STATE OF TEXAS NOW HAS 756 OIL COMPANIES

Industrial Survey Report Shows \$145,504,725 in Expenses Paid Annually

Dallas, Texas, Sept. 5.—There are now 756 different oil entities paying a production tax in Texas, of which number the six dominant companies, Gulf, Humble, Humphreys, Magnolia, Texas and Sinclair, pay 37.4 percent, while other large companies having small interests in Texas pay 3.9 percent; the remaining 58.7 per cent is paid by smaller companies and individual operators, according to a statement made today by Burt C. Blanton, industrial engineer and manager of the Industrial Department of the Texas Chamber of Commerce, who is making a statewide survey of Texas' industries.

"Texas now has 121 oil refineries with a total daily rated capacity of approximately 450,000 barrels," Mr. Blanton said, "and a total of approximately 56,000 persons are employed in the oil industry in Texas, with an average daily pay of more than \$2,000 a year.

"Oil companies in the state of Texas paid approximately \$145,504,725 in royalties for the year 1922.

"The total number of barrels of oil refined in Texas for the year 1922, including imports and Texas' production, amounted to approximately 120,000,000 barrels, while the state of Texas produces in excess of 100,000,000 barrels of petroleum a year," said Mr. Blanton.

"The special taxes alone, paid by oil companies, are practically 10 percent of the total revenue of the state, and are collected over and above the ad valorem taxes paid, and no other wealth-producing industry pays an occupation tax."

"The amount paid in wages, lease rentals, bonuses and special taxes by oil companies operating in Texas is approximately \$145,504,725 a year."

"If this sum was distributed based on the present population of the state,

it would equal approximately \$30 per capita.

"These figures do not include the cost of materials, machinery, insurance and federal taxes, to say nothing of the dry holes drilled, for dry holes drilled in Texas average in excess of 1,000 per annum and represent a total cost, which is a dead loss, of \$15,000,000."

"The value of refined petroleum products in Texas amounts to approximately \$250,000,000 a year," Mr. Blanton said.

"Texas oil companies own over 7,500 oil tank cars. There are over 6,500 miles of oil pipe lines in Texas. The estimated oil reserve of Texas is 700,000,000 barrels, exclusive of the Gulf Coast.

"The natural gasoline plants in Texas comprise a total of 89 plants, 46 being absorption plants and 43 compression plants; while the total daily rated capacity amounts to 377,707 cubic feet of gas.

"Natural gasoline plants in Texas represent an investment in excess of \$6,000,000," Mr. Blanton said, "while the capital invested in oil refineries exceeds \$7,000,000."

WILSONS PROBABLY SAFE

In response to an inquiry by Mr. W. U. Perkins of this city concerning his daughter, Mrs. Jesse R. Wilson (nee Louise Perkins), who is in Japan and concerning whose fate the family and friends have suffered great anxiety, the headquarters in America of the Baptist Foreign Mission Society on Tuesday sent the following telegram:

New York, N. Y., Sept. 4, 1923. W. U. Perkins, Nacogdoches, Texas: Following telegram from secretary Japan Mission: "Have no reliable information concerning Tokyo and Yokohama. As far as known our own missionaries all safe. Damage not yet ascertained."

American Baptist Foreign Mission Society.

This would seem to indicate that Mr. and Mrs. Wilson are among those whose fate, which is a very comforting thought.

A Banker's Duty

The banker loans money, often the money of depositors, intrusted to him for safekeeping. Therefore he must be careful about his loans.

Correspondingly, the borrower should be careful to ask for no more than he feels he can repay. We try to accommodate those who want loans, but there is a limit beyond which we cannot go. We take no risks with the funds intrusted to us. No speculation, no excess loans, no "frozen securities" for this bank!

Guaranty Bank and Trust Co.

PEOPLE MADE INSANE BY HORRORS OF EARTHQUAKE

Tokio, Sept. 4.—Innumerable bodies of earthquake victims are clogged in the River Sumida, which flows through Tokio. Thousands of frenzied men and women, overcome with excitement and fatigue, went mad and threw themselves into the river when the shocks were occurring and thousands of others perished when the bridges across the Sumida River collapsed.

Embassy Staff Safe

Washington, Sept. 4.—All the members of the American embassy staff at Tokio are safe, Ambassador Wood advised the State Department today in the first message received from him since the earthquake; that none of the embassy staff were injured, although all the embassy buildings were totally destroyed. Coincidentally, the State Department received a dispatch from American Consul Davis at Shanghai saying that Tokio, Yokohama and Yokosuka had been completely wiped out. The casualties among foreigners, he said, have been very numerous. The ambassador's message was sent from Iwakui wireless station. It said that the food situation was very acute and asked that rations be sent at once from the Philippines.

Consul Davis' message stated that Max Kirjassoff, the American consul at Yokohama, and his wife lost their lives in the disaster.

Menaced by Rioters

Shanghai, Sept. 4.—Reports received here today said rioting menaced the destroyed Japanese cities. Two hundred Koreans, driven from Tokio by soldiers enforcing martial law, procured arms and started a disturbance. The police are arming officials and citizens to cope with the situation, according to a Japanese news agency.

Tokio Still Burning

Shanghai, Sept. 4.—Tokio is still in flames and the loss of life there alone is at least 150,000, with damage of perhaps half a billion yen (about \$250,000,000). These latest estimates were received here today in a special dispatch by an Eastern news agency from Tokio.

Prince Dies from Hurts

Nagasaki, Sept. 4.—The death of Prince Matsukata, former premier and minister of finance, is reported here. A message to the Nagoya Railway Bureau says the prince died from the effects of injuries sustained in the earthquake.

Organizing for Relief Work

Washington, Sept. 4.—The inauguration by the American Red Cross of a \$5,000,000 campaign for the relief of Japanese earthquake sufferers was announced today by Elliot Wadsworth, treasurer of the organization, after a conference with President Coolidge, Secretary Hoover and Japanese Ambassador Hanibara.

LEAGUE BACKS ENGLAND IN GREECO-ITALIAN ROW

Geneva, Sept. 5.—It is reported that Foch Hymans, the Belgian delegate, has received orders from Brussels to stand daily with England in her case against Italy's withdrawal from the League.

Denies League's Authority

Geneva, Sept. 5.—It is reported that the League of Nations today that Italy would regard intervention by the League in the Greco-Italian crisis as unjustified. The League, he asserted, had no competency in the affair, which belonged properly to the Interallied Council of Ambassadors. The Italian government expressed its irrevocable opinion through him that the Council should not accept the Greek request that the League take up the matter. By her appeal, the representative said, Greece has sought to escape her responsibility.

The Sentinel's publisher is in receipt of a postal card, dated Brownsville, from his valued old-time friend, John Weatherly of Garrison, now making a trip through Southwest Texas. The card reads: "In Brownsville. Will remember you tomorrow when in Matamoros." That reference as to what he will do in the Mexican town, where your Uncle Volstead is taboo, is playing rather wickedly on us residents of this "desert" country.

EARTHQUAKE HORRORS GROW AS DETAILS ARE RECEIVED

Osaka, Sept. 5.—Approximately 10,000 refugees, fleeing from the ruins of Tokio, were burned to death in the yard of a military clothing factory in the industrial suburb of Honjo.

All of Family Dead

Nagasaki, Sept. 5.—The family of P. G. Babbitt, American commercial attaché at Yokohama, are all dead, and T. De Jordan, French consul at Yokohama, also was killed in the earthquake.

Believe Americans Safe

Washington, Sept. 5.—All Americans in Tokio are believed to be safe, Ambassador Woods reported today to the State Department. The estimate of the dead in Tokio is placed by the ambassador at 10,000. He stated some Americans in Yokohama had been killed. Communication with Yokohama has been opened, he said. The ambassador said the food situation is serious and asked that supplies be sent at once from the Philippines.

Vice Consul Safe

Washington, Sept. 5.—Vice Consul Sam Wardell at Yokohama is safe, according to a message, but the other members of the staff have not been accounted for. The dispatch added that the naval hospital at Yokohama collapsed and Commander Webb was injured, while some of the staff were killed.

Italian Ambassador Killed

Rome, Sept. 5.—The Italian ambassador to Japan, G. Demartino, is reported to have perished in the earthquake.

Donations Pouring In

Washington, Sept. 5.—Even before the appeal for funds had had time to gain general circulation, the American people today began pouring their offerings into the fund for the relief of the Japanese earthquake sufferers. The first mail to reach the Red Cross headquarters today brought a batch of checks in response to an appeal for \$5,000,000 with which to extend aid to the stricken people. Scores of contributions were for \$500 each and others ranged from \$5 to \$5,000.

Gets Official Report

New York, Sept. 5.—Two official messages received today at the offices of the Japanese consul general estimated the casualties in Tokio and vicinity from the earthquake at 160,000, with 1,000,000 persons homeless. One of the messages was relayed by Consul Oyama at San Francisco, who received information by way of Shanghai. The other message, dated September 1, was sent by Count Kakino, keeper of the imperial household at Tokio.

FATAL BOILER EXPLOSION

Corpus, Texas, Sept. 5.—One man was killed and two others seriously injured today when a boiler exploded at a drilling location near Richmond according to a report reaching here.

AT END OF HER TETHER

London, Sept. 5.—The end of her tether so far as her claims for a divorce are concerned, this is the latest impression in banking circles in England that today, a woman who has been known for years and is a social favorite, will file a petition in divorce, claiming that her husband is bigamous with a French and Belgian governments.

BOY AND GIRL FOUND DEAD

Beaumont, Texas, Sept. 5.—The bodies of Besse Carl, 16, of Houston and P. O. Rial of this city were found near the spot where their car had been abandoned Monday. The couple had been missing since Saturday, when they disappeared after attending a picture show.

The bodies were discovered by a party headed by the sheriff. A bullet hole in Rial's skull and a fracture in the girl's skull indicated they had been murdered.

As the season approaches for the annual spatter of words from La Follette, it is recalled that there are 125 volcanoes in Java, and the people manage to harvest the coffee crop between eruptions.

NACOGDOCHES GIRL IN MIDST OF JAPAN HORROR

London, Sept. 5.—The health report of Karuzawa, about 80 miles northwest of Tokio, was not damaged by the earthquake, according to a message received today by the church missionary society. Karuzawa is a charming place for an holiday and is also the scene of many of their conferences.

That above item will prove of special and concern to Nacogdoches people because a former Nacogdoches girl was at the place mentioned when the disaster occurred. She is Mrs. Jesse R. Wilson, formerly Miss Louise Perkins, daughter of Mr. and Mrs. W. U. Perkins. Two years ago she and her husband went to Japan to engage in missionary work, and were stationed at Karuzawa while learning the Japanese language. They had finished their studies and were to have left for field work today (Tuesday, September 4). As this town escaped the ravages of the earthquakes and tidal waves, it is hoped they were among those who were uninjured in the frightful cataclysm. Mr. Perkins telegraphed Monday to the officers of the missionary board in New York, under whose supervision Mr. and Mrs. Wilson are working, but had had no reply up to noon Tuesday. We sincerely hope that good news may come from the young people and relieve the suspense of Mrs. Wilson's parents and friends here.

HENRY MCGREGOR DEAD

Londonderry, N. H., Sept. 4.—Henry McGregor of Houston, Texas, three times member of the Republican National Committee from Texas and a personal friend of President Harding, died at his summer home here last night. He resided in Galveston and Houston for years and was an investment broker. The body will be sent to Houston.

DISTRICT COURT

The Nacogdoches District Court convened for the fall term Monday morning, Judge L. D. Guinn on the bench and Prosecuting Attorney F. P. Marshall looking after the state's interests. Judge Guinn delivered an oral charge to the grand jury and adjourned court till the afternoon.

The grand jurors are R. R. Loy, foreman; W. D. Crawford, W. J. Trickle, N. J. Andrews, D. E. Paine, N. T. Suggs, George Lowery, D. Parrish, R. E. Motzner, J. T. Stewart, J. W. Lambert, and S. D. Martin.

The grand jury retired to their room, elected D. E. Paine clerk and took a recess until 1:30.

John Burrows, Sr., was appointed door keeper and the reading staffs are W. D. Burrows, M. W. Dewberry, R. H. Yearbrough, J. D. Matthews and F. M. Chatters.

In his charge to the grand jury Monday, Judge Guinn impressed upon the inquirers their duty in seeking out and bringing indictments against pistol toters, and laid especial stress upon the law making it a felony to drive an automobile while the driver is in a state of intoxication. He also called attention to the law which forbids the transfer of property to criminals which may be appointed by the commission of crime.

Alleged adultery was the subject of a charge by Judge Guinn to the grand jury that they should take up the case of the alleged adulterous couple.

The grand jury was also instructed to take up the case of the alleged adulterous couple.

The grand jury was also instructed to take up the case of the alleged adulterous couple.

Frank Sanders, colored, an employee of the Acker Motor Company, was arrested Thursday by Deputy Sheriff Casley on a charge of speeding. Frank gave the officer a lively chase out West Main street before he was overtaken. He pleaded guilty and his fine and costs amounted to \$12.95. It is the expressed determination of the city and county officers to arrest all traffic law violators, regardless of who the offenders may be.

GREAT EARTHQUAKES SINCE 1906

New York, Sept. 4.—A list of great earthquake disasters since 1906, with casualties and property loss follows: April 18, 1906.—San Francisco, Cal., earthquake, followed by fire; 452 killed, 1500 injured; property damage, \$350,000,000.

August 16, 1906.—Valparaiso, Chile, 1500 killed, 3000 injured (both estimated); property damage \$60,000,000.

January 14, 1907.—Kingston, Jamaica; 1000 killed, 2000 injured (estimated); property damage \$25,000,000.

December 28, 1908.—Sicily and Calabria, 74,483 killed; 95,470 injured, property damage beyond calculation; towns of Messina, Faro, Santaterza, Scalletta, Reggio, Galico, San Giovanni, Pellaro and Palmi wholly or partly destroyed.

April 18 to May 5, 1910.—Cartage and adjoining towns, Costa Rica, 1500 killed, 5000 injured (estimated); town wrecked; property damage \$7,000,000.

August 9, 1912.—Thrace and Asia Minor, 3,000 killed, 30,000 injured; 50 villages wrecked, three swallowed up in earth; no estimate of property damage possible.

June 14, 1913.—Tirnova, Bulgaria, 250 killed, 377 injured; town destroyed.

August, 1913.—Falcon and Hope Islands, Tongo Group, swallowed up by sea; 500 or more dead.

November 10, 1913.—Callhuana, Peru, 250 dead, 1000 injured; town destroyed.

December 19, 1913.—Ambrim Island, New Hebrides, partly submerged; 500 dead.

January 12 1914.—Sakura, Japan, earthquake and volcano eruption, 250 killed; 700 injured; property damage \$2,000,000.

March 15, 1914.—Island of Hondo, Japan; 360 killed, 200 injured (most of killed were miners entombed in collapse of copper mine).

May 3, 1914.—Catania, Sicily; 200 killed, 500 or more injured; many nearby villages destroyed.

October 3, 1914.—Northern Asia Minor, 2500 killed, more than 5000 injured; 300 square miles of territory laid waste.

June 15, 1923.—Northwest Persia, from 6000 to 20,000 killed, 250,000 made homeless.

ECLIPSE OF SUN MONDAY

Houston, Texas.—Darkness dense enough to make lights necessary for the continuation of uninterrupted business will accompany the eclipse of the sun in mid-afternoon of September 13, 1923. According to astronomers, the darkness will be about 33 percent maximum and will last more than an hour.

