THREE COUNTY BOYS BURIED SCOTTISH COAST

Nacogdoches County Furnishes a Toll of Three Out of Five to the Infernal German Submarine.

The Associated Press report appearing in the state papers brings confirmation of the sad news that three of our county boys, are forever lost.

Lewis Roberts of Nacogdoches, and Jennings B. Crow and Arthur W. Collins of Appleby were buried on the Scottish coast with others who lost their lives in the sinking of the ill-fated Tuscania by a German submarine last week.

The Americans were given regular military funerals, and it is reported that villagers came from miles around in a down-pour of rain to pay their simple tribute to the American dead. The bodies were buried in trenches prepared for the purpose, and were brought in on big motor trucks. One of the villagers carried the Union Jack while an American held aloft a flag bearing the stars and stripes, and the American survivors sang "The Star Spangled Banner," followed by the natives singing "God Save the King." The usual military salute was fired in conclusion.

This funeral description is of the last service held, but the same was in all probability employed by the other groups who were laid to rest. Our boys seem to have been buried in different trenches and possibly at different times.

The report further adds that temporary fences have been built around the graves to be replaced by a permanent enclosure as soon as the materials can be brought to these desolate shores. A British colonel who has worked day and night since the disaster helping the Americans bury their dead announced today that the people of the nearby country-side had

Is a Man From Your Home Serving in Uncle Sam's Army

?

That man and millions of others must be fed. America Must Feed Them. You, Mr. Nacogdoches County Farmer, must raise more crops and better crops than ever before. You must feed that Boy of Yours at the front. You must help AMERICA FEED THE WORLD.

The most modern and efficient methods of farming must be employed. Supply yourself with the Latest Improved Farming Tools and you can easily work more land and make a bigger crop than you have been making. Come to our store and see the Labor Saving Tools that we are offering. We want you to make a bigger and better crop and will do all that we can to help you. Come in and talk the matter over with us at once.

CASON, MONK & CO

COMMISSIONERS' COURT.

Monday's Daily

Commissioners' court convened this morning, but will adjourn after disposing of some pressing business until next Monday on account of so much illness in the county judge's home which makes it impractical for him to be in constant attendance with the body.

It was voted to fix the tax rate the same this year as last.

Resignation of R. E. DeLooney as justice of the peace of Garrison precinct was accepted and R. B. Walthall was appointed to fill out the unexpired term. Mr. Walthall filed his bond,

which was approved, and he therefore enters immediately upon the discharge of the duties of the office.

From Mr. W. H. Haltom, who is a visitor here today from Melrose, the Sentinel learns of the erecting of a new 7-room cottage in that community by Mr. J. D. Matthews. Mr. T. E. Fall has the contract for the building and is being assisted by Mr. Haltom. Mr. Matthews is a prominent planter of the Melrose community.

Tillery's fine watermelon seed are for sale by Swift Bros. & Smith only.

Conserve Food

started a public subscription to erect a permanent monument to the Americans.

The revised list of the dead brings the number up to 267. After eliminating from the passenger list names of survivors and 131 identified dead, and accounting for 33 unidentified dead, 136 soldiers are still not accounted for, and it is believed they were lost.

As has previously been noted in other reports of the matter in this paper, there were five Nacogdoches county boys on the ship, but advices have been received to the effect that Ruel A. Parrott and B. Pancher of Garrison were rescued and were safe.

A noteworthy feature of the matter is that Nacogdoches county had a larger number on the ship than almost any place, if not exceeding all, than any Texas point, including the larger cities. It is also noted that we suffered a greater ratio of loss.

Intruding with an editorial comment to a news story, The Sentinel can not refrain from a few observations in the same connection. In the first place, it brings the war closer home to us than anything that could have happened, and any person with a drop of red blood can not fail to enter into the most profound sympathy with the homes that have thus been robbed of their loved ones by an inhuman agency that is worse than the midnight assassin, and an infamy that even his satanic majesty would not employ. Without a moment's warning, and oft times with very little means of escape, men are plunged into eternity to satisfy the lust and infamy of a war lord who would crush the peoples of the world not submitting to his ruthless campaign of destruction.

The lesson of it should inspire every man, woman and child of America to do his or her bit in supporting the powers that combine to overthrow the hydrophobic monster who stalks abroad in a campaign of ruthless destruction, and when we have restored peace and established democracy in all parts of the world, we will erect a monument at every county seat to the heroes who have accomplished the result.

RUELL A. PARROTT IS REPORTED WITH THE SAVED

From Tuesday's Daily.
Mr. and Mrs. W. A. Parrott of Garrison, parents of the young man, re-

ceived a message last evening bearing the happy news that their son, Ruell A. Parrott, was with the saved in those rescued from the sunken Tuscania.

The young man was one of the county's most worthy and promising sons. He graduated from the Garrison High School several years ago. Later he attended a session of the State University, and expected to finish his education as soon as he was able. Having had considerable experience in saw mill work, he was being rushed over for work in this line, and if he has no further bad luck, will soon be engaged with the industries making material for the war in France.

The telegram contained no particulars, and gave no information about the 3 other young men of the county who are likewise reported with the

lost, and we shall continue to be in suspense until we hear from them.

LARGE PAYMENTS OF COUNTY TAXES

January taxes as tallied up in the county treasurer's office show the largest taxes, probably, of any time in the history of Nacogdoches county.

Yesterday county tax collector J. C. Melton gave a check to Treasurer, W. Y. Hall for the sum total of \$47,358.24, this being the county's pro rata of tax payments for the month of January. The total county taxes equalling the large sum of \$47,378.22.

In the total of collections made the following sums are noted: State tax, \$43,499.45; county taxes \$47,978.22; school taxes \$13,291.22.

The Tyler Courier-Times wonders why somebody doesn't write a song about "Housewives-a-Hooverin', a-Hooverin', a-Hooverin', a-Hooverin', a-Hooverin' along?"

Many of the towns are adopting a plan of early closing that the clerks and other employees may prepare and cultivate gardens for themselves. The idea is a good one and should be adopted by every town.

Why hasn't Lufkin got a big hospital? It's badly needed.—Lufkin News.

And we suppose the Lufkin editor would desire that the institution have a department especially fitted up for the treatment of injured and broken "wings."

The ministers and christian people of Nacogdoches do not take kindly to Governor Hobby's proclamation setting apart a Lord's Day for seed planting and will not observe it as he recommends. It is true that war recognizes no day, but the christian people can not recognize the idea in the everyday affairs of life, neither do they believe it is right in war except in actual defense.

The people of America are today reading a chapter of the stern realities of war that comes close home to them in the incident in which an American transport was sunk and 271 lives lost. The only surprising thing is that we have not had report of a disaster of this kind earlier, and we may reasonably expect to read of other great disasters in which the lives of our boys are lost. The sole mission of war is the destruction of opposing forces, and since we are in it, we may expect to have to furnish some of the toll. This being true, it is all the more important that every citizen do everything in his power to co-operate with the forces which are working for a victory which will bring permanent peace and dismantle these infernal agencies which are promoted and sustained for the murder of mankind.

When Noah commenced to build the ark that he might be spared from a watery grave, the natives treated the enterprise as a huge joke. History tells us of the fate of the heedless, thoughtless sinners who believed that things would rock along in the old way. And such will be the fate of those who refuse to prepare for the awful famine of meat and bread that is now staring the world in its face. Is it possible that the people can not realize that they are right now on the verge of the most terrible crisis ever recorded in history? Do not the Americans know that upon America depends the lives of all of Italy, France and England? Do they not know that this war can not be won for the allies unless this country supplies meat, bread and clothing for the boys we are sending to France, and the allied soldiers as well? Do they not know that extravagance, profligacy and failure to do anything in their power to help the cause will mean death to their sons and disaster to their country? Every hour the war is prolonged on account of lack of food, clothing and supplies means untold suffering and death. Therefore, it is a solemn fact that should appeal to every man and woman in this nation that without frugality and economy at home and the largest production of supplies of all kinds possible, this war will go on and on until the life and hope of the country will despair and the rule of a foreign foe be established over this Republic. And should that time ever come, the pride and manhood and patriotism and the spirit of the people would perish, and would be known no more forever except as the glory of ancient Rome is known. And then, what American would desire to live a vassal of a nation that boasts that might is right?—R. T. Miener, in Rusk County News.

TELEPHONE SENDS SAD NEWS TO TEXAS HOME

Shreveport Times.
While the telegraph wire clicked off its fateful list of the Tuscania missing last night an anxious mother in Garrison, Texas, hovered about the long distance telephone waiting for word of her son, Ruel A. Parrott, a soldier on the ill-fated transport. At the Shreveport end of the wire was Tom Wallace of Cushing, Texas, stopping at the Caddo Hotel, until definite word could be received. It was sad news that Mr. Wallace was obliged to send to the Texas town, for Ruel's name appeared near the top of the list. With the assistance of The Times the news was flashed out within a few minutes after it had reached the city.

THE 1918 HOME CARD.

Federal Food Administrator, E. A. Peden is planning to begin the distribution in a few days of 500,000 Home Cards for 1918. The distribution will be effected through the District and County Administrators and it is hoped to place one of these instruction cards in every household of Texas. There will be distributed with the home cards to each family two leaflets describing the use of corn and oats as wheat substitutes.

The reverse side of the card contains a statement on "Why We Must Save Food" by Herbert Hoover. Mr. Hoover says that the situation has become critical and states further: "There is simply not enough food in Europe, yet the soldiers of the allies must be maintained in full strength; their wives and children at home must not face famine; the friendly neutrals must not be starved; and, finally, our own army in France must furnish the food. And we must furnish it from our savings because we have already sent our normal surplus." As to the solution of the difficulty Mr. Hoover says, "The whole problem of winning the war rests primarily on one thing; the loyalty and sacrifices of the American people in the matter of food."

The face of the card shows how the American people can assist in the saving of food. The program of saving includes wheatless Mondays and Wednesdays in every week and one wheatless meal in every day. Citizens are asked to observe two porkless days, Tuesdays and Saturdays in each week. It is requested that every day be made a fat saving and sugar saving day and that vegetables, fruits and potatoes be used at all times abundantly. The card asks that milk be used wisely.

As to the hoarding of food the following paragraph is included: "Anyone found hoarding a large quantity of food now than a public enemy of the home, is hereby notified that the Food Administration is determined to secure a just distribution of food and the establishment of fair prices. The food hoarder is working against the common good and even against the very safety of the country. Hoarding food in households is both selfish and unnecessary; the government is protecting the food supply of its people."

There is no prohibition against the use of lamb or mutton in public eating places except on meatless days. It is important that lamb and mutton be used on other days in preference to exportable meats.

BETTER ENFORCEMENT OF THE LAW MUST BE HAD

The county food administrator of Nacogdoches is in receipt of the following message from district administrator Chester B. Collins, which is self-explanatory, and which should be read by every person.

"Please take quick action to see that all wheatless and meatless days and meals are strictly observed by private families and public eating houses in your county, and that all rules and regulations of food administration with reference to sale of flour and substitutes by wholesalers and retailers are strictly complied with. In fact, put in force every rule of food administration and demand observation by the public, without exception."

"The State Administration of Louisiana has complained to State Administrator of Texas about failure to observe rules in East Texas, and while I believe the Louisiana administrator has been misinformed, and have so informed him, and called on him for specific information, still we must do our best."

We are now well organized, and must demonstrate our ability to win the war.

"Advise me at Lufkin at once that situation is in hand. Hurry! The Kaiser won't wait!"

From the above it will be seen that no "foolishness," or neglect will longer be tolerated in the regulations prescribed by the Food Administration. The Sentinel does not believe that there has been any extensive violation of the rules in Nacogdoches county, and the administrator relies on the people to rally that any violation that does exist may be quickly cleared up. Our people have made good on every proposition that has been entrusted to their integrity, and we believe that they will continue to do so, but if any should fail or fall disposed to ignore the appeals that are being made to them, let them take warning that there are some heavy penalties attached, and the offenders would have to answer in the federal courts.

BIG FLOUR SHIPMENT DISTRIBUTED IN TRANSIT

Forty-thousand pounds of flour consigned to a Farmers Co-operative Association at Groom, Texas, has been subject to a slight change in shipping directions and will instead be delivered to the retail merchants in the

You will want to try whole-some Cottolene for "deep-frying," as well as for cakes, pastry and biscuit. For Cottolene instantly browns and crisps the outer surface, and thus seals in the tempting flavors of the food itself.

