CHINESE PREMIER QUIT.

Honolulu, March 2.—The Chinese premier has resigned, according to a cable dispatch to a Japanese language paper here.

Try The Sentinel Want Ads.

RETIRED OFFICER DEAD.

San Diego, Calif., March 2.—Major General William P. Duvall, aged 73, a retired army officer, died today.

Subscribe for The Sentinel.

FIVE PERSONS KILLED RETURNING FROM DANCE.

Ardmore, Okla., March 3.—Five young persons of Wilson and Lone Grove were killed and another probably mortally hurt when an auto mobile in which they were riding was struck by a freight train. They were returning home from a dance here.

PRESIDENT TAKES RIDE.

Washington, D. C., March 3.—President Wilson went for a motor ride today, leaving the White House grounds for the first time since he was ordered to bed by his physician last October as a very sick man. Accompanied by Mrs. Wilson, Dr. Grayson and secret service men, he took a spin around the speedway along the Potomac. A closed car was used. Photographers, who had waited for several weeks for the president's reappearance in public, were prohibited by the police from taking photographs. Almost ideal weather, warm and balmy, prevailed.

SCHOOLBOYS IN BATTLE.

Austin, Texas, March 2.—All but one of the eight students of the University of Texas carried to a hospital after a class fight downtown last night were discharged today. The one remaining is said not to be seriously hurt. The injuries resulted from the students being overcome by ammonia fumes squirted from fire extinguishers as freshmen tried to rush the stairs of a hall which sophomores were holding. Bricks and clubs were freely used, five hundred students mixing in the melee. Faculty members today are taking the names of participants and drastic action is predicted. The building's doors and windows were smashed.

THE FIGHTING DIVISION AND ARMY EXHIBIT.

The Second Division "Regular" is composed of the Ninth, Twenty-third Infantry, Fourth and Fifth Machine Gun Battalions, the Fifth and Sixth Marines, the "Fighting" Second Engineers, the Twelfth, Fifteenth and Seventeenth Artillery Regiments.

In the ten days before the armistice they advanced nearly twenty miles on the heels of the fleeing Germans mopping up machine gun nests left to slow up the pursuit. The Ninth infantry accomplished a unique move. During the night it moved five miles straight into the enemy lines. At dawn the Germans found the Americans behind them and a panic ensued. The manoeuvre was repeated several times. On the night before the armistice the famed Second Engineers threw a bridge across the Meuse under heavy fire and the Fifth corps occupied a bridgehead on the heights across the river. The Second was still fighting when the armistice was ordered.

During the advance the men suffered many hardships in the rapid movement in cold and rain over roads ankle deep in mud. Sometimes the supplies failed to come up and the men went hungry—but always ahead.

In the Arconne-Meuse offensive fighting the division lost 3,299 men. Only 403 were killed on the battlefield. Most of the others were slightly wounded. The captured were many—105 guns, 500 machine guns and 17 trench mortars.

The divisional total of prisoners during the war is 12,026. In the march toward the Rhine they had a place of honor. It is one of the three divisions holding the bridgehead.

That is briefly the record of the Second Division. The men and the officers are more proud of the "Star and Indian Head" symbol of the division than they would be of any decoration. More decorations and citations have been awarded the Second than any other division. In the records is a whole sheaf of citations and telegrams from generals, field marshals, presidents and kings.

STRIKE DANGER REMOVED.

Washington, D. C., March 2.—Representatives of the railroad union voted today to give the new railroad law a trial in bringing about a settlement of their wage demands. It is understood their desire to hold in abeyance the plans to test the constitutionality of the law and not refer the controversy to the union membership "until the law is given a fair trial." This means that all danger of a general strike at this time is removed.

A GREAT VICTORY.

London, March 2.—Moscow reports the soviet troops gained a great victory near the Bielaya front, in North Caucasus. Denikines' First Kuban corps was annihilated, many perishing in battle and the others taken prisoners. The reds are reported to be advancing rapidly.

MEXICO INVESTIGATING US.

Mexico City, March 2.—Data relative to recent alleged murders of Mexicans in the Southern United States is being gathered by the Mexican embassy at Washington. The Mexican government is formulating a protest for presentation to the United States.

RACE SUICIDE.

Geneva, March, 1.—There were 1,032 deaths, mostly children, and only eight births in Vienna from February 8 to 14.

STEAMER BREAKS UP.

Halifax, N. S., March 2.—The steamship "Bohemian," which struck yesterday at Sambro ledge, bound from Boston to Liverpool, was broken in two today and sank, it is reported by the Citadel signal station.

FRENCH STRIKE SETTLED.

Paris, March 2.—The strike of railwaymen throughout France was settled last night in the following points: The right of the men to organize, the

railroad men to accept arbitration on points not settled, the companies not to pay wages for time lost on strike, but disciplinary penalties for non-resumption of work after the men had been summoned had been canceled.

HIGH SCHOOL PLANTS PECAN TREES.

At the high school auditorium Tuesday afternoon some very interesting March 2 celebrations were held. All of the students were advised to be in the auditorium at about 2:30, at which time the exercises were to be held. Superintendent R. F. Davis called the house to order, and explained the purpose of the meeting. He told those present that Mr. Roland Jones Sr. had given the high school a quantity of pecan trees to transplant, and had asked that they be planted on the great Texas day, March 2. Mr. Davis praised the idea extravagantly but deservingly, and said that the Nacogdoches High School would not fail to evince its appreciation. He also mentioned that Mr. Jones was present and would make a little talk on the matter.

"I had no idea that my giving the trees would create so much interest," began Mr. Jones, "and I can assure you that the mere giving of the trees with which to beautify your campus affords me infinite pleasure." Mr. Jones made a very brief but feeling talk. He made every word count, giving a word here and there concerning some of the things that he wanted to see beautified around the high school and around Nacogdoches. He said that the campus should especially be kept free from marring objects, such as scraps of paper, etc. He said that if the students had no place in to put papers in which they carried their dinners, he would also be glad to have them a special can made for that purpose. He dwelt briefly on several things, concluding by saying that the affair of the afternoon gave him the utmost pleasure. "In giving these trees, I must confess that I had a selfish object in view. I wanted my name to become linked, long after my absence, with the Nacogdoches High School. It is an honor and a pleasure," Mr. Jones said.

Following Mr. Jones, Superintendent Davis gave a breezy rejoinder in which he went into details concerning the planting of the trees. He expressed appreciation of Mr. Jones' speech and was heartily endorsed by the students, who gave him a warm cheer. Mr. Davis then read from a list he had at hand the names of the rooms which had taken trees to plant, and the number each room was to plant.

It is understood that the juniors planted more trees than any other division of the school. Tenth grade room, number one, planted three trees. The remaining rooms planted from one to two. Thirty trees were planted in all.

At the conclusion of Mr. Davis' talk the students, accompanied by the teachers, filed out of the building ready to set out the trees. About one hour was spent placing them, after which time the remaining time was spent watching the basket-ball game which was in progress and which is elsewhere in the paper.

MARY PICKFORD DIVORCED.

Reno, Nev., March 3.—Mary Pickford, the movie star, was granted a divorce from Owen Moore Monday evening at Minden, a small town near Carson City, on the grounds of desertion. She was accompanied to court by her mother. She wept freely while testifying. Moore was not in court.

GETTING AWAY FROM LUFKIN.

An airplane made Timpson a visit today, circled over the city a few times and when last seen was going toward Houston. The machine was possibly from Lufkin where it is said the people are so anxious to get out of the town that airplanes are in great demand.—Timpson Times.

The above little indiscretion upon the part of the esteemed Timpson Times will be overlooked in this instance, for the reason it is the first offense. Don't ever do it again. Men have fought duels and countries have gone to war on less provocation.—Lufkin News.

Subscribe for The Sentinel.

INTERESTING BASKET-BALL GAME PLAYED TUESDAY.

A rather unique basket-ball game was played at the high school Tuesday afternoon between the Oak Ridge and a representation of the United States army, men out of the 2nd division, regulars. The game was a snappy one from start to finish, and was played with a fairness that won the admiration of every spectator witnessing the game.

The referee of the game was Frank Shofner, a former Oak Ridge boy, Shofner took every precaution to see that the game was played to regulations.

The army boys, not used to playing out door basket-ball, were at great disadvantage in playing the local boys, who have never known anything else but play the game outdoors. If credit cannot be given the representatives of the army on winning the game, it can certainly be given them on the manly appearance they presented. They were men, real men, but were not familiar with the lay of the court and were playing outdoor basket-ball. These two things weighed heavily against them.

One of the representatives of the army attracting the genuine attention of all the spectators was La France, a pure blooded Indian of the Mohawk race. La France played with great skill, and the compliments and admiration bestowed upon him by the spectators should gratify the most careless. La France is a well-built, very strong man, a splendid athlete, and loved by all his associates.

Shofner, one of the Oak Ridge players, won the genuine admiration of all by reason of his expert playing. But all of the team played wonderfully, causing, in the end, the score to be 32 to 11 in favor of Oak Ridge. The game was one very much enjoyed by all who were fortunate enough to see it played, and all the players involved gave a good account of themselves.

The representatives of the army, however, were very anxious to have another game with the Oak Ridge boys Saturday, but failed on account of the latter having to attend to their duties on that day. Lieut. L. J. Harant made special efforts to see that another game was staged, but failed.

Following was the Second Division line-up: William Cosmos, R. F.; Bruce P. Wieddenfelt, L. F.; Morris A. Cayes, center; Litito Serena, L. G.; Thomas La Franie, R. G.; Clifford Fleming, R. F.; Benjamin Axlenrod, L. F.

STATE INSPECTOR OF HIGH SCHOOLS COMING.

County Superintendent G. B. Layton gave out the information Monday that state inspector of high schools would be in the city Friday to examine the schools of Nacogdoches. The inspector this year is Mr. N. B. Mikesell who will determine the Nacogdoches county high schools as to the amount of state aid they shall get. If promises are lived up to, according to Mr. Layton, \$17,000 will be disbursed in Nacogdoches county to aid the needy schools. Thirty-nine schools will receive aid.

OLD EMPLOYEE RESIGNS.

Mr. Jack Trigg, who has been employed for some time by the Frost-Johnson Lumber Co. of this city, has resigned his position with that company, and has accepted a position with the Clary Lumber Company of Shreveport.

Jack will be very much missed by his associates, for he has always been a leader in fun and congeniality. The Sentinel, with his numerous other friends, wishes him success and fortune wherever he goes.

S. L. Crawford and T. J. Greening have purchased the Majestic theatre and are overhauling, renovating and putting the entire show room in first class condition for a strictly up-to-date picture show. They propose to give the best of pictures and will conduct a show for white people only. They extend an invitation to the public to drop in and inspect the sanitary condition of the building.

Claxton Wilson of Dayton, Texas, was in the city Sunday, going to Chisno, accompanied by Mrs. R. H. Wilson to visit Mr. and Mrs. Clifton Wilson.

The NEW SPRING STYLES

THE COAT SUITS ARE DISTINCTIVELY DIFFERENT

The styles are different, Poney Coats, Etons, and Hip Length Coats with flares—the sleeves are made three-quarter length and kimonowise effects. The skirts are made up with accordion pleats, side pleats and Box pleats—some are made with plain skirts.

Sashes are very much in evidence, these wrap gracefully around the waist. Some are hand embroidered, others are trimmed with braid and buttons. The materials are Poiret Twills and Tricotines. The prices are:

\$49.50, \$52.50, \$59.50, \$64.50, \$69.50
\$75.00, \$89.50 and up to \$195.00

IN SILK DRESSES THE NEW ARRIVALS ARE MANY

Our present showing consists of Taffetas, Crepe de Chine, Georgette Crepe, Foulard and Printed Georgette Crepes.—Most of them are made up in Basque effects, with short sleeves and low neck—The skirts are made up with Bouffant effects—Tunics, Ruffles and full accordion pleated.

The popular colors are Navy, Copenhagen, Taupe, Beige and Flesh. The sizes range from 16 to 46. Priced at—

\$22.50, \$25.00, \$29.50, \$35.00, \$45.00 and up

WEEKLY SENTINEL

BY GILES M. HALTOM

EXHIBIT OF WAR TROPHIES IN NACOGDOCHES SOON

Lieut Harant of the army recruiting station has returned to Nacogdoches after several days at Dallas that were spent at conference with the big army chief. While there the lieutenant succeeded in getting authority to have the divisional war trophies exhibited here in Nacogdoches. The exhibit will arrive in town about Sunday evening and will remain until the following Saturday.

Have you heard of Soissons, Chateau Thierry, St. Mihiel, Massif du Blanc Mont, and the Argonne?

The second division was in all of these.

"The history of the war is written by the wound chevrons on the sleeves of these men," said General Pershing.

General Pershing made this remark of the men of the second division on his recent visit to Camp Travis.

Why not join an "outfit" with a fighting record? Enlist at any army recruiting station and ask to be assigned to the 2nd Division at Camp Travis, San Antonio, Texas. You will be sent to us and allowed to select your organization in the division.

The largest part of "The Old Fighting Second" is still together at Camp Travis, Texas. The fine climate, good food and comfortable barracks afford a marked contrast to the living conditions in France.

Major General James G. Harbord, formerly chief of staff to the commander in chief, General John J. Pershing, is again in command of the division. General Harbord commanded the Fourth Brigade at Chateau Thierry and Bois du Belleau, and the second division at Soissons; later he was placed in command by General Pershing of that most important section, the service of supplies.

