FRANCE WANTS AMERICAN SOLDIERS AND MONEY

Envoys are Clothed With Full Authority to Negotiate with United States in All Matters.

FORTRESS MONROE, April 24.—France's war commissioners to the United States reached Hampton Roads today, and tonight they are bound up Chesapeake bay for Washington on board the presidential yacht Mayflower.

The mission, of which Rene Viviana, vice premier and minister of justice, is the official head, and Marshal Joffre, a member, brings no written instructions from the French government, the ministry having decided to give its members unlimited power to negotiate with the United States on all subjects, military, naval and financial.

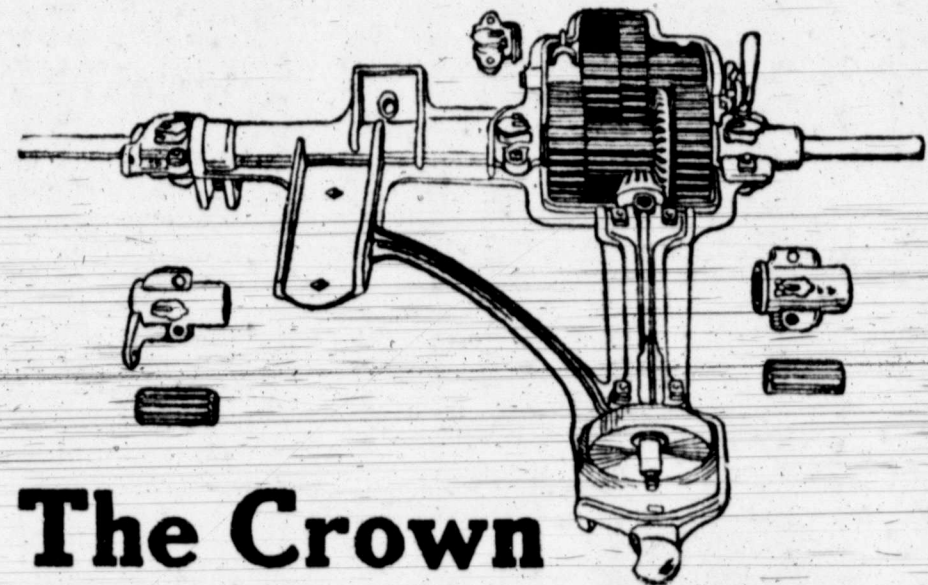

It is proposed to discuss the sending of an American expeditionary force to France, Marshal Joffre and other military members will indicate to the American officials with whom they are to confer several important reasons which they consider renders the sending of such a force advisable.

Moral Effect Most Important.

The most important of these reasons is found in the moral effect to be had from the presence of American troops and the American flag on the battlefields of France.

The French idea of an American expedition calls for a fighting force supported by auxiliary services such as railway material, base repair shops, telegraph and telephone lines, automobile telephone and strong aviation section. The French government is ready to offer what may be needed to assist in the sea operations including the use for naval purposes of any or all ports in France. The ministry of marine has worked out for submission to the American

HERE IT IS

The Crown

The Mower With a Simple Double Speed Gear

The Crown Mower has many points of superiority over any other machine we have seen but the greatest thing is the "double or changeable speed," there is no other mower on the market with a similar device. The gears are very strong, heavy and durable and perfect in their operation. It is a simple matter to change from one speed to another. The Crown gives you a Fast Speed for hard cutting and a Slow Speed for ordinary or light cutting. This saves the life of the machine and much easier on the team.

It's the greatest mower we have seen and we want you to see it whether you intend to buy or not. Come around and take a "look" or if you are not coming to town just phone or write us and we will send you full information about it.

Cason, Monk & Co.

CONFEDERATE VETS KILL GO TO HOTELS

WASHINGTON, April 24.—Plans for a city of tents to house old soldiers who attend the Confederate veterans' reunion here next June were virtually abandoned today by the local committee on arrangements and it was decided to provide accommodations for at least 3,000 of the 4,000 expected to attend in hotels, armories and boarding houses. Uncertainty of the weather and comfort of the veterans prompted the change.

A number of tents will be pitched on the big plaza between the Union Station and the capitol, however, for the men who prefer to renew their memories of war times by camping out.

BE CHIEF OF U. S.

ENVOYS TO RUSSIA.

Washington, April 24.—Elihu Root will head the American commission to Russia if he will consent to undertake the duty. It became known today that the president has completed the selection of the principal members of the commission.

MAYER & SCHMIDT, INC.

Overalls and Jumpers Are Just the Thing to Wear

when you are milking the cow and grooming the horse; they're made for the occasion.

But a man can't always be dressed for farm chores. The average man must be dressed in clothes that will "get him by" in this busy, hurry-up, bustling world where men are quickly judged by their personality.

Now every man who thinks of his clothes at all has some idea how he would like to look. He wants to get the most style, service, satisfaction and value for his money. He wants clothes that fit the sur-

roundings—clothes that are appropriate and make him look his best.

Schloss Clothes \$18, \$20, \$25 and up will come closer to your idea of what clothes ought to be, than anything else your money can buy. The styles are the latest metropolitan ideas; the materials are good; the tailoring is superfine. They are made for men who want something better than common; and they are worth going a long way to get. We have them, though, right here.

Mayer & Schmidt, Inc.

government a comprehensive plan for overseas transports for both army and navy purposes and for the provisioning of the civil population.

France Needs \$100,000,000 Monthly.

Financially, France needs loans of \$100,000,000 monthly to be spent in the United States. Details official information on this subject will be submitted to the American government in Washington.

GERMANS ARE FRANTIC.

LONDON, April 24 (8:24 p. m.).—Reuter's correspondent at British headquarters in France contract the reckless prodigality with which the Germans are throwing reserves of men and guns into the firing lines with their previous prudence and says they clearly realize the full extent of the Anglo-French menace to their whole system of communications and are desperately trying to counter the danger. The correspondent adds:

"They are throwing in their strategic reserves wholesale and are rushing up provisions and ammunition which must be weakening some other point in the long drawn army. The Germans began their retreat in the middle of February and have shown every desire to conserve man power, but during the last 38 hours they have shown a complete recklessness in repeating counter attacks in mass without regard to the cost, which must be appalling."

U. S. LOANS BRITAIN TWO HUNDRED MILLION

WASHINGTON, April 24.—The United States will lend England \$200,000,000 probably tomorrow, as the first loan to any of the entente governments under the \$7,000,000,000 finance law signed by President Wilson today. The money for this loan will be available out of the proceeds of the \$250,000,000 of treasury certificates of indebtedness due June 30 and just placed with the banks of the country through the federal reserve board.

Secretary McAdoo will call for the proceeds of this issue tomorrow morning and as soon as the money is deposited in the various federal reserve banks it will be available for the government's purposes.

The British loan will be made as soon thereafter as the necessary for-

malities of transfer can be completed. The money will be placed to the British government's credit speedily, probably without waiting for the arrival here from London of British bonds to be deposited in the American treasury as security.

In that event the United States probably will take some other temporary form of security, pending the arrival of the bonds.

Final negotiations for the loan were completed today at conferences participated in by Secretary McAdoo, Lord Cunliffe, governor of the Bank of England, Pierre Jay of the New York federal bank, treasury department, reserve board, and British embassy officials.

Official announcement of the loan is expected in 24 hours. The loan is not intended to cover

Great Britain's full share of the \$3,000,000,000 intended for the allies, but it is designed to meet England's immediate and pressing financial need. A somewhat similar loan may be made to Italy.

GEORGE GOULD RESIGNS AS T. & P. PRESIDENT

NEW YORK, April 23.—George J. Gould today resigned as president and chairman of the board of directors of the Texas and Pacific railway. At his suggestion the board elected the following officers:

Chairman of the board, William Church Osborne; president, J. L. Lancaster; vice president, Kingdon Gould, Dunlevy Milbank, Norman S. Meldrum and Finley J. Sheppard.

FARMERS!

We have money to loan to help you to make a "bumper" crop of Corn, Peanuts and Cotton. The real farmer is going to "clean up" this Fall. If we can help you, come to see us.

WALTON & GIBBS.....Proprietors
G. M. HALTOM.....Manager
G. M. GIBBS.....Editor

The "pen" which was once proclaimed "mightier than the sword," is now surrendering its place to the plow.

The late Governor O. M. Roberts is quoted with having given utterance to the philosophy that "civilization begins and ends with the plow." It is certain that it would soon end if the plow were to stop.

The aristocratic thief who broke into the wholesale house here and carried away some Irish potatoes a few nights ago has evidently moved to Timpson as we glean from yesterday's issue of the Times, that a freight car had been entered and a quantity of bacon taken the night before.

The coming of Dr. Geo. W. Truett to Nacogdoches April 30th will bring to the city a spiritual feast that will long be remembered, and be the turning point to right living for many lives. Dr. Truett is one of the South's greatest exponents of practical christianity, and this city is fortunate in securing an engagement with him.

For one time in the history of the country, farming is the most lucrative occupation in which any man can engage, and will continue to be so for many years to come. Let every farmer take advantage of the opportunity to provide a home for himself and children, and men engaged in other vocations not so profitable can not do better than get back to the soil.

Nacogdoches County carried last week a special road tax of 15c on the \$100, there being already that amount levied, making this a special levy for better roads. While the majority was small, being but 24 votes, yet we congratulate the progressive citizens of our neighbor county in this victory for better public roads.—San Augustine Tribune.

Every man who attended the Press Association at Timpson last week, made inquiry as to the whereabouts of Doc Lively of the Lufkin News, and Oscar Gibbs of the Nacogdoches Sentinel. Mention is made of it here because it is always pleasing to a man to know that he has been missed, and these two good scouts deserve to be pleased.—Tenaha Messenger.
Doc is still "missing."

The big black headlines running in today's papers announce that "Germans and French in Desperate Battle." "German Counter Attacks Against the French Put Down With Great Losses." This is a continuance of the big battle that has been waging for several days in which the English and French have made the most brilliant showing in the history of the war, capturing many thousands of the enemy, and recovering much lost territory.

It is to be hoped that the world is getting better; but from all that is transpiring on so many battlefields, and out on the high seas, the question is a debatable one. Lufkin, however, is pursuing the even tenor of her way—and setting an example for some other towns nearby to follow.—Lufkin News.

From all of which we assume that Old Glory still floats over the standpipe, and that Lufkin people are "good" and secure with the protecting wing of the great emblem. If this is the cause, it was worth the trouble.

A Nacogdoches citizen who was here on business said that he noticed there were automobile speeders in Lufkin, but the same could be said of his town. The gentleman travels over the country considerably in his car, and remarked that it was more dangerous to drive through the business streets of some of the smaller towns than through the larger cities. Such as this ought not to be the case, but it is. He says laws on the statute books in his home town are violated every day in regard to traffic. Not only so, but they are being violated in Lufkin both day and night. The question arises, what can we, or what must we do about it?—Lufkin News.

Polk county will hold an election Saturday, April 28th, to determine whether or not a fifteen cent road tax shall be levied. We pass the word down the line to our neighbor that Nacogdoches county has already availed herself of this opportunity, and we hope Polk county will do likewise. With a general country-wide road improvement old East Texas will come into her own, but until we have good roads over which people can travel in prospective trips our development will be slow. The bulk of the travel is now made in automobiles, and trips are planned for those sections where such travel can be made.

This writer dropped over to Timpson last Thursday while the East Texas Press Association was in session. Messrs. Molloy & Winfrey, of the Timpson Times, assisted by that whole-soul, broad—both physically and mentally—Mayor Hawthorn, and several of their business men and ladies, saw to it that no one wanted for anything. And the meeting was a grand success from every point of view. One that will always cause each editor present to salute at every mention of the name of Timpson, for truly a great time was had by all visitors. The next session meets with Editors Harris and Ramsey, over at Henderson, which place we are told is the present home of the next governor of Texas.—Col. Bob Milner.

The City of Nacogdoches compares favorably with other cities of the same size and so does Garrison, but we feel sure the Sentinel will agree that it would not be fair to compare this place with Nacogdoches any more than it would be to compare Nacogdoches with cities with five times the population. In other words, because Nacogdoches has only about one fifth the number of miles of paved streets and sidewalks as Shreveport, it does not necessarily follow that Shreveport is five times as progressive as Nacogdoches.—Garrison News.

You were the first "offender" in the comparison which seems to have become "odious," dear News, and as a faithful sentinel, true to its name in all things, the duty rested upon us to call your hand. We will cheerfully concede the point that there is no better town in the world, to its inches, than Garrison, but the last analysis of progress is accomplishment, and we submitted the list to your challenge. Garrison can get in the Nacogdoches class if she will develop the many resources she has—her mineral waters, her rich lignite beds and her superior brick and pottery clay. This writer has given these resources more publicity than any newspaper man in the country, and we gladly call attention to them again. Now, if you want to prove your progressive spirit in the most effective manner, employ your energy in exploiting some of your latent resources instead of picking a controversy with your neighbor. "Voting" right is a mighty good and commendable virtue, but service, and the development of the opportunities around you, are far more profitable in the physical measure of progress.

The indications now are that the appropriations for the new normal and agricultural school buildings, together with the appropriations for all other purposes that can be delayed, will be held up pending the settlement of the war. Those in favor of cutting down the appropriations to the lowest possible margin reason that the high cost of materials entering into all kinds of construction work at this time, the scarcity of labor, and the burden a raise in the tax rate would impose just now, make them impracticable at this time, and their reason is not without good logic, notwithstanding the people of this city would regret very much to lose the opportunity of securing the Stephen F. Austin Normal in the time specified in the original bill.

The news comes from Washington that in the event of conscription "all men married since the outbreak of the war will be treated upon the same basis as unmarried men in so far as their military obligations are concerned." This will be rather uncomfortable news to the "war brides" and the shirkers who seek to evade service behind the skirt.

With the approach of the German "zep," our Lufkin neighbor has lost his "pep."

BEAUMONT ATTORNEYS HONOR JUDGE DAVIS

The following comment on the life, death and funeral arrangement of Judge A. E. Davis, who died very suddenly with apoplexy at his home in Beaumont Thursday night, report of which appeared in this paper yesterday, is taken from yesterday's issue of the Beaumont Enterprise.

The death of the associate justice came as a shock to the entire city and to his friends throughout the state. He had just removed his family to Beaumont. He was establishing a reputation on the bench to which he only a few months previously had been elevated.

His death marks the passing of one among the best known and best loved jurists of east Texas. Of kindly mien, pleasing greeting and a faculty of carrying a happy mood, he was the friend of many. It also closes a career of promise. In the prime of life and vigor he had established himself firmly in the profession of his choice.

Judge Davis was born, reared, educated and had spent his life in east Texas. The town of Huntsville, Walker county, was his birthplace, April 9, 1867. He passed the fiftieth cycle of years on the ninth of the present month.

A Close Student.

Educated in the public schools of Walker county, and graduated from Sam Houston normal, Huntsville, he has always been a close student. After graduation he took up the profession of a school teacher. He served many schools in east Texas, principally in Polk and adjoining counties. While teaching in these schools he began the study of law. He continued to teach in this manner supplying himself with the necessities of life and at the same time preparing for the profession which he wished to enter. He obtained a license about 1898 under the old license system. Shortly afterward he opened an office in Polk county. His business broadened and he removed to San Augustine and formed a law partnership with his brother, Sam M. Davis. For many years the firm of Davis & Davis did a large general practice.