That's why things "deep-fried" in Cottolene come out deliciously wholesome and easily digestible.

RECIPE

Meat Croquettes

1 cupful finely chopped meat (any kind)
1 cupful soft bread crumbs
½ cupful soup stock or white sauce
1 egg beaten.

Season with salt and pepper and onion juice if desired. When very cold shape the mixture into cylinders, roll in sifted bread crumbs, then beaten egg, then crumbs again. Fry one minute in deep Cottolene, hot enough to brown a bit of bread white you count 40.

Cottolene

"The Natural Shortening"

At grocers in tins of convenient sizes

Groom territory so that the whole community will have the advantage of flour rather than stocking up a few farm houses unduly. The flour will be distributed by the retailers to the consumers on the fifty-fifty plan of one pound of flour for every pound of substitutes.

The Farmers Association when advised by the Federal Food Administration for Texas, although bought prior to the ruling on sales of flour, the shipment of flour comes under the ruling as to distribution agreed to surrender their interest in the cargo.

In cases where the government recommends that flour be distributed to the retail stores and not to consignees the food administration may commandeer the flour. The action of the Federal Food Administration for Texas in disposing of this special case of 40,000 pounds of flour is a positive proof that nothing is being left undone to prevent concentrating in the hands of a few the nation's foodstuffs, but that all commodities needed for the public welfare are being distributed fairly and justly to rich and poor alike.

FOOD ADMINISTRATION ASKS FOR MENU CARDS

Every hotel manager and restaurant proprietor in the country is being urged by the United States Food Administration to mail to its Washington office copies of all meatless, wheatless and porkless day menu cards.

The Food Administration wishes to demonstrate that the hotels and restaurants are using brains and spending money to drive home to American people the necessity for conserving food. It is requesting its representatives in all States to assist in gathering copies of the bills of fare.

The Food Administration is also preparing a census to show the number of persons fed daily in public eating places and the amounts of food consumed. When this census is completed it will show a complete record of the performance of all hotels and restaurants, giving a correct measure of the value of assistance that is being extended the Food Administration.

A JOB AT NACOGDOCHES.

A subscriber walked into the office this morning to inquire about the weather forecast, and when informed that it would be colder tomorrow, he remarked: "That's awful; another cold wave coming and no whiskey closer than Nacogdoches."—Lufkin News.

Of course that is just a playful jab at Nacogdoches. The News editor knows he nor any other experienced seeker could find any whiskey in Nacogdoches. Certainly he couldn't find any for sale. However, we know the hospitality of Nacogdoches people so well—and we expect to share it one of these days before long—that we feel no hesitancy in declaring that if any whiskey happened to be in Nacogdoches, for private consumption, no stranger within the gates would be allowed to die of snake-bite, although his money might be scorned as counterfeit.—Beaumont Enterprise.

Mr. Brown Cornelius, the oil man from Chireno, was an arrival to the city yesterday, coming over to look after some business interests. Mr. Cornelius brings the cheering news that he hopes to save his well, which was reported to be clogged with sand beyond control.

TO THE COLORED FARMERS.

PRARIE VIEW, Texas, Jan. 4.—The importance to the nation of increased yields of staple crops cannot be given too much consideration at this time. Every effort should be made to produce more food than is needed for our own requirements. Millions of people across the sea, as well as our own people, must rely largely on the products of our farms. This condition will continue as long as the war lasts and even years after it has ended, unless every farm in our country is made a productive and self-supporting one. We are asking every farmer to plant enough corn, peas, beans, cowpeas, soybeans, velvet beans and tomatoes for himself and to help supply the great demand for these on the market.

If the farmers of Texas would plant at least one acre of truck, such as English peas, snap beans, okra, tomatoes, carrots, rutabagas, turnips, onions and cabbage, then conserve the surplus by drying, canning and pickling for the winter, we would add greatly to the comfort and happiness of our homes; to the growth and development of our children, and to the strength and energy of our soldiers.

The meat production among our people can be greatly increased by planting rape, stock beets, grain sorghum, peanuts and oats; with the necessary amount of the above mentioned feed, combined with skimmed milk, fresh water and a little corn, we will assure you that the hogs killed by many of us weighing about 200 lbs. at two years of age, would weigh about 400 lbs. in a much shorter time, which would give a very large yield of meat to our country that is otherwise wasted or never developed.

The high price of food has caused the colored farmer to realize the value of poultry raising and dairying as never before. Through the increased attention to poultry raising and butter making on the farm, it is possible to add quickly and materially to the food supply. Every housewife is expected to do her part in caring for the poultry and getting the best results by proper feeding and care of the birds.

The planting and care of orchards among our people should be given much consideration; every home should have fruit trees to add to its beauty as well as to the comforts of the table. When you think of setting trees, why not select a tree that will serve a food producer as well as for shade. Too much care cannot be taken when building up an orchard, since fruits of all kinds play an important part in supplying food for the nation.

The Extension Service is extending to every farmer in Texas an opportunity to better his condition along the line of Home Economics and scientific farming by sending out men and women to give practical instructions in the home and on the farm. When we realize that all must live in some sort of a home that every one finds his chief happiness there, that character is developed there, and that no great advance, spiritual or material, is possible which does not begin at home; therefore, home is just what we make it; so let us make our home equal or surpass that of our neighbor. The Extension Workers will furnish information and practical lessons to those who are willing to help themselves.

For information concerning the Extension work write E. I. Blackshear, leader of the colored Extension workers of Texas.

PERSHING FORCES

START NEWSPAPER
PARIS, Feb. 8.—The first number of "The Stars and Stripes," the official publication of the American expeditionary forces, appeared today. It is a weekly newspaper, authorized by the commander in chief and written and edited by officers—and enlisted men. All the profits will be devoted to the benefit of the enlisted men.

The paper has eight pages of ordinary size and 2000 words of readable news will be sent from the United States for each issue.

Besides reading matter there will be half tones and line illustrations. Today's issue has on the first page a message of greetings from General Pershing.

"CASCARETS" WORK WHILE YOU SLEEP

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—Take Cascarets tonight.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

YOU COOK YOUR FOOD—WHY NOT YOUR TOBACCO?

YOU know what broiling does to steak, baking to a potato—and toasting to bread.

In each case flavor is brought out by cooking—by "toasting."

So you can imagine how toasting improves the flavor of the Burley tobacco used in the Lucky Strike Cigarette.

IT'S TOASTED

Guaranteed by The American Tobacco Co.

ANDREW CURRIE, SR. IS DEAD AT SHREVEPORT

Many people of this city knew Mr. Andrew Currie, Sr., who has visited the city often, and who has some real estate interests in the oil field. He is also a father of our townsman, Andrew Currie, Jr. From today's issue of the Shreveport Times The Sentinel takes the following notice of the old gentleman's death:
Andrew Currie, a resident of Shreveport since 1859, mayor of the city for 12 years, holder of many other offices, and one of the most prominent residents of this part of the state, died at his home in Spring street at 12:20 o'clock this morning after a brief illness. Plans for the funeral have not yet been announced.

Mr. Currie had been ill for about three weeks of broncho-pneumonia, but his illness did not take a serious turn until Monday. His wife and two children were at his bedside when the end came. They are Mrs. Annie Gregg Currie, whom he married in Marshall, Texas, in 1876; his son, Andrew Currie, Jr., who is in the oil business at Nacogdoches, Texas, and his daughter, Mrs. A. L. Wallick, of Toledo, Ohio.

Mr. Currie was a native of Ireland, having been born at Ibricken, County Clare, on March 4, 1843. He came to this country at the age of 6, landing at Boston, and residing in New York for several years. In 1859 he came to Shreveport and at the outbreak of the war joined Company A of the First Louisiana Volunteers. He was captured at Arkansas Post and held at Springfield, Ill., three months. Later in the war he was again captured, and at the close of hostilities was in a prison camp at Indianapolis, Ind.

Returning to Shreveport, the deceased went into business and also made the start of a long and honorable career in politics, during which he held almost every position in the gift of the voters. He was a police juror, state senator from Caddo parish from 1892 to 1890, a member of the City Council for seven years after 1890, and postmaster under President Cleveland.

It was while he was mayor that the Red river was bridged, and the V. S. & P. brought to the city, largely through his efforts. The Kansas City Southern also was brought through Shreveport about this time.

The deceased entered the insurance business in 1876 and continued in it until early in the present century, when he sold out the agency now controlled by Penick and Ford. He was an owner of the Shreveport Times in the early nineties. He early realized the possible growth and development of the city, and invested heavily in real estate. His later years were de-

voted almost entirely to placing his holdings on the market and an indication of the extent of his business dealings is revealed by the fact that the clerk's records show 2,200 transfers of real estate in which he was concerned. He opened up the West Shreveport section for development. Mr. Currie was a member of Holy Trinity Catholic church, and donated the church cemetery. He is also the donor of the children's playgrounds in West Shreveport. With regard to his private benefactions, only those whom he helped can tell of its extent.

PROMINENT TYLER MAN APPOINTED U. S. CLERK

Effective immediately, Mr. Horace Blades will become clerk of the Federal Court for the Eastern District of Texas at Beaumont, and will be succeeded in Tyler by Mr. George C. Burruss.

Mr. Blades has been United States Commissioner and Deputy United States Clerk in Tyler for several years. He is a young man of splendid business attainments, and has made a very efficient commissioner and deputy clerk. He has a multitude of friends in Tyler who regret his departure, but nevertheless they commend him to the people of Beaumont as being in every way entitled to their highest respect and esteem. Mr. Blades will leave for Beaumont within the next few days.

Mr. Burruss has been deputy sheriff for several months. He has served as county tax collector of Smith county and held other positions of Smith county. He is well qualified to discharge the duties as United States Commissioner and deputy clerk for the Federal court in Tyler.

The successor to Mr. Burruss as deputy sheriff has not yet been named by Sheriff Turner.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and beautiful—Get a small bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a small bottle of Knowlton's Danderine from any drug store and just try it.

FALSE ECONOMY HAS NO VALUE

Buying Cheap Goods Just Be-
cause They Are Cheap Does
Not Pay.

QUALITY OFTEN OVERLOOKED

Instance Seen in Case of Mail Order
Houses Which Make Their Ap-
peal Solely on Basis of
Price.

(Copyright, 1917, Western Newspaper Union.)
Economy is one of the greatest of
virtues but false economy is no more
a virtue than anything else that is
false. To be able to economize wisely
is one of the greatest blessings that
one can have, for it is the prerequisite
to thrift and well-being. Too many
persons, however, who think they have
found the secret of true economy are
practicing a false economy which is
worse than willful waste.

For instance, the man who buys a
stove from a mail order house for \$9
because he thinks he would have to
pay \$10 for one if he purchased it
from his home merchant, is practicing
a false economy, for the chances are
that he would save more than \$1 in
the end if he purchased the \$10 stove
from the local hardware dealer.

There are several reasons why this
is false economy. The first one is that
the dollar for dollar, the greater part
of the merchandise sold by the mail or-
der houses is of less value than that
sold by the retail merchants of the
smaller communities. The mail order
business, as a whole is built upon
cheapness. In order to attract cus-
tomers the catalogue houses must sell
goods cheaply and in order to do that
they must sell cheap goods. Their
business is built up on price and not
on quality. The retail hardware dealer,
like retail dealers in other lines,
probably can match the prices of the
mail order houses. He probably has a
\$9 stove which he can sell to the
man who wants to get a stove for \$9.
The trouble is that the man who buys
from the mail order house does not
distinguish between price and quality.

Thinks He is Economizing.
The man who buys the \$9 stove
from the mail order house probably
would not buy a \$9 stove from his
local merchant for in the latter case
he would see just what he was buying
and might realize that the \$9 stove
would not meet his needs. He orders
a \$9 stove from the mail order house,
however, just because the price is \$9
and not because he has any assurance
that the stove will meet his needs. He
thinks he is saving a dollar or two by
buying this stove instead of paying
\$10 or \$11 to the home merchant for
one that he has seen and knows will
give him satisfaction. The chances
are that when the stove arrives and
he has used it for a short time he
will realize that he has practiced false
economy—that it would have been
more economical in the end for him to
pay a dollar or two more to his home
merchant and get an article that was
guaranteed by the dealer.

The patron of the mail order house,
also, often fails to take the matter of
transportation charges into considera-
tion when making his purchase. He
sees only the price of the article as
listed in the mail order catalogue and
does not think of the express or freight
charges, which with the cost of a
money order and postage often make
the total cost of the article greater
than the price at which the same thing
could have been purchased at the local
store. Another case of false economy.

