## MCADOO URGES A 5 YEAR CONTROL

CONTENDS THAT GOVERNMENT MUST ADOPT INTELLIGENT POLICY OF F. R. CONTROL

(By Associated Press)  
SANTA BARBARA, California, Jan. 27.—Secretary McAdoo made public today a telegram urging five years government control of the railroads as necessary for the development of inland waterways and the co-ordination of railroad waterways with the merchant marine.

The message said that it seems futile to expend money in the development of inland waterways unless the government adopts an intelligent policy of railroad control.

Upon the return of the roads to private ownership it will cut the throat of the competition of the private controlled roads with partly developed waterways, will destroy water competition as heretofore.

The future waterways development depends absolutely on government control to enforce the operation of the waterways and the railroads as a co-ordinated system.

(By Associated Press)  
NEW YORK, Jan. 27.—The death of Rear Admiral Chadwick, at Newport News, was announced today.

Perhaps as a student and writer on naval affairs, Rear Admiral Chadwick will have a most enduring fame, although he served during the Spanish-American war as chief of staff to Rear Admiral Sampson, and was in all the most serious engagements in which the North Atlantic squadron took part.

Rear Admiral French E. Chadwick was born February 24, 1844, in Morgantown, W. Va. He married in November, 1878, Cornelia Miller, daughter of John Bleeker Miller, Utico N. Y.

Chadwick was retired February 28, 1906, since which time he has written much that is authoritative and of permanent value in regard to naval conditions in this and other countries.

One of his most important works is entitled "The Relations of the United States and Spain; Diplomacy," which gives an intimate account of the events that led to the Spanish-American war.

### Will It Plow Right After Years of Use?

is a question that occurs to you when you come to buy a new plow.

### Avery Chilled Plows

do good work "to the end of the chapter" because—

Share, moldboard, landside and standard are locked together so rigidly by "The Lock That Locks" that the plow holds its correct set and pitch, no matter how hard the plowing or how long the plow is used.

When you come to put on new wearing parts, they slip into place with ease and "fit like a glove," retaining the original shape and pitch of the plow.

Before you buy another plow, come in and examine the Avery.

### CONSIDER FATE OF COLONIES TODAY

FULL ATTENDANCE OF PEACE CONGRESS TODAY—RAPID PROGRESS MADE.

(By Associated Press)  
PARIS, Jan. 27.—The supreme council of the peace conference met with a full attendance at ten-thirty today. Several technical advisers on the colonial question, including three Americans, attended.

The council of ten, as the French call the ministers of five great powers, are considering in executive session the questions of territorial adjustment, the abolition of conscription and economic reconstruction in Germany. These all will be referred to suitable commissions.

Rapid progress is expected henceforth in fixing the peace terms with Germany. One authority estimates that they will be ready by the middle of March, and the German delegates summoned to the council early in April. The ultimate fate of the German colonies may be considered today.

#### Half of French Army Lost.

1,500,000 killed in battle and an equal number seriously wounded is the enormous sacrifice of France in the world war. This constitutes about half of the men she put into the field—a larger ratio of her 36,000,000 population than any other nation gave. America owes France a large debt of gratitude for this heroic outpouring of her life's blood that liberty might live, and also to the peasants of France who discovered a perfect remedy for stomach, liver and intestinal ailments which is reported to have relieved incalculable suffering, prevented many surgical operations and saved thousands of lives. Geo. H. Mayr, a leading Chicago chemist, imports the ingredients and sells this remedy in America under the name of Mayr's Dues by the 1st day of March, next, cannot get any benefits, as no dues after that date will be received as the annual report will go to headquarters on that date.

### RIOTING BELFAST LAST NIGHT

#### STRIKE COMMITTEE WIELDS IMMENSE POWER AND DISCOURAGING VIOLENCE.

BELFAST, Jan. 29.—There was much rioting in the dark streets here last night. Many plate glass windows along prominent streets were smashed. The police frequently charged with their clubs upon the rioters.

The strike committee, which wields immense power has taken upon itself, with the voluntary acquiescence of the civil authorities, some of the attributes of an industrial Soviet, the Belfast correspondent of the Manchester Guardian reports.

The strike committee, it adds, is preemptorily discouraging violence.

### ADJUTANT GENERAL ASKS INTERVENTION

## RUSSIANS SEND A PROTEST TO PREMIER

Say They Would Be men Without Honor If They Accepted The Truce.

PARIS, Jan. 25.—The council of the national and democratic block of the Russian political organizations abroad has sent a strongly worded protest to Premier Clemenceau against the decision of the supreme council to call a conference of the Russian factions.  
"We would be men without honor and courage if we accepted for a single moment the truce such as they proposed, while all that we hold dear is in danger of death—violent death by execution, or assassination, or slow death through hunger," the protest says.

## 36TH LEGISLATURE FULFILLS PROMISE

WARM DEBATES AROSE IN DISPOSITION OF WOMAN SUFF. AND PROHIBITION.

(By Associated Press.)  
AUSTIN, Jan. 27.—The Thirty-sixth session of the Texas legislature has fulfilled its promise to dispose of the prohibition and suffrage amendments early. Both of them have been adopted and sent to the governor for his signature.

But with the passing of these measures, the close harmony of action has been less marked, and warm debates have developed.

The proposal to call a constitutional convention was met with such a flood of amendments on the floor of the house that it was sent back to the committee room for re-drafting. The legislature has shown its interests in international affairs by adopting a resolution endorsing President Wilson's fourteen points. Another dip into affairs of national scope was the resolution requesting the return of railroads to private ownership, which the senate adopted. A similar resolution is pending in the house.

Consideration of state measures apparently was what woke the slumbering orators. In the house a bill to increase the salaries of district judges from \$3,000 to \$3,600 a year brought out opposition, and the bill was defeated. Debate on this measure and another proposing increased compensation of jurors, jury commissioners and grand jury bailiffs, showed that a fixed idea of economy prevails in the house. The last named bill is still pending. But consideration in the reduction of expenses is indicated by the unwillingness of the house to act hastily upon a bill to consolidate the Highway Commission with the railroad commission. This measure, when brought up, was postponed in order that members have more time to study the situation. The sentiment in the house favoring an investigation of the ranger force, brought about by charges of lawlessness preferred against rangers by Representative Chandel, of Cameron county, may be taken up as an indication that the legislature is willing to spend money—if the necessity arises. The action of the senate in voting to sit as a body in the Glasscock-Parr election contest for a seat for the 23rd senatorial district and its decision to summon witnesses before them, bears out the same thought.

Mr. W. B. Pierson of Waco, a former prominent citizen of this city has been in the city visiting relatives and friends.

## FARMERS GO BACK WEST IN AUTOS

PITIFUL WHITE LINE COMING EAST CHANGES—OIL IS THE CAUSE.

