Entered at the Postoffice of Nacogdoches, Texas, as Second-Class Mail Matter.

VOLUME XXI

NACOGDOCHES, TEXAS, THURSDAY, APRIL 22, 1920.

No. 16.

While the other fellow prepares to load his fountain pen with a bothersome dropper, the Conklin helps itself to ink at the nearest ink-well and goes writing merrily on. A pressure of thumb on Crescent-Filler is all that's required to fill

CONKLIN'S Self-Filling Fountain Pen

During its ten years' successful record the Conklin has saved years of valuable time to fountain pen users all over the world—not forgetting the tremendous satisfaction its splendid writing qualities have given. Can't leak or sweat in the pocket. No muss when filling. Nothing to take apart. No screw joints to stick.

Costs no more than other fountain pens of best grade and is far better. Before purchasing a fountain pen, call and let us explain the superior advantages of the Conklin. Guaranteed to give satisfaction.

Swift Bros. & Smith Inc.

PHONES 56 AND 57

GOVERNMENT RAILROAD LOSS HEAVY.

Washington, April 29.—The total government loss through the operation of the railroads is estimated \$1,129,000,000 by the House appropriations committee. This includes guaranteed funds under the transportation act.

KENTUCKY SEPARATE COACH LAW UPHeld.

Washington, April 20.—The supreme court today upheld the Kentucky separate coach act, requiring the separation of white and negro passengers.

STRIKERS FILE DEMANDS

Washington, April 20.—Formal written demands that the railroad labor board give assurance of "living wages" to the railroad men and that the employees on strike be returned to work without loss of seniority were filed with the board today by Edward McHugh, representing the strikers in the Metropolitan district of New York, and James Eubanks of the St. Louis Yardmen's Association. The spokesman for the railroad brotherhood objected to the filing of the demands, but Chairman Bartoin said any body of men had the right to file complaints, but it was for the board to decide whether they were such as the board was authorized to hear.

ROBBED QUEEN'S TRAIN

Seville, Spain, April 20.—Bandits attacked the train carrying Queen Victoria and her brother, the Marquis of Carisbrooke, from Madrid to Seville today in an unsuccessful attempt to obtain the royal plate, which the queen was bringing here.

MANY KILLED IN ARKANSAS TORNADO.

Little Rock, April 20.—A score of persons are reported killed and many injured in a tornado in several north-west Arkansas counties last night according to meager messages over demoralized wires. Seven are reported dead at Harkey Valley and three at Hickeyville.

OIL BOOM ON AT GARRISON

Reports came to the city Monday afternoon that Garrison is on the verge of a sensational oil boom. The Roxana Oil Company of Shreveport which has been drilling in the vicinity of Garrison for some time, closed down Sunday morning, their drillers got in touch with their president and geologist at Shreveport, and informed them that they were on the top part of what they thought to be paying sand. The president and geologist immediately came to Garrison, from whence they immediately went to the scene of drilling activities. Drilling was recommenced, and after drilling a few feet, the geologist ordered the drilling to be ceased, and he quickly put in an order at Shreveport for a quantity of tanks, pipes and other materials for catching a steady flow of oil. The geologist of the company expressed the opinion that the well was going to be a gusher, and that Garrison was about to be in the midst of great prosperity. Much excitement is prevailing at Garrison, where it is reported that hundreds of people are going in order to get in on the ground floor of a new oil field. The Garrison was strictly a wildcat territory, and the ones who ventured into its bounds will be rewarded abundantly if the expectations of the geologist of the drilling company are realized. It is reported that the company is selling no stock in their well or in their leases.

INTERNATIONALIZE DARDANELLES.

Paris, April 20.—The Supreme Council definitely decided today to internationalize the Dardanelles, according to a Havas dispatch from San Remo. Allied contingents will be stationed at Constantinople to guard against the Turkish rulers leading the people astray.

WELCOME VILLA'S AID

Agua Prieta, Sonora, April 20.—Both the Sonora and federal leaders have continued preparations for a clash of forces which is expected to result in Sonora's withdrawal from the federation. Sonorans are heartened by the report that Villa had aligned himself with the movement, and are placing troops to prevent the incursions of Carranzistas.

CRUEL TO STOP SUPPLIES

San Remo, April 20.—The Allied premiers in conference here have decided that a warning or ultimatum of a mandatory character be sent to Germany respecting the execution of the treaty of Versailles. Differences of the nature of the representations exist, the British arguing that Germany be penalized unless she conforms with the treaty. The French contend that it would be more cruel to stop food supplies and shut off raw materials than to occupy a few districts with Allied troops.

TOGGERY SKYSCRAPING

Newark, N. J., April 20.—Overalls at \$43.50 per pair is the latest quotation in high-priced clothing wear. Newspaper advertisements quote "overalls suitable for all occasions," but quote overalls with solid gold, sterling silver and French enamel buckles at \$40 and with rhinestone buckles at \$3.50.

TO WITHDRAW TROOPS.

Paris, April 21.—The withdrawal of Allied troops from part of Rhineland in consideration of the immediate execution by Germany of certain financial obligations of the Versailles treaty is proposed by Italy and England at the San Remo conference, says Petit Parisien. Premier Millerand refused to agree with such a plan.

HOBBY AGAINST MOVEMENT OF MEXICAN TROOPS THROUGH TEXAS.

Austin, Texas, April 20.—Vigorous protests were made at Washington today by Governor Hobby against the movement of Mexican troops over Texas soil to attack Sonora forces.

STRIKE PROBABLY ENDED

Chicago, April 21.—The immediate ending of the railroad strike in the Chicago district was predicted by insurgent leaders today when the strikers met to vote on the calling off of their walkout.

These hopes were doomed, however, when the strikers refused to take a vote on the question of returning. All efforts of strike leaders failed. A police lieutenant declared the meeting adjourned after the strike leaders had been refused a hearing. He announced that no "rump meeting" would be permitted and the hall was cleared under police supervision. The leaders were greeted with cries of "sold" and "outside," one waving an American flag and declaring he would not fight the American government.

Will Return to Work.

Washington, April 21.—An agreement with the railroad brotherhood unions under which the striking railroad employees of New York will return to work immediately was announced today by Edward McHugh, the strikers' spokesman. McHugh said he had abandoned all effort to have the case of the New York men taken up separately by the railroad labor board and that his committee would return to New York today, leaving their case to the leaders of the regular brotherhoods.

STORM VICTIMS DESTITUTE

Birmingham, Ala., April 21.—Assistance from the outside world is urgently needed for the relief of the tornado survivors in a dozen counties in Mississippi, Alabama and Tennessee, reports from the storm-swept district said: With a death list of 166 already reported and a property loss which will run into many millions of dollars, the tornado is believed to have been the worst in this section of the South in years.

FARMERS MEETING

H. L. McKnight, Secretary of the Nacogdoches Chamber of Commerce and C. H. Deabler, county agent, will be glad to meet the farmers of Nacogdoches county at the following places: Nat, Tuesday, April 27, 8 p. m.; Linn Flat, Wednesday, April 28, 8 p. m.; Woden, Thursday, April 29, 8 p. m.

At these meetings Mr. McKnight will discuss the subject of "Community Building Through Co-operation." Mr. Deabler will outline a plan for stocking Nacogdoches county farms with good livestock.

Those who have attended the meetings held in this county by these men report a keen interest on the part of our farmers. The universal verdict is that these men are different from any who have offered to discuss farm problems. They have a message, shot through and through with vital facts, and spiced with enough humor to keep the audience in a mood to listen.

Mr. McKnight is an East Texan by necessity, a farmer by training, and an Irishman by preference. He has traveled widely and has been a close student of rural problems.

Mr. Deabler is a practical farmer with scientific training. He is anxious to meet and know personally all the farmers of the county.

Those who attend these meetings will be well repaid for their time. Mr. George T. McNess, Superintendent of the Experimental Station, will likely be present to give some accounts of his work at the station.

STRIKERS GET SETBACK

Chicago, April 20.—The strike fever among railroad employees suffered a setback today when 30,000 railway clerks and 8,000 freight handlers of the Chicago district announced their decision to permit a hearing of their wage demands by the railroad labor board. Freight movement in the Chicago district continued today. Improved conditions are reported elsewhere.

NOTICE OF PRECINCT CONVENTION.

The Democratic Precinct Convention of precinct No. 8 will be held at Melrose on Saturday, May 1st, at 2 p. m. for the purpose of electing delegates to the Convention to be held in Nacogdoches on May 4th.

Very respectfully,
Frank Powers, Chairman.

TRADE AT HOME.

Trading at home develops the booster spirit in a community. It creates a mutual feeling of good will between merchant and patron that leads to community progress. It brings confidence and faith for the future and instills civic pride in the community. Without civic pride a community is dead. For these reasons alone, everyone should trade at home.

Is it not worth while for you to live in a flourishing community, a community that is constantly looking ahead and moving forward? Would you not rather live in such a community than in a backward, listless place where the biggest ambition of the people is to live one day more, where their vision into the future is just one day, where it is immaterial whether they tramp about in mud up to their ears, and wallow in mire with the hogs? Yes there are just such communities in this great and glorious country of ours and they are the direct outgrowth of trading away from home.

The home merchant is a necessity in a community. No one denies the fact. He is used in times of expediency to everybody, even though they might pass him up when the occasion is not so pressing. When people want something quick, have to have it and can't wait to send to Dallas, Fort Worth, Houston or New York, they go to the home merchant.

The home merchant gives service. He satisfies these urgent wants readily and courteously. He displays his entire stock gladly that the patron may secure just what is wanted. He wraps up the package and delivers it.

But how often is this service not appreciated. Narrow minded people will inevitably contend that the home merchant is nice to them because he wants their business and wants to rob them. They fail to see good intention in anything except the highly colored, attractive pages of a mail order catalogue.

