#### THE FARMERS OF TEXAS ARE CALLED TO MEET

At the suggestion of the Executive committee of the State Farmers Institute, I am requested by Honorable Fred W. Davis, State Agricultural Commissioner, to call a meeting of the farmers of Texas, at the city hall, Dallas, Texas, on January 21-22, 1920.

The object of the meeting is to discuss the various problems confronting our farming interests, including a continuation of the fight for profitable prices for the producer, and to voice protest against the rail freight embargo, which is so ruinously operating against conditions and value of farm products in some portions of our state.

The enormous loss to the farmers of Texas the past season, by undervaluing and underpricing of cotton, and closely associated therewith, the activity of certain federal and other agencies, seemingly not in sympathy with the movement by the farmers to secure profitable prices for their products, will receive consideration at the meeting.

Various organizations, including Texas Chamber of Commerce, the A. and M. College Extension Service, the Bankers Association, the Texas Industrial Congress, and the Farm Demonstration Agents, have, at various times and places, outlined programs for the farmers; thus indicating that they regard as paramount their material well-being. Therefore, it would appear timely, that the farmers themselves get together and give some expression as to what may be good for them, and how to get it.

It is hoped to make the coming meeting a great one, not only in point of numbers attending, but as well in its bearing upon the vital questions to be considered, and influence in attracting attention of the business and political world to insistent demands that the interests of farm producers shall receive more consideration than in the past.

I sincerely hope that officers and members of farmers institutes all over the state, as well as those who are not, will take active interest in piling up attendance at the meeting by notices in the local press and by personal solicitation. The occasion and its possible results in good to the farmers, appear to justify such action as sending delegates, and "chipping in" on their expenses, especially at points remote from place of meeting. All friends of the farmers are invited. Let it be a farmers meeting with no set program or selected speakers, but a get-together of farmers to express their needs and wishes in their own way. Everybody seems at last to realize they are depending upon the farmer and are ready for him to speak.

Come and take part in this important meeting.

Yours respectfully,  
J. W. NEILL  
Director Institute.

#### NACOGDOCHES TRADITIONS

It is remarkable that so many of the early settlers of Nacogdoches county came from Tennessee, and that so many of them settled near the old town of Nacogdoches. Did they follow Sam Houston and Davy Crockett, who were notable characters and leaders?

In Middle Tennessee in the Cumberland mountains vicinity, are located three noted institutions, viz. the Seawanean Episcopalian University, The Presbyterian Assembly at Monteagle, and the great coal mines of Tracy City. In this particular section is the good old town of Winchester, Tenn., and not far away is the town of Huntsville, Ala. From this section came the Power family, the McCuistians, two different Summers families, two David Muckleroy families, Davis Parrish's ancestors, the Davis King and the David Burrows families, the Partain and Meeks families, the Campbell and Sisco families, the Whitakers and Lucas families, J. J. Lilly, James R. Arnold, David Lee and others—and from other localities in the state came the Bruton, Orton, Simpson, Haltom and Mayfield families, all Tennesseans.

This was impressed upon me in 1887, when I spent a week at Monteagle, Tenn., the guest of Uncle Anderson Summers and his brother-in-law, Tribble, typical hospitable log cabin mountaineers. Billy Summers of Dorr Creek, was their nephew and I recognized the old paternal uncle walking alone in the road from the family resemblance. In like manner on the street in Winchester I recognized "Uncle Jimmy" Lee. In Huntsville, Ala., I found a brother of our W. D. Peevey, "Uncle Tom Summers." I went down under the high rock bluff adjoining the public square and courthouse lot in Huntsville and took a drink of fine water from a cold spring that is the head of a creek.

There is a striking similarity between some of the red lands in those localities and some in the Redfield or Appleby vicinity. Mr. H. B. Power can verify this. Jim McCuistian's ancestors also came from there. He and "Uncle Holloway" Power were severely wounded in the battle of Franklin, Ia., in the war of the Confederacy, but they still live.

It would be interesting to the few survivors and many descendants of these old-timers to see a fuller list of them and to know more of their history. What brought them here and when and how? Many instances were due to disappointment in life. Such was the case with Sam Houston and David Crockett, both of them political, and also social troubles. All of these pioneers made good in Texas.

