PRESIDENT'S PROCLAMATION

THE WHITE HOUSE
Washington, D. C.

TO THE PEOPLE OF THE UNITED STATES:

I earnestly appeal to every man, woman and child to pledge themselves on or before the twenty-eighth of June to save constantly and to buy as regularly as possible the securities of the government, and to do this as far as possible through membership in war savings societies. The twenty-eighth of June ends this special period of enlistment in the great volunteer army of production and saving here-at-home. May there be none unenlisted on that day.

WOODROW WILSON,
President of the United States.

Pursuant to the above named proclamation of the president of the United States, the person receiving this card is hereby summoned to attend a meeting at the schoolhouse in his home school district on Friday, June twenty-eighth, nineteen hundred and eighteen, promptly at two o'clock. Read the papers for full particulars concerning these meetings, which every loyal person is expected to attend.

LOUIS LIPSITZ,
Texas War Savings Director, under Authority of the United States Treasury.

With more than five months of the war savings campaign already gone, Texas up to June 1 had invested but \$13,617,847.50 of its \$91,000,000 quota in United States Government War Savings Stamps. This announcement was made by Louis Lipsitz, State Director of the National Stamps it will be forever disgraced, and not even its glorious history and past service can remove the taint of slackerism which failure to back up the government in its time of greatest need will mean. If every man, every woman and every child does not save and invest to the limit in these government bonds, he will have proven deaf to his government's request, and have laid himself liable to the most serious of charges.

"The per capita investment of Texas in War Savings Stamps on June 1 amounted to the paltry sum of \$3.85. On that date, Mr. Lipsitz declared, "the purchase records should have shown that every man, woman and child in Texas owned \$8.33 in War Savings Stamps.

"If Texas keeps poking along at this slow pace, the State's \$91,000,000 War Savings Stamp quota, which the government confidently expects Texans to purchase in twelve months, will not be sold until the campaign has run full thirty-three months, or just three months short of three years.

"If we are to hold up our end of the work assigned by the Federal government, if we of Texas are not to be listed as slackers, then things must commence to happen. Texans are going to have to wake up to what the government expects of them, or Texans are going to learn that he government thinks little of them," the State Director declared.

"If Texas does not invest full \$91,000,000 in War Savings Stamps it will be forever disgraced, and not even its glorious history and past service can remove the taint of slackerism which failure to back up the government in its time of greatest need will mean. If every man, every woman and every child does not save and invest to the limit in these government bonds, he will have proven deaf to his government's request, and have laid himself liable to the most serious of charges.

"No less person that President Wilson himself has emphatically declared that the person who does not save and heed the injunction of the government can never hope or expect to be excused or forgiven." Mr. Lipsitz said.

325,000 Soldiers Training in Texas.

"There are now in Texas no less than 325,000 soldiers in training. Upon each man the government yearly expends \$1,000. This means that in Texas alone the government is spending for its soldiers \$325,000,000 a year, or nearly \$1,000,000 a day. This money is spent in Texas. It goes into Texan's pockets.

"With the best prices in the history of the state, the most prosperous time recorded, with every one getting a wartime wage of fat figures, I cannot believe that the people of Texas will fail to lend to the government \$91,000,000 for War Savings Stamps—a sum that is just a little more than the amount the government spends in Texas every ninety-one days in buying

provisions, clothing and supplies for the troops training here.

"The men and women of Texas, particularly the men, have had a misconception of the government's War Savings Campaign. They have not understood its great significance. The realization that it is upon the War Savings Campaign the government is basing its entire war-time financial program has not commenced to dawn upon us," Mr. Lipsitz declared.

"Many of them have thought the War Savings Campaign a movement inaugurated for the instruction of children in frugality. They have wholly and completely missed the big idea—that the government is trying to teach the men and women, the grown folks of his country the great lesson which means success of the Government economic program. And in speaking of children I want to pay them this compliment. That it is to them that the Government is indebted for the larger part of the \$13,617,847.50 which has been invested in Texas in these Government securities and they have piled up the greater part of the amount through the purchase of little 25c Thrift Stamps, while the grown-ups have been overlooking the big War Savings Stamps, heir-duty to the Government and a most excellent investment.

WILL BE GIVEN OPPORTUNITY.

"Now the men and women of Texas, the grown-ups, are going to be given an opportunity to show what they can do. By solemn proclamation, President Wilson has called upon the men and women of Texas to make to the Government on or before June 28th, National War Savings Day, their pledge, showing to the United States Treasury Department the great amount they can save and invest in United States Government War Savings Stamps. That the men and women may realize the vital importance of the campaign and exactly what the Federal Government expects of them, President Wilson, through the Treasury Department, has instructed that every adult be called by Federal by Federal summons to appear at meetings to be held June 28 in every school district and there make his solemn pledge to the Government. Children have not been summoned, they are doing their part; they are making a success among themselves of the War Savings work. It is the older persons whom the Government instructs to be at these meetings.

"I am confident that after the count of pledges is made the night of June 28, it will be possible to notify Secretary William G. McAduo, Texas has gone over the top. I know Texas people. Ninety-five per cent of the citizens of Texas are patriots and loyal to the core. Five per cent may not be, but the others will show the Federal Government how Texans and Texans stand.

"Between now and June 27, I earnestly call upon every Texan who can to buy the limit—

\$1,000—in the War Savings Stamps. I earnestly call upon every man and woman to give serious thought to their pledges and be able to make them as large as they should be when the Federal Government calls for them on National War Savings Day," said Mr. Lipsitz.

—Pledge the President—
Presidential Summons Must be Answered.

June 28th has been designated as National War Savings Day upon which the people of this state and nation are summoned together to pledge subscriptions through war savings societies to the government war saving securities. Every state has been assigned a quota which in turn has assigned quotas to each county. The counties have been instructed to assign a quota to each school district and the school district is expected to apportion a quota to every adult individual in its district.

This plan has resulted in the most complete organization of any of our war fund campaigns. Chairman Hayter of this county has had an office, force busy for several weeks making preparations for the campaign. District chairmen have been appointed in every school district and they have secured the names of everyone residing in their districts.

Quotas approximating 10 per cent of the taxable value of the district have been assigned. This rate will form the basis for figuring the quota each individual shall pledge himself to pay. The laboring man will have his quota set at ten per cent of his earnings.

War Savings securities are the best securities which the government has issued and they are designed primarily to enable the man of small means to have a part in sharing the burdens of financing the war. \$1,000 at maturity is the limit any person may buy, hence the war savings certificates must largely be taken by the people of moderate means. Liberty bonds which bear a smaller rate of interest are the securities which the government expects to absorb the earnings of the wealthy people.

There is a further method which the government has in view in the selling of war savings securities, to the wage earners of the country other than having them helping in furnishing finances for the war. The government is looking forward to the time when peace will come and our country will be thrown in competition with the rest of the world. When that time comes we must have gotten out of many of our extravagant habits and become a nation of savers thereby adding billions to the national wealth each year instead of squandering as we have been accustomed to do. After the war there will be a period of economic competition among the nations. We must be in the habit of saving so that we as a government will be prepared to make payments on our bonds which will be falling due and have plenty of capital to carry on industrial operations and keep us at the head of all the nations of the world.

In the present campaign the people are summoned by presidential proclamation to come together and pledge themselves to take their quotas of war savings certificates on or before June 28. Those in charge of the campaign in each district are instructed to take every man's reason in writing who says he is unable to take his quota. Those who are absent must be seen by the committee and the pledge taken or the reason given.

The county chairmen have been sent the following instructions for conducting the meeting in their district on June 28th: By telephone or otherwise, prior to June 28th, urge all taxpayers and wage-earners in your school district to be present promptly at opening of the meet-

How Does \$25 Per Ton For Hay Sound to You?

ALRIGHT FOR THE "SELLER" BUT ALL WRONG FOR THE "BUYER." IF YOU WANT A SPLENDID PAYING BUSINESS—BE A SELLER.

HAVE YOU THOUGHT ABOUT THIS PROPOSITION? IT'S A BIG MONEY MAKER FOR YOU AND IT WILL PAY YOU TO GIVE THE MATTER SERIOUS CONSIDERATION. WITH BUT LITTLE WORK AND A GOOD MOWER AND RAKE YOU CAN SAVE ALL THE HAY THAT YOU WILL NEED FOR YOUR OWN STOCK AND THEN HAVE SOME TO SELL TO THE "BUYER" WHO WILL GLADLY PAY THE EXTREMELY HIGH PRICES—EVEN HIGHER THAN \$25.00 PER TON.