Although the eclipse as viewed in Houston will not be total, still it will be sufficient to cause children to think about darkness at night and retreat to their rooms. As long as things are in a state of confusion, the eclipse of the sun in Houston may expect to see September 10.

Those with keen eyesight will be able to view the planet Venus during the eclipse, according to Mr. A. N. Brown, who said that about 2:30 p. m. an eclipse of Venus will be seen. The sun will appear to have a black spot of light, very much similar to a new moon. However, it will be much brighter.

The real beauty of the eclipse will not be visible here, or anywhere in Texas. This is the corona, which is popularly supposed to be formed of super-heated gas surrounding the sun and visible only during a total eclipse, it was pointed out.

Houston residents may best obtain a view of the eclipse through smoked glasses large enough to cover both eyes. Those who possess opera glasses probably will be even more fortunate.

According to information compiled by Mr. Auclon the eclipse begins at sunrise in the Pacific ocean west of Alaska. The path of totality sweeps southwest in a shadow band about 105 miles wide, striking the lower part of California at San Diego, thence across Mexico and ending at sunset near Jamaica in the West Indies.

Correct this sentence: "Sure," said the husband; "I mailed it on the way down this morning."

THE "CHECK-OFF" SYSTEM

Houston Post.
Apparently the most serious point of difference between the coal miners and the operators is the "check off." The "check-off" is a system by which the union dues are withheld from the pay of the miners by the operators and paid to the union. In other words, the union compels the operators to collect its dues.

An example is presented by the Toledo Blade: "John Jones, let us say, is a mine blacksmith. He is a member of the union. He is responsible to the union for certain dues. When his wages are paid these dues are subtracted from his pay and forwarded to the union treasurer. There is no chance for him to dodge this payment. He cannot get behind-hand with it. He will never be dropped for non-payment of dues. Thus, so far as his fees are concerned, he is always in good standing. The union officers do not have to worry about their bad collections."

Just upon what principle a union can require employers to perform this collection service is not clear. Other labor organizations do not require employing concerns to render this service. And it is not strange that the operators should object to performing it. There is no more reason why the operators should agree to such a demand than that they should pay the salaries of the union officials themselves.

There are many reasons why the operators should object to assuming such an obligation, and there is not one just reason why the union officials should insist upon it.

The maintenance of the union and the requirement of members to keep their obligations, financial and otherwise, is a matter for the union to take care of.

Certainly the operators would have no legal right to withhold from the compensation of its employees their dues to the organization.

HE SUES FOR 30 CENTS

Ever since the jury system has wrestled with the problem of damages, inept men have been endeavoring to measure with dollars the dimensions of an individual's pain and anguish. Courts and lawyers, developing through the centuries the vast and intricate system of English and American law, have produced millions of conflicting precedents, and countless legal technicalities. But they have evolved no standard scale whereby juries may measure damages. The result has been that one jury might assess damages of \$1000 for the loss of a life, while another will value a lost appetite at a higher figure.

Plaintiffs in law suits have followed the practice of asking damages vastly in excess of the amount they expect. At last, however, it is possible to chronicle a suit in which the man damaged names the exact figure at which he measures his loss. E. T. Meredith, former secretary of agriculture, has directed that suit for defamation be filed against his fellow Iowan, Senator Smith W. Brookhart.

Senator Brookhart has accused Mr. Meredith of "sitting in the Wall street game while secretary of agriculture and helping produce the greatest panic in farm prices in the history of agriculture."

Mr. Meredith decided that the statement was extravagant, exaggerated, untrue and defamatory. Then he set about calmly and scientifically to measure the amount of defamation. When he filed suit Mr. Meredith demanded damages of 30 cents, as just compensation for the harm done him by such a statement from such a source.

It is to be hoped that Mr. Meredith presses his case. Not so much for the determination of the issues between him and Senator Brookhart, but to establish a general policy of demanding exact damages in law suits.

THE FORTUNATE SOUTH

Montgomery (Ala.) Advertiser.
The South is more prosperous than the Northwest. There is no despair in the South; there is no desperation, there is no threatening condition. Conditions could be better, but, on the whole, they are quite good. In the wheat country there is desperation among farmers, who have got far enough in their rage and unhappiness to take their grievances to the polls, with what consequence everybody knows.

We can work in the outdoors nine months in the year at least; the wheat people can't—three months is the best they can do in their rigorous climate. They work harder in those three months than our Southern

farmers work in the same period, but they wouldn't do it if they didn't have to step fast to make a living. We take our labor somewhat more leisurely, but we work more months, get better air, and vital statistics show that we in the South live longer than people in the colder regions.

The people of the South in many respects are the most heaven-favored people in the world. They have much to be thankful for. They have had their trials and tribulations in the past, they suffered from want of adequate operating capital. But we are a fortunately situated people. Our climate is more delightful, year in and year out, than the climate of any other region in America with the exception of California. Our soil is adequate to the variety of our needs and the diversity of our talents. Our people are a homogeneous people, of whom it can almost be said that they are a happy people.

MAKES FEW REMARKS ON-PRINTING BUSINESS

Garland News.
Some people seem to think that a printing office is one business that ought not to be affected by rising prices. They insinuate that these public burden bearers should run for the good of the country without profit to the runner thereof. Which is possibly explainable by the fact that newspaper men have acquired reputations as notoriously poor business men. The public apparently feels that notwithstanding that prices of paper and other material have doubled and tripled in the past few years, and printers salaries have done likewise, still the publisher should be able to eke out an existence and do work at before the war prices, which is a sad mistake. The average country newspaper does more to the community than any other business institution. This it does cheerfully and freely because it is in a position to do it. But doggon, our cats of this publisher is going to work sixteen hours a day, wear out his equipment and not have money to buy more with, and be rode as a free horse all his life. The newspaper is entitled to a fair price for its service, and that we are going to have henceforth or not have any newspaper. If the business interests want to solicit bids from all over the country that is their business and we will not complain. They will probably find some idiot who will do the work cheaper than we can and live. But it will be cheaper work, too. And the money is gone out of circulation locally. We do not charge exorbitant prices for our work, but we are entitled to a living profit on what we do just the same as the cobbler, the groceryman, the baker, the druggist or undertaker. And when we want a few yards of calico or a toothbrush or a pair of socks, we are going to buy it from our home merchants and not ask bids from all the mail order houses in the country. And our local banks will get our loans. We are not going to forsake them in our business. The News, be it understood, is a legitimate business enterprise, and it is not a hijacking institution. It is entitled to a fair profit on its work, and is going to have it. And because of the great amount of free work it necessarily does for the town and community it is entitled to every job of printing needed in this town or community. These are facts, the state of which makes the hot weather more bearable. Hot dog!

TOO LOW, NOT TOO HIGH

Suit has been started by the U. S. government against International Harvester Company, to dissolve the company into at least three parts. Grounds for suit are apparently not, as one might think, too high prices on the part of the Harvester Company for farm implements, but too low prices—"unduly depressed prices," and presumably, likely to hurt business of other manufacturers of farm implements. The Harvester Company's statement, however, says that their prices are low—too low—because of the hard situation of the farmer who is not able buy normal and needed machinery. Recently the Interstate Commerce Commission refused the program of Western railroads to reduce rates in order to encourage shipments of certain products. The Department of Justice and Interstate Commerce Commission are carrying out intentions of our numerous laws and attempting to reconcile and enforce their mandates. Every new law adds a little more to our tax burdens or living expense and increases the opportunity to pass another new law. The people must be "protected" however, even if the cost of production is greater than the benefit derived.

A motion picture actress has been robbed of \$50,000, in lieu, just possibly, of having no husband for her press agent to sue for divorce.

CO-OPERATIVE MARKETING

That the co-operative marketing of cotton program is sweeping the cotton growing states of the South is indicated by the tremendous increase in new memberships to the twelve state cotton associations affiliated with the American Cotton Growers Exchange, according to C. O. Moser, secretary of the Exchange. "Since January first to August 27, the various associations not including Alabama, have added 69,275 new members. August 27th started Victory Week, which will continue until September 1st. In reality sign-up week. During this intense week of canvass we are hopeful of adding quite a few additional thousands of members to the co-operative marketing of cotton associations."

"From January 1st to July 1st, 40,264 new members were added to the various associations. On July 1st the More Money for Cotton campaign was started, since within time 29,011 new members have been added. Georgia leads in the number of new contracts since July 1st with 6,828, Texas second with 6,575 and Oklahoma third with 6,082. There is a close race between these three states for honors in the campaign during Victory Week, and it is expected that the final week of intense campaigning will materially increase these figures," he said.

No report was received from the Alabama Association, but according to L. F. McKay, Director of Information of the American Cotton Growers Exchange, "the Alabama Association last week advised that their memberships double that of last year with every indication that the delivery of cotton will more than double last year's delivery."

A LETTER TO DAD

I am writing this to you though you have been dead for thirty years. I feel that I must say something to you, things I didn't know when I was a boy in your home and things I was too stupid to say. It is only now, after passing through the long, hard school of years, only now, when my own hair is gray, that I understand how you felt.

I must have been a bitter trial to you. I believed my own petty wisdom, and I know now how ridiculous it was compared to the clean, ripe, wholesome wisdom of yours. Most of all, I want to confess my worst sin against you. It was the feeling that I had that you "did not understand."

When I look back over it now I know that you did understand. You understood me better than I did myself. Your wisdom flowed around me like an ocean around an island. And how patient you were with me! How full of long-suffering and kindness. And how pathetic, it now comes home to me, where your efforts to get close to me, to win my confidence, were to be my pain!

I wouldn't let you. I couldn't. Ah, what was it that held me aloof? I didn't know; but it is tragic, that wall that rises between a boy and his father, and their frantic attempts to crawl over.

I wish you were here now, across the table from me, just for one hour, so that I could tell how there's a will any more; I understand you now, Dad, and God, how I love you and wish I could go back and be your boy again.

I know how I could make you happy every day. I know how you felt. It took a good many years for this prodigal son—and all sons are in a measure prodigal—to come to himself. I've come. I see it all now. I know what a rich and priceless thing, and one least understood, is that mighty love and tenderness and craving to help which a father feels toward his boy. I have a boy of my own now.

And it is he that makes me want to go back to you, get down on my knees to you and ask you to bear me, Dad, and believe me.—From Commerce and Finance.

SHORTAGE OF BRICKS?

A brick weighs quite a bit and should be manufactured as near as possible to the place where it is used in building. So something is radically wrong with our "system" when three million bricks a month are imported into New York City from foreign countries. That's what has been happening this year. "Shortage of bricks" is a poor excuse. If we can't even make our own bricks, the outlook for American industry is rather sad when it comes to commodities requiring more intricate manufacturing skill.

Now that Will Hays has decided against movies showing any more Mexicans as villains, the films can fall back on congressmen.

A Diamond Mine for You

CERTAIN South American farmers were poverty stricken. They said the soil was too rocky to plow. They complained that their children were in rags—that they had to play with pebbles instead of toys

The pebbles were diamonds! But the farmers didn't know. Many died poor.

Don't be like the South African farmers! Don't seek opportunity in some distant place and overlook the wealth that is daily within your grasp.

Advertising points out values you would probably overlook if it were not there to tell you. No other one thing will give you such economy and keen satisfaction in your everyday-buying.

Don't overlook the diamonds—Read the advertisements

PRIVILEGE, NOT RIGHT

With a motor vehicle for every eight or nine people in the country it happens that these are not distributed evenly geographically but are found in greater numbers where population is most dense. Already the capacity of roads and streets is being tested to the utmost in rush hours and traffic jams are of not infrequent occurrence. What is a serious situation now is destined to become more so until the full capacity of the public to absorb motor car output reaches the point of saturation. When everybody has a car and the number ceases to increase by leaps we may reach the condition where street and parking space may prove ample, though it will be at enormous cost in widening thoroughfares.

Streets are provided primarily for unobstructed passage. If any of them are given even to standing vehicles it is by surferance and not by any right possessed by those thus served. Though the public is under no obligation to provide parking space in the streets for vehicles, as a matter of accommodation cities do permit this at definite times and for fixed periods where such service does not interfere with the rights of the general public. The right of the public to as nearly unobstructed transit through the streets as may be had is paramount to the desires of individuals. The rule of first come, first served operates in street parking. Were there an obligation on the municipality to provide each car owner with space the last arrival would have as strong a claim as the first and would needs be cared for.

Were it to become necessary through over-crowding to forbid any cars to be parked in the street car owners would lose no right. As some streets in almost every city are forbidden as parking grounds it is well to understand that by such a course public rights are not being circumscribed, but conserved. What places an inconvenience on an individual may be for the convenience of the masses and interests of the latter govern. The automobilist who hunts for a parking place on the street and finds it is favored by privilege. He is not enjoying a right.

A barking dog may not bite, but it can become decidedly irritating at times.

A NEW WORD, "AUTOMOBOOB"

Automoboo! It is a name of new coinage. It is applied to a party who doesn't know how to drive a car with anything like due respect to the rights of others, and who does not care to learn. And there is a proposition to pin the word "automoboo" in big letters upon the car of any person convicted of reckless driving, or other unseemly behavior. Possibly some such procedure in addition to a big fine would be the most effective remedy that could be applied. There are few people who can stand ridicule and to be ridiculed before the whole world so that all who run may read might be the greatest punishment possible to inflict on this class of individuals. It would be worse than the placard placed on the back of little David Copperfield, which read: "Beware of him, he bites." And it would be equally applicable.—The Eagle Lake Headlight.

WAS PRESIDENT FOR ONE DAY

Senator David Rice Atchison of Clay county, Missouri, claimed the unique distinction of holding the office of president for one day. Being president pro tempore of the senate from 1846 to 1849 and again from 1852 to 1854, Senator Atchison was for one day legal president of the United States, since Gen. Zachary Taylor, successor to James K. Polk, was not sworn in until Monday, March 5, 1849, and the terms of President Polk and Vice President George M. Dallas had terminated by limitation at midnight Saturday. Senator Atchison was very fond of humbly urging his claim to having been president for one day. He said he slept most of his term. Of course, there is nothing on record to show that he drew any salary as president.

ACCIDENTALLY SHOT

While cleaning a pistol at 1 o'clock Thursday afternoon, Elbert Lawson, son of M. E. Lawson of North Church community, was seriously wounded by the accidental discharge of the weapon. Surgical aid was quickly summoned and everything possible was done for the unfortunate man. The ball struck him in one of his thighs and ranged upward, the Sentinel was told. The injured man is a brother of Mrs. Dock Watson of this city.

BANKERS HAD GOOD MEETING IN LUFKIN

Association Absorbed by Two Other Districts—Barbecue Had at Humason Heights
Lufkin News, 30th.

A good and enjoyable meeting of the Fourteenth District Guaranty Fund Bank Members Association was held in Lufkin yesterday afternoon and evening. All persons scheduled to appear on the program as published previously were present and took their parts except Hon. E. H. Blount and Thos. E. Baker, of Nacogdoches, both of whom were unavoidably absent.

It was determined at the afternoon session that the association would be disbanded inasmuch as it is to be absorbed in half each by the Jackson-sonville and Beaumont districts, Lufkin going in the southern half of the district or with Beaumont. There have been heretofore 26 banking districts in Texas and the number has now been reduced to 21 effective Saturday of this week. Therefore, no election of officers was had here yesterday as had once been scheduled.

