## BUBBLE BOOKS "that Sing"

By Ralph Mayhew and Burges Johnson

Pictures by Rhoda Chase. Published by Harper & Brothers.

When you were little and Fairy Stories and Mother Goose were real to you, wouldn't it have been wonderful to have heard them on the phonograph? That was impossible then.

But the 20th Century child can have the stories read to him (or read them himself); look at the wonderful pictures and then hear sung on the phonograph—Little Bo-Peep, Puss and the Cat, Miss Jennie Jones, and all the old favorites.

Each Bubble Book is complete in itself. A beautifully illustrated story charmingly told; verses, rhymes and three real phonograph records are in each one.

Children will remain quiet and happy for hours with Bubble Books. You will love them too. Nine different ones are now ready. \$1.50 each. Call at our store today and make your selections.

Swift Bros. & Smith, Inc.

### SEARCH FOR MISS MISS SMITH ABANDONED

El Paso, Texas, Dec. 8.—The sixteen day search for Clara Barton Smith, who is wanted in connection with the death of Jake Hamon at Ardmore, Okla., ended last night so far as the local officers are concerned. They said Miss Smith was almost within their grasp at Juarez. Sheriff Orndorff learned the location of Miss Smith through a confidential telegram and declares the informants wanted reward for disclosing the hiding place. The sheriff construed the answer to his telegram to Sheriff Garrett at Ardmore to mean that Miss Smith was not wanted and there was no reward for her. He declared last night that he would not continue in the case. Juarez police last night searched every hotel and rooming house in the city without results. They declare Miss Smith had vanished, probably going to some interior point.

### WORRIED OVER JUBILITY

Ardmore, Okla., Dec. 6.—Mrs. Jake Hamon, wife of the late republican national committeeman, expressed worry over the publicity given developments since the death of Mr. Hamon, especially the publication of the alleged diary of Miss Clara Smith, which she characterizes as vicious, appealing to the baser instincts of young women.

Russell Brown, county attorney, said he telegraphed the chief of police at Kansas City to regain possession of the alleged diary, supposed to have been part of the contents of the trunk of Miss Smith opened there.

Sheriff Buck Garrett, who had been requested to obtain the clothing Hamon wore when he was shot and the pistol with which the wound was inflicted, is absent from Ardmore today. The articles could not be obtained from Frank Ketch, who returned to Ardmore from the West Texas oil fields yesterday. Ketch said he made purely a business trip, and planned to go to Fort Worth today on another business trip with Jake Hamon, Jr.

### LAW PROHIBITING SUNDAY SHOWS UPHELD

Austin, Dec. 8.—Sunday moving picture shows and Sunday baseball games where admissions are charged are illegal in Texas, was held in effect today by the Texas Court of Criminal Appeals. A majority of the court affirmed the judgment of the lower court under which J. J. Heigman was fined \$20 in Austin for operating a motion picture show on Sunday. Presiding Judge Davidson dissenting in the opinion declared that nature pictures, as shown by Heigman should not permit being classed "amusement."

### SNUBBING THE KAISER

Doorn, Holland, Dec. 6.—The burgemeister of Doorn has set an example for the village by having as little as possible to do with the former German Emperor Wilhelm. Unlike Amerongen, where both the burgomeister and town secretary were quite proud to be guests at Wilhelm's table, the village authorities here have taken the attitude that it would be better for all concerned if they did not visit the house of Doorn.

The same can also be said now of the burgemeister of Wieringen and the former Crown Prince Frederick. The former burgemeister there, J. Pereboom, was an intimate friend of Frederick, but his successor, Herr Slot, is said to consider the Crown Prince's presence there as somewhat of a nuisance.

### DODGING POSSIBLE VETO

Washington, Dec. 6.—A subcommittee to determine whether the resolution directing the revival of the War Finance Corporation would be a joint or concurrent one was appointed today by the joint congressional committee holding hearings on the agricultural situation. A concurrent resolution would not require the approval of President Wilson.

### RANGERS JAILED AT RANGER

Austin, Texas, Dec. 7.—A full company of Texas Rangers was ordered to Ranger, Texas, Monday to assist Rangers there. This action followed the receipt by the attorney general of a telegram which stated that Rangers Garzalutus and Koonzmann are confined in jail at Ranger, "where the citizens and Rangers are unfriendly," following the wounding of a man in a raid participated in by the Rangers with a deputy sheriff. The telegram, which was signed by Ranger R. W. Aldridge, requested that an assistant attorney general be sent to Ranger. A message to the adjutant general's department requested that more Rangers be sent as reinforcements.

### COTTON MANUFACTURERS MAKE BIG DIVIDENDS

Manchester, Eng., Dec. 4.—The cotton spinning companies of Lancashire are paying dividends far too large, says W. Hopwood, chairman of the board of directors of a large number of those concerns. He declares that 10 percent is an adequate return on capital invested in the industry.

An analysis of the dividend declarations made by the 23 cotton spinning companies in Lancashire in the past three months shows that the average rate of dividend paid by these concerns was 26 percent, and the rates varied from 10 to 600 percent. Not one of the 236 companies failed to secure a dividend.

### WAR IN ITALY

Triest, Dec. 3.—A state of war between the kingdom of Italy and the "Regency of Juarnero," at Fiume began at midnight, but up to a few minutes before that time there was no visible evidence that actual violence impended. The only indication of trouble were the pronouncements of D'Annunzio against General Caglia's regular Italian troops surrounding the city.

### CONTINUE INVESTIGATION

Washington, Dec. 3.—The senate committee headed by Senator Kenyon of Iowa, which has been conducting an inquiry since last May, will ask authority to continue the investigation of campaign expenses.

### HARDING BUSY MAKING FUTURE PLANS

Marion, Ohio, Dec. 8.—With his return to Marion today from his vacation trip to the tropics, President-elect Harding is ready to begin actual constructive work on the policies of his administration. He has felt out the opinion of many on various subjects in Washington during the last few days and has let it be known that he is well pleased with results. He told friends that he believed his party government and common understanding has been furthered by talks with republican leaders in congress and his canvass of sentiment regarding the association of nations had been particularly encouraging. The work done in Washington was purely preliminary, however, and at least some senators, with whom he had discussed foreign affairs would come to Marion later and take part in league of nation conference to begin early next week. Meantime, consultations about the selection of his cabinet continues. It is not probable that a final list of his appointments will be completed much before inauguration day.

### MAY BE ILLEGAL TO BUILD FIRES IN CITIES

Philadelphia, Dec. 8.—Dr. Charles A. Steinmetz, electrical "wizard of Schenectady," believes it will be illegal to build a fire in the limits of the cities of the future which will be smokeless and dustless. He made this prediction at a dinner of the Bala-Cynwyd Neighborhood Club in this city. He painted a word picture of the present day city in the throes of an "electricity strike" and showed how a city depends on electricity for manufacturing and transportation.

"But," said Dr. Steinmetz, "although we are absolutely dependent on electricity today we have only begun to use it. In the city, present methods of manufacture will be replaced with electrical methods. The present city with its dust and smoke will be unknown. It will be against the law to have a fire in the city limits. Life then will be worth living in the cities."

### SALE OF CHRISTMAS SEALS

Austin, Texas, Dec. 8.—The 1920 Christmas Seal Sale, which began December 1 in Texas, continues to show gratifying response, according to a statement made today by W. I. Bracy, state Christmas Seal sale director of the Texas Public Health Association, who estimates that over \$100,000 worth of seals have been sold up to the present time.

"No accurate tabulation can be made at the present time," said the director; "but from scattered reports from over the state I believe the sale has passed the \$100,000 mark. The small cities and communities into which seals have been mailed has responded wonderfully and thousands of dollars have been raised in unorganized counties to help carry on the fight against tuberculosis.

"Banks of Texas seem to be the largest purchasers of Christmas Seals. Reports from all parts of the state show that the majority of the banks have purchased at least \$10 worth of seals, and some of them have many times that amount."

According to the Texas Public Health Association, the first county to "go over the top" in the seal sale was Deaf Smith county which reached the assigned quota the first day of the sale with Mrs. John Potts of Hereford, as county chairman. This county asked for more seals to sell.

The intensive sale of Christmas seals will last until December 10th; but will be kept on sale all over the state in booths, stores, and shops until the holidays. Of all money raised in the sale of the little seals of health, 95 percent will remain in Texas for health work. Should the seal sale be successful, as indicated by early reports, \$190,000 will be available to the Texas Public Health Association and its many local affiliations to carry on extensive anti-tuberculosis work in 1921.

### MESSAGE RECEIVED

Washington, December 7.—Sitting in separate session, the house and senate received the president's message today. The house adjourned immediately. The senate continued in session a short time afterwards.

