BRITISH ARMY LAUNCHED ATTACK ON WIDE FRONT TODAY MAKE FINE PROGRESS

(By Associated Press)

LONDON, August 21.—An attack on a wide front north of the Ancre river was launched by the British forces this morning, and satisfactory progress is being made, says an official statement from General Haig.

The British forces have captured Courcelles, Achiet Le Petit and have reached Moyenville and Beaucourt Sur Ancre, in their drive begun this morning north of the Ancre river, according to advices from the front.

An attack of the British Third Army under General Byng, was made this morning without artillery preparation. The attack was completely successful.

In the first hour of their offensive begun this morning, by Haig, the British troops captured the towns of Ablaineville, Beaucourt and Moyville. The British attacked on a ten mile front between Arras and Albert. At an early hour some German field guns and two hundred prisoners had been taken.

Yesterday afternoon the British threw back strong German detachments against new British positions south and north of the Scarpe.

WITH THE BRITISH-FRANCH FORCES, Aug. 21.—All German outposts and positions along the important Brancutre ridge, between Koudekot, and Loere Hospice, have been attacked by the British, but so far the results are not known. This front is in the Lys salient.

GERMANS RUSH WOUNDED TO THE FRONT WITH BANDAGES STILL IN PLACE

(By Associated Press)

LONDON, August 20.—The condition of Germany's man power is becoming alarming, according to correspondents at the Hague. Wounded soldiers are being hurried west with their bandages still in place. Leaves of absence from the front have been reduced one-half. Deserters are being sent to the front from punishment camps, and men are sent to the front from hospitals before they are completely fit.

The food situation is also getting very serious. It is reported here that the Germans have stolen food from parcels sent to French prisoners, in order to feed neutral laborers who went on a strike because of inadequate food.

NEW FRENCH ATTACK IS ALONG A FRONT OF OVER TEN MILES

(By Associated Press)

PARIS, August 19.—Between the Oise and the Aisne, French troops attacked at six o'clock last night, over a front of nearly ten miles between Carpoint, about four miles east of Ribecourt and Fontenoy, approximately 6 miles west of Soissons. They advanced an average distance of one and one third miles, over the whole front, says a statement from the war office today.

There was violent artillery actions north and south of the river Avre during last night.

The German press is attempting to reassure its public that a general retreat is necessary on the western front in order to allow General Ludendorff room to maneuver, and to assume the initiative on a vast scale, the newspapers report. The German propaganda insists that the German General Staff will retain the initiative by forcing premature engagements on the American army, thus wearing it out before it is fully prepared.

FAVORABLE REPORT MAN POWER BILL

(By Associated Press)

WASHINGTON, Aug. 21.—A favorable report was voted by the house military committee today on the administration man power bill, with an amendment that youths from eighteen to twenty years of age shall be placed in a separate classification, to be called into military service after men from 20 to 45. Another amendment by Chairman Dent provides that because a soldier has not reached twenty-one it shall not bar him from a commission.

GERMAN TRAWLER RAIDS FISHING

(By Associated Press)

A CANADIAN ATLANTIC PORT, Aug. 21.—The steam trawler Triumph, fitted with 2 guns, and wireless, and manned by sixteen Germans, from the crew of the submarine which captured her yesterday, is raiding fishing banks off the Nova Scotia coast. Crews of schooners sunk by the Triumph, have arrived here.

SPANISH PREMIER DENIES RUMORS

(By Associated Press)

SANSEBASTIAN, Spain, Aug. 21.—Eduardo Dato, Spanish foreign minister, today denied that Spain had received a note from Germany intimating that a rupture between the two countries was likely. This followed the announcement that Spain intended to use German vessels now in Spanish ports to replace those Spanish vessels sunk by German submarines.

ORDERS MEN UNDER SURVEILLANCE

(By Associated Press)

LONDON, Aug. 21.—Orders from the German Crown Prince to the commanders of various units are to the effect that men from Alsace-Lorraine are to be kept under the closest surveillance, owing to many desertions. These men are not to be used at any critical points in the line, according to information received here.

AWKWARD SQUAD BEEN SUPPLANTED

(By Associated Press)

PARIS, Aug. 21.—"The awkward squad" familiar at the beginning of all citizen armies, has now been supplanted by the "lame" battalion, designed to re-establish the men who have gone through the fire and to fit them for future service.

So successful has the idea of a "lame" battalion been that from 70 to 80 per cent of the soldiers receiving wounds in the legs or suffering from the usual foot and leg maladies of trench warfare have been restored to full combat strength.

The new course involves instruction of the wounded and weakened soldier, in the proper posture of the body and its use in walking, running and riding. Special drills have been devised to overcome the habits into which the invalid soldier has fallen. Instruction is given in the care of the feet, while special attention has been given to the foot and leg cases in the hospitals.

I will appreciate your vote for Justice of the Peace. Frank Houston. 21-3td. (adv)

BUY A WAGON NOW

Get the Size and Kind You Want and Save Money Too

Late last fall "money would not buy" a wagon because no wagons were for sale at any price. Wagons are now scarce and hard to get and we believe it will be harder to find a wagon for sale late this fall than it was last fall. Prices are certain to be higher.

Wagons that we bought last November to be shipped "quick as possible" have not yet been shipped. Factory just cannot get the material and labor with which to build them.

Buy a wagon now if you want a wagon this fall. We will be glad to show you our wagons and make you our lowest prices.

GERMANY WILL HAVE A REVOLUTION AFTER THE WAR

(By Associated Press)

LONDON, Aug. 21.—An order issued by a German military commander, and which is more illuminating than anything that has come out of Germany for many months, says it has been learned through letters to the Prussian minister of war that men on leave have spoken of a revolution which is to break out in Germany after the war.

AUGUST 27TH PAY THE PRESIDENT DAY

Every man, woman and child in Nacogdoches county who on June 28th, National War Savings Day, pledged to purchase regularly U. S. government war savings stamps throughout the year, will be officially called upon on August 27th, "Pay the President Day," to settle his or her August pledge, and if possible entirely liquidate his pledge for the year.

Announcement has been made by the treasury department at Washington that August 27th has been designated as "pay the president day" and every loyal American is expected to do his or her part on that day.

The Nacogdoches county war savings committee sincerely hopes that every individual in Nacogdoches county will so respond to the government's desires that hundreds of thousands of dollars will be poured into the United States Treasury on Saturday, the 27th, and that Texas and Nacogdoches county will show president Wilson that it is solidly behind our boys on the firing line.

We do not do our best unless we do our utmost.

The 27th is only a few days off, so make your war appropriation before you do anything else. If you have other plans, let them be subordinate to this.

If you commit yourself to a

definite war-saving appropriation, you CAN meet it, just as readily as you would meet an appropriation from some teacher compelling reason—to save your home, or to save your job, or to get a huge interest on your money. Surely, the war reason should be as compelling as any. Therefore, REMEMBER the 27th, and do your UTMOST. —Leach Zeve, County Chairman, Woman's division, War Savings Committee.

ENEMY ATTACK IS REPULSED

(By Associated Press)

WASHINGTON, August 20.—A German raid on the American lines north of Toul, in a comparatively quiet sector, was repulsed with losses to the Germans, says General Pershing's communique dated yesterday.

Mr. W. G. Hillencamp is able to be at his desk in the store of Tucker, Hayter & Co., again after being detained a few days with illness.

Prof. Walden, superintendent of the Nacogdoches Business College, informs The Sentinel that he will have advertising space for the opening his fall term in practically all the big Sunday papers of the state, and in many of the papers of the neighboring states tomorrow, to be followed with an ad in many of the weekly papers of the country, and that he is very optimistic with the outlook for the reception of a very large class, with the forthcoming term. In the meantime the committee is busy in the sale of scholarships with which to provide a home for the boarding students, meeting with good success, and if all his plans go through successfully, Nacogdoches will have a business college this fall of which she may well feel proud.

The interest that was aroused with the Fordson tractor demonstration out on Mr. Tom Maroney's farm this week best reflects the growing spirit of progressiveness among the farmers of Nacogdoches county. And the most successful work exhibited with the machine likewise reflects the brilliant development in manufacture of useful utilities in which to supply the shortage of manpower. With the connection that will follow this demonstration, we may look for greater production and less labor trouble in the future. Henry Ford sent us a car which demonstrated the usefulness and improvement in automobile travel; his tractor will become equally as popular, and he will go down in history as one of the greatest benefactors of the country.