He was then elected judge of the First judicial district, composed of San Augustine, Jasper, Newton, Orange and Tyler counties. Following his election the law partnership was dissolved, Sam M. Davis removing to Ardmore, Okla., where he is now engaged in the law. Judge Davis held the position of district judge of the district two terms. His rulings have been termed as most fair and satisfactory.

In 1916 his friends urged him to become a candidate for the office of associate justice of the Ninth court of civil appeals. He made the race in November, defeating V. E. Middlebrook, who held the office by appointment. He has served on the bench since January 1.

Judge Davis came from an old east Texas family. His father was a merchant and stock raiser. His mother was a sister of Col. A. T. McKinney, prominent lawyer of Huntsville and who represented that district in the legislature for many years.

Body to San Augustine.

In the drawing for places in the civil appellate court Judge Davis drew place No. 1, which entitled him to the six-year or long term. The funeral will be at San Augustine, where burial will be made. The body was prepared by Pipkin & Bruin and will be shipped at 10:50 o'clock this morning over the Santa Fe for that place. There will be no services here, but it is planned for Shriners and members of the Masonic lodge and of the bar association to march from the residence to the depot. Judge Davis was a 33-degree Mason and a Shriner, as well as an active member of the Presbyterian church.

He is survived by his widow, Mrs. Nannie Rankin Davis, two sons, Albert Edwin Jr., aged 10 years and another son by a former marriage, Hill Davis, aged 18, who resides at Livingston; two brothers, Sam M. Davis of Ardmore, Okla., and Andrew Davis of San Augustine, and one sister, Miss Ella Davis, who lives with the family here.

Court Adjourns.

All courts in Beaumont adjourned yesterday in honor of his memory and will not reconvene until Monday. The bar association met yesterday afternoon and prepared to pay him honor. A committee composed of Judge L. B. Hightower, chief justice of the 9th court of appeals; A. G. Brooke, associate justice; W. H. Davidson judge of the Fifty-eighth district court; E. A. McDowell, judge of the Sixtieth court; T. L. Foster, Beaumont attorney, were appointed to act as pallbearers to represent the bar association. They will accompany the body to San Augustine. Another committee composed of Charles D. Smith, Walter J. Crawford and T. L. Foster was appointed to call upon Mrs. Davis and offer the services of members of the bar and confer with her as to her desires. This committee has issued a call requesting all attorneys of Beaumont to meet Friday morning at 9:30 o'clock at the Gulf National

bank corner. From there they will go in a body to the residence of the late jurist and escort the body to the depot.

Committees Named.

Another committee composed of W. D. Gordon, W. E. Organ and R. A. Greer was appointed to provide floral offerings.

The association also appointed a committee of Stuart R. Smith, M. S. Duffie, Judge L. B. Hightower, Geo. D. Anderson and W. E. Orgrain to draw suitable resolutions. A copy of these resolutions will be sent to each court of civil appeals in the state, each district court, to the family and the local press.

Another meeting will be held at 10 a. m., Monday when the resolutions will be formally adopted.

Oliver J. Todd, president of the bar association, presided yesterday and Walter Bolinger acted as assistant secretary, for Secretary Herbert Reed.

The Masonic lodge is also preparing for its members to attend body to the train.

Power of appointing a successor to the late Judge Davis rests in the governor. This successor will serve until the next general election, almost two years hence. At that election a successor will be elected to serve out the unexpired time of four years.

SAFETY

For nearly three years I have done my best to warn you to prepare for the present emergency. For years we have tried to encourage diversification in the South as a basis for greater safety, both agricultural and economic. Since the war began in Europe we have urged Safe Farming. When prices were low you did well and made great progress. When cotton went to eighteen cents and over you made large profits because of your progress in Safe Farming, but some were tempted to go back to cotton. In common with many other men, I have tried to warn you of that danger. Cotton has not been high but has only increased in somewhat less proportion than food and feed.

Now the crisis is here! This great Nation must arouse herself for a mighty struggle for liberty. People without food and armies without rations are conquered before they can fight. Our greatest safety now lies in food production and in saving the waste products.

If the south is to be strong she must have food. If this country is to be strong she must be well fed and have an abundance to sustain those friendly people who are even now fighting our battles for liberty and democracy.

Transportation may be disturbed. Your own defense requires you to produce and conserve your food supply. Don't fail now! It is a national problem as important as men and guns, ships and cannon.

Business men, if seed is short canvass the situation like patriots and get the seed for farmers. Arrange the credits. Furnish farmers seed corn, soy beans, cowpeas, velvet beans, peanuts, sorghum, etc., at cost. See that all things necessary to help farmers are done. Of course, we must produce cotton, but with moderate acreage and a good season there will be enough. Do not sacrifice acres of food to increase your acreage in cotton. Look ahead! Get the warehouses, the feed mills, shellers, cleaning stations, creameries, packing plants, etc. ready. You must do your share and co-operate with farmers. They must do their share and tend the crops faithfully.

Farmers, in your unions, clubs and other organizations, resolve to use the best methods now. When the Nation faces a crisis we must have the best farming in its history. Labor is short, hence the best tools and all bar-saving devices must be used to make it possible for every farm laborer to cover as much ground as possible and do the most efficient work. Farm women and girls have important work to do in the garden, the orchard, in raising poultry, and especially in canning, preserving and conserving our food supply.

Your county agent and home demonstration agent become more important officers now than ever before. Your state extension division at the agricultural college will have still more important duties. Look to these for counsel and advice in this new burden of extra work. The county agent will, without doubt, have new duties and responsibilities in the near future.

Farmers and business men, save the breeding stock. Don't sell cows, heifers, mares, sows, gilts, ewes or hens. Keep them for breeding. If the breeding stock is sold where will you get the means to supply the meat of this country?

Let us forget all past difficulties and join in a mighty effort to feed the south. What can you do in the next sixty days?

Respectfully yours,
BRADFORD KNAPP, Chief.

WHEN THE BOWELS DON'T MOVE
At the regular morning hour you're uncomfortable and the longer this condition exists the worse you feel. A dose of

PRICKLY ASH BITTERS

IS THE REMEDY YOU NEED

It quickly sets things moving. You feel better at once, and after a copious bowel movement, you experience that thrill and joy of living, that exhilaration of spirits and activity of body and brain that only those can feel whose internal organs are in a state of functional activity and cleanliness. It helps digestion, sweetens the breath and restores vigor of body and brain. Try it. Sold by all dealers in medicine.

Price \$1.00 per Bottle

THE GREATEST LOSS A COMMUNITY CAN SUFFER

When the social and educational standards of any community fall below what they should be, the very best families and the most ambitious young people are among the first to leave the community. In this way rural leadership is being rapidly drawn from many of the wealthier agricultural localities of Texas, farmers are suffering from absentee ownership, and the country is rapidly declining in social and economic prestige. In a certain rural community in Texas that has a good school building and maintains four teachers, less than two years ago, the following dialogue took place between the writer and eight boys then doing high school work:

"What do you do for pastime?"
"Well, nothing especially."
"Have you a ball team?"
"Yes, but it's mighty weak."
"When have you had a public gathering of any sort in the school auditorium?"
"Not since November. Almost three months."
"What do you do when Sunday comes?"
"Sometimes we go to church if there is any."
"How often do you have church services?"
"Once a month at one of the churches and just when they can get a preacher at the other one."
"What do you mean to do when you finish school?"
The unanimous reply was, "I want to go somewhere and attend a business college and equip myself to hold a position in the city."

Who can blame these boys for not wanting to stay in that community? They are starving for the want of healthful amusement and social recreation. Their discontent and desire to get away from the monotonous environment were the very strongest evidences that there was something in them inherently worth while. If they had been satisfied with such conditions, it would have been because they were genuinely stupid fellows.

From The Enterprise.

Lee Parmally of Nacogdoches was here Sunday.

J. B. Wood spent the latter part of last week in Nacogdoches.

Dick Cason of Nacogdoches was a visitor in our city Sunday.

Mr. and Mrs. Walter Daniels left Sunday to visit in Nacogdoches.

J. H. Summers of Nacogdoches was a visitor in our city the first of the week.

Messrs. J. G. and Greer Orton of Nacogdoches were visitors to Cushing Tuesday.

B. Parmally of near Nacogdoches was shaking hands with old friends in Cushing the first of the week.

Charley Fyke passed away at his home a few miles east of Linn Flat on Thursday, April 12th, of that dread disease, tuberculosis. His remains was doubly sad from the fact that his wife died just a few months before, leaving one son and two daughters orphans in so short a time.

From Weak and Lame To Well and Strong

Try them. Foley Kidney Pills will do for other men and women—quickly—what they have done for Mrs. Strayage.

Last year, I got almost down with my back, writes Mrs. H. T. Strayage of Gainesville, Ga. I. No. 3. "I suffered from inflammation of the bladder, and whenever I stopped doctoring I grew worse. I tried Foley Kidney Pills, and after taking them awhile my bladder action became regular and the stinging sensation disappeared. I am now stronger in my back than I've been for several years, and since getting well, I've stayed well and had no return of the trouble."

Start in now to use Foley Kidney Pills. You will feel an improvement from the very first doses, showing how quickly they act on kidneys and bladder. They stop irregular urinary action, ease pain in back and sides, limber up stiff joints and aching muscles. They put the kidneys and bladder in sound, healthy condition. Try them.

Stripling, Haselwood & Co.,

OAK RIDGE, S. C. C.

On Saturday night, May 5, 1917, in the Oak Ridge school auditorium, a "Social Center Club" will be organized and the following program rendered:

1. Victrola—Hawaiian Sunshine.
2. Election of officers.
3. Purpose of Social Center work, by Miss Sanders.
4. Victrola—U. S. A. Patrol.
5. Vocal solo by Edna Gaston.
6. Reading by Lillie Mae Sisco.
7. Hawaiian Folk Dance by Ola and Maud Gaston.
8. Victrola, "Carry Me Back to Old Virginia."
9. Explanation of Community Canner, by C. J. Shofner.
10. Gaston Quartette.
12. Victrola, Avenecene.
12. Duet, Wattie and Cecil Gaston.

A representative from Nacogdoches is invited to lecture for the Stephen F. Austin Normal.

Everybody invited to come and help make the club a success.

FIFTH SUNDAY MEETING.

Nacogdoches Baptist Fifth Sunday Meeting will convene with Melrose church April 27th.

7:30 p. m., Devotional, G. E. Hammond.

8:00 p. m., Sermon, C. E. Routh.

Saturday, 9:00 a. m., Devotional, W. L. Heffin.

9:30 a. m., "The Needs of Nacogdoches County," A. T. Gerrard and R. C. Monk, followed with general discussion.

11:00 a. m., Sermon, E. C. Routh.

1:30 p. m., Board Meeting.

3:00 p. m., Woman's Meeting.

7:30 p. m., Devotional, L. A. Bagley.

10:00 a. m., Sunday School mass meeting.

11:00 a. m., Sermon, E. C. Routh.

7:30 p. m., Sermon, Bro. Woods.

We cordially invite all our workers.

M. F. DRURY,
For Committee.

Mr. R. C. Gramling, a well known citizen of the city, had an experience this morning that would cause heart-felt failure with the average individual, and we pray that such a sensation may never fall to our lot. To get to the story in the shortest route, the gentleman purchased twenty-five cents worth of nails from a local hardware store and went home to do some work. The first thing to catch his sight when he opened the sack containing the nails was a big shining coin that on first sight looked like a twenty-dollar gold piece, snugly nestled in the nails as if it had been dropped into the sack by accident. Of course, Mr. Gramling picked up the coin first just as you, dear reader, would have done, and upon investigation found it to be a brass advertisement of rubberoid.

A GOOD FRIEND.

A good friend stands by you when in need. Nacogdoches people tell how Doan's Kidney Pills have stood the test. Mr. Wood endorsed Doan's over eleven years ago and again confirms the story. Could you ask for more convincing testimony?

W. H. Wood, farmer, North St., Nacogdoches, says: "I was troubled by a constant dull ache across the small of my back. The kidney sections were scanty and too frequent in passage. Doan's Kidney Pills certainly did me a lot of good." (Statement given April 7, 1905).

On June 4, 1915, Mr. Wood said: "I take Doan's Kidney Pills occasionally as a preventative and have little trouble from my kidneys."

50c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo N. Y.

MARRIED AT COURT HOUSE.

Mr. J. Monroe Fountain and Miss Lillie Lee Moore were married at the court house this morning, Judge J. F. Perritte officiating.

The happy couple comes from good families residing near Garrison, and are most worthy young people with a large circle of friends whom the Sentinel joins in congratulations and good wishes.

THE STEPHEN F. AUSTIN NORMAL.

Under the caption, "The Stephen F. Austin Normal," Elza R. Howard, a student of the State University from this county, contributes the following sensible and well written article to the Austin Statesman, published in Austin:

It would be entirely unnecessary to show that Nacogdoches is of greater historical importance than any other town in East Texas, for this fact is well known to every student of Texas history. Since this is true, the question naturally arises, why is it true? Why did the Spaniards build a mission at Nacogdoches in 1716, and why was it later replaced by a stone building, the Old Stone Fort. Again the question might be asked, why did Nacogdoches become the center of colonization in the early development of the country? It was because of its natural surroundings, for the reason that it was a healthful location, that around it were fertile lands which were well adapted to the growth of all kinds of farm products, that there was an abundance of natural resources capable of easy development, and finally because it was the center of all East Texas.

These blessings which nature has bountifully bestowed upon old Nacogdoches and her surrounding territory have not ceased to exist. They continue with many others which have been added by the work of an ambitious, industrious and wide-awake citizenship.

Nacogdoches is one of the most thriving and flourishing little cities of all Texas. In an educational way, it has always been in the foremost ranks of progress. It would probably be surprising to some people of Texas to learn that Nacogdoches maintains one of the best high schools, not only in Texas, but in the south. When Nacogdoches obtained classification as one of the thirty-two best schools in the south, it set a standard of educational efficiency which many of our larger city schools have not yet reached. No stronger evidence of interest in education can be obtained than that which is set forth by the standard of efficiency maintained at home.

As a healthful location there is none better than Nacogdoches in East Texas. The town is well drained and has an abundant supply of good, pure, artesian water as can be found in the state.

The status of the business men and the standard of morals are also worthy of special mention. The business men of Nacogdoches are a substantial class of citizens who are honest in their dealings, unselfish in their purpose, and progressive in their ideas. They are men who are interested in education, many of whom have already taken pleasure in helping ambitious boys and girls through college.

The standard of morals of Nacogdoches will compare favorably with the best in the state. There are a large number of different religious denominations, each of which exercises a vast influence for good, and there are no saloons even within the adjoining counties.

Other considerations are those in regard to the geographical center, the center of population, and the accessibility of Nacogdoches to all other points in East Texas. The exact geographical center of East Texas falls in Nacogdoches County only a few miles west of Nacogdoches. The exact center of population is not known, but according to the 1910 census, it can not be far from Nacogdoches. As to accessibility, there can be no doubt that Nacogdoches is the logical location. Nacogdoches has three railroads, two of which, the H. E. & W. T. and the T. B. N. O. railroads, cross and run in northeast and southwest and northwest and southeast directions, respectively. These roads and the others roads with which they have connection make Nacogdoches more accessible to both north and south than any other point in East Texas.