### CONSTANTINE'S RETURN LEFT TO HIM

Athens, December 8.—Plans to have Constantine return to Greece this week are apparently abandoned. The government's decision is apparently to continue "wait and see" policy with tendency to leave the decision relative to the return to the throne with Constantine.

### KING CONSTANTINE ASKED TO ABDICATE

Paris, Dec. 8.—The Greek government addressed a note to former King Constantine asking him that he abdicate immediately in favor of the crown prince, says dispatches from Athens today.

### 50 PERCENT REDUCTION ADVOCATED AT MEMPHIS

Memphis, Tenn., Dec. 7.—Measures to make effective a 50 percent reduction in cotton acreage and a similar increase in acreage devoted to food production and livestock raising are under consideration at a meeting here today of representatives of banking, commercial and farming interests of all the Southern states. The leaders in the movement declare that action will be taken at the meeting to insure a cut of at least one half in the cotton acreage next year, which they declare imperative as a means of stabilizing the market and restoring the price of the staple to a figure to give the farmer a reasonable return for his 1921 crop.

### ROSS SEES RED

San Antonio, Texas, Dec. 7.—P. M. Ross, a local newspaper man who last night sent out dispatches from here saying that he had conversed near San Antonio with Miss Clara Smith, sought in connection with the fatal shooting of Jake Hamon and that she gave him a statement admitting that she shot Hamon, was taken into custody by the police early today, questioned for an hour and released. Ross was detained at the request of Russell Brown, county attorney at Ardmore, who asked that the story be investigated and Ross be held as a material witness if necessary. The newspaper man was quizzed closely. Captain James Duncan of the police department said at the conclusion of the conference that he was inclined to doubt the newspaper man's story.

### NATIONAL BUREAU MEETING

Indianapolis, Ind., Dec. 2.—E. T. Meredith, secretary of the Department of Agriculture; Sir Auckland Geddes, British Ambassador; Herbert Hoover, former food administrator, and Governor Harding of the Federal Reserve Board, are among the speakers on the program for the national convention of the American Farm Bureau Federation, which meets in this city December 6, 7, and 8th.

The central idea of the convention, according to the announcement of the Indiana Federation of Farmers' Associations, will be the formation of a national agricultural policy, and the addresses are expected to be directed toward that end.

Among the principal problems that are scheduled to be considered are the tariff, transportation, taxation, labor, credits and financing, marketing, collective bargaining, land tenancy, the merchant marine, foreign trade and national legislation.

Farm women as well as men will have a part in the program, their meetings being under the direction of Mrs. J. C. Ketcham of Michigan.

### DECEMBER 15 IS LIMIT OF INCOME TAX PAYMENT

Washington, Dec. 4.—December 15 is the last for the payment of the fourth installment of the income and excess profits taxes due this year. To avoid penalty, the tax must be in the offices of the collectors of internal revenue or branch offices by midnight on that date.

Inquiries reaching the bureau indicate a belief that taxpayers have ten days grace on the installment. Such a provision was contained in the 1917 revenue act, but was removed by the revenue act of 1918.

Bills will be sent to the taxpayers, but failure to receive a bill does not relieve the taxpayer of his obligation to pay on time.

### THE PRESIDENT'S VALEDICTORY

The President's last annual message might have been made a historic document, had he chosen to make it so, since it was his opportunity for a review of an administration that must of necessity stand out in history as one of epochal consequence.

Whether the state of his health restrained him from so large a task, or he deemed it better to treat achievements of his presidential tenure in the freer atmosphere and latitude which he is soon to enjoy as a historian is a matter of conjecture.

Possibly it might have occurred to him that the political confusion and strife which have so lately wracked the nation rendered it inadvisable to present to congress matter which might provoke controversy at a time when controversy would be fruitless to good results.

At any rate, the president has penned a valedictory that is strikingly silent upon outstanding events of the most remarkable four years in the history of the government, excluding the quadrennium which ended with the life of Lincoln.

He mentions but few subjects of legislation, such as revision of taxes, the budget system, a loan to Armenia, Philippine independence, provision for disabled soldiers and sailors of the World War, cold storage regulation and economy in expenditures. These are alluded to only in general terms, as if he thought that the hostile congress might, if not burdened with too much executive direction, dispose of them in the remaining weeks of his administration.

All of these recommendations are wise and their prompt adoption is highly desirable, but none of them nor all of them impart to the message that quality and tone which have made the president's state papers of other years distinctive.

The omission of so much that the congress and the nation naturally expected in the president's final message that he deems the time imprudent and least interesting probably of all his annual messages, and indicates that he deems the time imprudent for a defense of his administration.

If such be the explanation of his exceedingly brief and formal communication to congress, there will be

none to challenge the wisdom of his course, for after all the president's certain appeal must be made to impartial history and not to a congressional majority manifestly embittered toward him personally and politically.

The word has gone forth that the president will in good time give to the world a history of the wartime period of his administration, including his part in writing the Treaty of Versailles. That it will be read with absorbing interest by all mankind there can be no doubt. The message, which fails to allude to the war administration and the problems growing out of it will attract but little attention except for what he omits.—Houston Post.

### CALL FOR TRUCK GROWERS MEETING

All farmers interested in growing and shipping truck from Nacogdoches next season are called to meet at the Farm Bureau office at Nacogdoches, at 1 p. m. Friday, December 10. At this meeting we will undertake to arrange for growing and shipping toatoes, watermelons, cantaloupes, potatoes, etc.

Diversified farming is safe farming. Let us do safe farming in 1921. Call this to the attention of your neighbors and friends. Bring them with you. Come prepared to sign up for the acreage you plan to plant the next season in cotton.

Nacogdoches County Farm Bureau.  
By H. L. McKnight.

### AID UNIVERSITY GIRLS

Austin, Texas, Dec. 4.—A business bureau for girls has been established at the University of Texas by the university chapter of Phi Sigma Chi, honorary business fraternity for women. This bureau will maintain a file giving names, qualifications, kind of work desired, etc., for all university girls who are available for stenographic and clerical work. This is intended as an aid to local business houses, university faculty members and students who may desire stenographic work done, as well as for the students desiring such work. The bureau is under the general supervision of Miss Florence Stulkin, an instructor in business administration and member of the business fraternity.

### CONSTANTINE WINS

Athens, Dec. 6.—Returns from the plebiscite held throughout Greece yesterday to decide whether the Greek people should recall former King Constantine to the throne made vacant by the death of his son, King Alexander, appear to indicate an overwhelming majority in favor of King Constantine. All arrangements have been made for the return of King Constantine from Switzerland.

### HOW PROPAGANDISTS WORK

Amsterdam, Dec. 7.—Bolshevik propaganda experts, anxious to avoid discovery of the propaganda matter they are taking to America, are said to have resorted to the old war time dodge of having the matter printed in microscopic form, capable of being enlarged photographically.

One man, who was caught in Central Europe, had in his possession a number of queer looking postage stamps upon which were printed Soviet propaganda matter. The authorities were able to enlarge this to ordinary size.

The propaganda university which has been established at Moscow is reported to be now devoting extraordinary care to literature intended for two particular classes—women and farmers.

The women are urged to join the International Women's Communist Associations, of which branches are to be established in America, and the latter are urged to form farmers' communes with the ultimate purpose of creating "Farmers' Red Guards."

### OHIO HAS MOST AUTOS

Columbus, Ohio, Dec. 6.—Ohio has more autos than any other state, according to a record of automobile licenses issued in 1920, just made public by Alexander G. Snow, state registrar of automobiles.

New York ranks second in the number of automobile licenses issued, while Illinois and Pennsylvania are running a close race for third place, Mr. Snow said. California, he said, will rank among the first six states. This is the first year, Mr. Snow said, that Ohio has outranked New York.

## WEEKLY SENTINEL

PRICE \$1.50 PER YEAR.

BY GILES M. HALTOM

### WHAT WE HAVE SEEN IN SCIENCE

The birthdays of time are reckoned in aeons, of nations by periods or centuries; of men by years; but of achievement by generations. Never has a generation of 33 years seen the accomplishment of more marvels than this in which we are living. We women should realize that we are privileged beyond the woman of all time in being alive during this stage of world advancement.

The automobile with its speed and efficiency have superseded the horse for general transportation, and has revolutionized rural conditions. Mighty railroad engines and luxurious passenger trains thread remote sections and make us near neighbors to great cities. Few women need be backward women today.

In cities horse cars have been supplanted by electric power or underground transportation. Airplanes have mounted 30,000 feet and crossed the Atlantic. Approximately 50,000 airplanes were used in the World War and many are now being utilized for mail, passenger and express air service. What will this mean to isolated sections of the world, the next ten years will tell.

