A STURDY OAK HAS FALLEN

Editor Sentinel:

In the passing of the veteran and excellent man and citizen, James Harris, at his home near Melrose, a few days ago, a sturdy oak has fallen. Too much could not be said in praise of this good man, whose life was one of peace, love and service to his fellowman and his Maker. He trod the humbler paths of life and his days were spent working in the footsteps of the lowly Nazarine. The writer knew this good man forty years and in all this time he never heard one harmful word said of him, nor was anything ever said by him, of a harmful nature toward any human being. Plain, humble, deeply religious, his entire life was an anti-em full of glorious melody, attuned to the music which all the just and faithful shall hear, when they put on their mortality and walk in the mansions of the blessed beyond the river. No more shall his withered form be seen around old Melrose where he spent so many years of his long life; no more shall his kindly words be heard in greeting by his friends; no more shall his voice be lifted in prayer or in song at the Baptist church which he loved so well, but all who knew and loved him, and all who knew him loved him, know and feel for sure, that beyond the pearly gates the pure spirit of Jim Harris has joined the great throng, who clap their hands and sing forever the praises of the Lamb that was slain.

RAILROADS AND STRIKERS GETTING TOGETHER

Chicago, Sept. 20.—Increase in pay of one and one-half cents per hour has been granted by the Chicago & Alton Railroad to its clerks, freight handlers and station employees, it was announced today. Shop forces of National railways are gradually increasing to normal size according to indications. Twenty thousand strikers are due to return to the New York Central shops under terms of the Baltimore agreement was the result of yesterday's settlement. Four hundred and fifty shopmen on the San Antonio & Aransas Pass are due to return to work tomorrow under an agreement signed yesterday. They will go back virtually as new men.

PRESIDENT VEToes BONUS

Washington, Sept. 20.—The soldiers' bonus bill was vetoed Tuesday by President Harding.

In returning the measure to congress without his approval, the executive, in a message to the house, declared that he was in accord with the purposes of the bill, but he could not subscribe to its provisions.

Outlining the reasons for his veto the president said that congress had failed, first of all, to provide the revenue from which the bestowal was to be paid. He added that the ultimate cost could not be estimated definitely, but that the treasury figured the total at \$75,000,000 for the first four years with a final charge in excess of \$4,000,000,000.

Against Certificates

Harding told congress on the proposed service certificates substituted for the original cash payment, would constitute borrowing on the nation's credit just as truly as though the loans were made by direct government borrowing. He added that this involves a dangerous abuse of public credit.

The executive declared that it was essential "to remember that a more than \$4,000,000,000 pledge to able service men would not diminish the later obligation which will have to be met when the veterans contributed to the rolls of the aged, indigent and dependent." This obligation, he said, would "cost more billions than I venture to suggest."

TURKISH DICTATORSHIP CONTINUED

Constantinople, Sept. 20.—The Turkish Nationalist Assembly at Angora by an overwhelming majority has extended the dictatorship of Mustapha Kemal Pasha. It has authorized him to continue war until all conditions prescribed in the national pact has been fully achieved.

AGREEMENT ASSURED

Paris, Sept. 20.—Agreement between Great Britain and France on the Near Eastern problem seemed reasonably assured after a conversation between Premier Poincare and Lord Curzon, British foreign secretary, at the Foreign office this afternoon. Poincare informed Curzon that the French policy was pacific, and urged the immediate calling of a peace conference for a final settlement on the basis of the Turks remaining on the Asiatic side of the Dardanelles pending the outcome of the conference.

INVESTIGATE RANGERS

Austin, Texas, Sept. 20.—Ranger Captain Aldrich has been sent to Thurber, Erath county, and Mangum, Eastland county, by Adjutant General Barton to investigate the actions of state rangers on duty at the mines there, it was announced today. This action followed protests to Governor Neff from the miners' union officials that the rangers were molesting the miners.

AID FOR MINERS' FAMILIES

Jackson, Cal., Sept. 20.—The West today had turned its attention to relieving the plight of the families and dependents of the 47 men who died after being imprisoned by fire in the Argonaut mine. The rescue crew continued to bring bodies to the surface today. Funds for the stricken families already is coming in. Thirty-eight bodies still remaining early today in the mine.

Mr. J. D. McKnight of Dialville is in the city for a visit with the family of his brother, Mr. H. L. McKnight.

THE ENTOMBED MINERS WERE ALL FOUND DEAD

Jackson, Cal., Sept. 19.—Jackson today awaits the bringing of the bodies of the 47 entombed miners from the Argonaut mine. All died early in the morning of August 28th, it was learned last night. The bulkheads erected by the entombed men were found by the rescue crews yesterday, with these broken through, the bodies were found. Notes left by two of the unfortunate miners showed that they had lived but little more than three hours after erecting the barricades. Identification will be difficult because of the condition of the bodies; Jackson took the blow calmly.

Bringing Up the Bodeis

Jackson, Cal., Sept. 19.—The first bodies will be brought to the surface in the Ktnedy mine late today. The process will take about two hours to each body.

NACOGDOCHES TRADITIONS

The Oscar Engledow homestead, as an old landmark worthy of special note, was not concluded in my previous item, because it would be too lengthy. But there could be much more said. Reference could be made to the occupants and users of the home since the Engledow days. Dances and frolics, weddings and births, funerals and various social functions, could be recited. The environment of the early period caused customs different from those of the present. Land titles were peculiar in form and nature. The records of old land titles, as shown in the archives of the county clerk's office, contain many interesting papers reaching back to about the year 1800. Vital Flores was one of the earliest owners of the Oscar Engledow lands. He may not have been the original grantee from the Spanish government. He bought it from the historic Ellis P. Bean, who was also called Peter E. Bean, about the year 1829. These two owners were probably occupants of the land for brief periods of time. Bean afterwards lived in the Graham prairie and again lived near Alto, where he left his family and went to Mexico and never returned. Dr. Engledow obtained title from the Bean estate.

The importance of the place was largely due at first to the fact that the old original San Antonio road ran by it, and it is so marked now. There was then no other main road running east and west through the county. The present Melrose road had not then been used. It came later and was known as the Lower Melrose road while the older road was called the Upper Melrose road or the Neal Martin road. It was a fraction of a mile nearer than the lower road, and did not have so many hills, swamps nor hollows on it as did the lower road, which later acquired more settlers and more travel and popularity.

Traces of the old San Antonio road through the Engledow lands are to be seen there yet, where the road has been abandoned nearly a century. Relics of the pioneer days have been found there, such as fragments of fire arms, bridles, cutlery, etc. On an old hackberry tree were found the initials of Sam Houston and a date back in the '40's—cut with a knife. This may be romance. J.E.M.

CHIRENO FAVORS ROAD PLANS

Secretary McKnight of the Chamber of Commerce reports that the people of Chireno passed favorably on the proposed road improvement project when it was presented to them at a meeting held there Monday morning. Fifteen citizens gathered in front of Perry's store, where Mr. McKnight displayed the large road map on which the proposed improvements is outlined. After a careful study on this map and the figures accompanying it, the fifteen citizens voted unanimously in favor of the project.

The Chireno people are the first group of our citizens now enjoying a hard-surfaced road to pass on this project. They showed their fairness and liberality "right off the bat" by saying, "Yes, we are willing to help our less fortunate neighbors and friends to get a hard-surfaced road. We are simply lucky in getting our road built, and we certainly could not and would not vote against an additional tax sufficient to build roads to Martinville, Etolle, Cushing and other communities.

BONUS BILL PASSED BY HOUSE OVER VETO

Washington, Sept. 20.—The House passed the soldiers' bonus bill today over President Harding's veto. In his message to the House yesterday President Harding based his veto largely on the ground of failure by congress to provide a method of financing and a consequent heavy drain it would prove on the treasury. He said the interest on the foreign debt could not be helied on and asserted the treasury faced a deficit of six hundred and fifty million dollars this fiscal year and even a further shortage the succeeding year.

The vote was fifty more than the necessary two-thirds majority.

BRITAIN MAY ACT ALONE

London, Sept. 19.—The British cabinet takes the attitude that Great Britain will undertake military action alone if necessary, independently of France and Italy, to protect the freedom of the Dardanelles, it was authoritatively stated after today's cabinet meeting. An official communique issued from Downing Street declares the government stands by its pronouncements of policy, issued Saturday, that the freedom of the Dardanelles would be protected.