Governor Hobby's campaign cost the sum of \$75,975.83, and in return for that he gets the salary of \$8000.00 for his services as governor of Texas for the next two years. To break even he must gather \$65,975.83 from some other source during that time. It looks bad when it reflects that much money to get an \$8000 job.—Ratcliff Herald.

While the figures are correct as to the amount expended, and the salary received, the statement as made does Governor Hobby an injustice in that it would make it appear that he put up this vast sum of money individually to get the job. If our memory serves us correctly, the governor filed an expense account of \$600. The remainder of the amount was contributed by friends as is the custom in all gubernatorial and presidential elections.

The War Industries Board has made some new rulings affecting the newspapers, in an effort to effect a saving of news print paper, which is getting very scarce. One of the rulings is that no new newspaper shall be established in the United States for the duration of the war. Rulings have also been made to curtail the amount of space in the papers given to reading matter. This does not greatly affect the small papers, and applied to The Sentinel, requires a reduction of only 5 per cent. The ruling, however, which affects us most is that NO subscriber can be carried at all after his subscription has expired. This means that all subscribers must pay in advance for their paper, and that no credit can be extended to ANY one. While been through a siege of war in The Sentinel has been and would still be very glad to extend leniency to our subscribers in the subscription department, these are orders direct from the government, and must be applied by Sept. 1st. Therefore, on Sept.

1. all parties in arrearages to this Daily Sentinel will have to be struck from the list unless a prompt settlement is made. We advise the subscribers to pay a year in advance. This not only facilitates matters greatly with us, but at the same time you, yourself, are saving a dollar. We are sure that the loyal subscribers of this paper will readily comprehend our position, and will make prompt settlement at once. These regulations do not apply to weekly publications.

WEATHER OBSERVERS TRAIN FOR THE ARMY

COLLEGE STATION, Aug. 15.—The first class of weather observers ever trained for the United States army is preparing to leave shortly for France, where the members will report on conditions as an aid in planning gas, artillery, airplane and various other attacks.

Experts who have pushed the three hundred or more students through the intensive course of instruction at the Agricultural and Mechanical College of Texas, declared that the men are now capable of determining the state of weather for a distance of twelve miles above the earth. It is the plan of the war department to train 1,000 men at the college, which is the only school of general meteorology in the country, and this will necessitate two more courses in shifts of 335 students because of limited facilities.

Only college men are fitted to take up the work, and first class includes professors, mineralogists, engineers and other technical experts. Dr. Oliver L. Eassig of the United States Weather Bureau and John Hopkins University, Baltimore, is chief instructor.

BUT WE LOVE IT.

The automobile is very appropriately defined by an exchange in the following paragraph: "The automobile is a large iron and rubber contrivance for transforming gasoline into speed, luxury, excitement and obituary. It consists of a handsome leather-upholstered carriage body mounted on fat rubber-tired wheels, and containing a gizmo full of machinery suffering from various ailments. It has ten thousand people. It can transport seven people from the front porch to the police station in less time than any other known method.

"TELL MOTHER."

These are always the first words of the wounded U. S. Marines, those devil dog fighters who routed the recent battle on the Marne when they are brought into the hospitals at Paris.

One Marine, just a boy, said: "I've been a sort of wanderer for the past six years. I guess the folks back home thought I was good for nothing. But now I wish you would write Mother for me and just tell her I made good."

AN OLD VETERAN WILL PLANT WHEAT

Mr. Jas. Sullivan, an honored old Confederate veteran of the county, announces that he will grow some wheat next year as a part of the plan to help make the old county feed herself within her own resources.

Men like Mr. Sullivan have extended through a siege of war in which the deprivations were tenfold more than anything suffered in the present, and the younger generation can well afford to follow the example of such men who have been through the mill of experience.

ABOUT REGISTRATION OF AUGUST THE 24TH.

The following communication has been received by the local board of this city, in regard to the registration on Aug. 24th of all youths who have attained the age of 21 since June 5th or who will be 21 before August 24th:

1. The following telegram has just been received from the Provost Marshal General's office and is herewith transmitted for your information and guidance and immediate compliance therewith:

"B-2604. 1. The President will soon issue a proclamation requiring all persons specified therein who have, since the 5th day of June 1918 and on or before the 24th day of August 1918 attained their twenty-first birthday to register on Saturday the 24th day of August between seven a. m. and nine p. m. (This registration must not be confused with the larger registration to be made in September) in pursuance of the legislation now pending before congress. This registration concerns only those who have since June 5th, 1918 and on or before August 24, 1918 attained their twenty-first birthday. In view of the demand for class 1 men this registration is deemed necessary. It is believed that this registration can be made without interfering with the arrangements now under way for the larger registration. You will please give the widest publicity through newspapers and other channels of publicity to this registration and instruct all local boards to immediately start publicity campaigns in order that those required to register will have ample notice.

2. The president directs that registration regulations No. 2 shall govern and control this registration except those provisions of the regulations which are obviously inapplicable. You will therefore instruct at once all local boards to immediately refer to registration regulations No. 2 for their general guidance in making this registration. In view of the comparatively small number to be registered it will not be necessary to provide as many registration places within the jurisdiction of local boards as on June 5, 1918. Whenever additional places of registration within the jurisdiction of a local board are necessary, the provisions of Sections 19 and 20, registration regulations No. 2, should be followed. Each local board should be at once notified to appoint a registrar or registrars for each place of registration to be established within its jurisdiction. A member of the local board will act in the capacity of chief registrar at each place of registration. If there are more than places of registration under the supervision of one board, the provisions of Sections 24, registration regulations No. 2, should be followed. Registration card, and the second edition of the questionnaire shall be used. An additional supply of registration cards and certificates have been shipped and should be at once distributed.

3. The registration cards will be not be assigned registration numbers in accordance with Section 43 and 44 but all registration cards of persons registered under said proclamation are to be treated as late registrants of the class of June 1918, and are to be assigned registration and order numbers in accordance with sections 9 to 15, inclusive, of the rules and regulations for determining the order of liability of registrants of class of June 1918. A copy of all registration cards and the list of the names of all registrants shall be forwarded immediately after registering to the Adjutant General of the state, together with the statement of the highest reg-

istration number on the list of persons in the class of June 1918 whose registration cards are within the jurisdiction of such local board. Upon receipt of such registration cards and list of the names of registrants, the adjutant general will proceed to assign registration numbers and will then certify to the local board lists showing three registration numbers so assigned. Upon receipt of such lists the local boards shall assign the registration numbers to the original registration cards.

(Other instructions to the board, which is not of public interest is omitted.)

JOHN C. TOWNES, JR.,
Major, Infantry, U. S. R., Supervisor Selective Service Law in Texas.

The local board informs us the men who have become 21 since June 5, or before August 24th, as noted, will register with the local board at the court house Saturday, August 24th.

PEANUTS IN BULK MAY SAVE TROUBLE

AUSTIN, Aug. 16.—Cotton oil mills and crushers who handle peanuts are urged by the state department of agriculture, through D. C. Dove, acting director of markets, as a matter of economy and expediency, to handle the peanut crop in bulk like cotton seed, and thus save to the growers the trouble and expense of sacking them. Acting Director Dove has addressed the following communication to these interests:

"Growers of many kinds of farm products this year have had trouble in procuring containers in which to handle them. Containers of all kinds are both scarce and expensive.

"The Texas crop of Spanish peanuts is now ready for harvest, and it will be more or less affected by this question. It will cost more than 12 cents per bushel to sack these peanuts at present prices for sacks. This will discourage the marketing of this crop.

"The high oil content of Spanish peanuts and the high feeding value of the other by-products from peanuts make it imperative that this crop be placed on the market. Peanut oil will help relieve the shortage in all kinds of fats, and the other by-products will help relieve the acute shortage in food products. Therefore every encouragement possible should be offered the growers to get them to have the products milled.

"From these considerations I am writing you and the other crushers to ask you to handle the Texas peanut crop in bulk like cotton seed, and thus save the growers the trouble and expense in sacking them.

"This will save the cost of sacks and also relieve the labor shortage, as considerable labor is required in sacking a car of peanuts. This is conservation."

