BRANCHING OUT

Under its new management the Yuba Oil & Refining Company, successor to the Carolina Oil Company, is branching out for business in a manner which augurs success, the first time in the history of the Nacogdoches field that this has been systematically and persistently done.

Tuesday night Messrs. A. N. Linnvall, manager of the local refinery, and Lake Orton, general sales manager for a territory embracing 22 East Texas counties, returned from Tyler, where they established a distributing agency for the company's products, with E. Dupree of Rusk as the manager. Tyler is a liberal user and a good booster for the oil, etc., marketed by the Yuba Company, the sales there already reaching more than 150 barrels per month. It is reasonable to expect that these sales will be largely increased as the virtues of the products are more widely recognized.

By actual government test, the Nacogdoches oil has been shown to be equal to the best lubricant produced in America, and superior to most. It is confidently believed that the problem soon will be to supply the demand for this oil, but a greater development of the field will overcome this difficulty. Mr. Orton will place four traveling salesmen in his territory, and it is the purpose to add to this force as circumstances may require.

The expansion of the business of the Nacogdoches field will not only prove profitable to the Yuba Company but the entire county will feel the effects of what promises to become a great industry. There is perhaps not a line of business in this section but will benefit from the enterprise. Sales Manager Orton is a hustler and will push his end of the game to the limit. Let's help him!

The membership campaign of the W. O. W. is showing gratifying results. There were 14 applications Tuesday night and 120 members present. The lodge is growing at a satisfactory rate, which benefits all concerned.

DISSOLUTION NOTICE

The partnership heretofore existing between C. B. Brewer and A. F. Millard, under the firm name of Brewer & Millard, is this day dissolved by mutual consent, the said A. F. Millard retiring.

C. B. BREWER,
A. F. MILLARD.

Nacogdoches, Texas, Jan. 27, 1923.
31-ldw.

The recently completed additions to the high school building will be ready for occupancy as soon as the paint on the floors has dried.

DEFER RATIFICATION OF SCHOOL BOOK BODY

Austin, Texas, Jan. 31.—After a somewhat heated debate, the senate in executive session late yesterday approved all of Governor Neff's recess appointments with the exception of the state text book commission and public weighers of Harris County. Appointments on both of these boards were not disapproved but merely deferred until a later session.

Action on the entire textbook commission was deferred because of differences regarding the recent awards for text books by the commission, members said.

HIGHER COURT DECISIONS

Austin, Texas, Jan. 31.—The Court of Criminal Appeals today affirmed the death sentence against Wayne Todd of Parker county for the murder of James McNeal on August 31, 1921. Affirmed the 20-year sentence against Ennis Tinker of Cass county for alleged assault upon a 12-year-old girl at Atlanta. Remanded the decision of the VanZandt County District Court against J. C. Roemond sentenced to 25 years for alleged assault upon a 14-year-old girl. This case was reversed on account of the introduction of inadmissible testimony.

ULTIMATUM FOR GERMANY

Dusseldorf, Jan. 31.—Coal production in the Ruhr is rapidly decreasing. The Cologne-Berlin telephone and telegraph cable was again cut in the vicinity of Essen, cutting Essen off from the rest of Germany.

A Coblenz message announces that 34 German civil officials were expelled from the Rhineland today. Some English correspondents say the French will almost immediately send Berlin a notification equivalent to an ultimatum demanding a reversal of the policy regarding the Ruhr.

BOUCHERS TO BE FREED

Waco, Texas, Jan. 31.—County Attorney Farmer was expected to dismiss the charges against Miss Naomi Boucher and her brothers, Horace and Bernard, and file complaint charging Roy Mitchell, negro, with the murder of Grady Skipworth last November. Mitchell is also charged with the murder of W. E. Holt. This action is expected as the result of the alleged finding of evidence connecting the negro with the Skipworth case. Officers said evidence also had been obtained indicating that Mitchell was the slayer of W. P. Driskill in a garage last May.

TURKS ASK DELAY

Lausanne, Jan. 31.—Ismet Pasha, head of the Turkish delegation at the Near East conference, today asked for a delay of two weeks before the signature of the peace agreement; also a delay of eight days before the meeting of the conference commission. The interval, he explained, would be employed in striving to reach an agreement.

THE RUHR CUT OFF

Dusseldorf, Jan. 29.—Rail, telephone and telegraph strikes are in effect in the Ruhr, which has been taken over so completely that the city of Dortmund is the only avenue of communication with the rest of Germany. The closing of this entrance is expected to be followed by other strikes. French engineers have taken over some of the railroad lines and heavy guards placed at important points.