#### TEXAS SCHOOLS FACES SERIOUS SITUATION

Austin, Texas, Jan. 12.—In a new University of Texas bulletin Professor A. Caswell Ellis gives results of several studies showing:

1. That one-third of the men and one-fourth of the women teachers left their positions in the schools of Texas last year, and that four-fifths of those leaving were among the better teachers.

2. That there were only one-fifth as many men and one-third as many women applicants this year as usual to fill the vacancies, with the result that several thousand below-standard school girls had to be put in as teachers and that more than two thousand schools and schoolrooms had no teachers at all this fall. Probably nearly a hundred thousand children in Texas are without a teacher in spite of the compulsory education law.

3. That the conditions are growing worse, that practically no men are preparing to teach and the number of women is less than usual, and that by next fall, unless something definite is done this winter, the schools will probably have lost more than half their best teachers and be set back ten years.

The cause of the trouble is the 40 cent dollar and the low salaries of teachers, it is asserted by Dr. Ellis. He says that there is no hope of saving the schools and protecting the children of Texas except by practically doubling the annual salaries paid teachers. This will cost ten million dollars per year, and although Texas is already at the constitutional limit of property taxation, Dr. Ellis shows that the amount can be easily raised by taxes on corporations and large inheritances, which will fall on those

The eight hundred Mothers' Clubs and Federated Women's Clubs and thirty thousand teachers of Texas have through their state-conventions asked that a meeting of each local club and a mass meeting in each school house be called at once to consider the situation and petitioning the governor and state authorities to call a state mass meeting and a special session of the legislature to work out plans of relief, legislation and otherwise.

Anyone desiring this bulletin can secure a copy free by addressing the University of Publication Committee, Austin, Texas. The bulletin is available to pay and will be a hardship on no one.

Dr. Ellis points out Texas paid last year \$62,000,000 national war taxes, mostly excess profits taxes of corporations. He proposes to keep some of this money in Texas to save the state schools before they are ruined.

## WEEKLY SENTINEL

BY GILES M. HALTOM

### MISLEADING AND FUTILE PROPAGANDA.

A number of rather notable people, including police officials and health officers in larger cities, where the prohibition of the liquor traffic has not yet been very gracefully accepted, are trying to discount the good results of the dry regime by alleging that drug addicts are rapidly increasing.

They admit that prohibition has decreased crime, drunkenness and deaths from alcoholic overindulgence, but at the same time they try to make it appear that the increase in the use of various habit-forming drugs has offset the good from the absence of alcohol.

In the first place, the reports of the increase in drug using are doubtless exaggerated, for a good deal of this talk bears all the earmarks of propaganda. The liquor traffic is up to its old tricks of trying to frighten the people into the belief that if they prohibit liquor something else more terrible will come along. The liquor traffic always assumes that "something is going to get you," and that liquor is the lesser of the evils.

But granting that the drug habit is on the increase, that falls far short of being convincing argument for the repeal or the modification of the prohibition laws. On the other hand, it only goes to show how badly needed was the prohibition of alcohol.

If thousands of people had become such abject slaves to the liquor habit—so weak in will and so prevented in judgment—as to resort to any sort of alcoholic stimulant or drug to allay the terrible craving possessing their bodies, it was high time that the source of their unnatural condition be cut off.

The fact that suffering is being experienced by present alcoholics cut off from stimulants does not argue against the prohibition of the traffic in liquor. Even if these could not eventually be relieved and restored to a normal state, saving the next generation from a similar experience would be incentive enough to wipe out the booze traffic.

The drug traffic existed before the liquor was outlawed. There are strict laws against it, and the success attained in restricting the liquor traffic shows that the drug traffic, too, can be suppressed.

It will take time to work these reforms out, but because there are difficulties in the way, is no reason why the effort should not be made. There never would be any progress in the world, if fear of a greater evil always withheld our hands from striking at an existing evil. The only hope of permanent progress is in meeting the issues as they come, and in putting down social evils as rapidly as they present themselves.—Houston Post.

### NACOGDOCHES PROSPECTS.

In a few days one of the biggest pieces of road building in the history of East Texas is to commence. Over \$1,000,000 will be spent by the county in the improvement of her roads, and at the approach of next fall, it is thought that the roads will be in far different condition from what they are in now. Mud has caused Nacogdoches a great economic loss this year, and it behooves its business men to see that the highways are kept open. Nacogdoches has taxable property to the amount of about \$13,000,000 and an expenditure of \$1,000,000 on its roads alone speaks well for parties who desire to take part in the operations.