There were twenty-two bankers in attendance upon the meeting held in Lufkin yesterday. J. E. Angley, president of the Guaranty State Bank of Palestine, presided over the business session, he being vice president acting in the absence of President E. H. Blount. Hon. A. S. Ferrell of Austin, state examiner, was present and addressed the assembly of bankers. Under the new revision of districts, Mr. Ferrell is as yet unassigned and is now making his last official visit of bank inspections. Following the afternoon session, which was held in the Elks club rooms, the bankers repaired to Humason Heights, a lovely acreage just east of the city, where a splendid barbecue and dinner had been prepared. This was greatly enjoyed by all, as is characteristic of all the functions with which the Humasons have anything to do.

FOR WORKING PEOPLE

The best of workmen get out of work when the liver fails to act. They feel languid, half-sick, "blue" and "downy" and think they are getting lazy. Many of these symptoms might result in a spell, therefore the sensible course is to take a dose or two of **SWIFT'S**. It is the medicine needed to purify the system and restore the vim and animation of health. Price 50c. Sold by **SWIFT BROS. & CO.**

"IT'S YOUR FAIR---SO BE THERE"

RECOGNITION OF MEXICO NOW ASSURED FACT

Washington, Sept. 1.—The United States and Mexico have agreed to resume full diplomatic relations.

Formal announcement of the agreement was made yesterday by the state department.

The restoration of relations carries with it full recognition by the United States of the government of President Obregon. It results from the negotiations recently concluded in Mexico City by Charles B. Warren and John Barton Payne.

The American embassy at Mexico City and the Mexican embassy here are to be restored at once to official standing, for the first time since the collapse of the Carranza regime in 1920, and all pending claims will be submitted to specially appointed commissioners for settlement.

The signing of two claims conventions provided for in the report of the American commissioners will be one of the first acts after the resumption of relations. These conventions have been approved by the two governments and affixing of signatures is expected within two or three weeks.

Acting Secretary Phillips announced the resolution "to renew diplomatic relations" in a formal statement issued at noon.

"The government of the United States and the government of Mexico, in view of the reports and recommendations that their respective commissioners submitted as a result of the American-Mexican conference held in the City of Mexico from May 14, 1923, to August 15, 1923, have resolved to renew diplomatic relations between them, and, therefore, pending the appointment of ambassadors, they are taking the necessary steps to accredit, formally, their respective charges d'affaires."

Asked about crop conditions in the Nat country, Mr. Baker said: "At this date it looks like our yield of cotton will be about what it was last year. You understand, of course, that our acreage this season was increased over last season's, and while the acre-yield this year will fall slightly below that of last season, the total yield will be approximately what it was for 1922."

When asked about the prospects of a good school at Nat the coming term, Mr. Baker replied: "Yes, we expect to have a very successful term. Prof. J. P. Coates, one of the best-known and most successful teachers in the county, will head our school and will be ably assisted by Misses Clara and Lola Stenton. The Misses Sitton are our daughters of our Mr. Will Sitton. They have made splendid reputations as teachers and we are looking forward to a good school year, and, by-the-way, we are planning to hold a school 'rally' and 'community day' shortly, and will expect some of our Nacogdoches friends to be present. We have purposely held back the last issue of our 'yaller-legged' chickens for this occasion. They are now 'spillin'' for the pan, too. When these birds are browned to a nice turn, smothered with cream gravy and served with piping hot biscuits—well, they are good enough even for that official 'chicken-eatin' Methodist preacher you bought along with your Good-Will Tourists recently."

If the reporter can find out the exact date of this proposed community day at Nat, he'll be right there. Judged by his chicken-eatin' ability and his tendencies to fall from grace, this reporter is Methodist entitled to registration in the merit class.

KIWANIS CONVENTION

Miennal Wells, Texas, Sept. 3.—Forty-eight cities and towns were represented here today at the seventh annual convention of Texas-Oklahoma Kiwanis Clubs. A number of international officers are scheduled to address the meeting, which will continue through Tuesday.

Those who bought German marks as an investment will not be wholly out of pocket. Their losses will reduce their income tax.

THE COTTON OUTLOOK

Dallas, Texas, Aug. 30.—The outstanding development in the agricultural and business situation in the Eleventh Federal Reserve district in the month ending August 15, was the sharp deterioration of the growing cotton crop, the review of business conditions issued by the Dallas Federal Reserve Bank said today.

The deterioration was due to the dry weather, excessive temperatures and hot winds.

"While a month ago crop prospects pointed toward a crop equivalent to the large production figure of 1920, the present outlook is indicative of a greatly reduced yield," the report read. "Considerable shedding has been reported in all sections of the district, and the premature opening of cotton is reflected in the early ginnings, which are heavier than usual. The ravages of insects, which gave evidence of much destruction earlier in the season, have been checked by the weather conditions and present indications are that the damage from this source will not be excessive."

"The recovery of the cotton market since the issuance of the Government's July 25 condition report has offset to some extent effects of heat and drought, and has served to restore the confidence of the producers in the outcome of the present crop." Seasonal factors were reflected in the general financial reports, the review stated. The Federal Reserve Bank's loans to member banks showed an expansion of approximately \$12,000,000 between June 1 and August 15, as a result of increased demand for bank credit to finance business and agricultural operations.

NEW LEGION OFFICERS

Galveston, Texas, Aug. 31.—Dr. W. M. Sherwood of Temple, Texas, heads the American Legion, department of Texas, as state commander, having been elected yesterday afternoon in convention, defeating Rufus Scott of Paris, Texas, by a vote of 185 to 151.

Brownwood was selected as the next meeting place in a close race with Fort Worth.

Vice commanders were elected as follows: Maco Stewart, Jr., of Galveston, M. C. Atkinson of Ballinger, James Howze of Mercedes, Leonard Withington of Fort Worth and Steve Alford of Orange.

G. L. Folbre of Austin was re-elected State adjutant, and Hervert Davenport of Brownsville as judge advocate.

Clyde Halton of Port Arthur was re-elected treasurer and J. A. Rossiter of Houston was elected national executive committee man. C. M. Ashmore of Lockhart is the chaplain for the new year; George C. Puri of Dallas sergeant-at-arms, and W. D. Car-gill of Brady, historian.

TOWN'S FOUNDER DEAD

Sherman, Texas, Sept. 3.—John Sadler, 84, founder of the town of Sadler, Grayson county, and wealthy landowner, died here last night. He is survived by eight children.

Piles

**CURED
in 6 to 14 Days**

A. Drugists are authorized to refund money if PAZO OINTMENT fails to cure any case of ITCHING, BLIND, BLEEDING OR PROTRUDING PILES. Cures ordinary cases in 6 days, the worst cases in 14 days.

PAZO OINTMENT instantly Relieves ITCHING PILES and you can get restful sleep after the first application. 50c

GREATEST OF DISASTERS VISITS JAPANESE EMPIRE

Disaster at a Glance.
Cities of Tokio and Yokohama reported wiped out by earthquake, fire, typhoon and tidal wave Saturday.

Hundreds of seacoast cities and towns within a radius of 100 miles of Tokio reported destroyed.

Loss of life estimated at over 100,000.

Millions homeless.
Martial law proclaimed in Tokio.

Tens of thousands of buildings reduced to debris and consumed by flames.

Scores of villages buried by landslides.

Imperial Palace at Tokio destroyed.

Hundreds of thousands of refugees fleeing to open country.

Shipping in Yokohama harbor suffered heavy loss.

Communication and transportation paralyzed.

Water supply of both Tokio and Yokohama paralyzed.

Famine threatens devastated areas.

Relief movement has been started.

American Asiatic fleet ordered to Japan to render assistance.

Japanese warships proceed to Yokohama. Merchant vessels ordered from Osaka and Kobe to stricken area.

Thousands injured when Tokio arsenal blows up.

Mount Hakone rumbling, eruption feared.

Nagasaki, Japan, Sept. 3.—Tokio is still burning, according to advices received here today. The offices of the Bank of Japan are reported to have been demolished yesterday. A wireless message received here through the steamer Korea Maru stated that all lighthouses in the Bay of Tokio were rendered useless and navigation is consequently dangerous during the hours of darkness.

Prince and Princess Killed

Shanghai, China, Sept. 3.—With the remnants of Tokio's stricken population still escaping from certain wards of the city, fires continued to rage in all sections at 1 o'clock this morning, according to a telegram from the police at Osaka. It is impossible to estimate the loss of life.

Prince Yamashima and Princess Kaya, injured at Kamakura, are reported dead.

Another earthquake yesterday shook the Kanto District, centering on Yokosuka, a city of 70,000 population. The telephone exchange at Cho Jamanchi was destroyed and 40 operators killed.

American Navy to Rescue

Washington, Sept. 3.—Admiral Anderson, commanding the American Asiatic fleet, reported to the Navy Department by wireless today that seven American destroyers had left Port Arthur for Japanese ports to assist in relief work. Six destroyers which are being sent to Japanese waters on orders from Washington will reach Yokohama Wednesday. The seventh, sent from Nagasaki, will reach there tomorrow.

Aviator Reports Damage

Osaka, Sept. 3.—Lieutenant Ishida, who flew over Tokio and the stricken district in an airplane yesterday, reported to the commander of the Nagoya Division that the imperial palace was only partially damaged. Nearly all concrete and brick buildings collapsed and the Fukagawa ward was flooded by a tidal wave. The imperial palace has been thrown open to refugees. The latest estimate of the casualties at Yokohama alone exceeds 100,000. A report from Yokohama says the damage to buildings in the foreign settlements has been particularly serious. The Specie Bank and Grand Hotel have been demolished.

Offers Entire Fleet

Washington, Sept. 3.—A second message from Admiral Anderson said other destroyers were being stationed at various places as radio relay ships in an attempt to reopen communication with Japan. All destroyers are carrying medical supplies and food. The admiral reported that he had also offered the Japanese Minister of Marine the entire Asiatic fleet for such use as he could make of it in relief work. In his second message the fleet commander said reports reaching him indicated that Yokohama and Tokio had been devastated by earthquake, typhoon, fire and a tidal wave.

A "BUSTED" GOVERNOR

Indianapolis, Ind., Aug. 30.—Governor Warren McCray today called a meeting of his creditors to be held here Friday. The governor's action confirmed reports that had recently become widespread to the effect that he was financially embarrassed. Friends of the governor declare that his financial embarrassment has been brought about by the lowering prices of farm lands and the low cattle market.

MORE AUTOS IN TEXAS THAN IN EIGHT NATIONS

Washington, Sept. 3.—Texas in 1922 had 526,238 motor vehicles, the Automotive section of the Department of Commerce has announced. Although a census now would show that the number has greatly increased the figures are especially interesting for that year in view of a motor vehicle census of the world for 1922 which has just been completed by the Department of Commerce.

The census shows that in 1922 Texas had more motor vehicles than Canada. Or to make it more interesting there were exactly 144,645 more motor vehicles in Texas in 1922 than there were combined in Germany, Italy, Sweden, Japan, China, Russia, the Netherlands and Greece. These eight countries had 361,593 automobiles to Texas' 526,238.

The total number of automobiles in the entire world in 1922 was 15,515,526. Of these 12,567,376 are in the United States.

Here are how some of the nations compare with the 526,238 motor vehicles in Texas:

France, 341,871; Germany, 166,033; Austria, 15,203; Mexico, 23,050; Poland, 5,600; Spain, 45,000; Netherlands, 47,740; Gold Coast, 294; Russia, 13,000; Canada, 516,383; Italy, 86,200; Australia, 119,998; Argentina, 80,000; Belgium, 56,000; China, 7,113; Greece, 5,480; Japan, 10,279; Sweden, 45,748; United Kingdom, 833,640; Denmark, 36,681; Cuba, 34,050.

Liberia is the nearest autoless of any country with only 17 cars.

ANNUAL FOOTBALL GAME AT UNIVERSITY OF TEXAS

Austin, Texas, Sept. 3.—Tickets for the University of Texas-A. & M. football game to be played on Kyle Field at College Station Thanksgiving Day went on sale September 1 at the office of L. Theo. Bellmont, director of men's athletics at the University.

Box seats are \$3 and reserved seats \$2.50. Tickets are available for University alumni and the general public at this time, but no seats are being sold in the rooters' section or the faculty section. The University will occupy seats around one-half of the field and A. & M. will have the other half.

"In compliance with an announcement made several months ago, we are placing these seats on sale and alumni and the public desiring tickets may have them right away," Mr. Bellmont said. "It will be strictly 'first come, first served.'"

Mail orders will be filled as they are received. Mr. Bellmont stated, and tickets for students and faculty of the University will be put on sale later.

HOG CHOLERA LOSSES

Fort Worth, Texas, Sept. 3.—Though hog cholera in Texas has been under practical control through efforts of the Live Stock Sanitary Commission of Texas and the Bureau of Animal Industry the losses in Texas have been great enough to cause close attention to its eradication and control, according to Dr. Harry Grafke, inspector in charge of Texas for the Bureau of Animal Industry.

Of the 2,326,000 head of hogs in Texas valued at \$8.80 per head or a total value of \$20,469,000, the loss for the year ending April 30, 1923, according to statistics gathered by the Bureau has amounted to 55,824 head of hogs valued at \$491,251. It is estimated by the Bureau that 80 percent of all losses were due to cholera.

The report of the Bureau for all hogs raised in the United States shows Texas in ninth place in the whole country in the production of hogs. Iowa standing first in the production with 9,615,000 head of hogs valued at \$12.80 per head or \$123,072,000 suffered a loss of 566,900 head of hogs valued at \$7,256,320.

It is interesting to note in the figures compiled by the Bureau that the Maine hog crop which was only 68,000 head was valued at \$18.30 per head while the Iowa crop was valued at \$12.80 and the Texas crop at \$8.80. In Maine only 1,088 head of hogs valued at \$19,920 were lost through cholera. The Arkansas crop was 1,114,000 head at the low price of all states—\$6.90 per head—and the loss due to cholera was 48,125 valued at \$322,063.

No more man could be quite as important as a statesman seems on a Chautauqua circuit.

SORE MUSCLES

Vacations are often spoiled by soreness resulting from outdoor games. A good massage with Vicks often gives surprising relief.

GREECE RESENTS TONE OF ITALIAN DEMANDS

Athens, August 30.—It is understood here that Greece is not disposed to accept the humiliating conditions imposed by the Italian government in its note demanding satisfaction for the killing of five Italian members of the Grecco-Albanian Frontier Demarcation Commission. In the event a deadlock is reached in settling affairs, Greece, it is understood, will propose to submit the question to the League of Nations. The Greek government is disposed to indemnify the families of Italians murdered on Greek territory.

KILLED BY RANGERS IN SOMERVELL COUNTY

Waco, Texas, Aug. 30.—Tullis Holt was killed by rangers last night in Somervell county raids. He was a brother of W. E. Holt, who was killed by Roy Mitchell in one of McLennan county's mysterious murders. Mitchell was hanged last month for the murder of Mrs. Ethel Denocamp, Holt's companion on the fateful night. Tullis Holt is survived by his mother, two brothers and several sisters.

MISSIONARIES MURDERED BY CHINESE BANDITS

Shanghai, Aug. 30.—Rev. W. A. Whitside and F. G. Watt, British missionaries of the Church Missionary Society, were shot and killed by bandits when traveling in Szechwan province August 14th, according to a letter from Meinchow received here today.

