FRENCH AND AMERICANS DRIVE HARD FIGHTING GERMANS BACK

(By Associated Press)
WITH THE AMERICAN ARMY ON THE AISNE AND THE MARNE, July 24.—Along the line north of Chateau-Thierry, the Americans have driven the Germans out of nearly all of the Chatlet forest. Further west the Americans have driven through and beyond the town of Epieds. American cavalry was used at one point north of Chateau Thierry. The Germans are fighting hard, but are unable to stop the American advance.
The French, the British and the Americans are still hammering the flanks of the Crown Prince's army. The Germans have brought up fresh forces, but the situation is still very favorable to the Allies.

GERMANY HAS MADE SIX PEACE SUGGESTIONS TO SPAIN

(By Associated Press)
AMSTERDAM, July 24.—Germany has made suggestions to Spain for a peace conference, says the Socialist Vorwaerts, of Berlin. Six suggestions have been made, as follows:
Germany wants no annexation or indemnities in the West. Peace treaties with Russia and Rumania may not be questioned.
The principle of self-determination of the people may be settled at a conference, as may be Belgium's fate.
The Balkan question will be settled at a conference.
The freedom of the seas, the dismantling of Gibraltar, Suez, and open coaling stations for Germany are demanded.
The colonial question to be settled on a basis of status Quo.

WASHINGTON, July 24.—The new German peace move is viewed here as in direct variance with the Wilson-Allied terms and is merely an appeal to pacifists.

AMERICAN ADVANCE BEEN STEADY THE PAST TWO DAYS

(By Associated Press)
WASHINGTON, July 24.—The advance of the American and Allied troops on the Aisne and the Marne salient has been steady the past two days, General March announced today, despite the fact that fifteen fresh German divisions have been thrown in at Soissons.
The Germans are fighting desperately to retain a single railway, over which heavy material can be moved in retreating. General March says that if that railway, running from Fismes to Feren Tardenois, is taken by the Allies, the Germans remaining in the salient will be pocketed.
On the Rheims side the salient of the allied advances is a mile and a half on a ten mile front. The area lost by the Germans last week equals the area they won in the Flanders front in April.
General March said that six new infantry divisions had been ordered organized in July. Part of these are regulars at interior posts, who have been relieved by home guards.

GERMAN COUNTER ATTACK FAILS

(By Associated Press)
PARIS, July 24.—A German counter attack last night near Vigny failed. Artillery is very active between the Aisne and the Marne rivers.

HUNDRED THOUSAND HUNS IS TOLL

(By Associated Press)
WITH THE FRENCH ARMY IN FRANCE, July 24.—Approximately one hundred thousand Germans have either been killed, wounded or captured since July 15th.

GERMAN LOSSES NEARING MILLION

Artillery Active During the Night on the French Front

(By Associated Press)
PARIS, July 23.—German losses since March 21st are approaching one million men, according to L'Homme Libre, Premier Clemenceau's newspaper.
Artillery activity during the night is all that is reported in the French official this morning. North of Montdidier, in the Somme sector, local operations netted the French the villages of Mailly Raineval, Sauvillers and Aubvillers, and three hundred and fifty prisoners.

PROMINENT MAN IS CHARGED GRAFT

Henry Lazarus, Member Council of Defense, Arrested in New York.

(By Associated Press)
NEW YORK, July 23.—Henry Lazarus, a member of the Council of National Defense, was arrested, charged with attempting to bribe a government inspector. The arrest made connection with a nation-wide conspiracy of alleged bribery and graft in the manufacture of soldier rain coats. Full details of the confessed by the inspector. Confessed by the inspector.

BIG LINER SUNK BY SUBMARINE

(By Associated Press)
AN IRISH PORT, July 24.—The giant White Star Liner Justicia, has been torpedoed and sunk. It is believed that there was no loss of life. The Justicia was formerly the Dutch steamer Stentendam, and she was taken over by the British recently. She was a 32,000 ton vessel.
The Justicia carried a crew of six hundred, but lost only eleven members. She had just delivered a large contingent of American troops. The ship's carrying capacity was eight thousand men. No passengers were lost. Four hundred of the crew landed. It is reported that the Justicia fought the submarine for 24 hours.

SUBMARINE SINKS BELGIAN STEAMER

(By Associated Press)
AN ATLANTIC PORT, July 23.—A disabled steamer, believed to be a Belgian relief steamer, was sighted in the tow of a tug off the New England coast today, the captain arriving reports. They think that that a submarine was responsible.

WILSON AWAITING JAPANS ANSWER

(By Associated Press)
WASHINGTON, July 24.—President Wilson has completed his pronouncement as to the plans of America for participating in a military expedition to Russia. He will make known the details when the Japan reply to American proposals is received.

Mr. Ollie Hall came in and spent last night with his parents, Mr. and Mrs. B. M. Hall.

To Save and Feed More Hay is Your Patriotic Duty

Help our government and her allies win the war by saving the hay that is going to waste on your farm.

To feed hay saves grain and grain must be saved. Help whip the kaiser Help end the war by saving hay—saving grain. We must win the war--We must save and feed more hay.

On very liberal terms we will sell you a Mower, Rake and Press. On the terms that we are offering a Mower and Rake can more than pay for itself. We are making these special terms so that every farmer can buy a Mower and Rake and save hay.

See us at once about this special proposition on Mowers and Rakes.

You can save money if you buy now.

CASON, MONK & CO.

MEXICAN GENERAL STARTS AGRICULTURAL COLONY

(By Associated Press)
CHIHUAHUA CITY, Mexico, July 23.—General Francisco Murguia, commander of the north-eastern military zone has started an agricultural colony on the great estates north of this city, which were confiscated from General Luis Terrazas by General Villa in 1913. General Terrazas was the most wealthy land owner in Mexico, owning fifteen ranches, about two-thirds of the state of Chihuahua, estimated at 5,000,000 acres. Before the revolution led by Villa, this property was estimated to be worth \$200,000.

When Villa was at the zenith of his power General Terrazas fled to the United States and Villa decreed the seizure and confiscation of his property, at the same time holding General Terrazas' son, Luis, Jr., prisoner and demanding a ransom of \$250,000. While in the jail in Chihuahua City, the son was subjected to torture to compel him to reveal the place in which Villa believed the Terrazas family had concealed \$500,000. Luis Terrazas, Jr., escaped to the United States and soon afterward died in Los Angeles.

General Murguia has established himself at Molinar station on the Mexican Central Railway and has brought from the south a train-load of former revolutionists and other undesirables from Zacatecas and Torren and has put them to work on the land. They are plowing a tract of 100,000 acres and a big crop is expected if they do not join Villa the next time his band passes near the colony.

MUCH PROFITEERING BEING UNCOVERED

(By Associated Press)
WASHINGTON, July 24.—Fraud, and gross profiteering has been uncovered in many contracts for army shoes, shirts, leggings and other soldier's supplies, by the department of Justice, it was announced today.

TO TAKE OVER TELEGRAPH AND PHONE LINES JULY 31

(By Associated Press)
WASHINGTON, July 31.—President Wilson announced today that telegraph and telephone lines will be taken over on July 31st.

SHELL NOT AS HEAVY AS WAS HER BABY

(By Associated Press)
LIVERPOOL, July 25.—When women first were put to work in shell factories here they handled only the light field-gun shells. Later it became necessary for them to turn out larger shells and doubts were raised as to whether the women were strong enough to handle them. A young mother settled the question.
"Let me heft the shell," she said, picking one up from the floor. "Aye" she commented, "this shell is a mite heavy, 'tis true, but it's not so heavy as my baby."

YES, MR. WISE, WE WILL BE GLAD TO GIVE THIS MATTER OUR PROMPT ATTENTION -

CAREFUL MANAGEMENT OF YOUR BANKING BUSINESS

Have You Ever Considered How the Successful Men of Today Obtained Their Financial Independence?

Success in business is due, in large degree, to the careful management of your banking business.

An account with this bank assures absolute safety for your money—also careful and prompt attention to the details of your banking business.

STRENGTH SERVICE

FARMERS & MERCHANTS STATE BANK

NACOGDOCHES, TEXAS

The first editorial in an exchange reads: "Your vote and influence solicited." Seems like we have heard the phrase before.

Houston reports its first homicide since the ten-mile zone prohibition law went into effect in a charge of an ex-soldier killing a negro. With the new record, it is not likely that Houston will ever allow the sale of booze in its midst again.

A headline says that "Taft Finds Much to Praise in Wilson." And in the course of this war Mr. Taft has also exhibited sterling qualities of patriotism and broad-mindedness in which we find much to praise in him. He has given the administration unstinted support.

The infernal submarine has shown up in the Atlantic waters again, taking a U. S. cruiser for its toll. No surprise will be occasioned with its visit, but the nation which resorts to the infamous practice will be made to pay the price. The "Yankees" are aroused and they are very much in earnest in the mission of clearing the world of the agencies designed for the ruthless destruction of life and property.

With the participation of the American forces in the big battle in Europe, the war news is growing more interesting—and it reads just like American fighting. Our forces are not much given to retreat or back-ups even for strategical purposes, rather preferring the more interesting occupation found in offensive measures, and the change is proving refreshing to a waiting public.

