END OF BATTLE NOW IN SIGHT

Washington, Oct. 29.—The end of the senate battle over the forty-six amendments written into the peace treaty by the Foreign Relations committee seemed in sight today, leaders hoping that a vote on the last of the group could be taken today or tomorrow.

An amendment was presented by Senator Moses, republican, of New Hampshire, and would exclude all British dominions from voting in any League of Nations controversy to which one of them was a party.

RECEIPTS FROM OIL TAX LESS THAN LAST QUARTER

Austin, Texas, Oct. 29.—Third quarterly payments of the production tax on oil are due during the month of October, according to a statement by the comptroller.

J. B. DuPriest, who has charge of the collection of this tax, said that he expects receipts for this quarter to be somewhat less than they were for the last one, because reports indicate a decrease in oil production.

Receipts for the preceding quarter approximated \$612,000, at the rate of 1 1-2 per cent of production.

ARMISTICE DAY MAY BE PEACE DAY

London, Oct. 29.—The German peace treaty may become effective on the anniversary of Armistice day. Cecil Harmsworth of the Foreign Office said in the house of commons today that the government hoped the treaty would be formally ratified on November 11.

WILSON VETOES PROHIBITION BILL

Washington, Oct. 27.—President Wilson today vetoed the prohibition enforcement bill.

PASS BILL OVER WILSON'S VETO

Washington, Oct. 28.—The senate passed the prohibition bill over the president's veto and war-time prohibition becomes effective when the presiding officers of the senate and house sign.

(The house last night passed the bill over the president's veto by a vote of 176 to 55.)

EFFORTS TO REPASS BILL OVER PRESIDENT'S VETO

Washington, Oct. 28.—Efforts to pass the prohibition bill over the president's veto were made soon after the senate convened today. Several democrats objected and a long parliamentary wrangle over the rules followed.

WILL ENFORCE DRASTIC LAW

Washington, Oct. 29.—Armed with the drastic provisions of the prohibition enforcement act, which became effective as to war-time prohibition with the passage by the senate of the measure over the president's veto yesterday, revenue agents today took up sale of liquor.

The few remaining saloons in the United States are legally open today for the sale only of beverages containing less than 1 1/2 per cent alcohol.

Despite its drastic provisions the law could not touch a man who had stored a supply in his own home for his own use.

PROSPERITY IN WEST TEXAS

Austin, Texas, Oct. 29.—Fred W. Davis, commissioner of agriculture, who has just returned from a trip over West Texas said, that grazing is the best he has ever seen, but that re-stocking since the protracted drouth is being done slowly because of the disinclination of the bankers to lend money for the purchase of breeding cattle. Ample loans on steers are available.

Cotton crop in the section west of Coleman, Mr. Davis reported, will average one-half bale per acre, the best the section has ever known. Cotton in the irrigated valleys of West Texas also is exceptionally good, according to Mr. Davis.

WHAT COTTON SEED OIL PRODUCER WILL GET

Austin, Texas, Oct. 29.—A ton of cottonseed, according to an estimate made by the state department of agriculture, will give an average yield this year of \$86.35 worth of products to the oil mill man at present prices.

The detailed estimate is as follows: 500 pounds of oil, \$48; 1,000 pounds of meal, \$33.50; 470 pounds of hulls, \$1.85; 100 pounds of linter, \$3.00, and 130 pounds waste.

The oil production, which was low during the past few years on account of the extended drouth, is considered good this year by the department of agriculture.

STILL HOPEFUL SETTLING STRIKE

Washington, Oct. 29.—Fuel Administrator Garfield discussed the threatened strike of bituminous coal miners today with Secretary Tumulty at the White House. He was summoned from Williams College, of which he is president.

Garfield, who still has authority to function as fuel administrator, said he was in close touch with the strike situation and expressed confidence that a settlement would be reached without a walk-out of the miners.

WEIGHTY QUESTION BEING CONSIDERED

(By Associated Press.) Indianapolis, Ind., Oct. 29.—Executives of the United Mine Workers of America met here today to take to final action on the President Wilson's appeal that the nation-wide strike of bituminous coal miners November 1 be called off.

With but sixty hours longer before the stoppage of production of the nation's fuel supply, the meeting assumes the character of a most weighty one, and out of it will probably come the final word of the miners' situation.

NO DECISION ON WAGE DEMAND

Washington, Oct. 29.—Director General Hines has not reached a decision on the wage demand of the Brotherhood of Railway Trainmen. Details of the recommendations made by the Board of Railway Wages were discussed today by officials of the Railroad Administration with President Lee and the union strike committee to develop how the recommendations would work in practical application.

N. Y. DRUG CLERKS TO GO ON STRIKE

New York, Oct. 28.—A strike that will vitally affect New York's millions was voted early today by representatives of 4,500 drug clerks, the date to be determined by the union's officers.

SCHOOL STUDENTS THREATEN STRIKE

Belleville, Ill., Oct. 28.—Demands that a "high school soviet" be established here were made in a memorial to the high school board by students in the Belleville township high school. The memorial states that if the demands are not met by November 1 the students will strike. They demand a six-hour school day, Friday afternoon holiday, a minimum passing grade of 50, teachers under 25 years old, pool tables and phonographs in the recreation rooms, free lunch to senior students and that all regulations originate with the students' council.

TO REDUCE PRICE OF MEAT

Woodward, Okla., Oct. 27.—With the object of bringing about pre-war conditions of meat eating and to make it possible for consumers to purchase more meat at cheaper prices, cattlemen of Oklahoma have perfected an organization, with headquarters in this city, and plan to begin work immediately.

The movement is fostered by J. A. Whitehurst, president of the Oklahoma Board of Agriculture, and cattlemen of the entire southwest will be asked to join in the campaign. With a gradual increase in meat eating, in the opinion of Mr. Whitehurst, lower prices will finally come. This, he thinks, will also be reflected in the price of hides, and eventually affect the cost of shoes. There is plenty of meat, according to Mr. Whitehurst, but more of it must be consumed, else the producing side will suffer a setback, which, in turn, will discourage future production.

"The cattlemen are checking the matter of prices squarely up to the packers," said Mr. Whitehurst. "They are willing to meet him half way in offering a solution of present high prices and share with him a part of the profit he is getting. Cattlemen believe it the packers' duty to see that producers get cost plus a reasonable profit; and that the consumer receives the product at a reasonable price, less a reasonable profit to the producer."

Benton Kelly of Douglass was in the city yesterday.

DELEGATES FROM THIRTY NATIONS

(By Associated Press.) Washington, Oct. 29.—More than thirty nations are represented here today for the opening of the International Labor Conference created by the treaty of Versailles for the improvement and standardization of labor conditions throughout the world.

Today's program called for addresses by Secretary Wilson and John Barrett, director of the pan-American Union.

The dispute over the admission of the German and Austrian delegates was also considered.

THE JAPS AND RUSSIANS FIGHT

London, Oct. 29.—Siberian peasants are fighting Japanese troops in the trans-Baikal and Amur regions. The Third Japanese division, according to a wireless message, suffered severely and was replaced by the fifth division.

LABOR AND CAPITAL IN INTERNATIONAL LABOR MEET

Washington, Oct. 29.—Representatives of labor and capital in the United States will participate unofficially in the International Labor Conference which opens here today, and Secretary Wilson of the Labor Department, who called the conference to order, will be named president.