In health, the X-ray has united with the extermination of pests in lengthening the span of life.

In another realm the telephone, telegraph and wireless have connected friend with neighbor, and removed the feeling of isolation. The talking machine has brought the voices of great singers, the music of famous bands and the lectures of fluent speakers into our very homes. In the motion picture are a thousand possibilities for rural pleasure and education.

In our farm homes the furnace is succeeding the fireplace; the washing machine, the heavy pot and tub; the bathtub and shower, the old Saturday night washtub on the kitchen floor; and electricity and gasoline are finding their own for pumping water into all parts of the house, turning the churn and sewing machine, lighting home and barns, heating the iron and performing a dozen other services.—The Progressive Farmer.

### EVERY BOY'S CHANCES

There are 12 future presidents of the United States now living.

When President Wilson was born Franklin Pierce was president. Anybody who will count will find that his life covers the period of 15 presidents, including himself and his successor.

A child born this year and living to be 63 years old stands a chance of being one of the 15 presidents. In round numbers there are at least 10 or 12 boys, and perhaps girls, for nobody knows what will happen in the coming years, now living who will be presidents.

Twelve out of 110 million is a big percentage. But nobody knows who will be the 12, nor from what humble home they will come. The two men who are up today would not have been picked at birth for future presidents.

The old saying, "Some day you will be president," has started many a boy off with a courageous heart to tackle life seriously.

The strange thing is, and a review of any period of our history proves it, any boy may reasonably aspire to be president.—Des Moines Tribune.

### THE BOSS

Do you ever have the notion that the boss is your enemy; that he has it in for you, and lies awake at night thinking up new ways to be disagreeable?

If you have that notion it may be true, about one time out of a thousand. The other 999 times the boss is your best friend, if you give him a chance.

The average foreman or superintendent is really a pretty good sort of fellow, not far different from the average coal digger or steel worker. He has a harder job than the workman, because he has the responsibility of control and he is blamed not only for his own mistakes, but for those of the men under his direction. Under modern plans of industrial relations, the foreman is not merely a taskmaster. He must be a genuine leader of men, a leader, not a driver. He must qualify to teach the job to the men under him, to judge their capacity, and to inspire them to follow. His example in efficiency, loyalty and Americanism. A man who has these qualifications is not likely to be small-souled enough to carry a grudge against a workman, or to look upon the boss as

an enemy, suppose you try treating him as a friend, and see if he is not really interested in your welfare and success.

Let's give the boss a chance.—Commercial Review.

### FAIR PLAY NEEDED

The ranchmen of Texas are allowing cowhides to rot on the ranges and are refusing to skin carcasses because the price of hides is too low to pay for the trouble, according to A. L. McFaddin of Victoria, pioneer cattleman of South Texas, who addressed a recent meeting of the Southern Tariff Association.

"The price of cowhides has dropped from forty-eight to four cents a pound," according to Mr. McFaddin, who stated that he did not intend to purchase any more cattle until the American cattle raiser was given an equal chance with Australia, Argentina and other foreign cattle countries which are allowed to come in free competition with our products.

"The price of hides is lower than in any other time of history," Mr. McFaddin stated. "And yet the farmer is called upon to pay thirteen dollars for a pair of shoes. The farmer is one of the heaviest losers under the present system. The drop in cottonseed prices from \$84 to \$24 a ton is evidence of the havoc the present system is playing with him. The only solution is to take the tariff out of politics and adopt a stable tariff policy and stick to it."

### A WOOD STORY

Fire wood is reported to be selling for about seven dollars a cord in Nacogdoches; the Lufkin price is not known, but possibly fully as much as this. Far be it from the News to say that this is too much, but surely it is no crime to imagine that it is. Here in as heavily timbered a country as East Texas is, common, ordinary fire wood for the home bringing seven dollars per cord, sounds just a little bit "high." It may be, however, that the farmer is put to more trouble in loading his wagon with wood when he starts to town than formerly, and if he hires his wood cut, no doubt he is forced to pay more wages than formerly, but prevailing prices are not to be compared with the selling prices of wood just a few short years ago, when same could be bought for \$1.50 per cord.

While on the wood subject, possibly a little local story will not be out of place. Last week, when the Angelina county district court was idle, District Attorney O'Quinn, who lives in the northern outskirts of the city, refrained from lounging around the busy town, but put in two or three days getting a winter's supply of wood, being assisted by another "hand," he making a good one himself, as was shown by his hands. This wood for the winter months cost him but little, compared with present market prices, and possibly he is more physically fit after such strenuous exercise. Now, when he hovers about his own fireside, when the wintry winds are blowing, he will no doubt recognize many of the back logs heaped into the open grate, and will recall just what trouble he underwent in preparing them for the fire, enjoying solid comfort from them, however, as the crackling flames shed their warmth in the living room. Who else has been fortunate enough to arrange for their winter's wood?—Lufkin News.

### TEX-MEX FRIENDLINESS

The Mexicans seem to have left nothing undone that could testify their appreciation of the visit of Governor Hobby, Governor-elect Nesser, and a number of other Texans of lesser fame, on the occasion of President Obregon's inauguration. They seem to have made it one of their chief endeavors to shower compliments and distinction on their guests from Texas. That these exchanges of social courtesies will be productive of good there can be no doubt. Friendliness simplifies the most complex problems and the fact that cordial relations seem to have been established between the authorities of Mexico and those of Texas is something of a guaranty that we shall not suffer repetition of those acerbities and quarrels which were so frequent during the administration of the late General Carranza. Of course conditions are much more favorable now for the cultivation of genuine friendly relations. President Obregon seems highly responsive to such overtures, whereas General Carranza was impervious to them, made so perhaps by an invincible prejudice to the "Gringos." But, whatever the causes, the fact that the two peoples have, figuratively speaking, clasped hands is a happy augury for both Mexicans and Texans.—Dallas News.

### \$200,000 AIR SERVICE EQUIPMENT TO A. & M.

Only Institution in the South to Receive Air Service Unit.

College Station, Texas, Dec. 3.—Major Clinton Russell recently commanding officer at Barron Field, Fort Worth, who has been assigned to the A. & M. College of Texas to head the Air Service Unit of the Reserve Officers Training Corps, is expected to arrive here in a few days to begin the work of establishing the unit at this college.

Major Russell will be assistant professor of military science and tactics under Major L. R. Dougherty and for the present will be the only officer in the Air Service Unit. However, as soon as the equipment has been ordered and received at least one other regular army officer and two noncommissioned officers will be detailed here to assist him in the work of giving instruction in flying.

A. & M. of Texas is the only school in the South to receive the Air Service Unit of the R. O. T. C. by recent order of the War Department and so there are only four others in the United States so distinguished, these being the Massachusetts Institute of Technology, University of Illinois, University of California and University of Washington, the four largest schools in the whole country. The fact that A. & M. is one of the group of prominent institutions picked to give instruction in aeronautics is very gratifying to the authorities here. President Bizzell considers it as the most fitting recognition that could be paid to A. & M. by the War Department, and as an example of the importance it has among other higher institutions of learning with the War Department.

This makes five units of the R. O. T. C. for this college, which is the largest number in the United States.

Dr. Bizzell states that the instruction will be restricted to ground training and the summer camps will give the instruction in flying. The addition of this unit will increase the military equipment of the college by approximately \$200,000. Just what this equipment will consist of will be known as soon as Major Russell arrives and makes his requisition from the War Department.

### NACOGDOCHES OIL NEWS

Shreveport, Dallas, Fort Worth, Wichita Falls, Ranger, Tulsa, and in many cases New York, Chicago, San Francisco and Philadelphia, are well represented in Nacogdoches, oilmen from these places being here to buy up acreage in the big shallow oil field. Drilling in the field continues, and every day records the bringing in of new apparatus with which to begin new wells. A prominent oilman here a few days ago visiting the fields, declared that "the oil fields of Nacogdoches county are absolutely the best for the small investor in Texas." In the county the element of risk is entirely taken out; you always get oil, and you get it at such depth. It is reported that A. C. Smith is on the verge of finding some interesting oil facts in one of the wells he is drilling, a full report being available a few days later. His drilling is being watched with great interest here. Smith is the oldest oilman in Nacogdoches county.

Fort Worth, Texas, Dec. 6.—Texas mine owners and union miners began a series of conferences here this morning to adjust working conditions. No wage differences or serious disagreements exist.

## "SWAMP CHILL TONIC SELLS THE BEST"

Bearden, Ark., Druggist Knows What's Good for Customers

When dealers everywhere report that SWAMP Chill Tonic is their best seller, it's mighty good proof that this well-known remedy is becoming more and more the favorite every day.