When news of the death of his son on the field of battle reached Colonel Roosevelt, he calmly observed that he was glad that he had been permitted to render service before the fate overtook him. It takes the hero to hear up like this, and it is such heroes that make the American people so glorious. We differ with Colonel Roosevelt on politics, but we admire his fine spirit of loyalty to country, his courage and his fidelity to what he conceives to be right. Truly, he is entitled to the brilliant page of history that is being written by Americans at this time, and future generations will look back to them with great admiration.

It is encouraging to note that many of the countries engaged in the war have already begun to make preparation to meet the reconstruction days in an intelligent manner. If all the men engaged in the war were turned loose on the country at one time, without any occupation or visible means of support, the demoralization would be greater than any battle can cause, but with a systematic release, and a bureau to connect the men up with positions, and the industries of the country directed with some intelligent manner that will insure the production of greater supplies with which to fill up the depleted storehouses, much of the confusion can be avoided.

As a guarantee for future supply of paper, the War Board demands of the newspapers that they cut out all sample and free copies, free exchanges, and cancel all subscribers who do not pay for their papers with sufficient regularity to make them legitimate. The Sentinel must have its future supply with which to supply those who do pay, and if you are on the delinquent roll we insist that you get the "record straight" before another revision of the list is made, and we have to part company with you. With the next collection every person who receives the paper must settle his arrearages or be dropped from the roll, not that we doubt but what we would get the amount at some convenient time, but because it is not a good business method to carry these accounts indefinitely, and because it involves us with a violation of instructions that would jeopardize our safety.

BOLL WEEVIL CAMPAIGN ACCOMPLISHING MUCH

AUSTIN, July 22, 1918.—That the campaign now being waged against the pink boll worm in Texas is accomplishing much, and probably will result in complete extermination of the pest in cotton fields next year is the belief expressed by Fred W. Davis, Commissioner of Agriculture.

Seven counties now either are wholly or partially under quarantine. These counties are Chambers, Galveston, Brazoria, Harris, Liberty, Jefferson and Hardin. The proclamation prohibiting the growing of cotton in this territory affected about 30,000 acres of land.

Since the law prohibiting the cotton growing in the infected area failed to provide a heavy penalty for violation, a number of cotton growers disregarded it and about 16,000 acres now are under cultivation. Hundreds of acres of cotton, however, have been destroyed.

Suit to compel these cotton growers who are violating the law, to destroy their cotton is before the courts. The next legislature is expected to remedy defects in the law.

In one section of the prohibited zone, farmers banded together and paid one cotton grower \$300.00 for the privilege of destroying his thirty acre field of cotton.

The pink boll worm was first brought into Texas from Mexico in seed cotton, in the opinion of Mr. Davis. He scoffed at the idea that it had been maliciously brought into the state by German sympathizers.

"Pro-Germans would beglad to help spread the pest," Mr. Davis said, but it undoubtedly came into the state without German assistance.

The pink boll worm, considered the most destructive of worms infesting cotton, is about five-eighths of an inch long and its color noticeably pink. It eats in to the cotton seed where it is likely to remain and be carried into other fields in the seed if it is not carefully examined.

Both the state and federal government are co-operating with the farmers in an effort to stay the progress of the worm.

BOSTON BAKED BEANS RESTORED PUBLIC FAVOR IN HOLLAND, AGAIN

(By Associated Press) THE HAGUE, July 22.—The Boston baked bean, formerly despised except by the humble classes of Holland, has been restored to public favor by the recent embargo on shipments of wheat from America. 40,000 acres of land have been converted into areas for growing beans and peas.

Queen Wilhelmina is setting an example for her subjects in cultivating cereals by growing rye on the lawns of her country estate of Het Loo.

Trade in food substitutes thrives amazingly. The police of Alkamar recently seized 400 bales of roasted flower bulbs and 400 pounds of milled acorns which were intended for use in making coffee.

Much of the shortage of milk, butter, eggs, meat and fresh vegetables is due to the fact that Holland has to barter many of these good things for German coal and iron.

SOME COAL WILL BE NECESSARY IN TRAVIS COUNTY

AUSTIN, July 22, 1918.—A survey of wood available in Travis county compared with estimates of the amount that would be needed if only wood was used for fuel next winter shows that some coal will be necessary, the Travis county Fuel Commission has announced. The Federal fuel administration had hoped to add Travis county to the list of counties that would be able to produce fuel from local sources.

Rev. C. A. Westbrook went to Cushing today, where he will be engaged in a protracted meeting until Friday.

FROM A SOLDIER BOY.

To the Nacogdoches Sentinel: Dear Editor:

As I have quit my studies for a few minutes rest and as I am so pleased with my army life, I wish to write some words of encouragement to my trembling friends who must soon don the American uniform. I know that my friends have about the same ideas of army life that I had prior to my entering the service. Beyond a doubt, boys, you are dreading for the time to come when you must don the uniform, give up all civic and social pleasures and be made a new man, a real man, a soldier. You think that your officers will be heartless beasts, who will find pleasure in making a slave of you. You think you will be overworked and half-fed.

You are mistaken. I'm here and I know. Don't think I'm trying to make you believe you are coming to a pleasure resort when you come to the army. You will be coming to a place where real men live and are made. The officers are the very best material of America. They are our best and kindest citizens in uniform.

The old, half-fed slogan so commonly launched against the army is a lie. I will wager you that the humblest private in the army got better and more to eat than the average citizen did in the time of peace.

I know you will think your time of service will be thrown away time, but not so. In the citizen army of America every man is given an opportunity. If I had been physically able I could have been a commissioned officer. In the army your success depends upon whether you can deliver the goods or not.

Don't think you can bring your rough stuff to the army and get by with it. You absolutely can't. The men you will find in the camps are your fellow soldiers whom you must respect. And the officers are your best friends whom you must obey. So make up your minds to do so. Take this from a private who is proud of his uniform.

Some of you will probably say "I might have to go to the front and fight and get killed." Sure you will, but what of that? Would you not like to make death the most glorious event of your life, if it becomes necessary?

CULBERSON DENMAN, 35th Co., 9th, Br. Camp Travis.

STEEL ARRIVING IN ADEQUATE QUANTITIES

PHILADELPHIA, July 22.—Steel is now arriving at the big government shipbuilding plant at Hog Island in adequate quantities, according to R. W. Blood, an engineer for the American International Corporation. "The fabricators of steel parts for ships," Mr. Blood said, "are making good, and the steel committee, recently appointed to see that the shipyards are stocked with steel parts, has done much toward the solution of the problem.

The Hog Island yard, the largest in the world, is preparing for its first launching on August 4. The ship is the Red Jacket. It is an 8000-ton freighter. Two more 8000-ton freight carriers are nearly half completed. The second launching is expected to take place a week after the Red Jacket leaves the ways. The third vessel will follow shortly after the second, and then it will be a week or ten days before there are further launchings. After that Hog Island expects to turn out completed hulls at the rate of two a week.

Tired Nervous Mothers Should Profit by the Experience of These Two Women. Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. E. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y. Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KIMBLE, 935 West Race Street, Portland, Ind. Every Sick Woman Should Try LYDIA E. PINKHAM'S VEGETABLE COMPOUND. LYDIA E. PINKHAM MEDICINE CO. LYNN, MASS.

BRITISH "NAVY LIST" LISTS AMERICAN OFFICERS

LONDON, July 22.—The British "Navy List" which recently appeared is the first official publication of the kind to contain the names of certain American naval officers. They are included in the British list because they have been attached to certain Admiralty departments for special work.

The list of "Ships and Vessels of the Royal Navy" shows still further increase from the very impressive and lengthy list of a year ago, although the regular warships are no longer set down, and the list is limited to vessels taken over by the Admiralty for the duration of the war.

One page, which used to be devoted to the names of three honorary "Admirals of the Fleet" has shrunk to a single paragraph and a single name. It used to include the German Emperor, Prince Henry of Prussia and the Emperor of Russia. The first two have been crossed out altogether, while Nicholas who used to be listed as "His Majesty II. Emperor of All the Russias," is now merely "His Majesty Emperor Nicholas."

GERMANS ARE SERVILE TO ARMS AND UNIFORMS

AMSTERDAM, July 20.—An extraordinary instance of Teutonic servility where uniforms are concerned has occurred at Essen. A party of three armed individuals, two in soldiers and one in a policeman's uniform, made a round of all the schools of the town, representing themselves to be authorized to collect the children's satchels. They paid a trifle in each case for the leather straps attached to them, and carried away their booty. After a few days, the whole affair was discovered to be a swindle.

"How it is possible that this could have been carried on for days without anyone having the courage to challenge their authority remains one of the mysteries of the war," says the Rhenish Westphalian Gazette.

THE CHIRENO MEETING IS A GREAT REVIVAL

Rev. Ed. Ray, who is associated with the work, was in the city Saturday, and said that the protracted meeting at Chireno had developed into a great religious revival, with many souls being saved at each service. Several thousand people attend each night, people coming in from many miles around, and the whole country is aroused with the meeting.