DALLAS, Jan. 25.—Some of the West Texas farmers who deserted their homes last summer in pitiful white lines of old prairie wagons are now going back in automobiles. Driven out by a three-years' drought, they are going back as oil men.  
Stretches of land where the drought had virtually withered every leaf of vegetation and from which the disheartened farmers departed for the cotton fields and other more prosperous sections, are within the new oil district.

Some of the farmers who straggled, almost penniless, from the "parched zone" a few months ago can qualify as oil magnates, according to Vance Muse of the Fort Worth Chamber of Commerce, who has just completed a tour of Ranger, Eastland, Cisco, Breckenridge, DeLeon, Moran, Gorman, and other towns in the heart of the new oil district. He says the population in many counties, almost completely deserted last summer, has reached unprecedented figures.  
Leases are being sold for a few acres at vastly large sums than entire farms would have brought a year ago and enormous investments have been made.

The legislature had expected to adopt measures for relief of drought sufferers, but since the discovery of oil little interest has been shown in the proposed action. There have been abundant fall rains that assured crops in districts outside the oil territory.

## ALL SENATE IN ON ONE COMMITTEE

WILL ADOPT STATEWIDE RESOLUTION IN TEXAS SENATE TOMORROW.

(By Associated Press.)  
AUSTIN, Jan. 23.—The entire membership of the senate was today added to the senate committee on privileges and elections for the purpose of hearing the Glasscock-Parr senatorial contest, in a resolution offered by Senator Buchanan of Seury, which was unanimously adopted.  
The senate statewide prohibition amendment resolution was called up before the senate today by Senator Deane and passed to the third reading. It will be finally adopted tomorrow.

## OLD LADY DIED IN THE CITY WEDNESDAY

Quits a sad case is brought to the attention of The Sentinel in the death of Aunt Jane Edwards, which occurred night before last, on the Hoyce street, where she has been working. Her body was laid to rest yesterday afternoon at 4 o'clock.

Some twenty or twenty-five years ago this woman walked here from some point in West Texas, a distance of several hundred miles. She is a white woman, having in past years gone by beer, wrecked on the storm-tossed sea of life, and fallen by the wayside. Since coming here she dropped from the natural affairs of her race and color, and took up abode with the negroes.

Doing a paupered it necessarily involved upon the public to place the mortal remains of a misspent life in its last resting place, and it fell to the lot of a kindly old negro, who, with small aid furnished by the county, is circulating among the generous people of the community, both white and black, to gather the few necessary dollars to pay the expenses of burial.

## COOKING THE TEXAS RIBBON CANE SYRUP

A. & M. SPECIALIST TELLS HOW IT CAN BE COOKED THICK WITHOUT EVIL EFFECTS.

(By Associated Press.)  
COLLEGE STATION, Jan. 24.—Texas ribbon cane syrup can be cooked to a thickness that will give it a flavor and without turning to sugar and souring, announces C. Merwin, specialist of the Extension Service of the A. & M. College, who has completed a series of tests of a process evolved by Dr. J. K. Dale of the Bureau of Chemistry of the U. S. Department of Agriculture.

Mr. Merwin hopes to induce the syrup producers of South and East Texas to adopt this process for the treatment of their syrup on a large scale this year, for he believes it will put that syrup on a parity with honey and maple syrup and create a demand for the Texas product that will mean thousands of dollars in increased incomes to the farmers of the state.

This new process involves the clarification of the juice it is cooked to a semi-syrup and allowed to stand overnight to give all the impurities in the syrup an opportunity to settle out. These could not be eliminated in this way if the syrup were cooked to a greater density. After the foreign substances have been removed, the semi-syrup is treated with invertase, which changes about one half the cane sugar into glucose and fructose. When this treatment is completed it is impossible for the syrup to change to sugar and then sour, the souring being a natural process after much of the syrup has turned to sugar.

The colors of the syrup is improved by this treatment. The cost of the treatment will not exceed one cent per gallon it is announced, and Mr. Merwin found that in the tests he has recently concluded, the cost was only one half cent per gallon.

## NO FORECAST OF GERMAN ELECTION

(By Associated Press.)  
LONDON, Jan. 23.—It is impossible as yet to forecast clearly the results of the German election, according to official wireless dispatch sent out from Berlin and picked up here. The impression prevails, however, that the majority socialists have by far the strongest party, while the democrats will doubtless stand at the head of the non-socialists parties.

## TO AVOID AND RELIEVE INFLUENZA

By Dr. Franklin Duane.  
Many people have been frightened by what they have read or heard of influenza. The more you fear the disease the surer you are to get it. Go right about your business and forget it. As the disease spreads principally by contact through sneezing, coughing or spitting, many health authorities have advised that everyone wear a gauze, which is daily washed and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds, common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food.

If you have any of such symptoms as chilliness, nasal obstructions, flushed face, headache, feverishness, restlessness, weakness, or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes. Thoroughly loosen the bowels with some such mild and non-irritating physic as Dr. Pierce's Pleasant Pellets. Drink principally of hot lemonade and then cover up with plenty of clothes in bed so as to get a good sweat. When sweating is free and the fever reduced take a dose of two Anuric Tablets every four hours, followed by drinking at least a glass of two of hot water. Anuric Tablets help quickly to relieve the soreness of the muscles and bones from which most patients complain and help the kidneys flush out the poisons.

To relieve nasal obstructions and excessive discharge from the nose, probably nothing is better than such a mild, soothing, antiseptic wash as Dr. Sage's Catarrh Remedy. It will give great relief. Employed as a gargle, in same strength as made up for use in the nose, and as hot as can be borne, it quickly arrests soreness and dryness in the throat.

Influenza weakens the patient's resistance to disease, so that there is danger of bronchitis and pneumonia developing. To combat this tendency and fortify the patient's strength insist that he keep in bed at least two days. Probably nothing will at this stage hasten the recovery and strengthen the patient more than an iron tonic tablet called "Ironic" or that well known herbal tonic, Dr. Pierce's Golden Medical Discovery, which has been used by thousands in the past two generations. ## THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a small bottle of Danderine.

If you care for heavy hair that glistens with beauty and is radiant with life, has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a small bottle of Knowlton's Danderine from any drug store and just try it.

## LARGE TURNIP.

Mr. T. E. Rector brought a half dozen turnips to the office this morning that again proves the productivity of the East Texas soil. The turnips weighed about 4 pounds each, and the largest one measured 22 1-2 inches around.

## ANOTHER COUNTY BOY RETURNS

Pvt. John Coats, of near Douglas, who was with the 34th division, 126th field artillery, arrived in Nacogdoches last night from Camp Travis, having landed in America from France on the 5th of this month, and is now honorably discharged. Mr. Coats left France Christmas Day.

