PINK BOLL WORM BRINGS HOT DISCUSSION.

Washington, April 7.—Hot discussion marked the hearings before the Horticultural Board on proposals to impose Federal quarantine against the pink boll worm in Texas and Louisiana. Chairman Marlett and the Texas delegation had spirited exchanges over the failure of the state and residents over the infected border to operate non cotton zones. The Texans asked permission to grow cotton in this belt this year with the agreement to abolish cotton there next year if worms reappeared. "Tried this agreement before and now regardless of the reappearance of the worms they have gone ahead preparing to plant cotton. I am sure the crop will be just as great next year," Marlett said. Marlett declared the government decision will be reached in a few days.

CARRANZA OPPOSES MONROE DOCTRINE.

Washington, April 7.—General Carranza, in an interview published in a Buenos Aires newspaper, declared solidarity of Latin American nations must replace the Monroe Doctrine as protective police for these countries, claiming the Monroe Doctrine as inefficient to protect the weaker nations.

GREEK TROOPS AUTHORIZED TO ENTER ASIA MINOR

Athens, April 7.—The supreme military council of the Allies authorizes Greek troops to advance into Asia Minor in anticipation of an eventual attack by Mustafa Kemal. A newspaper dispatch says they occupied strategic positions East of the Sector they have held around Smyrna.

GENERAL DENEKINE A REFUGEE.

Constantinople, April 7.—General Denekine, former commander of anti-bolshevik forces in Southern Russia, arrived here and is a fugitive on a British warship. General Denekine is believed to be in danger because of high feeling prevailing among Russian officers here. It was while General Denekine was conferring with General Romanovsky, his former Chief of Staff, that the latter was assassinated.

JOHNSON AND HOOVER LEADS NOT INCREASING

Detroit, April 7.—Additional returns have added very little margin to the leads of Hiram Johnson, republican, and Herbert Hoover on democratic ticket for presidential preference on their respective tickets.

FRENCH FORCES STILL ADVANCING.

Metz, April 7.—French forces on the right bank of the Rhine are continuing to advance today and have occupied Homburg, ninety miles north of Frankfurt.

BODIES OF AMERICAN SOLDIERS BEING TRANSPORTED.

Brest, April 7.—United States transport Mercury, will leave Friday for the United States with the bodies of 315 American soldiers who died in France.

FORMER PREMIER CLEMENCEAU ILL.

Cairo, April 7.—Georges Clemenceau, former premier of France, who is suffering with bronchitis is feeling somewhat better today. He is very feeble and heavy breathing is causing some anxiety.

GREAT BRITAIN SILENT ON FRENCH MOVE

London, April 7.—Great Britain's attitude toward the French move in Germany will be withheld pending a meeting of the Supreme Council of Premiers and Ambassadors Thursday.

DICKENSON DOES NOT ACCEPT.

Wichita Falls, April 7.—Jacob Dickenson of Chicago, who was appointed receiver of the Red River oil lands, in a telegram declares that he is unable to accept because of ill health.

STREET CAR FARES ADVANCED

Toledo, April 7.—Street car service has been resumed with passengers paying seven cents and an additional two cents for transfers. Formerly they paid six cents and two cents for transfer.

SOCIALISTS TO BE BARRED FROM POLITICS.

Albany, April 7.—Two bills designed to carry out recommendations of the assembly Judiciary Committee "for barring the Socialist party of America from participating in politics in New York state" have been introduced in the legislature.

ENGINEERS AND FIREMEN TO JOIN STRIKE.

Chicago, April 7.—Representatives of eighty-five hundred members of the Brotherhood of Locomotive Engineers and Firemen have voted to join the unauthorized switchmen's strike. Strike leaders and railroad officials say that if strikers force an augmented strike, freight traffic in the Chicago district will be brought to a virtual standstill.

NEW YORK REPUBLICANS FAVOR JOHNSON.

New York States "big four" Un-instructed delegation for Republican National convention rolled over the opposition of former State Senator, William Bennett, pledged support for presidential candidacy for Hiram Johnson in Tuesday's primaries.

ITALY NOT A PARTY TO MILITARY MEASURES

Rome, April 6.—Popolo Romano says at the government cabinet meeting Monday it was decided to extend France and Italy's moral support in French occupation of Frankfurt and other German cities. The cabinet agreed, however, that under no circumstances would Italy be a party to any military measure against Germany, the newspaper states.

The Sentinel will publish later a suitable writeup of the death of Mrs. L. T. Barret, who died at her home in Melrose Sunday at 12 o'clock. She was buried at the Melrose cemetery Monday in the family burial plot.

CHICAGO STRIKE CONDITIONS MORE FAVORABLE.

Chicago, April 6.—Railroad managers estimate that the traffic of Chicago terminals which is crippled by the switchmen's strike will be nearly normal by Saturday, following the arrival of yardmen sent in by the Brotherhood of Railway Trainmen to take the strikers places.

COAL MINERS RETURNING TO WORK

Pittsburg, Kan., April 6.—Six of the mines closed yesterday because of the strike of miners in protest against the awards of the National Coal Commission resumed work today. Two mines not idle yesterday were forced to close today. One thousand men are idle.

PINK BOLL WORM ALARM GROWING.

Washington, April 6.—Reappearance of the pink boll worms in Texas and its discovery in Louisiana presents a most serious situation for the cotton industry the United States ever faced, according to experts of the Department of Agriculture. Unless preventative measures are taken immediately, the Department Review said, the boll worm will become a permanent and serious factor in cotton production. Drastic quarantine in Louisiana gives hopes of eradication of the pest in that section, the Review said, but "unfortunate results" of resumption of cotton growing in Texas districts where the boll worm is entrenched threatens to undo the work toward the eradication of the worm.

TRADE AT HOME

Community progress is always an issue of vital importance. It should be given constant and thorough attention by every individual in the community. Each one should do his share to further its deep rooted purposes in community welfare and promote its far reaching aims toward perfect civic environment.

During the past few years, when problems of national scope demanded incessant individual interest from all walks of life, drawing it away from the less important questions of community interest, civic pride has suffered. The enthusiasm necessary to community advancement has dwindled. Laxity in civic appearance has succeeded pride in community appearance.

To rekindle the fires of civic pride the Weekly Sentinel is launching a Trade At Home campaign covering ten weeks. The campaign will be featured by ten full pages of Trade At Home talks and advertising in the Weekly Sentinel. One page will be issued each week and will be the forum for Trade At Home discussion. A weekly prize in cash will be offered for the best Trade At Home letter addressed to the editor, this letter to appear in the center of the page At Home page.

In undertaking a trade at home campaign we believe we are taking the step most essential to a revival of civic advancement. Trading at home is a power in a community. It is the force that brings about the progress, advancement and "look-ahead" environment so notable in a live up-and-going, striving forward, community. In fact trading at home is a duty which every loyal citizen owes to his home merchant. It should hold a place in the individual mind side by side with national patriotism, religion, and the obligations of home. Why? The answers, which are too numerous and convincing to set forth in one article, will appear in the columns of the Weekly Sentinel during the next ten weeks of our trade at home campaign.

Think it over. Get out your pen and ink and write a letter of one hundred and fifty words addressed to the editor telling "Why You Should Trade At Home."

VLADIVOSTOK OCCUPIED BY JAPANESE TROOPS.

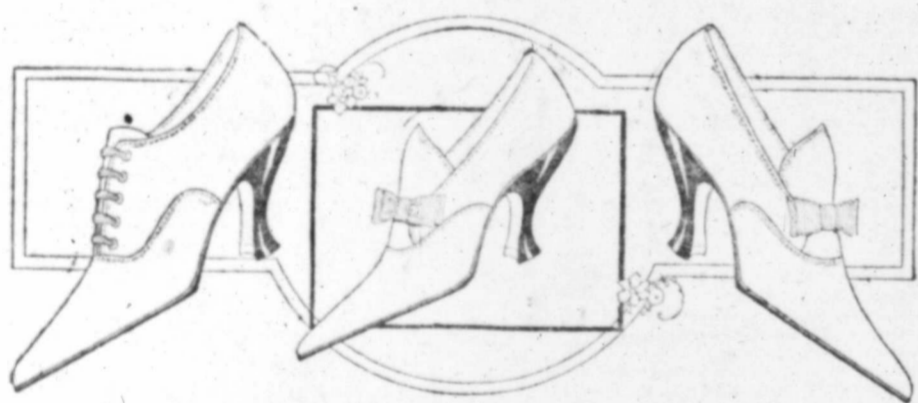

Vladivostok, April 6.—Japanese troops Monday occupied Vladivostok after eight hours of severe fighting in all parts of the city. All Russians were disarmed and some revolutionary leaders deported.

CLOTHING MANY TIMES HIGHER

Washington, April 6.—The Department of Labor Review says that men's clothing in France has increased eighteen hundred per cent in price since 1914. Suits that sold for \$5 before the war cost \$90 now.

OCCUPATION OF HOMBURG PRACTICALLY COMPLETES PLANS.

Frankfort, April 7.—The occupation of Homburg virtually completes French operations. The entire plan was carried out without significant incident. Business is going on as usual in Frankfort.

MORE GALL THAN GRACE

Progress and improvement are not always synonymous. A people may grow in call instead of grace, and there is a tendency in that direction right now. We measure a century by its men rather than its automobiles, aeroplanes and other machines are at least we ought to, and we have not since civilization took its boasted leap forward produced a Socrates or a Shakespeare, an Angelo, a Confucius or a Christ. This age runs largely to piffle and politicians, Bryans, John Shermans, Ledges and Deacon Toolgoods, moneyed aristocracy, profiteering and divorce suits via tango and jazz. We are great on intellectual soup and silk lingerie.

The older we grow the less we know "where we are at." The little red schoolhouse we used to attend and get larrupped in, as we deserved, has turned into a magnificent architectural edifice for which we vote all the way from a hundred thousand to a million dollars in bonds and the old horse we used to go to mill on has been made into canned corned beef long ago.

The poets no longer sing of the immortal gods, o fwar and sacrifice; they twitter of lovelies and doves and pesies and goose-liver pie, while form-fitted men applaud and sentimental maids get moonstruck. Cincinnati no longer waits for the office to seek the man—he sells his oxen and buys a political boom, a la Hiram Johnson. No longer the Spartan mother gives her long black hair for bowstrings—she blindfolds it, paints, powders and tries to pass as the sister of her oldest daughter. The Norse vikings no longer plow the unknown wave, his arm stronger than steel—he comes to America and starts a saloon (now a bootlegging joint). No longer the untamed Irish kings carom on the Saxon invader with a seasoned shillalah—he immigrates hitherward, also, and get on the police force and helps run the political machine, or clubs the head of the married man who won't go home till morning.

In these new jazz and H. C. L. days of evolution and revolution the philosopher retires not to the desert and there, by meditation profound, wrings from his superior soul jewels of thought to enrich the world—he mixes an impossible plot, adds a dude and a woman whose characters have seen better days and spills the compound on the less suffering public as a novel or gets it into the movies.

Rome had her Cicero and her Caesar, but we have our Jess Willard and Jack Demosse, the latter now dodging scandal like a belted buzzard.

The princess of old conquered the earth, but Morgan put a mortgage on it. Cleopatra drank pearls dissolved in wine, but martini cocktails found favor with many of her successors, or did until we got reformed. Samson slew the Philistines with the jawbone of an ass—now that jawbone is in the senate and has blocked the peace treaty.

