydia E. Pinkham's Vegetable Compound?' My mother bought it and the next month I was so well that I worked all the month without staying at home a day. I am in good health now and have told lots of girls about it."—Miss CLARICE MORIN, 22 Russell Street, Taunton, Mass.

Thousands of girls suffer in silence every month rather than consult a physician. If girls who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion would take Lydia E. Pinkham's Vegetable Compound, a safe and pure remedy made from roots and herbs, much suffering might be avoided.

Write to Lydia E. Pinkham Medicine Co., Lynn, Mass. (confidential) for free advice which will prove helpful.

### WATSON GIVEN BAIL IN MURDER CASE

Waco, Texas, Sept. 13.—T. R. Watson, Teague banker, charged with the murder of State Banking Commissioner Patterson while the officer was in the act of closing the defendant's bank, was granted bail in the sum of \$20,000 tonight at 9:30 at the conclusion of one of the most sensational trials ever held in McLennan county. The court room was filled with men and women, who had spent the entire day there hearing the testimony and listening to the arguments.

Before announcing his decision at 9 o'clock, Judge A. J. Harper, associate justice of the court of criminal appeals, requested that any one who did not intend to remain in the room during the delivery of his decision must leave. He then outlined reasons tending to show why he felt it his duty, in the face of criticism which has been brought, to admit defendant bail.

Attorneys for defendant advised the sheriff's department no effort would be made to give bond tonight, but that people were en route here from Teague and bond would be made in the morning.

Leon Crane, a native son of Nacogdoches who is now manager of the Houston branch of the Texas Auto Co., is in the city today visiting with relatives and old friends. Like many other young men who have gone out from Nacogdoches, Mr. Crane is making good in the business world, and has a host of friends in this, the mother town, who are watching his career with much interest and gratification.

## CALOMEL SALVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless. Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you can't find Dodson's Liver Tonic use the best of the horrible calomel you see in bottles waiting for you.

## MOURNED AS DEAD RE-UNITED AGAIN

Bartlett, Texas, Sept. 12. W. M. Cohand, who lives a few miles west of this place, during the Galveston storm of 1900 lost all of his earthly possessions, his wife, and as he thought, his two little sons aged 5 and 8 years. Sufficient evidence was found to convince Mr. Cohand of the death of the children, and all through the years a search has been kept up.

A few years ago he met a friend on a train who was also a victim of the storm, and each had supposed the other dead. The friend knew of a young man in California named Cohand who so much resembled Mr. Cohand that he believed him to be a relative. Mr. Cohand immediately communicated with the postmaster at Sacramento and learned that a young man named James Cohand received mail there.

The father then wrote to the young man giving full details of the storm and his loss. The reply came saying that the two brothers, James and Rudolph, were together and safe, having been rescued by strangers and placed in a convent until they were old enough to go out into the world to battle for themselves.

The brothers, now 21 and 19 years old, arrived here about a week ago after 16 years of separation.

### URNS AGAINST COLE L. BLEASE

Columbia, S. C., Sept. 13.—Governor Richard I. Manning has been renominated for governor of South Carolina over former Governor Cole L. Blease, according to nearly complete unofficial returns from yesterday's democratic run-off primary compiled here today. Governor Manning's vote, including that cast by the National Guardsmen on the border, with only 84 small South Carolina precincts missing, was 68,326, against 64,274 for Blease.

Representative Wyatt Aiken of the Third Congressional District, who was forced into a second primary with F. H. Dominick of Newberry, apparently has been defeated by about 20,000 votes.

Blease led Governor Manning by more than 20,000 votes in the first primary, but failed to obtain a majority over the five aspirants in the gubernatorial race. The heavy vote polled in the first race by Cooper was apparently thrown to Governor Manning in yesterday's contest.

### WANTS 12-CENT LOAN ON COTTON.

Fort Worth, Tex., Sept. 13.—Congressmen of the South and presidents of the Southern bankers' associations have been requested by Henry N. Pope, president of the Association of State Presidents of Farmers' Unions, to join in an effort to secure a minimum loan of 12 cents per pound on cotton.