U. S. SENATOR JACOB GALLINGER DIED TODAY

(By Associated Press)
FRANKLYN, N. H., Aug. 17.—United States Senator Jacob Gallinger, of New Hampshire, died at his home here today.

Senator Jacob Gallinger was the oldest member of the United States senate, both in years and point of service. He has been a conspicuous figure in the senate since 1891.

WHAT CATARRH IS

Science has shown that nasal catarrh often indicates a general weakness of the body and local treatments in the form of snuffs and vapors only irritate and do little if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building tonic, free from any harmful drugs. It is helping thousands. Try it.

"SIDE LIGHTS."

PARIS, Aug. 15.—When Yankee Doodle goes to town to buy a bit of French finery for his loved one across the wide waters all France loves him and gives him of her best, forgetting that the boy in Khaki is a relative of the American tourist with gold-dripping hands, who was such an easy mark in the days before the war. It is not all fighting and misery in France and the sun never shines more brightly than when an American boy fares forth to buy a souvenir for his sweetheart. For there come moments of lull in the fighting and when the soldier is at rest he starts thinking of the girl back home. Then the blues force him to talk about it. One young corporal confided to a Y. M. C. A. canteen worker that he wanted to buy something for his "girl."

"Blouses," she suggested. "Cheap here and quite unlike ours."

"What material?" he demanded, brightening.

"Silk, crepe de chine, embroidered lawn."

A mess sergeant, who had been pretending to read, suddenly emerged brazenly to demand more details. He had not admitted that he was homesick or had any interest in blouses. The corporal was enraptured with the idea and enlisted the "Y" girl as his shopper.

She had a real good time next day pricing and examining in four shops before returning triumphantly waving the package. The corporal seized it eagerly, when the mess sergeant, from a doorway, impatiently demanded to see the blouse.

"Wait a minute," protested the corporal-owner, unwrapping the paper and drawing out the thin acru stuff with its fine embroideries and its little tassels and crocheted buttons. He held it up gently, reverently.

"What're you so slow for? Let a fellow see it," commanded the sergeant.

"That's the back," explained the corporal, exhibiting the blouse.

"The back!" scoffed the sergeant.

"Yes it is, see the collar? Those tassels are in the back."

"Guess you're right," grudgingly admitted the sergeant. "Can you beat it. See here, Angele. Like this?"

Angele speaks no English. She is a kitchen helper, not lacking in humor she shrugged.

"Thes bien. Hier j'en ai achete un por vingt-deux francs." The sergeant was incredulous concerning the price of twenty-two francs, "all embroidered and everything," and asked if she considered this blouse pretty.

"C'est magnifique et n'est pas cher," replied Angele.

"Where do you get 'em?" demanded the sergeant, while the corporal clamored for an hour off to buy another. Even the cook, an American from Italy, caught the blouse fever and was all eagerness that evening to have words with the young woman of the Red Triangle.

"I show you," he cried. "Buy it myself. Here, you open, my hands dirty."

From a small box was drawn a white silk blouse with wide blue collar and blue loops and buttons, one to make any girl happy.

The corporal joyously boasted he had bought a similar one, of cerise hue, but the sergeant was depressed. He sadly exposed his purchase, a beautiful crepe de chine.

"Why, that's beautiful," exclaimed the "Y" girl.

"But it ain't silk," mourned the unhappy sergeant.

In one sentence that young woman had assured him that it

most assuredly was silk, of a different but equally desirable kind, and had made that non-com superlatively happy, that being just another of the many ways in which the "Y" puts heart into our fighters.

MANY AMERICANS ARE CITED FOR BRAVERY

WITH THE AMERICAN ARMY IN FRANCE, July 15.—(Correspondence of the Associated Press.) More than 130 officers and men of the Twenty-Sighth Infantry, (Regular Army) have been cited by Major General Robert L. Bullard commanding the First Division of the Second Army Corps for "conspicuous gallantry in action during the operations connected with the capture and defense of Cantigny from May 27 to 31."

Colonel Hanson E. Ely, commander of the Twenty-Eighth, was one of those cited for "having displayed conspicuous gallantry in the handling of his troops, making quick decisions and preserving the mission of his regiment."

Lieutenant Colonel Robert J. Maxey, of Missoula, Mont., who was fatally wounded in that action and who died a few days later, was cited for having "advanced with his first wave in the face of heavy shell and machine-gun fire." His citation adds "He was cool under fire and a dependable leader. Although fatally wounded he gave detailed directions to his second in command as to just what to do and caused himself to be carried to the post of command of his regiment to give information to his regimental commander that he considered very important before being evacuated. This was under intense shell and machine-gun fire."

Captain John S. Manning, of Brooklyn, N. Y., whose death was later announced, was cited for having "displayed unusual coolness and disregard of danger under heavy artillery when he visited the various portions of his sector and encouraged and set an example to his men."

The Sentinel is in receipt of a letter from Capt. W. F. Allman, who is now pursuing his sewing machine business in Frisco, Cal., in which he says, among other things "This is the first place I ever saw where ten acres would make a man rich. After planting it to fruit, grapes, etc., it is worth \$5,000 to \$20,000 or more." In a further discussion of the subject he says that women and children receive from \$2.50 to \$4.00 per day for work in orchards and vineyards—and that everybody works, the wealthy as well as the poor. We at this distance marvel at the glory of such a happy condition, little realizing that we could have pretty much the same here in old East Texas, if we would use the same intelligent effort and thrift. Let's arouse old Rip Van Winkle from his slumbers and bestir the little "Rips" to greater activity.

Let us be more considerate builders, more skilled in spiritual architecture, when great reformation is expected.—Milton.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED

Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs" because in a few hours all the clogged-up waste, sour bile and fermenting food gently move out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood... I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. Nothing seemed to help me until, one day, I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain."

"It has now been two years since I took Cardui, and I am still in good health. I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

IN BETTER CONDITION.

To the Public: The toilets in the basement of the court house which are for the public, have been cleaned from one end to the other, the walls and doors have all been repainted, and are now in fine shape. Before this work was done the walls were cut all to pieces and written all over, making a very undesirable condition.

While these places are for the public, yet I beg to call attention to the fact that it is a violation of the law to mark, write upon, cut or in any manner deface or mutilate the walls or doors or floors in any way connected with a public building, and we are going to undertake to watch this situation, with it in view to prosecute any one caught violating any such law. Let us keep this place in the condition it is now in.

Yours respectfully,
L. G. KING, County Attorney.

HOMES CHANGE HANDS.

Hon. Beeman Strong has sold his pretty home on Mound Street to Mr. Lamar Acker, and will give possession about the first of October. As is known to many, Mrs. Acker is a daughter of Judge and Mrs. Blount, and this property adjoins the parental home of the lady, making it more attractive for the family.

Mr. K. N. Matthews has sold his pretty home up North Street to Mr. D. A. Washburn. Mr. Washburn is the new depot agent, and is thus preparing to take permanent residence with us.

TULSA WILL ENTERTAIN CONFEDERATE REUNION

As has previously been announced, Director General McAdoo has authorized a rate of one cent a mile for the Confederate reunion to be held at Tulsa, Okla., good only with Confederate veterans, a member of the family, a member of the family of a son of Confederate veterans, sons, a member of the Confederate Southern Memorial Association.

Identification certificates will be forwarded to all officers of the above named organizations to be countersigned and issued by them to their members and families. All camp officers are requested to advise immediately number of certificates they will probably require for their section.

In the matter of preparations for entertainment of the visitors in the sojourn in Tulsa, the following communication from the committee engaged in the matter is self-explanatory:

The Tulsa Confederate reunion committee, composed of many of the leading citizens of Tulsa, have been engaged for some weeks raising a fund of \$100,000 and perfecting an organization for the entertainment of the 28th Annual reunion of the United Confederate Veterans' Association, the Confederate Southern Memorial Association and the 23rd reunion of the Sons of Confederate Veterans: Sept. 24-27 inclusive.

The committee is assured of the necessary financial support, so that no fears need be entertained on that score. It is confidently believed that 100,000 delegates and visitors will attend this reunion, and that it will be one of the best reunions ever held.

