GIANT AIRSHIP EXPLODES FIVE OUT OF 49 SAVED

Pulham, England, Aug. 24.—The giant dirigible ZR-2, which was expected to arrive here at dawn today to complete the trial trip begun yesterday, apparently was driven from her course by a terrific storm this morning. The airship was reported safe, however, off Howden at 7 o'clock.

Weathers the Storm

London, Aug. 24.—Reports received by the air ministry state that the ZR-2, which was blown off her course by a heavy storm on the east coast of England, was safe off The Wash at 10:15 o'clock. The weather at Pulham is improving hourly and it is expected the airship will sail for that place, ending this afternoon or evening. Perfection of the devices for communicating weather conditions between the ground stations and the airship probably saved the dirigible a disastrous encounter with the storm, the ministry reported. The final trial flight before she is handed over to American navigators is developing unexpected tests of speed, endurance, reliability and wireless signaling. The craft was notified at 1:10 this morning that a storm was raging directly over Pul-

ham, and she bore away from danger. The trial trip, which was expected to last 12 hours, may be a 40-hour trip before landing at Pulham, or approximately half the time expected to take in crossing the Atlantic.

Reported Exploded

London, Aug. 24.—The ZR-2 exploded over the city of Hull today, according to advices received here shortly after 1 o'clock this afternoon.

London, Aug. 24.—The airship was seen breaking in two while passing over Hull. Terrific explosions followed and the ship burst into flames. As it commenced to descend, three parachutes were seen to leave the dirigible. The airship is a wreck in the river Humber. Tugs and craft of all kinds immediately put off from shore for rescue work. The force of the explosions wrecked windows in store fronts in Hull. Three men were seen hanging from one parachute. Two dead and a number of injured were landed from the river. There were six American officers aboard the airship at the start of the trip.

A Hull dispatch states that five men were saved from the crew of 49.

SLASHERS HAVE SLASHED APPROPRIATION BILLS

Austin, Texas, Aug. 23.—At the meeting of the free conference committee last night approximately \$75,000 for each of the next two years was cut from the educational appropriation bill, it was learned from one of the members of the committee today. This amount was sliced off by cutting out appropriations for various departments in the state educational institutions, such as publicity and other non-teaching branches. The meeting was supposed to have been kept secret until the bill was brought up for consideration, but it leaked out. The reduction was made after the members of the People's Club favoring the reductions informed the conference committee that the report would be accepted by the People's Club if these departments were abolished.

Hospital Appropriation Cut

Austin, Texas, Aug. 23.—A bill proposing to stop the purchase of additional lands for the University of Texas was introduced in the house today by King. He claims that by stepping such purchases now, \$700,000 of the \$1,300,000 appropriated for that purpose would be saved and that sufficient land already has been purchased for the expansion of the university.

A bill was introduced in the senate today cutting \$250,000 from the appropriation for the American Legion Hospital at Kerrville and \$500,000 the second year.

MANY PEOPLE PERISH IN GEORGIA HOTEL FIRE

Macon, Ga., Aug. 22.—Eleven persons are believed to have been burned to death in a fire which last night destroyed the Brown House, one of the oldest hotels here. One man is known to be dead, and firemen believe there is at least ten bodies in the ruins. Owing to the loss of the hotel register no check had been secured early today, but hotel employees expressed the fear that the death list might reach more than eleven. Ten persons are suffering from injuries received by jumping from the second and third stories of the hotel and are in a hospital. Starting with the explosion of chemicals in an adjacent drug store, the fire quickly shut off escape for many hotel guests. Finding the stairways blown away by the explosion and the fire escapes in flames, persons in the front part of the building were forced to leap from the windows. Men on the sidewalks saved many women by catching them in their arms as they jumped from the windows.

Mr. and Mrs. R. C. Monk have returned from a week's vacation at Frankston and vicinity and report a most enjoyable outing.

PEN OFFICIALS SAY NO FUNDS IN COFFER

Austin, Texas, Aug. 23.—In a conference yesterday Capt. J. R. Herring, chairman of the prison commission, told Governor Neff that the penitentiary system of the state was completely out of money and did not have sufficient funds to meet the September obligations. Sanford J. Dean, recent appointee to the commission, was present at the conference.

The first called session of the legislature cut the proposed appropriation for the penitentiary system from \$879,000 to \$175,000 which was to be used to meet land notes only. The portion cut out was to pay the expenses of the system for the next fourteen months.

"We are squarely up against it," said Chairman Herring. "We are almost out of money and do not know where we are going to get any."

He pointed out that the \$175,000 could not be used for maintaining the system and feeding the prisoners. He further said that the commissioners could not borrow the money in view of the fact that the state bankers are leery about loaning the system money because of the legislature's action of failing to provide for the system.

"When we ask for bids now on furnishing supplies to the penitentiary, the merchants want to know if we will pay cash or if they have to take a chance with legislative action," he said.

Assistant Attorney General Kellogg said during the conference that the commissioners are not empowered to mortgage the penitentiary lands for money.

DEFENDERS OF VERDUN HONORED BY LEGIONNAIRES

Verdun, France, Aug. 23.—Members of the American Legion Monday morning dedicated a tablet to the defenders of Verdun in the city hall here. The tablet was erected to the men who during the terrific German onslaught of February and March, 1915, stood before Verdun and held back the enemy.

At the end of the ceremonies four of the Americans were decorated by the municipality with the special medal of Verdun.

Major John G. Emery, National commander of the American Legion; Franklin D'Olier of Philadelphia, first national commander of the Legion; Henry D. Lindsey of Dallas, past national commander of the Legion and Colonel Milton J. Foreman, of Chicago, were the Americans decorated.

Mr. H. H. Hall returned Thursday from an extended visit with relatives and friends at Longview and Hallsville. Mrs. Hall, who had been visiting at Austin, also returned home Thursday.

CHILD LABOR LAW HELD UNCONSTITUTIONAL

Greensboro, N. C., Aug. 22.—The federal court today held the new child labor law unconstitutional. Judge Boyd, who made the ruling, held the Owen-Keating child labor law unconstitutional two years ago, and that ruling was upheld by the United States Supreme Court.

Mr. R. W. King, school trustee at Douglass, was a business visitor in the city Tuesday morning.

U. S. MARINES GO TO KEEP THE PEACE

Washington, Aug. 22.—While the United States marines are sailing southward to stand by when Costa Rican forces march into the tiny bit of territory whose ownership Panama has so earnestly contested, officials here expressed the belief that the marines would never fire a rifle.

Mrs. J. H. Buchanan and children returned Monday from a visit at Bentonville, Arkansas.

REDISTRICTING BILL KILLED IN SENATE

Austin, Texas, Aug. 24.—The new senatorial redistricting bill was killed in the senate today by the adoption of the unfavorable minority report. The bill on the subject passed at the first called session is still in the hands of the governor. It provides that the act shall not be effective until after April, 1924.

CONFEREES AGREE ON SALARY CUT

Austin, Texas, Aug. 22.—The conference committee unexpectedly reported late Saturday night that it had reached an agreement which was to the effect that a cut in salaries of 20 percent in the amounts above \$2,000, was accepted by the members of the senate and house.

By the committee's action a \$2,400 salary is reduced in amount equal to a 20 percent cut of the excess above \$2,000, making an \$80 reduction. The salaries of the three presidents of the three leading educational institutions, the University of Texas, the A. & M. College and the C. I. A., are cut \$500 each, making President Vinson's salary \$7,900, Dr. Bizzell's \$7,000 and Dr. Bralley's \$6,000.

The salaries of the heads of all normal schools were reduced from \$4,500 to \$4,200, Grubb's Vocational College from \$4,000 to \$3,750, and the John Tarleton School from \$4,000 to \$3,750.

The estimated reduction in the educational bill is \$30,000 below the original figure set by the senate bill. The cuts in salaries of the normal school professors and instructors will directly assist the various schools, as the amounts thus saved will be used for the summer schools, it was said by committee members. The amounts saved by reducing salaries at the University and the A. & M. and the C. I. A. will remain in the state treasury.

Senate Takes No Action

Austin, Texas, Aug. 22.—The senate held a brief session this morning. The report of the free conference committee on the educational appropriation bill will not be submitted until action thereon by the house.

The senate adopted the concurrent resolution exonerating the name of Dr. Oscar Davis, former state health officer, from any odium as the result of an investigation of that department. The resolution recited that "his administration was above reproach."

GOVERNOR SIGNS BILL

Austin, Texas, Aug. 23.—The governor today signed the bill providing additional methods for removing prison commissioners.

ALLEGED MURDERER IS FOUND DYING

Porterville, Cal., Aug. 22.—Walter Alexander, who, according to J. L. Bachman, a ranchman near here, shot and killed Mrs. J. B. Bachman yesterday in the Bachman automobile when she refused to leave her husband and go with Alexander, was found dying on a ranch ten miles from here by a posse early today. Alexander died before aid could be administered. The sheriff, who was the leader of the posse, said he believed Alexander poisoned himself.

Stepping On It

The old-fashioned fellow occasionally passed away at blowing out the gas. These days some of the young fellows accomplish the same result by stepping on it. Most people "auto" get that.

We have no desire to knock the automobile business, yet once in a while we see some fellow riding around in a car and "stepping on the gasoline" who would have been better off if he had kept his funds on deposit at the bank, awaiting some profitable investment. It reminds us of the old fellow who sold his cook stove in order to take the family to the circus.

ANOTHER LEGISLATIVE SESSION

The failure of the educational bill and the consequent expense of another session of the legislature, which must be designated as inexcusable waste, is due primarily to the "Peoples' Club", a group caucus in the house of representatives embracing a majority of that body that set out to dominate the house and coerce the senate.

The majority of the house, binding itself to support majority action of the group caucus, put the house under minority rule, potentially at least.

If there be 142 members of a legislative body, and 75 should organize a "Peoples' Club" and bind themselves to vote according to the decision of the majority of the club on all legislative proposals, then that body is actually dominated by 38 members.

No such system of gang rule is tolerable, and such clubs have no business in our legislative scheme. No member ought to surrender his free judgment in any such way, and though the house was powerless to protect itself, surely the senate performed a high and patriotic service in its resistance to such methods.

But the difference of \$31,000 between the majority of the free conference committee and its two dissenting members, there would have been a unanimous report, which the house would have adopted, and the additional session would have been avoided, along with an expense exceeding the amount of the difference which the two dissenters took back to the "Peoples' Club."

So even \$31,000 is not saved. The pinching of the salaries of the professors on the ground of economy has been from the beginning picaresque, discreditable and demagogic. The pictures of desolation and poverty drawn by some of the members were not true, but were calculated to injure the state.

The amount involved in maintaining the salaries of the professors and instructors was so trivial when spread over the taxable wealth of the state, that it would not even have been missed, being less than \$10 a year on an assessment of \$100,000, less than half a dollar a year on an assessment of \$5,000. On a per capita basis it was less than 1 cent per capita per annum.

The attitude of the majority of the house with respect to higher education in Texas invests with unusual importance the urging of Representative Rountree of Brazos for an ample specific tax for the support of all institutions of higher learning. The uncertainty which menaces their support every two years when the legislature assemblies ought to end. The spectacles of regents, trustees, and heads of such institutions begging every legislature not to destroy them is discreditable to the state.

The friends of education ought to organize and prepare to have this sensible plan submitted to the people in the form of a constitutional amendment by the legislature elected next year, for it is evident enough that higher education in Texas has not won its battle yet, and the fight must continue until the perpetuity of these great institutions shall no longer be threatened by legislative ineptitude, which has a disagreeable way of manifesting itself at intervals.

Likewise, the friends of education would be rendering the state a patriotic service by communicating with members of the legislature, who have forced another session rather than pay the professors and instructors of the institutions of higher learning reasonable salaries. They are or ought to be amenable to reason, and it is time all friends of higher education were active.—Houston Post.

RULES FOR DISARM PARLEY

Rule 1—Weapons must be worn in plain sight.

Rule 2—Fist fights can be conducted in cloak rooms, but not on the floor.

Rule 3—Members attempting to shoot out the lights will be suspended and fined.

Rule 4—Queensberry rules shall apply to all informal discussions on the grounds.

Rule 5—Strangle and scizzors holds shall be barred in all regular matches.

Rule 6—Japanese delegates shall not employ jiu-jitsu tricks during working hours.

Rule 7—Bombing convention hall from airplanes is absolutely prohibited.

Rule 8—Delegates who smoke shall not be permitted to carry bombs on person.

Rule 9—The terms, liar, thief, crook, fourflusher and bum are ruled out.

Rule 10—Dollar-limit poker is des-

ignated as the official pastime between sessions.

Rule 11—Where more than four aces appear in the same game, all players shall be suspended.

Rule 12—Any disarmament agreement reached shall apply to delegates and nations alike.

Rule 13—In case the conference ends in a row, delegates shall be guaranteed safe passage home.

Rule 14—Controversial subjects like the Volstead act shall be barred.

Rule 15—Delegates wishing to violate the Volstead act must carry their own supplies.

Rule 16—Police protection cannot be provided beyond three-mile limit (from hotel).

Rule 17—Delegates will not be extended credit at lunch room. All sales for cash only.

Rule 18—Delegates from Liberia will not be permitted to bring alternates from Alabama.

Rule 19—Delegates will not be permitted to pull or poke fun at Mr. Hughes' whiskers.

Rule 20—Words of more than three syllables shall not be used in addressing delegates from Marion, O.