IT'S A BIG PAYING BUSINESS FOR YOU AND YOU SHOULD THINK SERIOUSLY ABOUT IT. WE WANT YOU TO OWN A MOWER AND RAKE AND WE WOULD LIKE TO SEE IT TO YOU. WE BUY OUR MOWERS, RAKES, HAY PRESSES ETC. IN STRAIGHT CAR LOTS AND CAN AND WILL MAKE YOU A LOW PRICE. WRITE OR TELEPHONE US TO SEND YOU FULL INFORMATION OR COME TO OUR STORE AND LET US SHOW YOU WHAT WE HAVE TO OFFER.

Cason, Monk & Co.

Take with you to the meeting this letter and all enclosures.

The president of the school board will preside at the meeting and at its opening will read aloud the post card bearing the President's proclamation, the "War Proclamation" and Special Announcement," this letter and the instruction on the back of the subscription card.

Also announce that the quota for your district is \$-----
The Secretary will act as secretary and take subscriptions from each person present.

The treasurer will assist the president and secretary in the performance of their duties.

The total maturity value of War Savings Stamps subscribed for should exceed the quota named above. The meeting should not be dismissed until this is accomplished, additional subscriptions being secured where necessary.

At the close of the meeting, the Secretary will telephone to the undersigned at the telephone number indicated below, the total amount of subscriptions secured.

The school secretary will mail to the undersigned all subscription cards, which require no postage, and will also mail a list of the persons present at the meeting who decline to subscribe for War Savings Stamps, together with the reasons for their refusal, and as far as possible the names of persons not present.

Additional information and subscription cards may be secured by telephoning the undersigned. You are depended upon to perform faithfully your duty as outlined below so that this county may not fail in performing the duty required of it by our government.

Very truly yours,
M. C. JOHNSON, Secretary,
County War Savings.

Telephone No. 194.

It should be borne in mind by every person that he is authoritatively summoned in this matter by presidential proclamation and answer therefore must be made as above directed.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to letters one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. _____ had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

The Woman's Tonic

She writes further: "I am in splendid health. . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.

U. S. TAKES GREAT CARE IN SHIPPING SOLDIERS

(By Associated Press) LONDON, June 17.—No greater care and secrecy could attend the shipment of royal jewels than is observed in shipping American troops to France. To safeguard his boys Uncle Sam takes every possible precaution, from the time they embark until the transport has reached its destination. He leaves no loophole for the machinations of enemy agents.

Usually, as a result of this elaborate protective system, the trip from "An Atlantic Port" to the French or English port, as the case may be, is remarkably uneventful.

Until the troops and civilian passengers have reached the pier they do not know the name of their ship. It is only a number to them. On the regular troopships it is difficult for a civilian, unless he is engaged in war work to secure a passage. Those who manage to do so are subjected to close scrutiny, and their credentials and luggage are thoroughly examined.

Embarkation often begins several days before the transport sails. All good-bys have been said before the troops start for the ship. No relative or friend may accompany them to the pier.

Once aboard, there they remain, no shore communication being permitted. This regulation imposes no hardship other than inactivity. Until all troops have been assigned to quarters and organization has been effected, the men are left pretty much to their own devices.

No restriction is placed on writing, and bags are kept open for soldiers' mail up to almost the hour of sailing. This privilege gives many a chance to get off neglected letters and postcards, although these, as a matter of precaution, are not put into the mails until the ship has passed through the submarine zone.

Self Defense DEFEAT BACKACHE AND KIDNEY TROUBLE WITH ANURIC

Many people in Texas, as elsewhere, have suffered from rheumatism and kidney trouble and have found Anuric to be the most successful remedy to overcome these painful and dangerous ailments.

The lucky persons are those who have suffered, but who are now well because they heeded Nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's, called "Anuric." You should promptly heed these warnings, some of which are dizzy spells, backache, irregularity of the urine or the painful twinges of rheumatism, sciatica or lumbago. To delay may make possible the dangerous forms of kidney disease, such as stone in the bladder.

To overcome these distressing conditions take plenty of exercise in the open air, avoid a heavy meal, drink freely of water and at each meal take Anuric Tablets (double strength). You will, in a short time, find that you are one of the firm believers of "Anuric."

All druggists sell Anuric, or send Dr. V. M. Pierce, Jaylids Hotel and Surgical Institute, Buffalo, N. Y., 106, for trial package.

JACKSON, TEXAS, June 17.—The well pleased with the Anuric Tablets. I was disturbed three or four times at night and sometimes more. I was so well pleased with the supply of Anuric that I ordered two more bottles. It is the best medicine that ever gave me relief. I am now well and strong. I am glad to know that this is the best medicine for kidney trouble.

Dr. Pierce's Pills are sold in 25-cent and 50-cent bottles. They are the best medicine for all ailments of the stomach, liver and bowels. They are the best medicine for all ailments of the stomach, liver and bowels. They are the best medicine for all ailments of the stomach, liver and bowels.

NACOGDOCHES BOYS GO FOR MECHANICAL STUDY

Four white men and two colored men left this morning for college, where they go to take mechanical training for service in the war.

John Newman, Willie L. Allen, Jas. W. Harris and Johnnie E. Conner are the white boys who go to the A. & M. college at College Station, and Levi Curl and R. E. Curl are the colored boys who go to Prairie View Normal at Prairie View.

The boys were sent by the local Exemption Board of this county.

Bad Kidneys Laid Him Up. A slight kidney impairment may lead to dropsy or Bright's disease. Don't neglect it. MAY ARREST OTHER IRISH CONSPIRATORS

(By Associated Press) WASHINGTON, June 17.—Capture of Jeremiah O'Leary will probably be followed soon by the arrest of other Irish agitators for treason and espionage.

Mr. M. D. Coats brought a bottle containing some weevils which to all appearances are the regular cotton boll weevils to the office Saturday afternoon, which he says were taken from wild "nigger heads" which grow about his place. Mr. Coats says that he has heard that boll weevils feed on the "nigger heads" and would like more information on the subject. If it is a fact that they feed on these but do not raise on them, he wonders if it would be a good experiment to grow them in connection with the cotton to relieve it of the strain on the crop, or whether this wild vegetation should be destroyed as a part of the scheme in getting rid of the pest.

THE MAKING OF A FAMOUS MEDICINE

How Lydia E. Pinkham's Vegetable Compound Is Prepared For Woman's Use.

A visit to the laboratory where this successful remedy is made impresses even the casual looker-on with the reliability, accuracy, skill and cleanliness which attends the making of this great medicine for woman's ills.

Over 250,000 pounds of various herbs are used annually and all have to be gathered at the season of the year when their natural juices and medicinal substances are at their best.

The most successful solvents are used to extract the medicinal properties from these herbs.

Every utensil and tank that comes in contact with the medicine is sterilized and as a final precaution in cleanliness the medicine is pasteurized and sealed in sterile bottles.

It is the wonderful combination of roots and herbs, together with the skill and care used in its preparation, which has made this famous medicine so successful in the treatment of female ills.

The letters from women who have been restored to health by the use of Lydia E. Pinkham's Vegetable Compound, which we are continually publishing attest to its virtue.

SAMMIES RETALIATE WITH GAS SHELLS

AMERICANS DOWNED TWO ENEMY MACHINES YESTERDAY.

(By Associated Press)
WITH THE AMERICAN ARMY IN FRANCE, June 15.—The Americans last night hurled thousands of gas shells into the enemy's lines northwest of Chateau Thierry. This was in retaliation for a gas attack by the Germans.

WASHINGTON, June 15.—Pershing's communique reports that Americans downed two enemy machines yesterday.

MARSHAL WOUNDED SHOOTING SCRAPE

NEGRO SHOT ANOTHER 3 TIMES, 4TH SHOT STRIKING MARSHAL

BOLTEN IS ARRESTED

Matthew Bolton of Tenaha Who Did the Shooting Was Apprehended at Appleby.

Monday's Daily.
 This morning about 3:30 o'clock there was a negro shooting scrape down at the H. E. & W. T. depot in which Matthew Bolton is alleged to have shot Son Alexander three times, two shots taking effect in his side and one in the arm. A fourth shot went wild and struck Night Watchman Biggs in the arm, ranging across his breast with a flesh wound.

After the shooting Bolton fled and was overtaken near Appleby by City Marshal Woodlan and Deputy Sheriff J. M. Spradley, who placed him under arrest and brought him back to jail, where he is being held on an assault and attempt to murder.

Alexander, the injured negro, was not killed with the charge of shot he received, and was borne to the colored hospital, where he has been receiving treatment. Mr. Biggs was borne to the Tucker Hospital where he is receiving treatment. If he suffers no complications he will be able to be out in a few days, as his wounds are not thought to be serious.