Arrangements have been made to care, free of charge, for from 5,000 to 10,000 veterans. They will be provided sleeping quarters in the new public school buildings of Tulsa. These buildings are of brick, one story in height and have ample toilet facilities. Free street car tickets will be supplied to all Confederate Veterans. Ample bedding has already arrived in Tulsa. It is all new, having been purchased at the factory for this occasion. President Wilson has approved of the holding of this reunion as an example of patriotism while the nation is at war. Director-General McAdoo promises the committee ample railway facilities, and has authorized a rate of one cent a mile each way.

ONLY 9 SHIPPIN BOARD SHIPS HAVE BEEN SUNK

(By Associated Press)

WASHINGTON, August 19, 1918—Only nine ships operated by the shipping board have been sunk by submarines, and their loss with that with all others due to ordinary marine perils is but a fraction of the total premiums paid for marine and war risk insurance.

Estimated losses of all kinds suffered by the Emergency Fleet corporation, which conduct the insurance bureau, amount to about \$13,500,000, while approximately \$30,000,000 in premiums has been set aside up to July 29, last.

Four former German vessels, valued at \$6,750,000, and five commandeered ships, worth \$2,850,000 fell by the sting of the German sea wasp. These follows:

Former German vessels	Loss
ACTEON	\$1,250,000
CHATTAHOOCHEE	2,000,000
OWASCO	500,000
PRESIDENT LINCOLN	3,000,000

TOTAL	\$6,750,000
Commandeered Vessels	
STEAMER FLORENCE	500,000
STEAMER LAKE MOORE	500,000
CAROLINE (probably ex-ceeding)	500,000

MAKE YOUR DREAMS COME TRUE

The young people mentioned above had dreams of securing MORE MONEY, and the good things it would buy. They selected the right school—made the right preparation, and are now independent, prosperous and happy.

One or two months salary paid the total cost of their course—and what they make, in the future, will be clear gain. What more could you ask? This list could be greatly extended, but that's unnecessary.

Most of them are making from \$900 to \$1200 a year, and quite a number are doubling the above figures. You can pay more, but you can not get better courses or as helpful instruction.

"Walden's Short and Easy Way"—"The New Way"—makes your progress easy and rapid. He gives you the BEST courses; the most HELPFUL instruction—saves you money and time, and places you in a desirable position. What more can you ask? We furnish the highest proof, to substantiate the above claims.

A Prize! Send a list, with address of those likely to attend a business college, and have your name beautifully written on 6 visiting cards.

MCADOO ISSUES STRICT ORDERS

(By Associated Press)

WASHINGTON, August 19.—"The public be damned" policy will in no case be tolerated on railroads under government control, said McAdoo in a statement today. Railroad employees were specifically ordered to show courtesy in dealing with the public and cease excusing train details and other errors with the plea "Uncle Sam is running the railroads now."

CHEAPER.

We will sell them to you cheaper. I have returned from St. Louis where I picked up some goods at a much cheaper price than I could get them from the big fancy establishments, and of course I am going to sell them to my customers on the same basis.

In this lot of goods you will find shoes, hats, pants, caps, suspenders and many other articles that you are bound to have, and we can convince you that ours is the place for you to buy them if you want to get them cheaper. These goods will not be in until about a week. But we have quite a lot of assorted goods that we are anxious to close out to make room for the new goods, and can make you some attractive prices on them. Come to see us.

FIRST SACK OF TEXAS RICE WAS SOLD IN BEAUMONT

(By Associated Press)

BEAUMONT, August 16.—The first sack of rice to be harvested in Texas was sold in Beaumont recently by the Southern Rice Growers' Association for \$15.00 and the proceeds turned over to the Red Cross. The

rice was raised near Bay City and sold at public auction by the Bay City office for \$61, the money being donated to the Red Cross. Owing to delay in transporting it here bringing of a good sum in Beaumont was prevented as the rice movement in Louisiana had started when it reached here.

That man is happiest who finds happiness in his work, and in association with those about him. The happiness born of anticipation never comes in its full fruition.

With the hot dry weather we have had the past two weeks the bulk of the cotton crop has opened, and it will all be on the market within the next few weeks. In some respects it is a happy condition, enabling the farmers to gather it before the bad weather sets in and in a better "sample."

With the young men engaged in the enterprises of the war the old men will get another chance in the industrial and business life of the country. The recent custom has been to bar the man above forty-five years of age from the more active affairs, and many worthy men have suffered a hardship in consequence of the rule, but with new conditions there is a demand for every one, both men and women, old and young.

The indications now are that the cotton crop will be gathered within the next few weeks, which will release a great number of farmers for other work if they care to fit. A good way to employ this idle time would be to clear some more land and sell the wood to the government which is now contracting for all it can get. We will need all this land for cultivation when the soldier boys come back, the government needs the wood, and a double purpose is thus served, producing a profit both ways.

"If you put eighty divisions of Americans in France, of approximately 45,000 men to the division, you will give us superiority in rifle power—more marked than was the Germans—and we should be able to bring the war to a successful conclusion in 1919," says General March. And Uncle Sam is arranging, as fast as possible, to furnish the men with which to do the job. In our haste, and with news of victory in the different engagements, we would bring it to a close sooner, but let us not forget that General March is in position to know more about the matter than we. The war has been going on more than four years, and if we can win it in two years it will indeed be a brilliant victory.

The War Industries Board gives us notice that we must cut our newspaper consumption fifteen per cent over last year, and file a monthly report, with affidavit attached to the effect. We also have to pay additional postage on excess advertising, so we are left no avenue in which to develop and make our business grow; to the contrary, we must employ the most rigid economy, and hold it down below normal to get by. If it is necessary to winning the war, we will cheerfully submit with our bit, but in the meantime the community is given notice not to expect any "big" things from us while the lid is on. And in cutting down to meet the requirement of a reduction in paper consumption, the rule prescribed from headquarters the most reasonable, is to chop off those who do not pay up promptly as their accounts come due. So don't blame us if your paper ceases, its visit to you; come around and settle up.

Mr. Lamar Acker, supervising engineer of road construction in Sabine county, arrived home yesterday from Austin, where he appeared before the Highway Commission and secured an appropriation of \$135,000 for the highways of the neighbor county. Sabine county voted a bond issue some time ago which she is expending in good roads, and this big appropriation will help her go forward to great development in this line. The appropriation is very complimentary to the county, which is said to be the largest granted to any county, and to the gentleman who went before the commission with his blue prints and other data giving evidence of activity and secured it.

CALOMEL PURIFIED OF ALL OBJECTIONS

Chemists Rid Doctors' Favorite Medicine of Nauseating and Dangerous Qualities. New Variety Called "Calotabs."

A triumph of modern pharmacy is destined to bless the whole world—that is the opinion of physicians and druggists who are familiar with the new calomel that is wholly free from the objectionable effects of the old-style calomel.

An occasional purifying of the system and thorough cleansing of the liver are absolutely essential to health, and, as all doctors know, calomel is the only drug that accomplishes this result. Now that the unpleasant and dangerous effects are entirely removed, the popularity of the new calomel, Calotabs, will be vastly increased. Its effect is delightful. One tablet at bedtime, a swallow of water—that's all. You wake up next morning feeling fine, your liver cleansed, your system purified and with a hearty appetite for breakfast. Eat what you please—no danger. No restrictions of habit or diet.

Calotabs are sold only in original sealed packages, prices thirty-five cents. Your druggist recommends and guarantees them.—(advt.)

Rev. J. N. Cunningham arrived home this morning from Garyville, La., where he conducted a most successful protracted meeting. En route the minister preached at one of the Presbyterian churches in New Orleans, and went on to the place noted, which is but twenty-seven miles away. Mr. Cunningham was engaged in pastoral work in the vicinity where he held this meeting some twenty years ago, promoting the first Protestant church in that community, and met many old friends while on his sojourn. He says that the cane and rice crops in Southern Louisiana are fine, both of which are now being harvested. He also says that the cotton crop up the Red River is good, but that on the hill sections it has been cut short with the drought.

IT SHOULD MAKE A MILLION FOR HIM

Cincinnati man discovers drug that loosens corns so they lift out.

Good news spreads rapidly and druggists here are kept busy dispensing freezone, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

A quarter of an ounce costs very little at any store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn or toughened callus and instantly the soreness is relieved, and soon the corn or callus is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the surrounding skin.

The discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

ELECTION-EVE TALES.

