### COMING AGAIN.

No doubt our many friends, patrons and the general public will be glad to learn that Dr. Shelfer, who comes to my drug store regularly and makes a specialty of refraction, fitting spectacles and eye glasses will be with me again Oct. 26th and 27th. Be not deceived by peddlers who claim to be "eye spec-

ialist" connected with Dr. Shelfer, as he has no agents at all and does business through responsible druggists only. Remember the dates, come to see us and have your eyes examined before it is too late.

### FOOD CONSERVATION SPEAKERS SELECTED

Arrangement Made for Address at Every School House in County Sunday, 28th.

In furtherance of the campaign of education in the matter of food conservation in the United States, the commission of which Colonel Hoover is head, recommends that an address be delivered at every school house in the United States on Sunday, October 28th.

Carrying out the plan, Mr. Peden, state organizer and his district representatives are making a vigorous effort to supply a speaker for every school house in Texas for this date, and the vim with which they are working gives assurance that they will succeed.

Hon. Chester B. Combs, representative of the district of which Nacogdoches is a part, was in this city last Saturday afternoon, and with the county chairman of the Council of Defense, County Judge Perritte and County Superintendent Layton, a list of speakers was worked out for this county, arranged so that the speaker will address the people at the first named school house at 11:00 a. m., and the second at 3:00 p. m., as follows:

Garrison and Appleby—Bee-man Strong of Nacogdoches.  
Chireno and Melrose—Judge

The speakers will receive official notice of their appointment, but this advance information is given that the communities may have the additional time to arrange for them, and that the speakers may be on their guard so that they will make no arrangement that will conflict with these plans.

With one or two exceptions,

the appointments are so arranged that the speaker can fill two on the same day. He will speak at the first school house opposite his name at 11:00 o'clock, and the second at 3:00 in the afternoon, unless it should be more practical to reverse them.

This will be the most important matter before the American people at the time these addresses are delivered, and people are urged to respond with a good attendance at the churches are also asked to cooperate with the work, and appointment conflicts with their services, the two can be profitably combined by all.

## TOBACCO IN TEXAS.

The September 1 crop report of the United States department of agriculture shows that Texas is producing this year in the neighborhood of 128,000 pounds of tobacco. At present prices that crop must be worth about \$35,000 and it likely represents no inconsiderable part of the income of the new farmers engaged in tobacco growing in Texas.

Only a few years ago Texas grown and manufactured cigars were offered for sale by at least one factory. That enterprise suffered a natural death through lack of raw product from which to produce what was really a fine cigar. But Texas farmers could not at that time be interested in the growing of the best grades of tobacco—and good cigars could not be produced from the bulk of the Texas crop.

Louisiana, with temperature and moisture conditions very similar to a large part of this State, produces twice the tobacco and has a monopoly of one most important and high priced variety. There is no reason why Texas should not double or treble present production with profit to farmers who are willing and able to devote the intelligent attention to the crop which is necessary to secure a high priced tobacco.—Houston Post.

In the above the esteemed contemporary unconsciously does a worthy Nacogdoches enterprise, and a good tobacco farm of this county, an injustice.

With Mr. Marian King in charge, the big tobacco farm of Redfield, in this county, is still in operation, and grows and cures a nice crop of the weed each year, which is shipped to Forsig & Co., at Chicago. This enterprise has a large curing plant, warehouse, etc., and does a flourishing business.

In this city we still have a cigar factory, operated by Mr. H. F. Wilson, which supplies a large part of the trade in East Texas, some choice brands of cigars, and his business is growing each year.

The Post is doubtless confused with a former cigar factory which failed in this city for some reason not necessary to review, with the present enterprise which have one of our most flourishing little industries. Mr. King operates on his own capital in his own way, and prefers gradual growth to the management of a larger enterprise which would not be his own.

## TELEPHONE CONSERVATION.

An unusual condition is made apparent by the advertisements of the Southwestern Telegraph and Telephone Company calling subscribers to practice conservation in the use of the telephone. The public is advised that congestion exists in certain telephone centers and that the protection of necessary service demands the elimination of all that is unnecessary in the way of telephone talk.

"For a long time it was practically impossible to secure telephone equipment," explains Manager Thacker. "Some of the raw material used in its manufacture was appropriated in bulk to the uses of war. Now orders are accepted, but they are subject to a very long delay in delivery."

"Meanwhile, because of such great military activity in Texas, the volume of telephone calls greatly increased. This was in the face of the fact that plans for

the extension of the telephone plant to meet no more than the normal increase in the business could not be carried into execution.

"Now we have plain restrictions due to the lack of apparatus. In cities around which training camps are located the condition is said to be felt keenly and it was plain that something must be done.

"Meeting the situation fairly, the telephone company has taken the whole public into its confidence, told the story in paid newspaper space, and called upon all telephone users to work together for the protection of necessary service."

Every good housewife should "Hooverize" the domestic affairs of her home at once as her part in defense of the country. The supply of foodstuff must be conserved with that degree of intelligence that will make it care for the people at home and feed the army as well.