France Opposes War

Paris, Sept. 19.—The French cabinet today approved what is characterized as the pacific policy of Premier Poincare in the Near East in the withdrawal of all French troops from Asia Minor to the French side of the straits of the Dardanelles. The cabinet went firmly on record as being opposed to any form of military action as a means of settlement in the Turkish-Greek situation.

RESOLUTIONS OF RESPECT FOR NACOGDOCHES BOY

The following resolutions were passed by the recent session of the Jasper County Teachers' Institute.

Ivy J. Hargis will be remembered by many of our people. He was born at Attoyah, this county, where he grew to manhood and where he begun his career as a teacher. He belonged to one of the largest families in the county and leaves hundreds of friends to mourn his untimely death:

Resolutions of Respect

We your special committee on resolutions of respect beg to submit the following.

Whereas. During these several years of service, his loyalty to his profession has won for him the very greatest esteem of the friends of education.

Whereas. During the last two years of his life and his public service, though they were years of physical pain and misery, he performed the duties of his office as county superintendent with never a murmur of pain, and with a spirit of good cheer at all times; and

Whereas. This spirit of good cheer and faithful endurance has won for him the admiration of all men, and the support of a majority of the voters of Jasper county in the recent election wherein he was nominated to serve his second term as county superintendent of public instruction of Jasper county; therefore be it

Resolved, That the foregoing measures be adopted by this institute in one general resolution of respect for the deceased, I. J. Hargis. Be it further

Resolved that three copies of this resolutions be made, one of which shall be given to the family of the deceased, one to be spread upon the minutes of the county board of education of Jasper county and a third to be published in the county papers.

GERMAN FUGITIVES CAUGHT

New York, Sept. 19.—Arthur Hillman and Victor Mulucha, German citizens, wanted by the German police, were hurried on board the Resolute by armed deportation officers just before that vessel sailed today for Plymouth, Boulogne and Hamburg. They arrived a short time before under guard from Galveston, where they had come from Mexico. They had been in jail in Mexico since their arrival there a month ago. They escaped and swam across the Rio Grande at Laredo. They were captured by American immigration inspectors.

WAR DRUMS ROLL AS ARMED HOSTS GATHER

Paris, Sept. 18.—The menace of another world war gripped Europe Saturday night.

Wires between a dozen European chancelleries burned with diplomatic code messages.

Lights winked in a score of legations and embassies in Paris as staffs, hastily recalled from the summer's pleasures, worked over secret telegrams.

Suppressed excitement unequaled since the summer of 1914 was in the air.

A war avalanche in the Balkans and the Near East threatened to involve at least 10 nations and the situation was authoritatively described by a high government official as just as grave as the month before the world war. The possibilities of upsetting Europe's shaky peace are just as serious, this official declared; the consequences will be just as far reaching.

The Nations Involved

Wild rumors ran through Paris Saturday evening that certain nations were mobilizing. They were promptly denied by interested legations.

The 10 nations that may be swept into a maelstrom of war were said to be:

France, Great Britain, Turkey, Greece, Roumania, Bulgaria, Serbia, soviet Russia, Jugo-Slavia and Italy.

Nintchich, Jugo-Slav foreign minister, announced his nation would back any settlements reached by France and England.

Venizelos continued his conference with the partisans, reiterating a warning that Greece may switch and join a Turk-Russian combination.

U. S. to Keep Out

Washington, Sept. 18.—The United States is entirely free of any entangling political commitments that might involve it in the Near East situation and the only policy the administration has with respect to it is to remain free, it was stated Saturday night in a responsible official quarter.

The administration has not considered officially the possibility of American involvement, either in the political situation, or in a Turk-European war should that occur.

Officials declined to answer questions as to the probable course of this government in the event of a war between Mustapha Kemal and European powers, upon the ground that such a question is not even remotely before the United States.

State and navy officials disclaimed any intention of augmenting at this time the naval force now in Near East waters. The small destroyer squadron now there, under command of Rear Admiral Bristol, American commissioner at Constantinople, is adequate at present to protect American lives and property, it was stated.

Later, under the terms of an international relief plan now being worked out in conjunction with other governments, the United States might send an army transport to help move refugees, it was indicated.

Formidable Fleet Assembles

Constantinople, Sept. 18.—The entire British Atlantic fleet is being sent to reinforce the Mediterranean squadron for the protection of Constantinople and the straits of the Dardanelles. This will create the most formidable armada of warships ever assembled in an area of like size. There is an increased feeling of security among the population as the result of Great Britain's energetic measures.

DEFENSE COUNSEL ELATED

Chicago, Sept. 19.—Renewed attacks on the mass of affidavits submitted by Attorney General Daugherty's representatives in the fight for a temporary injunction against the officials of the railway employees department of the American Federation of Labor were resumed today. Attorneys for the defense were elated over the ruling by Judge Wilkinson yesterday by which more than a fourth of the government's affidavits of violence will not be considered in deciding the case. Objections today in most cases were based on the fact that many of the affidavits contained hearsay evidence and did not name or connect defendants with the acts of crime described.

A BACKWARD INFANT

The American sugar growing industry is an infant that never grew up. It is more than a century old, yet it is still nursing the protective tariff bottle. Probably because of its advanced age and its failure to measure up to half the requirements of the American coffee cups for sugar, the protectionists in congress are changing the formula and giving it more of the pap it feeds upon.

The estimate was made recently in the senate tariff debate that the tax levied on the American consumer by the proposed new tariff would exceed that of the Underwood bill by \$157,500,000 annually. But of this huge sum only \$54,500,000 would be the increase in government revenue. The tax which the people will have to pay for the privilege of sweetening their beverages to taste is estimated to exceed \$200,000,000, of which the government will get perhaps half. The rest is a subsidy which will benefit less than one percent of the population.

Such a tariff has wonderful talking points for a limited number of citizens. But it is a frost as an exemplification of the good old protectionist doctrine that high tariff is justified to bring infant industries to maturity and independence. Some infants just won't grow up.

STRAW HAT DAY

Well, are you still wearing that old straw bonnet?

Cast 'er off, boy; the great unwritten code of fashion dictates that you must put on the felt fedora on September 15, and has a brave man who can withstand the sly smiles of those who he passes on the street in a straw hat out of season.

Our advice, the product of the mature experience of many years, is to dispose of this year's straw hat by giving it to the ash man, or poking your fist through the crown and crumpling the hat up for kindling.

Most men do the same thing every year. They look over the hat they bought at the bargain sales about the first of August. 'Twill do for another season, they decide.

Then when next Decoration Day dawns they sponge off the glad cheap, grit their teeth and go sailing out in public. It's all right for about six weeks, with constant cleaning. But the straw hats in those summer sales are so doggone clean, and the prices are so doggone cheap, the most of us fall for them.

So on September 15 most of us have a half worn out straw hat. Let's fool 'em next time, boys. Let's batter in this season's headgear, and get a fresh start in the late spring next year.

KEEP THE PROVED OFFICER

When the federal reserve system was put in operation it was generally conceded that if it was to be a success politics would have to be kept out of its control. Its splendid record under the governorship of W. P. G. Harding of Alabama showed the thoroughness with which politics was kept out of it.

When Governor Harding's term expired a month ago it was believed that the sentiment for him on the part of financiers throughout the country would cause President Harding to ask him to remain at the head of the board. It was understood that the president was favorable to that view. While Governor Harding did not seek reappointment, there is no word that he indicated that he would not accept. As pointed out by the New York World: "No other choice could so certainly certify to the country that non-political character which must be the federal reserve board's if it is to retain the public confidence."

With the understanding that President Harding was favorable to reappointment of the head of the board who had proved his worth in the establishment of the federal reserve system and in directing it through one of the most trying financial periods of the world, neglect to act on that conviction naturally is arousing the fear that politics is figuring. It would be a most unenviable commentary on President Harding's administration if it should be through it that politics first gained a foothold in the federal reserve system.

Keep the proved officer at such a vital post.

TO FINANCE COTTON.

Dallas, Texas, Sept. 18.—Applications for loans totaling \$57,500,000 have been granted by the War Finance Corporation to cotton market-

ing associations in eight states of the South, according to advices received here. This money is for the financing of the 1922-23 crop.