Camp Travis is located on the outskirts of San Antonio, the largest and finest city in Texas, and the jitties run to and from camp continuously, making the trip in fifteen minutes. The camp has all modern conveniences, comfortable barracks, adequate bathing facilities, recreation halls and grounds, a fine library, a well-equipped gymnasium, with swimming pool and shower baths, and an educational and vocational curriculum which enables the soldier to engage in any kind of training he may desire. Military training, however, is not neglected, but training periods are so arranged that ample time is allowed for scholastic pursuits.

"The Old Fighting Second", after the great hardships endured in the campaigns against the Boche in Belleau Woods, Soissons, St. Mihiel, Blanc Mont and during the Meuse-Argonne has at last come to a "Bon" Sector.

The one year enlistments are still open to all men that are physically fit. Don't fail to call at the local recruiting station and get full particulars pertaining to these branches of Uncle Sam's army.

See Lieut. Harant, he is always ready to answer all questions that may be asked.

CHILD CONSERVATION DAY.

Governor Hobby has issued a proclamation appointing Tuesday, March 2, as Child Conservation day for the state of Texas.

This was done in accordance with the request of the Texas Congress of Mothers, which has for several years chosen Texas independence day as the one day of the year in which all the people of this great state are asked to give their loyal support and contributions to the financial campaign which takes place on that day throughout the state.

Nothing more clearly exemplifies the character of a people than the care they take of their children and the Texas Congress of Mothers gives undivided thought and attention to this great work, being thus worthy of the hearty support of every right-minded citizen in the state.

Under the guidance of thoughtful, capable women the Texas Congress of Mothers has grown tremendously since its organization and is fast reaching out to the remote corners and small settlements of the state, working always in conjunction with the National Congress of Mothers.

The national organization has recently named a salaries committee to carry on propaganda in all parts of the country toward the raising of teachers salaries. Mrs. Florence Flemming of Bloomington Ill., is chairman of the committee. In Texas, Mrs. E. A. Watters, president of the Texas Congress of Mothers is a member of the salaries committee of the state teachers association of which committee G. O. Clough of the Fort Worth Junior High school, is chairman. Mrs. Watters has appointed Mrs. M. H.

Moore of Fort Worth chairman of the state committee on salaries for the Texas Congress of Mothers.

The work of the congress along this line has been of many years' standing and at the annual meeting at Wichita Falls in 1918 a resolution was adopted asking all parent-teachers' clubs of the organization to do their utmost to secure an increase in teachers salaries to meet the increased cost of living.

Resolutions adopted in the 1919 convention of the Texas Congress of Mothers at Austin pledged support of the congress to all measures proposed for the benefit and upbuilding of the public schools of the state and urged the members of every branch of the organization to study the essential facts of the present educational crisis and bive their aid in concerted action toward bettering the conditions which now exist. In behalf of the schools and their teachers there is no stronger ally than the Texas Congress of Mothers, whose aim and purpose it is to improve all conditions in home, school and community life that affect the welfare and advancement of the child.

No other town in this state or any other place, as to that matter, can expect to thrive and prosper without the concentrated efforts of its citizens and the judicious expenditures of money. The towns in our state today that are prosperous are the ones that have donated liberally to enterprises that employ labor. Thus, it is and always will be that the liberal and broad-gauged town will thrive while the tight-fisted ones are struggling for the necessities of life. It is within the power of every town to increase her population. With which class do you desire to be rated? Do you wish it to go out to the world that you lack the energy to protect your own interest? If not get to work and do something that will increase your own wealth and make your neighbor more contented.—Ex.

The Sentinel was in error Friday when it stated that the thirty-five oil wells were to be drilled on the farm of Whit Smith near Melrose. The wells, according to Mr. Barnes, are to be drilled on the 108-acre farm of Ike Smith, who lives a short distance south of Oil Springs. The work is to commence within sixty days.

Of the 400 native Chinese newspapers, not one fails to pass favorable comment on the American refusal to ratify the Peace Treaty which would have turned over to Japan the territory of Shantung, which is China's "holy land." China feels that the United States is again showing its historic friendship toward Chinese freedom.

The French Chamber raised railway fares forty-five to fifty-five per cent, and freight rates 115 per cent. Family fares, however, were reduced. Families with three children are given a thirty per cent discount, and families of seven children a seventy per cent discount. Disabled soldiers ride at half fare.

"How," asked the teacher, of the youngsters in her domestic science class, "can you keep milk from souring?"

Emily's answer was brief and to the point.

"You should leave it in the cow," she said.

Max Hart is busy this week getting oil land leases. He reports unusually good success in his endeavors, stating that as a whole the farmers are glad to lease in order to get something started in the way of finding out what really might be on their land.

H. L. McKnight is absent from his duties this week due to his presence in Chicago, where he has gone to represent the A. & M. College. Mr. McKnight hopes to get some valuable suggestions from the convention not only for the A. & M. College he represents but for the Nacogdoches Chamber of Commerce also.

The Banita Hotel is undergoing a change just now. Monday morning found all the bedding and furniture packed ready to be removed from the building. Mr Hart, who has charge of the building did not give out any statements as to what kind of plans he had in view for the future. It is understood that the owners of the building are going to tear away the present building and replace it with one more modern and convenient. These are only hearsays, however, as no definite information was given as to the detailed plans of the future.

Carthage, Mo., Feb. 26.—The First National Bank of Sarcoux was robbed of \$10,000 today by robbers digging through the wall of the vault. A month ago the same bank was robbed of \$8,000.

RAILROADS ARE RETURNED TO PRIVATE OWNERSHIP

Washington, D. C., March 1.—The United States Railroad Administration, the government agent which for over two years controlled the operation of the nation's railroad systems today passed out of existence. With its passing at mid-night the 230 lines that had been merged into one gigantic system again went under control of private interests, free to operate in competition as of old. The transfer was without incident, there being nothing to indicate to the traveling public that there had been a change. Of the staff of the directors who controlled the roads during the government operation. Director general Hine alone remains. He had no authority in directing operations, and remains simply to clear up matters still pending.

ARIZONA OFFICERS CHASE MURDERERS INTO MEXICO.
Nogales, Ariz., March 1. — Sheriff R. R. Earheart, who with a posse and bloodhounds, crossed the international border searching for two Mexican bandits who killed Alexander Frazier and wounded his brother at Arivaca, Arizona, Frida, gave up the chase and, returned to Montana Camp last night. A troop of the Tenth cavalry scoured the country around Ruby, Arizona.

MINE SUPERINTENDENT KILLED

Laredo, Texas, March 1.—Ray A. Corcoran, an American and superintendent of the Santa Gertrudis Mining Company at Pachuca, Mexico, was shot and killed Saturday in his office by a clerk, according to word received here today. Corcoran's relatives live here and his wife is visiting them. They are trying to get permission to bring the body to the United States. Details of the shooting are unavailable.

ATTEMPT TO KILL AMBASSADOR.

Rome, March 1.—It is authoritatively learned that an unsuccessful attempt has been made to assassinate Lord Acton, the British minister to Finland, at Helsingfors. The minister was driving to the market place early this morning when the shots were fired. He was not struck. The motive for the attack was not learned. Lord Acton was formerly British consul general at Zurich.

STEEL CORPORATION WINS

Washington, D. C., March 1.—The supreme court today upheld the formation of the United States Corporation and subsidiary combination in the iron and steel industry, refusing to dissolve the so-called steel trust and dismissing the government's dissolution suit under the Sherman law. The court ordered the dismissed without prejudice, permitting the government to sue again if the corporation actually resorts to illegal or wrongful processes.

ITALY'S POSITION

Rome, March 1.—Premier Nitti is disposed to accept the compromise settlement on the Adriatic question, according to the Messaggero. By this arrangement Italy will not claim territorial continuity between Istria and Fiume on condition that the city be placed under Italian sovereignty, the League of Nations to be in charge of the administration of the port.

STEAMER WRECKED

Halifax, N. S., March 1.—The Leyland steamship "Bohemian" 5,500 tons, bound to Liverpool from Boston, went on the rocks 40 miles east of Sambro early today, the steamers radio said. Tugs rescued all of the 184 passengers aboard.

HOTEL HOLOCAUST

Enid, Okla., March 1.—Four persons were killed and two injured at Hennessy when the Rhodes hotel burned to the ground early today. The dead are Mrs. Lou Armke, William Holmes, Garfield Rosenthal, Hennessy residents, and W. R. Craner of Sabetha, Kan.

STRIKE LEADERS ARRESTED.

Paris, March 1.—Five railroad strike leaders were arrested today. The strike situation is believed to be somewhat better. Those arrested were charged with interference with liberty to work.

U. OF T. FIRE

Austin, Texas, March 1.—A fire of unknown origin caused \$10,000 damage to the building and contents of the University of Texas Faculty Club Sunday.

What to do for

Indigestion

"Pape's Diapepsin," by neutralizing the acidity of the stomach, instantly relieves the food souring and fermentation which causes the misery-making gases, heartburn, flatulence, fullness or pain in stomach and intestines.

A few tablets of "Pape's Diapepsin" bring relief almost as soon as they reach the stomach. They help regulate disordered stomachs so favorite foods can be eaten without distress—Costs so little at drug stores.

WOMEN DELEGATES TO NATIONAL CONVENTION

Albany, N. Y., Feb. 27.—The democrats of New York state held an unofficial convention today to select delegates at large to the national convention and adopt a platform. It is expected the delegates will go unopposed and probably will be Governor Smith, William Church Osborn, Mrs. Elizabeth Colbert and Miss Elizabeth Marbury.

Effective March 1st, there will be a change in the management of the Nacogdoches exchange of the Southwestern Telegraph & Telephone Co., Mr. W. L. Wells, who has been in charge, going to San Antonio, where he will be succeeded here by C. S. Hill of La Porte, who arrived in the city Friday and is busy familiarizing himself with local conditions and requirements. His family will join him within a short time, having stopped off at Lufkin for a visit with relatives.

WANT "WILSONITIS".

Manchester, England, March 1.—President Wilson's letters in the Adriatic matter are considered by the Guardian a refutation of "reports that his illness had caused some loss of mental force and balance," adding that if the president is suffering from malod of political judgment "could not some American bacteriologist convey us a few germs that we may inoculate our European premiers?"

SENATOR BANKHEAD DEAD.

Washington, D. C., March 1.—Senator Bankhead of Alabama died today of the gripe.

STILL ANOTHER OIL BOOST.

Fort Worth, Texas, March 1.—The Sinclair Company today announced 25-cent advance in North Texas crude oil, making it \$3.50 per barrel.

TEXAS ACT CONSTITUTIONAL

Washington, D. C., March 1.—Texas court decrees upholding the constitutionality of the state baristry act was sustained by the supreme court today.

DEPOSITORY LAW UPHELD.

Austin, Texas, Feb. 26.—The constitutionality of the State depository act was upheld today when the Third Court of Civil Appeals affirmed the decision of the trial court in the case of H. S. Lawson vs. The State Depository Board.

The grandest institution in the world, the United States Army, the kind of men who have charge of the Nacogdoches recruiting station are men that any town might well feel proud of. Nacogdoches business men should make an effort to get the army recruiting station of Nacogdoches made permanent. The secretary of the chamber of commerce is heartily in favor of it, and every business man should be.

SCHOOL NOTES

Prof. T. H. Hunt is preparing to do some extensive work in getting the boys lined up for the interscholastic contests which are to be held March 19 and 20. Those who are coming out for track are Floyd Woodlan, Eldridge Gaston, Herman Sullivan, Sherrill Sullivan, Arnold Muckleroy, Eugene Muckleroy, who will run one mile, Frank McLain and Burk Summers.

INCOME TAX RETURNS DUE

Business Men, Farmers and Wage Workers Must File Schedules of Income for 1919.

MARCH 15 LAST FILING DATE.

Net incomes of \$1,000 or Over, if Single; or \$2,000 or Over if Married, Must Be Reported.

The Income Tax imposed by Act of Congress on earnings of the year 1919 is now being collected.

Returns under oath must be made on or before March 15 by every citizen and resident who had a net income for 1919 amounting to:

\$1,000 or over, if single; or if married and living apart from wife (or husband); or if widowed or divorced.

\$2,000 or over, if married and living with wife (or husband).

The status of the person on the last day of the year fixes the status for the year with respect to the above requirements.

Under any of these circumstances a return must be made, even though no tax is due.

Husband and wife must consider the income of both, plus that of dependent minor children, in meeting this requirement; and, if sufficient to require a return, all items must be shown in a joint return or in separate returns of husband and wife.

A single person with minor dependents must include the income of such dependents.

A minor who has a net income of \$1,000 or more is not considered a dependent, and must file a separate return.

Personal returns should be made on Form 1040A, unless the net income exceeded \$5,000, in which case Form 1040 should be used.

Residents of Texas should file their returns with, and make payments of Income Tax to, Alexander S. Walker, Collector of Internal Revenue, Austin, Tex.

How to Figure Income.

The best way to find out whether one must file a return is to get a Form 1040A and follow the instructions printed on it. That form will serve as a reminder of every item of income, and if a return is due it tells how to prepare and file it.

If in doubt on any point as to income or deductions, a person may secure free advice and aid from the nearest Internal Revenue office.

Guesswork, estimates and other hit-or-miss methods are barred when a person is making out his Income Tax return. Accuracy and completeness must be insisted upon. The return is a sworn statement. As such it must be thorough and accurate.

Salaried persons and wage earners must ascertain the actual compensation received. Overtime, bonuses, shares in the profits of a business, value of quarters and board furnished by the employer and other items which are compensations for services must be included.

It must be borne in mind that compensation may be paid in other forms than in cash. A bonus paid in Liberty Bonds is taxable at the market value of the bonds. A note received in payment for services is taxable income at its face value, and the interest upon it is also taxable.

Other Returns Due.

Every partnership doing business in the United States must file a return on Form 1065; and every personal service corporation must file a similar return.