Pvt. Coats sailed for France on Sept. 23rd, of last year, on the transport Kashmir, and landed in Glasgow, Scotland, on the 6th of October. When they were nearing the Scottish coast the transport he was on rammed the Otranto, another transport, sinking it, with great loss of life. The boys on the Kashmir were greatly distressed over this calamity.

Mr. Coats was in France three months. He was stationed at Camp Deseaugh, near the coast. On the day the armistice was signed he was transferred to the embarkation camp. He says that he left Henry L. Lunsford, of Garrison, and another county boy by the name of Manuel, at a hospital in Manchester, England. He also says that Messrs. Sowell, from Etoile, and Stripling, from Melrose, sailed for the States just after he did.

While Mr. Coats did not get to the firing line, it was no fault of his, and is very much regretted by him. He has proven a loyal son in the hour of the nation's need.

Messrs. Floyd Ramos, of Alazan, came in with Pvt. Coats, from Camp Travis. Ernest Mitchell, of Etoile, Jas. B. Martin, of Swift, and Ernest Coleman, of Cushing, received their discharge in Camp Travis yesterday, and will arrive here possibly today. Mr. Coats says they left Roscoe Till, of Appleby, in the hospital at the camp with the mumps.

## CITATION BY PUBLICATION

THE STATE OF TEXAS,

To the Sheriff or any Constable of Nacogdoches County—Greetings:

You are hereby commanded to summon William Ferlong by making publication of this Citation, once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the Second Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper in the nearest District to said Second Judicial District, to appear at the next regular term of the District Court of Nacogdoches County, to be holden at the Court House thereof, in Nacogdoches, on the 2nd Monday in February, A. D. 1919, the same being the 10th day of February, A. D. 1919, then and there to answer a petition filed in said Court on the 15th day of January, A. D. 1919, in a suit, numbered on the docket of said Court No. 561, wherein Rozal Ferlong, is plaintiff, and Will Ferlong, is defendant, and said petition alleging that plaintiff and defendant were legally married on or about the 16th day of March A. D. 1907, and continued to live together as husband and wife until on or about the 1st day of January, 1908, at which time defendant permanently abandoned plaintiff and since which time they have not lived together as husband and wife.

Plaintiff says that she at all times endeavored to make defendant a true, kind and affectionate wife but the defendant without cause or provocation did abandon her as aforesaid without cause or provocation and that the action and conduct of defendant are of such nature as to render their ever living together again insupportable. That more than three years have elapsed since said abandonment of plaintiff by defendant and she here now pleads the statute of three years abandonment.

Plaintiff says that as a result of said marriage there was born to them a child, that said Jesus Ferlong, a girl, now about ten years of age, is in the care and custody of plaintiff and that she is willing and able to care for and support said child, to educate it as is right and proper and that the plaintiff is a proper person to have the custody of said child and that the defendant is not a proper person to have the custody of said minor.

Wherefore plaintiff prays that the court herein and upon a final hearing hereof she have judgment dissolving said marital contract which still exists, for the care and custody of said Jesus Ferlong, for cost of suit and such other and further relief as she may be entitled to receive and will ever pray.

Herein fail not but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Nacogdoches, this 15th day of January, A. D. 1919.

N. B. HALL,  
Clerk, District Court, Nacogdoches County. 16-4t-w

### CALOMEL DYNAMITES A SLOGGISH LIVER

Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea. If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

### WOUNDED COUNTY BOY RETURNS

Mr. Ernest Lewis, son of Mr. Bill Lewis, of Garrison is in the city today. Pvt. Lewis is just back from France, where he was wounded in the Argonne forest.

Pvt. Lewis was in the service in France six months. In the fierce battle of the Argonne forest, when the American bravery charged the machine gun nests of the Germans, Lewis was wounded by a machine gun bullet entering his jaw and going on through the side of his neck. He is in Co. D, 9th infantry, of the 2nd division. He has been in the hospital a month and a half, and is on furlough from the hospital now.

Pvt. Lewis landed in America on the 22nd of December. He will again report at his hospital in New Jersey, after a few days visit with the home folks. Like all other men who have returned from the battlefields he does not like to talk about himself much, but he tells some very interesting experiences. He says that he was very enthusiastic and eager the first time that he went into battle, but the second time he knew what he was going into, and it was not quite so much fun.

Pvt. Lewis came up here to visit his sister, Miss Claude Lewis, who is teaching school some few miles out from town.

Guy Blount of Nacogdoches was in the city this morning, and it was learned from him that the brick building known as the Hartman restaurant, next door to Shotwell & Stegall on First street, will soon be overhauled, a pressed brick and plate-glass front will be put in, and when all the improvements are made, the building will be occupied by Smith Mercantile company for a period of three years. This is a valuable piece of property and when ready for occupancy, will be one of the most attractive business sites in the city, and will complete the symmetry of this business block, one of the most popular in the city, from the Burke drug corner to the Guaranty State Bank building.

Mrs. J. O. Booker will leave for Nacogdoches this week to spend a few days.—Diboll Dots in Lufkin News.

Austin Hickman, who is a brother-in-law of Mr. Pat Murphey, is in the city visiting him and other relatives. Mr. Hickman is back from France, where he was over there on the firing line with Uncle Sam's forces some months, and where he was wounded, having an eye affected in a gas attack. Mr. Hickman tells some very interesting experiences.

### BISMARCK'S LIFE WORK WILL BE UNDONE BY THE PEACE CONFERENCE, PARIS

By FLOYD MACGRIFF, International News Service Staff Correspondent. LONDON.—Two of the biggest land which will be sturdy enough to resist being Prussianized commercial jobs of the Peace Conference will be the undoing of the life-work of Bismarck, together with reducing Prussia to her proper level with the other German States and establishing a Poland by pouncing upon Poland that Prussia rose to power. The instigation of the partitioning of Poland by Frederick II. sowed the seed of aggrandizement which ex-Kaiser Wilhelm II. attempted to harvest.

And the problem of Poland and Prussia is a tangle. Poland's only possible seaport is Danzig. It formerly was Polish, but Prussia populated it with Germans, so that now less than 10 per cent of the seaport is Polish. Could Germany retain Danzig she could dominate Poland. The district about Danzig is overwhelmingly Polish, but if this city is given back to Poland, then East Prussia will be cut off from the rest of Germany. There are about 3,500,000 Poles who have to be liberated from Prussian misrule. In this part of Poland there are 1,000,000 Germans placed there through colonization. Internationalization of the port of Danzig might solve that phase of the question, but how East Prussia is to be linked up with the rest of Germany by land without chasing out thousands of Poles is the hard part of the nut. For full, free, economic development there can be no question but that Poland should have Danzig.