Buying merchandise of poor quality
because the price is low is often false
economy when the purchase is made
at the home stores but it is doubly so
when the merchandise is bought from
a mail order house. When buying at
home one can be reasonably sure that
the article purchased at a low price,
while there is no such assurance when
it is bought by mail on the "sight un-
seen" plan.

Idea is Exploded.

The idea that the mail order houses
sell the same quality of goods at lower
prices than the home merchants is
quickly exploded when one learns of
the large profits that are made by the
majority of the mail order houses and
the large selling expense to which they
are subjected. The large mail order
houses spend hundreds of thousands
of dollars annually for advertising and
the selling expenses of the smaller
concerns are proportionately as large.
Their other expenses, such as rent,
taxes and labor, are also higher than
those of the local retail merchants, in
proportion to the business which they
do. In spite of these heavy expenses,
the mail order houses distribute mil-
lions of dollars in dividends among
their stockholders. In one large mail
order concern the profits of the stock-
holders, in cash and stock dividends,
have aggregated as much as 1,000 per
cent on the capital invested in the
short period of nine years. This does
not indicate that the mail order houses
are in business for their health and
are giving away merchandise to their
customers.
The mail order houses have cap-

pation they will do you good.

CHAS. PENA WITH THE DEAD
From Monday's Daily.
Chas. Pena, aged 21 years and 22
days, died at the home of his brother,
Peter Pena, in the Moral community
Sunday night at 1:30 o'clock, from
an illness which had its beginning
some two years ago. His remains
will be laid to rest in the Moral ce-
metery tomorrow.

Mr. Pena went with some of his
brothers to New Mexico where he
thought to overcome his malady, but
later returned, spending the last few
months here, where he was born and
raised. He leaves a large number of
relatives to mourn his death.

Deceased was a good man, young,
energetic and progressive. He was
one of Moral's best citizens and came
from an excellent family. The Sentin-
el expresses its sympathy to those
of his relatives left to mourn.

Kidney disorders cause much dis-
tress of mind and body. Such ail-
ments should not be neglected, be-
cause they lead to diseases that are
dangerous. Prickly Ash Bitters is a
fine kidney tonic. It strengthens the
kidneys and purifies the stomach and
bowels. Price \$1.25 per bottle, Strip-
ling, Haselwood & Co., Special Agents.

Mr. Ira Gaston of Kansas City, who
has been visiting his mother, Mrs. J.
F. Gaston, of the Oak Ridge commu-
nity, and brothers, J. E., Ellis and Lee
here, left today for his home. Mrs.
Gaston will remain a week longer be-
fore returning.

HARRY LILLY HAS GAINED

THIRTY TWO POUNDS

"I Doubt if There is a Person in Den-
ver Who Feels Better Than I
Do Now," He Says.

"I just want to tell you and every-
body else what has happened to me
since I began on Tanlac; and while
some folks may doubt it, it's every
word the truth," said Harry Lilly of
4255 Clayton street, Denver.

"The day I started on Tanlac," he
continued, "I weighed only one hun-
dred and thirty pounds. I finished my
third bottle weighing one hundred and
sixty-two pounds—a net gain of thirty-
two pounds—and I doubt if there's a
person in Denver who feels better
than I do now. Before I took Tanlac
I was in such a bad fix with rheuma-
tism, disordered kidneys and stomach
trouble that life was a burden. The
pain across my back was something
awful and if I stooped over somebody
had to help me straighten up. I was
examined six or seven times but no one
seemed to know exactly what or how
bad my trouble was. If I got one or
two hours sleep in two or three nights
I was lucky, and would get up in the
mornings feeling worse than when I
went to bed. It was a hard struggle
for me to get my shoes on and after I
got them on I had to walk around a
while to get the kinks out of my back.
I had no appetite and, honestly, for
two years I didn't eat as much in two
weeks as I do in two meals since I took
Tanlac.

"Tanlac was recommended to me by
an old Rio Grande watchman and after
thinking about what he said I couldn't
see any reason why he would tell me
anything but the truth, so I started
taking Tanlac and by the time I had
finished my first bottle every bit of the
pain had left my back and I com-
menced to feel like another man. I had
suffered so bad with rheumatism in
my shoulders that more than half the
time my boys had to help me put my
coat on. I still had rheumatic pain
when I got through with my first bot-
tle, so I got another and that cleaned
up for the rheumatism entirely. I
have taken three bottles now and I
don't believe there's another man in
Denver that feels any better or can do
any more work than I can. I sleep
as sound as a log every night and can
work hard all day without getting
tired."

Tanlac is sold in Nacogdoches by
Stripling, Haselwood & Co., and
Swift Bros. & Smith, in Woden by
M. J. King, in Garrison by Garrison
Drug Co., in Appleby by Weatherly
Bros., in Sacul by Arkan Cranford,
in Cushing by A. J. Beck, in Douglas by
Campbell & Watkins and in Chireno,
in Nat by E. M. Jarrell.

UNsinkable SHIP INVENTED BY UNITED STATES NAVY

NEW YORK, Feb. 10.—The United
States has made the seized liner Lu-
cia, formerly an Austrian ship, which
is now in an Atlantic port, so that it
can not be torpedoed and sunk. This
statement was made by Vice Chairman
William L. Saunders of the navy con-
sulting board at the thirteenth annual
dinner of the University of Pennsylv-
ania men here last night.

"The Lucia may have a hole blown
in her side 40 feet long and she will
still float," declared Saunders. "I can
not see why this information should
be withheld from the public. Such a
hole would waterlog only one-tenth the
honey-combed and airtight cells."

Saunders' statement came unex-
pectedly and created much enthu-
siasm. He added that William F. Don-
nelly, a marine engineer of New
York, had been authorized by the navy
consulting board to develop the idea.

In reply to a question as to whether
it was the intention of the government
to have vessels similarly equipped to
carry troops, Mr. Saunders said: "Of
course, it will take time to equip the
large number of transports that we
have. It is my belief, however, that
nothing will be left undone by the ad-
ministration to safeguard the lives of
large troop contingents moving across
the Atlantic."

The Lucia is a ship of 9000 tons and
is ready to be introduced into the
transport service immediately.

FROM THURSDAY'S DAILY

C. B. Powell, a grocery merchant
of Garrison, has been spending the day
in the city.

Mr. R. W. King, a well known young
business man of Douglas, was a visit-
or to the city yesterday and again to-
day.

C. T. Simmons, a well known citi-
zen of Appleby, was a business visit-
or to the city today.

Mr. G. H. Crouch came over from
Chireno yesterday, going to Garrison
on a business trip this morning.

Mr. G. B. Phillips, a good citizen of
the Mt. Enterprise country, was a
visitor to the city today (Friday).
Mr. Phillips brought along with him
a quantity of home-dried peaches for
sale.

FROM SATURDAY'S DAILY

Mr. R. Neill of Trawick spent the
day in the city.

Mr. C. B. Jones went to Trawick
today on a visit.

Mr. Albert Cox left today for Garri-
son on a visit to relatives.

Mr. Joell Hamm was a Trawick vis-
itor to Nacogdoches today.

Mr. C. B. Powell of Garrison was a
business visitor here today.

Mr. N. Brennan of Appleby spent
today in Nacogdoches on business.

Mr. J. S. Dennis was among the
visitors here today from Maytown.

Mr. Robert Boatman went to Garri-
son today to visit his uncle, Mr. Lum
Boatman.

Mr. Carl D. Wells returned to his
home in Cushing today after a busi-
ness trip to the city.

Mr. Jimmie Hardin returned to his
home in Sacul today after a business
visit to the city.

Prof. O. H. Hanna, teacher in the
public school at Appleby, was a busi-
ness visitor here today.

Mr. A. W. Baker, the prominent
mill man of Maytown was a busi-
ness visitor here today.

Mr. G. F. Dalton, bookkeeper for
the mill at Maytown, was here to-
day on a business mission.

Mr. Joe R. Day, assistant agricul-
tural agent, left today for his home
in Appleby for a Sunday visit.

Mrs. T. J. Rudd, who has been here
for treatment by local physicians, re-
turned to her home in Maytown to-
day.

Mr. J. E. Graham of Martinsville,
was in the city today en route to At-
lanta, Georgia, where he goes to visit
relatives.

B. L. Heflin, one of The Sentinel's
staunch friends from Garrison, was
in the city today, and made the office
a pleasant call.

Mr. J. H. Haltom, Jr., of Dolah, is
in the city today looking after some
business interests and shaking hands
with his numerous friends.

Mr. O. B. Ross and little son, Doris,
and Editor W. F. Hays of San Augus-
tine are in the city this afternoon,
motoring over in an automobile.

Mr. H. S. Allen, living five miles
north of town, went to Lufkin today
on business. Mr. Allen formerly lived
in Angelina County, moving here
last fall.

Mrs. I. A. Whitton and children,
who have been visiting Mrs. H. C.
Covington for the past several days,
returned to their home in Chireno this
morning.

Mr. and Mrs. Henry Chisum and
children, returned to their home in Al-
Cedo having been to Woden where
they attended the bedside of Mr. Chis-
um's father who died there yesterday.

Private C. J. Richards of Company
"F" 143 Infantry, stationed at Camp
Bowie, Fort Worth, who has been vis-
iting home folks at Timpson, was
here today, returning to Fort Worth.

Little Miss Fannie Richards and
nephew, Master Louis Richards, left
today for Climax. Master Louis has
been visiting his grandfather, R. L.
Richards, here, and is returning home.
Miss Fannie accompanies him and will
visit there for several days.

Miss Thelma Muckleroy, who has
been here attending the school in the
Walden Business College, left last
night for her home in Huntington,
where she will visit for a couple of
days, after which she will go to Dal-
las where she will have employment
as a stenographer.

Mrs. A. C. Watkins, who has been
the pleasant guest of her sister, Mrs.
Alice Watkins at Douglas, was here
today en route to her home in Hamp-
hill.

News has been received in the city
to the effect that Will Beeson, who
was attending the radio school in Aus-
tin, has been called to report to the
school military aeronautics. This
would indicate that the young man had
made suitable proficiency in the first
branch of his study for a promotion.

A Fight For Life

It has been fight or die for many
of us in the past and the lucky people
are those who are now well because
they heeded nature's warning signal
in time to correct their trouble with
that wonderful new discovery of Dr.
Pierce's, called "An-u-ric." You should
promptly heed these warnings, some
of which are dizzy spells, backache,
irregularity of the urine or the pain-
ful twinges or rheumatism, sciatica or
lumbago. To delay may make possible
the dangerous forms of kidney disease,
such as stone in the bladder.

To overcome these distressing con-
ditions take plenty of exercise in the
open air, avoid a heavy meat diet,
drink freely of water, and at each
meal take Doctor Pierce's Anuric Tab-
lets (double strength). You will, in a
short time, find that you are one of
the firm indorsers of Anuric as are
many of your neighbors.

TYLER, TEXAS.—"I am 53 years old, and
for the last three
years I have been
afflicted with kidney
trouble; no relief
from the medicines
I took. At last I
took one small pack-
age of Dr. Pierce's
Anuric Tablets and
the very first dose
helped me, and I
continued to im-
prove. I took in all
six packages. I am
very glad to testify."
—DAVID VILCZEK,
111 E. Social Street.

YEARNS, TEXAS.—"After using different
medicines for kidney and bladder troubles
will say that I have given Dr. Pierce's
Anuric Tablets a fair trial and was
greatly benefited, and do hereby cheer-
fully recommend Anuric to all persons suf-
fering from kidney and bladder troubles."
—HENRY BORN, Route 4, Box 153.

SCHOOL TEACHERS

The appropriation this year is not
sufficient to support all the schools
in Texas for the whole year, and the
situation is so unsettled that there
is no assurance of adequate support
for next year, or the following years.
Teacher's salaries, as a whole, have
not been raised, while the increased
cost of food and necessities makes
much greater demands on slender in-
comes than heretofore. The problem
of the summer vacation is becoming
alarmingly acute with a large num-
ber of teachers.

Many teachers are seeking relief
from the uncertainty of future em-
ployment and support by transferring
to the field of civil service, where the
pay is prompt and sure and the salary
is drawn the year round, with good
opportunities for advancement. Others
seek the broader world of business,
with the ambition to rise above the
salary basis to reach a comfortable
income with the prospect of attaining
the wealth which commercial success
ultimately brings.