A dispatch from Austin announces that Governor Hobby has signed the laws which repeal the West Texas A. & M. College, and the Northeast Texas Junior A. & M. College, but no mention is made of the Normal schools, of which this city would be entitled to one. For one time let us hope that he will continue to be silent and forget about it.

The Sentinel is in receipt of a letter from one of the soldier boys giving further instructions about addressing mail to them, in which he says: "There has been some trouble in keeping the mail straight for the boys of the Nacogdoches company, and several of the boys have lost letters on account of them being addressed to the Fourth Company. We would appreciate it very much if you advise the 'folks at home' through your paper that all mail for us should be addressed to 7th company, Galveston Texas."

The high price of cotton this fall is bringing great prosperity to the country in the way of ready cash, but there is a possibility that it will be the cause of a feedstuff famine next year in which people will suffer for the realities of life. There is a fascination about raising cotton with many farmers—particularly when they received a fancy price for it. For this condition they can not be blamed, for cotton has long been the crop upon which they realize their money, but the time is rapidly approaching when there will be something more valuable than money. Proof of this fact is the reduced purchasing power of the dollar that is already in existence.

The state legislature and the governor have not lived up to their contract with Nacogdoches—and it is a mighty bad precedent. If we should fail to live up to our contract with the state in any essential requirement, the attorney general would be on us like a hen on a june bug. It is a poor rule that will not work both ways.—Nacogdoches Sentinel

Everyone sympathizes with the Nacogdoches people in the loss of their school, at least for the present, after working so faithfully to win it. Yet we do not believe that even the Sentinel could deny that it was a matter of good policy to postpone the building of the Stephen F. Austin Normal for a couple of years. The people of Nacogdoches should feel happy that in its policy of retrenchment the legislature did not abolish the school altogether.—Athens Review.

## ACQUIRE A HOME.

A little address on the subject by Governor Jas. Stephen S. Hogg, of sacred memory, could find no better application than is offered here in Nacogdoches county at this time while the people have plenty of money:

"For many years my advice has been, is yet, and will continue to be, that every man in this state, either in the country or city, should acquire a home

"Aside from the advantage of investment, it is nature's obligation, a man's solemn duty, the implied promise he makes when he takes unto himself a wife, to get a home in which he and his family can live as citizens of the government. Nine out of ten promise their wives before marriage that they shall have a home. This is often the leading inducement for women to accept a man's hand in marriage.

"Any healthy, industrious man in this state can produce and pay for a home in either the country or the city easily enough. When a man fails to buy a home he stands in his own light; he inflicts a cruel wound upon his family; brings on himself severe burdens of distress, loses the opportunity of better citizenship and fails to educate and refine his children.

"In times of sickness when rents come due and can not be paid, he may not find neighborly indulgence and sympathy, but instead thereof the cold hand of a heartless and avaricious landlord. At this moment of his darkest gloom, threats of dispossession and snarls of bill collectors take the place of neighborly visits and the night songs of cheerful friends. These suggestions must unfold to the mind on the one hand the many pictures of horror and distress that must hover over the unsettled tenant; and on the other hand they should furnish the pictures of contentment, happiness and prosperity that light up every well-regulated home.

"Home, the center of civilization! Home, the pivot of constitutional government. Home, the ark of safety to happiness, virtue and Christianity. Home, the haven of rest in old age, where the higher elements of better manhood can be taught rising generations by the splendid examples of settled citizenship. Every man should own his home."

"Home, the center of civilization! Home, the pivot of constitutional government. Home, the ark of safety to happiness, virtue and Christianity. Home, the haven of rest in old age, where the higher elements of better manhood can be taught rising generations by the splendid examples of settled citizenship. Every man should own his home."

## SUGGESTION DECLINED.

A Nacogdoches reader writes in to suggest that the drouth-stricken travelers who are said to be headed east from west be sent to Austin and given work upon the proposed investigation board. Of course the Nacogdoches citizen is facetious, and of course State Press is sometimes similarly frivolous. But these refugees who are emerging, dust-laden, from the dry zones are not feeling like indulging in any funny business. These folk are entitled to a hospitable welcome and the not arid sympathy of all of us who have had better luck. Many of them have endured daily dust storms and seen the work of their hands go for naught through two years of gradually decreasing faith, and now they are down to the dregs of their accumulations. Inasmuch as this is a matter that comes under our own observation, and is not tinged with the romantic interest which attaches to charities in "heathen lands," it will be rather difficult to arouse popular interest in or support for any plan whereby real relief can be applied. Many of these sufferers are proud men and women, sturdy sons and daughters, of sturdy ancestors, and even in their extremity they resent the sort of leaky pity which the moist but short-arm-

ed philanthropists sometimes extend.—Dallas News.

Any reader of the esteemed contemporary who will "write in" such "dope" is not a representative citizen of good old Nacogdoches county and East Texas. The people of this section have a tender and abiding sympathy for the people of the drouth stricken sections, and stand ready to help them in any way in their power. And should any from those sections come this way they will find a cordial welcome to citizenship and any help they may need and any help they may need un-

## POWER OF THE PRESS.

Much has been written about the power of the press and it is a well recognized admission that there is no power so potent as that of the press.