ENTIRE ENGLISH TOWN TO BE ACTIONED OFF

(By Associated Press) LONDON, July 22.—Any man whose ambition is to own a whole town will have an opportunity to satisfy his desire here next month. By direction of Lord Stalbridge, the owner, the entire town of Shaftesbury will be put on the auction block, including private houses, banks, postoffices, stores, offices, hotels and three saloons. The town is located in a picturesque part of Derbyshire, perched on the top of a hill in the midst of rolling farm country. The nearest railway station is three miles distant, at Semley.

Sales of great estates are frequent in these days, when the life eating up profits, and many of the younger generation of the nobility are losing their lives on the battle fields. This is the first sale of an entire town which has been arranged.

DALLAS ICE PLANTS MUST CUT TO HALF

(By Associated Press) DALLAS, July 20.—Because government munitions factories are experiencing a shortage of ammoniac, ice factories and cold ammonia, ice factories and cold ed to cut the amount used in half.

The local food administration has, in conformity with this order, recommended that all restaurants and public eating places discontinue the practice of using ice on tomatoes, grape fruit, and cantaloupes, etc. This, they say would help save ice and the attendant use of ammonia.

RED CROSS DON'T WANT DICE IN ITENARY OF GAMES

(By Associated Press) NEW ORLEANS, July 20.—A Red Cross ban has been placed on dice so far as their distribution in the four army cantonments in the Gulf Division of the Red Cross is concerned. A call for games, issued throughout the division recently, brought to Red Cross headquarters here not only cards, dominoes, checker and chess boards but a complete assortment of dice.

Now there has gone forth from Red Cross headquarters a request to the public not to contribute dice as the Red Cross does not favor the playing of games to which they usually are devoted.

The world stands with its hat off to the American soldiers. Their superior intelligence, dash and initiative are he wonder of all combatants in the great world war.—Col. Milner in Rusk County News.

200,000 ACRES IN ENGLAND ON ALLOTMENTS

LONDON, July 22.—The food production department estimates that there is under cultivation in Great Britain more than 200,000 acres in allotments. Some of this land under cultivation by individuals is in the great parks of London, even Hyde Park not being spared. In the city the individuals pay about twenty-five cents a year for plots from thirty to forty feet in length to fifteen or twenty feet in width.

Food officials say there are more than 1,400,000 allotments and that about 100,000 acres of potatoes are growing in allotted ground.

FREAK WATERMELON

Mr. J. W. Stoker brought a watermelon to the office this morning which is quite a freak. The melon has a perfect shaped full moon, at the color it would be at rising on a slightly smoky evening, and is surrounded with stars.

Mr. Stoker says that he has found others in the patch which had perfect pictures of stars, one bearing the picture of the seven stars.

INSTALL OFFICERS:

At a regular meeting of Milan Lodge No. 2, A. F. & A. M., Saturday night the following officers were installed by W. F. Summers, the retiring Worshipful Master:

- Jno. S. Jenkins, W. M. B. C. Castleberry, C. W. F. P. Marshall, J. W. Tom Baker, Treasurer. J. N. Cunningham, Secretary. C. A. Westbrook, Chaplain. M. A. Dowdle, S. D. Jack Varner, J. D. Audley Harris, S. S. Lea Mintz, J. S. Willis Burrows, Tyler.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Sick children need to be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

COUNTY RED CROSS NEWS.

The least said is the easiest explained.

"Now is the time for all good men—and women—to come to the aid of their party."

A dispatch says that the Huns now think America has ten million men in France. We have the equivalent of the number in fighting courage, all right, and we will soon have it in physical numbers if necessity requires, all on the way to Berlin.

The Sentinel is informed that Mr. Lock, living on Mr. Cox's farm south of town, was in the path of the cyclone which visited that section Sunday afternoon, and suffered the loss of a fine new buggy, thirty-five gallons of syrup, five gallons of lard, and numerous other effects when the "spoke-house" in which they were deposited was blown down, and that the loss falls rather heavily upon him.

Some of the candidates complain that many voters want them to commit themselves as to their choice for certain candidates, as a condition of support. This is wrong in principle, and a great injustice to the candidate. The same voter who passed judgment on the local candidate will pass judgment on the state candidate; there are always good people supporting both sides of a state issue who would be inclined to mix up their votes in the county and district candidates in the absence of the lines being drawn, and it is necessary to the best interests of the county that they should be untrammelled. Last, but most important, the candidate who would attempt to or submit to riding into office on the coat-tail of another man is a weakling of the demagogue variety, unworthy the trust he would have you repose in him, and the voter who appreciates the sacredness of the ballot will scratch him at the first opportunity. Let each man stand and be weighed on his own merits, cast your ballot for the man best qualified for the office; to do otherwise is to prostitute the sacred privilege given into your hands and encourage the very thing untrammelled suffrage is supposed to destroy.

Several people have voluntarily expressed a willingness to contribute to a fund with which to get the election news by wire Saturday night, and those thus inclined may leave the amount they wish to subscribe with Swift Bros. & Smith's drug store. It will cost some forty dollars to get this service complete—from over the county by telephone and by telegraph from state headquarters. The Sentinel is not financially able to bear this expense, but we, together with Editor Davis of the Herald, will contribute the work of handling the reports and keep them posted on a bulletin board as fast as they are received where they may be enjoyed by all who want to keep up with them as the news breaks. The election bureau, through the Associated Press, of which the Sentinel is a member, offers us this service for the net cost of telegraph and telephone tolls, and your local newspaper men will likewise contribute their work and every advantage they have in getting them to the service. Now let us have a little money with which to finance the net cost and you will enjoy the advantages of city folks in getting the news as it breaks.

The chapter has ordered yarn from St. Louis, but it has not arrived yet. The chairman of the county woman's work advises all workers to take the directions and some cotton cord or odd pieces of yarn and try it out. In this way you will avoid making mistakes with the expensive wool when you start using that. Full directions for sweaters, helmets and socks will be issued to each branch and there must be no change from those directions. We receive our instructions from headquarters, and in turn hand them over to you. They are not what we have fixed up, but come from the head of all woman's work. No work will be accepted unless it is absolutely as the instructions are printed.

There is no organization of the Red Cross at Gravel Ridge, although most of the people there are members. They want to do their "bit"—and so have planned to have an ice cream social on Friday night. Everyone is invited and they want a large crowd to help the good work along.

Nacogdoches.
The gauze room is now open on Monday, Tuesday, Wednesday and Friday afternoons and Thursday morning. A large shipment of gauze is being sent this week. We now have plenty of gauze and can keep a great many workers busy the days the rooms are open. Don't forget that hot weather or a tired feeling are no excuse for a soldier to lie down on the job. Why should it be an excuse for us? Come to the room at least one day a week and make the much-needed bandages and wipes. You can still find time to do your share of the knitting at odd times.

North Church.
Week ending July 20th. There were 12 girls present. There were 11 many-tailed and 22 triangular bandages and 2 shirts made.

Chireno.
Since the last report the Chireno Branch has sent in to the chapter rooms 25 helpless case shirts, 10 sweaters, 7 pairs of socks and 100 many-tailed bandages have been made by the juniors. There are on hand several pairs of socks, sweaters and helpless case shirts and triangular bandages.

Union Cross.
Seven workers met with Mrs. Rowlett Tuesday, July 16th. 5 triangular and 1 many-tailed bandages, 6 refugee garments finished. They are making a good start at knitting and report 2 pairs of socks finished and several more pairs started.

LIKE AN ELECTRIC BUTTON ON TOES

Tells why a corn is so painful and says cutting makes them grow.

Press an electric button and you form a contact with a five wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug freezone is harmless and never inflames or even irritates the surrounding skin.

I am not running on Hobby or Ferguson, but because I can make you a god sheriff. Matt Muckleroy.

ENGLISH WOMAN HAD SUFFERED 40 YEARS

Tried Every Kind of Treatment Here and Abroad But Got No Relief Until She Took Tanlac.

"Tanlac has really worked wonders in my case," said Mrs. Mary Higgins, 519 North Ochoa street, El Paso, Texas, recently. Mrs. Higgins is a native of England and was visiting in Aberystwyth City, South Wales, when war between England and Germany was declared, and has many relatives and friends on the battle front.

"For almost forty years," continued Mrs. Higgins, "I have suffered with indigestion and dyspepsia and during the past three years, especially, I have tried everything imaginable with no results until I got Tanlac. I was advised to have an operation, which I did, for what was said to be gall stones but I continued to suffer. My stomach would cramp and bloat something awful after eating and even liquid diet did me the same way. My suffering was awful and I got so I was actually afraid to eat anything. A few years ago my nerves seemed to give way and I have been unable to get sufficient sleep and rest.

"While in Europe on a visit I tried many English remedies, but neither the medicine or the trip helped me. I was induced to try Tanlac and now after taking four bottles I can truthfully say I feel better than I have in at least thirty years. My sleep is sound and restful and, oh, it is such a relief to be able to eat what I want without suffering those terrible pains afterwards. I feel very grateful and am only too glad to tell others about the medicine that has done so much for me."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith, in Woden by M. J. King, in Garrison by Garrison Drug Co., in Appleby by A. J. Beck, in Douglas by Campbell & Watkins, in Chireno, and in Nat by E. M. Jarrell.