Mr. Collins, or his paid helpers, are spreading so many slanders about Judge Box on the eve of the election that his friends feel called upon to warn the people against them.

These slanders are so numerous, false and ridiculous that a moment's thought about them, in connection with how the people of Jacksonville, and Cherokee and neighboring counties voted for their neighbor, will make plain their utter falsity and absurdity. The fact that they are first circulated just before election day at the end of a long campaign, during which nobody made a charge against him, prove that they are vile slanders. His friends publish this merely to call the attention of fair minded people to the unfairness and grossness of these election-eve frauds.

NACOGDOCHES GIRL ENTERTAINED IN HOUSTON

Houston Chronicle, Aug. 18. Miss Arline McCelvey entertained at her home on Highland Avenue in honor of her guest, Miss Thelma Potts of Nacogdoches, Friday evening. The house was decorated for the occasion.

The young people indulged in games and dancing. At the conclusion of the entertainment program refreshments were served. (List of names omitted.)

A Lufkin Ford car put on a show in town this morning by passing through the public square at what would seem to be the full speed of the car. Officers went in pursuit, but if the offender keeps up the speed with which he started out, it is a safe prediction that he will not be caught this side of Lufkin unless he should have some car trouble. Later, city Marshal Woodlan and another party overtook the car at the fruit farm and brought the two occupants back to town, where they will be arraigned for their offense.

HER OWN SISTER DIDN'T RECOGNIZE HER SHE DECLARES

Mrs. J. D. Morrison Now Well And Happy After An Illness of Three Years' Standing—Praises Tanlac.

"I improved so much after taking this Tanlac that my own sister didn't know me at first, when I went to visit her," said Mrs. J. D. Morrison of 314 21st street, Ensley, Ala.

"I lost my health three years ago and had stomach trouble of the worst kind," she continued. "I also suffered dreadfully from biliousness and constipation. I was feverish and restless most of the time and never knew what it was to get a good night's rest. I was almost a nervous wreck. I tried dieting and living on liquid foods until I was almost starved, but nothing did me any good."

"I started taking Tanlac and by the time I had finished my second bottle, my appetite had increased until I was able to eat just anything I wanted. I had gained thirty-three pounds in weight—and was feeling better than in a long time. I am now doing all my housework and ever some of the washing. I feel that I owe my life to Tanlac."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and Swift Bros. & Smith.

W. S. S. BANKS.

DALLAS, Aug. 21.—The establishment of a war savings bank in every town in Texas with 2,000 or more population has been recommended by Louis Lipsitz, State Director of the National War Savings Committee.

Texas now has about fifty of these institutions. The first was established in April at Lott in Falls county. The latest addition to the list is Wichita Falls. The sale of War Savings stamps has increased materially wherever these banks have been put in operation.

FARMERS INSTITUTE OPENED TODAY

(By Associated Press)

WACO, Aug. 21.—The Texas Farmers' Institute opened a two-day session here today. Steps looking toward legislation necessary to the development of the cotton crop and productive industries, the controlling of the insect pest, plant and animal disease, and a better system of distribution of the cotton crop are expected to be taken up. Steps to assist the government in its various problems will be studied, and plans for a better market price for the next cotton crop discussed.

A train load of soldiers passed through the city this afternoon going north. There were fourteen coaches to the train, including the baggage car. There was nothing to indicate from where the boys came or where they were going, but we would assume that they are from one of the training camps and were going to some of the northern camps preparatory to an early departure for France.

Good rains have visited practically the whole county within the past few days, which will be worth much to pastures, and such crops that have not fully matured, as well as bring the opportunity for the planting of fall gardens.

WANTED.

A Word From Judge Short

Center, Texas, August 13, 1918.

Senator V. A. Collins,
Beaumont, Texas.

My Dear Sir:

I have your letter saying you had information I had concluded to support you in your effort to become the standard bearer of our party in this congressional district, and asking whether you are correctly informed.

I take pleasure in confirming the truth of this report. Your integrity as a private citizen and public servant has been thoroughly tested, and equally with that of your opponent, is unquestioned. Your mental capacity to solve questions involving the public welfare is conceded to be at least equal to his.

If the world were at peace with itself and satisfied with the conditions of its peoples; or if the United States had been permitted to occupy its original position with reference to the warring nations of Europe, our best equipped members of Congress would be characterized by their disposition to keep the Ship of State moored in harbors which experience had shown to be safe.

General Joseph E. Johnson, though a true patriot, and a trained soldier, was nevertheless poorly equipped to lead the armies of the Confederacy in 1861 on account of his natural conservatism; just as Judge Orren M. Roberts, patriot, jurist and statesman, would have proved a failure as the Senator from Texas in 1860, had he been called instead of Louis T. Wigfall, on account of his natural inclination to tread the well-beaten paths of the past.

The mental make-up of Judge John C. Box is negative, conservative and non-resisting in its general characteristics, logically foreshadowing his public course to be along the lines of least resistance. Upon the contrary, yours is affirmative and aggressive, equally and logically indicating constructive statesmanship, formulated into statute law by direct and forceful methods, regardless of what others may do and care's of precedent.

Sincerely yours,
(Signed) H. B. SHORT.

NEW FRENCH ATTACK ON TWENTY FIVE MILE FRONT THREATENS FALL NOYON

(By Associated Press)

Paris, Aug. 21.—A new French attack by General Mangin on a twenty-five mile front threatens the fall of Noyon, which is slowly being outflanked, according to the latest reports from the front.

French troops continued their advance along the whole front between the Oise and the Aisne this morning. Carspent and Cufe have been captured by the French. After sharp fighting, ground has been taken west of Lessigny, according to an official statement of the war office.

The Germans are said to be "baffled and bewildered." They will be "milling" like a herd of Texas longhorns, next.

If we are to believe the latest German peace pronouncements, all the Huns want of Belgium is "benevolent assimilation."

The many friends of Mr. Sam Hayter rejoice to know that he is able to be up and about again after suffering a very severe attack of blood poison. At one time the gentleman's loved ones and friends were very uneasy about him, but he made the brave fight that pulled him through.

WHEAT GROWING IN EAST TEXAS

Stated in the following article I will give some of the suggestions on wheat growing of government agricultural men who are specializing on small grains in East Texas and the southern state. The first consideration is the type of soil. We should select soils that are not wet and soggy, and soils that are not deep, coarse sand. It is well to select soils that have a clay sub-soil and are well drained. The tight stiff chocolate soils are usually very fine wheat land if they are not wet natured, but the red stiff soils an dred sanad also are good wheat soils.

The second consideration is the seed. We should have good, clean, well-matured seed that are free from weed and foreign-seed. The following varieties have been recommended: Meteramon, Georgia Red, Leaps Prolific, Red May, Fultz, Fulcaster. These varieties in the variety test stand about in the order as mentioned above. The two first mentioned are bearded wheat, the others are smooth wheat. The seed will cost from \$3.00 bushel to \$3.50 per bushel. We are trying to get better prices on large lots.

Fertilizers, especially on the sandy-natured soils, and some of the lighter soils will pay splendidly if care is taken in the preparation of the seed bed and they are properly applied. It is recommended that we use about 200 pounds acid phosphate with 100 pounds cotton seed meal per acre broadcast.

Preparation of Seed Bed

Land should be broken deep and closely, and rolled down with a roller that will firm up the soil well. A home-made implement can be made by cutting off five or six feet of a tree from 12 to 14 inches in diameter and putting

a pin in each end of the piece to attach pully.

Planting.

The drill method of planting has been suggested. When we have no drill or seeder we can arrange a spring tooth harrow in such a manner as to mark off the rows from ten to fourteen inches apart, care being taken to open the little furrows so that they can be easily seen. We can use a common corn planter having a sorghum plate attachment plant. This will take a little more time than usual, but on just few acres or an acre, we can easily do it. This leaves the wheat so that we can use a spring tooth harrow a couple of times in the spring to great advantage, however, if we broadcast the wheat, we can use a section harrow to advantage.

Respectfully,
JAS. D. GREER
Co. Dem. Agent.

COUNTRY HIDES.

The following rules governing country hides for the quarter, August, Sept., Oct. were fixed by the price fixing committee of the war industries board. All hides and skins must be bought and sold on a selected basis.