The negroes reside at Tenaha, and Bolton claims that Alexander had broken up his home by enticing his wife away from him as a justification for his rash act. He greatly regrets shooting Mr. Biggs, and was alarmed when the officer informed him that he had done so, at the time stating that he was after Alexander, but did not want to hurt anybody else. Mr. Biggs verifies the statement that it was an accident as to him.

AMERICAN FLYER GETS 5 HUN PLANES

GIVEN PUTNAM NOW BECOMES ACE OF ACES WITH 13 TO CREDIT.

PARIS, June 15.—Sergeant Given Putnam of Brookline, Mass., downed five Germans on June 10th. Three of his aerial victories have been officially credited, and the other two are under investigation. If all five are official accredited, it will make Putnam's total 13, supplanting Frank Daylies, of New Bedford, Mass., as ace of aces.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

OIL MEN ARE TO BORE DEEP WELL

THOROUGH TEST WILL BE MADE OF FIELD NEAR NACOGDOCHES.

MODERN EQUIPMENT

Well Located on Matthew's Tract and Will be Known as "Matthews No. 1"

There is a proven oil field near Nacogdoches, on which shallow wells have been developed and operated in the past, and some "wildcatting" has been done for a deeper test, but with a new company that has come to us lately a test of whatever depth necessary will be made.

Messrs. V. H. Williams and T. R. McLean are the new men, and they are equipped with the best rig and material known to the trade for the work, which they now have in operation.

The new well will be known as "Matthews No. 1" located on the Matthews tract of land between Melrose and Wagon. A modern derrick 112 feet high has been erected, a modern rotary rig, purchased from the Oil Well Supply Co., has been installed, and four thousand feet of casing has been received with which to make the test. Everything connected with the work is of the most substantial nature, and the premises look substantial. The men behind the enterprise have plenty money with which to make any test they deem wise, and are optimistic with the outlook, choosing this field after investigating many others for their operations, and they give assurance that nothing will be left undone by them to bring in a field. Their lease contract provides for a depth of 2500 feet, but they say they will go much deeper if the indications warrant when they reach that depth.

Mr. W. A. Burton is field manager, and Mr. R. W. Wiggins, a most competent driller, is in charge of the drilling. There is a crew of five men on the work, and they are all very busy. A try-out of the machinery was made yesterday, and actual drilling operations were begun today, and will be pushed until the thorough test noted is made.

The company is opening an office in the Kendall Hotel building, downtown, and our people will find them to be most pleasant gentlemen, who have come to us for a legitimate enterprise and have no secrets in their operations, to the contrary announcing that they hope that there will be a general awakening of interest in the field, and that extensive development by all interested parties may follow.

NEARLY A MILLION SAMMIES IN FRANCE

(By Associated Press)
WASHINGTON, June 15.—American troops sent to France now number more than 800,000, chief of staff General March announced today. The troops now being transported are limited only by the capacity of the ships to carry them, he said.

"And we will continue to ship along this line," General March said that the four German drives so far was part of a common scheme of offensive. Up to the present, he said, the extension of the allied front from Rheims to the sea reached sixty miles. To hold that additional troops are necessary. He said the objective of the German advance is first to the channel ports to slow up the transportation of troops.

ITALIANS HOLDING AGAINST ASSAULTS

OFFICIAL STATEMENT SAYS THE SITUATION IS REASSURING

60 HUN DIVISIONS

British and French Assisted Italians in Meeting The Advance Shock.

(By Associated Press)
 The situation on the Italian front is reassuring, says the official statement issued at Rome last night. Although the Austrians have sixty divisions engaged in the fight, they have not yet passed the Italian advanced area anywhere.

The official statement says that the Austrians advanced in open formation yesterday, after a heavy artificial fog, created by gas. The fixed objectives of the first day was fifteen kilometers in advance, and planned to reach the city of Treviso. The Italian artillery, however, frustrated the enemy's plans. They hit the massed troops and checked the advance.

Austrian troops which forced the Piave river today were driven back. Intense fighting continues around the river.

Italian, French and British troops met the shock of the Austrian offensive on a hundred mile front in north Italy, and the enemy is being held in check.

Violent battles continue in the mountains from Lake Garda to Piave, but the enemy has broken through nowhere.

SAMMIES BREAK UP A SURPRISE ATTACK

(By Associated Press)
WITH THE AMERICAN ARMY IN FRANCE, June 17.—In an attack on Nivray in the Toul sector yesterday, the Germans hoped to carry off a large number of prisoners, but the alertness of the American artillery thwarted them. The Germans planned the raid a week in advance and rehearsed it with six hundred picked troops. The Americans, however, played havoc with the plans and broke up the attack.

SENTENCE MORE ARMY OBJECTORS

(By Associated Press)
WASHINGTON, June 17.—Sentences from eighteen months to twenty years have been imposed upon objectors at Camp Supton, and have been approved by Secretary Baker. Most of the objectors opposed fighting because they had relatives in Germany. Secretary Baker recommended the return of such men to the "country of their preference after the war."

SUBMARINE MENACE IS NOT SERIOUS

BRITISH VICE ADMIRAL WEYMESS GIVES OPINION ON SUB ACTIVITY

(By Associated Press)
LONDON, June 15.—German submarine activity off the American coast is not a serious menace in the opinion of vice Admiral Weymess, First Lord of the British admiralty, who expressed the opinion that there was only one submarine in American waters. He said that German ruthlessness at sea must be met by centralized warfare in the North sea and Mediterranean.

Lord Weymess paid high tribute to the co-operation of the American navy in European waters. He said that American ships were also operating in the Mediterranean off Gibraltar. "The Germans can't hope to maintain a blockade. The distance is too great. They merely made a demonstration in the hope of causing the United States to decentralize in their efforts to down the submarines. The object is to frighten the Americans. Any submarine to reach the American coast must pass either north or south of the British Isles or by Gibraltar. We must fight the submarines in the narrow seas."

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a small bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application denotes the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots flinch, loosen and die; then the hair falls out fast. Surely get a small bottle of Knobel's Danderine from any drug store and just try it.

FROM MRS. RATCLIFF.

I wish to state that I did not discover the fact that the governor controversy had projected itself into our county politics until after I had entered the race for county superintendent.

Now that I am in possession of this fact there is left a choice between the two alternatives: Either get out of the race at once or stay in with the following understanding: That I ask of you that you come back to first principles—those set forth in my coming out communication to you, in which I made it clear that I am asking your support solely on my fitness for the office.

In making my position clearly understood I will say that as I see it the governor issue has nothing to do with our county politics. However, for the benefit of those who may want to know as the question is being asked me, and to save your time and mine, in the future, I'll say that I'm supporting Mr. Hobby.

In asking that you come back to first principles—those of my fitness for office, I'm going to say that if any of you are supporting me because I'm supporting Mr. Hobby I do not want your votes any more than I would not want the votes of you who would not support me because I do not support Mr. Ferguson.

If my election to the office of County Superintendent depends in any way upon my position on state questions I accept defeat gladly as I would spurn with all that in me is a success obtained because of this position.

As I see it no one has any more right to use my candidacy without my consent either in the furtherance of the defeat of some political project than I have to go in the night to his garage and steal out and use his car, or any other act of a probable nature I might commit against him.

I am not indulging in mock heroics, these being my convictions I can do no other, and by these convictions I stand or fall in this campaign.

Respectfully yours, MRS. W. G. RATCLIFF. (Political Adv.)

There will be cemetery working at Rock Springs, Friday, before the first Sunday in July. Everybody come that is interested, and bring tools and something to eat.

A SHORT SPEECH

Kaiserism threatens the world, including us. Liquorism is dangerous in time of war and in time of peace because it corrupts government, impairs efficiency and destroys men. It is not dead. Liquorism has repeatedly defeated the will of the people in Texas by the use of its favorite instruments—tricky politicians. It will, if it can, in the future defeat the Nation's will by the use of the same tools.

Corrupt capitalism, with its self-seeking profiteering, disloyal tendencies, will have to be watched. Political "slick ducks" and "smooth artists" are also the favorite allies of oppressive, profiteering capitalism.

There is danger in socialistic, communistic tendencies which impair the loyalty of the citizen and would destroy democracy and the efficient, orderly, just government which democracy would maintain. Political tricksters and extremists and demagogues, usually having broken and variable political records, jointly promote communistic chaos and disloyalty—the tricksters by destroying public confidence, and the wild-eyed radicalists by misleading the people and appealing to class selfishness and passion.

A Congressman holds a very important position at all times, especially now. He should be clean, sane, capable, progressive, diligent and faithful. The candidate's personal character and political life record is the best guide to the voter in deciding as to his fitness. The man who is tricky in private or business life will be so in political life and dangerous in it. The man with an irregular, erratic political life record is unsafe.