Corporations must file annual returns on Form 1120.

Trustees, executors, administrators and others acting in a fiduciary capacity are required to file returns. In some cases, Form 1041 is used; in others, Form 1042; and still others, returns on both forms are required.

Information returns, on Forms 1099 and 1098, must be filed by every organization, firm or person who paid, during 1919, an amount of \$1,000 in salary, wages, interest, rent, or other fixed or determinable income to another person, partnership, personal service corporation or fiduciary. These information returns should be forwarded directly to the Commissioner of Internal Revenue (sorting divisions), Washington, D. C.

INCOME TAX IN NUTSHELL.

WHO—Single persons who had net income of \$1,000 or more for the year 1919.

WHEN—March 15, 1920, is final date for filing returns and making first payments.

WHERE—Collector of Internal Revenue for District in which the person resides.

HOW—Full directions on Form 1040A and Form 1040; also the law and regulations.

WHAT—Four per cent normal tax on taxable income up to \$4,000 in excess of exemption. Eight per cent normal tax on balance of taxable income. Sur-tax, from one per cent to sixty-five per cent on net incomes over \$5,000.

ASPIRIN FOR COLDS

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Colds, Pain, Headache, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monacoele-ster of Salicylicacid.

ALL SERENE.

Iron River, Mich., Feb. 26.—The armed force of federal agents, under command of Major Dalrymple, who came here from Chicago to "put down the liquor rebellion in Upper Michigan," today has been withdrawn and the revolt itself has flickered out. The only casualties were nine barrels of home-made wine taken from a parish priest's house, where the state had stored it for safe-keeping, and poured into the snow.

Had Their Pictures Taken.

Iron River, Mich., Feb. 26.—State's Attorney McDonough and Major Dalrymple held a conference in the lobby of a hotel, where after mutual accusations, grandstanding publicity-seeking, McDonough threatened to arrest the major and jail him if he made a move to "start something." A warrant for Dalrymple's arrest was held by the chief of police, who listened to the conversation, but the warrant was not served. The conference was carried on in anger, but at its conclusion McDonough and Dalrymple posed side-by-side for a camera man.

SIZE OF MAJORITY SURPRISE.

London, Feb. 26.—All political questions for the moment are eclipsed by Former Premier Asquith's triumphant return to parliament by a majority the size of which astonished even his friends. His restoration to parliament is held to be an event destined to have important consequences in the politics of Great Britain, and probably the world. It is expected he will take the leadership of the opposition.

COMPROMISE RAILROAD BILL.

Washington, D. C., Feb. 27.—The compromise railroad bill was returned to the White House today by the department of justice, to which it had been referred for an opinion regarding its validity. The president is expected to act on it today or tomorrow.

PREMIERS' REPLY RECEIVED.

Washington, D. C., Feb. 27.—The reply of the British and French premiers on the Adriatic question was received today at the state department and sent to the White House immediately after it was decoded. It was announced that it would not be made public until the president had studied it.

OIL PRICE CLIMBING.

Wichita Falls, Texas, Feb. 27.—The Prairie Oil and Gas Company today announced a 25-cent advance in Burk-burnett crude oil, making the price \$3.25 per barrel. The Gulf Pipeline Company announced a like advance.

IRISH HOME RULE.

London, Feb. 26.—The government's bill for Irish home rule was presented in the house of commons today and received its first reading immediately.

STILL ANOTHER.

Collinsville, Tenn., Feb. 26.—The deposits boxes of the People Bank were rifled last night of Liberty bonds and other securities to the value of \$25,000.

Winter Meals From Your Summer Garden.

IN the cold winter, when canned or fresh vegetables are so expensive, how fine it is to be able to go to the fruit closet and select a jar of home-canned beans, peas, beets, carrots, sweet corn, etc.

Home canning, or cold packing, proves most satisfactory when the vegetables are fresh from the garden. All varieties best suited to canning are easy to raise and big yields are the rule when grown from Northrup, King & Co.'s Seeds.

For 36 years our seeds have made gardening a source of pleasure and profit to thousands of "back yard gardeners." Join this vast gardening army—go to your dealers early and select packets of all the varieties you are fond of, from the convenient Northrup, King & Co. Seed Case. Standard size packets are only a nickel this year—and think of all the vegetables you can raise from one packet.

NORTHRUP, KING & CO.'S SEEDS
MINNEAPOLIS MINNESOTA

THE UNITED AMERICANS

Houston, Texas, February 28.—State headquarters of the United Americans is rapidly lining up its plans to carry a realization of existing conditions to the uttermost corners and most remote parts of Texas. It will not be content to spread the doctrine of Americanism in the cities and centers of population. Even though the most apparent need for education may be at present in cities, it realizes that if the current of public thought and understanding of the vital issues of today are to be effective in counteracting the illusory theories and destructive plans of those who urge disorder in the place or order, the doctrine of 100 percent Americanism must be carried wherever there is a Texan with red blood in his veins.

During the week over seven thousand letters have been written and dispatched to Texans in the first movement to create a concrete organization which will forestall and counteract the insidious propaganda which is finding its way into Texas from the busy presses of the bolsheviki in the United States.

Already replies are coming in and the indications are that within a short time membership in the United Americans, in Texas, will spread to the four corners of the state.

"It is a colossal job to awaken our people to these disasters which are threatening them," declared John H. Kirby, national committeeman for Texas. "It is difficult for our patriotic citizens in Texas to conceive the enormous propaganda which is being flooded all over the country by the bolsheviki presses. It is our purpose to awaken them before it is too late. It will amaze many of us, hundreds of thousands of us, in fact, to know the bolsheviki movement in the United States now has a capable and systemized force of over 2,500 trained and paid agitators, it has 265 daily, weekly and monthly periodicals, some of which have a circulation of 200,000 and reach in ten million readers.

"This literature, some of which is high class and therefore more dangerous, is especially aimed by millions of the disaffected who are being led away from the very foundation of American business. It induces us to entertain this propaganda to the highest degree to organize to the fullest extent. And this is just what we are doing.

"Once we shall have gotten our organization well under way we will soon show the necessity for our activities. The utmost effort of every red-blooded American is needed to stem the tide and to safeguard our liberties and our system of government.

"It will not do to declare the threat is needless and the danger non-existent. It will not do to close our eyes while we are being devoured. That is why we are inviting Texans to join in the movement to educate our people to the dangers which are no less real because they are camouflaged under various 'isms'. It will not do to dawdle while the will of Lenin and his kind is permeating the world.

"That is why we are urging the thoughtful, patriotic Americans who are worthy of that proud title to rise and smite this danger before it reaches that stage where it can and will destroy them. The greatest danger is that they may not realize the danger and not recognizing it, and withhold the stroke which will kill it and save themselves, their country, their institutions."

Austin, Texas, Feb. 27.—A total of 192 grade-crossing accidents, with 47 killed and 312 injured, in Texas during 1919, is the announcement made by the railroad commission.

HAD CHRONIC BRONCHITIS FOR TWENTY-SIX YEARS NOW WELL AND HAPPY THIS IS WORTH READING

The experience of Mr. E. J. Toupaik, 1438 Rose street, LaCrosse, Wisconsin, is chiefly remarkable on account of the length of time he was afflicted.

He writes: "I have been suffering with chronic bronchitis for twenty-six years and every winter I would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only temporary relief.

"This winter I was taken with Grip and was in awful shape. A fellow workman advised me to take PE-RU-NA. By the time I had used three-fourths of a bottle, the hoarseness was gone, also that tired feeling. I am on my second bottle. Hereafter PE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose."

For any disease due to catarrh or catarrhal conditions, PE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach trouble, constipation, rheumatism, pains in the back, side and loins, bloating, belching gas, indigestion, catarrh of the large and small intestines, are some of the troubles for which PE-RU-NA is especially recommended.

PE-RU-NA can be purchased anywhere in either tablet or liquid form.

EAST TEXAS C. OF C.

Tyler, Texas, Feb. 28.—Hundreds of business men, representing between fifty and sixty counties in East Texas, join in a call for a two days meeting to be held at Tyler on March 30 and 31 for the purpose of organizing an East Texas Chamber of Commerce. The Tyler Chamber of Commerce will entertain the visitors with a banquet on the night of March 30. A program is being arranged which will include many prominent speakers of this and other sections of Texas.

The purpose of the proposed organization is to solidify East Texas counties so the citizens will work as a unit in a constructive development program looking to a better appreciation of community possibilities, increased educational facilities and an advertising campaign that will bring home seekers, stimulate fruit and truck growing, dairying, hog-growing, a restocking of farms with improved livestock, home owning, better farm homes and improved methods of classing, packing and marketing.

The invitation is general to East Texas business men and farmers, and it is expected that between 500 and 600 will be present. Preliminary work is being done urging an increased production of food and feedstuffs.

WOMAN CONVICTED.

Dallas, Texas, Feb. 28.—Mrs. Ida Valera Ott, who shot and killed her husband on a downtown street here last December 23, was found guilty of manslaughter by a district court jury today and sentenced to two years imprisonment. The jury made no recommendation for a suspended sentence. The jury was out 18 hours. Mrs. Ott is 22 years old and her husband was 24.

TO PROSECUTE VIOLATORS.

Washington, D. C., Feb. 28.—All persons found violating the federal prohibition enforcement act will be proceeded against to the limit of the law, irrespective of state statutes legalizing the sale of liquor, it was announced today by Commissioner Roper of the internal revenue bureau.

Mr. Sulks and Mr. Sitton, school trustees, were in the city Friday attending to important school business.

DEMPSEY A DRAFT-EVADER.

San Francisco, Calif., Feb. 28.—Warrants for the arrest of Jack Dempsey and his manager, Jack Kearns, are in the hands of the United States marshal today. An indictment charging them with conspiring to evade the selective draft was returned by the federal grand jury. A second indictment charged that Dempsey had actually violated the law.

SCHOOLGIRL MOONSHINERS

Chicago, Ill., Feb. 28.—Four students and two teachers at Kemper Hall, an exclusive young women's school at Kenosha, Washington, were expelled Thursday for flagrant violation of school rules. Students reported the girls and two teacher were found making raisin wine.

OKLAHOMA RATIFIES.

Oklahoma City, Okla., Feb. 28.—The Oklahoma legislature has completed ratification of the suffrage amendment.

H. C. L. ELSEWHERE.

Washington, D. C., Feb. 27.—Living costs advanced more in six other countries since 1914 than in the United States, according to comparisons retail food prices in nine countries by the bureau of labor statistics. In Australia and New Zealand the advance has been less than in America. The price of the principal foods in the United States increased 88 percent from July, 1914, to September, 1919, compared with advances of 116 percent in Great Britain and 93 percent in Canada for the same period.

YOUNG FOSTER SON OF VICE PRESIDENT DEAD.

Washington, D. C., Feb. 26.—Morrison Marshall, foster son of Vice President Marshall, died of acidosis today after a short illness.

The child was taken into the vice president's family in June, 1917, when he was 3 years old. He was never legally adopted. The Marshalls have no children of their own.

PRICE OF COTTON GOODS TO BE INVESTIGATED.

Washington, D. C., Feb. 27.—Inquiry into the reasons for the enormous increase in prices of cotton goods will be conducted by the federal trade commission, under a resolution favorably reported by the house interstate commerce committee today.

EIGHT YACHTS BURNED.

New York, N. Y., Feb. 26.—Sir Thomas Lipton's challenger for the American cup, "Shamrock IV," and the cup defender candidate "Vantier," were threatened, but escaped destruction, early today when fire swept through the shipyards of Robert Jacobs at City Island, burning eight private yachts and three buildings. It is estimated the loss is nearly \$1,000,000.

GIRLS' DORMITORY.

Austin, Texas, Feb. 27.—Young women students who attend the summer school of the University of Texas will find the dormitory of Lubbock Hall and annex open to them. Every room in Lubbock Hall has at least two large windows, and some of them have as many as six. One of the annexes has a large sleeping porch. Lubbock Hall is only three blocks from the campus. The grounds to this building are being put in order for all kinds of out door sports—tennis, volley-ball, hockey, etc. Plans for the summer management have not been fully completed, but cards are now being printed for those desiring a place in the dormitory to fill out. About ten applications have already been received and those will be given first consideration. Only 99 girls can be accommodated. Those wishing to secure rooms for the summer session may address Miss Martha C. Lockett, Lubbock Hall, Austin.

FOR AND AGAINST.

Washington, D. C., Feb. 27.—While the railroad bill is in the department of justice being scanned with reference to its validity, the president is receiving vigorous representations for and against his approval of the measure. Six big organizations of farmers are the latest to urge the president to sign the bill.

VOTE IN TWO WEEKS

Washington, D. C., Feb. 25.—A vote within the next two weeks on the ratification of the treaty of Versailles is contemplated by senate leaders. Pershing legislation displaced the treaty on the floor today, but it will be called up tomorrow by Senator Lodge, who will ask that it remain the business of the senate until acted upon.

Subscribe for The Sentinel.

BELLEAU WOOD MAPPED BY U. S. MARINES.

Washington, D. C., Feb. 28.—A large relief map of the section of Belleau Wood in which U. S. marines did such severe and heroic fighting during the war is being prepared by marine corps topographical experts.

The map will be twenty-two feet square and will show the character of the terrain of a territory sixteen miles square.

The data for the preparation of this map was secured by a mapping party of marines who just returned from France.

PROMINENT PLANTER DEAD.

Dallas, Texas, Feb. 28.—Sheb Williams, former United States marshal and a cotton planter of wide repute, died at his home in Paris, Texas, today. He experimented with cotton-planting in Egypt. He was about 65 years old.

TROUBLE IN JAPAN.