1. The price of a No. 2 hide is 1c per pound under the No. 1 price.
2. A No. 2 hide is a hide with any cut 6 inches in from the edge, over 5 bad scores, 2 grubs, 1 grain rubbed or dragged where the grain is gone.
3. Heads hanging by string necks shall be cut off. If left on the hide shall be billed as glue.

Preparation.

- All hides shall be as follows:
1. Free of meat, tail bones, switches, sinews, horns, bags, split shanks and mud and manure. If mud and manure cannot be removed, it must be allowed for.
 2. Curing hides in vats, barrels or other water tight containers must be stopped.
 3. Preparations for false weighing of hides are prohibited.

COMPARATIVE STATEMENT

A comparative statement showing the difference in cash and carry prices and credit and delivery prices on ten items, which is about one third of food stuff consumed by the average family per month. These figures are based on the retail prices quoted me for the Federal Food Administration for the week ending Aug. 17th.

48 lb. sack flour, cash and carry, \$3.00, credit and delivery, \$3.15, difference, 15c.

1 gal. peanut oil, cash and carry, \$1.75, credit and delivery, \$1.90, difference 15c.

10 lb ham at 35c, cash and carry, \$3.50, at 37c, credit and delivery, \$3.70, difference, 20c.

5 lb meal, at 6c, cash and carry, 30c, at 7c, credit and delivery, 35c, difference, 5c.

4 can baby evaporated milk, at 6c, cash and carry, 24c, at 7 1-2c, credit and delivery, 30c, difference, 6c.

5 lb Irish potatoes at 3c, cash and carry, 15c, at 3 1-2c, credit and delivery, 17 1-2c, difference 2 1-2c.

2 lb breakfast bacon, at 55c, cash and carry, \$1.10, at 60c, credit and delivery, \$1.20, difference, 10c.

3 lbs. black eye peas, at 12c, cash and carry 36c, at 12 1-2, credit and delivery 37 1-2c, difference 1 1-2c.

3 lbs. L. beans, at 16c, cash and carry 48c, at 18c, credit and delivery, 54, difference, 6c.

3 lbs onions, at 5c, cash and carry, 15c, at 6c, credit and delivery 18c, difference, 3c.

Total cash and carry, \$11.03; total credit and delivery, \$11.87, total difference, 84c.

The average consumer's grocery bill will run \$35.00 per month, and if he pays cash he will save three times the difference in cash and carry and credit and delivery prices as shown by the above statement, which amounts to about \$2.55. Should he borrow the \$35.00 at 10 per cent interest, it would cost him 35c, deducting the 35c he still saves \$2.20. The population of the city is estimated at 5000 people. This number of people saving \$2.20 each would

amount to \$11,000.00 per month, or \$132,000.00 per year.

The farmer is paying a difference of 50c per sack for flour. If he uses 12 48 lb sacks of flour per year he has paid \$6.00 for having it charged on the merchant's books. The interest on enough money to buy this flour on a cash basis, which is \$36.00 would cost him \$3.60; this means a saving to him of \$2.40, the difference between the amount he pays for having same charged and the interest on \$36. he borrows to buy the flour on a cash basis. 12000 farmers—about the number there is in Nacogdoches county—saving \$2.40 on their year's supply of flour, amounts to \$28,800.00.

In connection with the above statement I wish to make a few remarks regarding the delivery service, which is costing both the consumers and merchants a great deal of money. There was a time when the merchant could get a boy to deliver goods at \$3. per week and feed a mule for about \$8. per month. Now a boy to drive a truck costs the merchant from \$10. to \$15. per week, and the cost of gasoline at 26c per gallon will not let him out for less than \$1. per day, not saying anything about the cost of other truck accessories. In a great many towns the merchants do not run a delivery except on a charge basis, that is if the customers wishes their goods delivered, they are required to pay a 25c delivery fee. While waiting for my price report in one of the leading grocery stores a few days ago I overheard a phone conversation between the groceryman and a lady customer, in which she asked him to send up on approval an article costing 10c, notwithstanding the fact that this merchant was only making about 1c on the sale, and the time of the \$10.00 per week delivery boy, cost of gasoline and wear and tear of a \$500. UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop using dangerous drug before it salivates you! It's horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything after wards.

The hot sun is doubly dangerous if there is a mass of undigested food in the stomach. Foley Cathartic tablets give prompt and sure relief. They act gently but do their work thoroughly. They cleanse the bowels, sweeten the stomach and benefit the liver. For indigestion, biliousness, bad breath, bloating, gas. Stripling, Haselwood & Co. dw1

Not to Be Ignored.

The kidneys are as important to good health as the heart, lungs, stomach or any organ of the body. Lame back, swollen joints, sore muscles, rheumatic aches and pains, are most often signals of kidney trouble. Foley Kidney Pills give relief to kidney trouble sufferers. They banish bladder irregularities. Stripling, Haselwood & Co. dw1

NO EXEMPTION MARRIED MEN

(By Associated Press)

WASHINGTON, August 19.—No general exemption of married men simply because of their married status, is contemplated by the war department in preparing for the proposed extension of the draft ages, according to statements of Secretary Baker today to the house military committee, regarding the new administration man power bill.

To put eighty divisions in the field between now and June, 1919 every single man in class 1 will be needed, General March said.

Mrs. Frank P. Wood, Box 18, R. F. D. 2, Morrill, Mo., writes: Foley Kidney Pills help me so much. My husband also as received much benefit from them. He was so lame he could not stoop over and now he feels no pain. Lame back, sore muscles, stiff joints, rheumatic aches and pains quickly conquered by Foley Kidney Pills. Stripling, Haselwood & Co.

IN FRANCE 60 DAYS AFTER HE LEFT NACOGDOCHES

Taylor Y'Barbo.

The above young man, Taylor Y'Barbo, is with Co. E, 119 Engineers, R. A. P. O., 708, A. E. F. France, landing in France just 60 days after he left Nacogdoches, on May 2nd. He is a son of Mr. J. C. Y'Barbo, of Chireno, and is a lineal descendant of Gil Y'Barbo, who, with other Spanish colonists, were the first permanent settlers of Nacogdoches, and who, some say, was the builder of the historic Old Stone Fort.

Taylor is the great grandson of this old Spanish colonist, who originally lived where the site of San Augustine now is, and who came to Nacogdoches to make his home, and who was afterwards ordered away from here to San Antonio. Later, about 1770, he came back to Nacogdoches and made it his permanent home.

The picture was taken in France, where the young man is now doing his bit in the service of Uncle Sam. His quick arrival to that country was probably due to the fact that he is in an engineering company, which was rushed across to the scene of the conflict.

As will be noted, the picture is not suggestive of the shell-torn terrain in the proximity of the firing line, but rather suggests a balmy spring day in the premises of a French chateau. Being in the engineer corps the young man is likely to travel hither and thither and yon. He is very satisfied with his duties in Uncle Sam's strvice overseas.

A Bilious Attack.

When you have a bilious attack your liver fails to perform its functions. You become constipated. The food you eat ferments in your stomach and causes nausea, vomiting and terrible headache. To Improve Your Digestion.

"For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until about a year ago when I saw Chamberlain's Tablets advertised and got a bottle of them did I find the right treatment. Since taking them my digestion is fine."—Mrs. Blanch Bowers, Indiana, Pa. lanch owners, Indiana, Pa.

The Best Plaster.

A piece of flannel dampened with Chamberlain's Liniment and bound on over the seat of pain is often more effectual or a lame back than a plaster, and does not cost anything like as much. dw

From Weak and Lame To Well and Strong

Try them. Foley Kidney Pills will do for other men and women—quickly—what they have done for Mrs. Strayge.

"Last year, I got almost down with my back," writes Mrs. H. T. Strayge of Gainesville, Ga., R. No. 3. "I suffered from inflammation of the bladder, and whenever I stopped doctoring I grew worse. I tried Foley Kidney Pills, and after taking them awhile my bladder action became regular and the aching sensation disappeared. I am now stronger in my back than I've been for several years, and since getting well I've stayed well and had no return of the trouble."

Start in now to use Foley Kidney Pills. You will feel an improvement from the very first doses, showing how quickly they act on kidneys and bladder. They stop irregular urinary action, ease pain in back and sides, limber up stiff joints and aching muscles. They put the kidneys and bladder in sound, healthy condition. Try them. dw

Cure for Dysentery.