Now it seems reasonable and evident that since Nacogdoches is the historical center of East Texas, since it is the center of population, since it is the geographical center, since it is more accessible to all other points, and since it meets every other requirement in regard to the desirability of location which the bill providing for the establishment of the normal sets forth, Nacogdoches should be the home of the Stephen F. Austin Normal School.

ELZA R. HOWARD.

CARD OF THANKS.

We are very grateful for our neighbors and friends for the help they rendered us in nursing our brother in his illness and for the many manifestations of sympathy extended to us in our grief.

May the same tender, loving friends ever attend you and yours, is our sincere wish.

Mr. and Mrs. J. M. Robinson.

BATTLE PROGRESSES WITH MUCH FURY

Again the British have begun a period of intensive fighting between the region of Lens, southward to the Harvincourt wood, and, according to the London war office, have been successful at various points.

More than 1,200 Germans were made prisoners in the first day's fighting in the new offensive.

Both north and south of the Scarpe river the British have materially advanced at several points toward Douai. North of the river the villages of Gavrelle and Pons and a front two and a half miles long south of the stream they took the line of the Germans on a wide front south and east of Monchy-le-Preux and captured the villages of the Gavrelle and Guemappe.

Further to the south the entire village of Trescaulte and the greater part of the Harvincourt wood now are in the hands of General Haig's forces. On the northern end of the battle line addition progress has been made southwest of Lnes, seemingly placing that important town in great jeopardy.

FOOD PROBLEMS ARE TAKEN UP AT CAPITAL

WASHINGTON, April 23.—Congress took up the food problem today in public hearings by the senate agricultural committee, at which Secretary Houston set forth the administration's food control program.

At the same time the Federal Trade Commission, investigating the cause of high food prices, asked all state governors to send representatives to Washington—April 30 for a conference on state co-operation on the inquiry.

Secretary Houston also put his plans before the heads of five of the country's big farmers' organizations and received assurances of support for any measures the government contemplates for getting a firmer grasp on food production and distribution. The department of labor announced that it had undertaken the mobilization of a million boys throughout the country as farm workers.

PEANUT RATES PROTESTED.

WASHINGTON, April 23.—Complaint alleging that the Southern Pacific and other carriers are charging unduly discriminating rates in the transportation of peanuts in carload lots from San Francisco and Seattle, Wash., was filed with the interstate commerce commission today by the Houston Chamber of Commerce on behalf of itself and the Fidelity Cotton Oil Company. Reparation is asked.

The complaint points out that the Houston concern uses large quantities of peanuts imported through the Pacific coast ports from China and Japan.

HAVE RETURNED FROM A ROAD INSPECTION

County Judge J. F. Perritte, with Commissioners Bates and Stoddard, have returned from an inspection of the roads between Nacogdoches and Dallas. They made the trip in an automobile, with Homer Bland, a road contractor who is doing some extensive road work in Shelby county at this time, Mr. Bland inviting them to make the trip with him and furnishing the transportation.

A careful inspection was made of all the road work being done in the counties visited, some of which are making extensive improvements, and many contractors and road builders were interviewed, as a result of which Judge Perritte says that many new and valuable ideas were gathered which will be of service in the work contemplated for this county.

In discussing the trip, Judge Perritte says that he finds that we have done more work in this county, according to the money available, than any county visited on the trip, and hopes with the new ideas gathered, and the tax recently voted, to soon furnish Nacogdoches county with a system of roads that will measure up to those enjoyed with many of our progressive neighbors.

HEAD OF LUMBER FIRM SUCCEUMBS

BEAUMONT, Texas, April 23.—C. J. Cochran, 47 years old, president of the R. A. Myer Lumber Company of Honey Island, died early Sunday morning at a local hospital, following an operation of several days ago. The body was shipped to Lufkin Sunday for burial.

Mr. Cochran was born in North Carolina. He came to Texas about five years ago and entered the lumber manufacturing business. While the mill of the R. A. Myer Lumber Company is located at Honey Island, Mr. Cochran resided in Beaumont. He is survived by his wife and one small child. He was a prominent Mason.

JUDGE JOHN M. DUNCAN IS CLAIMED BY DEATH

Judge John M. Duncan, one of the best known members of the Texas bar, died at his home in San Antonio at 4 o'clock last Saturday morning, and was buried in the Mission burial grounds there Sunday afternoon. In compliance with the last wish of Judge Duncan, public announcement of his death was withheld until after the funeral.

Judge Duncan had been in failing health for some months, and his death, while a matter of general regret to a host of friends in all parts of the state, will occasion no great surprise. The deceased is survived only by his wife, who is herself in poor health. Mrs. Duncan was Miss Eddie L. House, daughter of Captain R. E. House of Tyler.

Judge Duncan was 66 years of age. He was a native of Tennessee and came to Texas when a youth, residing at Jefferson. He went to the Texas legislature from Tyler and served in both branches before retiring from public life. During the most active years of his life he took a deep interest in the politics of the state and was always found fighting for what he believed to be for the best interest of the people. He was a warm personal and political friend of the late Governor Hogg.

Judge Duncan went to Houston after retiring from the legislature and formed a partnership with T. H. McGregor. Later he was associated with W. L. Hill at Huntsville.

DENTON TO BUILD INTERURBAN LINE

AUSTIN, Texas, April 23.—Articles of incorporation were filed today in the state department by the Standard Utilities Construction Company, with headquarters at Denton and capital stock of \$100,000.

The purpose of this corporation is the construction and operation of an electric railway from Dallas in a southwesterly direction through Dallas County, by way of Denton to Sli-dell, Wise County, a distance of 65 miles. The incorporators are: H. W. Davenport, Denton; H. Rowe, Denton; Ira E. Cornelius, Muskogee, Okla.; and C. F. Hopkins, Tulsa, Okla.

Miss Dora Muckleroy left yesterday for a visit to Lufkin and Nacogdoches.—Jacksonville Progress.

THE FLAG.

I am the emblem of the men who dare
I fly my colors o'er the land's expanse;

When the great storm stirs through
the quiet air,

I reel with the mad spirit of the
dance.

My rhythm surges through the snig-
ling blood,

I float before the wind like ships at
sea,

In storms of steel and in the will's
wild flood

I carry men in war to victory.

In battle, in the splendor of the day,

I unfold all my body's nakedness,

Midst cannon roar and beat of drum
display

My shining beauty with full happi-
ness.

I tremble as I feel the fainting
breath

And as closeclasp hands glide
off from me,

Men call it the young heroes' valiant
death,

But I—I know their love's deep ec-
stasy.

—H. Traussil, in New York Post.

TEXAS HERO IS IDENTIFIED.

TEMPLE, Texas, April 23.—A brief communication received today from Canadian headquarters in France by Mrs. D. J. Davis of Bland, near here, seems to establish the fact that her son Robert was the young Texan who first carried the American flag into the present war. The message stated simply that the boy was wounded, but it is known that he enlisted in the regiment which produced the hero of Vimy ridge, and so far as can be learned, no other Texan enlisted with that body of troops. Young Davis' father fought the Germans on Vimy ridge in the Franco-Prussian war in 1870.

THE ALLIES CAPTURE 33,000 GERMANS

PARIS, April 22.—Thirty-three thousand prisoners and 330 guns were captured by the point Franco-British offensive from April 9 to 20, the French official statement announced last night.

This staggering total of captures indicates the tremendous force of the allied drive and gives hint of the wonderful victory so far achieved.

COURT SUSTAINS PARADEE RULING

NEW ORLEANS, La., April 23.—Granting of a temporary injunction was announced here today by Judge Pardee of the United States district court, to restrain the Texas state railroad commission from interfering with certain tariffs put into effect in that state by Texas railroads in obedience to the mandate of the Interstate Commerce Commission in the celebrated Shreveport rate cases. The injunction, which is to be in force during the pendency of the suit, was granted after a special hearing held here early this month before Federal Circuit Judges Pardee of Georgia, Walker of Alabama and Batts of Texas. The decision virtually sustains the temporary restraining order against the Texas commission granted by Judge Pardee last September. The Interstate Commerce Commission has reopened the Shreveport case in a hearing now in progress at Dallas and it was stated the injunction announced today will remain in effect until a final decision is made by the commission.

At the hearing before the special court here Texas commercial and live stock interests and the Texas railroad commission asked that the Interstate Commerce Commission be enjoined from carrying out its decisions in the Shreveport case insofar as it affected Texas intrastate rates, alleging the ruling was unconstitutional and in contravention of the sovereign rights of Texas.

The Texas interests also questioned the jurisdiction of the special court and asked that Judge Pardee's former injunction be dissolved. Texas shippers estimated the federal commission's decision involved freight increases to them amounting to about \$8,000,000 annually.

EXCURSION TO PORT ARTHUR.

By reference to the advertisement of the railroad company, it will be noted that there will be an excursion train operated to Port Arthur over the T. & N. O. next Sunday with the low rate of \$2.25 for the round trip. The train will leave here at 6:40 in the morning, and will arrive at Port Arthur about noon. Returning, it will leave Port Arthur the same day at 7:00 p. m.

This is a good opportunity for a little outing for those who care.

They Earned \$29.00 For Each \$1 Invested

THAT'S WHAT INVESTORS EARNED WHO PURCHASED ORIGINAL SHARES
IN MY FIRST COMPANY. OTHER COMPANIES I ORGANIZED EARNED
SHARE PURCHASERS TREMENDOUS PROFITS. NOW I AM ORGAN-
IZING A BIG, NEW, COMPANY JOINING ME NOW MAY BE
THE MAKING OF YOUR FORTUNE. INVESTIGATE IT.

FORTUNES IN OIL YOU CAN INVEST

Here in the Coastal Oil Belt, millions of dollars are being earned by all classes of investors, from the man who can afford to invest only a few dollars a month to the investor of thousands. Single wells often come in with initial production of 10,000, 15,000 and 20,000 barrels of oil daily. Oil is selling up to \$1.30 a barrel at the well, so that single wells often produce enormous fortunes every day that passes. Figure it for yourself. I organized the Hoffman Oil Company and sold shares at \$10 each. Within nine months investors in the original shares of this company received \$29 for every \$1 invested, or \$2900 for every ten share purchased. Here's what some of my investor friends got for coming in with me:

One man invested \$70. In nine months time this small sum grew into \$1906.70. Two ladies invested \$84 each, and within the same time got back over \$2200. One man invested \$670, and when the profits were divided he received over \$18,000 as his share. Many others profited in proportion, at a rate of \$29 for every \$1 invested.

Now I am organizing a big, new company, the Hoffman Oil & Refining Corporation. I want to make this one of the biggest oil producing, refining and marketing companies in the Southwest. The par value of shares in this company is \$10, the same as in my first company. But for a limited time, early buyers will get the benefit of a big discount. The recent allotment of shares will be sold at only a fraction of the actual par value. But this offer is positively limited. At the present price and terms, no matter how MUCH or how LITTLE you can afford to invest your opportunity to participate in the large profits we expect to make is just as great as anyone else, because ALL shareholders will share equally in the profits, according to the interest each one holds.

Don't lay this paper aside until you have clipped out and sent in the attached coupon. By return mail I will send you full details about my phenomenal success in the oil business and the wonderful profits I made for my investor friends in previous companies I organized. You'll be interested, and it may be the means of making your fortune.

The Sentinel

HALTOM & GIBBS... Proprietors
G. M. HALTOM... Manager
O. M. GIBBS... Editor

The moving picture fan reasons that all eye-strain is overbalanced with rest to the mind.

There was a little kaiser and his name was Bill; he got in this world's way and then stood still. Teut! Teut!—Shreveport Times.

The senate is urging Governor Ferguson to submit appropriation of one million dollars for the protection of the border country.

With a home guard company, a red cross society, and the old stone fort, together with several pieces of cannon, Nacogdoches is ready for a "fight," if nothing but a fight will do.

A contemporary urges that "in time of fat prepare for lean." That is what most newspaper men are doing, and the suggestion doubtless comes from the heart of the writer.

If you use the weed, you could contribute a valuable service to the new economy by planting the horse lot and fence corners in tobacco. Nothing will disturb it.

If you can't go to war, paint old Beck in the national colors and follow the flag between the plow handles—the next best service for your country, and not so dangerous.

Goeth says: "The best that history gives us is the enthusiasm it arouses." Accepting this theory, Nacogdoches should be rich in enthusiasm—and she is when we have need for it.

The richest "counter attack" of the war was reported yesterday in a dispatch from the war zone in which the statement was made that "Contrary to all the rules of international law and humanity, the Germans had announced their intention to torpedo all hospital ships without warning." Answering the threat France gave notice that German prisoners will be embarked on these vessels.

With flour at three bucks for a sack, Editor McDougal of the Tyler Courier-Times urges a return to the old-fashioned corn dodger. But with corn at one dollar and fifty cents a bushel, the esteemed contemporary will find that the spirit of commercialism has also entered this sacred precinct of man's sustenance and robbed it of its glory. Let's go fishing.—Nacogdoches Sentinel.

There are still plenty of sweet potatoes left in the curing plants and warehouses and sweet potato ponies will keep us from starvation for a time. When that gives out the Southern Rice Growers will yet have on hand a few bags of rice at somewhere around three pounds for a quarter.—Houston Post.

In joining his colleagues in extending farewell and good wishes to Stanley Beard of Houston, who resigned his seat in the senate to accept service with Uncle Sam in the war, Senator Gibson of Bonham grew eloquent and delivered the following pretty peroration: "Gentlemen of the Senate: I am proud to have this opportunity to pay tribute to the flag of our country. May its onward march continue until tyranny and oppression shall be no more; and may it not be long until governments everywhere shall be of the people, for the people and by the people, and the principles of democracy, the principles of Thomas Jefferson, and of Woodrow Wilson shall prevail in every land. There is no such red in the reddest rose—there is no such blue in the skies—there is no such white in the winter snow as we see when Old Glory flies."

The report of the sheriff of this county being called out to a country district to investigate what purported to be the theft of a pot of buried gold, appearing in this paper a few days ago, has brought the editor of the Lufkin News to life, and he makes the following observation in the matter: "The writer has whiled away many pleasant hours at his typewriter unearthing hidden treasure of ancient vintage here in Angelina county. Neither was any particular community favored with these exceptional 'finds,' occurring at one time at one place and then another. So authentic were the stories that you could almost see the pot of gold, but no one has yet been caught in the act of counting the money. If all the pots of gold claimed to have been discovered in time past were a reality, the question might well be asked where did the people get hold of so many pots at such an early date."

TIMELY ADVICE ON FOOD HOARDING.

Houston Chronicle.
The advertisement of Wm. D. Cleveland & Sons, appearing in Friday's issue of The Chronicle, contains some wholesome and timely advice on the present food situation.

Apart from its bearing on the local business situation, and apart from its interest to the patrons of this particular firm, it contained suggestions of material value to the general public, and can appropriately be regarded as an unprejudiced utterance of men who ought to know what they are talking about.

The Clevelands took this unique and rather unusual method of advising their patrons against heavy buying at the present time, and pointed out with singular clearness how the situation would be aggravated if people with means were to begin loading up for possible hard times and higher prices.

The disposition to do this on the part of those who have the spare cash is really at the bottom of the wild speculative crisis through which we are passing, and unless there is a general change of front we may expect the government to adopt some very drastic measures in behalf of the millions who are thus disadvantaged and distressed.

Should the government do what it might and what it obviously can, along this line, those who have gambled against public interest for personal gain would find themselves rudely undeceived.