Thousands of folks everywhere swear by SWAMP Chill Tonic, because they have found from experience that it brings safe, certain and permanent relief. Relief not only from fever, chills, and ague, but from colds, grippe, influenza, etc.

Here's some good, straight health advice: Go to your dealer today and get a bottle of SWAMP Chill Tonic whether there's any sickness in your home or not. Then you'll be well prepared against the emergencies of winter.

Physicians prescribe SWAMP Chill Tonic. Price 60c a bottle. D-429

# Yes Sir-ee!

We made this cigarette to meet your taste!

# Camel

## CIGARETTES

CAMELS have wonderful full-bodied mellowness and a flavor as refreshing as it is new.

Camels quality and Camels expert blend of choice Turkish and choice Domestic tobaccos win you on merits. Camels blend never tires your taste. And, Camels leave no unpleasant cigarette aftertaste nor unpleasant cigarette odor!

What Camels quality and expert blend can mean to your satisfaction you should find out at once! It will prove our say-so when you compare Camels with any cigarette in the world at any price!

Camels are sold everywhere in scientifically sealed packages of 30 cigarettes for 20 cents; or ten packages (300 cigarettes) in a dissolving-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

Winston-Salem, N. C.

### WHEREIN FARMERS NEED AID

Harrisburg, Pa., Dec. 3.—The thousands of "little men" are farmers who need aid, Governor Parker of Louisiana declared in an address today before the National Conference of Governors in session here. Many of the small farmers, he said, never have had the opportunity to learn what real co-operative work means to them and many are not newspaper readers and have no knowledge of the improved methods of handling and shipping their products.

"They are anxious and willing to remain on the farm," the Louisiana governor said, "because it is all they know, but if unable to make a living for themselves and their children, they will follow the current and drift to the cities."

Farmers, Governor Parker asserted, have been "stuffed so full of theory and expert book knowledge which have failed to work out practically, that many of them are disgusted and disheartened." He defined their need as "common sense assistance."

More economical and improved methods of marketing was urged by Governor Parker. A careful study has been made of the markets of the country, he asserted, and a determined effort made to see that perishables especially and promptly transported and congestion obviated as much as possible.

"In the great central markets," he said, "the government should have at least two experts who should work in co-operation with a committee from the board of trade to see that there is no loss or useless waste from perishables."

Governor Parker told the conference that the farmers could not be expected to possess expert knowledge of business and transportation and that the government in conjunction with the states should establish a thoroughly practical system to stabilize prices for agricultural products.

### CURE FOR BOLSHEVISM

"The real preventive for Bolshevism is the ownership of homes," states Senator Wm. S. Kenyon of Iowa, a member of the senate committee on reconstruction and production, on his return to Washington from the tour of investigation made by the committee.

Two million additional homes are needed, and Senator Kenyon predicts the establishment of a federal loan bank system to facilitate home ownership. He believes that the federal government should co-operate with the states in working out programs for the building of homes, as has been done in France and Great Britain.

Washington, Dec. 6.—The government today won its anti-trust suit against the Lehigh Railroad Company and affiliated corporations.

### WOODLAN-WATKINS

Saturday evening at 7 o'clock at the home of Rev. Mr. Clemens, Mr. Willie Woodlan and Miss Lini Watkins, two well known young people of this city, were happily married, only a few close friends being present to witness the ceremony.

After the ceremony, the two young people took the train to Houston, where they are spending their honeymoon.

Mr. Woodlan is the son of Mr. and Mrs. G. W. L. Woodlan of this city and is well known here as a young man of high ideals and lofty purposes. He is employed with the Wm. G. Reid Bottling Works. Miss Watkins is the daughter of Mrs. Merritt Watkins, who lives west of the city. Miss Watkins is well known in Nacogdoches, although she has only been here about one year.

The happy young couple will return Tuesday to Nacogdoches, where they will make their home with Mr. and Mrs. G. W. L. Woodlan.

The Sentinel joins their many other good friends in hearty good wishes for their future.

### SEEK ADVANCED RATES

Austin, Texas, Dec. 2.—The American Railway Express Company has notified the Texas Railroad Commission that it had applied to the Interstate Commerce Commission for an order to put into effect them 13.5 percent increase intrastate rates which the Texas commission refused. The increase would make the intrastate rates correspond to the interstate rates the Interstate Commerce Commission has granted.

## DISCARDED AS DANGEROUS

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

### Take "Dodson's Liver Tone" Instead!

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it will salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

# Colds & Headache

"For years we have used Black-Draught in our family, and I have never found any medicine that could take its place," writes Mr. H. A. Stacy, of Bradyville, Tenn. Mr. Stacy, who is a Rutherford County farmer, recommends Black-Draught as a medicine that should be kept in every household for use in the prompt treatment of many little ills to prevent them from developing into serious troubles.

## THEDFORD'S BLACK-DRAUGHT

"It touches the liver and does the work," Mr. Stacy declared. "It is one of the best medicines I ever saw for a cold and headache. I don't know what we would do in our family if it wasn't for Black-Draught. It has saved us many dollars . . . I don't see how any family can hardly go without it. I know it is a reliable and splendid medicine to keep in the house. I recommend Black-Draught highly and am never without it."

At all druggists.

Accept No Imitations

### DISCOUNT "ACCIDENT" THEORY

Ardmore, Okla., Dec. 2.—With the publication of the sworn statement of E. W. Sallis, a service car driver of Dallas, Texas, giving the details of a drive along the lonely road between Dallas and Cisco with a "young lady" who told him she had shot a "wealthy man" in a hotel at Ardmore on Sunday night, November 21, many influential persons of Ardmore and vicinity began to discount the alleged "accidental" shooting of Jake Hamon, republican national committee man, resulting in his death on November 26. Frank Ketch, business manager, stated throughout the inquiry that the shooting of Hamon was the result of the "accidental discharge" of a pistol he was cleaning. County Attorney Brown made public Sallis' statement. Two members of the Dallas police department witnessed the statement. The driver declared the statement of his woman passenger, who engaged the car in Dallas for a "trip of four or five days," did not tell her name, declaring he would "find out within the next thirty-six hours." Clara Smith of Ringling, Okla., is charged with assault with intent to kill in connection with the shooting of Hamon. While the mysterious woman passenger of the Dallas service car is unknown, according to the driver's statement, it is known that Clara Smith went south from Ardmore. The county attorney announced yesterday that he had traced the itinerary through a number of North Texas towns, thence to Dallas and Cisco. Brown's announcement that the Smith woman purchased a ticket at Cisco, for El Paso coincides with the assertion in Sallis' sworn statement that his unknown passenger asked him at Cisco to purchase a ticket to El Paso for her.

### "SKINNING" THE FOREIGNER

Vienna, Dec. 2.—The new direct taxes of various kinds which have just gone into effect here make a hotel bill look like a tariff schedule. The price of rooms was raised when the taxes took effect. Then there is some 20 percent tax on room rent. A little heat is turned on mornings and evenings at 50 crowns a day and to this is added a municipal tax of 10 percent and another 10 percent is affixed to dining room bills.

A curious feature of the restaurant tax is that it is apparently applied only to four or five big hotels and restaurants frequented by foreigners.

### SAILOR BOYS HAVE FUN

Chicago, Dec. 2.—Undeterred by the chill of Lake Michigan's waves in November, sailors at the Great Lakes

## ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocetateester of Salicylicacid.

### FARMERS' ORGANIZATION IN TEXAS ARE MERGED

Dallas, Texas, Dec. 4.—The United Cotton Growers' Association has merged with the Texas Farm Bureau Federation, according to an announcement made today at the headquarters of the latter organization. The work of creating a cotton marketing agency, which was the principal aim of the United Cotton Growers' Association, will be taken up by the Texas Farm Bureau Federation's "Committee of 21," which is being appointed by John T. Orr, president of the Farm Bureau organization.

It is the plan of the Texas farmers to market direct to the spinner, according to Mr. C. O. Moser, secretary of the Texas Farm Bureau Federation. The "Committee of 21" will meet in Dallas December 13 and will confer with Aaron Sapiro, famous California marketing expert, who has set up most of the successful marketing organizations on the Pacific coast. Sapiro says in a letter to the officials of the Farm Bureau that cotton is a much easier commodity to merchandise than the fruits and nut crops of California.

The members of the "Committee of 21" consist mostly of well known farmers from all parts of the state. Fred Rogers, president of the United Cotton Growers, is one of the men named on this committee and he is expected to contribute much to the success of the plan of marketing. Other men who have been associated with Mr. Rogers are also to be named on the committee. The membership of the United Cotton Growers' Association has been discontinued and all efforts to organize Texas farmers will now be in the hands of the Texas Farm Bureau Federation.