To begin at the outset to undo Bismarck's work there will be rectification of Germany's frontiers. As already provided, Alsace and Lorraine will be restored to France, Luxembourg likely will revert to Belgium and Danish parts of Schleswig-Holstein will be returned to Denmark. If Germanic Austria desires to unite with the other German States—a thing Bismarck prevented because it would reduce Prussia's influence—the Allies will not interfere. Thus there will be rectifications of practically all of Germany's frontier. In connection with Schleswig-Holstein, the question of the future of the Kiel Canal arises. It is most important that Germany be prevented from continuing to treat this canal as an inland waterway, denying other nations equal use. If Germany is allowed to continue this domination of the Kiel Canal, she will have—that is, Prussian interest will have—an undue advantage over sea-borne traffic from Poland, Finland and Russia into the North Sea and Atlantic. For the Kiel Canal is the short route. The Kiel Canal, experts say, should be free to all nations alike, as are the Panama and Suez canals.

Germany also is expected either to surrender outright or hand over the output of the Saar coal fields, which were taken from France a century ago. Commercial as well as physical domination over European countries by Prussia is to be terminated. Germany will find that her relations hereafter with Holland will be far different than in the past; likewise with Belgium. Germany's attempt to poison relations with Belgium and Holland over which of those two shall control the Scheldt is doomed to failure. The unification of the German people, a thing which Bismarck prevented, will be one of the fruits of the reconstructed world, and this, in itself, will be a check again vehement Prussian methods. Bavaria and Germanic Austria are expected to form a balance which Blood and Iron Bismarck cannot disturb. The Bismarckian policy of preventing democratic development and expression of the people is to be curbed. The Prussian game of playing one race or one section against another to benefit Prussia aims is to be ruled out. There will be a bulwark against any German custom union which seeks to tie adjacent neutrals to the Prussian money till.

Germany is going to have a big enough job in simply attending to the needs of Germans in Germany, reconstructing her State and meeting the Allied peace terms. Her colonial adventures from 1884-99, will be wiped off the slate. Her establishment in the Far East, dating from 1897, will pass away. But these are only offshoots of the Prussian idea which Bismarck so skillfully perpetuated in the Kaiser-controlled Germanic states. A keen watch will be kept here on negotiations relative to Poland, for it is realized that unless this question is settled properly and so as to stamp out all Prussian influence, the peace of Europe will not endure long.

### KISSING IS A CURE FOR THE DIVORCE

ACCORDING TO JUDGE J. R. HAMILTON OF TRAVIS COUNTY CRIMINAL COURT.

(By Associated Press) AUSTIN, Jan. 24.—Kissing is a cure for divorce, says Judge J. R. Hamilton, who granted about 450 divorces each year from the bench of the Travis County Criminal Court. "I believe whisky is at the bottom of 90 per cent of the divorce cases," said Judge Hamilton. "It may not be the immediate cause, but in the beginning it started cupid away from the family altar. "As for the cure, I tell you that the man who kisses his wife goodbye when he leaves home in the morning and kisses her again when he returns home in the evening that man will never have a divorce in his family."

## GROWING RUMORS

The reports coming in yesterday's dispatches should cause the serious thinking people of the American nation to take notice. At a glance it would seem that there is a growing unity in the central empires, while the various nations assembled at the peace conference are coming to some points on which there are varied opinions. In other words Germany is growing more stable, and the allies are encountering differences. Of course the question comes up as to whether we can accept the reliability of the reports. Of this much we can be assured: there is undoubtedly a variance of opinion among the allies.

As to whether the central empires are regaining their strength there is some doubt, but the evidences all point to this fact. Hindenburg is said to still have a large trained army, the Krupp works are said to be enlarging, the Prussian dominance is reported to again be asserting itself.

If all of these facts prove to be true, it would seem that Germany is gaining an advantage which they will undoubtedly use in their part of the negotiations at the peace conference.

There is no cause for anxiety. There is no use in trying to add strength to a rumor that might be beneficial to the Germans, or that may create a furor. However, it might not be out of place to discuss the actual facts of the case. In addition to the above it is a fact that the various nations of the allies are demobilizing their troops rapidly, there is increased rumors in Mexico and other things that ought, and possibly will, cause the people of the American nation to stand more closely by the President and the government until the whole thing is settled in a satisfactory way.

## IMPORTANT INDUSTRIES.

A dispatch in the Houston Post yesterday from this city says that since the first day of November 25 car loads of hogs have been shipped from this city to the packers. \$2500 was the average price per car, making a total of \$62,500 of hogs from this station. The dispatch also says that hogs have been shipped from Appleby Garrison, Cushing and Sacul in this county, and that the farmers have reserved enough meat to run them until next hog killing time.

The peanut industry has been closely allied with the raising of hogs, and has contributed very much to an increased production of swine in the county. While peanuts alone fed to the hogs create a "soft" meat, if it is mixed with other feeds, it is very satisfactory, and cheap.

Nacogdoches county raised a larger acreage of peanuts the last year or so than ever before. This industry was encouraged in the county, because they could be raised in the sandy sections to perfection, where other stuff could not be raised. The hog industry was also increased in proportion.

As a result of this increased production, much money has been brought to the farmers of the county. No doubt the farmers will quickly realize the merits of the industry, and plant an even greater acreage this year.

Cotton futures for March advanced two hundred points, or ten dollars a bale yesterday, on the strength of the assurance of a reduction in the trans-Atlantic shipping rates. This is quite some advance, and should prove very encouraging to the farmers who have been holding their cotton for better prices. Advice from many quarters to the farmers the past few weeks has been for them to hold their cotton, inasmuch as the price was going constantly downward this upshoot comes as quite a relief. Wonder if they will hold it any longer?

Of course, no one knows why so many camouflaged automobile trucks are being rushed through here, going south on the H. E. & W. T. railroad, every day, but as they are billed to Houston and San Antonio it looks like Uncle Sam is getting them as near Mexico as possible so they would be handy in case of trouble. But why the camouflage? The ordinary greaser can not hit the side of a barn, anyway.—Lufkin News.

An Associated Press report sent out yesterday from College Station told how to make ribbon cane syrup that will not later turn to sugar. A fine thing no doubt for some localities, but there is no danger of anything like that here, where it is devoured before the change takes place. Of course the manufactured article in other places, Nacogdoches county for instance, is of such inferior quality that the product lasts for a long time, and anything that will help to save it will

naturally be appreciated.—Lufkin News.  
If Lufkin is narrow enough to manufacture just enough for her own needs, that is her business. Nacogdoches farmers are progressive, they believe in broadened commercial ideas—they would even preserve it that Lufkin's hungry inhabitants might be able to purchase it when their meager supply runs out.

Judge Hamilton Lewis of Austin prescribes kissing as a preventive of divorce. The judge evidently fails to comprehend the psychology of the kiss. Where it is charged with real power no prescription is necessary. A perfunctory smack is worthless. A high-powered kiss is quite as apt to land outside the family as in it. Ergo, the kiss is apt to inaugurate as many divorces as it prevents.—George Bailey in Houston Post.