Sure the home merchant wants your business. He is willing to give the best service possible, sell the best goods the market affords and ask prices as low as any legitimate competitor in the world. But to do this he must have home support. The home merchant cannot maintain a high class store unless he receives whole-hearted home patronage.

Read the trade at home letter on the trade at home page and see why your neighbor believes in trading at home.

It is reported in San Augustine that the business men of that town, seeing that they could not get anyone to work the roads for money, have set aside one day each week in which they get together and work their roads. They are working the Nacogdoches-San Augustine road, and reports say that they are doing a good job of it. Over here in Nacogdoches county there are some mighty good pieces of road work going on, and the county will spend the coming year over \$200,000 on its roads. Hurrah for Nacogdoches county!!!

FIRE THREATENS TERMINALS AT BROOKLYN.

New York, April 20.—A fire originating aboard the Steamship Halfred, which is loaded with nitrates, threatens to destroy the terminals at Brooklyn, one of the largest ship terminals in the world. Two piers quickly caught fire and threatens to spread. After two explosions were heard from across the East river, ambulances hurried to the terminals. It is reported that at least five men are seriously hurt. Tugs are rushing to the scene to remove ships to safety.

Fort Worth, April 20.—The last remaining freight embargo here as a result of the switchmen's strike was removed today.

New Spring Skirts Moderately Priced

A very smart selection of really beautiful Skirts of—

MAYER & SCHMIDT, Inc.
THE PLACE TO SHOP

In 2000 Counties This Month

The Forces of the Church of Christ Will Gather To Face the Facts

IN 2000 counties in the United States the pastors and laymen of 30 great denominations will meet in conference this month.

It is the kind of conference that generals hold before a critical engagement; that business men hold before entering a new market. A conference of judgment, not emotion; a clear-eyed facing of the facts.

A Survey that Business Men Must Admire

For more than a year hundreds of workers have been quietly engaged in making a scientific survey of the mission fields, and of America county by county.

The facts developed are startling. No such picture of America's religious situation has ever before been drawn.

On the basis of these surveys thirty Protestant denominations are uniting in a

Nation Wide Cooperative Campaign

Each of the thirty denominations has its own "Forward Movement" organized and officered. The Interchurch World Movement is the clearing house for all of these.

It is the agency which the churches have created to avoid duplication, to foster cooperation and make sure that every man and dollar render the utmost service possible.

The month of April will be devoted to making the facts of the survey known to America; in the week of April 25th-May 2nd, will come a united simultaneous financial campaign.

Whether You Are Inside the Church or Out

To every man and every woman who loves his country, these 2000 county conferences are vitally important.

For the facts developed by this great survey show vividly what forces are at work in America—and what kind of a country this country is to be.

See that the pastor of your church appoints delegates. Any pastor can tell you the conference place and date. Or write direct to the

INTERCHURCH WORLD MOVEMENT

45 WEST 18th STREET, NEW YORK CITY

The publication of this advertisement is made possible through the cooperation of 30 denominations.

MORE PEOPLE READ BOOKS

According to English Authority, This is One of the Results of the War.

There are five-times as many people in England reading books as there were before the war, according to Sir Ernest Williams, one of the foremost publishers of London. He says war has taught the people there the value of books, and shown them the joy of reading. When air raids were numerous and all social activities stopped, there still remained the inner room, the light and books. There was a quick demand developed for light reading, but it has changed and grown so that now the best books are most in demand. When air raids were ended and lights and social activities were used again, the habit of reading was continued and has grown rapidly the past year.

There is an insistent demand, this publisher says, for books that deal with real life. It is his belief that out of the experiences of war has been born a deeper appreciation of life and understanding of how tremendously worth living it is. On this new consciousness he bases the demand for books that deal sincerely with problems of life.—Ohio State Journal.

ISLAND SAVED BY WOMEN

How the Female Population of Helgoland Unset Calculations of Danish Admirals.

Helgoland, the naval wall flower during the World War, had its fate decided, upon one memorable occasion, by the women of the island, according to a bulletin of the National Geographic Society. About the time William Penn was settling Pennsylvania a Danish admiral captured the island's fishermen one night while they were placing their nets. He threatened to hold them as hostages until the island surrendered to Denmark. Wives, mothers and sisters arose and forced the Danish garrison to relinquish any claim upon Helgoland.

In the fifteenth and sixteenth centuries Helgoland was a center of the North sea herring fisheries. Then herring veered back to Scotland's coast and the islanders handed down a tale of the hardship by which they forfeited the boon. Until a few years ago horses were unknown to the island. One story has it that when an old woman saw an Englishman ride up the hills she dropped dead from the shock of what she believed was a supernatural creature.

Humidity.

Humidity is the moisture or aqueous vapor in the atmosphere. The vapor is really an invisible gas. When this vapor becomes visible it is called dew, fog, mist, haze, clouds, rain, snow, hail, etc., according to the size of the drops of water or the method by which the vapor condenses. A given space at a given temperature can contain only a definite amount of moisture. When a given space contains all of the moisture it is capable of holding it is said to be saturated. The percentage of moisture in the air to what it would hold if saturated is called the relative humidity. When the air is saturated with moisture the humidity would be 100 per cent, and if half saturated 50 per cent, three-quarter saturated 75 per cent. The increased humidity has much to do with the effect of the temperature on the individual, which is the reason the subject is so commonly discussed during hot periods.

Responsibilities.

Thinking of others does not excuse folks from respecting their own responsibilities. The world wouldn't get along very fast if all our time and thoughts were given to others. To get along and have the means to be helpful to others we must do considerable for ourselves. Our job must bring enough returns to the boss to pay him for the trouble of bothering with us. Our home life touches others and we must see to it that our contact leaves them happier for the touch. Life is more than mere routine however much it may seem to be cast in a one piece mold. It's our thoughts for others that lift us out of the humdrum and make life worth living. There's no limit to the enthusiasms of life when concern for another's welfare gets hold of you.

Envied the Tailor.

When Douglas Fairbanks was a little boy, five years old, he lived in Denver, and he was always sent to bed much earlier than he wanted to go. Opposite his bedroom was a tailor shop where the lights burned brightly a long time after Douglas went to sleep. He used to lie and watch the industrious tailor, and one day he surprised his father by saying that he knew what he wanted to do when he grew up; he would be a tailor. "Why?" said his father. "Because," said Douglas, "I could sit up then as long as I wanted to—all night if I pleased."

Artistic Verisimilitude.

Customer—These grand opera phonograph records are imperfect. I can't get anything out of them half the time.

Salesman—They are our finest achievement. You never can tell when these records will sing—they're so temperamental.—Boston Transcript.

Japanese in Bolivia.

Japanese interests have obtained a great stretch of land in Bolivia. They have also 20,000 square miles in Peru. Agriculture and mining is their stunt.

HELD FAST TO THOSE FISH

Indianapolis Man Was Taking No Chances of Losing the Prizes He Had Secured.

Tom Genolin, of the railway mail service, tells a thrilling story of how once upon a time he was tempted and fell; how in the early hours of morning he slipped away to a "posted" stream and drew from thence five of the most beautiful bass ever seen. The climax of his story reads thus:

"The glorious day was peeping and creeping through the silent trees when I gathered up my bunch of beauties and started homeward. I had not gone far when I laid them in a clump of grass while I filled my pipe. When I started to pick them up again to and behold they were gone. A slight stir under a nearby bush brought visions of some prowling thief and I threw myself prone upon the bush and clutched for the place where the fish might be. That is when I awoke and gathered myself up from the bedroom floor where I lay clutching a jangling alarm clock."

Mr. Genolin thus ends the story: "The tragic and unbelievable part of my story is yet to be told. The day after the incident related I went to the pool concerning which I had dreamed and there I fished precisely as I fished in my dream and I caught five beautiful bass precisely as I had caught them in my dream and, lastly, I returned home with them, but not once did I lay them down in a clump of grass."—Indianapolis News.

CALL FOR A NATIONAL CRY

Great Need in This Country, 'Tis Said, for an Explosive, Expressive Yell.

American audiences are charged with being unresponsive and apathetic, particularly in patriotic outdoor demonstrations. Americans are not incapable of making loud, loyal noises, and not averse thereto. But rarely is a parade staged in this city that does not move throughout a large part of its course between silent lines of spectators. The result is sometimes so depressing as largely to neutralize the desired effect of the parade.

The will to cheer doubtless arises all along the line, but there is no short and easily exploded yell known to us. "Hurrah," is the traditional American word for cheer, but no man will venture its use in public, unless in the wake of a cheer leader who prefaces it with a "hip, hip, hip!" Even then the usual response testifies that this method of cheering is getting rusty.

There is no lack of cheering on an American football field, nor at any kind of a demonstration on a college campus. The reason for this is that good, expressive, explosive yells have been devised for outdoor use. And because they do explode, and because they stand for something, the American public likes to use them. They also like to follow a good yell leader.

America needs a national yell. The man who can coin one will do the country a great service.—Minneapolis Journal.

Improved Stereopticon.

A recent development of the stereopticon operates automatically, throwing upon a screen a certain number of lantern-slide views, usually 40, but 100 or 200 or more by special adaptation. The apparatus includes a 1,000 candle power nitrogen-tungsten lamp, condensing and objective lenses, and a small motor to be connected to a lamp socket on either a direct or alternating current circuit. The machine shifts the slides automatically, allowing each picture to remain on the screen 12 seconds before being replaced by the next. The outfit with screen, slides, etc., packs into a suitcase, and is especially fitted to enable the traveling salesman to show goods by picture, though also adapted for educational displays, home entertainment and a great variety of other purposes.

Valuable Tree.