The door which offers admission to
these new fields is the commercial ed-
ucation. Once equipped with this
knowledge, the teacher has the way
always open to either class of employ-
ment. He or she has the option of
continuing the teaching, or entering
the employ of the government, or seek-
ing opportunities in business. Tyler
Commercial College has many
graduates who have gone directly into
government employ at Washington
and elsewhere. Others have left com-
mercial positions of some standing to
offer their services to Uncle Sam in
civil service work. A reasonable num-
ber of these are employed locally with
the boards working in every county
and district throughout this country.
Civil service examinations are held
every Tuesday in practically every
city in the United States. A step
which will mean your advancement
and at the same time help your
country in this time of need ought to be
taken without delay. Mail us your
name and address on the blank form
for free catalogue.

THE FLOUR RESTRICTION.

The restriction that is being placed on the sale of flour is causing much confusion and some complaint—but anything that pinches would do as much.

The farmer complains that he has plenty of meal, peas, beans, etc., at home, and doesn't need the substitutes. This being true, he can get along very nicely with much less flour than he has been using, and the government has reckoned as much in taking the matter into account. The town man likewise may complain that he can't use so much meal and other substitutes. But he can't if he is forced to do so. The greatest interruption to be suffered is by the local millers whose business is destroyed by reason of the fact that the retail merchant has to purchase the substitutes along with his flour from the wholesaler and must sell likewise. The new adjustment puts him out of business; but the other classes can adjust themselves to the new conditions without suffering any material hardship. We all use more or less rice and cereals and we get credit for these on the purchase of flour. If we are patriotic, we will use more of these cereals and less flour, since we have the assurance that every pound of flour saved contributes to the saving of life and the success of the great conflict in which our country is engaged.

We may expect to have to adjust ourselves to many unpleasant and inconvenient conditions before the war is over. Let us remember the boys in the trenches facing the worst enemy ever known and we will be able to bear out part with better grace. And let us be thankful that we live in a country where we can have an abundance of corn meal, vegetables, poultry products, etc., if we will but employ a little industry, and get busy in the latter.

Come on, "fellows," and let's get back to the soil where we can make a "living." Money and position don't count any more.

With the limitations that are being placed on all kinds of foodstuff and feedstuff now, the farmers, and many others who should be on the farm, should take the hint that the big thing ahead of them is to produce something with which to "live" on if they would make sure of the necessities in the future. The administration thinks the South can feed itself, as it can if it will, and the matter is being put squarely up to us. Money would do you but little good if you cannot purchase the necessities of life with it, while a well filled barn and a well-filled larder is the best security against any calamity that could befall the country.

Such matter as may be necessary for the proper distribution of information in important matters is right and proper, but the great mass of "dope" with which the mails are being loaded these days is a nuisance and detracts from the service that would be performed with the legitimate enterprises. Almost every enterprise of the county maintains a "bureau" which prepares and mails out daily letters to the various newspapers seeking to distort a little free advertising, and the government itself, is using such a surplus that the average man hasn't time to select the good from the matter that is more important, in consequence of which many important subjects are overlooked altogether. A good remedy would be to put about four-fifths of the employees of these bureaus into the military service or some of the useful occupations.

There is no use for any of us to fret and fume over the ill-convenience and hardships that any new condition of the business of the war may impose upon us. Rather let us remember that disloyalty and bad management destroyed Russia, while the perfect organization and discipline of the enemy has enabled it to hold out against the combined strength of the world for an incredible length of time, and it is not conquered yet. We must give undivided co-operation and unstinted support to every agency of the government, and each do his bit willingly and cheerfully if we succeed in preserving the glorious liberty we have so long enjoyed, and should remember that these restrictions are only for the duration of the war. Failure in the mission in which we are engaged would bring far greater hardships and impositions for an indefinite sojourn, and the yoke of oppression would be much harder to throw off.

THE RULES GOVERNING THE RETAIL GROCERS

The Food Administration is mailing out a little folder to the retail grocers of the country, and to the end that the public may be advised of the restrictions being placed over them, The Sentinel has been requested to publish a copy of it, which is as follows:

The dealer shall not manufacture, distribute, sell or otherwise handle any food commodities on an unjust, exorbitant, unreasonable, discriminatory or unfair commission or profit.

The dealer, in selling food commodities, shall keep such commodities moving to the consumer in as direct a line as practicable and without unreasonable delay.

Re-sales within the same trade, without reasonable justification, especially if tending to result in a higher price to the consumer, will be dealt with as unfair practice.

The dealer shall not buy, store or sell any food commodities for the purpose of unreasonably increasing the price or restricting the supply of such commodities.

The dealer shall not knowingly commit waste or willfully permit deterioration of any food commodities.

The dealer shall not knowingly sell any consumer a quantity of any food stuffs in excess of the consumer's requirements for a period of thirty (30) days.

A consumer buying food commodities in excessive quantities is violating the United States Food Laws pertaining to hoarding, which is punishable by a fine not exceeding \$5,000.00, or two years imprisonment, or both.

Any dealer knowingly selling an excessive quantity of food stuffs to a consumer is violating Section 37 of the Penal Code of the United States, and is punishable by a fine not exceeding \$10,000.00, or two years imprisonment, or both.

Flour should be sold in eighth to quarter barrel quantities to the city or town customer, and in quarter to half barrel quantities to rural or country customers, but such restriction shall not be in excess of 70 per cent of the customer's normal requirements. Also, for each and every pound of flour sold, there must be an equal amount of the flour substitutes, as follows: Corn meal, hominy, grits, corn starch, corn flour, barley flour, rice flour, rice, oat meal, rolled oats, buckwheat flour, potato flour, sweet potato flour, soya bean flour and feterita flour and meal. Rye flour cannot be considered as a substitute.

The profit on flour has been definitely fixed from 80c to \$1.20 per barrel, if distributed in original packages. If distributed in original packages, the profit shall in no case exceed one cent per pound.

Sugar should be sold in not exceeding five-pound quantities to the city or town customer, and not exceeding ten-pound quantities to rural or country customers.

The profit that a retailer is permitted to make on sugar has been definitely fixed by the United States Food Administration as not exceeding one cent per pound. Sugar and flour should not be advertised in any manner or form.

Whether you are licensed or not, you must conduct your business under the rules and regulations of the United States Food Administration, and any violation of these rules is punishable by having your supplies of all of the licensed commodities cut off.

The United States Food Administration is depending on the retailer to see that all food commodities are distributed to the consumer in fair and equal proportions, at a reasonable profit, and the retailer always must have in mind, when a consumer endeavors to purchase commodities in quantities that he, the retailer, has reason to believe will last the consumer in excess of his requirements for thirty days, that the consumer is taking from the people who only buy from day to day, their just proportion of food stuffs.

Remember that our President has only asked us to cut down our consumption of flour, sugar, beef, mutton, pork and fats, and it is a very little thing for us to do when two million of our fathers, brothers, relatives and close friends are sacrificing their all in the active service of our country.

Every man is said to have his peculiar ambition. Whether it be true or not, I can say for one, that I have no other so great as that of being truly esteemed of my fellow-men, by rendering myself worthy of their esteem.—Lincoln.

1918 MORTGAGES SHOW DECREASE

A decrease of 68 mortgages is shown in the county clerk's office for Nacogdoches county for this year in comparison with the same number shown the same date last year, which condition shows some improvement for the county.

The records of last year show that up until the 11th day of February, there were 1019 mortgages filed for record while this year's record shows but 951 to the same date.

While any decrease that is shown in the matter of crop and chattel mortgages is encouraging, still with the good prices that were obtained for cotton and all kinds of produce in the season just closed, the necessity should not exist with any regular farmer to mortgage his crop and cattle this year. Others who are just engaging in farming, and those who are entering the occupation with a commercial crop, may be justified to engage credit, but if the old county ever comes into its own, the people must get on a self-sustaining basis and lend money instead of borrowing it.

REALIZATION.

(By J. G.)

The sinking of the U. S. transport Tuscania has brought a deeper sense of earnestness of the horrors of the mighty struggle that we are engaged in. It sharply defines the principles for which we are fighting. It has brought to every village and hamlet in the land the stern realization that we are at war, and no half-way ground can be considered in dealing with this monster that is threatening to wreck the very forces of civilization.

In the last few days many anxious hearts have broken with the news that son, father or husband was lost. Others have bled seemingly to their last drop, while anxiously waiting for news as to their loved one's safety. A great nation has been deeply saddened.

Nacogdoches county had five sons on board the troop ship. Two have been reported safe. Three sobbing mothers are still waiting, hoping their hearts bleeding with the appearance of their sons' names in the "lost" column.

But it is a column of honor. Their names will live in the mind of the future as sons who have given their all—not only for our beloved country, but for those higher principles of humanity and christianity, which seem to be unknown to the German nation. May the love of these sons for their country inspire others to realize the deepness of a love for country and its cause, and bring to them a deeper understanding of the principles for which a mighty president has laid before a mighty nation. The most sublime love any man can have is a love that would cause him to lay down his life for his country.

May this same sweet love carry brave Americans successfully "over the top" and through the bare waste of No Man's Land, and on into the heart of the nation whose sons know not, and respect not, the purity of motherhood or womanhood, and whose child enjoyment seems to be in the desecration of all that is holy.

In Nacogdoches county there is a mother and three little children; two of whom are blind, and the third partly blind, waiting anxiously and pitifully for news of their son and brother. It is a sad case. The young man went before the local board last year and claimed exemption on the ground of a dependent mother. Nothing was said in his claim about the three small sisters.

On investigation the local board found that he was not living with his mother, apparently, and was not giving her any more money than he could have supplied her with in the army. On these facts the board accepted him for service. Later when the mother went before the board and explained the true facts. He had been working at the Frost-Johnson front, and had been trying to secure a house in order to move his mother and sisters. On learning this, both the local board and the district board granted him a discharge, but the war department ruled otherwise. With the passing of several months he is so far listed among the "lost" of the Tuscania. May an All-wise providence look after these helpless ones that are left, in this their hour of great need.

This is not an unusual case at all. All too many more similar ones are in evidence over the nation.

May this mighty realization that has suddenly come upon the nation cause the free citizens of a country which has builded so well in the civil affairs of life, come to a common understanding, and work in a more sacred union to bring about the great plans of the greatest president of all time. When this scourge has been driven from the face of the earth, the forces working under the hand of this great leader will be ready and near with helping and willing hand to scatter missions of mercy over the crazy-stricken land of the Hohenzollerns. The United States will be among the first to help restore order and reason in the minds of this people who seem to be so terribly afflicted. We go not as a seeker of territorial gain, neither is there any mercenary motive in our hearts—we represent the christian spirit of a civilized world, and seek only to destroy that which is bad.

Mr. R. W. Sullivan, who recently had the misfortune to get hurt in an automobile accident, is able to be out again, but has not entirely recovered, still suffering some pain when he exerts himself too much. The accident happened one cold morning about two weeks ago when the gentleman was driving his car down the Orton hill. The ground was covered with ice, and when he attempted to pass a buggy, the car slid on the slick ice and turned over, and in the fall Mr. Sullivan suffered a wrench in his back and some bruises that laid him up for repairs.

MISCELLANEOUS

By J. G.

We Had Forgotten This. He printed on her lips a kiss, It filled her with elation; "Oh, boy!" the maiden cried, "This helps my circulation." —Beaumont Enterprise.

He printed on her lips a kiss, It was a soul in rapture, And by his "form" she knew that he Was no mere "stereotyper." —Houston Labor Dispatch.

He printed on her lips a kiss, It was some warm perspire; And by the "hotness" of its bliss Proved him some Hottyper. —Dallas Toller.

We wish to pause in the midst of our artistic activities and pay a word of tribute to the striking qualities of Nacogdoches' red mud. It is the muddiest mud that ever muddled, not in the least blame the post office officials for refusing to allow Nacogdoches' free mail delivery until she has a connected belt of good sidewalks. However, it is the outstanding red mud in the state. Plant war gardens—make it useful.

We wonder if the fellows that are promoting the auto show here between the 20th and 25th, with the baby show in connection, realize the tender attraction between babies and automobiles. We might suggest that they show an accident or two to make the scene realistic.

With the last ruling of Food Administrator Peden, that no matter how much meal a person might have on hand, he is required to purchase the 75 per cent equal of their flour purchase in substitutes, we suppose that flour will soon be a sweet remembrance of the past.