The eight states and the amount granted to each are as follows:

Texas	\$ 9,000,000
Oklahoma	\$ 6,000,000
North Carolina	\$10,000,000
South Carolina	\$10,000,000
Mississippi	\$ 7,000,000
Georgia	\$ 5,000,000
Alabama	\$ 3,000,000
Arkansas	\$ 7,500,000
Total	\$57,500,000

The Pima cotton growers of Arizona have applied for a loan of \$1,200,000. Word has not reached here, however, that it has been granted.

Commenting on these figures, J. W. L. Hall, a Bowie county farmer and secretary of the Texas Farm Bureau Cotton Association, says: "The work of the cotton associations is directly responsible for the high price of cotton. If the news should be fashed over the country that the War Finance Corporation had withdrawn its loan to the cotton associations, where do you suppose the price of cotton would fall to?"

"Our main work is to stabilize prices so they will not slump when cotton or any other commodity is dumped on the market, the supply is greater than the demand and the bottom falls out of the prices. The business of the Farm Bureau is to sell gradually—feed it to the consumer as he can use it—make the supply just satisfy the demand. This puts a stop to dumping. It puts a stop to the break in prices. It keeps prices high. The present high prices for cotton in my opinion are due largely to the \$57,500,000 which has been granted to the South to sell its cotton gradually and to the fact that Southern farmers have pooled nearly 3,000,000 bales to market in ordinary manner.

"If the cotton marketing association fail, then we can expect the price of cotton to fall back down to the old levels. The associations must not fail. Every broad minded farmer who stops to think will see the reason why the associations must not fail."

THE SEED OF DISCORD SPROUTS

From the Houston Chronicle.

The Ku Klux Klan has taught every other institution how to divide; why not the democratic party?

No anti-klan movement would have developed within the democratic party if the klan hadn't tried to run away with it.

No independent senatorial nominee would be appearing if a series of peculiar accidents hadn't foisted a klan-endorsed candidate on the democratic party.

We are merely beholding a big chicken come home to roost, nothing more.

Six months ago George E. B. Peddy had no idea of standing before Texas as he does today.

It is but the inexorable law of logic that he should be riding the very issue that thrust him into prominence.

Whether he enters the campaign as a republican endorsed by independent democrats, or as an independent democrat endorsed by republicans, is an unimportant technicality.

Everybody knows why he is put forward and what he stands for.

Everybody recognizes the kind of reaction that made an ousted president of a Sunday-school class the anti-klan nominee for United States senator.

His treatment was too illustrative of just where the unreasonableness of intolerance leads to be misunderstood.

The very thing he is fighting raised him up, produced him, gave him a foothold as its most fitting opponent.

A young, clean, Christian man, he was ostracised and humiliated because of his political opinions; to no greater extent than thousands of others, perhaps, but in such a way as enabled people to see clearly the false ideal back of it.

What more appropriate champion could the anti-klan forces ask? George Peddy was almost made to order for them, and that, too, by the very preachments of the klan.

What the outcome will be, we do not pretend to know, but it will probably be sufficient to give Texas democrats, especially klan democrats, some thing to worry about during the next two months.

More than 265,000 votes were cast for James E. Ferguson in the recent primary. How many of them will Peddy get? How many will he get who voted for Earle Mayfield, not because they were for him, but because they found it impossible to support an impeached governor?

Beides the republicans have 100,000 votes, if not more.

The old fellow who used to say "Nothin' ever happens any more" probably lived in the District of Columbia.

Mr. Hoover urges public voice in strikes. But something more than voice is needed.

At home for the kids

From the Shreveport Journal.
An editorial on knowing your own children tells the story of a father and mother who awakened suddenly to the fact that they knew almost nothing of the mates with whom their daughters studied and played. To remedy the matter, they inaugurated the custom of keeping open house for the girls and their friends one evening every week.

The occasions were made very informal, the word simply being passed around that on a certain evening the boys and girls would be welcome at the home in question. The youngsters came hesitatingly and in small numbers at first, but later these functions became the most popular in town. Now other parents are trying the open-door policy as a means for knowing their children's friends.

At each home the parents stay on the job and enjoy the fun. Games are played and refreshments are of the simplest type. The gang goes home at 9:30. The unwholesome features of youthful social life have been practically eliminated in that town.

Such a solution of the question of what the young people do with their time or whom they associate with is better than many lectures or involved psychological discussions on the subject.

TARIFF AND BUMPER CROPS

With prospects of a big yield in nearly all agricultural crops, this is a poor year to try to convince the farmer that a tariff of the brand which a republican congress is a nut to crowd through is destined to bring back prosperity.

Big crops mean that the farmer must look to Europe and elsewhere for a market for his surplus. To buy American wheat, Europe must be able to sell some of her products to America. A high tariff designed to keep out Europe's products lessens Europe's buying power in America, and the American farmer's wheat remains to rot in his granaries.

Republican campaign pretensions as the friend of the farmer will fade when the farmer stops to study the economics of foreign trade.

Mr. Hoover urges public voice in strikes. But something more than voice is needed.

America Leads in Home Comforts

THE average American home has more comforts and conveniences than the palaces of Europe. Home for home, the American household has a well-kept look, an atmosphere of prosperity and contentment you cannot find in the homes of any other country in the world.

In foreign lands, the modernized dwelling, as we know it is found only in limited numbers and then only in the larger cities.

In America, even in remote rural districts, you find pianos, vacuum cleaners, washing machines, up-to-date heating systems, telephones and numberless appliances that go far to make life easier, happier and more worth while.

You may not realize it, but America's high standard of home life is due largely to advertising. For the development of advertising is distinctively American. It has taken its place as a leading force in bringing together the interests and wants of a great united people. And a large share of the credit for this development is due the newspapers.

Stop and think how many of the appliances you use the foods you eat, the clothes you wear, and other articles entering into your every-day life, were popularized by newspaper advertising.

Then you will realize what a vital part advertising has played and is playing in your daily life.

You owe it to yourself to read the advertisements.
They mean a lot to you.

CITY'S WATER WELL

From The Lufkin News.

The city's deep water well project north of the city, is now at a depth of about 190 feet. The well is being drilled on the second hill beyond Mill creek, just to the left of the highway and drilling will continue until it is expected a generous supply of water will be obtained. Formations passed through correspond with the log of one of the strongest artesian wells in Nacogdoches county.

No, the city is not boring for oil, just water, an ingredient it must have before a great while, and this test well may prove to be the one thing needful.

SUIT FOR "INSPIRATION"

A New York girl has sued a song writer for \$100,000 remuneration. The girl sets up the claim that she was the "inspiration" which compelled the author to write a popular song, and she wants a goodly portion of the proceeds. If the damage suit industry has reached the point that "inspiration" is to play a part, there will be no end to litigation. We shall soon file suit against the owner of the cat whose songs made sleep impossible. They were the "inspiration" that caused us to lose our religion for a time.—Honey Grove Signal.

IT MAY REVERSE RULE

Electricity, that made the bright lights and lure of Broadway, now promises to take Broadway—or Main street—to the farms. It has taken the aching back out of a lot of toil from farming. The telephone makes the rural dweller a neighbor to the men in town. It is interesting to speculate about the effect of electricity on the movement of population. The country may some day be faced with the problem of keeping the city boy at his desk and finding men enough to run lathes and drive street cars, just as it has been bothered to keep enough men on the farms in the recent past.

ORCHESTRA MAKES GOOD

The Nacogdoches Rotary Orchestra presented a most attractive program Thursday night at the Intercity Rotary meet at Longview and received the highest encomiums from the 856 Rotarians in attendance. Our boys certainly made a hit, from all accounts, and we are sure they deserved all the good things said of them.

The towns of Palestine, Tyler, Marshall, Longview, Jacksonville, Mt. Pleasant and Nacogdoches were represented in this meeting, which is said to have proven most satisfactory from every standpoint.

LIGHTNING AFFECTS THE ELECTRIC LIGHT CIRCUIT

Summer time is worry time for men who operate electric light and power stations. It is during this season that their greatest natural opponent is most active. All the time their best efforts and scientific equipment are employed to meeting and baffling the power of the storm that is accompanied by lightning.

Every up to date company has in its employ one person whose duty it is to check up the weather reports and supplement them or vary them by local observations. Linemen are under standing orders either to call up the office or report there immediately when a storm breaks so that they may be available to repair lines which go down. The power house engineers are also on the alert.

Scientists are working on this storm problem and ultimately, no doubt, they will arrive at a means of setting at naught in the lightning's effect on the service of the electric light and power utility.