A giant kauri tree has been logged by the Queensland forest service and the timber sold for \$1,000. It was known as Bell's tree and yielded 17,000 superficial feet of timber in five huge logs, and the logging costs amounted to \$500. The net stumpage came to twelve feet 6 inches per 100 super feet. Had the tree been smaller a higher prize would have been realized, as few saw-millers cared to handle it. This giant of the forest was offered to a timber-getter for \$30 on the stump, being at the rate of less than 20 cents per super feet, twelve years ago.

On Blaker's Day.

Charles had been going to kindergarten about two weeks. During this time the children had been taught the song "When the Sun Wakes Up at Break of Day." The little fellow liked it very much and tried to sing it at home. The children had been told about Mrs. Blaker living above the kindergarten and that she could hear them singing.

This fact with the words of the song made a deep impression on Charles. When he reproduced the song at home, this is what he insisted was correct: "When the Sun Wakes Up on Blaker's Day."

Cause for Gloom.

Jim—Why does William Windjammer look so glum?
Tim—He was showing off his alleged French before the family and the French maid mistook it for Russian.—The Home Sector.

WORLD'S LARGEST UN-CUT GEM

"Black Opal" Found in Nevada in 1917, Was a Quarter the Size of a Brick.

What is believed to be the largest uncut gem in the world has come to light in a recently opened mining district in Nevada, where it was discovered in the spring of 1917. The stone is a "black opal," so-called because dark tones predominate in it. It shows mostly dark peacock blues and emerald greens, with a considerable amount of red, and several less prominent shades.

In size this great gem approaches a quarter of an ordinary brick, being three and fifteen-sixteenths inches in length, three and one-eighth in width, and two and one-eighth thick at the bulkiest point. Its weight is eighteen and six-tenths avoirdupois ounces, which expressed in gem diction is 8,136 grains, or 2,599.56 carats. More than a pound of opal is surely some stone! And it is all solid, uncracked, flawless gem material, free from matrix or adhering rock except for a paper thin skin encrusting the two major surfaces. Little specks broken from this skin here and there reveal the brilliant play of colors within, while the exposed ends and edge exhibit the full refracting radiance of the mass.

This stone is about half again as large as the largest of the noted gems of the world. The Cullinan diamond was roughly the size and shape of a small fist, and, if it had been an opal, would have weighed but 1,720 carats. It is compared with the new opal on this basis since the specific gravity of the diamond is 75 per cent greater than that of the opal.—Archaeologist in the Scientific American.

REACHING FOR WORLD TRADE

Every Nation Wide Awake to the Possibilities That Have Opened, Following the Great War.

A more cosmopolitan document could hardly be imagined than the weekly list of trade chances which is, nowadays gathered from all sources by the United States department of commerce, and published for the information of American business interests. An agency in Spain wishes to sell agricultural machinery and mechanical tools; a company in Egypt wishes to handle American cardboards and all kinds of paper; a firm in India is eager to come in contact with exporters of general merchandise; agriculturists in South Africa are interested in caterpillar tractors; a man in Switzerland would fain become an agent for yarns and fabrics; another in Belgium wishes to deal in food products; an engineer in Letland would like to represent exporters of agricultural tools and automobiles, but perceives the wisdom of having more than one string to his bow, for he wants also an agency for the sale of lard. An interesting medley of commercial ambitions, with items that have already counted up to more than 1,500, the lists reveal how, all over the world, individuals and companies are hoping for opportunity to share in international trade.

Crown Dating From 1000 A. D.

The rumor, current in the European press some months ago, when the Bela Kun administration ruled in Hungary, that the Hungarian crown was to be sold, seems to have disappeared, and the later government apparently means to keep it. It was an odd circumstance, says a writer commenting on that rumor and its disappearance, that, with so much talk of discarded insignia of royalty, the one crown actually mentioned as being for sale should have been the most ancient one, with a single exception, in Europe. For whereas the German crown, for example, is comparatively modern, and was made no longer ago than 1871 for the former kaiser's grandfather, this crown of Hungary traces back, at least in legend, to the year 1000, and the sum of 100,000 Swiss marks, about \$19,000, which, last summer, was circumstantially reported as the price for which it was to be sold, does not seem particularly exorbitant.

Depressing "Flying Dream."

In the flying dream, you suddenly leap off your feet and undergo the experience of rising to great heights and skimming over innumerable objects. If the dream only embraces this and nothing more, it may be taken to augur some kind of a surprise, usually of a more or less pleasant nature; but if, as so often happens, one imagines one flies to escape some peculiarly evil presence, then the dream may be regarded as a warning against some sinister person or plot. Flying dreams generally occur to people with marked psychic tendencies.

Painter's Fame Came Slowly.

August Renoir, seventy-eight years old, the famous French impressionist, died recently at Cagnes, France, on the day that his picture of the Pont Neuf fetched 100,000 francs at an art sale. In his youth he often paid for his dinner with a picture. Renoir was one of the first of the impressionists. He worked to the last, and died with his palette in his hands. "I feel I am just beginning to know my trade," he said when he was well over seventy.

His Kind.

"I hear that Daisy's love for Jim was not the same when he put on civilian clothes and had no more the glamor of the soldier."
"I believe her love was a uniform devotion."

S. O. S.

If Constipated, Bilious or Headachy, take "Cascarets"

Sick headache, biliousness, coated tongue, or sour, gassy stomach—always trace this to torpid liver; delayed fermenting food in the bowels.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache. Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep.

IN GENERAL.

Sunday afternoon was a beautiful afternoon, affording the numerous autoists of the county a fine opportunity to get out on the roads and streets, and enjoy themselves to the utmost. With the advent of good roads, the increase of wealth, the improvement of rural conditions, the betterment of the county in general, there is no reason why in the future every family in all the county should not enjoy the pleasures of a good automobile. The automobile can be both a blessing and a curse to humanity, but the good of it does more than outbalance the harm. With rural communities better connected with town with the telephone and the automobile, with a thorough understanding between the townman and the country man, there is no reason in the world why the country boy on the farm should not be contented.

But right here let it be suggested that education, the right kind, is a thing greatly needed to solve the problem confronting the nation today. And Naogodoches has the chance to win or lose the erection of a valuable educational institution right in its confines—which shall it be? Let's have better roads, better schools, better farms, a better social understanding between the countryman and the townman, better churches, and last of all but not the least, the Stephen F. Austin Normal. It is a thing that could die easily, but let us not permit it. Naogodoches deserves and must have that Stephen F. Austin Normal.

THE SONORA REBELLION

Agua Prieta, Sonora, April 16.—Sonora troops are continuing their march toward Cullinan, the capital of Sinaloa, it was officially announced today. Militarists said the success of Sonora troops in Sinaloa would give the seceding state the military power to overcome any Carranza force sent to Sonora. It is said Carranza intends to send three armies against Sonora, one attacking from Sinaloa, another landing in Sonora territory from transports and the third attacking from Chihuahua.

Asks Passage Through U. S.

Washington, April 16.—Mexico has asked permission from the United States to move troops through American territory to attack Sonora from the north. No action has yet been taken by this government. Carranza wishes to move troops to El Paso, and thence through Texas, New Mexico and Arizona to Agua Prieta.

Hobby Will Not Comment

Austin, Texas, April 16.—Governor Hobby announced today that the Mexican request to send troops through Texas was yet unrecieved, and refused to comment. A year ago he refused a similar request.

To Defend Agua Prieta

Agua Prieta, Sonora, April 16.—Eight hundred Sonora troops at Cananea have been ordered to proceed here immediately to defend this port against a possible Carranza invasion from American territory, it was officially announced.

Washington, April 16.—The population of Port Arthur is 22,251, an increase of 14,588, or 190 4-10 percent over 1910.

Dyed Her Faded Skirt, Also a Coat

"Diamond Dyes" Make Shabby Apparel Just Like New—So Easy!

Don't worry about perfect results. THE OVERALL MOVEMENT

All over the nation a new movement called the "Overall Movement" is spreading like wildfire. Ostensibly, the movement is to reduce the cost of living, or, rather, the high cost of clothing. The movement first started in Birmingham, has spread out into all parts of the United States, and the other day a judge, at Dallas, donned his overalls, went to the courthouse, and administered the law. And all over Texas the new movement is spreading. Nacogdoches might profit by an overall club. Overalls are durable clothes, they are cheap clothes, and they are scientific clothes. It is nothing but common sense, if men and women think that by wearing such apparel they can reduce the price of clothing, for them to don the new style.

But a close watch should be kept on the first advance of overalls in the city. If everyone gets to wearing them, they are sure to jump skyward. But in the long run the people are a bit responsible for the high prices they are paying. When people refuse to buy perfectly good calico for a nominal price, and insist that the same goods, differently colored and patterned, be sold to them at a high price, none but a fool would hesitate to serve them with what they wanted. It is good to buy the best, but the best is not always the highest!

It must have been pretty soft when there were only ten commandments.

Nearly every man believes he is a good judge of human nature and coffee.

If you want to abuse people and get paid for it, become an evangelist.

Except at election time it doesn't make much difference to the rank and file who is elected.

AN OPEN LETTER.

Nacogdoches, Texas,
April 21, 1920.
To the citizens of Nacogdoches county.

Gentlemen—After looking over the field, I have decided to move my family to Nacogdoches and organize a State Bank with a capital of \$100,000 which will operate under the Guaranty Fund of the State of Texas.

I bring with me the record of, successful operation of both city and country banks, as well as extensive experience as State Bank Examiner, and have in my possession for your consideration documentary evidence of a clean, active business life of reasonable success.

There is a popular idea that only the select few—only those on the inside—can own stock in a bank. The Guaranty State Bank of Nacogdoches is to be a democratic institution in a democratic county, for I am arranging for any respectable white citizen who wishes to do so, to buy stock in this institution. He who takes only one share will be accorded the same courteous treatment as the heaviest subscriber. What I want is your co-operation.