About a mile out from the beautiful and historically rich old city of Nacogdoches lies The Land of Lost Hope. It is the most beautiful place in the state—and it is owned by the state. Stately trees stand in their solemn grandeur; others are on their way skyward. Here the birds sing the song of coming spring, and their loud calls to their mates are heard by the nearby natives. This is the place all the residents' wish to with pride—just so, too. This, The Land of Lost Hope, has not been marred by the hands of builders—it is a place of beauty—it is where the Normal should have been, but "ain't."

This is a month of sorrow for Nacogdoches and vicinity. More deaths have already been reported this month, this is comparative small at any time. This, together with the fact that the grim-visaged monster of war has already reached his hand, slimy with the blood of innocents, into the heart of our own community, bringing closer home to the people the stern reality of war, has cast a pall of gloom over the city and county. Cheerfulness now is scarce, and a rare treasure, for there are very few who are not closely connected in some way with the ones who are gone, or the ones who are taking up arms in defense of their beloved country.

Nacogdoches county has 61 divorce cases to come before the district court now in session. As the county has a marriage average of about thirty a month, this is comparatively small—at least Houston still holds the record of Texas for domestic infidelity.

We believe that the Food Administrator of Louisiana was misinformed when he reported to the Texas Administrator that East Texas was not observing the food regulations. Locally, there seems to be a strict observance of the rules; personally, our appetite is already beginning to feel the dire calamity of a grave food shortage.

The food conservation idea has brought about many things, but few of us would have thought that it would bring forth "whale steak" and announce it a delicious dish.

Since noting the fact that United States canners want 553,000 miles of tin cans with which to preserve their products, a still, small voice whispers that food is not as scarce as we thought it was.

With the recent snows and the still more recent rains, and the present atmospheric dampness, the long-continued drought seems to be broken.

This writer is assuming a stoic reserve toward Lufkin, the lively little rival southward, and hopes that no caustic remarks from the News about this column will float heavenward—which is, of course, Nacogdoches-ward.

Someone asks if the papers that leave off the last "i" of the bolshevik wish to detract from their personal glory. As we understand it the papers wish to indicate that only one "i" will ever do in Russia.

That great theologian, or maybe he was a phrenophilianthropist, or some other ding-busted high-brow name, who said that marriage was the greatest educational institution on earth, seems to have spoken a great truth from the looks of some married men.

There are only 440 newspapers in all China. With the exquisite characters they use to designate letters and words, it is a wonder to us that there are that many.

Thomas Wood was called in for physical examination before the local board of St. Paul, Minn., the other day and found to be in perfect physical condition—with the exception that

A young man in Oak Grove, La., recently sent \$3.25 to a New York firm for a "marriage guide." In return he received a 15-c bible. Evidently that firm realizes the crying need of married life in this country.

It looks like the popular cry of next year will be "my kingdom for a biscuit."

Believe us Nacogdoches citizens are very glad to see warm weather approaching. Good coal cannot now be bought in the city, and the natives have been observing many heatless Mondays lately.

Latest Food Conservation bulletin: Flour now rapidly approaching oblivion.

A stranger in the city remarked that all Nacogdoches lacked in being the most beautiful city in the state was a strictly enforced anti-spitting-on-the-sidewalk ordinance. We are tempted to believe it is true.

The paragrapher is shedding great drops of salt water today. Yesterday he attempted to palm off on the public a little "sob" paragraph. In a fit of jealous envy, the operator, make-up, devil or somebody, left out a line at the most touching point. Alas!

A dispatch announces that John L. Sullivan's favorite horse, constant companion in the form of a bull-dog, his cow, and two of his collie dogs died within two days after his demise. Animals have a sympathetic understanding, you know.

he weighed 503 lbs. He was repeated because he was "too blamed big." We extend sympathy to the man who is too big for the United States army.

High officials were very much displeased with Chairman Saunders' announcement of a successful plan to combat the "infernal" submarines. Coming as it did after the sinking of a U. S. transport, the people are mighty glad to know authoritatively that the government has a successful plan whereby America's sons may at least reach the battlefield safely.

"Batter the Boches—Buy Baby Bonds—Be Blessed—Beings." We might add another "Blamed B" or two to the list by adding that we "Boost Because Being Broke we can't Buy."

Statistics show that five per cent of the inhabitants of this country are enemy aliens. Although President Wilson has voiced the fact that we are not at war with the German people, it behooves us to keep our eyes on about five million of them—there might still be a little love for the faterland in the hearts of some of them that could burst into a flame.

A dispatch notes that "Many Germans have been made fatter by semistarvation." Hammer harder, fellows, buy bonds, certificate stamps, conserve food, join the army, boost the government, we ain't near through with this war yet.

Owing to the fact that the farmers are busy growing foodstuffs for the soldiers, and the towns-folk are busy trying to keep up with the rulings of the food administration, the candidates are very down-hearted at present.

Suspicious Absence. A prominent deacon in a well-known church was seriously ill. As he was very popular among the congregation, a bulletin board was posted in front of the church to inform his friends of his condition. It read: "One o'clock. Deacon Jones is very ill." "Two o'clock. Deacon Jones is worse and sinking rapidly." "Three o'clock. Deacon Jones is dead."

A wag passing by that evening read the bulletin and, seeing no one in sight, added at the bottom: "Seven o'clock. Great excitement in heaven. Deacon Jones has not arrived. The worst is feared.—Ex.

POULTRY IS BARRED FROM SHIPMENT NOW

Hon. C. B. Collins, district food administrator, has forwarded the following telegram to the acting county administrator in the matter of poultry products:

"The following telegram from Peden quotes telegram from Washington advising following rule has been advanced in connection with special rules and regulations requiring dealers in poultry and eggs: 'Rule 14. The license shall not between February 11th, 1918, and April 30th, 1918, purchase, ship, sell or negotiate sale of any live or fresh killed hens or pullets, provided, however, that this shall not prevent the purchase shipments as set between Feb. 11 and Feb. 23, 1918, of hens or pullets which were either killed or shipped prior to February 11th to market for sale as food, and provided further that nothing in this rule shall prevent the purchase or shipments and sales of live hens and pullets for egg production purposes. Effective February 11, 1918.'

We assume that this ruling is in the interest of production to protect the rural homes against selling off the supply of hens which would "lay" and "hatch" in the spring season. And if the people will meet the condition by raising all the chickens possible in the closed season they will find a meat-hungry public ready to give a good price for all they have.

Thomas Wood was called in for physical examination before the local board of St. Paul, Minn., the other day and found to be in perfect physical condition—with the exception that

FARMERS ARE EXEMPT FROM BUYING MEAL

Lately there has been much confusion with the farmers and the merchants in the ruling that farmers who had corn and meal of their own had to purchase an equivalent of meal and flour substitutes the same as the man who had none, and there will be widespread relief when they get the news that a new ruling has been made by the Food Administration which exempts those who have their own corn to purchase seventy per cent of the normal consumption they formerly used without taking the substitutes.

Following is a copy of Bulletin No. 207, dated at Houston, Texas, February 13th, and sent out by State Food Administrator Peden relating to and governing the matter:

Effective February 15, Administrator Peden will put into practice the ruling on the distribution of wheat flour to farmers which will replace the fifty-fifty plan and not work a hardship upon farmers already having wheat flour substitutes on hand. It has become necessary to make this modification of the ruling made by Washington in order that the farmer who is now embarking on his 1918 year of production will not begin that year discouraged by a program which did not take into account originally the fact that he had substitutes on hand. Administrator Peden has received communications from all over the State indicating that the plan of fifty-fifty for distribution of wheat flour would work an extreme hardship upon the farmer. Many messages have been passed between his headquarters and the National Headquarters on the subject.

The ruling as it now stands and applies to farmers of Texas is as follows: "Realizing that the rule requiring that consumers who buy wheat-flour shall, at the same time, buy an equal number of pounds of specified substitutes, works a serious hardship on those farmers who have an ample supply of home-grown substitutes and that many farmers have grown these substitutes upon the urgent request of the government, the following modification of the said rule in its application to farmers is hereby authorized, effective February 15th:

"Retailers may sell to their farmer or trader 70 per cent of their normal requirements of wheat flour, without substitutes, provided the farmer furnishes the retailer a written statement that he has on hand an adequate supply of home-grown substitute and includes in such written statement a list of such substitutes showing approximate quantities.

"This is the only exception made to the pound for pound rule and applies only to the farmer having on hand his home-grown substitutes.

"However, a farmer or other consumer must not purchase or use over 70 per cent of his normal requirements of wheat-flour each month.

"Example: "If in February 1917, he consumed 100-pounds of wheat flour, in February 1918, he must not consume over 70 pounds.

"If in March 1917, he consumed 100 pounds, in March 1918, he must not consume over 70 pounds.

"If in April, 1917, he consumed 100 pounds, in April, 1918, he must not consume over 70 pounds; and so on month by month.

"The retailer in selling the consumer must explain this rule and assure himself that it is being strictly lived up to."

RUSSIANS CONFIRM REPORTS OF PEACE

LONDON, Feb. 12.—Confirmation of the German report that Russia has withdrawn from the war is contained in an official statement received here today.

The statement says Russia declares the war with Germany, Austria-Hungary, Turkey and Bulgaria to have ended. Russian troops simultaneously receiving an order for complete demobilization on all fronts. For the defense of the frontier some detachments of younger soldiers will be left.

Negotiations of peace with the central powers have been ended, the statement says. The Russian delegation refused to sign a treaty providing for annexation by Germany. Nevertheless, Russia will not continue the war with the Germans and Austrians, "workmen and peasants like ourselves."

To Exchange Prisoners. AMSTERDAM, Feb. 12.—German and Russian delegates at Petrograd, according to a dispatch from Berlin, have signed an agreement calling for the earliest possible repatriation of prisoners of war unfit for military service. Owing to transportation difficulties in Russia, considerable delays are expected.

Do your bit to equip our soldiers. Buy War-Savings Stamps.

COMMUNITY CO-OPERATION

Copyrighted Farm and Ranch-Holland's Magazine

THE ADVERTISED TRADE-MARK ENABLES YOU TO OBTAIN A STANDARD ARTICLE AT A FAIR PRICE.

Both of these results are desirable—a STANDARD ARTICLE and a FAIR PRICE. Either one is to be desired by the consumer. But when both go hand in hand they form the ideal combination.

These results are brought about by advertising the product and then identifying it by means of a trade-mark or brand name.

When a product becomes known to the consuming public through advertising it tends to become STANDARDIZED. Being produced on a large scale, it naturally follows that there comes to be a uniformity of quality of the different units. Each unit is exactly the same as every other unit bearing that label.

TRIBUTE

In memory of my aunt, Mrs. Almida Shirley:
Tis a thought that we should cherish
Life is fleeting and must pass;
We are here but for a season
Earthly things decay at last.

You have lived your time allotted
Though 'twas hard to say good
bye;
For it always brings us sorrow
When we see our dear ones die.

But we know your life was stainless
And your actions pure and just
And we know that you are resting
With the One you lived to trust.

Oh, 'tis sweet when death o'ertakes us,
And we know that life is o'er,
Just to see our home in heaven
Where our sorrows come no more.

'Twas the will of God that called you
Him to whom your thanks were
given;
May His will be done on earth
Even as it is in Heaven.

Though the family link is broken,
And we see your face no more;
We will meet beyond the river
Where all partings will be o'er.

Where the Savior bids us welcome
To a home prepared on high,
We will be again united,
Where our dear ones do not die.

SPEAKERS ARE COMING

On Monday, February 18, at 2:00 p. m. the following gentlemen will visit Nacogdoches and address the people:

J. M. White of the warehouse and marketing department.
Mr. Richardson of the Industrial Congress.

J. C. Patterson.
These gentlemen will bring messages on the important subjects of "Why We are at War," "The Nation's Need for Food and Feed," "How to Make the Soil Do Its Duty," "The War Garden and the War," "How Every Child Can Help Win the War," "Fight the Kaiser With the Hoe," etc.

These gentlemen are all specialists in the subjects about which they will talk and will bring information of inestimable value to those who will listen and appropriate it.

Just at this time much educational work is being done to make the people understand, first, the fact that we are in a great war which will tax every resource of the country, and secondly, a concerted plan and methods

People come to know just what this product is. It stands for something definite. It represents a definite value characteristic of this particular product. It becomes standardized.

In addition to this, the very fact that it does become standardized and known makes possible a greater market for it. This greater market makes possible the economies of large scale production. That is, a manufacturer who produces 10,000,000 units of a product can produce each unit more cheaply than the manufacturer who produces but 10,000 units, through having more improved machinery, being able to carry the specialization of labor to a greater degree, having less waste, and having more units of production to bear the expense of general management and overhead.