Rule 21—All official documents shall include the worlds normacy, prudent and humanize.

Rule 22—The official newspaper shall be the Marion (O.) Daily Star.

Rule 23—No delegate will be permitted to mention League of Nations out loud.

Rule 24—All delegates shall praise Harding's idea for an association of Nations.

Rule 25—Same as Rule 13.

CROSSING THE ATLANTIC OCEAN IN 48 HOURS

Our interest in trans-oceanic flying is once more to become rather active with the completion of the great dirigible, the ZR-2, which was designed by the British admiralty and constructed at Bedford, England, for the United States navy. As compared to other similar airships, the ZR-2 eclipses them all. She is 95 feet in diameter and 685 feet in length and has a lift of 93 tons. She carries a crew of 33 officers and men, and can fly at full speed for the distance of 5,000 miles.

When this aircraft giant makes her trial trip on August 25 from Bedford, England, to Lakehurst, N. J., it is expected that she will cross the ocean in two days, and the people she carries will be throughout the entire trip in comparative comfort and security.

It is this fact rather than the fact that she will carry powerful armament, including guns and bombs, which makes the coming trip of the ZR-2 significant. The most important lesson to be learned from this trip is that an airship as large as this one can cross the Atlantic in safety and in much shorter time than this trip can be made by ocean liner.

For the purpose of increasing the exchange of friendly activities between nations, and of breaking down old barriers, there is nothing that can contribute more than making easy and swift the means of travel and communication between the various nations of the earth.

FORD AS A RAIL CHIEF

Henry Ford, the automobile manufacturer, without having shown any particular genius for railroad operation, takes over a fair-sized rail line in the middle west with a deficit and within a few months turns the deficit into a profit of \$500,000.

That's a fair job to start with, but he has cut two hours from the running schedule from Detroit to Bainbridge, O., a distance of 280 miles, and by speeding up has reduced from 22 to 14 days his deliveries. Under the old management of the company, handled 200 railroad cars in 24 hours. Under the new the number is 1,200. Wages of his employees are higher than the union scales and only recently he asked the interstate commerce commission's consent to reduce freight rates 20 percent.

What does all this mean to the general railroad situation? Is Ford playing in special luck? Does he have special advantages over other rail chiefs? Why cannot the Ford system be duplicated? Farmers are especially asking these questions and the list of questioners grows.

It would seem to be up to other railroad chiefs to imitate Ford or show him up.

SCRIPTURE READING

Bible-reading is said to be markedly on the increase, and it is explained by persons conversant with such matters that this is largely due to the Pocket Testament League.

The league's pledge is simple—to carry a Testament constantly in one's pocket and to read a chapter daily. It binds one to no church or creed or open profession of religion, yet its

Cigarette
To seal in the delicious Burley tobacco flavor.
It's Toasted

effect in spiritual uplift is said to be plain and far-reaching. There are branches of the league all over the country. Where the idea has been given publicity it has been followed by an awakening of interest among individuals who formerly had appeared to be entirely bound up in secular affairs. Chapters of the league in many of the big states' prisons bear witness that "the Testaments are worth their weight in gold" for their effect upon the readers.

The habit of daily reading of the Scriptures is a good one. All of the great truths upon which life is founded are there set forth, simply and powerfully. And aside from the Bible's moral and spiritual qualities, it is a handbook of pure and beautiful speech, a well-spring of romance and a record of history with few equals in any tongue. If the Pocket Testament League furthers acquaintance with it, humanity stands to benefit.—Shreveport Journal.

"KAISER AND KING"

From a Berlin dispatch it appears that William Hohenzollern does not quite realize even after his long exile from home, that he is not the occupant of a throne and the ruler of an empire. He still styles himself "His Majesty, Kaiser and King." It is true he is issuing no imperial edicts or kingly proclamations, as was his wont in days gone by. The designation quoted above appears on a circular letter which is being sent to persons who would partake of his imperial and royal bounty.

Begging epistles sent to the former ruler receive a letter of refusal, which reads: "His Majesty, Kaiser and King," has learned with the greatest sorrow of your case, but he means at his disposal for such ends are long since exhausted, and the economic conditions and the exchange rates are utterly destructive to our household. In view of the high costs of living in Holland it is barely possible to meet necessary expenses with German currency."

It is some comfort to know that the man who brought on the trouble which ails the world at the present time is not immune from the troubles of his creation.

The Irish question: Home rule or home fight?

An optimist is a fellow who combs a few stray hairs across a bald head.

Mother was entertaining a few friends and her young hopeful was planted in the center.
"Whom do you like best?" asked one friend.

"Mother," was the reply.
"Who next?" asked another.
"My little sister."
"Who next?"
"Uncle Jack."
Father asked: "And when do I come in?"

"At 2 in the morning," was the reply.—Ex.

It is proposed to increase the income tax exemption to \$400 for each dependent. Bless their little hearts.

THE NEW HIGHWAY IS NEARING COMPLETION

The trucks have been busy the past three weeks laying the gravel on the new highway from the Attoyac river to an intersection of the completed highway a short distance beyond the Naconiche, and will finish the work within a few weeks.

Appleby gravel is being used from the Attoyac to the Indian creek, while the gravel from the Wortham farm is being used from Indian creek to the sand road at Prileytown, where the Appleby gravel will be used again to an intersection of a mile of the road, just this side of the Naconiche which was previously graveled with the Wortham product. The road from the Naconiche to Nacongdoches was graveled with Appleby gravel.

A grading crew is following up the gravel work, repairing any washouts that may be found, filling in any grade that may need it, dragging the road, etc., and getting everything in readiness for final inspection. It is hoped that the whole work can be completed within the next few weeks with the exception of the bridges, which feature seems to be lagging and giving no promise of early completion. The latter work is a separate contract and has a time limit to the first of January.

The people in this end of the county will greatly appreciate the new highway and will enter heartily into the enjoyment of the privilege it will afford.—Garrison News, 19th.

"I smiled- and he shot me"

AFTER MONTHS and months MY WIFE persuaded me TO HAVE it done. SO I went around TO THE photographer. AND GOT mugged. WHEN THE pictures came. I SHOWED them to a gang OF AMATEUR art critics. AND PROFESSIONAL crabs. DISGUISED AS friends. WHO FAVORED me. WITH SUCH remarks as "DOESN'T HE look natural?" "HAS IT got a tail?" "A GREAT resemblance." AND THAT last one. MADE ME sore. SO WHEN friend wife. ADDED HER howl. I TRIED again.

THIS TIME they were great. FOR HERE'S what happened. THE PHOTOGRAPHER said. "LOOK THIS way, please." AND HELD up something. AS HE pushed the button. AND NO one could help. BUT LOOK pleasant. FOR WHAT he held up. WAS A nice full pack. OF THE cigarettes. THAT SATISFY.

LIGHT up a Chesterfield and sense the goodness of those fine Turkish and Domestic tobaccos in that wonderful Chesterfield blend. Taste that flavor! Sniff that aroma! You'll register "They Satisfy." You can't help it.

Did you know about the Chesterfield package of 10?

They Satisfy Chesterfield CIGARETTES

LIGGETT & MYERS TOBACCO CO.

FATAL AUTO WRECK OCCURS AT DOUGLASS

About 10 o'clock Thursday morning an automobile driven by Mrs. Frank Sherman was wrecked in a creek bottom about a mile west of Douglass, and the lady's stepmother, Mrs. Davis, was instantly killed. The car, which is said to have been running rapidly, struck an obstruction in the road and was completely overturned, Mrs. Davis being caught underneath and her life crushed out. The five other occupants of the machine escaped with minor injuries.

It seems that a party of six were making the trip from Rusk to Nacogdoches when the accident occurred. Deceased was 75 years old and was the wife of T. J. Davis. The family was well known in Nacogdoches. Mrs. G. E. Norwood of this city is a stepdaughter and Mrs. Arthur Seale a granddaughter.

Mrs. Davis was making her home with her stepdaughter, Mrs. Frank Sherman, at Rusk.

The tragedy is deeply regretted by all our people.

MRS. DAVIS' FUNERAL

The funeral of Mrs. T. J. Davis, who met death in an auto accident near Douglass Thursday morning, was held in the First Christian church of this city at 4 o'clock Friday afternoon, Rev. A. D. Sparkman, pastor of the First Baptist Church of Rusk, conducting the services. Interment was made in Oak Grove cemetery in the presence of a large concourse of sorrowing friends and sympathizing acquaintances.

Mr. W. G. Davis of Palestine, a stepson, was present, together with a number of other relatives, none of whom was a resident of Nacogdoches.

The tragic nature of the good woman's death made the funeral a peculiarly impressive one, and there was an undercurrent of genuine sorrow among those who attended the services.

VERNON BROWN

The body of Vernon Brown, aged 22 years, arrived in the city Thursday afternoon on the T. & N. O. train from Dallas, where he died Wednesday of typhoid fever in a sanitarium. The funeral party left immediately for Martinsville, where interment was made in Elm Grove cemetery.

He was a son of Mrs. L. C. Brown of Martinsville and at the time of his death was employed in the Dallas postoffice.

His uncle, Mr. W. E. McKnight, and cousin, Mr. Dee Brown, of this city were among those attending the funeral, at which there were present an unusually large number of friends of the family, who deeply sympathize with the heartbroken mother in the loss of her boy.

HENRY WILKERSON SHOT

Henry Wilkerson of the White Rock community was shot and almost instantly killed Friday afternoon about 3 o'clock, a shotgun being used, the wound being in the stomach or left side. The scene of the tragedy was in the store of Clark & Downs. Robert Tinsley surrendered to the constable after the shooting took place and was placed in jail. Examining trial was set for Saturday at 9 a. m., but was waived by Mr. Tinsley. Bond was granted in the sum of \$5,000, which was promptly made and Mr. Tinsley released to await the action of the grand jury.—San Augustine Tribune.

MOB ATTACKS JAIL TWENTY-SEVEN INJURED

Knoxville, Tenn., Aug. 20.—Twenty-seven persons were wounded, two seriously, when deputies, guarding Knox county jail, last night fired on a crowd which had crossed the dead line with the purpose of demanding Frank Martin, a negro, held as a suspect in a criminal assault upon a county school teacher. All of the wounded are white, two are women.

TURTLE RACING IN FLORIDA
Miami, Fla., Aug. 20.—Loggerhead turtle racing, a sport regarded by natives of the Bahamas as Cubans regard cock fighting and Americans baseball, is to be imported into Florida by local sportsmen. Turtle races never have been held in the United States, local authorities assert.

In racing, the huge reptiles are harnessed almost in the same manner as horses, the riders don bathing suits, mount their backs and drive in the most approved jockey style. The turtle may be so handled by the driver as to prevent its diving but the rider finishes the race thoroughly soaked.

Racing turtles are the largest of the species that may be obtained. The entries to face the barriers here were taken along the Florida Keys after a search of several weeks.

Do you know you can roll 50 good cigarettes for 10c from one bag of

GENUINE "BULL DURHAM" TOBACCO

TWO LOCAL CITIZENS SECURE BIG CONTRACT

Messrs. J. B. Garrison and Belton Latimer of this city have closed a contract with J. H. Hines & Co., of Memphis, Tenn., to cut a million and five hundred thousand hardwood ties on a 27,000-acre tract of timbered land the company owns in Aivoyelles Parish, La.

The land is located on the Mississippi and Red river valleys, and the ties will be shipped down the Red river valley in barges to Baton Rouge. The gentlemen will install about ten saw mills with which to do this work. Two of Mr. Latimer's mills are being shipped to the scene this week and three other mills from this section will be shipped next week. Other mills to fill out the required number will be secured from other places as soon as possible. Many men will also be put to work making hewn ties, and altogether a great industrial enterprise will be launched to take care of the work.

Mr. Garrison will move to the scene of activity and take charge of the work and Keifer Garrison will accompany to take over the position of bookkeeper and accountant.

Messrs. Garrison and Latimer have five years in which to complete this contract, and feel that with no unforeseen bad luck they will come out with a nice margin of profit. It is one of the biggest industrial contracts that has been booked in the South lately, and local friends of the gentlemen will rejoice in their good fortune.—Garrison News.

HELD FOR MURDER

Waco, Texas, Aug. 20.—After practically an all-night grilling of Mrs. Leslie Keyes and W. T. Aven, officers today announced they had secured sufficient evidence to warrant holding both for the murder of Leslie Keyes.

FIRE DAMAGES COLLEGE

Bryan, Texas, August 20.—The members of the Bryan fire department were called to the A. & M. college at 2:30 Thursday morning, the mess hall annex being on fire. The five mile run was made on record time and the work of saving the big building required but a short time after they arrived. The big Stutz pumper was coupled onto a plug near the mess hall and in a short time had a stream going that knocked out the metal ceiling and gave firemen a chance at the blaze in the top of the roof.

The "Sevens" in the Bible

It seems that the number seven has always had some peculiar significance. On the seventh day of the seventh month a holy observance was ordained to the children of Israel who feasted seven days and retrained seven days in tents. The seventh day was supposed to be a Sabbath for all, and at the end of seven times seven there was to be a jubilee. Jacob served seven years to win Rachel for his wife. Noah had seven years warning of the flood. Nebuchadnezzar lived seven years as a beast. The Saviour spoke seven times from the cross on which he hung seven hours. In Scripture there are seven resurrections mentioned. In the Lord's Prayer there are seven petitions. The apocalypse revealed in the seven churches in Asia. In Revelation there is described seven lambs before the seven spirits of God, with seven seals, seven angels with seven trumpets, seven players, seven vials of wrath, seven kings, seven thunders and a dragon with seven heads.—Honey Grove Signal.