ITALY STANDS FIRM

Athens, Sept. 3.—The Italian government, through its minister here, has served notice on Greece that Italy will refuse to recognize whatever decision the League of Nations makes in the present Greco-Italian crisis. Unconfirmed reports received here yesterday said the Italians had occupied the islands of Samos and Cephalonia. In reply to the protest to the Interallied Council of Ambassadors, made against the Janina murders, Greece says she is prepared to pay such reparations as an international conference of inquiry might deem equitable.

Will Not Discuss It

London, Sept. 3.—Reuters today says it understands the Italian government has instructed its representative in the League of Nations to abstain from further discussions of the Greco-Italian dispute.

Burn Italian Flag

Athens, Sept. 3.—A crowd burned the Italian flag and attacked the Italian legation.

Violence Follows Funerals

Athens, Sept. 3.—A violent demonstration against Italy took place today after funeral services had been held for the victims of the Corfu bombardment.

KILLED IN NEGRO RIOT

Johnstown, Pa., Aug. 31.—Two detectives and a negro were shot to death and three policemen probably fatally wounded today while officers were answering a riot call to Rosedale, the negro quarter of this city. The rioting, which grew out of a quarrel among the negroes, was suppressed and 15 negroes were arrested. The dead negro, policemen declared, had been crazed by moonshine liquor and had fired all the shots at the officers. The dead are John James, county detective; Joseph Abraham, private detective; and Robert Young, negro.

TEXAS OIL MAN DIES

Los Angeles, Aug. 31.—David Beatty, wealthy oil and realty operator of Texas, said to have been the first to drill in the Beaumont field in 1900, died suddenly at the Los Angeles Country Club last night, after an illness of several months. He had extensive oil holdings in South Texas and considerable real estate in Houston.

EARTH IS SHAKING

Florence, Italy, Sept. 3.—Seismic instruments here recorded another strong distant earthquake, registered at 1:30 this afternoon.

KILLED IN EXPLOSION

Ranger, Texas, Sept. 3.—Charles Lieber, 22, Charles Phipps, 23 and Charles Griffith, 21, were killed and Jeff Potette was seriously injured in an explosion of undetermined origin at the Hainsford wagon yard, off Main street, here today.

A marriage license was issued Saturday to Paul Thompson and Miss Mae Renan of Nacogdoches county; also to James V. Lilly and Miss Myrtle Mathews of the Appleby community.

A CATASTROPHE UNPARALLELED

Houston Post.

From the meagre reports which come from Japan, Saturday's earthquake and the attendant conflagrations must have marked the most destructive and disastrous visitation in human annals, possibly exceeding in loss of life and property even the deluge itself.

There is yet the hope that the early reports are much exaggerated, for that seems to be the general history of such catastrophes, but the general breakdown of means of communication is indicative of a vast tragedy.

First accounts suggest the wreck of all the great cities, followed by conflagrations and tidal waves. The density of population in this part of Japan is great, and it must have been that countless thousands lost their lives. As for the property destruction it must have mounted high figures.

The civilized world, distraught as it is because of recent war losses and bankruptcy, will be appalled at this latest disaster, visited upon one of the great nations of the world by the forces of nature, and when all the truth is known, and if early reports are confirmed, there will be a worldwide sympathy with the Japanese people.

Thousands of American and European tourists are in Japan, and there will be deep anxiety and distress everywhere until their fate becomes known. One report tells of the great loss of life in the Hakone district, where there are health and pleasure resorts that attract thousands of natives and visitors.

Japan itself is a child of seismic and volcanic forces, and her history is full of disasters, large and small, but they have never conquered the spirit of the Japanese people nor subdued their loyalty to their oft-shaken archipelago.

The people of the United States have never been slow to succor victims of national disasters anywhere in the world, and as soon as communication with the stricken empire can be re-established, it need not be doubted that there will be a ready response from the people of this nation to the victims of this unspeakable visitation. It is recalled that the Japanese government was first to respond to the distress call caused by the San Francisco earthquake with a donation of half a million.

OFFICIAL LAWLESSNESS

Houston Chronicle.

The Chronicle has on many occasions in the past severely criticised the actions of officers who have assaulted arrested persons and who have shot persons who fled to escape arrest, or who attempted to escape after being arrested.

It has done so because such action on the part of officers was not only violative of the plain language of the law, but of natural right and justice and a dangerous perversion of official power. There is another phase of offending by officials which is more common than those above referred to, and just as grossly violative of the constitution and personal rights, and that is the habit of stopping citizens and searching them without a warrant.

What is most lamentable is that the people have come to look upon it as a legitimate exercise of official power, and papers of large circulation record such acts of unlawful trespass as news items, without comment, apparently classing them with the arrest of drunks and down and "speeders."

In the issue of the San Antonio Express of August 24 it is stated as an item of local news that a local attorney was arrested for unlawfully carrying a pistol, and that, under instructions from the chief deputy sheriff, another deputy had searched the attorney "to ascertain if he had a gun."

A gun was found on him and he was at once placed in jail.

It appears that the attorney had been actively engaged with the state rangers in the "clean-up campaign" in San Antonio, and in common with several hundred other citizens, had been lawfully commissioned to carry a pistol, but he did not know that all the commissions had been revoked, hence still had a pistol.

No deputy sheriff or any other man had a shadow of right to search the person of the attorney without a warrant based on a sworn complaint.

The Bill of Rights, every provision of which is beyond the touch of the legislature, in express terms prohibits the seizure and search of any citizen without a warrant based on a sworn complaint.

That deputy sheriff had no more right to seize the attorney and search his person than he would have had to

enter his home and search it without a warrant.

Such has always been, is now and always will be, and always ought to be the law.

It is no answer to this indisputable proposition to say that the deputy found a pistol on the person of the attorney. He did not know that the attorney had a pistol, because it is expressly stated that he made the search "to ascertain if he had a pistol," therefore he searched on suspicion, which was absolutely a violation of the inherent and constitutional personal rights of the attorney.

The Supreme Court of the United States has held that where the home of a citizen is entered and searched without a warrant and incriminating evidence is found, such evidence can not be used against the defendant.

It is as amazing as it is lamentable that not only constabulary officers, but so many people besides, have fixed in their minds the belief that any constabulary officer is authorized to search any citizen at any time and at any place he may see fit if he suspects him of being in possession of a pistol or any prohibited commodity.

A peaceable citizen, who shrinks from violence, will generally submit to a trespass rather than run the risk of a personal conflict, but some day some man who knows his rights and who prefers to resist rather than submit to unlawful seizure and search will resist, and the officer who uses violence to enforce the search will be killed and the party resisting will be adjudged as having been within his rights and will be acquitted.

Such a tragedy would be regrettable, of course, but it looks as if nothing short of such action will teach some constabulary officers what they will not learn otherwise.

It is time constabulary officers had learned that they have no right to violate the guarantees of personal liberty which the constitution throws about every citizen.

A DANGEROUS PROFESSION

"Newspaper writing is a dangerous profession," Arthur Brisbane told a Princeton audience recently, because the longer the experience, as a rule, the less the worker's value. A doctor is a better operator when he feels no sensation, pity or regret, as he cuts into human flesh. But a newspaper man loses value when he ceases to feel keenly the things with which he deals. Asked whether a college education was an asset to a man entering the newspaper business, Mr. Brisbane said:

"Work done in college helps in newspaper work, since all knowledge soon or later is found useful in newspaper writing. For money making, newspaper work is better in the beginning, compared to other lines of work, than in the end. A young newspaper man is apt to earn more than the old newspaper man. The old brain does not feel as strongly as the young brain.

"There are exceptions, of course. Some newspaper men are highly paid, getting as much as \$10,000 a year, and more. But such salaries are few. There is a constant variety in the work that fascinates and holds one in it. Besides, newspaper men become easily unfitted for other work by late and irregular hours. It is god work, in the beginning, teaching in a short time more about human nature than might be learned in a lifetime in other lines of effort. But it does not offer the ladder of progress found in other professions or businesses."

KNITTING

Shreveport Journal.

There is a revival of the ancient and honorable art of knitting. It is not so great as the revival that came during the war, when everybody knitted for the soldiers, but it is general enough to keep a lot of feminine hands busy.

The movement has arrived at the stage of state and national knitting contests, and prestige has been lent to it by the entrance of the president's wife in one of the big competitions. Mrs. Coolidge is said to be a knitter of much prowess, as befits a woman of her ancestry and especially one who is said still to follow her established custom of darning her husband's socks. It may be that she really knits socks for the president.

That sort of thing is dubbed "reactionary" by many of our modern women. It may be so. But, surely, if women are going to return to knitting at all, they may as well knit something useful. And knitting husbands' socks might conceivably do as much for the restoration of the good old American home as some of the remedies the feminists are advocating.

President Coolidge was born on a farm and farm hours will obtain at the white house. However, what the general public is perhaps a bit more interested in, is what Cal intends to burn this winter in the sitting room stove.

AMUSEMENT FIELD AT FAIR OF 1923 TO BE EXTRA FINE

The amusement field mapped out for the entertainment of visitors to the State Fair of Louisiana, October 18 to 28, inclusive, is filled with wonderful offerings. The attractions cover a large variety, and there ought to be something to please everybody. The management believes it knows what the patrons want for their recreation and pleasure, and has sought to book it in the amusement program.

Among the amusements promised are the following:

Daring aerial feats by pretty Miss Lillian Boyer, the girl dare-devil, who at dizzy altitude will perform in most sensational way. She will give a death-defying program daily.

Three days of Automobile races, Oct. 18, 21 and 23. A number of the leading professional drivers of the country will compete for the purses.

Auto Polo contests between expert teams each day of the State Fair.

Six days of Running Races, the dates being Oct. 19, 22, 23, 24, 25 and 26. Attractive purses have been hung up, and some of the fastest runners in the country are expected.

Football games each Saturday. Centenary and State Normal of Natchitoches will meet Oct. 20, while the Arkansas University and the Louisiana University (Razorbacks vs Tigers) will meet in their annual contest October 27, with the Shreveport high school each Saturday forenoon meeting another high school eleven.

Spectacular fire works, featuring "India," each night in front of the grandstand.

A. F. Thaviu and his Band of 36 pieces, together with 7 grand opera singers, 9 ballet artists and 60 local voices. The musicians will put on the second act of "Aida" nightly on a special stage.

Midway attractions by the Morris & Castle Shows, a Shreveport organization, making a favorable impression wherever the shows are booked. Twelve Hippodrome acts which are considered among the best to be found anywhere.

HIGH CLASS 'HIP' ACTS ARE ASSURED

In selecting Hippodrome entertainment for the eighteenth annual State Fair of Louisiana, the management picked from a large field of high class artists and considers that it is fortunate in booking those who will appear at the Fair Grounds October 18 to 28, inclusive. The Hippodrome performers will appear both afternoon and night in front of the grandstand.

There are twelve of these acts, namely:

Thomas Saxe: rendering a brilliant and colorful program of synopetized operatic and Jazz numbers. They are considered the "last word" in musical acts.

Riding Costellos: a daring trio of acrobatic bareback riders, who thrill their audience with new feats of equestrianism and advanced horsemanship.

Auto-Polo, the "crazy" game, with contests by internationally famous contestants.

Lester, Bell and Griffin: furnish amazing, diversified comedy feats of acrobatics, fearlessly and perfectly performed. There is a grotesqueness about some of the daring stunts.

Robinson's Millant Elephants, through which is demonstrated animal training to the Nth power. Astounding and ludicrous feats are done by the ponderous pachyderms.

Ballet singers in high class programs.

Brazilian Circus, which gives an idea of how circus riders are taught in Brazil land what they are taught to do in the way of daring feats, humorous stunts, etc. This circus is the latest furore in Europe, it is claimed.

Long, Bell and Grand: a funny trio, using many costumes and ridiculous make-ups

Three Phillips, perch gymnasts, whose perch acrobatic acts are sensational. Their technique is marvelously finished.

Concerts by A. F. Thaviu and his celebrated Band.

Grand Opera singing by seven notable songsters.

DOG SHOW ARRANGED FOR LOUISIANA FAIR

Persons who are interested in fine blooded dogs will have the privilege at the eighteenth annual State Fair of Louisiana of visiting an up-to-date Dog Show. It will be staged under the auspices of the reorganized Shreveport Kennel Club, and will be held on three days of the State Fair, October 26, 27 and 28.

The services of Dr. George W. Clayton of Chicago, who is considered among the best judges in the country, have been engaged, which assures satisfactory judging.

Premiums will be open to all recognized breeds of dogs.

For further information, write W. B. Hirsch, Secretary-Chairman, Shreveport, La.

Only Because - DELCO-LIGHT COMPANY is the

World's Largest Producer of Electric Light Plants can they make such an offer -

\$549.50

Here is the installation you get for \$549.50

COMPLETELY INSTALLED - for the most popular farm size plant ready to turn on the lights

QUANTITY production makes low prices possible.

1. One Delco-Light Plant, the most popular size, Model 866-850 watts capacity, 32 volts (freight paid).
 2. One standard Delco-Light Excide Battery with sixteen large capacity cells with extra thick plates and heavy glass jars (freight paid).
 3. The installation of the Plant and Battery - except purchaser to furnish concrete base and battery rack.
 4. Wiring your house for ten (10) lights to be located anywhere you wish.
 5. One power outlet wherever you may want it installed in your house.
 6. Standard set of ten (10) drop lights with sockets and the installation of these lights in your house.
 7. Ten (10) standard electric light bulbs.
- Similar outfit with smaller size plant - Model 608
\$442.50
Sold on easy payments.
Liberal discount for cash.

The Delco-Light Company makes more farm electric lighting plants than any other manufacturer. Over 21 acres of floor space are occupied by the great Delco-Light Factories at Dayton. Whole carloads leave these factories daily, carrying Delco-Light Plants destined to brighten farm homes far and wide throughout the land.

Over 4,000 skilled installation men are daily wiring homes and installing these plants in all parts of the country. Such quantity production and such unparalleled installation facilities enable the Delco-Light Company to offer for the first time this wonderfully low, installed price for the most popular farm-size Delco-Light Plant.

Never before has there been such a splendid opportunity to equip your farm with electric light and power. Delco-Light will make your home a better, brighter place in which to live and work. You can make the housework easier for the women. You can make life happier for the children. You can save labor and increase profits for yourself.

You've wanted a Delco-Light Plant. You need a Delco-Light Plant. Here is your opportunity.

FERNANDEZ-GIBBS

Lufkin News, 3rd.

A wedding of unusual interest transpired at 11 o'clock this morning in this city in the marriage of Miss Agnes Fernandez, charming daughter of Mr. and Mrs. L. O. Fernandez, and Mr. Conrad Gibbs, an employee of the Brownwood Bulletin, a daily newspaper at Brownwood, Texas. The nuptial event was held in the Fernandez home here, only a few friends and relatives witnessing the event. Dr. E. W. Solomon, pastor of the First Methodist church, performed the ceremony. The young couple were to leave this afternoon at 3:30 o'clock over the Cotton Belt for Dallas, Fort Worth and Brownwood, where they will reside.

Mrs. Gibbs is well and favorably known, making hundreds of friends in her duties with the Lufkin Amusement Company at the ticket window of the Victory Theatre. Mr. Gibbs was formerly employed in the mechanical end of the Lufkin Daily News and has scores of friends here who were glad to greet him this morning and who wish Mrs. Gibbs and him every happiness in their wedded life.