MARRIAGE IN HIGH LIFE

Luxemburg, Oct. 29.—Grand Duchess Charlotte of Luxemburg and Prince Felix of Bourbon-Parma will be married here November 6.

YELLOW FEVER IN NICARAGUA

San Salvador, Oct. 29.—Guatemala has placed quarantine on all steamers from Corinto, Nicaragua, because several cases of yellow fever have been reported from the latter place. The task of making absolute the ban upon the manufacture and sale of liquor.

EDUCATIONAL AMENDMENT SHOULD BE ADOPTED

Austin, Texas, Oct. 29.—Miss Annie Webb Blanton, State Superintendent of Public Instruction, is deeply interested in seeing the proposed educational amendment to the constitution adopted. She has just issued the following statement:

"To the voters of Texas: Among the measures upon which the people of our state are to pass judgment on the fourth of November is one to which no reasonable objection can be offered. The resolution seeking to amend the constitution by a provision separating the University and the Agricultural and Mechanical College and fixing the status of all state institutions for higher education and vocational instruction should have the support of every citizen of Texas. Progress of these state institutions means opportunity for Texas boys and girls.

"It was the hope of our forefathers who fought for the independence of Texas that our state should found educational institutions second to none in the land. When we force our boys and girls to seek in other states training which our own cannot offer, not only are we doing them an injustice, but we are showing ourselves lacking in patriotism and state pride.

"Our public school system, from the kindergarten to the university, is one system. The welfare of each part of it is more or less dependent upon the progress of all parts. This measure will be of inestimable value in the future development of these institutions, in which every loyal Texan should feel a pride. I earnestly request that you vote for this measure on the fourth of next November.

"Respectfully,
"Annie Webb Blanton,
"State Superintendent of Public Instruction."

TEXAS RAILROADS BEAT COAL SHORTAGE

Austin, Texas, Oct. 27.—A coal shortage arising from the impending miners' strike would affect Texas least of all the states, according to Allison Mayfield, railroad commissioner. Practically all the important railroad lines in Texas, he said, use crude oil for fuel, and considerable traffic could be maintained without coal.

UNION JANITORS THREATEN STRIKE

Chicago, Oct. 23.—The Chicago Real Estate Board is considering a demand from the flat janitors' union for a 70 per cent wage increase, an eight-hour day and the elimination of basement living quarters. A strike is threatened unless the demands are met.

THE HOME OF SATISFACTION

WEEKLY SENTINEL

BY GILES M. HALTOM

Don't lie to your wife—she'll catch you at it.

All is fair in love and war and prof. steering.

Dallas Feazell says that his brothe, Charlie, is improving nicely.

Mr. Tipps of New Hope was in the city yesterday shopping.

Why is it that a big wheat crop doesn't shorten the bread line?

Remember that the things you say when you are out of sorts sometimes take a long time to heal.

When inclined to cuss this country for your tough luck, sit down and think about moving to Europe.

We can look back and see that a lot of friends of the working man never did any work themselves.

Mr. Charlie Feazell, who has been sick for some time, was reported to be doing better yesterday.

Rupert Craddock of Maytown left yesterday for North Carolina, where he will visit friends and relatives.

Fat people are willing to do anything to reduce their weight except to eat less and take exercise.

Poets must surely be born instead of made, because nobody would be foolish enough to make one.

For the life of us we can't see much difference between democratic hard times and republican hard times.

One man complains that his wife is always cross, and wants to know what the remedy is. There ain't none.

George Wasington and Carrie Nation achieved fame with a hatchet, but nobody ever did with a hammer.

The prisoners in the penitentiaries get turkey for Thanksgiving, while many out of jail get liver and onions.

There are a good many more or less all-seeing eyes here on earth also, and some of them are accompanied by all-waging tongues.

Most of this talk about the dignity of labor is made by the fellow seeking a political job to which there is no labor attached.

Ford says he has hit upon a device which will make the aeroplane fool-proof. Then why doesn't he attach it to his auto?

Now what is it, anyhow, that a fool rooster finds to crow about at midnight and again at 3 or 4 o'clock in the morning?

A Georgia senator, objecting to woman suffrage, says Jesus did not have any women among his disciples. He didn't have any senators, either.

The queen bee lays 200 eggs a day, and if the hen would be wise she would go to the bee and consider her ways.

One great trouble with many people who get on easy street is that they soon get to thinking they own the whole street.

The skirt that was split clear up above the pocketbook has passed into history. And there are a lot of other things to be thankful for, too.

The pastor of a fashionable New York church has set aside two pews for the chauffeurs who drive his parishioners to church. He must think chauffeurs have souls.

If we stay out of the League of Nations, as some of the senators advise, on account of the Shantung matter, wouldn't Japan then get Shantung anyhow? It certainly would.

Army bacon is quoted at \$3.75 for 12-pound can. There are people in this community who will give \$12 for a \$3.75 can if you will let them designate the contents.

Coffee and breakfast-food demonstrators go a good deal on the fact that most anything tastes good with plenty of sugar and cream on it.

A New York woman paid \$900 for a pair of shoes. The dispatch says she had crippled feet, but doesn't say what was the matter with her head.

PRICE OF NEWSPAPERS

From far-away Seattle, Washington, comes the news that the Daily Times of that city has increased its price to \$2 a month, \$24 a year, with Sunday edition price 25 cents per copy. An exchange, in commenting upon this, remarks that such a price is prohibitive—but is it?

If a thousand other prices on various things paid every day by the people are right, or anywhere near right, then \$2 a month for a good paper is none too much.

They pay more than that for electric light, instead of burning a lamp. They pay more than that for riding on the street cars instead of walking. They pay more than that for going to movies. They pay ten times that much for keeping up an automobile. Why, then, should they not be willing to pay \$2 a month for practically all the education and information they get?

There is no commodity upon the face of the earth today so cheap as a newspaper. As a general rule the reader does not pay the cost of the white paper used in its construction, much less for the work of compiling, editing, newsgathering, printing and hundreds of other things which enter into the expense account. They get all the news of the whole world, printed and delivered at their doors morning and evening, for two or three cents, and it is all wrong and would be a huge joke if it were not so serious to the publisher. The same applies to the weekly paper in proportionate degree. People have been given a whole encyclopedia for a few pennies and now they expect just that, and then often roar because it is not enough.

They pay a nickel for one egg, but pay but half that amount for a newspaper. Note this comparison: Shoes, \$10 to \$15 a pair; best bacon, 70 cents a pound; sliced boiled ham, 90 cents a pound; \$10 a pint—NEWSPAPERS TWO CENTS. Can you beat it?

A good daily newspaper, delivered at the home, is worth \$2 a month, in comparison to all other prices being paid, and we only wish we had the nerve to emulate the very good example of the Seattle Times. It is right, and the rest of us are wrong.

PRETTY GOOD SIGN

The city of Waukegon, Illinois, has a number of signs placed in conspicuous places, that we rather like. This is the way they read:

"This is an American City—Its People Believe in America. If You Don't Like This Country and Can't Keep from This Country and Can't Leave Government—Why, Leave It and Go to Your Own Country."

"If You Haven't Got Any Country, Then Go to H—!"

GOOD ADVICE

A pessimistic friend is of the opinion that the streets of Nacogdoches will be paved with good intentions—which will be almost equal to pine blocks.—Nacogdoches Sentinel.

Get him to join your Chamber of Commerce, and help to better the streets, not with good intentions and not with pine blocks.—Lufkin News.

The senators who have been tearing their hair over Shantung have fooled nobody. There's not a man in this country who cares a rap what becomes of Shantung—not even those who are doing the ranting.