TO RENEW STATE'S NOTES

Austin, Texas, Jan. 31.—The senate passed the Lewis bill providing for renewal of the State Prison Board notes totaling \$750,000 and appropriating that sum to become available in 1925 to meet the notes. The vote was 27 to 4. The notes are due tomorrow.

WILL ACCEPT U. S. PLAN

London, Jan. 31.—Great Britain has decided to accept the American offer in regard to funding the British war debt to the United States.

A conscience can't handle the job, however, unless it has the hearty cooperation of the neighbors.

INTERCHANGE OF MILEAGE ORDERER BY I. C. C.

Washington, Jan. 31.—The railroads have been ordered by the Interstate Commerce Commission to resume the practice of selling interchangeable mileage books good for 2,500 miles of travel at reductions of 20 percent from regular passenger rates. The sale must begin March 15, the commission decided. Practically all Class 1 roads are affected.

WHO MURDERED THIS CHILD?

Drumright, Okla., Jan. 30.—The parents of Kenneth Williams, 9, missing since June 8, 1922, today identified a body found in a ravine a mile west of this town as that of their son. Physicians declared the boy had been dead about five months.

Identification was made certain by bits of clothing which clung to the wasted body.

The child was last seen late in the evening walking out of town west with a mysterious man last June. A small playmate, the last known person to see him alive, said that the man had "offered Kenneth a job."

He became frightened, however, and came back to town. He last saw Kenneth and the man as they walked up a hill in the twilight.

A secret organization has been connected with the disappearance of the boy in this way: The story begins with the flogging of R. I. Moore, editor of the Drumright Post, by a group of masked men. This was in January, 1922. Moore bitterly attacked the Ku Klux Klan in the columns of his newspaper. The flogging left him a nervous wreck and he left town.

Some weeks later Kenneth and a playmate became engaged in a quarrel. "If you don't do as I do, I'll put tar and feathers on you like my father and uncle did to Mr. Moore. Come to my house and I will show you," Kenneth told his parents the playmate told him.

Kenneth told the story to his parents and grandparents. They cautioned him to say nothing more, but in boyish fashion he disobeyed and the story became common knowledge in Drumright.

Motorists whose names are withheld have reported to authorities that on several occasions they have seen "masked men" going through ceremonies and rituals in the pasture where the body was found.

S. M. U.

Dallas, Texas, Jan. 29.—The annual revival services at Southern Methodist University will begin Monday, January 29th, with services conducted at the regular chapel hour by Bishop John M. Moore, Dr. W. A. Shelton, professor of Old Testament in theandler School of Theology at Emory University at Atlanta, will deliver daily lectures during "Adjustment Week," starting Monday, February 4th.

Dr. Shelton went with a small exploring party, headed by Professor James H. Breasted, head of the department of Egyptology at the University of Chicago, on a tour of Egypt, Arabia, Babylonia and Syria last year. He lectured on the Near East Relief at S. M. U. last year. Besides his work at Emory University, Dr. Shelton has recently conducted several successful revivals in Georgia.

Professor M. T. Workman, director of religious activities at the University, has charge of the organization of the revival service. He has been assisted by the "Little Committee," composed of the heads of the seven religious activities on the campus, and by the "Big Committee" composed of representatives from every organization—of whatever nature—on the campus.

In his capacity as director of religious activities, Professor Workman is chairman of the "Little Committee," which is made up of the following members: Horace Williams, of Waco, president of the Y. M. C. A.; Miss Ruth Fouts of Nacogdoches, president of the Y. W. C. A.; Miss Lucile Ayers, of El Paso, president of the Christian Service Club; Gaston Fouts, of Merkel, Texas, president of the Epworth League; Hardy Raper, of Marshall, Texas, president of the Students' Volunteer Band; L. U. Spellman of Dallas, president of the Ministerial Association; and Joe Connolly, of Rosebud, Texas, student representative from the Highland Park Sunday School.

TEXAS LEGISLATURE TO GO SIGHT SEEING

Austin, Texas, Jan. 31.—Both branches of the legislature yesterday accepted an invitation to visit San Antonio, Corpus Christi and the lower Rio Grande valley as the guests of citizens of those localities as represented by their Chambers of Commerce. The legislators will leave Austin on a special train at 1 o'clock Thursday and will return early next Monday.