This is not a proposition that some one may put up the money that I may operate the bank. I take \$50,000 of the stock myself—500 shares—at the same price it is offered to you, and pay the real cash for it, \$100 per share, just as you do. There will be no organization expenses—no selling expense—every dollar goes into the business, and when we open for business we will have \$100,000 cash in the bank or in the banking department at Austin. I am offered substantial subscriptions from bankers and investors in other sections, but I prefer to have the stock held by local people, a home bank for home people.

The writer will be glad to have you call at as early a date as possible, not later than Saturday, April 24th, that we may go over the matter in detail. See Wilton P. Ingraham at his office or the writer at the Redland Hotel.

It is practically impossible to buy stock in established banks, here is the opportunity to get in on the ground floor.

Bring this letter with you.
Yours very truly,
Jacob Embry,
Redland Hotel,
Nacogdoches, Texas.

Anyone, man or woman voter, desiring to join the Nacogdoches County Democratic Club, is requested to send names immediately to County Democratic Chairman R. B. Walthall.

PLAN TO PHOTOGRAPH NACOGDOCHES.

George Kennedy, a young business man of this city, advanced the idea that Nacogdoches should have a representative from some moving picture company to take pictures of Nacogdoches and the May day celebrations the first of May when the celebrations are to be held. Mr. Kennedy has seen some of the most prominent business men of the city, getting their views on the proposition, and it seems that all the business men of the city are in favor of getting the moving picture man here on that day.

Mr. J. H. Brantley will go to Dallas some time this week, and if he is given the authority of the people of Nacogdoches through the chamber of commerce, it is understood he will make arrangements with some of the large film companies of Dallas to send a representative to Nacogdoches. Mr. Brantley must be told in time, however, what to do, and that means rapid action on the part of the Nacogdoches people. This is no movement connected with Mr. Brantley's show in which he will profit, but a community piece of work in which Mr. Brantley can and will render a valuable service to the city in helping to get the film man here.

The idea is not a bad one. Nacogdoches is easily one of the most interesting towns, outside of San Antonio, there is in the State of Texas. It has an interesting historical side, it has the remains of a famous fort, it has many things that would make a town interesting for the movies if these were only sought for.

It is understood that the Civic League is in favor of the move, and that Mrs. Lamar Acker, one of the prominent women of the city connected with the League, says that she will do whatever is in her power to further along the cause. The chamber of commerce, it is understood, is also ready to help all it can in the scheme.

It seems that the thing required for the success of an enterprise like this is for everyone to get to thinking about the matter, discuss with each other the subject, and urge the chamber of commerce and the Civic League to get busy. As this is a thing calculated to be of benefit to the city of Nacogdoches, there is no reason why the people should not get to talking about it. It is understood that there will be no expense in getting a camera man here, and were there any expense it would be light.

Having a picture taken by some large film company of Nacogdoches would be a considerable star in Nacogdoches' crown, and it should be a matter that should interest everyone who hails from Nacogdoches, the best city in all East Texas!

The Sentinel has a plan by which it believes some writers can be produced. For the next six weeks, there will be a full page buy-at-home advertisement in the paper each week; and in the center of the page will be a letter, not over 150 words, from a student in the High School setting forth why people should trade at home and not patronize distant firms. For this letter the Sentinel proposes to pay one cent a word, or \$1.50 for each accepted letter. If some of the English teachers at the high school will grade the papers, submit the article which in their opinion is the best produced, the Sentinel will greatly appreciate their interest. But judges will be arranged for, right now; the Sentinel wants the letters.

Plenty of 16 percent Acid Phosphate and the "Old Reliable Red Bag Meridian Fertilizer" at Oil Mill. You can't afford not to use it. Get it while you can.
Nacogdoches Oil Mill.
19-3d2w.

LOST—Red cow, marked smooth crop in each ear, one horn drooped, don't remember brand. Please notify Neil Robert or phone 13. 22-3w

FOR SALE—About 35 bushels of corn at \$1.65 per bushel. E. H. Power. 22-1wp.

Rev. E. L. Ingram, presiding elder of the Timpson district, held second quarterly conference at the Methodist church Sunday night. At the quarterly conference, some delegates were elected to the district conference. The following persons were named: C. A. Hodges, B. H. Wilson, L. G. King, Frank Goldsberry and R. H. Blackwell. The district conference will be held in a few days, the date not known to the parties from whom the reporter obtained the information.

STRAYED OR STOLEN—I brown mare 10 years old, bell on, small white spot in forehead; one mouse colored horse mule, 3 years old, trace chain around neck fastened with grass rope. Reward for information. Hollie Phillips, Caro, Texas.

SPORES SCATTERED BY WIND

Remarkable Reproduction of Species of Fungus Is One of the Wonders of Nature.

We often wonder at the amazingly sudden upspringing of mushrooms and toadstools. Today the green of the lawn is unbroken. In the night a gentle rain falls, and we wake to see a crowded group of yellowish-white "inkcaps" spreading their parasols in the very shadow of our doorstep. Mr. Burton O. Longyear in the Outer's Book describes the marvelous reproductive powers of these fragile and short-lived plants.

Each species of fungus produces upon or within some part of its fruit body countless numbers of minute reproductive bodies called spores. So small and light are they that they float in the air as an invisible dust. Many of them fall to the ground and are washed into the soil by rains. Others are wafted away on every breeze, carried possibly for days, to be brought down at length by rain many leagues from their starting point. In this way they are carried to the ends of the earth, dusted into every crack and cranny, lodged on every exposed surface of wood or soil and caught on every dew-moistened leaf or twig.

The amazing number of spores produced by a single fungus can be realized only by knowing their relative size. Thus in the case of most puffballs at least three thousand of the globular spores, when laid side by side, would be required to form a line one inch long. A compact mass of such spores, the size of a parlor-match head, would contain the incomprehensible number of thirty millions of these microscopic bodies, enough to cover an acre of ground with four spores for every square inch of surface.

PIPE MAKERS USING BIRCH

Wood Has Been Found to Be Eminent-ly Suitable, After Treatment by a Special Process.

American birch since the war has acquired a South American name. Nowadays it is fashioned into pipes and then called something besides birch. The only evident reason for the change seems to be the fact that the process that converts soft birch into a hard pipe was originated in a Latin American country, according to the New York Evening Sun.

Birchwood owes its new name and its present prominence in the pipe industry to the war, which cut off the supply of briar and sent the prices of the stocks in America sky high. Substitutes have been sought for the expensive imported briar. The cessation of importations with the war, they haven't been resumed yet—intensifies the search for an American wood that would provide a suitable substitute.

Many native hardwoods were tried without success. Most of them were either too hard to be worked into pipes or too heavy to rest comfortably between a smoker's lips. Then some one hit on the expedient of trying a soft wood and employing a process that would give it the required hardness for use in pipe manufacturing. Birch was found the most suitable for the purpose.

Oil Wells Detected Electrically. New uses for electricity are constantly appearing. One of the latest is the detection of crude oil in the earth instead of boring for it.

It is stated that crude petroleum has been located electrically in the shallow oilfield near Corsicana, Texas, and that further tests are being made around Burk Burnett. A series of batteries is used for the test, the negative terminal being connected to a wire which is dropped into dry waterhole, valley or indentation, and the positive terminal being connected to a "land wire," which is used to make contact at various points on the surface of the field investigated. It is stated that the higher electrical resistance of oil compared with other constituents of the earth, permits it to be located by the reduced deflection of a sensitive instrument in the circuit.

"Easter Riding" in Bohemia.

In various parts of Bohemia, now the principal state of the new Czechoslovak republic, a curious old custom prevails, that of "Easter riding." On each Easter day, at four o'clock in the morning, the riders assemble, dressed in black and carrying crosses, flags and other emblems. From Schonwald they proceed on a three-hours' ride to Kulin, where they attend service. The priest, after a sermon wherein he refers to the horse as a symbol of power, bestows his benediction on the animals and their riders. This done, the riders visit the neighboring castles, where they receive hospitality, subsequently making their way homeward, escorted by a band and a large crowd. The origin of this curious custom is lost in the mists of antiquity.

China's Tea Industry.

Indications are that the Chinese government intends to make every effort to encourage the tea industry in that country and to increase China's tea trade with foreign countries, and the Peking cabinet recently decided to establish a tea bureau under the ministry of agriculture and commerce. It is stated that the tea industry of China is not keeping pace with the world's increasing consumption of tea, and while China is still holding its trade in the finer qualities, India and Ceylon have practically captured the market from China as to the common black tea.

CAN GET RID OF BURDOCK

Pest is Hard to Kill, but One Farmer Tells of Finding the Plant's Vulnerable Spot.

A weed pest of wide distribution, particularly obnoxious because of its numerous prickly burrs, is the burdock. Cutting it down doesn't do any good, for burdock develops a root system possessing wonderful vital tenacity, and promptly "comes up" again.

Like the well-known hero of antiquity whose only vulnerable spot was on his heel, the charmed life which the burdock seems to bear really is only a semblance. The burdock has its vulnerable spot, but few know where it is.

An eastern farmer, living in a rural district where the worthless burdock had brazenly lived its parasitic life for years, happened on to the burdock's weakness—and burdock ceased straightway to be a bad pest on that farm.

This farmer cut, using a bush scythe, the burdocks infesting a fence corner. They were flourishing, arrogant burdocks—the kind that grew as tall as a man nearly and for a brief period in the summer, when the green burrs make elegant balls and cushions, are a delight to the children.

This farmer cut them all down with a scythe. A few hours later—it was in hot, dry weather—it occurred to him to try to pull up the roots. Thus he stumbled on the peculiar weakness of the burdock.