The various currency laws passed from time to time, as one administration after another saves the country, seems to all be in favor of the fellow who has the currency.

King George of England opened parliament the other day with "much éclat." You can't open anything worth while in this country with one king. It takes two jacks or better.

ASPIRIN FOR HEADACHE

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Headache, Colds, Pain, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Mononitro-sulfonamide of Salicylic acid.

CIVIC IMPROVEMENT

By obtaining the services of George E. Kessler, as consulting community planner, the Texas Chamber of Commerce is thought to have made a great step toward enabling small towns and cities to obtain the advices and suggestions of one of the foremost experts of the day. Mr. Kessler will co-operate with the civic department of the state chamber in devising plans for the various communities in the state.

With the constant growth and increase in population, most communities are confronted with problems that can only be dealt with by those versed in the most advanced methods of the day. Lack of adequate housing facilities is one of the greatest of all present-day problems, many communities, Nacogdoches among them, being handicapped through inability to care for the present or prospective inhabitants.

The creation of proper surroundings is another essential entering into the symmetrical development of the community. Parks, playgrounds and other public means of diversion and recreation must be taken into consideration by the thoughtful community. Sanitation and suitable locations for industries must receive major attention in the completed whole.

Through the knowledge and assistance of Mr. Kessler the state chamber now is in position to render efficient service to any community in Texas desiring to better its condition. A careful consideration of a given situation will enable a community to work out and carry into execution the best possible plan for its development.

DESPITE FORMER SNUB CARNEGIE LEAVES COMPETENCY

London, Oct. 24.—John Burns' many friends have been almost as much surprised as gratified that Andrew Carnegie should have left him 1,000 pounds a year, for Burns once refused to shake hands with Carnegie. Moreover, Burns was very proud of having done so and fond of telling it. It happened in the precincts of the House of Commons in the days before "Honest John" had accepted the responsibilities of a ministerial office and was still an untamed Socialist.

Mr. Carnegie was being shown through the House of Commons by some distinguished English friend. In the lobby John Burns was encountered and Carnegie's attention was directed to him. As Burns used to tell the story of their meeting Carnegie stepped up to him smiling and with outstretched hand and said, "Andrew Carnegie offers his hand to John Burns." To which Burns replied "John Burns refuses to take the hand of Andrew Carnegie" and turned his back on the multi-millionaire.

Burns had said many violent things against capitalists. There is no doubt that Carnegie had a sincere admiration for Burns as a self-educated and self-made man. And possibly in later years Burns changed his opinions concerning Andrew Carnegie.

WOMEN MAY VOTE IN PRIMARY

If the law is not held invalid, the women of Nacogdoches county, if they comply with the law otherwise, will be permitted to vote in the primary elections of next year. Last year the women could vote if they registered. To vote next year, you will have to pay a poll tax, as men have had to do for a number of years, in order to vote.

Now, since this privilege is granted, I think it would be advisable for the women of the county to comply with the law, pay the poll tax, in order that you may exercise this privilege, if you care to. I would say this, too, regardless of how you stood individually heretofore as to whether or not you thought women should be granted this privilege; as you cannot tell what might arise in the near future, even as early as next year, that might cause you to always regret it if you failed to exercise this right. It is no more trouble than it was last year—just a little more expensive. Last year you had to register, you had to go to that trouble. This year you will have to pay or have paid the tax. In incorporated towns it will cost you \$2.75, being \$1.75 for County and State and \$1.00 for City. If you live outside of incorporated towns it will cost you only the \$1.75. This can be paid at any time from now on until the last day of January, 1920. Of course, it is less trouble to pay now, as you would avoid the rush of the closing days of the time.

I write this because I believe that some, regardless of their opinion on this issue, might not want to overlook this matter.

Yours respectfully,
L. G. King, County Attorney.

EASES A COLD WITH ONE DOSE

"Pape's Cold Compound" then breaks up a cold in a few hours

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery. The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and sniffing! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!

Examination for Enumerators

The following from District Supervisor J. W. Shotwell will be of interest to those contemplating applying for positions as local enumerators in the coming census:

The examination for census enumerators for Nacogdoches county will be held at College building on Wednesday, October 29th, at 9 a. m.

It will be necessary that applicants be right on the dot, for I leave on the noon train for Lufkin to hold examination at 2 p. m. I will arrive in Nacogdoches on the night of the 28th and will likely stop at the Redland Hotel.

Very sincerely,
J. W. Shotwell,
Supervisor.

Mr. Nash of Lufkin was in the city yesterday on his way to Center. He said he liked 'Doches fine.

"SYRUP OF FIGS" IS LAXATIVE FOR CHILD

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Girls! Your hair needs a little "Danderine"—that's all! When it becomes lifeless, thin or loses its lustre; when ugly dandruff appears, or your hair falls out, a 35-cent bottle of delightful, dependable "Danderine" from any store, will save your hair, also double its beauty. You can have nice, thick hair, too.

7TH TEXAS CAVALRY OFFICERS VISIT HERE

The local cavalry was honored yesterday by Col. R. C. Williams, instructor and inspector of the 7th Texas Cavalry, Lieut. Col. J. E. Sullivan and Col. Billie Mayfield of Houston who were up here inspecting the local cavalry's stables, and making preparations for the sending of 82 horses here for the local cavalry's use.

The officers were well pleased with Nacogdoches, and stated that they were real proud of the part Nacogdoches had done in helping win the great war.

"Nacogdoches should have and support a local cavalry. It will be a thing that will stand her in good many times when she is least expecting it," was the comment made by Col. R. C. Williams.

Mayor Edgar Thomason was showing them over the city, and introducing them to everybody. They were obviously delighted with Nacogdoches and minced no words in saying so.

The trio left for Houston last night from which point they will go to other places.

COTTON SELLS FOR HIGH PRICE

J. A. Stone this morning sold a bale of cotton and the seed therefrom for \$283.80. The bale weighed 650 pounds and was bought by Thomas & Richardson at a price of 39½ cents per pound. The value of the seed was \$27.80.

Foley's Honey and Tar Compound

IT IS JUST WHAT CHILDREN ought to have for feverish colds, coughs, "snuffles," and that tight, wheezing breathing. It stops croup, too. It cures and checks whooping cough, measles cough and bronchial coughs.

Every User a Friend
"My little girl had been having the croup every few nights, so I began giving her a few drops of Foley's Honey and Tar every two or three hours. That night she slept well, never coughed any, and next day her cold was gone."
Mrs. R. M. Ranley, Stanford, Ky.

"My three children had a very severe attack of whooping cough. The first few doses of Foley's Honey and Tar gave them great relief, and it did them good."
Mrs. E. C. Hooper, Grand Island, Neb.

Foley's Honey and Tar has been used for more than thirty years in thousands of homes for relief from coughs, colds, spasmodic croup, tickling throat, hoarseness, whooping cough, bronchial coughs and the coughs that follow influenza or la grippe.

BILLIE MAYFIELD HERE YESTERDAY

There was a real Colonel in the town yesterday, and who do you suppose it was? None other than the famous Col. Billie Mayfield of Houston, who used to write Billie's Chronicals in the Houston Chronicle.

Billie—it does not seem right to have to call him "Col." although he is a full fledged one—had a smile on his face that denoted his genuine satisfaction with 'Doches. Well built, fearless of eye, with a warm hand clasp, Billie had indeed a handsome appearance.