But there is one element in the power of the press often overlooked that is really the most potent of all. This might be called the negative feature of the press. We mean by this the silence of the press. The most powerful way to paralyze for instance the political buccaneer is the silence of the press. Ignoring men or measures entirely is the most effectual way of destroying them. Absolute silence upon the part of the whole press of Texas would completely bury in oblivion any man or measure.

Here then is the most potent weapon of the press—complete silence. Barnum was a philosophical showman, when he said he cared little what the newspapers said about him just so they said something.—Athens Review.

## GRAND JURY REPORT

Hon. L. D. Guinn, District Judge, Second Judicial District:

We, the Grand Jury for the September term of District Court, 1917, beg to report that we have labored 17 days during this term of court, ten days at first sitting; two days at special sitting and five days at last sitting. We have returned 56 bills in all, 30 felonies and 26 misdemeanors. We have made diligent examination of all matters of violation of law in Nacogdoches county reported to us, and have returned bills of indictment in every instance where we felt the evidence warranted.

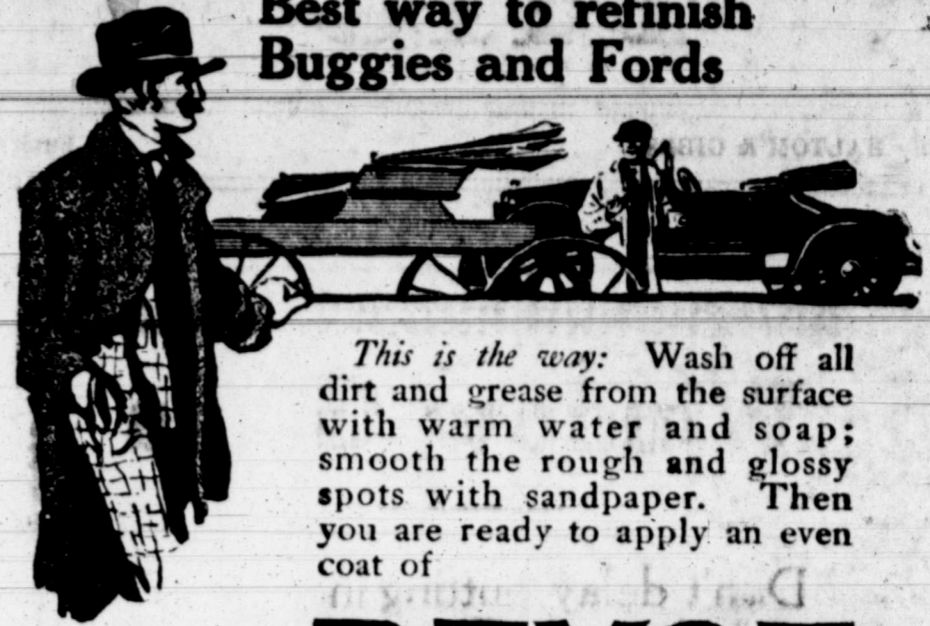

As usual a great many complaints were investigated which in our judgment did not justify action.

There is a great deal of complaint in several sections of the county with reference to theft, but in some of the cases investigated we were unable to get sufficient evidence to warrant bills.

There is also a great deal of complaint with reference to bootlegging from almost every portion of the county, and we suggest that perhaps it would be wise to hold another local option election in the county and thereby make it a felony for conviction of every sale. We believe, however, if our county attorney would vigorously prosecute every complaint along this line, it would materially help; we believe the lack of prosecution during the last three years is very largely responsible for the present condition.

We believe if the voters of our county would select for county officials only the very best material available it would prove a great blessing to the citizens of Nacogdoches county, and also would save the tax payers a great deal of money. Every official should be honest, capable and moral, and above all fearless in the discharge of his official duties.

We would further suggest that the officers whose duty it is to o. k. warrants should go over

## THE LUFKIN GUARD ORDERS RIFLES

Lufkin, Texas, Oct. 11.—The national conservation committee called a meeting in Lufkin Wednesday afternoon, at which time organization and various matters were under discussion. Among the most important matters attended to was the raising of \$1000 for the equipment of the Lufkin "home guards," and 60 rifles were ordered by wire that evening.

An income of \$100 per month was provided to pay the salary of a stenographer for the president of the board, who has seven counties in East Texas under his direction.

Quite a number of Lufkin good roads boosters left at an early hour Thursday to attend a good roads meeting at Jasper, Texas. The road in contemplation at this meeting will go from either Orange or Beaumont to Jasper, thence to Lufkin, Crockett, and the ultimate point is presumed to be Waco.

When Lufkin gets the road from Shreveport, the "Choctaw trail" from the lakes to the gulf, and also the one in contemplation at this meeting, she will indeed be on the "good roads map"

## RABBIT PRODUCTION PROPOSED TO AID

Austin, Texas, Oct. 11.—Rabbit production in Texas promises to become one of the leading industries of the state, as a direct result of the campaign inaugu-

rated some time ago by Commissioner of Agriculture Fred W. Davis. It has been demonstrated that rabbit meat is not only excellent, but that it commands a price in the market that is equal to that paid for chicken.

