PRESIDENT WILSON FOR MONROE DOCTRINE

Proclamation Causes Sensation In Diplomatic Circles; Sets World to Talking.

Washington, Jan. 22.—Whether the United States shall enter a world-wide peace league and, as many contend, thereby abandon its traditional policy of isolation and no entangling alliances, was laid squarely before congress and the country today by President Wilson, in a personal address to the Senate.

For the first time in more than a hundred years, a president of the United States appeared in the senate chamber to discuss the nation's foreign relations after the manner of Washington, Adams, and Madison. The effect was to leave congress, all official quarters and the foreign diplomats, amazed and bewildered. Immediately there arose a sharp division of opinion over the propriety, as well as the substance, of the president's proposal.

Startling; "staggering;" "astounding." "The noblest utterance that has fallen from human lips since the declaration of independence," were among the expressions of senators. The president himself, after his address, said:

"I have said what everybody has been longing for, but has thought impossible. Now is ap-

We Are Having a Big Fight

Probably you have not thought about it and do not, therefore, realize how hard it is for us to get farm supplies and ESPECIALLY PLOW REPAIRS such as points, landides, frogs, etc. By buying months ahead we have succeeded in getting a fair stock of most of these goods and if you buy now you will "Be sure of what you want and get the low prices, oo."

Look over those Plow, Planters, Cultivators and other tools and Be Sure to Get the Numbers of the Parts You Want and the Name of the Implement on which they are to be used. You are sure to get the "right fit" if you will do this.

We want to serve you promptly and satisfactorily and if you buy now we can do this for you. Later it may be a different tale.
Yours to serve,

KILLING IN RUSK CO.

Rusk County News.

Saturday morning about 10:30 o'clock, Mr. G. T. Dulaney was shot with a pistol near his home six miles South of the city. Jess Tippett surrendered to officers and made bond, charged with the killing. The weapon used was a 38 pistol, the victim receiving one wound, the ball entering the left side penetrating the cavity. Sheriff Hale was

notified of the shooting and immediately went to the scene of trouble where he found Mr. Dulaney mortally wounded. He was removed to his home where o'clock Saturday night, when his he suffered intensely until 9:30 spirit took its flight to that land from which no traveler returneth. We do not know the details which led up to the trouble, but understand there had been differences between the two men.

pears to be possible."

Promises No Breach of Policy.

"It is clear to every man who thinks," the president told the senate, "that there is in this promise no breach in either our traditions or our policy as a nation, but a fulfillment rather of all that we have professed or striven for."

"I am proposing, as it were, that the nations should with one accord adopt the doctrine of President Monroe as the doctrine of the world; that no nation should seek to extend its policy over any other nation or people, but that every people should be left free to determine its own policy, its own way of development, unhindered, unafraid, the little along with the great and powerful."

"I am proposing that all nations henceforth avoid entangling alliances which would draw them into competitions of power, catch them in a net of intrigue and selfish rivalry and disturb their own affairs with influences, introduced from without. There is no entangling alliance in a concert of power. When all unite to act in the same sense and same purpose, all act in the common interest and are free to live their own lives under a common protection."

"I am proposing government by the consent of the governed; that freedom of the seas which in international conference after conference representatives of the United States have urged with the eloquence of those who are the convinced disciples of liberty; and the moderation of armaments which makes of armies and navies a power for order merely, not an instrument of aggression or of selfish violence."

"These are American principles, American policies. We could stand for no others. And they are also the principles and

policies of forward looking men and women everywhere of every modern nation, of every enlightened community. They are the principles of mankind and must prevail."

Mr. J. J. Frederick, a prominent real estate man of Garrison, who has been in the city a day or two, was a pleasant caller at the office this morning, and while in consented to represent The Sentinel in his part of the county. Mr. Frederick has brought a number of new families to the Garrison country the past year, and is in correspondence with many more he hopes to bring and at an early date.

RURAL LETTER CARRIERS ARE CALLED TO MEET

The Sentinel is carrying an interesting communication from Mr. W. E. McMillan in today's paper explaining the value of dragging the roads now, while they are wet, and not wait until they dry. The article contains much information and we trust all will read it.

We will frankly admit that we have no intention of offering any "sass" to our neighbor, the Herald, this week while a three-hundred-pound preacher is in charge. Bro. Cunningham had some newspaper experience in early life and is a good newspaper man as well as a minister.

The Sentinel has been short on local news the past few days for the reason that the majority of the people have been shut up in their homes and not much of local interest has happened. But the sun will shine again one of these fair days, and the loss will be made up.—Nacogdoches Sentinel.

H. O. Gossett, manager of the municipal employment bureau heard from Hell and Paradise Wednesday. A woman at Paradise, Tex., wrote Mr. Gossett seeking an experienced cook. The letter from Hell, Norway, was from an old friend, J. A. Norton of Boston, who is in Norway now on business. "Well, you see I am in Hell," wrote Norton. "I am having a good time in Hell, and instead of being hot, it is cold here. I am the only American in Hell; all the rest are Norwegians. Hell isn't such a bad place to go, after all, but I never dreamed it would be so cold."—Fort Worth Star-Telegram.

been engaged in the most foul, most malicious type of muck-racking. The fact that he admits to having made vast sums of money out of it would seem to disclose his guiding motive. In obedience to such an unwholesome purpose, however, he has not scrupled to drag everybody's good name in the mud. He has reduced innuendo and insinuation to a fine art. He has made plausibility a two-edged dagger with which to prick the solvency of honest men and hypnotize the public mind. He has juggled with truth and falsehood in such a fashion as to befuddle the people with real doubt as to whether he was a freak, a madman or a reformer. He is the Cagliostro of American commercialism.

His most recent advent into the limelight was truly characteristic. On the flimsiest of evidence he has made charges calculated to shake public confidence in the national government, and to cast doubts on the sincerity of President Wilson's move for peace.

According to his own admission, he made huge profits in the same way and under the same circumstances for which he is criticizing and excoriating other people.

He pretends to be wonderfully disinterested, to be working for nothing but the public welfare, but he refuses to tell what he knows, except congress promises something which it were foolish to promise, and which he understands congress will not promise.

He began with a general charge that, through connivance at Washington, private interests in Wall Street were enabled to make profitable speculations on the stock market by being forewarned of the president's peace note.

When hailed before the congressional rules committee he refused to say anything of a definite character, except that a certain congressman had told him that a senator, a banker, and a cabinet member had been among those on the inside.

On being threatened with contempt proceedings, he surprised the committee and astounded the country by declaring that this congressman was none other than Robert Lee Henry, its chairman.

He took pains, in the midst of the dramatic sensation, to indicate how thin, shallow and superficial the whole proceeding has proved thus far by explaining that the information which he claims to have received from Mr. Henry didn't amount to anything anyway.

As a piece of evidence it is not material whether it was manufactured in Lawson's brain or has a plausible foundation in something Mr. Henry may have said, but as the basis for public slander, public suspicion and public distrust it is all important.

It serves to bring the names of three very prominent gentlemen before the nation in an unsavory light, and this, too, in spite of the fact that it is probably without one scintilla of truth. Lawson says he is loaded with information, that what he claims Mr. Henry told him is as nothing compared with what he has obtained from outside sources. This being so, he should be made to come across with it, right now.

The Tenaha Messenger reports a change in editors, Mr. Bobbie Burns of that city having assumed the editorial duties of that publication. He has had experience in this line and The Sentinel predicts for him a great success in his new undertaking.

"Out on the tremulous wire, Afar on the wings of the wind, On iron steeds breathing with fire, On steamships that leave earth behind, Away over mainland and ocean, To the farthestmost civilized shore, The news has filled earth with emotion, The news that our Lee is no more.