### Chamberlain's Cough Remedy

Now is the time to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before the winter is over. You will look a good while before you find a better remedy for coughs, colds, croup and whooping cough or one that is more pleasant to take. It meets with favor everywhere. Buy it now and be prepared. Stripling, Haselwood & Co.

### STARTING ROAD WORK

Mr. C. H. F. Bland of San Augustine, the successful bidder on the contracts for the construction of the Lufkin, Garrison and Chireno roads, was in the city Friday adding the finishing touches to the preliminaries and will have everything in readiness to begin active operations early next week. A camp has already been established at Egnogz Branch, two miles east of town, and workmen are assembling for the performance of their task. It is understood the work will be expedited as rapidly as possible, and the era of good roads in Nacogdoches county seems about to have dawned.

### Good Advice

Take Chamberlain's Tablets as soon as you have finished your supper and they will produce a gentle movement of the bowels the following morning. They will also improve your digestion and make you feel better in every way. Sold by Stripling, Haselwood & Co.

Mr. H. I. Chandler has been appointed by Sheriff Woodlan as first deputy, succeeding Mr. Floyd Harde-man, who has received an appointment in the office of state comptroller at Austin. Mr. Harde-man has made an excellent record in a very trying position, and takes with him to his new duties the good-will and esteem of the people of the county whom he has served so faithfully. His official cloak has fallen upon a good man, and it may be confidently expected he will bring his best efforts to bear upon the work assigned him.

Twenty-five years ago tonight (on December 6th, 1895,) electric lights were for the first time turned on in Nacogdoches. It is recalled that a big jollification greeted the innovation.

### IN YE OLDEN TIME

Hoop skirts were worn by those who first asked the druggist for, and insisted on having, the genuine Golden Medical Discovery put up by

Dr. Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago.

Dr. Pierce's Golden Medical Discovery for the stomach and blood cannot be surpassed by any remedy today.

Dr. Pierce's Favorite Prescription for weak women has never been equalled for the distressing complaints incident to womanhood. What others say:

DEARBYVILLE, ARK.—"I have used Dr. Pierce's Golden Medical Discovery and also the 'Favorite Prescription' with good results. I am now in better health than I have been in two years. Dr. Pierce's medicines are all they are claimed to be."—MRS. BESSIE SLAGLE.

Send 10 cents to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for trial package of any of his medicines.

### CONGRESS CONVENES

Washington, Dec. 6.—The third and final session of the Sixty-sixth congress began today, with President-elect Harding in his place in the senate.

The galleries began to fill early in the day and were crowded when the gavel of Vice President Marshall and Speaker Gillett fell promptly at noon.

Senator Harding was given a round of applause as he entered the senate chamber just before, and spectators rose all over the galleries to obtain a better view of the president-elect, who entered from the republican cloak room with Senator Lodge, republican leader. Mr. Harding was surrounded immediately by a crowd of senators, who shook his hand and clapped him upon the back. The president-elect welcomed his admirers with a broad smile. The day of friendly relations between the White House and congress was forecast by Mr. Harding in a short address from the senate floor. He disclaimed a desire to criticize the present administration, but declared it as his ambition to secure teamwork between the two branches of government.

### SEEKING REDUCTION OF COTTON ACREAGE

Memphis, Tenn., Dec. 6.—Radical reduction of the cotton acreage in every state where the staple is grown and the planting on the surplus acreage in cotton's place of something that man or beast can eat are the objects sought by the cotton convention which meets here tomorrow and Wednesday. Representatives of clearing house associations, chambers of commerce, officers and directors and members of the American Cotton Association, farmers' and merchants' associations and all interests allied with the cotton-growing industry have been invited to attend.

There will be a general discussion for extensive campaigns in every Southern state to carry on diversification of farming. The executive committee has expressed itself as wanting to see that the farmers of the South grow more livestock, more poultry and more of everything else except cotton, and to bring this forcibly before them a campaign will be launched that will reach every landowner's door. The committee plans to make the reduction in cotton acreage of equal proportion, so that the same reductions will be made in every cotton-growing state. The plan, as proposed, will ask for the co-operation and support of the entire banking and commercial industries and all financial institutions of the South. Assurances have been given the committees by the prominent business and financial men and all the wholesale associations that they will lend their co-operation in one big effort for the welfare and benefit of the Southern people.

### ABANDON BRANCH LINE

Washington, Dec. 6.—The Eastern Texas Railroad Company was today authorized by the Interstate Commerce Commission to abandon its branch line between Lufkin and Kennard, Texas. The commission attributed the order to lack of traffic. It was stipulated that the Eastern Texas Road must offer the property for sale for a sum not to exceed \$50,000.

## SWIFT BROS. & SMITH

### HARDING WILL TALK

Washington, Dec. 6.—After a conference between Harding and republican senate leaders it was indicated that he would probably make an address to the senate some time during the afternoon.

### RIOTERS' CASE REVERSED

Little Rock, Ark., Dec. 6.—On the grounds that that the Phillips Circuit Court erred in refusing to permit the introduction of evidence in support of the charge of prejudice in the exclusion of negroes shown in the selection of the present jury, the Arkansas Supreme Court today reversed and remanded for new trials the cases of the Elaine negro rioters under death sentence.

### TO STOP IMMIGRATION

Washington, Dec. 6.—Favorable report on the Johnson bill prohibiting immigration to the United States for a period of two years was ordered by the house immigration committee

today. Chairman Johnson of the committee said the measure would be given preference in the house.

Nacogdoches county has absolutely the best roads in East Texas, so travelers say, and the roads are getting better every day. The clay that was applied to them by the road engineers has, contrary to the predictions many, held tightly to the road bed, and appears to be in a fair way to give in the future even better service than in the past. But there is always something to take the joy out of living. Think of it; gasoline 30 cents a gallon and "lube" still worse!

### COAL BY THE POUND

Vienna, Dec. 4.—Coal was sold here at the equivalent of nine cents a pound, a price higher than that of the black-rathered bread, the other day when the temperature suddenly dropped below freezing. Cart loads of the brown lignite of a very low heat value were drawn up to the curbs of the popular streets and the fuel was sold by the pound, the vendors being equipped with small scales.

THE ABOVE STATEMENT IS CORRECT.

L. B. MAST, Cashier.

## WEEKLY SENTINEL

PRICE \$1.50 PER YEAR.

BY GILES M. HALTOM

SAVING TO EDUCATE

An Indianapolis bank, casting about for schemes to increase its own business, presents a really worth while idea which if carried into effect, might be of immeasurable public benefit as well.

It is a movement to encourage parents to open savings accounts which are to be systematically developed into educational funds, to be available when their children are ready for college.

The idea can not be said to be new, as doubtless many parents are doing that now. But if banks everywhere would inaugurate such campaigns it would not only give strong new impetus to the movement for thrift and safe investment, but would increase the chances of millions of children for success in future life.

The bank, in presenting its educational saving plan, quotes some statistics on education and its value to the young person, which cannot fail to deeply impress parents.

For instance, it points out that while less than 1 percent of the men of America are college bred, this percentage has furnished 55 percent of the American presidents, 54 percent of the vice presidents, 62 percent of the secretaries of state, 69 percent of supreme court justices, and a similar proportion of other high government officials.

It shows further that out of 33,000,000 with only elementary schooling only 808 gained distinction. With a college education the young person has one chance in 173 to gain success and distinction; with a high school education, one chance in 1606; with an elementary education, one chance in 40,841, and with no schooling one chance in 161,200.

The point in these and other statistics presented is that the chances of the young person for success in modern life are determined almost altogether by the extent of the schooling he or she receives.

Nearly everybody today is making some preparation for the future protection and welfare of themselves and their children. The flourishing of innumerable insurance companies, cooperative saving and investment societies, thrift clubs and similar organizations attest the widespread desire to give the children the best chance possible in life.

No investment pays better than education. Statistics are not needed to prove it. During the recent abnormal times, it may have seemed that there was a premium on ignorance and inefficiency, but in the long run it is the educated man or woman who is surest of success.

An inheritance left to children in the form of education cannot be taken away from them. Parents who save for an educational fund to be used in putting their children through the higher schools of technical or liberal learning are rendering them a service as important as that of carrying the various forms of insurance for their economic protection.—Houston Post.

### "SMALL"

The average American hates to be considered "small," and so he submits to many an imposition, thereby proving himself really small—too small of spirit to stand up for his rights, and for the rights of his fellows.