For Torpid Liver

"Black-Draught is, in my opinion, the best liver medicine on the market," states Mrs. R. H. White, of Moots, Okla. She continues: "I had a pain in my chest after eating—light, uncomfortable feeling—and this was very disagreeable and brought on headache. I was constipated and knew it was indigestion and inactive liver. I began the use of Black-Draught, night and morning, and it sure is splendid and certainly gives relief."

Theford's BLACK-DRAUGHT

For over seventy years this purely vegetable preparation has been found beneficial by thousands of persons suffering from effects of a torpid, or slow-acting liver. Indigestion, biliousness, colic, coated tongue, dizziness, constipation, bitter taste, sleeplessness, lack of energy, pain in back, puffiness under the eyes—any or all of these symptoms often indicate that there is something the matter with your liver. You can't be too careful about the medicine you take. Be sure that the name, "Theford's Black-Draught," is on the package. At all druggists.

CONTEST CASE CONTINUED

From the Lufkin News, 14th. Judge L. D. Guinn of Rusk arrived last night for the purpose of opening court here this morning and hearing the contest suit of Cochran against Watts in which the democratic nomination for the office of sheriff of Angelina county is involved. The hour for the hearing had been set down for 9 o'clock, but it was 10:30 before the court was opened by Constable R. L. Davis, the sheriff not being in evidence during all the time. After some preliminaries in which the question of the sufficiency of the service was discussed, it was agreed by the contestants to continue the case to some future date and Judge Guinn accordingly set it down for a hearing on Monday, September 25th, at 9 o'clock. The district court room was filled to capacity by witnesses and spectators anxious to hear the proceedings, and from the number of automobiles and Ford's parked about the court house grounds one would have judged that there was a circus in town.

RAIL STRIKE ENDED

Chicago, Sept. 14.—B. M. Jewell, head of the striking railway shop crafts announced Wednesday night that the unions' policy committee of 90 had authorized him to negotiate individual peace agreements with the railroads of the country based on the terms of a general settlement plan adopted by the policy committee.

Jewell said: "We have agreed to the terms of a settlement, yielding wherever possible, and standing where there was no other avenue open honorably to those we represent." All men are to return to work in positions of the class originally held on June 30, 1922, at the same point, according to the statement issued by the policy committee.

"The method of procedure adopted by the policy committee at the meeting is that no men on any railroad, even though included in settlement at this time, are to return to work until they have received the necessary directions from their respective system federations," the policy committee statement said, and added that the negotiations with the roads would be ordered at once.

Washington, Sept. 14.—Between 65 and 75 railroads have signed separate agreements at Chicago to end the shopmen's strike, according to an official report Wednesday afternoon to Secretary of Labor Davis from his representatives attending the peace conferences there.

As soon as he received word by telephone of the Chicago agreement, secretary Davis issued a statement declaring that "American industry has overcome the last obstacle in the way of the greatest economic revival the nation has ever known."

News of the Chicago settlement was flashed to Secretary Davis by Oscar F. Nelson, one of the conciliators of the department of labor.

Elated over the cheering news, Davis is understood to have communicated it immediately to President Harding at the White House by telephone. "With the settlement of the strike of the 400,000 shopmen assured," Davis said, "the whole industrial machinery of the country is ready for a forward movement unprecedented in our economic history. The disturbances in the bituminous and anthracite coal mining industries are in the past and the 600,000 coal miners of the country are back at work."

"Our representative in New England has advised me today that the textile strikers are rapidly returning to work. The two great industrial disputes have been the only hindrance to the nation in its recovery from depression which were face a year ago. With them out of the way progress toward prosperity will be swift and sure."

It was reported here that the settlement was based on the so-called "Willard plan," which includes:

1. The strikers to return immediately to work.
2. New men employed in the shops to be retained; and
3. Matters not covered in settlement to be referred to a committee of five union men and five rail executives.

The question of seniority, so far as could be learned, was not mentioned in the "Willard plan."

Does not Apply to S. P.
The Southern Pacific is not one of the roads that have signed separate agreements with the striking shopmen, according to President W. R. Scott. The Gulf Coast Lines had no representative at the peace conference, and has signed no peace agreements, according to officials of that road.

"We will wait for the decisions of the labor board to be accepted before we sign any agreements with the shopmen," President Scott stated Wednesday afternoon.

Some Roads Agree.
Chicago, Sept. 14.—Leaders of the federated railway shop crafts, who today began negotiations for separate settlements of the strike, which began July 1st, in accordance with the agreement adopted by the unions' general policy committee, announced that several railroads had telegraphed union headquarters indicating their willingness to start negotiations. Leaders said these were in addition to about 50 roads which previously had agreed to a separate settlement.

Not Included in Settlement.
Officials of the Southern Pacific, the Texas & Pacific and the Gulf Coast lines at New Orleans said their lines were not included in the shopmen's strike settlement agreement. Officials of the Cotton Belt, the Frisco and the Katy at St. Louis said their lines were not included.

Will Accept Agreement.
Washington, Sept. 14.—Advices to the Labor Department today from its representatives in Chicago said that

railroads approximating 35 percent of the country's mileage has signified their intention of ending the shopmen's strike on the basis of the agreement accepted yesterday. It was said that roads representing an additional 30 percent are ready to end the strike.

Refute Sabotage Charges
Chicago, Sept. 14.—Preparation of additional counter-evidence against that being submitted by the government to make permanent the temporary injunction against officials of the railroad employees department of the American Federation of Labor were started today by the defense. The conclusion of peace negotiations between the shopmen and a number of roads permits the introduction of evidence to refute charges of conspiracy and sabotage, defense attorneys said, which could not be introduced before because of the nature of the peace negotiations.

RAILWAY SITUATION RAPIDLY CLEARING

Chicago, Sept. 18.—The rail situation was rapidly clearing Saturday night.

Settlements, either by separate agreements with the shop craft organizations or by the formation of company unions, had been reached on many of the big roads of the country. Negotiations for peace were under way on other roads.

Railroad officials here believed that the "runaway strike" on the Northwestern would end immediately. According to the shopmen, they were ordered not to return to work until new men were dismissed. Several hundred men, however, returned to work on this road Saturday.

President Bert M. Jewell of the shop crafts stated Saturday night that he would not return East at present.

Government attorneys Saturday night planned the introduction of further evidence relating to violence in the rail strike when the Daugherty injunction is resumed Monday.

The union probably will move to have their motion to dismiss the case ruled on as soon as the government closes.

If the motion is overruled they will proceed to present their case along two lines.

1. The unions will charge that the railroads entered a conspiracy to break the unions.
2. The unions will present evidence to show that Jewell and other leaders made every effort to prevent and punish persons responsible for acts of violence.

N. Y. C. SIGNS UP

New York, Sept. 15.—The entire New York Central railway system today signed an agreement with its conductors and trainmen covering working conditions, wages and rules for one year, beginning September 30. A statement issued by the New York Central said the direct settlement agreement would provide for the immediate withdrawal of all controversy matters pending before the United States Labor Board.

PREACHER-SHERIFF READY TO SPRING TRAP AT HANGING

For Madison, Iowa, Sept. 16.—Winifred E. Robb, sheriff, preacher and soldier, pulled the trap at noon at the Iowa prison here yesterday which hanged Eugene Weeks, convicted slayer of George Fosdick, Des Moines grocer.

Fort Madison, Iowa, Sept. 16.—The gallows used last Friday for Ira Pavey, yesterday awaited Eugene Weeks, a Hartford, Conn., man, convicted of the murder of a Des Moines grocer during a hold-up, with Sheriff Winifred E. Robb, who resigned his pastorate when his duties as sheriff necessitated presiding at an execution, prepared to spring the trap.

The fate of Weeks has attracted keen interest in the state, largely because of the connection of Sheriff Robb with the scheduled hanging. In 1920, Rev. Robb was backed for sheriff of Polk county (Des Moines) by church leaders in a "clean up" campaign. Before and since the war he was pastor of the Federated church of Urbandale, a Des Moines suburb, and his popularity was increased by his service as chaplain of the 168th Infantry of the Rainbow Division.

Weeks' wife, who had testified against him and attempted to collect the \$2,500 reward offered for his conviction, spent Thursday in the cell with him, reading repentant poetry he had composed while awaiting execution. Next month Orrie Cross, Weeks' accomplice, is scheduled to hang.