One of the first to take up this new industry in Texas on a gigantic scale is W. T. Bessonnet of the firm of Bessonnet & Co., of Waco, according to a letter just received from Mr. Bessonnet by E. W. Cole, director of markets of the state department of agriculture. There are millions of rabbits in Texas, and the Waco man proposes to buy them and prepare the meat for market. In fact rabbits are so plentiful in certain portions of the state that a law was passed placing a bounty of 5 cents for every rabbit killed.

"I am preparing to engage in the rabbit business in a very large way this season," writes Mr. Bessonnet in his letter to Mr. Cole, "and will be in a position to buy every rabbit offered during the coming season, and will be in position to pay the highest prices.

"I appreciate your kindness in offering me the names of the farmers who have rabbits for sale, and upon receipt of these names will circularize them with quotations and complete instructions on how to dress and ship, and names the nearest buying station.

"I shall appreciate it if you will give me the names and addresses of representatives of foreign governments who would likely be in the market for frozen rabbits in large lots for export."

## TAKES OFF DANDEUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. # LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadersville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak... I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon sighted with a few

doses of Black-Draught." Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose. All druggists. J. 69

## FROM SHERIFF PRINCE

To The Citizens of Nacogdoches County: As you know, I have been indicted by the Grand Jury for extortion and conspiracy, and if you will withhold judgment against me until the facts are known, I will very greatly appreciate it.

If I am guilty, then practically every other sheriff in Texas is guilty of the same thing, and I stand ready and anxious to pay back to the state every penny in my possession not legally mine.

Now you all know that I received only a very few votes in Nacogdoches in the primaries and because a certain "bunch" of would-be politicians living in the city of Nacogdoches could not dictate to the good people living all over the county who should be their sheriff they have tried in every way imaginable to destroy me politically. Why was my predecessor in office not also indicted? If you will go to the records and not find him also guilty of the same "crime," I will resign my office at once and never ask for another. Investigate and find out how many times our Honorable district attorney has just "happened to be out of the court house when habeas corpus cases were called and the county attorney represented the state at fifteen dollars each. If the district attorney had represented the state as is his duty, it would not have cost the tax payers a cent.

If you will begin at the top and investigate every official in the county, how many do you suppose would escape prosecution? Don't you know you could find something wrong with every one, if you should draw the line on them.

Everybody knows that every justice of the peace and every constable in the county violate the law all of the time when it comes to collecting fines from those who plead guilty?

On the recommendation of prominent citizens I retained the services of Mr. S. S. Myers and turned the matter of book-keeping entirely in his hands. I have not wilfully defrauded the State of Texas out of one penny. At the proper time I will again be a candidate for sheriff for a second term and will invite the voters to examine the record I have made.

At the first sitting of the grand jury in September my political enemies scoured the county in an effort to blacken my good name and utterly failed. I am

Thanking you for the past favors shown me, and assuring you of my very great appreciation, I am,

## NEW CITIZEN.

Dr. A. L. Parish, formerly of Tenaha, who has been in the city several weeks, has decided to locate in Nacogdoches and make this city his home.

Dr. Parish has rented a big farm out near town which he will have cultivated and raise stock. He is a great hustler, and makes everything go with which he is connected. For many years he did an extensive practice in Tenaha, and at the same time carried on an extensive farming, stock raising and trading business. He does not contemplate the practice of medicine in this community on account of a rheumatic trouble which prevents the active travel he formerly employed.

## THE SOLDIER BOYS ARE BUYING BONDS

Mr. A. H. Smith of this city received a telegram from Paul Perkins, who is stationed with the Coast Artillery Company at Galveston, in which he says:

"Sale of Liberty Bonds in our company yesterday four thousand and fifty dollars."

This is a beautiful display of patriotism which should make many of the people "back home" blush with shame. These noble boys have volunteered to do their share of the fighting or perform any other service the country may need, and at the same time are giving of their limited means to finance the war.

In the report of the corn exhibit at the Commercial Bank a few days ago, The Sentinel stated that two hundred ears had been given to farmers for a try-out. This should have been two hundred sacks, containing eight pounds each.

Our Confederate veteran friend, Mr. G. W. Crawford, was a pleasant caller at the office this morning (Saturday). Mr. Crawford has recently returned from a visit to West Texas, and visited the Confederate re-union while gone, which he reports to have been a most interesting and enjoyable meeting.

Dr. R. A. Wilson, Messrs. Elmer Campbell, R. B. Walthall, T. G. Vaught and J. J. Frederick were among the Garrison visitors to the city today.

## FOOD COMMISSIONER HERE SATURDAY

Hon. C. B. Collins of Lufkin, manager District No. 2, Food Administration, was in the city Saturday arranging for a campaign of education in this county.

Mr. Collins works under the direction of the campaign that is being put on by Col. Hoover and his helpers, and is taking hold of the work with a vim and enthusiasm which insures that there will be no lag in his district.