We have lost poetry, art and philosophy, but when it comes to building a political platform that can straddle every important issue, we swipe the bun and the bakeshop. Bunk is our long suit.

POSSIBILITIES TAKING FORM

A few days ago the Sentinel carried an article on "Just Oil," dealing with the oil situation in Nacogdoches county. It said that Nacogdoches people could begin schooling themselves for some sensational developments. Of course no gushers have been encountered as yet, but everything is being done that can be done to determine what the confines of Nacogdoches county will reveal. At Melrose work is going on that should make every Nacogdoches county man wide-awake with expectancy. The thing that Nacogdoches county citizens have long wished for is about to be materialized at Melrose. A deep test will be made there by a noted geologist, Dr. A. J. Queen, who has been leasing out in that section. Dr. Queen is a geologist. It is his business to know a good thing and a thing that is not likely to prove so good. He has been long in the oil game. He has served many companies as a fruitful geologist, and when a man of Dr. Queen's kind takes his own money and pools it in a well such as he is putting down at Melrose, it can be pretty safely said that something more stable than pipe dream oil exists in that locality. This is what he said: "I have seen numerous fields famous for their oil, and numerous fields that later became famous for the oil they did produce, but for the latter, I have never seen any quite so promising as those in the vicinity of Melrose. I am willing to risk

it—I think I know what is out there." There are other wells going down in the vicinity of Melrose. Some are going down in the vicinity of Swift. Some are going down at Garrison, and all over the county plans are being materialized to give the oil situation a thorough test. Watch the oil in this county. Possibilities are taking form.

PRIZES OFFERED HIGH SCHOOL ARTISANS.

Supt. R. F. Davis in chapel services read the names of those who had received prizes for their work in the manual training department. The names of those getting prizes are:

1. Best piece of woodwork, fountain pen by Swift Bros. & Smith and one dollar cash. Winner Ira Eaves.
2. Second best piece of woodwork—\$5 cash by Frost-Johnson Lumber Company and \$1 by cash. Winner Shirley P'Pool.

URGING EMPLOYMENT OF MEXICAN LABOR

There are thousands of Mexicans now in the border counties of Texas. Many of them are without employment and are therefore a burden on the people of these counties. If these laborers are not given work wherever possible over Texas, they will either be taken from us by northern cities, or they will return to Mexico. More than 5,000 of them have been shipped to the North since February 1, according to witnesses before the senate investigating committee at San Antonio.

These laborers will be needed during the cotton planting and the grain harvesting and cotton picking seasons. One-fifth of the Texas farms that were in cultivation in 1919 will be idle in 1920 unless the farmers are given a supply of labor. Many of the Mexicans in Texas can be kept here ready for farm labor purposes if they are given work now. They make good section gangs for railroads, ditch diggers and other forms of manual labor.

Can you use any of them in your district? If you do not know of employers who will take them, give wide publicity in your local papers to the situation, stressing the threatened farm labor famine this year, and urging the use of these Mexicans now so that they will be available when farm labor is needed. Call on your Texas Chamber of Commerce for further information or for help in getting Mexican laborers.

WALTON J. PETEET

Manager, Agricultural Department, Texas Chamber of Commerce, Houston, Texas.

The above notice comes in at an opportune time. There are probably many farmers in Nacogdoches county needing more help on their farms and if they will take advantage of this opportunity at once and get in touch with Mr. Peteet they can yet procure sufficient labor to cultivate many thousands of acres of land that will lie idle otherwise.

DAMAGE SUIT COMPROMISE

From the Lufkin News, 30th.

Yesterday afternoon in the district court a compromise judgment was agreed upon in the case of H. B. Nesmith vs. the Platt Lumber Company, whereby the plaintiff was awarded \$2,000 for injuries received while in the defendant's employ more than a year ago. The plaintiff was represented in the courts by Blount & Strong of Nacogdoches, while Andrews, Streetman, Logue & Mobley of Houston represented the defendant.

RESOLUTION OF RESPECT.

To the Chancellor Commander and Brethren of Lanana Lodge, 106, Knights of Pythias.

Hiram T. Burk answered the last summons, from an earthly standpoint, in the early morning of February 10th, 1920, and when he breathed his last as an earthly individual, God called to himself a piece of his noblest workmanship; for, of a truth, it can be said of Tyrice Burk that he lived a life among his fellow men, embellished with those noble characteristics which go to make a man worthy of his name. He lived a life of simplicity and measured his conduct by the line of rectitude far beyond the attainment of many of us. As a citizen he was ever found active in representing and doing those things human society; as a churchman, he was regular and responsive in his duties and practices; as a fraternal brother he was ever ready with open hand and heart to the call of the needy and the distressed; as a husband, he was loving and provident; and as a father a simple and loving ruler in his home, and his children shall always call him blessed.

When such a citizen dies humanity is the loser. His town has already and will continue to miss him. His neighbors realize what it is to have a big hearted, noble christian spirited man to be taken from them; his lodge realize the worth and the loss of a beloved member; and his family of all are more forcefully called upon to experience that immeasurable loss the void of which cannot be filled.

Therefore be it resolved:

First: As a band of Brothers we deplore the loss our fraternity has undergone, in the death of so good a man. And, while we have committed his body back to Mother Earth, there to moulder back to dust; yet, of a truth, we realize that the real Burk is not planted back, dust to dust; but on the contrary, that immortal part, which never, never dies has only taken its journey to that shrine where parting comes not where we are known as we know, and where weeping and mourning is forgotten, and where God, the Eternal and Omnipotent Ego rules in glory in eternal day.

Resolved, Second:

Mingling our own heartaches with those of his loved ones, we would bid them to not mourn, as those who have no hope, but remember that our God doeth all things well, and in as much as it has pleased Him to call His own unto Him, and thereby take from the home the tenefactor, yet, He is able to keep that which we have committed unto His care until that great day; therefore while we mourn at the same time, look forward with hope, confidently expecting to end in fruition to that day when it shall be your own glorious privilege to be called into the Giver of every good and perfect gift, and there reunited with those who have gone before, and experience the eternal blessing of Him who said: "Come unto me all of ye who labor and are heavy laden and I will give you rest." God, who numbers the hair of our heads and permits not a sparrow to fall without his notice, is not only able, but willing and anxious to be with you in every trouble and to sanctify to you every sad ordeal and at last to draw you unto Himself that where He is, you may be also, there not only to behold Him in His glory but to enjoy Him forever.

Resolved Third:

That a copy of these resolutions be spread upon the minutes of the Lodge, a copy furnished the family, and a copy furnished to the press for publication.

NACOGDOCHES DELEGATION TO TYLER RETURNS.

The representative of the Nacogdoches County Chamber of Commerce returned Wednesday from Tyler, at which place the East Texas Chamber of Commerce is reported to have had a glorious meeting, succeeding in getting the business men of East Texas together in a common move for the general advancement of all East Texas. Over 600 of the leading business men of East Texas were present at the meeting, and nearly \$16,000 were subscribed by the men present for the financing of the organization. Nacogdoches was well represented at the meeting, and the secretary of the Nacogdoches County Chamber of Commerce, Mr. McKnight, was elected as one of the members of the executive board.

Those from Nacogdoches who were present at the meeting, according to the best information that could be obtained of the affair were: Tom Baker, I. L. Sturdevant, R. C. Monk, Roland Jones, I. D. Parmley, K. P.

SPRING FEVER

Following Colds, Grip or Flu, Thin, Watery or Poisoned Blood

(By DR. VALENTINE MOTT.)

At this time of year most people suffer from what we term "spring fever" because of a stagnant condition of the blood, because of the toxins (poisons) stored up within the body during the long winter. We eat too much meat, with little or no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alternative and blood purifier. Such a tonic as druggists have sold for fifty years, is Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and barks.

SAN MARCIAL, N. MEX.—"I suffered for two years with frequent headache and pain in my left side and the small of my back. I was despondent and so nervous the least racket would upset me. I wrote to the Specialists at the Invalids' Hotel, and was advised to use Dr. Pierce's Golden Medical Discovery and the Anuric Tablets. I did so and immediately began to get better. My symptoms disappeared and in two months' time my health was regained. I took six bottles of each medicine and a few of the 'Pleasant Pellets' for regulating my bowels. I am now in perfect health and enjoying life.

"I cannot say too much in praise of these medicines and the kind and courteous attention given me."—MISS MAMIE COYSLAND.

Branch, Wilton Ingraham, R. F. Davis, W. E. Thomason, H. L. McKnight, V. E. Middlebrook, W. B. Bates and Ben T. Wilson.

All report a splendid time, and say that the meeting was a huge success.

NORMAL A STUDENTS

The following notice of the splendid record made by Miss Helen Mullins at Huntsville Normal will be deeply appreciated by her many friends in this place. We would like to mention here that Helen graduated in her home town, Tatum, Texas; at the age of 13 years, entered Nacogdoches High School and graduated at the age of 14, then entered S. H. N. I. on last September and sends back to her many friends and admirers at this place the following good record:

"The following students of S. H. N. I. deserved honorable mention for having received all A's as final grades, at the close of the winter term: Susie Eddins, Hilda Johns, Walter Koonce, Helen Mullins, Howard Walker, Gertrude Woolum. Fred C. Gunther deserves no less credit since he received six A's and two B's on the eight subjects he took."

DR. R. S. JOHNSON DEAD.

Dr. R. S. Johnson, a former citizen of this place, died in San Antonio Monday, March 29th. Dr. Johnson moved from Nacogdoches to Orange, Texas, several years ago and has been in failing health for several months. He went to San Antonio a few weeks ago with the hope of regaining his health. He leaves a wife and several children who are all grown. He was a member of the Odd Fellows lodge of this place.

The Sentinel joins his friends in extending sympathy to the bereaved family.

THOUSANDS PROCLAIM THE MERITS OF PE-RU-NA

Read Their Letters

Mrs. Martha C. Dale, R. F. D. 1, Cannon, Del., writes: "I am entirely cured of chronic catarrh of the stomach and bowels by PE-RU-NA."

Mr. J. Bayer, Glendale, Oregon: "There is no medicine like PE-RU-NA for catarrhal deafness."

Mrs. Kate Marquis, Middleburg, Ohio: "PE-RU-NA cured me of catarrh of the head and throat."

Mr. J. H. Collins, Wesson, Mississippi: "PE-RU-NA makes me feel vigorous and able to work without that tired, weak feeling I usually have otherwise."

Mrs. P. Ludvigsen, Austin, Minnesota: "I got rid of my liver trouble and can eat anything since taking PE-RU-NA."

Mrs. L. Hearing, 283 East 169th St., New York City: "For catarrh of the head and stomach, I have found PE-RU-NA better than any other medicine."

Mr. W. H. Edgar, 49 Cooper St., Atlanta, Georgia: "PE-RU-NA cured me after I had suffered fifteen years with rheumatism."

Mrs. Leona Dodd, R. No. 3, Medon, Tennessee: "PE-RU-NA is a grand medicine for coughs and colds."

So many diseases are due to catarrh and catarrhal conditions, makes PE-RU-NA the best medicine in the world to have on hand for emergencies and general health protection. Thousands of families are never without a bottle of PE-RU-NA or a box of PE-RU-NA Tablets in the medicine cabinet. That is the safe way.

You can buy PE-RU-NA anywhere in tablet or liquid form.

MISS MARY ANN MCKINNEY ELECTED MAY QUEEN.