If, for instance, the defense commission should be given the proper authority by congress, and should decide that wheat must be sold for \$1.50 a bushel, those who bought it at \$2.40 or loaded up on flour on a similar basis, would have lost.

Now this is not only possible, but is very likely to happen, if the food stampede keeps on, and it is not only the part of patriotism, but the part of good common sense, for people to go slow.

Between the speculators who are buying to make money, on the one hand, and the well-to-do who are buying against a rainy day, on the other, we are drifting toward a crisis. The visible supply of food is not short because it is actually being consumed, but because a considerable portion of it is being hoarded.

People of average means are threatened with distress, while the poorer classes are ground to pulp between the millstones of greed and caution.

There is more excuse for the housewife who fills up her pantry than there is for the speculator who jams a warehouse, but both are acting unwisely and unpatronically, and either may force the United States to take a hand.

If the United States does take a hand the blow will fall promptly and heavily, and thousands who now think themselves shrewd will find occasion to rue their shrewdness.

The operation might be something like this:

An officer of the government walks up to the door of a great warehouse and puts a seal on it.

The goods within become public property, and the owner is given a requisition, not for what he paid, or may think they are worth, but for what a cold-blooded board says.

If they happen to consist of \$3 potatoes, and he is given only \$1.05, that is his loss, and he must expect to take the dose which he was planning to choke down the throats of the consumers.

AMERICA CAN WIN MASTERY OF THE AIR.

The United States has already taken three important steps to bring the great war to a successful conclusion. Congress has appropriated \$7,000,000,000. The extensive program for supplying a fleet of wooden cargo ships has been placed in charge of Colonel Goethals. The matter of universal service has practically been decided, and upon the actual passage of the Chamberlain bill the third great step will be completed.

The next important thing which may be consummated in the shortest possible time is undoubtedly the assurance of the supremacy of the air to the allies by the United States. The recent successes on the western front have been primarily due to the airplane service and its co-ordination with the artillery.

Airplanes are the eyes of the guns. They are means for destroying communication roads and railroads in the rear of the enemy's lines; with them enemy's artillery can be completely paralyzed; while they are the only really effective means of keeping the enemy's aviation from interfering with our own operations.

Three types of airplanes have been developed for three phases of this work. First, hunting machines, or battle planes; second, bombing planes; third, observation planes for photographing artillery and taking photographs of troop movements and trench conditions. Due to the diff-

cult work, it takes six to eight months to train the pilots for the hunting or battle machine almost that length of time for the bombing plane, but only three months, at a maximum, to train pilots for reconnaissance. These pilots form the largest proportion of the ally flying corps.

It is obvious from these facts which have been demonstrated since the beginning of the war that the United States could give effective aid the most quickly to the allies by furnishing both planes and pilots. We are now manufacturing a satisfactory number of engines for French and English ariplanis. With our automobile industries turned loose on this work it would be easy for us to make one hundred times as many as we are making now. We could utilize our canoe, furniture manufacture, and kindred trades for work upon the planes and bodies of the machines. Our output of airplanes of the type found most efficient abroad would be enormous. Five thousand planes could be turned out in about four months after the first production.

We could build airplanes as fast as we now produce automobiles. We could assail the German lines with flocks of planes, whose bombs and machines guns, and assistance to our fields' artillery would turn and drive the German armies across the Belgian frontier and force them back to their position on the Rhine in one-tenth the time it would take for us to equip, train and send a sufficient army to do this work. Our men have the best temperament of any in the world for flying. They are both daring and accurate. Their courage is unquestionable. We have already proved that our man can fly and fly well. This is brought out by the report that more than 100 Boche planes have been brought down with a loss of only seven American aviators.

We could use these men as a nucleus for a gigantic flying corps. Within five months we could assume all the reconnaissance work of the English and French armies, leaving their reconnaissance pilots free to take up hunting and bombing machines. One airman is worth 500 infantrymen. The plane is the only thing besides the artillery which the enemy really sees and feels in modern warfare. The moral influence of a sky black with American airplanes would drive the Teutonic forces back to the Rhine.

Our industrial leaders in this country have already classified possible plane and motor factories as well as suitable training grounds. Regarding actual shipping, it will be remembered that a plane takes little space when carefully packed, and that few ships would be needed for the transportation of these airplanes.

We have now in this country 200 airmen—who could at once be sent abroad to begin work. The applications for the flying corps of our army are more numerous than for any other single branch of the army.

It is strongly recommended and urged that every citizen telegraph, write or telephone to his respective representative in congress, advocating passage of necessary legislation or the giving of necessary riders to make Germany feel that the United States is able and willing to take up Germany's submarine challenge and to answer it a thousandfold by overwhelming her from the air. America, which first invented the airplanes, should prove that she can accomplish that most mercurial object of quickly finishing the war by the use of her own invention.

SPECULATION RUNNING RIOT.

Under the caption, "Speculation Running Riot," the Houston Chronicle develops the following most sensible and practical editorial observation which will appeal to all thinking people:

"Bad as the food situation may be in this country, and alarming as the prospects may seem, there is no excuse for the mammoth gambling scheme by which speculators are forcing up prices and threatening millions of people with hunger for the sake of making a few dishonest dollars.

"There is more excuse for the slacker who gets married to escape recruiting than there is for the stockbroker and politician who takes advantage of the present disturbed state of the public mind to enrich himself.

The Chronicle believes, and The Chronicle has said, that every man is expected to do what he can to protect himself and contribute to the common good, but this does not relieve those low-minded chair-warmers who are preying on popular unrest from their just share of responsibility.

"We want to see the farmers increase their crops, and we want to see city-dwellers cultivate all the vacant land it is possible for them to handle, but while this work is being undertaken we do not believe that brokers and commission houses should be permitted to corner markets and boost prices as they are now attempting to do.

"At present there is no visible lack

of the necessities of life in this country. People experience no difficulty in getting all the flour, beans, meat, potatoes, etc., that they are able to pay for.

"The price-boosting and market cornering is not based on actual lack or scarcity of anything, but on the probability that some shortage may occur later. That is a miserable excuse by which to tax the poor people of the United States, and it merits the most drastic penalization.

"There is no sense in wheat selling at \$2.40 a bushel. There is no reason for raising butter to 50c a pound. It is nothing but a thieving scheme which makes a few people immensely rich, while millions toil in the name of patriotism.

"The government of the United States can break these prices, and it ought to do so. Men who will take advantage of public credulity at such a time deserve no protection.

"We are facing a crisis which can not be controlled by appeals and arguments. Nothing but stern and efficient dictation offers an adequate remedy.

"The American people are perfectly willing to appropriate and spend billions for the prosecution of this war, but they want to see those billions wisely and economically spent, and not diverted to the pockets of parasites who have no sense of fairness, justice or mercy."

THE PLAYGROUND AS A CHARACTER BUILDER

Our hours of leisure, recreation, and play are the hours of life that have the most to do with the making or marring of human character. The playground has been called the laboratory of democracy. Truly it is. It was the playground that gave the Greek his best training for citizenship. It is on the playground in the competitive sports that the American boy first learns in a practical way the lessons of compromise, give and take, and respect for the rights of the other fellow. The American playground is a very potent factor in teaching the American people how to govern themselves. Note the difference in Mexico. There the competitive element does not enter into the national sports. The Mexican bull rings and cock pits stimulate a different type of character to that developed on the American tennis courts and baseball diamonds. That there is at least some relation between the inability of these people to govern themselves and the character of their national sports can not be doubted.

How about the playground at your school or on the vacant lot in your town? Each is possessed with wonderful powers both for good and for evil. Which is in the ascendency? Are your playgrounds at school centers for the formation of right habits of language and conduct? Is the teacher or some other responsible person on ground each morning before the children arrive, and does this person remain on the ground until all the children are gone in the afternoon? Do the children of your school have a desirable place to play? Have the mothers of your community co-operated with the teacher in improving the playground? Do you have any play apparatus for the little children?—Division of School Interests, University of Texas.

SEEKS SUBSTITUTE FOR WHEAT FLOUR

Postmaster Jack Dies yesterday shipped several sacks of cornmeal, cottonseed meal, and peanut meal to his brother Congressman Martin Dies in Washington to have tests made in the hope of finding a substitute for wheat flour. Government chemists will mix and test the three meals, grinding them finer than the mills do, and baking them into bread.

Congressman Dies is anxious to find a substance from which bread as appetizing as wheat bread may be made. A letter received from him yesterday by Postmaster Dies explores the shortage of the wheat crop and declares that some substitute must be found.

There are but two mills manufacturing rice flour and they can not supply the demand, while the price of wheat flour is daily becoming more prohibitive.

Congressman Dies urges that in the event the substitute proves successful that it be used so that the wheat flour may go to the allies and to the army. He also advocates the minimizing of the use of wheat flour.—Beaumont Enterprise.

The directors of the East Texas Fair are planning some big things for the fair this fall. \$100,000 will be given the schools of East Texas in the athletic contest, divided as follows: \$50,000 going to school winning first place. A beautiful cup will also be awarded to the winner of first place. And one of our business men will give a \$25,000 suit of clothes to the young man securing the highest number of points in the different entries.—Times.

URGES FERGUSON TO SUBMIT APPROPRIATION

AUSTIN, Texas, April 24.—The senate today adopted a resolution, introduced by Senator Robbins and signed by 19 other members of the senate, requesting Governor Ferguson to submit the matter of legislation looking to the appropriation of not less than \$1,000,000 for border protection.

This is the text of the resolution: "Whereas, the nation is now at war and all its available military force will be called out of Texas for the purpose of reorganizing new armies, and,

"Whereas, because of the geographical location as a border it will be necessary for us to defend our border and state by our military forces, and,

"Whereas, it will be necessary for us to organize and augment the National Guard of Texas three fold, as early as possible, and to expend large sums of money in doing so,

"Therefore, be it resolved by the senate that we respectfully request the governor to submit as a matter of legislation an appropriation of not less than \$1,000,000 for the purpose above set forth."

It is expected the governor will send up a message in accordance with the terms of this resolution. The governor may also submit the question of increasing the state ranger force.

Senate Session Brief.
Senator Bee today introduced a resolution in the senate that the state accept a portrait of General John W. Harton, commander of the Texas Terry Rangers. The resolution was set for consideration on next Friday morning.

A committee composed of Major George W. Littlefield, Austin, and Captain Sam Ashe and General B. F. Weems of Houston are to make the presentation to the senate. After a brief session the senate adjourned until tomorrow morning at 1 o'clock.

TEXAS WOMEN FOR WAR DIETICS

Dallas, Texas, April 24.—With Mrs. Percy V. Pennybaker of Austin, past president of the General Federation of Women's Clubs, presiding, representatives of women's organizations of Texas met here today and pledged themselves in every way possible to help conserve the food supply.

This will be done by cutting down the use of wheat flour in breads; by using substitutes for meat in food products; by asking the government to stop the use of grain in liquor manufacture; by elimination of meat for certain meals, and by assisting the school children in their work of conserving the supply.

Miss Mary E. Gearing of the University of Texas urged that a resolution be sent to the Master Bakers in convention here urging them to prepare "war bread" by using other materials than wheat in flour.

Miss Gearing also suggested that all refreshments served at entertainments should be of the simplest nature.

Clarence Owsley, director of the extension department of the Agricultural and Mechanical College, opened the meeting with the admonition that if America wishes to win the war she must feed the allies.

Organizations represented at today's meeting were the United Daughters of the Confederacy, Texas Rural Welfare Association, Texas Council of Mothers, Daughters of the American Revolution, Colonial Dames, Texas Federation of Women's Clubs, the Southwestern Field of the Y. W. C. A., the Dallas Equal Suffrage Association and the National League of Women's Service.

PRESIDENT SIGNS WAR BOND ISSUE

WASHINGTON, April 24.—President Wilson today signed the war bond bill, authorizing the sale of \$5,000,000,000 in government bonds, and \$2,000,000,000 in treasury certificates. Announcement was made today that the issue of treasury certificates offered through the reserve banks would be increased from \$200,000,000 to \$250,000,000, and that all of this sum has already been absorbed.

Heavy over subscription to the first offerings of the government war security has resulted in having the initial issue, which is in 3 per cent treasury certificates maturing June 30, increased. The determination to increase the first issue was announced in a statement by Secretary McAdoo.

News reaches the city that Senator S. M. King will in all probability receive the appointment as associate justice to fill out the unexpired term of Judge Davis. Senator King has many friends in this section who would rejoice with him in the honor, and who have an abiding faith in his ability and capacity to fill it with distinction to the state and credit to himself.

Spring Colds Are the Worst

They lead to catarrh and pneumonia. They weaken the entire system and leave it unable to resist the sudden changes. They interfere with your digestion and lessen your activity. Neglected, they soon become that dread disease known as systematic catarrh. Don't neglect them. It's costly as well as dangerous.

PERUNA Will Safeguard You

Have a box of Peruna Tablets with you for the sudden cold or exposure. Tone your system up with a regular course of the liquid Peruna, fortify it against colds, get your digestion up to normal, take care of yourself, and avoid danger. If you are suffering now begin the treatment at once. Give Nature the help she needs to throw off the catarrhal inflammation, and again become well.

Peruna has been helping people for 44 years. Thousands of homes rely on it for coughs, cold and indigestion. It's a good tonic for the weak, as well.

The Peruna Company, Columbus, Ohio

MILITARY HIGHWAY FOR BORDER, PLAN

WASHINGTON, April 23.—Representative Blanton of Texas has introduced a bill providing for the construction of a military highway along the Mexican border from Texas to California. Senator Sheppard and Representative Garner have had military highway bills for the border pending in congress for some time, but the Blanton bill is vastly different from these.

It calls for a roadway 16 feet wide and requests the appropriation of \$18,000,000 for construction. Several radical suggestions are made concerning the building of the highway. One provides for the use of all convicts in federal penitentiaries suitable for labor, on the highway and also specifies that work shall not begin until after the county commissioners of the Texas, Arizona, New Mexico and California counties, through which the highway would run, shall have donated free of cost to the government the necessary right of way and shall have agreed to supply the stone, gravel, sand, clay and water that would be needed in building the highway.

The bill was referred to the military affairs committee.

He also introduced a bill to pension the ex-Confederate veterans and their widows. His bill would appropriate \$100,000,000, which represents the cotton tax collected by the federal government in the civil war. Out of this sum he would pay to each ex-Confederate or his widow the sum of \$500 in cash and a monthly pension of \$25. The bill was sent to the pensions committee.

Representative Eagle has been advised of the issuance of an order by the postoffice department in response to his request establishing free city mail delivery in Rossmoyne addition to Houston, and an additional rural delivery out of Navasota.

PROMINENT LAWYER IS DEAD AT JASPER

JASPER, Texas, April 23.—Judge W. B. Powell, one of the most widely known attorneys of East Texas, died suddenly at his home here today of heart disease. Judge Powell had just returned home from his office when stricken. He was 61 years of age and had lived in Jasper most of his life. He was born within a few miles of this place. He served as district judge for eight years and prior to that time as district attorney. He had been in the practice of law since 1881 and was held in high esteem by members of the bar throughout this section. He is survived by a widow and ten children, all of whom are residents of this county, with the exception of one daughter, who lives at Leesville, La. A sister lives at San Antonio and a brother, Dick Powell, is a resident of Joquim, Texas.

Judge Powell was a member of the firm of Powell & Hoffman, of Jasper. Funeral services will be held at the family residence at 4 o'clock Tuesday afternoon and burial will take place in the Jasper cemetery.