"While I was in Ashland, Kansas, a gentleman overheard me speaking of Chamberlain's Colic and Diarrhoea Remedy," writes William Whitelaw, of Des Moines, Iowa. "He told me in detail of what it had done for his family, but more especially his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to try Chamberlain's Colic and Diarrhoea Remedy, which he did, and fully believes that by doing so saved the life of his child. He stated that he had also used this remedy himself with equally gratifying results." dw

NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it I began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter.—Miss LO KELLY 475 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to a normal healthy condition and as a result her nervousness disappeared.

MILLION AND HALF MEN EMBARKED

(By Associated Press) WASHINGTON, Aug. 17.—More than 1,450,000 American soldiers have been embarked from the United States. General March today told the senate military committee. This number includes the men sent to Italy and Siberia, as well as France. Speaking of America's program, General March said that it was proposed to put thirty divisions into France by June 30th, of next year.

EXEMPTION BOARDS ARE GIVEN MANY FALSE "TIPS"

(By Associated Press) DALLAS, Aug. 15.—While exemption boards invite "inside" information on supposed draft evaders and men whose claims are thought to be invalid, anonymous, false letters and telephone calls with which several draft boards here have been besieged, are deplored. Most of these "tips" turn out to be false and serve no patriotic purpose, a board official here said. Board officials hereafter will pay no heed to anonymous calls and letters.

"Whenever a report is made against a registrant we immediately place him in class one pending investigation. If the charge against him proves groundless we put him back in his original classification. This causes unnecessary trouble, and only embarrasses the registrant. Therefore no notice will be taken of any information unless its source is known."

A BOX EXCURSION.

About ten car loads of Cherokee county people passed through the city today, stopping off for dinner and a little visit to the people in this section in the interest of the candidacy of Judge Box for congress. From this city they go on to San Augustine, Hemphill, Jasper and down the line to Beaumont.

The Sentinel is informed that a similar excursion party left today for Marshall and other points in the northern part of the district, and that friends of the candidate will voluntarily visit every section of the district this week.

There were some forty people in the party coming through here, among whom were Hon. W. M. Imboden of Alto; Judge Jas. Perkins, Judge C. F. Gibson and E. D. Spinks of Rusk; J. H. Bolton, J. E. McFarland, A. G. Adams, T. R. Gragard, W. H. Turney, A. P. Box, C. S. Ousley, E. J. Cunningham, B. D. Dashiell, W. C. Bolton, Matt Chandler, John H. Bolton, C. S. Johnson, W. Z. GOVERNMENT FACES BIG TAX PROBLEM

WASHINGTON, Aug. 15.—At a time when Americans are thinking in war terms of billions of dollars which must be raised by domestic loans and taxation, it is interesting to examine the methods employed to finance the first American war—the War of Independence.

The total cost of the revolution, not including the expenditures of the individual states, has been estimated at about \$80,000,000 a good deal less than one day's cost of the present war. The sum is truly insignificant as compared with the \$24,000,000,000 which will be required to finance America's share of the present world war during the coming year.

The colonists could not bring themselves to the point of giving what they considered too much power to a limited group of men representing centralized government, and while the congress could enact legislation for an army and navy, it could do no more than make suggestions to the various states, regarding the manner in which these fighting forces were to be maintained. As a result, there was a great amount of governmental confusion, and while at least three systems of raising revenue were suggested, there was no definite plan as to the way in which these methods were to be adjusted to one another.

Greatest reliance was placed at first upon the issue of bills of credit; some foreign loans were negotiated; domestic loans were made and a nominal sum was realized through taxes levied by the states. The bills of credit, however, rested upon what proved to be on unsound basis.

Within a week after the Battle of Bunker Hill, authority was given for an issue of \$2,000,000 in credit bills, and the amount to be redeemed between 1779 and 1782 was carefully apportioned among the colonists. Other issues followed, the total issue being about \$241,552,780, but at no time was that amount in circulation and seldom was it acceptable at face value. In 1779 depreciation became very marked, and from January to May of that year, the value of the bills varied from twenty to one to thirty-eight and a half to one.

The domestic loans were more successful, although, with the exception of one small loan for the purchase of gun powder in June 1775; these were not authorized until October 1776, nearly a year and a half after the beginning of the revolution. The failure of the bills of credit and the paucity of the revenue being secured through taxation, led Congress to authorize the borrowing of \$5,000,000 at the rate of four per cent. The leaders received indented certificates which may rightfully be considered the forerunners of the Liberty Bonds. It was found necessary at a later period to raise the interest rate to six per cent, but through four loans, the amount realized was only \$3,787,000. In 1777, the American envoys secured the first loan from France, and that resulted in such a stimulation of the domestic loans, that from that time until the loan offices were closed \$7,684,000 in specie was subscribed.

It was no small matter for the colonials and their descendants to so shape the machinery of the government that results could be obtained smoothly and efficiently. There were many ups and downs, successes and failures, but the foundation laid in those trying times in the foundation upon which the American

COX-DORMAN.

Mr. Jim Cox, and Miss Katie Dorman, both of the Shawnee neighborhood were married in the county clerk's office of the court house yesterday afternoon, Esquire Frank Huston officiating.

Mr. Cox is a son of Geo. Cox of the Shawnee community, and a cousin of Mr. Zeno Cox of this city. He is a worthy young man and has the good wishes of many friends.

Miss Dorman is a daughter of Mr. Wiley Dorman, of the same community, and likewise has a host of friends and acquaintances would join The Sentinel in wishing them much happiness and prosperity in their new venture.

GIVE SOLDIERS HAND BOOK-NORTHERN FRANCE

DALLAS, Aug. 15.—A handbook of northern France will be distributed among officers in Texas cantonments by the State Council of Defense, which now has the matter under advisement. It is pointed out that the officers can then familiarize themselves with the country, as the book deals primarily with the geographical survey of the country.

SCHOOL FOR CONVALESCENTS ESTABLISHED

HOUSTON, Aug. 15.—A school will be conducted in the Red Cross building at Camp Logan for the training of convalescent soldiers disqualified for active service and assigned to domestic service branches of the army. Courses in telegraphy, telephony, visual signaling and possibly mechanics will be taught. Camp Logan is the only military cantonment in the state where a school of this character has been opened, it is said.

Mr. and Mrs. J. O. Ray of this city are in receipt of a message bearing the happy news that their son, Clayton, had arrived safely overseas. It is the first news they have had from him in eighteen days; and relieves their suspense.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

CROWDER ISSUES STRICT ORDERS

WASHINGTON, Aug. 16.—Regardless of any presumed grounds for exemption, all male citizens who have reached their 21st birthday since June fifth, last, must appear before the local exemption boards on August 24th, and register for military service, according to an emphatic statement issued today by Provost Marshal General Crowder. Men who expect to be absent from home on that day can register by mail. But care should be used to see that registration cards reach the board on or before the day of registration.

GOVERNMENT TAKES KRUEGER ESTATE

(By Associated Press) NEW YORK, Aug. 17.—The estate of Gottfried Krueger, of Newark, New Jersey, valued at several million dollars was taken over by the alien property custodian today. Although Krueger is an American citizen he has been classed as an enemy because of his long residence in Germany.

INSTALL FIRE PROTECTION AT GROCERY CO.

The Nacogdoches Grocery Co. has installed a new system of fire protection. The system consists of a net work of sprays throughout the buildings. When the temperature of the room reaches a certain degree—165—the sprays automatically turn on. Hence if a blaze should break out the sprays would automatically begin operation and extinguish it. This system gives added protection to their large stores of food—which we believe is about the most valuable thing on the market now—and is quite a nice improvement for this progressive company.

MUST HAVE LICENSE TO HANDLE EXPLOSIVES

County Clerk W. T. Orton requests The Sentinel to publish the following communication for the information it will be to those engaged in such matters, and give notice at the same time that he will comply with his part of the provisions:

Many of the licensing agents are not sending their monthly reports of Licenses issued, to this office on the first of each month. If you aren't making and sending such report promptly on the first of each month, please give your attention without further delay.

The department has asked me for a complete check of all licenses issued in Texas. This report must be accurate so please do not fail to send me your report, together with the subs of licenses, promptly on the first of the month.