The object of the trip, which will be the longest ever attempted by a Texas legislative body, is to acquaint the lawmakers with the agricultural and mineral resources of South Texas as well as enable them to visit state institutions in that section. The itinerary includes a visit to Somerset and Miranda oil fields, Kingsville, Laredo and a probable jaunt into Mexico.

LEGISLATIVE DOINGS

Austin, Texas, Jan. 30.—The enactment of laws which will encourage and assist in the construction of factories in Texas to enable the manufacture of cotton, wool and other products was requested by Governor Neff in a message to the legislature today. Governor Neff said the legislature should give assurance that investments would not be disturbed by radical legislation and labor's rights safeguarded. He suggested taxation legislation to encourage infant industries, and said constitutional amendments are necessary.

The senate passed the Rountree reclamation bill carrying an appropriation of \$600,000 for topographic and hydrographic surveys and flood control work. The vote was 23 to 7. It goes to the governor for approval. The house appropriations committee reported favorably the Quaid deficiency measure appropriating \$428,500 and the Melson bill appropriating \$1,000,000 for school funds.

HELD FOR DOUBLE MURDER

Waco, Texas, Jan. 30.—Roy Mitchell, a mulatto, has been arrested and charged with the murder of W. E. Holt and Mrs. Ethel Denecamp near here on the night of January 19th. Officers left with the prisoner this morning and it was thought they took him to Dallas, but the authorities at Dallas said they had not arrived there, and no word had been received from the McLennan county officers at 9 o'clock. A pistol identified as Holt's and a piece of rope similar to that found around Holt's leg were reported found in the negro's home by the sheriff. The negro denies his guilt. Officers said the negro's description corresponds with that of the slayer of Harry Bolton last May and Grady Skipworth in November as described by the young women companions of the slain men.

The county attorney today asked for dismissal of the charge against Emmett Smith, a white man, held as a suspect in the Holt-Denecamp case. The court discharged Smith.

Others Brought into Case

Waco, Texas, Jan. 30.—Charges were filed against Mitchell, charging the murder of Holt and against Arthur Polsteal, a brother-in-law of Mitchell, charging the murder of Mrs. Denecamp.

The examining trial of Miss Naomi Boucher and her brothers, Bernard and Horace, was postponed by agreement until February 6 in connection with the Skipworth case.

CONTRIBUTIONS EXEMPT

Washington, Jan. 30.—Commissioner Blair of the Internal Revenue Bureau has ruled that contributions to the Woodrow Wilson Foundation made subsequent to December 26, 1922, are legally exempt from the application of the income tax. The ruling represents a reversal of the bureau's previous stand because of the incorporation on December 26 of the foundation.

PLUCKY PHONE OPERATOR

Abilene, Texas, Jan. 31.—G. W. Williams, telephone operator at Dudley, near here, outwitted a tornado late yesterday. After it struck near Dudley he telephoned farmers in the path of the storm and warned them to seek their cellars. The result was that none was injured, although much property was damaged.

I. M. HUFFMAN BUYS EAGLE PASS GUIDE

Eagle Pass, Texas, Jan. 30.—L. M. Huffman has purchased the Eagle Pass Daily and Weekly Guide, and he, with O. M. Gibbs, as city editor, assumed management of the paper Friday. Mr. Huffman owns an exclusive job plant. With the purchase of the Guide printing, Mr. Huffman now owns all the print shops in Eagle Pass. He is also opening a printing plant in Piedras Negras. The Daily Guide is the only daily paper between El Paso and Laredo.

A TIMELY WARNING

Waco, Texas, Jan. 29.—The action of Secretary of Agriculture Wallace in cutting off federal aid for highway construction in Arkansas should serve as a warning of what will happen in Texas in the near future if the proper steps are not taken to modernize our highway laws, declared W. Y. Crawford, president of the Texas Highway Association, in a statement issued today.

"Secretary Wallace in a long letter to Governor McRea of Arkansas has officially notified the state that federal aid for highway construction within its borders has been cut off until it is prepared to comply with the federal regulations," said Mr. Crawford. "While conditions in Arkansas are somewhat different from those in Texas, the fundamental trouble is the same and unless we take the proper steps to remedy the session of the legislature to remedy the situation we shall soon find ourselves in the same boat as Arkansas."