After one of the most spirited contests ever waged in Nacogdoches, Miss Mary Ann McKinney, the candidate of the Juniors of the Nacogdoches High School, was elected queen for the coming May festivities by a majority of 1,110 votes over Miss Jewel Norwood, the candidate of the seniors. The vote stood 31,115 for Miss McKinney and 30,059 for Miss Norwood.

The votes were counted Thursday night at the drug store of Swift Bros & Smith, and the friends of the candidates packed the room to the limit. Intense excitement prevailed, and interest ebbed and flowed as the votes were counted, the tally being watched with the utmost anxiety.

When the result was officially announced the juniors went wild. If any more noise could have been made the victors couldn't think of it. Both sides had worked hard and both sides were confident, though the opinion was somewhat widespread that the seniors would win. Count had not been taken of the fine work of friends of the juniors, who were apparently on the job all the time. These youngsters didn't make as much noise before the count as did their opponents, but afterward—

The seniors took their disappointment as philosophically as could be expected of them in the face of such a disastrous defeat, and went quietly home, leaving the field for the victorious juniors, who are today the best satisfied "kids" in the state of Texas.

The Sentinel congratulates Miss McKinney upon the honor bestowed upon her, and knows that it expresses the general opinion that it was worthily conferred.

The receipts from the contest were \$611.94, which will go to swell the coffers of the Civic League.

There is no reason why the result of the contest should leave any sting behind it. It was a fair, square fight and hard work won.

THE PRIZE ESSAY

Upon invitation of the war department the school children of the country were some time ago induced to engage in friendly rivalry in describing the reasons why the young men of America should enlist for service in the military establishment of the United States. Nacogdoches county schools entered the list with the schools of every state in the union, and all essays were subject to a rigid test as to merit. No favoritism could have possibly been inducted into the work of the judges, and the winners may rely upon the fact that merit alone controlled in the awards.

Miss Ruth Fouts was the winner in this county. She is a student in the Nacogdoches High School, and her work is undubitably excellent. We publish her essay today. She is the winner of four prizes, an accomplishment which calls for and is receiving the heartfelt congratulations of all—even her opponents. To her fall the prizes offered by Stripling, Haselwood & Co., a handsome gold medal; by the W. T. Wilson Grain Company, \$25 in cash; by H. R. Mast, a \$10 gold piece; and by Baker-Williams Co., a pair of the highest-class shoes.

The Sentinel congratulates the talented young lady.

The essays of the other successful contestants will follow one each day. The names of the lucky winners are Miss Virginia Daw Baxter of the Nacogdoches High School, Miss Christine Fall of Chrengo; and Mr. Charles Johnson of the Nacogdoches High School.

What are the Benefits of an Enlistment in the United States Army.

By Miss Ruth Fouts.

For Americans the most hopeful sign of the eventful times in which we are living is the enlistment of the American boy in the new Democratic army of the United States.

Boys join the army, the moral and physical good which you would derive from a life of hard, disciplined training out of doors for a period of twelve months or more would be worth more to you than any other kind of education. It would be invaluable to both you and our country in future years. Practice for one year or more in the new Democratic army would teach you much of the rapidly decaying art of obedience. The instruction would be useful toward the development of self-control which is essential to leadership among men.

Boys think for a moment of the training camps that were used to prepare our boys for over-sea service in the great war that has just been brought to a close. Into these camps went a conglomerate mass representing almost every nation that is with us, all classes of society, young men from all walks of life and all parts of the country. And out of these

camp came sturdy disciplined, liberty loving, flag-respecting citizens, who will give us a high clean civic life, who will stabilize our country and make democracy real efficient and lasting. They are the men who will unify us. Boys get in the army.

If you have ever been called a sissy by your classmates, join the army, it will make you every inch a man. If you have ever been sassy to a teacher join the army. It will make you a perfect gentleman. If you have a desire to travel, join the United States army, it will furnish you splendid opportunity to travel. If you wish to better yourself physically and at the same time learn a vocation, join the army. The government feeds and clothes the soldiers and pays them from thirty to one hundred and twenty-one dollars per month. If you are promoted your salary increases accordingly, you must not miss this opportunity for the unbuilding of your body, mind and purse.

RUSSO-JAPANESE WAR

Honolulu, April 1.—Seven hundred Japanese troops and civilians were killed in a two-days' battle with Russian bolsheviks at Nikolavsk, Siberia, according to a Tokio newspaper dispatch.

Guerrilla Warfare Feared

Vladivostok, April 1.—Russian and Japanese troops clashed at Nikolavsk on March 13, the Russians reporting 40 killed. It is believed here the encounter may start a guerrilla warfare with fears of spreading throughout Siberia unless the Japanese withdraw.

MANDATE FOR ARMENIA

Paris, April 1.—The mandate for Armenia has been offered the League of Nations by the Supreme Allied Council.

SOUTH CAROLINA LYNCHING

Spartanburg, S. C., April 2.—George Robertson, a negro, was taken from jail at Laurens at midnight last night and hanged. He was charged with knifing three white boys.

TRYING FOR NEW DEAL

BETTER CHURCH BUILDINGS PLANNED FOR RURAL DISTRICTS BY BAPTISTS

PART OF PROCEEDS OF 75 MILLION CAMPAIGN WILL BE EMPLOYED IN ERECTING BETTER HOUSES OF WORSHIP AND OTHERWISE HELPING DEVELOP WEAK CONGREGATIONS, IT IS ANNOUNCED.

TYPICAL RURAL CHURCH BUILDING OF TODAY ----

EXTERIOR OF IMPROVED RURAL CHURCH

FLOOR PLANS OF IMPROVED COUNTRY OR VILLAGE CHURCH ----

Several outstanding results of the Baptist 75 Million Campaign will be noted in the larger development of the rural churches. This development will take the form of a more efficient church and Sunday School life and in better houses of worship around which the church and Sunday School activities will center.

Through the enlistment department of the Home Mission Board of the Southern Baptist Convention, Atlanta, Ga., weak, struggling churches will be aided in development to the point where they can become self-supporting and employ a competent pastor for much more of his time than has been given these churches before, while plans for the betterment of the rural Sunday Schools through a series of institutes for the training of teachers in all the Southern states this summer will be carried out by the Baptist Sunday School Board.

Best Plans Are Recommended.

Plans have been perfected by the architectural department of the Baptist Sunday School Board at Nashville, Tenn., in co-operation with the Church Building and Loan Department of the Home Mission Board, whereby local building committees can procure detailed plans of the best modern church buildings for either large or small congregations. These plans have been so drawn as to take care of every phase of church activity, the Sunday School and other departments being so provided for as to enable them to do their most efficient work. And a modern building, containing all these essential provisions, can be provided by any community that is able to build an old-fashioned one-room church building, as the cost for the modern structure is no more than that of the old-style one.

Big Loan Fund Provided.

To aid deserving congregations in building adequate houses of worship, the church building loan department was established six years ago and already more than 700 churches have been helped in building needed houses. The initial fund, established for this purpose, was fixed at \$1,000,000 and an additional \$1,000,000 will be received from the 75 Million Campaign. Applications pending now aggregate \$1,000,000 and loans are being made at the rate of \$50,000 per month. No loans are being made in excess of one-third of the value of the property, and the loan made must clear the property of all other indebtedness and thus make it possible to dedicate the building.

From the 75 Million Campaign the Home Mission Board will receive, also, \$2,500,000 to be used as gifts in the building of additional churches during the next five years, but this sum will be expended largely in aiding churches in strategic points, among them being educational centers where it is desired to erect churches for promoting the religious life of students, especially of those students affiliated with Baptist churches.

Of the 25,000 Baptist churches in the South, 21,000 are in the rural districts and in small villages, and 19,000 of them have preaching services only once a month. While the work of the enlistment forces will be to help these weak congregations solve their problems and help them develop in numbers and efficiency, the other denominational agencies will help these strug-

QUITE EQUAL TO OCCASION

Female "Heckler" Who Tackled Lady Astor Got a Good Deal of a Surprise.

"Lady Astor," said a New York clubman, "brought more popularity to the Astor name during her election fight in England than either the old viscount, William Waldorf, or the new viscount, Major Waldorf, ever succeeded in doing."

"She's a clever woman, a wise woman, and we Americans may be proud of her though she has deserted us."

"On the election platform she gave many a striking proof of her good wit. Thus one evening a soured-aged female rose in the audience and asked with a kind of prim irony:

"If Viscountess Astor is elected to parliament, will she work to make us as easy for us in England as she is in America?"

"This was a mean blow, a foul blow, a blow below the belt, so to speak, for Lady Astor, though no fault of her own, is a divorced woman. She countered brilliantly, however, and the blow didn't land. Looking at her questioner in a commiserating way, she said:

"I'm sorry, madam, you are in trouble."

"And the house roared with laughter."

HAVE PUT UP BRAVE FIGHT

Sumatra Natives for Centuries Carried on Warfare With Their Conquerors, the Dutch.

Sumatra's war-declimated population amounts to less than 3,000,000 most of which is not available for labor, the island, therefore, barely beginning to attract attention, despite its riches in natural resources. Sumatra is immense in area and between its different sections there is little inland communication, that which exists being of a treacherous and warlike character. Much of the island remains unexplored. Other parts such as the whole of Achin, are still in a state of warfare, which seems destined to end only with the eventual extermination of the resisting tribes.

The first hostilities of the Achinese date back to 1582, but for the last forty years fighting has been continuous, costing more than 200,000 lives in the Achinese war alone. A guerrilla warfare of surprises and ambushes has been going on in the jungles, the determined resistance of the Achinese continuing undiscouraged, although their government has been deposed, and all their towns and strategic positions occupied by Dutch troops.

"Every little day," said the Slangster, "a wise guy gets hep to some new idea."

"Just—ah—what do you wish to convey?" the Social Scamp inquired.

"Ever notice how some of these baby vamps mask their ears with sealions of hair?"

"I can't say as I have, old dear."

"Well, the hair comes down over the listeners like part of a waterfall, and is tucked up underneath or in the back."

"My word!"

"I've just found out how they do it."

"How do they do it, tell me."

"They make the bay windows stand out by stuffing little gobs of false hair inside."

"How did you learn that?"

"I know a lady who helps to sweep out a department store mornings."

"My word!"

"And she says the gobs fall out and clog up the vacuum cleaners."

Baby's New Papa.

While on a train a woman sat opposite me accompanied by a chubby youngster that was just learning to toddle around. At one of the stations the woman requested me to watch the child while she sent a telegram. The conductor assured her there would be plenty of time.

Imagine my consternation when the train pulled out and the woman did not return! With the now screaming child in my arms and heads of perspiration trickling down my desperate countenance, I searched the entire train in a vain endeavor to find "mamma."

At the station just ninety miles further the overjoyed conductor came running into my coach with a telegram from mamma addressed to baby's new "papa." And at the next stop, baby's uncles, aunts, and cousins were there to receive it. —Chicago Tribune.

Spreading Joy.

The joy you give others will return to you with interest. To be sure you do not help others for returns. That would be mercenary and where it is practiced men soon learn to read the motives that prompt it. The result is a tonesome man in a short time. You will give your joy for the joy it gives you to give it. You feel rewarded a hundredfold in knowing you have helped somebody. Their grateful hearts respond with overflowing gladness and gratitude. It's no wonder you're glad. Yet it's merely the action of the old law that rewards the altruistic spirit with blessings.

THEY TOOK HER LITERALLY

But Probably Musical Comedy Star Did Not Mean Just What She Threatened.