He arrived here yesterday on the 10 o'clock Houston train for the purpose of inspecting the local cavalry stables. There will be sent here about 32 horses in the near future for the local cavalry, and Col. Mayfield's presence here was to find out just what kind of reception the animals would get. He was well pleased with everything, and complimented Nacogdoches very highly. He left here last night for Houston, his home.

He holds a colonelship in the Texas National Guard.

UNCLE SAM EDUCATES NACOGDOCHES CO. SOLDIERS

Grateful to the Texas boys who made such a record in their great battles against the Huns, the government has selected all those who received disabilities, constituting a permanent handicap, and will send them to colleges, schools and mechanical institutes.

From the office of the Federal Board for Vocational Education at Dallas the following list of Nacogdoches County boys has been given out as approved for training. All veterans who were disabled through their military service, who have no applied to the board, should not lose any time getting in touch with the nearest vocational officer:

- Henry M. Cornelius, Sacul, Texas A. & M. College, College Station.
- Merle Evans Dongean, Cushing, University of Arizona, Tucson, Arizona.
- John B. Mayfield, Cushing, Texas A. & M. College, College Station.
- Hershall D. Pierce, Nacogdoches, Tyler Commercial College, Tyler.
- Joseph D. Wade, Attoyac, Grubbs Vocational College, Arlington.

"KILL-JOYS"

Constipation, Headache, Colds, Biliousness ended with "Cascarets"

Nothing takes the joy out of life quicker than a disordered liver or waste-clogged bowels. Don't stay sick, bilious, headachy, constipated. Remove the liver and bowel poison which is keeping your head dizzy, your tongue coated, your breath bad and stomach sour. Why not spend a few cents for a box of Cascarets and enjoy the nicest, gentlest laxative-cathartic you ever experienced? Cascarets never gripe, sicken or inconvenience one like Salts, Oil, Calomel or harsh pills. They work while you sleep.

WHY is it that more and more smokers (millions now) are getting together with Chesterfields?

First of all, fine tobaccos. Our own buyers in the Orient send us the pick of the finest Turkish varieties (Xanthi, Cavalla, Smyrna and Samsoun). We blend these by a secret method with specially choice Domestic leaf.

This method brings out new qualities of flavor—a smoothness, a richness, a mellowness that go right to the spot. That's the reason Chesterfields satisfy.

And remember—"Satisfy" is Chesterfield's secret, based on our own private formula, which cannot be copied.

Every package has a moisture-proof wrapping—another reason for Chesterfield's unchanging quality of flavor.

TWO MEN SHOT BY OHIO POLICEMAN

Youngstown, Ohio, Oct. 23.—Two men were shot by the police in a fight here today when officers attempt to arrest several foreigners suspected of firing the home of a mill worker.

WILSON HOPEFUL INDUSTRIAL PEACE

Washington, Oct. 23.—From his sick-bed in the White House President Wilson today dictated another letter to the National Industrial Conference. He was said to have urged the conference to proceed without the representatives of labor in a final effort to frame a program looking to the re-establishment of industrial peace. Department of Labor officials favor further action by the public representatives in the hope that a program originating with that group may be acceptable to labor.

LABOR WITHDRAWS FROM CONFERENCE

Washington, Oct. 23.—Interest centered today upon the effect the withdrawal of the labor group from the National Industrial Conference would have on the conference as a whole. Indications were that the conference, called by president Wilson to create a better relationship between industry and labor, would be continued with employers and public groups in attendance.

COAL MINERS MAY GET MOST DEMAND

Washington, Oct. 23.—The action of miners and operators today on the proposal of Secretary of Labor Wilson for a settlement of their differences will determine the future course of the government in its effort to avert a strike of coal miners on November 1. The first proposal would grant the miners increased wages, but would ignore the union demand for a thirty-six hour week.

TEXAS GRAIN CROP TO BE MOVED SOON

Austin, Texas, Oct. 23.—The prevailing instructions of the Federal Railroad Administration provide that when cars can be released at ports and primary markets preferential supply over all other requirements will be given grain, especially that upon the ground, according to a telegram to Gov. Hobby from Federal Director Hines today. The fullest co-operation by the railroad administration in the movement of the Texas grain crop will be given, said the message, which is a reply to one from the governor in which he stated that unless the Texas grain crop is moved promptly millions of bushels would be lost.

It is a foregone conclusion that a certain football team, now pridefully boasting and pluming themselves upon a recent accidental victory, will be beautifully trimmed in this city on Thanksgiving day.

GET READY FOR "FLU"

Keep Your Liver Active, Your System Purified and Free From Colds by Taking Calotabs, the Nauseless Calomel Tablets, that are Delightful, Safe and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, no griping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger. Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs.—(Adv.)

PLEA FOR THE ADOPTION OF PROPOSED AMENDMENT

Representing the voters, and their families, of the respective cities of Texas, of which each of us is Mayor, we join in this request to the voters of Texas to give careful consideration to and vote for the adoption of what is known as Senate Joint Resolution No. 20, giving the smaller cities of the State power to levy sufficient taxes to enable the City Governments to protect the health of the citizens and their families by providing a water works system, which will afford an ample supply of pure water and also a sewer system, which will relieve such cities as ours of a condition which has always been and still is a menace to the public health. All we ask is that the voters in the City put the health of himself and family ahead of a paltry few cents taxes, and since the farmer voters will not be affected by the adoption of this amendment, except indirectly as hereinafter explained, we appeal to them to vote for the adoption of this proposed Amendment.

To provide our cities with a pure water supply and sewer systems that are adequate, is the only means of combating epidemics of typhoid and malaria, which rage in our smaller cities at certain periods of the year, which are traceable directly to lack of pure water and inadequate sewer facilities. The State has provided niggardly for this class of cities, and this Amendment proposes only an increase of taxes in such cities, of ten cents (10c) for streets and bridges, and twenty-five cents (25c) for the combined purposes of water works, sewers, cemeteries, etc. These taxes are cheaper than physician's bills, and they are otherwise necessary if our City Governments function at all, as these cities are compelled to purchase materials and supplies in the open market as the individual or business man must do, and the price of machinery, materials, lumber and

steel have advanced more than 100 per cent on some of these articles, so that what was entirely too meager taxing power before the European War, is inadequate to more than supply half sufficient funds for these cities at the present time, and the adoption of this Amendment would put these cities, with reference to taxation, in about the same position they were before the war.

This proposed Amendment would authorize an increase of taxes for the maintenance of roads, but since such taxes could not be levied except by a vote of the tax-payers themselves, it is thoroughly democratic, and we appeal to the voters of all classes to vote for its adoption on November 4th.

All right, old man; rave on. But let it be forgotten, there is another game to be played, and it will be played Thanksgiving. It is going to be a day of moaning, dissatisfaction, and gnashing of teeth for 'Doches opponents, and they know it, too. We ain't calling no names.

PERFECTLY NATURAL

Keep your eyes peeled, folks. Two lunatics escaped from the sheriff at Nacogdoches the other evening, and at last accounts, were still at large. Naturally they are headed for Lufkin. Even a "nutty" nigger would seek congenial company.

CHAMPION POTATO PEELER

San Antonio, Texas, Oct. 27.—When it comes to peeling potatoes the old soldier who took the cuticle off a million during his first "hitch" has nothing on a San Antonio cafe worker who claims the record of having "manicured" 4,380 sacks of spuds in the last three years.