SUPPORTERS OF BOX AUTOMOBILE EXCURSION

A pretty and substantial manifestation of the support the people of Cherokee county are giving to Judge John C. Box, candidate for congress is exhibited with the enterprise they are employing with an automobile excursion of friends to the various places of the district, four carloads of whom arrived in Nacogdoches yesterday afternoon and remained over until today meeting with the people and telling them of the sterling worth of their candidate.

These people organized these excursions on their own initiative, and are pursuing them at their own expense. Included in the personnel of the parties are bankers, farmers, merchants, ministers—men and women of all occupations—and they are all very enthusiastic on the mission upon which they are engaged. They are distributing literature, hold rallies delivering addresses and singing songs, etc., and in so doing could pay him no finer tribute.

The personnel of the party coming to Nacogdoches yesterday is as follows: M. C. Parrish, W. Y. Forrest, A. B. McBride, Rev. Tom Dean, Ed. Tipton, T. R. Gragard, Sam D. Goodson, Pete Walton, J. E. Majors, T. J. Skelton, Geo. B. Terrell, Miss Nannie Hill, Mrs. Will McKinney, Mrs. Tabor, Mrs. S. E. Jones, and Mrs. C. A. Childs. They came in four cars bearing big streamers "Box for Congress." The party went from this city on to San Augustine. From San Augustine they will go on to Center and other places over the district that can be reached before the primary.

Judge Box has a right to feel proud of such friends, and the confidence they are manifesting in him, people among whom he lives and who know him best.

Mrs. A. P. Alzenhoffer of New Orleans is visiting her sister, Mrs. John Fenley, in the city.

Col. Louis J. Wortham of Fort Worth, who is billed to speak at the court house lawn tonight,

BANQUET WAS SPREAD HONORING COL. DOWNS

As noted in yesterday's paper, Col. P. L. Downs of Temple, president of the governing board of the Texas Experiment Stations, was here, coming to inspect Nacogdoches Station No. 11.

Last night some twenty business and professional men of the city assembled in the dining room of the Redland Hotel where a banquet was spread in honor of the distinguished visitor, and greatly enjoyed by all present.

The menu was generous with good things which were served in gracious manner, and in the spread the Redland fully sustained its good reputation.

His honor, Mayor Geo. H. Matthews, presided as toastmaster, and after delivering a little address of welcome in well chosen words, called on the visitor who responded with a most eloquent and logical address, in the course of which he reviewed the work being done by the experiment stations of Texas, and with much emphasis stressed the importance of further agricultural development in Texas, as the basis of the growth of the state. Col. Downs says that Texas is essentially an agricultural section, and that whatever prosperity we enjoy must be erected upon this foundation. He urges the business and professional men and the farmers to get closer together in their relations with each other, and in the course of his talk laid down many plans by which the business men could be of assistance in the development of the agricultural interests of the country. He reviewed the production and resources of the county at present in such a clear and concise manner that his reasoning impressed itself upon his hearers, and in response all agreed to put forth greater effort along these lines in the future. With particular reference to the experimental station, he impressed the idea that the work was solely of an experimental nature, in which experiments with different varieties of crops and livestock are tried out, and the farmers given the benefit of the experiment. He complained that many were inclined to expect demonstration work which comes under another department of the service with the county agents. The results of these experiments are published in bulletin form for free distribution, and the people who reside near enough may visit the station and get first-hand information. In discussing the work here, Col. Downs complimented Mr. McNess very highly, saying in substance that he had made good with every essential requirement, and urged the people of the community to co-operate with him more in the future to the end that the best results may be obtained.

The speaker talked for more than an hour and it is impossible to review all the good things he said; the pity it is that his address could not have been heard by a great mass meeting of business men and farmers who could have caught the inspiration of his enthusiasm and logical reasoning and appropriated it to the upbuilding of this community more quickly.

Col. Downs is a banker and planter of Bell county. He has been a life-long enthusiast in agricultural development and bears the credit of introducing the resolution that brought the experimental stations to Texas. He has defended his resolution with equal enthusiasm, and in recognition of his untiring work was elected president of the board. Many greater positions have been offered him, but his whole enthusiasm and might are concentrated in this particular branch of the work, which is proving one of the greatest public benefactors of the state, and which will lead on to still greater things.

Following Col. Downs short addresses were made by Prof. Davis, Eugene H. Blount, W. E. Thomason, Rev. C. D. Atwell, Geo. T. McNess, F. H. Tucker, with remarks by others, all reflecting the inspiration caught with the meeting, and if the hour had not grown so late others would have responded. Prof. Davis urged the importance of immediate organization of a permanent commercial club; Mr. Blount pledged himself to take some farmer to the experiment

Join the Volunteer Company Now

We will be at the following places at the hours set forth for the purpose of recruiting men for the infantry company now being organized. Men from 18 to 45 wanted. Capt. W. E. Thomason has been detailed to assist in the organization and will address all interested at each place:

- Nacogdoches, Friday July 26, from 8 to 12.
- Linn Flat, " " " " 1 to 3.
- Cushing " " " " 4 to 7.
- Swift Tuesday July 29 " " " " 9 to 11.
- Martinsville " " " " 12 to 2.
- Attoyac " " " " 3 to 5.
- Chireno " " " " 5 to 8.
- Melrose Wednesday " 31 " " 9 to 11.
- Woden " " " " 12 to 2.
- Harmony " " " " 4 to 6.
- Douglass Thursday August 1 " " " " 9 to 11.
- Nat " " " " 12 to 2.
- Lilbert " " " " 3 to 5.
- Appleby Friday " 2 " " 1 to 3.
- Mayotown " " " " 3 to 4.
- Garrison " " " " 5 to 7.

R. B. WALTHALL, Capt.

J. F. PERRITTE
CANDIDATE FOR
COUNTY JUDGE

Your Support Will be Appreciated

station before another week and received much benefit from being present.

NOTICE.

All who want to take advantage of volunteering in the infantry company now being organized, had better hurry as I have 78 volunteers now, and the company will soon be full. dw

DOCHES COUNTY

I am deeply grateful to the people of Nacogdoches County for the confidence they have heretofore expressed in me at the polls. Four years ago I received at the hands of the voters of Nacogdoches county, my home county, an overwhelming majority against one of my present opponents in the race for the State senate.

In the present race for congress from this district, I again solicit your support and influence, and promise elected to obey the will of my people, as expressed by the ballot.

My opponents in this race have offered no relief to the great farming class upon whom depend the very existence of our national life. There is at present pending in congress a bill that has for its purpose the fixing of the price of cotton at 20 cents per pound, making this the highest price and under said bill cotton could go as low as three cents per pound. For the past fifty or sixty years the cotton manufacturers of the East have been, not only fixing the price, we get for our cotton, but, also fixing the price we must pay for our cotton goods. I am willing to say without fear of contradiction that the cotton farmers of the south have not made a clear dollar out of cotton until the 1917 season. And further, I want to say that at the present price of everything, including labor, the high cost of production and living, it means bankruptcy to the south if the price of cotton is fixed at 20 cents per pound. In my first speech and in all of my speeches and in my platform I have opposed the bill to fix the price of cotton, and if elected will use my best efforts to defeat same.

No other candidate now advocates an amendment to the farm loan act, so as to permit the borrowing from the farm Loan Bank 75 per cent of the value of a home. As the law is now written, in order for one to purchase a home he must pay down 50 per cent of the value thereof, before he is allowed to borrow from the bank. Under the amendment I advocate a down only 25 per cent of the purchase price, obtain a home, by borrowing the remaining 75 per cent from the Land Bank for a long term and at a low rate of interest.

I favor every measure looking to the moral and social uplift of our people, State and Nation.

For three years I served my country as a volunteer soldier and can therefore deeply sympathize with our noble boys, who are now standing in the front trenches of civilization fighting to save the world and make it safe for democracy; and, I promise if elected to aid in my humble way the great president of this nation, Woodrow Wilson, in the successful prosecution of the war, that our boys may soon return home to again enter pursuits of peace and happiness made safe by victory.

Unlike one of my opponents, I do not claim credit for all measures benefitting mankind, but I have had a humble part in the enactment of some laws that have been beneficial to our state and people. I have ever remained true to my state and nation and am glad to say that I have also remembered my friends at home.

When Nacogdoches was an applicant for the normal, though not a resident of Nacogdoches, I left my business and worked for the interest of Nacogdoches county, not for the hope of any

political reward, but because of the interest I felt in those at home, who have always been near and dear to me, and also because I owed the people of my home a duty, which in this instance I endeavored to discharge. I do not claim the credit for locating this educational institution in Nacogdoches county, but am glad I had a small part in same.

I look forward to Saturday, July 27th, with a full knowledge that the people of my home county will again express their confidence in me by giving me the largest majority ever received by any candidate for office in this county, and I assure every man and woman who vote for me that they shall never have cause to regret their vote.

Gratefully yours, STEVE M. KING. (Political Advertisement)

ACT QUICKLY. Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger, Doan's Kidney Pills are most effective.