Nacogdoches will in all probability another year have an up-to-date potato-curing plant. Nacogdoches county is well adapted to the potato-growing industry, and a greater interest in the business would no doubt result in good financial returns for the growers. In addition to that, the Woodmen of Nacogdoches are planning to erect a modern five-story building, which will serve as an office building. These and many other things will put Nacogdoches on the map. Watch our smoke!

### THAT BRIDGE.

In the meantime reports keep coming to this side about a certain bridge which connects Nacogdoches county with angelic Angelina. Critics state that the bridge appears to be ready to fall any minute, and that it is a reflection on humanity to have such a bridge spanning a respectable river.

Now, this bridge has been the subject of many an article in the papers of each county for a long time, but so far nothing has been accomplished. Hence, E. S. moves that we get it mixed up in politics, of which there will be plenty this year, and see what

### WHAT NEIGHBORS SAY

Houston, Texas.—"Dr. Pierce's medicine has given me such wonderful relief that I am glad to give this recommendation just what it has done for me. I used to suffer with woman's weakness and by the persistent use of Dr. Pierce's Favorite Prescription I was restored to health and I have also taken the 'Prescription' during pregnancy and it was very beneficial; it kept me strong, healthy and helped me in every way. It is the best medicine for women I have ever taken."—Mrs. ALLIE JOHNSON, 2503 Runnels St.

Every woman who has reason to believe that backache, headache, unnatural pains, low spirits, sleepless nights, irregularities or a catarrhal condition is caused by a derangement of the womanly functions, owes it to herself and dear ones to specifically overcome the trouble before a general breakdown causes permanent prostration.

Dr. Pierce's Favorite Prescription is a non-alcoholic remedy that any ailing woman can safely take because it is prepared from roots and herbs containing tonic properties of the most pronounced character. It is not a secret remedy because its ingredients are printed on wrapper.

Get Dr. Pierce's Favorite Prescription to-day, either in liquid or tablet form or send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., 10c for large trial package.

Beaumont, Texas.—"It is a pleasure to me to recommend a medicine that has given me the comfort and relief that I have derived from the use of Dr. Pierce's Anuric Tablets. I would advise any person who suffers with kidney or bladder weakness to give them a trial without delay for 'Anuric' is simply wonderful in giving immediate relief in all discomforts and misery resulting from weakened kidneys."—Mrs. D. BLACKFORD, 585 Arabella St. Send Dr. Pierce 10c for trial package.

effect that will have. It is a good issue, and there would be nothing amiss for a candidate, when sinking hands to say, suavely, "Why, yes; I am in favor of removing that beastly old bridge, for I do not think the banks making its foundation would do to make a good platform." If every candidate were to get to saying that way, the constructive new bridge would be sure to result! Ask the man you are going to vote for if he is in favor of bridge building!—E. S.

### KILLED BY FORD CAR.

A most distressful tragedy occurred Saturday night when little George Buchanan, aged 6, was accidentally struck by a Ford car, sustaining a fractured skull, which resulted fatally a few minutes later. It seems that the victim was on a truck belonging to Mr. Bailly with another boy delivering groceries, and was practically in front of the home of Mr. Lucan Buchanan, his father, when a car, driven by Edgar Johnson, a negro, struck the boy. The child had leaped from behind the truck on which he was riding, and had run around by its side, before the negro Johnson saw him. This brought the negro so close on the boy that he could not stop his car in time to keep from hitting George.

Physicians were immediately called, but no aid could be given the little fellow. He died in a few minutes after being struck. He was a promising young boy, and had a host of warm friends. He is survived by Mrs. and Mrs. Lucan Buchanan, his parents, and some brothers and sisters. The Sentinel, with his many friends, join in expressions of the deepest grief.

## The Successful Farmer Raises Bigger Crops

and cuts down costs by investment in labor-saving machinery.

Good prices for the farmers' crops encourage new investment, more production and greater prosperity.

But the success of agriculture depends on the growth of railroads—the modern beasts of burden that haul the crops to the world's markets.

The railroads—like the farms—increase their output and cut down unit costs by the constant investment of new capital.

With fair prices for the work they do, the railroads are able to attract new capital for expanding their facilities.