It has a long tap root which shrinks when the plant is first cut. If the plants have been cut off about four inches above the ground, leaving a hilt which can be readily grasped, and if the pulling is attended to while the tap root is still in the shrunken state, it is possible to pull the tap root up almost to its bottommost end.

RACIAL VIGOR WILL RETURN

English Writer of Opinion That Matter May Safely Be Left to Mother Nature.

Many writers have laid stress upon the fact that Europe, in losing the flower of its youth upon the battlefield, has left only the least fit and most unhealthy to become the progenitors of future races. And they cite the effect of the Napoleonic wars on the physique and stamina of the French.

In answer to these pessimists the scientific editor of the Illustrated London News writes:

"Against this it may be urged that the recuperative power of nature soon reasserts itself, and no one who has watched year by year up to 1914 (as did the present writer) the yearly increase on July 14 could doubt that, at the outbreak of the present war, the Frenchman had more than recovered the tall stature and the high muscular and nervous energy of his forefathers. While, therefore, we must expect a certain falling off in the physique of the children born between, say, 1914 and thirty years hence, we may be fairly confident that, given the maintenance of the present standard of living and the absence of any great epidemic, at the end of that time the English race will return to its prewar standard of physical fitness."

Just Occurred to Her.

A child's prayer has long been celebrated in song and story. Prayers from the youthful lips of faith have ever appealed to mankind. There are few so hardened as not to be moved by such prayers, or remember with awe their own lisping of "Now I lay me down to sleep."

Children also, in their innocence, sometimes say prayers which are not without their humorous side, and these, too, have been handed down to posterity. In this latter class belongs the following true account of the prayer of a little girl who lives just on the other side of the District line in Maryland.

Little Lois was completing her evening prayer at her mother's knee. "Amen," finished Lois, and then, without a pause:

"Mamma, has the Lord got a bald head like daddy?"—Washington Star.

Electrification of Seeds.

There appears to be much interest in the electrification of seeds and the application of electricity to growing plants. A recent account of work along these lines tells of a new method of aiding plant growth. The seeds, ten or twenty sacks, are placed in tanks provided with iron electrodes at both ends; the electrolyte is a solution of sodium nitrate or some other fertilizer. Particularly with cereals—wheat, barley and oats—the yields of both grain and straw are said to be increased. Some five hundred farmers have taken up the treatment of the seeds, which is followed by a very careful drying in a kiln. The treatment is applied about a month or two before sowing.—Scientific American.

Papuan Oil.

Australia and Great Britain have each undertaken to spend up to \$250,000 in connection with Papuan oil development and two British geologists will probably begin work in the immediate future, pursuing the experiments already made by the commonwealth. Papua and the Pacific islands generally are interesting the universities of Australia which are considering the need for the study of anthropology and of native customs and languages. As a groundwork for such an investigation there exist an interesting series of governmental reports by patrol officers and other official pioneers of the new Pacific.

YOU CAN NOW ENTER THE AIR SERVICE.

U. S. ARMY.

A telegram was received from Washington at the local recruiting office authorizing him to accept one year enlistments in the air service. This is a wonderful opportunity for young men who wish to enter the air "game" and as this industry is in its infancy any young man who receives the wonderful training that is offered in the army, may re-enter civilian life with a wonderful future ahead of him. There is one large aviation concern that wants all young men discharged from the air service with "excellent" discharge. Any young men who are interested will call at the local recruiting office where everything will be explained fully.

CURIOSITY BECOMES CONFIDENCE.

Autoists are Repeat Buyers of Old-field Tires and Tubes

"The first motorists who bought Oldfield Tires and Tubes probably did so out of curiosity," said W. W. Lee of the Lee Motor Co., local dealers for the veteran race driver's tires. "When the Oldfield Tires were announced to the motoring public early last spring there were many experienced car owners awaiting the opportunity to see this product of the Company at Cleveland, Ohio, of which Barney Oldfield is President.

We are having the satisfaction of seeing these same purchasers come back for more Oldfields. Their original feeling of curiosity to see what the tires were like has changed to a feeling of confidence in them. The remarkable mileage secured in many cases has engendered a healthy respect for Mr. Oldfield's judgment on tire-building principles."

In addition to his many years of test and experiment as the greatest tire user the country has ever known, Mr. Oldfield secured valuable merchandising knowledge as head of the Oldfield Tire Company at Los Angeles which he conducted as a sales and service station. In many ways it was a forerunner of his present big organization and is cherished by the veteran driver as his "test stations." In a period of months the Oldfield Tire Company has built up an organization which it has taken other companies many years to equal. Barney Oldfield continues to break records at the wheel of business.

The esteemed Galveston News carried in their issue of the News a photograph of the Nacogdoches May Queen, Miss Mary Ann McKinney, who is the junior candidate elected for the senior candidate, Miss Jewel Norwood, by a majority of 1110 votes. The photograph is accompanied by a pretty good little history of the event, the fight put up by both the juniors and the seniors the purpose of it, the parties behind the movement, the Nacogdoches Civic League, the result of the contest, in fact, all about the exciting incident as it occurred in Nacogdoches.

Albert Thomas, a Nacogdoches boy, but who is now at Rice, was in the city the first part of the week interviewing the business men and trustees about having the Rice Glee Club visit Nacogdoches. It is understood that a small guarantee has to be put up before the club will come to the city, but by all of the towns like Nacogdoches, Jacksonville, Rusk, Tenaha, Lufkin and others putting up a small cash consideration, it is thought that the club will come and be justified in doing so, and all the towns will receive the benefits of the exhibition of the Glee Club. Mr. Thomas returned to Houston Monday.

Mr. Embry tells us he is making good progress in the securing of subscriptions to his new bank. The stock is of par value of \$100, and it is the wish of the gentlemen having the enterprise in charge to have the stock as widely diffused as possible. They would rather have 1,000 stockholders than 10.

Mr. McKnight, secretary of the Chamber of Commerce, will be the four minute speaker at the Methodist church next Sunday morning at 11 o'clock, and Hon. George W. Bailey will be the speaker of the evening service. A treat awaits the public. All are invited.

Mrs. R. E. Campbell, who has been employed by Mayer & Schmidt for the past three years, resigned her position Saturday night and left for her old home in Kirbyville, where she joins her husband, who is in business there. Mrs. Campbell was presented with a beautiful beaded purse by the employees of Mayer & Schmidt, who have been her working companions.

"ITS JUST GRAND" SAYS MRS. ROGERS

Could Not Eat Meats or Bread For Two Years—Gains 18 Pounds Taking Tanlac.

"No one could see the wonderful change in me and doubt that Tanlac is just a grand medicine," said Mrs. Louise Rogers, of 4017 Brooklyn Ave., Los Angeles, Cal., Mrs. Rogers formerly lived at Wenatchee, Wash., where she is also well known.

"My health was so bad for years that I almost became a physical and nervous wreck," she continued. "I had nervous indigestion, disordered kidneys and other troubles. I was perfectly miserable and for over two years I could eat no bread, milk or meat, and had to live on the lightest of foods. I suffered so that sleep was almost impossible and I fell off to a mere shadow of my former self. I was under constant treatment for over eighteen months but kept getting worse instead of better. I nearly gave up all hope and my husband, too, thought I was going to die. He decided to send me to a health resort, but I was so low that I could not be carried and have an attendant all the time.

"It was then that a lady from Vancouver persuaded me to try Tanlac and it was just three days before I noticed a change for the better. I have now taken five bottles, have gained eighteen pounds and all my old troubles are gone entirely. I eat three good meals every day and sleep like a child all night long. I just want to tell everybody what a good medicine Tanlac is."

Tanlac is sold in Nacogdoches by Swift Bros. & Smith and Stripling, Haselwood & Co. and in Garrison by the Dale Drug Co.

BOX WRITES A LETTER TO THE PEOPLE.

Washington, April 16.—To the people of the Second Congressional District.

I am, as you know, a candidate for re-election to congress.

Platforms and re-election promises are of some value, but what a man is and what a man does is more dependable than a platform of words. I did not miss a roll call or fail to attend a committee meeting during the past session of this congress. Neither have I slighted an item of business when any man from the district came to see me—and many have come. I have not neglected a letter written by the people of the district about their business—and scores write daily. They can state whether or not their business has had attended to.

Because I am busy here with the work which you intrusted me to do, I cannot come among you now, but as soon as the public business gets in such shape that I can leave properly I shall be with you. Will write again.

Sincerely and cordially,
John C. Box.

SCHOOL NOTES.

Tuesday morning in chapel services of course interest was high. The usual songs were sung, and then Prof. L. B. Davis gave a short talk. Superintendent R. F. Davis spoke at considerable length on the Timpson contest, which the Nacogdoches High School had so gloriously figured in. A large loving cup was set out in plain sight of the students on a table, and the student's cheered lustily. Mr. Davis recounted several of his observations during the day while at Timpson, and the students greatly enjoyed his inimitable way of relating the circumstances.

Following Superintendent R. F. Davis, Prof. L. B. Davis came forward and made a speech that very much appealed to the students, resulting in their cheering him vigorously on several occasions. He told in a particularly graphic and humorous way, although briefly, some of his experiences at Timpson. Particularly humorous was his description of the Timpson High School superintendent before and after the contest. The Timpson superintendent, it seems, was very confident that success awaited to crown the efforts of the Timpson boys, but the delegation from Nacogdoches walked away with the honors, scoring 97½ points to Timpson's 80. The Timpsonites were very much crestfallen when they saw that they were not the winners.

The chapel services were greatly enjoyed my all who were present.

FOR SALE—160 acres of land, 140 under good fence, 40 in cultivation, 3 good tenant houses, plenty of good water and wood, close to church and school. Located 5 miles east of Nacogdoches, R. P. White, Rt. 3. 22-3d2wp

WHY WE SHOULD
BUY-AT-HOME.