BEAUMONT FIRM TO BUILD SHIPS

WASHINGTON, April 23.—R. G. McBride of the firm of McBride & Law, ship builders of Beaumont, has been awarded a contract by the federal shipping board for the construction of six wooden vessels of 3000 tons to constitute a part of the fleet soon to be put into the Transatlantic fleet. Each boat will require a million feet of heart pine.

The first keel will be laid within 45 days, and one each 60 days thereafter until all six are finished. Mr. McBride hopes to increase his contract in the near future.

CITIZENS' MILITARY TRAINING CAMPS

Southern Department for Training First Ten Thousand Officers.

Several of our citizens contemplate attending the military training camp this summer, while possibly others would like to know something of the service proposed, and for the benefit of all who desire such knowledge the Sentinel gives space to the following bulletin in the matter sent out by the department:

Training camps, for the purpose specified above, will be conducted in the Southern Department under conditions specified below. These conditions have been prescribed by the War Department, and there is no authority to make any change in them, and applications from those who do not meet these prescribed conditions will not receive favorable action.

OBJECT OF THE CAMPS—The sole object of these camps is to instruct and train selected citizens of this country to become officers of the Citizen Armies to be created for use in the present war with Germany.

LENGTH OF THE CAMPS—The period of this instruction will be three months. Attendants must be present throughout the course.

DATE OF OPENING—All camps will open on May 8, 1917.

OBLIGATION FOR MILITARY SERVICE—Those who attend these camps must undertake the following three obligations:

(1) To attend for the full period of three months.

(2) To accept in the Officer's Reserve Corps any commission tendered at the close of the instruction.

(3) To take an oath of enlistment for the three months of the camp (unless sooner discharged by proper authority) in which they swear (or affirm) to bear true faith and allegiance to the United States of America, and obey the orders of the President of the United States and the officers placed over them during the period of the camp.

TRANSPORTATION—Transportation from the attendant's home to the camp and return, will be furnished by the United States; the exact manner in which this will be done has not yet been decided.

SUBSISTENCE—Subsistence while at the camp will be furnished by the United States without cost to the attendant.

UNIFORM—The uniform will be furnished at the expense of the United States, in somewhat the following manner:

(a) The applicant is urged to furnish his own uniform in advance. After being accepted as an attendant, he has the privilege of purchasing this uniform from the Government at cost price, plus 10%, which will amount to about \$15.00. A pending law provides for reimbursing those who have purchased their uniforms in advance.

(b) Upon reporting at the camp and depositing \$10.00, a uniform will be furnished the attendant, to be returned by him at the conclusion of the camp.

If no article furnished has been lost or damaged other than by fair wear, the deposit will be returned; or in the event of loss or damage, a balance will be returned after the cost of the lost or damaged articles has been deducted.

ARMS, EQUIPMENT, ETC.—Attendees at the camp will be furnished cots, bedding, arms and equipment by the United States.

QUALIFICATIONS FOR ATTENDANCE—The following may attend these camps:

(1) Those who are members of Officers' Reserve Corps in Infantry, Cavalry, Field Artillery, Coast Artillery or Engineers, or have taken the examination for such, but have not yet received their commission.

(2) Any white, male citizen of the United States who, on May 6, 1917, will have passed the age of TWENTY YEARS AND NINE MONTHS and who will not yet have reached his FORTY FOURTH birthday, and who is of sound physical condition, of good moral character and of good education—a college graduate, or a senior in college, or clearly a well educated man.

Members of the Regular Army or of the National Guard in federal service may apply through regimental commanders to the Department Commander.

All those who have heretofore applied for examination for the Officers' Reserve Corps (including those who have been examined) and who have not actually received their commissions as officers from the Adjutant General of the army, should disregard all previous action and at once take steps to attend the training camps. Those who have been examined and recommended by examining boards will be "certified" without further examination, if they will address a letter to the Officer in Charge, Officers' Reserve Corps, Fort Sam Houston, Texas, and request a certificate; they

will also be commissioned as fast as possible.

COURSE OF INSTRUCTION—There will be a course of instruction in each of the following arms: Engineers, Cavalry, Field Artillery and Infantry.

SUSPENSION OF EXAMINATIONS—All regular examinations for the Officers' Reserve Corps are suspended, as the plan now is to pass all candidates through these camps of instruction and there, finally to determine their suitability for commissions.

METHOD OF MAKING APPLICATION TO JOIN ONE OF THE CAMPS—Applicants must attend the camp which is assigned as the place of instruction for all candidates from his home State. This assignment is as follows:

Mississippi, Louisiana and Arkansas, to the camp near Little Rock, Arkansas.

Oklahoma and Texas, to the camp on the Leon Springs Military reservation, near San Antonio.

Arizona and New Mexico, to the Presidio, San Francisco, California.

In the states mentioned above, there will soon be established a number of City Recruiting Stations, some of which have been in operation for some weeks past, where information and application blanks may be obtained.

There will shortly be sent to each of these centers, one or more Army Officers, who personally will examine each candidate, to determine whether he should be certified for the camp.

The applicants who have been favorably certified will then be furnished transportation to the camp, and will be directed to report on a given day.

Examining Officers will be sent at an early date to the cities named, to examine applicants. The exact date cannot now be stated. As soon as the date can be determined for any station, notice will be inserted in the newspapers of the locality, showing the address of the station.

PAY OF RESERVE OFFICERS AND CANDIDATES ATTENDING CAMPS—Existing Law does not authorize officers of the Reserve Corps being ordered to these camps, nor is there an appropriation available, at the present time, for their pay. Under these circumstances, all that can be done is to urge Officers of the Reserve Corps to attend under same conditions as other candidates. Present is there an appropriation available only a payment of transportation, subsistence and clothing, but no pay of any kind. The passage of war appropriation measures may improve this condition any day.

SCOPE OF EXAMINATION—Each applicant will be examined personally, in order that a high standard may be obtained with respect to the following:

Character and sobriety; personality, address and force; reputation and standing in his community; whether he is likely to command the respect of officers and enlisted men; whether he has adequate education.

There is no mental examination, but simply an inquiry into the applicant's educational attainments. If he has attended a military school or college, he should submit diploma or certificate of graduation, if he graduated, or (if he did not graduate) a certificate of the amount and character of training satisfactorily completed there. If the applicant has served in the regular army or the national guard, he shall submit his discharge papers when he applies.

PHYSICAL EXAMINATION—Applicants should have themselves examined by a reputable physician as soon as possible, and present the physician's report with other documents when they apply for examination.

In order to expedite examination, prospective applicants should carefully read the instructions in this memorandum and have everything in readiness for the examination, including letters of recommendation, diploma or certificates of graduation, physical examinations, etc.

CORRESPONDENCE—All correspondents in connection with joining these camps should be addressed to the Recruiting Office, nearest the applicant's home. If he does not know the location of such office, he should then address the Officer in Charge of Training Camps, Southern Department, Fort Sam Houston, San Antonio, Texas.

DEATH AT JOAQUIN.

JOAQUIN, Texas, April 24.—W. H. Hanson, aged 68, residence three miles south of Joaquin, Texas, died Monday morning about 9 o'clock. Uncle Dick, as he was familiarly known, had been in ill health for four years, and his death was not unexpected. He was a pioneer citizen of this country, and highly respected and esteemed. Burial Tuesday afternoon at Jackson cemetery. In addition to his widow he is survived by a large family, a number of grand children and other relatives. G. W. Hanson of this place, a nephew, who with his wife, were at his bedside when the end came.

MRS. MAMIE HALL GAINS 19 POUNDS

Was Sick in Bed for Eleven Months and Only Weighed 96 Pounds—Now Well and Happy Again.

Still another comes forward and adds her voice to the hundreds who have already endorsed the wonderful medicine, Tanlac. Mrs. Mamie Hall, who lives at 805 Fourth Avenue, South, Nashville, Tenn., says she suffered for years and had fallen off until she weighed only ninety-six pounds, but that she now weighs one hundred and fifteen, a gain of nineteen pounds.

"I had a bad form of stomach trouble," said Mrs. Hall, "and had suffered from it for years. I lost so much flesh and was so weak that I was confined to my room and bed for eleven months and my head ached so bad I could hardly stand it at times.

"Yes, they actually had to prop me up in bed to take a drink of water, as I just couldn't help myself at all. I lived on malted milk and graham crackers. The pains in my chest made me afraid I had lung trouble and my head ached so bad it seemed like it would burst.

"About a year ago I was taken to the hospital, the doctors saying I had a cancer of the stomach. I was so nervous all this time that the slightest noise would almost drive me mad and the pains in my back hurt me so I hardly ever got a night's rest.

"My husband was terribly out of heart about me, as the doctor said nothing would save me but an operation. We had spent a lot of money for medicines and it seemed like nothing would do any good.

"Well, sir, I happened to see a piece in the paper about Tanlac, and it told me about a woman in Louisville that was suffering just exactly the same way I was. I begged my husband to let me try it and he said he had no faith in it, but he would get it if I wanted it. So he got a bottle and we kept it a secret from the doctor.

"That was the best thing I ever did in my life, for I began to feel better and gain weight with the very first dose. I had gone down so I didn't weigh but ninety-six pounds, but now, after taking four bottles, I weigh one hundred fifteen—five pounds more than I ever weighed in my life.

"I now feel strong and well and can do all my housework. I can eat anything—why, I actually ate a tomato after I had been taking Tanlac a week, and that's something that never would agree with me before. I have no more of those terrible pains and I am doing fine in every way.

"I got a letter yesterday from my husband at Chattanooga, and he said he had taken two bottles of Tanlac and was doing fine. I am going to Chattanooga Sunday, and I will sure take a bottle of Tanlac in my grip. This medicine just above saved my life and kept me from having to have an operation."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Swift, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Appleby by Weatherly Bros., in Sacul by Arkan Cranford and in Cushing by A. J. Beck.

Attention, Knights of Pythias. LaNana Lodge, No. 106. Bro. Knights: We, the undersigned committee, have been appointed to make arrangements for our annual memorial and decoration services to be held in the Castle Hall and at the Cemetery Sunday afternoon at 3:00 o'clock, April 29th, 1917.

We earnestly request the co-operation and support of every knight and his family that we may make this service a complete success. Remember your obligation and watch The Sentinel for further announcements.

JNO. M. GREENE,
H. C. HATCHL,
D. RULFS,
Committee.

FUNERAL AT LUFKIN.

LUFKIN, Texas, April 24.—The funeral services of C. J. Cochran, president of the R. A. Ayers Lumber Company of Honey Island, were held this afternoon at the home of his mother, Mrs. J. H. Cochran, in this city. Mr. Cochran was a prominent Mason, and his remains were taken in charge and buried at Glendale cemetery with Masonic honors. Mr. Cochran, aged 47, was connected with one of the oldest and most prominent families in East Texas, and his body was followed to its last resting place by a large concourse of friends and relatives.

WAR PROHIBITION WINS IN HOUSE

AUSTIN, Texas, April 24.—The house this afternoon adopted by a vote of 65 to 55 the resolution urging President Wilson to prohibit the use of grain for anything but food purposes. A number of amendments were defeated. The house then took up the electromagny section of the appropriation bill.

NEW YORK AS I SAW IT.

(By MISS RUTH SPRADLEY)
Central Park. (Continued)

A colossal bust of Beethoven faces the music stand near the north end of the Mall, where concerts are given on Saturday and Sunday afternoons in summer. The Mall terminates at the Terrace, which overlooks the Lake, and with its stairways, elaborately carved with fruits and flowers and birds, is the chief architectural adornment of the park. Broad flights of steps lead down to an esplanade in the center of which is the Bethesda Fountain. The central figure represents the Angel of the Pool of Bethesda; the smaller figures typify Purity. The pleasure boats may be taken here or you may go to the boat house nearby and take a trip around the lake. On going from the Fountain we took the walk to the left, followed the Lake shore, and crossed the Bow Bridge. We came to the Ramble whose winding paths lead to the lower Croton Reservoir. At the southwest corner of the reservoir, on the highest point of land in the park, stands the Belvedere whose tower gives a wide outlook over the Park and its surroundings. The prospect takes in the two reservoirs. St. Luke's Hospital in the north, the palisades of the Hudson in the west and the hills of Long Island in the east. We came to the Obelisk, which stands on a knoll by the East Drive, near the Museum of Art.

This Egyptian Obelisk of which I speak is the object in the Park which many of us will esteem the one thing best worth seeing. Here we are face to face with antiquity. This monument was old when Moses read its inscriptions in honor of the Egyptian sun-god, and today it has behind it thirty-five centuries, during which standing as an imperishable memorial of the Pharaohs, it has seen kings and empires rise and flourish and pass into oblivion. The Obelisk stood before the Temple of the Sun in Heliopolis (the City of the Sun, near Cairo, in Egypt, where it was erected in the sixteenth century, B. C., by Thothmes III, who reigned 1591 to 1565, two hundred years later Ramesses II, the Pharaoh of the Bible, added to its inscriptions setting forth his own majesty. Our Obelisk and a companion shaft remained standing in Heliopolis until 12 B. C., when Rome, being mistress of the world, it was presented to the United States by the Khedive of Egypt in 1877. It was brought to America by Lieut. Commander, Henry H. Gorringe, U. S. N., and was erected on the present site in 1881.

The Obelisk is a monolith, or single stone, of syenite, from the granite quarries of Syene, in Egypt, and is so hard that modern stone-cutting instruments make no impression upon it. From here we visited the American Museum of Natural History, where our studies of New York come to a close.

Now some have complimented my descriptions and some have doubted the originality of same. Howsoever I'm fully satisfied with whatever your thoughts or remarks may be. I haven't by any means went to this trouble for the mere sake of being showered with compliments but for the practice and future benefits, and with the idea of perhaps you who have never had the pleasure of studying these things would enjoy hearing about them at least. I have had no false intentions in view, whatever, therefore as I bring this to a close I am sincerely thanking each one of you for whatever thought you may be entertaining, as I am yours of faithful endeavor.

The dispatches announce that the farmers of four of the Southern states, with Texas leading in the patriotic work, will raise food and feed. A conference has been called to convene at Texarkana May 14 for the purpose of working out plans for a definite campaign looking to the noble purpose of having every idle acre tilled and induce the farmers to work at top speed. This call has been issued by Texas to Louisiana, Oklahoma and Arkansas, and the spirit of Texas is in it for all it is worth, in suring that it will be fruitful of much good results.

IRON WANTED.

Will pay \$5.00 per ton for scrap iron, free from steel iron and tin, delivered Nacogdoches Elevators Company's warehouse. Also want all other kinds of junk. Claibe Johnson. wtf

NEWSPAPER MAN IS BURNED TO DEATH

WACO, Texas, April 23.—Maj. J. W. Downs, 73, founder of the Waco Daily Examiner, the first daily newspaper in this city, was burned to death in his home today. The cause of the fire has not been determined. Major Downs was born in Alabama and was a graduate of Wesley University at Florence, Ala.

LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callus so it lifts off without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison from trimming the corns with a razor is told by a Cincinnati authority, to use a drug called freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any drug store, but will positively rid one's feet of every kind of soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.

THE DALLAS BOOSTERS COMING TO NACOGDOCHES

Mr. Robt. Lindsey, Nacogdoches, Texas. Dear Sir:—The Seventeenth Annual Trade Excursion of the Chamber of Commerce and Manufacturers Association of Dallas, will arrive in Nacogdoches, Texas, on May 11th at 8:55 a. m. stopping fifty minutes, leaving at 9:45 a. m.

