

WEEKLY SENTINEL
PRICE \$1.50 PER YEAR.
BY GILES M. HALTOM

THE ELECTION

The primary election in Nacogdoches county Saturday was conducted in an orderly manner, no disturbances of any kind being reported, notwithstanding the intense interest developed by reason of the gubernatorial contest and the strong partisanship of the champions of the two leading candidates for the state's chief office, Messrs. Bailey and Neff.

The complete returns from the county show the following: Neff 1,509, Bailey 1,065, Thomason 625, Looney 289.

FRIENDS AND NEIGHBORS

We are all friends and neighbors around here. We know each other and when we meet we say Hello, Bill, or Dick, or Tom, or Harry or whatever it is, and we say, also, how is little Katie getting along with her measles, and why in blazes wasn't you out to church last Sunday? When one gets sick the rest of us go out and buy some flowers, or fruit, or something, and go around and pat him on the back and cheer him up.

Let us all bear this in mind, continually, and if we do it will be much better than if we get peeved and grouchy and make a lurch off of each other's ample ears.

If any fellow from the outside comes in here and goes to saying mean things about a citizen, man or woman, we would eat him up like an oyster on the half-shell. We wouldn't stand for it a minute. Then why should we ever say mean things about one another? There is nothing in it, at all. Cut out all the rough stuff and shake hands.

JASPER OFFICERS GET HIM

Sheriff B. Bishop of Jasper county arrived in the city Wednesday by auto to take charge of the m.m. Tew, who was arrested by Sheriff Woodlan on request of the Jasper officers. The man was charged with the theft of an automobile, and Sheriff Bishop said a charge of burglary was also against him, he having, according to that officer, broken into the building from which he is alleged to have taken the car. Sheriff Bishop left at 6 o'clock Wednesday afternoon with his prisoner.

HIS FAVORITE HUE

The writer, who has never visited Nacogdoches save on two instances, one when the town was reported burning down years ago and a later visit when a certain football game was played there on the college campus, has made up his mind that if he ever strays that far away from home again, he will "put up" at the Redland Hotel, for the Sentinel states that it is being thoroughly overhauled and painted a beautiful red color. Out of all the category of colors, red is our preference.—Lufkin News.

A RESTFUL TOWN

Mr. A. G. Lively, associate editor of the News, left this morning for Canton, to spend a few days with homefolks and friends. For the information of those who do not know the exact location of the above named place will say that it is in the Coca-Cola district of Van Zandt county, and that ever since the town was established before the war the business men have made a practice of closing their store at the noon hour for lunch, and as soon as the evening shades appear they retire for the night in order to procure sufficient rest to enable them to make it through the following day.—Lufkin News.

Kline Bates of Douglass was a visitor in the city Monday, declaring that he felt rather cheery, since he woke up Sunday morning to find himself constable of Douglass without knowing that he is a candidate for the office. Mr. Bates is a young man and is very popular in his community. His friends ran him for that office without his consent or knowledge.

TRYING TO FORCE DOWN PRICE OF COTTON SEED

Austin, Texas, July 24.—Efforts of cotton seed buyers to force the farmers to sell their seed for \$25 per ton or less have been discovered by the State Department of Agriculture, which is receiving reports from South Texas points where cotton picking is already in progress.

The State Department of Agriculture in a statement concerning this matter said:

"While crude domestic oil, owing to heavy importation of foreign oils, is somewhat lower than last year, the difference does not begin to justify the attempt to start the market so low.

"Cotton seed should be worth, on a comparative basis with the price of other feedstuffs, at least \$50 a ton merely for feed purposes. Of course, buyers do not expect reasonably to secure much cottonseed at such prices at \$25 per ton, but being aware that so few farmers are fixed for cotton seed storage they know from past experience that they will get some seed at the outset at whatever price may be offered."

POTATO PRICES FALLING

Chicago, Ill., July 24.—Potato prices at the present time are higher than ever before in this country at this period of the year, but they have gradually been coming down during the past ten days, it is reported at the U. S. Bureau of Markets. This has been due to heavy shipments, chiefly coming from Virginia.

The main movement of the fall or early winter crop will start about the first part of September, and as the weather is ideal for potatoes, prospects for it are good, federal officials say. Acreage put in potatoes this year is smaller than last year, but the outlook is for a better yield per acre, which should result in as large a production. Last year's crop, however, was a short crop.

TEXAN SHOOTS BELBOY

Detroit, Mich., July 24.—Patrick Reany, a wealthy business man of Dallas, Texas, was taken into custody following the shooting of a bellboy, which, the police say, occurred in Reany's room. Reany will be held the police stated, pending the outcome of the boy's wounds, which, the hospital attendants say, may prove fatal.

IS WEALTHY DALLAS PLUMBER

Dallas, Texas, July 24.—Patrick Reany, held in Detroit in connection with the shooting of a bellboy, is a wealthy Dallas plumber contractor. Four years and two years ago he was an unsuccessful candidate for city water commissioner.