George Polk, who disappeared about two months ago to evade arrest for craps shooting, came in for a visit Thursday night and was promptly taken in tow Friday by Constable Walters and landed in jail.

A Truly BONE DRY Battery

This trademark, stamped in red on the case, identifies the Willard Threaded Rubber Battery.

Bone Dry means not only that the battery has no solution in it, but that it has never, since the day it was made, had a single drop of moisture in it until prepared for service by the dealer. It is shipped in the true bone-dry condition that means battery newness to you.

A Lovely Vacation

Listen to the experience of a Japlin man who went on a little vacation with his wife the other day. When he returned a friend asked him what kind of a time he had and he replied: "Pretty good. But a wife's handicap We started out in our Ford and we hadn't gotten two miles when my wife remembered that she hadn't put in her bathing suit, so we went back for it. When we got about five miles out she recalled that she had forgotten to ask the neighbor woman to feed the chickens. We went back again. When we finally did get to the camp I had decided upon she didn't like the location, so we went somewhere else—a place where there wasn't a fish to be caught and where the mosquitoes were as big as humming birds. Then she fussed about the flies and about the water and about the country butter, and it rained and she knew that she would catch her death of cold, and she got to worrying for fear she had left the gas burning under the hot water heater, and finally in desperation I packed up and brought her home. Now she's telling the neighbors we had the most magnificent vacation anybody ever had and she can't hardly wait until it is time to go again, but I can. Wives are fine things, but when it comes to taking them on vacations—not for me!"

But what we started to say was that the sultan of Zanzibar has fifty wives and he recently went on a vacation and took them all along.—Honey Grove Signal.

A Good Job

The teacher had asked "Why did David say he would rather be a door-keeper in the house of the Lord?" "Because," answered a boy, "he could then walk outside while the sermon was being preached."—Boston Transcript.

Mr. John T. Lucas, the Sage of Saul, was in the city Friday and favored the Sentinel office with a pleasant call.

INCOMES IN HAWAII PRODUCE LARGE TAXES

Honolulu, T. H., Aug. 20.—Hawaii pays the largest per capita income and miscellaneous taxes in the nation, not excepting New York, according to Colonel Howard Hathaway, collector of internal revenue at Honolulu. He reports that 18,645 persons made returns here last year and that the money they paid in taxes aggregated \$20,676,778. Of this amount \$18,839,082 represented income taxes.

AGREEMENT SIGNED

Riga, Aug. 20.—An agreement between the United States and Russia providing for American relief in the Russian famine region was signed today by Walter Brown, European representative of the American Relief Administration, and Maxim Litvinoff, Russian famine committee representative. Observers declared the agreement confers upon the Americans facilities never before granted a foreign organization by a Russian government. Race, creed and political status will be forgotten in the work.

ARRESTS TWO AFTER SKULL IS FRACTURED

Little Rock, Ark., Aug. 19.—One member of an alleged moonshine band was killed, another wounded and two arrested by John Shorter, a special prohibition agent, after his skull had been fractured, when attacked near Mena Wednesday night. The attack occurred near a summer resort and was witnessed by hundreds of persons. The dead man was Warden Denningman and the wounded is Grant Bell.

UPPER SILESIAN QUESTION

Paris, Aug. 18.—A special meeting of the Council of the League of Nations to take up the question of Upper Silesia, referred to it by the Allied Supreme Council, will be held in Geneva beginning August 29th. Viscount Ishii, president of the League Council, sent out an official call for the meeting today.

ARREST HOUSE MEMBERS FOR NON-ATTENDANCE

Austin, Texas, Aug. 20.—Three of the nine members of the house for whom warrants were issued and officers of the law were looking last night were within the bar of the house early today. Sergeant at Arms Joe White, while hunting for the missing members during the night, found Representative Thomas of Limestone and Perkins of Lamar about 2:30 a. m. Representative Binkley showed up this morning of his own accord. Sergeant White, acting under orders from the house, brought Thomas and Perkins to the house and held them until morning. The sergeant's bookkeeper guarded Thomas, who slept on the house floor, while Perkins obtained a bed in Speaker Thomas' quarters in the rear of the house. Six other representatives are still missing and officers are looking for them. The warrants were issued last night after the legislators failed to appear at the night session.

The missing members are Johnson, Burns, Henderson, Kacir, Lindsey and Wadley.

Representative Williams charged on the floor of the house that there was an attempt to prevent a quorum so the educational bill could not be passed until the proponents of salary reductions could gather more voters. The anti-reducers were in the majority last night.

The members for whom warrants were issued were marched into the house this morning by Sergeant White. When the sergeant entered with the members trailing behind, he was greeted with cheers and shouts from the members present and congratulated upon his good work.

After the missing nine members were brought into the chamber by the sergeant the educational bill was passed finally under a suspension of the rules. It was sent to the senate and the upper house refused to concur in the house amendments. The house substituted the original bill of the first session, with the salary cuts and other reductions.

MEXICAN EXPORTATIONS OF OIL REDUCED

Tampico, Mexico, Aug. 19.—Petroleum shipments from this port totalled during the month of July approximately 5,500,000 barrels, or one-fourth the amount shipped during the month of June, according to information given out by oil companies here.

It was stated that August exportations will show a decrease over those of July, despite the fact that drilling is almost as active as early in the year. This is attributed to the low price of oil in the world's markets, coupled with a recently imposed Mexican tax on petroleum exports.

GETS LIFE TERM FOR SLAYING TEXAS WOMAN

Russellville, Ala., Aug. 20.—A verdict was rendered today by the jury in the case of Fred Hall, charged with the murder of Miss Martha Henderson of Dallas, Texas. The jury fixed life imprisonment as the punishment. Hall declared the woman had "hounded him" two years and he was out of his mind when he shot her in his store.

ESCAPED FROM BANDITS

Washington, Aug. 20.—Eric Clark, an official of the International Land & Livestock Company, escaped from the Mexican bandits who had kidnaped him at a ranch near Rio Primero and is now safe in Jiminez, in the state Chihuahua. Clarke reported his kidnaping and escape today in personal telegrams to friends here. The bandits were holding him for \$7,500 ransom.

CONFERENCE COMMITTEE

Austin, Texas, Aug. 20.—The speaker announced the appointment of the following house free conference committee on the educational bill: Satterwhite, Wallace, Chitwood, Beasley and Hall. After the announcement of the committee, Representative Beasley tendered his resignation from the committee, saying the opponents of salary reductions were in the majority and he was opposed to being in the minority.

The house adjourned until Tuesday and the senate until Monday. The adjournment vote in the house indicated that the economists, or People's Club, were in the majority.

The next time you buy calomel ask for

Calotabs

OUTSIDE THE LAW

As a reward to merit women are to be admitted to membership in the Ku Klux Klan. So says William Joseph Simmons, imperial wizard. He is perfecting his plans, which seem to require much adjustment, as it will take two or three weeks for them to be completed. Simmons pays a just tribute to women when he says "their influence over the youth of the land shapes the destiny of the nation, and it is in the cradles of the American homes where the principles and ideals of Americanism should be first instilled into the minds of the young." He also knows the oft-repeated but frequently disproved adage that women cannot keep a secret, because they made with their fingers 160,000 robes for members of the old Klan, and not one of them ever disclosed the identity of any man who wore one of those robes.

What Simmons says is quite true, but there is not a word in it to justify the existence of the Ku Klux Klan. It is an organization outside the law and should be severely condemned, if not actually suppressed, by the law which it supplants. As to the ideals which the youth of the land should be instructed in, one is the great and vital fact that the United States possesses the best constitution ever formulated by man, and this constitution provides for government by law, such law to be enacted by the representatives of the people, and enforced by public sessions of courts of justice. There is something wrong with the Americanism of those who belong to or who condone the Ku Klux Klan.

THE "NEW" MEXICO

"The hundredth anniversary of Mexico's independence from Spain will be observed with all the fanfare and pageantry of old Mexico." September 12 to October 12, a feature of the celebration being a "great international commercial exposition."

The quoted clauses are taken from an advertisement addressed to American manufacturers who are asked to exhibit their goods in the magnificent national legislative palace, a new \$5,000,000 building covering two city blocks. It will attract every business man in Mexico.

We hope that the centennial celebration will be a grand success and that it will mark the resumption of good relations between that country and the United States, founded upon a re-awakened Mexican conscience. But we have doubts on this point.

The advertisement screams: "The Mexico of today was born without a memory. The new era has cancelled the law of vested rights. An eager nation is measuring off centuries in two, three, or five lengths. The present generation is so busy with today's achievements and tomorrow's projects that it has no time to remember the closed book of yesterday."

There is just the trouble. Mexico would go too fast. Yesterday cannot be forgotten. Obligations undertaken yesterday must be discharged today. Americans would put no obstacles in the way of Mexico's rehabilitation. But we must insist upon Mexico being honest as well as enterprising. When cancelling the law of vested rights means stealing a friend's property one can hardly expect the friend cheerfully to extend a helping hand.

TAX REDUCTION—"SOMETIME"

While no one will withhold applause from the Harding administration when it reduces taxation in accordance with its promises, it is but common sense that the public should not rejoice prematurely or give to some proclaimed measure of relief celebration beyond its due. For instance, there should be some difference between the volume of shouting over a \$100,000,000 cut and that over a billion dollar reduction.

Those who have led to believe last fall that the election of a republican president would mean promptly a tax reduction running into the billions may be excused if they do not at once burst into applause on the announcement by Chairman Fordney of the house ways and means committee that the tax cut this fiscal year will be \$193,640,000. After that talk of saving billions, that may sound considerably like "small change." A larger cut is promised for 1922, while the largest reductions are reserved for 1923—the year before the presidential election.

With respect to this program, however, it remains to be seen whether any part of it can be carried out according to schedule; whether the cuts shown on paper can be made real or

whether they will result in deficits. Most important of all, the people will want to know whether the cutting proclaimed was in the spirit of relieving the people generally of only for the benefit of a comparatively few.

As things stands, the "substantial relief" is still far in the distance, "with nothing much to speak of" before 1923—if then.

THE CIGARET AGAIN

When you read that 46,005,900,000 factory made cigarettes were consumed in this country last year you, if you have any prejudice against the little comforters, may conclude that the U. S. A. is going to ruin as fast as possible. You knew, of course, that virtually everybody smokes cigarettes and the habit is rapidly spreading. But you never suspected that the consumption amounted to such a huge total as is disclosed by a census bureau report. Yet the truth is not what it seems from the bald statement made. There is more room for expansion of the cigarette habit than there is for reform.

Only a pitiful 12 percent of the population, probably less, smokes the things. Its a very moderate user who manages less than 10 a day on the average. That means 3,650 per annum per smoker. A simple calculation reveals the magnificent total of approximately 87,000,000 citizens and citizenesses who let 'em alone. This demonstrating the non-necessity of abolishing the things, cigarette smokers who do not live in Kansas may have confidence that their sustenance will not be immediately cut off by the reform route.

SPIRIT OF THE CONFERENCE

Disarmament must be the first business of the conference of nations called by President Harding at Washington. In making this declaration Senator William E. Borah states a vital fact. The introduction of disarmament of international differences and provocative international questions is perilous to the whole enterprise.

The question is, Have these nations the will to disarm? If so, have they the assurances that the many nations not invited to the conference will disarm? It should be an undertaking prompted by the spirit of peace; it should be an earnest of a new idea. How, then, can it hope for success if encumbered by all the habiliments of war?

The calling of such a conference presumes that at least the nations participating have come to believe in peaceful methods of settling their disputes. How can they believe this if they insist upon opening their disputes in the conference while aimed to the teeth? "This is the system," says Mr. Borah, "which has been used by the diplomats for 300 years, and instead of resulting in disarmament, it has resulted in continued and increasing armaments."

Perhaps never has such an opportunity been presented to an American president—an opportunity to bring together, not a few of the supposedly powerful and influential nations, but all the nations of the earth, to say to them, backed by the authority of the United States of America, "The time has come to disarm. When we have got rid of the incubus of militarism and the crushing burden of armaments, we will settle our disputes according to reason and justice."

If the people of the United States through their chief executive were to take this exalted position, who believes that any other nation could refuse to yield to the appeal?

De Valera intimates to England that Ireland isn't as green as that.

A fountain pen is reported that doesn't leak all the time—only when it has ink in it.

All the bunco trucks are so old and transparent that there can be no little sympathy for the victims.

We still think jail sentences for reckless drivers of automobiles would do most to make the streets safe.

It is easier to follow the last murder mystery running singly in the newspapers. For some they were overlapping.

Frenchmen feel that ice water and the English language at the armament limitation conference would be a doubly fatal thrust at France.

The soviet government in Russia is repealing the prohibition decree appears to be drifting toward normal conditions in that land.

It seems the correspondent abroad who cabled that Ambassador Harvey has a new hat, might have waited for the right moment to have the story break, which would be when George began talking through it.

Andrey Munson, embarrassed, has fled to a farm to "escape the 'perfect man' who would marry her. But she published her address.

It becomes increasingly evident why the elephant is a suitable party emblem as the largest repository of solid ivory.

The smacking of lips is being heard throughout the land—where corn roasts are the big feature of outdoor festivities.

Hudson Maxim now declares that he published the essentials of the relativity theory in 1889. Relative, he was far ahead of Einstein.