A popular musical comedy star was taking her summer vacation in a New England village this year, and good naturedly agreed to participate in an "entertainment" to be given at the town hall for the benefit of local charities. She procured from New York one of the costumes from her last winter's show, and a fetching poster showing herself in that same costume. Soon after the poster was on display a delegation of village ladies waited upon the committee of gentlemen who were engineering the entertainment and protested against the chic costume of the poster, which was, in fact, that of the conventional "prince" of musical comedy, with a frank if pleasing display of silk-encased limbs.

"Let's send for Miss de Lancy and see if we can't fix it up," a committeeman suggested, and this was done.

Now, besides being good natured, Miss de Lancy is high-spirited, and rather thought that the costume which had been good enough for her to appear in for some hundreds of times in New York would do for one appearance in Hicksville.

"There is no use talking," she announced with decision, "I'll appear in that costume or nothing!"

There was a moment of horrified silence, then quick whispering among the lady delegation, and a moment later their protest against the proposed costume was withdrawn. —Philadelphia Ledger.

COSTS MONEY TO RUN ZOO

Pets of Londoners Are Really Expensive Propositions in the Feeding Line.

How much does it cost now to feed an elephant for a year? Two thousand dollars say the officials of the London zoo. And a giraffe costs half as much. So that with the increased prices of food, have come new problems for the keepers of menageries. The meat foods include beef, horse flesh, guinea pigs, rats, cats, mice, rabbits, frogs, snakes, fish, pigeons, ducks, sparrows, gentles, snails, ants and cod liver oil. The gazelles, buffaloes and antelopes must be provided with rock salt. They are fed on oats, bran, hay, green clover, together with carrots and potatoes. The birds are the most difficult to feed satisfactorily. Flamingsoes, for instance, require soaked wheat, boiled shrimps and fish cut small. Some birds are fed largely on bullock's liver. This is cut into slices, boiled, then put through a mincing machine. The mince is dried in a slow oven and preserved. The dry mince is usually mixed with bran or pollard. Quantities of insects have to be kept in stock for the insect-eating birds. These are principally meal worms and gentles, which is the polite name for meat maggots. But for some birds flies and grasshoppers are required. The monkeys require fruit, such as bananas and apples, while the snakes must be fed on small animals, such as rabbits, mice and rats.

New Idea in Storing Coal.

The ingenious plan of storing coal in carbonic acid gas, as undertaken at Dortmund, Germany, gives the safety from spontaneous ignition of under-water storage, while the container offers the convenience of the overhead bunkers constructed with a capacity of 2,500 tons, has semi-spherical top and bottom, and three filling openings at the top, with three discharging outlets at the bottom. The lower outlets are gas tight when closed, but as the carbonic acid is much heavier than air the upper openings do not require being absolutely leak proof. A grab on a structural steel tower unloads the coal from a barge. The coal is dropped into a small hopper, and then fed to a push-plate conveyor, which is so placed that it may serve in filling or emptying the three bunkers. The small amount of carbonic acid gas that leaks out in removing coal can be readily replaced.

Fun for the Girl.

One evening, coming home from the theater on the street car with my lady friend, I stepped from the car and noticed an automobile coming up behind the car. I kept my eye on the automobile and took the elbow of the next person alighting after me, expecting it to be my friend. Still watching the motor, I led the elbow safely to the walk, and then turned my attention to her. But, to my embarrassment, who should I find myself escorting, but a great, tall man, who said in the sweetest voice: "Thank you, I was never escorted by a young man across the street before; you are the kindest fellow I ever met." My lady friend was following us, and she giggled over the joke all the rest of the way home. —Exchange.

Artificial Tree for Birds.

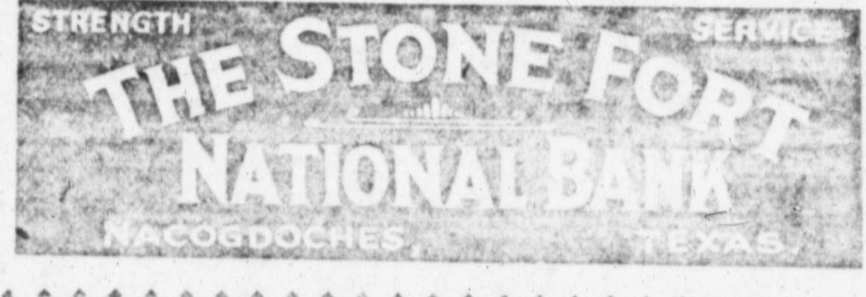

Dr. H. B. Warren is having a concrete tree built on his lawn at West Chester, Pa., to provide homes for birds. The tree is upon a wire frame 15 feet high. Holes of different sizes will lure the birds to meet and rest. At the base of the tree will be a large concrete bath to provide the guests with running water at all times. Imitation limbs on the "tree" will give perching accommodations. But the question is, will the birds be fooled by this elaborately counterfeited tree? We have seen some most elaborate and expensive bird houses empty year after year.

NACOGDOCHES PEOPLE RECEIVE THANKS

As I shall leave tomorrow for Dallas, where I will receive orders for duty some place which I do not know just now, although I am pretty certain this place shall be the Hawaiian islands, I take this method of sincerely thanking the many good people of Nacogdoches, whom I feel honored to call my friends, for the many kind things they have done for me while in their midst to make my stay in Nacogdoches during the past ten weeks one of genuine delight and pleasure. It comes from my heart when I say that in all my life I have never seen such warm-hearted people as those of Nacogdoches have proven to be.

Upon my return last fall from Germany and France where I saw service on various fronts for a period of 17 1/2 months and was wounded once, I was assigned to the Houston recruiting district. When this was done, I for the first time heard of Nacogdoches; and I may say here that what I heard was words of praise. When I first came to Nacogdoches I could scarcely pronounce the name, but I can now, and the name will always occur to me with a genuine exhilaration.

I do not know whether I shall ever see Nacogdoches again, but if I never do, I want all to know that until the last day of my life I shall always remember it with the deepest sense of friendship. My home is in Baltimore, Md., and if it is ever the pleasure of any of my Nacogdoches friends to be in that city, I shall feel honored to have them visit my home.

Again expressing my most profound appreciation of Nacogdoches and its people and expressing the sincere belief that Nacogdoches will

HARBOR TRAFFIC CURTAILED.

New York, N. Y., April 3.—Traffic in New York harbor is still curtailed by the strike of harbor employees, but the ferry lines, except the Erie and West Shore railroad boats, are operating normally. Railroad officials say there is no danger of interruption of the city's food supply.

Ex-President William Howard Taft will deliver an address on "The League of Nations" in Jacksonville Monday April 12, at the First Methodist church auditorium. A splendid crowd should turn out from Nacogdoches to hear this noted man.

The proposed new labor party cannot win, for two reasons. First, it would be a minority party and both the old majority parties would fight it. Second, labor itself would not support it more than partially. Labor would not unite upon any one political creed any more than it would upon any one religious creed.

Our public questions should be considered not only by intelligent men but by honest men. Neither can be found in the bolshevik movement, according to the confession of the leader who knows most of them. Lenine himself has described his followers. At the third soviet conference he said: "Among one hundred so-called bolsheviks there is one real bolshevik, thirty-nine criminals and sixty fools."

Miss Margie E. Neil, of Carthage, former editor of the Panola Watchman, is a candidate for delegate-at-large to the National Democratic convention at San Francisco. Miss Neil has been before the public for many years and in close touch with political affairs and is in every way qualified to represent the State in the National Democratic Convention. It is understood that two women will be elected to represent the state at the National Convention and it is one of these places that Miss Neil is seeking. Let's everybody in Nacogdoches county vote for her.

THE MEXICAN FARM

LABOR QUESTION.

*To the Sentinel.

In your issue of yesterday there appeared a communication from Walton Petet of the Texas Chamber of Commerce, urging our farmers to secure Mexican laborers through the San Antonio gateway.

On Sunday, March 25, there appeared in the state papers a graphic story of how San Antonio was flooded with Mexican laborers just waiting for some outside employer to call for them. After reading this story I wired the Chamber of Commerce, San Antonio, asking if the Mexicans were fit for farm laborers and if we could be certain of getting them if we sent a representative there. I asked for a reply at my expense. After waiting twenty-four hours without a reply I again wired asking for an answer. In the meantime I called Harry Fall of Chireno, Dr. George Campbell of Douglass and Tom Maroney, asking them to ascertain the need of extra labor in their several communities. Mr. Maroney's neighborhood could use ten or fifteen farm hands. The following reply came in answer to my second wire to San Antonio:

"Mexicans moving through San Antonio northward. I think you can secure them if you send representative here but cannot promise anything definite.

C. H. Alveré,
Chamber of Commerce.

Through private sources I learned that the class of Mexicans available need to be fed for several days before they could do a days' work and they were thoroughly unreliable.

If our farmers want to experiment with this source of labor, the Nacogdoches Chamber of Commerce is at their service. But the shiftless, starved Mexicans about which Mr. Petet writes so hopefully is an experiment as a farm laborer.

H. L. McKnight, Secretary
Manager Chamber of Commerce.

NACOGDOCHES TRADITIONS

Renitions naturally occur in writing up the old times and events in Nacogdoches. One event laps upon another, and often the same persons and places figure in different instances.

In writing up the old county jail in the last installment the jail was located on the southwest corner of Pecan and Hospital streets. Mrs. Peavy established the first hotel there. Just west of the jail in the early fifties, there stood a decent framed building, fronting on Hospital street. It was about 30x50 feet, on high blocks after the early day style of a school house or church with only one door, this in the front center, and numerous side windows.

This building was originally used as an Odd Fellows hall. Later, after the decadence of the I. O. O. F. organization, it became a temperance hall, and a general public hall, used for religious meetings. Among the notable preachers who orated there were John R. Cox and John N. Wilson, Methodists, and Tom R. Jennings, Baptist, who was at times off and on in the pulpit. All of them have gone to their reward. At the time referred to there was not a protestant church in the town, and not such an organization, or even such membership. So this Odd Fellow hall was quite useful and varied in its uses. The end of it came by its sale to G. D. Boger, who moved it over across Hospital street for a dwelling, wheret he Methodist church now stands.

When Tom R. Jennings was afterward a prisoner in the county jail, as heretofore written up he was not in the pulpit in the old hall, but meditating in the jail next door to it. When the Temperance society held forth in this fall Charles Hoya was the deputized orator of a meeting. He made a loud and vociferous address from the pulpit. He moreover practiced what he preached. Ask him about it.

But this old hall was afterwards a Thespian hall, before, during and after the war. An English theatrical enthusiast named Rider, a transient painter, headed an organization called the Thespian Society. It rapidly grew into popular favor, and it pulled off some big stunts. It grew too large for this hall, so it erected a hall of its own on the Southeast corner of Pecan and Hospital streets, known as the Pressler corner. Among its members were prominent young men and ladies. Capt. F. Voigh, Col. Wm. Clark, June B. Harris, Jason Shanks, four Taylor boys, L. S. Taylor being the best, and Milan Taylor, being a superior comedian. It was not easy to procure local female talent, so Lawrence Taylor and William Taylor, both being of small stature, took the part of female actresses. They cultivated appropriate curly hair, and their sisters dressed them in suitable style. One feature of their dress was hoop skirts. On the occasion of one of these amateur performances, there was a young stranger present who became greatly enchanted in the beauty of the two apparent pretty girls. He was amazed to learn that they were boys.