London, Feb. 28.—The Daily Telegraph says serious information was received here Friday night regarding the situation in Japan. The paper gave no details. The Japanese embassy declared it had no information of anything untoward occurring in Japan.

MOTHERS OF TEXAS, PREPARE

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, are the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many women in Texas would testify just as do the following:

HOUSTON, TEXAS.—"When I was a young girl I suffered from irregularity and pain. Dr. Pierce's Favorite Prescription relieved me of all pain and regulated me so that I was completely restored to health. Since I married, whenever I have needed a special tonic I have taken 'Favorite Prescription' and have been amply repaid for the comfort and strength it has given me."—Mrs. M. FREEMAN, 414 Marie Street.

WACO, TEXAS.—"It is a pleasure to me to recommend a medicine that has been of such great benefit to me as Dr. Pierce's Favorite Prescription was while raising my family. I have taken this 'Prescription' as a tonic during expectancy and I know it helped me in every way. It is an ideal medicine for the mother to be."—Mrs. BEULAH OWENS, 313 North 4th Street.

CALVESTON, TEXAS.—"When I was quite a young girl I had a terribly nervous spell. My stomach was affected so that I craved food all the time, and I could not sleep at night. My doctor advised me to take Doctor Pierce's Favorite Prescription (sold by druggists), and before half the bottle had been taken I lost all the abnormal appetite and was able to rest well at night. I have never had such a condition since that time so can honestly say that the 'Favorite Prescription' cured me of my nervous ailment."—Mrs. ELLEN LAWELL, 1614 19th Street.

Bring your broken machinery to Bright's Garage to be welded. 2-3d 1w.

We despise a catty man and have no particular admiration for a woman who sings bass.

While a new name is being given limberger, a new smell should have been found for it.

There was a lot of talk before the telephone was invented, and a lot too much every since.

There is no law compelling us to associate with the high society folks we happen to get introduced to.

When prehistoric man started out wooing with a club the woman fled before him, but there is no evidence that she ran very fast.

Instances are cited where golf cured many ailments, but so far nothing has been discovered that will cure golf.

"Don't eat too much," advises one of our able newspaper doctors. That is good advice, alright, but there is not a chance in the wide world for us to disregard it.

TO THE HOG RAISERS OF NACOGDOCHES COUNTY.

After ten years experience in the raising of registered Duroc-Jersey hogs, the most of which I sold to the packing houses. I am now going to make a specialty of fancy bred stock. Have this past month purchased eight high-priced fancy individuals of the very best blood lines of the Duroc breed. These, crossed with the very best specimens of my foundation stock of Defenders and Colonels, will result in pigs that will be a credit not only to Nacogdoches county but to the state of Texas.

I have spared no money and have put in quite a bit of time locating hogs of the real show type. These hogs are sired and grand-sired by Great Sensation Orion, who cost \$1,750 when a pig by the \$10,000 Jackson's Orion King; by Scissors, who Pine Crest Farm refused \$50,000 for; by the famous show boar, Joe Orion 2nd, by the mighty Pathfinder, founder of the celebrated Pathfinder strains, and by the great Orion Cherry King, founder of the smoothest Duroc strains of them all.

I have not jumped in to the Duroc business, nor gone in on a sudden impulse, but have been working quietly to this end for ten years. I now have my place fixed with fences, houses and pastures so I can raise hogs to advantage. I am now ready, so am going ahead regardless of high or low prices of hogs. I am in this business to stay.

It is my aim to build my hog business on merit. I intend to sell nothing but good stuff; and that, with the positive guarantee that if it is not as represented, I will refund the purchase price and pay express on animal back home. I am going to sell my stock at reasonable prices considering its quality. And to encourage the raising of better Durocs among my neighbors and the farmers over the county generally. I will sell to them at reduced prices. I will make it pay any man in Nacogdoches county to see my hogs before ordering elsewhere.

I cordially invite all farmers, business and professional men to inspect my herd at any time, whether you are a prospective buyer or not. It is no trouble to show the hogs. Would like for men interested in other breeds to visit my herd also. I like to talk to hogmen and have no quarrel with any hog, regardless of his color or conformation, if he is a good one of his breed.

Yours for better livestock in Nacogdoches county and East Texas generally.

Wm. B. Wortham,
Blossom Hill Farm,
Garrison, Texas.

J. C. Harris is reported to be on the sick list this week. He is suffering from a severe attack of the influenza.

ROAD CONTRACT AWARDED

The Nacogdoches county commissioners court met Monday and received bids on one of the pieces of work which is to be done in the way of road development this year. The road on which bids were received is the road leading westward from Nacogdoches on to Douglass into the Angelina river bottom. A large number put in bids, four of whom were out of town concerns, one of whom made the lowest bid. Smith Bros. of Crockett was the contracting party winning the piece of work. This contracting party took the work for the sum of \$164,409.93.

Others bidding were J. S. Moon of Lufkin who bid \$166,855.86; Hadgen & Austin, Houston, who bid \$216,694.33; Wormak Construction Company of Texarkana who bid \$222,705.68. Considerable excitement prevailed during the submission of the bids, and the court house had a large crowd filling its corridors and rooms during the time of the reception of the bids.

The work on the road going to westward will commence March 15, and is to be completed October 1 of this year. Native gravel are to be used, the same are to be obtained from a large gravel pit near Douglass. In the meantime survey by Mr. L. L. Munsell will continue rapidly on other roads in the county so that bids can be received on them as early as possible.

The road leading westward to Douglass is considered by experts to be the most expensive road to be developed in the county. The state engineer, Geo. McCellan, and federal engineer, Mr. White, upon examining this road and the possible cost of building it declared that the road could not possibly be built for less than \$10,000 per mile. The reason for this is because of one of two unusually steep and very bad hills which will require an enormous amount of energy and time to reduce to the proper and standard elevations. Another thing with which to be reckoned is the Angelina bottom which is an enormous piece of work, requiring an incalculable amount of patience and energy to be expended before it can be made into a satisfactory highway.

So far, not more than one million dollars are in sight for the development of the county roads, and it is thought by some of Nacogdoches' most conservative business men that if it required the sum of \$164,409.93 to build the road from Nacogdoches to the Angelina river bottom west of Douglass, the funds appropriated for the road building were not enough to reach all the roads that are to be developed in the county but after a consideration was given the enormous hills, the great stretch of bridging which must be built through the Angelina river bottom, the iron bridges which are to be built, these will not be problems to be confronted in the building of the other highways of the county, the spirits of the pessimists arose considerably.

County Judge F. P. Marshall speaking with reference to other pieces of road building said Monday that within six weeks five or ten times more mileage could be bid on by the contractors. Surveying on these roads is going on at a rapid pace.

The commissioners presiding in today's court were Herman Seale, John Bates, A. B. Stoddard and Guy Blount. The road leading to Douglass goes through the very richest portion of Nacogdoches county. The western part of the county is not as much developed as it might be with better highways, and it is thought by business men of the city, and the farmers also, that the road will greatly stimulate the western part of the county in many valuable ways. At the court were men from all parts of the county and adjoining counties who were interested in the great piece of work which was to be let out. Business men had been especially invited to be present at the time the bids were given out, and a good representation of them was present.

The road extending from Nacogdoches to the Angelina bottoms is 18.64 miles in length.

Will McMillian of Rayburn, Liberty county, is in the city this week attending the commissioners' court

BAPTISTS LAUNCH BIGGER PROGRAM

1100,000,000 IN SUBSCRIPTIONS AND \$20,000,000 IN CASH BY MAY 1 IS NEW AIM SET.

WILL SEEK SOULS, ALSO

Evangelistic Campaign Calculated To Reach Thousands of Unsaved Persons is Announced For March and April of This Year.

Now that the subscriptions to the Baptist 75 Million Campaign have passed the \$90,000,000 mark, leaders in all the states composing the territory of the Southern Baptist Convention have resolved to place this sum at \$100,000,000 by the meeting of the Convention at Washington early in May. It is also planned to bring the total of cash offerings by that time to \$20,000,000. The convention at Washington will be the seventy-fifth session of that body and it is deemed appropriate to celebrate the diamond jubilee of the organization with an enlarged subscription and cash sum with which to carry forward the missionary, educational and benevolent work fostered by the convention in all parts of the world.

DR. GEORGE W. TRUETT
Chairman of the Baptist Campaign Commission.

This additional sum will be sought from churches which did not have a part in the original campaign, from members of churches who did not subscribe then and from other persons who made subscriptions in the fall but who feel disposed to increase their subscriptions now. This effort for increased funds will be made during the last week in April so that everything can be completed before the convention meets in Washington May 12.

Returns By the States. The reports on the original drive for funds in the 75 Million Campaign to date, as made by the several states, follow. Alabama, \$4,100,000; Arkansas, \$2,285,000; District of Columbia, \$250,000; Florida, \$1,370,392; Georgia, \$10,100,000; Southern Illinois, \$830,704; Kentucky, \$7,167,718; Louisiana, \$2,575,000; Maryland, \$907,760; Mississippi, \$4,144,902; Missouri, \$2,062,506; New Mexico, \$732,266; North Carolina, \$7,250,000; Oklahoma, \$2,200,000; South Carolina, \$7,554,772; Tennessee, \$5,310,000; Texas, \$18,560,000; Virginia, \$5,298,488. Returns from the foreign mission fields and other sources not included in the above bring the total subscriptions beyond \$90,000,000.

This vast sum of money was raised at a total expense of three-quarters of one per cent, making this probably the most economically conducted campaign in the history of the country.

Plan Evangelistic Campaign. Prior to this effort for additional subscriptions and cash, however, a South-wide campaign of evangelism, stewardship and emphasis upon the fundamental doctrines of religion is planned for the month of March and the first three weeks in April, when the churches will employ their organized forces in seeking to win to Christ many thousands of the 20,000,000 people within the territory of the Southern Baptist Convention who are not affiliated with any church. A day of prayer in behalf of the success of every item on the Baptist program for the spring and summer of 1920 has been set apart. Many of the states have already got their evangelistic campaigns well under way.

In the hope of arousing as large interest as possible, city-wide, county-wide and associational campaigns of soul-winning have been planned in many places. In other places, especially the rural districts, where the summer months are considered more desirable for evangelistic work, the special program will be deferred until July and August. This will make it possible for city pastors to aid the rural pastors and thus double the evangelistic force of the denomination.

The program of evangelism, stewardship and emphasis upon the fundamental doctrines of religion is calculated to conserve the victory achieved in the campaign for funds. Dr. George W. Truett, pastor of the First Baptist Church at Dallas, Tex., is chairman of the campaign commission, while Dr. L. R. Scarborough continues in the capacity of general director.

COME ONE, COME ALL, TO THE GREAT ARMY EXHIBIT.

Read the few following paragraphs and you will want to see the implements of war that stopped the "Boche" at the Marne, Soissons, St. Mihiel, Champagne (east of Rheims) and in the Argonne-Meuse offensives. You will want to see the implements your son, your buddy, your sweetheart and friend used to defend himself with against Jerry, the Boche. They are numerous and you should see them this week.

In the battle that saved Paris, in the great counter-offensive that broke and rolled back the tide of invasion from the heart of France, in the action that pinched off the St. Mihiel salient, in the battle that pierced the German line in the Argonne, in the stroke that relieved Rheims—in each of the momentous struggles the Second American Division had a large share.

22,000 Shells in Just 24 Hours.

In the early fighting the men had only their "iron rations" and sometimes were without food or water for 24 hours, through difficulty of transport. There was an ammunition shortage in the first hours of the battle. The enemy shelled the whole area heavily. In the brigade area 22,000 shells fell in 24 hours.

During a period of only one month of continuous fighting around Paris the Second Division captured 24 officers, 1,654 men and a large quantity of guns and material. Because of the bitter nature of the fighting the division lost heavily—heavier than in any other fight. The total casualties were 9,777, of which 1,260 men were killed on the field and more than 1,500 seriously wounded, nearly 7,000 gassed, slightly wounded and missing.

For five weeks the division held the road to Paris. The German drive was halted. The Second was withdrawn to nurse its grievous wounds. At this time Foch was preparing the great counter-offensive that sent Germans reeling back from the salient. The Second was getting replacements to fill up its depleted ranks. On July 16th the division was hastily transported in trucks and unloaded in the Villers-Cotteret region. By night marches through the forest the division was pushed up to the lines. The forest was full of troops moving to-

ward the front in the inky darkness and driving rain the men were forced of march double file, touching one another to avoid being separated. Reaching the line only a few minutes before the "H" hour, the Second division attacked behind the tanks at the vital point of the thrust near Soissons.

The exhibit has established headquarters at the tailoring establishment of Green & Muller, on East Main st.

High Prices May Cause Illness

At this season of the year when vegetables are so high, many persons suffer from deranged digestion. If you feel dull and sluggish, or if you suspect indigestion or constipation you will feel better tomorrow if you take a Foley Cathartic Tablet tonight. They banish dizziness and headache.

The "P. E. P." met at the home of Miss Mayo Province, whose residence is located at the old Cunningham place, and enjoyed a most delightful social gathering Saturday night. Home made candy was served.

Had A Cold All Winter. Colds that "hang on," coughs that rack your body and weary you down, the weakening that comes from loss of sleep—these are afflictions from which relief is a blessing. Nick J. Whres, Zeh, N. D., writes: "Had a cold all winter, but since taking Foley's Honey and Tar it has entirely disappeared."

A state inspector from the department of education at Austin is in the city for the purpose of inspecting and passing upon the applications of 39 of the public schools of the county which have applied for state aid, the aggregate for the several schools being about \$17,000. He will begin work Thursday with the Garrison school.