CONFERENCE TARIFF BILL PAST HOUSE

Washington, Sept. 16.—The conference report on the administration tariff bill was adopted late Friday by the house. It now goes to the senate, where final action next week is hoped for by republican leaders.

Before adopting the report the house voted down, 193 to 108, a motion by Representative Garner, democrat, Texas, to again commit the bill with instructions to the house managers to insist on the house rate of 1.6 cents a pound on raw Cuba sugar. The rate agreed upon in conference was 1.76 cents a pound.

The vote on adoption of the conference report was 210 to 90.

FATE OF BONUS BILL NOW UP TO PRESIDENT

Washington, Sept. 16.—Fate of the soldiers' bonus bill now rests with President Harding.

The senate Friday adopted the conference report on the measure and it now goes to the president for his approval or veto.

The vote was 36 to 17.

MAYFIELD TALKS

Austin, Texas, Sept. 14.—Earle B. Mayfield, democratic nominee for United States senator, declared he will "contest the attacks of those who would destroy the integrity of the democratic party," in a statement today on the proposed fusion of the anti-Ku Klux Klan democrats and republicans to nominate a candidate to oppose him. "There can be no fusion because democrats do not fuse with the republican party or any other political party that would destroy democratic principles," the statement said. Mayfield referred to the meeting of prominent Texas democrats and republicans in New York on August 30th, at which, he said, an opponent to him was agreed upon. He did not name his prospective opponent.

HELD FOR MURDER

Houston, Texas, Sept. 15.—Thomas A. Goddard, 28, formerly of Port Arthur, is in the county jail charged with the murder of Dr. Max Kahn, 39, formerly of Hallettsville, Texas, dead as the result of a shooting last night on Heights boulevard.

PEDDY IS CANDIDATE OF ANTIS AND REPUBLICANS

Dallas, Texas, Sept. 18.—For the first time in nearly half a century a hot political fight in the November elections in Texas looms up, due to the nomination Saturday by the independent anti-klan democrats and the republicans of George E. B. Pedy of Houston, to oppose Earle B. Mayfield for the United States senate. Since the carpet-bag days in Texas the democrats have been so securely on the saddle that nominations by the party always have been considered equivalent to election to state offices.

R. B. Creager, chairman of the republican state executive committee, said Saturday that his party will poll between 175,000 and 200,000 votes for Pedy for the senate. The anti-klan democrats believe they will get all the former American party adherents and Ferguson followers, virtually all unpledged democrats and many democrats who believe that the injection of the Ku Klux Klan as an issue in the campaign relieves them of their primary pledge. They believe that the strength of these combined forces will approximate the republican strength and that with the added republican votes they have an excellent chance of electing Pedy.

At any rate, Earle Mayfield is going to have to do something no other Texan has ever done—run three hot races for election to a single office. At least the lineup presented here Saturday indicates that Mr. Mayfield can not afford to do as all other democratic nominees in the past have done, and that is quit campaigning after the primary nomination.

THE FORD SHUTDOWN

Detroit, Mich., Sept. 18.—Various interpretations of the Ford shutdown were reflected in the faces and actions of the final shift of 9,500 Highland Park workers as they emerged from the factory late Saturday.

Nervous laughter, belying the light heartedness of the mirthful one, jokes, scowls and silent stoicism were in evidence as the workers trooped forth homeward bound.

It was estimated at the Ford executive offices, that approximately 73,000 workmen, earning \$438,000 daily, were affected by the order.

It was also estimated that the average Ford worker, accustomed to \$6 per day, could not afford to remain idle longer than three weeks.

Henry Ford, whose latest figures estimated an average production daily of 5,200 cars, at an accredited profit of \$52 each, would lose, according to these figures, approximately \$270,400 per day in profits, to which must be added the overhead costs of an idle organization, which would practically double this amount.

Huge piles of coal, in evidence at the River Rouge plant here, emphasized Ford's statement that a war with coal profiteers and not an absolute famine was the cause of the shutdown.

NEW ORLEANS SUFFERS \$5,000,000 CONFLAGRATION

New Orleans, Sept. 16.—Estimates early today placed the loss from a fire which raged along the water front for three hours last night at between \$5,000,000 and \$6,000,000. The wharves of the United States commodity warehouse and quantities of army ordnance and commercial commodities were destroyed. Reports that five lives were lost had not been confirmed early today. The fire was first discovered in a car of burlap.

FORD SUSPENDS WORK, 100,000 MEN IDLE

Detroit, Mich., Sept. 16.—As a protest against paying what he believed to be exorbitant prices for coal and steel, Henry Ford today began closing his industry. Approximately 100,000 men will be made idle indefinitely. The plants affected are five around Detroit and numerous assembling stations throughout the country. The first lay-off occurred last midnight.

NEAR ENTOMBED MINERS

Jackson, Cal., Sept. 18.—The opening connecting the Kennedy mine with Argonaut workings, where 47 men have been entombed 22 days, has been enlarged this morning to the full size necessary for the passage of the rescue crews, it was officially announced. The great force of the draft from the Kennedy into the Argonaut indicates there was no cave-in on the 4200-foot level, Argonaut officials said. The absence of cave-ins would permit rescue workers to enter the Argonaut as soon as the debris had been cleared away. The crew on the 3600-foot level won the \$5,000 bonus for the first crew to break through, officials announced. The fire in the mine has decreased since the opening was made between the Kennedy and Argonaut shafts, the engineer reported.

PARSON BREAKS JAIL

McAlester, Okla., Sept. 18.—Rev. J. C. Trotter, held on a charge of embezzling funds from the Brooks Institute at Hartshorne, Okla., and wife desertion, escaped from the Pittsburg county jail here last night. The bars of his cell were found sawed in two by the jailer when he made an inspection early today. The minister was in his cell at midnight.

THOUSANDS OF SHOPMEN ARE BACK ON JOBS

Chicago, Sept. 16.—With thousands of the shopmen on railroads which have made peace in the rail strike already back at work and with thousands of others preparing to take back their former jobs, a dozen or more railroads that have stood out against the Jewell-Willard plan of settlement were reported negotiating for peace Friday.

Among new roads seeking peace are understood to be the Northern Pacific and the Great Northern.

If these roads sign up, it was expected that other great Western roads among these "die hards" would fall into line and also negotiate agreements.

THE BIG KEY TO SUCCESS

There is no class of employees that find a more regular and constant demand for their services than Telegraphers. The capable Operator can always command a good salary, and the opportunities for promotion are unlimited, as witnessed by the number of operators who have risen to the position of railroad heads.

The largest of Telegraph and Radio schools in America, equipped with over a hundred sets of instruments, a train wire of a main line railroad, all telegraph and freight blanks and books of record, tickets, and in fact everything just as complete as found in the best equipped railroad office or Western Union, the best practical teachers to be obtained, thoroughly experienced in commercial and railway telegraphy, station and freight work; the Tyler Commercial College of Tyler, Texas, is unable to supply the demands of the railroads, Western Union and Postal Telegraph companies for operators.

Read the following advertisement of the large Railroad systems. Tyler Commercial College: Gentlemen: If you will send us high class students you have been sending, we can use all that you can send. Could use a large number at the present time if you have them.

In this connection will say what students you have sent us have been very satisfactory and have developed into some of the best telegraphers and agents that we have. Trust that you will be able to send us more of your graduates at once and keep them coming as fast as they are capable. I had the pleasure to visit your great school and made a personal investigation of the methods used by you in preparing student telegraphers, and I find they meet with all the requirements of my road, and I wish further to say you have the largest and most complete and thorough business college that I have ever seen.

R. F. Frenzer, Supt. Telegraph Union Pacific Ry. Our telegraph students are on all the leading Southwestern roads and in Western Union and Postal Telegraph offices. With our help you can be a bigger success. Write for free catalogue. We place graduates promptly free of charge. Tyler Commercial College, Tyler, Texas.

THE CHIRENO SCHOOL

Prof. A. W. Edgell and H. I. McKnight attended the opening exercises of the Chireno school Monday morning and returned with splendid reports of the flattering prospects for an excellent school year. Prof. Wedgworth is principal, and is ably supported by a corps of efficient teachers. The good people of Chireno recently voted a substantial increase in school tax and, as a result, will be able to maintain a nine-months term and to secure affiliation and classification as a high school.

Mr. Willie Bowdon and Sam Stripling, Jr., returned Saturday from their trip through the north. The sea voyage from New York to New Orleans proved to be a most enjoying experience, rough water being encountered only off the Carolina capes. They had a great time.