And now Southern youth and sweet maiden, Go twine ye a wreath for the brave, Bring roses, bring hyacinths laden With perfumes to garland his grave, O come and tread softly with me, And let us hang wreathes on the willow That droops o'er the dust of our Lee.

Ye States that so long have been voiceless And crownless in national woe, While tear drops are gushing, as noiseless Adown Southern cheeks they now flow, Come out from defeat and disaster Each wreck neath the liberty tree Come mourn for the loss of the master And hallow the gravestone of Lee.

Soft in thy name, Alabama, And sweet is thy flower-laden free; But hark from each winding savanna Come forth the low tones of a wail— The wail that no respite can borrow The dirge of all joy and glee, While wrap in the mantle of sorrow Thou mournest our brave chief-tan Lee.

Arkansas, thronged on thy mountains, Afar mid the wilds of the West, Thy glades and thy silvery fountains Still shadow the isles of the blest Though oppressors would faintly mar thy beauty And tramp on the hearts of the free Thy sons are still true to their duty And hallow the name of our Lee.

Florida, true was thy host and Their deeds are the theme of the brave; But shadows now rest on thy coast-land, And gloom settles down on the wave. Beautiful bride of the ocean, Sweet gem of the far moaning sea, We know that thy patriot devotion Is true to the memory of Lee.

The mothers of Georgia are weeping, Their walls may be heard on the air For many a loved one lies sleeping Where Sherman brought death and despair, But deeper than all is the sadness That broods from her hills to the sea, And hushed is the last tone of gladness Since death waved his sceptre o'er Lee.

Beautiful Louisiana, Realm of the cotton and cane How soft on each verdant savanna Steals mournfully onward the strain. Each field and the dew spangled meadow Each fountain that rolls to the sea Grows sad in the scowl of the shadow That looms in the death of our Lee.

And Maryland, mother of Howard Of Carroll, of May, and of Key, Sweet land that ne'er nurtured a coward Now what need we say unto thee? While Potomac rolls on to the ocean And Chesapeake kisses the sea O come with a heart-felt emotion And mourn at the grave of our Lee.

Missouri redeem thy ideal, Come back to thy faith and thy love And let the dark cloud of the real Thy soul from its lethargy move. Remember the days of thy glory, Remember the brave and the free; Let Shelby and Price tell the story, And honor the great name of Lee.

From the realm of the rich Mississippi, Where the cotton was picked by the slave, A requiem ascendeth to Heaven, Wrung out from the hearts of the brave. In the wail of sad desolation Now hushed in her joy and glee While her swells the grief of a nation That mourns for the loss of our Lee.

On the plains of old North Carolina The home of full many a brave, While tyranny's fetters confine her, To a doom worse than that of a slave, While her sons and her daughters are weeping That oppression should laugh o'er the free, The full tide of woe is now sweeping All thoughts to the memory of Lee.

On the rice fields of South Carolina, Where Africa's flag is unfurled, Where the jet of Phillis and Dinah Now vie with the queens of the world, A still deeper gloom is now stealing From Pickens clear down to the sea And a depth in the deeps of her feeling Is stirred by the death of our Lee. Come Tennessee, join in our numbers, And help in our requiem strain; The shade of the hero that slumbers Deserves now thy deepest re- strain.

CHANGE AND DECAY.

One looks at a sunset and is presently aware that in the gorgeous sculpture of the cloud forms there have been changes subtly wrought, though the shifting phases in the actual transition were not discernible. Apparently the mass stood as still as though it were the snow-clad mountain tops; yet in a few minutes there has come a striking difference. That is the phenomenon of the human lives about us that go to make the vast complex of society. We are the survivors of generations. The world is fairly full of us, outside the deserts not yet subdued and transformed to the uses of mankind. But those who have gone—for the most part—slipped out so quietly that the rest took little note of their passing. There was grief on the part of some who stood near by, but the gap was closed. The dead must bury their dead, and the world must go on. There is work that cries aloud to be done; there are the needs of the living and the striving to be satisfied. Then and therefore comes the call to "the feet of the young men" to step into the vacant places. The burdens have long been loaded on the shoulders of the veterans. The night has come and they are tired, and they would fain lie down to rest. Who will come forward and continue their tradition? Few feel themselves ready when their time comes to answer the summons of the low voice of duty. They are inclined to make answer: "Choose some better man than I. An abler servitor can easily be found. I am too young. I am lacking in experience. I have not the power that wealth confers, nor the prevailing influence of great wisdom. Let me be silent a little longer, that I may learn my part in order to play it perfectly." But the voice is inexorable. The chance has chosen its time and its place, not yours. If you refuse, you may have shut the door on your own soul.—Philadelphia Public Ledger.

ONE DOSE RELIEVES A COLD—NO QUININE

Take "Pape's Cold Compound" every two hours until you have taken three doses, then all gripe misery goes and your cold will be broken.—It promptly opens your congested nostrils and the air passages of the head; stops nasty discharge or nose running; relieves the headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and sniffing. Ease your throbbing head—nothing else in the world gives such prompt relief as Pape's Cold Compound, which costs only 25 cents at any drug store.

THE REFLECTIONS OF A MARRIED WOMAN—are not pleasant if she is delicate, run-down, or overworked. She feels "played out." Her smile and her good spirits have taken flight. It worries her husband as well as herself.

This is the time to build up her strength, and cure those weaknesses or ailments which are the seat of her trouble. Dr. Pierce's Favorite Prescription regulates and promotes all the proper functions of womanhood, enriches the blood, dispels achiness and pains, melancholy and nervousness, brings refreshing sleep, and restores health and strength. It cures those disorders and ailments which are the seat of womanhood.

Mrs. J. PERKINS ANDERSON, 2012 Dallas Avenue, Dallas, Texas, says: "My mother and Dr. Pierce's medicine over thirty years ago and recommended them to her daughters. I have used the Favorite Prescription the latter my married life and found this remedy was all that was claimed for it."

SCHOOL INSPECTOR
MAKES A NEW DATE

To the Schools Asking State Aid
The rural school inspector, Mr. L. L. Pugh, was here on time yesterday, but owing to the condition of the roads and weather we decided that it would be impracticable for him to visit the schools in the four days, and has put off his visit some ten days. He will notify me when he can return to the county, and we will come to see you just as soon as we can.

He asked me to say that unless all the State requirements are fully met there would be no chance for your school to get aid; that he would not take promises, and hard-luck stories would not avail. So if there is anything yet to be done, it must be done before he comes if you expect to get aid. School that employ more than one teacher must have one teacher holding a first grade certificate.

If you are ready for the inspector, or whenever you get ready please advise me either by letter or in person. If you do not meet requirements before the inspector comes you will not be allowed aid, and you will have no one to blame but yourself. Look for us in the 10 or 12 days. Be ready when he comes.

Yours truly,
G. B. LAYTON,
County Superintendent.

KILLS BABY AND YOUNG WIFE; ATTEMPTS SUICIDE

Toronto, Kan., Jan. 21.—Walter Harold, 23 years old, formerly of Kankakee, Ill., is under arrest here tonight with a bullet in his brain, from which physicians declare he can not recover, while his wife, Mrs. Rosella Harold, and his 3-months-old daughter are dead, from shots which Harold declares in a statement to County Coroner C. C. Morrison, he fired with his own hand. He then attempted to kill himself, according to the police.

Mrs. Harold died an hour after the shooting, while the infant was killed as it slept.

Coroner Morrison said Harold declared he committed the deed through jealousy after an unsuccessful attempt at reconciliation with his wife, from whom he had been separated. Harold left a note addressed to the coroner to be opened only in the event of his death, Coroner Morrison said.