We anticipate a great deal of pleasure in meeting your business men, and trust that the word can be passed around that we want to call upon them in their places of business.

We do not crave entertainment, and we certainly do not wish that our visit to your city become a burden upon you. We are traveling in a ten car special train, with every convenience for our comfort, so that we do not want you to feel that you will have to prepare elaborate entertainment of any kind for us.

We would like to unload from our train and march up town behind our band, and then if you can arrange for a short address of welcome, giving a chance to respond, that is all that we would expect.

The purpose of this trip on our part is to get better acquainted with your people, to thank them personally for the business that they have given Dallas, and to invite them to return our visit. Note of our business men are soliciting orders on this trip.

I would be glad to have you write me personally at as early a date as possible just what arrangements we can make in advance for your visit to your city.

Yours very truly,
S. D. HANLTY,
Secretary, Dallas Chamber of Commerce and Manufacturers Association.

POSTMASTER FOR LIFE.

The recent ruling of the president concerning postmasters of certain classes makes it a fact that our local postmaster, Jno. R. Nash, will hold office for life, the only causes for removal from his office being death, resignation, or inefficiency.

The appointments were thus put under the civil service rule to remove them from politics, and at the same time give the office holders a greater opportunity to be of more genuine service and help to the people and government, and we join the many friends of Judge Nash in congratulating him upon his good fortune, for we know he will strive all the more to please his constituency.—Logansport Record.

LUFKIN LOCALS.

LUFKIN, Texas, April 22.—A large three-story brick hotel, with all the latest modern improvements, will shortly be built at Lufkin, at a cost of \$50,000.

The Lufkin Veneering Plant Company has been reorganized with a capital stock of \$25,000, with such known capitalists as Wells Brothers, G. A. Kelley, president of the Carter-Kelley Lumber Company; E. G. R. Thompson, cashier and E. J. Mantooth, president of the Lufkin National Bank, as stockholders.

The Lufkin Foundry and Machine Company are having an addition to their large plant inaugurated, which when completed will require an additional force of 30 machinists to operate it. Altogether Lufkin business is moving right along despite the war and high prices.

District court is progressing, with a very light docket. The trial of C. C. Matthews, charged with murder, is set for May 1.

For Sale at a Bargain. One second-hand 30x96 boiler with sixteen 3 in. flue, all complete in fair condition. Phone or write us. Stripling, Haselwood & Co.

SHERIFF'S SALE.

THE STATE OF TEXAS, County of Nacogdoches.

By virtue of an order of sale issued by order of a judgment decree of the Honorable District Court of Nacogdoches County, Texas, by the Clerk of said Court, on the 18th day of April, A. D. 1917, in a certain suit No. 4149, wherein The State of Texas is plaintiff, and George W. Cavin, Lilly Cavin, Lella Cavin Morris, joined by her husband C. J. Morris, Vannine Cavin King, joined by her husband W. Marvin King, Effie Lattimer, joined by her husband Belton B. Lattimer, Mammye P. Jarrett, joined by her husband N. H. Jarrett, are defendants, in favor of the said plaintiff, for the sum of One Hundred and 39-100 (\$150.39) Dollars for State and County taxes, interest, penalty and costs, with interest on said sum at the rate of six per cent per annum from date fixed by said judgment, together with all costs of suit, that being the amount of said judgment rendered in favor of said plaintiff by the said District Court of Nacogdoches County, on the 17th day of February, A. D. 1917, and to me directed and delivered as Sheriff of said Nacogdoches County, I have seized, levied upon, and will, on the first Tuesday in June, A. D. 1917, the same being the 5th day of said month, at the Court House door of said Nacogdoches County, in the City of Nacogdoches between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day, proceed to sell for cash to the highest bidder all the right, title and interest of said defendants in and to the following described real estate, levied upon as the property of said defendants, the same lying and being situated in the County of Nacogdoches, and the State of Texas, to-wit:

The Fred Carter Survey of 160 acres in Nacogdoches County Texas, abstract 667, delinquent in the year 1909 in the name of R. H. Lee, and unknown owners for the other years, or upon the written request of said defendants or their attorney, a sufficient portion thereof to satisfy said judgment, interest, penalties and costs; subject, however, to the rights of the plaintiff for any other or further taxes on or against said property that may not be included herein, and the right of redemption, the defendants or any person having an interest therein, to redeem the said property, or their interest therein, at any time within two years from the date of sale by paying double the amount paid for said property, and subject to any other and further rights the defendants or anyone interested therein, may be entitled to, under the provisions of law. Said sale to be made by me to satisfy the above described judgment, together with interest, penalties and costs of suit, and the proceeds of said sale to be applied to the satisfaction thereof, and the remainder, if any, to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

J. L. PRINCE,
Sheriff, Nacogdoches County Texas.
By S. S. MYERS, Deputy.
Dated at Nacogdoches, Texas, this 18th day of April, 1917.

GERMANS USING GLASS BULLETS

PETROGRAD, April 23, via London—Germans on the northern part of the Russian front have been firing glass bullets at the Russian, says today's war office announcement. Hostile activities by Kurds against the Russians in Persia are increasing, according to the announcement.

Mr. and Mrs. B. M. Hall returned yesterday from a visit to their sons at San Augustine. Mr. and Mrs. O. L. Hall and son, Valman, accompanied them home in Mr. Hall's car, and went on to Timpon this morning, where the young man will participate with the declaimers in the interscholastic meeting being held in that city today.

Oscar Matthews is having the Woods old homestead up North street, which he recently purchased, put in repair for a home for himself and family, and will have a pretty home when he is through with the work that he is having done.

Notice to the Traveling Public

I will run a service car from Nacogdoches to Center, via Appleby, Garrison, Timpon and Tenaha, beginning May 1st, 1917. Leaving Nacogdoches in the morning, returning same day.

WILL TINDALL.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes:

"From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain."

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

HUGGINS-HARDEMAN.

The following report of the marriage of a young lady of this county is taken from a recent issue of the Hungerford (Texas) Advertiser:

"Last Sunday at East Bernard occurred the marriage of Miss Pauline Hardeinan, of Nacogdoches, to Mr. Hugh Milton Huggins of Hungerford. Miss Hardeinan has been the guest of her aunt, Mrs. Alex Huggins, of Hungerford, for several weeks. Last Sunday Mr. Huggins called for Miss Hardeinan in his automobile, and left for a drive about town. Later in the evening Mr. Huggins phoned from East Bernard that they had been married, and were enroute to Houston, Nacogdoches Palestine and other East Texas towns, via the auto route.

"Miss Hardeinan is a very attractive young lady, and during her stay in this section has made a number of warm friends who wish her every happiness. Mr. Huggins was born and reared in Hungerford, and comes of one of the oldest and most prominent families in South Texas. Mr. and Mrs. Huggins will return to Hungerford in about ten days, and will make their home in that city, where Mr. Huggins owns a large plantation. The Advertiser joins in extending congratulations and best wishes for their happiness and prosperity."

HUSBAND SUFFERED.

Dear Editor:

"I sent for a box of Dr. Pierce's 'Anurie' Tablets for my husband, and he has been greatly benefited by them. He suffered from lame back and weak kidneys; kidney excretions being too frequent. After giving 'Anurie' a trial we are convinced that it is the best kidney medicine made. Will be glad to recommend it."

(Signed) Mrs. E. D. MINKS.

Note.—Dr. Pierce, who is director and chief physician at the Invalids' Hotel, and Surgical Institute, Buffalo, N. Y., has been testing this wonderful medicine for the relief of over-worked and weakened kidneys. The relief obtained by sufferers from rheumatism, lumbago, etc., has been so satisfactory that he determined to place "Anurie" with the principal druggists. "Anurie" is not harmful or poisonous, but aids Nature in throwing off those poisons which cause so much suffering, pain and misery. Scientists assert this remedy is 37 times more potent than lithia. Send 10 cents for large trial package.

August 17. At the opera house at night the finals in both debate and declamation met again, and in this final tryout Alton scored highest honors and won the greatest number of points.

This is a splendid achievement for the talented young man, winning, as it does, honors for both himself and the school he represents, and Nacogdoches people are righteously proud of him.

Prof. Hall accompanied Alton to Timpson and guarded his interests in the campaign.

NEW YORK AS I SAW IT.

(By MISS RUTH SPRADLEY)

The Grand Central Terminal.

The new Grand Central Terminal of the New York Central Lines at Forty-second street, and Park avenue, takes its place with the great buildings of the world. In the construction of this monumental gateway, whose portals open upon the broad high-ways of travel that radiate throughout three-fourths of the American continent, the dominant idea has been to combine beauty and magnitude with convenience and serviceability, so that the thousands of travelers from all parts of the country who each day enter the city and those from abroad, strangers in a strange land, may go about the terminal with as little confusion as in passing from one room to another in their own homes.

In the history of railroad building there is nothing to compare with the work at Grand Central Terminal. It is a comparatively easy matter to dig a hole, lay tracks and put up a building, but to rebuild a station under traffic, change the entire plant so that not a vestige of the old remained, keep 800 trains running, and handle from 75,000 to 125,000 passengers a day, was a proposition alive with engineering and operating problems. To do this, large purchases of land were made, increasing the area from twenty-three acres in the old terminal to seventy-nine acres in the new, including both levels of tracks. As each new track or group of tracks was finished, a corresponding number of old ones was abandoned, and traffic went on without interruption.

The bird's-eye view conveys an idea of what the rebuilding of Grand Central Terminal will give to the city of New York in the way of a beautiful civic center. This is the most original and in many respects the most distinctive phase of the development, and was made possible by the use of electric instead of steam motive power. The tracks were depressed below the street level, Park avenue and the cross streets from Forty-fifth street to Fifty-sixth street built in, thus reclaiming about twenty-five blocks and throwing the entire area open for building purposes. It is probably the largest, and promises to be the most successful combination of the esthetic practical in city building, yet planned in America. Where other idealistic group plans have failed or remained incomplete because dependent upon appropriations by the city, this one will succeed because of its earning power. The property over the railroad yards, when leased, will turn in a revenue that will help to make good for, and pay interest on, the large amount of capital involved in the terminal and correlated improvements.

MRS. MATILDA WOODWARD IS WITH THE DEAD

From Monday's Daily.

Mrs. Matilda Woodward died at the home of her son, Clyde Woodward, in this city yesterday morning at 4:00 o'clock following an illness of three weeks duration.

The body was prepared for burial by the undertaking department of Cason, Monk & Co., and shipped to Moscow for interment, accompanied by Mr. and Mrs. Clyde Woodward and Seabrook Woodward.

Mrs. Woodward was about sixty-four years of age, and is survived by two sons, Clyde Woodward of this city who has been engaged as engineer on the Nacogdoches Southeastern the past six years, and Seabrook Woodward, who is engaged in the oil business. She united with the Presbyterian church in the years of her youth, and was a consecrated Christian woman, cultured and refined, and possessed all the lovable traits of character that go to make up the most gracious type of Christian womanhood, as a result of which she was loved and admired by all who knew her.

Nacogdoches people unite in sympathy with the sons of the sainted old mother in their dark hours of grief.

BY OUR BLOOD WE LIVE

If you tire easily, are subject to cold hands or feet—if you catch colds readily or have rheumatic pains—your blood or circulation is probably at fault and you need

which is nature's easily-assimilated food, to increase your red corpuscles and charge the blood with life-sustaining richness. Scott's creates warmth to throw off colds and gives resistance to prevent sickness.

No Alcohol in SCOTT'S. Every Druggist has it.

SCOTT & BOWNE, Bloomfield, N. J.

BURIED TREASURE UNEARTHED

Sheriff Prince was called to the Swift community yesterday afternoon to investigate what purported to be the theft of a pot of buried gold.

Arriving upon the scene, which is about a mile and a half from Swift, Mr. Prince found an old pot lying beside a hole that had been dug in the earth, and a great crowd of people gathered around, all excited with the unusual circumstance. In pursuing an investigation the officer could find no clue except the claim of a Mexican woman that her grand-father had buried a pot of gold somewhere in the community many years ago, the trace of which had been lost, and she insisted that this must have been the lost buried treasure.

No tangible clue being in evidence, the matter is likely a practical joke, but the people of the community are said to be very much excited over it, and will be on the alert to find the fortune hunter who found the hidden treasure.

For the stomach and bowel disorders of babies McGEE'S BABY ELIXIR is a remedy of genuine merit. It acts quickly, is pure, wholesome and pleasant to take. Price 25c and 50c per bottle. Sold by Stripling, Haselwood & Co.

Brutus Spradley, who is attending the Medical College at Galveston, will arrive today for a little visit with the homefolks. The college will have no vacation this summer, having adopted the method of continuous session, and the students can visit their homes only in short vacation now.

To have a fine healthy complexion—the liver must be active, the bowels regular and the blood pure. All this is brought about by using HERBINE. It thoroughly scours the liver, stomach and bowels, puts the body in fine condition and restores that clear, pink and white complexion so much desired by ladies. Price 50c. Sold by Stripling, Haselwood & Co.

Five good cows, properly handled, will make more clear money in a year's time than you can make profit on ten bales of cotton. Can you make ten bales of cotton? You need a separator; sooner or later you will buy a DeLaval. See and try one before you get sorry. H. H. Cooper.

SCHOOL BOYS IN OVERALLS

As a step toward the new economy that is being urged by President Wilson, and sweeping the country, the boys of Nacogdoches schools have adopted overalls, from the small boys to the grown young men, and they look quite neat and cool in the new fashion.

It is said that the girls are also adopting a more simple and cheaper form of dress which is in keeping with the times and a good example set by the boys.

As a further step in this direction it is being urged in many quarters that the small boys now form into a barefoot club and discard shoes, an innovation they would enjoy and adopt with more comfort.

Dr. W. H. Bruce, Osteopathic Physician, Redland Hotel.

A prudent mother is always on the watch for symptoms of worms in her children. Paleness, lack of interest in play, and peevishness is the signal for WHITE'S CREAM VERMIFUGE. A few doses of this excellent remedy puts an end to the worms and the child soon acts naturally. Price 25c per bottle. Sold by Stripling, Haselwood & Co.

COW HIDES WANTED.

We are paying 18c per pound for green hides. Green hides should be salted heavily as soon as possible, and shipped by express. Put one tag with your name and address inside of the sack and one on the outside.

We also handle horse hides and wool.

A GOLENTERNEK & CO.

I have on hand 500 bushels of cotton seed for the benefit of the farmers that I now offer at \$1.25 per bushel, cash. Arrangement can be made for time. J. P. Clevenger. 19-3w

Mr. Leander Liles arrived home several days ago from his visit to Washington and other northern cities where he went in the interest of some good inventions he has recently made. Mr. Liles says that he had a pleasant trip, but that one can hear nothing but war talk now.

Farmers and others who live at a distance from a drug store should keep in the house a bottle of BAL-LARD'S SNOW LINIMENT. It may be needed at any time for cuts, wounds, sores, sprains or rheumatism. It is a powerful healing and penetrating remedy. Price 25c, 50c and \$1. per bottle. Sold by Stripling, Haselwood & Co.

Mrs. J. A. Pirtle, who has been quite sick for several days, is reported to be convalescing.

AFTER THE KAISER

UNCLE SAM tells us of the war he has STAGED.