## CUTTING THE STATE IN TWO.

In this legislature, as in others, the proposal has come up to divide the state of Texas into two or more others. This proposition has been discussed pro and con for many years. It has never received very much consideration by the citizenship of the state, although there has been much argument in its favor.

Some of the lawmakers in this legislature claim that East Texas was receiving the majority of the state appropriations. One senator avers that West Texas will consent to a division of the state if the Alamo and San Jacinto battle grounds are moved to West Texas; the bodies of Crockett, Houston, Travis and other heroes be given West Texas, and the Lone Star Flag also be given West Texas. West Texas is very liberal—if this senator voices her sentiments. Seems to take it for granted that the eastern portion of this great state is spoiling for a division.

We believe we are speaking for the majority of the citizenship of the state when we say that Texas wants no division. It might be that the appropriations could be spent more wisely—the country might be developed a little quicker—all of these things may be true. But deep down in the heart of every Texan there is a pride, a love in his heart for the glorious old state that has so greatly honored itself from the times of Mexican control on down. Every loyal son does his share to preserve the traditions of the glorious old state. Every one is proud of the Lone Star Flag, and each section has various memorials that serve as component parts in the landmarks of the history of the largest and most glorious state in the union.

Away with the clamor for division. Two "conscientious objectors" who have been confined at Leavenworth, recently were offered their freedom, and refused to accept it, saying that it was against their religious scruples. Evidently the gentlemen have great faith in their belief—or else they should be ensconced in a padded cell.

The ex-kaiser says that his time is nearly done at Amerongen. It would not surprise us much if his time was not nearly done in the world.

The American nation is not receiving the reports that the Bolsheviks are driving the Americans back on the Archangel front with any relish. No doubt, however, the Americans were doing the best thing and the right thing when they retired. Many of us like to pin our ideal to the general in France who said that the American soldiers would not understand the order to retreat.

## ANOTHER NACOGDOCHES BOY ARRIVES HOME FROM FRANCE

Pvt. Thos. J. Stack, Supply Co. 33 field artillery, a son of Mrs. T. J. Stack, of this city, made the last lap of his journey from France, arriving in the city Saturday.

Pvt. Stack has an honorable discharge. He has been in France since last July. He has been in America about two weeks.

Mr. Stack brought back with him an American helmet and a gas mask which has been on display in the city, and which has proven very interesting to those who have never seen one.

The young man has proven the quality of his patriotism and loyalty in a way that will endear him more to the hearts of his friends and countrymen. His many friends are overjoyed to welcome him safely home again, and trust that his return to civilian citizenship will bring him happiness and prosperity.

## FOR THE ORPHANS OF WAR.

What was more attractive to the passer-by last Saturday, than a little band of workers who in front of Cason Monk's store were serving lunch to make their own money to support and keep alive with mother one year a little French orphan. These bright, capable children were the Sunday school class of Miss Mintie Price, who is the inspiration for this tender and loving act by her pupils. They made in this, their first effort, almost enough for one child, they are not asking for help from friends or parents, but will by their own endeavors secure this money. The advantage of this method is many.

In addition to the actual work given, bonds of affection will be forged between the children of France and the children of America that will grow firmer as the children ripen into the age, when they will be the leaders of the two nations.

J. H. Williams of Sacul was in the city yesterday.

## CAVALRY TO BE RETAINED IN FIRST LINE RESERVE

Nearly every daily paper contains news of the unrest and disorganized conditions in the country south and adjacent to Texas. The American ambassador at Mexico City has been ordered to Washington to report on conditions. Should our country intervene the Texas cavalry should be among the first forces to cross the border.

In view of this possibility our troop must immediately put itself on a war basis as regards its enlisted strength. We must first recruit our troop to a size that fills those places made vacant by men moving away from our county. Also men living in distant parts of Nacogdoches county will be replaced by those close in.

Our first invitation is to those men who have already received military training. Service and wound stripes will be allowed to be worn by those entitled to have them. We will be proud to have a large number of such men join the troop.

During the first part of February a regular army officer will be detailed to inspect our troop. He will report on the condition of officers and men of the troop as well as condition of the army. Upon his report depends whether or not we will receive arms and equipment immediately. We expect to get them. But we want to be able to show him one hundred and seven men in ranks.

We will receive quarter pay for twenty-four drills if held during the six months period from January 1st to June 20th. The reason we have received no pay to date is because we were unable to show the required number of drills during either the first six months of 1918 or the last six months. We accomplished the required number of drills but not during either the first or the second period. We will conform to the army rules this year.

I shall receive ten days notice of the arrival of the regular army inspector. Immediately I shall notify each member of our troop to be present on the date set. And new men wishing to join the troop should see me immediately.

W. W. LEE, Commanding Officer, 1st Lieut. Troop I, 7th Reg. N. G. of T.

# SALE BILLS

TO WHOM IT MAY CONCERN.

I understand there is a great deal of complaint and dissatisfaction among a part of the people of our city about the way the cemetery is being cared for.

I realize that it is impossible for one person to please everybody. Since being sexton of your cemetery three years and three months I have to the best of my ability tried to please everybody, but it is for you to say if I have or have not. I would much rather for those who are complaining about the way the cemetery looks to come to me with their troubles than tell other people and I assure you they would get better results.

I will leave it to anybody who is any judge of work that no man can keep as large a place as this cemetery in first-class condition the year round. Anybody who knows anything about trees knows that the leaves fall off in the fall and winter, and ought to know that you cannot keep them cleared up and perfectly clean until they are through falling. However I have been trying to make the place look decent, and again there is complaint about me doing extra work and receiving pay for same.

Now if those who are complaining will stop a minute and think about the wages that are paid for this work, who is it that wouldn't want to do a little extra work in order to meet the necessities of life. When I do jobs of this kind it is before or after working hours. If not I make up the time lost. Trusting that I have offended no one, I am, sincerely yours,

MEXICAN SITUATION LOOMED LARGE

OVERSHADOWED IN INTEREST

PROHIBITION AND WOMAN SUFFRAGE

(By Associated Press.)

AUSTIN, Jan. 27.—The situation on the Mexican border loomed large in the Texas legislature during the past week, and over-shadowed in interest the woman suffrage and prohibition amendments, which did not have enough opposition in either branch to bring up much debate.

With W. D. Glascock's contention before the senate committee on privileges and elections that the Glascock-Parr contest for the 23rd senatorial seat would prove more important than his bill providing the placing of the rangers under bond demands an investigation. In fact, no one has ever expressed opposition to an investigation, and Representative Barry Miller of Dallas, who is leading the fight on Representative Canales' ranger bill, has even expressed himself as favoring a probe.