MRS. VONDERSMITH
From Friday

Following a few days illness with blood poison, which developed in one of her fingers, Mrs. J. F. Vondersmith died at her home in this city at 12:00 o'clock last night. The funeral service and interment will occur at Oak Grove cemetery at 3:30 this afternoon.

Mrs. Vondersmith's maiden name was Miss Sarah Josephine Le Cog, and she was born in St. Landry Parish, La., Feb. 17th, 1871. She was married to Mr. J. F. Vondersmith Oct. 23, 1888, and they have two sons, Eugene and Perry, and two daughters, Mrs. Will Campbell and Miss Juanita, living; the three oldest of whom are grown, and the youngest in near approach of the adult state.

Of this good lady we can truly exclaim with the poet, Hood: "Death has left on her Only the beautiful."

She was a noble christian woman, a devoted wife and mother, and a good neighbor. Every one who knew her loved her, and the whole community of Nacogdoches has been made sad with the news of her death. To the human understanding it seems a cruel fate for a devoted mother to be cut down after she had reared her family of children, and could enjoy the rest from this responsibility, and their companionship, but we know there is a home in a brighter and better world for this noble, christian lady, where her loved ones may have reunion with her in the future.

The Sentinel joins the many friends of the surviving members of the family in a feeling of profound sympathy, and trusts that a kind providence will attend them in their hour of great grief.

THE FUNERAL.

The funeral service over the remains of Mrs. J. F. Vondersmith, held yesterday afternoon, were conducted by Rev. M. Taylor, the new pastor of the Methodist church, who made a short but feeling talk appropriate the occasion and the life of the good woman who had been summoned to her reward.

The body was prepared for burial by the undertaking department of Cason, Monk & Co., with Messrs. G. M. Haltom, A. W. Hunt, B. E. Emmings, J. O. Ray, O. F. Baxter, Frank Summers, Frank Goldsberry, and Joe Zeve acting as pall bearers. Many pretty floral offerings were laid upon the casket, and a large crowd of sympathizing friends gathered at the cemetery to pay the last tribute of respect to the memory of the noble lady whose life had been plucked from their ranks.

The lady expressed the wish while in life that when she died she wanted to be dressed in white, and in conformity with her wish the burial robe and casket were made to conform with her cherished color, and a friend placed a bouquet of white flowers in her hand.

MISS FANNY NELSON IS LAID TO REST

From Monday's Daily

The funeral of Miss Fanny Starr Nelson, whose death was announced in the Sentinel last Saturday occurred yesterday as dated. It was a most solemn and impressive event.

The rainy weather prevented many from attending who really desired to be there but there was quite a large attendance.

The ministerial officers were executed by Rev. Atwell in a most impressive form, and especially so were his appropriate remarks.

Following are the names of the pall bearers:

Active pall bearers: I. L. Sturdevant, G. H. Meisenheimer, W. G. Reid, B. F. Hardeeman, G. H. Matthews, A. Y. Donegan, Dr. R. R. Henderson, J. N. Thomas.

Honorary pall bearers: John Schmidt, L. Zeve, J. S. Doughtie, Dr. J. E. Mayfield, E. G. Henderson, J. H. Summers, J. O. Ray, F. H. Tucker, J. C. Harris, W. U. Perkins.

TEXAS COMPANY BILL GOES OVER FOR PRESENT

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

This, brittle, colorless and scraggy hair is mute evidence of a neglected scalp: of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knott's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your Hair! Try it!

SWEET POTATOES MAY GO AWAY UP

Austin, Texas, Jan. 19.—E. W. Cole, director of the bureau of markets of the state department of agriculture, today announced that after a careful investigation he believes that the price of sweet potatoes will materially advance within the next 30 days. This is due in part to an aggressive campaign of developing demand for that product in local communities, also since the public has been shown that the sweet potato contains much more food value than the Irish potato, pound for pound.

The sad news of the death of Miss Fannie Starr Nelson, which occurred here today at 11 a. m. will grieve the hearts of a multitude of her loving friends, as well as her many sorrowing relatives. She was sick only a few days, and had been in better health than usual until this attack came on.

Miss Fannie had for many years been like the mother of the original Nelson family, and she was a most lovable woman in every sense and in every station.

She was born in this town Aug. 13th, 1858, and had spent her long and useful life here.

She was a daughter of Capt. A. A. Nelson and Caroline Simpson Nelson. She is survived by two brothers, John B. and W. A. Nelson, her home being with the latter for many years.

She has relatives, of the Nelson families in Maine, and of the Simpson families in many parts of Texas and New Mexico.

She was a member of the Episcopal church and her funeral will be held by the Episcopal rector, Mr. C. D. Atwell, tomorrow afternoon at 3:00 o'clock from the residence of her brother Mr. W. A. Nelson.

The Sentinel occupied a most tender, friendly relation to this saintly lady, and sincerely joins in the grief of her mourning relatives and friends.

The body is being prepared for burial by the undertaking department of Cason, Monk & Co.

for sweet potatoes and assurances that a curing plant will be established in Nacogdoches in time for the next crop, there will no doubt be a large acreage grown in this section this year, and if so, it is important that the best results be obtained.

To avoid disease with the plant, and secure a healthy growth, it is important that much care should be exercised in bedding seed potatoes, and the extension service of the department of agriculture is sending out the following bulletin which should be read carefully by every one who expects to engage in the industry:

In the preparation of seed for sweet potatoes select a plot not previously used for this purpose, the fresh soil from wood land or grass land, but not from old barn lots or potato fields. The ground should be sufficiently sloping to avoid standing water. Select manure carefully from feeding lots or pens where no potato refuse has been thrown. Protect beds from chickens or barnyard animals which often distribute diseases from their feet or excreta.

Seed potatoes should be perfectly sound and healthy, smooth and of good form, and not less than one inch in diameter. Before planting disinfect by immersion in a corrosive sublimate solution (one ounce to eight gallons of water) five to ten minutes, depending on temperature, and rinse immediately in clean water. Spread in a dry clean place or plant immediately. Handle above solution in wooden or fibre pails, and keep the dry chemical as well as the solution away from children, chickens, pigs, etc., to avoid accidents. Work should be done at a distance from the house and the solution left should be poured in a hole in the ground and the hole filled.

Slips drawn from the bed and vine cuttings—used later should be dipped in a corrosive sublimate solution, same strength as above. Shake water from slips and handle as in ordinary cases, taking care to avoid contamination from old soil, dirty sacks or boxes.

In planting select fields where no sweet potatoes or yams have been grown for at least two years, as most of the potato diseases remain this length of time in the soil of the field.

At digging time select those plants which have developed the best shaped and largest number of potatoes to furnish the leading seed from the next season. Save the potato roots from these plants with special care, as they represent the best development of the season upon your particular land.

STICK TO IT.

If there is one enterprise on earth that a quitter should leave severely alone it is advertising. To make a success of advertising one must be prepared to stick like a barnacle on a boat's bottom. He should know before he begins that he must spend money—lots of it. Somebody must tell him that he can not hope to reap results commensurate with his expenditure early in the game. Advertising does not jerk; it pulls. It begins very gently at first, but the pull is steady. It increases day by day and year by year until it exerts an irresistible power. —John Wanamaker.

The weather report reads better today, and we may take hope that the clerk is coming around with a heart at last.

There is sometimes a better man behind an honorable failure than the one behind the dishonorable success.

Mark Twain is authority for the statement that "habit is habit, and not to be flung out of the window by any man, but coaxed down stairs a step at a time."

The recent sleet, snows and rains have put the ground in fine condition for the bumper crop that will be grown in Nacogdoches county this year.

A paragrapher makes the timely observation that "a man with Push can get there, but it takes a man with character to stay there." The wise man will take both elements with him.