While in the city Mr. Collins went into conference with the county chairman of the Council of Defense, the county judge county superintendent of public instruction and others and worked out a program in accordance with the plan which provides that an address shall be delivered at every school house in the United States on Sunday, Oct. 28th. Speakers are being chosen from the local cit-

izenship who are expected to respond without fail and fill the engagement by speaking at the places to which they are assigned on the dates named. Should any fail it will be necessary to report their names and failure to the department, and no citizen of Nacogdoches can afford this evidence of the "slacker" if it is at all possible for him to serve. To the contrary, men are being selected whom the committee believes will be glad to serve.

A man need not necessarily be a public speaker to respond to this call. It is sufficient to reason with your hearers in a plain, matter of fact way the importance of conserving the food supply, and insist that all line up in the movement.

Pledge cards will be distributed, which every housewife or housekeeper of the county is expected to sign, and if any fail, their names must also be reported. This card imposes no unreasonable restrictions upon any one, and levies no duty further than a pledge that you will not waste anything, and will economize as far as possible in the use of foodstuff, and as an evidence of loyalty to the cause.

Angelina county has already organized for its campaign, but these is plenty of time. As soon as the literature arrives notice will be mailed to the various speakers, and further report of the details of the program will be announced.

In the meantime let the people remember that this service is now clothed with official authority and it offers a benefit to the people instead of any kind of levy or tax, but in the absence of response more rigid measures might be employed in the future.

Hon. Eugene H. Blount has returned from Austin, where he spent some days in the interest of our normal proposition. When asked what he thought about the outlook, Mr. Blount said that he didn't think there was any doubt but what Governor Hobby would sign the bill which would postpone the matter, and since talking the matter over with the governor and investigating the conditions with which he is confronted, he does not blame the governor so much for his course because there is a pressure he could not well overcome. Mr. Blount says, however, in substance, that the governor is very friendly to the enterprise and promises to urge the next legislature to take them up and push the building of all

## END STOMACH TROUBLE. GASES OR DYSPESIA

"Pape's Diapepsin" makes sick, sour, gassy stomachs surely feel fine in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, or you belch gas—and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can get relief in five minutes by neutralizing acidity. Put an end to such stomach distress now by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by food fermentation due to excessive acid in stomach.

# Delightful economy

Oh—that sinking of the heart, when you look in your ice-box and see the tiny dab left from yesterday's pound of butter!

As a matter of fact, you would probably not be using butter for cooking nowadays, if you could get the same delicious results without it.

You can. Yes—without a particle of butter!

Here is the way: Use wholesome, economical Cottolene for your fine cooking, in place of expensive butter.

In purity Cottolene has set the highest possible standard for shortenings.

Try Cottolene in any familiar recipe. Use one-third less than you would use of butter.

You will find that shortenings which seem cheap, when scooped out by the pound, are often more expensive than Cottolene in actual use.

Why?

Because many careful housewives have found that Cottolene—owing to its superior richness—goes much farther than other shortenings which they had been using.

Try Cottolene next time. It is sold by grocers in tins of convenient sizes.

## Recipe for MOLASSES COOKIES

- 1 cup molasses
- 1 level tablespoon ginger
- 1/4 cup Cottolene
- 1/2 level teaspoon soda
- 1/2 cup sugar
- 1/4 cup cold water
- 1/2 level teaspoon salt
- 3 to 4 cups flour

Heat molasses, pour over Cottolene. Add sugar, salt and ginger or a mixture of other spices if preferred. Dissolve soda in cold water and add to first mixture. Stir in flour, making a soft dough to drop from spoon, or a stiff dough to be rolled and cut. Bake in moderate oven.

together, in which event we would secure the school in 1919. Mr. Blount has certainly been faithful and untiring in his work to secure this great institution, and The Sentinel hopes at some convenient time in the very near future to review what he and his associates have done for us. The city owes them a great debt of gratitude if it never gets this school—for it was no fault of theirs that the contract was not let as originally planned.

## TELEPHONE COMPANY SUBSCRIBES FOR BONDS

Manager Thacker states that J. E. Farnsworth, vice-president of the Southwestern Telegraph and Telephone Co., announced today that he was advised the American Telegraph and Telephone Co., and its associated companies forming the "Bell System" of which The Southwestern Telegraph and Telephone Co. is a part, announced that subscriptions in behalf of themselves and their employees in the sum of five million dollars had been made to the second Liberty Loan Bonds, and that this subscription will be allotted to us for effectation of the county, in proportion to the quota assigned by the Treasury Department to the various Federal Reserve Districts.

Under this announcement each district will get credit for its proportionate share of total sum the actual subscription will be made in each territory by the assigned companies operating in such territory.

Mr. J. A. Lilly, a well known farmer of the Appleby country, was in the city today looking after some business-interests.

## TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts your liver without making you sick and can not salivate.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling-off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place. "Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back. Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.

who comes to my drug store regularly and makes a specialty of refraction, fitting spectacles and eye glasses, to be with me again Friday and Saturday, Oct. 26th and 27th. Many people are badly in need of special ground glasses and do not know it. Many are wearing cheap glasses bought from some incompetent, unworthy peddler at extortionate prices, that are ruining their eyes. Many pay so little attention to their eyes they actually go blind before they realize the seriousness of their negligence.