Plenty of Nacogdoches evidence of their worth. Mrs. J. J. Coker, S. North St., Nacogdoches, says: "I felt miserable and had no energy or ambition. My back was weak and ached constantly and dizzy spells and headaches annoyed me. Doan's Kidney Pills ease the pain across my back and strengthened my kidneys. My health improved and I have had little kidney trouble since."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Coker had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

FOR COUNTY JUDGE. To the men and women of Nacogdoches county: I am offering for county judge for two reasons, which I believe exist in full measure—first because of the valuable service I am able to render, and second because of the aid of the office to me.

When I was young and active I prepared myself for the practice of law in the advanced schools of Texas with money I made at hard work. During 22 years of lameness all kinds of indoor work has increased my fitness for the office.

As county judge my efforts will be to render efficient and impartial service to every one and to do all the good I can in all the ways I can. Your support will be gratefully remembered.

Yours sincerely, EMMETT W. SMITH. (Political Advertisement)

Mr. C. B. Brewer has returned from a visit to the Eastern markets where he went with Mr. Henry Schmidt and Miss Stewart for the store of Mayer & Schmidt, and says that they have purchased a large and varied assortment of merchandise for the big fall trade they are expecting. Mr. Brewer says that they feel that they have made a big saving, as well as getting a better selection by going early in person, the price already having advanced on many articles since they made their purchases, and continuing to advance each day on all lines of merchandise. Mr. Schmidt and Miss Stewart remain a few days longer in the markets and will arrive home next week some time.

Vote for Matt Muckleroy for Sheriff. He will appreciate your vote. He is the man for the place.

BEHIND THE BRITISH LINES IN FRANCE, July 25.—Sniping and countersniping has been reduced to a fine art in modern warfare, and the sharp shooter uses many other branches of the service to assist him. An incident which occurred a few days ago in the British lines in Flanders shows how a little artillery work is sometimes necessary in bringing about the undoing of the German snipers. Lieutenant Jackson, battalion sniping officer, was walking down the trench when he heard a sudden rattle of musketry—German bullets striking one of the British sniping plates. One of his sniping posts was being battered by German armor-piercing bullets.

The officer hurried to the scene and with his periscope located the spot where the Germans were firing. It was a big post on some ground behind the enemy firing line, hidden with earth and looking exactly like any one of the other tangle-hummocks with which shells and mines had trewn the vicinity. But his trained eye quickly marked out four small apertures which he knew to be loopholes. The excellence of his periscope even enabled him to see the puffs of unburned powder which came from the four hostile rifles at every shot.

"They are behind concrete and steel under that surface mud, sir," said the sergeant. "I won't be easy dealing with them." "It's a case for the heavy artillery, I'm afraid," murmured Lieutenant Jackson regretfully—he disliked calling in any outside assistance for his snipers. "I saw the major of that heavy battery which covers us, going by a moment ago," suggested the sergeant.

Lieutenant Jackson hurried off down the trench and found the major who was up on a survey of the enemy line for special targets. A hint of what had developed brought the Major back, and a minute later he was in the nearest signal dugout, telephoning instructions to his battery.

Meanwhile Lieutenant Jackson beckoned the sergeant away out of the Major's hearing. "Put Haggarty and Brown into Post 9, Sergeant," he ordered. "I don't think the Germans have any day communication into that post of theirs, and they will have to bolt for cover over the ridge." Presently the first heavy projectile came rumbung up from the rear. It burst fifty yards wide in a great splash of earth. The second shell burst in the German firing line, right in front of the sniping post, and tore a huge gap in the parapet. The third fell right on top of the post itself. But the concrete of the structure was strong, and the shell actually ricocheted clear and burst several yards away.

"That has frightened them," exclaimed the major suddenly, as four figures appeared from behind the sniping post and raced madly for the crest of the ridge. Just then a shot rang out from the British trench, and the first German pitched forward on his face. The second fell a yard further on. The remaining two were dropped as they reached the crest.

The officer hurried to the scene and with his periscope located the spot where the Germans were firing. It was a big post on some ground behind the enemy firing line, hidden with earth and looking exactly like any one of the other tangle-hummocks with which shells and mines had trewn the vicinity. But his trained eye quickly marked out four small apertures which he knew to be loopholes. The excellence of his periscope even enabled him to see the puffs of unburned powder which came from the four hostile rifles at every shot.

TO A FINE

(By Associated Press)

BEHIND THE BRITISH LINES IN FRANCE, July 25.—Sniping and countersniping has been reduced to a fine art in modern warfare, and the sharp shooter uses many other branches of the service to assist him. An incident which occurred a few days ago in the British lines in Flanders shows how a little artillery work is sometimes necessary in bringing about the undoing of the German snipers. Lieutenant Jackson, battalion sniping officer, was walking down the trench when he heard a sudden rattle of musketry—German bullets striking one of the British sniping plates. One of his sniping posts was being battered by German armor-piercing bullets.

CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Kilman, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

The Boy Scout and Corn Club Boys' encampment came to a close yesterday, and the boys have all returned to their respective homes. It was a great outing for them, every minute of the time filled with wholesome amusement and good instruction, and the boys will long remember the happy occasion. These manly young fellows will soon take rank with the citizenship of the country, and training they are receiving with these enterprises is valuable to them in shaping them for the development.

Mr. Luther Wade and family, former citizens of this city who have been making their home elsewhere several years, arrived last evening and are guests of Mrs. Wade's sister, Mrs. J. R. McKinney, at the Banita. This good family has many friends in Nacogdoches who will be delighted with the opportunity to see them again.

For Middle-Aged Men and Women.
The kidneys work day and night to filter and cast out from the blood stream impurities that cause aches and pains when permitted to remain. It is only natural these important organs should slow up and require aid in middle age. Foley Kidney Pills help overworked, tired and diseased kidneys and bladder. Stripling, Haselwood & Co.

WHITMAN BE CANDIDATE REGARDLESS ROOSEVELT
(By Associated Press)
SARATOGA, July 19.—Governor Whitman will be candidate for the renomination, whether or not Roosevelt runs, his secretary announces. Roosevelt is silent.

For Constipation and Biliousness
Geo. Jenner, 416 Labor St., San Antonio, Texas writes: "Foley Cathartic Tablets have proven the best laxative I have taken and I recommend them to sufferers from constipation or biliousness. They should be in every traveling man's grip." Relieve sick headache, bloating or other condition caused by bad digestion. Stripling, Haselwood & Co.

Mr. J. E. Teutsch was in town today, shaking hands with friends.

If you feel "blue," "No account," lazy, you need a good cleaning out. HERBINE is the right thing for that purpose. It stimulates the liver, tones up the stomach and purifies the bowels. Price 60c. Sold by Stripling, Haselwood & Co.

Mr. K. N. Matthews has recently returned from a visit to Bell and Williamson counties where he says he found the drouth very severe, and conditions not near so good as we are now enjoying in this section.

Lame Shoulder.
This ailment is usually caused by rheumatism of the muscles. All that is needed is absolute rest and a few applications of Chamberlain's Liniment. Try it. It only costs a quarter.

OVER BILLION DOLLARS WORTH FOOD SENT ALLIES
(By Associated Press)
WASHINGTON, July 18.—Food valued at \$1,400,000,000 was sent the allied countries from America during the fiscal year ending July 30. Hoover told President Wilson today.

If your appetite is poor and your stomach and bowels out of order the remedy you need is Prickly Ash Bitters. It cleanses the system of bilious impurities sharpens the appetite and makes you feel fine. Price \$1.25 per bottle. Stripling, Haselwood & Co., Special Agents.

Mr. Sam Hancock, a well known citizen of the Carrion county, born in the 60's, died a day or two ago and his body was laid to rest in Greenwood cemetery at Garrison Wednesday afternoon. The presiding elder officiated at the funeral, and the business houses of the town were closed up for the hour out of respect to his memory.

Mr. George K. Gibbs, editor of the Logansport Newsboy, is in the city today visiting his brother, O. M. Gibbs and family. Like his brother, Mr. Gibbs has spent the major portion of his life in newspaper and literary work, in the course of which he has joined in the chorus of singing the praises of East Texas and West Louisiana, and rendered much good service. Through agitation in his paper a few years ago so much interest was aroused in making the Sabine river navigable up to Logansport that congress made appropriation for a survey of the stream and took other steps which will lead to the development of this great stream when the war is over. With this river navigable, "deep water rates" will be brought nearer to us and all this section of country would receive benefit. Mr. Gibbs has recently added a model linotype to his equipment, and after a little vacation, which he is spending in the surrounding country to familiarize himself for a larger work while taking a rest, he will return to his shop with renewed inspiration, and pick up his lines with a force that irresistible in the life of civic righteousness and industrial development.

If you can't work well in hot weather take Prickly Ash Bitters, it purifies the stomach, liver and bowels and fortifies the body to resist the depressing influence of summer heat. Price \$1.25 per bottle. Stripling, Haselwood & Co., Special Agents.

Mr. Watkins, formerly of Longview where he has for some time been manager of the Duke & Ayer five and ten cent store, with his family has moved to Nacogdoches, where they will make their home. Mr. Watkins has been employed by Lee & Lee, Inc., to manage their store in this city during the absence of Lieutenant W. W. Lee, who will soon go to the front with his company to render service for Uncle Sam.