Rates high enough to yield a fair return will insure railroad growth, and prevent costly traffic congestion, which invariably results in poorer service at higher cost.

National wealth can increase only as our railroads grow.

Poor railroad service is dear at any price. No growing country can long pay the price of inadequate transportation facilities.

### WHY CHILEAN CITIZEN ADMIRES UNITED STATES

SANTIAGO, Chile, Jan. 8.—"Why I am Yankophile" is the subject of an article contributed by Ultimas Noticias by a Chilean who has visited the United States. Some of the reasons he gives for liking the United States are:

Because when a person falls down nobody laughs.  
When in the street a person steps on another's toes, they do not insult each other.

The shopkeepers can leave their deliveries on the doorstep.

People keep in line at ticket offices and have respect for each other's place in the line.

Everybody takes a bath.

People have only one surname.

There is profound respect for the police. The public fear the police and not the police the public.

The people know how to walk in the streets, always passing to the right and they do not stop to talk.

There is only "first class" railroad trains and special cars for smokers.

Drunkards in that country are an extinct species.

The name doesn't make the man but the man the name.

It is a sign of ill breeding not to respect the opinion of others. (There are two hundred religions in that that country.)

Youths of 18 in the universities, and not in the stock exchange or saloons.

Democracy co-exists with the government.

The men know how to sing and are not bashful about it.

### He Feels Like A New Man.

Rheumatic pains, backache, pains in sides, sore muscles, stiff joints or an "always tired" feeling are usually symptoms of disordered kidneys. W. W. Wells, Toquim, Mich., writes: "I get tired. But after taking Foley Kidney Pills I feel like a new man." Prompt in action. For sale by Haselwood & Co.

### RAT EXTERMINATION PLANNED BY GALVESTON

GALVESTON, Texas, Jan. 9.—To stimulate the destruction of rats in the city of Galveston and along the water front the board of city commissioners has increased the bonus paid for each rat brought in to the city health authorities from 5 to 10 cents. The reported prevalence of bubonic plague at certain gulf ports led to the revival of rat extermination measures. Along the water front vessels are equipped with rat-proof tie lines and other precautionary measures are enforced to prevent rats from reaching the piers from incoming vessels. There have been no cases of the plague reported in the Galveston district.

### Not Well—Not Sick.

When the kidneys fail to cleanse the blood of impurities the whole system is affected. The result may be a half-sick condition—not well enough to work, not sick enough for bed—rheumatic pains, backache, lameness. Foley Kidney Pills heal and strengthen disordered kidneys and help them do their work. For sale by Stripling, Haselwood & Co.

### SEVEN TOWNS DESTROYED NEAR TECELO, MEXICO

MEXICO CITY, Mex., Jan. 9.—Seven towns near Teceelo, south of Jalapa, have been overwhelmed by earth disturbance and a great lake is covering their former sites, according to a message from Teceelo through Vera Cruz. Thirty-four bodies had been discovered when the message was filed.

### NATIONAL CONVENTION WILL MEET AT FRISCO

WASHINGTON, D. C., Jan. 9.—San Francisco was selected Thursday by the democratic national committee in session here as the place for the party's 1920 national convention.

After 27 votes had been cast for San Francisco, Kansas City and other cities withdrew and the vote for San Francisco was unanimous.

Monday, June 28, was fixed as the convention date.

Isadore B. Dockweiler of California nominating San Francisco, outbid Chicago's offer with a proffer of a guaranteed sum of \$125,000 for expenses, the free use of the municipal auditorium seating from 15,000 to 18,000 and of additional funds for entertainment purposes.

The case for Kansas City was presented by Fred Fleming, Representative Champ Clark, Dr. B. A. Jenkins, publisher of the Kansas City Post; Breckinridge Long of St. Louis, third assistant secretary of state, and S. P. Amidon, national committee man for Kansas. The city offered a guarantee of \$50,000 and free use of the convention hall.

Dr. Jenkins, pointing out that Kansas City lay in the center of a group of doubtful states, declared that "while my heart would say let's go to San Francisco, my head would say let's go to Kansas City."

Mr. Clark said that award of the convention to Kansas City would "cheer up every democrat from the Mississippi to foothills of the Rocky mountains."