Many good, influential people of Nacogdoches and East Texas are using glasses fitted by Dr. Shelfer for years with best results.

Don't miss this opportunity and put off having your eyes examined or wear your old glasses too long

### NOTICE TO SUBSCRIBERS.

While there is prosperity in the country by reason of fancy prices enjoyed for everything produced, and in the marts of trade for the same reason, The Sentinel hopes to get settlement for every dollar due it this fall.

While all other lines of business have enjoyed increased prosperity, your newspaper has had a struggle for existence by reason of the increased cost of everything entering into the business. Paper, ink and labor cost several times the price formerly paid, yet we have held the paper down to the same price, and we hope every one will show his appreciation of it by making full settlement this fall. We are swapping dollars with you in the subscription department of the paper, and we can't afford to carry over subscription accounts on this basis.

The Sentinel has always occupied a policy of liberality with its subscribers. We believe that every man getting the paper intends to pay for it, and it has always been a pleasure to carry your account over any year you could not pay it, but we can't afford to do it this year, and feel that the present wave of prosperity over the county no subscriber will want us to do so. The wrapper on your paper

shows how much you are due. Read it and call at the office, or if not convenient to call, send us a check or postoffice money order for the amount. By so doing you will save us another big expense in the commission we would have to pay a collector, and which we can not afford for the reason that it would represent a clear loss.

### WHY THAT LAME BACK?

That morning lameness—those sharp pains when bending or lifting, make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will make no mistake by following this Nacogdoches resident's example.

Mrs. J. S. Murphey, E. Hospital St., says: "My back ached and there were pains across my hips. For a long time I was troubled and as Doan's Kidney Pills had given such good results in the family, I finally used them. They gave me great benefit and I heartily recommend them."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Murphey had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

I want to buy about one hundred tons of peanut hay. Will pay the market price. I also have a car of good young mules for sale. Will sell for cash or good note. Barn one door below Reid's Bottling Works. If you don't trade with me we both lose money. E. Fite. 18-37d

### BAPTIST MINISTER ENDORSES TANLAC

"It Not Only Helped Me, But My Little Daughter Derived Great Benefit From It," Says Rev. E. G. Butler.

One of the most noteworthy features in connection with the introduction of Tanlac throughout the South and West has been the large number of ministers of the Gospel who have unhesitatingly and voluntarily given the wonderful medicine their unqualified endorsement.

Rev. E. G. Butler, pastor of the Central Baptist Church and residing at 624 East Side Boulevard, Muskogee, Oklahoma, is one of the latest to come forward and add his testimony to the thousands of others who have been restored to health by its use. Rev. Butler has been pastor of this church for the past three years and is not only held in the highest esteem by the hundreds of his church followers, but is exceedingly prominent as a man and citizen. In describing his troubles and failure to heretofore find relief, Rev. Butler said:

"I suffered from nervousness more or less for the last two years. I could not sleep soundly and for the past year I suffered from severe attacks of acute indigestion. The pains in my stomach, which I was told was gall stone colic, were often very intense and the relief I got was only temporary. I had to diet myself with great care and I couldn't get any restful sleep at night. I not only suffered a great deal of pain but became so weak and run-down that I would tire very quickly in trying to do my work.

"After reading of the work Tanlac was doing I decided to give it a trial and the results I have gotten from four or five bottles have been most satisfactory. I sleep well at night now, eat anything I like and relish every meal. I'm not nervous any more and feel full of life and vigor. Tanlac has not only helped me wonderfully, but my little daughter, Francis, has derived great benefit from it. She has never been strong but has grown much stronger since she has been using Tanlac. She has never been able to attend school more than four months in the year until now, she goes regularly, except to rest a few days just occasionally. Tanlac has proven to be the right thing for us both and I am glad to recommend it as the best medicine I have ever tried."

Commenting on the above statement, E. B. Smith, the Tanlac representative said:

"I distinctly recall a number of other members of this high calling who have publicly

expressed their indebtedness to this medicine and who felt it their duty to tell suffering humanity of the great benefit they had derived from its use. Among them are Rev. F. M. Winburn, 308 North Frio street, San Antonio, Texas, pastor of one of the Methodist church of that city. Rev. R. J. Taylor, pastor of Mt. Pleasant Baptist Church at Franklin, Texas. Rev. A. J. Vallery, 1980 Manilla avenue, Memphis, Tenn. Rev. Jas. H. New, pastor of the Baptist church at Clarkston, Ga. Rev. W. C. Norton, pastor Wesley Memorial Church, Jacksonville, Fla. Rev. John M. Sims, a Baptist minister of Atlanta, Ga. Rev. A. H. Sikes, pastor of the Watkins Park Presbyterian church, Nashville, Tenn. Rev. W. T. Roby, pastor of the West Lonsdale Methodist church at 800 LeRoy street, Knoxville, Tenn. Rev. A. L. Tull, a well known retired Methodist minister who lives at No. 3, Ruid Hills, Atlanta, Ga., and many others.