ELECTION NOTICE

Whereas, on the 11th day of September, A. D. 1922, the Commissioners' Court of Nacogdoches county, Texas, at a regular term of said court granted a petition signed by more than fifty (50) qualified voters and freeholders of Appleby Independent School District No. 72 and Happyland School District No. 68 adjoining and now consolidated with Appleby Independent School District, and both school districts there adjoining and being consolidated, in Nacogdoches county, Texas, praying for an election for said designated territory to determine whether or not horses, mules, jacks, jennets and cattle shall be permitted to run at large within said territory, which territory was, by the Commissioners' Court, set aside and designated for Stock Law purposes, a subdivision of Nacogdoches county, and said election was ordered to be held for said Appleby and Happyland Consolidated School Districts on the 21st day of October, A. D. 1922.

Now, therefore, I, J. M. Marshall, in my official capacity as County Judge of Nacogdoches County, Texas, do hereby, in obedience to said order of said court, order that an election be held for said Appleby Independent School District and Happyland School District consolidated on the 21st day of October, A. ARRANGE FOR LEGIONARIES TO FIND THEIR "BUDDIES"

New Orleans, Sept. 14.—Members of divisional war organizations will have no difficulty in locating their former "buddies" at the American Legion national convention in New Orleans next month, according to the convention committee on division reunions.

A booth has been established in the Legion home at which members of war organizations only may register their convention address, home address and the name of the organization to which they belong.

Tuesday, October 17, will be reunion day and a hall to be used for that purpose will be provided for the various "outfits" that contemplate holding divisional gatherings simultaneously with the national convention.

Two silver loving cups will be awarded as trophies, one to the organization showing the greatest attendance and the other to the "outfit" having the greatest number of men in the Legion parade which will be held on Wednesday, October 18.

The following organizations will hold reunions during the convention: Society of 22d Engineers, Society of 22d Engineers Light Railway, Evacuation Hospital Number 14, 34th Infantry of the Seventh Division. Invitations have been tendered to the following orders to hold their reunions here: Military Order of the World War, Buckeye Division Association, War Society of the 87th Division and Kichy Post Air Service Supply Depot 1.

The United States Junior Chamber of Commerce, whose organization is about 95 percent ex-service men, will send about 1,500 delegates to an impromptu reunion to be held during convention week.

LOOKS LIKE WAR

Paris, Sept. 14.—Premier Lloyd George, through the British ambassador at Paris, yesterday warned the French government that Britain would regard further French support of the Turks in their plan to recapture the Dardanelles and Constantinople, thus closing the road to India, as a "serious break of allied unity."

Such continued support, France was told, would force England to "regretfully take steps to protect the interests of the empire."

Open Threat of Break

In diplomatic circles this is regarded as an open threat of a break in the entente cordiale.

Relations between France and Great Britain are more strained today than at any period since the armistice.

Despite official denials, Britain believes that the French not only have given the Turks moral support, but have also supplied them with airplanes, munitions and money. It is alleged they agreed to do so in a treaty negotiated between France and Turkey at Christmas time.

When the entire Mohammedan world is in a ferment of revolt and unrest, serious repercussions of the Turkish triumph are feared by Britain in Egypt, India and the Near Eastern mandate territories.

Fighters to the Front

London, Sept. 14.—A thousand officers and men of the Royal Air Force embarked today at Southampton for service in Mesopotamia.

SOUNDS ALL RIGHT, BUT—

Austin, Texas, Sept. 14.—"Women of the Invisible Empire of America", organized to educate women in the science of government and the history of the United States and to contribute funds to orphanages, religious and similar institutions was chartered today by the secretary of state. The incorporators are from Dallas, Milam, Comanche, Orange and Fannin counties. Dallas will be headquarters.

EXAMINING TRIAL

Houston, Texas, Sept. 15.—The examining trial of six men held in connection with the sheriff's probe of the killing of four men in a pistol battle at Sealy a week ago last Tuesday night started at 11 o'clock this morning before Justice of the Peace Wammel at Bellville, with murder charges against Fossor Bell, William Andreas Burch Bradshaw, John Miller, Ollie Vierick and Lawrence Kurtz. Kurtz was the last to be arrested, having been jailed yesterday. Ernest Schaffner is slowly recovering from his wound, but is not able to appear at present as a witness, it was reported. Two state Rangers are attending the trial. Fritz Schaffner and son, Robert, of Sealy, and Luther and Thompson Bell, brothers, of Bellville, were killed.

Speaking of tax reduction, the fact that Uncle Sam's collections were a billion less than last year shows that other causes may be more effective than congress.

MAKE UP A PURSE TO GET GARNER A SHAVE

Washington, Sept. 16.—The house of representatives was watching Garner of Texas Friday as it went into session. Garner has been the biggest man in Washington for 48 hours. For that length of time he has been acclaimed as "miracle man, for his victory Wednesday in recommitting of the Fordney-McCumber tariff bill. Everywhere the little stocky figure of the Texan appeared he was greeted enthusiastically and congratulated.

Not all who congratulated him favored his move, but republicans admiring a masterly stroke told him so.

If the house had been a football field Wednesday Garner would have been carried about the chamber on the shoulders of his admirers. But being merely a dignified parliamentary body, the members gathered about him and sent up rebel yells.

He's "Mustang Jack."

Meanwhile Garner had a new title and a full-fledged boom for speaker of the next house. When he arose Thursday morning "Mustang Jack" started calling him and everyone seemingly took it up. Years ago there was a "Mustang Jack" who rounded up wild horses in the Texas chapparal and Friday Garner, who rounded up more than 100 unruly republicans Wednesday and herded them on to the democratic reservation was "Mustang Jack."

Record sharks going through musty congressional documents Friday found that never until Wednesday when Garner drove a wedge into the republican ranks, had a tariff bill been recommitment with instructions.

When Garner went to the senate chamber Friday he almost broke up proceedings. Democratic senators threatened him and republicans so came on. Garner appeared in the house of representatives with a full day's growth of beard. He had spent the night and morning hours planning another coup.

Given a Purse

Congressman Longworth of Ohio, McArthur of Oregon and Mills of New York, all republicans, made up a purse of 15 cents and took it across the aisle to Garner.

"We want our leader to look well," Longworth said. "You led more republicans than the supposed republican leaders did. We don't want the galleries looking down on an unshaven leader."

Garner took the 15 cents and went out for a shave. Democrats asserted that if the democrats win the house this fall Garner will be elected speaker.

BIG FIRE AT DALLAS

Dallas, Texas, Sept. 16.—Five firemen were overcome by smoke and heat and another was seriously burned by blazing creosote in a fire which virtually destroyed the six-story warehouse of the Interstate Forwarding Company here today. The fire started among furniture stored on the second floor. The loss is estimated at between \$150,000 and \$200,000.

HOT AFTER DAUGHERTY

Washington, Sept. 15.—Impeachment charges against Attorney General Daugherty as the result of his petition for an injunction in the cases of the striking railway employees, presented in the house Monday by Keller, republican of Minnesota, will be considered by the judiciary committee at a conference tomorrow with Keller present. The call for the meeting was issued today by Chairman Volstead. The hearing will be public. Keller told the house he was prepared to go before the committee and present evidence to support his charges.

A SPLENDID ADDRESS

Speech of Pat M. Neff Before the State Democratic Convention Accepting its Nomination as Governor of Texas

Ladies and Gentlemen of the Convention:

For the second time I sought and, by the partiality of my friends, won and now, with grateful thanks accept, at the hands of the democracy of my native state, its nomination for the second highest office beneath the flag, the governorship of Texas. My heart swells with pride and melts in gratitude as I think of those who, by their vote of confidence at the ballot box in July, made this hour possible. To you, and through you, to my friends scattered throughout the state I acknowledge myself debtor, to one and all, in the coin of appreciation that can only be fully discharged by the faithful performance of duty.

When, as your governor, I took the oath of office in the presence of God, mother, wife, daughter, son and fellow citizen, I gave my hand and heart to this my constant thought has been the honor of my state and the happiness of my people. To faithfully and efficiently meet the welcome obligations of this exalted office, should I for a second time be privileged to assume its duties, will be my highest ambition.