ARMISTICE PROBABLE

London, July 24.—The Russian Soviet government has notified Poland that the soviet army command has been ordered to begin immediate negotiations for an armistice, it was announced today in a wireless dispatch from Moscow.

Oscar Collins, who was injured so seriously Tuesday in an accident at a handle factory at Attoyac, is improving and fairly one the road to recovery.

FIGHTING THE PLAGUE

Austin, Texas, July 24.—The arrival of a laboratory car at Beaumont to use in the anti-bubonic plague campaign along the Gulf coast is announced by Dr. C. W. Goddard, state health officer, who has just returned from that city.

The car, with a personnel of two men furnished by the United States Public Health Service and two men from the State Board of Health, will be employed to extend the anti-plague fight. It came direct from Pensacola, Fla. The first city to be visited by the car will be Orange, according to Dr. Goddard.

NEW ROAD RECOGNIZED

Austin, Texas, July 24.—An order recognizing the Cisco and Northeastern Railway Company as a common carrier has been issued by the Texas Railroad Commission. The order is effective on August 1, 1920, and entitles the railroad company to the same privileges and rates as are in operation on other lines of railroads in Texas, also as to differentials.

The Cisco and Northeastern is a new road and is to operate between Cisco and Breckenridge, a distance of 28 miles through the heart of rich oil territory.

GRAVE YARD WORKING

There will be a grave yard working at Jacob's Chapel, Friday, August 6th. All interested parties are urged to come, bring dinner and stay all day. W. F. Butler.

MALARIA AND AGUE BROKEN UP IN THREE DAYS

Swamp Chili and Fever Tonic Brings Relief to Thousands

Don't keep on suffering from those awful chills—that horrible sweating and shaking—that burning fever.

Go to your druggist or general store this very day and get a bottle of Swamp Chili and Fever Tonic—the famous, never-failing remedy that has been relieving the suffering for years and years.

For the small sum of 60 cents you get a sure-shot remedy that quickly drives out all the malaria—and drives it away to stay! That's why so many leading physicians prescribe Swamp Chili Tonic as the best malaria remedy there is.

Swamp Chili Tonic contains no alcohol. It is tasteless, easy to take, and has no unpleasant after-effects. No purgative has to be taken with it—the medicine itself acts gently and agreeably on the liver and bowels. Get well immediately, by getting a bottle of Swamp Chili Tonic today.

RAILROAD BROTHERHOODS DIVIDED AS TO STRIKING

Chicago, July 22.—Heads of the railroad brotherhoods today are divided on the action of acceptance or rejection of the \$6,000,000 wage increase granted by the Railway Labor Board. When consideration was renewed after the close of an all-night session six brotherhoods and the Master Mates and Pilots of America favored acceptance, seven favored referring the question to the men with the recommendation that it be accepted and two were undecided.

The Order of Railway Telegraphers decided to reject the award and were said to be preparing a strike ballot. Efforts at compromise between the brotherhoods were taken up with the hope for a report by union chiefs to the general chairman with an agreement that each union might act independently.

ALLIES TO AID POLAND

Paris, July 22.—The Allies have decided to take measures preparatory to giving military aid to Poland if it should prove necessary.

Missions Enroute to Warsaw

Paris, July 22.—The French mission leaves for Warsaw tonight to arrange for prompt succor to the Poles. On the same train with the same object goes the British mission. The missions have full authority to tell the Poles that whatever aid is needed will be forthcoming if the bolshevik continue their attempts to march into distinctively Polish territory. It was stated by high authorities that the help offered included troops if necessary.

ABOUT VILLA

Mexico City, July 23.—Villa and forces said to number 100 men are heading toward Coahuila, poorly equipped, according to statements of deserters.

Gus Cordova of the Harmony community has the thanks of the Sentinel for a fine watermelon left at the office Saturday morning.

WHY WRITE DULL LETTERS?

Correspondence May Be Made Interesting if a Little Thought is Given to It.

Most people think before they speak, but only a few think before they write. I have a friend, says a writer in London Answers, and she is a girl who always keeps her friends; partly, I am sure, because, however far away they are, it is never too much trouble to write them long and interesting letters. Thus, though miles may stretch between them, she can always keep her friends very near to her in thought.

She does not dash off anything that comes into her head; she always considers her friends' point of view. If the particular friend she is writing to is fond of sport she writes of it; fond of books, then the latest books are discussed; if music is a favorite, then music finds a place in her letter. And always through them all there runs a little vein of humor.

So many people suffer from lack of tact. For instance, some time ago, when my mother was about to undergo a very serious operation, it became necessary to censor her correspondence—for the simple reason that some of it was too depressing for words.