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith, in Garrison by Weatherly Bros. and in Sacul by Arkan Cranford.

ing the conservation speaker time for a short address before service, holding both at the church. This by way of suggestion for the convenience of the community.

In addition to this campaign, all ministers of the county are urged to at least use a part of their service in speaking on this important matter, remembering that if a famine were to come upon us it would demoralize the country more than any other agency that can be conceived.

Pledge cards will be distributed at either this service or through the schools of the county, and they must be returned in one week so that a complete census of the work can be made in the time allotted.

### FROM MR. SPRADLEY.

Nacogdoches, Texas, Oct. 16, 1917.  
Sentinel:

To keep the record straight, I submit the following as paid advertising matter—not that I am a candidate or have an axe to grind.

I regret that I am forced to write these lines in answer to Sheriff Prince's letter that excuses himself for the charges preferred against him on the grounds that his predecessors were grafters.

I voted for Prince in the last primary on the grounds that his father, one of the best men that ever lived, and a friend of mine from the first time I ran for sheriff to the last vote he ever cast. There are no better people living than his brothers, and I am the last one to help pull down a young man, and I regret that I am forced to offer undisputed record proof of his reckless assertion, and force him to resign if he respects his word. He is indicted for charging \$2.50 mileage for serving citations in the business part of the city.

I have carefully examined the county court civil docket for all cases in the last two years of my administration where citations were served in the town of Nacogdoches, and find the following: W. G. Reid, vs. T. & N. O. Ry., serving citation, 75c, mileage, 5c; W. R. Thomas Co., vs. A. G. Lesterjette, 80c; L. E. Parmley vs. State Bank, 80c; Nacogdoches Grocery Co. vs. Robert Wilson, 80c; C. H. Martin vs. T. & N. O. Ry. Co., 80c; Commercial Bank vs. G. G. Scoggins, 80c; W. A. Thurston vs. L. A. Simmons, 80c; Grant Western Co., vs. H. E. & W. T. Ry. Co., and R. B. Walthall, 80c; Farmers & Merchants Bank vs. Tucker-Hayter & Co., 80c; Tucker-Hayter & Co. vs. J. O. Burnaman, 80c; W. T. Wilson Grain Co. vs. W. E. Oxsheer, 80c; L. I. Muller vs. First Texas Insurance Co., 80c; Oscar Murphey vs. T. & N. O. Ry. 80c; E. Fite vs. H. E. & W. T. Ry. 80c; First State Bank vs. W. B. McConnico, et al, 80c; G. W. Alders vs. J. G. Burnaman, 80c; First State Bank of Garrison vs. Coney Matkins, et al, 80c; First State Bank of Garrison vs. Royal Matkins, 75c; J. H. Summers vs. H. E. & W. T. Ry. 80c; The Robert Griffin Co. vs. Summers Lumber Co., 80c; G. F. Parmley vs. H. E. & W. T. Ry. 80c; Tucker-Hayter & Co., vs. B. H. Moore, 80c; Jack Griffin vs. Mrs. Lucella Dunn, 80c; Tucker-Hayter & Co., vs. Walter Thurston, 80c; J. L. Williams vs. H. E. & W. T. Ry. 80c; E. B. Stalling vs. J. W. Roan, 80c; S. M. King vs. Ed. Stanaland 80c; J. E. Feazell vs. J. W. Jordan, 80c; J. L. Mullens vs. E. W. Spradley, 80c;

Farmers & Merchants State Bank vs. J. B. Dorsey, 80c. All the above cases are on the civil docket of the county court, and are for serving a citation in each case 75c, and five cents mileage. I will guarantee they will run the same in every district court civil case from the time the fee was changed by law from \$1.50 to 75c. I can show the records where many cases were tried and disposed of in the district court where the sheriff's cost runs from \$3.50 to \$7.00 and not one mile of mileage charged, while there are some big cases that the cost will run over a hundred and many hundred miles.

Now, Mr. Prince ought to refute the above facts or make his word good and resign—not that I am wanting him to resign.

Now as to the mileage in felony cases: Sometimes one not familiar with the procedure can find "boogers" when in fact none are there. For every item of cost earned by the different deputy sheriffs and constables and often all of them serving process at the same time, that all has to be made out in the sheriff's accounts against the state, and on the face of these accounts, the sheriff did it all himself and the same day, when in fact he never served a single paper. Each officer makes return on his process and the sheriff makes out the account from the returns on the papers and has no knowledge whether the miles were actually traveled or not. The law allows the sheriff to summon witnesses over the phone and charge his fees. Sometimes the officers make long rides hunting for witnesses and fail to find them, and charge the mileage to some witness that was served. The same witness is often summoned twice, or attached after summoning him. At this term of the court cases were tried and the witnesses all discharged, the jury failing to agree, and the same witnesses summoned back for another trial. In the case of W. C. Butler for killing Jim Goodman, all the witnesses were summoned in a habeas corpus trial for bond. Later Judge Perkins was employed in the prosecution and he made a motion for a rehearing to raise the bond. Every witness was re-summoned for that purpose, and then the same witnesses were summoned for the final trial. On the first glance you could see "graft," but when explained it was legitimate. There are many things that look crooked on their face, but straight when explained. There is but one way the sheriff can graft, and that is in mileage, unless it is downright stealing of the county's money, which I know has been done by officers higher up than Prince.