If the hotel installs a hat-checking girl he coughs up a dime or a quarter, though he knows perfectly well that the hotel is "working" him through his sense of gallantry and dislikes to appear "small."

If the grocer or iceman short-weights him, he says, "Let it go, though he is thereby encouraging crime by his moral cowardice, because he dislikes to appear "small."

It is recorded of Lincoln that he once went to great pains to restore one cent which had been overpaid him, such was this great man's estimate of "smallness."

As a matter of fact it is the small man or woman who is so mortally afraid of appearing "small." The adequate man stands for his rights and resists the petty larcenies with which he is beset. Were it not for him the country would be more graft-ridden than it is.—Ex.

Sheriff Woodlan arrested two young negro boys Sunday two miles east of Nacogdoches who took it into their heads to shoot up two horses belonging to Bob Scott, also colored. The negroes were locked in jail where they remain. The horses, while not killed, were badly injured.

Joe Holcomb of Alto was in the city Sunday, visiting friends.

### TO OUR FARMERS

Those of you who read the Progressive Farmer will recall the very excellent front page illustration in the December 4th issue showing the correct type of terrace for our rolling lands. December 9th, 10th, and 11th we will be actually engaged in building the type of broad based terraces on the Tom Maroney farm, 3 miles east of Nacogdoches.

You are not only cordially invited to witness this terracing, but you are also urged to spend a day with us, taking up practical lessons in running lines with the farm level and in throwing up the terraces. Any man with good judgment can easily learn to terrace. It doesn't require a knowledge of engineering. It doesn't require a lot of intricate study. A few hours practice under an experienced man is all that is necessary.

We will have two and possibly three trained experienced men to give instructions for every man who attends this "school" and who wants to learn the business. No charges. No fees. It's free, and it's very helpful.

H. L. McKnight, County Agent.

### HEALTH AND WEIGHT

Austin, Texas, Dec. 6.—"Scales for every school in the state," is the slogan of Miss Pearl N. Hyer, R. N., public health nurse of the Texas Public Health Association, who declares that the weight of a child is one of the best indications of good or bad health. Miss Hyer, who is examining school children in all parts of the state, gives entertainments to help earn the money for scales in the schools where she does examination work. In the playlet, "The Health Fairy and Cho Cho, the Health Clown," she impersonates the Fairy Good Health, and in this way impresses upon the children the lessons of good health.

In her examination work in the Lone Star State Miss Hyer has found that nearly 50 percent of Texas children are underweight, indicating lack of the proper food at the proper time, nervous strain, or not enough sleep. She declares that the constant use of weight charts and scales will make the children try to observe good habits.

The Texas Public Health Association is sending two nurses into the schools of the state to examine the children, and to demonstrate the need of public health nurses in the schools. This work of the association is financed solely through the sale of Christmas seals, which are now being sold in all parts of the state. The organization also directs the modern health crusade in Texas—a health movement which taught over 420,000 Texas school children the lessons of good health in 1919, and which is being continued this year.

According to W. I. Bracy, Christmas seal sale director in Texas, the sale of the little seals of good health will probably be a success, from many reports from all parts of the state.

### GOOD ROADS MEETING

The commissioners' court is contemplating having our representative to get passed a special road law for Nacogdoches county. There will be a citizens' meeting at the courthouse in the town of Nacogdoches on Thursday night, December 16th, 1920, at 7 o'clock, to discuss same.

If you are interested, or have something to offer, be sure to come, COMMISSIONERS' COURT  
By J. F. Perritte, County Clerk.

### STUPENDOUS WOOL SUPPLY

Des Moines, Iowa, Dec. 6.—With approximately three million pounds of wool in storage waiting for a more favorable market, Iowa wool growers are keenly interested in the outcome of the French Capper bill now pending in congress.

The statistical department of the Iowa Farm Bureau Federation has collected some interesting figures concerning the wool situation, both in this country and abroad. The figures show the following.

"That the annual wool clip of the entire world is about 2,800,000,000 pounds. Of this stupendous output the United States contributes approximately 315,000,000 pounds. Australasia, meaning Australia, New Zealand and contiguous islands, produce 740,000,000 pounds. South America produces 470,000,000 pounds, most of it coming from Argentina.

"That last year in addition to growing 314,000,000 pounds the United States imported 446,000,000 pounds. On August 1st of this year there was a total of 700,000,000 pounds of virgin wool on hand in storage, while on the same date Great Britain had about 900,000,000 pounds."

Sheriff Woodlan advises that the sheriff's department is extremely quiet just now, only one or two arrests being made during the past month.

### "DEMOCRACY'S FINAL TEST"

Washington, Dec. 7.—President Wilson's concrete recommendations to congress in his annual message today were a revision of the tax laws, with simplification of the income and excess profits taxes; independence for the Philippines, a loan to Armenia, economy in government appropriations and expenditures and the creation of a "workable budget system," cold storage and other laws affecting the cost of living, and federal licensing of corporations as recommended in previous messages; the rehabilitation and training of disabled soldiers and sailors. The president did not endorse the bonus. Nowhere did the president refer to the League of Nations or peace treaty fight except, perhaps, by inference in his opening, when he quoted Abraham Lincoln's "Let us have faith that right makes right, and in that faith let us dare to do our duty as we understand it." At its close the president wrote paragraphs which might be regarded as valedictory, saying, "I have not so much laid before you a series of recommendations as sought to utter a confession of faith to stand until my last fighting day. I believe this to be the faith of America—a faith in the future and of all civilities which await national action in days to come, whether in America or elsewhere." "Democracy," the president said, "is being put to the final test." He said, "The old world is just now suffering from the wanton rejection of the principle of democracy and the substitution of the principle of autocracy as asserted in the name but without the authority and sanction of the multitudes. This is the time of all others when democracy should prove its purity and its spiritual powers prevail. It is surely the manifest destiny of the United States to lead in the attempt to make this spirit prevail."

### UNEMPLOYMENT INSURANCE

London, Dec. 7.—Eight millions of British workers become automatically insured against unemployment under the Unemployment Insurance Act of 1920, which has just come into operation.

This new act extends compulsory insurance against unemployment to practically all persons in receipt of remuneration not exceeding £250 a year.

After a "waiting period" of three days of unemployment, beneficiaries become entitled to 15 shillings per week for men, 12 shillings for women, and seven and one half shillings for boys under 18 and six shillings for girls under 18.

To qualify for benefit an insured person must not quit his or her job without good cause and must not have been discharged for misconduct or have gone on a strike. There must also be no refusal of a suitable job offered, and should a dispute arise on the question of "suitability," the insured person may appeal to a court of referees. Not more than 15 weeks benefit may be drawn in any one insurance year.

Employers are free to set up insurance schemes of their own giving equal or greater advantages. The state rate of contribution to such special schemes or contracts will not exceed 30 percent of the amount paid to the general scheme, as it is taken for granted that in industries with insurance systems of their own, the rate of unemployment will be lower than in other trades.

### WITHDRAWS FINANCIAL AID

Athens, Dec. 7.—Great Britain will extend no further financial aid to Greece if former King Constantine returns to the throne, according to a note presented to the Greek government Monday by Earl Granville, British minister in this city.

The French minister also presented a note to the government demanding the payment of outstanding loans.

Both the notes followed the issuance by the national bank of paper money already printed against a loan of 400,000,000 drachmas, which was arranged during the regime of former Premier Venizelos.

"We can only do what the people want," said Premier George Rhalis in speaking of the two communications. "The regent has received no word from Constantine. I will reply in a few days to the British and French notes."

### KILLED IN AUTO SMASH

Indianapolis, Dec. 7.—Four men were killed and Colonel Russell B. Harrison, son of the late President Benjamin Harrison, was seriously injured when an automobile in which they were riding was struck by a traction car at a crossing near here Sunday. Mr. Harrison, who is a local attorney, is expected to recover.

# SPECIAL SALE

FOR ONE DAY ONLY  
Tuesday, December 14, 1920

The following ALUMINUM cooking utensils, that are GUARANTEED to wear for 20 YEARS will be sold at these prices:

|   |           |
|---|-----------|
| 13-1 quart Lipped Sauce Pans                              | at .62    |
| 4-2 quart Lipped Sauce Pans                               | at \$1.50 |
| 21-3 quart Lipped Sauce Pans                              | at \$1.56 |
| 21-3 quart Lipped Sauce Pans                              | at \$1.56 |

This is a rare opportunity you have to secure these GUARANTEED items at such special prices. First come, first served. Remember one day only, Tuesday, December 14, 1920.

## Cason, Monk & Co.

### MARRIED AFTER DEATH

Atimi, Japan, Dec. 7.—A marriage ceremony has just been performed here over the ashes of two bodies in the belief that a single young man and an unmarried woman who committed suicide would have a happy married life in the next world.