We, the people of Nacogdoches,
should patronize our home firms. The
people go to a great expense to es-
tablish these firms in order that
we may be served, and why should
we not patronize them.

Someone may say that the firms
away from here are larger and have
better stuff to sell. They may be
larger and they may have better
stuff to sell at the present, but if
we patronize our home firms while
they are small, they will soon be as
large as any firms and have better
stuff to sell.

Someone may say the firms
away from here sell things cheaper.
That may be so, but when we send
our money off we do not know wheth-
er we will get anything in return
or not. If we get anything in return
it may be worthless.

In order to be true to Nacogdoches
we must patronize Nacogdoches
firms.

Georgie Maroney.

IMPEACHMENT HALTED

Washington, April 15.—Plans to introduce a resolution in the house for the impeachment of Assistant Secretary of Labor Post for his attitude toward the deportation of radicals went suddenly awry today when the resolution was withheld at the request of republican leaders, who wished to study it further.

RUSSO-JAPS FIGHT

Vladivostok, April 17.—Heavy fighting between the Russian and Japanese forces continues at Kharbarock, on the Amur river, both sides suffering heavy casualties. Arrests of Russians by Japanese in Vladivostok continue, but the government buildings are being returned to the Russians and the red flag is reappearing.

ATHLETES READY FOR BIZ.

New York, April 15.—Tanned and hardened by weeks of training under a southern sky, the baseball teams of the National and Southern Leagues will open the season this afternoon, the weather permitting, with special ceremonies in each city where the opening games are played.

The next time you buy calomel ask for

Calotabs

The purified and refined calomel tablets that are nausealess, safe and sure. Medicinal virtues retained and improved. Sold only in sealed packages. Price 35c.

MELROSE THANKS THE NACOGDOCHES PEOPLE.

The scripture "Before ye all call I will answer" has been fully demonstrated to the people of Melrose by the good people of Nacogdoches by giving such abundance of kindness and sympathy and material aid to the stricken storm sufferers. The people of Melrose feel unable to express their sincere appreciation and thanks to the people of Nacogdoches for their wonderful kindness to our suffering community.

"We realize that every perfect gift comes from above, from the Father of Light, and that the impulse to think and do the right thing is from the Master above."

"The consciousness of a good act truly brings its reward; it blesses those that give and those that receive."

The above are the words used by citizens of Melrose to a letter to the Sentinel office which was received Saturday. Nacogdoches people are always glad to respond where the response is clearly the right thing to do, as was the case with the storm-stricken people of Melrose.

Careful Mothers Insist on Foley's. Foley's Honey and Tar Compound has been used in so many homes for so many years that mothers everywhere know that this standard family medicine contains no opiates or other ingredients that are injurious to children or adults. Children like it and it does them good. For coughs, colds, croup, whooping cough. Sold by Stripling, Haselwood & Co. f

AGED LADY DEAD

Mrs. W. L. Herrin received a telephone message from her husband at Houston that his mother, Mrs. Martha Herrin, had passed away at 7 o'clock Thursday night, after an illness of about three months, aged 82 years.

Deceased was well known to and greatly admired by many Nacogdoches, having frequently visited in this city.

She is survived by two sons, Messrs. W. L. Herrin of Nacogdoches and Raiford Herrin of Houston, and one daughter, Mrs. W. H. Adams of Houston.

Arrangements were made for interment at Omen on Saturday morning. Mr. Frederick Herrin of this place, a grandson, will attend the funeral.

Get Rid of "Spring Fever"

If you lack energy—if you lack "pep"—the chances are that your bowels are sluggish. A Foley Cathartic Tablet is a wholesome physic and will rid you of biliousness, gas, bloating, sick headache, sour stomach or other ills that attend indigestion and constipation. They invigorate the liver. Sold by Stripling, Haselwood & Co. f

KILLED IN AIRPLANE FALL

Sanderson, Texas, April 16.—Lieut. D. M. Haswell and Sergeant W. T. Maxwell, on border area duty, were instantly killed when their airplane fell here. Their home addresses are unavailable.

She Feels Like A New Person

So many women suffer from kidney trouble without realizing the cause of their sickness that this from Mrs. S. E. Mille, R. R. 5, Xenia, O., will be read with interest: "After taking Foley Kidney Pills I surely feel like a new person." Aching back, rheumatic pains or other symptoms should be given prompt attention. Sold by Stripling, Haselwood & Co. f

The "keep fit" committee of the United States health department has notified certain authorities of this city that it will within a few days send a collection of slides which will doubtless be shown at the Queen Theatre for the purpose of educating people how to keep in better health. The idea is finding great favor throughout the nation, as the thing most desired now is good, healthy and strong and active men and women. It is not known just when the slides will be shown here, but it will not be far in the future.

He Could Not Stand Straight "I caught cold and it settled in my kidneys," writes J. C. Diamond, 2865 W. 30th St., Cleveland, Ohio, "My back and sides were so lame and sore I could not stand straight. I use Foley Kidney Pills and am glad to testify to their helping power." Good for stiff or swollen joints rheumatic pains. Sold by Stripling, Haselwood & Co. f

Some money was found in our store the day that Bailey spoke here. Owner can get same by paying for this advertisement. Perry Bros, Variety Store. 19-1dw

LEGION MEETING

At a meeting of the Baxter Duncan Post, No. 86, American Legion, Friday night the following resolutions were unanimously adopted:

1. We demand that congress take steps to create and make available a fund for the purpose of lending to ex-service men a maximum of \$7,000 to be used in the purchase and improvement of land, either rural or urban.

2. We favor a normal rate of interest and partial payments of the loan, extending over a period of not less than 30 years.

3. We recommend that these loans be made through and by the Federal Land Bank.

4. We favor such restrictions on the sale of land purchased under the loan as will adequately safeguard the borrower against speculators.

5. We favor giving the service men a credit in repaying the loan of \$2 per day for each day he served during the period of the war.

6. We are clearly and unalterably opposed to the cash compensation or any so-called cash bonus.

7. Vocational training with \$1.50 each day of service to be paid as long as the recipients obtaining education from the government.

W. B. Bates, Post Commander
R. B. Walthall, Secretary.

One of Many Letters

Miss Rose Florke, 209, Hawkins Ave., N. Braddock, Pa., writes: "I had a cold in my chest and fearing it would cause pneumonia, I tried Foley's Honey and Tar and, it was not long until I felt relieved." Many letters have been written about this time-tried, reliable family medicine. Sold by Stripling, Haselwood & Co. f

The work on the Nacogdoches-Douglass road is progressing nicely, according to the advices of Douglass people who are traveling to the city just now. All of them are enthusiastic over the great work that is being done on the road, and declare when the work is completed it will stand out as one of the best pieces of work in all East Texas. The Goens Hill is being leveled with great care, and when it is finished it will add much to the convenience and modernness of the highway. Over here in Nacogdoches, where men and women believe in progressive ideas, do progressive things, people are happy to the full knowledge that they have truly the best county in East Texas. We have the oil and the oil possibilities, we have the timber, we have the iron, we have the agricultural lands, we have the cattle, the energetic working men, the money, and we are really on the threshold of some of the most prosperous times in the history of Nacogdoches county. On with the road building—the roads of a county are its arteries through which its commerce and power flow.

Cut This Out.—It is Worth Money.

Cut out this slip, enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package of Foley's Honey and Tar Compound, for coughs colds and croup. Foley Kidney Pills and Foley Cathartic Tablets. Sold by Stripling, Haselwood & Co. f

STUDENTS DISCIPLINED

Austin, Texas, April 16.—Four hundred and sixty-four students of the State University who participated in the freshmen and sophomore fight on March 1 received sentences varying from disciplinary probation to suspension for two weeks without the privilege of spring-term examinations. President Vinson announced today. Neither class will be permitted to give receptions for two years.

LUFKIN'S POPULATION.

Washington, April 16.—The population of Lufkin is 4,878, an increase of 2,129, or 77 4-10 percent over 1910.

ASPIRIN FOR HEADACHE

Name "Bayer" is on Genuine Aspirin—say Bayer

Insist on "Bayer Tablets of Aspirin" in a "Bayer package," containing proper directions for Headache, Colds, Pain, Neuralgia, Lumbago, and Rheumatism. Name "Bayer" means genuine Aspirin prescribed by physicians for nineteen years. Handy tin boxes of 12 tablets cost few cents. Aspirin is trade mark of Bayer Manufacture of Monoacetic acidester of Salicylic acid.

This Week's Special

SOME BARGAINS FOR YOU

30x3 Plain Tires	\$12.50

Chamberlain's Tablets Are Just What You Need.

When bilious.
When constipated.
When you have no appetite.
When your digestion is impaired.
When your liver is torpid.
When you feel dull and stupid after eating.
When you have a headache.

They will improve your appetite, cleanse and invigorate your stomach regulate your bowels and make you feel "fine as a fiddle." They are easy to take and agreeable in effect. Sold by Stripling, Haselwood & Co.

Dr. W. M. Weighbright of Huntington, Ind., who has been here for several days visiting his sister, Mrs. J. M. Miller, left for his home Wednesday. Dr. Weighbright is interested in oil development in Texas and visited several points in the state. He is delighted with Texas, and especially so with Nacogdoches. He was wonderfully surprised with the agricultural resources of this county.

For A Severe Cold

"Chamberlain's Cough Remedy cured my daughter Anna of a severe cold and cough a few years ago and ever since then I have never missed an opportunity to recommend this medicine to anyone suffering from throat or lung troubles. I cannot speak too highly in praise of it," writes Mrs. D. J. Shelley, Earlville, N. Y. Chamberlain's Cough Remedy contains no narcotic and may be given to children with perfect confidence. It is a pleasant syrup and they do not object to taking it. Sold by Stripling, Haselwood & Co. c

MAKING REPARATION

Paris, April 15.—Twelve hundred horses, 4,000 cattle, 10,000 sheep and 4,000 goats have been received by France in reparation of stock taken by the Germans during the war.