Conrad and his winsome bride

spent Monday night in the city and Tuesday morning visited the Sentinel office, where they received the glad hand and hearty felicitations of those of the force who had arrived. The groom formerly was a resident of Nacogdoches, a son of O. M. Gibbs, onetime editor of the Sentinel. He has many friends here who join in wishing him and his bride every happiness that life may hold.

The young couple left on the T. & N. O. train for Dallas and Fort Worth on their way to Brownwood. The Sentinel's very best wishes go with them.

MISS SALLIE DAVIS

Miss Sallie Davis of Melrose, aged 81 years, died Monday at Martinsville. She was one of the best known of the good women of that section and was greatly beloved by all who came within the radius of her influence. Many relatives survive and mourn her. Interment was made in Melrose cemetery at 4 o'clock Tuesday afternoon, it was learned.

Deceased was en route from Melrose to Center to make her home with a nephew and was visiting with friends at Martinsville when she died.

FINE FAMILY HERE

Prof. W. F. Garner, late superintendent of Longview city schools, but now head of the department of history of the Teachers' College, arrived in the city Monday with his family and is now located in the Lucian Buchanan cottage on Logansport street. Prof. Garner is a "native son" of East Texas. He was born and raised in Cherokee county, near the village of Gallatin, where his mother and father now live. The Garners belong to one of the old established families of Cherokee county. For three generations the family has made constant contributions to the best in society. Prof. Garner has a B. A. and M. A. degree from the University of Texas. He has "seasoned" his college and university training with a lot of wholesome experience in school work. He was for some time principal of the Marshall High School, also he was superintendent of the Jasper Public Schools for two years. A younger brother, R. J. Garner, holds a responsible position with the College of Industrial Arts at Denton. Another brother, Luther Garner, will be a student in our college this term.

We welcome the Garners to our midst. May their stay here be both continued and pleasant.

WOMAN WAS SAVED FROM OPERATION

Mrs. Morris Was so Weak Before Taking Stella Vitae She Couldn't Sit Up.

"I was taken to the hospital for an operation but was too weak to stand it, so they took me back home and I recovered my health and strength by taking Stella Vitae," said Mrs. W. O. Morris, 424 Hopkins St., Waco, Texas.

"When my baby was born I suffered agony and had to stay in bed for a long time. An operation was necessary—at least that was what they said. But when they examined me they said it might prove fatal, as I was in no condition to stand it.

"I began taking Stella Vitae and gradually my strength returned. I gained five pounds and the operation was never necessary. I got along fine and although that was ten years ago I have never had any return of my trouble."

Stella Vitae may be obtained from any druggist and the purchase price will be refunded if it fails to bring relief.

THE DEMOLAYS

Monday the Sentinel had a brief account of the organization and institution here of a chapter of the Demolays, an order composed of the sons of Master Masons and their chums who are not old enough to become members of the Masonic fraternity. The tenets of this order are in every way commendable, teaching as they do good citizenship, obedience and respect to parents, courtesy, kindness and patriotism. The boy, who lives up to the lessons inculcated is bound to be a credit to himself, his family and his country.

The name of the Nacogdoches organization is Thomas J. Rusk Chapter, No. ... (the number to be supplied).

Following is a list of the young men initiated Saturday night.

George McNess, Charlie L. Stoddard, Willie B. Stoddard, Brown O. Watkins, F. C. Winder, Otha McCall, George R. Reese, Archie B. Walling, Felix H. Tucker, Joseph Lockey, Venoy C. Burk, Cooper Pierce, Greer Orton, George Meisenheimer, Claud Fore, Jack Reavley, Ira Eaves, Wilbur Fouts, Benjamin F. Tucker, Willie Nations, Eugene Sanders, Henry Blackwell, Dale Irwin, James H. Dennard, Clifton R. Tannery, Kirby Casey, James C. Stroud, Ernest Smith, George Van Burrows, Francis Rochefort and Alton King. Two other boys, Paul Davis and Pearson Chandler, were unavoidably absent from the meeting and will have to be initiated at a future date.

The following officers were selected:

Wilbur Fouts, master counselor; Jack Reavley, senior counselor; Raymond Rochefort, junior counselor; McCall, senior deacon; Ira Eaves, junior deacon; George Reese, senior steward; George Van Burrows, junior steward; Eugene Sanders, chaplain; Cooper Pierce, marshal; Greer Orton, scribe; Venoy Burk, treasurer; Ernest Smith, almoner; Brown O. Watkins, standard bearer; Clifton Tannery, sentinel; Joseph Lockey, orator.

Proctors—No. 1, Willie Nations; 2, Clifton Stroud; 3, Archie Walling; 4, Ben Tucker; 5, Felix Tucker; 6, Henry Blackwell; 7, Howard Dennard.

The advisory council, composed of Knights Templar, are: T. J. Blackwell, A. S. Brewer, A. A. Seale, R. F. Davis, W. F. Gintz, John C. Blake, W. P. Faulk, William McCulston, F. A. Beall and G. T. McNess.

The members of the chapter and advisory council will meet at 7:30 tonight (Tuesday) to perfect the work of organization.

The Sentinel wishes the chapter may grow and prosper and accomplish the splendid work for which it was designed.

TRUSTEES' INSTITUTE

The Trustees' Annual Institute will be held Thursday, September 13th, at the High School Auditorium from 9 o'clock a. m. to 4 o'clock p. m. R. F. DAVIS, Chairman.

TURN ON ELECTRIC LIGHTS IN YOUR HOME

"Ready to turn on the lights!" That, it is declared, is the thought back of the new, Installed-Price Plan of selling Delco-Light, the well-known farm electric plant, which the company has just announced.

The announcement of this plan is especially directed to those who live in farm homes, it is stated. "We want to make it easy for the farmer to have electricity in his home, and to know before hand, just what the whole thing will cost him," declared officials of the Delco-Light Company, in response to questioning about this remarkable plan.

Briefly stated, the plan is to furnish a standard model Delco-Light plant and storage battery, to install it complete, wire the house for ten lights, put in ten drop lights, complete, even to the electric bulbs in the sockets, put in a general power outlet anywhere in the house the owner may choose, in short to furnish a complete Delco-Light installation. "Ready to turn on the lights," as stated above.

Low prices are assured on all models and, in addition, financing of the purchase is taken care of, where necessary by an easy-payment plan which calls for only a small cash payment.

The Delco-Light Company is well-known for its efforts at spreading the benefits of electricity in the country, and many thousands of farm homes today know that these benefits are, thanks to the kindly influence of these widely known Delco-Light plants. It is safe to predict, with the aid of a plan like this and with so many thousands able to enjoy the advantages of electricity, accordingly, that great numbers will take advantage of the opportunity which the Delco-Light company offers, to buy their own Delco-Light plants this fall and join the other thousands who are already enjoying this modern convenience.

CITATION BY PUBLICATION

The State of Texas.

To the Sheriff or Any Constable of Nacogdoches County—Greeting:

You are hereby commanded to summon Lourie L. Newsom by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the County Court of Nacogdoches County, to be held at the Court House thereof, in Nacogdoches, Texas, on the 3rd Monday in November, A. D. 1923, the same being the 19th day of November, A. D. 1923, then and there to answer a petition filed in said Court on the 28th day of June, A. D. 1923, in a suit, numbered on the docket of said Court No. 1809, wherein Commercial Credit Co., Inc., a corporation, is plaintiff, and Lourie L. Newsom is defendant, and said petition alleging that Plaintiff is the owner of a certain promissory note executed by Defendant on the 25th day of November, 1922, payable to C. A. Pate of Angelina County, Texas, in the sum of \$334.00 made payable in installments of \$27.83 each per month except the last installment, which is for \$27.87, the first being due on the 25th day of December, 1922, said note bearing interest at the rate of 10 per cent per annum from maturity and providing for 15 per cent attorney's fees if placed in the hands of an attorney for collection; which note was secured by a chattel mortgage of even date therewith upon the following personal property to-wit: "One Ford Truck, Motor No. 6761769, 1 Ton 1922 Model." That Nos. 2, 3, 4, 5, 6, and 7 of the installments above mentioned are due and unpaid and that plaintiff exercises his option to declare the balance of said note due and that there is now due on said note the sum of \$400.20 principal, interest and attorney's fee, and plaintiff prays for judgment for said amount and for foreclosure of said lien.

Herein Fail Not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Nacogdoches, Texas, on this the 29th day of August, A. D. 1923.

J. F. PERRITTE, Clerk, County Court, Nacogdoches County, Texas. 6-4w

By Susie Massey, Deputy.

Collector Johnson reports back-tax payments coming in at a rate which is gratifying, the farmers being enabled to meet this obligation by reason of their ability to market their cotton at a fair price. October 1st will bring regular taxpaying time for the 1923 assessments. The rolls are still in possession of the state board, but will be returned to Collector Johnson in time for him to begin his work promptly at the time designated.

THERE'S A WAY OUT

Texas Commercial News.

Henry Ford, in making clear that he could not make good as president, made the following observation:

"If we find that we have a useless department in our industry, we walk down some Saturday morning and kick it out; suppose I should find the Supreme Court a useless department of the government, I couldn't kick it out."

That seems to be the matter with our schools. We are talking about having to cut the terms short because taxes could not be secured to pay the expense of the system as it is.

A conference met in Waco for the purpose of ascertaining what is the matter, but it failed because it was looking for more money instead of looking for school economies.

If a manufacturing plant should find that it could run its plant only nine months with available operating capital, rather than let its machinery lie idle for three months, it would consolidate departments and reorganize its business on a scale commensurate with the available resources.

That's exactly what Texas schools ought to do.

If a school can't hire ten teachers for the required length of time, hire only seven, eliminate ornamental activities, and let the seven teachers concentrate on the essentials.

Better still, introduce the plan of half-school days, and take one group in the morning and the other in the afternoon and let the teacher have ever before her a rested, prepared, eager bunch of students, and she will do much better service than she will do struggle half the day with alert pupils and the other half with tired, indifferent pupils.

What Texas schools need is a baptism in thoroughness in what they attempt rather than an annual struggle to "affiliate" with some institution which will get less than one-half of one per centum of their pupils.

ILLUSIONS ARE VANISHING

Romantic illusions are vanishing rapidly in our matter-of-fact age.

Uncle Sam's trade experts report that at least half of the better homes in Constantinople use linoleum as floor covering. Reluctantly we abandon the idea that the homes of the rich Turks are strewn with soft and velvety oriental rugs, to tread which is like walking in a cream pie.

It shows what advertising can accomplish, inducing the Turks to use linoleum—and us to use Turkish rugs.

BAPTIST YOUNG MEN'S CLASS

The Baptist Young Men's Sunday-School Theatre, which meets in the Palace Theatre every Sunday morning, had a very large class last Sunday. Eighty-one were present, with an offering of \$7.00. This class has accepted a challenge from the young ladies for an attendance contest and much interest is aroused. Though the men won out last Sunday, they fully realize they have a job on their hands to come out victors.

One of the main things of interest in this class is the song service every Sunday morning. The class has just purchased one hundred new song books and just last Sunday authorized a committee to purchase a new piano to be used in the class. This piano has already been bought and will be in readiness for next Sunday's service.

A larger class is expected next Sunday.

The attention of the people is directed to the importance of ridding their premises of water collected from the recent rains. Unless this is drained off thoroughly and promptly they may expect a renewal of the mosquito plague, which has almost been eliminated by the work of Inspector Winder and his crew. A few moments' light work will drain off this accumulated water and remove the breeding places of the pests. DO IT NOW!

Cartoonists find Cal Coolidge has a difficult face to have fun with, but that will be all right. There are the doughnuts.

It is almost certain that Mark Twain could have done something with a Southern Republican named C. Bascom Slomp.

It is just about time of the year when the June bridegroom throws the can opener into the alley and invites the dear thing to begin cooking.

With New York mail delivered to the Pacific coast by air in 30 hours, the California woman can get her fall hat one day before the style changes.

Still, men probably don't violate laws any more frequently than laws violate common sense.

A man is old when he can yawn and go to bed and leave the hero in the middle of a bad fix on page 184—Akron Beacon Journal.

YOUNG FRIENDS, LISTEN!

The training received in College will measure your business success. Therefore it behooves you to think carefully and choose wisely the College in which you are to receive your training. The college that has stood as a leader in educating men and women for big business for more than 20 years, a college with an international reputation, students from thirty-nine states and seven foreign countries, more than 3600 enrollments annually for the last five years, with successful business men at the head of it, is the one for you to attend.

The Tyler Commercial College, Tyler, Texas, America's greatest and best known business training university, has made itself prominent by turning out graduates in its seven different extensive courses, containing over 37 subjects, which have achieved not only success but prominence, some as presidents of large banks, wholesale houses, oil companies, etc. at salaries as high as \$50,000 a year.

Our Employment Department secures good positions with successful concerns for graduates. We are receiving daily many calls.

With our own copyrighted texts and systems, successful management and the most thorough, practical teachers to be had, we give a most efficient training in the shortest time possible.

Under our contract system with private families, boarding expenses are exceptionally low. Our great saving in time required for graduation, through the use of our special systems and our low living costs, you save one-half the usual cost of equipping yourself for business life, and give you a more thorough training than other business colleges can possibly give with their limited equipment and obsolete systems. Being widely and favorably known among business men everywhere we give you prestige and influence with your diploma.

Fill in coupon and mail to Tyler Commercial College, Tyler, Texas, for large, free catalogue.

PUPILS WIN PRIZES

Just before school closed last term the Procter & Gamble Company sent samples of their soap to be given to the pupils of the Central Grammar School. They also stated that they would give a prize of one dollar for the best essay written in each room, on the use of soap. The various rooms took advantage of this offer, and many themes were written which, I am sure, were worth while to the writers, even though they could not all win the prizes.

The winners in the contest were as follows:

- 6 A and B room—Nell Cariker.
- 6 C and D room—Mary Joe Baxter.
- 5 A and B room—Marion O. Newton
- 5 C and D room—Mary Russell.
- 5 E room—H. L. Muckleroy.
- 4 A and B room—Ethel Nichols.
- 4 C and D room—Webb Weaver.
- 4 E room—Frances Muller.
- 3 A and B room—Annie Louise Carnes.
- 2 A and B room—Charles Shindler, Jr.
- 2 C and D room—Mary V. Hartgreaves.

1st grade—Paul Sanders.

The above-named pupils may get their checks by calling at my office in the Central Grammar School Building between 9 a. m. and 4 p. m. any day this week.

H. H. HALL, Principal.

The building which we have occupied for many years has been sold and our lease expires on the first of January. We will have to give possession between this time and the 31st of December. We must close out our stock of goods and this is going to be to the benefit of those who need such goods as we carry.

If you will come in real soon you can get your pick out of a well assorted stock, but if you wait there will be lots of things we will have sold out of, and we are not buying fill-in goods. When we have disposed of any goods that will be the last of it.

The goods must go regardless. Take advantage of this sale and save money.

It-w C. W. Butt.

Rev. J. R. Nutt paid a fine of \$5 at the city hall yesterday for his second violation of the city traffic laws, it was announced by Chief of Police G. R. McNess this morning. The preacher paid cheerfully and smilingly, knowing and stating that the law is no respecter of persons. The parson paid a previous fine for his forgetting, it was announced. Possibly Rev. Nutt was busy rehearsing his pet phrase, "Pass the fried chicken." —Lufkin News, 4th.