The new Thespian hall was quite a popular ball room during and after the war. When Dick Orton was sheriff a big ball was given there in honor of his newly arrived, beautiful and charming affianced girl, Miss Maggie Taylor from Memphis, Tenn. He was at the time gone to Huntsville carrying prisoners. She was almost shocked when told jokingly that Dick had gone to the penitentiary.

Amateur theatricals were quite a fad in those days. So also were shows traveling over the states in wagons. Transient minstrels were also dominant and of course the ubiquitous circus and slight of hand, and ventriloquists were visitors. Balloons went along but did not carry passengers up.

Between the old jail and the public square there was in those days but one building on the west side of Pecan street, and that was Dr. Starr's office, now part of the Cox lot. And on the east side of this street no house but the Pressler's dwelling and the Catholic church. The Cox lot was covered by wild natural trees, two of these huge pecans, hence the name of the street. There were other pecan trees on this street south of the public square. Col. N. C. Gragard, an aged and honorable citizen of Jacksonville, Texas, may recall these pecans of his boyhood, when his home was in a Mexican hut on Hospital street in the L. Zeve vicinity.

15,000-ACRE LEASE IN NACOGDOCHES COUNTY.

Universal Oil Company of St. Louis Contracts for Deep Test At Melrose.

J. L. Prince of Nacogdoches has 15,000 acres under lease, and closed a contract Saturday with the Universal Oil Company of St. Louis, Mo., in which the Missouri concern is to begin a deep test at Melrose within the next sixty days. Several thousand dollars has been placed in the Commercial Guaranty State Bank by the company as a forfeit to Mr. Prince if the company does not drill the deep test. Mr. Prince has another contract pending with a Louisiana company, and is expecting it to be closed shortly. Mr. Prince's lease lies in the vicinity of Melrose, eight miles east of Nacogdoches. His first deep test will be made in the Sand Hill community, which is located between Melrose and Chireno.

Geologist Queen, who has made examinations of the surface formations of Nacogdoches county declares that the county has fine indication. Dr. Queen is putting down a deep test at Melrose at his own expense. He plans to drill three thousand feet or more.

At Garrison the Simms Oil Company of Shreveport has a deep test down two thousand feet and has encountered gas. The company, it is understood is planning to drill 3,500 feet.

The Carolina Oil Company of Nacogdoches has about twenty-three wells completed in the vicinity of Oil Springs, which is located about ten miles south-west of Chireno, and at present the wells are producing under pump from two to twenty-five barrels of oil per day. Some of these wells are in depth scarcely over 300 feet. The Carolina company has two drilling rigs going day and night now, and it is understood that probably more machinery will be added to the force.

Leasing in the county, in the main, has decreased on account of all the land being taken up. However, in the Melrose-Swift-Chireno district leases are high in price, approaching the \$25 per acre mark within a few cents. This is the price demanded for hitherto untested lands. Some of the acreage could scarcely be obtained at any price, as the parties holding plan to drill. Most of the leasing, however, that is going on is in the vicinity of the Swift-Shady Grove-Martinsville-Melrose-Chireno district, with Melrose the center of attraction. Leasing in the western part of the county around Douglass, Lillbert and Cushing is thought to be chiefly for speculation purposes, although there are some very fine surface formations to be found out there, ecologists say.

Several big companies, among which is the Texas Company, are to begin deep tests here within sixty days, it is understood. Eight wells, deep tests, have been contracted for already by responsible companies, and these companies are to begin drilling operations within sixty days or may heavy forfeits, amounting to as high as \$15,000, say reports here.

The Mexican labor proposition is apparently getting the attention of all the business men of Nacogdoches, and already they are planning to get some method arranged by which some of this cheap labor can be obtained for the county. Douglass, Appleby, Garrison, Cushing, Chireno and other districts have been heard from, and they all want from 12 to 15 Mexican families if they can be obtained. Some say that these Mexicans are not reliable, that may be true, but all things worth while had to be learned via the experiment route.

All over the county plowing and extensive preparation is going on for what promises to be one of the best crop years in the history of the county. Farmers were the victim of a terrible pest last year in the form of worms and weevils, but it has been demonstrated beyond a doubt that the remedy for that sort of a thing is poison and plenty of it. Scientific devices of various pattern for the purpose of spraying cotton with the poison especially prepared for the pest are to be obtained anywhere at a minimum cost, and there will not be many farmers who will miss the opportunity of getting one of these machines. The writer has seen the worth of these machines and the poison used, and he can heartily endorse their worth.

Judge Marshall says that a considerable bit of road will be ready within a short time to let out to contractors for development. The Nacogdoches-Douglass road is being fixed up in scientific style, and really Nacogdoches should never tire of boasting about it. Men that know say that Nacogdoches is leading all East Texas in good road building.

MR. AND MRS. RATCLIFF ARE INJURED.

A mantle of gloom settled down upon the people of Vinita Tuesday evening as the news of the Ratcliff accident at the Foreman street and Frisco railway crossing spread throughout the city. At that time the seriousness of the affair could not be learned, though it was known that the injuries sustained by Mrs. Ratcliff were quite serious.

Every citizen in Vinita knows Mrs. Ratcliff and she knows them. It has been this way for many, many years, in fact, ever since they left their home in Texas, and came here to cast their lot and fortunes with Vinita, when it was a very young town. Mr. and Mrs. Ratcliff have assisted very materially in making Vinita the city she is today. Mr. Ratcliff has always been in the forefront of the cities mercantile life, while Mrs. Ratcliff has been equally active on the civic, church and school side of the cities development. Mrs. Ratcliff is always doing something for other people, and that is always something good.

No wonder the public was shocked and nervous when it was learned a freight train on the Frisco plowed into their car and no one could say how badly the occupants were injured.

Mr. and Mrs. Ratcliff were returning home from downtown, accompanied by their little granddaughter, Betty Jean Jones, about two years old, and were within a block of their residence when the accident occurred.

They stopped at the crossing to await the passing of a passenger train, and after the train passed a railroad employee gave a signal which Mr. Ratcliff understood to mean "Come ahead," and he did so, and when passing over the track an engine with a caboose attached crashed into the car, coming from the east. The cowcatcher of the engine struck the right rear wheel, breaking it and throwing the car several feet to the west. Mrs. Ratcliff sustained serious injuries, her pelvic bone being fractured, and some internal injuries. Mr. Ratcliff received a scalp wound from broken glass and a bruised shoulder and side. And the little granddaughter was hurled through the car door after the glass was shattered and alighted on the pilot of the passing engine, where she caught hold and clung until taken off by one of the train men after the engine had stopped 150 yards west of the crossing. She did not even want to let go after the train man got hold of her. She insisted that she wanted Norval.

Norval is Mrs. Oscar Jones, her brother, and here comes another very sad part of this story. Mrs. Jones was in her own car just behind the Ratcliff car, and she and they talked back and forth while the cars were stopped for the passenger train to go by, and in a second the thing had happened and was over, but where was the little girl? That is what a frantic mother wanted to know. Mrs. Jones knew the location of her father and mother, but her little Betty Jean could not be found. The mother did not see her frisked from the car to the pilot of the engine, and while she was searching for her beneath the cars she was rescued from the pilot off her engine by a train man.

In the face of all this you do not wonder at gloom spreading over the city.

It is thought the engine of the car was not running when hit by the engine.

At this time both Mr. and Mrs. Ratcliff are doing as well as could be expected, and little Betty Jean, with the exception of a slight limp, is her usual self.—Vinita Leader.

EX-President William Howard Taft will deliver an address on "The League of Nations" in Jacksonville Monday April 12, at the First Methodist church auditorium. A splendid crowd should turn out from Nacogdoches to hear this noted man.

The proposed new labor party cannot win, for two reasons. First, it would be a minority party and both the old majority parties would fight it. Second, labor itself would not support it more than partially. Labor would not unite upon any one political creed any more than it would upon any one religious creed.

Our public questions should be considered not only by intelligent men but by honest men. Neither can be found in the bolshevist movement, according to the confession of the leader who knows most of them. Lenin himself has described his followers. At the third soviet conference he said: "Among one hundred so-called bolshevists there is one real bolshevist, thirty-nine criminals and sixty fools."

Miss Margie E. Neil, of Carthage, former editor of the *Parola Watchman*, is a candidate for delegate-at-large to the National Democratic convention at San Francisco. Miss Neil has been before the public for many years and in close touch with political affairs and is in every way qualified to represent the State in the National Democratic Congress. It is understood that two women will be elected to represent the state at the National Convention and it is one of these places that Miss Neil is seeking. Let everybody in Nacogdoches county vote for her.

THE MEXICAN FARM LABOR QUESTION.

*To the Sentinel.
In your issue of yesterday there appeared a communication from Walton Petec of the Texas Chamber of Commerce, urging our farmers to secure Mexican laborers through the San Antonio gateway.

On Sunday, March 25, there appeared in the state papers a graphic story of how San Antonio was flooded with Mexican laborers just waiting for some outside employer to call for them. After reading this story I wired the Chamber of Commerce, San Antonio, asking if the Mexicans were fit for farm laborers and if we could be certain of getting them if we sent a representative there. I asked for a reply at my expense. After waiting twenty-four hours without a reply I again wired asking for an answer. In the meantime I called Harry Fall of Chireno, Dr. George Campbell of Douglass and Tom Maroney, asking them to ascertain the need of extra labor in their several communities. Mr. Maroney's neighborhood could use ten or fifteen farm hands. The following reply came in answer to my second wire to San Antonio:

"Mexicans moving through San Antonio northward. I think you can secure them if you send representative here but cannot promise anything definite.

C. H. Alvered,
Chamber of Commerce.
Through private sources I learned that the class of Mexicans available need to be fed for several days before they could do a day's work and they were thoroughly unreliable.

If our farmers want to experiment with this source of labor, the Nacogdoches Chamber of Commerce is at their service. But the shiftless, starved Mexicans about which Mr. Petec writes so hopefully is an experiment as a farm laborer.

H. L. McKnight, Secretary
Manager Chamber of Commerce.

NACOGDOCHES TRADITIONS

Renovations naturally occur in writing up the old times, and events in Nacogdoches. One event laps upon another, and often the same persons and places figure in different instances.

In writing up the old county jail in the last installment the jail was located on the southwest corner of Pecan and Hospital streets. Mrs. Peavy established the first hotel there. Just west of the jail in the early fifties, there stood a decent framed building, fronting on Hospital street. It was about 30x50 feet, on high blocks after the early day style of a school house or church with only one door, this in the front center, and numerous side windows.

This building was originally used as an Odd Fellows hall. Later, after the decadence of the I. O. O. F. organization, it became a temperance hall, and a general public hall, used for religious meetings. Among the notable preachers who orated there were John R. Cox and John N. Wilson, Methodists, and Tom R. Jennings, Baptist, who was at times off and on in the pulpit. All of them have gone to their reward. At the time referred to there was not a protestant church in the town, and not such an organization or even such membership. So this Odd Fellow hall was quite useful and varied in its uses. The end of it came by its sale to G. D. Boger, who moved it over across Hospital street for a dwelling, where he Methodist church now stands.

When Tom R. Jennings was afterward a prisoner in the county jail, as heretofore written up he was not in the pulpit in the old hall, but meditating in the jail next door to it. When the Temperance society held forth in this fall Charles Hoya was the deputized orator of a meeting. He made a loud and vociferous address from the pulpit. He moreover practiced what he preached. Ask him about it.