One very well-meaning old lady wrote saying how sorry she was to hear of my mother's great misfortune and how it often happened that very active women ended their days as bedridden invalids! And how she once knew of a lady who caught cold after a similar operation and contracted some awful kind of incurable "itis!"

One always considers people in conversation. Then why not in letter writing? One does not talk religion before an atheist, nor let the conversation verge on the frivolous before a curate.

Letters require just as much thought.

DISCOVERY OF HOLY CROSS

Story Goes That the Empress Helena Was Responsible for Its Recovery From the Jews.

Through the zeal of the Empress Helena, mother of Constantine the Great, was discovered the cross on which the Saviour was crucified, and the date is given as May 3. The story usually told is to the effect that the empress went to Jerusalem and there compelled the Jews to bring the cross from its concealment and give it to her, together with other crosses in their possession. Its identity was established by a miracle: The body of a dead man was placed on each of the crosses, and when it touched the true one the dead man immediately came to life. Many pilgrims traveling to Jerusalem received pieces of the true cross, and the question was raised as to the possibility of supplying thousands with those fragments without entirely carrying away the cross. It was therefore said that the true cross had the power of reproducing itself. On the capture of Jerusalem in 614, the cross was taken, was carried into Persia, where it remained until restored by Heraclius, which event is commemorated in September and is usually called Holyrood day. The four nails were distributed so that two were placed in the Imperial crown, one brought to France, and another thrown into the Adriatic to quiet its turbulence.

Oulja Supplanted Planchette

The planchette was a thin, heart-shaped piece of wood supported on two casters at the end of the base, and on an ordinary pencil at the apex, popular about 1890 to 1880, before the oulja board supplanted it. The pencil could readily be made to trace characters without conscious movement on the part of the operator, if the fingertips were placed upon this device.

Like the oulja board, the planchette was used by two classes of persons. It was used by the believers in spiritualism, who asked questions of a spiritual control, and believed that they received answers from the intelligences on the spirit plane, and by people who regarded the mechanism as a game, and amused themselves by pushing it to write messages for the benefit of others present.

Old and New Books.

There is no sillier affectation than that of old worldism. To rave about Sir Robert Browne and know nothing of William Cobbett is foolish. To turn your back upon your own time is simply to provoke living wags, with rudimentary but effective humor, to chalk opprobrious epithets upon your person. But, on the other hand, to depend upon your contemporaries for literary sustenance, to be reduced to scan the lists of "Forthcoming Works" with a hungry eye, to complain of a dearth of new poems, and new novels, and new sermons, is worse than affectation—it is stupidity.—Augustine Birrell.

Checking Fire in Films.

The celluloid films used for motion pictures ignite easily and burn rapidly, necessitating the installation of special protective equipment. A European inventor has combined a new chemical with an ingenious method of applying it, which saves, it is asserted, all of the film except the portion first ignited. The film in the projecting machine is surrounded by a ring of tubing with inner perforations, connected with an iron tank containing the chemical, a colorless liquid. A valve near the operator's hand enables the flow to be started instantly.—Popular Mechanics Magazine.

KNIGHTS TEMPLAR MEETING

Fort Worth, Texas, July 26.—Worth Commandery, No. 19, Knights Templar, of Fort Worth, has received a special dispensation from Grand Commander John B. Sawtell, of Waco, Texas, to hold a Knights Templar conclave at Fort Worth September 23-24, which will be held at Moslah Temple's mosque, on the shores of Lake Worth.

All of the commanderies, under the jurisdiction of the Grand Commandery of Texas, have been invited to attend this conclave, and the grand officers have also been given invitations to attend the conclave. It is expected that more than thirty commanderies will accept the invitation of Worth Commandery, No. 19, and will elect and bring their candidates to Fort Worth to have the work conferred upon them at the conclave.

Elaborate entertainment is being provided and it is confidently expected that the conclave will draw about 3,500 Knights Templar to Fort Worth for this occasion.

The railroads have granted special rates to Fort Worth for the conclave. The selling dates will be September 21 to 25, inclusive; returning September 26.

The morning of September 23 will feature the largest Knight Templar parade ever held in any city in Texas. The Fort Worth Chamber of Commerce has arranged to decorate Main and Houston streets with the national colors for the parade, and all Knights Templar are invited to come to Fort Worth and wear their Knights Templar uniforms and participate in the parade.

Ample hotel facilities have been arranged; and the chamber of commerce is co-operating with the Knight Templar hotel committee in seeing that there will be plenty of hotel accommodations. It is hoped that arrangements can be made to take care of 200 or more knights at the mosque during the conclave.

Knights Templar wishing hotel reservations made are requested to write Sir Knight H. W. Austin, 215½ Main Street, Fort Worth, Texas, stating when they will arrive and the extent of accommodations wanted.

Special entertainment will be provided for the ladies who attend the conclave with sir knights participating in the conclave.