Another record that ought to be smashed shortly is the "banana" piece of scarcity of help was ever heard on the talking machine next door. It is a great world. No such thing of before labor-saving machinery.

"The Dorsey Way" Life Insurance

With a successful management for over a decade. Sound indemnity for the entire family, the children, the young and middle aged and the elderly men and women at the least possible cost. Good Life Insurance protection ridged of all the extra frills, blow-outs, high salaried officers or over-head expense. Beware of inexperienced imitators who try to build up similar orders on the good reputation of the Dorsey Orders. See or write John B. Dorsey, Nacogdoches, Texas, whose entire time and attention is given to the upkeep and welfare of the Dorsey Orders. Room No. 2 upstairs over Kennedy Drug Store. We have openings all along in Orders that are worth \$1,000.00 the day you get it should you die. The uncertainty of life and the certainty of death prompt thoughtful men and women to procure Life Insurance. Get yours today. Next week might be too late.

USING RUSK COUNTY FOR COMPARISON.

Nacogdoches, Texas, Aug. 20, 1923 Hon. T. F. Teel, Co. Judge, Hardin County, Kountze, Texas.

Dear Judge Teel: Complying with your request for information about our Nacogdoches county road-building program, will state that we voted \$800,000 in bonds in May, 1919. Our first contract was let early in 1920.

It was almost or quite 12 months from the date of the election until the signing of the first contract. This delay was little understood by the general public and even by some good people who ought to have known the cost of haste in such an undertaking. Yielding to the constant pressure of public opinion, our court let one contract after another in rapid succession, with the result that our \$800,000 in bond money, together with \$425,000 in county warrants, has built only 73 miles of hard-surfaced roads. The \$200,000 warrant issue, drawing 7 per cent interest, has tied up our 15c road and bridge fund until 1922. This issue was made necessary in order to pay contracts made with bond money.

Rusk county joins Nacogdoches county on the north. She issued the same amount of bonds as we issued and received practically the same amount of state aid we received. Her bonds were voted at or about the same date ours were voted. But by taking plenty of time to make her contracts, and by refusing to be rushed into a big building program prematurely, Rusk county now has 143 miles of roads equal to, or even better than 73 miles, and Rusk county has not issued any deficiency warrants, as we have, but she has held in reserve a maintenance fund of \$75,000.

It ought to be said in this connection that there has not been even the scent or odor of graft in connection with our road-building program. We lost our money by the simple process of yielding to the pressure of well-meant but uninformed public opinion. To say that it has been a costly experience is putting it mildly, indeed. If our people had only exercised patience and allowed our court to move with the same caution and precaution the Rusk county authorities exercised, we, too, might have had 143 miles of graded roads instead of 73 miles.

Please understand that in all this I am not criticising or blaming anyone. I can easily understand the desire of the average road commissioner to do what his people want him to do.

Without assuming to even suggest or advise your court as to the proper policy to pursue, I can say that, in the opinion of nearly all our economists, we are facing an era of declining prices. And this era is not likely to be very brief, either.

Davy Crockett's slogan, "Be sure you are right, then go ahead," isn't bad when applied to road-construction.

If there is further information I can give you, please feel free to call on me.

Yours truly,
H. L. McKnight.

COMMISSIONER STRICKLAND DOING FINE WORK ON ROAD

Commissioner R. B. Strickland was a caller at the Chamber of Commerce office Thursday. Mr. Strickland reports good progress with roadwork in his precinct. He is using a caterpillar tractor and is able to move dirt at a less cost per yard than can be done with teams. At this writing Mr. Strickland has his machine on the Trawick-Flat Woods road, where he is doing some splendid work. This road, along with quite a number of other roads in that section of the county, has not had any attention from the county's forces in several years. The people living along this particular section of road have shown their appreciation of Mr. Strickland's efforts by setting back fences so the road could be properly shaped. Commissioner Strickland's plan is to build at least one important road through each community and then to work back over the territory, building other roads of less importance.

Since buying the "Caterpillar" tractor in June, Mr. Strickland has been able to get to and work many roads in his precinct that have been neglected for years. One of the splendid pieces of work done by Commissioner Strickland is the reshaping and regrading of the Mt. Enterprise highway. In this work he was assisted by the citizens living along this road. It is Mr. Strickland's intention to get back to the Mt. Enterprise road later this season and complete the work already begun there.

That great void in the lives of innumerable citizens just now is the non-appearance of the Congressional Record and Bryan's Campaign.

HAIR STAYS COMBED, GLOSSY

"Hair-Groom" Keeps Hair Combed—Well-Groomed

Millions Use It—Fine for Hair!—Not Sticky, Greasy or Smelly

Get a jar of "Hair-Groom" from any druggist for a few cents and make even stubborn, unruly or shampooed hair stay combed all day in any style you like.

TRIBUTE OF RESPECT

To the Worshipful Master, Wardens and Brethren of Milam Lodge, No. 2, A. F. & A. M.:

We, your committee appointed to prepare resolutions upon the death of Brother E. A. Robertson respectfully submit the following:

Whereas, on the 1st day of July, 1923, it pleased the Grand Master of the Universe to call the spirit of our brother, E. A. Robertson, from the scenes of labor to those of eternal refreshment, and we, his brethren, were called upon to usher his body upon the journey to the dust from whence it came; therefore, be it

Resolved, that Milam Lodge, No. 2, A. F. & A. M., while bowing in bereaved submission to the will of God, recognizes that we have lost a loyal and faithful brother who squared his life by the square of virtue; that his loved ones have lost a true and loving husband, brother and father, and his community an upright citizen; and be it further,

Resolved, That while we are cut off by untimely death from the association of our brother, we will grapple to our souls' "with hooks of steel" the memory of his virtuous life, and commend to his loved ones left behind the comforting recollection that his life was nobly lived, and the thought that we with whom he sat in silent lodge and mingled in the busy thoroughfares of life, do here and now resolve to emulate his virtues and keep afresh in our minds our thankfulness that he has lived amongst us; be it further,

Resolved, That a copy of these resolutions be spread upon the minutes of the lodge, and that a copy be furnished to the newspapers and a copy to the nearest relatives of our deceased brother.

A. T. Russell,
F. D. Huston,
J. Thomas Hall,
Committee.

was expected to smash windows and call out the fire department.

ASPIRIN Say "Bayer" and Insist!

Unless you see the name Bayer on package or on tablets you are not getting the genuine Bayer product prescribed by physicians for over twenty-two years and proved safe by millions for

Colds	Headache
Toothache	Lumbago
Earache	Rheumatism
Neuralgia	Pain, pain

Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trademark of Bayer manufacture of Monacopolis, Germany.

ARRANGING FOR HOMES FOR VISITING TEACHERS

Chairman Robt. Lindsey of the Entertainment Committee of the Chamber of Commerce called a meeting of his committee in the Chamber of Commerce rooms Friday to handle the matter of securing homes for the 700 teachers who will spend the week of September 10-14 attending the teachers institute.

This institute will embrace the teachers of Nacogdoches, Shelby, Angelina, Panola, Sabine, San Augustine and Trinity counties.

From the best information Dr. Birdwell has the seven counties will include more than 800 teachers and it is believed that 700 of these will want rooms and board for the week.

Those present at the committee meeting Friday were Robt. Lindsey, chairman; Giles Haltom, W. S. Davis, J. H. Buchanan, J. Roy Gray, A. W. Birdwell, J. Fred Feazell, T. Tilford and A. H. Goodson.

After discussing the situation in the light of past experiences, and in view of the fact that our own people were the first to fix the charges for room and board at \$1.00 per day for institute people, and in view of the fact that Center and Lufkin followed this example, it was the unanimous opinion of the committee that our people should fix a uniform charge of \$1.00 per day for room and board.

It is believed that most if not all the teachers will arrive on the noonday trains Sunday, September 9. An effort will be made to get as many as possible to reach here during the day Sunday.

Headquarters will be at the The Redland Hotel. All teachers will be expected to come to the Redland for registration and for assignment to boarding places.

Every available auto in the city will be needed Sunday to meet the trains and to carry teachers to the hotel and from there to their boarding places.

The following committees were named to canvass the city in the interest of homes for these visitors:

1. North Street, Star Avenue and Mound Street—Robt. Lindsey and T. Tilford.
2. Logansport, King, Park and Tucker streets—Roy Gray and Matt Tucker.
3. East Main, Walker Avenue, La Nana, Pilar and Hospital streets—Giles Haltom and W. S. Davis.
4. West Main, Lower and Upper Douglass roads, Sanders and Burke streets—French Murphey and Robt. Muckelroy.
5. All hotels and boarding houses—A. H. Goodson and Orland Patton.
6. Church, North and South Fredonia, Pecan, Bailey Avenue, Mims Avenue, Rusk and Houston streets—Holloway Muller and Bowden Cason.
7. South Church Street, Magnolia Street and all the territory embraced in "Fredonia Hill" and "Campbell Hill"—Clarence Westmoreland and Culberson Denman.
8. The Frost-Johnson Mill district—Fred Wilson and O. S. Johnson.

It is expected that each committee will do its work and make a written report to the secretary of the Chamber of Commerce Monday afternoon.

It is expected that every home in the city will be opened to care for our visiting teachers. To do so may cause a little inconvenience to some of our people, but the committee feels that every friend of the city and the college will respond freely.

Miss Vera Turner of Houston is here for a two-weeks' visit with relatives and numerous friends.

Mrs. Robert Wyerman of San Antonio is in the city for a visit with her sister, Mrs. J. D. Muckelroy, and other relatives.

Mrs. Bason Wells has returned from Mahi, where she had been for a visit with her mother, Mrs. Elizabeth Stanley.

Mr. and Mrs. A. C. Shattenberg, accompanied by Mrs. Ada Johnson and son, John Carter, were business visitors in Nacogdoches Saturday.

Mrs. J. R. Bell, Miss Nora, and Misses Lois Watkins, Ada Bell Thacker and Clara Martin shopped in Nacogdoches the last of the week.—Garrison News, 30th.

Lawrence Hunt and family who have been visiting Mrs. J. A. Kelly returned to their home in Nacogdoches the first of the week.—Garrison News, 30th.

Mrs. Bill Martin and children left Wednesday to visit relatives at Nacogdoches and Martinsville, and will visit her mother, Mrs. Pennie Fountain at San Augustine.—Woodville Optimist.

Dr. and Mrs. R. R. Henderson have moved into their newly remodeled and enlarged dwelling on Logansport street and now have one of the most comfortable and attractive homes in that section of the city.

Mr. G. S. Netherly and son, Othmar, of Milam, Sabine county, were callers at the Chamber of Commerce Friday. Young Mr. Netherly will likely enter college September 1.

Master Nelson and Miss Lillian Thomason left Friday night for Houston to join their mother, who has been visiting in that city and Galveston for six or seven weeks. Nelson goes to have the plaster cast removed from his crippled leg, which, under the miracle of modern surgery, has been made whole again.

Mrs. Gus Young and Misses Alaine and Dorothy Jopling accompanied Miss Mildred Young to Nacogdoches Tuesday.—Garrison News, 30th.

Mrs. W. B. Bates and baby, Emmogene, have returned to their home in Houston after an extended visit here with Mrs. Bates' parents, Mr. and Mrs. John B. Dorsey, and Mr. Bates' father and mother, Mr. and Mrs. J. M. Bates. The baby, who had been critically ill, has completely recovered.

Miss Dorothy Washburn on Friday resigned her position as stenographer and typist for the law firm of Seale & Denman and on Saturday moved, with the other members of the family, to Shreveport, where they will join Mr. Washburn and make their home. She was succeeded in her place with Seale & Denman by Miss Nan Wright, who takes on her duties like an old-timer.

The Orton Furniture Store and the Summers Furniture Company have completed the transfer of their respective stocks to their new locations, the last of the Orton stock being moved Saturday morning. The Summers store is now in the building formerly occupied by the Weeks Bottling Works, on the west side of Post-office Square, and the Orton store took over the quarters vacated by the former, on East Main. And Mr. Orton demonstrated the solidity of the new paving when he trundled his huge 6,000 pound safe over the street to his new location. Not a brick in the paving was thrown out of line or perceptibly sunk by the passage of this heavy weight. The paving is all right. And we hope both our friends may prosper in their new business homes.

Miss Gussie Spears of the State Bank & Trust Company will leave Saturday night to spend a brief vacation in Houston as the guest of her sister, Mrs. Kurtz Gaugler, formerly Miss Vera Spears.

Born—To Mr. and Mrs. Jesse B. Wilson on July 30th, at Kurokawa, Japan, a son.

When a Cow Needs a Friend

"Flies, Flies, Flies! These pesky beasts are driving me crazy! I'm all jumpy and hot and nervous. It's harder for me to make milk now than it was in winter and I don't get nearly as good feed."

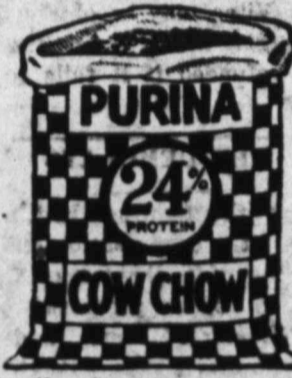

WOULD your cows say this if they could speak? Or do you give them a properly balanced ration that lets them make milk without robbing their bodies?

Purina Cow Chow

supplies the elements that are lacking in pasture. It furnishes the digestible protein and mineral matter that is absolutely necessary for continued milk production. Your own records will prove that it pays to feed Cow Chow on pasture.

Your cows need you for a friend—now. See that they are fed properly. It will show up in the pail.

Sold only in Checkerboard Bags by GOLDBERRY BROS., Distributors

Prof. Thos. E. Ferguson, head of the English department of the teachers' college, arrived Friday, accompanied by Mrs. Ferguson and little Miss Sarah, aged 6. Prof. and Mrs. Ferguson drove through the country from Mr. Ferguson's old home, Stephenville, where they have been spending a short vacation. Prof. Ferguson was formerly a member of the faculty of the San Marcos Teachers' College and later an instructor in the University of Texas. The Fergusons will occupy a new bungalow cottage now nearing completion on Logansport Street. We welcome these excellent people to our city, and hope their stay may be both pleasant and continuous. Prof. Ferguson, though yet a young man, has earned for himself an enviable place in the educational world.

Messrs. Leon and Owen Durham of California visited their brother, Rufus Durham, of this city Tuesday and Wednesday. They motored out to Martin King's and Tom Maroney's places and talked of days gone by, having lived on Mr. Maroney's place, with their father, A. C. Durham, several years ago. Both young men have won a place of high esteem in California by their honesty and noble character. Owen has a lucrative position with the California Oil Well Drilling Co., at Whittier, Calif. Leon will complete a course in electrical engineering in the University of California at Los Angeles the ensuing year. They returned to their father's home at Humble Thursday night and will go from there to Petaluma, Calif., to see their brother, Oscar, and family the latter part of the week. They will then go back to their work, much refreshed from their visit to dear old Texas.

Mr. and Mrs. A. H. Smith returned Friday night from a trip to Dallas, where Mr. Smith looked after business matters and Mrs. Smith made social visits.

NEFF FOR PRESIDENT

Tyler, Texas.—Declaring that if the people of Texas will get behind Pat Neff for President he can be elected, C. W. Osborne, formerly a resident of Pittsburg, Pa., and South Bend, Ind., said he had been traveling in the North and East for twenty-five years and knew the sentiment of the people of those sections, who want a real man for president.