But this old hall was, afterwards a Thespian hall, before, during and after the war. An English theatrical enthusiast named Rider, a transient painter, headed an organization called the Thespian Society. It rapidly grew into popular favor, and it pulled off some big stunts. It grew too large for this hall, so it erected a hall of its own on the Southeast corner of Pecan and Hospital streets, known as the Pressler corner. Among its members were prominent young men and ladies. Capt. F. Voigh, Col. Wm. Clark, June B. Harris, Jason Shanks, four Taylor boys, L. S. Taylor being the best, and Milan Taylor, being a superior comedian. It was not easy to procure local female talent, so Lawrence Taylor and William Taylor, both being of small stature, took the part of female actresses. They cultivated appropriate curly hair, and their sisters dressed them in suitable style. One feature of their dress was hoop skirts. On the occasion of one of his amateur performances, there was a young stranger present who became greatly enchanted in the beauty of the two apparent pretty girls. He was amazed to learn that they were boys.

The new Thespian hall was quite a popular ball room during and after the war. When Dick Orton was sheriff a big ball was given there in honor of his newly arrived, beautiful and charming affianced girl, Miss Maggie Taylor from Memphis, Tenn. He was at the time gone to Huntsville carrying prisoners. She was almost shocked when told jokingly that Dick had gone to the penitentiary.

Amateur theatricals were quite a fad in those days. So also were shows traveling over the states in wagons. Transient minstrels were also dominant and of course the ubiquitous circus and slight of hand, and ventriloquists were visitors. Balloons went along but did not carry passengers up.

Between the old jail and the public square there was in those days but one building on the west side of Pecan street, and that was Dr. Starr's office, now part of the Cox lot. And on the east side of this street no house but the Pressler's dwelling and the Catholic church. The Cox lot was covered by wild natural trees, two of these huge pecans, hence the name of the street. There were other pecan trees on this street south of the public square. Col. N. C. Grazard, an aged and honorable citizen of Jacksonville, Texas, may recall these pecans of his boyhood, when his home was in a Mexican hut on Hospital street in the L. Zeve vicinity.

15,000-ACRE LEASE IN NACOGDOCHES COUNTY.

Universal Oil Company of St. Louis Contracts for Deep Test at Melrose.

J. L. Prince of Nacogdoches has 15,000 acres under lease, and closed a contract Saturday with the Universal Oil Company of St. Louis, Mo., in which the Missouri concern is to begin a deep test at Melrose within the next sixty days. Several thousand dollars has been placed in the Commercial Guaranty State Bank by the company as a forfeit to Mr. Prince if the company does not drill the deep test. Mr. Prince has another contract pending with a Louisiana company, and is expecting it to be closed shortly. Mr. Prince's lease lies in the vicinity of Melrose, eight miles east of Nacogdoches. His first deep test will be made in the Sand Hill community, which is located between Melrose and Chireno.

Geologist Queen, who has made examinations of the surface formations of Nacogdoches county declares that the county has fine indication. Dr. Queen is putting down a deep test at Melrose at his own expense. He plans to drill three thousand feet or more.

At Garrison the Simms Oil Company of Shreveport has a deep test down two thousand feet and has encountered gas. The company, it is understood is planning to drill 3,500 feet.

The Carolina Oil Company of Nacogdoches has about twenty-three wells completed in the vicinity of Oil Springs, which is located about ten miles south-west of Chireno, and at present the wells are producing under pump from two to twenty-five barrels of oil per day. Some of these wells are in depth scarcely over 300 feet. The Carolina company has two drilling rigs going day and night now, and it is understood that probably more machinery will be added to the force.

Leasing in the county, in the main, has decreased on account of all the land being taken up. However, in the Melrose-Swift-Chireno district leases are high in price, approaching the \$25 per acre mark within a few cents. This is the price demanded for hitherto untested lands. Some of the acreage could scarcely be obtained at any price, as the parties holding plan to drill. Most of the leasing, however, that is going on is in the vicinity of the Swift-Shady Grove-Martinsville-Appleby-Garrison-Chireno district, with Melrose the center of attraction. Leasing in the western part of the county around Douglass, Libert and Cushing is thought to be chiefly for speculation purposes, although there are some very fine surface formations to be found out there, geologists say.

Several big companies, among which is the Texas Company, are to begin deep tests here within sixty days, it is understood. Eight wells, deep tests, have been contracted for already by responsible companies, and these companies are to begin drilling operations within sixty days or pay heavy forfeits, amounting to as high as \$15,000, say reports here.

The Mexican labor proposition is apparently getting the attention of all the business men of Nacogdoches, and already they are planning to get some method arranged by which some of this cheap labor can be obtained for the county. Douglass, Appleby, Garrison, Cushing, Chireno and other districts have been heard from, and they all want from 12 to 15 Mexican families if they can be obtained. Some say that these Mexicans are not reliable, that may be true, but all things worth while had to be learned via the experiment route.

All over the county plowing and extensive preparation is going on for what promises to be one of the best crop years in the history of the county. Farmers were the victim of a terrible pest last year in the form of worms and weevils, but it has been demonstrated beyond a doubt that the remedy for that sort of a thing is poison and plenty of it. Scientific devices of various pattern for the purpose of spraying cotton with the poison especially prepared for the pest are to be obtained anywhere at a minimum cost, and there will not be many farmers who will miss the opportunity of getting one of these machines. The writer has seen the works of these machines and the poison used, and he can heartily endorse their worth.

Judge Marshall says that a considerable bit of road will be ready within a short time to let out to contractors for development. The Nacogdoches-Douglass road is being fixed up in scientific style, and really Nacogdoches should never tire of boasting about it. Men that know say that Nacogdoches is leading all East Texas in good road building.

MR. AND MRS. RATCLIFF ARE INJURED.

A mantle of gloom settled down upon the people of Vinita Tuesday evening as the news of the Ratcliff accident at the Foreman street and Frisco railway crossing spread throughout the city. At that time the seriousness of the affair could not be learned, though it was known that the injuries sustained by Mrs. Ratcliff were quite serious.

Every citizen in Vinita knows Mrs. Ratcliff and she knows them. It has been this way for many, many years, in fact, ever since they left their home in Texas and came here to cast their lot and fortunes with Vinita, when it was a very young town. Mr. and Mrs. Ratcliff have assisted very materially in making Vinita the city she is today. Mr. Ratcliff has always been in the forefront of the cities mercantile life, while Mrs. Ratcliff has been equally active on the civic, church and school side of the cities development. Mrs. Ratcliff is always doing something for other people, and that is always something good.

No wonder the public was shocked and nervous when it was learned a freight train on the Frisco plowed into their car and no one could say how badly the occupants were injured.

Mr. and Mrs. Ratcliff were returning home from downtown, accompanied by their little granddaughter, Betty Jean Jones, about two years old, and were within a block of their residence when the accident occurred.

They stopped at the crossing to await the passing of a passenger train, and after he train passed a railroad employee gave a signal which Mr. Ratcliff understood to mean "Come ahead," and he did so, and when passing over the track an engine with a caboose attached crashed into the car, coming from the east. The cowcatcher of the engine struck the right rear wheel, breaking it and throwing the car several feet to the west. Mrs. Ratcliff sustained serious injuries, her pelvic bone being fractured, and some internal injuries. Mr. Ratcliff received a scalp wound from broken glass and a bruised shoulder and side. And the little granddaughter was hurled through the car door after the glass was shattered and alighted on the pilot of the passing engine, where she caught hold and clung until taken off by one of the train men after the engine had stopped 150 yards west of the crossing. She did not even want to let go after the train man got hold of her. She insisted that she would not be hurt.

Norval is Mrs. Oscar Jones, her brother, and here comes another very sad part of this story. Mrs. Jones was in her own car just behind the Ratcliff car, and she and they talked back and forth while the cars were stopped for the passenger train to go by, and in a second the thing had happened and was over, but where was the little girl? That is what a frantic mother wanted to know. Mrs. Jones knew the location of her father and mother, but her little Betty Jean could not be found. The mother did not see her frisked from the car to the pilot of the engine, and while she was searching for her beneath the cars she was rescued from the pilot off her engine by a train man.

In the face of all this you do not wonder at gloom spreading over the city.

It is thought the engine of the car was not running when hit by the engine.

At this time both Mr. and Mrs. Ratcliff are doing as well as could be expected, and little Betty Jean, with the exception of a slight limp, is her usual self.—Vinita Leader.

Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. I suffered with my back and bearing-down pain, until life to me was a misery. I would think I could not endure the pain any longer, and I gradually got worse. . . . Nothing seemed to help me until, one day, . . . I decided to

TAKE

CARDUI

The Woman's Tonic

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . . ."

"It has now been two years since I took Cardui, and I am still in good health. . . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

MAY QUEEN ELECT EXPRESSES APPRECIATION

As I can not personally thank all for the loyal support they gave the juniors in electing their candidate for May Queen, who happened to be me, I take this method of expressing my genuine appreciation. In being elected May Queen I do not consider the honor as one conferred upon me, but as one conferred upon the junior class of which it is my privilege to be a member. Those who assisted the juniors in helping give me the May Queen honors will always have my profound appreciation.

Again thanking all for the kind and loyal support given us, I remain, Gratefully yours,
Mary Ann McKinney.

MILITARY MEASURES IN HAND OF MARSHAL FOCH

Paris, April 5.—French military measures destined to force the German government to withdraw troops from Ruhr/Basin are now entirely in hands of Marshal Foch. Well informed quarters declare occupation of Frankfurt, Darmstadt, Homburg and Hanau is unlikely to exercise sufficient pressure upon the Germans, since they will argue this occupation as distasteful to the French as to themselves, and can not continue indefinitely.

Paris, April 5.—The French are ready to move forward unless Berlin recalls troops from Ruhr district, latest information confirms. It is believed that in despite of claims of Germany's limited number of troops in the Ruhr district that in reality the number amounts to forty thousand men.

For A Severe Cold

"Chamberlain's Cough Remedy cured my daughter Anna of a severe cold and cough a few years ago and ever since then I have never missed an opportunity to recommend this medicine to anyone suffering from throat or lung troubles. I cannot speak too highly in praise of it," writes Mrs. D. J. Shelley, Earlville, N. Y. Chamberlain's Cough Remedy contains no narcotic and may be given to children with perfect confidence. It is a pleasant syrup and they do not object to taking it. Sold by Stripling, Haselwood & Co.

EXCHANGE RATES ARE ADVANCING.

New York, April 5.—British exchange rates rose above four dollars, after being below that mark since December 1st; French, Italian and German rates are also firmer.

EASTER STORM COVERS LARGE AREA.

Washington, April 5.—The Easter storm today spreading in four directions, with cold wave enveloping practically all territory between the Appalachian and Rocky mountains, freezing temperature prevails as far south as the interior of Texas.

They Speak Well of It.

"I frequently hear Chamberlain's Cough Remedy praised by friends and acquaintances which only tends to strengthen my good opinion of it," writes Mrs. Fred Arter, Zanesville, Ohio. Try it when you have a cough or cold and see for yourself what an excellent medicine it is. Sold by Stripling, Haselwood & Co.

SNOW STORM AT CHICAGO

Chicago, April 5.—Train service throughout the Chicago district is handicapped by snow storms, already demoralized by spread of unauthorized strikes of switchmen, according to reports, on eleven railroads. The Chief of Police fearing possible riots placed the entire police force on reserve.