The wise order, "Put none but Americans on guard tonight," applies with great force to Americans in naming their congressmen at this time of America's peril and should prevail over everything, including county pride, against me and all my opponents.

Kaiserism buys and uses American sleight-of-hand artists. It uses erratic extremists, top! Search us as men and scrutinize our political life-records and if unsatisfactory, scratch us without mercy. You owe it to our beloved America now, if, since the sinking of the Lusitania, any of the men who are now candidates for congress have suggested that American ships flee from the seas or show any trace of communistic disloyalty, let the wholesome patriotic American scorn of the people of this congressional district be upon his candidacy.

My opposition to liquorism is lifelong. My democracy extends from my first vote to now. If the people find me worthy and approve my views and my political life-record, I ask their votes. If they approve my character, views and record and disapprove of a part of the life, views and lifelong record of my opponents, for whom should they vote? It is for the people to answer. They are free. If I were voting and could find a candidate whose character, views and lifelong political record were alike clear, I would vote for him.

And, all things being equal I would not, if I could avoid it, vote to give on section of the district the congressman forever.

FROM MOSS ADAMS.

Nacogdoches, June 18th, 1918.
To the Voters of Nacogdoches County:

I am certainly delighted to see in the Daily Sentinel that the Ferguson Arrangement committee have asked the citizenship of this county to assemble and let us reason together, as this is what the Hobby people have been wanting all the time, and now that we have gotten them to agree to this, let us now proceed.

Now as we have agreed to assemble and reason together, let's see just what we have to reason over, and we shall begin first by saying that Ferguson has been impeached by the senate, a constitutional court, and yet the Ferguson men are saying, "Away with the constitution, it's in our way." Now what do you think of this when you go to reasoning? Do any of the citizenship of this county want to do an act in the face of the constitution?

Then again, Ferguson admitted that he used the State's money for two years without any interest coming to the state, and when he took this money it was drawing interest for the state, and paid his own personal note. Do you stand for this? What would you do with your county officers if they should do such an act? Some say in answer to this, "It was safe, the state lost nothing." Your county treasurer can run away with \$25,000.00 and the county would lose nothing, but would this make it right when we had to get our money out of his bondsmen. I know any honest man will say that this is not right and why vote for Ferguson when he says that he did this?

And once again, Ferguson had the secretary of state to put in the bank at Austin, for the benefit of the Temple State Bank \$250,000.00, when it should have been in the treasury; do you stand for this? As you know that Ferguson owned 11 of the stock of the Temple Bank and this money bore interest while in the Austin bank for the Temple bank. Is this right or is it wrong?

And now lastly, what about the \$156,000.00 transaction that Ferguson had while Governor, with some unknown person that he was ashamed to tell or afraid, I do not know which. Do you stand for the public officers of this state to borrow money from sources that they are ashamed to tell? Is it right for this to happen? Do you deep in your heart believe this was an honest transaction? If so, why should Ferguson refuse to tell about it? Doesn't his action show that he has something up his sleeve that he is afraid for the people he is serving to know? Has your public official any right to have such questionable transactions?

And further, let's see what the attitude of Ferguson was about the time he received this great big pile of money, all of it in hard, jingling shining dollars, just think of it, \$156,500.00 in United States money, no checks, drafts or money orders, but pure shining, luscious American dollars! There was a meeting called to meet in Dallas on the 10th day of April, 1917, just 4 days after the United States had declared war on the Kaiser, to devise ways and means of up-

holding the hands of our great president, and in this meeting was your Jim Ferguson and what do we find him doing. Upholding the hands of your president? No, a thousand times no! We find him there making a two-hour speech against the Selective Draft act—the greatest piece of machinery the United States has ever known. This speech was made on the 10th of April, 1917, and when Ferguson returned to Austin, two days later, which was April 12th, he deposited in the bank \$25,000.00 in currency after the bank had closed, and then again on the next day Ferguson shipped to Houston, all in money, another \$25,000.00 to be placed to his credit, and you will see that within two days Ferguson deposits \$50,000 after he had made his speech against the Selective Draft act. Where, where, my friends, where did that money come from?

And once more Ferguson wanted Dr. Battle fired from the University, and wanted to put in his place Dr. Keasby, and the Ferguson Forum said a few days back that "Dr. Keasby was a man of worth." Now, this same Dr. Keasby was fired from the University because of his sympathy for Germany, and is today editor of the German paper in the United States. Why was Ferguson for the German, Doctor Keasby? Why did he feel the elevation of this German to the president of the University? Think of this, and then think of the investigation at Washington by Congress and see what you learn. The investigation showed that the German-American Alliance was interested in the election of Ferguson in 1914, and this same Alliance has been put out of business by the government, and we know from other sources that the German-American Alliance spent \$38,000.00 to elect Ferguson. What do you think about this, and let's reason together.

Licensed Bakers To File Weekly Reports

All licensed bakers after May 11 are required to make up weekly reports and submit to the Federal Food Administration for the State of Texas. Following the report inspections are to be made, the purpose being to make the baker realize he must obey the regulations: to record consumption of wheat flour, substitutes, sugar and shortening; to record production of bread and rolls, and to show board of wheat flour, sugar and shortening.

NEW U. S. RULES ON COMMERCIAL FISHING GIVEN

Local Restrictions Generally Removed; Seining Authorized Without Regard to State's Closed Season.

With the new rules and regulations governing the Fish Industry of America, guaranteeing freedom of movement and production to the fisherman and the distributor, and lifting many restrictions and hardships which served to paralyze the industry, Texas should from now on have an abundance of good sea-food at a reasonable price.

All distributors have been notified by Administrator Feden to submit at once a schedule of costs and quantities of fish handled. Every effort is to be put forth to secure a stabilization of prices and to free the market of the speculative influences which too frequently made Texas fish cheaper in St. Louis and Kansas City than in San Antonio or Dallas.

All dealers and all fishermen are required under the rules and regulations to have license, which may be secured from the License Division at Washington free of cost. Failure to comply with the rules and regulations, or proof of speculation, eliminates automatically the fish dealer or fisherman from the field of fish production.

Dealers are required to submit address and change of address; to make reports under oath when requested; to be prepared at all time for inspection; to eliminate all waste, or suffer penalization if they fail to do so; they are forbidden to enter into fishing arrangements with persons or firms not holding license; only wholesome seafood will be shipped; containers not full must be so labeled; willful violation of contracts are forbidden; every effort must be put forth to market all seafood taken; damage to gear and equipment is forbidden.

The Federal law replaces the State law with the one exception: fishing is not to be followed by the use of seines at channels connecting one body of water with another. All persons fishing and selling fish must be licensed.

NEW MEAT PROGRAM CALLS FOR ECONOMY

The new meat program of the United States Food Administration does not contemplate a definite quantity of meat per person, and through an inaccuracy in transcribing the telegram from Washington the phrase was used that the "ration would be one and a quarter pounds per person per week," whereas the statement should have read that the present meat ration in France and England is one and one-quarter pounds of meat a week.

In deciding upon a program of retrenchment in the consumption of meat the United States Food Administration does not include "Meatless Days," but it puts it up to every American to cut down his meat consumption and that of his family:

- First: By eliminating every ounce of waste.
- Second: By curtailing purchases and buying more closely.
- Third: By serving smaller portions.

HOW TO MEASURE MEAT RATION OF 2-POUNDS WEEKLY

Success of Equitable Meat Distribution Rests With Consumer; Plan Based on Patriotism and Voluntary Denial.

It is estimated that \$50,000,000 would be required if the nation were successfully placed on a ration system for the handling of wheat flour, sugar and meat, nor would this amount cover the monthly operating expenses after the system were inaugurated. "For this reason," announces the Federal Food Administration for Texas, "we look to the individual for co-operation in observing the ration suggested and to the distributor to see that the quantities suggested are dispensed as nearly in the degree suggested as possible."

The placing of all manufacturers using sugar on a rationing basis has been achieved at a great expense to the Food Administration. Sugar used by manufacturers may only be procured through the possession of a certificate issued by the state headquarters and the quantity is based upon a definite schedule of allotments.

The distribution of wheat flour in Texas, now that the State has adopted a wheatless program, is handled along in Victoria bread, through licensed bakers, stores and public eating places, until the wheatless program was adopted, were on six pounds per person of flour a month. While difficult to make this rationing complete, the distribution to the public through the wholesalers and the retailers nearly approximated that quantity when the sum total of wheat flour for Texas was divided by the sum total of the consuming public.