King George was reported hard up, but having won a prize on a dairy cow, the stringency probably has been relieved.

Grover Bergdoll, fearing extradition, is said to have fled from Germany. We would suggest Russia as a proper asylum.

It has been intimated that Gertrude Farrar's troubles with her husband are being used to advantage by her press agent. Beauty and the beast.

From the trouble which institutions of higher education have in naming heads there appears always to be room at the top—of a university or college.

With all his daily changes of coats and pants, the president cannot help but feel that none reaches the dreamy beauty he wore while in the brass band.

There probably is some interest in Washington as to just how far a private citizen will be able to go in entertaining some of the delegates to the conference.

Georges Carpentier thinks maybe he will not come over to meet Gibbons. This expression of doubt makes it certain that he will, unless press agency rules have been changed.

Germany has paid Argentina for the ships she sunk and will also apologize. France and Britain do not care for apologies, but they propose to have the money.

Prohibition is said to have been abolished in soviet Russia. But what American "wet" could be induced to migrate to Russia by any inducements the soviets might offer?

Berlin cafes are to be permitted to remain open two hours longer at night. That should be sufficient time to enable the patrons to have no desire to go home till morning.

In case Charlie Hapsburg, who has been in the king business in Austria, is undecided where to go since Switzerland has told him to move on, he has our permission to go to work.

Used dishes in India are smashed so that the same dish will never be used again. There it's religion. In our land used dishes are piled up in the sink. Here it's the movies.

A five-day-week in industry is better than a three-day week, but as a promoter of prosperity, it never will take the place of the week of six days.

When riches become only a mockery is testified by the New York grocer who has \$60,000, and his wife started making him keep his shoes on in the evening.

His decision to undergo an examination by specialists indicates that Monsieur Georges Carpentier is just finding out how severely he was mauled by Mr. Jack Dempsey.

Congress has decided that homework is all right, but it will take more than an act of congress to make a man with an educated thirst agree that it's fit to drink.

If you have the leisure to inspect any of the \$20 bills in your loose change, it may interest you to know that a counterfeit shows Grover Cleveland's nose as pointed instead of round.

Announcement that at last Senator Lodge is delegated to meet foreign representatives in the disarmament conference is not stopping traffic nearly so much as would a bulletin that he has bobbed his whiskers.

The nearest approach to a sickly grin seen in a long time is the attempt of some republican organs to show enthusiasm on the selection of Senator Lodge as one of the delegates to the disarmament conference.

Try the Sentinel Want Ads.

FIGURED IN HISTORIC PAST

Representation of Monarch of the Time of Abraham Now in Pennsylvania Museum.

In the dim old days of the patriarch Abraham people looked very much as they do now. Judging from the oldest representation of human figures unearthed by the toiling brotherhood of archeologists. Two striking figures, one standing and one seated, are included in the elaborate design of the clay seal, or "postage stamp," which has excited the enthusiasm of Dr. Legrain, curator of the Babylonian section of the University of Pennsylvania museum.

Dr. Legrain has figured out the inscriptions of the little tablet as indicating that it dates from the period when "Ur of the Chaldees," mentioned in Genesis in connection with the history of Abraham, was a flourishing kingdom. And he finds reason to believe that the seated figure, decorated with flourishes of beautiful acrocoron plaiting, is a portrait of his majesty Ish-Sin, the last king of Ur and possibly an intimate friend of the Father of Israel.

To the modern eye both figures are remarkably well drawn and lifelike in attitude, especially considering the fact that they were modeled in clay on a very small scale. Dr. Legrain thinks the tablet served the double purpose of a seal and a postage stamp on a sack of money forwarded to a banker named Shulpaie by his reverence the high priest of the temple of Ur, at which Abraham worshipped.

TOO HEALTHY FOR MEDICINE

People of Tristan da Cunha Thrown Supply Left by British Cruiser into the Sea.

The island of Tristan da Cunha is described as "an unspoiled haven of rest for the weary soul, a mecca for those who long for relief from worries of life," by the chaplain of the British cruiser Dartmouth, which has just returned from a visit to that isolated spot.

"No need to worry over money there, for there is none," said the chaplain. "There are no taxes, no doctors, no lawyers, no clergymen, no policemen, not even a head man. Newspapers and mail arrive, with luck, about once every two years."

"There is not even any medicine, for the latest supply of remedies was thrown into the sea by the inhabitants, who are remarkably healthy. Epidemics are unknown."

"Tristan is a British possession in the south Atlantic, between South Africa and South America. Its snow-capped peak towers nearly 8,000 feet above sea level. It is only 21 miles in circumference. The nearest inhabited place is St. Helena, 1,200 miles away. The only habitable portion of it is a tongue of fertile land at the foot of the precipitous cliffs."

The Wrong Number.

Mrs. New Auto owner, all excited, called her husband over the telephone at his office, and announced: "The auto tags came by mail, but we will have to send them back. They sent the wrong number." Business of considerable questioning from the business office end of the telephone.

Then: "Well, they're not the same numbers we had last year, so I thought they had made a mistake."

Explanatory: The machine had come into possession of the family late in the year, a license number was obtained that had six figures and the husband got in early for a 1921 license hoping to obtain a smaller number and he got it.

Anyway, the wife had a good laugh at her own expense when the husband arrived home that evening. And she is learning something each day about autos.

Pellagra and Income.

After a three-year study of pellagra in the cotton-mill villages of South Carolina, the United States public health service shows that pellagra varies inversely with the family income in this locality. As the income fell the disease was found to increase and to affect more members of the same family. As the income rose the disease decreased, and was rarely found in families that enjoyed the highest incomes, even though this highest was still quite low.

A recent statement given by one of the large life insurance companies indicates that the food standards of Southern wage earners must have improved remarkably of late, for the death rate from pellagra has fallen from 6.7 per 100,000 in 1915 to 2.3 in 1919.

Much Gasoline Wasted.

About one-third of the gasoline used in automobiles is wasted. This is the conclusion reached by A. C. Fieldner of the United States bureau of mines, from experiments under traffic conditions to determine the air pollution of the vehicular tunnels under New York city. The waste is chiefly due to too rich gasoline mixture. It is estimated that an improved and practically automatic carburetor might save American automobilists \$34,000,000 a year.

Free Medicine.

A prominent city man, who is as parsimonious as he is wealthy, is very fond of getting advice free. Meeting a well-known physician one day, he said to him:

"I am on my way home, doctor, and I fell very seedy and worn out generally; what ought I to take?" "Take a taxi," came the curt reply. —Tit-Bits, London.

SNAP A VERTEBRA INTO PLACE AGAIN

Physicians at El Dorado Hospital Perform Unusual Feat on Colored Youth

The vertebra in Ernest Foster's neck is back in place and he is going to recover.

The 9-year-old colored youth who was seriously injured June 12, when a motor car driven by A. D. Knight, who lives at the rear of 301 North Star Street, struck him at the corner of North Star Street and West Sixth Street, was able Sunday to move the upper part of his body for the first time since the accident. The improvement in his condition was observed within a few minutes after physicians at the El Dorado hospital gave his head a sudden jerk and the misplaced vertebra snapped back into place.

The vertebra had been out of place since the accident. When the motor car struck Ernest he was thrown under it. As the machine passed over him a part of it struck a severe jolt in the neck. It was not until after several X-Ray pictures were taken that the exact nature of the injuries was determined. The injury caused a paralysis of the upper part of the boy's body and he was unable to move his arms or turn his head.

When it was determined to attempt to replace the vertebra Ernest's mother was informed that it might not be successful and there was a chance of his losing his life. She was told also, however, that the boy could not hope to recover until the vertebra was in place. She consented to the attempt and the operation was performed by three physicians.

According to one of the physicians this morning, it took but a few minutes to carry out the work.

When the vertebra slipped back into place it could be heard throughout the room in which the physicians were working.

The feat is declared by doctors to be most remarkable. It is said that only a few such cases are on record. The great danger in replacing a vertebra lies in the fact that an important nerve may be injured when the body is twisted to perform the operation. This was feared in the operation on Ernest, but he came through without further injury.—(The El Dorado Times, El Dorado, Kan., June 22, 1921.)

Physicians Turn to Chiropractors

With the replacement of a vertebra of the neck of Ernest Foster, nine-year-old colored youth at the local hospital, Chiropractic Spinal Adjustments have once more shown their remarkable ability to restore health where all other methods fail.

This feat, performed by physicians, was considered so remarkable that more than a half a column space was given to it on the first page of this newspaper Wednesday, but the only remarkable part of it is in the fact that medical doctors are so far behind in seeing the benefits derived from adjustments of the spine.

Ernest was struck by an automobile and partially dislocated one of the bones of his neck. This produced a pressure on the spinal nerves, at their exit from the column, which was great enough to cause total paralysis of the neck and arms due to the fact that the nerves could not carry the necessary vitality or nerve impulses to its parts. By replacing the vertebra to its normal position the nerves once more perform their natural work and health is the natural result.

For more than twenty-five years—since September, 1895—men and women have been giving these spinal adjustments for the relief of various diseases. And during that time Chiropractic has spread from its small beginning until now there are more than 12,000 Chiropractors in the United States and millions of people depend upon them alone for the restoration of health.

The remarkable results obtained through Chiropractic Spinal Adjustments would seem a miracle were it not for the fact that these results are so common. Chiropractors throughout the world are performing feats just as great every day with this simple method and many cases have been benefited right here in El Dorado by local practitioners of this new Science who have been told by medical doctors there was no hope for them.

Kali Pasha, known to the wrestling fans as the Terrible Turk, was severely injured last winter in a match with Alfred (Dutch) Mantell when he fell from the stage of the McGinnis Theater into the orchestra pit. He struck a step and partially dislocated two vertebrae of the spine, which produced a partially paralyzed condition of the diaphragm and excruciating pains through the upper part of the abdomen. His injury made it almost impossible for him to breathe and he was in so critical a condition it was necessary to move him from the theater on a stretcher. He was tak-

en to the office of a local Chiropractor, who returned the misaligned vertebra to their proper positions and two hours later Kali Pasha was able to walk to his room.

No X-Ray pictures were taken though one of the best X-Ray machines in the state was at hand, as a skilled Chiropractor becomes so trained that he knows when a vertebra is out of its proper position, and Chiropractors have no desire to cause unnecessary expense to their patients. Nor did Chiropractors rush into print with a statement of their results, as such work ceases to be a miracle when it becomes so common.

Miriam Ruben, 8-year-old girl of Waukegan, Illinois, talked continually for eleven days, and baffled some of the greatest specialists of the medical profession. It remained for a Chiropractor of that town to find and remove her trouble, which was a partial dislocation of two vertebrae of the neck that deranged the nerve function affecting the speech. Immediately following the adjustment of the misaligned bones, Miriam stopped talking and slept for more than an hour. Afterwards she only talked when spoken to and within a few days she was again normal.

Many cases of so-called sleeping sickness have also been brought back to health within a few days after Spinal Adjustments had been used to correct misaligned vertebrae that were found to be causing the trouble. This is another condition that its yet baffling the medical doctors who are still depending on medicine or surgery or both for the alleviation of disease.

During the influenza epidemic of 1918-19, one case in every 16 died where medicine was employed—while only one case in 886 died under Chiropractic adjustments. There were more than 400,000 deaths due to influenza in the United States. At the medical rate of one in sixteen cases, more than 6,400,000 had influenza had all these people been under the care of Chiropractors there would have been by 7,213 deaths, if their ratio of one death in 886 had kept up. What an appalling waste of life this is—to be laid to the door of medical ignorance.

El Dorado Chiropractors are more than glad to see that local medical doctors are at last turning to the more beneficial method of Spinal Adjusting and sincerely hope they will properly equip themselves by special training in Chiropractic schools, as the delicate movements often required in the realignment of a vertebral column require a high degree of skill not attainable in any medical college.

Chronic long-standing conditions that have baffled medical men for years often respond to adjusting and many people have been saved the necessity of some critical operation by the simple method of relieving pressure on the spinal nerves. Many will tell you that if it were not for Spinal Adjustments they would not now be among the living and thousands now enjoy pleasures of life who had given up all hope before seeing a Chiropractor.

Possibly you, too, often can be benefited by this simple method of restoring normal nerve activity. See a Chiropractor at once and have your spine analyzed. It may also save you years of suffering—possibly your life.—El Dorado Chiropractors' Association.—(Ad from the El Dorado Times, June 24, 1921.) 25-1w

COST OF MAINTAINING THE UNIVERSITY OF TEXAS

The average cost per resident student per full year for instruction in the Main University is this year \$221.54. The total cost per student in the University, including buildings and permanent improvements of every character of expenditure is \$332. The report for 1917, the last one printed, shows that California University spends approximately \$576 per year per pupil, Illinois \$523, Wisconsin \$521 and Virginia \$519. Of our adjoining states Louisiana spent \$387 per pupil and New Mexico \$446, as against our \$332. The figures in Bulletin No. 55, 1917, of the U. S. Bureau of Education shows that, of the 39 state universities reported there, Texas is 36th in amount expended per pupil. That is, there are only three state universities in the nation with less income per student than Texas. It is plain that the expenditures per student of the University of Texas are already far below those of any other university that even pretends to aspire to be first class.—L. A. Carleton, Chairman of the Ex-Students' Committee.