STRIKE ENDED

Copenhagen, April 5.—Employers and workmen have agreed and the general strike which forced King Christian to dismiss the Liebe cabinet is ended.

Relieves Rheumatic Pains

"I am subject to rheumatism and when I have a spell of it one or two applications of Chamberlain's Liniment relieves the pain and makes rest and sleep possible. I would not think of doing without it," writes Mrs. C. Owlsav, Moberly, Mo. Sold by Stripling, Haselwood & Co.

RUHR STRIKE CALLED OFF

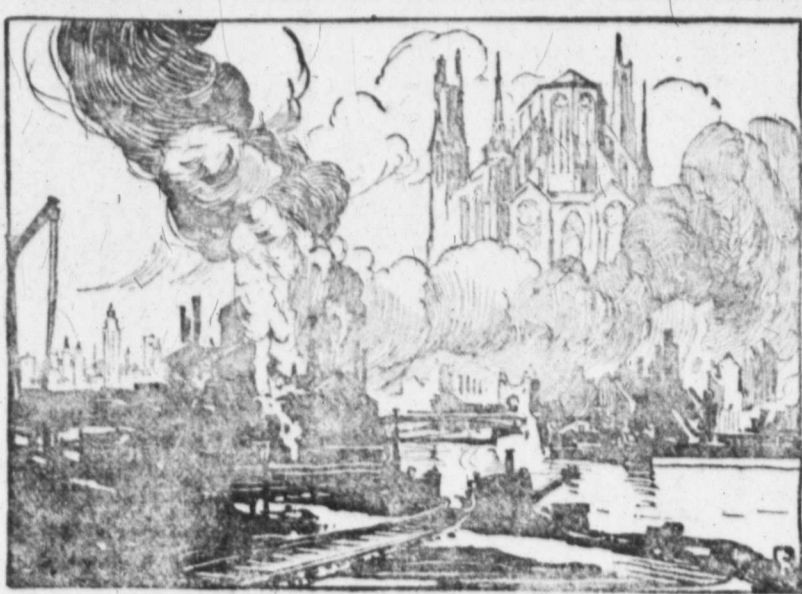

Copenhagen, April 3.—The executive council of the Ruhr district has decided to call off the general strike, according to an Essen dispatch. It is said they threaten a renewal if the Berlin government fails to halt the movement of troops toward the Ruhr district.

A WORLD REBUILT

By the Golden Rule
not by the rule of Gold

THIRTY denominations of the Church are uniting in a simultaneous campaign in the week of April 25th-May 2nd.

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste.

These churches know that the world needs many things, but it needs Faith most of all.

They know that there can be no final solution of our economic problems that is not a spiritual solution, based on the teachings of Jesus Christ and His Golden Rule.

They have had the courage to survey the whole task, and to ask for a budget large enough to sustain (1) the work abroad, (2) the work at home including the church's part in the huge task of Americanization, (3) the colleges and (4) hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers.

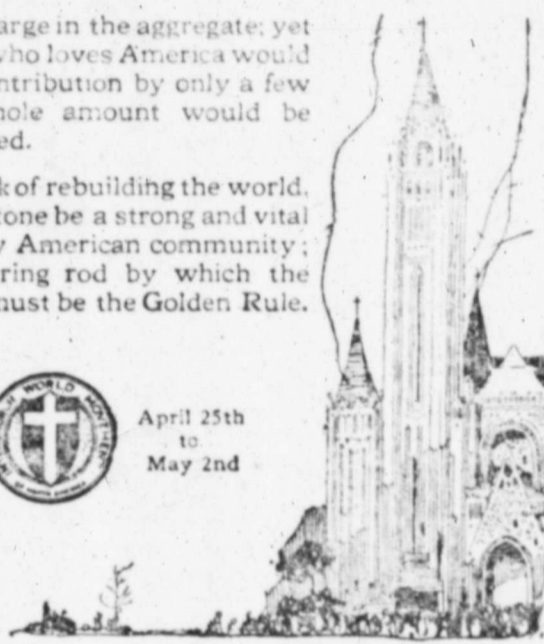

The budget is large in the aggregate, yet if each person who loves America would increase his contribution by only a few dollars the whole amount would be easily subscribed.

We face the task of rebuilding the world. Let the cornerstone be a strong and vital church in every American community; and the measuring rod by which the builders build must be the Golden Rule.

THE SWITCHMEN'S STRIKE

Chicago, Ill., April 3.—Freight traffic on the Chicago, Milwaukee & St. Paul railroad is at a standstill and operation of the Chicago Junction railroad is crippled as a result of the strike of a thousand switchmen and yard employees affiliated with the Chicago Yardmen's Union. The former road has declared an embargo on freight shipments. The Chicago Junction strikers demand the reinstatement of John Grunau, president of the union, and a scale of 95 cents an hour for switchmen and a dollar and hour for conductors.

Union officials announce that 16,500 switchmen at the Chicago Terminal will walk out Monday, causing a suspension of freight traffic, unless the demands of the Milwaukee railroad workers are granted.

THEY ARE WALKING

Toledo, Ohio, April 3.—The city is without street car service for the fourth time in less than four years. The car men voted to strike when the city council refused to ratify the agreement to increase fares in order to provide a wage increase.

In a few more days the great army recruiting campaign will formerly cease. The second division has already gotten out of the drive, and it only remains for the office divisions to round up the business. It is not known just how many were enlisted, but it is thought that the army has been considerably replenished. America plans to have an army of protective strength to insure America against possible disaster in the future.

TRAINMEN AND OFFICIALS REACH AGREEMENT.

Chicago, April 5.—Trainmen and officials of the Chicago, Rock Island and Pacific railroad reached a satisfactory adjustment of differences and agreement signed. This has no connection with the switchmen's strike which does not affect the Rock Island.

Chicago, April 5.—Fifty thousand stock yard employees will be thrown workless tonight as a result of strike, packers announce. Fifty thousand were laid off today and others will follow when small receipt of animals are disposed of. Embargo has been placed on all express shipments. Union leaders declare the strike is illegal and violates the men's agreements with the railroads. The brotherhood is bringing in men from the outside in an effort to keep essential business moving.

The Sentinel is gratified at the appointment of C. D. Mims as secretary of state to succeed George F. Howard, resigned. Mr. Mims was a former Nacogdoches citizen and no one in the county stood higher in the estimation of his fellow-citizens than he. He was appointed to fill out the unexpired term of Judge Ratcliff, and no man ever discharged the duties of that office more satisfactorily and conscientiously than he. He married Miss Vallie Price of Melrose, a member of one of the most estimable families. Judge Mims moved first from here to Merkel and thence to Austin. For two years he was chief clerk in the office of secretary of state, and is therefore entirely familiar with the duties of the place. We congratulate him and also the people of the state of Texas.

Organize Precinct Democratic Clubs

Dallas, Texas, March 29.—Chairman Clyde A. Sweeton of the Democratic Administration Executive Committee states that many clubs are being formed throughout Texas for the purpose of aiding in the election of delegates from Texas to the Democratic National convention who are of undoubted loyalty to the great principles and policies of our National Administration.

To afford a general opportunity to the citizens of the State to become enrolled in his work, Mr. Sweeton asks that volunteers in all cities and towns and precincts at once begin securing club members and that the signed list be mailed to him at the Southland Hotel, Dallas.

Following is the approved form for the heading of such lists which Mr. Sweeton suggests be clipped from this paper and be pasted to sheets which may be dated and signed, giving names and addresses of Democratic voters indorsing this movement:

Charter of the Democratic Club

We, the undersigned Democrats, heartily approve the great achievements of our Democratic National Administration under the leadership of Woodrow Wilson, both in peace and in war, and we favor its unqualified indorsement by the Democratic National Convention to be held at San Francisco, both in the platform it shall adopt and in the candidates for President and Vice President it shall nominate.

We enroll our names as charter members of the Democratic Club to be formed for the purpose of aiding in the election of delegates from Texas to the Democratic National Convention of undoubted loyalty to the great principles and policies of our National Administration and in combating in all proper ways the foes of the Democratic party, those within its rank as well as those without.

We further pledge ourselves to attend the Democratic Primary Mass Convention to be held in our respective voting precincts on Saturday, May 1, 1920, as provided by law, and to vote to instruct our delegates from this county to the State Convention to vote only for men and women who are Woodrow Wilson Democrats as delegates from Texas to the Democratic National Convention.

Every man and woman who approves the purposes therein expressed is eligible to membership in this organization and its officers shall be a president, a vice-president, a secretary, a treasurer and an executive committee of five members, all of whom shall be elected by the members and who shall perform the respective duties customarily devolving upon such officers.

The first five persons who shall subscribe their names to this charter shall constitute an organization committee whose duty it shall be to call the charter members together at such time and place as they deem advisable to elect officers and perfect the organization.

APPRECIATION.

In this issue of the Sentinel I wish to sincerely thank those who gave the seniors such loyal support during the time that body gave me the honor of representing them as their candidate for May Queen. I was deeply touched and gratified at the genuine demonstrations of pure friendship that were accorded me during the campaign, and I want everyone to know that I shall always remember these things with a pure sense of exhilarating delight. I am especially grateful to the freshmen, the sophomores and the grammar grades of the high school for the loyalty shown me during the campaign—I want all to know that I profoundly appreciated these things.

Lastly, I wish to congratulate McKinney on the victorious campaign she made, and I assure her that I am anxious to co-operate with her in every respect in order to make her honor even more successful and unanimous in the high school and

that she will accord me that of that pleasant honor.

Again thanking all who supported me and the seniors in the campaign, and congratulating those who did not on the success of their vote, I beg to remain,

Yours very gratefully,
Jewel Norwood.

JUNIORS' APPRECIATION

We the junior class of the Nacogdoches High School take this method of sincerely thanking those who so warmly supported us during the May Queen campaign, and we feel that the results of the campaign more than paid all who supported us. We deeply appreciated the sympathy given our cause, and in return we wish to assure our friends that they have our undying gratitude.

Again thanking all, we beg to remain,
Yours very gratefully,
The Juniors.

GONE BUT NOT FORGOTTEN

It has pleased the good Lord to remove from our midst our beloved Sister Harris. The Angel of Death came to the home of Brother and Sister Honea and claimed for its victim Mrs. Chathed Harris, the mother of Sister Honea.

Sister Harris was born May 13, 1848, died February 27, 1920; age 71 years, nine months and twenty-one days.

She was married to Mr. Peter Harris February 1, 1869. To this union was given five children, two boys and three girls. Her husband and two children have passed over the river and gone to their reward. Three children are living—Mr. John Harris, Mrs. Bertha Honea and Mrs. Babe Miller, there are twenty-three grandchildren, 13 living; 12 great grandchildren, 9 living.

For the past few years she had been living with her children, Mesdames T. A. Honea, Fred Miller, Alcieu Acree.

Sister Harris professed a hope in Christ in early life but did not unite with the church until about 19 years ago. In a revival meeting at old Peach Tree Missionary Baptist church she was baptized in to the fellowship of the church in which she lived a consistent member until her death. All was done for her that loving hands could do but to no avail.

As Job says in the 14th chapter. Her change had come so she must bid farewell to the things of earth and go home where the wicked cease from troubling and the weary be at rest. So weep not dear children, as those who have no hope for me think her departed spirit is basking in the sunlight of God's love.