The committee voted that until the national convention made a definite decision members of the associate women's national committee as now constituted should continue in office during the tenure of office of the present national committee.

### Coughed Night and Day.

John Vongue, Elberton, Ga., writes: "I coughed night and day and my throat was raw and sore. Best for colds, croup, whooping cough. Children like it. For sale by Stripling, Haselwood & Co.

### MEXICAN RAILROADS SAID TO BE IN GOOD SHAPE.

GALVESTON, Texas, Jan. 9.—Paulino Fontes, director general of railways of Mexico, who recently visited Ciudad Juarez after an inspection trip of the Mexican railways, reported an uneventful trip and no signs of trouble, according to information received by Meade Fierro, local Mexican consul.

The director general was so well pleased with the situation in Chihuahua, Mr. Fierro's information said, that plans have been made for a number of railroad commissioners from Mexico to visit New York, Philadelphia and Chicago in the near future for the purpose of purchasing over \$3,000,000 worth of rolling stock and equipment for the roads in that state.

WASHINGTON, D. C., Jan. 10.—The government has definitely decided to render aid to dependents of alien radicals whom it deports. Assistant General Garvan announced today, purely as a humanitarian measure and not because of any obligations to the aliens' families.

Every User a Friend  
"The only remedy we ever use for coughs and colds is Foley's Honey and Tar Compound. It has been our standby for years, and it never fails us." —T. H. Foley, Marquette, Mich.

## THREE YEARS WITHOUT HOPE

A Story of Sickness and Suffering with Final Return to Health It will do you good to read it

No matter how long nor how much you have suffered, do not give up hope. Do not decide there is no help for you. There is. Make up your mind to get well. You can. There is a remedy in which you may place full reliance as did Mrs. Rozalia Kania of 39 Silver Street, New Britain, Conn. This is what she says: "I had cramps for three years and thought I would never be any better. I could not eat without distress. Slept with my mouth open and could hardly breathe. No medicine helped me. I had catarrh of the stomach. Now I have no cramps and am feeling well and healthy. I wish every suffering person would take PE-RU-NA."

Catarrh effects the mucous membranes in any organ or part. PE-RU-NA, by regulating the digestion and aiding elimination, sends a rich, pure supply of blood and nourishment to the sick and inflamed membranes and health returns.

For coughs, colds, catarrh and catarrhal conditions generally, PE-RU-NA is recommended. If you are sick, do not wait and suffer. The sooner you begin using Dr. Hartman's well-known PE-RU-NA, the sooner you may expect to be well and strong and in full possession of your health. A bottle of PE-RU-NA is the finest emergency, ready-to-take remedy to have in the house. It is fourteen ounces of prevention and protection.

Sold everywhere in tablet or liquid form.

### UNIVERSITY WILL EXTEND SUMMER SCHOOL WORK

AUSTIN, Texas, Jan. 10.—Preliminary announcements show that the University of Texas summer school will extend its field of work this year. Courses in vocational and industrial education, open to both men and women, will be given next summer for the first time among southern universities. These courses are especially adapted to the needs of Texas, as determined by the recent industrial survey of the states and are arranged by the State Committee on Industrial Education, as provided by the Smith-Lever act.

Another new course is one to be given during the first term of the summer school by rural school specialists, dealing specifically with that division of the public school work.

For the first time, also, the engineering department is to be organized as a separate part, with one full professor and several half-time professors devoting themselves to this task.

The law department and practically all schools of the college of arts are represented.

Dates are as follows. First term, June 8 to July 20; second term, July 20 to August 31; commencement and conferring of degrees, August 31. This is the third twelve-week summer session, and the third August commencement.

Summer normal this year will last eight weeks, as provided by recent legislation, beginning June 21 and ending August 19.

### You Can't Fool the Mothers.

No one remedy would stand as a lead for so many years as has Foley's Honey and Tar if it could not be depended upon to relieve coughs, colds and croup. It heals and soothes, eases hoarseness, stops that coughing that strains the whole body, and breaks colds and coughs. Children like it. Contains no opiates. For sale by Stripling, Haselwood & Co.

### ROUNDUP OF PROFITEERS

WASHINGTON, D. C., Jan. 8.—The department of justice is going after the profiteers of the country. On the heels of the "reds" raids to stamp out bolshevism and anarchy, government agents throughout the country are preparing within a few days to descend with arrest warrants on dealers who have been practicing extortion upon the people.