It is bad enough to suffer an attack of la grippe, or chills, but it is harder still for the editor of *The Sentinel* to get away from the notoriety of it. The latest humiliation is being put in a class with Editor Green of the *Tyler Signal*; the gentleman of potlicker fame, and the further charge that when the Lufkin fire whistle blows in the dead hours of night we emerge from bed and lead the natives in a search for the cause of the disturbance. An old saw gives assurance that "every dog has his day," and when ours arrives we give notice here and now that we will use the whole of it in securing the sweet revenge to which we are justly entitled. That is all for the present.

A dispatch from Austin quotes Dr. Robert E. Vinson, president of the State university, as being in favor of military training in the schools. The idea may be dubbed "foggy" in some quarters, but *The Sentinel* is nevertheless of the opinion that the time spent in agricultural and industrial training would be more profitable to the student and of greater service to society. The ultimate end of military training is the destruction of human life on the battlefield while that of the latter better fits the man for preservation and conservation of life.—Nacogdoches *Sentinel*.

Compulsory military training in the public schools may be incompatible with the principles of democracy, but we believe that compulsory physical training will bring the greatest good to the greatest number.—Temple Telegram.

One of the very regrettable features, and possibly the only one, in connection with the press meeting in Lufkin last Friday, was the absence of Editor Gibbs of the *Nacogdoches Sentinel*. However, this has been explained through the columns of his paper and by letter, it being related that he is again on the sick list. Here's hoping that he will "pull through like a deer in a walk"—Lufkin News.

The "deer" is "walking" again this morning for the first time in several days, and he feels compensated for the illness suffered in the receipt of the beautiful "flower for the living" from his esteemed friend across the creek. One of the greatest pleasures we derive from our work is the friendly interest we enjoy with the brethren of the press, of whom all will agree that Brother Lively is the chief and prince of the gang. Long may he live, and may his shadow never grow less, is our sincere wish.

Must Do More Than Merely Provide Food and Clothing, and be Partner With Mother at Home.

The following clipping, taken from the *Daily Advocate*, a Missouri paper, was furnished *The Sentinel* with the request that we reproduce it, which we do, both for the sterling merit of the article and the pleasure of the friend:

Father has a higher place in life than merely earning money for the wife and "kids" according to Mrs. George Steingoetter, who read a most interesting paper on "Father's Place in the Home" before the Mother's Club yesterday afternoon.

Mrs. Steingoetter declared that "the mother's place in the home is so definitely outlined, has for centuries been so emphatically and exclusively bounded by the four walls of her home, that reverberations of the shock of finding a place of interest or industry outside the home is still shaking this old world of ours."

Mrs. Steingoetter said that the average man who is asked what he thinks is the mother's place in the home "and he will enumerate half a dozen or more duties, with child-rearing at the head of the list."

Father Must Work. "Ask the same men the place of father in the home and see how readily and quickly an answer is given, and how materially the scope of duties is decreased. Of six men to whom I put the question, 'What would you say was the father's place in the home,' five unhesitatingly answered, in substance: 'to earn a living for the family.'"

The speaker said that these replies are "the universal masculine idea of the father's place in the home." She said that men are apt to think that their duty to their family is discharged "by merely paying over the cash without much personal service."

Father Can Learn.

Mrs. Steingoetter said that with "practice, moral character and love" a man is as well fitted to raise children as a woman. "There is no fundamental or unchangeable reason why women should do the child rearing exclusively, and there is every reason why it would be a gain all along the line for them to share it with the men. From the viewpoint of logic, economics, morals, sentiment and spirituality, it would be a sounder, safer plan. Motherhood quite aside from the initial physical strain, has always been something of an endurance test, demanding heroism. Surely fatherhood should be equal to meeting the same demand. Charlotte Gilman says: 'Children are too much the victims of their incessant mothers and their infrequent fathers.'"

The speaker then drew a word picture of an average family and its routine duties. She told of how little time the father really it with his family and how much work the mother has to do and as a result the children slowly, but surely, grow away from her, not in love, and loyalty, but in interest, recreations, thoughts and ideas. They forge ahead, mother stands still.

"Something is the matter. What is it?"

Father Specializes.

"It is that father specializes on earning, the mother on personal service, with the result that the children get very false ideas in regard to the intrinsic and relative values of human effort." These things, said Mrs. Steingoetter, "do not form the equal halves of a true domestic partnership."

"It does not do to have women devote wholly to the one and men to the other. For the sake of the soundness of family life

THIS OLD SOLDIER IS STILL IN LINE HERE IS ONE ARTICLE WE HOPE EVERY ONE OF

to make good to his children, for as they grow older they can readily see that love is proved, not alone by paying, but by doing."

Cannot Buy Love.

Mrs. Steingoetter said that some fathers believe that because they feed and clothe their children that their children should show love and gratitude regardless of how they are treated. "It is just as impossible," said the speaker, "for a father to compel the love of his children as it is to compel some person outside the family to love him. He must earn their respect. If the fathers took the same pains to keep their children's good will and affections as they take to their business relations, they would have a tremendous hold upon their children, and it would give them bigger dividends and more satisfaction than anything they had ever done. There is only one bond between father and child and that is the love bond. There are thousands of fathers so engrossed in the pursuit of business that their aims do not rise much higher than to get money and keep their families in good standing with others of their class. Such fathers are often efficient in raising sons in their likeness and guiding them through some of the dangers of youth but they cannot help much in getting high ideals into their offspring. Money is necessary in the home and insures happiness, but it cannot create happiness, and the father who has money-making for his ideal, even though it be for his family is apt to have little time or inclination for personal service and companionship for his children, and is robbing them of a principle, as surely as the father who goes to the other extreme and spends the time and money belonging to his children in the clubs and saloons, for it is the love and care of a noble father—not money—that is the birthright of every child."

Father is Enemy.

"The worst enemy a child can have is a father who provides unlimited cash and no supervision. One of the bitterest things in many a business man's life has been the discovery after he has made his money, that he has lost his hold on his children and he would willingly give part of his fortune to recover the loss."

The speaker dwelt at length on the need of both sons and daughters for a father's counsel and advice at certain periods of life, notably by instinct, but father's counsel and advice at certain periods of life, notably the adolescent period.

"Perhaps motherhood comes by instinct, but fatherhood needs to be trained," she said.

"The memory of a loving, sympathetic companionship is the very best legacy a father can bestow upon his children and no family that has once a good father ever loses him, for he keeps cropping out down to the third and fourth generation. After all it is a simple and reasonable proposition that, since it takes a father and a mother to produce a child, it should be the joint and equal business of both to rear it. Besides, there will be the inspiration and compensation of helping to erect milestones on the road to civilization, marked: 'At this point children began to have two real parents, the father found and accepted his intended place in the home.'"

Mrs. Hardy Standley of this city was carried to the sanitarium at Nacogdoches today at noon for an operation, being accompanied by her husband and Drs. Dunn and Canon of this city. The many friends of Mrs. Standley sincerely trust that the operation will prove a success. Lufkin News, Saturday.

The *San Antonio Light* is an intimate neighbor of Mexico and sees it at close range. Here is an extract from one of its editorials, which said much more: When two countries are at peace, and in one of them there exists an armed rebellion or insurrection against the authority which the other has recognized, any encouragement or aid extended to the rebellion or insurrection is nothing but an act of war if the other nation chooses to construe it. The United States absolutely committed itself to that doctrine in the case of the Alabama claims.

If Villa was deprived of aid from the United States his insurrection would fall to the ground of its own weight. If he did not receive ammunition from this country there is no source from which he could obtain it, and people without ammunition cannot fight.

The people who are urging Villa to his impertinent act of addressing a letter to President Wilson may not be those who are sending him ammunition, but if the United States would lay its hands upon the former, it is just possible that it might strike a trail that would lead to the latter.