COUNTY BOYS GO TO CAMP TRAVIS

Monday's Daily
The following young men left at noon today for the training camps at Camp Travis:
John V. Teutsch, Chireno.
Bennis Gordon Carnes, Appleby.
Henry I. Lunsford, Garrison.
George R. Strong, Garrison.
Thomas C. King, Chireno.
Albert Rice, Nacogdoches.
William B. Spruill, Woden.
John A. Simpson, Appleby.
Verna C. Martin, Attoyac.
Aaron Raines, Garrison.
Ernest Mitchell, Etoile.
J. W. Whitehead, Sacul.
Arch Lollar, Mahl.
Willie E. Shadden, Maytown.

FORMER STATE SENATOR TOWNSEND ENDORSES C. M. CURETON FOR ATTORNEY GENERAL.
To the Men and Women Voters of Nacogdoches County:
Next in importance to the election of a governor this year is the election of an attorney general. The office should be filled by a thoroughly equipped lawyer of experience, ability and integrity, and one whose sympathies are entirely in accord with the great moral forces now sweeping over Texas. The Attorney General is the chief law officer of the state. His duties are to counsel and advise the county, district and state officers, to construe the laws, to represent the state in the higher courts in certain cases, wherein the state is a party and to approve all bond issues. Besides these duties, he has many others to perform, too numerous to mention here. The many wholesome laws passed by the recent session of the legislature, including the several prohibition laws, will avail the people but little, if such laws are not correctly construed by the attorney general and rigidly enforced. Past experiences has taught that the lax enforcement of laws eventually brings about their repeal, therefore it is of the utmost importance at this time to elect an attorney general in sympathy with these laws and ideals. Judge Cureton meets these requirements. He has been First Assistant Attorney General for the past five years, knows the business of the office from actual experience and is deserving of promotion, besides, he is an experienced lawyer of great ability, able to cope with the very best lawyers in the state. He has always favored prohibition and woman suffrage. I cheerfully commend Judge C. M. Cureton to my Nacogdoches county friends as a man worthy in every respect of their confidence and active support. Investigate his record, and you will become one of his supporters.

W. J. TOWNSEND.
Former State Senator, 13th Senatorial District.
(Political Advertisement)

Surgeons agree that in cases of cuts, burns, bruises and wounds, the First Treatment is most important. When an efficient antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, Borozone is the ideal antiseptic and healing agent. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by Stripling, Haselwood & Co.

This week brings the first section of the political campaign to a close, and it will soon all be over but the "shouting." "Your vote and influence respectfully solicited."

Mrs. Burns' Letter.
Here is a letter that is certain to prove of interest to people in this vicinity, as cases of this sort occur in almost every neighborhood, and people should know what to do in like circumstances.
Savanna, Mo., Oct. 12, 1916.
"I used a bottle of Chamberlain's Colic and Diarrhoea Remedy about nine years ago and it cured me of flux (dysentery). I had another attack of the same complaint some three or four years ago and a few doses of this remedy cured me. I have recommended Chamberlain's Colic and Diarrhoea Remedy to dozens of people since I first used it."

Why should we ever go abroad even across the way, to ask a neighbor's advice? There is a nearer neighbor within, who incessantly is telling us how we should behave. But we wait for the neighbor without to tell us of some false, easier way.—Thoreau.

In every home where there is a baby there should also be a bottle of MCGEE'S BABY ELIXIR. It may be needed at any time to correct sour stomach, wind colic, diarrhoea or summer complaint. It is a wholesome remedy, contains no opium, morphine or injurious drugs of any kind. Price 25c and 50c per bottle. Sold by Stripling, Haselwood & Co.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is quicksilver and acts like dynamite on your liver.
Calomel loses you a day! You know what calomel is. It's mercury, quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.
When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.
Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

DOING HARD WORK IN A BENT OR STOOPED POSITION PUTS A STITCH IN THE BACK THAT IS PAINFUL. If the muscles have become strained, you can't get rid of it without help. The great penetrating power of BALLARD'S SNOW LINIMENT will appeal to you most strongly at such times, because it is the very thing you need. Price 25c, 50c and \$1.00 per bottle. Sold by Stripling, Haselwood & Co.

Fewer at Health Resorts This Year.
Increased expenses in traveling and at health resorts will keep many hay fever and asthma sufferers home this summer. Foley's Honey and Tar is recommended as a satisfactory remedy for hay fever and asthma. It heals and soothes, allays inflammation and irritation, and eases the choking sensation. Stripling, Haselwood & Co.

Shade Shipp, a well known planter from the northern part of the county, was among the visitors to the city today.

The Joy of Living.
To enjoy life we must have good health. No one can reasonably hope to get much real pleasure out of life when his bowels are clogged a good share of the time and the poisons that should be expelled are absorbed into the system, producing headache and indigestion. A few doses of Chamberlain's Tablets will move the bowels, strengthen the digestion and give you a chance to realize the real joy of living. Try it.

WILL HOLD SCHOOL TRUSTEE INSTITUTE

Prof. G. B. Layton has prepared the following program for a school Trustee Institute to be held in Nacogdoches, in the county court room, Friday, August 9th, which will be very interesting to people clothed with this responsibility and every trustee in the county should attend:
9:15 a. m.—The qualifications and duties of a school trustee, by Hon. Geo. F. Fuller and Prof. G. M. Hale.
10:00 a. m.—The trustee's part in making the rural school a social and educational center, by Rev. T. F. Weaver and Hon. C. A. Hodges.
11 a. m.—Progressive needs of our rural school system, by Prof. H. H. Hall and C. H. Carroll.
12:00 a. m.—Noon.
1:00 p. m.—The compulsory school law, by Hon. W. E. Thomason and Hon. R. E. Wallhall.
1:45 p. m.—What the school should do for the child, by Hon. F. P. Marshall and Hon. R. W. Tillery.
2:30 p. m.—The rural school law and the duties of the county board of education, by Prof. R. F. Davis.
3:15 p. m.—The school's part in winning the world war, by Rev. M. C. Johnson.
Under the law every trustee in the county is expected to attend. The County Board urges the attendance of everyone interested in the welfare of the schools.

Soldier's Cough is Cured.
Private Harold Hamel, 66th Regiment, Ft. Adams, R. I., writes: "I was troubled with a bad cough for three months. I tried Foley's Honey and Tar and felt greatly relieved. I recommend Foley's Honey and Tar and will keep it on hand." Gives relief from hay fever, asthma and bronchial coughs. Stripling, Haselwood & Co.

ROOSEVELT ARRIVES IN WASHINGTON
(By Associated Press)
WASHINGTON, July 22.—The arrival of Assistant Secretary of the navy, Roosevelt, from France, was announced today.

Doing hard work in a bent or stooped positions puts a stitch in the back that is painful. If the muscles have become strained, you can't get rid of it without help. The great penetrating power of BALLARD'S SNOW LINIMENT will appeal to you most strongly at such times, because it is the very thing you need. Price 25c, 50c and \$1.00 per bottle. Sold by Stripling, Haselwood & Co.

Fear is the rock on which we split, and hate is the shoal in which many a bark is stranded. When we are fearful, the judgment is as unreliable as the compass of a ship whose hold is full of iron-ore; when we hate, we have unshipped the rudder; if we stop to meditate on what the gossips say, we have allowed a hawser to be foul the screw.—Elbert Hubbard.

Chamberlain's Tablets.
These tablets are intended especially for stomach troubles, biliousness and constipation. If you have any troubles of this sort, give them a trial and realize for yourself what a first-class medicine will do for you. They only cost a quarter.

Editor and Mrs. W. S. Davis have returned from a few days visit to Houston and Galveston, and report a pleasant outing. They made the trip in their car, and had no trouble of any kind on the trip save a disagreeable supply of dust at some places along the route.

If hot weather saps your energy and you can't work well, it is a sign that your system is full of bilious impurities. You will be sick if you do not do something. Take Prickly Ash Bitters, it cleanses the blood, liver and bowels, restores strength, vim and cheerful spirits. Price \$1.25 per bottle. Stripling, Haselwood & Co., Special Agents.

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.
If work is tiring, if your nerves are excited, if you feel languid, weary or depressed, Scott's Emulsion will prove a wonderful strengthener.
It possesses the very elements to invigorate the blood, nourish the nerves and build strength.
Every druggist has Scott's. Try it.
Scott & Bowne, Limited, N. Y.

CATCHES DRAFT DODGER.

The sheriff's department yesterday picked up a man by the name of Welborn Baker, who had aroused suspicion of the officers, and he was given a sentence of five months on the county road. Further inquiry developed the fact that the man was from Fayetteville, N. C., within the draft age but had not registered. After serving his sentence here he will be turned over to the government authorities.

666 cures malarial fever.
Robert L. McLendon, a merchant of Etoile, was a visitor to the city yesterday.
666 contains no alcohol, arsenic, nor other poisonous drugs.

Prof. W. B. Hargis of Pineland has been in the city today shaking hands with his many friends.
Mr. Ab. Carriker, a prominent business man of Cushing, was a visitor to the city yesterday.

666 cures chills and fever.
Messrs. F. T. Posey, A. E. Baker and R. A. Menefee, Jr., of Chireno were visitors to the city Friday, and honored this office with a pleasant call while here.
666 cures headaches, biliousness, loss of appetite or that tired aching feeling, due to malaria or colds. Fine tonic.