Extensive changes in Moslah Temple's mosque have been made to properly stage the several orders on Red Cross, Malta and Knight Templar.

Misses Virginia Baxter and Golda Mullins have returned from a visit to their aunt, Mrs. J. W. Mullins, at Tatum. They were accompanied home by their cousins, Miss Lelon and Mr. Murph Mullins, who will be their guests for a short while.

OLDEST JUNIOR COLLEGE IN EAST TEXAS
Alexander College

JACKSONVILLE, TEXAS

Why you should attend Alexander College:

1. Alexander College is a CLASS A PLUS Junior College doing four years high school and two years college work fully credited anywhere.

4. ALEXANDER COLLEGE GIVES INDIVIDUAL ATTENTION TO EACH STUDENT, HAVING ONE TEACHER TO EVERY TEN STUDENTS.

State your case and write for catalogue.

Early room reservation necessary.

E. G. BOGER, A. H. President.

When Run-Down

HOUSTON TEXAS.—"I was in a terribly run-down condition of health after a siege of ptomain poisoning, and then the influenza. I could not seem to regain my strength and was really not able to do my housework. I knew I needed a good tonic and builder and remembered how my folks used to regard Dr. Pierce's remedies in my girlhood days, and then I decided to take Dr. Pierce's Golden Medical Discovery. After taking the second bottle my strength returned rapidly and I felt better in every way.

"I am glad indeed to recommend the medicine that has done me so much good and do not hesitate to give this statement."—MRS. GERTRUDE SELL, 2117 Common Street.

Few families have not at some time or other used the "Golden Medical Discovery" for the stomach, liver or blood. Over twenty-four million bottles of this tonic and blood remedy have been sold. All druggists. Liquid or tablets.

For Weak Women

In use for over 40 years! Thousands of voluntary letters from women, telling of the good Cardui has done them. This is the best proof of the value of Cardui. It proves that Cardui is a good medicine for women.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

TAKE

CARDUI

The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help. "I was taken sick, seemed to be . . ." writes Mrs. Mary E. Vest, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

All Druggists

TO ANNOUNCE FOR GOVERNOR

I take this method of sincerely thanking the many good men and women of Nacogdoches county who voted for me in my recent campaign for sheriff. While I was loser, I have no injured feelings toward anyone, which fact I shall prove by being the same, plain, honest man I have always sought to be.

In connection with these words of thanks, I wish to state that it is my present intention, if nothing interferes, to announce four years from now as a candidate for the great office of governor or Texas. And I am now taking privilege of this opportunity to ask in advance your support upon the arrival of that time.

Again thanking all for the consideration in the past given me, and soliciting their support in the future, I am,

Respectfully,
J. L. Prince.
27-1dw.

Chamberlain's Colic and Diarrhoea Remedy.

This remedy is certain to be needed in many homes before the summer is over. Buy it now and be prepared. It is recognized as a most reliable remedy for bowel complaints and may be obtained at any drug store. c Mrs. Linda Harrod Endorses Chamberlain's

I THANK YOU

To the good people who supported me in my campaign for county clerk, I wish to express my sincere thanks and profound gratitude to you for the good vote you gave me on last Saturday. Am indeed sorry that I was not able to carry your vote to success, but I did my best under the circumstances and have no one to censure.

To you who voted against me, I tried to put my claim before you in a clean, fair and honest way. I expected an honest and fair consideration which I feel sure you gave me; therefore, I have no harsh criticism or ill feeling toward any of you. The vote was yours and you had in this "Land of the Free, and Home of the Brave" the same right that I had to vote your sentiments.

Again expressing my deep appreciation and sincere thanks to the good people who so kindly supported me, I am,
Very respectfully,
Joe R. Day.
27-1dw.

Hot weather is hard on teething baby of heat, pain and stomach disorders. They suffer the combined misery. McGee's Baby Elixir helps the little sufferer through the trying period by correcting the stomach and bowels. Price 35c and 60c. Sold by Stripling, Haselwood & Co.

APPRECIATION

I take this means of sincerely thanking my many friends for their support contributing to my nomination for the office of district attorney in the recent primary. I am sure that I have the good will and friendship of the people of this district, and upon my entrance into the office, I want your support in enforcing the laws of this state.

Respectfully,
W. B. Bates.
27-1dw.

A child can't get strong and robust while worms eat away its strength and vitality. A dose or two of White's Cream Vermifuge puts the little one on its feet again. Price 35c. Sold by Stripling, Haselwood & Co.

COUNTY'S POPULATION

Washington, July 26.—The census of Nacogdoches county shows a population of 28,547, an increase of 1,051, or 3.8 percent.

Swelling caused by insect bites can be reduced by using Ballard's Snow Lintment. It counteracts the poison and relieves the irritation. Three sizes, 30c 60c and \$1.20 per bottle. Sold by Stripling, Haselwood & Co.