In commenting on his action, Mr. Pope said: "This government is making a 12-cent minimum loan on cotton would never be called upon to jeopardize its credit, for if a farmer knows he can borrow 12 cents per pound on cotton he will never offer any cotton to the market for such a low figure."

"A 12-cent loan minimum will make a 20-cent selling minimum possible. Our government has always found a way to protect the price of manufactured articles among home consumers, and why not protect the price of cotton among foreign consumers. "As an agricultural product, cotton is in a class of its own. It is the only product of the plow

### LOUISIANA ELECTION.

Baton Rouge, La., Sept. 13.—Practically complete returns indicate the nomination of ex-Gov. J. Y. Sanders as congressman from the Sixth Congressional district to succeed Lewis Morgan.

Former Governor Sanders has defeated Amos L. Ponder by a majority of about 300. Both ex-Governor Sanders and Amos L. Ponder, candidates for congress arrived in Baton Rouge today to watch the election returns.

Governor Sanders arrived on the 5:30 train from New Orleans and reiterated his charge made in New Orleans that whiskey and money was used against him in many of the parishes.

Amos L. Ponder came in from Hammond and says he is going to contest the election. He declares that one box in Bogalusa and three boxes in St. Tammany are crooked and he will have them thrown out.

### GALVESTON HELPING.

A. C. Churchwell, president of the Confederate Home for Aged negroes has returned from Galveston where he went to solicit donations for the enterprise. He was received very cordially by the business people of Galveston, being given a letter of introduction by the commercial club, and received some sixty dollars in contributions, together with promise of more substantial help in the future.

Churchwell expects to visit other places and put on an active campaign in the good cause he represents, through which he hopes to soon have the home financed and in operation.

## THE APPORTIONMENT WILL BE DELAYED

Austin, Texas, Sept. 12.—There will be no apportionment made of the \$500,000 available for rural schools during this fiscal year until after first of next February, according to Prof. W. F. Doughty, state superintendent of public instruction. It is true this money became available on Sept. 1, 1916, the beginning of the present fiscal year, but it has been decided to wait until this year's tax collections are collected and deposited in the state treasury before making any apportionments. This sum of money is the balance of the \$1,000,000 appropriated by the last legislature for the aid of rural schools in accordance with the governor's \$1,000,000 rural school law.

Rural school supervisors of the department of education are now in the field making investigations of such country schools as may be eligible to a portion of this money, and it will be a month or two before this task has been completed. There are, however, a large number of applications now pending for a part of this fund. This money will be distributed in sums ranging from \$200 to \$500 in each school.

### A COLORED TEACHER IN GOOD ADDRESS

Jas. T. Hodges, president of the Houston College, who was here attending the Colored Teachers Institute, delivered a great address at the court house yesterday afternoon, which was listened to by a large crowd of both white and colored people.

The teachers attending the white institute and others assembled on one side of the district court room and the colored people on the other to hear the distinguished educator, and the address was greatly enjoyed by all present.

Prof. Hodges was introduced by County Superintendent Strippling, and the speaker launched immediately into the heart of his talk, omitting all preliminaries. In the course of his talk he expressed the appreciation of his race to the white people for what they had done to help educate and train for useful citizenship the people of the colored race, in the course of which he made the pretty point that the negroes were waking up to the point of industrial education, and that in future they would prefer to give more attention to the study of agriculture and mechanics and not tax the school fund for the purpose of teaching Latin, Greek, higher mathematics and other studies that would be useless to the majority of the race, leaving those who wish to take these higher branches to their own resources. With the new plan the negroes can get information that will enable them to work more intelligently in that to which they are best adapted, and be enabled to get humble homes of their own and make better citizens for the country.

Speaking of the relation of the races, the speaker emphasized the point that the intelligent negro of today had no disposition to tear down, but loved, respected and honored the old traditions of the South, and looked upon the white man as his friend. With this statement there was much applause from the colored people present, and here we digress to note that what he says is being proven more clearly every day, through which the friendship of the races is being cemented more closely.

At the conclusion of the address some beautiful songs were rendered by a choir or quartet of colored people which were equally brilliant and greatly enjoyed by all present.