The result of this large scale production is a lower price to the consumer per unit.

by which we can obtain the greatest results in doing our part for home and the soldiers at the front are doing their bit for the living time.

Let the people of Nacogdoches county not forget this important meeting which will be next Monday afternoon at 2:00 o'clock.

DISTRICT ATTORNEY HAD BIG SUCCESS AT RUSK

The Lufkin News in its issue of yesterday makes the following mention of District Attorney O'Quinn's departure for this city and his big success in court at Rusk.

District Attorney W. B. O'Quinn left today for Nacogdoches, to be present at the opening of district court despite the fact of his being very weak as the result of an attack of bilious fever that has kept him confined to his bed for the past few days.

While waiting for the train Mr. O'Quinn made the statement that the past term of court at Rusk, Cherokee County, was one of the most remarkable in the way of convictions that he had ever experienced during his term of office as district attorney, twenty-four convictions having been secured out of twenty-six cases tried, ranging all the way from a sentence of two years to one for life, and only three of the twenty-four were suspended sentences. Another feature very much out of the ordinary was that in none of the cases was a speech made by either himself or the attorneys for the defense, the cases being turned over to the jurors without argument on either side, a verdict in all the cases being made within a very short time by the different juries after the cases had been given them.

MARRIED

Sunday morning at 11:00 o'clock, W. V. Blankenship of Longview, and Miss Mary Holmes of near Grigsby in San Augustine county, were married in this city.

Miss Holmes is the daughter of Mr. and Mrs. W. H. Holmes of that place and Mr. Blankenship is a former citizen of Nacogdoches county, having lived in Attoyac for many years. He is now engaged in the railway business, being connected with the T. & P. Ry. at Longview.

The happy young couple left on the Sunday afternoon train for Longview where they will make their future home.

The Sentinel joins their many friends in congratulations and best wishes for them through life.

FROM CAMP TRAVIS.

Private James O. Grimes happened to the good luck of getting married while on a furlough home.

Private Luther G. Hilliard, who has been visiting his home, has returned to his company for duty.

The health of Nacogdoches county boys is very good.

"Not merely satisfactory; the shooting was wonderful," according to Brigadier General "Fighting Patsy" O'Neil, Commander of the 179th Brigade, in speaking of the character of work done by the men on the target range, from which they have recently returned.

"In the first place," he continued, "the gun we are using (the re-chambered Enfield, known as the Model 1917 U. S. Rifle) has turned out to be a magnificent gun. It is almost fool-proof. Indeed, out of the 5262 men who participated from this organization in target practice, not one was injured.

"Furthermore, not five per cent of the entire number of those shooting fell below qualifying at the rectangular target in slow fire, while a surprisingly large number made 25 hits out of 40 shots at a target that could hardly be seen.

"The men of the 179th Brigade," said the general, with a smile that showed that he shared the feeling with his men on this point "are now priding themselves on the fact that they justly deserve the name 'Squirrel Hunter Brigade.' And it was the 'Squirrel Hunters,' you remember, that won the Battle of New Orleans."

The period spent in training at actual shooting has produced results not merely in skill of the men with their weapons, but in their confidence in themselves, as well as in their weapons. Many of them, it must be taken into consideration, had never held a high powered rifle in their lives before coming into the national army, and some had no previous experience whatever with firearms of any character.

THE SPRING TERM OF DISTRICT COURT BEGINS

From Monday's Daily.
The spring term of district court convened today with his honor Judge L. D. Quinn on the bench.

This week will be devoted to non-jury civil business; the second week to jury civil, third to fourth to ordinary felonies, fifth to capital cases, and the sixth and seventh to wind up anything that has not been finished, or any new business available.

The grand jury was convened this morning with the following well known citizens of the county serving: M. S. Dale, Foreman; J. S. Daughtry, R. L. Williamson, R. S. Crawford, C. E. Gray, L. N. Lyles, J. T. Anderson, G. A. Roney, W. E. Hanna, C. H. Carroll, J. D. Blakey, J. F. Floyd, Door Bailiff, H. Holbeck, R. B. Balliff, A. J. Hagan, T. G. Vaught, A. D. Brewer, C. Y. Wilson, Lee Rector, B. L. Grimes.

From Tuesday's Daily.
Eight divorce cases were tried and divorces given in the District Court today, Judge Quinn presiding.

Other cases for divorce will come up before the court tomorrow for hearing.

In today's session the docket was set and the court got down to business. There will probably be much business coming before the court this term.

From Wednesday's Daily.
Ten cases of divorce were tried in the district court yesterday, each petition being granted as follows:

H. S. Crimp vs Maude Crimp. Granted with 1 year provision.
Tom Waggoner vs Francis Waggoner.

Mary Maxley vs West Maxley.

Mayme P. Drake vs Harry W. Drake. Provisional, child to plaintiff.

Debora Blankenship vs Abe Blankenship.

Mrs. E. E. Church vs. L. H. Church. Year's provision about marriage.

Wm. L. Warren vs. Robbie Warren.

Will Watts vs. Arie Watts.

W. Henry Hargis vs. Mrs. Ernest Hargis. Children awarded to plaintiff.

Nettie Oliver vs. Albert Oliver.

Over one hundred cases have been docketed for appearance in this term of court, listed as follows: Seventeen cases on Civil docket, jury trials; forty-five cases on Civil docket, non-jury trials; and over forty criminal cases, only two of these, however, being murder cases.

Very little business transpired in yesterday's session of the district court. The only business claiming the attention of that department of justice being the transfer of the case against Mrs. Boozer to Shelby county, by agreement.

Notice was filed that the case of Mrs. Roebuck and Williams charged with murder in San Augustine county had been transferred to this county. The case will probably occupy the attention of the court at some later sitting of the present session.

FEED FOR SALE.

Just received, car maize heads, car rice bran, car red rust proof seed oats. Car bone dry ear corn. See or phone Marcus Smith at Elevator Warehouse. Office phone 271, residence phone 388. 24w/10

POSTOFFICE WILL MOVE

ABOUT FIRST OF MONTH

The Sentinel gets the information from Postmaster Donegan that he hopes to move the postoffice into the new building about the first of March.

Work on the new building has all been finished except a few little details which will be out of the way and the building accepted by this time.

In the new quarters all the furniture and everything connected with the equipment will be new. As Mr. Donegan expresses it nothing from the old will be moved but the stamps, mail and supplies. And while the building is not so imposing in its appearance from the outside as was expected, the interior is said to be a model of perfection in its appointments and workmanship, designed especially for the convenience of the enterprise that will occupy it, and the postmaster and his force of helpers are therefore anxious for the day of possession to arrive.

DEATH AT SHADY GROVE.

The undertaking department of Casson, Monk & Co., report the death of Mrs. E. L. Chalk, which sad event occurred, at her home in the Shady Grove community this morning (Wednesday) at 1:30 o'clock. The funeral service will be held at the Shady Grove cemetery at 3:30 this afternoon, Rev. Gerrard, conducting the service.

Mrs. Chalk is survived by her husband and a six-year-old daughter, who have thus been robbed of the best friends they had in the world, and whose hearts are bleeding in grief over the great loss they have sustained.

Mrs. Chalk was the daughter of Mr. and Mrs. Sam Stanley, well known citizens of the county.

TIMPSON BOY DIES IN THE AVIATION SERVICE

Mr. and Mrs. Jim Thrash of this city are in receipt of a message bearing the sad news that their nephew, Ernest Shipp, who was engaged in the aviation service near Houston, was dead; and that his remains were being shipped home for interment today.

The young man was about twenty-four years of age, and was a son of Mr. and Mrs. B. M. Shipp, well known and highly respected citizens of Timpsion. He was an upright, honorable, patriotic young man, and while he did not get to the battlefield, he has given up his life for the cause of his country, and thus the war has brought sadness to another East Texas home.

Mr. Thrash and son, Albert, will go up to Timpsion this afternoon to attend the funeral, Mrs. Thrash not being well and unable to make the trip.

WILL MAKE NO EXCEPTION IN THE SALE OF FLOUR

The firm of Thomas & Richardson of this city wired State Food Administrator Peden the following message:

"Doing a general merchandise business. Handle groceries only through spring or credit season. Sell to farmers specified to cover with. We try to select our credit customers who have their own meal at home. How can we supply this trade with specified amount of flour? Wire answer, collect."

In answer to the message the local firm received the following: "Referring to your telegram I endeavored to get exceptions in cases like yours, but Washington wires on account of serious situation no exceptions permitted, therefore necessary for you to get the flour substitutes and sell pound for pound."

From this official notice, the customers of this store and the other stores of the city will understand that they have no other alternative, and that when flour is purchased an equivalent of substitute must also be purchased.

SHIPPING BOARD WANTS 250,000 SKILLED MEN

WASHINGTON, Feb. 10.—An attempt to enlist at least a quarter of a million skilled workmen in its shipyard volunteer reserve will be made this week by the emergency fleet corporation, through state councils of defense. The week has been designated as registration week in every state.

The purpose of the reserve is to create a body of skilled workers who can be called for service in the shipyards when needed. The classes of workers especially sought are:

Acetylene and electrical welders, asbestos workers, blacksmiths, angle-smiths, iron-forging men, flange turners, furnace men, boilermakers, riveters, reamers, carpenters, ship carpenters, dock builders, chippers and chalkers, electrical workers, electricians, wire men, crane operators, foundry workers, laborers, locksmiths, template makers, machinists and machine hands, painters, plumbers, pipe-fitters, sheet-metal workers, cooper-smiths, ship-fitters, structural iron workers, erectors, bolters-up, cementers and crane-men.

Mrs. E. M. Hattaway and children left today for a visit to her father and mother, Mr. and Mrs. J. Bishop, in Alameda.

SWIFT LOCALS.

SWIFT, February 11.—The health of the community has greatly improved since last report. Several who had measles are able to be up and at work. Only a few new cases to report.

Mrs. Nellie Donahue of Houston, after having spent a few days as guests at the home of Mr. and Mrs. H. L. Chandler, returned to her home last Wednesday.

Mr. Edgar Thomason and Prof. Layton visited our community last Thursday afternoon in the interest of more food production. There were only a few out to greet the speakers, the cause being sickness. We are grateful that we have the promise of these gentlemen again soon, and we hope that the health of the people of our community will be good in order that a large crowd will be permitted to attend the next meeting. More food production is one kind of business that should be everybody's business, because the welfare of everybody depends greatly on more food production, and we assure you that this community is no slacker in the matter. If anybody doubts this statement just wait until we get well of the measles and we will show you.

Mrs. Lee Dickerson of Melrose is spending a few days in the home of Will Adams, she having come to help take care of the sick in that home.

Mr. H. I. Chandler has sold his land, stock, farm implements and feed to Mr. Jim Lee. Mr. Chandler intends to give Mr. Lee possession as soon as his family's health will permit.

Messrs. Tom Patterson, Will Turner, Martin Rucker, Arden Rucker, Joe Powell and Austin Cordova have joined the telephone company.

Mrs. Vira Chandler is sick with typhoid fever.

Our school, after being closed down one month on account of an epidemic of measles, started again February 5th.

Hampton Ridd and wife have moved to the Lawrence Haltom farm.

It will soon be time to begin the planting of our crop. Let us all remember to plant a large per cent of our crop in feed.

EMMETT STONE DEAD.

From Wednesday's Daily.
Emmett Stone, son of Mr. and Mrs. Will Stone, died at the home of his parents in this city last night about 9:00 o'clock, following a few days illness with pneumonia.

The remains of the young man will be laid to rest in the Stone graveyard, six miles west of the city, with Rev. J. L. Massey officiating in the funeral service.

The young man was about twenty years of age. He had worked with the City Bakery for a time recently, and was well known to many of the people of the city as a good, quiet, ambitious young man, in every way worthy of their respect and esteem. Had his life been spared he would doubtless have made a good and useful citizen, and it is one of the sad verdicts that we cannot understand why he should be cut down.

Many friends will enter into profound sympathy with the bereaved family in their hour of great grief.

TEACHERS CALLED TO HELP THE RED CROSS

County Superintendent Layton has received a letter from State Superintendent Doughty asking him to line up every teacher in the county in the matter of organizing Junior Red Cross Auxiliaries.

This call comes direct from President Wilson, through this channel, to the teachers, and the teachers are urged to push the movement.