DO YOU TREAT A COLD WITH INDIFFERENCE

To the question, "How are you today?" how many have heard the reply, "Oh, I'm fine, only a bad cold. I've been sitting around the house for a day or two, but expect to be out at work again soon."

Did you know that a cold is a real disease involving real dangers. Yet, many people continue to express contempt and indifference for this disease which lays the system open to such troubles as tuberculosis, pneumonia, catarrh, tonsillitis, bronchitis, diphtheria, infections of the inner facial passages always painful and often dangerous, ear complications endangering hearing, and even life, malnutrition in young children the evil effects of which may remain for years. Moreover a cold incapacitates one for work or play, brings discomfort and suffering, and causes much economic loss. A cold is a disease that is carried from one person to another through the discharge from the nose or mouth of the infected one. The person with a cold is constantly exuding poison. Every time he talks, coughs, or sneezes, droplets of sputum carrying germs of the disease are expelled into the air. If you breathe this air you are likely to become contaminated with the same disease. In the same manner are scattered measles, diphtheria, whooping cough, scarlet fever, and grippe.

Rules for self-protection against cold: Keep at arm's length from a person with a cold. Keep rooms well ventilated. Open-air folks seldom take cold. The Eskimos never had colds until they came into our civilization.

Keep hands off books, pencils, handkerchiefs or other objects touched by one having a cold. Avoid common drinking cup. Keep your hands away from your mouth or nose. Frequent wash hands thoroughly with soap and water. Avoid chills, wet feet, alcoholic drinks or anything that lowers general health.

A person with a cold should your mouth or nose. Frequently, and always turn away from others when coughing. This is good advice.

There is no cure for a cold. The best treatment for a cold is to go to bed, breathe pure air and drink plenty of good pure water, be careful of general

At Lufkin, Texas, on January 19, was formed the East Texas Press Association with George Watford of Lufkin as president, T. J. Molloy of Timpson vice-president, and W. L. West of Livingston as secretary and treasurer. The association passed, among others, a resolution favoring a law to compel the publication of all proceedings of county commissioners and city councils in the local newspapers. In order to get all the editors of East Texas interested in the association, Editor Walthall of the *Garrison News*, was employed to visit every East Texas town and personally secure the membership application of the newspaper men. With such progressive methods that live East Texas bunch is going to have an organization which will be a model for even the older press associations of the State.—Houston Post.

A young bachelor sheriff was called upon to serve an attachment against a beautiful young widow; he accordingly called upon her and said, "Madam, I have an attachment for you." The widow blushed and said "his attachment was reciprocated." You don't understand me, you must proceed to court." "I know it is leap year, sir, but I prefer you to do the courting." "Mrs. P—, this is no time for trifling, the justice is waiting." "The justice is? Why, I prefer a parson."—Selected.

The history of agriculture in the South is an interesting study from its infancy up to the Civil War, the farm was, as a rule, remarkable for its sturdy independence from every business standpoint. It was an economic bulwark, and the rural atmosphere was charged with a spirit that riveted men and women to the soil. The country home was attractive because it abounded with plenty and thrift. Things substantial adorned the premises and only those that were prodigal and lazy were the exception. Mortgages on stock and crops were absolutely unknown. Debts for supplies, such as for flour, meat, corn and the like were never made. The transformation followed the war. Cotton rushed to the front as the dominant crop, and held first place ever since. But the tendency is back to a self-sustaining agriculture, an agriculture that is synonymous with plenty to eat and a clean, unincumbered crop of cotton.—Col. Milner in Rusk Co. News.

YES, LIFT A CORN OFF WITHOUT PAIN

Cincinnati Authority Tells How To Dry Up Corn or Callus So It Lifts Off With Fingers.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callosity, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain.

A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.

TEXAS MAN DRIVES THIRTY-FIVE FOR MORE TANLAC

Wealthy Planter and Merchant Says Wife Had Rheumatism so Bad Couldn't Straighten out Fingers.

"I have come thirty-five miles in my car to get more Tanlac," said B. Lochridge, wealthy planter and merchant of Lochridge, Texas, while in Kiesling's Drug Store at Houston a few days ago.

"My wife suffered with indigestion six years and for the past five or six months has been troubled a great deal with rheumatism. Her lower limbs would swell twice their normal size and she could not begin to get her shoes on. The suffering in her hands was terrible and her fingers were bent just like a claw and she couldn't straighten them out. She could hardly eat a thing and suffered terribly with gas and severe pains in all her limbs and stomach. She was on a diet and even that hurt her and the only relief she could get from the gas was by taking soda. She tried everything that money could buy without getting any relief.

"Then she started taking Tanlac and commenced to feel better on the first bottle and she has improved so fast that I can hardly realize it. She has just finished her second bottle and there's not a particle of swelling in her limbs. She can wear her shoes now and her fingers are perfectly straight. She can eat three square meals a day now and is as active and well as anybody. She came to Houston with me today in my car thirty-five miles. She was not at all tired when we got here. She can now go anywhere and is getting around over the city like she did years ago."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith.

MISS MARCIA RAGUET DEAD

Miss Marcia Raguet died at San Antonio last Friday after a long illness. She had been there about a year, for the benefit of her health.

She was born and raised here. The old family home here is now occupied by Miss Joe Weaver. Her mother was Miss Fanny Simpson and her father was Condy Raguet. She was a first cousin of Miss Fannie Nelson, and the two cousins were very fond of each other. Miss Marcia often visited Miss Fanny and other relatives here.

Her remains were brought to Terrell for interment last Saturday, the day before her cousin's burial here.

Her home had once been at Oak Cliff, but in later years she had lived with Mrs. C. M. Raguet in Marshall, Tex., and the latter attended the funeral, together with her son Charley Raguet.

The Raguets were very prominent pioneer residents of Nacogdoches in ante-bellum days, and so were the Simpsons, whose descendants are here yet.

Clear it Up With PERUNA

When your system is cleared of all its poisons, the membranes soothed and healed, the cold gone and your digestion restored, you will enjoy life, feel equal to all its tasks, and be at peace with the world. Let Peruna do for you what it did for this sufferer:

Mrs. L. A. Patterson, 238 Utah Avenue, Memphis, Tenn. says:
"I have been a friend of Peruna for many years. I have used it off and on for catarrhal complaints and found it a very excellent remedy. I have a small family of children. Times are hard with us, but I can scarcely afford to do without Peruna, especially during the season of the year when coughs and colds are prevalent. We always recommend Peruna to our neighbors, for the benefit it has been to us."
You needn't suffer longer with such a remedy at hand.

Peruna can be obtained in tablet form. You can carry it with you and take it systematically and regularly for a remedy, or as needed for a preventive. Get a box today.

DIVERS BOBBING UP EVERYWHERE

New York, Jan. 20.—Stories of running fights and other tales of the sea poured in today, while United Press dispatches were still bringing fresh details of the German raider in the South Atlantic. Every indication tonight was that, in addition to the raider, German sea forces have been extremely busy, Teutonic submarines especially.

In addition all preparations have been made at New London, Conn., to again receive the merchant submarine Deutschland, whose arrival is expected momentarily.

On the heels of the story of Captain Jones of the British steamer Lindenhall, telling of a running fight with a submarine lasting two hours, came the report of the sinking of the steamer Toftwood. The French line received a cable from Havre announcing the destruction of this vessel by a submarine. She carried a valuable cargo, though the line of officials denied that it included munitions. The Lindenhall brought in one of the most thrilling stories in months. The ship was riddled and scarred aft from shells fired at her by a submarine which overhauled her in the Mediterranean. This was on December 13.