Restful Results For Her

Only a person who has experienced that awful "all night" cough that sometimes follows influenza can appreciate what a good night's sleep can be. Mrs. Annie Davidson, 2080 Myrtle Street, Long Beach, Calif., had such a cough. She writes: "The results of using Foley's Honey and Tar was a restful one for me."

Celebrated "KASCH" PLANTING SEED.

We sold the first lot but another shipment expected this or next week. Be sure to call for the amount you subscribed. Mayer & Schmidt, 4-wtf

SCHOOL NOTES

Interesting Chapel Services Tuesday.

In high school Tuesday, enthusiasm ran very high when one of the most interesting chapel exercises in the history of the Nacogdoches High School was held. Prof. R. F. Davis was the main speaker, and made a very deep and highly appreciated talk. He was visibly affected with the nature of the occasion. The exercises were held in the honor of the March 2, Texas Independence Day.

Mr. Davis recounted some interesting things connected with Nacogdoches' history, and told of things connected with the name Nacogdoches that have long since gone down in history. It is interesting to note that March the second is Mr. Davis' own birthday; and still another more interesting thing is that Mrs. Davis' birthday falls on March 2 also.

Another speaker on the program was Mrs. Lamar Acker, who made a very much appreciated talk to the students concerning the beautification of the city. Mrs. Acker told of a few things that the Civic League had in view, and asked the co-operation of the students in helping carry out the plans. The response to her appeal was most gratifying. All of the students evinced a willingness to take an active and responsible part in the work the Civic League plans to carry out. Mrs. Acker was agreeably surprised at the unusual interest of Nacogdoches High School students manifested in her plans.

All through the rendition of the program, songs were sung filling all with a good, happy feeling that should always be experienced by a Texan on March 2. The program was highly successful throughout, and the entire school gave a good account of itself. "Today has been one of the most wonderful days, I believe, ever experienced by the Nacogdoches High School," said Prof. R. F. Davis, while speaking of the exercises, "and I really think that it has been one that all of the students have greatly enjoyed. I know that I have been happy."

WORTH WEIGHT IN GOLD, HE ASSERTS

Howard Gains Fourteen Pounds Taking Tanlac and Lays Cane Aside

"I've gained fourteen pounds in six weeks taking Tanlac and now I am a well man," said Henry S. Howard, well known farmer and stock raiser of King Hill, Idaho.

"I had suffered from rheumatism and indigestion twelve years," he continued, "and could hardly eat a thing because everything went against me and I had no appetite. Every joint in me was swollen with rheumatism and hurt so I could hardly bear to be touched. I was in such a bad fix I couldn't work and had to use a walking stick to get along. The first bottle of Tanlac made a great change in my feelings. My rheumatism soon left me and I threw my stick aside, for now walk as well as any body.

"And eat!—why, I just can't get enough and I feel like I could do as much work as I ever could. Tanlac is worth its weight in gold, and it has convinced me that there is at least one medicine that will do just what they say it will and I want to do my part in letting everybody know about it."

TANLAC is sold in Nacogdoches by Stripling, Hazelwood & Co., in Garrison by Dale Drug Co., and in Woden by M. J. King.

LOOK FORWARD NOT BACKWARD

Will you sit and worry about the "Flu" and the High Cost of Living while other young people are taking action to prepare themselves to meet the demands of business? Training is the one thing that makes a difference between the executive and the man in overalls. We are entering a period in which business training is more necessary than ever. The next five years in this country will be the most progressive, prosperous and successful in our history. It will mean to you much or little in accordance with the manner you will be prepared to meet it. There will be no time to train the unskilled in the business office.

Business is moving ahead by leaps and bounds. Many papers are carrying many advertisements of commercially trained help. A countrywide investigation of Employment conditions to get information as to the help in greatest demand, shows the following results: 1338 of 2445 advertisements for help specified a business training of the 524 of the remaining 1107 advertisements were for positions that office assistants grow into. No other profession can claim one-fifth as great a demand. In fact this proves that there is a greater demand for business training than all other trades and professions combined. Are you passing up a business training and its wonderful opportunities to become a day laborer, housemaid, department store clerk, telephone operator, factory hand, etc.? Uncle Sam did not send untrained soldiers to France to win the war. Neither will American business men place untrained men and women in their offices, banks, etc., to win in this great battle for business supremacy. If you want to work with the big men in business you must get a business education.

Remain as you are and you will occupy the same relative position ten years from now. Do not permit yourself to work under an unnecessary handicap all the rest of your life. Spend a few months with the Tyler Commercial College, Tyler, Texas, securing the training that means an opportunity to make a success in life. Do not permit an obstacle to stand in your way. Fit yourself for a life worth while. We have trained thirty thousand young people for business; we know how. We have helped others solve the same problems that now confront you, so won't you let us help you? Look forward, enroll NOW in America's largest Commercial Training school for a thorough and practical course in Bookkeeping, Business Training, Shorthand, Telegraphy, Penmanship, Cotton Marketing and Sampling and Business Finance. Fill in and mail for large free catalogue. Positions secured.

FARMER'S INCOME SUBJECT TO TAX

Gains for 1919 Must Be Figured Under U. S. Law—Returns Due March 15.

LAND SALE PROFITS TAXABLE.

Necessary Farm Expenses May Be Deducted—Special Form for Farm Income—Cash or Accrual Basis for Computing.

A farmer, shopkeeper, or tradesman must figure up his net income for 1919; and if the farm or business income plus his other income was sufficient to require an income tax return a complete return must be filed with the collector of internal revenue by March 15.

A farmer should ascertain the gross income of his farm by computing all gains derived from the sale or exchange of his products, whether produced on the farm or purchased and resold.

Farm Expenses. From his gross income a farmer is allowed to charge off all of his necessary expenses in the conduct of the farm during the year. These include costs of planting, cultivating, harvesting and marketing. In addition to these costs he may deduct money spent for ordinary farm tools of short life bought during the year, such as shovels, rakes, etc. Also, the cost of feed purchased for his live stock may be treated as an expense in so far as this cost represents actual outlay, but the value of his own products fed to animals is not a deductible item.

Other farm expenses allowable are the cost of minor repairs on buildings (but not the dwelling house), on fences, wagons and farm machinery; also bills paid for horseshoeing, stock powders, rock salt, services of veterinary, insurance (except on dwelling house), gasoline for operating power and sundry other expenses which were paid for in cash.

As to hired help, all the productive labor is a deductible expense; but the wages of household servants, or help hired to improve the farm, as in tree planting, ditching, etc., cannot be claimed against earnings. A farmer is not allowed to claim a salary for himself or members of his family who work on the farm.

Wear and Tear.

Purchase of farm machinery, wagons, work animals, etc., also the cost of construction or extension of buildings, silos, fencing, etc., should be considered additional investments in the farm and are not proper deductions against income.

A reasonable allowance may be claimed for wear and tear on farm buildings (except the farmhouse), fences, machinery, work animals, wagons, tanks, windmills and other farm equipment which is used in the conduct of the farm.

As to autos and tractors, the cost of these is not an expense, although the cost of their upkeep is an allowable deduction, if the machines are used exclusively for farm purposes and not for pleasure. Also, in such cases, a deduction for wear and tear is allowed.

Farm Losses.

The loss of a growing crop is not a proper deduction from income, inasmuch as the value of the crop had not been taken into gross income. The loss of a building or of machinery through storm, lightning, flood, etc., is an allowable deduction, but care should be used to ascertain the correct loss sustained, as restricted by income tax regulations.

No deduction is allowed in the case of loss of animals raised on the farm, but a loss is deductible from gross income if the animals had been purchased for draft or breeding purposes.

Shrinkage in weight or value of farm products held for favorable market prices cannot be deducted as a loss, for the reason that when such products are sold the shrinkage will be reflected in the selling price.

Sale of Farms and Land.

The value of agricultural lands has been jumping during the past few years, and during 1919 many owners sold out part or all of their lands at big profits. All such gains constitute income and must be taken into the net income for the year.

Any person who sold part of a farm or ranch, or part of a parcel of land, must also show any gains realized by the sale.

Forms for Returns.

The Internal Revenue Bureau has issued an Improved Form 1040F for the use of farmers. This form, together with Form 1040A or 1040, will give the farmer explicit information as to how to properly figure his net income for 1919.

There are two methods of figuring a farmer's income tax return this year. He may make his return on the basis of the difference between the money and goods received for his products and the cash paid out for actual allowable farm expenses within the year. Or he may make his return on the accrual basis, which means computing the receipts and expenses that pertain to the taxable year, excluding income earned and expenses incurred in previous or succeeding years.

AMERICANS ASKED TO STAY AT HOME

SIGHTSEERS SHOULD KEEP OUT OF EUROPE UNTIL PEOPLE GET ON FEET AGAIN.

BAPTISTS ENLARGE WORK

Mission Secretary Will Recommend How Evangelistic, Educational and Benevolent Program Can Be Carried Out.

Americans should keep out of Europe, unless they have important business there, until Europeans have had an opportunity to get on their feet again, declares Dr. J. F. Love, secretary of the Foreign Mission Board of the Southern Baptist Convention.

Dr. Love, as chairman of a commission named by the Baptist 75 Million Campaign to visit Europe and make a survey of the mission fields there, has just returned from a five months' tour of the continent. He says Americans have distributed cash with such a lavish hand in many places on the continent that the people have become convinced that every American has money to throw away and as soon as they spot a citizen from this country they proceed to overcharge him for everything he buys and every service rendered. Unless Americans forego sight-seeing in Europe for a few years a lot of the natives there will become professional beggars, in Dr. Love's opinion.

Baptists Suffered Heavily.

Along with the other religious denominations Baptists suffered heavy losses of property in Europe during the war, Dr. Love reports, but he found that such Baptists as survived the war remained loyal to their convictions and they are now ready to welcome the aid and co-operation of American Baptists in the rehabilitation of their countries and the propagation of the gospel.

Carry on Relief Work.

While the program which Southern Baptists will carry on in the European countries which they have not occupied before will not be determined until after the commission has reported to the Foreign Mission Board, members of the commission found crying need for money with which to meet cases demanding immediate relief and called home for funds to be employed in this connection in northern France and Belgium. This money was promptly forwarded and has been distributed through an agency set up in Paris in conjunction with the Foreign Missionary Society of the Northern Baptist Convention. Prior to the visit of this commission, missionary work by Southern Baptists in Europe has been confined to Italy and Bohemia. However, the commission visited England, Scotland, France, Belgium, Holland and Italy, but found it impossible to get into Czechoslovakia, the Balkans and Russia at this time.

Palestine and Egypt Visited.

After the tour of Europe had been completed, the commission, which included Dr. Z. T. Cody, editor of the Baptist Courier, of Greenville, S. C., and Dr. Everett Gill, formerly missionary to Italy, but now a pastor in Kansas City, went to Palestine to look into the missionary work there formerly done by the Baptists of Southern Illinois, but recently taken over by the Foreign Mission Board of the Southern Baptist Convention. A trip into Egypt for the purpose of studying the Mohammedan situation was made by the party while awaiting a ship on which to return to Italy. So far, Christianity has made very little inroad on Mohammedanism anywhere Dr. Love found, though some of the missionary agencies in Palestine have been established for more than a half century. He anticipates a better chance for the Christian religion there following British occupation of that country.

Establish Orphanage in Rome.

By reason of the liberal response from the native Christians in the various mission fields to the 75 Million Campaign, many improvements on those fields have been made possible. Among the enlargements already provided for are an orphanage in Rome, the addition of a girls' department at Rio College in Brazil, and land for a girls' school at Sao Paulo, Brazil.

The Interior China Mission was asked for \$7,500 for the campaign, and the missionaries there subscribed this amount, while the native converts added \$4,500. The North China Mission has subscribed \$50,000, while Brazil will respond with nearly \$1,000,000. In South Brazil the campaign as it was carried on in the South, was duplicated with all the special days and other extraordinary efforts and the response is far beyond the anticipations of the Foreign Mission Board. In Argentina, the quota asked was \$75,000, while the returns from that country have already reached \$125,000.

Some Good Advice
We want you to read this advertisement for your own good. Not ours. You know it is not necessary for us to advertise FORD CARS in order to sell them. We are always behind and can sell about twice as many cars each year as we can possibly get from the factory.
IT IS TO YOUR INTEREST
You know how it is from about April 1st until January 1st of each year. It takes you from four to six months to get a Ford. The reason is simply because they cannot be made as fast as the people want them. We think it will be still worse this year because the Starting and Lighting System has created a demand greater than has ever been known.
NOW IS THE TIME
During the months of January and February the weather and road conditions in the East and North result in a lot of cars being shipped South. We sometimes almost catch up on orders at this time of the year. This year it has not been that way. The demand is so much greater. If you place your order right now we feel certain that we can make delivery to you about as follows on the different models: TOURING CAR—Sixty days ROADSTER—Thirty days COUPE—30 days. ONE TON TRUCK—30 days. SEDANS—About 15 days.
We are Sold Out of Sedans, Coupes and Trucks
These are the biggest sellers of the season. Get in line if you expect to get delivery any time soon.
If you come around about May or June and want a car right quickly we will only be able to remind you of this advertisement.

INTEREST IN TERRACING

The terracing campaign planned by the Nacogdoches Chamber of Commerce through the leadership of Mr. H. L. Benson, secretary of the progressive farmers' organization, is progressing splendidly.

C. L. Benson, farm terracing and drainage specialist for the Owensboro Ditcher & Grader Company, Owensboro, Ky., reports the keenest interest is being taken in these field meetings and demonstrations.

At Saeul, on Monday there twenty-five to thirty present, some farmers spending practically the entire day watching the progress of the work. At Garrison on Tuesday there were more than forty people present to see the work and thereby gain information with which they would be the better prepared to solve two important farm problems—terracing and drainage.