RECORD FOR QUICK COTTON

Brownsville, Texas, July 24.—Open cotton within 64 days after planting is the record set by E. J. Puig on his farm three miles from Matamoros and believed to be the United States record for quick growth on the staple. The cotton was planted on May 4, and on July 8 it was beginning to open, and it offords regular picking now.

A teaspoonful of Herbine will produce a copious and purifying bowel movement, improve appetite, restore mental activity and a fine feeling of vigor and cheerfulness. Price, 60c. Sold by Stripling, Haselwood & Co.

FOR SALE—One of the best saddle fillies in the country, A natural saddle, has all the gait; 5 years old, high bred. See me Quick. Josh Hen sen.
25-dwtf

HIDE MARKET SHOWS DISCOURAGING TENDENCY

Chicago, Ill., July 21.—There was a lot of trading in the packer market or some May hides at a decline of 6 to 8 cents a pound from last sale price or same selection of hides of the winter long-haired stock. It was a great surprise to the trade, as it was generally thought that the packers could hold their summer hides very firm, thus enabling them to work off their winter stock, but evidently they needed money and have to make some sales on best possible terms in order to keep the machinery oiled.

There is no improvement in calf; the packers sold some skins to their tanneries, but there is no general buying of skins, either among the Eastern or Western tanners. They all say that calf skin leather is unsalable at the moment. Horsehides are weak, with little demand.

There is no improvement in wool. Advances are to the effect that the American Woolen Mills are closing down their plants, throwing thousands of men out of employment.

CARD OF APPRECIATION

To the Voters of Precinct No. 1, Nacogdoches County

It being impossible for me to thank each of you personally for the most excellent support given me in the race for public weigher, I take this method of extending to the voters my most sincere thanks, and solicit your further vote and influence in the second primary, which will be between Mr. E. L. Lock and myself. I also earnestly solicit the vote and support of the many voters who voted for Mr. Burrows. Again urging the voters for their support and influence in the second primary and assuring you, one and all, that I shall never overlook the kindness and interest that you have shown in my behalf,
27-1dw
J. L. Mullins.

Complete gin for sale at a bargain if taken at once, good location, fine cotton crop. Reason for selling owner has other business claiming his attention. See or write us at Nacogdoches, Texas. Frederick Weatherly Land Company. 21-6dw4

EXPRESSES GRATITUDE

Nacogdoches, Texas,
July 27, 1920.

To the People of the County:

I am very grateful to you for your confidence in me as an officer. I have absolutely no ill feeling against anyone opposing me, and merely desire to say to all that it is my purpose to make you the best county attorney within my power in the future, and am also ready and anxious to serve all in any private capacity for the upbuilding of the county and state.

Yours sincerely,
L. G. King.
27-1dw

County Agent C. H. Deabler will attend a sale of purebred Jersey cows to be held at the farm of Sid Westheimer north of Houston. This sale will be held Friday, July 30, at 10 a. m.

People who are contemplating the purchase of Jerseys would do well to get in touch with Mr. Deabler and commission him to assist in purchasing some of these animals for Nacogdoches.

He believes that there will be some excellent bargains to be had at this sale, as ordinarily this is not a good sale season.

The eighty head that are to be offered are some of the best blood lines in the country, and also have the added advantage of having been raised in the tick region.

CANDIDATE'S THANKS

I thank the voters of Precinct No. 1 for their generous support of my candidacy for re-election as constable, and assure them if they will give me their votes in the second primary I shall devote to the performance of the duties of the office the same vigilant and careful attention as in the past. I solicit the votes of those who favored other candidates in the first primary in addition to those who gave me the preference. Help me in the second primary. I will appreciate it.

Cordially,
A. J. Hagan
27-1dw

DIVED FROM HIGH BANK;

IS INSTANTLY KILLED
Austin, Texas, July 23.—Will Knebel, a member of the University of Texas Basketball team of last year, was instantly killed in a dive from a high bank into a creek near Burnet. He struck a rock in shallow water and broke his neck.

John Teutsch is spending the week at Poe Lake fishing.

Suffered Intense Pain.

"A few years ago when visiting relatives in Michigan something I had eaten brought on an attack of cholera morbus" writes Mrs. Celesta McCicker, Macon, Mo. "I suffered intense pain and had to go to bed. I got a bottle of Chamberlain's Colic and Diarrhoea Remedy and one dose relieved the pain wonderfully. I took only two or three doses, but they did the work."

The remaining candidates for the coming primary election are getting to be real active fellows now. They are going to all parts of the county, each one trying to enlist popular sympathy with his or her cause.

There is nothing in the whole list of flesh-healing remedies that can approach Liquid Borozone in the rapidity with which it heals cuts, wounds, sores, burns or scalds. It is a marvelous discovery. Price, 30c, 60c and \$1.20. Sold by Stripling, Haselwood & Co.