PAIR TO BE ARRANGED

Waco, Texas, Aug. 23.—Formal arraignment of W. T. Aven and Mrs. Dessie Keyes, both charged with murder, in connection with the death of Mrs. Aven and Leslie Keyes will come up Wednesday morning in Justice J. R. Jenkin's court here.

Auto RACES AT STATE FAIR TO BRING TALENT

Famous Drivers Of Dirt Track World Showing Interest In Meet.

When the best racing talent of the United States gathers together for a series of contests in fast-flying cars, there is bound to be quite a little excitement. This is the indication for the State Fair of Texas race meeting for the 1921 season, October 8 to 23.

Prominent drivers all over the country are eagerly awaiting the posting of the State Fair purses and the outline of the State Fair program. This is being worked out now by the proper committees, and sanction of the International Motor Contest Association for the meet will soon be secured.

Some of the newest and fastest automobiles in the world will be on hand, according to the advance dope. On a fast track like that of the Dallas oval, world's records are quite likely to fall in bunches.

An added feature of the State Fair season may be a series of motorcycle races. It is now being determined by experts whether motorcycle racing is practicable on the State Fair track. If this report is favorable it is quite probable that the fastest thing on wheels—the motorbike—will join the autos in making a speed holiday for State Fair crowds.

PERMIT NO FIGHTING

Washington, Aug. 23.—The American State Department, in a note forwarded to Panama yesterday, stated emphatically that the United States would not permit hostilities resulting from the occupation of the Coto region by Costa Rica.

ALCOHOLISM TO BLAME

Lusanne, Switzerland, Aug. 23.—President Schultess of Switzerland, in opening the Anti-Alcoholic Congress here yesterday, declared that alcohol was first in rank of the "obstacles hindering world pacification. He painted a despondent picture of Europe's economic situation, saying it was due largely to alcoholism.

NOTICE

SWEET POTATO GROWERS

We are ready to buy sweet potatoes and will furnish baskets in which to harvest them. Come to the curing plant and get crates when you are ready to dig. Potatoes hauled loose in wagons will not be accepted.

Nacogdoches Potato Company.
25-wtf.

W. J. CLEVENGER

I will start my gin on the first day of September, not earlier. Will run regularly every day during the season.
25-1dwp

Room and Board. Mrs. J. D. Blakey.
25-2wp.

Miss Jessie Fenn, who has been absent on a two-weeks' vacation, is back at the desk in the Redland Hotel, and is being warmly welcomed by friends and the house's patrons.

East Texas Teachers' Institute
Lufkin, Texas, Sept. 12-17, 1921

This institute marks a departure from the accepted type of teachers' institutes in Texas. It is organized as a miniature college or normal school, with a faculty of specialists, and with a group of definite courses. Those courses offer to the teachers in attendance considerably opportunity for choice. Every teacher in the institute must enroll in and attend regularly, enough courses to make up four hours of class work daily. The faculty and courses are as follows:

FACULTY
Prof. A. W. Birdwell, State Normal College, San Marcos, Texas, High School Methods
Mr. E. E. Davis, University of Texas, Austin, Texas, Rural Education and Rural Leadership
Prof. Lynton E. Garrett, State Normal College, San Marcos, Texas, Primary Methods and Intermediate Methods
Dr. C. T. Gray, University of Texas, Austin, Texas, Educational Psychology
A. W. Birdwell, Conductor.

COURSES
The classes in Primary Methods, Intermediate Methods, High School Methods and Educational Administration will each meet two hours daily, or ten hours during the week. The other classes will meet one hour daily or five hours during the week.

All Primary teachers (below 4th grade) will enroll in the course in Primary Methods; all intermediate teachers (above 3rd grade) in course in Intermediate Methods; all high school teachers in High School Methods. Rural teachers will enroll in the course of Rural Leadership and Rural Education under Mr. Davis. The foregoing requirement covers two of the four hours required of every teacher. The other two hours may be chosen from the following:

Primary Teachers—Educational Measurements, Educational Psychology, or Management.
Intermediate Teachers—Same as primary teachers.
High School Teachers—Any course other than that in High School Methods.

Rural Teachers—Advised to enroll in Primary or Intermediate Methods, but may choose from other courses.

The attention of principals and superintendents, both city and county, is invited to the course in educational administration, which is offered especially for them.

The program for each day will be as indicated below. The chief variation will be in the titles of general lectures given during the period from 11-12 and from 3-4 daily. On the first day the morning lecture will be omitted, the 9-10 hour will be used for enrollment, and the class meetings pushed back one hour. Two or three of the periods from 3 to 4 will be given over to county and city superintendents for meetings with their teachers.

OPENING EXERCISES

Devotional exercises:
Monday—Rev. O. S. Landis.
Tuesday—Rev. C. S. Smith.
Wednesday—Rev. J. R. Nutt.
Thursday—Rev. V. B. Atteberry.
Friday—Rev. H. M. Kellam.

PROGRAM
(to be repeated daily.)

9-10—Primary Methods.
High School Methods, I.
Educational Administration.
Rural Education, I.
Educational Measurements, I

10-11—Intermediate Methods.
High School Methods, II.
School Management, I.
Rural Leadership, I.
Educational Leadership, I.

11-12—Lecture.

1-2—Primary Methods
High School Methods, I.
School Management, II.
Rural Leadership, II.
Educational Psychology, II.

2-3—Intermediate Methods.
High School Methods, II.
Educational Administration.
Rural Education, II.
Educational Measurements, II.

3-4—Superintendents' Meeting.

The last hour in each day will be used by city and county superintendents to discuss with their teachers local school problems. As a result of these meetings, the educational interests in each administration unit will be stimulated and co-ordinated.

Teachers should bring to the institute modern text books, if they have them, on methods, psychology and school management.

GENERAL ANNOUNCEMENTS

A teacher is required to attend the institute under the direction of the county superintendent of the county in which she teaches. Only the county superintendent has authority to permit changes from this ruling, and then only for good and sufficient reason, such as genuine illness or under exceptional circumstances justifying it. Teachers of the co-operating counties of this institute are expected to attend at Lufkin.

The teachers will be entertained by the people of Lufkin. A committee will meet the trains and direct you to some home. Make it convenient to reach Lufkin on a day train. Our little city is noted for its educational system, its various churches, and its many places of clean and up-to-date amusement and entertainment. While this will be a week of real study, nothing shall be left undone to make the stay pleasant. The nature of these entertainments will be announced daily.

All teachers of Angelina are expected to donate a liberal amount to help defray the expenses of the institute.

Come to Lufkin at this time and enjoy its hospitality and grow educationally.

W. M. CHANDLER, Co. Supt., Shelby Co.
(Miss) EXIER M. LEWIS, Co. Supt., Nacogdoches Co.
W. E. MATHEWS, Co. Supt., San Augustine Co.
W. A. O'QUINN, Jr., Co. Supt., Angelina Co.

Rusk College
RUSK, TEXAS

A standard Junior College for East Texas. A strong faculty of educators. Certificates given at the close of the first college year. College recognized by all leading institutions of the South.

COURSES
Sub-academy, Academy, two years' standard College. Commercial, including Bookkeeping, Shorthand, Typewriting, Banking, Business Forms, Multigraphing.
Music, including Piano, Voice, Wind and Stringed Instruments.
Expression and Physical training.

M. W. ROBERTSON, President
RUSK, TEXAS

FOOD PRICES START ON UP GRADE AGAIN

New York, Aug. 23.—The cost of living decreased seven-tenths of one percent during July, according to figures made public yesterday by the National Industrial Conference. Prices are still 62 percent higher than the July, 1914, level and only 20.8 percent lower than the peak reached in July, 1920.

Declines during July were in clothing, which dropped 3.5 percent, and in sundries, which dropped 1.1 percent. Food prices, the report said, went up 3 percent.

PITTIABLE CONDITION REPORTED IN RUSSIA

London, Aug. 23.—The efforts of employed workers in Russia to help the famine sufferers are hampered because they themselves are weakened through lack of proper food, says a Moscow dispatch. Famine is paralyzing the strong and weak alike, it says, and adds that many men for whom employment is available are too enfeebled to work. Operations of the Volga river fleet, the chief means of carrying food to the famine areas, are continued with the greatest difficulty because the crews are half-starved. In Samara the people are eating grass and acorns are regarded as a luxury.

CLARA SMITH HAMON AND MOVIE DIRECTOR ARE WEDDED ON COAST

Los Angeles, Cal., Aug. 23.—Clara Smith Hamon, a cousin by marriage of the late Jake L. Hamon, Oklahoma oil magnate, and John W. Gorman, a motion picture director, were married yesterday.

The ceremony was performed at the Wilshire Boulevard Christian church by Rev. M. Howard Fagan, pastor of the church, J. Barton Smith, brother and Mrs. V. James, sister of the bride, were the attendants. The couple left for an automobile honeymoon trip to San Diego.

The bride has been living in Los Angeles since she was acquitted of slaying Jake L. Hamon in Ardmore, Okla., several months ago. She admitted that she killed Hamon, but claimed self-defense. She has been taking a leading part in a motion picture depicting her life with Hamon.

FOUR KILLED WHEN TRAIN STRIKES AUTO

Walnut, Kan., Aug. 23.—Four persons—two boys and two girls—were killed here Sunday night when a Katy freight train backed into their motor car. Two other girls and a 4-year-old boy who were in the car were injured.

Father and Son Killed

Terrell, Texas, Aug. 23.—E. A. Russell, Jr., aged 18, was killed instantly and his father seriously injured when the automobile in which they were riding was struck by an east-bound Texas and Pacific passenger train No. 6 two miles east of Willis Point Monday. The injured man was taken to Dallas on the Texas and Pacific "Sunshine Special" for treatment.

WITHDRAWS AMENDMENT

Washington, Aug. 23.—Because of the opposition of Senator Lodge, one of the delegates to the disarmament conference, Senator Harrison, democrat, Mississippi, today withdrew his amendment directing the American delegation to demand open sessions. Harrison said he would bring up the question in another resolution and hoped that Lodge would support it. Senator Harrison continued, "In opposing my amendment I suppose Senator Lodge merely is expressing the views of President Harding. I do not wish to embarrass him at this time." Frequent reference was made to Wilson's post-war conferences in Europe during the discussion.

TRAINS COLLIDE; SCORES HURT

Hugo, Okla., Aug. 23.—A Frisco passenger train going from Hugo to Hope, Ark., late yesterday collided with a west-bound freight train at Sawyer, Okla., 8 miles west of here. Three persons were seriously injured and 38 other passengers were cut and bruised.

MAYOR OF LOUISVILLE OPPOSES HOODED ORDER

Louisville, Ky., Aug. 23.—Terminating the Ku Klux Klan an organization "which all thoughtful men must be convinced must be a menace to the peace and good of Louisville," Mayor Smith today issued a statement asserting that he would use every lawful means to prevent and suppress its growth in our community.

The mayor's statement came on the heels of announcement in local newspapers advertising for recruits for the order.

East Texas Teachers' Institute
Lufkin, Texas, Sept. 12-17, 1921

This institute marks a departure from the accepted type of teachers' institutes in Texas. It is organized as a miniature college or normal school, with a faculty of specialists, and with a group of definite courses. W. A. O'QUINN, Jr., Co. Supt., Angelina Co.

ANGELINA VOTES BONDS FOR ROAD BUILDING

From the Lufkin News of Monday it was learned that the election in Angelina county Saturday to decide upon the issue of \$1,140,000 bonds for highway construction resulted in an overwhelming victory for issuing the bonds, the vote standing 1,897 for and 539 against the proposition, with one small precinct to hear from.

We congratulate our sister county upon her progressiveness. It is the very best investment the people could have possibly made. It will add millions to property values and many other millions in the way of comfort and convenience and rapid transit.

We are gratified to note that Angelina has decided to come in out of the mud. It is a good start toward civilization, and self-sacrificing missionaries from Nacogdoches stand ready to help.

SAN AUGUSTINE COUNTY LETS HIGHWAY CONTRACT

A recent dispatch from San Augustine says:

"The contract for the construction of the King's Highway through San Augustine county was let to the McClung Construction Company of Sherman, the consideration being over \$230,000. The Illinois Steel Bridge Company was awarded the contract for the construction of the bridge across the Attoyac river, consideration being over \$18,000. Nacogdoches county pays half of bridge costs."

One Drawback

"Is your husband a good provider, Diannah?"

"Yessum, he's a good providah all right, but I'se allus skeered dat nig-gah's gwine er git caught at it."—O. E. R. Bulletin.

SENATOR REED GETS VOTE OF CENSURE

Washington, Aug. 23.—By a vote of 181 to 3 the house adopted a resolution censuring Senator Reed of Missouri for his speech last week when he referred to Representative Volstead.

GERMAN PEACE TREATY

Washington, Aug. 24.—President Harding, Secretary Hughes and members of the senate foreign relations committee conferred today at the White House on invitation of the president. Statements in some quarters were that the president was anxious to acquaint republican committeemen with the details of the German peace treaty, which will be signed in Berlin today.

ONE DEAD; 25 INJURED

Grand Junction, Colo., Aug. 24.—One man was killed and 25 passengers injured in a wreck of Denver & Rio Grande west-bound passenger train No. 1 about 13 miles east of here early today, according to word received here. The dead man was Douglas Armstrong, engineer of the train.

FIRST WOMAN JURY SITS

St. Joseph, Mo., Aug. 23.—What is believed to be the first woman jury in this state was sitting here Monday in the justice court of J. W. Wilson in the case of the state vs. Mr. and Mrs. A. Husky, charged with destruction of private property. Attorneys on both sides agreed to try the case before women.