The teachers can get all the information desired, and supplies from Prof. Layton or County Chairman Rev. C. D. Atwell.

A COLORED SCHOOL SETS GOOD EXAMPLE

Queen Clever, teacher of the Oak Ridge colored school, district No. 17, interested her pupils in the matter of thrift stamps to such an extent that they have enlisted one hundred per cent, each of the twenty pupils of the school making purchase of a stamp.

This is a good example which might profitably be employed by every school in the county.

Private D. D. Rusk, who has been visiting his grandfather, Mr. John Rusk in the Rusk school house community, was here today en route to Fort Crockett, where he is enlisted in Battery "F." Private Rusk is a great nephew of the late Thos. J. Rusk and says he intends getting the Kaiser. When a "Rusk" feels that way about it there is little room for the common people to worry as the history of the family has always been that they got what they went after. His grandfather, Mr. John Rusk, accompanied him to Nacogdoches.

A DOUBLE WEDDING.

At the home of the officiating minister, Rev. Mr. Smith, about 3:00 o'clock last Sunday afternoon, Miss Essie Lee, daughter of Mr. and Mrs. Moscow Lee of the Trinity community, and Mr. M. D. Coats, son of Mr. and Mrs. Urton Coats of the Fairview community, and Miss Vallie Smith, daughter of Mr. and Mrs. S. P. Smith of the Fairview community, and Mr. D. C. Head, son of Mr. John Head from near Woden, were married.

These happy young people all belong to good families of the county, and have a large number of friends in the circle of their acquaintance, with whom The Sentinels joins in congratulations and good wishes.

DECLARES ALLIES WILL APPROVE WILSON'S VIEWS

PARIS, Feb. 12.—All the entente allies will approve the laws formulated in President Wilson's message, says the Temps in an editorial today, dealing with two striking items of news—the declaration of peace, made by Leon Trotsky, the Bolshevik foreign minister, and President Wilson's reply to Count von Hertling, the German imperial chancellor, and Count Czernin, the Austrian foreign minister.

Mr. Wilson's plan is welding together the economic and territorial stipulations, the newspaper says, impels Germany's directors to accept a just peace, for they fear a boycott after the war, which would ruin them.

Trotsky's gesture, encourages them to prolong their war of conquest through the possibility of obtaining provisions in Russia.

The Temps comments on each of the four principles laid down by President Wilson, saying the first implies entente allies cannot recognize any arrangement imposed by violence or trickery that proposes to consider the arrangement in Eastern Europe as an isolated matter.

APPEAL HALTS SEARCH OF SWIFT & CO'S VAULT

CHICAGO, Feb. 12.—Attorneys for Henry Veeder, general counsel for Swift & Co., today filed a writ of error and obtained a supercedes court of the United States circuit court of appeals in the government's search warrant case, over the protest of legal representatives of the government, with the result that further search of the vault of the packer's lawyer for evidence in the federal trade commission's investigation will be delayed until March 1. On that date the three judges of the United States circuit court of appeals will review the case and pass upon the validity of the government writ, issued under the search and seizure section of the federal espionage law.

Francis J. Heney, counsel for the federal trade commission, declared that the delay resulting from the appeal of the case by the counsel for Swift & Co., will not seriously hamper the government agents in the investigation and prosecution of the alleged felonies charged in the affidavit, on which the search warrant was issued.

GOV. HOBBY WILL ASK FOR SOLDIERS FRANCHISE

AUSTIN, Feb. 12.—In a statement today Governor Hobby said he proposed to submit at the coming special session of the Thirty-Fifth legislative amendment to the election laws which will permit Texas soldiers to vote in the primary election next July.

This means that the election laws pertaining to nominations of state officers will be considered and submitted as recommended by the legislative investigating committee. The governor believes that the soldier who is serving his country away from home should not be denied the privilege of casting his ballot in a state election. Attorney General Looney held that soldiers and sailors could not be legally permitted to vote in primary elections.

To permit soldiers to vote, would affect about 150,000 men who have joined the colors from this state.

Mr. J. H. Openshaw, who has been serving as mail clerk at the post office the past several years, is leaving for Newport, Ark., where he will take a similar position. Mr. B. C. Castleberry, one of the rural carriers, will come into the office on the first. During his residence with us, Mr. Openshaw has proven a good citizen, and he and family have made many friends who regret to lose their citizenship.

Mr. George H. Haltom is in receipt of a communication today from Mrs. John Forse at Fort Worth to the effect that Mr. Tom Muckleroy who has been so sick the past few days is much better. This will be good news to the friends of the young man over the county who have been so anxious as to his condition and who trust that he will speedily recover from his illness.

Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work"—Mrs. B. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KIMBLE, 935 West Race Street, Portland, Ind.

Every Sick Woman Should Try

LYDIA E. PINKHAM MEDICINE CO. LYNN, MASS.

NACOGDOCHES TRADITIONS

The present war is world wide in its bearing. In certain sections it is distressful beyond description. To Nacogdoches it seems almost unbelievable. But in 1868 and in 1864 the local distress here and of course in all of the United States, the anxieties and heartaches were far more general and not less intense than is the case today.

Then every able bodied man between the ages of 18 and 45 was in the army. Many overs, and unders were also in it, and many others who were exempt. Patriotism ruled, and enemies at home had to hide out. Some of this class went to foreign lands Beyond the Rio Grande was a favorite refuge. Across the ocean was also a way of escape, and other dodgers "took to the bushes". Real deserters were not few, all such were hunted, chased and exterminated by the officials. The Confederates joined some regular organization or service. One of the earliest bunches of boys who went in was about 50 from town who joined Aycock's company at Rusk, and went in Pyron's regiment to Arizona. Another went in to Frank Benton's company at San Augustine and served in Virginia. The Fall boys and Jno. N. Wilson, of Chisano and Jno. O. Brown of Martinsville were in this company. Then came Regent's cavalry company, later known as Alexander's that went to Santa Fe, N. M. Marion Rainbolt and John Norvell were in this. Then came Clark's company, afterwards commanded by Capt. A. I. Simpson. Then Leavelle's company from Linn Flat, afterwards Capt. F. Voigt's company. These were followed by Nobel's company. Dr. W. P. Fears was their last captain, Lawrence Taylor and Ed. Whittaker were in it and Jim Halton and Jim Curl were in this Crondriff's company and Bruton's were others that went from here. Each of these companies had, as a rule, about 100 men—fighting men—of the best blood in the land. Imagine the anxieties and heartaches that were left behind all of these soldiers who went to the war offering their blood and their all for the country. Mothers, sisters, fathers, friends and relatives sorrowfully waited and worked for their loved ones gone—many never returned.

The distress and solicitude for these battling heroes reached its pinnacle in the spring of 1864 when General Banks, with a well equipped force, landed on Red River, La., with the cry of "On to Texas," and General Taylor's army was there to resist. It was Kirby Smith's army, but he happened to be absent and Taylor "took the bit in his mouth" and did the deed that saved Texas and rescued Louisiana. When this was brewing all Texas stood aghast. Imagine the feelings of the folks at home. Their dear ones were confronting the hostful enemy. Lives and homes and all at stake. A battle royal was on the bill. It culminated at Mansfield and Pleasant Hill on two successive days, April 8th and 9th—Texas was saved by Texas heroes—Victory was theirs. But whose boy lost his life? Oh, for tidings to home.

There was one particular letter written back by one surviving soldier, Kirby Smith's army—it was read by his parents and by many anxious inquirers who came from far and near. This letter was not especially remarkable, but its news was desired by so many anxious inquirers. So the boys who today are gone to the war ought to write back home on every opportunity, and people at home ought to write to these worthy sons of the soil who are fighting for freedom for the entire world. Send papers, and send every thing possible to show that we are appreciative.

J. E. M.

LOCAL MERCHANT RECEIVES AN IMPORTANT RULING

Taylor Bros. grocery merchants of this city, are in receipt of the following letter from the Federal Food Administrator, which is self-explanatory, and which they request be published for the information it contains:

Houston, Texas, Feb. 6, 1918.

Messrs. Taylor Brothers, Nacogdoches, Texas.

Gentlemen:

Replying to your favor of the first inst., I beg to advise that you can consider the amount of meal a farmer has on hand, ground from his own corn, as 25 per cent of the amount of flour desired to be purchased. For example, if a farmer desires to purchase a 48-pound sack of flour you can consider the amount of meal he has on hand, regardless of the quantity, as 12 pounds, and you must sell him 36 pounds of the various substitutes mentioned in the special rules for retail grocers enclosed.

Yours very truly,
E. A. PEDEN,
Federal Food Administrator for Tex.

U-BOAT PAYS PENALTY FOR ATTACK ON TRANSPORT LONDONDERRY, Ireland, Feb. 7.—The submarine which torpedoed the Tuscania was attacked by a destroyer. An American officer gave an

Southern Hospitality includes Luzianne

CHEERY, whole-hearted, Southern hospitality—it's almost a magic phrase for many. But really it stands for honest friendship, cordiality and (you've guessed it) lots of delicious goodies.

Luzianne Coffee is always included in Southern hospitality because it tastes so good. Fragrant hot coffee for people who know what's good—that's Luzianne.

Good old Luzianne flavor—um-m-m!—better try some quick. Your grocer has it—and if you aren't satisfied, he'll give back every cent—honest!

LUZIANNE coffee

"When It Pours, It Reigns"

THE JOBSON PLOW

It's Up to Now

The Jobson System is sweeping the country. It produces the largest yield at lowest cost. The common sense method of deep plowing and bigger crops on the farm. Every Texas farmer should own one. Costs only \$3.00 complete, delivered. Send for free literature. Address ELLAGENE FARM, State Agent, Aldine, Texas.

FORTY-FOUR VICTIMS TUSCANIA WASHED UP

An Irish Port, Feb. 7.—The bodies of 44 of the missing 101 victims of the Tuscania disaster were washed up on the rocks 15 miles from the scene of the torpedoing. All were Americans, and their bodies were mutilated beyond recognition.

A pathetic feature is that, although all the victims were taken on identification numbers had been put on them because these Americans had not as yet been assigned to definite army units. Therefore there is no way to identify them, and they will be buried in one grave.

An Irish Port, Feb. 7.—Most of the missing Americans were lost through the Tuscania's sudden heavy list after being torpedoed, which caused faulty launching of the life boats. The torpedo struck the Tuscania a vital blow amidships, causing her to list almost immediately to starboard. The Tuscania's sudden death—she "shipped" through her—and she heeled over as a dangerous angle. The list so elevated the lifeboats on the port side as to render them practically useless. Only a few boats on that side were launched.

The first of these struck the water unevenly, capsizing and throwing the occupants into the sea. Several boats were launched successfully, but the vessel's list became more perilous, and men who were trying to get into the boats from the starboard side climbed along the deck to the rail, to which they clung.

Many by this time had donned life belts and jumped overboard. Hundreds of other were preparing to follow when a British destroyer boldly drew up alongside the Tuscania and took off several hundred men and moved away. She had come up along the starboard side.

A mass of wreckage on the calm sea along the Irish coast marks the grave of the Tuscania, the first American troop transport sunk by a German submarine. A few bodies of the 101 men who perished have been washed ashore. Some of the injured now in hospitals are expected to succumb. The survivors, numbering 2,296, are quartered in hotels, homes and hospitals along the North Irish coast.

Mr. Bonner Smith, representative of the Bradstreet Agency at Houston, and with headquarters at Tyler, is a business visitor to Nacogdoches. Mr. Smith is the son of that old warrior of the gospel, Rev. T. J. Smith, who has perhaps been the most active presiding elder and pastor of the Methodist church in East Texas of any others of that denomination, and was pastor of the Methodist church in Nacogdoches many years ago.

SOUR, ACID STOMACHS, GASES OR INDIGESTION

"Pape's Diapepsin" neutralizes excessive acid in stomach, relieving dyspepsia, heartburn and distress at once.

Time it! In five minutes all stomach distress, due to acidity, will go. No indigestion, heartburn, sourness or belching of gas or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach sweetener in the whole world, and besides it is harmless. Put an end to stomach distress at once by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by fermentation due to excessive acids in stomach.

WORTHY YOUNG CITIZEN DIED LAST EVENING

From Saturday's Daily. Mr. Charlie Lumbard at his home on Myrtle street at 6:10 last evening following an illness with pneumonia. The body was prepared for burial by the undertaking department of Cannon, Monk & Co., and the funeral service will be held at the residence at 3:30 this afternoon, Rev. J. L. Massey, pastor of the Methodist church officiating. The remains will be laid to rest in Oak Grove Cemetery, with Messrs. Claude Barrett, Jim Horn, Elmer Gaston, H. T. Mast, J. D. Brown and Wilton Blakey acting as pallbearers.