No man who holds the office of governor could or should do more nor less than obey the mandates and perform the duties imposed upon him by the laws of the constitution of his country. The laws, therefore, will be enforced, property protected, the individual and inalienable rights of man upheld, peace maintained, and channels of commerce kept open, under the law, by the law, and in accordance with the law, while I am your governor. The camorra and the commune, capital and labor, the employer and the employees, must, all alike, bow in humble obedience at the feet of the law of the land.

Strange as it may sound to some, I, as your governor, have not felt called upon to commend every laudable undertaking nor to condemn every worthless enterprise that might here and there in Texas have followers. The law defines my duties. They are responsible and exacting. I alone can discharge them. The remaining five million citizens of the state have obligations not less binding than mine. They are the ones to ring out the false and ring in the true. I, must and shall remain, the servant of all. The governor of a great people and a great state has no right to get off in one corner of his country and, with a handful of his constituents, say, "I am for these and against the rest." That I might in the highest, the noblest, and the truest sense render service to all I have not permitted myself, since I became your governor, to become a member of, or align myself with, any commercial, secret, sectional, racial, or ecclesiastical organization that had even a tendency to separate our people into sects or sections. All men, Christian and pagan, Jew and Gentile, Catholic and Protestant, rich and poor, white and black, those who speak classical English and those who articulate in a foreign tongue, the upper ten and the lower ten thousand, have, one and all, looked alike and fared alike. Officially, while your present chief executive is in the governor's office.

The fight for right is never ended. The poet was wrong when he sang, "Truth crushed to earth shall rise again." Truth, though it possesses the attributes of immortality, will wither and die among its worshippers unless it has able, active champions and wise, courageous defenders. In the battle now being waged in Texas for the vital things of civilization, let the thinking men and women in this state who do things, realize that this is their contest. In this struggle for law and order, for industrial freedom, for civic improvement, for the righteousness that exalteth a nation, we are going to win. Let no faint heart be discouraged. Wrong may come on prancing nags with fluttering flags, but on the open field of battle beneath the white light of day, right is triumphant.

"Truth forever on the scaffold, Wrong forever on the throne,— Yet that scaffold sways the future, And behind the dim unknown Standeth God within the shadow, Keeping watch above his own."

Our cause is just. We may not win today; we may not win tomorrow; but the third day is coming when an aroused public conscience is going to roll away the stone that hinders, and from out the grave where truth and justice and honor too long have slept is going to emerge, conquering and triumphant, a Prince of Peace, proclaiming to our people a new day, a new hope, and a new civilization. Looking to this high end, and with a

determination to fight on, and on, and on, until the victory is won, I now, in the presence of this splendid assemblage of democracy's representatives, accept your nomination for governor, and if your nomination is confirmed at the polls in November, I shall rededicate and reconsecrate myself in service to Texas.

CONTROVERSY OVER FIVE CENTS CAUSES DALLAS MAN TO SUE FOR \$15,000

An unusual case was filed Monday in the United States District Court at Dallas when W. T. Pace of Dallas entered suit against the receivers of the Texas & Pacific Railroad and the Van Noy Interstate Company, a corporation operating news and cold drink stands in the stations of the railroad company, for \$15,000 on the grounds of personal damages, based on a controversy which, it is claimed, arose over the payment of a soft drink costing 5 cents.

A lengthy petition filed by Merritt & Leddy, attorneys for the plaintiff, alleges that "on June 25th, last, the plaintiff purchased a root beer from a cold drink stand operated by the defendants in the Texas & Pacific Railroad station in Fort Worth, tendering a \$5 bill in payment; that the employe operating the stand said he could not and would not change the bill and refused to accept it in payment, although the plaintiff repeatedly offered the bill in payment."

The petition alleges that the agent of the defendant then attacked the plaintiff, snatching a straw hat off the plaintiff's head and crushed it between his hands and summoned an official of the railroad station, who signaled for the police patrol, whereupon the employe of the cold drink stand decided not "to file a complaint over a nickel, but that by reason of their actions the plaintiff suffered great humiliation, mortification and embarrassment, as the incident was witnessed by a large number of persons, damaging his good name and reputation as a law-abiding citizen."

The petition concludes by asking \$15,000 exemplary damages and \$6 for the straw hat, which, it is alleged, was torn up by the agents of the defendants.

TO COLORED CITIZENS

It is not possible to estimate in statistics the extent or seriousness of the modern social evil among colored people. It is not possible to estimate in figures the value of human character or the destruction which the loss of human soul involves. The simple statement that there are about 200,000 colored women in public view in the United States, that the entire number must be recruited every seven years, and that there are untold numbers of other women in clandestine vice, is sufficient to arouse the emotions of every sincere colored man.

More than a million and a half dollars are spent among colored people every year in the unholy traffic of human life and virtue. So gigantic a sum of money withdrawn from legitimate business and put into the production of sin and ruin, creates an appeal to an aroused economic conscience. Social vice flourishes in secret. If the public knew the conditions and appreciated them at their highest importance, there would be such a wave of indignation against evil-doers, such a flood of sympathy for the helpless victims, and such a demand for public righteousness that our race would be transformed within a few short years. But does the character and conduct of the negro business section of Church street come to public notice? Does that element of young colored men and women who form a society in this section of our well deserving city that is almost less than human arouse the emotions of the public? This element of human beings who saunter in this street—"NIGGER MAIN" has done much toward bringing disgrace and disrepute upon the honest colored men and women who are attempting to operate places of business for the benefit of their people as well as themselves, and thus make a contribution to the modern business world. The conduct of this class of young colored people is a disgrace to any people in any city or country. The howl, and the jam are purely signs of savagery. There is totally a disregard for anything that is promotive. Young people, this will not do, we will have to improve. I appeal to the good honest people who have open places of business in this section of town to maintain such order and decency about your places of business that will reflect credit and not disgrace upon our section of town as well as upon you as colored men. I speak out of a heart of love and sympathy. We as colored people must lift our ideas and ideals.

COAL DISTRIBUTION BILL

Washington, Sept. 15.—By a vote of 228 to 70 the house today passed to conference the report on the administration's coal distribution and anti-profiteering bill, with the provision limiting its life to one year unless the president meanwhile declares the present emergency passed. It goes to the senate.

"OPEN PORT" LAW INVOKED

Sherman, Texas, Sept. 16.—"Open port" cases, involving four Denison men, will be in the hands of the jury tonight unless there are unforeseen interruptions. Judge Wilcox of the Fifty-ninth Judicial District Court delivered his charge to the jury this morning. Major Simpson and Captain Wynne, representing the state, argued the case. Captain Smith, former United States district attorney for the Eastern District of Texas, and Charles Reasonover will present the defense argument, six hours for argument being allotted. These cases are the first tried under the "open port" law. The four men are accused of having taken part in the kidnaping and flogging of several Katy guards in July.

HUNGARY IN LEAGUE

Geneva, Sept. 15.—The political committee of the League of Nations Assembly voted unanimously today to admit Hungary to membership in the League.

SAFETY AND COURTESY

From the Shreveport Journal.

According to the president of the American Automobile Association, 50 percent of all road accidents could be avoided if automobile courtesy prevailed. Considering all the points involved in that one word, "courtesy", the statement probably may be regarded as very conservative.

Courtesy in driving means observing all the traffic regulations as to speed, signals and right-of-way. It means consideration for other drivers and a willingness to regard the normal rights of pedestrians. It means careful driving even on an uncrowded thoroughfare and extra decency in congested traffic.

A good deal has been said about the road-hog, and he deserves extermination. There really are fewer of his kind than of sane and courteous drivers, but as in other human relations, the disagreeable and unruly few make all the trouble for the law-respecting and courteous many.

TURKISH ATROCITIES

London, Sept. 15.—From 1,000 to 2,000 Christians have been massacred in Smyrna by the Turks before the fire which swept the Armenian and other quarters, it is charged in semi-official and other Greek messages from Athens received here today. Among the Turkish outrages was the carrying off of many girl pupils of the American Girls' College, it is alleged. The Greek belief is that the fire was set by the Turks to conceal traces of their alleged misdeeds. A considerable share of the estimated \$75,000,000 property loss fell on American firms.

Nearing Constantinople

Constantinople, Sept. 15.—The Turkish Nationalist army is now within 35 miles of Constantinople and the population is in a state of nervous tension. The city is rife with rumors of designs upon the capital. Ports on the sea are choked with refugees, who are arriving by tens of thousands in an appalling state of misery, hundreds dying before they were landed.