Jesus Gomez, the expert peeler who operates with machine-gun rapidity, says that his record shows a total of 18,815,000 potatoes peeled, being every variety known to the civilized world. Peelings from potatoes he has operated on, if cut into strips one-fourth of an inch in width, would reach around the world at the equator one and one-fourth times, Gomez estimates, as he says an average size potato produces a peeling nine feet long.

HORSE MARINES ARE NO LONGER A JOKE

Washington, Oct. 28.—The old joke about horse marines has gone into the discard along with the memory of Captain Jinks.

Nearly every marine is able to perform the duties of a cavalrman when the occasion demands, and mounted detachments of marines are now on duty in Haiti, China and elsewhere. The sea soldiers do some plain and fancy riding at their school of equitation, conducted by the marine corps at Quantico, near here, and students are given a course of lectures on horsemanship.

As a demonstration of their skill horse marines competed in the rodeo, held recently at San Francisco, and carried off several prizes.

THE AMERICAN LEGION

What is the American Legion of which so much has been and is heard recently and at the present? Is it a military organization? It most emphatically and most positively is not. Is it a political organization or machine? It most positively and emphatically is not. What is it?

The American Legion is a social and fraternal organization or society of AMERICANS who served in the military and naval forces of the United States or our allies during the period between the dates of April 6, 1917, and November 11, 1918, inclusive and who were honorably discharged therefrom and who are now fully restored to honorable citizenship in the United States of America. It is an organization in which only 100 per cent AMERICANS are wanted. Slackers, conscientious objectors, I. W. W.'s bolshevist, anarchist, radical, thugs, cutthroats, thieves, pessimists and malcontents are not wanted and are not tolerated.

The American Legion is a strictly civilian organization of American World-War Veterans, who have been honorably discharged from the military and naval service and who are once again citizens and civilians. There is positively no recognition of former rank and the man who was a buck private in the rear rank is just as good and has just as much influence as a former general or admiral. It is an organization of honorably discharged ex-service men who have formed themselves into a social and fraternal organization similar to the Confederate Veterans or the G. A. R. There are no distinctions between the North and the South or the East and the West. Every man of them believes that the United States is the best country on the earth and that the United States government is the best government on earth and it is the full determination of every man of the organization to make this country of ours a still better country with a still better government, a country and a government better than any other and second to none.

The constitution of the national organization of the American Legion explains the purpose of the organization in the fewest possible words. The preamble of the constitution reads thus: "For God and country we associate ourselves together for the following purposes: To uphold and defend the constitution of the United States of America; to maintain law and order; to foster and to perpetuate 100 per cent Americanism; to preserve the memories and incidents of our association in the Great War; to inculcate a sense of individual obligation to the community, State and Nation; to make RIGHT the master of MIGHT; to promote peace and good will on earth; to safeguard and transmit to posterity the principles of justice, freedom and democracy; to consecrate and sanctify our comradeship by our devotion to mutual helpfulness.

The American Legion is absolutely non-political and non-sectarian. It believes and declares itself for an absolutely one hundred per cent AMERICANISM; and under no circumstances will it lend itself to any party, sect, person or persons in the furtherance and encouragement of any ulterior, mercenary, questionable or dishonorable desire or interest of the same. Only in so far as any party, sect, person or persons openly align and conform themselves with the openly and publicly declared principles of the American Legion can they secure, even in the smallest degree, any benefit therefrom, the American Legion even then will not commit itself to any party, sect, persons, organizations, or person, nor will it give any aid to the same.

All men and women who served in the military or naval organizations of the United States or her allies in the Great War between the dates of April 6, 1917, and Nov. 11, 1918, inclusive, who were citizens at the time of their entry into such service and who were honorably discharged from that service and are now full citizens of the United States of America are eligible to membership and are urged to join and affiliate themselves as active members of the same for their own interests and the interests of our great and beloved country, the United States of America.

Rider M. Johnson.

MEANS WET SPELL

Washington, Oct. 27.—Interpretation of the veto in official circles was that unless congress repasses the bill over the president's veto or immediately enacts a similar measure which becomes law there will be a wet spell until national prohibition is held comes effective under the constitutional amendment in January.

NEW TEN COMMANDMENTS FOR FINANCIAL GUIDANCE

St. Louis, Oct. 25.—Ten commandments for the guidance of a man's financial life have been drawn up by a National Committee of bankers and others to aid in the great drive of 1920 against the cohorts of High Cost of Living.

This decalogue for the frugal man to stiffen his morale in a battle to save something from the profiteers and rent-raisers is part of the program for the National Thrift Week to begin January 17, next.

Plans for rallying the armies of money savers for the 1920 drive by holding this thrift week were approved by the American Bankers' Association in its recent convention in this city. The idea already had the endorsement of the United States League of Building and Loan Association National Federation of Construction Industries, Retail Credit Men's Association, National Association of Life Insurance Underwriters, National Credit Men's Association, the American Life Convention and other national bodies.

The ten commandments as recommended by Walter W. Head, of Omaha, vice-president of the National Bank section of the American Bankers' Association, are:

1. Make a budget.
2. Keep an intelligent record of expenditures.
3. Have a bank account.
4. Carry life insurance.
5. Make a will.
6. Own your own home eventually.
7. Pay your bills promptly.
8. Invest in war savings stamps and other government securities.
9. Spend less than you earn.
10. Share with others. Thrift without benevolence is a doubtful blessing.

The eight days of the National Thrift Week have been named after some points of the financial creed as follows:

Saturday, Jan. 17.—"Bank Day" or "National Thrift Day," to emphasize the need for individual thrift and the service a bank renders a community.

Sunday, Jan. 18.—"Thrift Sunday," with sermons in all American pulpits on the relation of economic life to religious well being and the need of sharing with others.

Monday, Jan. 19.—"National Insurance Day," to stress the need of protecting one's family.

Tuesday, Jan. 20.—"Own Your Own Home Day," to show why it is desirable and how it is possible to own your own home.

Wednesday, Jan. 21.—"Make a Will Day," to urge men to make wills.

Thursday, Jan. 22.—"Thrift in Industry Day," to advocate factory thrift and cooperation between capital and labor.

Friday, Jan. 23.—"Family Budget Day."

Reviving The Sheep Industry

Dallas, Texas, Oct. 27.—The sheep raising industry of Texas is experiencing a steady growth, according to J. M. Jones, chief of the division of animal industry of Texas Agricultural and Mechanical College, here recently.

Texas, which once ranked as the leading sheep producing state, now stands ninth in the list, according to Mr. Jones. He attributes this to the three-year drought in West Texas from which that principal sheep raising district of the state is now recovering.

"I estimate that while the drought was in progress about 250,000 head of sheep were shipped out of the dry regions," Mr. Jones said. "Sheep are now being raised on the farm extensively than formerly. It seems that the farmer has come to realize the value and profit attached to sheep raising, and all over the state farmers are taking a deep interest in sheep breeding."

"The growth and development of the industry is being encouraged on all sides and prospects are favorable for its ranking among the leading pursuits of the state within a few years."

ANTI-LEAGUE BILL GETS BLACK EYE

Washington, Oct. 27.—The Johnson amendment to the peace treaty proposing that the voting power of the United States in the League of Nations be increased to equal that of Great Britain and her dominions was rejected today by the senate. The vote was 88 for and 40 against.

SAYS DOCTOR ADVISED IT

Memphis Woman Is Relieved Of Twelve Years Trouble By Taking Tanlac.