Dealers, both wholesale and retail, who were profiteering in the sale of sugar are to be the first victims, it was announced. Some of these dealers have been using the authorized high price of Louisiana sugar to apply to Cuban and beet sugar which should sell for 6 cents a pound less, at least, and they are to be rounded up particularly.

Agents of the bureau of investigation have been sent to Chicago, New York, Philadelphia and other cities to make the profiteering roundup. Howard E. Figg, special assistant to the attorney general, in charge of the food profiteering campaign, said that plans for the raids have been fully developed and expressed confidence that they would bring results.

The new crater is emitting smoke, according to information to the presidential military staff from army officers in the earthquake district. Experts believe this explains the earthquake which did so much damage between Vera Cruz and Puebla states. New advices tell of 200 deaths near San Miguel and in the country districts near Cordoba.

### PRESIDENT'S POLICIES

**UNANIMOUSLY ENDORSED**  
WASHINGTON, D. C., Jan. 8.—Resolutions endorsing the treaty of Versailles and denouncing as unpatriotic the attitude of senators who would defeat it directly or by nullifying reservations were unanimously adopted by the Democratic National Committee. The arrogant republican leaders of the senate were denounced as having earned the contempt of the world by carting the treaty, and the senate is called upon to quit playing politics with the question of ratification.

### PHILIPPINE GOVERNMENT

**HAS BIG BUDGET.**

**TEACHING AMERICANISM**  
PITTSBURG, Pa., Jan. 8.—One hundred and forty-five Holy Name Societies of the Roman Catholic Church in the Pittsburgh district have launched a campaign to stop the spread of Bolshevism among wage earners and to further Americanization. Literature intended to establish closer relations between capital and labor is being distributed by the organization.

Rev. Claude Geary, Dominican monk and a leader in the campaign, declared Bolshevism and Socialism can be handled, but that problems confronted by capital and labor must be definitely settled to bring peace to the world.

### "SOVIET ARK" BUFORD

**NEARING DESTINATION**  
WASHINGTON, D. C., Jan. 8.—The "soviet ark" "Buford", with its cargo of 249 radical aliens, is about to enter the Kiel canal, according to official dispatches. While still refusing to disclose the destination of the ship, officials said a very good guess might be ventured since its passage through the canal became known. It is believed the "Buford" will go to Riga to discharge the radicals for transportation across-country into soviet Russia.

### CHAIRMAN PRISON BOARD

**TENDERS RESIGNATION**  
DALLAS, Texas, Jan. 8.—R. L. Winfrey of Dallas today made known a letter embodying his formal resignation as chairman of the Texas Prison Board forwarded to Gov. Hobby yesterday, in which he suggested the governor make a full and complete investigation of the prison system. Chairman Winfrey recently charged that extensive graft existed in the prison system, and in his letter declares an invisible hand had a hold on the throat of the prison system until it has become a stench in the nostrils of the people of Texas.

### PROMINENT ARKANSAN

Eighty-seven gold pieces and the Byzantine division included in the collection are considered of especial value.

## KANE DECLARES HE IS POWERLESS TO CHECK GOUGERS

Handicapped by Cooke's Refusal to Reorganize Wartime Fair-Price Board, He Says

### ATTORNEY'S DUTY TO STOP PROFITEERING, SAYS HEINZ

Prosecutor Has No Time to Answer Questions Concerning Action in Other Cities

With the housewives of this city clamoring for direct, vigorous action against the food gougers, whom they hold responsible for the undernourishment of their children, Francis J. Kane, United States district attorney, declared yesterday he was powerless to check profiteering.

Mr. Kane complained he was being handicapped by the refusal of J. W. Cooke, formerly food administrator for Philadelphia, to reorganize the fair-price board. That Mr. Kane ought to be a profiteer, he said.

But Howard Heinz, attorney for Pennsylvania, said Mr. Kane on that point was in a bad way with the Public Ledger. Mr. Heinz said Mr. Cooke, although he was making every effort to have fair-price boards re-established, that would not relieve the federal authorities from their duty to stop profiteering.

The district attorney said that the Lever food-control act would be effective in cases of profiteering, but that it would be extremely difficult to prove violations.