ARIZONA'S CAPITOL DAMAGED BY FLOODS

Phoenix, Ariz., Aug. 22.—Flood waters in the state capitol are slowly receding today after reaching a level of two feet in the first-floor offices of the governor and chief assistants. The damage to the capitol is estimated at \$300,000.

TO STIMULATE EXPORTS

Washington, Aug. 22.—With a number of amendments, the senate bill which will make \$1,000,000,000 available through the War Finance Corporation for stimulating the exportation of agricultural products passed the house today.

AMBUSHED IN MEXICO

El Paso, Texas, Aug. 22.—Bennett Boyd, 18, of El Paso was ambushed and murdered by bandits in Mexico on August 18th, according to messages received in El Paso by his father today. Boyd was killed at Caratas Ranch, 60 miles south of Hachita, New Mexico. He and his brother, Cecil, were kidnaped by Mexican bandits two years ago and held for ransom.

OIL MEN TO MEXICO

Mexico City, Aug. 22.—The newspaper Universal today says it is informed that heads of important oil companies of the United States will leave New York next Wednesday for Mexico City for a conference with government officials here looking to a settlement of the petroleum question.

BODY IDENTIFIED

Granite City, Ill., Aug. 22.—The body identified as Mrs. Serena Gilliland, 22, who later was found working as a waitress in a restaurant in Cincinnati, was today identified as that of Mrs. Nora Dorman, following the arrest of her husband, Arthur Dorman, and son John, 16, at Junction City. Warrants charging murder were filed against the two.

ACCEPTANCE RECEIVED

Washington, Aug. 22.—The formal acceptance by the British government of the invitation to participate in the conference on the limitation or armaments and the Far Eastern questions was received today by Secretary Hughes.

Rev. and Mrs. M. G. Johnson are rejoicing over the arrival of their first grandchild, the little lady, a daughter of Mr. and Mrs. Herbert Craddock of Maytown, arriving on the 17th. Mother and babe are doing nicely, and the Johnson household is approaching normal.

East Texas Teachers' Institute
Lufkin, Texas, Sept. 12-17, 1921

This institute marks a departure from the accepted type of teachers' institutes in Texas. It is organized as a miniature college or normal school, with a faculty of specialists, and with a group of definite courses. For Torpid Liver

"Black-Draught is, in my opinion, the best liver medicine on the market," states Mrs. R. H. Whiteside, of Keota, Okla. She continues: "I had a pain in my chest after eating—tight, uncomfortable feeling—and this was very disagreeable and brought on headache. I was constipated and knew it was indigestion and inactive liver. I began the use of Black-Draught, night and morning, and it sure is splendid and certainly gives relief."

Theford's BLACK-DRAUGHT

For over seventy years this purely vegetable preparation has been found beneficial by thousands of persons suffering from effects of a torpid, or slow-acting liver. Indigestion, biliousness, colic, coated tongue, dizziness, constipation, bitter taste, sleeplessness, lack of energy, pain in back, puffiness under the eyes—any or all of these symptoms often indicate that there is something the matter with your liver. You can't be too careful about the medicine you take. Be sure that the name, "Theford's Black-Draught," is on the package. At all druggists.

Accept Only the Genuine.

L. 79

HOUSE AGAIN REJECTS SENATE EDUCATIONAL BILL

Austin, Texas, Aug. 18.—The governor informed the senate this morning that he would send no communication to the legislature until Monday.

The house appropriations committee rejected the educational bill passed by the senate yesterday and substituted the bill as passed out of the house.

There was little work to do in either branch today.

FIGHT WITH CAR THIEVES

Beaumont, Texas, Aug. 18.—Three men are thought to have been wounded and approximately \$5,000 worth of alleged stolen property recovered this morning when special railroad officers and police battled with car thieves for half an hour in the railroad yards here.

ASHURST PROTESTS

Washington, Aug. 18.—Senator Ashurst, democrat, Arizona, announced today that he refused to participate further in the conferences on the anti-beer bill "because it is the evident intention on the part of the conferees to weaken or destroy the effect of the Stanley amendment," adopted unanimously by the senate.

WANT KAISER EXTRADITED

London, Aug. 19.—The declaration that Holland should be called upon to surrender the former German emperor was made today in the house of commons by Horatio Bottomley, independent.

Mr. Bottomley said that if the demand should be refused and the British government found itself unable to deal with the matter effectively, the government should make way for the "men of sterner stuff."

The solicitor general, Sir Ernest Pollock, declared that the punishments imposed by the court at Leipzig on convicted officers must be judged by German standards. He said that it should be remembered that the Leipzig trials were the first in the history of the world in which a vanquished country had been forced to try its own nationals charged with war guilt.

THREE HELD FOR ROBBERY OF INTERURBAN STATION

Dallas, Texas, Aug. 18.—M. E. Burton, interurban station agent at Waxahachie, was charged with theft and embezzlement in complaints filed in Justice Court in Waxahachie Wednesday morning in connection with the robbery of the station safe of approximately \$800, according to notification received here Wednesday by authorities.

Sims Burton, brother of the agent, and Art Harwell, both of Forreton, were also charged with theft in the same case. All three men are being held in jail here, and are expected to be taken to Waxahachie late Wednesday.

Burton, in a statement to officers, said that when he went to open the station early Tuesday, two masked men entered the back door, bound and gagged him and after robbing the safe of \$800, took him in an automobile about five miles from town, where he was dumped out in a clump of bushes.

ENDORSE FORD'S PLAN TO BUY NITRATE PLANT

Washington, Aug. 18.—Approval of Henry Ford's plan for the purchase of the Muscle Shoals, Ala., nitrate plant and lease the dams was urged Wednesday by James E. Smith of St. Louis, vice president of the Mississippi Valley Waterway association and other officers of that organization in conference with Secretary Weeks. Mr. Smith and his associates said they fully endorsed the Ford plan, and that if the plants are completed and their operations assured, more than 150 miles of land, rich in iron, coal and other valuable deposits would be opened to development along the upper Tennessee river.

EX-PRESIDENT WILSON GOES TO HIS OFFICE

Washington, Aug. 18.—Woodrow Wilson's first appearance yesterday at his law offices here was taken by his friends as evidence of the former president's improving physical condition. Bainbridge Colby, former secretary of state, and Mr. Wilson's law partner, also was at the new offices, where Mr. Wilson spent some time in conference with clients. The firm's quarters are not completely ready for occupancy as yet.

CONSPIRACY CHARGES IN BERGDOLL CASE

Washington, Aug. 18.—Samuel Tilden Ansell, former acting judge advocate general of the army and for prisoners as legal counsel, Colonel John M. Hunt and Colonel C. C. Cresson were charged with conspiracy in connection with the escape of grover Cleveland Bergdoll in a report signed by three of the five members of a special investigating committee filed today in the house. Ansell was characterized in a majority report as the "master mind" in a plan by which Bergdoll was released from a military prison under guard to dig for a pot of gold.

NEW MEXICO TOWN IS WIPED OUT BY FLOOD

Las Cruces, N. M., Aug. 19.—The town of Hatch, N. M., 38 miles north of here, was destroyed early yesterday by a flood following a cloudburst, according to reliable information received by the chamber of commerce here. The 500 residents escaped to the hills, most of them in their night clothes. There was no loss of life reported.

The cloudburst struck Santa Teresa, a village in the foothills, two miles west of Hatch, shortly after 3 o'clock yesterday morning. Only one dwelling was left standing at Santa Teresa.

ODD WILL FILED

Chicago, Aug. 18.—One of the oddest wills ever recorded in Cook county was filed Wednesday by heirs of the late Patrick W. Dunne, father of former Governor Edward F. Dunne. Addressed as a letter to his wife, Mrs. Sarah Dunne of Lake Forest, the will reads:

"My dear wife: In case of sudden death from violence at the hands of your brother, William H. Condon, or from other causes, I hereby declare this to be my last will and testament. I hereby leave and bequeath to you all the personal property I may possess for your use and benefit."

Mr. Dunne was 90 years old when he died last April, leaving an estate of \$10,000. Condon was at one time a member of the state legislature and was considered eccentric. Newspaper files show he once had two suits pending, one for \$5,000,000 against the Chicago and Western Indiana railroad and the other for 7 cents against a loop newsboy.

WANTS \$10,000 FOR HORSE'S WOODEN LEG

Hammond, Ind., Aug. 19.—Jacob Diamond, a peddler, Thursday filed suit in superior court for \$10,000 damages against an autoist who ran into Diamond's three-legged horse and broke its wooden leg. The suit alleges the animal was bruised and humiliated to that extent. The horse, which has worn the wooden leg for five years, has had a troubled career. On one occasion the leg caught on fire and the fire department was called to extinguish the blaze.

GRAZING LANDS WIELD CONSIDERABLE REVENUE

Austin, Texas, Aug. 19.—Land Commissioner Robison announced today that he had just received \$155,065 from the auditor of the university collected from grazing leases on university lands. This makes a total of approximately \$180,000 received from that source for the fiscal year ending August 31, 1921.

WOOD'S APPOINTMENT IS OPPOSED IN HOUSE

Washington, Aug. 19.—Opposition developed Thursday in the house to the senate bill which would permit Major General Leonard Wood to accept the governorship of the Philippines without giving up his army commission.

Representative McKenzie, republican, Illinois, said it would be a dangerous precedent to permit an active army officer to hold a civilian position.

CRUISE OF ADVENTURE FOR SCOTCH BOY SCOUTS

London, Aug. 19.—The Scotch Boy Scouts will shortly embark on a cruise of adventure such as their comrades throughout the world daily dream about, for Sir Ernest H. Shackleton, the antarctic explorer, selected them among ten competitors to accompany him on his coming antarctic expedition as cabin boys aboard his ship, the Quest. The ship will sail about September 1, to be gone two years.

LOYALTY RECOGNIZED

London, Aug. 18.—Lloyd George told the house of commons today that the recent conference of imperial premiers recognized unambiguously that Japan had loyally observed the alliance with Great Britain during the war. He asked was it right that Great Britain now turn about and say to Japan, "Thank you for the trouble you have taken, but we don't want you any longer?" There were the cries of "No!" from the commons.

LEGISLATURE RESTING

Austin, Texas, Aug. 19.—With both branches of the legislature without work pending return of the house educational substitute from the printer, the legislators are resting this morning. The bill will be returned at 2 o'clock this afternoon, when both branches will reconvene.

The governor approved all local bills of the first session today except one, which he vetoed by request of the legislators of the district involved.

ORDER FAVORABLE REPORT

Washington, Aug. 18.—A favorable report on the administration railroad bill was ordered today by the house commerce committee. An amendment provides that the act shall in no way affect the proposed government relief to farmers.

TAXES ELIMINATED

Washington, Aug. 19.—The elimination of taxes on proprietary medicines was agreed upon today by the house ways and means committee, which approved more than 60 changes in the republican tax bill.

ASPIRIN

Name "Bayer" on Genuine

Take Aspirin only as told in each package of genuine Bayer Tablets of Aspirin. Then you will be following the directions and dosage worked out by physicians during 21 years, and proved safe by millions. Take no chances with substitutes. If you see the Bayer Cross on tablets, you can take them without fear for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocyclic-acid-ester of Salicylic acid.

Everything for QUALITY —nothing for show

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins or merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

Camels are made for men who think for themselves.

Camel

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

ENGLAND'S OFFER TO THE IRISH PEOPLE

London, Aug. 19.—Lord Curzon, speaking in the house of lords today, said the government had offered all that could be given without compromising the safety of the realm, the sovereignty of the crown and the dignity of the empire. Lloyd George declared today that the British government, in making the settlement proposals to Ireland, decided upon putting the whole terms into a letter to Eamonn de Valera without keeping anything back, and the sequel proved it was right in adopting this course.

Lloyd George added: "In Ireland itself, so far as I can see, they do not so much regard the terms, but whether the government really means them. That is the question of working out the terms—of elucidation and elaboration, and not in changing the terms. The outline cannot be altered nor the basis changed."

AMERICANS' CONDITIONS ACCEPTED BY RUSSIANS

Riga, Aug. 19.—Americans are granted extreme freedom of movement and absolute control of food distribution in Russia under the detailed contracts Walter Lyman Brown and Maxim Litvinoff agreed to sign tomorrow.

MASSACHUSETTS MOB AFTER TWO NEGROES

Barstable, Mass., Aug. 19.—A mob of nearly 200 men and women, carrying ropes, early today stormed the local jail, threatening to lynch three Cape Verde Island negroes charged with highway robbery and assault upon a young white woman at Buzzard's Bay.

ROAD AID FUND IS REDUCED BY CONGRESS

Washington, Aug. 19.—By a vote of 28 to 22 the senate today adopted an amendment to the federal aid road bill reducing from \$100,000,000 to \$75,000,000 the amount available for construction next year.

GENEROUS KLANSMEN

Fort Worth, Texas, Aug. 19.—A messenger boy today delivered \$62.50 to a local newspaper with instructions that it be delivered in the name of the Ku Klux Klan to Mrs. Sally Roberts, a widow whose home was burned recently. A similar sum was delivered to the Fort Worth Welfare Association in the name of the Klan.

DIVERS REMOVE AUTOS FROM OLD STONE QUARRY

Chicago, Aug. 18.—Divers who have been working for a week removing autos from an abandoned stone quarry near Summit estimated Wednesday that there were 100 machines in the pool.