"I have received more benefit from Tanlac than from any other medicine I have ever taken," said Mrs. C. R. Wreford, wife of the well-known ex-steamboat captain, and who lives at 881 N. Seventh street, Memphis, Tenn.

"For ten or twelve years, She continued, "I suffered from an awful case of indigestion. I had been troubled with a weak stomach from the time I was a girl and often suffered agonies from gas on my stomach, and twice I had terrible attacks of acute indigestion that nearly killed me. For weeks everything I would eat hurt me and even water would burn me like fire. Then I had an attack of the grip from which I recovered so slowly that I asked my doctor about trying Tanlac. He said, "Yes, try it; for it can't do you any harm."

"I had no appetite at all and was eating scarcely anything, but after taking two bottles of Tanlac my appetite picked up and I continued to improve right along, eating most anything I wanted without any inconvenience afterwards. I have never had the trouble with my stomach like I did before taking Tanlac, and it certainly helped me wonderfully and I can't help believing it is a great medicine." Tanlac is sold by druggists everywhere.

GALVESTON SHOULD BE ALLOWED TO TAX ITSELF

Galveston, Oct. 27.—A tax rate of only 6.10 per cent a year will be required to care for the proposed "protection" bond issue of \$4,000,000, to be voted on by the people of Galveston city at a subsequent election if permission is given Nov. 4 by the passage of the amendment to the state constitution which waives limitations regarding Galveston bond issues. A man owning property assessed in Galveston city or county at \$3,000 would pay \$18 a year for the further protection afforded his property—\$18 a year or a nickel a day.

If the constitutional amendment is adopted by vote of the people of Texas as the people of Galveston city and Galveston county will be permitted at a subsequent election to vote bonds in the sum of \$5,000,000, the county assuming \$1,000,000 worth of the bonds and the city \$4,000,000. Further protection of the island against the elements is the one aim and purpose issued.

The assessed valuation of city property soon will approximate \$50,000,000, and is upon that amount figures have been based showing just what the tax on property will amount to in event such a bond issue materializes. Galveston property has increased from \$17,000,000 to the present figure since 1901 and at least a proportionate increase is expected for the future. A further reduction in taxation would come with increased reality values.

Galveston property owners alone will bear increased taxation, nothing being asked of the state at large but permission to vote the bonds. Stress is being laid by advocates of the measure that opinion in Galveston is almost unanimous in favor of the amendment and that there should be no hesitancy on the part of voters at large to vote for the amendment to the constitution giving citizens here a chance to afford further protection.

"Following the 1900 visitation the assessed valuation was only about \$17,000,000 and yet bonds to the extent of 20 per cent of the assessed valuation were issued," said J. H. Langben, prominent Galvestonian.

"The city and county can well take care of the proposed issue of \$5,000,000 if the people of Texas will give us that constitutional right. It is to be borne in mind that the original protective measures here required seven years for completion, from 1904 to 1911. The proposed new work probably would require a period of five years and it would not be necessary to dispose of all the bonds at the very time the contract for actual work by which bonds could be disposed of from time to time as the work progressed. As the work progressed the property values would increase and cost to taxpayers would accordingly decrease."

TO PROSECUTE ALL WHO'D OVERTHROW GOVERNMENT

Washington, Oct. 28.—Persons exhibiting the red flag or advocating the overthrow of the government would be subject to federal prosecution under a bill ordered favorably reported today by the senate judiciary committee.

NEW AUTO SEALS COMING.

Austin, Texas, Oct. 27.—The state highway department now is sending out 400,000 automobile seals and supplies to tax collectors of Texas for 1920.

The new seals are square instead of round and bear a serial number prominently displayed. When the new seals come into use, each automobile will carry two numbers—the seal number which may change from year to year and the car number plate is considered a permanent part of the vehicle.

Printed lists of seal numbers furnished to each county will be furnished every peace officer in the state. These seals are sent in numerical lots to counties in alphabetical order, and by this means adjacent counties will, in most instances, have widely different seal numbers. For instance Dallas county gets numbers from 68,251 to 86,000, while Tarrant county seals run from 303,026 to 323,025.

This is the first time the highway department has been able to distribute these seals, which are in reality a receipt to show that the automobile tax has been paid, in time for tax collectors to collect the automobile tax and give the seal and receipt for the coming year at the same time he collects other taxes. R. M. Hubbard, chairman of the commission, is of the opinion that this will be much more convenient to the tax payers than in former years.

With more than 300,000 motor vehicles registered during the first three-quarters of 1919, highway officials believe that it may be necessary to supplement the 400,000 seals provided for 1920. They point out that it is possible that a number of automobile owners escaped registering their cars this year by securing

a seal from some source, possibly theft. The seals have no individuality, and this is possible. But with the numbered seals this practice will be largely checked because each individual seal will have a record.

Another feature of the distribution of these seals and receipts which go with them is the fact that the highway department is sending them over the state in motor trucks instead of relying upon express or freight.

The first shipment by truck was made from Austin to Wichita county, and records of the trip show this method of transportation to be cheaper than express and faster than freight.

Other trucks are now on their way to different counties, and accurate records of these are expected to give valuable data upon the efficiency of the truck as a transportation medium.

EX-SOLDIERS TO ACT AS CENSUS SUPERVISORS

Washington, Oct. 25.—Sixty-four former soldiers and sailors have been appointed supervisors for the Fourteenth Decennial Census, according to an announcement issued today by the Bureau of the Census.

"The Census Bureau was particularly glad whenever it found a former service man for the job of supervisor," announced Director of the Census Sam L. Rogers. "Most of the applicants who qualified, however, were men of more mature age and of broader experience than the majority of soldiers and sailors."

Three women appear on the list of supervisors, one having been appointed to serve in the State of New York, one in Texas and one in Nevada. This is the first time in the history of the Census Bureau that women have been selected to fill these positions.

Of the 372 supervisors chosen approximately 100 are lawyers. Ex-service men come next in numbers and editors rank third with more than 40 appointments. Farmers are represented with about 25, while educators, numbering 20, run the farmers a close race.

Several physicians have undertaken the task of collecting Uncle Sam's statistics, and likewise a great many business men.

Each supervisor appointed had to undergo rigid tests as to his fitness for the position, especial stress having been laid on character and experience.

"No man was appointed a supervisor for the Fourteenth Census," said Mr. Rogers, "until every possible guarantee was given as to his ability and honesty. Character was at all times the leading and predominating consideration with the Census Bureau in every appointment made."

"NO OTHER CHILL TONIC Ever GIVE SUCH SATISFACTION"

Is How Oklahoma Man Endorses Swamp Chill Tonic.

Mr. Harve Smith of Halleyville, Okla., tried various chill tonics, but found nothing that equalled Swamp Chill and Fever Tonic. He says this famous remedy never failed to cure his chills.

Thousands of others who once suffered from malaria, ague and similar ailments praise Swamp Chill Tonic as strongly as Mr. Smith. For 20 years it has been the one never-failing remedy.

Swamp Chill Tonic acts quickly and surely. It seldom takes more than three days to break up chills. And no purgative has to be taken with it—the medicine itself acts gently and agreeably upon the liver and bowels.

There is no calomel in Swamp Chill Tonic—nothing but pure vegetable ingredients and iron. It is tasteless, and pleasant to take. Numerous physicians prescribe it regularly—they know it is the best remedy there is for malaria, ague, chill, fever, colds, grippe, etc.

Dealers everywhere recommend and sell Swamp Chill Tonic. The price is 60 cents. Try a bottle.