Prof. Welborn, teacher of vocational agriculture in the Garrison school, brought his pupils out to see the terracing demonstration and to give them the opportunity to learn something of the "mysteries" of the farm level.

One 14-year-old school-boy mounted the Martin ditcher and handled it to the entire satisfaction of those present. This boy will, evidently, study his agriculture in the future from a more practical viewpoint.

All farmers present at these meetings agree, says Mr. Benson, that soil erosion is the gigantic economic loss not only to the farmer but also to the business interests of the country as well. However, after seeing the processes of terracing and drainage simplified the farmers declare their intention to give more consideration in the future to terracing and drainage two essentials to soil conservation and soil efficiency and productivity.

Mr. Benson says that he is not only glad to come back to Nacogdoches county and lend assistance in this terracing campaign, but that he has been agreeably impressed with three conditions in striking contrast to what they were in 1898 when he moved away from this county: more attractive rural homes and better livestock, splendid roads being built and maintained, and last, but not least, the change from an old, inactive, historic town to the progressive and bustling city which already reflects credit on the builders.

This Should Interest Other Women.

"My kidneys were giving me trouble for some time," writes Mrs. L. Gibson, 10th and Edison st., LaJolla, Colo. "I took Foley's Kidney Pills and they helped me right away." Backache, pains in sides, sore muscles, are rheumatic twinges and "always tired feeling" are symptoms of kidney trouble if disappeared.

MOTHERS OF TEXAS, PREPARE

When a girl becomes a woman, when a woman becomes a mother, and when a woman passes through the changes of middle life, and the three periods of life when health and strength are most needed to withstand the pain and distress often caused by severe organic disturbances. Many women in Texas would testify just as do the following:

HOUSTON, TEXAS.—"When I was a young girl I suffered from irregularity and pain. Dr. Pierce's Favorite Prescription relieved me of all pain and regulated me so that I was completely restored to health. Since I married, whenever I have needed a special tonic I have taken 'Favorite Prescription' and have been amply repaid for the comfort and strength it has given me."—MRS. M. FREEMAN, 414 Marie Street.

WACO, TEXAS.—"It is a pleasure to me to recommend a medicine that has been of such great benefit to me as Dr. Pierce's Favorite Prescription was while raising my family. I have taken this 'Prescription' as a tonic during expectancy and I know it helped me in every way. It is an ideal medicine for the mother to be."—MRS. BEULAH OWENS, 213 North 4th Street.

GALVESTON, TEXAS.—"When I was quite a young girl I had a terribly nervous spell. My stomach was affected so that I craved food all the time, and I could not sleep at night. My doctor advised me to take Doctor Pierce's Favorite Prescription (sold by druggists), and before half the abnormal appetite and was able to rest well at night. I have never had such a condition since that time so can honestly say that the 'Favorite Prescription' cured me of my nervous ailment."—MRS. ELLEN LASWELL, 1614 19th Street.

G. F. Spinks and N. R. Lowery of Etowah were here Monday.

Elisha Grimes and Marshall Jackson of Oak Ridge were in the city Tuesday.

I will give any good farmer with team three-fourths of all he will raise on my place. If interested write phone or see W. M. Byrne, four miles east. d&wtf

For Weak Women

In use for over 40 years! Thousands of voluntary letters from women, telling of the good Cardui has done them. This is the best proof of the value of Cardui. It proves that Cardui is a good medicine for women.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

TAKE

CARDUI

The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women. It should help. "I was taken sick, seemed to be..." writes Mrs. Mary E. Veste, of Madison Heights, Va. "I got down so weak, could hardly walk... just staggered around. . . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

All Druggists

"LENDS ENCHANTMENT."

One of the passengers in the airplane which stopped here at the Berry landing yesterday was Mr. Lane of the firm of Lane & Bolser of Houston. Mr. Lane had important business in Memphis, Tenn., yesterday afternoon and the stop here was for oil and gas. He is returning to Houston today, having transacted the business that would require a week or more by resorting to ordinary travel. Nacogdoches being on the line of travel of course the plane passed that way, only passed, and nothing more.—Lufkin News, 26th.

Why, sure! Almost anybody could be fooled in the looks of a town from an altitude of 5,000 feet, else the occupants of that airplane might not have landed except as a dernier resort, which it probably was. A man might even land in Lufkin when he can't help himself. "Distance lends enchantment to the view," and the further you are away from Lufkin the better the view.

SPREADING THE DOCTRINE OF UPLIFT AT CUSHING.

The business men of Nacogdoches motored to Cushing Thursday for the purpose of organizing an auxiliary division of the Nacogdoches Chamber of Commerce. Every business firm in Nacogdoches was represented at the meeting, and despite the inclement day, a large crowd of Cushing people were present at the meeting. The meeting was held in one of the leading theatres of Cushing, and the building was nicely filled.

At the commencement of the program, J. W. Cariker, a prominent merchant and banker of Cushing, in a few words called the house to order, and explained to the crowd present the meaning of the meeting and its purpose.

Following Mr. Cariker, Mr. C. A. Hodges, representative of one of the oldest law firms of Nacogdoches, spoke a few words about how Nacogdoches had awakened to the fact that the farmers of Nacogdoches county must be assisted to continue successfully in the development of their farm life. Mr. Hodges said that the Nacogdoches Chamber of Commerce was the result of the spirit that had prompted the business men of Nacogdoches county to want to see a bigger, better and more prosperous county. "We are not after making any one particular town larger," Mr. Hodges said, "but we are after making the county of Nacogdoches one of the best in all East Texas."

Captain I. L. Sturdevant, president of the Stone Fort National Bank of Nacogdoches, said that it was a delight to him to offer Cushing anything that Cushing might want that would enable it to be a more prosperous and happy place in which to live. "I have faith in the second largest town in Nacogdoches county," said Sturdevant, referring to Cushing, "and I believe that Cushing will fall in with Garrison, Chireno, Douglass and other places of this county in seeing that we place Nacogdoches county on the map."

Following Mr. Sturdevant, Nat Tucker, cashier of the Guaranty State Bank of Nacogdoches, made a very interesting talk in which he pointed out with particularly good insight some of the problems confronting the rural life of the county. "The farmers are becoming depopulated too rapidly for prosperity to exist," said Mr. Tucker, "for when we have ideal farming conditions and farmers are willing to stay on the farm, then we have the most prosperous conditions in the county. The boys of the county must be induced to stay on the farm, and the way to induce them is to make the farm as attractive as possible. I am glad to say that the institution that I represent will stand behind the chamber of commerce to the last. The Nacogdoches County Chamber of Commerce does not stand for the improvement of Nacogdoches alone but for the improvement of all the county. We are willing to back our words with our money," were his remarks. Mr. Tucker went into details explaining how the farmers and business men could co-operate in a business way, making reference to several examples of experience to illustrate his points. "We want to see all of the old prejudices removed between the country man and the city man. I believe that the farmer should have a good car, as good house, as good surroundings, as any man—that comes from the bottom of my heart—and I am willing to help anything that will aid in carrying out these beliefs," were Mr. Tucker's concluding words.

H. L. McKnight, secretary of the Nacogdoches Chamber of Commerce,

began his talk by saying that the business men of Nacogdoches had realized that nothing in the country could rightly prosper unless the agricultural conditions in the county were perfect. "And appreciating these things, the farm and rural situation of the county is the first thing that the Nacogdoches Chamber of Commerce is going to tackle," Mr. McKnight called attention to the growing discontent over the county on agricultural conditions, and stated that unless the county wanted to become a hotbed for the non-pari-league and bolshevism element everyone in the county had better begin getting a fair understanding of one another's position and begin co-operating with one another for the good of the whole. "I believe Nacogdoches county farmers, bankers and business men are better able to say what is best for the good of Nacogdoches county than some man from Russia or Canada," said Mr. McKnight. He said that 1,000 farmers were going to be made a present of one year's subscription to a farm journal named "The Progressive Farmer." These publications were to be donated by the business men of Nacogdoches free of charge to the reader. He also told about a new county agricultural demonstration agent that was coming to the county, stating that he was a man who knew the agricultural work. "We are going to teamwork," said Mr. McKnight. "I am going to organize and he is going to instruct." He also called attention to the fact that a budget had been subscribed by the business men of the county for the helping of rural conditions in the county. "It's up to Cushing to take advantage of what is offered here, and we can assure you that we want your support in helping make Nacogdoches county a bigger, better and more prosperous county," were his concluding remarks.

Hal Tucker, Nacogdoches banker, here made a short rejoinder, stating that all could depend on what Mr. McKnight was saying, that he had the support of the banks of the city of Nacogdoches.

Mr. J. W. Cariker, Cushing banker, said that Cushing could be depended upon to assist in a financial way the Nacogdoches County Chamber of Commerce. He said that he heartily endorsed the proposition, and concluded his remarks by stating that the mercantile firm of J. W. Cariker & Co. would give, as an initial fund, \$50. He stated that he would confer with the bank he represented before stating what the bank would give.

P. O. Lowe gave \$25 for the firm of Lowe & Bro.; the Cushing State Bank gave \$50; and after a conference, Mr. Cariker authorized Mr. James Dorsey, cashier of the Farmers Guaranty National Bank to state that that bank would subscribe \$75, which might be raised to \$100 later: Allen Whitby, Cushing, subscribed \$20 as an initial fee; M. F. Bates, merchant of Cushing, subscribed \$25.

I. D. Parmley, Nacogdoches man, here stated that while he was a member of the Nacogdoches Chamber of Commerce proper, he was not member enough, hence he would subscribe \$25 to the Cushing fund.

By suggestion of J. W. Cariker, James Dorsey of the Farmers Guaranty National Bank, Cushing, and M. H. Russell of the Cushing Guaranty State Bank were appointed to solicit the town of Cushing for members for the coming week. All Cushing will be solicited by these men, who will endeavor to swell the membership list.

During these subscriptions, B. K. King, business man and prominent farmer of Douglass, said that he would like to make a contribution for Douglass, but that he would wait until the commercial club began working in Douglass.

At the conclusion of the meeting, J. W. Cariker heartily thanked the Nacogdoches delegation for the interest they had shown in Cushing and the opportunity they had given Cushing to get in on a thing that looked for the betterment of the county as whole. "We want you to come back, and we assure you that Cushing will be loyal to the cause," were some of the concluding remarks of Mr. Cariker.

After the meeting adjourned the Nacogdoches delegation mingled freely with the Cushing folks, chatting about the great program of county development the chamber of commerce had in view. Nacogdoches men left Cushing very much encouraged. "It was the most gratifying meeting it has ever been my pleasure to witness," was the remark of Secretary McKnight, while talking to a friend.

THREATENS TO QUIT.
Chicago, Ill., Feb. 27.—Major Dalrymple, federal prohibition enforcement director for the Central States, who led the expedition against the Michigan "rum rebels," has announced that he will resign if Washington fails to confirm his stand.

AUTOMOBILE FIRM MOVES TO NEW LOCATION.

The Lee-Barnett Motor Company has moved to its quarters on East Main street, where it has a new building, modern in every respect, and where it expects to be able to give the public "the kind of service they appreciate." The garage plant has been under construction for about two months, and is not yet quite complete, but is complete enough to be occupied with a fair degree of comfort by the firm. The company employed several first-class mechanics and has a foreman, who, Mr. Lee says, is as good as can be obtained. Good service can be given any kind of car, but the Dodge and Nash will be specialized in. Men were actively engaged Saturday morning in scrubbing and polishing the interior of the building, preparing it for occupancy.

The firm is incorporated under the name of Lee Motor Company, but it will be known as the Lee-Barnett Motor Company. The owners and directors of the plant are Messrs. W. W. Lee, D. H. Barnett, C. F. Lee, and Carter Gaston.

FELL OVER FIVE MILES WITH DISABLED PLANE.

Dayton, Ohio, Feb. 28.—Major R. W. Schroeder, chief test pilot, who yesterday fell over five miles in two minutes after shattering the world's altitude record, miraculously escaping death when he righted his airplane 2,000 feet from the ground, lies today at the army post hospital recovering from partial blindness. He is determined to make another ascent into the heavens at the first opportunity. Schroeder climbed to a height of 36,000 feet, lost control of his machine and plunged downward five miles.

EX-CONSUL KILLED IN MEXICO.

Washington, D. C., Feb. 28.—Augustus Morrill, formerly American consul at Manzanillo, Mexico, was killed by Mexican bandits February 26. The present consul at Manzanillo, in a report to the state department, said Morrill was attacked while en route to the Hacienda El Balcon, three miles from Colima, where he lived. In the fusillade of shots he received two wounds. The American embassy at Mexico City was instructed to make urgent representations to the Mexican government looking to the arrest and punishment of the murderers, and the American consulate at Manzanillo was instructed to make similar representations to the local Mexican authorities.

SOVIET WANTS PEACE.

The soviet commissioner of foreign affairs has dispatched a note to the United States, Japan and Rumania offering peace with Soviet Russia, a Moscow wireless says.

A PIONEER DEAD.

Houston, Texas, Feb. 26.—August Belding, a resident of Texas since 1846, died today, aged 92. He was a pioneer sash and door manufacturer.

OPPOSES UNIVERSAL TRAINING.

Washington D. C. Feb. 26.—The program of republican house leaders to omit universal training from the army reorganization bill was accepted by the house military committee, which ordered a favorable report on the bill without any training recommendation.

ABJURES POLITICS AND MUSIC

London, Feb. 27.—Ignace Jan Paderewski, former Polish premier, will never again appear on the concert platform, nor is he likely to re-enter politics, according to a Daily Mail correspondent, quoting an interview.