The couple committed shinja, or double suicide, for love, by throwing themselves into the sea from the cliffs. Both bodies were later recovered and cremated with the Buddhist ceremonies. The ashes were then brought to the home of the girl's father and he performed the marriage ceremony over them.

According to the Buddhist faith, marriage contracted in this world will carry over to the next.

### DESPERATE BATTLE RAGING IN KENTUCKY MOUNTAINS

Louisville, Ky., Dec. 6.—In a desperate battle still in progress between 14 prohibition agents and 50 organized moonshiners, more than 1,000 shots were fired Saturday and nine moonshiners surrendered and several were wounded in a mountain wilderness on the Kentucky-Tennessee border.

Originating in a running fight when the officers, after a day's trip on horseback to the isolated sections, were fired upon as they started up the mountainside. The shooting reached the proportions of a battle as the dry agents pushed up on a slope under a rain of bullets, drove the moonshiners back into a heavy brush and ravines. There, from behind crude trenches erected for such an emergency, the moonshiners poured forth a hail of bullets, which were returned by the officers, who flanked themselves against the ground, behind trees and rocks. The battle soon developed into a siege as each side fought to dislodge the other. For hours the mountain side reverberated to the firing.

Late Saturday afternoon the officers closed in and before nightfall had surrounded the mountain men. Many escaped through gaps in the officers' lines, but nine were trapped. They hoisted a white flag on one of the guns and a few minutes later had surrendered quietly. Five stills were captured.

### CONGRESS TO INVESTIGATE INCREASING UNEMPLOYMENT

Washington, Dec. 7.—Congressional investigation of "increasing unemployment," to determine what action, if any, to relieve the situation can be taken by the federal government, was proposed in a joint resolution introduced in the house today by Representative Mason, republican, Illinois. A general conference of governors and representatives of the federal government was proposed. Mr. Mason estimated the number of unemployed at approximately two million.

### HE GOT THE CURRENT

Peking, Dec. 7.—General Chang Tso-lin, the military power behind the present administration, has used a drastic method to induce the manager of the electric lighting plant to furnish electric current. When his application for current for new quarters in the capital evoked the usual reply that it was impossible to accommodate any new subscribers, the general called the manager of the plant to his office and kept him there for three days until he complied with the request.

Allen Elliott of Oak Ridge was in the city Monday.

### THE TALLEST MARINE

New York, December 6.—Because there is no uniform in the marine corps large enough to fit him, Reuben A. Pratt, 29 years old, a husky recruit who arrived here today from Denver, is having a special outfit of military togs made to order by the quartermaster department.

Pratt, who was formerly a blacksmith, stands six foot nine inches in his stocking feet and tips the beam at 287 pounds. The recruiting officers had to get permission from the higher authorities to enlist him, as he tops the height limit of the marine corps by seven inches. Pratt will make an ideal drum major or will come in handy for straightening out the colors when they get tangled on the flagpole. As soon as the tailor-made uniform arrives he will be assigned to duty at the New York recruiting office.

### TO QUIZZ BAKER

Washington, Dec. 7.—Secretary Baker was asked today by the house military committee to appear before it Friday and explain why the War Department is recruiting the army to more than 180,000 men.

## Fordson TRADE MARK Farm Tractor

The Fordson cuts the cost of preparing land to almost half of what it costs with horses. But even more important is the fact that the Fordson saves from thirty to fifty percent of the farmer's time. And time saved—getting fields in shape to plant in the proper season; getting things done when they should be done—means money to the farmer. Besides it helps greatly in solving the labor problem.

As ever, the machine way is proving more efficient, faster and easier than the old hand way. In the factory, the machine increases production, saves labor—produces more at less cost. And that is what the Fordson does on the farm. The Fordson way is the machine way of farming. Besides it helps the labor problem.

The Fordson's first cost is low; and the after operating cost is low. It is a compact, easily handled tractor, backed by the greatest tractor service organization in the world.

We are Fordson dealers. Not only do we sell Fordson tractors, but we carry a stock of Fordson parts and employ Fordson mechanics to help the farmers get the best results from the Fordson. Let us demonstrate the Fordson on your farm.

### Catarrh Can Be Cured

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. All Druggists. Circulars free. F. J. Cheney & Co., Toledo, Ohio.

Dr. Will H. Bruce, Osteopathic Physician, Redland Hotel.

To break a cold take 666.

Miss Virgie Wiener of Douglass was in the city Saturday.

County Attorney L. G. King returned Sunday from Beaumont, where he had spent several days on business.

To prevent a cold take 666.

Miss Tesale Campbell of Douglass was a shopping visitor in the city Saturday.

Miss Lolobelle Anderson of Douglass was in the city shopping Saturday.

A few doses of 666 break a cold.

T. J. Barnes left for his home in Midland, Texas, Saturday. Mr. Barnes is one of the pioneer oilmen of Nacogdoches county, and he says there are some great days ahead for the oil business in this country.

J. L. Prince has returned from Fort Worth, where he went to attend to important business pertaining to oil. Mr. Prince is still optimistic over the oil situation of the country, and declares there will be some real development here in the year 1921.

Rub-My-Tism relieves Rheumatism, Neuralgia and Sprains.

### INCOME TAX PAYERS

The collector of internal revenue at Dallas authorizes the announcement that taxpayers filing amended income tax returns upon community property basis will not be required to file bonds for assessment of tax which is abated.

LOST—Small black mare mule, 6 years old, has white collar spot on top of neck and bumps on shoulder. Will pay \$5 for information or return. Frank Maples, Etoile, Texas. 4-1dwl.

### PLANTS, PLANTS, PLANTS!

Strawberry and cabbage plants for sale. Strawberry plants ready now, \$1 per hundred, \$7.50 per thousand, delivered. Frost proof cabbage plants 40 cents per hundred, \$1 per three hundred, \$3 per thousand, delivered. The King Nursery, Tenaha, Texas. 2-4w.

666 breaks a cold quicker than any remedy we know.

Fort Worth, Texas, Dec. 5.—Mrs. Z. T. Robertson, who was injured last Sunday in a hotel fire at Sunset, Texas, died last night. She was forced by the flames to leap, with her husband, from the second story. The husband was not seriously hurt.

### NEW YORK OILMAN HERE

Mr. Robert L. Frew, representing the Gordon-Ross & Frew Oil Corporation of New York City, is in the city to inspect our oil fields and investigate the producing sands. He is rather favorably impressed with indication and the outlook, and speaks hopefully of the future of this territory. Mr. Frew, though young in years, is experienced in the oil game, and is entirely capable of passing intelligently upon indications. His concern is interested in the Melrose vicinity, where it has four producing wells now and two others drilling.

In the course of his talk with the Sentinel, Mr. Frew said the financial district of the metropolis was confident the price of cotton would advance by March 1, and intimated that our farmers would be foolish to sell the staple at present prices. His business connections bring him into close contact with the financiers of the district, and from him we gather it as the consensus of opinion that the present deplorable industrial conditions were deliberately brought about by a powerful group of men at the end of a democratic administration to influence public opinion against it and leave a "bad taste in the mouth" of people so that their underhand methods might gain the end they sought. There is no earthly reason except political prejudice, and the power to wield it successfully, for present conditions.

Mr. R. H. Gordon-Ross, president of the corporation, has been on the ground for the past four months, and has been handling the development end of the enterprise. Like Mr. Frew, he is a young man, but evidently, judging from the work he has so far accomplished, is also "strictly on the job." He favored the Sentinel office with a pleasant call Thursday afternoon, and convinced us that he and his assistants were a "whole team."

### ORGANIZE TO DEVELOP SIMMONS RANCH LAND

A project is on foot, fathered by residents on the ground, to organize the owners of tracts of land in the old Simmons ranch holdings in Liveoak county, for the purpose of testing for oil and gas, which are found in paying quantities on adjacent territory. The plan is for every holder of a tract of the old Simmons land to take stock to the amount of \$25 in order to raise the amount necessary for exploiting this property for oil and gas. No money is to be paid until the company is legally organized and arrangements made to begin drilling operations. Every holder of stock will have a voice in the management, and no person will have more than one vote, regardless of the number of shares he may own. When sub-divisions of the 63,000-acre Simmons ranch were made several years ago, a number of Nacogdoches county people purchased tracts of the land, and these are requested to communicate with the Simmons Co-Operative Oil & Gas Company, at Simmons, Texas, and give notice of their decision in regard to taking the suggested \$25 stock for each tract held. This proposition appears reasonable. It may result in the opening up of a big oil field. Inclose stamps for reply to your letter. 2-3wp

### T. B. BRANTLEY

Mr. T. B. (Ben) Brantley, aged about 55 years, died at 5 o'clock Thursday morning, December 2, 1920, at his home at Chireno.