Mr. Lumbard is survived by his widow and four sisters. As noted in yesterday's paper, his spirited old mother, a sister and a brother have preceded him to the unknown world during the past few weeks, all being victims of the same deadly pneumonia, with which he suffered. He was twenty-four years and two days old, and previous to his recent illness was in the enjoyment of good health, with the promise of a long and useful life lying out before him.

Previous to his illness Mr. Lumbard was employed by Mr. Jim Horn in the City Garage, and the garage has remained closed today out of respect to him. He was a good workman, a good man and a most quiet, unassuming citizen, and enjoyed the respect and esteem of all who knew him.

The Sentinel joins the many friends of the young widow, the father and sisters in a feeling of profound sympathy in the great loss they have sustained. This death, following so close to the loss of other loved ones, must make life seem indeed a tragedy to them, and certainly impresses the uncertainty of the earthly existence.

MERCHANTS' EXPOSITION TO BE PROMOTED HERE

Mr. W. J. Wile, known all over Texas as the "human magnet" in promoting exhibitions of a highly interesting and educational nature, is in the city arranging to promote an exposition and auto show here beginning at some time between the 20th and 25th of February.

Mr. Wile has arranged for the lower floor of the new garage building now in course of construction on the lot formerly occupied by the Davis livery stable to be occupied by the Nacogdoches Garage Co., which will be in shape by this time and furnish ample space for the enterprise. The building will be provided with hundreds of brilliant lights of dazzling colors.

The county people will be invited to attend, free, and special admission tickets will be furnished the business people of the city, to mail out, and hundreds are expected to attend. Every class of business will be invited to take space and make an exhibit, and much business will be the reward to the firms taking part.

Among the features, a baby show will be given and gold prizes awarded. A Bread and Cake contest for cash prizes, as well as plenty of clean, wholesome amusement, and good music by the exposition band. In fact, it will be one of the most beautiful and educational exhibitions ever held here.

Everybody should boost a good thing that will advertise the city abroad as well as at home.

Mr. Wile comes highly recommended

ed as a specialist in this line, having promoted similar enterprises in Houston, Austin, San Antonio and the other larger cities of the state, as well as in many of the smaller cities. Further announcement will be made of the program to be rendered and the general arrangement as soon as the details can be worked out.

E. & W. SERVICE FOR THIRTY YEARS

Every person who travels knows "Bob".

Bob is the colored brakeman on the H. E. & W. T. railroad and runs from Houston to Shreveport on "The Rabbit".

For thirty years Bob has been making this run, and is one of the oldest men, perhaps, in the service of the company. The traveling salesman who make the towns along the line of the E. & W. are all acquainted with Bob, and there is none of them who fail to acknowledge him. Because Bob is always accommodating and always ready to be of any service to anyone who chances to be a passenger on the train on which Bob runs.

"Bob's" real name is Holmes, R. L. Holmes, and began his career with the E. & W. in 1887; that was 30 years ago and Bob was just twenty-three years old. Last Saturday, February 2nd, was the anniversary of his service marking the thirty-first year of his milestone as brakeman.

Few negroes can boast of a record like that, yet Bob takes it as a matter of fact and goes about his business in a matter of fact way.

Bob knows Nacogdoches well, and says that he used to stop off here frequently.

There have been many changes in this town he says since he first began passing through, and no one likes to see the city grow better than does Bob. "Nacogdoches always did look good to me," he said.

SAVE THE HENS.

WASHINGTON, D. C. Jan. 6.—Every laying hen sold from the farms before the first of May means a loss of about 30 eggs to the food supply of the nation. These eggs are valuable food, manufactured largely from insects, weeds, and grass, garbage and waste. The eggs, therefore, are almost wholly a net gain in human food. Moreover, the hen is just as good meat after she has laid these eggs as before.

Save the hens is the message that the United States Department of Agriculture is sending broadcast through press notices and posters, and through its county agents, especially in the southern poultry-raising sections.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver, and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

intimation that the submarine was destroyed.

This officer was next to last to leave the Tuscania. He gave the Associated Press a vivid account of the disaster.

The second torpedo fired by the submarine missed its mark, he said. Thereupon a destroyer which was near the sinking liner dashed off toward the submarine, using a bomb dropping device. The claim is made that the submarine was "done in" by the bombs thus exploded.

MONUMENTS

All kinds of cemetery work finished by the latest improved methods, large stock always on hand. Good workmen. Best material, prompt service.

FIFTEEN COUNTY BOYS TAKE FURTHER EXAMINATION

Fifteen young men of Nacogdoches county, Messrs. Audley Harris, Eugene Rectpr, Lawrence Herrin Eddie Popp, Wiley E. Dorman, Louis Shumway and Bernice Wheeler (colored) of Nacogdoches; D. G. Bates, Nat; Oscar H. Moore, Douglas; J. H. Crawford, Chifeno; Joe Scroggins, Garrison; Alvis Baker Swift; Noah Palmer, Appley; Emmett D. Hancock, Waterman; Tom Manschaca of Cleveland, are in Beaumont today appearing before the Advisory Exemption Board for further examination for limited military service.

It is a ruling of the department that when the local board finds a registrant physically fit for only limited service, or in any matter in which there would be a question of contest, the registrant shall be sent to the advisory board, and after passing this last board, he is held subject to call where needed.

After passing this examination these young gentlemen will return home and remain until they receive call, which may be any day. The government defrays the expense of sending the registrants to the advisory board.

We understand that another group of young men will be sent to Beaumont the latter part of this week, and from time to time until the list is completed.

Mr. R. S. Robinson, who has been visiting his parents, Mr. and Mrs. J. N. Robinson in the Prairie Grove community, left today for his home in Houston. Mr. Robinson has been away for several years and says there are a great many improvements here which he is glad to note, and which have occurred since he left to make Houston his home.

CHILDREN NO EXCEPTION.

In Nacogdoches as Elsewhere Youth and Age Suffer Alike From Kidney Weakness.

Is your child weak, frail and pale? No control over the kidney's action? Kidney weakness is a serious thing—Far too serious to overlook. It may mean a life of sickness. Profit by Nacogdoches experiences. Endorsed by Nacogdoches parents. Read this Nacogdoches parent's endorsement:

W. H. Johnson, grocer, S. Fredonia St., Nacogdoches, says: "I know Doan's Kidney Pills are a fine kidney medicine, as we have used them for a long time. My children have taken Doan's Kidney Pills with excellent results when suffering from spells of weakness of the kidneys."

60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

SOME IMPROVEMENTS GOING ON AT SACUL

From a visitor from Sacul, the Sentinel learns that some improvements are being made at that place, chief among them being a new bungalow, which is being erected there by Mr. J. O. Applewhite, also a new residence which the popular merchant, Arkan Cranford, is erecting. Several homes are being re-shingled, it is reported, and other good improvements being made.

TOM HILL DEAD.

from Saturday's Daily.

News has been received in the city that Tom Hill died at his home some five miles west of town about noon today.

The funeral service will be held at Union Graveyard, six miles West of town on the Douglas road, tomorrow afternoon at 2:30, with the Masonic fraternity in charge.

Mr. Hill had been quite sick for some days with pneumonia, and his death had been expected for some hours before it came. He is a son of the late T. J. Hill and wife, pioneer settlers of the community, and was about forty years of age. Having been reared in the community, Mr. Hill was well known and prominently connected, both in town and vicinity, and many friends from town have been visiting him during his illness. He was a good man and a good citizen, and many hearts will be made sad with the news of his death.

COWS—MILK—COWS

BLACKBURN & MAST

Horses, Mules, Cows Lock's Cotton Yard

Prof. J. C. Shultz returned to Woden this morning after attending the bedside of Mrs. Shultz here Sunday. He reports her condition as much better today.

Mr. and Mrs. J. H. Hutton, Jr., with their two little daughters, returned to their home in Dolan yesterday after a visit to relatives and friends in the community.

Mrs. Chas. Wright who has been here visiting Mrs. H. H. Hall and attending the bedside of Mrs. J. C. Shultz at Tucker Sanitarium, left Sunday afternoon for her home in Elderville, Gregg county.

Mrs. G. B. Engledow, assistant deputy grand matron of the Order of Eastern Star, left yesterday for Tenaha, Brooklyn, San Augustine and other points, and will be away this week on a round of official visit.

A YOUNG MAN WAS FOUND DEAD IN BED

A young man by the name of Hartt, living with his parents in the northern part of the county, was found dead in bed a few mornings ago. He is supposed to have suffered an attack of apoplexy.

When the young man retired at night he was to all appearances as well as usual, but when his father tried to wake him up the next morning he was found cold and stiff in death.

The young man was related to Frank Hartt of this city.

WODEN LADY DIES.

From the undertaking department of Cason, Monk & Co., The Sentinel gets the information of the death of Mrs. Sarah E. Knox, which sad event occurred at her home in Woden this morning at 1:30.

The funeral service will be held and the remains laid to rest in the Jacobs Chapel burying grounds this afternoon (Tuesday) at 3:00 o'clock.

Mrs. Knox was about seventy-six years of age, and is survived by three daughters and five sons. She has been a member of the Methodist church since childhood, in which she lived a consecrated christian life, and was a sainted old mother who was loved and admired by all who knew her.

Edwin Tillery watermelon seed for sale by Swift Bros. & Smith 18-3td1w

FROM MONDAY'S DAILY

Mr. Joe Heaslett of Poe, was in the city yesterday.

Mr. C. E. Gray of Chifeno was a Sunday visitor here.

Mr. Claude Whitehead of Sacul, was a Sunday visitor here.

Mr. W. I. Wortham of Lillert, is a business visitor here today.

Mr. Robert Mettauer, Jr., of Chifeno is in town on business today.

Ernest Westfall was among the Garrison visitors to the city today.

Capt. James W. Truitt of Tenaha was here yesterday en route to Groesbeck.

Mrs. T. U. Baker, who has been the guest of Mrs. E. C. Baker here, left Sunday for her home in Appley.

Miss Maggie Hutson returned to her home in Garrison yesterday after a visit to relatives here.

Rev. M. I. Brown, pastor of the Appley Circuit, M. E. church, was a visitor to the city today.

Miss Lillie Chancellor and sister, Maurice, were here yesterday en route to their home in Cushing after a pleasant visit to relatives in Lufkin.

Mr. Rufus Glenn arrived today from Garrison, coming here to attend physical examination before the local exemption board.

E. Chandler was among the visitors from the Garrison country to the city today.

Corporal Hardy Smith of Headquarters Company, 111 Trench Mortar Battery, Camp Bowie, was here yesterday en route to Fort Worth after a visit to his sister, Mrs. Athey, at Burke.

Come early to get the famous Tillery watermelon seed. Swift Bros. & Smith. 13-3td1w

Rev. and Mrs. M. C. Johnson were made very happy in the receipt of a letter from their son, Rider Johnson, who is with the 28th division of the aerial squadron in France. The letter was written on the 28th of December and was the first they had received from him since he left the United States. The young man announces that he is enjoying good health, but says that the winter is very severe.

Do you like Ed Tillery's watermelons. Get the seed from Swift Bros. & Smith. 2td1w

Thrift Stamps—good investments.

W. B. Jordan, living out on Route No. 2, was a pleasant caller at the office Monday, coming in to have his name enrolled on the subscription list. Mr. Jordan is a new-comer to the county, moving up from Polk county some weeks ago.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists.

Houston, Texas, December 3, 1917.

Mr. G. F. Conant, President,
East Texas Oakland Co.,

CITY

Dear Sir:

On November 4th, in company with a party of friends I made a trip from Houston to Clear Lake in Oakland cor No. 2362234, Motor No. B-26250. Before starting the return trip a careful measurement of the gasoline was made. After returning to Houston, a distance of 32 miles, we had only consumed one (1) gallon of gasoline. The 32 miles were covered in a little less than 50 minutes.

Doubting this result, measurement were taken the following Sunday over the same route, with the result that the thirty-two (32) miles were covered twice, each time on one (1) gallon of gasoline.

The trip the second time was made after a heavy rain and the road was not in the best of condition, however, the car did not consume but one gallon for the entire trip.

If it is so desired this statement can be verified by the parties who accompanied us on this trip.

Yours very truly,
(Signed) MRS. J. LOEB.