Many inquiries are being received from merchants wanting licenses frequently from towns in which the licensing agents are located. This indicates that the licensing agents are, in some instances, not giving this matter the attention it deserves.

You should notify the dealers, through your local paper, if possible, that you are the licensing agent, and that all violations of this law will be prosecuted vigorously.

Many merchants say they did not know that powder, or certain other articles, are covered by this law. They should be informed in regard to such matters at the time the licenses are issued to them.

Assuring you of my desire to co-operate with and assist you in these matters, and asking that you communicate with me freely in regard to all matters pertaining to the explosives law, I am,

Yours very truly,
CHAS. B. WATTERS,
U. S. Explosives Inspector.

CALL AMERICA TO OBSERVE LAFAYETTE'S BIRTHDAY

(By Associated Press) NEW YORK, Aug. 19.—For the proper celebration throughout the United States on September 6, of the 161st anniversary of the birth of Lafayette, the great French hero and friend of the American colonies, the American Defense Society today issued a call to the people of the United States emphasizing the national debt America owes Lafayette and urging Americans to repay part of this debt by annually honoring his name and memory.

This is also the anniversary of the first battle of the Marne in 1914. "For nearly a century and a half our speech in America has evinced our gratitude to Lafayette and what he stands for. Now let our acts on September 6 attest the sincerity of our words," the call closes.

Mr. W. W. Baker, who it will be remembered suffered a fall at his home in the Swift community some weeks ago, in which his jaw bone was fractured, is reported to be able to be up and about again, although it will be some time before he is entirely relieved from the injury.

FROM THOSE HIGH UP

Let those who have been successful advise you as to the kind of an education you should have. Men at the head of the affairs of our state and nation.

Following are extracts from letters from some of America's greatest men on the value of a business education. Hon. Champ Clark, recent Speaker of the House of Representatives, Washington, D. C., said: "Since I have been elected Speaker I have had more thoroughly impressed on me than ever before that a thorough business college training is of exceeding importance." O. M. Dickinson, former secretary of war, Washington, D. C., "Contemporaneously with taking my general education I took a course in a business college and found it of value to me, not only generally, but in the practice of my profession." R. B. Glenn, Ex-Governor of North Carolina: "I cheerfully recommend to every one a practical business education for their children." Oswald West, Ex-Governor of Oregon: "The modern business school plays a large part in fitting young men and women for their entrance into the business world." T. C. Pickett, Representative from Iowa: "The value ever necessary of a practical education to young people today is so obvious that no argument should be required in support of it." E. F. Noel, ex-Governor of Mississippi: "I take pleasure in testifying to the importance of practical business education, and to the efficiency of a properly conducted business school in imparting such knowledge." C. N. Haskell, ex-Governor of Oklahoma: "I consider practical business education of the greatest importance." John W. Kern, United States Senator: "Everybody ought by this time to understand that business men and business women need business education on the same principle that a doctor must have a medical education." Joseph M. Cary, Governor of Wyoming: "Too much cannot be said in behalf of a good commercial education. I do not believe that such an education can be too highly recommended." Earle B. Mayfield, Railroad Commissioner of Texas: "The world today is calling for men who are prepared and can get results. The keynote of success is 'efficiency.' Tyler Commercial College offers such preparation and I unreservedly commend it to the young men and women of Texas. I am proud of the diploma that I hold from the Tyler Commercial College. The commercial training instilled into me while I was a student in your institution has been of incalculable benefit to me in dealing with the problems arising even before the Railroad Commission of our state." Shouldn't the above evidence settle the question with you as to what kind of an education is needed? Read the catalogue of America's largest commercial school, the one giving the most extensive course of study, the one placing its graduates in the best positions, the one that has more than 3,000 enrollments annually from over half the states of the union, the school with a national reputation. IS IT TRUE? YES

Did the saloon interests employ Senator Collins in a contested prohibition case in his county? Answer: Yes. He does not deny it and the record shows it.

Why did the saloon man or men employ Senator Collins and contest the election? Answer: To keep the saloons open.

Did Senator Collins work against his client after taking his employment and money? Answer: No. The record shows he worked to do what his saloon-keeper clients employed him to do, and tried to keep the saloons open. Any other course would have been dishonest and treacherous to his clients.

Did Senator Collins raise the point that caused him to lose his case and the territory to stay dry? Answer: No. The attorneys for the pros, made that point and Senator Collins and his saloon-keeper client lost the case because of it. If Senator Collins had raised it, he would have been working against his client.

Will many words hide the truth? Answer: Sometimes, but in this case it is still plain.

TEACHERS' EXAMINATION.

An examination for teachers' certificates will be held at the court house Friday and Saturday, September 6 and 7. Superintendent W. F. Doughty states that there is a great shortage of experienced teachers and urges that teachers who have temporarily retired from the profession, and other persons competent to enter the profession, provide themselves with certificates in order that they may be able during the coming school year to answer the call of the nation by assisting in keeping the schools up to the present standard.

The schedule of examinations is as follows: Friday forenoon—Physical, geography, physiology, composition, arithmetic, literature, solid geometry.

Friday afternoon—Texas history, grammar, descriptive geography, plane geometry, psychology, bookkeeping.

Saturday forenoon—Spelling, writing, methods and management, civics, reading, chemistry, history of education.

Saturday afternoon—United States history, general history, agriculture, algebra, physics, plane trigonometry.

R. B. WALTHALL,
Chairman Democratic Executive Committee for the Ninth Supreme Judicial District of Texas.

SHALL BEAUMONT INHERIT CONGRESSMAN'S PLACE PERPETUALLY.

The northern end of this congressional district gave Judge Box a majority of seven or eight thousand votes over Senator Collins, who did not lead in a single county north of Jasper. Outside of Jefferson, county Judge Box's lead over Senator Collins was nearly five thousand. Notwithstanding Beaumont's big vote, Judge Box led in the whole district by a plurality of about nine hundred votes. Under the former law this would have nominated him. Many candidates have withdrawn in favor of the man who led in the first primary, but the Beaumont candidate for congress will not.

The district as a whole has expressed a preference for Judge Box. The northern one-half has given him an enormous lead. Unless the people let Beaumont politicians dictate, Judge Box will be the next congressman and will make a splendid one for all parts of the district. If the district should miss this opportunity to name an able, clean man from another section, the congressman will pass to Beaumont as a perpetual inheritance. dw. (Political Advertisement)

CIVIL SERVICE EXAMINATION.

Secretary Board of Examiners: You are requested to make a strong effort to obtain a large number of applications for the examinations for stenography or typewriting announced to be held on September 27, October 25 and November 15, and clerk bookkeeper and bookkeeper-typewriter, announced to be held in approximately 2,100 cities on August 27 and September 24, and in approximately 450 cities every Tuesday. All of the monthly examinations will be duly re-announced for dates later than those shown in the current announcements, with which you have been supplied. The demand for these workers is in excess of the supply of eligibles, and it is highly important that local boards use their utmost endeavor to meet this demand. The effort to increase the number of applications for the regular stenographer and typewriter examinations which are held every Tuesday should, of course, be continued. The need for stenographers and typewriters grows more acute daily. Literally thousands of workers of this class will be needed in the government offices at Washington during the next few months. By direction of the commission:

Very respectfully,
JOHN A. McILHENNY,
President.

NOTICE OF REGISTRATION.

The Exemption Board requests The Sentinel to again remind all young men reaching twenty-one years of age on or before August 24th that they must come to Nacogdoches and register for military duty on August 24th. No one in the age is exempt from registration. You may be exempt from service with the examination, but not from the registration, no matter what your physical condition may be. There is a heavy penalty provided for any who may fail, and ignorance is no excuse.

FROM J. F. PERRITE.

To the Voters of Nacogdoches County: The time is drawing near for second primary, and while there are not many candidates to vote for, yet it is very important that we all go to the polls and vote.

I want to insist that all the voters, both the ladies and gentlemen, who supported me in the first primary to go to the polls next Saturday and help me "over the top." The those who supported Mr. Watson and Mr. Smith, I earnestly solicit your support. I believe I have made you a good County Judge, and at this time, when our boys are giving their lives for our country and our government is calling for us all to help these boys, and knowing that I can do more if elected, I earnestly request that you support me next Saturday.

Thanking you for past favors, I remain,
Very respectfully,
J. F. PERRITE,
Candidate for County Judge.