Deceased was stricken with paralysis about three years ago and has since been an invalid. Ten days ago his condition became worse, and he gradually sank until the end came.

He had a wide circle of friends who sincerely mourn the passing of a good man and a good citizen.

He is survived by his wife, three daughters and one son, who were with him when he died. The children are Mrs. Byron Dawson of Wichita Falls, Mrs. Albert Eldridge and Mrs. Elbert Gilchrist of Pineland and Mr. Lamar Brantley of Nacogdoches is a cousin.

Interment will be made at 10 o'clock Friday morning at Chireno.

FOR SALE—Boilers, engine and saw mill machinery. Always some good used machinery on hand. J. M. Hacker, Box 579, Beaumont, Texas. dwtf-Th.

**Stripling, Haselwood & Co.**

J. B. Reno of Garrison was in the city Tuesday on business.

Mr. and Mrs. H. J. Craddock of Mayotown were in the city Sunday.

Mrs. Mary Dorsey has returned to the city from Austin where she had been spending a few weeks.

W. C. Fouts of Tucker, Hayter & Company is now in Dallas attending to important business matters.

To relieve rheumatism, sprains lame back, lumbago or pleurisy, Ballard's Snow Liniment is a remedy of proven merit. It is very powerful and penetrating. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by Stripling, Haselwood & Co.

W. O. Stewart was an out of town visitor Sunday, visiting some friends in the western part of the county.

### GIN NOTICE

After December 10th, my gin will run only on Saturdays. N. T. Sisco, 9-2wp.

Capt. C. A. Hotchkiss is here on account of the serious illness of P. M. Sanders.

A remedy that will penetrate is necessary in the treatment of rheumatism. Ballard's Snow Liniment goes right through the flesh to the bone and relieves promptly. Three sizes, 30c, 60c, and \$1.20 per bottle. Sold by Stripling, Haselwood & Co. b

### MOTORMAN COULD HARDLY MAKE RUN

Weak from indigestion and loss of sleep he was on the verge of giving up.

"I can recommend Tanlac from the bottom of my heart, for since taking this medicine I am enjoying better health than I have in years," said C. M. Frye, 2305 St. Joe Ave., St. Joseph, Mo., a motorman for the St. Joseph street railway.

"For two years I had suffered with a bad case of stomach trouble and indigestion. After every meal I bloated up with gas until I simply was in misery. Although I tried many different treatments and medicines I kept going down hill until I was hardly able to get around, and just had to force myself to work. I felt tired and drowsy all the time and there was always a severe pain across the small of my back. I could get but little sleep and in the mornings when I first got up I was so dizzy I could hardly keep from falling.

"I had not taken more than half of my first bottle of Tanlac before I noticed an improvement in my condition, and kept getting better until today I have a fine appetite, eat just anything I want and never have a particle of trouble afterward. I have regained my strength so that I can do my work as good as ever, and my nerves are in such a shape that I can sleep like a child all night long. I always get up in the mornings feeling simply fine, never having a sign of dizziness."

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., Swift Bros. & Smith and in Garrison by the Dale Drug Co.

The Nacogdoches Cotton Exchange has closed and Mr. Thomas, who was in charge, has gone to Athens. It was originally intended that the exchange stay open in Nacogdoches the year 'round, but owing to the tightness of the money world, or for some other reason, the managers of the exchange in New York decided to eliminate Nacogdoches.

Distress after eating is due to bad digestion. Herbine helps the digestive process, clears the system of impurities and restores a feeling of vigor and buoyancy of spirits. Price 60c. Sold by Stripling, Haselwood & Co. b

## Big Discount on Wagons and Buggies

\$112.50 Banner Trap Buggy for . . . . . \$ 89.50

\$130.00 Moon Bros. Trap Buggy for . . . . . \$103.50

\$170.00 Weber Gear Brake Wagon, complete . \$135.50

\$187.50 Weber Gear Brake Wagon, complete . \$149.50

\$190.00 Weber Gear Brake Wagon, complete . \$151.50

These goods have been stored in Schmidt's warehouse on the railroad tracks. This warehouse has now been rented to Ben T. Wilson and WE MUST MOVE. This big reduction is made to SELL the goods stored there and will positively be withdrawn when they are gone. Come quick,—don't wait, if you want one of these buggies or waggons. \$1.00 will do more on the price now than \$1.25 will do after this small lot is sold.

Profits at above prices have been ignored. Mr. Wilson wants his warehouse and we must move the goods. There is no doubt but that we will easily do so at these big reductions.

**CASON, MONK & CO.**

### AN APPROPRIATE GIFT

Young folks, here is a Christmas present you can get if you will put the matter squarely up to your parents, in fact, they can hardly turn you down, for this is the best proposition you ever put up to them; it is a thing that will win your independence, give you an insurance policy against poverty with the premium paid for life. It is a scholarship in the Tyler Commercial College of Tyler, Texas, America's largest school of book keeping, business training, shorthand, cotton classing, telegraphy, business finance,—the school that not only prepares its students in a very efficient manner for the best positions in the largest business offices, but secures these positions for them.

The cost of a life scholarship in a course of bookkeeping is \$65, Shorthand \$65, or the two for \$110, Telegraphy \$65, Cotton Classing \$65, Business Finance \$65. Board and room is from \$18 to \$20 per month, payable monthly. The average time for completing our shorthand course is three and one half months, our telegraph course five months, bookkeeping four months, business finance five months, our bookkeeping and shorthand combined five months. Figure up how little it will cost you to obtain a cash producing education that you can use for a life time. It will be a Christmas present that will always be appreciated, because you will never cease using it. It is something of every day need. It makes you a useful citizen.

If you or your parents, as the case may be, haven't the cash to pay the entire course, we have a note plan, we also have a loan fund in connection with our Endowment Association that may be participated in. The old saying is quite true, "Where there's a will, there's a way." If you can't get the money to pay board, do what thousands of others are doing; take a correspondence course until you can enter college for personal work.

See about this Christmas gift. Take it up and discuss it seriously. You can enroll at once; we will not close for the holidays. Convince your parents you are determined to be a success, and that to achieve a success in business you must get a business training. Write for our large catalogue, it is free and it will convince

you and your parents of the importance of our suggestions.

Mrs. Byron Dawson of Wichita Falls passed through the city Monday from Chireno on her way home. Mrs. Dawson will be remembered by all as Miss Bernice Bantley, who lived a number of years in Nacogdoches and Chireno.

Swift, Texas, December 7, Editor Sentinel.

Please announce in your paper that W. W. Eaves, a missionary Baptist preacher, will preach at the following places: Red Flat Monday night, December 3th, Tuesday night December 14th and Wednesday night December 15th at Alazan. Everybody come and hear the Gospel in the old time Paul like way. Bring some good questions on the Bible, and hear for yourself.

J. L. Hargis.

### NACOGDOCHES OIL NEWS

Mr. A. C. Smith brought in a well on his thirty acre tract Monday that looks to be a good producer.

The Mann Oil Company is setting this week on an almost completed well eight inch casing. They have a good showing of oil and gas at 350 feet. This well is located on the Guy Blount ranch.

The U. S. Oil Company has a nice showing of oil at 1,000 feet on the Jacobs lease near Woden.

Colonel Wells is down on his well about 200 feet near Chireno.

Jameson Bros. have two rigs on the track here and expect to be drilling soon.

J. S. Stanley of Fort Worth made a contract to drill on the L. Servia lease six miles southeast of Nacogdoches this week. He also has another drilling contract near Attoyac, twenty miles east of Nacogdoches.

The Kentucky Investment Company will begin a deep test on the Blount ranch in a few days.

The well being drilled on the G. A. Muckelroy farm is said to be showing good indications of oil.

W. L. Mann of Fort Worth closed a contract with H. Birdwell of Chireno to drill by January 3.

H. F. Blam of Fort Worth is drilling a well on the C. A. Dudley farm two miles west of Chireno.

## OUT O' ORDER STOMACHS

Indigestion, Acidity, Sourness and Gases ended with "Pape's Diapepsin"

The moment you eat a tablet or two of Pape's Diapepsin all the lumps of the indigestion pain, the sourness, heartburn, belching of gasses, due to acidity, vanish—truly wonderful.

Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralizes acidity and gives relief at once—no waiting! Buy a box of Pape's Diapepsin now! Don't stay dyspeptic! Try to regulate your stomach so that you can eat favorite foods without causing distress. The cost is so little. The benefits so great.