Mr. Kane acknowledges that prices are inordinately high. Ignoring the price of meats, regarding which Robert M. Simmers, agent of the State Food and Dairy Department and government food and drug inspector, has given him a mass of evidence, he said, that "the prices of green vegetables are terrible."

Mr. Kane said that he had not time to answer questions concerning action in other cities.

## Great Quantities of Food Seized by Federal Agents in Big Cities

INDICATIONS of the real punch of the high cost of living were given by the seizure of large quantities of foodstuffs by federal agents in many cities.

While Attorney General Palmer's committee that he intended to get higher prices than those listed by word came from Chicago, St. Louis and other cities, federal agents proceeded under the food control act to seize in Chicago 1282 tubs of coffee, 284,190 pounds of coffee, wheat and in Birmingham 100 barrels of flour.

### PROFITING FROM THE WAR

Mr. Kane said that he had not time to answer questions concerning action in other cities.

## REGULATORY FOOD POWER IS NEEDED

—HOWARD HEINZ

Fair-Price Boards Will Solve H. C. L. Problem, Says Administrator

GOING TO AID PALMER

Cooke Reiterates Refusal to Return for Food Fight

Howard Heinz, food administrator for Pennsylvania, in an interview with the Public Ledger, said he is in his power to induce profiteers to reorganize the boards, as requested by the attorney general.

As his opinion, that the boards will be added upon the high cost of living, Mr. Heinz expressed his determination not to assume regulatory duties of the entire system, of food.

Heinz refused to say whether he would return to this city from Philadelphia to reorganize the fair-price board, Mr. Heinz expressed his opinion that Mr. Cooke may yet be able to assume that burden.

Mr. Cooke, in a talk over the telephone last night said he would return and ask Mr. Heinz to assume his duties as food administrator.

War Is Over, Says Cooke  
"The war is over," said Mr. Cooke. "I don't see why I should remain in the job of food administrator."

Heinz said that he would return and ask Mr. Heinz to assume his duties as food administrator.

# Who said H. C. L.?

LAST season's suit still holds together and we can half-sole our shoes. And you can still buy a big generous tin of the jolliest old pipe tobacco that ever came down the pike, without mortgaging the old homestead. Hooray!

Good old Kentucky is still growing Velvet's honest fragrant leaf. We're still ageing Velvet in the wood. Velvet's just as smooth and mellow and mild as it ever was. The quality's there and the quantity's there just the same.

Take the "cost" out of the "high cost of living" and what do you get? Why, "high living" of course. Well, sir, that's what Velvet does.

It's like Velvet Joe says:

"Anybody can tell you how much Velvet costs. But only you' old pipe can tell you how much Velvet is worth."

There's goodness knows how many pipe loads in every tin of Velvet. Or if you want the mildest cigarette ever—there's 45 big ones in every tin.

# Ford

THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3 1/2-inch tires front and rear, for every day in the year has no equal as a family car. Just as popular on the farm as it is in the city. In fact, it fits the family demands in every vocation of life. Large, roomy seats, finely upholstered, plate glass windows make it an open car in pleasant weather, while in rainy and inclement weather it becomes a closed car, dust-proof and rain-proof. It is not only comfortable, but really cozy, and above all, economical in operation and maintenance, and has all the Ford merits of strength and durability.

## FOR JUSTICE OF THE PEACE.

To the Voters of Justice of Precinct No. 1, Nacogdoches County:

I am announcing as a candidate for the office of Justice of the Peace of Precinct No. 1, Nacogdoches county. In doing so I want to say to you that no man can appreciate more than I do your favors to me in the past. I don't know what my fate would have been had you not been so kind to me, as I am physically a helpless cripple and unable to do any kind of work. This office is a means of support of myself and family. Its duties are such as that I can perform them. I believe, to the satisfaction of the public. It belongs to you and it is yours to deliver to whomsoever you wish. If I have served you satisfactorily I want you to elect me again and I will always do everything in my power to perform the duties of the office with equal justice to all and special favors to none.

Sincerely yours,  
F. D. HUSTON.

Nacogdoches county is preparing to take an unusual interest in live stock another year, according to men who know. In addition to that, peas will be advocated as a proper thing to plant for the feeding of these live stock. Farmers will be urged to grow potatoes to fill up the big \$15,000 potato-curing plant, and the users of the spade and shovel will be needed to dig out the brick clay to furnish the brick kiln with material. All of these things are just merely to remind you that Nacogdoches has taken a new start, a new determination, and is preparing to get up on the top row of fame. She has a chamber of commerce that counts for everything. "Throw away your hammer and get a horn."