"It is insignificant that in his letter to the governor of Arkansas, Secretary Wallace says, 'the principal difficulty lies in the state laws, providing for the building of highways.' That is the principal difficulty in Texas. Arkansas and Texas are two among four states in the entire union in which the state government has no power to build and maintain highways. In Arkansas only the road districts have this power, whereas in Texas only the counties and the road districts have it. All of the other evils that exist in Arkansas and that have resulted in having federal aid discontinued in that state grow out of this fundamental defect. Likewise in Texas all the other evils grow out of this feature of our laws. I would not be surprised to hear within the next week or fifteen days that Texas has been notified by Secretary Wallace that unless certain roads in Texas are put in a condition of repair within a certain time federal aid will be cut off for this state. This condition grows out of the fundamental defect in our system which denies to the state government jurisdiction over such roads."

"I believe that the members of the present legislature understand this situation and that they will do whatever is possible to correct it. But public sentiment must support the legislature and inasmuch as one thing that must be done is to amend our constitution, the people must be prepared to adopt the necessary amendment when it is submitted."

"Arkansas right now is receiving some very undesirable publicity as a result of the action of the secretary of agriculture and besides all the federal aid work in the state has been brought to a standstill. We do not want Texas to be classed with Arkansas in this respect. We have let this matter go too long already. We should have amended our constitution five years ago, so that we could cooperate with the federal government in the same manner that other progressive states have been to operating. Some people have been saying that the federal government would never cut off federal aid in Texas. The people of Arkansas now know better, and we ought to profit by their experience."

VANISHED WITNESS APPEARS

Monroe, La., Jan. 29.—Harold Teegerstrom, who disappeared from the carbon plant near Bastrop the night of December 29 and sought in connection with the open hearing into the hooded activities in Morehouse parish, appeared on the streets of Monroe today. He declared he "was back to stay."

A rural enthusiast says more of them should be called farmer-congressmen. For that matter, more should be called former congressmen.

To Our Farmer Customers

THE FERTILIZER FACTORIES SAY THERE WILL BE A GREAT SHORTAGE OF FREIGHT CARS BEGINNING IN FEBRUARY, AND THAT FOR US TO GET OUR FARMER FRIENDS TO HAUL THEIR FERTILIZER OUT IN FEBRUARY.

WE HAVE THE GOODS IN STOCK NOW AND CAN LET YOU HAVE IT ANY DAY AND WOULD RECOMMEND THAT YOU GET IT NOW.

Stripling, Haselwood & Co.

HE FINDS RELIEF AFTER TWO YEARS

George Cartey Is Freed of Stomach Trouble of Long Standing—Gives Taniac Full Credit.

"Taniac has given me so much relief after I had suffered such a long time, that I can hardly find words to fully express my gratitude," declared George Cartey, 178 Broad St., Spartanburg, S. C., well-known machinist for the Spartanburg Cadillac Co.

"For about two years I was in such wretched health I could scarcely do any work. Had stomach trouble all the time, and after every meal I would bloat up with gas till I could hardly stand it, and sometimes at night this trouble would make me so nervous I could not sleep.

"I read in the paper where Taniac had helped others, and I thought maybe it would do me some good. I can say it has helped me wonderfully. My stomach is getting in fine shape my appetite is good, I sleep soundly and am picking up right along. My confidence in Taniac is unabated."

Taniac is for sale by all good druggists.
Over 85 million bottles sold.

TRINITY SCHOOL NOTES

The school work for the last month was better than for the preceding ones.

The literary club met Friday afternoon and gave an enjoyable little program. One of the numbers was an interesting debate between the seventh grade girls as to which is the more necessary to the housekeeper, a dish rag or broom. The points given on both sides were good and very funny. At this meeting, the club also elected new officers for the next month.

Lantie Austin and Jessie Mae Hardy have the misfortune of being sick and missing some important school work.

The boys' basketball team are very proud of a new basket ball.

The fourth, fifth and sixth and seventh grades organized into two divisions, "The Sunshine Band" and "The Fairplay Club," as rivals for the honor roll banner during the month of January. The Sunshine Band won the banner.

Messrs. H. T. Mills, Bill Lilly and Valley West visited school last Wednesday.

The basketball boys are planning to go to Hickory Flat next Friday to play ball with the team of that school.

In an attack of acute rheumatism in which there is much pain Ballard's Snow Liniment is a necessary part of the treatment. It is a powerful pain relief. Three sizes, 30c, 60c and \$1.20 per bottle. Sold by Swift Bros. & Smith.