Why should we mourn departed friends or shake at death's alarm. 'Tis but the voice of the Lord to call them to His arms and for this reason she will be missed for she was a pious wife; a loving mother, always ready to lend a helping hand to those in tide of trouble.

Sister Harris was laid to rest in the Acree grave yard, a host of sorrowing relatives and friends present. The writer of this sketch conducted the funeral services, May 17th the good Lord bless the sorrowing ones. A Friend and former pastor. J. A. Paolock.

REV. D. A. McRAE DEAD.

News comes over the phone this morning that Rev. Daniel A. McRae was dead. He died at his home last night at San Augustine. He was born in North Carolina and was 86 years old at his death. He came to San Augustine direct from his home in the old North State in 1880, and has made his home from his arrival up to his death. For several years he preached in Nacogdoches, and was the principal in erecting the First Presbyterian church of this city. He was a Confederate soldier and participated in most of the battles fought in Virginia under General Robert E. Lee. His body was full of scars from wounds received in that struggle. Mr. McRae had his peculiarities, but was one of God's noblemen.

They invigorate the liver. Sold by Stripling, Haselwood & Co.

Smith Bros., contractors, are doing some fine work on the Nacogdoches-Douglass road, and from present indications, it looks like the road they are building will be one of which any county might well feel proud. Hills are being leveled as if by magic, and the kind of grades all autoists like are being made as fast as men and machinery can make them. The Goulds Hill is a hill that will be surrounded about one-half of a mile to the south. The contractors have already commenced clearing away all obstructions such as trees and branches, from the path of the new road bed, and at the foot of the hill work has commenced in grading. Nacogdoches county has easily the biggest piece of road building view than any other county in all East Texas.

Miss Grace Layton has accepted a position with the Taylor High School, at which place she will go to teach Spanish. Miss Layton left Saturday for Taylor. It was reported that she had accepted a position with the district clerk's office, but this proved to be an error.

COTTON SEED Plenty of clean, sound cotton seed at Oil Mill for planting. \$1.75 per bushel. 31-3dw

The idea advanced the other day by Capt. Walthall with reference to the importation of Mexican laborers, who have come to San Antonio during the past year for the purpose of getting work on the Texas farms, to Nacogdoches county, is an idea that has found hearty approval by all who have heard the suggestion. There are numerous farms lying idle in Nacogdoches county this year, and no doubt labor will be needed on the farms that will be worked and the Mexican labor will find a good place. A club could be formed of Nacogdoches business men and farmers to go after these laboring Mexicans, and some of the most conservative business men of Nacogdoches thoroughly approve the idea. The group could easily finance the expenses of a man to go see about the proposition. Nacogdoches needs the labor, the Mexicans need the employment, and why not try to get them?

COULD NOT WALK UP THE STAIRS

Los Angeles Woman Suffered Six Years From Rheumatism—Soon Relieved By Tanlac.

I had rheumatism so bad that life was simply miserable for me, but Tanlac has entirely overcome my trouble," said Mrs. Martha Abash, of 2226 1/2 Duane St., Los Angeles Cal. "For the past six years I was in such a wretched condition that I can hardly understand how I held out as long as I did," she continued. "I had rheumatic pains in my knees so bad that it was impossible for me to step up or down the stairs, and my hands were so swollen and stiff that it was all I could do to hold the broom and dishes. At first I simply ached all over so bad I could not sleep, and, in fact, I suffered all the time, night and day. I became very nervous and worried so much over my condition that I became despondent.

"I tried all the medicines I could hear of but none of them did me any good until I got Tanlac. I was overjoyed to find that it met more than my expectations. All signs of the rheumatism has left me and I am back doing my housework for the first time in years. My nerves are as steady as they can be and I sleep all night long and never wake up till morning. I haven't felt as fine in years and it certainly is a pleasure for me to tell everybody about Tanlac."

Tanlac is sold in Nacogdoches by Swift Bros. & Smith, Stripling, Haselwood & Co., and in Garrison by the Dale Drug Co.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. BE A HIGH SALARIED MAN OR WOMAN.

The business world wants thinkers and doers. There is a scarcity of high priced men and women today; many are worth a thousand dollars a year, but only a few are worth ten or a hundred thousand. The late Prof. James of Harvard, declared the average man can use only ten percent of his brain power. Suppose you are twice as capable as the average man; you are using only twenty per cent of your maximum power, only one fifth of your greatest possibilities. Eighty-five men in this country are earning only twenty dollars per week or less. Ninety-two percent of those in business fail between the ages of forty and fifty. Ninety-five per cent have no money at the age of sixty. Our business is to take you out of the eighty-five, the twenty-two and the ninety-five per cent class. If you can't come to us we will come to you through our large and most successful Home Study Department. We have been very successful in producing high salaried men and women, as shown by students letters in our catalogue. Take our thorough practical course of bookkeeping, Business Finance, Shorthand, Cotton Classing, Penmanship or Telegraphy and place yourself in demand in big business. Fill in and mail for large free catalogue.

Walter Davis of Lufkin was in Nacogdoches Monday, and said he felt like he was in one of the most enterprising cities in all East Texas. Of course that is what they all say after they have gotten out of the little village across the Angelina and taken a good breath.

Lieut. L. J. Harant did not leave for Dallas, as first intended, Sunday, but postponed the departure for Monday. The Lieut. says that never in all his life has he conceived such feeling of friendship for a town as he has for Nacogdoches during his stay the past ten weeks.

Will the day ever come when men and women can be induced to content themselves with the results of their own powers? Over here we see a man who, as a result of some misfortune of his own, proceeds to libel, slander and crucify the whole human race. Some people applaud, cheer and call him an innoctast, but his real name is just an old, died in the wool, grouch—or? When men and women can learn to be content with themselves, the things of a constructive nature that they can do, keep a firm resolve to do the right thing regardless of the temptations to do otherwise, be a master of their own selves, quit worrying about things that they can not help, cease a possible grudge against humanity, then men and women will have gained a great victory over the spirit that brings on accursed bolshevism.

FOR QUICK RELIEF FROM CHILLS, AGUE, MALARIA, ETC.

Your Dealer Will Always Recommend Swamp Chill and Fever Tonic.

One dealer says, "I handle all the standard chill tonics on the market, but sell ten bottles of Swamp Chill and Fever Tonic to one of any other kind. After a customer has once used it he or she will use no other kind. Numerous other dealers find it the same. And thousands of sufferers from malaria and similar ailments swear by this famous old remedy. They keep it in the house all the time. Swamp Chill Tonic brings safe, certain and permanent relief. It generally breaks up malaria chills in three days. It contains no calomel, and is pleasant to take. No purgative has to be taken with it, as the tonic itself acts gently and agreeably on the liver and bowels—a big advantage over other chill tonics.

Swamp Chill Tonic is prescribed by numerous leading physicians. They know that its ingredients form the best remedy there is for malaria and ague. And it is just as good for colds and grippe.

Price 60c at all dealers. Get a bottle today.

FOR COMMISSIONER

PRECINCT No. 4.
The Sentinel is authorized to announce Joel P. Blanton, of the Woden country, for Commissioner precinct No. 4, subject to the action of the Democratic primaries. Mr. Blanton is known in every settlement in his precinct, having been born and reared there. He states that he believes the road and bridge funds should be divided into the various precincts in proportion to the amounts paid in and that moneys collected from road hands should be spent on that particular road, and if elected shall advocate this proposition. Mr. Blanton is a successful farmer and if elected will, no doubt, make a good commissioner.

JUDGE V. E. MIDDLEBROOK IS ELECTED MAYOR.

Following a rather interesting campaign, in which two of Nacogdoches' most prominent and respected citizens took part as candidates for the mayor's chair, the results of the campaign were made known late Tuesday afternoon when it was heralded forth that Judge V. E. Middlebrook had been the choice of the people for mayor of Nacogdoches. The campaign was a quiet one throughout. Returns show that Judge Middlebrook received 250 votes and Capt. John S. Doughtie received 52. Judge Middlebrook is well qualified to fill the office of mayor, and his many friends congratulate the city on its new good fortune.

Hon. George H. Matthews, who is the present mayor of Nacogdoches, and who has a splendid record for faithful and brilliant work for the city while mayor, will vacate the office at the proper time to the mayor-elect.

FOR COMMISSIONER.

The Sentinel is authorized to announce J. F. Chandler for Commissioner precinct No. 4, subject to the action of the Democratic primaries. Mr Chandler is a farmer residing near Swift. He is well qualified for the duties of the office, and, no doubt will make a good officer if elected. He does not make any rash promises but states that he will give the duties of the office his very best care and if elected. He has resided in his precinct for many years and understands the needs of the people of that precinct. Being a farmer, he states that he will not be able to make a vigorous campaign, and asks the voters to give him favorable consideration.

DODSON TELLS THE HORROR OF CALOMEL.

You Don't Need To Sicken, Grippe, Or Salivate Loursel to Start Liver

You're bilious, sluggish, constipated. You feel headachy, your stomach may be sour, your breath bad, your skin sallow and you believe you need vile, dangerous calomel to start liver and bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tonic and take a teaspoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money. Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling splendid. It is perfectly harmless so give it to your children any time. It can't salivate.

SCHOOL NOTES

Chapel services in high school Tuesday morning were interesting but quiet. Some songs were sung, and after the songs four representatives of the domestic science class came to the stage and recited parts which will be had in the big domestic science play which is to be staged next Friday night. Prof. R. F. Davis made a very interesting talk, in which he recounted some of his former experiences in the school room, and some of the problems with which he had been forced to deal, applying, in conclusion, the words he said as words conveying ideas suggestive of things that the student might try and do in combating problems of the present term. Mr. Davis said that it was a pleasure a few days ago to go through some papers written by some students who made "A" in all their subjects while in the Nacogdoches High School their four years. This is a splendid record, Mr. Davis thinks, and he said that the two pupils, one a boy, and one a girl, were now holding responsible positions with large firms in America.

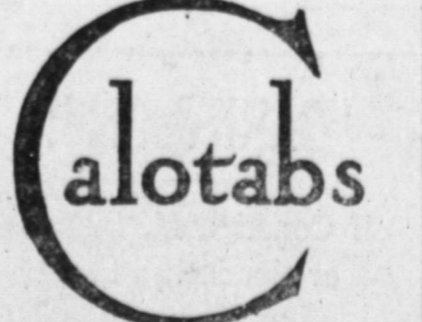

The exercises were helpful throughout, and were enjoyed very much by all who were fortunate enough to hear them.

FRANKFORT AND DARMSTADT OCCUPIED BY FRENCH.

Mayence, April 6.—French troops entered Frankfort at five o'clock today, finding only a small German force left behind to afford police protection for the people. Occupation of the city was only a mere military march and no fighting occurred. Darmstadt was entered at the same hour. The German government garrison left there at midnight to avoid contact with the French and this morning was six miles east of the city. General Degoutte, in a proclamation covering the area occupied, declared the French troops crossed the Rhine to compel the Berlin government to respect its agreement with the Allies, and asserted there was no hostile intent toward the people. He says the French troops will withdraw as soon as the German government forces evacuate the neutral zone and that no one will be affected by the presence of the French so long as order is maintained.

Roland Jones, Jr., was the young man selected by Miss McKinney for May King and Miss Rose Jordan was selected princess. Miss Norwood will act as Miss McKinney's assistant while she is May Queen. Preparations are going on to have a great time when May day comes, and a splendid program will doubtless be rendered. Invitations are being mailed out to those who are to be at the reception.