All of the counties represented by Representative Canales are also in the district in which the Glascock-

Parr senatorial contest originated. But it is probable that if the ranger investigation comes it will embrace all the border, as the question why the complaint against the rangers has come from this section already has been raised on the floor of the house.

The border debate came up in the house with a bill to regulate and reorganize the State Ranger force, which represented by representative J. T. Canales, of Cameron county. Representatives Canales' charges against the rangers have brought about numerous suggestions that a house investigation of their activities be conducted.

Two phases are presented by the two different investigations pending. Glascock's charges are directed not against the congress but against local candidates in his district, which extends approximately one-third of the Mexican border. His pleadings include a report made to the governor

by rangers sent to investigate the election in the district. Representative Canales directs his charges of lawlessness against the ranger force solely, and contends that local officials are sufficient to control affairs until a situation calling for the proclaiming of martial law and sending of the state militia to the border arises. No investigation has been conducted yet but Representative Canales

10. Ques.—If the Buick Automobile pleases over One Hundred and Fifty-five of my neighbors and friends, who use them over roads that I'll expect mine to go over and they all seem to be exceptionally well satisfied, is the Buick good enough for me? Ans.—This is the only question we can't answer, but we can give you about the best opinion you ever heard—We believe it is good enough for any man, rich or "richer," and one thing we know, if he is a poor man, he can't afford to own any other kind of a car, except a BUICK.

I am unloading a car load of Buick Automobiles today. We have never been able to keep them in stock, so I am predicting that these will not last long, see me at once

WILL LABOR COMMIT THIS FOLLY?

Those who declare that they have no fear of alien ideas obtaining a foothold in this country should read the proceedings of the National Labor Congress, which has just proposed a general strike throughout the country in all industries if efforts to obtain a new trial for Thomas J. Mooney fail. We are told in the dispatches that the "conservatives" prevailed in the meeting, and yet the result of this victory of conservatism was the adoption of the following committee report.

"Your committee recommends that the taking of a strike vote commence at the earliest possible date and that this convention request all national and international officers to submit this question to a referendum vote in accordance with the constitutions of their organizations, and that the vote shall be tabulated on June 1 and that the date for general strike be set for the Fourth of July, 1919, the day of American Independence."

There are many men outside the ranks of organized labor who will sympathize with the purpose of the meeting—that of obtaining a new trial for Mooney. But no man who understands American institutions, be he a member of a labor union or not, and who is loyal to those institutions, can sanction the idea of calling a strike of any kind to enforce such a demand. By making the threat of a general strike the question of the justice of their demands is ruled out of court. This labor congress says to the authorities that a certain thing—not related to industry—must be done or a general strike will be called. And that is Bolshevism pure and simple. It is only a step from a demand of this kind to a demand that congress enact certain legislation under threat of a general strike, or that the personnel or form of the government itself be changed. The ballot box thus is thrown on the junk heap. Government by and for the people is abolished and a dictatorship of the organized working class, through the instrument of the general strike, set up. If a general strike can be used to control the action of the courts, it can be used to control the action of the entire government.

We have no means of knowing to what extent the Chicago meeting was representative of American organized labor, nor would we attempt to forecast what percentage of the rank and file of the labor unions can be expected to vote for such a proposal. We are loath to believe that the proposal represents the sober sentiment of any important percentage of the membership of a single national union. But the fact that such a meeting has been held and that the movement has progressed to the point of proposing a general strike to all organized labor, should come as a shock to every thoughtful American. Whether the movement can succeed or not, it is an omen of evil days ahead that the adoption of such a program by such a meeting is possible.

We were among the newspapers that demanded a new trial for Mooney. The evidences of fraud in the case tending to show that Mooney was convicted as the result of a conspiracy to "get him" and to make an example of him have been too numerous to be ignored. We believed that he should have been given a new trial under conditions that would insure an impartial administration of justice in his case. We still believe it, and therefore could not have failed to sympathize with a demand by organized labor that such a trial be granted. But when the demand is made under a threat to tie up all the industries of the country, as an American newspaper we cannot do otherwise than to denounce it as unwarranted and un-American.

We have a whole-hearted sympathy with the legitimate purposes of organized labor. We believe in labor unionism and collective bargaining. But when organized labor goes so far out of its legitimate province—if, indeed it should do so—as to assume the right to dictate to the constituted authorities on such a question as that involved in the Mooney case or on any other political or judicial question, we think the time has arrived to speak plainly to its leaders and remind them of some very simple truths.

And here are some of those truths: There is no place in this country for the idea of government by a class. The American people will never tolerate such an idea. A ruling class,

whether it be large or small, which attempts to dominate any part of our government, especially through coercion of any kind, must expect to face the wrath of the American people. The idea that the working class, as such, can take upon itself the right and attempt to exercise the power to force the government to do anything, whether that thing be just or unjust, is quite as repugnant to American ideals as that any other class, be it large or small, should assume such a right or attempt to exercise such a power. If someone identified with organized labor has been denied his rights under the law, if to that extent the ideals of our government have been violated, it cannot be cured by striking at the very foundations of our government in retaliation. The men who have proposed this un-American and foolish thing have no idea what it is that they are proposing. They are striking at institutions which guarantee to them the very liberties they enjoy. They are appealing from the force of law to the law of force, and no matter how much their orators may talk about making "this country look like an Arizona desert," we must tell them that they cannot win at that game. Men died to establish the institutions at which they will be striking, and they will know how to protect them.

The labor unions of this country have built up a powerful organization for the protection of their rights in industry. If that power is used only to further their legitimate ends and carefully guarded against the activities of inflated adventurers and amateur architects of fantastic social systems, it will exert a great influence in building the new world which will be wrought by the patient effort of the people in the years just ahead. But if they are led away from the paths which they have traveled in the past, and embark upon such activities as proposed in this general strike resolution, they will destroy all that has been established during a quarter of a century or more of organization. Such considerations as these ought to bring about a prompt repudiation of this proposal by the rank and file of the labor unions of the country. If we are mistaken in expecting such an action, if we have rated the wisdom and conservatism of the bulk of the union men too high, they will discover that they must suffer the consequences of their own folly.—Ft. Worth Star-Telegram.

STUDY BUSINESS AND PROFESSIONAL MEN IN YOUR TOWN.

Watch the men in the towns you trade with—the merchants, bankers, lawyers, doctors, warehousemen, cotton buyers, etc.

See which men are generous and public-spirited and which men are not. Find out which men are interested in better schools, better roads, public health, sound morals, good citizenship, and all the things that make for civilization and progress.

See which man subscribe adequately which men are "tightwads" when appeals come for the Red Cross, school taxes, new school buildings, community fairs, prizes for boys and girls, and all such things.