Miss Iva Chapman, has returned from New Orleans, where she spent her vacation visiting Mrs. Victor Garber. She was accompanied home by Miss Daisey Dell Garber, who will visit relatives here for a few days.

There is more Catarrh in this section of the country than in other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, it is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send the circulars and testimonials.

ANGELINA COUNTY CENSUS FIGURES

An Associated Press dispatch to The News from Washington Saturday night gives the population of Angelina county as 21,407, an increase since 1910 of 3,702, or 20.9 percent. The census figures give Nacogdoches county a population of 28,457, an increase of 1,051, or 3.8 percent. Thus it will be seen that the percent of increase in Angelina is nearly seven times that of Nacogdoches, while nearly four times as many people were added to our population during the past ten years as were landed in Nacogdoches, all of which goes to show that the average man is discriminating and knows a real good county and a real live town when he sees it.

So far the census figures for the town of Nacogdoches have not been given out, and it may be that the enumerator at Washington has lost the records of that place.—Lufkin News.

LACK OF CO-OPERATION

Some time ago Nacogdoches was given the assurance by certain high officials that the Southern Pacific's policy was one of friendly co-operation with our people. This statement, coming direct from high sources, was received here with great satisfaction. But when our chamber of commerce made application for reduced rates for a special train to Dallas on August 3rd, we were told that the roads were not granting any reduced rates. Furthermore we were informed that a guarantee of \$687.50 would be required before the equipment for a special train would be assembled.

The regular T. & N. O. between Nacogdoches and Dallas does not average a return of \$687.50, nor anything approaching that figure. The added expense of operating a special is certainly nominal at best. The action of the Southern Pacific officials in this instance leads us to inquire where, when and how we are to expect their part of the promised co-operation. We are not attempting to tell the officials how to run their business, but if meeting the reasonable transportation requirements of the community is a part of their business, they have shown a lack of understanding in this particular instance at least.

IN CHEROKEE COUNTY

The count of the vote in Cherokee county indicated the following results: For District Judge—L. D. Guim, 2,837; E. B. Robb, 664. District Attorney—W. B. Bates, 1,983; F. P. Marshall, 1,570. I. D. Fairchild was elected state senator and Judge James I. Perkins as representative.

PUPILS GROW COTTON TO SWELL SCHOOL FUND

Corpus Christi, Texas, July 24.—Efforts to get all country school districts next year to follow the example of Clarkwood district this year and plant a cotton patch to supplement school funds will be made according to Nat Benton, superintendent of public instruction, who advocated this step this year.

Clarkwood district was the only one to respond, and it is estimated that its ten-acre patch, on ground donated and worked by volunteer labor, will yield fully ten bales of cotton which will bring approximately \$2,000.

The state law fixes a limit of 50¢ on the \$100 in taxation for school purposes and in some of the sparsely settled district the resultant fund is not adequate to support the school.

NEW PRESIDENT OF TEXAS FAIR ASSOCIATION

Dallas, Texas, July 24.—E. J. Kiest, publisher of the Dallas Times-Herald, has been elected president of the State Fair Association to succeed the late Colonel John N. Simpson.

The board of directors approved and accepted the prospectus for a new agricultural building, and it is expected to be completed in time for the 1921 fair.

POLAND SEEKS ARMISTICE

Warsaw, July 23.—Poland has sent armistice proposals direct to the soviet government at Moscow.

Outlook is Menacing.

London, July 23.—The Polish outlook appears increasingly menacing to commentators in the morning papers. Polish territory has already been invaded by the bolsheviks. The ministry is reported to have entrusted to the extreme radicals the task of making a better peace with the Russian reds. Emphasis is laid on the danger to the peace of all Europe if the German military party is able to communicate directly with the Russian government.

Asks Moral Support of U. S.

Washington, July 23.—Poland has asked the State Department to formally announce to the world "the moral support" of the United States to Poland in its battle with the Russian bolsheviks. The suggestion was also made that a similar expression from President Wilson would be welcome and would do much to stiffen the morale of the Polish people.

IRISH CONTINUE FIGHTING

Belfast, Ireland, July 23.—Shooting was resumed today between the Sinn Feiners and Unionists. Ten persons were killed in last night's hostilities.

HOW COBBLER FOOLED DEVIL

Good Story of the Discomfiture of the Enemy of Mankind Told in Old Chronicle.