Resentment is now expressed by dispensers of meat, both in public eating places and at meat markets, as to how the individual is to get kept within his ration of two pounds of meat per week. Some have suggested a return to meatless days and meatless meals. The United States Food Administration, in announcing the new meat program, expressed an unwillingness to return to fixed meatless meals or days. It is hoped that the American public will conform their purchases, non-patriotic and military grounds, to the two-pound ration of meat just as the majority have done in the purchase of sugar and flour, and that in the general summation the amount of meat consumed nationally will be reduced to the two-pound ration.

While no instructions have been issued defining a program, it is thought by the Federal Food Administration that the time has come when public eating places and meat markets should begin to approximate their respective grade in numbers. Every meat dispenser should begin to collate a list of families making regular purchases at his place of business. Families of five would be encouraged to buy not more than ten pounds of meat a week; families of two not more than four pounds a week, and so forth. This is not obligatory, but more and more as the war advances and military necessity demands increasing quantities of meat it would be to the advantage of every meat dispenser to know to a man the number of persons buying of his place of business.

If at the end of each day the meat dealer will divide the number of his customers with the pounds of meat bought, he will know the average purchase for the day in pounds per person; and if at the end of each week he will divide the total pounds sold by the total persons represented in the sales of the week, he will soon be in position to gauge whether or not he is meeting the federal requirements. Such information would be invaluable as the program is advanced to meet military necessity.

All of this detail means additional work, but the present war is a test of the fitness of men in service at the front and in the business world to survive, and out of it the Food Administration believes that lack of business methods will disappear and men will come to know accurately the minute details and elements which make up their livelihood—facts which, because of too much prosperity and extravagance, have almost been obliterated from American life.

TEXAS EATING PLACES ON WHEATLESS BASIS

R. A. Parker, director of hotels and restaurants for the federal food administration for Texas, wired John McBowman, director of the division of hotels and restaurants of the United States food administration, Wednesday, that all of the public eating places of Fort Worth and El Paso have gone on an absolutely wheatless basis.

All other cities of Texas are using in public eating places more or less of quick breads. The restrictions on bread not containing wheat, which for a time were limited to four ounces to the person, have been removed, and corn bread or rice bread without an admixture of wheat may be served to the extent that the proprietor cares to dispense it.

REGISTRANTS MUST PURSUE USEFUL OCCUPATIONS

The Local Exemption Board is in receipt of a copy of the new law relating to the occupations that must be pursued by registrants not enlisted in actual service, and the regulations are very strict, providing that every one must engage in some occupation coming under the head of "useful." It is not sufficient that they may have a job or may be financially able to sustain themselves until the call comes for them to go to the training camps—the call comes now for them to get to work, and there will have to be a readjustment with the affairs of many to meet the requirements.

Following is a partial list of the pursuits that must be abandoned for more useful work:

All people who are idle and not engaged in any work; gamblers, employees of bucket shops, race tracks, fortune tellers, clairvoyants, palmists, etc.

Persons engaged in the serving of food and drink, or either in public places, including hotels and social clubs.

Passenger elevator operators and attendants, and door men, footmen, carriage openers and other attendants, engaged and occupied in and in connection with games, sports, and amusements, except actual performers in legitimate concerts, operas or theatrical performances.

Persons employed in domestic service.

Sales clerks and other clerks employed in stores and other mercantile establishments.

Persons who have previously been classified in any of these occupations must appear before the local board for re-classification.

Some people who would be shocked at the idea of injuring another person's property, think nothing of helping along a lot of gossip that will hurt some one's reputation. Yet property damage is easier repaired than an injured reputation.—Henderson Times.

Some of the readers of The Sentinel want to know what has become of the Lufkin standpipe. The last we heard of it it had been turned into a community silo where the farmers may store their crops of feedstuff for the summer pending the arrival of the winter rains with which to fill the big receptacle with water again.

It is doubtful if Nacogdoches county ever had a better crop than that which is now growing, proving that the good Lord is with us in our efforts to do our duty at home and support our soldier boys abroad. In the realization of our great prosperity, such as is coming to us with the harvest of the bumper crop and the fancy prices we will enjoy for all kinds of produce, let us not falter in the further exercises and shirk no duty that is imposed upon us.

A Chronicle reporter feels justified in passing this along. One young lady living in Wells Point went early one morning last week to spend the day with one of her girl friends living in the same town. It was the "wash day" for the family entertaining the guest, and the wash woman failed to appear, it being learned that she had gone to the cotton patch where the pay was more than for standing over a tub. The family linen could not wait, so the visiting young lady proposed that she and her girl friend perform the service; it was agreed upon and both entered heartily into the job. The result was all that could be desired, and the lady of the household presented them with the money that she would have been forced to pay the hired labor. It was accepted, and that afternoon the two happy girls went to town and invested the whole amount in thrift stamps. The reporter gives this for a true story, which it is, and would like to know if any one has a better one to tell. Even fiction would not surpass it.—Wells Point Chronicle.

THE NATIONAL DEFENSE.

Every soldier in the line is expected to charge the enemy when his officer gives the command to shoot. To refuse obedience while in battle is to forfeit his life. He should be shot. But the command of our country every citizen come to the appointed place, to answer to his name, and assist in the matter of furnishing the army and navy with money is just as binding. The man who will refuse to invest in war savings is a deserter in time of national peril.

I know a man who was born in this country, but who has not had a friendly greeting nor a social invitation for fifty years from any of the good people of the south. The reason for this is that he deserted his cause and companions during the civil war. True citizens can forgive an honest enemy, they can pardon a penitent criminal, and time may heal many a difficulty, but the man who is a traitor to his country cannot be forgiven. If a man who has money or property or who can borrow on his own credit will not rally to the defense of the nation today and to the cause of liberty for all mankind now, he does not deserve citizenship in any civilized community or fellowship in any Christian or fraternal organization.

In the great War Savings Campaign now on, and which culminates in the summons to every citizen of the nation to meet on June 28th, at 2 o'clock p. m., at designated places, these instructions are given by the authorities to the chairman of each school District War Committee: (1) The roll of all voters will be called, and each one will be expected to buy War Savings Stamps to about 10 per cent of his assessed taxation, or if a wage earner of his salary; (2) All persons who refuse to purchase will be listed, their reasons for refusal taken in writing and sent to the authorities; (3) Those who do not attend the meetings in obedience to the summons will be required to furnish in writing their reasons.

Above all former or legal requirements is the great moral and patriotic duty of every real loyal American doing his duty freely, willingly and promptly. Most of our people will do this. Those who have providential or legal reasons for failure will be excused. But the Yellow Dogs will have attention in plenty. They may move from our great county.

SUGAR AND FLOUR RULING

Effective immediately, merchants are to restrict the sale of SUGAR to two pounds to town trade and five pounds to the country trade.

Sugar for preserving purposes should not be sold in accounts in excess of twenty-five pounds at one time, and such sales must not be made more often than once a month.

Dealers, as far as practicable, should confine their sales to their regular established trade and territory.

On and after June 15th, merchants will again be permitted to purchase flour from their usual source of supply, and sell to the consumers on the basis of six pounds per person, per month, with the required amount of substitutes. It will be necessary for merchants to continue keeping records of his sales of flour, the same as before the wheatless period became effective.

R. B. WALTHALL, Nacogdoches County Food Administrator.

Mr. F. E. Hood, formerly of Jacksonville, was in the city today hunting a cottage in which to move his family and take residence with us. Mr. Hood was formerly in charge of the line over the T. & N. O. for the Wells Fargo, but with the consolidation he has been put in charge of both lines, and desires to move here to be more centrally located to his work. He is a gentleman of pleasing personality who will receive a cordial welcome to citizenship.

MRS. W. G. RATCLIFF ANNOUNCES FOR CO-SUPP.

I take this method as being the most direct by which I can place my candidacy for the office of County Superintendent before the voters of the county.

In entering upon this campaign I am fully alive to the fact that as far as our county is concerned I have no precedent to follow in that no other woman before me has ever announced for the office of County Superintendent. However, for the benefit of those who may not have informed themselves, I will say that our sister county of San Augustine some years ago elected the capable Miss Lillian Hazle, who discharged the duties of the office in a way highly satisfactory to the people of that county, and many of the teachers of this county will recall the wonderful message brought to us in our teachers institute a few summers ago by the little woman, Miss Amanda Stoltzfus, at that time connected with the Extension Department of the University of Texas. Miss Stoltzfus first brought herself into public notice by her splendid work as county superintendent in one of the counties of the state of Iowa. Her work attracted the attention of the commissioner of education at Washington, and through this channel attracted nationwide attention. Our university of Texas heard of her and engaged her to work for it in its extension department that she might be the bearer of her own message to the teachers of the rural schools of Texas.