BIRD HUNTERS FEAST

Felix Weaver's Cafe was the gathering point Monday night of 56 local bird hunters and friends, the occasion being the annual quail dinner of the community's sportsmen. There was an abundance for all and to spare, served in the good way that Felix always serves things. In addition to the birds, there were toast, cream gravy, lettuce, celery, pickles and other tempting viands. Judge V. E. Middlebrook was toastmaster, presiding in his usual satisfactory manner, and addresses were made by Messrs. A. A. Seale, W. F. Gintz, Oscar Matthews, George S. Barham, Mert Blackburn and A. A. Nelson.

A plan of organizing for the better protection of game met with the hearty endorsement of everyone present, and steps will be taken to bring every possible influence to bear upon efforts to that end.

T. J. Williams of Southland Springs is a business visitor in the city. Mr. Williams, who is now in the oil business, was formerly a resident of Nacogdoches. He was the organizer of the Commercial Guaranty State Bank more than 20 years ago and served as its first president. He has lived to see that institution grow and expand into one of the strongest of the financial bulwarks of East Texas, and the fact that he was so largely responsible for launching it must be a source of gratification to him.

The Nacogdoches High School basketball team went to Henderson Friday and trimmed the players of that town to the tune of 22 to 8. Not content with the result of this game, the Henderson team will be here Friday to play our team in the local grounds. A hot contest is predicted and will be well worth witnessing. We shall welcome the visitors while we root for the home team, of course.

A scientist says any color is as effective as red in making a bull mad. Now he might explain what causes all the mad bull from scientists.

The High Court of Public Opinion

WORTHY goods are the only ones that can successfully stand trial at the High Court of Public Opinion. All others are quickly condemned and sentenced to oblivion.

The manufacturer who advertises, deliberately places his merchandise on trial. He invites your critical inspection. He makes publicly certain claims, on the fulfillment of which depends his commercial success. If he were not sure of his goods he would not dare to advertise. For advertising would put him to a test he could not meet, and thus hasten the end of his business career.

Advertising protects you against fraud and inferiority. It saves you money by pointing out for your consideration only the best products.

Well-informed buyers seek news of good merchandise in the advertising columns and are guided by the messages they find there.

Advertising is the Voice of American Business
Don't close your ears to it

NEW FIRM

On Saturday last, the 27th inst., the firm of Brewer & Millard was dissolved, Mr. Millard retiring and S. Mintz of Dallas purchasing his interest in the business. The above firm bought the business of Mr. Mintz on the first of January, 1922, and have since conducted it with profit; but Mr. Mintz yearned to return to his first love and again become identified with good old Nacogdoches, so he made an offer which prompted Mr. Millard to relinquish his connection with the firm. He realized the mistake of selling out here, where he had been in business for more than 30 years, and at the first opportunity sought to correct this mistake. This he has accomplished by repurchasing the interest of Mr. Millard.

Mr. Mintz will remain in Dallas, where he has been for the past year, and the firm's interests will be under the direction of Mr. Brewer, who will have entire control of the business.

The Sentinel, we know, voices the sentiment of our people when it welcomes the return of Mr. Mintz as one of our business men, even though he may not make his home here.

Good luck and prosperity to the new firm.

It is easy to get rid of the misery of heartburn or indigestion. Herbine goes right to the spot. It drives out the badly digested food and makes you feel fine. Price, 60c. Sold by Swift Bros. & Smith.

Another teacher has been added to the faculty of the high school in the person of Miss Johnnie Belle McDonald of Neches, who will have charge of classes in history. Miss McDonald was formerly a teacher in Alexander College at Jacksonville, where her efforts were crowned with success. She holds M. A. and B. A. degrees from the University of Texas and is credited with fine ability. She will be welcomed in school and social circles.

Liquid Borozone is an efficient healing remedy for human or animal flesh. It mends a severe wound, sore, cut or scratch in the shortest possible time. Price 37c, 60c and \$1.20. Sold by Swift Bros. & Smith.

How humiliating it will be when the department of justice gets ready for trial and finds the wor graters have died of old age.

A deed of trust uttered by the Southern Ice & Utilities company and covering 40 typewritten pages was filed in the county clerk's office this week. This deed covers all the holdings of the company to secure an issue of \$5,000,000 gold bonds to provide funds needed in the campaign of expansion contemplated by the company. This document is recorded in 18 counties of the state, and is perhaps the largest trust deed ever filed here.

It is advisable to hitch your wagon to a star, especially if it's a water wagon, and you're a movie star.