UNCLE SAM knows that his boys are not AFRAID.

UNCLE SAM has raised us to respect OLD-AGE.

Tho, UNCLE SAM says, boys "I want the Kaiser CAGED."

Then I want a piece of a common 6-inch PLANK.

Then I want a nail or two drove in it, just to show him who RANKS.

It's enough of our ships he has already SANK.

That low-down, heartless brute, I am surely going to SPANK.

"Then I am going to see that little BELGIUM.

Slaps his jaws and gets to TELL-HIM That he's no more the great big BULLY;

That he's not now so WILD and WOOLY.

You did really think you'd conquer the WORLD.

You narrow-minded SIMP, your head's like a SQUIRREL.

Why didn't you consult MR. UNCLE SAM.

He would have told you this; your chance was not worth a LAM.

—W. E. WEAVER.

Hon. Eugene H. Blount has purchased the Bob Jordan place, and the Matthews place adjoining it, up North street, on which he contemplates building a nice home for himself and family at some future time. This is an ideal location, with plenty of room, and with a nice residence, will make an ideal home.

DEATH AT FAIRVIEW

From Friday's Daily.

From the undertaking department of the firm of Cason, Monk & Co., The Sentinel gets the information that John Robinson, a highly respected old gentleman of the county, died at the home of his brother, J. N. Robinson, in the Fairview community last night, and his remains will be laid to rest in the Fairview cemetery tomorrow morning (Friday) at 11:00 o'clock, Rev. Jno. N. Wilson, a life-long friend, conducting the service.

Mr. Robinson was never married, and therefore had no immediate family of his own. He was about sixty years of age, and has always been esteemed as a mighty good man and a good citizen.

MARRIED AT ALTO

From Monday's Daily.

Mr. Swab Myers and Miss Susie Massey of this city attended the marriage of Mr. Myers' brother, Fieldon Myers, to Miss Pinkie Arrant at Alto yesterday.

The marriage occurred at the home of the bride's parents at Alto at 4:30 in the afternoon, and was witnessed by a number of relatives and intimate friends.

The Sentinel is informed that the bride belongs to one of the good families of the Alto country, and is a beautiful, accomplished young lady, loved and admired by a large circle of friends. Mr. Myers belongs to the well known family of this county, and is a worthy young man who will make a good husband for the fair bride he has won.

Mr. and Mrs. Myers will make their home with the gentleman's father this year, where they will be attended by the good wishes of their friends.

FOR MALARIA-CHILLS & FEVER

SAFEST - PUREST - BEST

FOR SALE

We are now offering practically all of our old houses for sale. Have them ranging in price from fifteen dollars up. These houses can be torn down, moved and reproduced at a very little extra cost for lumber.

We also have three large lumber sheds that would make excellent barns, about fifty thousand feet of lumber in each shed, also a lot of old dolly way lumber that we will sell cheap.

3 second-hand Lindsey eight wheel log wagons, for mules.

2 second-hand Lindsey eight wheel log wagons for oxen.

Quote a lot of 1 1/4, 1 1/2 and 2" second hand pipe in fine condition.

All of above now located at Caro, Texas and can be seen and priced any day.

Saner-Whiteman Lumber Co.

RELIEF VESSEL CARGO IS SUNK

WASHINGTON, April 22.—The department of state issued the following statement this afternoon:

"The department of state is advised that the Norwegian steamer Tangel, formerly the Artisan, of the American Hawaiian Company, bound from New Port News for Rotterdam with a cargo of 8000 tons of wheat for Belgian relief, was torpedoed or mined at 10 o'clock on the night of April 20, 18 miles west of Ymuiden. The crew drifted in boats until rescued at 3 o'clock in the morning by a Dutch pilot boat. They were brought to Ymuiden. There were 18 Americans in the crew and all are safe. The water was cold and the sea rough. The second mate is missing."

The second mate is not an American.

The Tangel's capacity was 5346 gross tons. She was built at Sparrows Point in 1916.

BOYS AND GIRLS FOR FOOD PRODUCTION

WASHINGTON, April 22.—Five million boys and girls in public schools of the United States will be mobilized to increase food production in a campaign launched last night by Dr. P. P. Claxton, head of the federal bureau of education. Doctor Claxton sent strong appeals to school boards in every district of the country for the immediate organization of pupils between the ages of 9 and 15 into corps of gardeners to till school yards, back yards and other vacant tracts that are tillable.

BURGLARY AT ALAZAN.

The sheriff's office received a telephone call this morning to send an officer to Alazan where, it is reported, that a burglar entered the store of Joe Rogers yesterday and among other things took ten dollars in change that had been left in the store.

Deputy Jackson Carnley went out to investigate the matter.

Prof. Joe Day of Woden has been among the visiting teachers to the city today.

ALTON THOMASON WINS DECLAMATION HONORS

Master Alton Thomason, son of Hon. and Mrs. W. E. Thomason of this city, won the highest honors in junior declamation in the interscholastic meet at Timpson Saturday, by which he recovers the loving cup from Center, and gets the trip to the state meet at Austin.

In the tryout during the day the entire were reduced to Carroll Hays of Rusk, Alton Thomason of Nacogdoches, and Lawrence Bridges of San

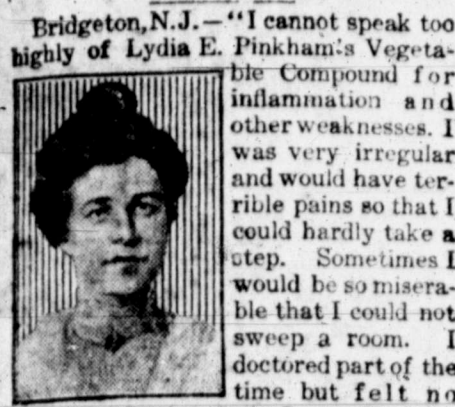

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

NOTICE TO SICK WOMEN

Positive Proof That Lydia E. Pinkham's Vegetable Compound Relieves Suffering.

Bridgeton, N. J.—“I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound for inflammation and other weaknesses. I was very irregular and would have terrible pains so that I could hardly take a step. Sometimes I would be so miserable that I could not sweep a room. I doctored part of the time but felt no change. I later took Lydia E. Pinkham's Vegetable Compound and soon felt a change for the better. I took it until I was in good healthy condition. I recommend the Pinkham remedies to all women as I have used them with such good results.”—Mrs. MILDRED T. CUMMINGS, 322 Harmony St., Penn's Grove, N. J.

Such testimony should be accepted by all women as convincing evidence of the excellence of Lydia E. Pinkham's Vegetable Compound as a remedy for the distressing ills of women such as displacements, inflammation, ulceration, backache, painful periods, nervousness and kindred ailments.

WILL HAVE ‘CORN PONE’ ON BILL OF FARE NOW

When Mr. K. P. Branch left for San Antonio a few days ago Mr. Bill Clevenger, a well known miller and grinder of this city, sent Mr. E. C. Branch a sack of home-ground meal by him, and has received the following letter of appreciation from the San Antonio gentleman in acknowledgment:

San Antonio, April 17, 1917.
Mr. W. J. Clevenger,
Nacogdoches, Texas.
Dear Bill:

That home-ground meal got here all right. It carries me back to my boyhood piney-woods days. With flour at \$3.20 per sack, it's one biscuit a meal during the week and two on Sundays. A good fill of ‘corn pone’ is mighty strengthening, as well as filling. I got out my camp oven first thing, and on a little place I have in the backyard for fire made me an old-fashioned corn pone, one of the kind with the finger prints on top. You see I keep a little place out in the back yard for cooking a few special articles which I like, such as cabbage, and which city folks won't allow cooked in the kitchen on account of the odor which gets in the house. I have lived nearly all my life where we cooked cabbage in the house, but you know these city dwellers have changed the rule, and cook the cabbage out doors.

The only trouble I had in eating the corn pone was the thoughts of how much better it would be if I had to go with it a good fat squirrel, and a few white perch. But just wait until I get over there again. Have just finished having about \$200 worth of new teeth put in so when I again get a chance at fish and squirrel can mash them right, and bones will be no object.

Am glad to learn you farmer fellows are prospering. Everything will be high for several years and if the farmers will plant every fence corner they will plant every fence corner in something to eat they will get so rich they won't know what to do with. Every man, woman and child ought to lay to it sixteen hours a day while the going is good and pile it up. Then I know I will be safe for I just know I have friends enough over there that will come across with enough when I pass the hat to keep my ribs covered.

Give my regards to all the boys.
Yours truly,
E. C. BRANCH.

Mr. C. F. Lee, senior member of the firm of the Lee Variety Store, has returned from a business visit to Chicago.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you!
It's horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

LEGISLATURE ORGANIZED AND DOWN TO BUSINESS

AUSTIN, Texas, April 18.—Both branches of the Thirty-Fifth Legislature met promptly at 10 o'clock this morning for the special session, in accordance with the proclamation of the governor. Lieutenant Governor Hobby presided in the senate, and the house was called to order by Speaker Fuller.

There were quorums present in both branches. Those absent in the senate were Alderdice, Bailey, Floyd, Henderson, Robbins and Smith, while there were 40 absentees in the house. The governor's proclamation calling the special session was read in the senate.

In the senate the officers of the regular session were retained for the special session.

Senator Strickland placed Senator W. D. Suiter in nomination for president pro tem of the special session and he was elected, receiving 21 votes, while one vote was cast for Senator Gibson. In accepting the position, Senator Suiter responded briefly thanking the senate for the honor.

When the house convened, Speaker Fuller suggested that the entire republic had reached a crisis and it was the duty of every man to heed well the work before him and to act with prudence, toleration and to follow out the dictates of his conscience and do what was right in the sight of man and the sight of God. The house proceeded quickly to organization, the officers of the regular session being retained for the special session.

Proceeding with its organization, the senate adopted a resolution sent up by Senator Caldwell providing that all former employees of the senate be retained for the special session. Senator King voted ‘no’ on the adoption of the report. Senators Clark, Dayton and Page were appointed a committee to notify the governor that the senate was ready for business, and a similar committee composed of Senators Johnston, Lattimore and McNealus was named to notify the house.

Senator Hudspeth introduced two bills, one appropriating \$60,000 for mileage and per diem of members for the special session and the other carrying \$16,000 for contingent expenses. These two bills were passed finally under suspension of the rules.

Resolutions were adopted providing for an allowance of five newspapers for each senator, for the renting of the necessary typewriters, also that each member be allowed \$125 or telegraph and telephone tolls during the session, also for printing 1000 copies of the journal daily.

A message was received from the governor recommending that the legislature correct the error which crept into the rural school law. This law calls for an appropriation of \$1,000,000 a year for the next two fiscal years, and as the bill finally reached the governor, it only appropriates ‘\$1000’ or the first fiscal year. The senate adjourned until 10 o'clock tomorrow morning.

With 40 absentees on the first roll call the house today convened to consider the two matters submitted by Governor Ferguson—the general appropriation bills and textbook legislation. Organization was perfected by cutting down the number of employees of the house and likewise by reducing the allowances to each member for stamps, telephone calls, permitting only three daily newspapers and providing for printing of only 1000 copies of the journal daily instead of 1500 copies as heretofore.

The bills appropriating \$1,182,948 the first year and \$1,207,113 the second year for the judiciary; for the first year \$2,682,617 and for the second year \$2,159,942 for the eleemosynary institutions; \$65,000 or mileage and per diem, and \$20,000 for contingent expenses, were introduced and referred to committees.

In a special message Governor Ferguson urged the passage of a bill appropriating \$999,000 each for the rural schools of the state. In the regular session the bill was incorrectly enrolled to carry \$1000 instead of \$1,000,000.

Speaker Fuller stated in his opinion that no measures or resolutions should be considered or questions arranged in debate which were of national scope and which affected the national administration.

CONDITIONS REQUIRED FOR STATE NORMAL

AUSTIN, Texas, April 21.—Cities in Texas desiring to make offers for the location of one of the two new state normals that are to be established in Texas. The Stephen F. Austin Normal School and the South Texas Normal School will have to set forth in detail considerable data in order to stand a chance of winning in the race. The locating committee desires that the following questions be answered in applications:

The population by 1910 census; estimated present population; hotel fa-

accommodations and boarding house accommodations, churches and denominations, railroad facilities, official death rate for past 10 years, average mean temperature, statistics of business houses, banks, etc., amusement and recreation features, map of city, showing location of tracts offered for school and the probable value. The board desires, also, the tender of not less than 150 acres, 50 of which for buildings to be suitably located, and not less than 100 acres for experimental purposes, sewerage extensions to school, water extension to school and what rate for a term of years; if gas is available, and what price per cubic foot for a term of years; electric light and power facilities and rate; statement of scholastic population of city, and if city can guarantee from out of its school 100 pupils from first to eighth grade for instruction in normal training schools.

A bond should be submitted for twice the value of land offered for school and signed by 10 citizens of high financial standing, that the land offered will be conveyed with a clear title, in case the city tendering the land is accepted.

Applications should be addressed to A. G. Goeth, president, the locating board, new state normal schools, Austin, Texas.

DR. GEORGE W. TRUETT COMING

The Revival meetings to be held by the congregation of the First Baptist church, at the Locke cotton sheds will begin with the Monday evening service, of April 30th, at 8:00 o'clock.

The meetings will continue for 16 days, with two services daily, morning 10:00 o'clock; evening 8:00 o'clock. All evangelistic congregations of the city are invited to attend and cooperate with us in the meetings.

The music will be congregational altogether. As large a chorus choir as we may be able to secure in the city will lead the congregational music. All singers are invited to assist.

Pastor C. A. Westbrook will have charge of the music and requests cooperation from all choirs and musicians of the city.

No citizen of Nacogdoches and vicinity can afford to miss hearing Dr. Truett, as he is one of the world's greatest preachers.

On Sunday afternoon, May 6th, there will be a mass meeting for the benefit of the membership of our country churches. The middle section of seats will be reserved for our guests on that occasion. 2td-1w

GET HALF DAY OFF TO WORK GARDENS

The following dispatch carries with it an idea that might be appropriated in this and other sections of the country while the high cost of living is presenting such a perplexing problem:

BRENNAM, Texas, April 20.—The Brenham Compress, Oil and Manufacturing Company has set a new precedent in gardening by allowing its employees one-half day each week to be devoted to working their gardens. There are over 50 men employed at this time of the year, and during their absence they receive full pay, provided the time is spent in their gardens. J. C. Kennedy, at the head of the electric light department, has a splendid garden which he cultivates himself at night, the plowing and hoeing being done by an electric light.

THE COLORED CITIZENS HAD PATRIOTIC MEETING

A patriotic meeting was held by the colored citizens of Nacogdoches at the C. M. E. Church Friday night, April 20th, with an appreciative audience present.

After singing two National hymns, ‘America’ and ‘The Star Spangled Banner,’ prayer was offered by Rev. E. S. Pendleton in behalf of the citizenship of this city and the nation.

E. J. Campbell, acting master ceremonies, outlined the purpose of meeting in well chosen words put every one present to think what part should I take in the crisis.

Among the speakers were Rev. Dickerson, Chas. Blakey, J. W. Porter, W. M. Bonaparte, Revs. H. Hall and E. S. Pendleton, H. C. Carpenter and M. W. Harris.

We were glad to have present four of our white friends, among whom were Mr. Minter and Prof. R. F. Davis. These gentlemen consented to speak. We feel glad when we meet the approval of our white friends. This was evidenced by Mr. Minter and Prof. Davis. Each of them gave reasonable advice as to the part every citizen, white or colored, should take in the war crisis.