See which men subscribe adequately for Liberty Loan bonds and War Savings Stamps, and which men subscribe as little as possible so as to put their money in something which will bring in a little more interest. Now shall we criticize, abuse and denounce the men who by these tests show themselves selfish, little-hearted, little-souled? No, let's try appreciation of the generous men rather than depreciation of the selfish ones. Already too many of our people are so busy criticizing, abusing and denouncing all the bad they find in the world (and making themselves miserable thereby), that they never get time to praise and encourage the good—and increase their own happiness thereby.

Try to pick out the men who are liberal and unselfish and atune with progress. Tell your neighbors about them and make up your mind to do your business only with such men hereafter. In this way you will throw the profits of your business where part of it will go to improve the community and the county and the country, instead of having these profits go simply to enrich some selfish man and his family.

It is your duty to throw your financial influence to business and professional men of the right type. And by the right type we mean men who believe that whatever prosperity God gives them, He gives them not only

for their own selfish enjoyment but to hold as trustees of His, giving a fair proportion to each good and worthy cause that presents itself.—The Progressive Farmer.

RIBBON CANE SYRUP

Elsewhere in the paper today will be found a dispatch from College Station, in which one of the experts of the college tells of a process by which East Texas ribbon cane syrup can be cooked to a thickness that will give it flavor and not turn it to sugar.

Every person who has been in East Texas knows what our ribbon cane syrup is. Cooked thick enough it is the best syrup in the world, but if cooked thus it will turn to sugar, therefore cannot be shipped for commercial purposes, and is why "new syrup" is always in demand. Mr. Merwin, of the A. & M. hopes to induce the syrup producers of South and East Texas to adopt this process in the treatment of their syrup when they are cooking it, and believes that it will put that syrup on a parity with honey and maple syrup and create a demand for the Texas product that will mean thousands of dollars in increased incomes to the farmers of the state.

Information about the process can be obtained by writing the A. & M. college. If the farmers of this portion of the state would adopt this process and properly can and label their product they would soon bring into being a new industry for old East Texas. Once its good qualities are established there would no doubt be a ready sale for it all over the United States.

The military laws in force where the Americans are occupying German soil are very strict. The latest order is that the Germans can not play the "Star Spangled Banner." The commanders do not want any Teutonic accents mix with the national anthem, neither do they want any friendliness encouraged between the Germans and Americans. While it is not the nature of the American to be avengful, it will probably take a little time yet for the American to love the German.

IN MEMORY OF JOHNNIE KING

On January 1st, just before six o'clock, as the darkness of the night and the old year was fading away, and the light of new day and new year was coming on, the spirit of our dear brother took its flight to Heaven to join father, mother and brother. But we weep not as those who have no hope, for John was a true Christian and ready to go. Thus ended the life of one we all loved for 38 years and six months.

He was the pet of the family and loved by all who knew him. He was kind and patient and met everyone with a smile. He loved old Trinity church and all its pastors. His greatest delight was to do for others. Though separate from some of the family, he never forgot them, and his daily talk was to hear from them and plan for the time they would visit us.

Oh, how we miss him. His chair by the fireside is vacant. We will never hear his voice on this earth again, but God in His wisdom knows best, and we can only be submissive to His will. And may we be as ready to go as he was, that our family circle will be unbroken up yonder.

**TAKE CARDUI**

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but I can truthfully say that I have not a pain. . . It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

**AN IMPORTANT MEETING**

Of the Baptist Workers of the Nacogdoches Baptist Association, with the Executive Board of the association on Friday, Jan. 31st, 1:30 p. m., at the Nacogdoches Baptist church.

This meeting will be of grave interest to the Baptist cause of the county, and all the pastors and leaders from their churches are urged to attend. It is a time when BAPTIST LOYALTY will mean much for our cause, not only in the county but throughout our state.

Brother Drury our missionary for the association, will make his first monthly report at this meeting, and we will also plan for the Baptist Loyalty Board Issue, which is to run from Feb. 9th to March 2nd. We need to appreciate as individual members of our churches that kingdom matters, far as Baptists are concerned, challenge the prayers of all our people, and you need to know the things that will be discussed at this meeting.

The East Central Texas district rally, held at Nacogdoches Baptist church last Thursday and Friday will also be reported, and those who were kept away by bad roads will learn of the importance of that meeting.

Also a plan for monthly meetings of our preachers and workers will be perfected at this meeting as nearly as possible, and we need the suggestion of every Baptist of the county who will attend this meeting.

Remember the date, Friday afternoon, January 31st, at First Baptist Church, Nacogdoches, Texas, 1:30 o'clock.

C. A. WESTBROOK,  
Corresponding Secretary.

**OBITUARY**

The Death Angel visited the happy home of Mrs. E. L. Warner January 14, 1919, and called away the jewel wife and mother. Mrs. Warner was born March 21, 1884, and united with the Methodist church at the age of 15 years, and has since been a true worker. The body was laid to rest in the Chireno cemetery, Rev. Wallace conducting the funeral service.

Those who survive her are a husband, three children, a mother and two sisters, besides a host of relatives and sorrowing friends. She was confined to her bed January 7th, with influenza and pneumonia, and on the 14th she bore the pain and anguish perfectly resigned to wait the Master's call. She bowed her head so gently and brave in death as if she knew the Guardian Angel was to bear her soul to its eternity.

There is not a shadow of doubt upon our minds but that she obtained victory. She is sleeping sweetly awaiting the glorious dawn. Oh, what a great thought to be reborn and ready for the summons home.

The aged mother stands as a withered trunk which lost its branches, her eyes drowned with grief.

"She sleeps in Jesus and is blessed, How kind her slumbers are From suffering and from sin released And free from every care."

A FRIEND.

**RESOLUTIONS OF SYMPATHY.**

Another of God's flowers has faded. Another of His workers has answered the call.

On the eve of Jan. 14, 1919, God said "Come" and the immortal spirit of Mrs. Lee Warner winged its way to the God who gave it.

In the passing of this good woman the Methodist church and community of Chireno has sustained an irreparable loss; Therefore Be It Resolved:

First: That the Woman's Missionary Society in losing Mrs. Warner, who was superintendent of the Junior Missionaries, has lost one of its most valued members; that we will always cherish the sweet memory of her association and labor of love among us; that we consider ourselves blessed to have had the noble, unselfish life of this good woman among us. It is with profound regret and deep sorrow that we bow our heads in submission to Him who doeth all things well. We brush aside our tears and look forward to the time when we shall part no more.

Second: That we extend our grateful sympathy and prayers to the bereaved husband, children and relatives.

Third: That a copy of these resolutions be put on the minutes of W. M. S., a copy be furnished the family, and a copy be sent to each of the county papers for publication.

MRS. B. F. MOORE,  
MRS. ANNA METTAUER,  
MRS. RALPH MENEFEER.