TO PUBLISH CORRESPONDENCE.

Washington, D. C., Feb. 27.—Final decision to publish the exchanges between the United States and the Entente premiers on the Adriatic question has been reached. Seven notes will be made public late today at the state department, totaling about 12,000 words.

WILL BUILD PIPELINE.

Chicago, Ill., Feb. 27.—A pipeline to carry oil from the Kansas, Oklahoma and Northern Texas fields to Chicago, with a distributing center in St. Louis, will be constructed and in operation within the next twelve months, two petroleum journals announced today. The organization is composed of independent oil dealers, who will construct the line at a cost of \$25,000,000, according to the announcement.

DISCARDED AS DANGEROUS

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with your bile it crashes into it, causing cramping and nausea.

Take "Dodson's Liver Tone" Instead!

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel

and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

HADDOCK, PIKE, STURGEON AND STOUT WANT TO MARINES.

Kansas City, Feb. 27.—Answering a "blood call," perhaps, this quartet want to go to sea: Haddock, Pike, Sturgeon and Trout.

During the past week Alfred J. Haddock, Peter F. Pike, Charles C. Sturgeon and Brooks Trout were accepted for enlistment in the U. S. Marine Corps at their recruiting station here.

This "marine aquarium" was transferred to the Marine Corps Sea-Going Depot at Parris Island, S. C., where they will train for life on the ocean wave.

RESTRICTING THE PACKERS.

Washington, D. C., Feb. 27.—An agreed decree, under which the Big Five packers are forever enjoined from engaging in any line of business except the handling of meat and produce, was filed in the District of Columbia Supreme Court today. It was submitted by Attorney General Palmer, who said it "removes the menace of the control of unrelated industries by the Big Five and confines their activities in future to the business of distributing meat and its by-products." Counsel for the packers, in a statement to the court, said the decree was agreed to by the defendants not because of guilt, for they have not violated any laws, but that the American people may be assured that there is not the remotest possibility of food monopoly by the packers.

After hearing the statement Chief Justice McCoy signed the injunction, making effective the agreement.

The decree, which involves the reorganization of a great industry with assets of over a billion dollars and affects 87 corporations and 49 individuals, was agreed to after the department of justice, on orders from President Wilson, instituted anti-trust proceedings against the packers in Chicago.

NOTORIOUS CASE RECALLED.

Shreveport, La., Feb. 27.—Although in danger of arrest and reincarceration in the Southwest Texas Insane Asylum, from which he escaped last February and remarried his blind wife after the first marriage had been annulled during his confinement, Dr. Earl Volentine, a dentist of Vivian, La., left today for Nixot, Texas, with the body of his wife. Louisiana refused to surrender Volentine to Texas, as Louisiana considered him sane.

Tyler, Texas, Feb. 27.—Albin Gisting shot and killed Antone Jansky today and then committed suicide after a quarrel.

PLANO NIGHTWATCHMAN KILLED BY BANK ROBBERS.

Dallas, Texas, Feb. 28.—In a fight with robbers caught robbing the Plano National Bank, G. W. Rye, night watchman was killed early today. The robbers dug their way into the vault, but obtained no money. They escaped, apparently unarmed, although Rye fired his pistol several times.

Watchman Rye was shot in the stomach and lived fifteen minutes. He said the robbers numbered two. The robbers took Liberty bonds and War Savings stamps from deposit boxes of individuals. The bank recently transferred \$90,000 in bonds and stamps to Dallas for safe-keeping. Mr. Rye was about 50 years old.

Persons south of town said they heard an automobile going at terrific speed toward Dallas fifteen minutes after the shooting.

It is said the value of the bonds stolen is from \$100,00 to \$150,000. There were 200 individual losers.

FRENCH AND TURKS BATTLE.

London, Feb. 27.—Official dispatches on the situation at Marash, in the vilayet of Aleppo, Syria, where French troops had a severe struggle with Turkish forces, announce that the French succeeded in extricating their contingents after hard fighting. Evidently the French withdrew hastily, as they were compelled to leave their wounded, who are being cared for by the American Red Cross.

A message from the same source confirms reports of massacres of Armenians in the Marash district, but does not substantiate the statement from Armenian quarters that the number slaughtered was several thousand, however.

PICKING TROUBLE WITH CHINA.

London, Feb. 27.—Russian bolsheviks have advanced to the Chinese frontier, in the Ili river area, in northeastern Turkestan, war office dispatches say. It is said they demanded that the Chinese governor of the province of Sin-Kiam give up the Russian consul and all the refugees and allow the appointment of bolsheviks in the province. Threats were made to occupy Sin-Kiam if the governor does not comply.

Mr. Robert Parker and Miss Ruby Tucker, of Humble, were married yesterday afternoon at the Baptist parsonage by Rev. W. T. McNew, in the presence of a few friends. The happy couple will go to Nacogdoches tonight for a short visit, before returning home.—Lufkin News, 24th.

Girls! Your hair needs a little "Danderine"—that's all! When it becomes lifeless, thin or loses its lustre; when ugly dandruff appears, or your hair falls out, a 35-cent bottle of delightful, dependable "Danderine" from any store, will save your hair, also double it's beauty. You can have nice, thick hair, too.

Full Flavor
With these words the store invites you to the flavor that delights you—good old Luzianne. Try it soon and note its flavor—keep in mind this money saver—good old Luzianne.

LUZIANNE
coffee Wm. B. Reilly & Co. Inc. New Orleans

GUARANTEE—If, after using entire contents of the can according to directions, you are not satisfied in every respect, your grocer will refund the money you paid for it.

GET READY FOR "FLU"

Keep Your Liver Active, Your System Purified and Free From Colds by Taking Calotabs, the Nauseless Calomel Tablets, that are Delightful, Safe and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lax liver favor colds, influenza and serious complications.

To cut short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, no griping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger. Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs.—(Adv.)

WITHDRAWS FROM COUNTY CLERK RACE.

I. D. Parmley instructs the Sentinel to announce his withdrawal from the race for re-election to the office of County Clerk. Mr. Parmley has made a most excellent clerk for the term he is now serving and his friends will regret to know that he has determined not to make the race for re-election.

The genuine Mebane Triumph, early variety, cotton seed are for sale by Mayer & Schmidt, Inc. There is only a limited supply and you had better get yours quick. 8-wtf

POTATO CURING PLANT

Mr. E. A. Miller, the sweet potato expert of the Extension Department of the A. & M. College, was in the city Saturday morning conferring with the stockholders of the Nacogdoches Potato Company. He brought plans and specifications of a sweet potato storage plant designed by the A. & M. College, and the Nacogdoches Potato Company has decided to use these plans for the construction of their plant. The plans were placed in the hands of a local contractor and the contract will be let in the next few days. The plant when completed will have a capacity of 15,500 bushels. This capacity with the potatoes which will be shipped out in the green state will care for a large stock this year. The company promises to furnish a cash market for all marketable potatoes brought in during the buying and storage period.

Come after those Kaisch cotton seed that we ordered for you. Mayer & Schmidt, Inc. 8-wtf

FOUND—Some money. Owner can have it by describing and paying for this ad. T. E. Burger. 27-dwp

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Doesn't hurt a bit. Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

Drs. Bruce and Reich, Osteopathic Physicians, Redland Hotel.

FOR SALE. Mottled Ancona Eggs and Baby Chicks \$2.00 per setting. Best layers on earth. Two dozen hens laid 16 dozen for November, 18 dozen in December and 27 dozn. in January. Place orders early. J. F. BAILEY, North End School, Nacogdoches, Texas. Telephone 9028 FB. wtf

Roads in Nacogdoches county are reported to be in fairly good condition on account of the moderate weather for the past few days. Of course, it has been very cold, but as a whole there hasn't been very much rain, the same giving cause for the fairly good condition of the highways. Roads in the Angelina bottom are reported to be in bad shape.

"SYRUP OF FIGS" IS LAXATIVE FOR CHILD

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

ORDNANCE IS FACTORY DEPARTMENT.

The ordnance department, which is primarily the manufacturing and maintenance branch of the army, manufactures over 100,000 separate articles; it makes, maintains, and repairs all fighting tools of the army. It also makes and supplies the ammunition the army uses. To make and repair all this equipment the ordnance department has manufacturing plants and arsenals throughout the country, as well as proving grounds to try the guns and ammunition before they are put in use.

The ordnance department also maintains great warehouses and depots where the material is stored and from which it is issued. It teaches not only manufacturing, mechanical trades, maintenance and repair work, but also such things as warehousing, shipping, railroading stock keeping, supply work and gives practical experience in the actual work along with teaching.

Bright young men who are mechanically inclined and ambitious to learn are offered excellent opportunities in this branch of the army. Schools of instruction are maintained for their benefit at Raritan Arsenal, Aberdeen Proving Ground, Rock Island Arsenal and at other points.

If men are not skilled at one or more trades needed in the ordnance but are ambitious to become skilled in these trades, further training will be given them in the course of study, with actual shopwork and practical experience. In addition to these courses a man may continue his common school education, including reading writing, arithmetic, etc. In other words there is a trade education for young men in the ordnance department. Call at the nearest recruiting office for ordnance recruiting bulletin No. 2, which you will find interesting and instructive.

TO MY FRIENDS.

I wish to announce that on or about March 1st I will have a full line of crisp, new up-to-date millinery for ladies and children to offer you at the most reasonable prices possible at this time to be had. I hope to see all of you at my place on East Main street, south side and east of Stone Fort National Bank, and will greatly appreciate your patronage. So come and make yourself at home with me, and I'm sure you will find what you want if it is a hat, for I'll have a hat for everyone. Thanking you one and all in advance for the patronage you will give me.

Yours to please,
MISS NONA L. JACKSON.

Tired Out?

Do you know that languidness, that "awful tired feeling," heaviness, lame or weak back, sore muscles, stiff or swollen joints, rheumatic pains, lumbago, in the great majority of cases, indicate kidney trouble?

Foley Kidney Pills
act promptly and effectively to restore weak, overworked or diseased kidneys and bladder to a healthy condition.
Mrs. Robert Blair, 401 S. 20th Street, Terre Haute, Ind., writes: "I suffered two years with kidney and bladder trouble frequently getting backache. Mornings I would arise feeling very tired and having headaches, and see floating specks before my eyes. I saw Foley Kidney Pills advertised and made up my mind to try them. After taking them a few weeks I found my trouble dispelled. The backache stopped and my kidneys were restored to healthy, normal action. I am also free of those tired spells and headaches and my vision is no longer blurred. My recovery is entirely due to Foley Kidney Pills, which I gladly recommend."
Sold by Stripling, Haselwood & Co.

ANNOUNCES FOR COUNTY CLERK.

To The Voters of Nacogdoches County:

My friend, Mr. I. D. Parmley, advises me that he will not be a candidate for re-election to the office of county clerk of this county.

Having worked in this office as an assistant and deputy clerk under previous administrations, I feel that my experience qualifies me for the position.

I, therefore, take this method of coming before you to solicit your support and influence, and if elected, to show my appreciation, I will endeavor to render you my very best services.

Respectfully yours,
PHILIP SANDERS.

H. L. McKnight, who has been connected with the A. & M. College of Texas for the past twelve years, recently resigned to become secretary of the Nacogdoches Chamber of Commerce, where he will devote his efforts to the upbuilding of the farming interests of Nacogdoches county. The Nacogdoches business men have bought 1,000 yearly subscriptions to a leading agricultural paper and will give them to 1,000 Nacogdoches county farmers. Also a revolving fund of \$15,000 will be placed at the disposal of Nacogdoches county farmers for the purchase of better live stock. Through the efforts of the Chamber of Commerce it is prepared to finally convert Nacogdoches county into a livestock farming community, rather than an all-cotton farming section.—Sabine County Reporter.

Farmers in Nacogdoches county are reported to be doing some extensive preparation for the coming year's crop. Farms are being plowed, fertilizer cast, and everything gotten in readiness for the land's reception of the seed. However, there are a large number of farms lying idle this year for the want of farmers, according to various reports from over the country. Farmers are making frantic efforts to get these farms in cultivation, and it is to be hoped that the delinquent farms will get on the payroll.

QUARTERMASTER SUPPLIES THE ARMY.

The business of the quartermaster corps is to supply the army with what it needs when it needs it—in or out of action. Its greatest energy is devoted to seeing that the soldier is well fed and well clothed. It is the "big business" branch of the army; its operation run all the way from the factory to the front. Men who enlist in the Q. M. corps will find a spirit of co-operation, loyalty and integrity from the quartermaster general down to the latest recruit. This corps spirit enabled the men in this organization during the war to break the world's record for rapidity in training and efficiency in supplying millions both over seas and in America with the best food and equipment. There are many interesting features about the Q. M. that space will not permit description, but just write the quartermaster general or ask any recruiting officer for the new and interesting booklet called "Why Not Finish Your Course," which will tell you how to become a soldier in the big business branch of the army.

The army now offers an opportunity in its construction division for skilled labor workmen to enlarge upon their knowledge by engaging in the different trades with which they will become associated. For the apprentice who desires to learn a profitable trade and thoroughly fit himself for his return to civil life, this division offers an exceptional opportunity.

Go to the nearest recruiting station and request that you be enlisted in the construction division of the army. You will be enlisted in the Q. M. corps and then immediately transferred to the construction division. For interesting information on this subject call at the army recruiting office 100A West Main street.

RASCALS

Biliousness, Headache, Colds, Constipation, driven out with "Cascarets"

Why take nasty cathartics, sickening salts, or stomach-turning oils to drive these rascals out? Let gentle, harmless Cascarets remove the liver and bowel poisons which is keeping your head dizzy, your tongue coated, your skin sallow, your breath offensive, and your stomach sour. Get a box of Cascarets at the drug store and rid your liver, stomach, and bowels of the excess bile, poisons, and waste which are keeping you miserable. Cascarets never gripe, never sicken, never inconvenience. They cost so little and work while you sleep.