Prof. Hodges was for about

### HUGHES SOME TRAVELER; COVERS 14,000 MILES.

New York, Sept. 13.—Charles Evans Hughes ended his first presidential campaign trip here today. He will leave today for his summer home at Bridgehampton, Long Island.

The trip was one of the longest in time and mileage ever taken by a presidential nominee. Mr. Hughes left here on the night of August 5 and traveled 39 days. His itinerary took him from Portland, Maine, to San Diego, Cal.; from Canada to within eight miles of the Mexican border. He visited 25 states spoke in all the chief centers of population in the country, exclusive of the South, and including the capitals of 10 states, and traveled 11,494 miles by rail. In addition he averaged more than 400 miles a week by motor, or about 24,000 miles, making the total mileage of his trip approximately 14,000 miles. Mr. Hughes reached New York in good health and spirits.

He will rest four days and then will start on a trip that will last with only one break of two days until election day.

### ILLINOIS ELECTION.

Chicago, Sept. 13.—Sweeping victories for Gov. Edward F. Dunne, Democrat, and former congressman Frank O. Lowden, Republican, for the respective party's nomination for governor, the apparent defeat of Senator Wm. Lorimer for a Republican congressional nomination and several close fights for congressmen-at-large and the Republican attorney general's nomination, characterized the Illinois primary today.

### A NICE BUILDING.

Mr. N. D. Naman, one of Nacogdoches' progressive citizens, has recently overhauled and remodeled the brick building on the west side of the public square which he purchased from Judge Ingraham and Mrs. Loden. With the interior replastered and painted, a nice glass front, a

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has a solid Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

modern awning and a concrete walk in front, the building and premises are now up-to-date in all appointments, and add much to the civic attractiveness of that part of the city.

If the owners of other property in that part of the city will now do likewise and overhaul the old property, much of which is in bad repair, business will find its way to it, and the west side will recover its lost prestige as one of the prominent business sections of the city.

### SOME GOOD ADVICE.

Kidney disease is too dangerous to neglect. At the first sign of backache, headache, dizziness or urinary disorders, you should give the weakened kidneys prompt attention. There's no other kidney medicine so well recommended as Doan's Kidney Pills. Nacogdoches people rely on them. Here's one of the many statements from Nacogdoches people.

Dr. J. A. Drewry, dentist, says: "I have used Doan's Kidney Pills and have had great benefit from them. My former endorsement for Doan's Kidney Pills holds good and I now heartily back it up."

### FREE SCHOLARSHIP IN SCHOOL OF YOUR CHOICE

The Tyler Commercial College, of Tyler, Texas, is positively the only business college in the state which teaches a thorough course of practical, modern bookkeeping and business training. Other schools teach theoretical bookkeeping; some of them call it actual business, but it is not. The commercial room of the Tyler Commercial College is a community of business houses of various kinds, Banks, Wholesale, Commission, Real Estate, Retail, Insurance, etc. Each student is engaged in real, active business, learning to do by doing. Every entry made by the student during his entire course is originated by an actual sale or purchase; it may be grain, it may be groceries, dry goods, real estate or stock in a corporation, but the transaction is really performed and every paper required in the transaction, whether check, note, draft, receipt, mortgage, deed or what not, is filled out by student. Partnership contracts are drawn up and agreed upon between the parties forming the company.

Articles of incorporation are drawn up. Through these practical methods the student learns business as well as bookkeeping; they learn how to meet one another face to face and transact business in a business way, instead of copying theoretical transaction from a text book as is done in every other commercial school in the state. It takes more teaching force and better teachers to teach our systems and methods; our teachers are not only teachers of Bookkeeping, but they must be well-informed on business customs. When a student learns to do a thing by actually doing it, he learns it thoroughly, and with our practical, face to face business methods, we are able to give the student a thorough course of both bookkeeping and business training in less time than he could possibly get the theory, or so-called practical bookkeeping alone in other schools.

We will give a free scholarship in the school of your choice to anyone finding another school in this state teaching both bookkeeping and business through practical business transaction as we do. Similar practical methods are used in teaching Short-hand, Steno-Typewriting, Cotton Classing, Telegraphy and Business Administration and Finance. We believe in learning to do in the school room that which you must do when going