The quarry is a block and a half long and a block wide, and contains 80 feet of water. Along the edge near the road cars are piled up three and four deep, the divers reported. About 30 machines have been taken out.

CHINA ACCEPTS

Peking, Aug. 18.—China has formally accepted the invitation to attend the Washington disarmament conference in a cordial reply announced today.

BURNS IS CHIEF

Washington, Aug. 18.—The appointment of William J. Burns as director of the Bureau of Investigation of the Department of Justice was announced today by the attorney general.

SAYS MURDERER CAN BE PRODUCED IN FIVE DAYS

Los Angeles, Cal., Aug. 19.—Ralph R. Obenchain, former husband of Mrs. Madelyn Obenchain, may be called before the Los Angeles county grand jury to tell what, if anything, he knows of the Kennedy murder, Asa Keyes, deputy district attorney, announced today, following the publication of interviews quoting Obenchain as saying the "real criminal" could be produced within five days. "If Obenchain knows who killed Kennedy, the district attorney's office would like to know also," Keyes said.

DANGEROUS PRECEDENT, SAYS WAR COMMITTEE

Washington, Aug. 19.—The bill designed to authorize Major General Wood to become governor general of the Philippines without retiring as an active officer of the army was tabled today by the house military committee without a record vote. The committeemen are said to have held that it would be a dangerous precedent to establish.

DEVOE

BARN PAINT

You are losing part of your barn every day!

SUPPOSE the neighbors' boys came to your barn every so often and ripped some boards away. Wouldn't you stop them? Of course! Yet every minute of the day, a part of your barn, your silo, your outbuilding, is being lost by the action of the elements gradually destroying unpainted or poorly painted surfaces.

Protect the surface with a coat of Devoe Barn Paint. It puts a hard, durable film between the wood and the weather; lengthens the life, improves the appearance and increases the value of the buildings. DEVOE PRODUCTS are fire-tested and proven—backed by 106 years' experience of the oldest paint manufacturing concern in the U.S. Founded 1754.

Sold by the Devoe Agent in your community

Getting Rid of That Nuisance---Urticaria

(Thursday Health Talk No. 18.)
(By R. W. Zilar, D. C.)

"Whenever I eat cucumbers I have hives," is a commonly heard statement among sufferers from this skin disease.

Yet cucumbers do not cause hives. If they did, everybody who eat them would have the hives. The truth about URTICARIA (hives) is that it is due to the stomach and kidney weakness. Whenever a person is found to have hives that person is invariably found to have misalignment of spinal joints causing pressure on spinal nerves to the stomach and kidneys. When by Chiropractic spinal adjustments this pressure is removed the stomach and kidneys resume normal activity and the hives disappear.

What is eaten, whether it is cucumbers or what not, cannot cause hives unless the stomach is weak and the kidneys underactive. Hives are caused by poison in the digestive tract which because of poor elimination (inactive kidneys) allows the poison to be retained under the skin.

SUFFERED FOR YEARS

"For years I suffered so badly that life was a burden. I began Chiropractic without much faith, but improvements began immediately. The itching subsided. Today I sleep soundly and my whole physical condition has been restored to normal."
—Mrs. C. Anderson, Chiropractic Research Bureau Statement No. 1248-C.

Miss Addie Blake of Maytown is the guest of Miss Tommie G. Hooks for the week.

Mr. and Mrs. R. C. Monk are visiting Mrs. Monk's mother, Mrs. Lookabaugh, at Frankston.

Mrs. Hollis Mast and son returned Wednesday from Shreveport, after a week's stay.

Mr. E. L. Thrash, merchant of near Appleby, was in the city Wednesday buying goods.

Mr. Jennings Bryan and family spent Wednesday in the city, the guests of Mrs. K. P. Branch.

Mrs. R. A. Campbell was at Camden for a week-end visit with her husband, who is located at that point.

Miss Lucy Pierson of Waco is in the city for a visit with her sister, Mrs. G. Wustenbacher.

Mr. J. N. Hensarling, one of the industrious and successful farmers of Melrose, was a visitor in the city Thursday morning.

Messrs. J. L. Murdock and Oscar Justice, who are among the good farmers of the Martinsville community, were in the city Wednesday.

Miss Laura Bell has returned to her home in Garrison, accompanied by Miss Thelma Watson, whose guest she had been while here.

Mr. Tom Crawford of Mayer & Schmidt's returned Saturday from a week's business trip to Beaumont and Houston.

Miss Vera Roy, who had for a week been the guest of Miss Ola Gaston, left Monday for her home in Lake Charles, La.

Mr. and Mrs. Blum Mast left Sunday for a vacation trip to Chicago, New York and other Northern and Eastern points.

Mr. and Mrs. S. C. Choate, Watson Wheeler and Dr. R. B. Booth of Grigsby were in the city Monday on business.

Mrs. Mollie Drewery and daughter, Miss Willie, of Alto, arrived Sunday for a week's visit with the former's daughter, Mrs. Joe Rogers.

Messrs. Ben Brown and G. C. Hall, two progressive and prosperous farmers of the Melrose community, were business visitors in the city Wednesday.

FINE WATERMELONS

The finest watermelons brought to Nacogdoches this season came in Friday morning from the farm of Mr. H. D. Power, near Alto. They were of the Russell's Improved variety and were sold to Thomas & Grimes, their huge size attracting much attention, and they met with ready sale. One of these melons weighed eighty-seven pounds, and the others ranged in size from forty to the above figure. Mr. Thomas favored the Sentinel force with a sample of these melons, the one presented us weighing 62 pounds, and its "meat" was simply fine.

Mr. Power is growing this year seven acres of these melons in one patch and four acres in another, and it is said the ground of these patches is literally covered with melons weighing from 40 to 90 pounds. If you decide to plant melons, why not plant the best?

When you feel lazy, out of sorts and yawn a good deal in the day time, you need Herbine to stimulate your liver, tone up your stomach and purify your bowels. Price 60c. Sold by Stripling, Haselwood & Co.

ROSSMEYER-PENTICOST

Mr. John Rossmeier and Miss Gertrude Penticost of Rockland were married in the county clerk's office about noon Wednesday by Judge Frank Huston of this city. Mr. Rossmeier is a locomotive fireman and a young gentleman highly esteemed by those who know him, while the bride is a young woman very popular with people of the community in which she resides.

ONE STALK OF CORN HOLDS NINE BIG EARS

W. J. McCann, a well known farmer of the Cotton Ford Crossing community, brought to Center Wednesday a stalk of corn which contained nine fully developed ears of white corn. The stalk is on exhibit at John C. Rogers drug store. The corn is of the Hastings Prolific variety.—Center Champion.

Purity and healing power are the chief characters of Liquid Borozone. It mends torn, cut or bruised or scalded flesh with wonderful promptness. Price 30c, 60c and \$1.20 per bottle. Sold by Stripling, Haselwood & Co. b

WHAT EVER YOU DO—read the weekly HEALTH TALKS by Dr. R. W. Zilar, the Chiropractor. Look for the CLOCK.

Bill Chburn, an enterprising citizen of Lufkin, languishes in jail here charged with the theft of five electric light globes from the front of the Queen theatre. Bill took this loot to the railroad station and, persuading Mr. Spencer of the Depot restaurant that he was the rightful owner of the property, old the globes to him at an attractive price. Sheriff Woodland got on the track of the alleged purloiner, located him at the station and arrested him. Thelght globes were recovered.

Ham-Stein.

Mr. William Ham and Miss Mae Stein of Sacul were married in the county clerk's office at the courthouse at 11 o'clock Saturday morning, August 20, Rev. J. L. Massey of the Methodist church officiating.

A young man named Skeeters, whose home is at Appleby, ran his motor truck into the car of Sheriff Woodland early Friday night and made an almost total wreck of the sheriff's machine. The Wood car was driven by young Floyd Woodland, who was close to the curb in front of the Summers Lumber Company's office, on West Main street, when the collision occurred.

Nineteen teachers were in the city early Friday morning to attend the examination being held by the county superintendent.

She Was at Home
A small boy was scrubbing the front porch of his house the other day when a lady called.
"Is your mother in?" she inquired.
"Do you think I would be scrubbing the porch if she wasn't?" was the rather curt reply.—O. E. S. Bulletin.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbes which is the cause of the eruption, thus curing the disease completely.
Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.
In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.
Small size 50 cents bottle, Large size \$1.00
JAMES F. BALLARD, Prep. St. Louis, MO.

DODSON'S LIVER TONE INSTEAD OF CALOMEL

Calomel is quicksilver. It attacks the bones and paralyzes the liver. Your dealer sells each bottle of pleasant, harmless "Dodson's Liver Tone" under an iron-clad money-back guarantee that it will regulate the liver, stomach and bowels better than calomel, without salivating you—15 million bottles sold. 63

Mrs. M. J. Fountain returned Wednesday to her home in Dallas, after a visit of several weeks with relatives in this section, including her son, Mr. Dee Brown and her sister, Mrs. J. A. Pirtle of Nacogdoches, and her daughters, Mrs. Lem Martin and Mrs. John Patterson, who reside east of Garrison.

FOR SALE—153 acres of land all under fence. About 6c in cultivation and 30 in Bermuda grass. Good 3-room house, 2 good barns, dipping vat. Also 74 foot cow barn. Plenty of ever-lasting spring water. Situated on highway near Martinsville and good school and churches. E. L. Hall. 7-6-wtf.

Mrs. J. B. Garrison visited her mother at Nacogdoches Monday.—Garrison News.

Catarrh Can Be Cured

Catarrh is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the Blood on the Mucous Surfaces of the System. HALL'S CATARRH MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work.
All Druggists. Circulars free.
F. J. Cheney & Co., Toledo, Ohio.

"Buffalo Bill, where do you get saddles and pads for your Rough Riders?"

From Waco, Texas, made by Tom Padgett Co.—Over fifty years in business—they don't hurt your horse.

(Padgett's ad has been carried in the Halton papers for over forty years.)

NEARLY ALL PROBLEMS RESOLVE THEMSELVES INTO THIS:

- (1)—We have something to sell.
- (2)—Who are most likely to buy it?
- (3)—How can I get them to buy it?

Sounds simple, does it not? And it is simple. But it requires some thinking. We are going to ask you to do just a little thinking. When you want a Kodak—think. There is only one Kodak. You have often seen objects that you wished you had a picture of. If you had had one thought before you went out you would have had a Kodak and could have taken those pictures. Don't let that happen again—think what you need on each outing or trip. We have the only Kodak that is sold and if you will think a little you will buy. All sizes and prices.

Stripling, Haselwood & Co.

Miss Ruby Dennis has returned from an extended visit with her aunt, Mrs. R. E. Schumate, at Port Arthur.

Mrs. Charlie Watkins and Miss Tessie Campbell of Douglass were shopping visitors in the city Tuesday.

Miss Mattie Eula Gaston returned Friday from a visit with friends at Alto.

Mrs. D. C. Hackney and daughter, Maud Keller, of Houston, are spending a week with the former's mother, Mr. Hugh Davis.

Misses Lucille and Louise Tipton of Troup left for home Tuesday after a visit of two weeks with relatives in this city.

Miss Ella Ray of Cushing has accepted a position on the sales force of Tucker, Hayter & Company's, entering upon her duties Monday.

Mr. John Teutsch is making good progress from a protracted illness, a fact which is very gratifying to his many friends.

Mrs. E. Reynolds of Conroe was in the city Wednesday en route to Garrison and points in Rusk county for a visit with relatives and friends.

Miss Exier Lewis, county superintendent of schools, and Miss Era Mae Kelley, her assistant, made an official visit to Cushing Wednesday afternoon.

Miss Rena Richards returned Tuesday afternoon from a vacation spent at Houston and Galveston and Wednesday morning resumed her position in Dr. Zilar's office.

Miss Mabel Grey was in the city Wednesday en route from Dallas to her home in Garrison. Miss Grey will be one of the teachers in the Nacogdoches High School next term.

Rev. J. H. Swann of San Angelo, former rector of Christ Church in this city, is here visiting old-time friends and parishioners. He is a guest of Mrs. C. D. Atwell, Mrs. Eugene Blount and Mrs. J. Thos. Hall.

Mrs. M. T. Sisco, who resides six miles east of town, was stricken with a serious illness early Wednesday morning, and her sister, Mrs. Joe Harris of this city, was hurriedly summoned to her bedside.

BOOTLEGGER CAUGHT

Sheriff Woodlan and Deputy Booth made an important arrest Saturday night when they caught Mich Cortinas, a Mexican, at his home on the Douglass road, and took from him one quart and six pint bottles of liquor. The officers, with another man, drove up to the Mexican's house and the latter bargained with him for a quart of shinney, which Cortinas brought out to the car and delivered to his customer. He was then arrested in the act of disposing of the illicit goods and a search discovered the six pint bottles in his house.

Cortinas was brought to jail, but on Sunday succeeded in making a \$500 bond for his appearance before Justice Huston next Saturday and was released. The officers think that in this capture they have broken up one of the worst bootlegging quarters in the county. It is thought a large portion of the supply which has been so difficult to trace had its source at this place.

Cured of Stomach Trouble and Constipation

Rachel Cribley of Beaver Dam, O., was sick for two years with stomach trouble and constipation, taking one medicine after another with only temporary relief. "My neighbors spoke so enthusiastically of Chamberlain Tablets," she says "that I decided to get a bottle of them at our drug store to try. A few days treatment convinced me that they were just what I needed. I continued their use for several weeks and they cured me." Stripling, Haselwood & Co.