When ordered to stop Jones crowded on all steam, hustled helpers to assist the token, unlimbered the 12-pounder and started to run for it. The submarine fired more than 200 shots at him, Jones said, and the Lindenhall fired 86 in return. Though hit repeatedly, the Lindenhall was not hit in a vital spot and made good her getaway.

It was noticed that the Lindenhall did not carry her gun on her rear deck when arriving here. This was explained, however, by the fact that ships operating in the Mediterranean dismount their guns at Gibraltar when coming west. Jones said the Lindenhall's gun was taken off and mounted on another steamer entering the Mediterranean.

During the week commencing Jan. 20th, \$8.00 worth of cooking utensils will be given away free to every purchaser of a MAJESTIC range. This is an out and out gift and the price of the MAJESTIC remains the same as always. See them while you are at the special demonstration next week. Cason, Monk & Co.

Bills reinforcing prohibition laws by prohibiting lockers and making it unlawful for any person to have intoxicating liquor for sale in his possession were sent to Governor Rye yesterday by the legislature. They will become effective as soon as the governor affixes his signature, and according to dry advocates, practically eliminate liquor from the state.

The measures previously had passed the house and were approved by the senate yesterday.

The so-called "locker" measure prohibits "persons, clubs, lodges or association from storing, keeping, distributing, or in any way disposing of liquors containing more than one-half of 1 per cent of alcohol." The other bill makes unlawful the storage within the state, liquor for delivery at the place of sale or elsewhere. The latter bill is said to have been framed with the object of closing interstate shipping concerns.

A system of shorthand and bookkeeping twenty years old is of but little use today.

As the steam ship has crowded out the sail boat, the typewriter the goose quill pen and pokeberry ink, so have the famous Byrne systems of business training, Bookkeeping, Stenotypewriting and Shorthand taken the place of the old systems. The reason is plain; these systems cut the time and cost of becoming an expert accountant or stenographer in half, teach business as well as bookkeeping, let the student begin earning while the student of the old systems is not half through his course; they give the student a better practical working knowledge, which means a higher salary.

These practical, modern time-saving systems can be had in this section only in the Tyler Commercial College. You would not think of riding in an ox cart in preference to an automobile. Then why think of studying the old ox-cart systems of accounting and stenography when you can get the Byrne systems which possess such wonderful advantages that they enabled the management of the Tyler Commercial College to build the largest training school in America, with an annual enrollment of more than 2,000.

ANOTHER PAPER MILL FOR THE SOUTH

Birmingham, Ala., Jan. 21.—To save part of the millions of dollars loss, which Alabama is now annually suffering in not utilizing waste material from her lumber, Howard F. Weiss, Director of the Forest Products Laboratory of the United States government, has taken steps looking to the establishment of a paper mill in the Tuscaloosa district. Mr. Weiss after a thorough investigation is convinced that such a plant, operated in conjunction with the big lumber mills, would prove wonderfully successful. Several other by-product plants, in addition to the paper-mill, would also prove profitable, in the opinion of Mr. Weiss, who has prepared elaborate data on the subject which is available to any one interested.

Sketch from life by "Hep" Blackman.

Nacogdoches, Texas, must be an A-1 swine-breeding country, because Ford R. Hale, of there, has shipped in 13 loads of hogs already this fall and winter.

Hale has been forwarding his livestock to this market for the last two years, and he shows up at least once each week and sometimes twice.

He doesn't specialize exclusively on pork, for he also deals extensively in cattle, but he does patronize this market "exclusively." "This is the best market there is for Texas shippers," he said Wednesday, while tarrying amongst us with a load of pigs. "There is certainly first-class treatment and fancy prices coming to all livestock patrons here," he added, "and I for one will not journey anywhere else with my stuff as long as I get the brand of treatment I've been receiving from you all."

Ford Hale is a "native son," and was born and raised in Nacogdoches County, and is living on "the old home place" now.

Everybody is mighty prosperous out his way, he avers, and "money is easy." Crop, also, wasn't so poor the past season, and the country is in much better shape financially than it has been for many years.

Hale is a "tall, round" looking man, which means that he does livestock, feeds some more and buys a little as he goes along. He is his own firm and has no partners.

He also slipped us the information that his County is building good roads right along, and "development" will be the watchword there during 1917.

His favorite pastime is turning livestock into a profit, and his favorite newspapers is the Nacogdoches SENTINEL, edited by Giles Holton, and he swears by this exponent of the art-preservation. "It never camps on the wrong side of a public argument," he declares.

The above cartoon and complimentary reference to our fellow-citizen is taken from the Fort Worth Daily Live Stock Reporter, published at Fort Worth, that paper kindly furnishing us with a stereotype cut of the whole upon request for same. From it it will be seen that Mr. Hale is becoming as popular and prominent with Fort Worth people as he is with the people of his native county.

Previous to reproducing the article, the reporter called on Mr. Hale this morning for a verification of the report, which he gave with unqualified approval, and the additional information that he had shipped some five or six cars previous to the shipments noted above, one since, and would ship another the latter part of this week, making approximately twenty cars of hogs he has furnished the Fort Worth market this year. He makes shipment to the Cassidy Southwest Commission Co., from whom he says he has received most satisfactory treatment and a square deal in every instance. In this connection Mr. Hale also requests the Sentinel to give assurance of his appreciation to the farmers of Nacogdoches county for making it possible for him to handle so many cars.

The average car holds from eighty-five to ninety hogs. Figuring it at the lowest number this would represent seventeen hundred hogs shipped by this one man. The approximate price of a car of hogs ranges around thirteen hundred dollars, thus making a total sum of \$26,000 that has been brought to Nacogdoches County through Mr. Hale's activity.

There have been other cars shipped from this section, making an aggregate of about forty-three cars this season, and The Sentinel would be pleased to get a report of each man's experience in the enterprise.

FIELD'S MANUSCRIPT IS BOUGHT BY McCORMACK

A LITTLE BOY OF NINE KILES 4-YEAR-OLD GIRL

New Orleans, Jan. 21.—Albert Artigue, 9, while shooting at a box step with a 32-calibre revolver, shot and killed Mercedes Horn, 4-year-old girl, this afternoon. The boy had swapped an air-gun for the revolver. The little girl, with a brother and a cousin, was making mud pies when killed.

WOMAN PRESIDES OREGON LEGISLATURE

Salem, Ore., Jan. 24.—A woman presided as speaker over the Oregon house of representatives Wednesday for the first time, it is said, in the history of the State, when Speaker Robert N. Stanfield retired shortly after the session opened and turned the gavel over to Mrs. Alexander Thompson, who held the chair until noon.

It was as "Mrs. Speaker" that members called as they asked for recognition and introduced their bills and none of the 59 men on the floor lit a cigar during her rule.

GOMPERS WOULD BREAK THE LAW

Washington, Jan. 17.—President Samuel Gompers of the American Federation of Labor told the house commerce committee today that if any legislation to make a strike unlawful were enacted he, for one, could be counted upon as one of those who would violate it.
 "There is something deeper and more important than continuous operation of trains, as much as that may be desirable," he said.
 H. B. Perham, president of the Order of Railroad Telegraphers, also opposed the bill.
 Chairman Adamson flatly told them that the legislation proposed was in the interest of the public and not to please either side.
 Gompers told the committee the bill, which is part of President Wilson's legislation program, was the most far-reaching and fundamental to come before congress for 60 years.

Both children and grown-ups, with coughs and colds, are all the better for a dose of Foley's Honey and Tar at bed time. It wards off croup, stops tickling throat, and hacking coughs, and makes an otherwise feverish, sleepless night of coughing and distress, a quiet and restful one.
 BROWNSVILLE, TEXAS, Mr. Chas. Baker, writes: "My wife would not think of using any other cough medicine, as Foley's Honey and Tar is certain to bring quick relief. It is especially effective in cases of bad cough, and we give it to our children and recommend it always as a safe remedy, for it contains no opiates."