What this woman did simply demonstrates what a woman with a vision did, not only for the county which she served as county superintendent, but for the country as well.

As I see it, this office is fraught with possibilities, if set in motion, would prove incalculable in its scope.

In the world's crisis, now as never before, the call is to women to lend all that in them lies to aid in the solution of those problems which affect our national life. And what touches that life more than does the problems which concern our common schools? We have a critical situation confronting us now. I refer to the fact that the ranks of our professions are fast being thinned by the country's call to military service of those virile sons who form a large part of the bone and sinew of the teaching body. These places are to be filled by the women. I trust by real women, keenly alive to the seriousness of the situation. We must realize that ours is no light responsibility: That upon us rests in a large measure, the safeguarding, as it were, of the Torch of Knowledge and as the Vestal Virgins of ancient Rome guarded their sacred fires which possessed for them only a mythical value, so must we with a zeal not second to theirs, aid in the safe-guarding of the educational interests which possess for us a real value.

If their women are called upon to fill places made vacant in our school as well as in all other walks of life, I am sure you will not count it strange that a woman should come asking political preferment at your hands (I use the term not in the narrower but in the higher sense).

Concerning my qualifications I am a teacher, having spent nine years of my life in the school room. The past five years I have taught in the public schools of the town of Nacogdoches. The first four years of my teaching career were divided between the schools of the town of Nacogdoches and county. These were the years before my marriage to Judge W. G. Ratcliff whom many of you helped to elect as your county judge in May, 1906 prior to his death in March, 1907.

Prior to my past five years of teaching I completed a teacher's course in the North Texas State normal college, graduating with the summer class of 1913.

In seeking the office I shall bear in mind that the office is the people's; for them it exists and not for the office seeker; that the interests of the office seeker should always be subordinated to those of the office. These being my convictions, I believe I fully realize the responsibility which rests upon the voters. In the discharge of this responsibility I do not ask or expect that you support me because some of you are my friends, which I am glad and proud to say is the case, but I am asking your support for no reason save that which is entirely consistent with the welfare of the office. If, then, you believe you can support me solely because you believe I can fill the office conscientiously and with efficiency, I shall be deeply grateful for your support. If, on the other hand, you believe that my honorable opponent, for whom I entertain only the kindest of feelings, is better qualified for the place than I am and you think that by electing him you will be serving the best interests of the office, I shall bow with cheerfulness before your will.

At later dates, through the columns of the county papers, I shall acquaint you with some of my plans for the betterment of educational matters in Nacogdoches county.

Cordially and respectfully,
MRS. W. G. RATCLIFF.

CAVALRY TROOP IS TO BE CALLED SOON

The probabilities are that Capt. Thompson's troop of cavalry will be mustered into actual service within the next few weeks. A recent dispatch from Washington on the subject says:

"Both the new brigades of Texas cavalry will be federalized within a comparatively short time. This announcement was authorized today by Secretary of War Baker, following a conference with Adjutant General Harley of the Texas national guard, who was accompanied to the war department by Senator Sheppard and Representatives Garrett, Garner and Buchanan. Secretary Baker invited the chief of staff, General March, into the meeting and both agreed that it would be advisable to secure the services of the Texas cavalry brigades as soon as possible in order to relieve the troops now doing patrol duty along the border for services in France, the Texas cavalry brigades taking up the work on the Rio Grande.

"The national guard cavalry will have to pass federal inspection but General Harley says brigades can be put into shape for this on a week's notice. General March says the government has all the horses, rifles and clothing necessary to fully equip the troops and it is the opinion of General Harley that this will be issued within thirty days' time and within a comparatively short time the troops will be taken into the national service.

"Secretary Baker said the troops would be taken in as brigades, thus carrying with them the national guard officers and preserving the brigades as state units. General Carter, head of the bureau of militia affairs, was not disposed to sanction speedy federalization of the two cavalry brigades, but was overruled by Secretary Baker and the chief of staff."

THE WODEN SCHOOL ELECTS TEACHERS

The Sentinel is authorized to announce that the trustees of Woden school have elected teachers for the coming term, as follows:

J. C. Shultz, Superintendent.
Miss Edyth Russell of Brookston, Texas, principal.

Miss Alma Ryan of Houston, Intermediate.

Miss Mildred Whiteside of Texarkana, primary.

Prospect school and Door Creek are still open, but they hope to secure some good teachers for them soon.

Prof. Shultz, the superintendent, is spending the summer at College Station, taking some special courses in vocational work by which he hopes to make greater development of the vocational work in his school the coming term and receive the Federal aid. All the new teachers have permanent certificates.

What the Judges of the Appellate Courts in Texas Think of W. D. Gordon's Plan of Judicial Reform.

The following are extracts from letters received by Judge Gordon from members of the appellate courts in Texas, who reviewed his paper on the subject of judicial reform:

Judge T. H. Connor, Chief Justice of the Court of Civil Appeals at Fort Worth:

"Permit me to say that I agree with you most heartily."

Judge George W. Graves of the Court of Civil Appeals at Galveston:

"I desire to express to you the pleasure of every member of this court in the fact that your recent discussion of our judicial system will be published in pamphlet form and furnished to the members of the legislature of Texas; and to further say that we all concur in your very ably stated conclusions."

Judge E. F. Higgins of the Court of Civil Appeals of El Paso:

"I have read your article with great interest and heartily concur in the views which you express."

Chief Justice Anson Rainey of the Court of Civil Appeals, Dallas:

"I have read the article and heartily concur with the ideas therein so clearly stated."

"I showed the article to Judge Rasbury (Associate Justice) who agrees with the views you express."

"It would be a good thing if your article could be distributed throughout the state that the true status might be thoroughly understood."

Judge Irby Dunklin of the Court of Civil Appeals, Fort Worth:

"I have read the article carefully and endorse what you say fully. It is the best article that

I have seen on the subject."

Judge R. W. Hall of the Court of Civil Appeals of Amarillo:

"It is refreshing to read an article from a lawyer who is not afraid to tell the truth about some of the conditions existing in the judiciary, and it is encouraging to know that one member of the profession is candid enough to put the blame where it belongs. I have read your article with great deal of pleasure and interest, and have shown it to two of our ablest lawyers, who endorse it from start to finish."

Chief Justice W. K. Key of the Court of Civil Appeals, Austin:

"I write to say that I have carefully read your article and found it to be one of the clearest and most comprehensive views of our judicial system that has come to my notice."

Judge Charles H. Jenkins of the Court of Civil Appeals, Austin:

"I heartily approve your suggestions and think that it is the clearest statement of the situation and of the legislation that should be had in the matter that I have seen."

Judge William Hodges of the Court of Civil Appeals, Texarkana:

"I wish your article could have an extensive circulation throughout the state in order that some of the evils of the proposed constitutional changes might be made apparent."

Many such letters from the ablest lawyers in Texas have been received to similar effect.

Judge Gordon proposes if elected to the state senate to bring about if possible, this fundamental reform.

FROM CAMP TRAVIS.

Private Dallas Foster Feazell of Co. 19, 15th Inf., 165th Depot Brigade, has been confined to quarters for a few days, due to the after effects of a shot in the arm which all recruits have to take to protect them from the typhoid germ. These typhoid inoculations are considered a very valuable asset, and have practically eliminated typhoid fever in the army. Private Feazell was in the employ of the City Bakery and Restaurant before his entry into the army. He expresses himself as being well pleased with army life, the only objection is that so far they haven't been able to get clothes large enough to accommodate his person.

INTERESTING PARADE.

That was an inspiring and interesting parade. Saturday afternoon, with the officers of the War Savings Societies, the Band, the Boy Scouts, Capt. Thomason's troop of cavalry, the Woman's Home Guard, and the boys and girls canning club of the county, the latter bearing hoes and brooms.

The line of march was formed at the school campus and passed down School street, up through Main and on to the court house, where the exercises of the day with reference to the work being done by the boys and girls and the war savings societies were discussed.

The Sentinel would be pleased to give a more detailed report, but want of space forbids today. In passing, however, it is happy to note the spirit of patriotism that was displayed with it, and the congeniality with which the people of classes of labor and business are coming together in our common purpose.

A Notable Demonstration.

A large number of men, women and children, representing several organizations, made a notable parade Saturday afternoon. This was primarily intended to stimulate interest in War Savings and was witnessed by one of the largest crowds ever assembled in Nacogdoches.

County chairman S. B. Hayter, Secretary M. C. Johnson and Demonstration Agent Jas. D. Greer headed the procession. Following was the newly organized and equipped cavalry company under command of captain Edgar Thomason. The embryo soldiers in their brand new khaki, stepped smartly along to the music of the Nacogdoches Brass Band under the leadership of Mr. John Thomas.