Treasury Deficit Now \$700,000,000

About the only thing that is growing larger under the present republican administration is the treasury deficit. Beginning as a mere matter of \$24,000,000 the deficit has risen rapidly to \$700,000,000, with the prospect for a further enlargement to ten figures very bright.

It hasn't been so long since republicans promised that their accession to control of the government would automatically increase revenues, reduce debts and enhance prosperity. The record for August—the seventh month of the Harding administration—shows how badly the republicans fooled the public.

There was an increase of \$25,000,000 in the public debt in August compared with the previous month. It was due in large part to the sale of treasury securities, borrowing money to meet current expenses, so that an impression of "economy" could be given.

Along with the increase in the public debt there was a decline in receipts. The ordinary receipts last month were \$25,000,000 less than in August, 1921. Public debt expenditures were \$215,000,000 greater in August this year than in August last year. Income tax receipts were \$23,000,000 less in August, 1922, than in the same month of 1921. Miscellaneous internal revenue receipts for last month were \$12,000,000 less than in August, 1921.

Watch the little folks speed home for Kellogg's Corn Flakes

"Mudder, I always wins the race when I carry home Kellogg's Corn Flakes. I can't hardly wait till I have some quick, mudder!"

It's great to see child-enthusiasm for Kellogg's; great to see every one in the family enjoy their crisp crunchiness and wonderful flavor! To sit down before a heaping bowlful of these joyous oven-browned "sweet-hearts-of-the-corn" and some milk or cream—and fresh fruit, if it's handy—is just about the very last word in appetizing appeal! And, your good taste will prove that!

Kellogg's Corn Flakes ought to be superior—they are the original Corn Flakes! Kellogg's are never tough or leathery; never hard to eat; never a disappointment!

Be certain to get Kellogg's—the delicious kind of Corn Flakes in the RED and GREEN package—because none are genuine without the signature of W. K. Kellogg, the originator of Toasted Corn Flakes.

FAMOUS TRIO IS CIRCUS FEATURE

Three Stars With Ringling Bros. and Barnum & Bailey Combined.

For the most part the personnel of the "white tops" is made up of those who have been imported from foreign countries. But now and then one will find American-born performers whose parents and grandparents were performers before them. Of such are the three shown in the accompanying picture.

Miss Edna Rowana comes of a famous family of American riders whose grace and daring have known few equals. Hers first became a circus family in the days of Adam Forepaugh. She is one of almost 50 equestrians representing half as many countries who will be seen when the Ringling Bros. and Barnum & Bailey Combined circus comes here Friday, September 29th.

Pat Valdo, whose real name is Brookfield, answered the lure of the circus when a mere lad by becoming an apprentice in the Rowana family riding act. After gaining proficiency as a rider, he turned his attention to clowning. Since that time his merry face has always been associated with the Rowana equestrian numbers. Valdo comes from an old New England family.

The horse is Starlight III, which means that his ancestry is also of the circus world. All have been owned by the Rowana family. Starlight I long passed to that particular heaven to which circus folks believe all faithful horses go. As for Starlight II he has merely been pensioned. For two years he has been left at the home on Miss Rowana's farm near Sleepy Hollow, New York, where he spends the summer doubtless dreaming of the days when he quickened his pace to the tune of the circus band.

A lazy, no-account feeling with yawning and sleepiness in the day time is caused by a torpid liver and disordered bowels. Herbine is a splendid remedy for such ailments. It cleanses the system and restores vim and activity. Price 60c. Sold by Swift Bros. & Smith.

Mr. Charles R. Webb, who has been with the Ford Motor Company in Houston for the past eight years and is regarded by his employers as one of their most valuable men, has arrived in the city for a week-end visit with his parents, Mr. and Mrs. Austin Webb, on North street. The visit is somewhat in the nature of a honeymoon trip, Mr. Webb having been married Thursday night to Miss Donna Eileen Scott of Houston, and all the groom's acquaintances here are congratulating him upon his good fortune in securing for a helpmeet a young woman of such intelligence and charm. The Sentinel adds its congratulations and felicitations.

The greatest enemy of child life is the tapeworm. It destroys health and vitality. The greatest enemy of the tapeworm is White's Cream Vermifuge. One or two doses does the work. Price 35c. Sold by Swift Bros. & Smith.

A WHOPPER Yellowstone Park, Wyo., Sept. 16.—William G. McAdoo, former secretary of the treasury, yesterday reported catching a rainbow trout weighing 17 pounds.

RANGERS ARRIVE ON WAY TO SHELBY COUNTY

Messrs. Pat Sheedy and C. C. Carter, members of the state Ranger force, arrived in the city Monday morning en route to Shelby county in response to a call for help from District Inspector A. B. Tumlin of the live stock sanitary commission, whose work in the above named county was brought to a halt by the activities of dynamiters, who have blown up eleven dipping vats and uttered threats against those whose duty it is to enforce the dipping laws.

On the night of Sunday, the 10th inst., the last of the eleven vats was wrecked and Monday morning bloodhounds were brought from Shreveport and put on the trail of the alleged dynamiter. He was run down and arrested and is being held for investigation.

Monday morning Inspector Tumlin and the Rangers left in an auto for Center, and the presence of the officers will have the effect, it is hoped, of bringing a cessation of the lawlessness which is jeopardizing the welfare of the cattle industry of Shelby.

BAD AUTO ACCIDENT

Mr. and Mrs. C. S. Carter were the victims of a serious accident Sunday afternoon when their car was overturned at a point out on the Lufkin road. It is said the car was moving at a high rate of speed and skidded off the moist roadway into the ditch. The curtains were up and the occupants of the machine were unable to extricate themselves. Parties in a car just ahead returned to the wreck and lifted Mr. and Mrs. Carter from the auto and brought them to town, where surgical aid was administered to Mr. Carter, who was painfully injured. Mrs. Carter escaped practically unharmed. Mr. Carter is employed at the Ford garage.

Average schoolboy complains that summer is shorter every year. It will be a simple matter to get up a mass meeting next winter if it has a stove.

MRS. ROBERT TEUTSCH

The sad news was received in the city Saturday morning of the death early in the day of Mrs. Robert Teutsch of Melrose, and on every hand are heard expressions of sincere regret at the passing of this good lady.

It is said that Mrs. Teutsch was so severely shocked by the death of her son, Mr. John Teutsch, a few days ago that she took to her bed and never rallied, dying of grief over the loss of her boy.

The funeral occurred at 4 o'clock Saturday afternoon at Melrose.

SURPRISE WEDDING

Mr. Will Adams of Lufkin and Miss Bonita Casley of this city were married at Appleby about two weeks ago, but the fact was not known even to the bride's family until Thursday night when Mr. Adams appeared at her mother's home and informed her that he had come after his wife. The young people will make their residence at Lufkin, where the groom is employed.

Major J. T. Stockton of Camp Mabry, Austin, was in the city Friday investigating the burglarizing of the local armory about a month ago, when 19 army shirts, seven pairs of shoes and a raincoat were stolen. The theft was kept quiet in the hope that the thief might inadvertently furnish a clue that would lead to his arrest. Nothing has transpired, however, that might give officers a "pointer."

LITTELL'S LIQUID SULPHUR COMPOUND

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbes which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

FUNERAL TOMORROW

From the Lufkin News, 19th. The funeral services of Mrs. Addie Hart, who died at the home of her grandson, Leslie Sloan, in Shreveport, Sunday evening, will be held at Glendale cemetery tomorrow morning at 10 o'clock, Rev E. W. Solomon officiating.

The deceased, who formerly resided in Lufkin, was born April 15, 1856, and is survived by one daughter, Mrs. Jim Ainsworth of Nogales; also two brothers, G. L. Hart of Apple Springs and E. W. Hart of Crockett. Two sisters also survive, Mrs. A. G. Grigsby of Nacogdoches and Mrs. F. M. Patton of Creath. There are also a large number of nephews and nieces left to mourn the demise of this splendid lady. She was a noble Christian character, a favorite with all her intimate acquaintance, and by her cheerful disposition at all times, helped others to take a more hopeful view of this life and to plan for that better one to come. The News joins all who enjoyed her acquaintance in extending sincere sympathy to the bereaved.

CALOMEL GOOD BUT AWFUL TREACHEROUS

Next Dose May Salivate, Shock Liver or Attack Your Bones

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel. It makes you sick the next day. It loses you a day's work. Dodson's Liver Tonic straightens you right-up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.