## Her Salary Equal to Income of \$1200 Walden Trained Her!

GRADUATED! WHAT NEXT?  
A Fine Position and Rapid Future Advancement.

Professor L. R. Walden,  
Dear Mr. Walden:—The training you gave me enables me to earn a salary equal to the income of \$12,000.00 safely invested.

I completed your modern, up-to-date business and shorthand course—under your superior methods—and went from the school room into a business office—and thanks to the thorough training you had given me, and that you give to all of your pupils, I was able to give entire satisfaction. My salary increased rapidly and I now earn each month nearly as much as I could have earned in twelve months before I took your courses.

Think how long it would have taken me to earn or save enough to pay for a \$12,000.00 farm or other investment, and then consider what a few months in your school did for me; and what it will do for any ambitious young man or woman—that is give them a training that will enable him or her to earn a salary as great or greater than the income or net profits from a \$12,000.00 farm, or investment, and one will have an idea of the great advantage of Walden's Special Courses—which leads to desirable positions and success. I recommend your work to all.  
(Miss) Matilda Miller, Lake Charles, La.

# WAKE UP AMERICA

We are at war—and you are acting as though we were at peace.

War is a contest of sacrifice—the country that sacrifices most will win.

Our allies are heaping upon the altar of freedom half of their incomes and savings of years.

Our enemy is bankrupting himself, starving himself, offering, in his frenzy of effort, his children and his old men to the god of battle.

No power can stay a German victory but sacrifice—real sacrifice—on your part.

The country that has acted as a father to you, the boys who are fighting for you, and have the right to be considered as your sons, are calling upon your better self for help in their hour of trial.

The man who says "I can do better with my money," may speak the truth, but he is a traitor who sells his moral rights to American citizenship for a few dollars.

Your country, your boys in France, your fellow citizens, your God, and your conscience are calling.

The Greatest blessing to Suffering  
Humanity is to Heal the Sick

**Good Health** makes you equal to any emergency. Diseases unfit you for the ordinary duties of life. If any disease is sapping your vitality or life away—if you are the victim of any chronic ailments, consult the doctor at once, as it costs you nothing for consultation or examination.

**By His Method and System of Treatment** no more operations for Tumors, Gall Stones, Chronic Appendicitis, Goitre, Hydrocele, Adenoids, Tonsils, Diseases of Women, Leg Ulcers, Rupture, Piles, and Cancer. We do away with chloroform and knife in the treatment and cure of these serious and painful diseases.

**Eye and Ear Diseases** If you have Cataracts, Granulated Lids, Weak or Sore Eyes of any kind, Headache from eye strain, weak or failing eyesight, don't neglect yourself and go blind. **Save your eyes!** If you are deaf or hard of hearing from catarrhal deafness let the doctor test the nerves of your ears. If they are not dead or paralyzed he can make you hear better in five minutes. You will know for yourself. Will you believe the evidence of your own ears? That is all we ask. **Save your ears!**

**Index of Diseases** Stomach, Liver, Blood, Nerves, Skin, Rheumatism, Stiff Joints, Chronic Catarrh, selected cases of Epilepsy, Dropsy, Neuralgia, Scrofula, Erysipelas, Skin Diseases, Tetter, Eczema, Warts, Moles, Blood filled Tumors and Skin Cancers. Asthma sufferers should not fail to call, the latest treatment given with best results. Underdeveloped children, those of slow growth, slow to walk, slow to talk, fits, bedwetting. Female diseases of irregular and painful menstruation, nervous exhaustion, kidney and bladder troubles, reflex heart disease. Constipation is a very dangerous condition, as it paves the way for many serious and fatal diseases, such as internal ulcers, abscesses, congestions, inflammation and tumors.

**Death Lurks in a Weak Heart** Does your heart flutter, palpitate or skip beats? Have you dizziness or fainting spells, shortness of breath, oppressed feeling in chest, choking or smothering sensation, difficult breathing, weak spells, swelling of feet or ankles, pain around the heart? If you have one or more of the above symptoms, don't neglect yourself any longer.

**Are You Sick?** is some deadly diseases dragging you down to the grave; do you lack the energy, vim, vigor, and "go" that makes life worth the living? Then don't neglect yourself and drift with disease. No matter what disease may be, it will be to your advantage to visit the **Old Reliable Specialist**. Consult him at once, he will give you a fair, square deal; he has possibly had more experience and success than nine out of ten physicians in his long practice of over forty years in the treatment and cure of Chronic Diseases.

**Words of Warning; Listen!** There is a vast army suffering with Chronic Diseases marching to an untimely grave—a life cut short—because of neglect. If some disease is sapping your vitality or life away—if you lack the energy or vigor that makes life worth living, don't neglect this opportunity of being cured.