Back of the company came a battalion of boy scouts, which included Chireno Scouts, under Scout Masters Will Smith, Robert Monk, Carl Ybarbo, reinforced by a division of the corn and canning clubs. Keeping step with these came the Women's Home Guard, Mrs. F. R. Penman leading.

The parade was followed by meetings in the court rooms of the corn and canning clubs, the war savings chairmen of the various school districts, and the chairmen of the Women's Committee of War Savings. To these instructions and messages were given, and all took back to their respective communities the message of active and loyal cooperation in the duties assigned to them, which will assure the SUCCESS of June 28th.

Mr. Willis McClure Selman and Miss Oma Lee Skinner of Alto were married at the court house in this city Saturday afternoon, Judge Frank Huston officiating.

REGULATIONS ON HANDLING PERISHABLE PRODUCTS

In carrying out a plan for marketing, handling, sale, and distribution of all perishable farm products in this State, the Food Administration, in co-operation with the Bureau of Markets of the United States Department of Agriculture, the Bureau of Markets of the Texas Department of Agriculture, and the Western Weighing and Inspection Bureau, desires to call the attention of dealers, handlers and shippers of perishable farm products to the necessity of conforming to certain rules and regulations which are necessary to be enforced in minimizing the losses which have heretofore been sustained in handling perishable products.

Dealers and handlers of perishable products are expected to observe the laws, rules and regulations of the Bureau of Markets of the United States Department of Agriculture and of the Texas State Department of Agriculture, regarding grading and packing, and the instructions in branding and loading in cars of all perishable products, unless exceptions are authorized by the Federal Food Administrator.

Dealers and handlers of perishable farm products at point of origin are required to refuse to handle culls and inferior products when loaded in cars containing superior and standardized products, as these commodities should not cumber our transportation facilities, and thus deprive superior and standardized products of the opportunity of arriving in the market in first-class condition.

All cars of perishable farm products are to be loaded under the directions and instructions of the Western Weighing and Inspection Bureau, and when the inspector of the Bureau of Markets of the State Department of Agriculture issues a certificate, setting forth grade and standard of the commodities to be shipped, this certificate shall be accepted by the consignor and consignee as prima facie evidence of proper grade and quality at the time of loading.

All licensed dealers and handlers of perishable farm products of this State are expected to co-operate with the Federal Food Administrator in the compliance and enforcement of the above rules and regulations.

MILITARISM TO WIN SAYS KAISER

AMSTERDAM, June 17.—Prussian militarism will bring victory to Germany, says the Kaiser in answering congratulations on his thirtieth anniversary of accession, from Von Hirtling. The Kaiser said he leads the "most capable people on earth." He said he did his work as prince of peace until forced to wage war.

DOUBT CANNOT EXIST

Investigation Will only Strengthen the Proof We Give in Nacogdoches. How can doubt exist in the face of such evidence? Read here the endorsement of a representative citizen of Nacogdoches. Dr. J. A. Drewry, dentist, S. Fredonia St., says: "I have used Doan's Kidney Pills and have had good benefit from them. My former endorsement for them holds good and I now heartily back it up."

CHIRENO SCOUT NOTICE

The Boy Scouts of Chireno are requested to meet at the Scout Hall Saturday night.

MASONIC NOTICE

Regular meeting of Milam Lodge No. 2, A. F. & A. M. Saturday night, June 22nd at 8:30. Election of officers. All brethren are requested to be present.

About Chain Letters

Inquiries have been received about the Thrift Stamp chain letters. Answering, we say emphatically, DON'T. That means don't pay any attention to them. This method of raising the quota is not contented by either the U. S. Treasury Department nor by State Headquarters. This answer to the question is authoritative.

FROM MATT MUCKLEROY

To the Voters of Nacogdoches County: Mr. Vaughn has withdrawn from the race for sheriff. If you were supporting him, I will appreciate it if you will now support me. I will make you a good sheriff. Respectfully, MATT MUCKLEROY, Candidate for Sheriff. (Political Adv.)

The simplest and best way to stop coughs, is to take Foley's Honey and Tar. You get the curative influence of the pine balsam together with the mollifying effect of the honey, and other healing ingredients. It leaves a soothing coating on the inflamed tickling throat, rouses phlegm easily and puts a quick end to hard wearing coughs.

ORDER OF THE ELKS BUILDING BIG HOSPITAL

The Benevolent and Protective Order of Elks are building a great hospital as a contribution to suffering humanity, the story of which is told in detail below. The Nacogdoches Lodge, No. 1017, with John Thomas exalted ruler and Jewell Hunt secretary, has some one hundred and fifty members, and has contributed \$300 to the worthy cause.

BOSTON, June 16.—The cornerstone of Reconstruction Base Hospital No. 1, the first of its kind in the United States and the gifts to the government by Benevolent and Protective Order of Elks, was laid today in the presence of distinguished assembly of citizens. Representatives of the nation, state and city, with eminent men of the medical profession and thousands of Elks and prominent citizens from all parts of the east, participated in the ceremony on Parker Hill and signaled by their presence and words the notable importance of the event.

This first reconstruction hospital, which will serve as the model, the standard-maker for similar ones to be established throughout the United States, will give the maimed and disabled American soldiers and sailors the best of expert attention and occupational instruction. It will rebuild human wreckage in able-bodied men and will educate them in occupations which will best qualify them not to become a burden to society.

The government through the Surgeon-General's Department in November last accepted the reconstruction hospital plans as a gift from the Elks \$1,000,000 war relief fund, voted by the Elks 1917 convention. The hospital will be ready to receive the wounded American soldiers and sailors in the early September.

Every device and resource known to the medical science will be at hand at the reconstruction hospital to rebuild every part of the human frame. Men with half their faces shot away by shrapnel will get new jawbones from their ribs and new noses and new cheeks from the cartilages and tissues on other parts of their bodies.

Thousands of men who would be human wrecks without proper treatment will be rebuilt at the new reconstruction hospital and taught trades that make them economic assets instead of liabilities. The men with fractures that have not rightly knitted, with stiff joints, with nerve palsies from shock or from injury—there are the cases the reconstruction hospital will help. They will have had the regular base hospital treatment just behind the firing lines, where the first surgical work will be done.

Maimed and disfigured men will be reconstructed by operation, by apparatus, by education. Treatment will be given not only to the classes already mentioned but all to those that need plastic operations to remedy contractures or defects or who need appliances to supplant a missing limb. Those given artificial limbs will be educated in their industrial use.

No agency of the United States Army or Navy is able to supply this treatment. The government has frankly admitted it and for this reason has turned with eager gratefulness and an assured spirit of cooperation to the plans which were proposed to it by the Elks.

Dr. Frederic J. Cotton, one of the originators of the idea of a reconstruction hospital in Boston and one of the leading orthopedic surgeons of the country, will be in charge of the hospital for the government. The hospital will need a well-trained and especially efficient professional staff. Its necessary nucleus has been recruited and is only awaiting the word to begin its service. The institution consists of a complete unit of twin war hospital buildings, vocational workshops, barracks mess hall and post exchange.

MRS. LINAM HAS GAINED 27 POUNDS BY TAKING TANLAC

"I Now Enjoy Better Health Than I Have in Years" She Declares.

"I now enjoy better health than I have in years and I can't refrain from letting my friends and others know how thankful I am for what Tanlac has done for me," said Mrs. E. M. Linam of 2310 Chester street, Little Rock, Ark., recently, in one of the most remarkable statements yet published in connection with the "Master Medicine."

"In the winter of 1916," Mrs. Linam continued, "I was taken with a severe cold and all the winter I continued to go down. I had no appetite, kept losing weight and in March was completely broken down. I couldn't sleep for coughing and had to sit up in bed most all night. I was extremely nervous and weak, felt tired all the time and everything I ate soured on my stomach. I fell off nineteen pounds in seven weeks and was getting worse so rapidly that my family and friends, as well as myself, saw no hope of my recovery."

"My husband brought home a bottle of Tanlac in June, 1916, and after I took about half of it I began to eat and my food stopped souring on my stomach. After finishing my first bottle I could eat anything at any time without it hurting me in the least. At the end of my third week I had gained five and one-half pounds and had improved until I was able to take a trip to Texas. My husband sent me my Tanlac by mail and I kept taking it and picking up from three to four pounds every week until all my troubles were gone and my weight was increased from one hundred and thirteen pounds to one hundred and forty—making an actual gain of twenty-seven pounds. I don't only give Tanlac credit for my splendid condition, but I really believe it has saved my life and my family and friends all agree with me."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Appleton by A. J. Beck, in Douglas by Campbell & Watkins, in Chireno, and in Nat by E. M. Jarrell.