The old story about the mounted moid in the parish of Whitchurch, England, called the Twmpath, is thus related by Capt. Harry Lewis in the "Archeologia Combrensis":

"Once upon a time the devil quarreled with the people of the Rhonda, and he determined to destroy them; so, he dug up a spadeful of English earth, and set out to dam the River Taff below Castell Coch. He walked till he reached the foot of Rhubina hill, which is about a mile from the castle, near the old smithy of Heven St. Jervis; and, feeling tired, and the day being hot, he sat down to rest. Looking up, he espied a cobbler coming down the hill with a sack on his back. The cobbler had been, as was then the custom, going round the countryside collecting shoes to be mended, and the sack was full of old shoes that needed soiling. 'Good day,' said the devil, 'how far is it to Castell Coch?' The cobbler was no fool, and recognizing at once with whom he had to deal, guessed that the devil was contemplating some mischief. So he opened his bag, and, displaying the old shoes with soles full of holes, answered that he had worn them all out walking from Castell Coch. The devil was too tired to pursue what he imagined must be a very long journey, and in disgust threw the spadeful of earth over the hedge; and, as the old man who told me the story said, 'there is the mound to prove the truth of the story.'

SOME FISH OF RECORD SIZE

Funny Monster Claimed to Have Been Taken Off New Jersey—Remarkable Devil Fish.

America claims to have caught the largest fish on record—an enormous ray harpooned off New Jersey, weighing four tons, and needing six oxen and 22 men to drag it ashore. The battle with the fish lasted nine hours, and it lashed up spray to a height of over 30 feet.

Allowance must be made for some exaggeration, but there are on record other cases where gigantic rays, or devil fish, have been harpooned.

One taken off Jamaica was so big that it took 40 men to drag it along the beach. Even rays caught in British waters are sometimes of great size, like one that was sold in the fish market at Cambridge. It weighed 224 pounds, and when cooked and served at St. John's college was sufficient to make a meal for 120 persons.

A ray 18 feet across and 50 feet round was trapped in Table bay, while off the Bahama islands the natives once harpooned a gigantic skate measuring something like 10 feet across the flappers.

Strange Draughts Boards.

Probably the most extraordinary draught board in the world was constructed at St. Leonard, England, in 1801. It was made of solid blocks of concrete, three feet thick, and its surface covered an area of 625 square feet. A draught board, which at one time belonged to Bismarck, is estimated to have cost more than \$30,000. The squares are made of solid gold and silver. This draught board was declared by experts to be the most valuable in existence. A set of draughtsmen, 12 of gold and 12 of silver, were presented to the prince. In the center of each golden draught was a beautiful ruby, while inlaid in the center of each silver one was a peerless diamond. A quaint old draught board is still to be seen hanging as a sign outside the Chequers Inn, Osterley. Its interest lies in the fact that neither the original painter of the sign, nor the landlord of the inn, was a draughts player. The board has 58 squares, whereas a real draught board contains 64.

The Susceptible Cow.

Two Chicago children were visiting their grandparents on a farm northeast of Muncie. It was their first experience of the kind, and they were interested in everything they saw. The milking operation was especially absorbing. Hitherto their only knowledge of the origin of milk was that it came in bottles from the grocer's.

Discussing the milking a little later with his sister, Arthur, who is seven, concluded: "But I ain't got much respect. Helen, for that cow that's as easy flattered as grandpa's cows are. Grandpa calls 'em 'Boss,' when they ain't boss at all, and that seems to tickle 'em so they give up all their milk, when if they had any sense they'd keep it for their own use."—Indianapolis News.

Peddlers of Parrots.

Novel to the eye of a stranger visiting Argentina is the parrot peddler, often seen on the streets of the towns, who carries his feathered stock-in-trade in cages, or sometimes perched on his head and shoulders.

That country, of course, is too far south to have native parrots, and most of the birds are imported from Brazil. Argentina means "silvery," or "Land of Silver." Its principal river, and one of the greatest in the world, is called the River of Silver, "plata," being another word for the same metal. The names thus bestowed owe their origin to the fact that early explorers along the Rio de la Plata found much silver in use by the aborigines for personal ornament.—Public Ledger, Philadelphia.

HOME OF DEALY SCORPION

Region in Mexico That is Avoided by Travelers for a Most Excellent Reason.

Revolutionary bands and brigands may ride up and down Mexico, but there is one strip of territory that even the hardiest and most daring of them will not brave. It is a desert country that extends from a point near the city of Durango to the borders of the state of Zacatecas, about seventy-five miles long by fifty miles wide. It is asserted that myriads of scorpions infest this region and are the most deadly of the species.

In the city of Durango, although regarded as outside of the more deadly zone, the death rate, due to scorpion stings, is high. This is especially true as to children. The alachrane, as the insect is commonly called, is regarded as such a deadly pest that for many years the municipal government has paid a bounty of one centavo, equivalent to about one-half cent of American money, for each one killed and delivered to the official custodian of dead scorpions. Something like 100,000 of the scorpions are killed and bounty paid for them annually.

Killing scorpions is a regular industry with many men, women and children of Durango. One is told that some of the natives even go so far as to establish regular colonies of the poisonous insects in their homes for the purpose of breeding them for the market.

GERMS FUTURE WAR WEAPONS

Scientist Draws Dark Picture of Savagery That Will Be Part of Next Conflict.