J. Eichel left Sunday for New York and other points east where he expects to spend the next two or three weeks selecting and buying merchandise for his store. Mr. Eichel has enjoyed a splendid business this season and goes to the market expecting to make heavy purchases. He will make early selections and have many up-to-date dresses and other articles sent out immediately by express in order that his customers may have advantages of the early fall styles.

Child Cured of Bowel Trouble

A child of Floyd Osborn, Notary Public of Dunganon, Va., was taken with bowel trouble. Mr. Osborn gave it Chamberlain's Colic and Diarrhoea Remedy and it quickly recovered. In speaking of this remedy he says, "It is the best I ever used." Stripling, Haselwood & Co.

While taking a stroll down the H. E. & W. T. railroad Sunday morning Constable Wade Walters' attention was attracted by a trail through the tall grass bordering the right of way, and upon investigation found two half-gallon jars of shinney concealed under a willow bush. He remained on watch until about 3 o'clock in the afternoon, when hunger and thirst drove him home. He says the owner of the shinney can have it by paying for this advertisement and calling at the sheriff's office for his property.

NACOGDOCHES TRADITIONS

(By J. E. Mayfield, M. D.)

The Baptists in Texas are in the swim, as well as in the water. They are about to erect a big sanitarium on the biggest hill in the best part of San Antonio, called Dignowidly Hill. And again they have struck camp where there is much water and good grazing away out West among the dry, arid hills and picturesque scenery of the country called Real, accenting the al. In the lingo of the old-time Methodist song, there is a "Big Camp Meeting Over Yonder."

The camp ground is named Alto Frio. This is Spanish and means High Cold, but the name is taken from Rio Frio. It is due an apology to the important and time-honored old town of Alto in Cherokee county.

Alto Frio is about forty miles northwest of the town of Uvalde, which latter is about 90 miles west of San Antonio, and is reputed to have the most attractive features, as to cool temperature in hot weather, lovely surroundings and scenery, and divers others charms for divers and other fun-lovers. Alto is a popular name.

But let us keep an eye on our own Alto. It, too, is connected with the name Real—Camino Real, the famous old San Antonio Road which passed through the southern suburbs of the old town, but now runs more to the north. Bob Mitchell of Douglass settled the town about the year 1840 on the highest hill thereabouts, and named it Alto, meaning High. He built a blacksmith shop and his first residence on the south side of this road where it now runs as he turged it. Afterwards the old Mitchell Hotel was built across on the north side of the road.

The historic Peter E. Bean, alias Ellie P. Bean, had long before had his home on his headright survey of land, about two miles southeast of there, and the two Durst brothers, Joe and Jim, had homestead further eastward near Linwood. These and other settlers used the original old Indian road or trail crossing the Angelina river as used long before by the Tejas Indian villages.

Mrs. W. D. Peevy can tell about the Durst and Bean families and their eventful history. She lived over there in her girlhood, and was married there. Dr. George S. Hyde also lived there when he was a young married man. Col. Thos. J. Jennings, his brother-in-law, also lived there. And there were other well-known old settlers there. One of these was Newt Huston. Others were the Harrisons, Armstrongs and Musicks, the Walters and Bryrman families, the Terralls and Wolfs, Sellmans, the Matthews and McKnights. Indeed, Alto is a very old settled locality, and has had important events.

Recently there was talk about the Cherokee Indians claiming that Cherokee county belongs to them. This elicited a formal exhaustive and authentic history of the county, which was published in the Alto Herald and other Cherokee papers.

It was well written and formulated and it made good reading. But it did not address itself to Alto except as to some of the original first settlers in the vicinity north of there. It was at Alto that Judge John H. Reagan read law and began active life. An important business point evolved from a traditional has-been.

Has Never Seen Their Equal
"I have used Chamberlain Tablets for stomach trouble, biliousness, and constipation off and on for the past ten years. I have never seen their equal yet. They strengthened my digestion, relieved me of headaches and had a mild pleasant action on my bowels. I take pleasure in recommending them" writes H. D. F. Parmenter, Cidersville, Ohio. Stripling, Haselwood & Co.

The Sentinel acknowledges the receipt from President F. M. Bralley of the College of Industria Arts, Denton, of an invitation to attend the commencement exercises of the graduating class on August 26, 1921. This is one of the most important of the state's educational institutions and is doing a work of incalculable value to the entire country in the training of young women for the responsibilities which will fall upon them as home makers and as workers in the business field.

Chamberlain's Colic and Diarrhoea Remedy

This is unquestionably one of the most successful medicines in use for bowel complaints. A few doses of it will cure an ordinary attack of diarrhoea. It has been used in nine epidemics of dysentery with perfect success. It can always be depended upon to give relief in cases of colic and cholera morbus. When reduced with water and sweetened it is pleasant to take. Every family should keep this remedy at hand. Stripling, Haselwood & Co.

MERCHANT TELLS OF A REMARKABLE CASE

Writing from Maxeys, Ga., A. J. Gillen, proprietor of a large department store at that place, says:

"I have a customer here who was in bed for three years and did not go to a meal at any time. She had five physicians and they gave her out. One bottle of Tanlac got her up, on the second bottle she commenced keeping house and on the third she did all the cooking and housework for a family of eight."

This sounds really incredible, but it comes unsolicited from a highly creditable source and is copied verbatim from the letter.

Tanlac is sold in Nacogdoches by Stripling, Haselwood & Co., and in Garrison by the Dale Drug Co.

W. F. CARNES

Word was received in the city Wednesday of the death at 6 o'clock of Mr. W. F. Carnes, aged 77 years, at his home six miles east of town.

It was learned that interment would be made in Fairview cemetery Thursday, the hour not named.

Mr. Carnes is survived by his wife, six daughters and two sons, Mrs. Laura Grayson, Mrs. Kate Muckleroy, Mrs. John Muckleroy, Mrs. O. B. Muckleroy, Mrs. Att Pruett and Miss Grace Carnes and Mr. Dan Carnes of Tyler and Rev. Dennis Carnes of this county.

SUIT AGAINST COUNTY

K. E. Barham, through his attorney, S. M. Adams, on Monday filed suit against Nacogdoches county for \$2,876.27, alleged to be due him under the terms of a contract for services as engineer in highway construction now in progress in the county.

MAKE YOUR OWN SUCCESS

Let your own ability carry you to the top. But let us coach you in the preparation, for we know how. Don't start the climb without a thorough training in modern business methods. It will save you untold time and money. Our courses are the most thorough, complete and practical to be found, and are giving in the shortest possible time. The training is worth months of effort—but why spend months in another school when you can get it in weeks here. With the best and most modern systems of business training known, their merit proven by the wonderful growth of our institution, with the most capable teachers that can be had, and complete, up-to-date equipment in all departments, we will prepare you in a short time and at a small cost to take a position, which we will secure, that will lead to your success if you make the most of it.

We offer you the opportunity. Will you take advantage of it? Your time and money spent in securing the business education we will give you will be the best investment you can ever make. THINK! ACT! You'll never get ahead by following the crowd that hesitates. The old adage that "Success comes to those who wait" is not true in these days. Success never comes—it is always going. It is up to you to catch it, and to do so you must prepare yourself. There are always plenty of positions for competent persons.

Fill in and mail the coupon for large free catalogue and full information about our courses and what we can do for you.

JUST A COMMENT

Dr. H. H. Harrington, formerly president of the A. & M. College of Texas, a Mississippian by birth, a gentleman and scholar by training and by instinct and, withal, one of the brightest minds and clearest thinkers in Texas, said in a recent issue of the Progressive Farmer.

"East Texas is a livestock country and under proper conditions a corn country. It is not a cotton country, and I wish the good people over there would quit trying to make one out of it."

Study seriously the result of the all-cotton system for the past twenty-five years, and I believe you'll agree that Dr. Harrington is a wise counsellor.

H. L. McKnight

Donald B. Atwell, son of Rev. and Mrs. C. D. Atwell, arrived home Wednesday morning at 1:43 from Urbana, Ill., to spend a brief vacation. Mr. Atwell is a senior at the University of Illinois, taking a course in ceramics engineering. Illinois is one of the four colleges in the United States having this course. Mr. Atwell spent 30 months out of his college course while serving in the army.

THE PRESBYTERY

OF JEFFERSON

The Presbytery of Jefferson, of the Presbyterian church, U. S. A., will meet at the Friendship church, Nacogdoches county, near the town of Cushing, on Friday night, September 9, 1921 and embrace the Sunday following.

On Sunday, September 11, at the morning hour, by unanimous vote, the Presbytery will hold a Memorial Service in loving honor of the late Rev. G. W. C. Self, H. R., who had been in the active ministry of the church for 42 years, and was loved and honored by all who knew him. All the friends of Brother Self, whether Presbyterians or not, are requested to come to the service.

In view of the fact that the crowd will be larger than any one community could entertain in their homes, all are requested to bring their dinners and have a great service with "Dinner on the Ground". The friends of Brother Self are raising a fund of "One Dollar From Each" with which to place a monument over his grave.

M. C. Johnson,
Stated Clerk.

Fire in a dry kiln at the Bonita Lumber Company's plant in the northwestern suburbs called out the department at 5:45 P. M. yesterday afternoon, and he boys fought a hotly blaze when they arrived. The hose was attached to a plug at the City Light & Water plant, several hundred feet away, and in just 16 minutes from the time the siren sounded there was a stream of water playing on the fire, which was remarkably good time, considering the distance from the station and the obstacles in the way of laying the line, which had to be taken through sheds, around lumber piles etc. It had been an unusually warm day, and this, added to the intense heat from the flames, made the job an exceedingly uncomfortable one, but some of the boys climbed a ladder at a corner of the kiln right in the face of the spurting fire and soon had it under control. One of the company, Mr. Lee Axley, was overcome by the heat and had to abandon his post. The others managed to "stick it out" and they deserve credit for their splendid work, hampered as they were by a temperature which was well-nigh unendurable.

Good appetite, vigor and cheerful spirits follow the use of Prickly Ash Bitters, the remedy for working men. It purifies the stomach, liver and bowels and makes work a pleasure. Price \$1.25 per bottle. Stripling, Haselwood & Co., Special Agents. pa

MRS. S. M. HICKMAN

Word was received here this morning of the death in Victoria, Texas, Monday of Mrs. S. M. Hickman, aged 66 years.

Deceased was the mother of Mrs. Pat Murphy, Mrs. Lula Stanley and Mr. Austin Hickman of this city, all of whom were with her when she passed away.

Interment was made in Victoria Tuesday.

Friends of the family extend sincere sympathy to the bereaved ones in their grief.

Born—To Mr. and Mrs. D. B. Hazen, on Thursday, August 18, 1921, a daughter. Mother and babe are doing well.

A REMARKABLE FEED CROP

Mr. M. M. Graham has demonstrated that the sandy soil of Nacogdoches can be made to produce splendid feed crops. Orton Hill, just east of the city, is known and recognized as a typical example of our "poor" sandy soil. Mr. Graham planted this land in corn and peanuts, spacing his corn rows seven and one-half feet with a row of peanuts in between the corn rows. H. L. McKnight, county farm demonstration agent, states that it is one of the best feed crops to be found anywhere in Nacogdoches county. He estimates the yield of corn at eighteen bushels per acre and states that the peanuts will produce a like amount of feed, which makes the equivalent of a yield of thirty-six bushels of corn per acre. This crop was planted without fertilizer and furnishes an excellent illustration of what can be accomplished by good crop managing. Mr. McKnight has secured a picture of this crop and will include this picture in his annual report to the government.

Grains are plentiful in the summer air, we breathe them every minute. In health they do no harm, but to those who have a bad liver, disordered stomach or constipated bowels they mean a spell of sickness. The best way to insure your health is to take Prickly Ash Bitters. It purifies and strengthens the system. Price \$1.25 per bottle. Stripling, Haselwood & Co., Special Agents. pa

County Judge Marshall and Commissioner Stoddard, accompanied by Messrs. H. L. McKnight and Eugene Blount, went to San Augustine Thursday to confer with San Augustine county officers with reference to a county-line bridge over the Attoyac river, a contract for the construction of which was let to the Illinois Steel & Bridge Company, the amount involved being about \$17,000. This bridge will be 120 feet long, of steel, with a 100-foot center span and concrete floor. It is hoped there will be no delay in the completion of the struc

FLATT-BRITTON

Mr. J. W. Flatt and Miss Adelle Britton of Center were married at 5 o'clock Monday afternoon by Judge Frank Huston in his office at the courthouse.

There must be something out of the ordinary in Judge Huston's manner of tying the nuptial knot, as candidates come from Tyler, Angelina, Rusk, Shelby and other nearby counties in Texas, and even as far away as Mansfield, La., have sought his services.

That "all in" feeling so common in hot weather is not due to heat alone but to an unhealthy condition in the liver, stomach and bowels. To prevent a spell of sickness take Prickly Ash Bitters. Men find it excellent as a system cleanser and regulator. Price \$1.25 a bottle. Stripling, Haselwood & Co., Special Agents. pa

HOT AT LUFKIN

Yesterday was perhaps not the hottest day of the season, but the mercury in the little glass tube flirted right around 95 in the shade for several hours while the flirting was good. The climate being so much milder than that of Nacogdoches, it would not be surprising to hear of a number of heat prostrations in that town yesterday.—Lufkin News, 22d.