Mr. and Mrs. G. W. Liles, the bride and groom of a few days, have returned to the city from a honey-moon visit to points of interest, and are receiving the glad hand of congratulation and good wishes from their many friends.

666 cures by removing the
Mr. J. A. Warner has returned from Dallas, where he went to attend the Fordson tractor demonstration, and brings back quite an interesting report of the event. He says that the tractors are all that are claimed for them, and are so easy and simple of operation that women and children can operate them.

666 cures bilious fever.
Mrs. Ed. Gaston and son went to Garrison yesterday and brought back with them the lady's parents, Mr. and Mrs. G. W. Bowling, who will spend some time here. "Uncle George" the old gentleman is familiarly known and tenderly addressed by his friends, has been in declining health for some time, and it is hoped that the change will be beneficial to him.

NOTICE.
I am ready to sell the T. J. Hill homestead, situated on Fredonia Hill, consisting of about nine acres of land, with two houses and improvements.
This is one of the most desirable locations for a home in Nacogdoches.
C. W. HILL,
Administrator of the estate of T. M. Hill, deceased.
17-4td-2w.

Strayed—One red and white pided cow, medium size horns, wearing medium size brass bell. Left my home about 15 days ago. \$10.00 for information leading to recovery. Hobo Miller, Lufkni, Rt. 4, Box 38. 11-4wp

COW HIDES WANTED.
We are paying 14c per pound for green hides. Prices subject to change without notice. Green hides should be salted heavily as soon as possible, and shipped by express. Put one tag with your name and address inside of the sack and one on the outside.
We also handle horse hides and wool.
A GOLENTERNEK & CO.

Fresh Beef Travels on a Rapid Schedule

Fresh beef for domestic markets goes from stockyards to retail stores within a period of about two weeks. Although chilled, this meat is not frozen; hence it cannot be stored for a rise in price.

A steer is dressed usually within twenty-four hours after purchase by the packer. The beef is held in a cooler at the packing house, at a temperature a little above freezing, for about three days.

It is then loaded into a refrigerator car where a similar temperature is maintained, and is in transit to market on an average of about six days.

Upon arrival at the branch distributing house, it is unloaded into a "cooler", and placed on sale.

Swift & Company requires all beef to be sold during the week of arrival, and the average of sales is within five days.

Any delay along the above journey means deterioration in the meat and loss to the packer.

Swift & Company, U.S.A.

BRITISH FLYING SQUADRON TURNS TABLES ON HUNS

(By Associated Press)

LONDON, July 20.—How a British flying squadron turned the tables on German airmen who had been bombing their aerodrome is related by Lieutenant W. A. Barnes of the Royal Air Force.

"We had been giving the Hun a lively time," the officer says, "bombing his dumps, billets, communications and towns nightly. When, therefore, he bombed our aerodrome two evenings in succession and completely upset all our arrangements, it was generally agreed that he had scored one over on us. Much as his enterprise was admired, however, it was decided to try to check it.

The plan evolved was simple. The next day the British machines were flown over to a neighboring aerodrome, where it was believed they would be safe from raids. Then they started off just after dusk to make a reprisal attack.

"We arrived at the enemy's lair," Lieutenant Barnes narrates, "at a most opportune moment, for a second relay of his machines were just 'taxying' across the ground to 'take off' in the flare path. In our wildest dreams we had not hoped for such luck as this, and every possible advantage was taken of it.

"A few well-directed bombs, dropped right in among the machines that were awaiting their turn to take off, set fire to two and badly damaged others. Another machine was seen to crash while actually taking off in the flare path. Some equally well-directed incendiary bombs set fire to a large shed, and then the real fun of the night began.

"By this time the first relay of machines, sent as we afterwards learned to bomb our own aerodrome, again began to return. As they were on their own side of the lines, and in blissful ignorance of the fate of their aerodrome, they were flying with navigation lights full on, thereby giving their position away in the darkness.

"Relieved of our bombs, we were able to give fight, and successfully shot down one in flames, while another was distinctly seen to crash on top of a wood.

"Having thus paid our debts in full we left the remainder to land on a bomb-riddled aerodrome—no enviable task at night—while we went off home to celebrate a good night's work, with the comforting assurance that the R. A. F. were at least 'one up' on their adversaries' game."

A Surprise Box of Beauty

No matter what kind of powder you've used, Soul Kiss Face Powder will beautify the complexion beyond your fondest dreams.

Meyer Bros. Drug Co., Saint Louis

SOUL KISS
Face Powder

PASSED INSPECTION
HUNDRED PER CENT

Capt. Thomason's Cavalry Troop passed in review the trained eye of Lieutenant Colonel Fitzhugh Lee this morning and was accepted in full.

Like the soldier he is, the colonel is not given to fulsome flattery, and did not engage in any extended comment, but the physical act of taking them 100 per cent is the greatest compliment that he could pay—an action that speaks louder than words.

The Sentinel reporter had the pleasure of meeting Brigadier General Wolters after the inspection, and when asked when he hoped to call his division into service, he said that it was a ledge, but that he hoped that it would come not later than the middle of August. Commenting further, he expressed his delight with the appearance of the Nacogdoches troop, and his appreciation of the hospitality he had received since coming to Nacogdoches.

General Wolters is a man of pleasing bearing and personality, easy to approach, and Nacogdoches' people who had the pleasure of meeting him on this trip will love him better in the future.

MYRTLE GARDNER DIES IN ST. LOUIS

EAST ST. LOUIS, Ill., July 22.—Myrtle Gardner, a prominent figure in the congressional investigation of conditions here which led up to the race riots last year, died here after a long illness.

It was Miss Gardner, who in a sensational statement to Chairman Johnson of the congressional committee, told of being lured to a hotel operated by Steve Unk, who is now serving a sentence at Leavenworth, Kas., for white slavery. Her declarations regarding vice condition here were illuminative and led to the general expose of corruption embodied in a recent committee report to congress.

To protect the girl from persons who might attempt revenge, Chairman Johnson named her assistant secretary of the committee and placed her under constant federal surveillance.

Dave Greer, a well known cottoy buyer of the county who has been making his headquarters in Northwest Texas, is spending a vacation with the homefolks at Appleby, and was a visitor to this city Saturday.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is sure evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try It!

MAY HAVE LIMITED HOME RULE IN INDIA SOON

LONDON, July 19.—(British Wireless Service)—Eventually to set up in India a responsible self government is the avowed purpose of the plan of limited home rule for that country which has been prepared for submission to the British parliament by Edwin S. Montagu, secretary for India, and Baron Chelmsford, Viceroy and Governor-General of India.

Before this goal of self-government can be attained, however, the authors of the new plan say the Indian people should have a period of training. They say that the proposed scheme is a temporary expedient intended to provide a method of training in government and say the ultimate attainment of the desired goal depends upon the Indian people themselves. "It would not be fair to give it to them until they fill the necessary conditions," says the secretary for India and the Viceroy.

The report has been made public by the government for purposes of discussion and criticism. It has not been definitely adopted in all its details by the war cabinet.

Leading up to a description of their new plan, the official announcement says that "declarations of both our own and American statesmen concerning the liberalizing of the aims of the allies have given new force and vitality to the growing demand among the progressive section of the (Indian) people for self-government.

The Viceroy and Secretary of India propose that the new government in India shall be composed of the following: Provincial legislatures to be composed of directly elected representatives.

A viceregal legislature for all India to be composed of two

chambers—the legislative assembly of India and the council of state.

The Indian Privy Council, members of which are to be appointed by the King Emperor.

A council of princes. According to the official announcement of the provisions of the scheme an increasing degree of responsibility is to be given to the provinces. They are to have the largest measure of independence compatible with the authority of the Viceregal legislature.

Certain subjects are to be reserved for action by the Executive Council of these provinces, excluding Burma. These Executive Councils will consist of the governor and two members, one of them to be an Indian.

DESERTER IS REPORTED HIDING NEAR AUSTIN

AUSTIN, July 22, 1918.—An alleged deserter is reported to be hiding in the mountains southwest of Austin and several claim to have seen a man scurry into the bushes at different times during the last two weeks. The sheriff's department is making an investigation.

The Evening Line-Up

Both children and grown-ups, with coughs and colds, are all the better for a dose of Foley's Honey and Tar at bed time. It wards off croup, stops tickling throat, and hacking coughs, and makes an otherwise feverish, sleepless night of coughing and distress, a quiet and restful one.

BROWNSVILLE, TEXAS, Mr. Chen Baker, writes: "My wife would not think of using any other cough medicine, as Foley's Honey and Tar is certain to bring quick relief. It is especially effective in cases of bad coughs, and we give it to our children and recommend it always as a safe remedy, for it contains no opiates."
Stripling, Hasselwood & Co.

NEW PHYSICAL STANDARDS FOR EXEMPTION BOARDS

DALLAS, July 22.—New physical standards have been promulgated by Provost Marshal General Crowder to guide exemption boards in sending selective men to mobilization camps. Under the new ruling minimum weight is 116 pounds and the minimum height is 63 inches. Heretofore the minimum weight has been 110 pounds and the minimum height 60 inches.