Mobilization of the mosquito, the house-fly, the louse and various other disease-carrying pests for the dissemination of deadly germs in enemy territory is a possibility of "the next war" pictured by Prof. Maxwell Lefroy, a London scientist.

"I foresee the mosquito from Brazil starting yellow fever in new lands, the house-fly, duly infested with cholera, dysentery or enteric and the typhus-laden louse doing their deadly work much more effectively than spies poisoning wells," said Professor Lefroy in a recent address.

"This would be part of the work of a war office of entomologists—the working out of strategic plans for the distribution of these pests by airplane. It seems that the world is intent upon furnishing an airplane service for these pests, many of which are now held somewhat in check by natural enemies in their native climes. This will give them just the means of transit they have required. It will be a peace-time danger as well as one that could be used very effectively in war. The danger from these 'winged battalions of death' is more serious than one dare estimate."

Airplane Has Its Limits.

The officials of the United States department of agriculture have been in receipt of many suggestions relative to extinguishing forest fires with the use of gas bombs dropped from airplanes that it has been found necessary to issue a statement for the purpose of explaining that the scheme is not feasible. For the purpose of overcoming a detachment of men, a mixture of one part of virulent poison to 1,000,000 of air would be entirely sufficient to accomplish the purpose, but one of 750 parts to the thousand would not be powerful enough to quench a conflagration. Another thing to be taken into consideration is the difficulty of dropping the bombs with the necessary precision. The art of striking a target with any degree of accuracy has not been developed at this time, and there is no prospect that it will be sufficiently perfected to the point of becoming available for the purpose of fighting fires.

To Destroy Grasshoppers.

Poisoned bran bait is a simple, reliable and cheap method of destroying grasshoppers. The formula is: Wheat bran, 25 pounds; Paris green, one pound, or white arsenic, one pound; lemons or oranges, six finely chopped fruits; low-grade molasses, two quarts. The mixture is scattered over the fields. Beneficial results have been obtained from the poison, but in whatever process is followed, communication must unite, for if one farm is rid of the insects, a new invasion will come in from the adjoining farm. An interesting incident of all poison baits is that lemon juice is added, thus it seems that it is necessary to hand the hopper a lemon in order to get rid of him.

Europe Takes to Chewing Gum.

The jaws of Europe are wagging on American chewing gum. Efforts were made at different times to popularize chewing gum in the countries of Europe, but always without success until the American soldiers took some over there, after which the gum-chewing habit became a veritable craze. Chewing gum to the value of \$2,164,200 was exported to the United States during the year 1919, and England was the heaviest purchaser. During the war chewing gum became very popular in the munitions factories of England, where it took the place of tobacco, smoking being barred.

Probably So.

"Everything has been said, even on the subject of loss."
 "On that subject, however, the girl interested is apt to find the beginner quite as convincing as Shakespeare."—Louisville Courier-Journal.

"IN GOOD AND BAD YEARS WE STAND BY OUR CUSTOMERS. ARE YOU ONE OF THEM?"

MICHIGAN FARMERS SEARCH FOR GIRL'S MURDERER

Pottersville, Mich., July 23.—Leaders of a band of 300 farmers, searching the countryside for an unidentified man who attacked yesterday and killed Beatrice Hitcox, aged 13 years, on a farm near here, declared they had the fugitive surrounded in a swamp. The farmers are all armed and are reinforced by the state police. The girl was killed early Thursday while carrying water to the fields for her brother. It is thought that the fugitive is an escaped convict.

To the voters of Nacogdoches County:

I want to thank you for the splendid support given me in the first primary. The contest rests between Mr. Melton and myself in the second primary and I want to solicit the continued support of my friends in the second primary and solicit the support of my opponent's friends who are not now in the race. Assuring you that I shall never forget any kindness or interest shown me, I am,
 Gratefully
 D. W. (Darwin) Buchanan.

County court opened Monday morning with all the jurymen present. Some important cases are to be handled, it is understood.

MINERS AT IT AGAN

Bellefonte, Ill., July 23.—Coal mines throughout Southern Illinois face the situation of being forced to shut down on account of an unauthorized strike of day laborers started Wednesday and reported steadily spreading. About 20,000 men are idle, according to the strikers.

Tie-Up Seems Complete

Springfield, Ill., July 23.—Only four coal mines in the entire Central and Southern Illinois coal fields are working. It is said the strike will be 100 percent by tomorrow.

Dr. Grady Hardy of Cushing was a visitor in the city the first part of the week.

Mrs. Ernest Farmer and little daughter of Richmond who have been guests in Mayor Middlebrook's home, have returned to their home, accompanied by Miss Ruth Middlebrook.

Mr. and Mrs. Joe Langston have returned to their home in Louisiana. Some friends took them to San Augustine, where they caught a through train.

J. C. Harris was a visitor in San Augustine Monday.