"Governor Neff's speech in New York August 14, has caused more of a sensation there than in his own state. You remain passive while the columns of the northern papers hail him as a new find.

"I am having a rubber stamp made which reads, 'Governor Pat M. Neff of Texas for President in 1924,' and every letter I send will bear this message," said Mr. Osborne.

URGED TO CO-OPERATE WITH ENTERTAINMENT COMMITTEES

Elsewhere in this issue will be found a report of the meeting of the entertainment committee of the Chamber of Commerce held Friday morning to work out details of a canvass of the city for homes for teachers during the institute, September 10 to 14.

You are urged to read this report carefully and to co-operate heartily and cheerfully with the several committees named to make the canvass.

These committees are: 1. North St., Star Ave; Mound St.—Robt. Lindsey, T. Tilford. 2. King, Logansport, Park and Tucker streets—Roy Gray, Matt Tucker. 3. East Main, Walker Ave., La Nana, Pilar and Hospital streets—Giles Haltom, W. S. Davis. 4. Taylor Ave., Powers, Muller and Clark streets (Tyler road)—Jonah Bailey, Horace Wilson. 5. Cox and Weaver streets, Virginia Ave.—Robt. Muckelroy, Rho Cox. 6. South Church and Magnolia streets and Campbell and Fredonia hills—Clarence Westmoreland, Culberson Denman. 7. Frost-Johnson Mill district—Fred Wilson, O. S. Johnson. 8. West Main St. to city limits, Lower and Upper Douglass roads, Sanders and Burke streets—French Murphey, Robert Muckelroy. 9. Church, Fredonia (both north and south), Pecan, Bailey Ave., Houston St., Mims Ave., Rusk St.—T. B. Cason, Holloway Muller. 10. All hotels and boarding houses—A. H. Goodson, Orland Patton.

Please bear in mind that the time of each committee is as valuable as your own time, and that you can show your appreciation of the willingness of these men to do this work simply by calling up and stating your readiness to take these teachers.

H. L. McKnight.

On October 1st the Western Union telegraph office will be moved into the handsome Hayter building next door to its present location. This is in pursuance of the company's policy of housing its offices in the most convenient and attractive quarters obtainable. The Hayter building will make an ideal office for the Western Union, being one of the most tastefully finished structures in the city, and Manager Avey is much pleased with the prospect of the change. It isn't every telegraph office that can boast a marble front, but he has one.

A fine boy baby was born Wednesday night, August 29, to Mr. and Mrs. Albert Thomas. Being the first addition to the family, the happy parents hail the youngster's appearance with delight. May he grow up to be as good a man as his daddy.

In the year's routine it's about time Germany was collapsing again in the headlines.

STANDARD FOR 50 YEARS

WINTERSMITH'S CHILL TONIC

A Fine Tonic Builds You Up

Prevents and Relieves Malaria-Chills and Fever-Dengue

"Built Me Up"

"I USED Cardui for years and it did me more good than any medicine I ever used," writes Mrs. M. C. Ragsdale, of Fort Towson, Okla. "I used to suffer with womanly trouble that weakened me until I was a mere shadow, nervous, and could not sleep. I did not feel like I could live." "It seemed that nothing helped me till I heard of Cardui and began to use it. It

strengthened me and, as 'twas recommended to do, it regulated and built me up till I was like another woman."

If you are weak, run-down and feel that you need a tonic, take Cardui, the woman's tonic, the tonic about which you have always heard, the tonic that helps weak women regain their strength.

Cardui acts on the womanly system and helps relieve pain and discomfort due to female ailments.

Try Cardui, today, for your trouble.

CARDUI The Woman's Tonic

Mrs. J. C. Garrison of Houston and Mrs. Brown Riggs of Beaumont have been the pleasant guests of their sister, T. G. Vaught.

Mrs. Lee Hawkins leaves tonight for her home at Monroe, La., after a visit here with her mother, Mrs. J. R. Deckard.

666 cures Malaria, Chills and Fever, Dengue or Bilious Fever. It destroys the germs.

Ernest Andrews of Martinsville will enter the college when it opens September 18. Ernest is a son of Mrs. Lizib Grim of Center.

Mrs. V. L. Perry, accompanied by her son, Wilbur, left Thursday for Jacksonville, where she has accepted the position of dean of women in Alexander College.

Mrs. J. P. Smith of San Augustine was a visitor in the city Thursday. Dr. and Mrs. Payne of Camp Pershing were guests at the Redland Hotel Thursday night.

Miss Dolie Preuit, who had been here for a visit with the family of her sister, Mrs. William Calvert, left Saturday for her home at Big Spring.

Messrs. Homer Loden and Charlie Heitman motored to Jacksonville and return on Sunday. They report heavy rains in that section.

666 quickly relieves Constipation, Biliousness, Headaches, Colds and La Grippe.

Miss Elizabeth Tucker has returned from a stay of several months in New York and is receiving a genuine old-time welcome from her many friends here in her home town.

Mrs. E. S. Blount and children are in Houston for a visit of a couple of weeks with relatives and friends, and "E. S." is trying hard to make believe he doesn't get lonely.

Mrs. R. A. Koffelmeir (nee Miss Mary Weatherly) of Carlsbad, N. M., is here for a visit with Mr. and Mrs. I. L. Sturdevant and other relatives for a few days.

Mr. C. C. Burrus of Denning, San Augustine county, was here Monday looking into our college prospects. Mr. Burrus is anxious to enter when the college opens September 18th.

Deputy Game Warden At Pinkston of Tahaha was in the city Monday for the purpose of aiding the grand jury in fixing the blame for the numerous violations in this county of the game laws.

CATARRHAL DEAFNESS

is often caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing. Unless the inflammation can be reduced, your hearing may be destroyed forever.

HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh. HALL'S CATARRH MEDICINE has been successful in the treatment of Catarrh for over Forty Years.

Sold by all druggists. F. J. Cheney & Co., Toledo, O.

"Buffalo Bill, where do you get saddles and pads for your Rough Riders?"

From Waco, Texas, made by Tom Padgett Co.—Over fifty years in business—they don't hurt your horse.

(Padgett's ad has been carried in the Halcomb papers for over thirty years.)

LOOKS GOOD AT ETOILE

G. F. ("Bud") Partin of Etoile was transacting business here Thursday. Mr. Partin is a member of the firm of Partin & Morton, one of the leading stores of Etoile.

When asked about the conditions in the Republic of Etoile, Mr. Partin said: "About our cotton prospects, I might say that we expect to gather as many bales as we gathered last season, though you must understand that this is due to increased acreage rather than to increased yields. We expect a good fall business at Etoile. We have prepared for it by stocking up on the goods our people will need."

"Yes, we are still interested in that highway from Etoile to Nacogdoches, and in saying this I am not unmindful of the splendid piece of road-work Commissioner Stewart has just completed in our section. We wanted and needed the road from Etoile to Chireno, and we appreciate very much the liberal spirit shown by our Chireno friends in helping Mr. Stewart build a road to our little city. But this road cannot take the place of the highway we need to Nacogdoches. Our people are a unit in wanting a direct route to our county capital. We like to go to Chireno, but we must come to Nacogdoches. And we are going to live on hope if such a thing can sustain community life until Etoile and Nacogdoches are connected with a direct line of hard-surfaced highway."

Mr. Partin was a guest of the Good-Will Tourists on their trip through the eastern section of the county. He declares that it was one of the most enjoyable days of his life. Also, he insists that Etoile be included in the next itinerary of the tourists.

LAST DELINQUENT TAX NOTICE

This is positively the last notice to those owing back taxes for all years up to and including 1921.

Owing to the scarcity of money in the county, I've been patient, but cannot wait any longer.

See the tax collector and make settlement at once, as I'm not bluffing as to procedure after September 1st.

W. E. Thomson, County Delinquent Tax Attorney. 30-2d2w

Prof. John L. Koonce of Douglass and his brothers, Kenneth and James, together with a sister, Miss Florence, were callers at the chamber of commerce office Thursday. James and sister, Miss Florence, will likely enter the college in September. Kenneth Koonce will be a member of the faculty of the Cushing school for the coming term. The Koonce family is one of the best known in Rusk county. Prof. John L. Koonce has been at the head of the Douglass school for the past two years, where he made a splendid record as a teacher. It is from such families that the best educators in the state and nation come.

Mrs. Edwin G. Jenkins and little daughter, Elizabeth, have returned to their home at Bryan after a visit here with the former's parents, Mr. and Mrs. T. J. Lloyd. Mrs. Jenkins' sister, Miss Edith Lloyd, accompanied them and will make her home for the coming year at Bryan, where she will teach in the public schools under a 12-months' contract, her salary covering the entire year, though the school term will not continue so long. That arrangement, should, in justice, apply to every teacher in the state. Under the plan too largely in practice, a teacher, though actively employed for only a fraction of a year, is required to attend a normal school and county and district institutes, the cost of which in some cases depletes the salary to almost if not quite the vanishing point. This is not fair to the teacher. The state compels them to shoulder this extra expense, with the alternative of forfeiting their certificates if they fail to do so, and the state, being the beneficiary of the increased competency thus acquired, should bear the expense.

Mrs. Joe Rives of the Sulphur Springs community, Rusk county, was a caller at the Chamber of Commerce office Thursday. Mrs. Rives is remembered by many of our people as Miss Scrap Pate. Mrs. Rives was reared in the Black Jack community, this county. Mr. Rives has been a successful teacher for many years. He and Mrs. Rives are thinking of moving to Nacogdoches for the benefit of both our public school and the college. Mr. Rives will likely enter the college for advanced work.

Ed Weaver, colored, was arrested near Appleby Thursday by the sheriff's department on a charge of murder in connection with the killing of the negro, Elro Malone, at a church Sunday night. Weaver's brother was arrested the day following the killing on a charge of being concerned in the affair.

Ed Weaver, colored, was arrested near Appleby Thursday by the sheriff's department on a charge of murder in connection with the killing of the negro, Elro Malone, at a church Sunday night. Weaver's brother was arrested the day following the killing on a charge of being concerned in the affair.

NOTHING LIKE IT ON EARTH

The new treatment for torn flesh, cuts, wounds, sores or lacerations that is doing such wonderful work in flesh healing is the Borozone liquid and powder combination treatment. The liquid Borozone is a powerful antiseptic that purifies the wound of all poisons and infectious germs, while the Borozone powder is the great healer. There is nothing like it on earth for speed, safety and efficiency. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by SWIFT BROS. & SMITH

THE STATE OF TEXAS

To the Sheriff or any Constable of Nacogdoches County—Greeting: You are hereby commanded to summon R. E. Levers and Company by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the Second Judicial District; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to Nacogdoches, to appear at the regular term Justice Court of Precinct No. 1, of Nacogdoches county, Texas, to be holden at the Courthouse thereof in Nacogdoches, on the last Monday in September, 1923, the same being the 24th day of September, 1923, then and there to answer the suit of McLain-Adams Company, a partnership, doing business at Nacogdoches in Nacogdoches county, Texas, plaintiffs, against R. E. Levers & Company of Roswell, New Mexico, defendants, being No. 3854 on the docket of said court, plaintiffs, demand being for the sum of one hundred fifty-eight dollars due upon an account for overcharge on two hundred eighty-six bales of alfalfa hay, which plaintiffs bought of defendants on January 18th, 1923, and which overcharge was fifty cents per bale, being one hundred forty-three dollars overcharge on said hay, said hay being full of grass burrs and rotten, and not being worth more than the reasonable market value of fifty cents per bale less than plaintiffs paid therefor. Plaintiffs further allege that they have been forced to employ an attorney to bring this suit, and that they have agreed to pay him therefor the sum of fifteen dollars, which they allege is a reasonable and customary fee in said case.

Plaintiffs allege that said debt is just, due and unpaid, and although plaintiffs have often made demand upon defendants for said debt, they have as often failed and refused, and still refuse, to pay same to plaintiffs demand in the sum of \$158.00.

Herein fail not, but have before said court on the 24th day of September, A. D. 1923, this writ, with your return thereon, showing how you have executed the same.

Given under my hand, this 23rd day of August, A. D. 1923.

F. D. HUSTON, Justice of the Peace, Precinct No. 1, Nacogdoches County, Texas. 25d-Aug. 25-30-Sep. 6-13

ROBERT EMORY

Mr. Robert Emory died Thursday morning at his home in Shreveport after a long illness. Deceased was a brother-in-law of Mrs. Hollis Mast of this city, having married her sister, Miss Emma Wilson, once a resident of Nacogdoches.

The little son of the dead man was visiting Mrs. Mast at the time of his father's passing, and as soon as the relatives were notified, she, in company with Travis Mast, left with the child for Shreveport, going by auto.

It was learned the funeral would be held Friday.

Watkins Products.

I am still located on the southwest corner of the square in the old Ice Cream Factory bldg., 3rd door from Casley's Studio, and am ready to take care of your fall business. Have a full line of Watkins Remedies, toilet goods, extracts, spices and notions.

Hattie L. Bogan. Nacogdoches, Texas. 23-w-1f

HORSES AND MULES

I have an extra good carload of young mules and horses, weighing from 800 to 1250 pounds. If in the market for any of these be sure and see them before you buy.

G. E. PARMLEY. 9-w-1f.

LOST—On North street, three bundles containing mostly children's clothing. Liberal reward for return to the Sentinel. Lummie Baker, Melbourne. 29-1d-w1

ESTRAYS.—I will pay a liberal reward for the return or information of our dark bay mare, branded circle U bar on left shoulder, weighs about 800 pounds. A. H. McNeil, Rt. 5, Nacogdoches. 25-2d-w1f

Mr. and Mrs. Tom Floyd changed residences Friday, taking possession of the old Loden home on Houston street, which they recently purchased. Their neat cottage on Irion Hill has not yet been disposed of.

STOP THAT ITCHING

Use Blue Star Remedy for Eczema, Itch, Tetter or Cracked Hands, Ring Worms, Chapped Face, Poison Oak, Sunburns, Old Sores or Sores on Children. It relieves all forms of Sore Feet. For sale by SWIFT BROS. & SMITH

Miss Margaret Beeson left Thursday for Mexia, where she is instructing a class in dancing. Miss Margaret has met with unqualified success in this work, and, of course, will give satisfaction in the famous oil town.

Miss Ella Carraway of Houston is in the city, the guest of Mrs. W. T. Orton. Nacogdoches was once Miss Carraway's home, and many here always welcome her visits. She will go from here to Mineola to visit her brother, Henry Carraway, editor of the Monitor of that city.

Mrs. Walter Muckleroy of Trinity is here for a visit with her father, Rev. H. M. Hutson, who has been helplessly ill for the past three years. The many friends of this good man and earnest Christian will sympathize with him in the affliction which has befallen him.

Mrs. Harmon Whittington of Houston is here for a visit with the family of Sheriff T. G. Vaught. Mrs. Whittington will be remembered as Miss Corinne Garrison, and has many friends in this section who are always glad to see her.

Miss Jewel Norwood left Thursday for Birmingham, Ala., where she will teach in the public schools the coming term. Miss Jewel is one of the most capable of Nacogdoches county's young teachers, and it is confidently predicted that she will meet with entire success in her new field.

Messrs. F. G. and J. B. Rogers, brothers, and Mr. R. M. Smith, all of Weirgate, Newton county, were here Monday looking for rent houses or boarding houses in order to patronize our college. The Rogers boys have been attending the Newton High School. They are splendid examples of the ambitious country boy who seeks to go higher.