They Speak Well of It.

"I frequently hear Chamberlain's Cough Remedy praised by friends and acquaintances which only tends to strengthen my good opinion of it," writes Mrs. Fred Arter, Zanesville, Ohio. Try it when you have a cough or cold and see for yourself what an excellent medicine it is. Sold by Stripling, Haselwood & Co.

Relieves Rheumatic Pains

"I am subject to rheumatism and when I have a spell of it one or two applications of Chamberlain's Liniment relieves the pain and makes rest and sleep possible. I would not think of doing without it," writes Mrs. C. Owlsey, Moberly, Mo. Sold by Stripling, Haselwood & Co. c

POLICE THINK SUICIDE

Fort Worth, Texas, April 15.—Walter Acker, for twelve years superintendent of the Masonic Widows' and Orphans Home, was found dead here today. He had been shot, and the police say it was a case of suicide on account of ill health.

WIRE wheels, wood wheels and disc wheels all have their boosters, but everybody agrees on rubber tires. When everybody knows the advantages of Threaded Rubber over ordinary insulation, the demand for it will be as universal.

"SYRUP OF FIGS" IS LAXATIVE FOR CHILD

Look at tongue! Remove poisons from stomach, liver and bowels.

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

COMMITTED FOR BIGAMY

S. S. Hollenberg, who was arrested several days ago on a charge of bigamy, had a preliminary hearing before Judge Frank Huston Saturday morning and was held in \$5,000 bail, failing to give which he was committed to prison to await the action of the grand jury.

Two or three months ago Hollenberg married Miss Pearl Simpson, a worthy young lady of Maytown, and it subsequently developed that he already had a wife and two children in Kansas.

In the trial today he would make no statement whatever. The Kansas wife and her small baby were at the hearing.

Mabene Triumph cotton seed, the next best cotton seed to Kasch. We have them put up in three bushel sacks. Mayer & Schmidt. wtf

The Nacogdoches County Singers Reunion will meet with the class at Trawick, 14 miles north of Nacogdoches on the T. & N. O. Railroad, the 23rd of April, 1920, at 7:30 p. m. and continue until Sunday noon.

J. W. Battle, president.

You owe it to yourself to try this marvelous remedy. You owe it to your family and friends to be strong, well, happy, bright of eye, bristling with energy, able to go about your work with a smile on your lips! Try Rich-Tone today at our risk. Get a bottle today on our money-back guarantee. Sold and guaranteed healthily.

DEMOCRATIC PRIMARIES

List of Chairmen Selected to Hold Precinct Conventions May 1.

Nacogdoches, East Box, Mrs. Tom Summers.
Nacogdoches, South Box, George H. Meisenheimer.
Nacogdoches, West Box, W. U. Perkins.

Alazan, J. N. Rogers.
Appleby, C. T. Simmons.
Shady Grove, Jim Elliot.
Martinsville, G. F. Fuller.
Melrose, Frank Powers.
Attoyac, J. S. Faulkner.
Chireno, T. J. Curl.
Etoile, B. F. Partin.
Douglass, C. B. Watkins.
Nat, Vernon Bone.
Libert, Tobe Denney.
Cushing, Walter Daniels.
Linn Flat, J. Marvin Mitchell.
Saul, Arkin Cranford.
Garrison, J. W. Stalling.
Woden, L. J. Chisum.
Caro, J. W. Sealbach.
Eden, Andy Legg.
Mahl, Charley Watkins.
Swift, W. W. Baker.
Harmony, Hadie Johnson.

It is the duty of the above named Precinct Chairman to call the Precinct Conventions to order in their respective voting places at 2 p. m. Saturday, May 1, for the purpose of selecting delegates to the County Convention to be held at the Courthouse at 2 o'clock p. m. Tuesday, May 4.

The number of votes each Precinct will have in the County Convention will be determined by the convention itself, but each place may select as many delegates as is thought best to cast the votes of that particular place.

If for any reason the Democratic Committeeman is absent or refuses to act, the voters should elect a chairman and hold the Convention, and those present can select the member of the Democratic Committee to act as Chairman of the meeting or they may select any other Democratic voter to serve throughout the meeting.

This is the Democratic primary Convention and therefore only democrats who are qualified voters are allowed to participate. This includes both men and women.

Each Precinct Chairman thoroughly advertise the hour and the place where the Convention is to be held in order that every voter may have the opportunity of attending.

As soon as the Conventions adjourn a duplicate list of the delegates should be made and signed by the Chairman and the Secretary and one copy mailed to the county Chairman at Nacogdoches and the other copy brought by the delegates to the County Convention.

R. B. Walthall, County Chairman.

Nancy Hall, Porto Rican and Golden Yam Sweet Potato Slips for Sale—Nothing but first class seed bedded. Seed and beds will be treated to prevent diseases. We are booking orders now for slips at \$3 per 1,000. Plants ready about April 15. All orders filled in rotation. Order now by mail, or phone 9037-F2. Nacogdoches Potato Co. 18-wtf

FRIENDLY CHAT CLUB

Mrs. Charley Smith very charmingly entertained the Friendly Chat Club Friday afternoon. After the regular business of the club was taken care of, the music started and in the twinkling of an eye, there stood before each one a delicious cream course.

Those enjoying the afternoon were: Mesdames George Muckelroy, Robert Haberin, Richard White, T. White, Leonard Whitehead, Jim Muckelroy, Dickson, W. M. Byrne, A. B. Smith, and Misses Ada Stripling, Magilene Muckelroy, Dickson.

Mrs. T. White will entertain next month.

Our stock of genuine Mabene Triumph cotton seed is still plentiful, but better not wait too long to get yours. Mayer & Schmidt. wtf

Cecil Birdwell of Chireno was in the city Thursday, having just arrived here from the United States navy, in which institution he has seen considerable service.

MULES

I will receive another carload of mules March 26th. All good size work stock. Giles Parnley. 25-wtf

ANNOUNCEMENT.

Having demonstrated and proven my work within a radius of fifty miles during the past six years and established an eye, ear, nose and throat hospital that will enable me to give surgical cases my personal care I shall henceforth devote my entire time to my office and hospital practice in Nacogdoches. 3-dwtf. M. W. P'Pool, M. D.

"Gosh! How my back aches!" After Grip, "flu" or colds, the kidneys and bladder are often affected—called nephritis, or inflammation of kidneys. This is the red flag of danger—better be wise and check the further inroads of kidney disease by obtaining that wonderful discovery of Dr. Pierce's, known as Anurie (anti-uric-acid), because it expels the uric acid poison from the body and removes those pains, such as backache, rheumatism in muscles and joints.

Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bag-like formations.

Dr. Pierce's Anurie many times more potent than lithia.

Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package. YOKLUM, TEXAS.—After using different kind of medicines for kidney and bladder troubles will say that I have given Dr. Pierce's Anurie Tablets a fair trial and was greatly benefited, and do hereby cheerfully recommend Anurie to all persons suffering from kidney and bladder troubles. HENRY ROTH, Route 4, Box 158.

STRUCK BY AUTO

A young man named Hollis Smith, employed at the light plant, was struck by an automobile about 10 o'clock Friday morning at the Kennedy corner, but luckily no bones were broken though he was badly skinned practically all over the body. The car was occupied by Mrs. J. W. Cater and her sister, Miss Ruth McLain, the latter holding the wheel when the mishap occurred. The fact that Mr. Smith was not instantly killed is pretty good evidence that the machine was not running at excessive speed.

Ill fortune seems to be pursuing the young man rather persistently one of his fingers having been frightfully mangled in the machinery at the plant a few days ago.

Its cotton planting time. We have a good stock of the genuine Mabene Triumph seed. Come and get what you need for they are selling fast. Mayer & Schmidt. wtf

LOST—Look out for a stray black horse mule, weigh about 1,000 pounds \$10.00 reward. Left home March 22. R. R. Coleman, Caro, Texas. 251wtf.

If you want the genuine Mabene Triumph cotton planting seed we have several hundred bushels. Come after them. Mayer & Schmidt. wtf

LOST—Mouse colored mare mule, weight about 750 pounds. Don't remember brand. Will pay \$25.00 reward for return. R. R. Coleman, Caro, Texas. 18-wtf

Come to this bank to cash your checks for cotton and cotton seed. Stone Fort National Bank.

TIES WANTED

200,000 pine ties, all sizes. 50,000 red oak ties, sizes one to three. J. J. Simpson, Nacogdoches, Texas. 18-wtf

Mrs. Clifford Hodges of Beaumont is visiting her sister, Mrs. William Hall, on Magnolia Street.

Mr. Roy Mosby and Miss Letie Ritmour of Garrison were married at 1 o'clock Wednesday afternoon in his office at the courthouse by Judge Frank D. Huston.

Frank Garrison was in the city Friday with some oil men attending to business relating to oil development.

Misses Vera Sisco and Lena Shofner, who had been visiting home-folks in Oak Ridge for several days, were in the city Saturday morning returning to their duties in Dallas, where they hold desirable positions.

HURT IN RUNAWAY

Sunday morning while going to church, Miss Lester Cureton, daughter of Mr. and Mrs. John Cureton, and Miss Ruth Medford, daughter of William Medford, were the victims of a painful accident when the team of mules they were driving ran away, throwing the young ladies out of the wagon, breaking one of Miss Cureton's legs and severely bruising Miss Medford. Both young ladies were given medical attention as quickly as possible, and they will recover. Both of them are suffering considerably from the shock which was so unexpected. No details were available as to the cause of the team running away.