The C. C. Club will meet with Mrs. E. V. Davidson Thursday afternoon, Mrs. W. F. Gintz will have the study hour instead of Mrs. Frank Sharpe. Subject—"Japan" Roll Call—"Current Events in Japan."

**Resolved**

That peace will find us backing Uncle Sam as strongly as we backed him in war.

That between now and April we will lay every possible stone of the groundwork for the Fifth Liberty Loan and leave no act undone which will tend to keep alive and, if possible quicken the consciousness of the nation that Saving and Thrift are Peace essentials as well as War essentials.

That we will exert our every effort to stop trafficking in bonds of the first four loans and will keep our War Savings Stamps.

That we will carry out our War Savings Pledge if that is unfulfilled, and make and keep new Savings Pledges this year.

That we will work tooth and nail from now till the last day of the April drive to oversubscribe that Fifth Liberty Loan.

That we will finish our job.

**PAY YOUR PLEDGE; GET THE THRIFT HABIT**

All pledges made to invest in United States Government War Savings Stamps during 1918 have been automatically extended to 1919 by the Government, which has made official announcement that persons who, for any reason, did not complete their pledges by December 31, 1918, may and are expected to liquidate these pledges by investing in War Savings Stamps of the new 1919 issue.

The 1919 United States Government War Savings Stamps are blue in color and a trifle smaller than the War Savings Stamps issued by the Government last year. They bear a likeness of Benjamin Franklin, the American apostle of thrift and economy. The 1919 War Savings Stamps, which yield their owners four per cent interest, compounded quarterly, may be obtained from any postoffice, bank, or other authorized agent. The price of each 1919 War Savings Stamp is \$4.12 during January. The cost price increases regularly one cent each month, so that in February the cost is \$4.13, in March \$4.14 and so on.

The same old Thrift Stamps and Thrift Cards used last year, remain in use during 1919 and filled Thrift Cards, that is, Thrift Cards on which sixteen Thrift Stamps have been affixed, may be exchanged for 1919 War Savings Stamps upon the payment of the few additional cents which represent the difference between the price of a War Savings Stamp and \$4, the value of the sixteen Thrift Stamps. This difference is 12 cents in January, 13 cents in February, 14 cents in March, and so on.

Purchasers of 1919 War Savings Stamps should bear in mind that 1919 War Savings Stamps are to be affixed only to 1919 War Savings Certificates. Although one may have a 1918 War Savings Certificate (a War Savings Certificate is the parchment on which War Savings Stamps are affixed) which has some blank or unfilled space on it, such 1918 Certificate should not have 1919 War Savings Stamps pasted on it; nor should 1918 War Savings Stamps be placed on the new 1919 War Savings Certificate. Keep the two years separate.

Frank M. Smith, Federal District Director of War Loans and Savings, has issued earnest requests to the public to note carefully the few simple directions outlined. He also pointed out recently that should a person be in doubt about any of the details of War Savings methods a word to the local secretary of the War Savings Society or any postmaster will insure the matter being made clear.

All War Savings pledges made in 1918 are personal, binding obligations made to the Treasury Department, and the Government expects the completion of all 1918 pledges by the purchase of 1919 War Savings Stamps.

The American people have learned to make their savings count for them. The War has taught them the lesson of Thrift; the real joy of saving is theirs forever if they keep in mind the knowledge of economy gained through the investment in United States Government securities. Buy War Savings Stamps and the joy of saving is yours.

**CITATION BY PUBLICATION.**

The State of Texas. To the Sheriff or any constable of Nacogdoches County—Greeting:

You are hereby commanded to summon Fred Salesas by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the district court of Nacogdoches county, to be held at the court house thereof, in Nacogdoches on the 2nd Monday in February, A. D. 1919, the same being the 10th day of February, A. D. 1919, then and there to answer a petition filed in said court on the 23rd day of January, A. D. 1919 in a suit, numbered on the docket of said court No. 566, wherein Mary Salesas is plaintiff and Fred Salesas is defendant, and said petition alleges that plaintiff and defendant were legally married on or about the 24th day of June, A. D. 1915 and continued to live together as husband and wife until on or about the 30th day of June A. D. 1915 at which time defendant abandoned this plaintiff without just cause or provocation since which time they have not lived together as husband and wife.

Plaintiff says that defendant abandoned her permanently and by reason of said abandonment and the actions and conduct of defendant towards her generally renders her ever living together insupportable and that more than three years have elapsed since said abandonment and plaintiff pleads the statute of three years abandonment for a dissolution of said marital contract which still exists.

Wherefore plaintiff prays that the defendant be cited to appear and upon a hearing hereof she have judgment dissolving said marital contract which still exists, for cost of suit and general relief.

Herein fail not but have before said court, at its aforesaid regular term, my write with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Nacogdoches, Texas, this 23rd day of January, A. D. 1919.

N. B. HALL, Clerk,  
District Court, Nacogdoches County.

**"Military Necessity"**

The Turk played the war game very much as his friend, the Hun, only more so. Here are two Armenian orphans. Their father was one of the thousands of Armenians butchered in cold blood as a measure of "military necessity", and when the entire Armenian population was later exiled to the desert by the Turk, the mother died of starvation and brutal treatment.

To save the lives of four million such refugees—Armenians, Greeks, and Syrians—the American people will be asked to give at least \$30,000,000. The week of February 3-10 has been set for the campaign in the Southwest.

Immediate Relief Necessary. These tragic stricken people of the Near East need food so badly that they fight for carcasses and garbage as for delicacies. That's hunger for you. To relieve the sufferings of the subject peoples of Turkey a nationwide campaign to raise \$30,000,000 will be conducted by the American Committee for Relief in the Near East. The dates of the campaign for the Southwest will be February 3-10.

**HISTORIC PRECEDENTS**

"Four thousand years ago Food Commissioner Joseph, in the land of Egypt, commandeered one-fifth of the wheat crop of Egypt each year for seven years and stored it in the cities nearest the wheat fields. His drastic action at that time saved the world from starvation.

"Two thousand five hundred years ago Nebuchadnezzar, King of Babylon, instructed that certain men whom he wished to have attached to his court be fed on king's food and wine to give them a well-nourished look. One of these men, named Daniel, persuaded his caterer that himself and friends could be better nourished on pulse and water, and requested that he make a test covering a sufficient length of time; the others to be fed on king's food and wine. The test showed that those who lived on pulse (lentils) and water were better nourished than those fed on king's food (luxury and wine).

"Two thousand years ago Bible history records the miracle of feeding five thousand with a few barley loaves and fishes. The people were commanded to sit in rows of 50 to the row, and the servers passed before each and gave to everyone his portion, so that all were served. It was an instance where a little food went a long way, and the fragments that remained were gathered up so that no food was wasted."—Hotel Monthly.