Secret German agents are trying to influence the negroes in some sections of Texas to line up with Germany, making promises to them that Germany never will be able to fill in this world or in the world to come. Should such agents attempt to intimidate us, we shall help to see that they are put to the ‘bad.’

At the conclusion of the meeting resolutions were offered:

Whereas, the United States has declared war against Germany, forced to do so by direct violations of international laws upon Germany's part, and

Resolved, (1) That we, the negroes of Nacogdoches in meeting assembled, pledge our loyalty to President Wilson in the defense of the United States.

Resolved, (2) That we shall teach, among our folks, the idea of practicing economy and industry, and produce more for home consumption.

Resolved, (3) That the leaders among our people of this city use efforts to influence the unthoughtful colored men to become loyal, patriotic citizens.

The above resolutions were unanimously adopted.

E. J. CAMPBELL, Chairman.
M. W. HARRIS, Reporter.

OPPOSE THE PRICE FIXING FEATURE

WASHINGTON, April 22.—Opposition to recommendations by Secretary of Agriculture Houston transmitted to the senate Friday that in this emergency the government should have power to fix maximum and minimum prices came yesterday in a telegram from Henry N. Pope of Fort Worth, president of the Farmers' Union of Texas. Pope wired congressman Wilson:

“Any attempt to fix a maximum price on the farmers' product will meet with determined opposition. If you want to fix prices get hold of the professional grafter, who has been robbing the people for the last 40 years. If congress pursues the present course there will be a crisis in this country that nobody will want to accept responsibility for.”

Wilson made no comment on Pope's warning, although he is not inclined to view it with alarm.

TWO HOSPITAL SHIPS HAVE BEEN SUNK

LONDON, April 22.—The British hospital ships, Donegal and Lanfranc, with many wounded aboard, have been torpedoed without warning. They were sunk on April 17.

Of those on the Donegal, 29 wounded men and 12 of the crew are missing. The Lanfranc carried German wounded as well as those of Great Britain. Of the missing, 15 Germans are believed to have perished.

The chancellor of the exchequer, Andrew Bonar Law, announced on April 19, in the house of commons, there recently had been further losses of British hospital ships which soon would be published. Today the secretary of the admiralty issued this statement:

“On the evening of April 17, the steamships Donegal and Lanfranc, while transporting wounded to British ports, were torpedoed without warning. The Donegal carried slightly wounded cases—all British. Of these 29 men, as well as 12 of the crew are missing, and are presumed to have been drowned. The Lanfranc, in addition to 234 wounded British officers and men carried 167 wounded German prisoners, a medical personnel of 52 and a crew of 122.”

“Um-m-m! That IS Coffee”

The Luzianne Guarantee: If, after using the contents of a can, you are not satisfied in every respect, your grocer will refund your money.

It's got the smell and the smack that make you say, “Set 'em up again.” For it's always fair weather when good folks get together over a cup of steaming, staving-good Luzianne. You don't buy a pig in a poke when you buy Luzianne Coffee. No, Ma'am. It clearly states that if it doesn't meet your idea of a better coffee, you're entitled to your money back and get it. Buy a can of Luzianne and re-adjust your ideas of what good coffee must be. Ask for profit-sharing catalog.

LUZIANNE coffee

ATTENTION GINNERS.

The time is at hand when you must make your bond for ginning season of 1917, and wish to say I am representing the American Surety Company of New York, a \$5,000,000.00 concern, and would be glad to write you your bond, and if interested phone, write or call me for rates. Would be glad to go over the matter with you at your convenience, whether you want bond now or hereafter.

It has long been the custom to ask your friends to sign your bond, but why ask them when you can secure a bond so cheap? The time is at hand when your friends who sign your bond are weakened in the business world, and then the Surety business is promoted for this line of business, and why not use it? Your friends can't deny you, but 99 out of 100 had rather not sign any bond, so avoid this and let me make your bond for 1917, you'll gain more I expect.

S. M. ADAMS, Agent,
The American Surety Company,
19-2t.

ESTABLISHES BUREAU RURAL SCHOOL WORK

The Texas State Board of Health has established a new Department—a Bureau of Rural Sanitation, whose activities will be devoted entirely to directing, supervising and assisting in conducting the rural health work made possible by the legislature's recent appropriation of \$70,000.00, which is to be supplemented by a like sum from the Rockefeller Foundation through the International Health Board Dr. P. W. Covington, Professor of Preventive Medicine in the Medical Department of the University of Texas, a physician of long experience in rural health work, has been mutually selected by the agencies concerned as head of this department.

In a recent letter from the State Health Department to the commissioners of our county it is stated that, upon invitation, Dr. Covington will be glad to appear before our Board and personally explain how they may share in the State's appropriation.

The State and the International Health Board propose to spend from three to six thousand dollars in conducting intensive health work in the rural districts of any county agreeing to employ four local assistants at the rate of \$50.00 per month each for a period of not less than four months. These lay assistants to work with a staff of trained sanitarians who will, in the event the proposition is accepted by our County Commissioners, conduct the work.

The Shreveport Times suggests that “where there's treason, find the reason.” At this season we can find no reason for treason, and to presume there is, is reasonable reason.

TEN MORE of THEM

These are ten more great artists photographed as they were singing or playing in direct comparison with Edison's Re-Creation of art by means of his greatest invention.

The NEW EDISON

This is the wonderful new musical instrument of which the New York Tribune said, "Edison snatches the Soul of Music." It is a positive fact, which has been proved in public before more than 300,000 music lovers, that an artist's voice or instrumental performance cannot be told from the New Edison's Re-Creation of it.

COME TO OUR STORE and let us prove to you that the New Edison is capable of doing what no other sound-reproducing device can do. When you listen to an ordinary talking machine, you don't expect to hear a true reproduction. You make allowances for the fact that you are listening to a talking machine record. It is not necessary to make any such allowance when you listen to the New Edison as this new invention gives you literally the Re-Creation of the original music. Nothing is subtracted. Nothing is added.

ANNE VEILLET
Soprano, Paris Grand Opera

NOTICE—Please don't ask us to sell you Edison Re-Creations if you intend to attempt to play them of any other instrument than the New Edison. No other instrument can bring out the true musical quality of Edison Re-Creations. Furthermore, injury to the records is likely to result if you attempt to play them on an ordinary phonograph or talking machine.

HARDY WILLIAMSON
Tenor, late of Century Opera Co.

Hon. L. D. Smith is in the city today shaking hands with friends and looking after some business interests.

Mr. N. H. Jarret and Dock Fountain and family of Garrison were visitors to the city today, coming down in Mr. Jarrett's car.

Messrs. W. B. McKnight and Blain Mast went to Tyler yesterday afternoon where they have been summoned to do jury service for the Federal court.

Mrs. Taylor Mast of Chireno is visiting relatives and friends in the city, a guest at the home of Mr. and Mrs. C. A. Alford.

Mr. J. N. Miller received a card from relatives in Indianapolis yesterday stating that a hard freeze had visited that section Thursday, in which the ground was frozen hard.

Mrs. M. E. Bryan, a pioneer of Center who has been making her home with her children at different places for several years, was in the city yesterday afternoon en route to Center from Port Arthur, and was the guest of friends here while waiting for her train.

If a woman falls in love, that's her business; if a man falls in love, that's his business. List you farm with me and I'll sell it—that's my business. See Lovett, the land man (ws-1f)

The Country Home Can Now Have Electric Lights!

Electric lights equal to those in the city can now be had in the rural home by the Delco System, a simple and inexpensive method, with no complicated parts to get out of order. It will operate the sewing machine, churn, cream separator, run a fan as well as furnish light. See the Deleo agent for a demonstration, for full particulars, prices, terms, etc. The following territory: Nacogdoches, Shelby, Sabine, San Augustine, Jasper and Newton Counties. All inquiries will be answered promptly.

J. R. DICKERSON, SALE AGENTS
San Augustine, Texas.

THE PRESBYTERY MEETING WAS CLOSED YESTERDAY.

The Presbytery of Eastern Texas closed its session yesterday (Thursday) afternoon about 5:00 o'clock. Many of the representatives, however, left on the afternoon T. & N. O. train; the remainder spent the night. Many of them expressed themselves as delighted with the beautiful and enterprising city of Nacogdoches.

The reports of the past year's work of the body indicate growth and progressiveness, and the plans for future provide for larger developments. The pastoral relations between the First Presbyterian church and Rev. J. N. Cunningham were continued for the present as now existing.

The following resolution of thanks was adopted:

Resolved, (1) that the thanks of the Presbytery are due, and are hereby expressed; to the pastor and the congregation of the First Presbyterian church, and its friends, and the Honorable Mayor, for their hearty welcome and royal entertainment during our stay; particularly to the ladies for the delectable luncheons served at the noon hour.

(2) That we express our appreciation to our Moderator, Rev. Geo. C. Moore, for his courtesy, and for the faithful and efficient services of temporary clerk, Rev. T. H. Pollard.

(3) That a copy of these resolutions be given to the city press for publication.

The Presbytery adjourned to meet with the church at Kennard, Texas, in September.

Right Now!

We have seven good milk cows, better than the average. Few with baby calves and others to be fresh in next few days.

Terms: Cash or trade

BLACKBURN & MAST

We buy cattle too—Best prices

Farms for Sale.

290 acres at \$28.50 per acre, 124 acres at \$15.00 per acre, 139 acres at \$18.00 per acre, 100 acres at \$18.00 per acre, 84 acres cut-over land at \$8.00 per acre. This is the Jim Haltom farm property and is one of the best farm propositions in Nacogdoches county. If the whole 737 acres are bought by one man he will have an income for life without worry. All of this property is improved except the 84 acres of cut-over land, and is situated in the red land belt of this county, with the best roads of the county to travel over. The property lies between the upper Melrose and Martinsville roads about 6 1/2 miles east of Nacogdoches. Who will take this bargain? See Giles M. Haltom, at The Sentinel office.

J. P. Barr, a well known citizen of Appleby, was a visitor to the city Tuesday afternoon.

Nervous fluttering or palpitation of the heart does not indicate heart disease, generally it means disorder of the stomach and digestion. Prickly Ash Bitters is an efficient remedy in such cases, strengthens and regulates the stomach, liver and bowels, removes the cause of the heart symptoms and builds up a strong and vigorous body. Stripling, Haselwood & Co., Special Agents.

A RED CROSS BRANCH IS BEING ORGANIZED

A large crowd of ladies and gentlemen met at the rectory of the Episcopal minister last evening and took the preliminary steps to the organization of a branch of the Red Cross in this city.

C. Harris was elected secretary, with Mr. W. Lee as secretary.

It was well stated that the proper course would be followed by writing to the division superintendent for information necessary to organization of a local branch or auxiliary of the American Red Cross.

A motion was made that a committee be formed to study literature received from headquarters, define territory to be covered, name for the organization, the nomination of officers, etc. The motion carried, followed with the adoption of another motion that the chairman name a committee of five. The following well known people were named for this committee: Rev. C. D. Atwell, W. W. Lee, Rev. M. C. Johnson, Mrs. Tom Baker, Mrs. Hal Tucker.

A motion prevailed that Mr. Harris be retained as chairman and Mr. Lee as secretary, until organization was completed, after which a motion to adjourn prevailed.

Those present were Rev. C. A. Westbrook, J. Thos. Hall, Mr. and Mrs. Roland Jones, Mrs. Balfour Patterson, Mrs. Frank Sharp, W. W. Lee, June C. Harris, Mrs. Ben Tucker, Misses Atwell, Mrs. Huston, Miss Huston, Mrs. W. S. Davis, Miss Louise Baker, Miss Tucker, Mrs. Oscar Matthews.

Nature Cures. The Doctor Takes the Fee.

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucous and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition.

Mrs. Emma Eldridge and baby of Pineland, and Miss Bernice Brantley of Chireno spent last night in the city. Mrs. Eldridge is a granddaughter of Uncle Cal Fall and her baby is therefore a great grand child, extending the good family down to the fourth generation.

Judge Vale Fall, the chief justice and one of the prominent citizens of Chireno, was a visitor to the city today.

S. MINTZ

Stop Left Over Coughs.

Dr. Bell's Pine-Tar-Honey will stop that hacking cough that lingers from January. The soothing pine balsams loosen the phlegm, heals the irritated membrane, the glycerine relieves the tender tissues, you breathe easier and coughing ceases. Don't neglect a lingering cough, it is dangerous. Dr. Bell's Pine-Tar-Honey is antiseptic and pleasant to take, benefits young and old, get it at your druggist today. Formula on the bottle, 25c. dw

Bad Cough? Feverish? Grippy?

You need Dr. King's New Discovery to stop that cold, the soothing balsam ingredients heal the irritated membranes, soothe the sore throat, the antiseptic qualities kill the germ, and your cold is quickly relieved. Dr. King's New Discovery has for 48 years been the standard remedy for coughs and colds in thousands of homes. Get a bottle today and have it handy in your medicine chest for coughs, colds, croup, grippe and all bronchial affections. At your druggist, 50c. dw

Sheriff Prince received a message from the sheriff of Harris county this morning advising that C. A. Cunningham was being held for him, and Deputy Swab Myers will go after the prisoner today. It will be remembered that Mr. Cunningham was tried in the district court of this county, at its last term, on a charge of forgery. From here he was carried to Harris county for trial on a similar charge, and will be returned here for trial on three more cases. The indictments grew out of some checks alleged to have been drawn on the Knox Lumber Co., of Sabine county. The defendant does not deny the execution of the checks, claiming that he was in the employ of the company.

Sprains and Strains Relieved.

Sloan's Liniment quickly takes the pain out of strains, sprains, bruises and all muscle soreness. A clean, clear liquid easily applied, it quickly penetrates without rubbing. Sloan's liniment does not stain the skin or clog the pores like mussy plasters or ointments. For chronic rheumatic pains, neuralgia, gout and lumbago, have this well-known remedy handy. For the pains of grippe and following strenuous work, it gives quick relief. At all druggists, 25c.

Constipation and Indigestion.

These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest well at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person. dw

R. S. Robinson, a worthy young man of this county who is now making his home in Houston where he is holding the position of street car conductor, has been in the community a day or two, coming up to attend the funeral of his uncle.

Rheumatic Pains Relieved.

"I have used Chamberlain's Liniment for pains in the chest and lameness of the shoulders due to rheumatism, and am pleased to say that it has never failed to give me prompt relief," writes Mrs. S. N. Finch, Batavia, N. Y. dw

Some Good Advice.

"Don't think too much of your own methods. Watch other people's ways and learn from them." This is good advice, especially constipated. You will find many people who use Chamberlain's Tablets for these ailments with the best results, and will do well to follow their example. dw

Judge the Dort on performance, sturdiness of construction, excellence of design, comfort, economy, looks—Judge it on every conceivable point.

Put it to your most critical tests and comparisons. Ask anything of it that you would expect of a car selling for half against the Dort price.

Then you will know that Dort quality is more than skin-deep—that the 'innards' of the car are as strong and vigorous as the outward appearance indicates.

You will buy the Dort for what it really is. Honesty in every detail of design and construction has earned the Dort a reputation for unflinching dependability—a reputation not surpassed by any other car, regardless of price.

"THE QUALITY GOES CLEAR THROUGH"

BONITA GARAGE, Nacogdoches