Keep an eye on that Stephen F. Austin Normal. Do not become dormant. There is a game being played by an enemy of Nacogdoches to thwart the ultimate location of the normal in this city, and Nacogdoches should prove herself equal to fight any antagonist in all the broad state of Texas—and as far as that, any outside of it that we are the same in size of Nacogdoches. Nacogdoches should not sleep; today calls for wide awake men, and if we sleep, and do not get the normal there should not be weeping or wailing or gnashing of teeth some day when we might awake and find that what we looked upon what might prove to be a mirage.

FOR SALE—For stock cattle—4 good Jersey milk cows with baby calves. Burnaman & Gaston. Lot on East Main St. 6-d6w3

AGED NACOGDOCHES MAN PASSES AWAY.

Mr. Brit Burk, one of the oldest men in Nacogdoches county, died at his home in Rock Springs Wednesday night and was buried at the Rock Springs cemetery Thursday afternoon. Mr. Burk was probably 70 years of age, and has a great number of children and grandchildren in the county. His wife died in the year 1905.

Quite a number of Nacogdoches people motored to Rock Springs cemetery Thursday to pay the last token of respect to the memory of the old man. At the funeral, Rev. G. W. C. Self, formerly of the Libert community, but who is now living at Rusk, officiated. Mr. Self has known Mr. Burk for a number of years. The friends of Mr. Burk from Nacogdoches who motored to the funeral were, according to the best information obtainable to the reporter of the Sentinel, R. W. Sullivan, James Murphey, J. H. Brantley, Joe R. Day, H. A. Daniels, L. G. King, F. D. Huston, John B. Dorsey, W. B. Bates, Judge Mark Marshall, L. H. Thrash, G. A. Nelson, W. E. Thomason, J. F. Perritte, L. V. Parnley, Jesse Parnley, and many relatives of the deceased with whom everyone is acquainted.

The Sentinel joins with the many friends of the deceased in offering words of sincere condolence to the saddened relatives.

We have plenty of re-cleaned sorghum seed. Muckelroy & Westmoreland. 21-3d1w.

FOR SALE—One of the best all purpose, well bred, young brood mares in the county. E. H. Power. 21-6d12wp.

WANTED TO BUY—Farm, improved, from 3 to 15 miles from Nacogdoches. Give full description in first letter. Sidney Harris, Brookeland, Texas. 16-6d3w.

YOUNG MEN CHARGED WITH MURDER

Monday the Sheriff's department of this county was notified by authorities from Rockland, Tyler county, that there were two young men, or rather boys, at Nacogdoches who were wanted for murder at Rockland. While reports are meager, not even the sheriff's department was able to give any information other than the boys were wanted at Rockland, it is understood that the boys are charged with the killing of two Mexicans at Rockland Sunday morning, after which incident they made their getaway, coming to this county. They were arrested by the authorities here and confined in the county jail to await advice from Rockland. Deputy Sheriff Hardeman, speaking of them said that the two fellows under arrest were about 18 years of age, and had a considerable bit of the bravado in their makeup. Upon being searched a deck of cards, a flash light, brass buckles, four or five packages of cigarettes and a few dollars in money, not amounting to over \$30, were about all the worldly possessions found on the young men. In connection with the arrest, five Mexicans and one white fellow were taken from an E. & W. passenger train Sunday, but later turned loose, it is understood.

PLENTY OF MEXICANS

The county food administrator, R. B. Walthall, received yesterday a telegram from a labor agency in San Antonio telling him that they had plenty of Mexicans to send out over the state for labor. Nacogdoches county could get some of these Mexicans, try them, and see if they would not offer a solution of the labor crisis confronting the county. A club could be organized here, and the experiment could be tried.

A torpid liver needs an overhauling with Herbine. Its benefits are immediately apparent. Energy takes the place of laziness, appetite returns, and the hour of rest begins with its sound, refreshing sleep. Price 60c. Sold by Stripling, Haselwood & Co.

Mr. J. D. Davis of Douglass was in the city Monday and while here subscribed for the Sentinel to be sent to his son in far-away Honolulu. The Sentinel will carry the Nacogdoches news, and we feel sure that the young man will appreciate this gift from his father.

Later reports from the Misses Cureton and Medford, who were injured Sunday in a runaway mule team while on the way to church, indicate that both young ladies are in a serious condition. Miss Cureton is suffering of a compound fracture of the leg, and Miss Medford was bleeding profusely from the head, according to the latest reports.

Mr. W. S. Ellington and Miss Matilda Souther were married Thursday night at the home of Mr. and Mrs. A. H. Meador in this city. Rev. R. Emery of the Christian church officiating. They left Friday for their home in Corrigan, where the groom is section foreman for the E. & W.

Apply Ballard's Snow Liniment to joints that ache. It relieves ache, muscle ache and neuralgic pain. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by Stripling, Haselwood & Co.

Mr. Bryan Ramsey and Mrs. Batha Leggett were married by Judge Huston at the courthouse at 12:30 Wednesday afternoon and left immediately for their home at Haslam, Shelby county. The bride is said to be one of the loveliest women that ever assumed the nuptial vows before Judge Huston—which is saying a good deal.

Mr. Walter Menton and Miss Carrey Souther were married Thursday night in this city. The bride was formerly a clerk in Eichel's store and has many friends who wish her happiness, and the groom is employed at the Frost-Johnson, where the couple will make their home.

Plenty of wheat bran at Muckelroy & Westmoreland. 21-3d1w.

C. S. King of Douglass was in the city Monday.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.

NEW MEMBERS FOR CHAMBER OF COMMERCE.

The membership committee from the chamber of commerce canvassed for about three hours Monday morning with the result that more than 35 new members were added to the roll.

Sam B. Hayter and Robert Lindsey were chairmen of the two committees.

Mr. Hayter's committee consisted of Capt. I. L. Sturdevant, Matt Tucker, A. H. Smith, J. D. Ellington, W. P. Ingraham, John Perkins, J. G. Bailey, Wallace Lee, W. D. Ambrose, Joe Goldsberry, Hal Tucker and C. A. Hodges.

Mr. Lindsey's committee was composed of himself and Henry Mast.

The following new members were secured by the two committees:

L. Loden, John W. Byrd, G. W. L. Woodman, Lee Hardeman, Grady Stallings, C. M. Walters, Will Pack, N. Golub, P. H. Spradley Jr., E. M. Weeks Jr., Henry Millard, C. C. Poplin, Lit Herrin, Robert W. Parrish, Sam Sitton, Bud Birdwell, S. M. Adams, Dallas Feazell, Felix Weaver, E. G. Agin, C. G. Mangum, Ben Tucker, Willie R. Bowdon, E. H. Blount, T. M. Hooks, J. C. Parmley, M. M. Macheckney, S. W. Blount, W. U. Perkins, Clarence Thompson, Eugene Rector, Dr. Lacy, J. E. Reese, Randolph Cox, Lee Axley, Charles Perkins, Link Simpson, T. E. Burgess, and Hal Tucker.

These committees will complete the canvass at an early date. It is believed that at least fifty new names can be added to the membership list. It is the purpose of these two live committees to give every man in the city an opportunity to join in the organized effort to build a bigger and better city.

The mild cathartic action of Herbine is well liked by ladies. It purifies the system without griping or sickening the stomach. Price 60c. Sold by Stripling, Haselwood & Co.

The Pat M. Neff club of this county is getting busy mailing letters to all the voters over the county in interest of the candidacy of their champion for the governor's office. Clubs representing other candidates for the governor's office are beginning to get busy likewise. This year promises to be one of the warmest in the history of the state.

Children who have worms are pale, sickly and peevish. A dose or two of White's Cream Vermifuge will clear them out and restore rosy cheeks and cheerful spirits. Price 35c. Sold by Stripling, Haselwood & Co.

Some important cases were attended to Tuesday at the courthouse. Judge V. E. Middlebrook filed suit against the Coastal Oil Well Drilling Company of Harris county. The interesting thing connected with this case is that the judge will be both plaintiff and lawyer in fighting it. A. H. Carsons vs. C. H. Kendrick, Melrose people, will be fought out by Hodges & Grieve, and J. J. Carrol et al. vs. John Holloway will be represented by Attorney A. A. Seale.

As clear as the purest water is Liquid Borozone, yet it is the most powerful healing remedy for flesh wounds, sores, burns and scalds that medical science has ever produced. Try it. Price 30c, 60c and \$1.20 Sold

Neil Lambert of Chireno arrived in the city Monday to accept a position with a local telegraph company at the depot. He will begin work Tuesday. He has just completed his telegraphic course at Tyler, and is just starting out in practical telegraphy. His friends wish him success in his new found duties.

It is reported that eight or nine families of Mexicans were landed at Garrison Tuesday by the farmers of that town to try them on their farms. It is all an experiment, but if the Mexicans prove to make good more of them will follow. It is understood that more Mexicans are to follow these, anyway.

Stone Fort National Bank

Mr. Carter Gaston is at present in Kenosha, Wis., where he will spend several weeks in the Nash factory learning to be an expert on the Nash cars. His being there is in keeping with the Lee-Barnett Motor Co.'s plan to give the best service to be had in the Nash service.

News from Tony Rulfs, who has been reported as sick with pneumonia at Anniston, Ala., is not encouraging today. Mr. D. Rulfs left this afternoon for Anniston and will be joined in Shreveport by his daughter, Mrs. J. C. Neeland, who will accompany him on to Anniston.

BOUR-DAVIS

You will like the Bour-Davis at first glance, because few cars have ever approached it in beautiful lines, finish, upholstery and equipment. The Bour-Davis is built in the South by men who were pioneers in the automobile business and who have made a most careful study of Southern road conditions and designed the Bour-Davis to meet them.