## A WORD FROM MR. BUCHANAN.

I further promise to have tax receipts ready for you upon payment of taxes, which courtesy is also due you, and not keep you waiting your turn, as has been the slow process heretofore used.

Yours for service,  
D. W. BUCHANAN.

## AMBITIOUS YOUNG FOLKS.

Had it ever occurred to you that you had as well try to be a successful physician without attending a medical school, or a successful lawyer without attending a law school, or a successful minister without attending a theological school, as to try to be a successful banker, or merchant, or business man of any kind without first being trained for business in the Tyler Commercial College. You would attend a university with a reputation if you wanted to make a first class doctor, lawyer or minister. Why not use the same good judgment in selecting a business school in which to secure your training? The Tyler Commercial College of Tyler, Texas, is the business university of the South; it enrolls more students annually than any other similar school in America. Its students have come from 39 different states and seven foreign countries; its graduates are holding the very best of positions in the leading cities of the United States.

If you will spend from \$150.00 to \$250.00 for tuition, board and books for a course of Shorthand, Book-keeping, Telegraphy, Cotton Classing, or Business Finance, or better still, spend \$200.00 to \$300.00 and complete any two of these courses, you will have made the best investment of your life. What young man or woman with grit and determination cannot raise this amount? Hundreds of students who borrowed every cent of the money to attend this school, or gave their note for part of their tuition will readily tell you it was the best venture of their lives; they were soon able, through the good positions secured them by the college, to pay what they owed and continued to hold their good positions or go into business for themselves and succeed. If you always remain where you are, you will always be what you are. Think this statement over seriously. More than 300 students, before this month closes, will be added to the fifteen hundred that are now here. Why not be among the number? You can enter any day and take up the work. For large free catalogue, verifying the above claims and more, fill in and mail.

## MR. DODSON WARNS USERS OF CALOMEL

Says Drug Acts Like Dynamite on Liver and You Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salfate. Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

## SHED PRAISE IT ALL OF HER LIFE

Mrs. Flanagan is Grateful for Relief Obtained Through Use of Tanlac.

"I'll praise Tanlac the longest day I live, for it is wonderful how this medicine has helped me," said Mrs. M. J. Flanagan, of 104 Claiborne St., Nashville, Tenn.

"For three years," she continued, "I suffered something awful with cold chills and smothering spells. My heart would thump like a trip-hammer and then would almost stop and then I would be too nervous to keep still and would often turn right blind. I would break out in cold sweats and then would get so hot they would have to fan me to keep me from smothering. There was a hard lump in my stomach, and no matter how much medicine I took those awful spells kept coming on.

"Three months ago I started taking Tanlac and began to pick up right along. Nothing I eat now disagrees with me, that lump stopped forming in my stomach and the chills, hot spells and blindness have never come back. I now weigh twenty pounds more than I did before and feel all right. My daughter Elsie was all run down and unfit for work, but Tanlac built her up so she is able to work ten hours a day."

Tanlac is sold by all leading druggists and in Nacogdoches by Stripling, Haselwood & Co., and in Garrison by Dale Drug Co.

## FOR JUSTICE OF THE PEACE.

To the Voters of Precinct No. 1, Nacogdoches County, Texas:

After some solicitation and consideration I have decided to make the race for justice of the peace of precinct No. 1.

I am an old Confederate soldier, have an aged wife and a daughter to care for, and believe I can care for them better with the office than I can between the plowhandles.

I believe that a few promises well fulfilled are better than many half-filled, so my platform will be to look after the fees of the office and ride every man in the same boat, as nearly as possible. I invite my opponents to a clean race, as I had rather be defeated with clean hands than elected with muddy ones.

The office belongs to the people, and if they should see fit to honor me with it I will try to show my appreciation by the faithful discharge of my duties; otherwise, I will bow to the will of the people in that as I do to my Creator in all things.

A. W. DANIEL.

The local cavalry has received a number of horses which were landed here Sunday. These horses have been moved to the fair grounds, at which place they will stay, it is thought, permanently. Nacogdoches has had a reputation like that since her first days. "Throw away your hammer and get a horn."