A fourteen-year-old white boy, who came to the community several days ago, from Lake Charles, but who is connected with some good people of the county, was placed in jail last night charged with burglarizing the home of George Matthews at Melrose, from which place he is alleged to have taken some jewelry.

If you cannot eat heartily without an attack of indigestion, your stomach is weak. You need Prickly Ash Bitters. It is a fine digestive tonic. Besides, it rids the stomach and bowels of the impurities which make you feel bad. Price \$1.25 per bottle. Stripling, Haselwood & Co., Special Agents.

JUDGE KING COMING NEXT FRIDAY NIGHT

Circulars distributed on the streets Saturday announce that Judge Steve M. King will address the citizens of Nacogdoches county on the court house lawn Friday night, June 21st, in the interest of his candidacy for congress. In his announcement of the speaking Judge King says that some interesting matters will be brought to light, and extends a cordial invitation to both men and ladies to hear him.

TELEGRAPHY FOR YOUNG WOMEN AS WELL AS MEN

Knowledge of telegraphy and skill in its use makes a man valuable in many lines today. The large numbers of experienced operators drafted and volunteering for service in the army corps have drawn heavily from the telegraph operators and have left many vacancies in the railroad and telegraph offices.

Likewise, many have diverted from entering these offices as operators, thus cutting down the normal supply of operators, which have always been available to fill the usual vacancies. This sudden and steady increase in vacant positions and the alarming shortage in operators to fill them has drawn from the commercial school every advanced student. The Tyler Commercial College is placing their operators in responsible positions, beginning at \$25.00 and more, with a general increase in salary now in prospect all over the United States, this increase to be largest for beginners.

The Tyler Commercial College is visited personally by officials of different railroads and is asked to supply many more operators than is possible. Mr. Loutz, Sup't. Middle Division, St. Louis Railroad, in a visit to this school, recently asked for six of our graduates in telegraphy and requested that we send more later if possible. We could not refer him to even six who did not have other positions already in view, and may not be able to send any more later. In fact, Mr. P. F. Frenger, Sup't. Tel. Union Pacific R. R., came in person to visit our school and wrote us, "We can use all you can send of such high class students as you have sent us heretofore."

The St. Louis Southwestern Railway Co., whose general offices and shops are located at Tyler, Texas, give us their strong endorsement and hearty support. We have a main line train wire over which our students can get the operators' messages just as they come to the offices of this great railroad. We are allowed to use every blank, form, report book, etc., used in railroad telegraphy and station work just as this great railroad uses them, as well as all the blanks, record books, rate books and sheets of the Western Union Co. Mr. R. E. Cobb, Aud. St. Louis Southwestern Railway Co., says:

"There is a shortage of clerical help, particularly at large freight and ticket stations, and any young man or woman proficient in railroad clerical work will, no doubt, find it easy to obtain employment on the railroads both in Texas and elsewhere, as similar conditions prevail throughout the entire country." Mr. W. J. Williams, Supt. Telegraph of the same road gave us a good recommendation. With the support of this great railroad, we have built up an excellent school of telegraphy and station work, teaching under their direction everything their operators need to know and use. Fill in and mail for free catalogue. A good position is awaiting you.

GIRLS! ITS YOUR STEP THAT ATTRACTS

Says women pay too much heed to their face instead of their corns. Watch your step! A brisk, lively step is what charms more than a lovely skin, but your high heels have caused corns and you limp a little. That's bad, girls, and you know it. Corns destroy beauty and grace, besides corns are very easy to remove. Rid your feet of every corn by asking at any drug store for a quarter of an ounce of freezone. This will cost little but is sufficient to remove every hard or soft corn or callus from one's feet.

COMMITTEE APPROVE HOUSE PROVISION

(By Associated Press)

WASHINGTON, June 17.—Unanimous approval of the house provision authorizing the president to call out men of draft age who can be equipped, was voted by the senate military subcommittee today.

Mr. W. H. Gray, a prominent citizen of Chireno, was a visitor to the city Saturday and honored this office with a pleasant call while here. Mr. Gray is giving his whole time and attention to his farm this year, and says that he has a crop of bottom land corn, which the agricultural agent says will make a hundred bushels to the acre. He made a haul and a quarter of cotton to the acre on the same land last year. Mr. Gray says that he went back to his farm because it is the most profitable business a man can pursue now, as well as the happiest.

Colored Church Rally

At the rally at the St. Matthew M. E. Church yesterday, the pastors of all the colored churches and their congregations were with me and rendered me real good service. Our finances were real good, and I feel very thankful to them.

RED CROSS REPORT

The Red Cross report for the week ending June 25th, lists twenty-three helpless case shirts, thirty-two many-tail bandages, one hundred and nine triangular bandages. There were eighty-six workers present.

The Boy Scouts are very patriotic and generously engaged in cleaning up and putting in good shape the workers rooms for the next meeting.

Miss Mary Weatherly of Garrison is visiting relatives and friends in the city for a few days.

Miss Rosalind Stripling is visiting her aunt, Mrs. Carl May and other relatives and friends in Garrison.

W. H. Harris, one of the publishers of the Sour Lake paper, came up Saturday for a little visit to his family and friends in the city.

Mr. G. A. Yates has returned from a visit to Mineral Wells, and says that he feels much better for the sojourn in the Mineral Water city.

Mr. J. L. Langston left Sunday for Ennis, La., where he goes to take a position with a big lumber company, and the Daily Sentinel follows him to keep him posted on Nacogdoches events.

Mr. and Mrs. Noble Weaver and daughter, Miss Lucille, of Center, came over this morning for a visit to Mr. Weaver's brother, Rev. T. F. Weaver and family.

Albert L. Garrison of Garrison was a social visitor to the city Sunday afternoon. Mr. Garrison says that he has closed a deal for a printing plant down at Humble and will engage in the newspaper business.

Hon. Eugene H. and Mrs. Blount have returned from a visit to Sewanee, Tenn., where they went to attend the commencement exercises of Sewanee College, Mr. Blount's alma mater. This was the first time Mr. Blount has visited the college since his graduation, and he doubtless greatly enjoyed the visit back to the scene of those busy, happy days.

NACOGDOCHES GARAGE COMPANY

BIG DAY AT FAIRVIEW.

Sunday was a day to be remembered by all who attended the exercises at Fairview.

The Sunday school gave an extraordinary program, the theme of which was Sunday School and patriotism. Each member was well prepared and appropriate. The entire proceedings spoke well for both committee and community.

One piece in particular was commented upon by many, was a song by Bob Smith's boys and Mrs. Beulah Sanders' boy, "Pray a Prayer for the Boys Out There." These lads sang with enthusiasm and vim, reminding us of our duty to the boys.

After the program, Hon. Thomason, captain of Nacogdoches cavalry, gave a very enthusiastic lecture on "War Saving Stamps." Several times Mr. Thomason was compelled to wait for the audience to cheer, and especially when he said those who did not want to do anything to help were no longer called "Slackers," but "yellow dogs." The storm of cheer seemed to say, "We are not yellow dogs but ready with men and money to do our best."

The old patriotic blood was stirred from head to toe, men and women wept and longed to do more, even cross the sea.

We must have the kaiser. Will you help?

DOCTORS DRAFTED.

Questionnaires have been mailed out to all doctors of the country under fifty-five years of age, and the probabilities are that the major portion of them will soon be called into service.

With the great slaughter of men and broadcast suffering in the zones of the war, there is a scarcity of doctors, and there is greater demands upon this profession than any other at this time. As a result, the "age limit" has been raised as to them, and like the patriots they are there has been no protest, to the contrary all seeming ready to go when their time comes.

GRAVE YARD WORKING.

Everybody that is interested in the Shady Grove cemetery is asked to come June the 28th to clean off the yard. Come soon. And please come to work. Bring suitable tools to work with. SAM S. ARTHUR.

HON. HENRY CLARK IS COMING JUNE 26TH

The Sentinel is in receipt of a letter from the gentleman requesting the announcement that Hon. Henry Clark of Stephenville, candidate for governor of Texas, will come to Nacogdoches and address the people in the interest of his candidacy at 2:00 o'clock in the afternoon.

A cordial invitation is extended to both women and men to come out and hear him discuss the issues on which he is making the race for this high position.

NOTICE TO BOYS.

I have organized a troop of Boy Scouts at Chireno. If any of you would like to join write or see me or Cecil Gray. CARL Y'BARBO, Assistant Scout Master, Chireno, Texas.