WOMAN'S JOY

Suggestions to Childless Women.

Among the virtues of Lydia E. Pinkham's Vegetable Compound is the ability to correct sterility in the cases of many women. This fact is well established as evidenced by the following letter and hundreds of others we have published in these columns.

Poplar Bluff, Mo.—"I want other women to know what a blessing Lydia E. Pinkham's Vegetable Compound has been to me. We had always wanted a baby in our home but I was fitful, health and not able to do my work. My mother and husband both urged me to try Lydia E. Pinkham's Vegetable Compound. I did so, my health improved and I am now the mother of a healthy baby girl and do all my own house work."—Mrs. A. L. TIMMONS, 216 Almond St., Poplar Bluff, Mo.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential and helpful.

PEOPLE WILL TALK.

Yes, people will talk
The saying is true,
They talk about me,
They talk about you.

If we go to the Opera,
Some one will say
We should go to church
And learn how to pray.

If we go to church
And offer up prayers,
They say we are hypocrites
And putting on airs.

If we are rich,
They call us a thief,
Scoff at our sorrows,
And laugh at our griefs.

If we are poor,
They say that we shirk,
We're lazy
And never would work.

They talk of our prospects,
They talk of our past,
And if we are happy,
They say it can't last.

They talk of our loved ones,
They talk of our foe,
They talk of our follies,
They talk of our woes.

They talk of our joys,
They talk of our fears,
They talk of our smiles,
They talk of our tears.

They talk if we are single,
They talk if we are wed,
They talk of us living,
They talk of us dead.

Tho, we live like angels,
With circumspect walk,
Our efforts are useless,
For people will talk.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is quicksilver and acts like dynamite on your liver.

Calomel does you a day! You know Calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bowels and should never be put into your system. When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

A little... helps the man of every pursuit. Even the hod-carrier would appreciate notice of the fact that he moves up the ladder with greater precision and skill than some other man. The merchant will strive harder to please that customer who manifests some appreciation for the service he receives. The school teacher loves that child better who gives love and obedience in return. The minister soon tires of an unresponsive congregation, and will lose interest in his work if his members do not show some appreciation for the work he is doing, and extend to him some manifestation of sympathy and co-operation. And the newspaper man is no exception to the rule. As a rule people are more inclined to criticize and censure the newspaper than they are to give it credit for any meritorious work. Every newspaper man has suffered the humiliation of no response to some article in which he had put much labor and thought and expected to render a service in so doing. He has likewise longed for the day and a constituency which would co-operate and sympathize with him in his work, through and by which his medium could be made a great power for good in the community in which it is published. Bearing on this subject, we get the following beautiful thought from a recent issue of the Lufkin Daily News, which approaches the ideal of every faithful newspaper man:

"There is no good reason why the truth should not be told. It does a newspaper man good to have a subscriber call and pay the publication a compliment. That happened yesterday afternoon when a friend of the paper called and upon his own volition said that he had enjoyed immensely the reading of an article in the little home paper. Possibly the caller never thought very much about the circumstance, merely made the remark as it occurred to him and the time was propitious; but when the door slammed behind him as he again took to the street, the editor sat back in his 'easy' chair and considered that possibly all of his efforts were not in vain—that out in the byways and hedges and in the more densely populated districts in town, there were those who were reading their little daily paper every evening and enjoying its visits. Read it, folks, and if you don't feel inclined to offer a cheering remark at intervals, let silence prevail."

FROM W. E. McMILLAN.

January 16th, 1917.

Editor Sentinel:
After this sleet has melted off it will be the best time in several years for people to drag roads. They should wait for roads to dry off. Practically all drags are made with adjustable blades. These blades should be tilted forward so as to slide over rather than dig up road bed. This causes water to drain and surfaces to dry quickly, and should be begun the first sunny day and continued each day thereafter until surface is dry enough to support traffic.

Our roads are full of depressions where water stands, and when water stands the road will soften and traffic makes mud-holes. These mud holes cannot be filled to advantage until they have dried up. The more you fill a mudhole the deeper it becomes.

Unless much dragging is done we will have some almost impossible roads this winter and spring, should we have the usual continued wet spells. I hope you will urge this through the columns of your valuable paper and advise the people that it is

money in their pockets, and the only time they can hurt a road by dragging is when it is dry. Also, never drag a sand road. Yours for the road dragging, W. E. McMILLAN.

PIONEER PASSES OVER.

Capt. Wm. R. Anderson died at Burnett, Texas, Jan. 4, 1917, aged eighty-four years.

Capt. Anderson was born in Mississippi in 1833, and came to Nacogdoches county an infant. He married a daughter of Capt. David Muckleroy, and his home was in the vicinity of Fairview. She was a sister of our Mrs. M. S. Muckleroy.

Capt. Anderson left three sons and one daughter surviving him. The daughter is Mrs. A. L. Collins of Burnett, at whose home he died. One son lives at San Angelo, one at DeLeon, and a third is a professor in Amherst College, Massachusetts. He was a captain in the Confederate army, in Waul's brigade, and at one time served as a member of the Texas legislature. As a private citizen, and in every station he was regarded as a man above average in ability and fidelity. His father was William Anderson whose home at one time was seven miles north-east of Nacogdoches on Logansport road, a two-story house quite pretentious for that day. It was burned down about the beginning of the Civil War, and no trace of the house exists on the site today.

Captain Anderson moved to Kaufman county at the close of the war and spent the balance of his life there, until old age disabled him, and then he went to Burnett to live with his daughter till he died.

Grady Stallings left for Tyler this afternoon where he expects to enter the Tyler Commercial College. Grady is one our Nacogdoches County boys who has made a hard fight for a good, practical education and The Sentinel predicts great success for him.

50 CENT 'CASCARETS' FOR LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the concentrated waste matter and poison from the intestines and bowels. A doct box from your druggist will open your liver and bowels clean, remove wet and head clear for days they work while you sleep.

market. The hogs were fed on May peanuts and the producers are not worried about the boll weevil.—Brownwood Bulletin.

The peanut may be destined to put the sandy lands of Texas up to high prices. Today there are many counties in Texas where good smooth sandy land can be bought for \$8 to \$15 an acre, mostly on credit; but such prices can not long remain fixed after it has been once or twice more demonstrated that those lands will return \$30 to \$50 an acre the first year. It is not expected, to be sure, that peanuts will remain high as they are now; but they will undoubtedly remain for years to come at prices much beyond former levels. With an established demand for all the products of the peanut and mills throughout the south for manufacturing them, there is every logical reason for believing that the profit to growers will remain remunerative for a long time. Besides there is always the opportunity to feed the peanuts to hogs and reap extra profits from that operation. If the people of some countries had half the opportunities enjoyed by the people of this country, they would do twice as well with them. One of the reasons why so many folks are without homes even where land is cheap is because when land is cheap nobody wants it. This has been especially true of sand land in Texas. But fifty years from now, when sandy lands are selling at higher prices than black lands, there will be 'social unrest' manifested by those who demand a cheapening of lands; by confiscation, perhaps.—State Press, Galveston News.

ENTHUSIASM.

(J. Ogden Armour, in January, 1917, Armour Magazine.)

Enthusiasm is the dynamics of your personality. Without it, whatever abilities you may possess lie dormant; and it is safe to say that nearly every man has more latent power than he ever learns to use. You may have knowledge, sound judgment, good reasoning faculties; but no one—not even yourself—will know it, until you discover how to put your heart into thought and action.