You Must Use Fertilizer

Nacogdoches county needs a big Cotton Crop for 1920. She cannot make it by over-cropping, but fewer acres, more Fertilizer and intensive cultivation will do it.

You are throwing time away on most East Texas lands in trying to make Cotton without proper Fertilization.

We are agents for the "Old Reliable MERIDIAN "RED BAG" Fertilizers and have it in stock at right prices. This brand of Fertilizer is too well known to say more of it than to mention the name. Those who have used it know what MERIDIAN "RED BAG" means. Let us supply you.

NACOGDOCHES OIL MILL

"Buffalo Bill, where do you get saddles and pads for your Rough Riders?"

From Waco, Texas, made by Tom Padgett Co.—Forty eight years in business—they don't hure your horse.

(Padgett's ad has been carried by the Haltom papers for forty years.)

THIRTY-FIVE WELLS TO BE DRILLED IN COUNTY.

Nacogdoches is on the eve of some sensational oil development, according to reliable information gained Thursday from Mr. T. J. Barnes, who is representing the company which is to do the drilling. The company he represents is some Ranger people who have been acquiring leases, it seems, several months about Melrose. Contracts have been let to drillers to sink thirty-five wells by the first of January, 1921. The work on the first well is to commence within sixty days, according to Mr. Barnes. The company is under \$12,000 bond for each well, to guarantee that all will be drilled. It is not known definitely, but it is understood that all of these wells are to be drilled on the farm of Mr. Whit Smith—that, however, cannot be confirmed. Mr. Barnes said that oilmen were coming here from all arts of the state and United States for the purpose of investigating the oil fields. He said Humble people were here, Ranger people were here, also St. Clair, and a host of others seeking to get in on the ground floor of Nacogdoches' possible great oil development.

Better get your Mebane Triumph, early variety, cotton seed at once. We have only a limited quantity and there is not enough to go around. Mayer & Schmidt. 8-wtf

Physicians around Nacogdoches report the health of the community in fairly good condition, although there are a few cases of the "flu" still existing in some parts of the town. Pneumonia has been rather light this year in Nacogdoches, and it is hoped the year will pass without any mentionable sickness.

The genuine Mebane Triumph, early variety cotton seed are for sale by Mayer & Schmidt, Inc. There will not be enough to go around. Come early if you want yours.

WILL VISIT CHICAGO.

Secretary H. L. McKnight is planning to go to Chicago next week as a representative of the A. & M. College, which wants a good live man to represent it at the National Farm Loan association's convention to be held there. The Nacogdoches Chamber of Commerce is delighted to have him attend, as it will enable him to get in touch with some very valuable data for the benefit of the commercial club.

The A. & M. will bear the expense of his trip.

Hatching eggs from our heavy laying Single Comb White Leghorns, \$2.00 up. Orders booked now for baby chicks and young pullets. Get stock from proven winter layers and have eggs next fall and winter. Catalogue free. East Texas Poultry Farm, Nacogdoches, Texas. 2613tw

Cost More But Price Is Same. Foley's Honey and Tar is the original honey and tar cough medicine. It costs Foley & Co. more to make it than it costs to make other mixtures of cheaper ingredients, but it costs you no more than the cheap mixtures. Contains no opiates. Children like it. For coughs, colds and croup. f

NEW WAR BOOK OUT
Mr. Riley Strickland, of Longview, who was with the 315th Engineers, 90th Division, has written a war book entitled "Adventures of the A. E. F. Soldier," most of it being written during the Division's sojourn in Germany last winter.

The book gives the movements and activities of the Division from Camp Travis to the Rhine and return. It is divided into 21 chapters and contains 338 pages including 47 photographs and diagrams. It is neatly bound and the high grade paper used makes it very attractive.

These books are on sale at Kennedy's Drug Store.
Mr. Strickland is a practicing lawyer, appeared in the courts of this city and is well known to the members of the local bar.

KASCH SEED

Use "Diamond Dyes," guaranteed to give a new, rich, fadeless color to any fabric, whether wool, silk, linen, cotton or mixed goods,—dresses, blouses, stockings, skirts, children's coats, draperies,—everything! A Direction Book is in package. To match any material, have dealer show you "Diamond Dye" Color Card.

**NATURAL AND ARTIFICIAL
INCUBATION OF EGGS**

At this time of the year, with spring just around the corner, so to speak, is when the hen who has been producing eggs during the winter becomes broody and wants to sit and to all who have the time and facilities I would say: By all means let the hen have her way, supply her with a setting of eggs. A flock of laying pullets next fall and winter will go a long way towards reducing the high cost of living.

But before setting the hen, I would also give a word of caution. If you set eggs from your own flock, it is well to remember that, as said before, it is usually the hen that has been producing eggs during the winter that first becomes broody, while the slacker, who has been loafing on the job, probably for months, first commences laying in the spring.

Now, it is a known fact that the best layer is the winter layer, especially those that have been laying regular during the months of November, December and January and in order to hatch chicks that will grow into good layers, be an asset instead of a liability, it is very important to hatch only from hens who are known to have laid regular during these months and as they usually become broody first, it is readily seen that the best layer or layers are being used to hatch eggs laid by the drones, eggs that will likely produce nice chicks to look at, but who will seldom if ever, be any good as layers.

At the present time with feed as high as it is and everything high in proportion, this is a very wasteful system and one that should certainly be discouraged. With the poultry business as far advanced as it is now, with the 200 egg a year quite common and even some producing as high as 300 eggs in a year it is very easy to secure a flock of layers that will pay a good profit above their keep. A few dollars spent, either for hatching eggs or young stock, will prove a good investment.

However, getting the eggs and setting the hen is only a beginning, a good deal of time and trouble will be required to secure a good hatch of chicks, chicks that will be able to weather the first few weeks of their lives without serious setback.

One of the most important features is to see that the sitting hen is free from body lice and that her nest is free from mites. Hens have been known to die on the nest as a result of being literally consumed by these pests and many a brood has been ruined because these vermin began preying on them as soon as they were hatched. The hen should be thoroughly sprinkled with a good lice powder before being placed upon the nest and she should then be dusted again on the 14th or 15th day. A dust bath should also be provided for the sitting hen and you should be careful to see that she gets off the nest for a few minutes each day even tho she has to be taken off, but otherwise do not fuss with her too much. She usually knows her own business best.

It is not often necessary to give any thought to the moisture problem. However, if the weather is dry and the hen is not sitting on the ground it is a good plan to sprinkle the nest slightly with luke-warm water on the 17th day. When the chicks begin to hatch leave her severely alone until the end of the first day when you might lift her above the nest just far enough to remove the empty shells.

Chicks should be at least 18 hours old before they are removed to the brooder coop.

In order to save space I am treating this subject as lightly as I can. I do not feel, however, that I can bring this article to a close without saying a few words about artificial incubation, or hatching by incubator.

In order to be successful with incubator hatches, there is some few requirements that are very necessary such as a first class incubator, good eggs and intelligent care. The location of machine is also very important, a cellar, well ventilated, being the best place. If no cellar is available, use a room where the temperature does not change too much and too sudden and be careful to place machine where no direct sunlight strikes it.

In operating machine, follow manufacturers directions and be particularly careful not to overheat as that considerably weakens your chicks. Test your eggs on the 7th day, also on the 14th, and be sure to remove all eggs where germ is dead. If left in machine they will foul the air and give off a bad odor at hatching time when you need plenty of sweet and pure air.

Turning and cooling eggs is very important. Turn at least once each day after the second day and preferably twice a day. It is not necessary to turn eggs completely around, having their positions changed slightly is sufficient. The cooling of the

eggs might be accomplished in a few minutes during the early part of the hatch and be prolonged to 15 of 20 minutes during the latter part. A good way to tell when eggs have been cooled enough is to take one and hold it against the eyelid; if it feels cool, eggs have been cooled enough. Do not cool eggs or open machine after the evening of the 18th day.

It is quite often necessary to supply extra moisture to incubators even in moisture machines. While it is rather difficult to tell when added moisture is needed, having to be guided in that respect mostly by the air cell in egg, a good way to supply moisture is, on the 16th or 17th day, or both, to take a pan of water heated to about 90 or 95 degrees and with a whiskbroom lightly sprinkle eggs while they are out for turning and just before putting back in machine.

Before closing this article, I would like to give a few don'ts that are often being done.

Don't use poor oil. Don't fuss with the regulator. Don't turn eggs after filling lamp. Fill lamp first. Don't open incubator at hatching time. Don't be in a hurry to take chicks out of machine. Leave them in there until they are 24 to 36 hours old.

When the bowels are costive the wastematter ferments, producing a gaseous condition that is disagreeable. To remove the impurities quickly a dose of Herbine is needed. It does the work thoroughly and pleasantly. Price 60c. Sold by Stripling, Haselwood & Co. b

Each evening records a continuation of the boys athletic exercises at the high school, and from the way they are practicing, it cannot be doubted but that Nacogdoches is going to carry away a number of trophies that any school might well be proud of. Everyone in Nacogdoches should encourage the boys, who are going to try so earnestly to put Nacogdoches on the map, by showing an appreciation of their efforts.

If you belch up a bitter-tasting sour stomach, you need the tonic properties of Herbine. It is a purifying and strengthening medicine for the stomach, liver and bowels. Price 60c. Sold by Stripling, Haselwood & Co. b

Mr. J. C. Jones, who has been associated with the Sentinel for some time, resigned his position Sunday to go to Tyler. His place has been assumed by Richard Haltom.

Watch your children for symptoms of worms. They undermine the health and breed sickness. Use White's Cream Vermifuge. It expels worms and restores health and vigor. Sold by Stripling, Haselwood & Co. b

Bad Taste In Your Mouth.
When you have a bad taste in your mouth you may know that your digestion is faulty. A dose of Chamberlain's Tablets will usually correct the disorder. They also get a gentle movement of the bowels. You will find this to be one of the best medicines you have ever become acquainted with. Sold by Stripling Haselwood & Co. c

Drilling around Garrison continues, according to reports from that section. A few days ago one well was down over 1,000 feet and excitement was running high and leasing was at a premium. Oilmen from all over the state are reported to be in the vicinity of Garrison getting leases.

Cold settled in the muscles of the neck, arms or shoulder makes every movement painful. Use Ballard's Snow Liniment. It relieves the pain and relaxes the muscles. Three sizes. 30c, 60c and \$1.20. Sold by Stripling, Haselwood & Co. b

Mr. and Mrs. G. W. Lyles, (nee Miss Lora Kelly), are in the city visiting Mrs. Lyles' mother, Mrs. Ida Kelly.

Stock Breeders Notice
I have moved from the Nacogdoches and Appleby road and now am on the Looneyville road at the farm known as the John Sparks place. My jack, Joe Baley, will make the season at this place. Fee \$15.00, \$5.00 cash, balance when colt comes. C. M. Brandon. 4-4wp.

How's This?
We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine. Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts thru the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions.
After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free.
F. J. CHENEY & CO., Toledo, Ohio.
Sold by all Druggists, etc.

**Known the
World Over**

**The Six Cylinder
Valve-in-Head
OAKLAND Motor**

Is recognized the world over as being the strongest motor in any automobile.

Actual brake test, the car will develop more power to the weight of car, than any other on the market.

The Oakland Sensible Six pulls even and smooth at both slow and high speeds.

It carries as regular equipment the best quality Goodyear oversize tire, that will run on any Oakland car never less than 10,000 miles and most users get above 14,000 miles.

The price is still \$1225.00 delivered, with a twelve months' guarantee.

Mast Oakland Co.

Sales and Service

Forgot What He Needed.

From the Republican, Mt. Gilliad, Ohio: The editor had an interesting experience some time ago, when a young gentleman came into the office and asked for a copy of the Morrow County Republican. He scrutinized it carefully when a copy was handed him and then said: "Now I know!" "What are you looking for," we inquired. "My wife sent me after a bottle of Chamberlain's Cough Remedy and I forgot the name. I went to several stores and the clerks named over everything except 'Chamberlain's.' I'll try again and I'll never go home without Chamberlain's Cough Remedy." The Republican would suggest to the proprietors of the store, that they post their clerks, and never let them substitute. Customers lose faith in stores where substituting is permitted, to say nothing of the injustice to the makers of the good goods and the disappointment to the customers. Sold by Stripling, Haselwood & Co. c

Try This For Sour Stomach
Eat slowly, masticate your food thoroughly. Eat but little meat and none at all for supper. If you are still troubled with sour stomach take some of Chamberlain's Tablets before going to bed. Stripling Haselwood, & Co. c

A very beautiful birthday dinner was held Sunday at the home of J. M. Weeks in recognition of the birthday of his son, McNeil Weeks. A splendid time was enjoyed by all who were present. Sergeant Foster Bullock of the army recruiting station was the guest of honor at the dinner.

For rapid healing there is nothing like Liquid Borozone. It mends torn flesh, heals cuts, burns or sores so quickly no time is lost from work. Price, 30c, 60c and \$1.20. Sold by Stripling, Haselwood & Co. b

G. W. Lyles, who has been visiting his relative, Mrs. Ida Kelly, left Monday for Shreveport, La. Where he goes to attend to some important oil business.

For a Bad Cold.
Take Chamberlain's Cough Remedy. It has stood the test of time and can be depended upon. Sold by Stripling, Haselwood & Co. c

All kinds of oxy-welding at Bright's Garage. 2-3dw.

**If you need some help
to make a crop, why