T. E. Burgess bought at the Shreveport fair some fine Jersey cows and D. M. Kelley of Douglass bought some white O. I. C. hogs, and County Demonstration Agent J. D. Greer purchased some extra fine corn, according to Mr. Greer yesterday. This looks mighty good and shows that the people are beginning to wake up to the needs of better and better things.

The injured man was given prompt medical attention, which very probably saved him from serious complications.

WHY YOU SHOULD PLANT THOMAS CORN

When we have but little rain, Thomas corn makes some corn at least; when we have floods, as we have had this year, the shuck on Thomas corn protects it from the weather and the water does not get through and ruin the grain, and when you can weigh 72 pounds of ear corn with the shuck off and shell out 66 pounds of corn, will it not pay to plant Thomas corn?

Red what a few of our farmers say about Thomas corn:

"I have planted Thomas corn for the past 15 years in Bee county and with the exception of one year have had corn to sell."—G. O. Kennedy, Skidmore, Texas.

"I have raised the Thomas corn for the past 26 years, and find it to be one of the best drought resisters that I have ever planted, and as long as I continue to farm, I will always plant the Thomas corn, if possible to get the seed. Weevils bother this corn less than any other."—S. A. Wofford, Beeville, Texas.

"I have lived in Bee county for the past forty-five years, and have farmed some all that time, and have planted the Thomas corn for the past 25 years, and will say that it is the best corn for either dry or wet countries. The cob is very small with a deep grain, and it makes the best bread of any corn I have ever ground. You will never regret planting the Thomas corn."—A. J. Scott, Beeville, Texas.

On account of so much corn being ruined there is going to be a very great demand for the Thomas corn, where it is known, and if you will send in your order at once I will make you a price of \$4.50 per bushel, delivered at your station, in two-bushel lots, or more; all hand-picked and shelled. Will hold your order as late as January 15th, but must know how much you will want in order that I may have it on hand at that time. Don't put it off; order TODAY.

R. B. Jones, Beeville, Texas.

COUNTY BONDS SOLD TODAY

The county commissioners met this morning and concluded the sale of the \$300,000 of county road bonds voted by the people of Nacogdoches county and approved by the attorney general's office some time ago. A slight technical obscurity caused the former bidders to cancel their agreement to take the bonds, and further bids were sought.

The purchasers at today's meeting of the commissioners was the National City Company of New York, and a premium of \$20,400 was paid for the securities, together with accrued interest to date of delivery. This bid was practically the same as that formerly made for the bonds, except for about \$18,000 of additional accrued interest.

The making of roads throughout the county will begin as soon as the details of the work can be arranged.

W. A. NELSON

To the Chancellor Commander and Brethern of Lanna Lodge No. 106 Knights of Pythians:

We, your committee appointed to draft resolutions on the death of Brother W. A. Nelson beg leave to submit the following:

Brother Nelson departed this life on the 1st day of October, 1919. Resolved:

1. That in the death of Brother W. A. Nelson this order has lost one of its most useful members, and the entire community one of its best citizens, and the wife and children a devoted husband and father.

2. That we humbly submit to the will of Almighty God, praying that the comforting presence of the Holy Spirit may abide and sustain the bereaved family and friends of our departed brother.

3. That we will endeavor, by the help of God, to emulate Brother Nelson's spirit and example, and work to carry forward in our hearts the work of this order which he loved and served so well.

4. That a copy of these resolutions be spread upon our Minutes a copy be furnished the family and a copy be given the local papers for publication.

Respectfully submitted,

COSTLY FIRE YESTERDAY

DAY AFTERNOON

The W. T. Wilson Grain Company's ware house containing some 8,000 or 10,000 bales of fresh alfalfa hay, caught fire about 9 o'clock Sunday morning and burned completely up, destroying the hay. The loss was estimated to be something like \$25,000 or \$30,000. This, it is understood, is covered partially by insurance.

It is not known just how the fire started, but it is thought to have originated from spontaneous combustion. This is, however mere supposition.

The fire department worked heroically to save the building, but in vain. Upon seeing that the warehouse was doomed, they turned their attention to the saving of the adjoining building, in which Mr. Roland Jones has about \$16,000 worth of modern machinery. They were successful in this, and another calamity was happily avoided.

The fire was still freely burning at a late hour last night, and is smoldering this morning, but all danger is past.

TRAITORS FARING BADLY IN FRANCE

Paris, Oct. 24.—Pierre Lenoir, convicted of having transmitted government secrets to the enemy, was executed in Sante prison at 7 o'clock this morning. He was the third person to be executed on charges arising from the attempts of German agents to conduct a defeating campaign in France in 1915 and 1916. The others who met death were Bolo Pasha and M. Duval, who faced a firing squad in 1918. Both were directors of the germanophile newspaper, Bonnet Rouge.

WANT GERMANS DEPORTED FROM KINGDOM OF TONGA

Sidney, Australia, Oct. 24.—Anti-British demonstrations and actions by Germans in the little Pacific Kingdom of Tonga have aroused a feeling that all Germans in the group should be deported. Recently the British representative at Vavau was insulted and assaulted by a German, and an appeal to the local police for redress was futile. By supplying liquor to the natives and advancing credit to them the Germans, it is said, have won the support of most of the native chiefs.

The British in Vavau have petitioned the New Zealand government for the deportation of the German who assaulted their representative, and of all other Germans in the archipelago. Tonga is the last Pacific island kingdom, but it is also a British protectorate. Before the war Germans were quite active there.

BARS DANCE AND BRIDGE MONEY

London, Oct. 24.—The bishop of Chelmsford has barred money raised from "whist drives and dances" from a fund of \$1,250,000 which the people of Essex are trying to collect for church extension. Writing to his people concerning these amusements the bishop declared: "Both may be legitimate forms of recreation, but they are not methods of the church for raising money. I have never heard of either being opened or closed with prayer."

Though her condition is very serious, her friends all hope there may soon be an improvement.

GERMAN DYE MAKERS IN PESSIMISTIC MOOD

Berlin, Oct. 24.—German trade experts are pessimistic over the prospects of selling German dyes in foreign markets. Part of this is due to the peace terms and part to realization of the fact that the Entente Allies learned how to produce dyes while making explosives for the war.

It is asserted that the industry has been further harmed by the confiscation, by France, of factories for dyes and other chemicals, by seizure, by America, of German patents and their distribution to Americans so that Germany would be guilty of breach of patent if it attempted to sell dyes in the United States again. In addition to which England and America are expected to erect customs barriers making German competition impossible.

Fears are expressed that foreign countries will be able to push Germany out of the market with mass production.

STOMACH O. K.

Indigestion, Acidity, Sourness and Gases ended with "Pape's Diapepsin"

Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once.

When your meals don't fit and you feel uncomfortable, when you belch gases, acids or raise sour, undigested food. When you feel lumps of indigestion pass, heartburn or headache, from acidity, just eat a tablet of Pape's Diapepsin and the stomach distress is gone.

The cost is so little. The benefits so great. You, too, will be a Diapepsin enthusiast afterwards.

AUXILIARY RECRUITING STATION OPENED HERE

The following general order No. 123, from the army recruiting station at Dallas is self-explanatory:

Pursuant to authority contained in paragraph 3, letter A. G. O., dated October 6, 1919 (341.81, Nacogdoches, Texas, Enl.), an auxiliary recruiting station is opened at 100-A West Main Street, Nacogdoches, Texas, October 25, 1919.