Rev. R. B. Berry is in the city, accompanied by the little two and a half year old boy, L. H. Woodyard, who fell into and remained in a well for an hour. The kiddie looks hale and hearty and appears to be none the worse for his perilous experience. He has been nicknamed "Well Digger", which probably will cling to him for life. The little fellow had a remarkable escape, and that he did escape is the main thing.

Mr. A. C. Weatherly and daughter, Miss Winner, of Garrison, and Mr. R. O. Treadaway and daughter, Miss Bertha Mae, of Sacul, were callers at the chamber of commerce office Thursday. Miss Weatherly and Miss Treadaway are cousins and will enter the college together. Both these young ladies are high school graduates and belong to that class of promising young women who will develop under training into teachers of the highest class.

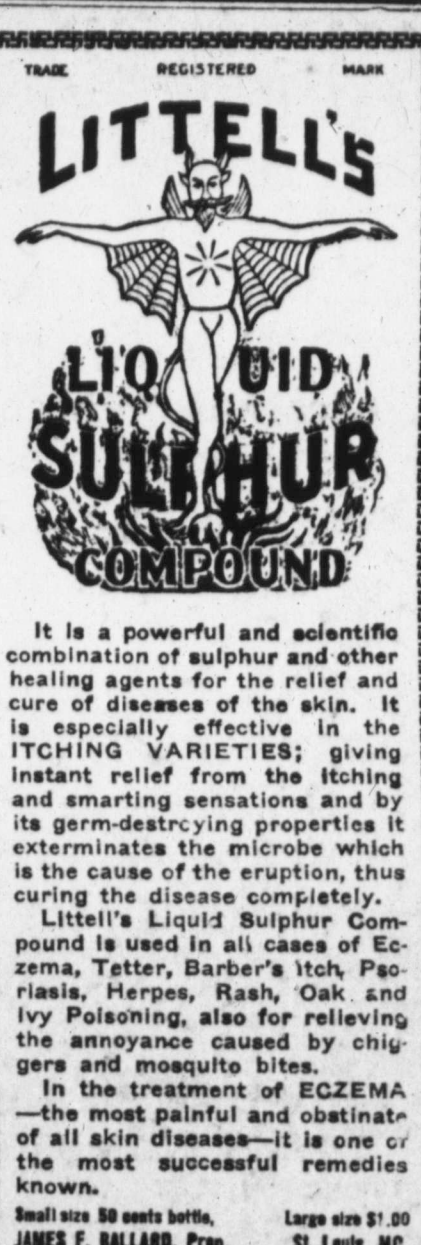

Miss Edna Matthews of Fort Worth will arrive the last of the week to take up her duties as teacher of Spanish in the high school the coming term and will make her home with her sister, Mrs. W. D. Ambrose. Miss Matthews is a graduate of Carl Venth of the Texas Women's College at Fort Worth, one of the famous music teachers in the country. She is an accomplished musician, and her presence here will be hailed with delight by the musical contingent of the city.

Miss Alva B. Sitton of Trawick, accompanied by her father, Mr. Will Sitton, was a pleasant caller at the Chamber of Commerce office Monday. Miss Sitton is one of our successful rural teachers, having taught last year at Alamogordo, N. M., and the year previous in one of the strong rural schools of Cherokee county. Miss Sitton will enter the college when it opens September 18th. Also, she will bring three or four other students from her home community, near Trawick.

MRS. M. E. L. STERLING

Mrs. Mary E. Lockhart Sterling, 86 years old, died early Friday morning at the home of daughter, Mrs. H. C. Covington, on South Church street. Deceased was stricken with paralysis some time ago, and from this stroke she never rallied.

Alfred Weaver, the 18-year-old negro boy arrested in connection with the killing of Elro Malone, colored, at a church Sunday night, had a preliminary hearing before Justice of the Peace J. R. Frederick of Appleby on Tuesday and was released on \$500 bond, which he readily made.

It is a powerful and scientific combination of sulphur and other healing agents for the relief and cure of diseases of the skin. It is especially effective in the ITCHING VARIETIES; giving instant relief from the itching and smarting sensations and by its germ-destroying properties it exterminates the microbe which is the cause of the eruption, thus curing the disease completely.

Littell's Liquid Sulphur Compound is used in all cases of Eczema, Tetter, Barber's Itch, Psoriasis, Herpes, Rash, Oak and Ivy Poisoning, also for relieving the annoyance caused by chiggers and mosquito bites.

In the treatment of ECZEMA—the most painful and obstinate of all skin diseases—it is one of the most successful remedies known.

ABOUT BLAKE

The cream supper on the school
campus Friday night, August 31st,
cannot be estimated other than an es-
sential success.

Mr. Earl Reid called the audience
to attention and introduced Secretary
H. L. McKnight, who after a few pre-
liminary remarks and the singing of
a few songs, introduced Prof. A. W.
Birdwell, who gave an interesting, en-
thusiastic and profitable address that
will be treasured by all considerate
listeners.

Miss Lewis made a very short talk
on school work in general, giving a
few hints on late school legislation,
after which the audience was dismissed
to partake of the bountiful portion
of cream and cake.

There were 18 cakes baked and do-
nated by the ladies of Blake school
district, 25 gallons of cream were sold
and several people were not served at
all, which is some evidence of the
size of the crowd in attendance.

Miss Georgia Strahan won the prize
cake as the most industrious lady
present and Mr. Bruce Lanier won the
prize as the laziest man.

Only \$17.53 was realized as clear
profit but there was a value attached
that can not be estimated in dollars
and cents and one of which any teach-
er should feel encouraged.

We must again thank each and ev-
ery one who, in any way, assisted in
the progress of the cream supper, es-
pecially must we make mention of the
speakers, musicians and waiters.

Since our last report we learn
that we have ten scholastics trans-
ferred into the Blake district, which
is another encouraging fact.

Reporter.

OBITUARY

Mrs. Mary E. Lockhart Sterling,
who passed away Friday, August 31,
at the home of her daughter, Mrs. H.
C. Covington, was born in Alabama in
1842. She came with her parents to
Texas in 1850, passing through Nac-
ogdoches 73 years ago. In 1860 she
was married to James M. Sterling,
who fell asleep in Jesus 35 years ago.

Mrs. Sterling is survived by one
son, James M. Sterling, and one
daughter, Mrs. H. C. Covington, and
a number of grandchildren and great-
grandchildren, who, though they
mourn her loss and sadly miss her
dear, loving presence, mourn not as
those who have no hope, for she had
given them a blessed assurance that
she had fallen asleep in Jesus, there
sweetly resting, awaiting the resur-
rection.

Glory to Jesus, in His resurrection
we shall rise. In her early youth she
consecrated her heart to God and has
ever lived a devoted and faithful
Christian, faithfully doing the work
of the Master. She was a loyal, loving
wife and devoted, self-sacrificing
mother.

Among her grandchildren are four
orphans whom she tenderly reared as
her own, they having been made or-
phan at an early age. They devotedly
loved and mourn for her as an own
mother. They are Mrs. E. T. Hand of
Nacogdoches, Mrs. L. A. Whitton of
Chireno, Mrs. Virgil Segrest of Wood-
ville. Another who sadly mourns the
passing of this dear old grandmother
is her loving and devoted little grand-
daughter, Evangeline Covington, at
whose parents' home she had resided
for many years.

The beautiful and impressive fune-
ral service was conducted by Bro.
Grimes.

The pallbearers were Messrs. Fred
Wilson, Ike Futch, William Hall, Scott
Chadwick, Belton Reid and C. C.
Pierce.

Mrs. Sterling's life's work and re-
ligious creed are best told in a poem,
which is her own composition, and
which was impressively read by Bro.
Grimes at the funeral. (This poem will
appear in the Sentinel at the earliest
available date.)

At the Kennedy corner Tuesday
night Judge Frank Huston was struck
and knocked down by a car driven
by Jack Burrows and had a narrow
escape from serious injury. Judge
Huston was crossing Pecan street,
when young Burrows came out of
the drug store, entered the car and
backed it into Main, not noticing if
anyone was crossing. The judge's
clothing was rather badly torn, but
fortunately he was scarcely injured.
Mr. Burrows jumped from the car
when he found he had struck a man
and hurried to Judge Huston's assist-
ance. The lesson taught by this inci-
dent is: Look where you are going.
It is not fair to place the entire bur-
den of caution upon others.

WAGONS

Well, that car of wagons has finally
gotten here.

They are the kind that run lighter
and last longer.

Have any size from 2½ to 3¼, also any
height wheels

We are holding these at the old prices
and believe we can save you some
money on your wagon.

Come in and let us show you these
wagons and talk it over with you.

If you have an old one we will trade
with you.

Tucker-Sitton Hardware Co.

Miss Jessie Burgess spent last
week visiting with friends in Cushing.

Mrs. E. B. Fowler and son, Wilmer,
were in the city Monday shopping.

Mrs. Eli Gann and children of Luf-
kin were visiting in the city Monday,
guests of Mrs. Ed Bartlett.

Mrs. R. E. Booth, wife of our ef-
ficient chief deputy sheriff, is still
quite ill, the Sentinel regrets to note.
All hope for her early recovery.

Mr. Littleton Smith left Saturday
night for Texarkana, where he will
teach in the public schools the coming
term.

Mr. and Mrs. Ed Bartlett were called
to Marshall Saturday night on ac-
count of the death of Mr. Bartlett's
mother, Mrs. A. L. Bartlett.

Miss Jennie June Harris, who came
up Friday night for a visit with home
folks, left Monday night to resume
her duties in Houston.

Mrs. Mary Sinnott, formerly of
Nacogdoches county, was married
Sunday afternoon at Newton to Judge
Woods of that place.

Mr. W. B. Harding, who has been
visiting his son at Port Arthur, has
returned to Nacogdoches for an in-
definite stay.

Judge J. E. Hill of Livingston was
a caller at the chamber of commerce
office Monday. Judge Hill will enter
his daughter, Miss Effie, in the col-
lege on September 18th.

Deputy County Clerk Ralph Bailey
is enjoying a week's vacation from
his arduous duties and is spending it
in "fixing up" things around his
home.

Mr. E. T. Tolson of Howe has been
added to the sales force at Brewer
& Mintz's. We are glad to welcome
him as one of our permanent resi-
dents.

Navarro B. Cox of Nacogdoches,
but formerly of Lufkin, was in this
city yesterday greeting friends and
doing a little boosting for his home
city.—Lufkin News, 4th.

Miss Junie James has returned
from Beaumont, where she visited for
some time with her sister, Mrs. Cates
Roberts, and has resumed her work as
ticket seller for the picture shows,
being transferred from the Palace to
the Grand.

Mr. F. S. Aikman and party, con-
sisting of Mrs. J. W. Kennedy and
Miss Mary Ann and Edwin McKin-
ney, have returned from a long trip
through the Northwestern states and
the Canadian Rockies, going as far
as Banff. They enjoyed their outing
immensely, saw many wonderful
things and were greatly benefited
in every way.

Rosh Hashana, the Jewish New
Year, falls upon next Monday, Sep-
tember 10, and in the Jewish calendar
will mark the 5684th anniversary of
the creation of the world. It will be
fittingly observed by the Jewish peo-
ple in every land. There will be
solemn and impressive ceremonies in
all synagogues. Ten days later comes
the Day of Atonement, the most im-
portant of all Jewish church days.

Messrs. A. H. and M. T. Boyd were
visitors here today. A. H. Boyd is a
student in the law department of the
state university. M. T. is connected
with the Gulf Refining Company of
Port Arthur.

Mr. E. S. Blount, accompanied by
Miss Lilla Wilson, motored to San
Augustine Sunday and brought home
his daughters, Misses Louise and Lo-
rine, who had been visiting relatives
a couple of weeks. Miss Exa Belle
Sublett of San Benito came with them
and will visit for a while, before go-
ing to Houston. Her mother, Mrs.
Frank Sublett, arrived Monday from
San Augustine and is visiting with
Mrs. J. D. Ellington.

The Fidelis and Berean classes of
the Baptist Sunday-school are engag-
ed in a new membership contest which
is bringing out the enthusiastic ef-
forts of the members. On last
Sunday the Fidelis class had 49 pres-
ent, a gain of 20 per cent in mem-
bership. The class will have a
"tacky" party Friday night at the
home of Mr. and Mrs. Sam Stripling,
beginning at 8 o'clock, and a great
time is anticipated. We were unable
to secure a report from the Bereans.

Residents on the Spanish Bluff
road, near the city, complain of the
practice indulged in by some town
residents of driving out and dumping
empty cans, etc., in front of their
homes. This is a nuisance which
should be promptly abated. There is
a city dumping ground where all
trash and dry garbage should be
placed. Those informing the Sentinel
of the unwarranted practice asked us
to request that it be stopped. It is
hoped a second warning will not be
necessary.

Ed Weaver, colored, charged with
murder in connection with the killing
of Elro Malone, another negro,
near Appleby on the night of Sunday,
August 26th, had a preliminary hear-
ing before County Judge A. T. Russell
Saturday afternoon and was held
without bail to await the action of
the grand jury.

METEOROLOGICAL REPORT

The climatic conditions for August,
1923, as recorded at the Texas Agri-
cultural Substation at Nacogdoches,
are as follows.

Mean maximum temperature, 94.774
degrees.
Mean minimum temperature 71.161
degrees.
Mean temperature, 82.967 degrees.
Absolute maximum temperature,
101 degrees.
Absolute minimum temperature, 59
degrees.
Humidity, 81.548 percent.
Precipitation, 1.71 inches.
Evaporation of soil moisture, 6.035
inches.
Run of wind for the month, 1727
miles.
Average daily wind 55.709 miles.
GEO. T. McNESS,
Superintendent.

CARD OF THANKS

Through the columns of the Sen-
tinel we wish to gratefully thank the
kind friends who so faithfully assist-
ed us during the recent illness and
death of our mother. May the richest
blessings of God rest upon you, dear
friends.

Mr. and Mrs. H. C. Covington,
Mrs. L. A. Whitton,
Mrs. E. T. Hand.

Harland Dickey of the "Central
High" school community, 5 miles
northeast of Alto, will enter college
here on the 18th. His father, Hugh
Dickey, was here Monday looking for
a location for the family, which con-
sists of Mr. and Mrs. Dickey and
three sons, aged 21, 15 and 4. Hugh
Dickey is a grandson of Uncle Billie
Martin, who was one of the finest
old pioneer souls that ever helped civ-
ilize any country. Uncle Billie passed
to his final reward many years
ago, but the Sentinel reporter remem-
bers him with keen appreciation and
profound love and respect. If the
great-grandson, Harland Dickey, is a
"chip off the old block" he will be
heard from not only by the student
body of the college, but by the county
at large.

GIBSON-DICKINSON

Miss Myrta Dickinson of Nacogdo-
ches and Mr. C. B. Gibson of Beau-
mont were married in Melrose Sun-
day evening before the preaching
hour, Bro. Garrard performing the
marriage ceremony.

Miss Myrta is a young lady of
sterling worth and has many friends
who wish her every happiness. Mr.
Gibson is an engineer on the T. & N.
O., is a splendid young man and ad-
mired by all who know him.

They left Monday afternoon for
Beaumont, their future home, and
have the good wishes of all their
friends.

A Friend.

Invite us to your next blow-out.