NOTICE TO CHIRENO BOY SCOUTS.

I want every boy in this troop to assemble at Chireno Friday and Saturday, July 26 and 27.

We are going to have an encampment at the Garrett bridge, three miles east of Chireno, and we invite every boy scout in the county to be with us on those days. Bring a blanket to sleep on that night. Every member is requested to be present. Each member is requested to know the semaphore code and the sixteen principal points of the compass.
CARL YBARBO,
Assistant Scout Master.

THREE AUSTRALIAN MINERS FIND MUCH GOLD

PERTH, Australian, July 22.—Three miners in the Mount Magnet district of Western Australia, in a single afternoon recently, obtained 651 ounces of gold, valued at \$13,000, from 75 pounds of rock.

OUR GUARANTY Money Back if Not Benefitted

All Carlsbad Agents are hereby authorized to refund the cash paid for a case of Texas Carlsbad Water if no benefit is received after drinking one case according to the following directions.

For Constipation, Indigestion, Liver or stomach troubles, drink No. 3. For rheumatism drink No. 4. For diabetes and Kidney Trouble Drink No. 2.

Drink two glasses hot (not luke warm) fifteen minutes before breakfast and not less than one bottle the rest of the day. Remember, our only requirement is that you drink at least one bottle a day besides the two glasses of hot water before breakfast, every day continuously until case is drunk.

If this is not a fair proposition we don't know how to make one. Our \$120,000.00 capital stock, surplus and undivided profits stand behind this guarantee.

DIED AT CRIPPLE CREEK

Bill Jones died at Cripple Creek, Col., and his friends gave him a Christian burial and in memory of the many noble qualities that characterized Bill as a man of sterling worth and fixed integrity, they erected a plain slab over his grave which bore his name and the inscription "Bill done his damdest, Angels could do no more."

Well, I have certainly done my best to render fair and impartial justice since the voters so generously elevated me to my present position.

On account of having signed an agreement not to make a house to house campaign, I have not had the opportunity to see every voter in the precinct, but that doesn't mean that I don't want your support for Justice of the Peace.

I am anxious to be re-elected because it gives me an opportunity to earn money on which to live and support my family.

The men know me. I want their vote.

I respectfully ask the ladies to give me their votes, assuring them that I shall continue to make this office stand for law and order and make it a real factor in the upbuilding of the community.

Respectfully,
F. D. HUSTON.
(Political Adv.)

IF YOU ARE SERIOUSLY INTERESTED

In the efficient, up-to-date, and clean administration of our public school system, I would like to call your attention to the candidacy of Miss Annie Webb Blanton for State Superintendent of Public Instruction. I have known Miss Blanton personally for years, and know that she is eminently well qualified to fill this position for the following three reasons:

1. She has actually taught in every grade of the public schools both town and rural, and has first-hand, practical knowledge of their needs; and in addition, she has been engaged for the last seventeen years in training teachers in our largest state normal.

2. She is a woman of executive ability, as has been evi-

denced by her work as president of the State Teachers' Association, the first woman ever accorded that honor, and also by her work as vice president of the National Teachers' Association.

3. She has no political axe to grind, being actuated by one motive—the welfare of the public schools and the children of the State—and her standing on moral questions is unequivocal.

MRS. BEN T. WILSON.

RECRUITING OFFICE OPEN AT ARMORY HALL

Capt. R. B. Walthall requests The Sentinel to announce that he has opened a recruiting office at the armory hall (old postoffice building) where men interested in joining his company of Infantry, National Guard of Texas, are invited to call and get such information as they desire in the matter of enlistment.

Capt. Walthall is also in receipt of information that his company will be federalized along with the cavalry if it can be organized in time, and he is therefore very anxious to finish recruiting this week if possible. Up to this morning forty-six had enlisted, which is nearly half the number required, and which gives hope that the balance will be forthcoming quickly.

This company presents a fine opportunity to those wishing to get into the service quickly. Another attractive feature is the membership with home people in a company that will likely be used exclusively for Texas duty, in which many men who are not eligible for overseas duty can do their bit in real service that is equally important. All these features should encourage a rapid enlistment and early finish of the organization.

Miss Mattie Burgess returned yesterday from Denton where she has been studying art in the College of Industrial Arts.

TO MY FRIENDS IN NACOGDOCHES COUNTY AND ELSEWHERE.

I had occasion the other day to hear a local attorney working in the interest of Steve King discuss the congressional race. In his talk he said that V. A. Collins had taken money from a saloon man "to defeat the will of the people," in a local option election held some time ago in Jefferson county.

I am not in politics, have nothing against Steve King personally, and although I am supporting V. A. Collins for Congress, do not feel it necessary that I should hold a brief in his defense. However, I want the people to know the truth as a matter of simple justice to Senator Collins, whom I have known from boyhood and worked with in the saw mills of East Texas.

About that local option election, here are the facts: There is a precinct in Jefferson county known as "South Park Justice Precinct No. 6." Notices of a local option election for that precinct were posted according to law on November 30, 1907. On December 12, 1907, after said notices had been posted 12 days, the commissioners' court changed the boundaries of said precinct so as to cut out what was then known as the "Driving Park," in which Driving Park was located a saloon. The precinct AS CHANGED BY THE COMMISSIONERS' COURT on December 12, 1907, contained only ONE SALOON, which was located about one mile from the Driving Park, and they cut it purposely as expressed at the time and as is known by everyone in that precinct, so as to permit the sale of intoxicating liquors in the Driving Park.

E. A. Dickerson was the owner of the saloon affected by the election and which was closed as a result of the election. He went to Senator Collins and told him that he had no objection to closing, providing they would compel the Driving Park saloon to close also, but that he did not believe it was right to put him out of business and let the other fellow continue to run. In order to save the Driving Park saloon from the effect of the election the commissioners' court was compelled to cut a shapeless justice precinct from the original precinct, the Driving Park before referred to being in the heart of the original precinct boundaries. Senator Collins contested the election to have either the election declared void and another held, or to have the Driving Park included in the effect of the election. Of course, in filing his contest, he alleged that the election was void because of the changing of the precinct boundaries after the notices of the election had been posted twelve days. In that position he was sustained by the Court of Civil Appeals in an opinion published on October 8, 1908, recorded in volume 112, page 707, et seq. of the Southwestern Reporter. It was entirely immaterial with his client whether the court held that the election was void altogether, or whether it held that the commissioners' court had no right to change the boundaries at the date it did. That is to say, he was willing to close his business if they would require the Driving Park saloon to close as well. After the Court of Civil Appeals had sustained Collins' contention a motion for rehearing was filed and the Court of Civil Appeals on consideration of said motion certified the question to the Supreme Court of the State.

The Supreme Court decided and held that the election was not void but that the attempt on the part of the commissioners' court to change the boundaries of the precinct after the election was called was void, and that prohibition had carried in the entire precinct as it was originally constituted, including the Driving Park. The entire precinct thus WENT DRY, and the effect of Senator Collins' entering the case was to CLOSE TWO SALOONS INSTEAD OF ONE. Every prohibitionist in the county naturally rejoiced.

This is the entire history of the case, and now Collins' opponents seek to prove by this that he is not a prohibitionist. Collins has been a prohibitionist, as I happen to know, all his life. I

have watched his record with more than ordinary interest be-

LAST CALL

Final Mark Downs for Final Clean-Up of All Ladies' Ready-to-Wear Garments

Monday, July 29th to Saturday August 3rd

Over 200 garments included in this sale, consisting of Organdie and Gingham Dresses, Crepe de Chine and Linens

98c each.

Merchandise included in this sale will be sold for cash only.
No Take Backs
No changes.

Mayer & Schmidt, Inc.

cause I have known him from boyhood. We worked together years ago, he sawing the logs that I scaled, and we were intimate friends then. He should be elected because has always remained true to every good cause, and has never left any man occasion to guess where he stood on any public issue.
(Signed) J. J. BOWDEN.

Sheriff Prince reports that the people of Gravelly Ridge community combined a political rally with a Red Cross benefit last night, and served a cream supper which netted \$35.11. Added to this good revenue cake was auctioned off and a voting contest was promoted which netted \$56.25, Miss Morgan being the winner in the contest.

NOTHING ELSE LIKE IT

There has never been anything in Nacogdoches with the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Ader-i-ka. ONE SPOONFUL flushes the ENTIRE bowel tract so completely it relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. THE INSTANT, pleasant action of Ader-i-ka surprises both doctors and patients.

Rev. D. A. Leak, who is doing the preaching for a big protracted meeting at Appleby, came home with Rev. T. F. Weaver last night and has been making a little visit to Nacogdoches friends today.

HOGS WANTED.

40 or 50 head of good, healthy pigs from six to eight months old. See me.
2td2w. J. W. BYRD

Lost, Strayed or Stolen—1 little rhoan mare, long mane, Mexican brand on hip, and 11 months old black colt following. Last seen going toward Nacogdoches. Please take up and notify M. G. Broyles, Mahl, Texas.

Vote for Matt Muckleroy for Sheriff, he was the first man as commissioner that built up your roads. He will put the loafers to work and help support the boys that are giving their lives for us.

MOVED

To our new barn west of the public square, in rear of the express office.