A wonderful thing in this quality which we call enthusiasm it is too often underrated as so much surplus and useless display of feeling, lacking in real substantiality. This is an enormous mistake. You can't go wrong in applying all the genuine enthusiasm that you can stir up within you; for it is the power that moves the world. There is nothing comparable to it in the things which it can accomplish.

We can cut through the hardest rocks with a diamond drill and melt steel rails with a flame. We can tunnel through mountains and make our way through any sort of physical obstruction. We can checkmate and divert the very laws of nature with our science.

But there is no power in the world that can cut through another man's mental opposition, except persuasion. And persuasion is reason plus enthusiasm, with the emphasis on enthusiasm.

Enthusiasm is the art of high persuasion. And did you ever stop to think that your progress is commensurate with your ability to move the minds of other people? If you are a salesman this is pre-eminently so. Even if you are a clerk, it is the zest which you put into your work that enkin-

ceived from the use of Theodor's Black-Draught, Mrs. Sylvania Woods, of Clifton Mills, Ky.

"It certainly has no equal for la grippe, bad colds, liver and stomach troubles. I firmly believe Black-Draught saved my little girl's life. When she had the measles, they went in on her, but one good dose of Theodor's Black-Draught made them break out, and she has had no more trouble. I shall never be without

THEODOR'S BLACK-DRAUGHT

in my home." For constipation, indigestion, headache, dizziness, malaria, chills and fever, biliousness, and all similar ailments, Theodor's Black-Draught has proved itself a safe, reliable, gentle and valuable remedy.

If you suffer from any of these complaints, try Black-Draught. It is a medicine of known merit. Seventy-five years of splendid success proves its value. Good for young and old. For sale everywhere. Price 25 cents.

des an appreciation in the mind of your employer.

You have a good idea—don't think that other people will recognize it at once. Columbus had a good idea, but he didn't get 'across' with it without much of this high persuasion.

If you would like to be a power among men, cultivate the dull routine of a mechanical existence, and you will make headway wherever you are. It can not be otherwise, for this is the law of human life. Put your soul into your work, and not only will you find it pleasanter every hour of the day, but people will believe in you just as they believe in electricity when they get in touch with a dynamo.

And remember this—there is no secret about this 'gift' of enthusiasm. It is the sure reward of deep, honest thought, and hard, persistent labor.

A family was murdered over in Louisiana the other day. The father had \$4000 and instead of depositing it in a bank, he kept it about the place and was even foolish enough to boast of that fact. Now the \$4000 is gone and the man, the wife and the children are dead. This was simply the throwing away of life. The world has not yet advanced to a stage of civilization where it is free from money lovers and murderers and if a fellow is fortunate enough to have a few dollars he should show the good sense to put it in a bank for safe keeping.—Temple Mirror.

Tom Martin, of Remet, was here today. Mr. Martin was reared at Martinsville and has scores of relatives and friends here who are always glad to see him.

For that cough that strains the throat and saps the vitality try Dr. King's New Discovery. The soothing pine balsams and mild laxative ingredients soon drive the cold from the system. Have a bottle on hand for winter colds, croup, grippe and bronchial affections. At your Druggist, 50c.

Mr. L.C. Jopling, a prominent planter and stock raiser residing near Garrison, was a visitor to the city today, and made this office a pleasant call, coming around to settle for his county paper. Mr. Jopling has about eleven hundred acres in farm and pasture at his home and is one of the most prominent producers of the county, as well as one of our best citizens.

The Habit of Taking Cold.
With many people taking cold is a habit, but fortunately one that is easily broken. Take a cold sponge bath every morning when you first get out of bed—not ice cold, but a temperature of about 90 F. Also sleep with your window up. Do this and you will seldom take cold. When you do take cold take Chamberlain's Cough Remedy and get rid of it as quickly as possible. Obtainable everywhere.

HERE IS ONE ARTICLE WE HOPE EVERY ONE OF OUR READERS HAVE

reliable remedy handy. Fever, sore throat, tight chest and croupy coughs are sure symptoms. A dose of Dr. Bell's Pine Tar Honey will loosen the phlegm, relieve the congested lungs and stop the cough. Its antiseptic pine balsams heal and soothe. For croup, whooping cough and chronic bronchial troubles try Dr. Bell's Pine Tar Honey. At all Druggists, 25c.

Constipation Causes Bad Skin.
A dull and pimply skin is due to a sluggish bowel movement. Correct this condition and clear your complexion with Dr. King's New Life Pills. This mild laxative taken at bedtime will assure you a full, free, non-gripping movement in the morning. Drive out the dull, listless feeling resulting from overloaded intestines and sluggish liver. Get a bottle today. At all druggists, 25c.

Bad Habits.
Those who breakfast at eight o'clock or later, lunch at twelve and have dinner at six are almost certain to be troubled with indigestion. They do not allow time for one meal to digest before taking another. Not less than five hours should escape between meals. If you are troubled with indigestion correct your habits and take Chamberlain's Tablets, and you may reasonably hope for a quick recovery. These tablets strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.

Special Demonstration and Sale GREAT MAJESTIC RANGES

"The Range With a Reputation"

One Week Only, Commencing Monday Jan. 29

During this week we will have a special demonstrator from the Majestic Factory to explain how the Majestic is made and why it is absolutely the best range; why it lasts longer and cuts down repair expenses; why it bakes bread evenly, top, sides and bottom without turning; why it uses so little fuel and saves fuel waste. He will explain its labor saving construction and why it heats an abundance of water good and hot—a mighty convenient and useful thing to have a big supply of hot water on hand isn't it. To buy a range by mail is almost certain to end in disappointment and loss of money. It may be "exactly as represented" yet not be what you thought it was nor what you wanted. Here you can see every part of the Majestic—you can know what you are getting before you buy. Decide now that you will discontinue using that old, worn-out range. You will save money in fuel, repairs and cooking. Buy a Majestic—the range with 25 years' reputation. The demonstrator will answer any questions relating to stoves.

CHILDREN'S SOUVENIR DAY

Tuesday of Demonstration Week 3 to 5 P. M.

125 Majestic Aeroplanes FREE

FUN! FUN!! FUN!!!

Boys and girls, old and young, you can have a world of fun with the Majestic Aeroplane. It is easily made to fly from 10 to 50 feet in the air. You will want one. Don't fail to get yours. The first 125 boys and girls who present to the Majestic Range Salesman, at our store, between 3 and 5 p. m. on Tuesday, written answers to the following questions will receive one of these aeroplanes free.

1. What is the name of your mother's range and how long has it been in use?
2. Give names of any persons you know needing a new range.
3. Why is the Majestic Known as the Range with a reputation?
4. What is your age?
5. When is your birthday?

\$1.00 ARTICLE FREE.

The boy or girl giving the nearest to the third question may select any \$1.00 article from our stock in addition to the souvenir.

A PRIZE FOR EVERYBODY.

Don't be discouraged if you are not one of the 125 to get an aeroplane. You will receive a Majestic Puzzle Card that will afford you many hours of amusement. Be sure to have your answers ready to hand in at our store Tuesday afternoon, between 3 and 5. They must be written if you wish to receive a souvenir or prize.

This \$8.00 Set of Granite and Copper Ware Free

As a special inducement during our demonstration week only, we will give with every Majestic sold, one handsome set of kitchenware as illustrated. Every piece is the finest of its kind and the entire set cannot be purchased for less than \$8.00. The price of the Majestic remains the same and the quality of the stove is the same. This kitchen ware is an out and out present. See it at our store.

EVERYBODY WELCOME.

Even though you do not want to buy a new range right now, it will be worth your while to attend this demonstration and know all about the Majestic Range. You are under no obligation to buy.

Hot Coffee and Biscuits Served Free Every Day.