G. M. Grimes,
Colonel, U. S. Army,
Recruiting Officer.

WILSON-MINTON

Mr. Fred H. Wilson and Miss Lola Belle Minton were married at 9 o'clock Saturday night at the home of the bride's father, J. P. Minton, in this city, Rev. M. C. Johnson of the Presbyterian church officiating.

The groom is the superintendent of the manufacturing department of the Frost-Johnson mill, and is very popular among his associates. He is a native of Virginia, coming to Nacogdoches about eight years ago from Charlottesville, and has made an excellent record.

The bride is the daughter of Mr. J. P. Minton, also connected with the Frost-Johnson company, and has many friends who join in congratulations and felicitations upon her marriage. She was reared in this city and is highly esteemed for her many graces of mind and person.

The young couple left on the mid-night train for Houston, Galveston and New Orleans, and at the conclusion of their bridal trip will return to Nacogdoches and make it their home.

GRANT-BARRETT

A surprise wedding took place in this city at 1 o'clock Saturday afternoon when Mr. B. I. Grant and Miss Glenn Barrett were joined in matrimony.

It was a case where Dan Cupid "speeded up." Mr. Grant came here a few weeks ago to relieve Manager Avey of the Western Union office while the latter took his annual vacation. Miss Barrett was the clerk in the office and a mutual attachment developed between the temporary manager and his clerk and the marriage was the result.

The bridal couple left on the east-bound H. E. & W. T. afternoon train for Alexandria, La., where Mr. Grant has been appointed manager of the Western Union telegraph office.

The Sentinel joins in congratulations and good-wishes.

A FELONY TO POSSESS LIQUOR

Sheriff Woodlan arrested a negro last night with liquor in his possession, and today the County Attorney filed a felony complaint against him. The new law, which has only been in force a short time, makes it a felony, among other things, to possess liquor. The officers state it is their purpose to file felonies in every case of this kind, and in this way they hope to completely stop any liquor traffic that might turn up.

Bronchial Trouble.

Mrs. A. E. Sidenberder, Rockfield, Ind., states: "For an attack of bronchial trouble which usually assails me in the spring I find Chamberlain's Cough Remedy the only thing that gives me relief. After using it for several days all signs of bronchial trouble disappears." Stripling, Haselwood & Co.

ENUMERATORS EXAMINED

About thirty applicants for positions as census enumerators in Nacogdoches county appeared at the court house this morning for examination as to their fitness. The examination was conducted by supervisor J. W. Shotwell of Center, who will notify the successful applicants about November 10 of their appointment.

Hon. A. A. Seale, Audley Harris, Judge Marshall and probably Mr. Adams, will attend the Woodman meeting at Waco next Friday. The will leave Thursday.

NOT THE PINK BOLL WORM

A pinkish insect, thought by many of our farmers to be the pink boll worm, caused considerable anxiety in this section and County Demonstration Agent Greer was called upon to pass judgment upon the invader. He sent specimens to the entomological department of the A. & M. College for classification, and the following reply will allay any fears that may have been entertained by the cotton-growers of the county relative to its identity:

College Station, Texas, Oct. 23, 1919.
Mr. J. D. Greer, County Agent,
Nacogdoches, Texas:

Dear Mr. Greer—Your letter to Mr. Walton and enclosed specimens of pink worms has been referred to me for attention. We can assure you absolutely that these worms are not the true pink boll worms. These worms are often mistaken for the pink boll worm and it is not surprising that you should feel some concern in regard to them. The pink boll worm is usually in lighter color and more chunky in shape than the one that you sent us. This worm is one of the scavenger worms which follows the injuries done by the common boll worm. It does not injury cotton itself.

I cannot thank you too much for being on the job and for bringing these things to our attention.

I am sending the specimens on to Dr. W. D. Hunter at Houston for further identification and you will hear from him if it is anything other than I have determined it to be.

Very truly yours,
A. P. Swallow,
Extension Entomologist.

Can Now Eat and Sleep in Comfort.

If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Ill., has to say: "Overwork, irregular meals and carelessness regarding the ordinary rules of health, gradually undermined it until last fall I became a wreck of my former self. I suffered from continual headache, was unable to digest my food, which seemed to lay as dead weight on my stomach. I was very constipated and my complexion became dark, yellow and muddy as I felt. Sleeplessness was added to my misery, and I would awake as tired as when I went to sleep. I heard of Chamberlain's Tablets and found such relief after taking them that I kept up the treatment for nearly two months. They cleansed my stomach, invigorated my system and since that time I can eat and sleep in comfort. I am today entirely well."

A BLISSFUL DREAM

A wagon load of turkeys were in town this morning, which calls to mind that we are rapidly forging ahead and will soon be celebrating Thanksgiving.—Lufkin News.

Probably the News man's alluring dreams of feasting will be realized by the "absorption" of a skillful liver and onions. But it does no harm to figure on what he would do if turkey were available.

It is reported that several Doches citizens who attended the big fair of Louisiana were the pained victims of pickpockets. Some who went up there lost while on the train \$100 to \$200 which was cut from their pockets. One Doches citizen lost \$200, while on his way back from the fair. Of course no one wants his name mentioned in connection with a pickpocket affair, hence none is called here. However, it should be no disgrace—the days of the mint bed are gone.

A Beautiful Woman.

Do you know that a beautiful woman always has a good digestion? If your digestion is faulty, eat lightly of meats, and take an occasional dose of Chamberlain's Tablets to strengthen your digestion. Price 25c. Stripling, Haselwood & Co.

RESOLUTION OF RESPECT

To Camp Henry Reguet, No. 620, U. C. V.

We your committee appointed to draft resolutions expressive of our feeling upon the death of our loved comrade, N. Pitts, who by six years had passed his threescore and ten, beg leave to report the following:

He belonged to Co. G, Mississippi Infantry 27 and participated in many hard struggles. He departed this life on the 21st day of October, 1919, having lived in the Harmony community 47 years before his death. He was an honored citizen, respected and loved by his neighbors.

Death is impartial, and does not reckon by years. The young may die, the old must; and none, however wise, can know the time. This fact is well known to us all. Still we miss him, and however great may be our grief at his departure, we are consoled by the fact that not only in the early years of his patriotic life he boldly and fearlessly answered to the call of his country and faced the cannon's fire in defense of a principle sacred and upon the maintenance of which depends the future of this country, but with the same bold fearfulness in facing the scorn of temple to His use and to His glory when his eternal Sabbath began:

In our last days let his death be a warning to us that, while not even the wisest can know the time when it will come to us, we should use the means that he did for our eternal welfare.

Resolved, That we, the members of Camp Henry Reguet, No. 620, U. C. V., volunteer our sympathy and condolence to the bereaved family of our

departed comrade. Resolved, That a copy of these resolutions be sent to his family and a copy furnished to the papers of the city for publication.

E. B. Lewis,
J. S. Doughtie,
W. R. Baker,
Committee.

Sincere Gratitude.

Mrs. William Bell, Logansport, Ind., writes: "I owe my duty to express my gratitude for the good Chamberlain's Colic and Diarrhoea Remedy did me when I had a severe attack of diarrhoea three years ago. It was the only medicine that relieved me." Stripling, Haselwood & Co.

COTTON PICKERS IN DEMAND

Denton, Texas, Oct. 27.—Cotton pickers are in demand in this section, the farmers in many cases offering \$3 per 100 hundred and board for pickers. Four dollars per hundred is being offered without board.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being generally influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F.
